Communication networks, layered network architectures, applications, network programming interfaces (e.g., sockets), transport, congestion, routing, data link protocols, local area networks, emerging high-speed networks, multimedia networks, network security, Internet protocol; technology examples. Prerequisites: 057:017 (ENGR:2730). Corequisites: 22S:039 (STAT:2020).

055:150 (ECE:5500) Communication Theory 3 s.h.

Random processes, source coding, digital transmission at baseband, optimum receiver design for Gaussian noise, error probability and power spectrum analysis, signal design for bandlimited channels, digital carrier modulation, bandwidth/energy/error probability tradeoffs, coding for error detection and correction. Prerequisites: 055:050 (ECE:3500).

055:152 (ECE:5520) Introduction to Information and Coding Theories 3 s.h.

Quantitative measure of information; source encoding; error detecting codes; block and convolutional codes, design of hardware and software implementations; Viterbi decoding. Prerequisites: 055:050 (ECE:3500).

055:153 (ECE:5530) Wireless Sensor Networks 3 s.h.

Wireless sensor networks overview; antennas, radio propagation models; WSN power and energy considerations, engineering issues, batteries, networks layers, stacks; medium access control (MAC); spread spectrum, FHSS, CDMA; infrastructure establishment; WSN routing; localization; synchronization; sensors; RFID; WSN case studies; lab. Prerequisites: 055:050 (ECE:3500). Requirements: senior standing.

Controls**055:060 (ECE:3600) Control Systems** 3 s.h.

Fundamental concepts of linear feedback control, mathematical modeling, transfer functions, system response, feedback effects, stability, root-locus and frequency response analysis and design, compensation, lab arranged. Prerequisites: 055:040 (ECE:2400).

055:160 (ECE:5600) Control Theory 3 s.h.

State space approach; controllability, observability, canonical forms, Luenberger observers, feedback control via pole placement, stability, minimal realization and optimal control. Prerequisites: 055:060 (ECE:3600). Same as 058:133 (ME:5360).

055:162 (ECE:5430) Electric Drive Systems 3 s.h.

Basic characteristics of DC and AC electric motors and their associated power electronics interfaces; applications of electric machines and drives that are essential for wind turbines, electric and hybrid-electric; emphasis on vehicles; electric machines in context of overall drives and associated applications; space-vector theory used to analyze electric machines and drives; DC motor/generator characteristics and control; AC single phase and three-phase motor characteristics and feedback control, including AC synchronous and induction motors. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:163 (ECE:5630) Sustainable Energy Conversion 3 s.h.

Overview of sustainable energy conversion technologies; thermal energy conversion; Carnot and Rankine cycles; solar resource and raw energy availability, PV solar cell characteristics, solar panel construction, Maximum Power Point (MPP) tracking and utility grid interface; wind energy conversion resource and available energy, wind turbine configurations, electrical power interface electronics; ocean energy conversion tidal and wave resources and conversion technologies; tidal basin containment conversion and tidal current turbine systems. Prerequisites: 029:081 (PHYS:1611) and 059:008 (ENGR:2120). Requirements: junior standing.

055:164 (ECE:5640) Computer-Based Control Systems 3 s.h.

Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 058:134 (ME:5362).

Waves and Materials**055:070 (ECE:3700) Electromagnetic Theory** 3 s.h.

Electric and magnetic forces, Maxwell's equations, wave propagation; applications, including radiation, transmission lines, circuit theory. Prerequisites: 22M:037 (MATH:3550) and 029:082 (PHYS:1612).

055:072 (ECE:3720) Electrical Engineering Materials and Devices 3 s.h.

Fundamentals of semiconductor physics and devices; principles of the p-n junction diode, bipolar transistor, field effect transistor. Prerequisites: 029:082 (PHYS:1612) and 055:041 (ECE:3410).

055:170 (ECE:5700) Advanced Electromagnetic Theory 3 s.h.

Time varying fields; plane wave propagation, reflection, refraction; waves in anisotropic media transmission lines, impedance matching, Smith chart; metallic and dielectric wave guides; resonators; antennas, antenna arrays. Prerequisites: 055:070 (ECE:3700).

055:172 (ECE:5720) Solid State Physical Electronics 3 s.h.

Advanced topics in semiconductor physics and devices; elementary concepts in quantum and statistical mechanics, diodes, bipolar transistor, field-effect transistor. Prerequisites: 055:072 (ECE:3720).

055:173 (ECE:4728) Introductory Solid State Physics 3 s.h.

Phenomena associated with solid state; classification of solids and crystal structures, electronic and vibrational properties in solids; thermal, optical, magnetic, dielectric properties of solids. Prerequisites: 029:140 (PHYS:3741) and 22M:028 (MATH:2850). Same as 029:193 (PHYS:4728).

055:177 (ECE:4720) Introductory Optics 3 s.h.

Geometrical and physical optics; interference; diffraction; polarization; microscopic origins of macroscopic optical properties of matter; optical activity; electro-optical, magneto-optical, acousto-optical phenomena; spontaneous Brillouin, Raman, Rayleigh scattering. Prerequisites: 029:130 (PHYS:3812). Same as 029:180 (PHYS:4720).

055:178 (ECE:5780) Optical Signal Processing 3 s.h.

Linear systems description of optical propagation; diffraction and angular plane wave spectrum; lenses as Fourier transformers, lens configurations as generalized optical processors; lasers, coherence, spatial frequency analysis; holography; convolvers, correlators, matched filters; synthetic aperture radar; optical computing. Requirements: for 055:178 (ECE:5780) — 055:070 (ECE:3700); for 029:184 (PHYS:4820) — 029:130 (PHYS:3812). Same as 029:184 (PHYS:4820).

055:179 (ECE:5790) Electro-Optics 3 s.h.

Wave equation solutions; optical birefringence; finite beam propagation in free space, dielectric waveguides and fibers; optical resonators; nonlinear phenomena; electro-optic, acousto-optic modulation; optical detection, noise; application to communication systems. Requirements: for 055:179 (ECE:5790) — 055:070 (ECE:3700); for 029:182 (PHYS:4726) — 029:130 (PHYS:3812). Same as 029:182 (PHYS:4726).

055:273 (ECE:7720) Semiconductor Physics 3 s.h.

Electronic, optical, and materials properties of semiconductors. Prerequisites: 029:193 (PHYS:4728) and 029:246 (PHYS:5742). Same as 029:229 (PHYS:7720).

055:274 (ECE:6726) Laser Principles 3 s.h.

Laser theory, stimulated emission, dispersion theory, broadening mechanisms, rate equations, gain saturation, optical resonators, mode-locking, Q-switching techniques, survey of laser types, modes of operation. Requirements: for 029:224 (PHYS:6726) — 029:130 (PHYS:3812); for 055:274 (ECE:6726) — 055:170 (ECE:5700). Same as 029:224 (PHYS:6726).

055:276 (ECE:6720) Nonlinear Optics 3 s.h.

Classical treatment of second- and third-order optical nonlinearities; phase matching, harmonic generation, three- and four-wave mixing, self-focusing, self-phase modulation, stimulated scattering of light, applications. Requirements: for 029:222 (PHYS:6720) — 029:130 (PHYS:3812); for 055:276 (ECE:6720) — 029:130 (PHYS:3812) or 055:170 (ECE:5700). Same as 029:222 (PHYS:6720).

Graduate Seminars, Advanced Topics, Research**055:191 (ECE:5000) Graduate Seminar: Electrical and Computer Engineering** 0 s.h.

Presentation and discussion of recent advances and research in electrical and computer engineering by guest lecturers, faculty, students. Requirements: graduate standing.

055:195 (ECE:5995) Contemporary Topics in Electrical and Computer Engineering arr.

New topics or areas of study not offered in other electrical and computer engineering courses; based on faculty/student interest; not available for individual study. Requirements: senior standing.

055:198 (ECE:5998) Individual Investigations: Electrical and Computer Engineering arr.

Individual projects for electrical and computer engineering graduate students; laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

055:199 (ECE:5999) Research: Electrical and Computer Engineering M.S. Thesis arr.

Experimental and/or analytical investigation of approved topic for partial fulfillment of requirements for M.S. degree with thesis in electrical and computer engineering. Requirements: graduate standing.

055:291 (ECE:7930) Seminar: Plasma Physics arr.

Current research. Same as 029:261 (PHYS:7930).

055:295 (ECE:7995) Advanced Topics in Electrical and Computer Engineering arr.

Discussion of current literature in electrical and computer engineering.

055:299 (ECE:7999) Research: Electrical and Computer Engineering Ph.D. Thesis arr.

Experimental and/or analytical investigation of approved topic for partial fulfillment of requirements for Ph.D. in electrical and computer engineering.

Mechanical and Industrial Engineering

Chair

Andrew Kusiak

Professors

Karim Abdel-Malek, Kurt M. Anstreicher, Jasbir S. Arora, Christoph Beckermann, T.D. Brown, P. Barry Butler, Krishnan B. Chandran, Kyung K. Choi, J.A. Goree, Andrew Kusiak, Ching-Long Lin, Peter O'Grady, Sharif Rahman, K. Rim, Matthew Rizzo, Ralph I. Stephens, Frederick Stern, H.S. Udaykumar

Professors emeriti

James G. Andrews, Dennis L. Bricker, Lea-Der Chen, Gary W. Fischer, Edward J. Haug, Robert G. Hering, George M. Lance, John M. Liittschwager, Donald H. Madsen, Virendra C. Patel, J. Richard Simon, Theodore F. Smith, H.C. Wu

Associate professors

Pablo Carrica, Yong Chen, Pavlo Krokhmal, Jia Lu, Albert Ratner, Thomas Schnell, Hiroyuki Sugiyama, Geb W. Thomas, Shaoping Xiao

Assistant professors

James Buchholz, Hongtao Ding, Ibrahim Ozbolat, Olesya Zhupanska

Undergraduate majors: industrial engineering (B.S.E.); mechanical engineering (B.S.E.)

Graduate degrees: M.S. in industrial engineering; Ph.D. in industrial engineering; M.S. in mechanical engineering; Ph.D. in mechanical engineering

Web site: <http://www.mie.engineering.uiowa.edu/>

The Department of Mechanical and Industrial Engineering offers distinct undergraduate and graduate degrees and research programs in industrial engineering and in mechanical engineering.

INDUSTRIAL ENGINEERING

Industrial engineering is concerned with analysis, design, and implementation of systems through optimal use of resources—human, material, energy, information, and financial. Systems may range from small units to extremely large operations. In order to accomplish these activities, the industrial engineer must be skilled in mathematics, physical sciences, management, and human relations as well as manufacturing, computer systems, economics, optimization, human behavior, and systems analysis and design.

Industrial engineers have many opportunities for employment and service in industrial, government, research, and public service organizations. Employment opportunities are among the most varied in the engineering field. Industrial engineers hold positions as advisors to management or may participate directly in management decisions. Representative job titles include industrial engineer, manufacturing engineer, systems analyst, quality specialist, operations research analyst, internal consultant, human factors specialist, supervisor, and manager. Industrial engineers are employed by manufacturing and energy firms, wind turbine manufacturers, government agencies, and service organizations such as airlines, banks, hospitals, health care groups, and consulting companies.

MECHANICAL ENGINEERING

Mechanical engineering is broadly concerned with energy, manufacturing, and design of machines. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of a wide variety of devices, machines, and systems—including complex human-machine systems—for energy conversion, biofuel production, environmental control, materials processing, transportation, materials handling, and other purposes. Major subspecialties of mechanical engineering include thermal-fluids engineering and mechanical systems engineering.

Thermal-fluid phenomena occur in many engineering systems and devices, such as aircraft; automobiles; off-road vehicles; ships; gas turbines; heat exchangers; material processes; heating, ventilating, air-conditioning, and refrigerating systems; hydraulic and wind turbines; airbag inflators; fuel cells; biofuel processes; environmental control devices; and biomedical systems.

Machines and mechanical systems and machines are the foundations of human technology. Mechanical systems are found in mechanical engineering systems and devices such as manufacturing equipment, medical equipment, ground vehicles, heavy equipment, farm equipment, aircraft, ships, home appliances, packaging machinery, wind turbine blades and gearboxes, robots, and biomedical systems.

Mechanical engineers find a wide variety of career opportunities in industry, government, and education. Mechanical engineers form an integral part of most industries, including aerospace firms, energy companies, automobile manufacturers, health care providers, food- and metal-processing industries, petroleum refineries, electronic and computer manufacturers, heavy construction and agricultural vehicle manufacturers, wind turbine manufacturers, thermal comfort equipment firms, farm equipment firms, and consulting companies.

Undergraduate Programs

- Major in industrial engineering (Bachelor of Science in Engineering)
- Major in mechanical engineering (Bachelor of Science in Engineering)

INDUSTRIAL ENGINEERING

The objective of the B.S.E. program in industrial engineering is to produce graduates who:

- have a strong foundation of mathematical, scientific, and technical knowledge and are equipped with skills in problem solving, teamwork, and communication that will serve them throughout their careers;
- are able to pursue successful careers as practicing industrial engineers in manufacturing industries, medical institutions, and engineering consulting firms;
- are able to successfully pursue advanced studies in industrial engineering; in other engineering disciplines; or in diverse nontechnical fields such as medicine, law, or business; and
- are able to assume professional leadership roles.

MECHANICAL ENGINEERING

The objective of the B.S.E. program in mechanical engineering is to produce graduates who:

- have a strong foundation of knowledge in mathematics, science, and mechanical engineering and are equipped with skills in problem solving, design, teamwork, and communication that will serve them throughout their careers;
- are able to pursue successful careers as practicing mechanical engineers in manufacturing industries, energy and utility companies, and engineering consulting firms;
- are able to successfully pursue advanced studies in mechanical engineering; in related technical areas such as physics, applied mathematics, and other engineering disciplines; and in other professional fields; and
- are able to assume professional leadership roles.

B.S.E.: Industrial Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in industrial engineering requires a strong foundation of courses in engineering science, mathematics, design, manufacturing, social science, and humanities.

Advanced work includes specialty courses in human factors and ergonomics, management, information systems, manufacturing, quality control, and operations research. Design is an integral part of the undergraduate program; all students complete a comprehensive design experience.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Students must select elective focus area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See "Elective Focus Area" after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the industrial engineering major. Some courses in the curriculum are prerequisites for others. Students must complete a course's prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FIRST YEAR

First Semester

004:011 (CHEM:1110) Principles of Chemistry I	4 s.h.
010:003 (RHET:1030) Rhetoric	4 s.h.
22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus	4 s.h.
059:005 (ENGR:1100) Engineering Problem Solving I	3 s.h.
059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree)	1 s.h.

Second Semester

22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus	4 s.h.
22M:033 (MATH:2550) Engineering Mathematics III: Matrix Algebra	2 s.h.
029:081 (PHYS:1611) Introductory Physics I	4 s.h.
059:006 (ENGR:1300) Engineering Problem Solving II	3 s.h.
General education component course	3 s.h.

SECOND YEAR

First Semester

22M:034 (MATH:2560) Engineering Mathematics IV: Differential Equations	3 s.h.
029:082 (PHYS:1612) Introductory Physics II	3 s.h.
031:001 (PSY:1001) Elementary Psychology	3 s.h.
056:020 (IE:2000) Industrial Engineering Sophomore Seminar	0 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics	2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits	3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics	3 s.h.

Second Semester

22S:039 (STAT:2020) Probability and Statistics for the Engineering and Physical Sciences	3 s.h.
056:054 (IE:2500) Engineering Economy	3 s.h.
056:150 (IE:3500) Information Systems Design	3 s.h.
057:015 (ENGR:2720) Materials Science	3 s.h.
Elective focus area course	3 s.h.

THIRD YEAR

First Semester

056:032 (IE:2032) Design for Manufacturing	3 s.h.
056:091 (IE:3000) Professional Seminar: Industrial Engineering	0 s.h.
056:144 (IE:3400) Human Factors	3 s.h.
056:166 (IE:3610) Stochastic Modeling	3 s.h.
056:171 (IE:3700) Operations Research	3 s.h.
General education component course	3 s.h.

Second Semester

22S:030 (STAT:2010) Statistical Methods and Computing	3 s.h.
056:131 (IE:3300) Manufacturing Systems	3 s.h.
056:147 (IE:3450) Ergonomics	3 s.h.
056:178 (IE:3750) Digital Systems Simulation	3 s.h.
Elective focus area course	3 s.h.
General education component course	3 s.h.

FOURTH YEAR**First Semester**

056:091 (IE:3000) Professional Seminar: Industrial Engineering	0 s.h.
056:134 (IE:3350) Process Engineering	4 s.h.
056:162 (IE:3600) Quality Control	3 s.h.
Elective focus area courses	6 s.h.
General education component course	3 s.h.

Second Semester

056:160 (IE:4600) Operational Systems Design	4 s.h.
Elective focus area courses (including math/science elective)	12 s.h.
Systems elective course	3 s.h.

Elective Focus Area

The industrial engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the Catalog. For a list of standard industrial engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Industrial Engineering

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for industrial engineering undergraduate students who intend to earn an M.S. in industrial engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program's graduate seminar, and work with a faculty member on a master's thesis project while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Some students in undergraduate majors other than industrial engineering may be admitted to the combined program; they must meet the same admission requirements as industrial engineering majors. In some cases, they may be required to take additional course work to meet the prerequisite requirements for upper-level courses.

B.S.E.: Mechanical Engineering

The Bachelor of Science in Engineering requires a minimum of 128 s.h. The major in mechanical engineering lays a foundation in the basic disciplines of mathematics, physics, and chemistry and in the engineering sciences of statics, dynamics, thermodynamics, mechanics of deformable bodies, mechanics of fluids and transfer processes, materials science, and electrical sciences. An understanding of these sciences enables mechanical engineers to design parts of systems and understand

whole systems, plan the production and use of energy, plan and operate industrial manufacturing facilities, and design automatic control systems for machines and other mechanical systems.

Mechanical engineering students develop an awareness of social and humanistic issues relating to business, environment, government, history, language, religion, and international relations. They also acquire an appreciation of professional and ethical responsibilities.

All engineering students complete the B.S.E. core requirements, which include 010:003 (RHET:1030) Rhetoric, 059:005 (ENGR:1100) Engineering Problem Solving I, and 059:006 (ENGR:1300) Engineering Problem Solving II; and courses in chemistry, engineering mathematics and fundamentals, and physics. They must earn a grade of C-minus or higher in the core requirements 22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus and 22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus.

They also complete the curriculum designed for their major program, which covers four major stems: mathematics and basic sciences, engineering topics, an elective focus area, and the general education component (15 s.h. of humanities and social science courses). For information about the curriculum stems, see Bachelor of Science in Engineering (p. 737) in the Catalog.

Upper-level students work on team projects in a senior capstone design course, 058:086 (ME:4086) Mechanical Engineering Design Project. Some students may arrange to participate in established research projects.

Students must select elective focus area courses according to guidelines established by the Department of Mechanical and Industrial Engineering. See "Elective Focus Area" after the following curriculum list.

The following study plan includes the B.S.E. core requirements and the curriculum for the mechanical engineering major. Some courses in the curriculum are prerequisites to others. Students must complete a course's prerequisites before they may register for the course. Those who take courses in the order below satisfy the prerequisite requirements automatically.

FIRST YEAR**First Semester**

004:011 (CHEM:1110) Principles of Chemistry I	4 s.h.
010:003 (RHET:1030) Rhetoric	4 s.h.
22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus	4 s.h.
059:005 (ENGR:1100) Engineering Problem Solving I	3 s.h.
059:090 (ENGR:1000) Engineering Success Seminar for First-Year Students (credit does not count toward B.S.E. degree)	1 s.h.

Second Semester

22M:032 (MATH:1560) Engineering Mathematics II: Multivariable Calculus	4 s.h.
22M:033 (MATH:2550) Engineering Mathematics III: Matrix Algebra	2 s.h.
029:081 (PHYS:1611) Introductory Physics I	4 s.h.
059:006 (ENGR:1300) Engineering Problem Solving II	3 s.h.
General education component course	3 s.h.

SECOND YEAR**First Semester**

22M:034 (MATH:2560) Engineering Mathematics IV: Differential Equations	3 s.h.
029:082 (PHYS:1612) Introductory Physics II	3 s.h.
058:020 (ME:2020) Mechanical Engineering Sophomore Seminar	0 s.h.
059:007 (ENGR:2110) Engineering Fundamentals I: Statics	2 s.h.
059:008 (ENGR:2120) Engineering Fundamentals II: Electrical Circuits	3 s.h.
059:009 (ENGR:2130) Engineering Fundamentals III: Thermodynamics	3 s.h.
General education component course	3 s.h.

Second Semester

057:010 (ENGR:2710) Dynamics	3 s.h.
057:015 (ENGR:2720) Materials Science	3 s.h.
057:019 (ENGR:2750) Mechanics of Deformable Bodies	3 s.h.
058:032 (ME:2032) Design for Manufacturing	3 s.h.
Elective focus area course	3 s.h.

THIRD YEAR**First Semester**

22M:037 (MATH:3550) Engineering Mathematics V: Vector Calculus	3 s.h.
22S:039 (STAT:2020) Probability and Statistics for the Engineering and Physical Sciences	3 s.h.
057:017 (ENGR:2730) Computers in Engineering	2-3 s.h.
057:020 (ENGR:2510) Fluid Mechanics	4 s.h.
058:051 (ME:3351) Engineering Instrumentation	2 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering	0 s.h.
Elective focus area course	3 s.h.

Second Semester

058:040 (ME:3040) Thermodynamics II	3 s.h.
058:045 (ME:3045) Heat Transfer	3 s.h.
058:052 (ME:3052) Mechanical Systems	3 s.h.
Elective focus area course	3 s.h.
General education component course	3 s.h.

FOURTH YEAR**First Semester**

058:048 (ME:4048) Energy Systems Design	4 s.h.
058:055 (ME:4055) Mechanical Systems Design	4 s.h.
058:091 (ME:3091) Professional Seminar: Mechanical Engineering	0 s.h.
Elective focus area courses	6 s.h.
General education component course	3 s.h.

Second Semester

058:080 (ME:4080) Experimental Engineering	4 s.h.
058:086 (ME:4086) Mechanical Engineering Design Project	3 s.h.
Elective focus area courses	6 s.h.
General education component course	3 s.h.

Elective Focus Area

The mechanical engineering program offers a variety of elective focus area options, including standard focus areas developed and maintained by the program and flexible focus areas tailored to individual student interests. For more detailed information about elective focus areas, see Bachelor of Science in Engineering (p. 737) in the

Catalog. For a list of standard mechanical engineering elective focus area options and guidelines for tailored elective focus areas, see the Department of Mechanical and Industrial Engineering web site.

Joint B.S.E./M.S.: Mechanical Engineering

The College of Engineering offers a joint (fast-track) Bachelor of Science in Engineering/Master of Science for mechanical engineering undergraduate students who intend to earn an M.S. in mechanical engineering. B.S.E./M.S. students may take up to 12 s.h. of graduate-level course work, attend the program's graduate seminar, and participate in master's research while they are still undergraduates. They may count 6 s.h. of graduate course work toward both degrees. Once students complete the requirements for the bachelor's degree, they are granted the B.S.E., and they normally complete the M.S. one year later.

To be admitted to the joint degree program, students must have completed at least 80 s.h., must have a cumulative g.p.a. of at least 3.25, and must submit a letter of application to the chair of the Department of Mechanical and Industrial Engineering.

Graduate Programs

- Master of Science in industrial engineering (with or without thesis; windpower management concentration available)
- Doctor of Philosophy in industrial engineering
- Master of Science in mechanical engineering (with or without thesis)
- Doctor of Philosophy in mechanical engineering

Research and Study in Industrial Engineering

Graduate study in industrial engineering is tailored individually. Each student's study program is based on his or her background and career objectives and is designed according to sound academic practice. The curriculum is highly flexible; the goal is academic excellence.

The program offers six principal academic focus areas: design and manufacturing, human factors engineering and ergonomics, engineering management, reliability and production systems, operations research and applied statistics, and information systems. Graduate students participate in research in their academic concentration areas.

ENGINEERING MANAGEMENT

Current research in engineering management consists of entrepreneurship, parametric cash flow analysis, strategic management, and economic risk analysis. Engineering management studies concentrate on engineering administration, engineering economics, and information systems. This area is covered by courses in the 50 series.

HUMAN FACTORS AND ERGONOMICS

Current research in human factors and ergonomics includes investigation of the effects of visual and auditory displays on human information processing and development of computer systems that ease the challenges of controlling complex medical and robotic

systems. This work examines how engineers should shape information technology to enhance productivity, safety, and customer satisfaction. Industrial engineering faculty members and students work to improve the effectiveness of robot systems for exploration of Mars and the Moon, to improve driving safety, and to design new cockpit interfaces. The department has several medical, flight, and driving simulators. It also conducts research in other facilities, including National Advanced Driving Simulator, the most advanced simulation facility in the world.

Human factors and ergonomics studies concentrate on designing systems compatible with human capabilities and limitations. Human factors engineering integrates components from the fields of psychology, cognitive sciences, physiology, statistics, and technical sciences to address issues of human-interface design and human-systems design. Specific considerations include human cognitive abilities and limitations, visual performance, error reduction, workload assessment and mitigation, design of jobs in the industrial environment, information acquisition and processing, choice of action, operator performance measurement, and economic concerns. This area is covered by courses in the 40 series.

INFORMATION SYSTEMS

Studies in information systems concentrate on system design. Design problems involve devising information systems that meet a diverse set of requirements. Contemporary topics include network-based systems, client/server systems, internet systems, and medical informatics.

MANUFACTURING

Ongoing manufacturing research consists of flexible manufacturing systems, optimum control of processes, and reliability assessment. Manufacturing courses, denoted by the 30 series, delve into selecting appropriate manufacturing methods, planning processing operations, devising control strategies, and designing products and manufacturing systems. Contemporary topics include computer-aided process planning, computer-aided design, computer-controlled manufacturing, concurrent engineering, and applications of artificial intelligence in manufacturing.

OPERATIONS RESEARCH AND APPLIED STATISTICS

Ongoing research in operations research and applied statistics deals with the application of optimization techniques for informed decision making in the public and private sectors. The primary focus of this work is modeling, simulating, and optimizing the design and operation of systems such as logistics, communications, health care, and manufacturing. Studies in operations research and applied statistics concentrate on mathematical programming, statistical, and computer sciences for modeling, analyzing, and optimizing systems. Various methodologies in this area include mathematical programming, heuristic optimization, statistical analysis, and digital systems simulation. This area is covered by courses in the 70 series.

QUALITY CONTROL AND PRODUCTION SYSTEMS

Current research in quality control and production systems focuses on measures for corporate quality and reliability, computer-aided layout and scheduling, just-in-time production, inspection, and online expert systems in process control. Studies of quality control and production

systems focus on reliability engineering, quality control, and production systems. This area is covered by courses in the 60 series.

Research and Study in Mechanical Engineering

The graduate programs in mechanical engineering educate students in more depth and breadth than is possible at the baccalaureate level. This prepares the graduate to use contemporary methods at advanced levels in professional careers in engineering design, development, teaching, and research. Each student's plan of study is based on his or her background and career objectives, and is designed according to sound academic practice. Faculty members in the program have teaching and research expertise in energy and power conversion, fluid and thermal sciences, solid mechanics, mechanical systems, and related areas.

Students may develop programs emphasizing fluid mechanics, thermodynamics, heat transfer, fatigue and fracture mechanics, and mechanical systems. Some may pursue more general programs that combine emphases. Others may specialize in interdisciplinary areas (e.g., energy engineering, materials engineering, automatic control, chemical processes), which involve a combination of mechanical and industrial engineering departmental courses and appropriate electives from other departments in the College of Engineering and across the University. Ph.D. programs may center on any one of these areas through choice of appropriate course work and research topic.

For more information, see the Mechanical Engineering Graduate Student Handbook, available from the department.

The mechanical engineering program offers the following research and study areas.

FLUID MECHANICS

The graduate program in fluid mechanics provides a rigorous and broad foundation in theoretical, numerical, and experimental aspects of the subject. It is especially suitable for those seeking careers in teaching and/or research in academic and industrial organizations. The program focuses on fundamental principles and techniques of solving problems in the varied fields of fluids engineering. It emphasizes computer use, both in mathematical modeling of flow phenomena and in acquisition and processing of experimental data.

Although most of the relevant courses are offered by the Department of Mechanical and Industrial Engineering, students are strongly encouraged to take applied mathematics and classical mechanics courses offered by the Departments of Mathematics (p. 403) and Physics and Astronomy (p. 451) in the College of Liberal Arts and Sciences and by other College of Engineering departments.

Current research projects include computational modeling of viscous and turbulent flows; vortex dynamics; unsteady flows; pulmonary flow; flow separation and control; atmospheric flows; environmental flows; ship hydrodynamics; viscous flow around ships; propulsor flow and propulsor-body interactions; free-surface effects; nonlinear wave theory; biomimetic fluid mechanics; hydraulic turbines; quantitative flow visualization and image processing; computational fluid dynamics; LDV and

thermal anemometry for flow analysis; and uncertainty analysis.

MECHANICAL SYSTEMS

The graduate program in mechanical systems is designed to provide students with a broad, strong background in theoretical, computational, experimental, and applied aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamental principles, computational techniques, multiscale modeling and simulation, and experimentation used to analyze and design mechanical systems. Areas of concentration include reliability-based design and optimization, nanotechnology, tissue mechanics, machine and vehicle dynamics, optimal design, structural sensitivity analysis and optimization, computational solid mechanics, probabilistic mechanics, mechanics of composite materials, reliability, and fatigue and fracture mechanics.

Although most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering, students are encouraged to consider appropriate courses from other areas, such as mathematics (p. 403), statistics (p. 539), physics (p. 451), and other College of Engineering departments.

Current research projects include computational mechanics, tissue mechanics, multiphysics, and multiple-scale problems; mechanics of multifunctional composites and nanocomposites, electromagnetic and thermal effects in composites, micromechanical modeling of multiphase composites and nanocomposites, impact and failure of composites, contact mechanics problems with friction and adhesion; stochastic meshfree and finite element methods; design sensitivity analysis of nonlinear structural systems; reliability-based design optimization; surrogate modeling for reliability-based design optimization; shape optimal design of elastoplastic materials; optimal design of metal stamping process; probabilistic and elastic-plastic fracture mechanics; damage tolerant design; fatigue behavior and life prediction under constant and variable amplitude loading, multibody dynamics; design sensitivity analysis of rigid and flexible mechanical systems; computer-aided design; mechanism and manipulator workspace analysis; real-time dynamic simulation; and vehicle system dynamics.

THERMAL SCIENCES

The graduate program in thermal sciences and systems is designed to provide students with a rigorous and broad foundation in theoretical and experimental aspects of the subject. It prepares future graduates for careers in industry, teaching, and government. The program emphasizes fundamentals of thermodynamics and heat transfer, and associated analytical, numerical, and experimental methods used in energy systems. Areas of concentration include fluid mechanics, thermodynamics, heat transfer, phase-change, combustion, and fuel cells.

Most courses relevant to the specialization areas are offered by the Department of Mechanical and Industrial Engineering. Students are encouraged to supplement these with courses from other areas, such as mathematics (p. 403) and physics (p. 451), and courses offered by other College of Engineering departments in order to balance their programs.

Current research projects include biomass gasification; turbulent flames; combustion of biomass; alternative

and renewable fuels; combustion instability; spray atomization and combustion; transport modeling of fuel cells; transport phenomena in materials processing, melting, and solidification; and optical-based diagnostics of complex thermal processes.

M.S.: Industrial Engineering

The Master of Science program in industrial engineering requires a minimum of 30 s.h. of graduate credit with thesis, and a minimum of 36 s.h. of graduate credit without thesis. Students who intend to pursue a Ph.D. should select the thesis option; those who hold research or teaching assistantships may be required to select the thesis option. The M.S. concentration in wind power management is open to students in either option.

All M.S. students must earn 21 s.h. in graduate-level industrial engineering courses. They earn a minimum of 9 s.h. in 200-level industrial engineering courses and complete at least one 100- or 200-level course from each of three focus areas: human factors, operations research, and reliability and systems design. Thesis students who plan to pursue a Ph.D. may choose to take two 200-level courses in each of the three focus areas in order to complete their Ph.D. breadth requirement before entering the doctoral program. Students select other courses in consultation with their advisors; choices are documented in the student's plan of study.

Thesis students may count a maximum of 6 s.h. of research credit toward the degree and may include that credit in the required 21 s.h. of graduate-level industrial engineering courses. The thesis option does not include research credit.

All graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

M.S. students must maintain a g.p.a. of at least 3.00 on all graduate work at The University of Iowa and must pass a final comprehensive examination as specified by their examining committees.

Entering students must have strong verbal and written skills in English and a background in computer programming (e.g., C++, C, VB), probability, statistics, and mathematics equivalent to that required by accredited undergraduate engineering programs. Students with insufficient academic background must remedy deficiencies by taking appropriate courses beyond those normally required for the study plan.

Entering students are advised by the department chair or by a designated faculty advisor. The department chair or the graduate program coordinator assigns an advisor to each student during his or her first regular semester in residence.

During that semester, the student and the advisor prepare a study plan, which they submit to the department chair for approval. Once the plan is approved, it is filed with the student's record. It is the student's responsibility to assure that the study plan is submitted to the department chair.

M.S. students must pass a final comprehensive examination, as specified by their examination committees. Examination committees consist of at least three Graduate College faculty members and must be approved by the department chair.

The comprehensive examination may consist of both oral and written parts. Its purpose is to assess the adequacy of the student's defense of thesis and/or course preparation. The final study plan, approved by the Graduate College dean, is prerequisite to the exam. The student should consult with his or her advisor on the composition of the advisory/examination committee and the time and place for the exam.

It is the student's responsibility to submit a degree application to the Graduate College by the college's deadline.

For more detailed information about M.S. program requirements, including a list of focus area courses, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate programs on the Department of Mechanical and Industrial Engineering web site.

M.S. Concentration in Wind Power Management

M.S. students in industrial engineering may concentrate in wind power management. They must meet all regular requirements for the M.S. in industrial engineering. In addition, thesis option students must take three courses (9 s.h.) from the list of recommended courses. Nonthesis option students must take four courses (12 s.h.) from the list of recommended courses and one course (3 s.h.) from the list of electives. Students' course selections must be approved by their advisors.

WIND POWER MANAGEMENT: RECOMMENDED COURSES

053:107 (CEE:4107) Sustainable Systems	3 s.h.
053:117 (CEE:4317) Remote Sensing	3 s.h.
053:251 (CEE:6151) Environmental Systems Modeling	3 s.h.
056:134 (IE:3350) Process Engineering	4 s.h.
056:162 (IE:3600) Quality Control	3 s.h.
056:166 (IE:3610) Stochastic Modeling	3 s.h.
056:171 (IE:3700) Operations Research	3 s.h.
056:178 (IE:3750) Digital Systems Simulation	3 s.h.
058:143 (ME:5143) Computational Fluid and Thermal Engineering	3 s.h.
058:147 (ME:5147) Fuel Cells	3 s.h.
058:195 (ME:5195) Contemporary Topics in Mechanical Engineering	3 s.h.
058:255 (ME:6255) Multiscale Modeling	3 s.h.
058:268 (ME:7268) Turbulent Flows	3 s.h.

WIND POWER MANAGEMENT: ELECTIVES

06K:226 (MSCI:9200) Visual Basic Programming	3 s.h.
06K:228 (MSCI:9260) Web and Multimedia	3 s.h.
06K:234 (MSCI:6190) Knowledge Management	3 s.h.
012:114 (GEOS:3140) Energy and the Environment	3 s.h.
22C:144 (CS:4400) Database Systems	3 s.h.
044:127 (GEOG:3750) Environmental Quality: Science, Technology, and Policy	3 s.h.
044:135 (GEOG:4930) Urban Geography	3 s.h.
056:176 (IE:3760) Applied Linear Regression	3 s.h.
175:192 (OE:5410) Occupational Safety	3 s.h.

Ph.D.: Industrial Engineering

The Doctor of Philosophy program in industrial engineering requires a minimum of 72 s.h. It is granted upon

demonstration of comprehensive knowledge and scholarly work at the highest level.

A maximum of 36 s.h. earned toward the M.S. may be counted toward the 72 s.h. required for the Ph.D. Students must spend at least two semesters in residence at The University of Iowa. They also must maintain a g.p.a. of at least 3.25 on all graduate work done at the University.

The degree requires broad academic background with considerable depth in at least one area of specialization that clearly demonstrates the student's capability to do high-level research. Ph.D. students must complete a series of written and oral examinations and a written dissertation based upon the results of an original investigation.

Students without a Master of Science in industrial engineering or a closely allied area must satisfy all requirements for the M.S. in industrial engineering before they may be admitted to the Ph.D. program.

Entering students are advised by the department chair or by a designated faculty advisor. During the student's first regular semester in residence, an advisor is assigned by the department chair or the graduate program coordinator. Students are expected to identify an industrial engineering faculty member willing to serve as their advisor by the end of their first regular semester in the program.

Once the student is assigned an advisor, he or she works with the advisor to prepare a study plan, which is submitted to the department chair for approval. Once the plan is approved by the department chair, it is filed with the student's record. At the beginning of each academic year, the industrial engineering faculty reviews the study plan and gives the student feedback regarding progress toward his or her degree objective. It is the student's responsibility to assure that the study plan is submitted to the program chair.

Admission to degree candidacy requires a g.p.a. of at least 3.25 on all graduate work taken at The University of Iowa, demonstration of capacity for individual research achievement (typically a dissertation research proposal), and successful completion of the comprehensive examination given by the examining committee.

The comprehensive examination is scheduled with approval of the student's advisor and the industrial engineering program coordinator or the graduate coordinator once the student's study plan is essentially completed. The examining committee determines the composition of the exam, including written and oral parts, and determines whether the student is ready to begin dissertation research.

For more detailed information about Ph.D. program requirements, see the Industrial Engineering Graduate Handbook or link to industrial engineering graduate programs on the Department of Mechanical and Industrial Engineering web site.

All Ph.D. students must satisfy the following requirements.

Graduate students must register for 056:191 (IE:5000) Graduate Seminar: Industrial Engineering (1 s.h.) each semester of enrollment. They may not substitute seminar credit for regular course work or research credit.

INDUSTRIAL ENGINEERING BREADTH REQUIREMENT

Each Ph.D. student must pass at least two 200-level industrial engineering courses in each of three focus areas: human factors, operations research, and reliability and

systems design. Students who have earned an M.S. in the program may already have satisfied this requirement.

QUALIFYING EXAM

Each student must satisfy the qualifying exam requirement in two of the three focus areas. The requirement for a focus area can be satisfied by passing a written qualifying exam in the focus area or by earning a grade of A-minus or higher in each of two 200-level industrial engineering courses in the focus area.

FOCUS AREA

Students select one of the three focus areas and take additional course work in that area. They fulfill the minimum requirement of the focus area, completing at least two additional 200-level industrial engineering courses in the area.

COMPREHENSIVE EXAMINATION

Each student must demonstrate his or her ability to carry out creative individual research by completing and defending his or her dissertation research proposal in a comprehensive examination. The exam includes written and oral parts and is conducted by an examining committee of at least five industrial engineering and Graduate College faculty members. It is scheduled after the qualifying examination requirement has been satisfied. The examining committee determines whether the student is ready to begin dissertation research. Once the student has completed the comprehensive examination satisfactorily, he or she is accepted as a candidate for the Ph.D.

FINAL EXAMINATION (THESIS DEFENSE)

Each student must defend his or her completed dissertation in the final examination, which is conducted by the examining committee.

Ph.D. Concentration in Wind Power Management

Ph.D. students who concentrate in wind power management must meet all regular requirements for the doctoral degree. In addition, they must gain sufficient breadth and depth of domain knowledge in their study area by taking energy-related courses.

Related Certificate: Informatics

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care. Industrial engineering students working toward the certificate complete 056:186 (IE:5860) Health Informatics I, 056:287 (IE:5870) Health Informatics II, and approved electives. Completion of the certificate is noted on the student's transcript. To learn more, see "Certificate" in the Informatics (p. 843) (Graduate College) section of the Catalog.

M.S.: Mechanical Engineering

The Master of Science program in mechanical engineering requires a minimum of 30 s.h., with or without thesis. Thesis students may count 6-9 s.h. earned for thesis research and writing toward the degree. Each student

determines a study plan in consultation with an advisor and submits the plan to the department chair for approval.

All M.S. students must register for 058:191 (ME:6191) Graduate Seminar: Mechanical Engineering each semester.

To earn the M.S., the student must maintain a g.p.a. of at least 3.00 on graduate work used to satisfy the degree requirements and must be successful in the final examination. This examination is administered by the student's committee, which consists of at least three faculty members, including at least one with primary appointment in the Department of Mechanical and Industrial Engineering.

The requirements for the M.S. may be completed within one calendar year. However, students with assistantship duties or other constraints may take up to two calendar years to complete the degree.

Ph.D.: Mechanical Engineering

The Doctor of Philosophy program in mechanical engineering requires 72 s.h. of graduate credit, including at least 54 s.h. in course work (excluding thesis research) and at least 12 s.h. earned for Ph.D. thesis research. Students must pass the qualifying examination administered by the program to be formally admitted to the doctoral program.

Each student takes the comprehensive examination after passing the qualifying examination and when the course work specified in the study plan is nearly completed; in any case, the comprehensive examination should be taken no later than 28 months after the first registration in the Ph.D. program. To be admitted to the comprehensive examination, a student must be in good academic standing and must be recommended by his or her advisor. The exam is administered by the student's committee. Admission to Ph.D. candidacy is recognized upon successful completion of the comprehensive examination.

Having satisfactorily completed the exam, the student usually has only to complete and defend the dissertation at the final examination.

Requirements for the Ph.D. usually can be completed in three to four years beyond the M.S.

Admission

Applicants must meet the admission requirements of the Graduate College; for detailed information about Graduate College policies, see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

INDUSTRIAL ENGINEERING

Reference letters, student research interests, grade-point average for previous graduate study, and factors such as faculty availability are considered in admission decisions.

M.S. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum in any engineering discipline, or in the mathematical sciences, the physical sciences, or the computer sciences with a g.p.a. of at least 3.00 and an acceptable score on the Graduate Record Examination (GRE) General Test. Applicants from institutions outside the United States must meet equivalent conditions for regular admission. Students with

lesser qualifications may be considered for conditional admission.

Students from business or social science programs who have mathematical preparation similar to that of engineering students are considered for regular or conditional admission. Students on conditional status must achieve regular status within two sessions of their first registration by attaining an acceptable grade-point average and gaining regular acceptance by the industrial engineering program faculty; otherwise, they are dismissed. Admissions may be limited by available resources.

Ph.D. applicants may be admitted from an ABET Inc.-accredited baccalaureate curriculum or a postbaccalaureate curriculum in any engineering discipline or in the mathematical sciences, computer science, or physical sciences with a g.p.a. of at least 3.25 and an acceptable GRE General Test score. Applicants from outside the United States must meet equivalent standards for regular admission as determined by The University of Iowa. Students also may be admitted from business or social science programs as determined individually.

Applicants who intend to pursue a Ph.D. and who have a B.S. or an M.S. without thesis usually are admitted first to the M.S. program. All admissions to the Ph.D. program are reviewed by the graduate studies committee.

MECHANICAL ENGINEERING

Applicants who have earned a baccalaureate or master's degree in engineering curriculum or in the mathematical or physical sciences are eligible to be considered for admission to graduate study in mechanical engineering. In order to be considered for regular admission, applicants must have a g.p.a. of at least 3.00 on a 4.00 scale on all previous college-level work and Graduate Record Examination (GRE) General Test scores of at least 500 verbal, 750 quantitative, and 4.5 analytical writing. Students whose first language is not English must score at least 550 (paper-based), 213 (computer-based), or 81 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Applicants with a lower grade-point average and/or GRE or TOEFL test scores may be considered for conditional admission, under exceptional circumstances. Applicants admitted conditionally must achieve regular standing within one semester (excluding summer sessions) after admission by attaining a g.p.a. of at least 3.00 on their first 9 s.h. at The University of Iowa. The Graduate College cancels registration for the subsequent semester for students who have not submitted their GRE and/or TOEFL scores by the end of the first semester after admission.

Financial Support

INDUSTRIAL ENGINEERING

A number of one-quarter-time and one-half-time teaching and research assistantships are available for graduate students. Awards are based on students' academic records and assessment of their potential contribution to the research and teaching goals of the program. Advanced graduate students also may qualify for appointments as graduate teaching fellows. Contact the chair of the Department of Mechanical and Industrial Engineering for details.

MECHANICAL ENGINEERING

Financial support is available to M.S. and Ph.D. students, primarily through graduate assistantships in teaching or research from the Department of Mechanical and Industrial Engineering, the Center for Computer-Aided Design, IIHR—Hydroscience and Engineering, and the National Advanced Driving Simulator. These awards may be made on a semester, academic year, or calendar year basis. Awards and reappointments are competitive and are based on the student's potential contribution to the teaching and research goals of the department. Students who fulfill their assistantship responsibilities and continue to make satisfactory progress toward their degree objective receive preference in new assistantship awards. All applications for financial support should be submitted directly to the department chair.

M.S. students with assistantship appointments of one-quarter-time or more are required to register for a minimum of 9 s.h. during fall and spring semesters until they have completed 30 s.h. of course and research work beyond the baccalaureate degree. Ph.D. students with assistantship appointments of one-quarter-time or more must register for a minimum of 9 s.h. during fall and spring semesters until they have completed 72 s.h. of course and research work beyond the baccalaureate degree. Once they meet these minimums, graduate students must register for a graduate seminar each semester until they have successfully completed their final examination or thesis defense. All registrations should accurately reflect the amount and type of work undertaken, the use of University facilities, and the amount of consultation with the faculty.

Facilities and Laboratories

Industrial Engineering

The following facilities and laboratories are used by undergraduate and graduate students. For information about laboratories affiliated with core courses coordinated by other College of Engineering departments, see those departments' Catalog sections.

ACTIVE LEARNING FACILITY

The Active Learning Facility (ALF) uses a project-oriented, team-based, hands-on approach to education. The facility provides NT servers, personal computers, and remote plug-ins for students' laptops. It also offers a variety of software for project management, presentations, and data analysis and reporting.

ADVANCED SYSTEMS LABORATORY

The Advanced Systems Laboratory houses research on development and implementation of computational algorithms for the optimization of complex systems.

BIOMANUFACTURING LABORATORY

The Biomanufacturing Laboratory teaches students about emerging processes and techniques in cell-biomaterial interactions and gives them hands-on laboratory experience. Work in the laboratory is interdisciplinary, spanning engineering, medicine, biology, and biotechnology. The laboratory provides facilities for engineered living tissue systems. Next generation manufacturing tools are used to build biologically inspired structures intended to replace diseased or damaged organs and tissues. Laboratory research projects and

activities focus primarily on design, modeling, and fabrication of tissue replacement parts; tissue scaffolds and medical devices; and cell and organ printing. Diverse software and hardware are available to support bioadditive manufacturing platforms.

COGNITIVE SYSTEMS LABORATORY

The Cognitive Systems Laboratory is devoted to examining the safety, performance, and user acceptance implications of technology insertion into complex systems. The laboratory has networked computers, a video editing workstation, a process control simulation, and a low-cost driving simulator. The simulator is equipped with five cameras, instrumentation to record all driver activity, and an eye tracking system. The Cognitive Systems Laboratory shares the driving simulator and an instrumented vehicle with the Operator Performance Laboratory. The equipment supports class projects, system development, and undergraduate and graduate research.

COMPUTER NUMERICAL CONTROL MACHINING LABORATORY

The Computer Numerical Control (CNC) Machining Laboratory gives undergraduate and graduate students hands-on experience in programming and operating a CNC lathe, a CNC milling machine, and a coordinate measuring machine. CNC programs can be developed through the machine control keyboard or downloaded via RS232C data link from the college's network. Research on the machinability of metals for cutting tool and machining parameters are conducted in the lab. A machine vision system is used to evaluate tool wear patterns.

DESIGN FOR MANUFACTURING LABORATORY

The Design for Manufacturing Laboratory provides students with experience in CAD/CAM systems. The facility's manufacturing equipment includes 4-axis CNC mills (Haas and Tormach), CNC router (Techno-CNC), CNC metal lathe (Haas and Techno-CNC), drill press, plastic injection molder, thermoforming machine, band saw, disc sander, bench grinder, polishing wheel, hand drill, sandblasting cabinet, press, foot shear, and welding station. The lab has the latest software technology, such as Pro/ENGINEER and Rhinoceros.

E-COMMERCE LABORATORY

The E-Commerce Laboratory provides a facility for advanced research on Internet technologies and educational programs in key Internet subjects. The laboratory contains the full facilities necessary for a strong Internet capability, including Windows NT workstations, PCs and Macs, UNIX workstations, Internet server software for each platform, Java, VRML, JavaScript, ActiveX and VBScript programming facilities, videoconferencing cameras and group collaboration software, CAD systems software, and database systems.

Activities at the E-Commerce Laboratory include working with companies to improve their use of the Internet; providing assistance in advanced uses of the World Wide Web; providing seminars and workshops to improve Internet education; and carrying out research in key Internet technologies.

Research is under way in a number of key areas, including videoconferencing using the Internet; rapid product development through Internet links with suppliers and customers; virtual reality over the Internet; use of remote databases to access corporate data; use of the Internet to

support team-based activities; security of Internet-based activities; and CAD file viewing and manipulation through the World Wide Web.

GROK LAB

The GROK Lab develops computer software and mechanical devices to improve human performance with complex tasks. The laboratory has developed technologies used by NASA to control robots exploring South America and Mars. It also designs and develops microsurgery and dental simulators to train new surgeons and dentists.

INTELLIGENT SYSTEMS LABORATORY

The Intelligent Systems Laboratory provides facilities for research in computational intelligence leading to applications in industry, service organizations, and health care. Research in the laboratory is funded by government agencies and industrial corporations. Solutions to practical problems and enhancement of engineering education are emphasized. Most of the laboratory's recent projects concentrate on development of software tools for product development, manufacturing, and health care applications.

The Intelligent Systems Laboratory is furnished with the latest computer technology to support research on numerous computing platforms. Diverse software is available for modeling, design, and construction of intelligent systems—for example, data mining software, neural networks, expert systems, and simulation software.

OPERATOR PERFORMANCE LABORATORY

Research in the Operator Performance Laboratory (OPL) focuses on determining human performance in a variety of situations, with particular emphasis on driving and flight deck environments. Much of the research is performed in the field using a state-of-the-art instrumented vehicle that is equipped with five cameras, eye movement equipment, two computers, video equipment, and a suite of sensors. The OPL also features a scale Boeing 737-400 fixed-base flight simulator with six channels of visuals. The flight simulator is equipped with a remote eye-tracking device that allows the activation of selected virtual controls in the flight deck. A specially designed stimulus presentation booth is used for color research and for photometry applications. Computer models of operator performance are designed based on the data obtained in the laboratory and field research.

Mechanical Engineering

Mechanical Engineering Undergraduate Instruction

ENGINEERING CORE

The laboratories for fluid flows and transport processes contain a wind tunnel; a water flume; a water table; four water channels with porous media; three air-jet tables; various air, water, and oil flow devices; and facilities for numerous small-scale experiments to demonstrate the principles of mass, momentum, and energy transfer.

For information about laboratories affiliated with core courses coordinated by other College of Engineering departments, see the departments' Catalog sections.

REQUIRED AND ELECTIVE COURSE LABORATORIES

The mechanical engineering laboratory for experimental engineering provides undergraduate students with exposure to contemporary measurement theory, sensors,

signal conditioners, instrumentation, and computer-aided data acquisition systems.

The laboratory for mechanical engineering design projects provides for either team or individual project activities in mechanical engineering design, construction of mechanisms, and testing.

The thermal and heat transfer laboratory is equipped with data acquisition systems to process data online on computers. Experiments in heat transfer measurements are made in this laboratory.

Mechanical Engineering Graduate Facilities

FLUID MECHANICS

The program in fluid mechanics is conducted in close collaboration with IIHR—Hydroscience & Engineering. The equipment available to graduate students includes several wind tunnels and hydraulic flumes, an environmental flow facility, a towing tank, two special low-temperature flow facilities for investigation of ice phenomena, hot-wire and laser anemometer systems, particle-image velocimetry systems, and computer-based data acquisition systems.

Facilities available in the department include a flow visualization and imaging system with CCD (charge-coupled devices) camera, and a low-speed wind tunnel. IIHR and College of Engineering shops provide the necessary support. In addition to using in-house workstations and computers, the department's faculty members and students make extensive use of supercomputers at national centers.

MECHANICAL SYSTEMS

Computer-based simulation research activities in the mechanical systems area are carried out mainly in the Center for Computer-Aided Design (CCAD). CCAD maintains a variety of high-performance computer systems in support of its technology research and development efforts. General computing services are supported by a number of LINUX and Windows applications servers connected to centralized file servers. CAD/CAE, software development, virtual prototyping, and virtual environment development applications are hosted on numerous high-performance workstations. Standard desktop, multimedia, and office productivity applications are hosted on a network of more than 40 workstations.

THERMAL SCIENCES

Facilities for research in the thermal sciences and systems consist of a low-pressure combustion chamber, a high-pressure continuous flow combustion chamber, a high-pressure chamber for atomization study, a test rig for heat transfer to near supercritical fluids, a diffusion flame test rig, an enclosed laminar flame test rig, an air atomization spray apparatus, test stands for melting and solidification studies, various optical measurement systems, and two fuel cell test rigs. Laser-based diagnostics (e.g., laser-induced fluorescence, imaging, and laser Doppler anemometry) are available for solidification, turbulent flow, heat transfer, and combustion studies. Flow visualization and imaging by CCD camera are available for the study of complex fluid motion and heat convection, and combustion flows.

Courses

Industrial Engineering

Special Topics

056:000 (IE:0000) Cooperative Education Training 0 s.h.
Assignment: Industrial Engineering

Industrial engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student's permanent record. Requirements: admission to Cooperative Education Program.

056:002 (IE:0002) Half-time Cooperative Education Training 0 s.h.
Assignment: Industrial Engineering

Registration for work assignment periods; for students participating in the Cooperative Education Program.

056:010 (IE:1000) Industrial Engineering First-Year Seminar 0 s.h.

Introduction to curriculum and profession; ethics and professionalism in classroom and workplace. Requirements: first-year or transfer standing in engineering.

056:020 (IE:2000) Industrial Engineering Sophomore Seminar 0 s.h.

Curriculum and profession; ethics and professionalism in classroom and workplace. Requirements: sophomore or transfer standing in engineering.

056:091 (IE:3000) Professional Seminar: Industrial Engineering 0 s.h.

Professional aspects of industrial engineering presented through lectures and discussions by guest speakers, field trips, films, panel discussions. Requirements: junior standing.

056:098 (IE:3998) Individual Investigations: Industrial Engineering arr.

Independent projects in industrial engineering for undergraduate students, including laboratory study, an engineering design project, analysis and simulation of an engineering system, computer software development, CAD/CAM applications, or research.

Manufacturing

056:032 (IE:2032) Design for Manufacturing 3 s.h.

Fundamentals of design, engineering graphics, and manufacturing processing; computer graphics using Pro/ENGINEER for CAD and CAM; typical industrial processes (machining, casting, welding, forming); prototype fabrication using additive manufacturing techniques; next generation manufacturing and design tools (BioCAD, biomanufacturing); engineering design, computer graphics, computer-aided design (CAD), engineering materials, traditional and nontraditional manufacturing techniques, numerically controlled machine tools, rapid prototyping, process planning, biomanufacturing, electronics manufacturing, MEMS, and automation; laboratory exercises and projects. Corequisites: 057:015 (ENGR:2720). Same as 058:032 (ME:2032), 051:062 (BME:2700).

056:131 (IE:3300) Manufacturing Systems 3 s.h.

Manufacturing and logistics systems, supply chain management, MRP/ERP systems, lean manufacturing, concurrent engineering, value stream mapping and six sigma. Offered spring semesters. Prerequisites: 056:032 (IE:2032) and 056:171 (IE:3700). Same as 058:131 (ME:4131).

056:134 (IE:3350) Process Engineering 4 s.h.

Methodologies, algorithms, and tools for processing modeling, analysis, and reengineering; modeling issues in product and component design, product and process modularity, quality, reliability, agility. Offered spring semesters. Prerequisites: 056:171 (IE:3700).

056:138 (IE:3138) Biomanufacturing 3 s.h.

Design and manufacturing technologies in development of biomedical related products (customized implants, medical devices, tissue scaffolds, engineered tissues, organs, biological systems); tissue engineering, BioCAD, biomedical imaging and processing for customized implant development, reverse engineering, biomaterials, regenerative medicine and drug delivery, traditional manufacturing processes for tissue engineering, rapid prototyping and layered manufacturing, rapid tooling, bioadditive fabrication, bionanofabrication and new frontiers in biomanufacturing (organ printing); hands-on laboratory projects and assignments. Prerequisites: 056:032 (IE:2032) or 057:021 (ENGR:2760).

056:155 (IE:4550) Wind Power Management 3 s.h.

Principles of wind power production, wind turbine design, wind park location and design, turbine and wind park control, predictive modeling, integration of wind power with a grid.

056:232 (IE:6232) Advanced Computer-Aided Design and Manufacturing 3 s.h.

In-depth study of CAD and manufacturing (CAD/CAM); review of CAD/CAM, computer graphics, NURBS modeling (curves/surfaces, solid modeling, design data exchange); computational geometry for product development, heterogeneous object modeling, rapid prototyping (RP) and layered manufacturing, computer-aided path planning, CAD applications (computer-aided tissue engineering, biomedical imaging and processing, biomanufacturing); related lab projects and assignments. Prerequisites: 056:032 (IE:2032). Requirements: knowledge of one programming language (C, C++, C#, VB, or Java).

056:235 (IE:6350) Computational Intelligence 3 s.h.

Concepts, models, algorithms, and tools for development of intelligent systems; data mining, expert systems, neural networks for engineering, medical and systems applications. Prerequisites: 056:171 (IE:3700). Same as 096:313 (NURS:6900).

056:237 (IE:6370) Operational Issues in Supply Chain Management Engineering 3 s.h.

Probabilistic approaches, supply chain disruption analysis, human decision making in supply chains, auctions and electronic commerce in supply chains. Requirements: graduate standing.

Human Factors and Ergonomics**056:144 (IE:3400) Human Factors** 3 s.h.

Design of human-machine systems; development of optimum work environments by applying principles of behavioral science and basic knowledge of human capacities and limits. Offered fall semesters. Prerequisites: 031:001 (PSY:1001).

056:147 (IE:3450) Ergonomics 3 s.h.

Ergonomic design of jobs and products in an industrial and consumer market setting; principles of good design, examples of poor design; consequences of poor job and product design; principles of work sampling, usability studies, performance rating, sizing and planning of workstations, hand tool design, ergonomic design in transportation; related group project.

056:241 (IE:6410) Research Methods in Human Factors Engineering 3 s.h.

Logic and methods for research and for analysis and evaluation of complex human-machine systems; advanced techniques for enhancement of human interaction with advanced information technology; emphasis on cognitive task analysis techniques for innovative design, understanding of how technology affects

safety, performance, user acceptance. Requirements: graduate standing.

056:242 (IE:6420) Human/Computer Interaction 3 s.h.

Development of projects using human factors principles in the design of computer interfaces.

056:244 (IE:6440) Airborne Design of Experiments 3 s.h.

Issues in design of airborne human factors research, and techniques applicable to ground transportation research; statistical, human factors, flight mechanics, and organizational principles in flight test engineering; basic understanding of systematic approach to human factors flight testing, development of test points and test apparatus, flight envelope, proper briefing techniques, mission execution, and after-action review; securing, synchronizing, and analyzing data.

056:245 (IE:6450) Human Factors in Aviation 3 s.h.

Measuring, modeling, and optimizing human visual performance; display design for optimal legibility, research in visibility, legibility, conspicuity, and camouflage; visibility model development. Requirements: graduate standing.

056:246 (IE:6460) The Design of Virtual Environments 3 s.h.

Development of techniques for designing and creating three-dimensional representations of information for simulation, scientific visualization, and engineering; emphasis on human factors issues, software. Requirements: graduate standing.

Engineering Management**056:054 (IE:2500) Engineering Economy** 3 s.h.

Basic concepts of engineering economy: time value of money, cash flow equivalence, depreciation, tax considerations, continuous cash flows, cost accounting overview; main analysis techniques—present worth, uniform annual cost, rate of return, benefit/cost ratio, replacement and break-even analysis. Corequisites: 22S:039 (STAT:2020).

056:150 (IE:3500) Information Systems Design 3 s.h.

Structure and design of computer-based information systems; concepts of information systems, decision making; computer hardware, software, data structures; methods for determining system requirements; designing, implementing, evaluating, managing information systems; applied projects. Prerequisites: 059:006 (ENGR:1300).

Quality Control and Production Systems**056:160 (IE:4600) Operational Systems Design** 2-4 s.h.

Projects involving product and related operational system design in an industrial or service organization; associated entrepreneurial or intrapreneurial planning. Offered spring semesters. Prerequisites: 056:054 (IE:2500) and 056:134 (IE:3350).

056:161 (IE:4610) Enhanced Design Experience 2-3 s.h.

Real-world, in-depth design experience in student teams, working with engineers at major companies in the region; application of industrial engineering knowledge and skills to design products and related operational systems.

056:162 (IE:3600) Quality Control 3 s.h.

Basic techniques of statistical quality control; application of control charts for process control variables; design of inspection plans and industrial experimentation; modern management aspects of quality assurance systems. Offered fall semesters. Prerequisites: 22S:030 (STAT:2010) and 22S:039 (STAT:2020). Same as 22S:133 (STAT:3620), 053:142 (CEE:3142).

056:164 (IE:3640) Six Sigma Operations and Quality Control 3 s.h.

Six Sigma techniques for the DMAIC cycle (Define, Measure, Analyze, Improve, Control); what is needed for data collection (process inputs and outputs, measurement tools), conduct analysis (hypothesis testing, process capability studies), and conduct process improvement studies (design of experiments, response surface methodology); overview of Six Sigma, process and project management skills.

056:165 (IE:3650) Advanced Six Sigma Operations and Quality Improvement 3 s.h.

Analytical techniques used for Six Sigma techniques DMAIC cycle; design and application of experiment techniques, including factorial designs, fractional factorial, Taguchi methods; semester-long project; understanding of statistical techniques required. Prerequisites: 22S:030 (STAT:2010) and 22S:039 (STAT:2020). Corequisites: 056:162 (IE:3600).

056:268 (IE:5610) Reliability Theory and Applications 3 s.h.

Fundamental topics in reliability engineering, including system reliability modeling, statistical inference of lifetime data, basic preventive maintenance models; statistics and random process models, and online monitoring and change detection techniques. Prerequisites: 22M:033 (MATH:2550), and 22S:039 (STAT:2020).

Operations Research and Applied Statistics**056:166 (IE:3610) Stochastic Modeling** 3 s.h.

Fundamental probabilistic models and applications of industrial engineering; overview of probability and distributions, stochastic processes and Markov chains, queuing theory, inventory theory, decision theory under uncertainty, and elements of risk management. Prerequisites: 22S:039 (STAT:2020). Corequisites: 056:171 (IE:3700).

056:171 (IE:3700) Operations Research 3 s.h.

Operations research models and applications; emphasis on deterministic model (linear programming, duality). Offered fall semesters. Prerequisites: 22M:033 (MATH:2550). Corequisites: 22S:039 (STAT:2020).

056:176 (IE:3760) Applied Linear Regression 3 s.h.

Regression analysis with focus on applications; model formulation, checking, selection; interpretation and presentation of analysis results; simple and multiple linear regression; logistic regression; ANOVA; hands-on data analysis with computer software. Prerequisites: 22S:030 (STAT:2010) or 22S:039 (STAT:2020). Same as 22S:152 (STAT:3200).

056:178 (IE:3750) Digital Systems Simulation 3 s.h.

Simulation modeling and analysis; emphasis on construction of models, interpretation of modeling results; input and output analysis—hands-on usage of ARENA simulation software, manufacturing, health care, and service. Offered spring semesters. Prerequisites: 22S:039 (STAT:2020).

056:186 (IE:5860) Health Informatics I 3 s.h.

Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 050:283 (MED:5300), 096:283 (NURS:5300), 021:275 (SLIS:5900), 074:191 (RSNM:3195), 174:226 (HMP:5370), 051:187 (BME:5250), 200:110 (IGPI:5200).

056:230 (IE:6300) Innovation Science and Studies 3 s.h.

Innovative typology and sources, classical innovation models, measuring innovation, innovation discovery from data, evolutionary computation in innovation, innovation life cycle.

056:236 (IE:6360) Decision Making in Supply Chain Management Engineering 3 s.h.

Control theory and Kalman filter approaches, supply chains and behavioral supply chains, organizational approaches, network approaches. Requirements: graduate standing.

056:270 (IE:6600) Linear Programming 3 s.h.

Mathematical programming models; linear and integer programming, transportation models, large-scale linear programming, network flow models, convex separable programming. Requirements: calculus and linear algebra. Same as 06K:286 (MSCI:6600).

056:271 (IE:6720) Nonlinear Optimization 3 s.h.

Mathematical models, theory, algorithms for constrained and unconstrained optimization; nonlinear, geometric, quadratic, dynamic programming; optimality conditions; aspects of duality theory.

056:274 (IE:6750) Stochastic Optimization 3 s.h.

General tools and approaches used in decision making under uncertainties; modeling of uncertainties and risk, changes that uncertainties bring to the decision process, difficulties of incorporating uncertainties into optimization models, common techniques for solving stochastic problems.

056:275 (IE:6760) Statistical Pattern Recognition 3 s.h.

Fundamental mathematical tools for multivariate statistical analysis and decision-making processes in pattern recognition. Requirements: graduate standing.

056:276 (IE:6770) Game Theory 3 s.h.

Problems, challenges, solution strategies, and other elements that arise among decisions makers who have aligned or opposing objectives; changes that collaboration and competition bring to decision making and problem solving; how ideas and concepts of game theory can be used to understand economic, industrial, social, and biological phenomena. Requirements: basic linear programming and probability.

056:277 (IE:6780) Financial Engineering and Optimization 3 s.h.

Quantitative methods of modeling various financial instruments (i.e., stocks, options, futures) and tools for measurement and control of risks inherent to financial markets; fundamentals of interest rates; options and futures contract valuation, including weather and energy derivatives; risk management and portfolio optimization; emphasis on modeling and solution techniques based on optimization and simulation approaches traditional to industrial engineering and operations research. Recommendations: basic knowledge of probability and statistics, numerical methods, and optimization.

056:287 (IE:5870) Health Informatics II 3 s.h.

Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 096:289 (NURS:5301), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

Graduate Seminars, Advanced Topics, Research**056:191 (IE:5000) Graduate Seminar: Industrial Engineering** 1 s.h.

Recent advances and research in industrial engineering presented by guest lecturers, faculty, students. Requirements: graduate standing.

056:195 (IE:5995) Contemporary Topics in Industrial Engineering arr.

New topics or areas of study not offered in other industrial engineering courses; topics based on faculty/student interest.

056:198 (IE:5998) Individual Investigations: Industrial Engineering arr.

Individual projects for industrial engineering graduate students: laboratory study, engineering design, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

056:199 (IE:5999) Research: Industrial Engineering M.S. Thesis arr.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for M.S. with thesis in industrial engineering. Requirements: graduate standing.

056:295 (IE:7995) Advanced Topics: Industrial Engineering arr.

Discussion of current literature in industrial engineering.

056:298 (IE:7998) Special Topics in Industrial Engineering arr.**056:299 (IE:7999) Research: Industrial Engineering Ph.D. Dissertation** arr.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for Ph.D. in industrial engineering.

Mechanical Engineering

Special Topics

058:000 (ME:0000) Cooperative Education Training Assignment: Mechanical Engineering 0 s.h.

Mechanical engineering students participating in the Cooperative Education Program register in this course during work assignment periods; registration provides a record of participation in the program on the student's permanent record. Requirements: admission to the Cooperative Education Program.

058:002 (ME:0002) Half-time Cooperative Education Training Assignment: Mechanical Engineering 0 s.h.

Registration for work assignment periods; for students participating in the Cooperative Education Program.

058:098 (ME:4098) Individual Investigations: Mechanical Engineering arr.

Individual projects for mechanical engineering undergraduate students; laboratory study; engineering design project; analysis, synthesis, simulation of an engineering system; computer software development, research.

General Topics

058:020 (ME:2020) Mechanical Engineering Sophomore Seminar 0 s.h.

Introduction to the mechanical engineering profession and curriculum; ethics and professionalism in classroom and workplace; mentorship program and professional societies; visits to laboratories and local companies. Requirements: sophomore or transfer standing.

058:051 (ME:3351) Engineering Instrumentation 2 s.h.

Basic elements of measuring circuits (bridges, voltage dividers, shunts, transformers); laboratory instrumentation (oscilloscopes, multimeters, power supplies, signal generators); amplifiers; frequency response principles; sensors; data acquisition, signal processing, filtering using Labview. Prerequisites: 029:082 (PHYS:1612) and 059:008 (ENGR:2120).

058:080 (ME:4080) Experimental Engineering 4 s.h.

Principles of physical measurements; standards calibration, estimation of error; static and dynamic performance of measuring systems; laboratory experience, experiment planning, report writing. Prerequisites: 058:051 (ME:3351). Corequisites: 058:045 (ME:3045) and 058:052 (ME:3052).

058:086 (ME:4086) Mechanical Engineering Design Project 2-3 s.h.

Application of mechanical, thermal, fluid systems design; student or team design projects initiated at various levels in the design process and carried through to higher levels; emphasis on synthesis, written and oral communication. Corequisites: 058:048 (ME:4048) or 058:055 (ME:4055).

058:091 (ME:3091) Professional Seminar: Mechanical Engineering 0 s.h.

Professional aspects of mechanical engineering: presentations, student/faculty interaction, professional society involvement, panel discussions, plant trip. Requirements: junior standing.

058:110 (ME:4110) Computer-Aided Engineering 3 s.h.

Computational engineering modeling and simulation, geometric modeling, grid generation, finite-element and finite-volume methods, uncertainty analysis, optimization, engineering applications. Prerequisites: 057:019 (ENGR:2750) and 058:052 (ME:3052). Same as 053:115 (CEE:4515).

058:111 (ME:4111) Numerical Calculations 3 s.h.

Development of algorithms for functional approximations, numerical differentiation and integration; solution of algebraic and differential equations, with emphasis on digital computations; initial and boundary value problems. Prerequisites: 22M:034 (MATH:2560). Same as 053:111 (CEE:4511).

058:112 (ME:4112) Engineering Design Optimization 3 s.h.

Engineering design projects involving modeling, formulation, and analysis using optimization concepts and principles; linear and nonlinear models, optimality conditions, numerical methods. Prerequisites: 22M:033 (MATH:2550) and 059:007 (ENGR:2110). Requirements: junior standing. Same as 053:112 (CEE:4512).

058:113 (ME:5113) Mathematical Methods in Engineering 3 s.h.

Linear ordinary differential equations, series solutions of differential equations, special functions, Laplace transforms, Fourier series, matrices, linear systems, eigenvalue problems, second-order partial differential equations. Prerequisites: 22M:033 (MATH:2550) and 22M:034 (MATH:2560). Same as 052:118 (CBE:5140), 053:113 (CEE:5513).

058:114 (ME:4114) Predictive Human Modeling 3 s.h.

Introduction to basic concepts of predictive human modeling, fundamental programming, Denavit-Hartenberg notation (robotics), optimization, posture prediction, interface development, validation, and applied problems for digital human models (DHM). Prerequisites: 22M:033 (MATH:2550) and 059:006 (ENGR:1300).

058:115 (ME:4115) Finite Element I 3 s.h.

One- and two-dimensional boundary value problems; heat flow, fluid flow, torsion of bars; trusses and frames; isoparametric mapping; higher order elements; elasticity problems; use of commercial software. Prerequisites: 057:019 (ENGR:2750). Same as 053:133 (CEE:4533).

058:131 (ME:4131) Manufacturing Systems 3 s.h.

Manufacturing and logistics systems, supply chain management, MRP/ERP systems, lean manufacturing, concurrent engineering, value stream mapping and six sigma. Offered spring semesters. Prerequisites: 056:032 (IE:2032) and 056:171 (IE:3700). Same as 056:131 (IE:3300).

058:186 (ME:4186) Enhanced Design Experience 2-3 s.h.

Experience working in teams on industry-sponsored design and product development projects scheduled for production; emphasis on practical experience with the complete design process, from conceptualization through prototyping, evaluation, testing, and production; written and oral communication. Prerequisites: 058:086 (ME:4086).

Thermal Engineering and Fluids**058:040 (ME:3040) Thermodynamics II** 3 s.h.

Power and refrigeration cycles; mixtures of gases, psychrometric mixtures; availability; thermodynamics of combustion and chemical equilibrium. Prerequisites: 059:009 (ENGR:2130).

058:045 (ME:3045) Heat Transfer 3 s.h.

Principles of heat transfer by conduction, convection, radiation; analytical and numerical methods of solution; applications to engineering problems. Prerequisites: 22M:037 (MATH:3550) and 057:020 (ENGR:2510). Corequisites: 057:017 (ENGR:2730).

058:048 (ME:4048) Energy Systems Design 4 s.h.

Principles and design of energy conversion systems, including solar, wind, and geothermal power systems; design of thermal-fluid system components, modeling and simulation of systems, optimization techniques; design projects. Prerequisites: 058:040 (ME:3040) and 058:045 (ME:3045).

058:125 (ME:4125) Biomimetic Fluid Dynamics 3 s.h.

Study and development of engineered systems that mimic the structure and function of biological systems; overview of the fluid dynamic principles that govern locomotion by swimming or flapping flight; equations of motion, fundamentals of aerodynamics; analytical models of force generation for swimming and flight; parameters governing effective locomotion; experimental and numerical studies to understand the present state of the art, challenges, and important questions. Prerequisites: 057:020 (ENGR:2510).

058:140 (ME:5210) Intermediate Thermodynamics 3 s.h.

Fundamental principles of thermodynamics as applied to phase equilibrium; properties of fluids, first and second law, variable composition systems, behavior of real fluids, mathematical techniques for solution thermodynamics. Requirements: 052:103 (CBE:3105) or 058:040 (ME:3040) or graduate standing. Same as 052:117 (CBE:5110).

058:142 (ME:4142) Wind Turbine Aerodynamics 3 s.h.

Fluid mechanics of wind turbines and wind farms; engineering methodologies to design wind turbine blades; evaluation of rotor wakes; interaction between machines; effects of topography on wind turbine and wind farm performance. Prerequisites: 057:020 (ENGR:2510).

058:143 (ME:5143) Computational Fluid and Thermal Engineering 3 s.h.

Governing equations of fluid flow and heat transfer; basic numerical techniques for solution of the governing equations; estimation of accuracy and stability of the approximations; boundary conditions; grid generation; applications to flows and heat transfer in engineering systems; familiarity with software for analysis and design of thermo-fluids systems. Prerequisites: 058:045 (ME:3045).

058:145 (ME:5145) Intermediate Heat Transfer 3 s.h.

Steady and unsteady conduction; forced and natural convection; surface and gaseous radiation; condensation and evaporation; analytical and numerical methods and applications. Prerequisites: 058:045 (ME:3045).

058:146 (ME:5146) Modeling of Materials Processing 3 s.h.

Manufacturing processes for metals, polymers, semiconductors; processing by casting, solidification, crystal growth, polymer molding and extrusion, welding, heat treating, application of optical (laser) and electromagnetic energy; processes that use momentum, heat, mass transfer principles; measurement and instrumentation for materials processing; current topics in materials processing. Prerequisites: 058:045 (ME:3045).

058:147 (ME:5147) Fuel Cells 3 s.h.

Introduction to fuel cell designs and performance evaluation; thermodynamics, transport phenomena, and reaction fundamentals essential to understanding of the processes and phenomena that pose limits on fuel cell performance. Prerequisites: 058:040 (ME:3040) and 058:045 (ME:3045).

058:148 (ME:5148) Combustion Engineering 3 s.h.

Chemical kinetics, thermodynamic equilibrium, transport equations; thermodynamics of fluid flows; laminar flames; basic gas turbine cycles; propulsion systems—open gas turbine cycles, turboprop, turbofan, turbojet, ramjet; supersonic inlets; nozzle flows; contemporary propulsion concepts. Requirements: 058:040 (ME:3040) or graduate standing.

058:149 (ME:5149) Propulsion Engineering 3 s.h.

Opportunity to develop basic understanding and knowledge of rocket and airbreathing propulsion systems, relevant terminology and analysis techniques, parametric cycle analysis for ideal engines, off-design analysis methods, problem-solving methodology. Requirements: 058:040 (ME:3040) or graduate standing.

058:160 (ME:5160) Intermediate Mechanics of Fluids 3 s.h.

Basic concepts and definitions; pressure distribution in a fluid; governing equations and boundary conditions; integral and differential analysis; dimensional analysis and similarity; experimental analysis; laminar and turbulent internal and external flows; potential flows; engineering applications. Prerequisites: 057:020 (ENGR:2510) and 058:040 (ME:3040). Same as 053:169 (CEE:5369).

058:162 (ME:5162) Experimental Methods in Fluid Mechanics and Heat Transfer 3 s.h.

Review of theory; importance of experiments; modeling and scaling laws; experimental environment and facilities; measurements at full scale and on scaled models; use of wind and water tunnels, towing tanks, and hydraulic flumes; instruments for measuring pressure, temperature, velocity, turbulence; error analysis; data acquisition and processing; laboratory demonstrations, hands-on experiments; project. Same as 053:172 (CEE:5372).

058:163 (ME:5163) Environmental Fluid Dynamics 3 s.h.

Same as 053:175 (CEE:5375).

058:164 (ME:4164) Fundamentals of Wind Turbines arr.

Application of fundamental principles of thermodynamics, fluid mechanics, and mechanical systems to wind turbine engineering; fundamentals of horizontal-axis wind turbines, wind energy conversion to useful work; wind turbine aerodynamics, performance, design of components; overview of wind resource and historical development of wind turbines; introduction to wind turbine installation and wind farm operation. Prerequisites: 058:040 (ME:3040).

058:180 (ME:5180) Measurements in Fluid Mechanics: Fundamental and Advanced Topics 3 s.h.

General concepts in fluid mechanics measurement; classical methods for flow rate, pressure, velocity, temperature, concentration, and wall shear stress; state-of-the-art methods for flow visualization and full-field quantitative measurement; introduction to advanced optical measurement method, i.e., particle image velocimetry (PIV), and related image processing techniques; hands-on training with a class project assignment on writing a computer program to evaluate experimental image recordings. Prerequisites: 057:020 (ENGR:2510). Requirements: primary knowledge of fluid mechanics, thermodynamics, and heat transfer; basic skill in computer language.

058:245 (ME:6245) Diffusive Transport 3 s.h.

Diffusive transport of heat, mass, and momentum; phenomenological laws and analogies; analytical and numerical solution techniques; inverse heat conduction; multiphase and multicomponent systems. Prerequisites: 058:145 (ME:5145). Same as 052:272 (CBE:6145).

058:248 (ME:7248) Combustion Theory 3 s.h.

Laminar flame theory; turbulent combustion; spray combustion; thermal ignition; pollutant formation, oxidation; combustion diagnostics. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160). Requirements: graduate standing.

058:260 (ME:6260) Viscous Flow 3 s.h.

Equations of viscous flow; classical analytical and numerical solutions; flow regimes and approximations; laminar boundary layers—equations, solution methods, applications; stability theory and transition; incompressible turbulent flow—mean-flow and Reynolds-stress equations, modeling, turbulent boundary layers and free shear flows. Requirements: for 058:260 (ME:6260) — 058:160 (ME:5160); for 053:276 (CEE:6376) — 053:169 (CEE:5369). Same as 053:276 (CEE:6376).

058:262 (ME:6262) Inviscid Flow 3 s.h.

Derivation of governing equations for fluid flow; general theorems for motion of inviscid, incompressible flows; solution techniques for two- and three-dimensional irrotational flows; forces and moments acting on immersed bodies; vortex kinematics and dynamics; steady and unsteady aerodynamic theory. Prerequisites: 058:160 (ME:5160).

058:263 (ME:5263) Compressible Flow arr.

Compressible flow behavior; 1-D unsteady flow and appropriate use of x-t diagrams; 2-D flows and use of the method of characteristics; Burgers' Equation and its properties.

058:266 (ME:7266) Interfacial Flows and Transport Processes 3 s.h.

Physics of fluid interfaces and numerical techniques to simulate interface dynamics; interfacial flow coupled with thermal-fluid transport, from molecular interactions to continuum approximations; development of computer code segments to track and represent interface-flow interactions. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:267 (ME:7267) Multiphase Flow and Transport 3 s.h.

Thermodynamic and mechanical aspects of interfacial phenomena and phase transitions; nucleation, phase-change, species transport, particulate flows, liquid-vapor systems, solidification, porous media. Prerequisites: 058:145 (ME:5145) and 058:160 (ME:5160).

058:268 (ME:7268) Turbulent Flows 3 s.h.

Origin; need for modeling, averages, Reynolds equations, statistical description; experimental methods and analysis; turbulence modeling; free shear layers and boundary layers; complex shearflows; development of computational strategies; recent literature on theory and applications, chaos phenomena. Prerequisites: 058:160 (ME:5160).

058:269 (ME:7269) Computational Fluid Dynamics and Heat Transfer 3 s.h.

Development of numerical and algebraic approximations for elliptic, parabolic, hyperbolic partial differential equations; finite-volume, spectral, pseudo-spectral, Galerkin techniques; stability of numerical methods; CFL condition; stiff problems; adaptive grid generation and boundary-fitted coordinates; numerical solutions for one- and two-dimensional compressible and incompressible fluid flow and heat transfer problems. Prerequisites: 058:111 (ME:4111) and 058:160 (ME:5160). Requirements: graduate standing.

058:275 (ME:6275) Advanced Heat Transfer 3 s.h.

Conservation laws, forced and natural convection; surface and gaseous radiation; analytical and numerical methods; applications. Prerequisites: 058:145 (ME:5145).

058:281 (ME:5281) Computational Ship Hydrodynamics 3 s.h.

Introduction to computation of problems in three main areas of ship hydrodynamics—resistance and propulsion, seakeeping, and maneuvering; problems of simulating operating ships; modeling methods and numerical techniques used to approach these problems. Prerequisites: 058:143 (ME:5143) or 058:160 (ME:5160).

058:296 (ME:7296) Advanced Topics in Thermal and Fluid Engineering arr.

Thermodynamics, fluid mechanics, heat and mass transfer, related experimental and analytical techniques; selection of subject and content determined by instructor/student interest. Requirements: graduate standing.

Mechanical Systems**058:032 (ME:2032) Design for Manufacturing** 3 s.h.

Fundamentals of design, engineering graphics, and manufacturing processing; computer graphics using Pro/ENGINEER for CAD and CAM; typical industrial processes (machining, casting, welding, forming); prototype fabrication using additive manufacturing techniques; next generation manufacturing and design tools (BioCAD, biomanufacturing); engineering design, computer graphics, computer-aided design (CAD), engineering materials, traditional and nontraditional manufacturing techniques, numerically controlled machine tools, rapid prototyping, process planning, biomanufacturing, electronics manufacturing, MEMS, and automation; laboratory exercises and projects. Corequisites: 057:015 (ENGR:2720). Same as 051:062 (BME:2700), 056:032 (IE:2032).

058:052 (ME:3052) Mechanical Systems 3 s.h.

Topics in stress, deflection, stiffness, statistics, reliability, material behavior, manufacturing processes, static loads; introduction to finite element analysis using established software. Prerequisites: 057:019 (ENGR:2750). Corequisites: 22S:039 (STAT:2020), 057:015 (ENGR:2720), and 058:032 (ME:2032).

058:055 (ME:4055) Mechanical Systems Design 4 s.h.

Design considerations for mechanical engineering systems; strength, deformation, durability of mechanical elements; safe-life, fail-safe, damage-tolerant design; standards, products liability, ethics in design. Prerequisites: 058:052 (ME:3052).

058:133 (ME:5360) Control Theory 3 s.h.

State space approach; controllability, observability, canonical forms, Luenberger observers, feedback control via pole placement, stability, minimal realization and optimal control. Prerequisites: 055:060 (ECE:3600). Same as 055:160 (ECE:5600).

058:134 (ME:5362) Computer-Based Control Systems 3 s.h.

Discrete and digital control systems; application of computers in control; sampling theorem; discrete time system models; analysis and design of discrete time systems; control design by state variable and input/output methods; advanced topics in digital controls; lab. Prerequisites: 055:060 (ECE:3600). Same as 055:164 (ECE:5640).

058:136 (ME:5130) Digital Human Modeling and Simulation 3 s.h.

Fundamentals of using computational methods in modeling, simulating, and animating articulated kinematic chains such as robots and humans; underlying mathematics, introductory concepts in kinematics and dynamics, serial chain kinematics and multibody dynamics; methods from kinematics and dynamics, coupled with biomechanical concepts, provide an integrated approach to predicting and analyzing serial link motion (e.g., human and robotic manipulator motion). Prerequisites: 057:010 (ENGR:2710). Same as 051:162 (BME:5710).

058:150 (ME:5150) Intermediate Mechanics of Deformable Bodies 3 s.h.

Application of equilibrium analyses, strain-displacement relations, and constitutive relationships to practical structural systems and elementary plane elasticity problems. Prerequisites: 057:019 (ENGR:2750). Same as 053:140 (CEE:5540), 051:151 (BME:5660).

058:153 (ME:4153) Fundamentals of Vibrations 3 s.h.

Vibration of linear discrete and continuous mechanical and structural systems; harmonic, periodic, and arbitrary excitation; modal analysis; applications. Prerequisites: 057:019 (ENGR:2750). Same as 053:132 (CEE:4532).

058:154 (ME:5154) Intermediate Kinematics and Dynamics 3 s.h.

Kinematic and dynamic analysis of unconstrained and constrained planar mechanical systems; computational kinematics, variational and Lagrangian dynamics, constrained dynamics. Prerequisites: 057:010 (ENGR:2710). Corequisites: 058:052 (ME:3052).

058:159 (ME:5159) Fracture Mechanics 3 s.h.

3-D stress states, definition and criteria for failure, nominal and local yield phenomena, linear elastic and elastic plastic fracture mechanics, plane stress and plane strain fracture toughness, J-Integral, crack opening displacement, environmental assisted cracking, fatigue crack growth, fail safe, and damage tolerant design. Prerequisites: 051:085 (BME:4910) or 058:055 (ME:4055) or 058:150 (ME:5150). Same as 053:149 (CEE:5549).

058:167 (ME:5167) Composite Materials 3 s.h.

Mechanical behavior of composite materials and their engineering applications; composite constituents (fibers, particles, matrices) and their properties and behavior; macromechanical behavior of composite laminae; micromechanical predictions of composite overall properties; classical lamination theory; composite beams and plates. Prerequisites: 22M:025 (MATH:1850) and 057:019 (ENGR:2750). Same as 053:137 (CEE:5137).

058:179 (ME:3179) Continuum Mechanics arr.

Mechanics of continuous media; kinematics of deformation, concepts of stress and strain; conservation laws of mass, momentum and energy; constitutive theories; boundary and initial value problems. Prerequisites: 057:019 (ENGR:2750) or 057:020 (ENGR:2510). Same as 053:179 (CEE:3179).

058:214 (ME:6214) Analytical Methods in Mechanical Systems 3 s.h.

Vector and function spaces; functionals and operators in Hilbert spaces; calculus of variations and functional analysis with application to mechanics; Ritz and Galerkin methods. Prerequisites: 058:113 (ME:5113). Same as 053:214 (CEE:6310).

058:215 (ME:6215) Finite Element II 3 s.h.

Computer implementation; plate and shell elements; mixed and hybrid formulations; nonlinear analysis; recent development; introduction to boundary element method. Prerequisites: 053:133 (CEE:4533). Same as 053:233 (CEE:6532).

058:246 (ME:6246) Advanced Numerical Methods for Mechanical Systems 3 s.h.

Introduction to meshfree particle methods, extended finite element method, material stability analysis, thermal-mechanical coupling, and coupling of finite element/meshfree methods. Requirements: 058:115 (ME:4115) or 058:143 (ME:5143) or background in computational mechanics, computational chemistry, or computational physics.

058:247 (ME:6247) Contact Mechanics 3 s.h.

Varied aspects of contact mechanics and engineering applications, including stationary contacts, sliding, rolling, impact, and fretting fatigue; emphasis on theoretical basis of solutions of contact mechanics problems; mathematical methods of solving contact problems using Green's function method; complex potentials and integral transform methods. Prerequisites: 058:113 (ME:5113) and 058:150 (ME:5150).

058:250 (ME:7250) Advanced Fracture Mechanics 3 s.h.

Fracture of modern engineering materials; linear-elastic fracture; computational methods; functionally graded materials; elastic-plastic fracture; multiscale fracture and fatigue crack initiation. Prerequisites: 058:113 (ME:5113), and 058:115 (ME:4115) or 058:159 (ME:5159). Same as 053:250 (CEE:7250).

058:251 (ME:4251) Computational Inelasticity 3 s.h.

Computational techniques and implementations for elastic, hyperelastic, elasto-plastic, visco-elastic, and visco-plastic material models; development of sound numerical integration algorithms from rate constitutive equations. Prerequisites: 053:241. Same as 053:243 (CEE:4543).

058:252 (ME:6252) Advanced Continuum Mechanics 3 s.h.

Continuum mechanics of fluids and solids, balance laws, invariance restrictions, continuum thermodynamics, constraint theory, mixtures, materials with microstructure. Prerequisites: 058:262 (ME:6262). Same as 053:247 (CEE:6547).

058:254 (ME:6254) Energy Principles in Structural Mechanics 3 s.h.

Principles of virtual work; stationary and minimum potential energy; calculus of variations; Ritz method, Galerkin's method; beams, plates; Hamilton's principle; elastic stability; extremum principle of plasticity. Requirements: for 058:254 (ME:6254) — 058:113 (ME:5113) and 058:150 (ME:5150); for 053:244 (CEE:6544) — 053:113 (CEE:5513) and 053:140 (CEE:5540). Same as 053:244 (CEE:6544).

058:255 (ME:6255) Multiscale Modeling 3 s.h.

Computational modeling of engineering materials ranging from molecular to continuum scales, molecular dynamics and Monte Carlo methods, nanoscale continuum modeling, scale-coupling methods. Prerequisites: 058:115 (ME:4115) or 058:143 (ME:5143). Same as 053:249 (CEE:7549).

058:256 (ME:7256) Computational Solid Mechanics 3 s.h.

Advanced computational methods for nonlinear and dynamic analysis of solids, structures; new space- and time-discretization methods for problems, including highly nonlinearities, large deformation, contact/impact conditions. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:257 (ME:7257) Probabilistic Mechanics and Reliability 3 s.h.

Stochastic and reliability analysis of mechanical systems; computational methods for structural reliability; random eigenvalue problem; random field and stochastic finite element methods. Prerequisites: 058:113 (ME:5113) and 058:115 (ME:4115).

058:258 (ME:6258) Computational Ship Hydrodynamics 3 s.h.

Introduction to computation of problems in three main areas of ship hydrodynamics: resistance and propulsion, seakeeping, and maneuvering; focus on issues of simulating operating ships, modeling methods, and numerical techniques used to approach ship hydrodynamics. Prerequisites: 058:160 (ME:5160). Corequisites: 058:143 (ME:5143).

058:259 (ME:7259) Mechanical Design in Structures 3 s.h.

Discrete and continuum variational equilibrium equations, discrete design sensitivity analysis for static responses and eigenvalues, interactive design workstation, continuum sizing design sensitivity analysis for static responses and eigenvalues, design sensitivity analysis of structural dynamics, differentiability theory, shape optimal design, shape design sensitivity analysis, design sensitivity of nonlinear structural systems. Prerequisites: 058:113 (ME:5113), 058:115 (ME:4115), and 058:150 (ME:5150).

058:265 (ME:7265) Multiphysics Modeling of Solids 3 s.h.

Coupling of mechanical, electrical, electromagnetic, and thermal fields in solids; how to formulate and solve applied multiphysics problems where mechanical, electromagnetic, and thermal loads must be taken into account. Prerequisites: 058:150 (ME:5150).

058:278 (ME:6278) Nonlinear Elasticity 3 s.h.

Nonlinear elasticity theory; modern applications in biomechanics; vectors and tensors, constitutive theory of elastic material, some exact solutions of boundary value problems, inverse deformation relations, stability of elastic material, theories of tissue adaptive response. Prerequisites: 058:150 (ME:5150). Requirements: elementary linear elasticity.

058:295 (ME:7295) Advanced Topics in Mechanical Systems 3 s.h.

Advanced contemporary topics in mechanical systems engineering not covered in other courses and determined by student/faculty interest.

Graduate Seminars, Advanced Topics, Research

058:191 (ME:6191) Graduate Seminar: Mechanical Engineering 0 s.h.

Presentation and discussion of recent advances and research in mechanical engineering by guest lecturers, faculty, students. Requirements: graduate standing.

058:195 (ME:5195) Contemporary Topics in Mechanical Engineering arr.

New topics in fluid and thermal sciences and mechanical systems not covered in other courses; topic and coverage determined by student/faculty interest. Requirements: junior standing.

058:198 (ME:6198) Individual Investigations: Mechanical Engineering arr.

Individual project in mechanical engineering, for department graduate students; laboratory study, engineering design project, analysis and simulation of an engineering system, computer software development, research. Requirements: graduate standing.

058:199 (ME:6199) Research: Mechanical Engineering M.S. Thesis arr.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for M.S. with thesis in mechanical engineering. Requirements: graduate standing.

058:299 (ME:7299) Research: Mechanical Engineering Ph.D. Dissertation arr.

Experimental and/or analytical investigation of an approved topic for partial fulfillment of requirements for Ph.D. in mechanical engineering.

Technological Entrepreneurship

Undergraduate certificate: technological entrepreneurship

Web site: <http://www.engineering.uiowa.edu/about/tec/index.php>

The College of Engineering partners with the Tippie College of Business to offer the Certificate in Technological Entrepreneurship. The program is administered by the John Pappajohn Entrepreneurial Center in the business college.

Undergraduate Program

- Certificate in Technological Entrepreneurship

Certificate

The Certificate in Technological Entrepreneurship requires a minimum of 18 s.h. of credit. Certificate students study how the entrepreneurial process relates to technology-based businesses. The program is intended for students who plan to start and operate their own businesses as well as for those who would like to develop an understanding of how to manage innovation in business environments.

Students who complete the certificate program are able to:

- understand sound business thinking;
- use team-building skills in small and large companies;
- understand the entrepreneurial approach to acquiring and managing resources;
- create a business plan;
- bridge engineering and business principles; and
- network with businesses and industries.

The certificate program is open to Bachelor of Science in Engineering students who have earned at least 45 s.h. of credit toward the B.S.E. and have a University of Iowa g.p.a. of at least 2.75. Students must declare their intention to pursue the certificate with the certificate program coordinator and must apply for admission using the application form available online or at the College of Engineering Office of the Dean.

Students must complete at least 12 s.h. of the 18 s.h. required for the certificate at The University of Iowa or in approved study abroad courses. They must maintain a g.p.a. of at least 2.00 in work toward the certificate. Students must be granted the B.S.E. and complete all certificate requirements in order to receive the certificate. Completion of the certificate is noted on the student's transcript.

The Certificate in Technological Entrepreneurship requires the following course work.

ENTREPRENEURSHIP CORE

Both of these:

06T:120 (ENTR:2000) Entrepreneurship and Innovation	3 s.h.
06T:133 (ENTR:3100) Entrepreneurial Finance	3 s.h.

FINANCIAL FOUNDATION

One of these:

06A:001 (ACCT:2100) Introduction to Financial Accounting	3 s.h.
06T:150 (ENTR:4400) Managing the Growth Business	3 s.h.
056:054 (IE:2500) Engineering Economy	3 s.h.

ENGINEERING PROGRAM COURSE

One of these, depending on the student's engineering major:

051:085 (BME:4910) Biomedical Engineering Senior Design I (biomedical engineering majors)	4 s.h.
052:186 (CBE:4110) Chemical Engineering Process Design II (chemical engineering majors)	3 s.h.
053:084 (CEE:3084) Project Design and Management in Civil Engineering (civil engineering majors)	3 s.h.
055:089 (ECE:4890) Senior Electrical Engineering Design (electrical engineering majors)	3 s.h.
056:160 (IE:4600) Operational Systems Design (industrial engineering majors)	3-4 s.h.
058:086 (ME:4086) Mechanical Engineering Design Project (mechanical engineering majors)	2-3 s.h.

ENTREPRENEURSHIP ELECTIVES

Students customize their programs with their choice of electives. They earn sufficient elective credit to reach the total of 18 s.h. required for the certificate.

06T:146 (ENTR:3400) Strategic Management of Technology and Innovation	3 s.h.
06T:150 (ENTR:4400) Managing the Growth Business	3 s.h.
06T:192 (ENTR:4200) Entrepreneurship: Business Consulting	3 s.h.
051:086 (BME:4920) Biomedical Engineering Senior Design II	4 s.h.
Other entrepreneurship courses (prefix 06T)	

Graduate College

Dean

Senior associate dean

Dale Eric Wurster

Associate deans

Daniel Berkowitz, Minnetta Gardinier

Assistant dean

Tarrell Awe Agahe Portman

Web site: <http://www.grad.uiowa.edu>

The University of Iowa has been a leading center of advanced study for more than a century. Presently, the Graduate College accounts for nearly one-fifth of the University's total enrollment. This high ratio reflects the breadth of the University's graduate programs and resources, the strength of a graduate faculty with a long tradition of personal and professional concern for students, and the opportunities afforded graduate students for involvement, recognition, and support.

The Graduate College is responsible for the review and approval of proposals for new graduate programs and for the periodic survey and evaluation of existing programs. Through its administration of scholarship, fellowship, and research assistantship funds, the college encourages research and strengthening of departments. In cooperation with the Office of the Vice President for Research, it offers assistance to individual faculty members in finding the resources necessary for research projects, and it works with the other colleges and departments of the University to formulate policies concerning selection, supervision, and support of graduate students.

The faculty of the Graduate College is made up of all University tenure-track faculty members at the ranks of assistant professor, associate professor, and professor. A 17-member Graduate Council, elected from and by the graduate faculty and the Graduate Student Senate, is the executive committee of the graduate faculty and is advisory to the dean of the Graduate College.

Degrees Offered

The Graduate College confers the Master of Arts (M.A.), Master of Science (M.S.), Master of Accountancy (M.Ac.), Master of Arts in Teaching (M.A.T.), Master of Computer Science (M.C.S.), Master of Fine Arts (M.F.A.), Master of Health Administration (M.H.A.), Master of Physical Therapy (M.P.T.), Master of Public Health (M.P.H.), Educational Specialist (Ed.S.), Master of Science in Nursing (M.S.N.), Master of Social Work (M.S.W.), Doctor of Philosophy (Ph.D.), Doctor of Musical Arts (D.M.A.), Doctor of Nursing Practice (D.N.P.), Doctor of Physical Therapy (D.P.T.), and Doctor of Audiology (Au.D.) degrees.

The college currently confers degrees in the following major fields.

Accounting: M.Ac.**

African American World Studies: M.A.*

American Studies: M.A.*, Ph.D.

Anatomy and Cell Biology: M.S., Ph.D.

Anthropology: M.A.*, Ph.D.

Applied Mathematical and Computational Sciences: Ph.D.

Art: M.A.*, M.F.A.

Art History: M.A.*, Ph.D.

Asian Civilizations: M.A.*

Astronomy: M.S.*

Biochemistry: M.S., Ph.D.

Biology: M.S.*, Ph.D.

Biomedical Engineering: M.S.*, Ph.D.

Biostatistics: M.S.*, Ph.D.

Book Arts: M.F.A.

Business Administration: M.A.*, Ph.D.

Chemical and Biochemical Engineering: M.S.*, Ph.D.

Chemistry: M.S.*, Ph.D.

Civil and Environmental Engineering: M.S.*, Ph.D.

Classics: M.A.*, Ph.D.

Clinical Investigation: M.S.*

Communication Studies: M.A.*, Ph.D.

Community and Behavioral Health: M.S., Ph.D.

Comparative Literature: Ph.D.

Comparative Literature--Translation: M.F.A.

Computer Science: M.S.*, M.C.S.***, Ph.D.

Dance: M.F.A.

Dental Public Health: M.S.

Economics: M.A.*, Ph.D.

Education: M.A.*, M.A.T.***, Ed.S.***, Ph.D.

Educational Policy and Leadership Studies: M.A.*, Ed.S.***, Ph.D.

Electrical and Computer Engineering: M.S.*, Ph.D.

English: M.A.*, M.F.A., Ph.D.

Epidemiology: M.S.*, Ph.D.

Exercise Science: M.S.*

Film and Video Production: M.A.*, M.F.A.

Film Studies: M.A.*, Ph.D.

Free Radical and Radiation Biology: M.S.*, Ph.D.

French and Francophone World Studies: M.A.*, Ph.D.

Genetics: Ph.D.

Geography: M.A.*, Ph.D.

Geoscience: M.S.*, Ph.D.

German: M.A.*, Ph.D.***

Greek: M.A.*

Health and Sport Studies: M.A.*, Ph.D.***

Health Management and Policy: M.H.A.**, Ph.D.

Health Services and Policy: Ph.D.

History: M.A.*, Ph.D.

Human Toxicology: M.S., Ph.D.

Immunology: Ph.D.

Industrial Engineering: M.S.*, Ph.D.

Informatics: M.S.*, Ph.D.

Integrative Physiology: Ph.D.

International Studies, M.A.*

Journalism: M.A.*

Latin: M.A.*

Leisure Studies: M.A.*

Library and Information Science: M.A.*

Linguistics: M.A.*, Ph.D.

Mass Communications: Ph.D.

 Women's Studies: Ph.D.***

*Degree offered with or without thesis

**Nonthesis degree

***Student entry suspended

Interdisciplinary Degree Programs

The Graduate College participates in a number of University of Iowa interdisciplinary degree programs. Detailed information about the following master's and doctoral degree programs is provided later in this section of the Catalog: Applied Mathematical and Computational Sciences (p. 827), Genetics (p. 837), Human Toxicology (p. 839), Immunology (p. 841), Informatics (p. 843), International Studies, Molecular and Cellular Biology (p. 855), Neuroscience (p. 858), Second Language Acquisition (p. 864), and Translational Biomedicine (p. 870).

In addition to the degree programs listed above, the graduate faculty has authorized the awarding of interdisciplinary master's and doctoral degrees. Students seeking approval for interdisciplinary master's and doctoral programs must previously have been admitted to and enrolled in a departmental program in the Graduate College. See sections X.A. and XII.D. in the Manual of Rules and Regulations of the Graduate College on the college's web site or in this section of the Catalog.

Joint Programs

Joint Programs Offered Through the Graduate College

Various joint programs have been developed whereby students work simultaneously toward two degrees.

Consult the appropriate Catalog sections for more information. Established joint programs include business administration/library and information science; health management and policy/business administration; health management and policy/urban and regional planning; occupational and environmental health/urban and regional planning; public health/law; public health/medicine; public health/pharmacy; public health/veterinary medicine; and social work/urban and regional planning.

Joint B.S./Ph.D. in Biochemistry

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.S./Ph.D. program in biochemistry. The program permits students to count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements before they have been awarded the B.S. degree. See Biochemistry (p. 930) in the Catalog.

Joint B.A. in Biology/M.P.H. (Epidemiology Subtrack) or M.S. in Epidemiology

The Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health offer a joint B.A./M.P.H. or M.S. in biology and epidemiology. The program permits students to count 12 s.h. toward both the B.A. and the M.P.H. or M.S. degree requirements, enabling them to maximize their selection of upper-level classes for advanced training in epidemiology. See Biology (p. 115) and Epidemiology (p. 1066) in the Catalog.

Joint B.S.E./M.S. in Biomedical Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in biomedical engineering. B.S.E. students admitted to the program may count a limited number of courses toward both the B.S.E. and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master's thesis or research project before they have been awarded the B.S.E. degree. See Biomedical Engineering (p. 747) in the Catalog.

Joint B.S.E./M.S. in Chemical and Biochemical Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in chemical and biochemical engineering. B.S.E. students admitted to the program may count 12 s.h. of course work, typically advanced chemistry sequences and electives, toward both the B.S.E. and M.S. degree requirements. See Chemical and Biochemical Engineering (p. 757) in the Catalog.

Joint B.S.E. in Chemical Engineering/M.S. in Civil and Environmental Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in chemical engineering and civil and environmental engineering. B.S.E. students admitted to the program may count 12 s.h. of course work toward both the B.S.E. and M.S. degree requirements. See Chemical and Biochemical Engineering (p. 757) and Civil and Environmental Engineering (p. 767) in the Catalog.

Joint B.S.E./M.S. in Civil and Environmental Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in civil and environmental engineering. B.S.E. students admitted to the program may count a limited number of courses toward both the B.S.E.

and M.S. degree requirements. They also may attend and participate in the departmental graduate seminar and work on a master's thesis or research project before they have been awarded the B.S.E. degree. See Civil and Environmental Engineering (p. 767) in the Catalog.

Joint B.A. or B.S. in Computer Science/M.C.S.

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.A./M.C.S. or B.S./M.C.S. program in computer science. The program allows students to count 12 s.h. of course work, typically advanced technical courses and electives, toward both the bachelor's and the M.C.S. degree requirements. See Computer Science (p. 183) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S. in Electrical and Computer Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in electrical and computer engineering. B.S.E. students admitted to the program may count 9 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements and engage in thesis-level research before they have been awarded the B.S.E. degree. See Electrical and Computer Engineering (p. 779) in the Catalog.

Joint B.A./M.A. in German

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.A./M.A. program in German. The program permits students to take 12 s.h. of course work that fulfills both B.A. and M.A. degree requirements and provides an opportunity for early entrance to advanced courses in German. See German (p. 309) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S. in Industrial Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in industrial engineering. B.S.E. students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 6 s.h. toward the M.S. degree requirements, attend one of the department's graduate seminars, and work on master's thesis research before they have been awarded the B.S.E. degree. See Mechanical and Industrial Engineering (p. 789) in the Catalog.

Joint Law and Graduate Degrees

Joint programs under which students can pursue degrees simultaneously in the College of Law and the Graduate College have been developed with the law college and a number of departments in the Graduate College. See College of Law (p. 880) in the Catalog.

Joint M.A. in Library and Information Science/Certificate in Book Studies

The joint M.A. in library and information science and Certificate in Book Studies/Book Arts and Technologies prepares students for careers in special collections librarianship. The 51 s.h. program trains individuals to manage varied types of special collections, such as rare books, manuscripts, archives, graphics, music, and ephemera. Successful completion of the program is noted on the student's transcript. See Center for the Book (p.

833) and Library and Information Science (p. 848) (both Graduate College) in the Catalog.

Joint B.A./M.A. in Linguistics

A joint B.A./M.A. program in linguistics with a specialization in Teaching English as a Second Language (TESL) is offered by the Graduate College and the College of Liberal Arts and Sciences. The program permits students to take a limited number of courses that fulfill both B.A. and M.A. degree requirements and provides for early entrance to advanced courses in linguistics. Joint B.A./M.A. students also may gain experience teaching ESL at the college level early in their graduate careers. See Linguistics (p. 397) (College of Liberal Arts and Sciences) in the Catalog.

Joint B.S.E./M.S. Mechanical Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in mechanical engineering. B.S.E. students admitted to the program may count 6 s.h. toward both the B.S.E. and M.S. degree requirements. They also may count an additional 6 s.h. toward the M.S. degree requirements, attend a graduate seminar, and participate in master's thesis research before they have been awarded the B.S.E. degree. See Mechanical and Industrial Engineering (p. 789) in the Catalog.

Joint B.S.E. in Mechanical Engineering/M.S. in Civil and Environmental Engineering

The Graduate College and the College of Engineering offer a joint B.S.E./M.S. program in mechanical engineering and in civil and environmental engineering. B.S.E. students admitted to the program may count 9 a.h. of course work toward both the B.S.E. and M.S. degree requirements. They also may count an additional 3 s.h. toward the M.S. degree requirements before they have awarded the B.S.E. See Mechanical and Industrial Engineering (p. 789) and Civil and Environmental Engineering (p. 767) in the Catalog.

Joint M.D./Ph.D. in the Medical Scientist Training Program

The Medical Scientist Training Program (MSTP) is an interdisciplinary M.D./Ph.D. program offered jointly by the Carver College of Medicine and the Graduate College. See Medical Scientist Training (p. 961) Program (Carver College of Medicine) in the Catalog.

Joint B.S./Ph.D. in Microbiology

The Graduate College and the College of Liberal Arts and Sciences offer a joint B.S./Ph.D. program in microbiology. The program permits students to count 12 s.h. of credit toward both the B.S. and Ph.D. degree requirements before they have been awarded the B.S. degree. See Microbiology (p. 963) in the Catalog.

Joint B.A. in Psychology/M.S. in Epidemiology

The Graduate College, the College of Liberal Arts and Sciences, and the College of Public Health offer a joint B.A./M.S. in psychology and epidemiology. The program permits students to count 12 s.h. of credit toward both the B.A. and M.S. degree requirements, enabling them to focus on public health earlier than they would if they earned two degrees separately. See Psychology (p. 477) and Epidemiology (p. 1066) in the Catalog.

Joint B.A./M.A.T. (Science Education Subtrack)

The Graduate College, the College of Education, and the College of Liberal Arts and Sciences offer a joint B.A./M.A.T. program for students pursuing a B.A. with a major in biology, chemistry, environmental sciences, or physics who wish to earn an M.A.T. in science education. The five-year program allows students to apply 18 s.h. of credit toward both the B.A. and the M.A.T. degree requirements. See Biology (p. 115), Chemistry (p. 127), Environmental Sciences (p. 247), or Physics and Astronomy (p. 451) (College of Liberal Arts and Sciences) or Teaching and Learning (p. 699) (College of Education) in the Catalog.

Joint Au.D./Ph.D. in Speech and Hearing Science

The Graduate College, through the Department of Communication Sciences and Disorders, offers the joint Au.D./Ph.D. program. The program requires 137 s.h., allowing students to count 30 s.h. toward both degrees (the Au.D. requires 95 s.h., and the Ph.D. requires 72 s.h.). The program is a natural choice for students who are interested in practicing audiology but who also wish to pursue academic, tenure-track faculty positions in university settings. See Communication Sciences and Disorders (p. 158) (College of Liberal Arts and Sciences) in the Catalog.

Certificate Programs

Several Graduate College programs offer certificates. For detailed information about each one, see Center for the Book (p. 833), Informatics (p. 843), Rhetorics of Inquiry (p. 861), and Transportation Studies (p. 872).

The Graduate College also participates with other University of Iowa colleges in offering the following graduate certificates.

Advanced Practice Nursing

The Certificate in Advanced Practice Nursing is a post-master's degree program that allows for advanced clinical training in four specialty tracks: pediatric nurse practitioner, adult/gerontology nurse practitioner, family nurse practitioner, and psychiatric/mental health nursing. Certificate requirements include advanced clinical core courses and a sequence of specialty courses. Successful completion of the specialty sequence qualifies a student to sit for certification as a nurse practitioner and/or a clinical nurse specialist. Completion of the certificate program is noted on the student's transcript. See College of Nursing (p. 1017) in the Catalog.

Aging Studies

The Aging Studies Program is a multidisciplinary certificate program administered by the College of Liberal Arts and Sciences in cooperation with other University of Iowa colleges. The 21 s.h. program is designed to complement graduate degree programs or to serve as a stand-alone nondegree program for students with academic, professional, research, or service career interests in aging. Completion of the Certificate in Aging Studies is noted on the student's transcript. See Aging Studies (p. 34) (College of Liberal Arts and Sciences) in the Catalog.

Agricultural Safety and Health

The Certificate in Agricultural Safety and Health is a postbaccalaureate program for practicing health care professionals serving rural areas, and health professions students who intend to practice in rural areas. The 12 s.h. program is designed to help rural health professionals address safety and health issues in farm settings. Successful completion of the program is noted on the student's transcript. See Agricultural Safety and Health (p. 1053) (College of Public Health) in the Catalog.

American Indian and Native Studies

The American Indian and Native Studies Program (AINSP) offers an interdisciplinary certificate program focusing on the histories, cultures, languages, arts, religious traditions, political and social organizations, economies, geographies, literatures, and contemporary legal and political concerns of Native Americans of the United States as well as other indigenous peoples of the Western Hemisphere. Successful completion of the Certificate in American Indian and Native Studies is noted on the student's transcript. See American Indian and Native Studies (p. 37) (College of Liberal Arts and Sciences) in the Catalog.

Biostatistics

The Certificate in Biostatistics is open to students in University of Iowa graduate degree programs outside biostatistics and to individuals admitted to the Graduate College as nondegree students. The certificate program enables students to add a formal biostatistics emphasis to their degree programs. The 15 s.h. program consists of two core courses and three elective courses. Students who complete the certificate in conjunction with a graduate degree may count a maximum of 6 s.h. of certificate credit toward their degree. See Biostatistics (p. 1054) (College of Public Health) in the Catalog.

College Teaching

The Certificate in College Teaching provides overarching administration and structure that complements discipline-oriented graduate teaching preparation programs. The 12 s.h. program has three parts: course work, teaching experience, and preparation of a teaching portfolio. The program is open only to graduate students enrolled in graduate degree programs. Successful completion of the program is noted on the student's transcript. Application is made through the College of Education. See Graduate Certificate in College Teaching on the College of Education web site.

Emerging Infectious Disease Epidemiology

The Certificate in Emerging Infectious Disease Epidemiology is a post-baccalaureate program designed to meet the training needs in emerging infectious disease of international public health professionals as well as graduate students at The University of Iowa. The 12 s.h. program requires one short term, intensive on-campus session, coupled with year-round, web-based, distance-learning course work. Applicants to the program must have earned a bachelor's degree. Successful completion of the program is noted on the student's transcript. See Emerging Infectious Disease Epidemiology (p. 1065) (College of Public Health) in the Catalog.

Gender, Women's, and Sexuality Studies

The Certificate in Gender, Women's, and Sexuality Studies is open only to students enrolled in graduate degree programs. The 16 s.h. program consists of six courses. It begins with foundation and theory core courses and ends with a capstone conference. See Gender, Women's, and Sexuality Studies (p. 268) (College of Liberal Arts and Sciences) in the Catalog.

Global Health Studies

The interdisciplinary Global Health Studies Program emphasizes international health problems and solutions in the developing and developed worlds, including the United States. Requirements for the Certificate in Global Health Studies include core courses, electives, foreign study and/or internship, a research project, and foreign language skills. Students do not need special health science courses to participate. Completion of the certificate program is noted on the student's transcript. Both the College of Liberal Arts and Sciences and the Graduate College award a Certificate in Global Health Studies. See Global Health Studies (p. 315) (College of Liberal Arts and Sciences) in the Catalog.

Multicultural Education and Culturally Competent Practice

The Certificate in Multicultural Education and Culturally Competent Practice is open to graduate students enrolled in graduate degree programs and to postbaccalaureate nondegree graduate students. The curriculum, which consists of five courses (15 s.h.), begins with an introductory course and ends with a capstone course. The College of Education and the School of Social Work collaborate to offer the certificate.

Sacred Music

The Certificate in Sacred Music is an interdisciplinary program with course offerings in sacred music, choral conducting/literature, keyboard, voice, religion, and art and art history. The certificate requires 25 s.h. It is open to students enrolled in a graduate degree program and to nondegree students who have been admitted to the Graduate College and who have consent of the certificate's faculty advisor. Successful completion of the certificate program is noted on the student's transcript. See Music (p. 425) (College of Liberal Arts and Sciences) in the Catalog.

Translational and Clinical Investigation

The Certificate in Translational and Clinical Investigation is designed for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. Certificate requirements include didactic course work, clinical research preceptorships, and clinical research seminar participation. Students in the certificate program must be practicing academic clinicians who have completed doctoral training. Successful completion of the program is noted on the student's transcript. See Epidemiology (p. 1066) (College of Public Health) in the Catalog.

Affiliated Programs

Office of Graduate Ethnic Inclusion

The Office of Graduate Ethnic Inclusion (OGEI) is dedicated to providing academic assistance to graduate students from underrepresented populations across graduate programs; to helping build a sustainable practice of inclusion that nourishes and attracts underrepresented graduate students campus wide; and to helping build community through individual and group activities focused on successful academic progress.

OGEI's specific goals are to increase numbers of underrepresented ethnic minorities in graduate programs; increase the number of doctoral students among U.S. ethnic minorities in graduate programs at Iowa; create a department-centered effort of graduate ethnic inclusion; offer support to University of Iowa departments and programs that are interested in building, extending, or sustaining their practices of ethnic inclusion; support faculty-based efforts for recruiting top graduate scholars who are underrepresented ethnic minorities; provide mentoring and support for students throughout their degree programs; and provide information on grant opportunities for departments and programs that are pursuing graduate ethnic inclusion.

Women in Science and Engineering

Women in Science and Engineering (WISE) is dedicated to expanding and improving educational and professional opportunities for women in STEM disciplines (science, technology, engineering, and mathematics). The program aims to provide academic support, promote professional development, facilitate research opportunities, engage in community outreach, and encourage global cooperation.

WISE provides academic support by promoting activities that motivate and encourage undergraduate and graduate students to complete degrees and pursue careers in scientific and technical fields. It supports the recruitment and retention of women students, staff, and faculty and the full participation of women and precollege girls in gender-equitable educational programs that focus on science and engineering. The program facilitates professional development by promoting activities that empower women scientists, engineers, mathematicians, and health professionals to achieve success and assume leadership positions in their careers.

WISE encourages global cooperation by supporting activities that prepare women to enter the international STEM workforce, that support academic partnerships with foreign institutions, and that encourage scholarship and professional development of foreign women in STEM disciplines on the University of Iowa campus.

For more information on WISE goals and activities including the WISE learning community, WISE ambassadors, the Eunice Beam WISE travel grants, professional development workshops, and the WISE library and newsletter, visit the Women in Science and Engineering web site.

Research Resources

Many of the University's diverse research activities are centrally administered by the Office of the Vice President for Research, which has a cooperative relationship with the Graduate College.

Financial Support

Approximately half of the University's graduate students receive some form of University-administered financial assistance. For eligibility requirements and application procedures, see "Section VII. Graduate Appointments" in the Manual of Rules and Regulations of the Graduate College. The following are the primary sources of assistance.

Teaching and Research Assistantships

Teaching and research assistantships are available in most departments. Assistantship stipends typically range between \$17,330 for a half-time academic-year appointment and \$21,180 for a half-time fiscal-year appointment; assistants also are eligible for tuition scholarships. Assistants (one-quarter-time or more) are classified as residents for fee purposes.

Iowa Arts Fellowships

Iowa Arts Fellowships are for University of Iowa graduate students entering M.F.A. programs. Typical stipends are \$18,500 for the academic year, with all tuition (excluding mandatory fees) paid, plus a health insurance allowance, for a maximum of two years (the second year being contingent on demonstrated exceptional progress toward completion of the M.F.A.). There are no departmental service obligations.

Iowa Performance Fellowships

Iowa Performance Fellowships are for first-year D.M.A. candidates in a performance area of music. Recipients are nominated by the School of Music. Awards include academic-year fellowships (\$17,500 for year one, \$8,665 for years two and three), summer fellowships (\$2,000 for years one and two), and tuition (excluding mandatory fees). The School of Music provides a one-quarter-time research assistantship in years two and three.

Dean's Graduate Research Fellowships

Dean's Graduate Research Fellowships are awarded to first-year graduate students who are members of minority groups underrepresented in the nominating department's discipline area. Doctoral students receive an annual stipend of \$22,000 (\$18,000 for the academic year and \$4,000 for summer session) plus tuition (excluding mandatory fees) for the first year and final dissertation year. They also receive a half-time research or teaching assistantship stipend, tuition (excluding mandatory fees), and a summer stipend (\$4,000 if they register) during years two and three. Students earning a terminal master's degree (e.g., M.F.A.) receive fellowship support equivalent to one academic year (\$17,000) and are eligible to receive two summer session stipends (\$3,000 each if they register) and tuition (excluding mandatory fees) for two years. The master's fellowship support may be distributed over two academic years (\$8,500 per year), if requested. Both doctoral and master's degree fellows are expected to conduct mentored research and/or scholarly

activities while on fellowship support during the academic year and summer sessions.

Presidential Graduate Fellowships

Presidential Graduate Fellowships provide five-year awards for doctoral students on a year-round basis. Fellows receive an annual stipend of \$24,000 (\$18,500 for the academic year and a \$5,500 summer stipend), plus full tuition (excluding mandatory fees) for years one and four; a research assistant or teaching assistant stipend during the academic year and a \$5,500 summer stipend and full tuition (excluding mandatory fees) for years two and three. Recipients have no duties during their fellowship years and are eligible for up to four summers of support. In their final year, awardees are eligible to apply for a Ballard and Seashore Dissertation-Year Fellowship; those who do not receive the fellowship are awarded a research assistantship, a teaching assistantship, or a fellowship from their department.

Graduate College Summer Fellowships

Graduate College Summer Fellowships are for advanced doctoral students who have completed their comprehensive exams, are working to complete their dissertations, and so do not otherwise have funding for the summer session. Awards provide a summer stipend of \$3,000 plus tuition for 1-2 s.h. at the College of Liberal Arts and Sciences tuition rate. Awardees must enroll for the six-week or eight-week summer session; students enrolled in the three-week summer session are not eligible to receive the fellowship.

T. Anne Cleary International Research Fellowships

The T. Anne Cleary International Research Fellowships are for doctoral students who have completed all predissertation requirements, including the comprehensive examination, and who will use the fellowship for dissertation research outside North America. The awards may vary from \$1,500 to \$5,000 and are meant to supplement other research funds. Doctoral students in any discipline may apply. Past recipients of the Cleary fellowship and Doctor of Musical Arts students who choose the D.M.A. essay option are not eligible.

Ballard and Seashore Dissertation-Year Fellowships

Ballard and Seashore Dissertation-Year Fellowships are final-year fellowships for doctoral students in the humanities and social sciences who have completed all doctoral degree requirements except their dissertation. Recipients are nominated by their departments. Fellowships provide \$18,000 for the academic year plus tuition (excluding mandatory fees) for up to 2 s.h. and a health insurance allowance.

Scholarships

Scholarships provide up to full tuition.

GRADUATE STUDENT TRAVEL AWARDS

Graduate student travel awards provide reimbursement for travel by students who present research and scholarship results to professional conferences. Awards are competitive across disciplines and vary from \$200 to \$400. Funds are administered by the Graduate Student Senate and the Graduate College.

Other Sources

For other sources of financial support, contact the Office of Student Financial Aid.

Many departments offer additional support through traineeships, part-time employment in research, or part-time teaching appointments. The Office of the Vice President for Research maintains a library of information on public and private agencies that provide funds for research and graduate study. Much material has been collected concerning awards for overseas study.

Graduate Student Senate

The Graduate Student Senate is the University graduate student body representative organization. Representatives are elected annually from each University department that has a graduate degree program. The senate's primary purpose is to serve the interests of the graduate student body in matters affecting its welfare. The senate advises the dean of the Graduate College on matters pertaining to the college.

Manual of Rules and Regulations of the Graduate College

The following text is from the *Manual of Rules and Regulations of the Graduate College*. The most up-to-date version of this manual is available online; see "For Students" on the Graduate College web site.

The Academic Program

Section I. Admission to the Graduate College

A. APPLICATION PROCEDURE

All students seeking to register for the first time in the Graduate College of The University of Iowa must secure formal admission from the director of Admissions. Applicants may obtain the proper forms from the Office of Admissions. Prospective students may also download the application or apply online from the admissions web site.

In addition to these forms, official transcripts, test scores, and other supporting material must be submitted by the designated deadline prior to the session in which admission is expected. Specific deadline dates will be established by the dean of the Graduate College and the director of Admissions and printed in the Catalog and elsewhere.

B. ADVANCED MEASUREMENT TESTS

Each graduate program will determine which, if any, advanced measurement test(s) will be required of the applicants to the program. Examples of such examinations include the General (Aptitude) Test of the Graduate Record Examination (GRE), the GRE Subject (Advanced) Tests, and the Graduate Management Admission Test (GMAT). For those departments or programs that choose to require an examination, the examination must be required for all students; there cannot be exempt categories. Additionally, a final admission decision will not be made by the Office of Graduate Admissions until the student's scores have been received. The judgment of acceptable levels of performance on these tests, and the weight of such

scores in the overall decision-making process, is left to the department or program.

C. ENGLISH FOR INTERNATIONAL STUDENTS

Prior to consideration for admission, international student applicants whose native language is other than English must take and pass either the TOEFL (Test of English as a Foreign Language) or the IELTS (International English Language Testing System), unless they have received a degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand. These examinations are given at various times of the year and in many centers throughout the world.

International students transferring from unfinished degree programs of other universities in the United States who have not taken either of these examinations, or who have received a score lower than the minimum established by the Graduate College dean, must take the TOEFL or IELTS examination and receive a passing score prior to consideration for admission.

Students who barely pass the established minimum on the TOEFL, as well as all IELTS submitters, will be required to sit for an English evaluation upon arrival in Iowa City. The Graduate College will require these students to take and pass recommended course work in English usage at The University of Iowa designed especially for international students.

D. EARLY ADMISSION

A student who is within 6 s.h. of having satisfied all the requirements for the bachelor's degree at The University of Iowa or any other accredited college may be given provisional admission.

E. CANDIDACY

Admission to the Graduate College is not the equivalent of acceptance as a candidate for an advanced degree, which must be earned through work successfully completed at The University of Iowa. (See "Section X. Master's Degrees" and "Section XII. Doctor's Degrees.")

F. DECLARATION OF MAJOR AND DEGREE

Every applicant for admission must indicate on the application form the department or program of major interest and the degree, certificate, or professional objective he or she intends to pursue. The only exceptions to this regulation are the limited number of applicants registered as nondegree ("special") students. (See definition of nondegree status in next section.) Changes in the major or degree status may be made in the course of a student's graduate study with the approval of the department to which the transfer is proposed. To initiate such action, the student must file a change of major or degree status in the Office of Admissions.

G. ADMISSION REQUIREMENTS AND STATUS

Graduates of any college or university accredited by regional accrediting associations may be admitted to the Graduate College if their academic records meet the required standards. Upon admission, all students fall into one of the following three categories:

1. *Regular*--For students who have met the minimum requirements for admission and who have been accepted by a department, or interdepartmental degree program, for work leading to a graduate degree or certificate or

for professional improvement. The minimum g.p.a. for admission as a regular student to all graduate programs is 3.00.

Departments or programs may petition the Graduate College dean for admission of a student whose g.p.a. is lower than 3.00, if there is sufficient evidence of the student's academic and/or professional achievement indicating his/her potential for success in a graduate program.

Departments, or committees in charge of interdepartmental degree programs, may, and often do, set higher minimum admission requirements than those set forth above for the Graduate College as a whole. Information concerning departmental or program requirements may be obtained directly from the executive of the department concerned.

2. *Conditional*--Students who are interested in working toward a graduate degree or certificate but who are required by a department to demonstrate their ability to do satisfactory graduate work before being admitted to regular status. To be admitted on a conditional basis, the student must be recommended by a department, which will assume responsibility for advising him or her. The student on conditional status must achieve regular status within two sessions of registration in the Graduate College by attaining a g.p.a. of at least 3.00 and acceptance by the major department, or be dismissed.

3. *Nondegree (Special)*--Students with a valid bachelor's degree and at least a 2.50 g.p.a. are eligible to register for a total of no more than two courses per semester. In addition, a nondegree student may not accumulate more than two courses within a given department/program under this classification. These students must be approved for admission by the Graduate College and the Office of Admissions. Nondegree graduate students are not eligible for a graduate degree.

H. ADMISSION OF FACULTY MEMBERS TO GRADUATE STUDY

Persons who hold faculty rank of assistant professor (including clinical assistant professor) or above at The University of Iowa may be admitted as nondegree students. (See "Section G" above.) A person holding faculty rank as specified above may petition the Graduate College dean for permission to enter a departmental program for work leading to an advanced degree, certificate, or professional improvement except in the department of his or her appointment or a closely related department. Such petitions must have prior approval of the department of appointment, dean of the college of appointment, the department in which study is to be pursued, and the Graduate College.

I. READMISSION

If a student's enrollment is interrupted for any reason so that she or he is not enrolled for three consecutive academic sessions (including the spring, summer, and fall sessions but excluding the winter session), the student must apply for readmission. The readmission application form must be used. The Graduate College will not require new letters of recommendation, a new Personal Statement section, a written explanation of the reasons for the absence, or a plan for degree completion. However, departments and programs may choose to require any or all of the foregoing.

Section II. Registration

A. STANDARD SCHEDULE

Students registered in the Graduate College may register for no more than 15 s.h. in all courses eligible for graduate credit (100-level or above). A maximum, graduate semester-hour registration will include all courses numbered 100 or above, whether they are offered as on-campus, extension, or workshop classes. In a schedule of mixed graduate and undergraduate courses, two hours of undergraduate credit may be substituted for 1 s.h. of graduate credit, with registration limited to a total of 18 s.h. This equivalency applies to the calculation of academic load only. Graduate credit is not given for courses numbered under 100. The maximum for the eight-week summer session is 8 s.h. Corresponding maximums for the three-week summer and winter sessions and the six-week summer session are 3 or 6 s.h., respectively.

The maximum semester-hour registration for work scheduled outside of the regular eight-week summer session will be arranged on a basis proportionate to that stated above with the approval of the Graduate College dean. In the regular semester, 9 s.h. constitutes full-time registration. (Fellows are required to carry at least 9 s.h. during a semester as a condition of their appointments.) One-quarter-time and one-third-time appointees are permitted to register for the maximum 15 s.h. per semester and 8 s.h. during the eight-week summer session.

B. COURSES NOT INCLUDED IN FULL REGISTRATION

In addition to a full schedule, a graduate student may register for offered courses carrying 0 s.h. of credit.

C. CHANGES IN ANNOUNCED CREDIT

Graduate students may not register for more credit than that offered for any course, but may register for less credit, or no credit, by permission of the instructor. The number of courses a graduate student may take for limited or no credit is subject to the consent of the advisor and the approval of the dean of the Graduate College.

D. REDUCED SCHEDULES FOR TEACHING AND RESEARCH ASSISTANTS AND OTHER APPOINTEES*

1. One-half-time appointees may register for not more than 12 s.h. during a semester or 6 s.h. during the eight-week summer session.
2. Five-eighths-time appointees may register for not more than 10 s.h. during a semester or 5 s.h. during the eight-week summer session.
3. Two-thirds- and three-quarter-time appointees may register for not more than 9 s.h. during a semester or 5 s.h. during the eight-week summer session.

*See Section VII.F. for information regarding graduate assistant overload appointments (those more than one-half-time/20 hours per week).

E. RETROACTIVE REGISTRATION

No form of retroactive registration is permitted.

F. REGISTRATION FOR PART OF A SESSION

A graduate student may register at any time during the semester or the eight-week summer session for not more than 1 s.h. of credit for each of the remaining weeks of classes (not including the examination period) in the term. The total registration may not exceed the 15 s.h.

permitted for a semester and the 8 s.h. permitted for the eight-week summer session. Registration after the last day of the second week of a semester or the third day of the second week of a summer session is permitted only in courses involving special projects, readings, individual study, thesis, or research, with the signed approval of the instructor concerned and the Graduate College dean. Proportional credit limitations and deadlines for the three-week and six-week summer sessions will be established on a prorated basis.

G. EXTRAMURAL REGISTRATION

After admission to a departmental program in the Graduate College, registration for work done off campus may be accepted for residence credit under the following circumstances:

1. Traveling Scholar Program of the Committee on Institutional Cooperation (see "Section III").
2. Research at approved locations under the direction of members of the graduate faculty of The University of Iowa.
3. Fieldwork as part of a regularly scheduled course or research program.
4. Courses taught off campus by members of the graduate faculty (see "Section X.D" and "Section XII.C" for minimum semester hours required on campus for the master's and doctor's degrees).
5. Residence graduate credit from another Iowa Regents' university (see "Section V.B").
6. As many as 9 s.h. of graduate work taken at the Quad Cities Graduate Center from faculty other than faculty of the Iowa Regents' universities, provided the work is acceptable to the student's major department for the specified degree.

Extramural registration does not count toward residence credit in the following circumstance:

Course work transferred from another institution.

H. SYSTEM OF COURSE NUMBERS

Courses primarily for graduate students are numbered 200 or above in each department. Courses open to and carrying credit for both graduate and undergraduate students are numbered from 100 to 199. A student must be enrolled in the Graduate College in order to earn graduate credit for course work numbered 100 or above. Courses below 100 are not accepted for graduate credit irrespective of a student's classification. Graduate credit may not be earned for taking courses numbered below 100 by registering in such courses as readings, special projects, or independent study having course numbers of 100 or above.

I. AUDITING OF COURSES

Upon approval of the instructor and the advisor, graduate students may audit courses for zero credit. Fee assessment for auditing courses is based on the number of hours for which the course is offered, with a minimum of 1 s.h. Auditing is permitted only for a student who is currently registered. See "Section VI.C" for the marking system.

J. DROPPING OF COURSES

All graduate students who drop courses after the deadline date established by the dean of the Graduate College for each session and published by the registrar shall receive

the grade of F unless the entire registration is withdrawn. This regulation may be waived by the Graduate College dean only on the recommendation of the Student Health director or the Counseling Service. If a student withdraws registration after the deadline date, the student must obtain permission from the dean of the Graduate College before being permitted to reregister.

Section III. Traveling Scholar Program

A. PURPOSE

The program, under the auspices of the Committee on Institutional Cooperation representing 13 universities in the Midwest, enables a doctoral student to take advantage of special resources available on another campus but not available on his or her own campus: special course offerings, research opportunities, unique laboratories, and library collections.

B. PROCEDURE

1. A CIC Traveling Scholar first must be recommended by his or her own graduate advisor, who will approach an appropriate faculty member at the possible host institution in regard to a visiting arrangement.
2. After agreement by the student's advisor and the faculty member at the host institution, graduate deans at both institutions will be fully informed by the advisor and have the power to approve or disapprove.
3. A CIC Traveling Scholar will be registered at the home university, and fees will be collected and kept by that institution.
4. Credit for the work taken will be recorded at the home university.
5. Those desiring additional information should inquire at the office of the Graduate College.

C. CONDITIONS

CIC Traveling Scholars will normally be limited to two semesters or three quarters on another campus. Each university retains its full right to accept or reject any student who wishes to study under its auspices.

Section IV. Academic Standing, Probation, and Dismissal

A. NONDOCTORAL STUDENTS

A nondoctoral *departmental* (master's, professional improvement, certificate) student, except one on conditional status, shall be placed on probation if, after completing 8 s.h. of graduate work, the student's cumulative grade-point average on graduate work done at The University of Iowa falls below 2.75. If, after completing 8 more s.h. of graduate work at this University, the student's cumulative grade-point average remains below 2.75, the student shall be denied permission to reregister within any departmental program; otherwise the student shall be restored to good standing.*

Nondoctoral, *nondepartmental* (nondegree, extension, workshop) students shall be evaluated for probation and dismissal purposes based on the same semester-hour sequence as stated above, at a minimum cumulative grade-point average of 2.50.

*This requirement shall apply to students entering nondoctoral departmental programs beginning with the fall 2001 semester. A minimum cumulative grade-point

average of 2.50 is required of nondoctoral departmental students admitted prior to that session.

B. DOCTORAL STUDENTS

A doctoral student on regular status shall be placed on probation if, after completing 8 s.h. of graduate work, the student's cumulative grade-point average on graduate work done at The University of Iowa falls below 3.00. If, after completing 8 more s.h. of graduate work at this University, the student's cumulative grade-point average remains below the required level, the student shall be dropped from the program and denied permission to reregister unless the student applies and is accepted for a nondoctoral degree or certificate program. If, after completing the second 8 s.h., the cumulative grade-point average is at least 3.00, the student is returned to good standing.*

*This requirement shall apply to students entering doctoral programs beginning with the fall 1979 semester. A minimum cumulative grade-point average of 2.70 is required of students admitted to doctoral programs prior to that session.

C. RESTRICTION ON STUDENTS ON PROBATION

A student on probation shall not be permitted to take comprehensive or final examinations leading to any degree or certificate, nor may the student receive any graduate degree or certificate.

D. DEPARTMENTAL REGULATIONS AND DISSEMINATION OF INFORMATION

In addition to the above University-wide requirements, departments may establish further requirements which then determine the individual student's standing with regard to probation and dismissal. To this end, each department or program shall compile a written list of standards and procedures for work in that area. These documents shall be on file in each departmental office and the office of the Graduate College dean. Copies are to be available for students in the departmental office, and departments shall make all reasonable efforts to inform students. Subsequent changes in standards or procedures shall be communicated by the department to each student and the Graduate College dean. Whenever departments revise standards for a given program, the new regulations will not apply retroactively to the disadvantage of those already in the program. In addition to notifying students that they are subject to the rules of the Graduate College as set forth in the *Manual of Rules and Regulations*, any standards established by the department more stringent than the general Graduate College requirements shall be stated. Information shall be provided outlining required courses applicable to the various departmental programs of study, examination procedures and other formal evaluations, departmental policies with regard to awarding and renewing assistantships, time limits on programs of study, departmental registration policies, departmental grade-point requirements, requirements for changing from one degree program to another within the department--especially from the master's to the doctor's--departmental probation and dismissal policies and procedures (see "E" following), and other matters as are appropriate. The nature of the departmental advisory system shall be explained to incoming students.

E. ACADEMIC PROGRESS, DEPARTMENTAL PROBATION, AND DISMISSAL PROCEDURES

If a student is failing to meet departmental standards, the department shall warn the student of this fact in writing. The notification shall specify in what way(s) the student is failing to meet the standards. The student shall be provided a reasonable amount of time to meet the standards prior to departmental dismissal. If conditions such as conditional admission or probation are imposed, the department shall give, at the time of its imposition, written explanation of this status and its time limits.

A student who will not be permitted to reregister for failure to meet standards shall be notified of this fact in writing with reasons for the action provided. Such dismissal may follow failure to meet conditions of admission, conditions of probation, pre-announced departmental grade-point requirements or other standards, or failure of a regularly scheduled examination or formal evaluation. If a student judges the dismissal decision improper, the student has a right to review. Each department shall establish procedures for handling such reviews. The procedures are to be approved by the Graduate College dean and shall afford a fair and expeditious review. A description of these procedures shall be included in the departmental regulations described above. (See "Section IV.D.")

F. PLAGIARISM BY GRADUATE STUDENTS

The Online Oxford English Dictionary (<http://oed.com/view/Entry/144941?redirectedFrom=plagiarize#eid>) defines "plagiarize" as follows, "to take and use as one's own (the thoughts, writings, or inventions of another person); to copy (literary work or ideas) improperly or without acknowledgement; (occas.) to pass off as one's own the thoughts or work of (another)." In practice, the exact definition of "plagiarize" or "plagiarism" is dependent upon the unique attributes of the creative work of a particular discipline. Thus, it is understood that different academic disciplines and cultures may have different interpretations as to the actual actions which constitute plagiarism. With this in mind, the Graduate College will operate in the following manner when a program or department discovers an act or acts of plagiarism on the part of a graduate student.

1) If the faculty members of a program or department determine that the transgression is not major, or else feel that there is a misunderstanding of the acts which constitute plagiarism, the program or department may wish to work with the student so as to prevent future occurrences of plagiarism on the part of that student. Written notification of the offense and the remediation for the offense must be sent to the Graduate College for inclusion in the student's file.

2) If the faculty members of a program or department discover an act (or acts) of plagiarism that is (are) sufficiently egregious that expulsion from the program is warranted, the student will be terminated from his or her graduate program for reasons of plagiarism. In this case, the student will be simultaneously terminated from the Graduate College of The University of Iowa. The program or department must notify the student of his or her termination in writing. All relevant facts, as well as the process for appealing the decision, must be contained in the termination letter. The Graduate College must receive a copy of the termination letter. If the graduate student resigns from the program to avoid being terminated for

reasons of plagiarism, the student will be considered to have simultaneously resigned from the Graduate College.

The appeal process for students accused of academic misconduct is specified in The University of Iowa document, "Policies and Regulations Affecting Students, C. Academic Misconduct," which states: "Questions of academic dishonesty arising within the colleges of Medicine, Law, Pharmacy, and Dentistry, and the Graduate College are treated on an individual basis." "In the Graduate College, the questions [of academic dishonesty] are handled at the departmental level. If the departmental decision is appealed, the dean may appoint an appeals committee of faculty and students from a slate of nominees prepared by the Graduate Council and the Graduate Student Senate to recommend an appropriate course of action."

The appeal process must be initiated by the student. If the student wishes to appeal the department's or program's action, that appeal must be lodged with the Senior Associate Dean for Academic Affairs of the Graduate College within 30 days of program or departmental dismissal.

G. GRADUATE COLLEGE REVIEW OF DEPARTMENTAL DISMISSAL

Questions involving judgment of performance will not be reviewed beyond the department level. If, however, the student feels there has been unfairness or some procedural irregularity concerning dismissal, the student may pursue a grievance according to the Academic Grievance Procedure (AGP) established by the Graduate College. The AGP is available in the Graduate College. The student should consult with the Graduate College prior to initiating an academic grievance.

Section V. Credits

A. TRANSFER OF GRADUATE CREDIT

Graduate work at other institutions will be entered on the student's permanent record by the Office of Admissions and a report of this action will be sent to the student and to his or her major department. Credit for these courses toward an advanced degree at Iowa must have the approval of the major department and the dean of the Graduate College. (See "Section X.E." and "Section XII.E.", Reduction of Old Credits.)

B. RESIDENCE TRANSFER CREDIT

After admission to a departmental program in the Graduate College, residence graduate credit from another Iowa Regents' university may be counted as residence credit at this institution, provided such work is acceptable to the student's major department on the basis of the department's determination of its applicability toward the degree. (See "Sections X.D." and "XII.C" for minimum semester hours required on campus for the master's and doctor's degrees, and "Sections X.E. and XII.E.", Reduction of Old Credits.)

C. GRADUATE CREDIT FOR VETERANS

Credit may be granted for studies pursued in war and military situations under such regulations as may be formulated by the national educational agencies and under such adaptation of standing rules as the Graduate Council may authorize from time to time to meet group or individual situations. The value of such credit in satisfying

requirements for a degree will be determined by the major department with the approval of the dean.

D. WITHDRAWAL OF REGISTRATION AND PROPORTIONAL CREDIT FOR STUDENTS ENTERING MILITARY SERVICE

1. Students who leave within the first six weeks of the semester receive no credit.
2. Students who leave within the period of seven to nine weeks receive one-half credit.
3. Students who leave within the period of 10 to 12 weeks receive two-thirds credit.
4. Grade reports for the one-half and two-thirds credit periods: (a) Instructors report grades only as satisfactory or unsatisfactory. (b) Credit is to be assigned on the basis of total registration minus thesis and seminar. (c) Courses are to be counted toward specific degree requirements only after the student returns and then only with the department's approval.
5. Students who complete the twelfth week receive full credit.
6. Grade reports for the full-credit period: (a) Grades are to be reported only at the end of the semester. (b) Credit is to be reported in specific courses.
7. In each instance, the instructor reports the student's credit, grade, and date of withdrawal. No credit is granted unless the student's work is satisfactory at the time of leaving.
8. The amount of credit in thesis and research registration is to be reported to the registrar by individual instructors on the above basis except that less or zero credit may be assigned.

Section VI. Marking System

A. MARKS CARRYING GRADUATE CREDIT

These are A+, A, A-, B+, B, B-, C+, C, C-, and S--satisfactory.

B. MARKS CARRYING NO GRADUATE CREDIT

These are D+, D, D-, F, I--incomplete, W--withdrawn without discredit, R--registered, and U--unsatisfactory.

C. AUDIT

R is assigned when a student registered for zero credit attends as an auditor throughout the course; if the student fails to meet the instructor's auditing requirements, W is assigned.

D. INCOMPLETE

The grade of I is to be used only when a student's work during a session cannot be completed because of illness, accident, or other circumstances beyond the student's control. In registrations for thesis, research, or independent study, the satisfactory/unsatisfactory grades may be applied. (See next paragraph, "E".) An incomplete will automatically be converted to an F at the end of the next full semester (summer and winter sessions excluded), even if the student does not enroll after the session the I was posted.

Courses may not be repeated to remove incompletes; removal of an I is accomplished only through completion of the specific work for which the mark is given.

E. THESIS, RESEARCH, READINGS, INDEPENDENT STUDY, AND SPECIAL PROJECTS

Grades of S and U may be used for registrations in thesis, research, readings, independent study, and special projects. S--satisfactory means that the student receives credit for the work; U--unsatisfactory means that he or she receives no credit. Neither S nor U is used in computing grade-point averages. At a later date, the instructor may change the S to a letter grade. In addition, departments may ask the Graduate College dean for permission to use grades of S and U as described above for courses which, because of their special or experimental nature, are judged to be more appropriate for such grading. The type of grading system to be used in the above cases should always be mutually understood by the instructor and student.

F. GRADES OF S AND U

S and U may be used for courses taken by a graduate student outside the major department or interdepartmental degree program provided that the instructor of the course and the student's departmental advisor approve the registration. Arrangements for satisfactory/unsatisfactory grading in these courses are accomplished by filing a card with appropriate signatures in the Registrar's Office at the time of registration, or no later than the last day of the second week of a semester or the third day of the second week of a summer session. No changes from letter grades to satisfactory/unsatisfactory grades or vice versa will be allowed after these dates.

It is not the policy of the Graduate College to abandon the traditional letter grades described in this section; however, in certain exceptional instances, departments having several areas of concentration involving widely differing types of effort may request the permission of the Graduate Council to allow students majoring in one area to register in courses in another area within the same department or program on a satisfactory/unsatisfactory basis. In these instances, satisfactory/unsatisfactory cards will be used as described in the preceding paragraph.

G. COMPUTED GRADE-POINT AVERAGE

This is based only upon graduate work graded A+=4.33, A=4.00, A-=3.67, B+=3.33, B=3.00, B-=2.67, C+=2.33, C=2.00, C-=1.67, D+=1.33, D=1.00, D-=0.67, and F=0. Although a grade of A+ has a value of 4.33 in computing a student's g.p.a., the cumulative average is truncated so as not to exceed 4.00.

Section VII. Graduate Appointments

A. SCHOLARSHIPS

Scholarships are competitive and are awarded on merit.

1. Eligibility for graduate scholarships and fellowships will include but will not be exclusive to: (a) registration in the Graduate College; (b) cumulative g.p.a. of at least 3.00; (c) a satisfactory rate of progress in completing the program for the degree.

2. Preference will be given to candidates for the doctoral degree.

3. Recommendations for graduate scholarships may be made to the Graduate College by the appropriate department executive, director, or dean. A graduate scholarship may be awarded whether or not a student holds an assistantship. The amount of scholarship for the academic year may vary, but in no case exceed the

comprehensive fee assessed. Scholarships will be credited to the student's University account.

B. GRADUATE COLLEGE FELLOWSHIPS

Fellowships are awarded by the Graduate College upon recommendation by departments to students with outstanding academic records. Fellows must be registered as full-time students. The primary purpose of the awards is to permit an advanced student to complete his or her dissertation or creative project and take the degree. Other terms of the award will be established by the Graduate College dean in consultation with the Graduate Council.

C. FACULTY RESEARCH ASSISTANTSHIPS

Faculty research assistantships are awarded to qualified graduate students and serve two purposes: to provide research service to professorial members of the academic staff and to provide apprenticeship experience for graduate students who are in training in research. Not more than 20 hours of service per week are required of a half-time assistant. Other part-time service is scaled in proportion, and a limited academic schedule is permitted (see "Section II.D"). Appointments ordinarily are made for the nine-month academic year, but appointments may be made for other periods of time by special arrangement. Stipends vary with the qualifications of the appointee and the amount of service rendered.

D. GRADUATE TEACHING ASSISTANTSHIPS

These assistantships serve two purposes: assistance in the instructional program of the University and the preparation of future college teachers. In order to achieve both aims, scholastically superior graduate students who show exceptional promise as teachers are selected for graduate teaching assistantships. All appointments are made by the dean of the appropriate college on recommendation of the department.

E. ELIGIBILITY FOR SCHOLARSHIPS, FELLOWSHIPS, AND RESEARCH ASSISTANTSHIPS

Scholars, fellows, and faculty research assistants on the Graduate College budget must be registered as regular students in good standing in order to hold such appointments. Appointments will be terminated when registration and/or student status is terminated. In no instance may a student be promised or tendered an appointment until after approval for admission to the Graduate College by the director of Admissions.

F. GRADUATE ASSISTANT OVERLOAD APPOINTMENTS

Overload graduate assistantship appointments (those more than 20 hours/week) will be granted only when there is a clear case to be made beyond the student's monetary gain or the benefit to the department.

Before making a graduate assistantship appointment that brings a student's total appointment beyond 50%, the DEO or DGS of the program in which the student is enrolled (in consultation with the student's advisor) must receive permission from the Associate Dean for Student and Administrative Affairs. All overload requests must address: (1) the potential *academic benefit* to the student from the additional appointment; (2) the student's *current progress* towards degree completion; and (3) the effect of the additional appointment on the student's *future progress*.

A total appointment of more than 62.5% should be seen as an exceptional situation and will be granted to a maximum

of 75% only for one semester during the entire time of a student's graduate studies.

Before submitting an overload appointment request, the DEO or DGS must confirm that course registration for the semester does not exceed limits specified in "Section II.D." of this manual for the specific level of appointment.

Upon approval, international students must contact OISS and gain permission for Curricular Practical Training (CPT).

This policy applies only to teaching assistantships and research assistantships during the regular academic year. The DEO or DGS should make their graduate students aware of this policy during the department/program's fall orientation.

G. LOANS

Graduate students requiring financial assistance may apply for loans at the Office of Student Financial Aid.

H. OTHER FORMS OF SUPPORT

Many departments offer financial assistance in the form of traineeships, part-time employment on research programs, or part-time teaching. Inquiries should be addressed directly to the major department.

Section VIII. Advanced Programs Offered in the Graduate College

The major areas in which the Graduate College offers degree programs are listed under "Degree Programs" at the beginning of this section of the Catalog.

Section IX. General Requirements for Advanced Degrees

A. APPLICATION FOR DEGREE

The student must file an application for an anticipated degree with the registrar by the deadline date printed in the Graduate College academic calendar for the session in which the degree will be conferred. The student must have the application signed by his or her advisor. Failure to file the application by the deadline date established by the Graduate College dean will result in postponement of graduation to a subsequent session.

B. ENROLLMENT IN FINAL SESSION

The student must be enrolled during the session in which the degree is to be conferred. Students who are away from the University campus during that session may meet this requirement by registering for independent study, research, or thesis hours according to the practice in the various departments. Doctoral candidates who have completed all work except the final examination may register for Doctoral Final Registration described in "Section XII.L" if such registration is appropriate. Master's candidates who have completed all work except the final examination may register for Master's Final Registration if such registration is appropriate. Both the Doctoral Final Registration and Master's Final Registration require a 2 s.h. tuition/fee payment, and may be repeated if the degree requirements are not completed in this session. Registration in a course for which tuition/fees are not assessed (Cooperative Education Internship, for example) will not satisfy this requirement.

Section X. Master's Degrees

A. KINDS OF DEGREES

The University of Iowa offers programs leading to the Master of Arts (M.A.) degree, Master of Science (M.S.) degree, and several professional master's degrees.

M.A. and M.S. degrees require mastery of methodologies and practices of research and scholarship of the discipline. A thesis describing original scholarship or research may be required. M.A./M.S. degrees may be designed either as preparation for entry into doctoral degree programs or to provide advanced study and accomplishment that serves a variety of career and other purposes. Degrees are awarded in many fields of study, or majors, consistent with conventions of the discipline (e.g., M.A. in Art, English, Psychology; M.S. in Chemistry, Mathematics, Microbiology). (For complete list, see Section VIII.) M.A. and M.S. degrees require a minimum of 30 s.h., a final examination and, in some fields, a thesis.

Professional master's degrees provide knowledge, perspectives, and skills required for professional practice. Some programs may include introduction to research or scholarship sufficient to allow application of current literature to practice. Professional master's degrees generally are indicated by a three- or four-letter designation; examples include the Master of Fine Arts (M.F.A.), Master of Social Work (M.S.W.), Master of Public Health (M.P.H.), Master of Science in Nursing (M.S.N.), Master of Accountancy (M.Ac.). (For complete list, see Section VIII.) Professional master's degrees require a minimum of 30 s.h. Some may require a final examination as well as a thesis, papers, projects, colloquia, internships, or other experiential-based activity typical of preparation for practice in the field.

A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, a research plan, and a committee of at least three faculty members, with either the department most directly concerned or the Graduate College designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student's supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (master's) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

B. PLAN OF STUDY

The applicant for a master's degree must file a plan of study approved by the advisor and the departmental executive with the Graduate College within the session in which the degree is to be granted and by the deadline date printed in the Graduate College academic calendar. If the session in which a student takes his or her final exam is earlier than the session in which the degree is to be granted, the Plan of Study must be filed prior to the administration of the student's final examination. The plan shall meet the requirements for the degree approved by the graduate faculty. (See also "Section IV.D. Departmental Regulations and Dissemination of Information.")

C. MAJOR AND RELATED FIELDS

The plan of study should provide for reasonable concentration in the major field of interest and, subject to

the approval of the major department, may include related subjects from other departments.

D. ACADEMIC RESIDENCE REQUIREMENT

Of the minimum of 30 s.h. required for the degree, at least 24 s.h. must be completed under the auspices of The University of Iowa after admission to a graduate department/program. Various forms of extramural registration may qualify toward fulfillment of the aforementioned 24-hour residence requirement (see "Section II.G. Extramural Registration") in addition to regular on-campus registration. Students who have elected or who are required to write a thesis for conferral of their master's degrees, must complete at least 8 semester hours of the 24-hour, academic residence requirement on campus. At the discretion of the department, the 8-semester hour, on-campus requirement may be waived for nonthesis master's programs. Election of the waiver option is to be applied programmatically, and not on a student-by-student basis, and must be formally conveyed to the Graduate College.

E. REDUCTION OF OLD CREDITS

Courses taken ten or more years prior to the session in which the master's degree is to be conferred must be evaluated by the major department in order to determine the possible use of these credit hours within a student's plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.

F. LIMIT ON PROFESSIONAL COURSES

Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a master's degree if it is taken after the student has earned a bachelor's degree or has completed work equivalent to that required for a bachelor's degree at The University of Iowa. The work accepted from the professional college must be directly related to the student's major field of study in the Graduate College and be approved as a part of the plan of study by the student's advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the residence requirement for nondoctoral degrees in the Graduate College only when the student is registered in an appropriate joint degree program.

G. TWO MASTER'S DEGREES

The granting by this university of two master's degrees simultaneously or in succession requires that all of the requirements for each degree be satisfied separately. That is, the student must pass two final examinations, write two theses (if each program requires a thesis), and satisfy the Graduate College residency requirement for each degree separately. A minimum combined total of 60 s.h. of graduate credit must be achieved at the time that the second degree is conferred.

Some credit can be shared when one master's degree requires, or both master's degrees require, more than 30 s.h. of graduate credit. No more than one-fourth of the credit necessary for one degree may be composed of course work taken for the other degree, and there must still be a minimum combined total of 60 s.h. of graduate credit.

The directors of graduate study for the two programs, or the department heads of the departments housing the programs, must exchange letters in which they convey each program's approval of the student pursuing the two degrees. Copies of these letters must be sent to the Graduate College.

H. MASTER'S DEGREE WITH THESIS

Not more than 9 s.h. of credit for thesis research and writing shall be counted in satisfying the 30 s.h. minimum requirement. The thesis may be a scholarly study or an artistic production.

Beginning with the Fall 2009 Semester all master's theses, excluding MFA theses, must be submitted to the Graduate College in electronic format. MFA students will have the option of submitting hard-copy or electronic theses.

The first deposit of a thesis (an ETD or one hard copy of the MFA thesis), complete and in final typed form, must be presented to the Graduate College for a check of formal characteristics by the first-deposit deadline date in the session in which the degree is to be conferred. After approval by the Graduate College and by the thesis committee, the final deposit of the thesis (an ETD or two, identical hard copies of the MFA thesis) must be deposited with the Graduate College by the final deposit deadline date in the student's graduation session. Failure to submit the first and final deposits of the thesis by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. [For detailed submission and formatting requirements, see Theses & Dissertations under Policies & Deadlines on the Graduate College web site.]

Nonrefundable fees are charged each thesis candidate to cover processing and publication costs of the thesis.

The thesis committee shall consist of at least three members of the graduate faculty and may or may not be identical to the final examination committee. (The final examination committee for the master's degree shall consist of at least three members of the graduate faculty, at least two of whom are from the major department or program, and are members of The University of Iowa tenure-track faculty. See "X.K. Examining Committee.")

I. MASTER'S DEGREE WITHOUT THESIS

A master's degree without thesis, consisting of at least 30 s.h. of graduate work, may be awarded upon the completion of a curriculum prescribed by a department and approved by the Graduate Council.

J. FINAL EXAMINATION

The requirements for master's degrees may include a final examination which, at the discretion of the major department, may be written or oral or both. Such an examination will not duplicate course examinations. It will be evaluated by the examining committee as satisfactory or unsatisfactory, with two unsatisfactory votes making the committee report unsatisfactory. The report of the final examination is due in the Graduate College not later than 48 hours after the examination, and by the deadline date established by the Graduate College.

If the department so recommends, a candidate who fails the examination may present himself or herself for reexamination, but not sooner than the next regularly scheduled examination period in the following session.

The examination may be repeated only once.

A student must graduate within one calendar year after passing the final examination for a master's degree; failure to meet this deadline will require reexamination of the student.

Upon recommendation of a department, the comprehensive examination for a doctoral degree may be substituted for the master's examination.

Some master's programs do not require a final exam. Students are responsible for checking the specific requirements of their individual degree programs.

K. EXAMINING COMMITTEE

The examining committee for the master's degree consists of at least three members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

At least two of the faculty members must be members of The University of Iowa tenure-track faculty.

At least two of the faculty members are from the major department or program (defined as faculty members who hold any appointment in the major department or program), and are members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean's permission to replace one of the three members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

Section XI. Graduate Certificate Programs

Graduate certificate programs reflect specialization, either within a field or in an area of study, research, or training. Some graduate certificate programs may be open only to students seeking degrees in related fields; others may be offered as independent programs. Graduate certificate programs are designed to enhance skills, to provide professional development and career advancement opportunities, to broaden career options, and for other purposes, both for traditional, full-time students and for those with full-time employment.

Graduate certificate programs usually require a minimum of 15 s.h. of specified course work and may, in addition, require papers, projects, or experiential learning components designed for specific cohorts. Certificate programs generally require two to three semesters to complete.

Examples include the graduate certificates in aging studies, American Indian and native studies, informatics, and advanced nurse practitioner. Requirements for each graduate certificate are included in The University of Iowa General Catalog.

Section XII. Doctor's Degrees

A. CHARACTER OF DEGREE

The Graduate College offers doctoral programs leading to the Doctor of Philosophy (Ph.D.), the highest degree awarded by the university; the Doctor of Musical Arts

(D.M.A.); the professional Doctor of Physical Therapy (D.P.T.); the professional Doctor of Audiology (Au.D.); and the professional Doctor of Nursing Practice (D.N.P.). The Doctor of Philosophy degree indicates marked excellence in original research or other creative work, and superior comprehension in the discipline. The Doctor of Musical Arts degree indicates marked excellence in performance and pedagogy. The Doctor of Physical Therapy degree indicates marked excellence in physical therapy differential diagnosis and clinical integration. The Doctor of Audiology degree indicates marked excellence in theoretical and advanced clinical skills. The Doctor of Nursing Practice degree indicates marked excellence in clinical practice and the application of clinical theory in the classroom and administrative venues.

B. PREREQUISITES

The candidate must present evidence of having completed a satisfactory amount of undergraduate work in the subject proposed for investigation or, in the case of deficiency, must register for prerequisite courses.

C. RESIDENCE REQUIREMENT

The Ph.D. is granted primarily on the basis of achievement rather than on the accumulation of semester hours of credit; however, the candidate is expected to have completed at least three years of residence in a graduate college. At least part of this residence must be spent in full-time involvement in one's discipline, at this university, beyond the first 24 s.h. of graduate work; this requirement can be met either by: (1) enrollment as a full-time student (9 s.h. minimum) in each of two semesters; or (2) enrollment for a minimum of 6 s.h. in each of three semesters during which the student holds at least a one-quarter-time assistantship certified by the department as contributing to the student's doctoral program. (For purposes of record and assessment of fees, student registration should reflect accurately the amount and kind of work undertaken in the Graduate College. All doctoral programs, including acceptable transfer credit, will contain a minimum of 72 s.h. of graduate work.)

D. INTERDISCIPLINARY STUDIES PROGRAMS

A student may prepare a proposal for an interdisciplinary course of study, including the plan of study defining course work, examination requirements, research plan, and a committee of at least five faculty members with either the department most directly concerned or the Graduate College, designated as the sponsor. Final approval of such individual programs is granted by the Graduate College dean, who may add members to the student's supervising committee from other closely related departmental faculties or from the Graduate Council. The degree will be awarded in interdisciplinary studies (doctorate) stipulated in the approved graduate program and, parenthetically, the name of the sponsoring department.

E. REDUCTION OF OLD CREDITS

Courses taken 10 or more years prior to the doctoral comprehensive examination must be evaluated by the major department in order to determine the possible use of these credit hours within a student's plan of study. The department, in turn, must send a letter of petition to the Graduate College, requesting the use of any or all of these credits toward the fulfillment of degree requirements.

F. LIMIT ON PROFESSIONAL COURSES

Work taken by a student in the Colleges of Dentistry, Law, or Medicine while enrolled for a professional degree may be credited to a graduate program leading to a doctoral degree if it is taken after the student has earned a bachelor's degree or has completed work equivalent to that required for a bachelor's degree at The University of Iowa. The work accepted from the professional colleges must be directly related to the student's major field of study in the Graduate College, and the plan of study must be approved by the student's advisor and the major department. Work completed while registered for a professional degree in law, medicine, or dentistry will be counted as part of the one academic year which must be spent in residence as a doctoral student only when the student is registered in a formally established joint degree program.

G. JOINT PROGRAM FOR MASTER'S AND DOCTORAL DEGREES

Those students who expect to continue their training through the doctoral degree may pursue a joint program for the master's and doctor's degrees. The master's examination may be combined with the comprehensive examination for the doctorate for these candidates. The examining committee will file separate reports of its actions on the final examination for the master's degree and for the comprehensive examination. Upon recommendation of the department and approval of the Graduate College dean, students who are well qualified by previous training may submit a plan of study that leads directly to the doctoral degree without earning the master's degree as an intervening part.

H. REQUIREMENT IN FOREIGN LANGUAGES

There is no general Graduate College requirement in foreign languages. Those departments that do require competence in one or more foreign languages establish standards as to the extent and level of competence, as well as methods of testing. Specific requirements will be found in the departmental statements of standards and procedures (see "Section IV.D.").

Specifications of departmental requirements in foreign languages are filed in the Graduate College office and may be changed upon the initiative of the departments.

I. REQUIREMENTS FOR THE DOCTOR OF PHYSICAL THERAPY (D.P.T.), THE DOCTOR OF AUDIOLOGY (A.U.D.), AND THE DOCTOR OF NURSING PRACTICE (D.N.P.)

Students enrolled in professional D.P.T., D.N.P., and Au.D. programs do not take comprehensive and final examinations and do not deposit a thesis with the Graduate College. The departments will be required to submit a doctoral plan of study to the Graduate College during the session of degree conferral. The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress. The plan is to be filed no later than the deadline date printed in the Graduate College academic calendar.

J. PLAN OF STUDY

The development of a plan of study at the doctoral level is the responsibility of the student working together with his or her advisor. A formal plan of study must accompany the departmental request to the Graduate College for permission to conduct the comprehensive examination.

The plan will provide a listing of all graduate courses taken that apply toward the degree and a listing of courses in progress or to be completed after the comprehensive examination.

K. COMPREHENSIVE EXAMINATION

The candidate must satisfactorily complete a comprehensive examination, consisting of written or oral parts or both at the discretion of the major department. Admission to the comprehensive examination is granted upon the recommendation of the major department, the filing of the plan of study, and the approval of the dean of the Graduate College. A student must be registered in the Graduate College at the time of the comprehensive examination, which must be satisfactorily completed not later than the session prior to the session of graduation. This examination, administered only on campus, is intended to be an inclusive evaluation of the candidate's mastery of the major and related fields of study, including the tools of research in which competence has been certified.

The comprehensive examination is not a deferred qualifying examination. It is intended to evaluate the candidate's mastery of the subject at or near the end of his or her formal preparation and prior to the completion of the dissertation. The comprehensive examination and the final examination, which is concerned chiefly with defense of the thesis and related subjects, are the two principal examinations for the Ph.D. and D.M.A. doctoral degrees.

The comprehensive examination will be evaluated by a convened meeting of the committee. Each committee member will sign the examination report as satisfactory, reservations, or unsatisfactory. The completed exam warrant will be submitted to the Graduate College office within 14 days after the completion of the examination. Two "unsatisfactory" votes will make the committee report unsatisfactory.

A vote of "reservations" should only be used when a faculty member feels that the deficiencies displayed by the student were modest, and can be readily rectified. In the event of a report with two or more votes of "reservations," the actions required of the student, by the committee, that are necessary to correct the deficiencies must be recorded and submitted to the Graduate College with the examination report form. Copies of the written statement of necessary actions should be kept by: the appropriate departmental executive, the chair of the examination committee, and the student. The statement must specify the time allowed for completion of the aforementioned actions. The language describing the actions must be specific. For instance, if additional course work is required, a list of suitable courses must be presented. If the candidate needs to rewrite his or her research prospectus, the deficient areas must be identified, etc. If the candidate satisfies the required actions in the specified period of time, the appropriate departmental executive will send a written report to the Graduate College indicating the date for which the examining committee considers the actions to have been satisfied. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as "satisfactory" as of that date. If the actions are not satisfied on time, or if the actions are not of sufficient quality, the appropriate departmental executive will send a written report to the Graduate College indicating that fact. Upon approval of the dean of the Graduate College, the comprehensive exam will be recorded as "unsatisfactory"

as of that date. The candidate will not be admitted to the final oral examination of the dissertation until a grade of "satisfactory" has been recorded for the comprehensive exam.

In case of a report of unsatisfactory on a comprehensive examination, the committee may grant the candidate permission to present himself or herself for reexamination not sooner than four months after the first examination. The examination may be repeated only once, at the option of the department.

L. CONTINUOUS REGISTRATION AFTER COMPLETION OF THE COMPREHENSIVE EXAMINATION

The student is required to register each fall and spring semester after satisfactorily completing the comprehensive examination until the degree is awarded. If a student fails to register, the student may not be readmitted to candidacy until the student has submitted an application that has been approved by the student's advisor, the departmental executive, and the Graduate College dean.

In order to maintain continuous registration, doctoral students may register (1) for required and/or elective courses, research, and thesis hours to complete the plan of study, or (2) for Doctoral Continuous Registration (DCR). DCR requires a 2 s.h. tuition/fee payment. If a temporary lapse in a student's academic program is required due to military service, medical leave, maternity leave, or personal/family leave, a student may petition the Graduate College to be allowed to register for Ph.D. Postcomprehensive Registration (PCR), which allows for the assessment of a special minimum fee. If a petition is granted, it is to be understood that a student will not make significant use of university resources, or engage in significant consultation with the faculty. In the final semester, doctoral students may register for Doctoral Final Registration (DFR), which requires a 2 s.h. tuition/fee payment, or appropriate course work. The DFR may be repeated if the degree requirements are not completed in this session.

Under no circumstances may courses for which tuition/fees are not assessed (Cooperative Education Internship, for example), be used to satisfy the continuous registration or final registration requirement of the Graduate College.

No registration for the summer or winter sessions is required. The exceptions are when the student is taking a degree at the end of the summer session, or when enrollment is required by the student's department.

M. DISSERTATION FOR THE DOCTORAL DEGREE

Beginning with the Fall 2009 Semester all doctoral theses must be submitted to the Graduate College in electronic format.

The student's dissertation, complete and in final form, must be presented in ETD (electronic thesis/dissertation) format at the office of the Graduate College by the first-deposit deadline date in the session in which the degree is to be conferred. The final deposit of the approved ETD must be deposited at the office by the appropriate deadline date in the student's graduation semester. The final deposit can be no later than the end of the semester (summers excluded) following the session in which the final examination is passed; failure to meet this deadline will require reexamination of the student. Failure to submit the first and final deposits of the dissertation

by the deadline dates established by the Graduate College will result in the postponement of graduation to a future session. [For detailed submission and formatting requirements, see *Theses & Dissertations under Policies & Deadlines* on the Graduate College web site.]

Regulations regarding preparation of the dissertation shall be promulgated by the dean of the Graduate College. An external abstract of the dissertation, not to exceed two, double-spaced pages (text and approval lines), is to be deposited with the dissertation. The abstract must be approved and signed by the dissertation advisor. Approved ETDs will be forwarded to ProQuest for microfilming and digital archiving; the doctoral abstracts will be published in *Dissertation Abstracts International*. The PDF format of all electronic submissions will be forwarded by ProQuest to The University of Iowa Libraries, where they will be catalogued and made available for public use.

Dissertations shall be made available to all members of the examining committee not later than two weeks before the date of the examination.

N. DISSERTATION FEES

Nonrefundable fees are charged each doctoral candidate to cover processing and publication costs of the dissertation and abstract.

O. FINAL EXAMINATION

The work for the degree culminates in a final oral examination administered on campus. This examination should include: a critical inquiry into the purposes, methods, and results of the investigation—not a mere recapitulation of the procedures followed—and intensive questioning on areas of knowledge constituting the immediate context of the investigation.

The final examination may not be held until the next session after the student satisfactorily completes the comprehensive examination; however, a student must pass the final examination no later than five years after satisfactorily completing the comprehensive examination. Failure to meet this deadline will result in a reexamination of the student to determine his or her qualifications for taking the final examination. The procedures to be followed are the same as those for the comprehensive examination. (See "XII.K. Comprehensive Examination.")

Final examinations for the doctorate are open to the public. Members of the faculty of the Graduate College are especially invited to attend and, subject to the approval of the chair, to participate in the examination.

The report of the final examination is due in the Graduate College office not later than 48 hours after the examination. The final examination will be evaluated as satisfactory or unsatisfactory. Two unsatisfactory votes will make the committee report unsatisfactory. In case of a report of unsatisfactory in the final examination, the candidate may not present himself or herself for reexamination until the next session. The examination may be repeated only once, at the option of the major department.

P. EXAMINING COMMITTEES

The Graduate College encourages departments and programs to construct Ph.D. examining committees which are comprised of faculty members with varying, but related, areas of expertise.

The comprehensive and final examinations are conducted by committees of no fewer than five members of the Graduate Faculty appointed by the dean upon recommendation of the major department or program. These committees are composed as follows:

At least four of the faculty members must be members of The University of Iowa tenure-track faculty.

At least two of the faculty members are from the major department or program (defined as faculty members who hold any appointment in the major department or program), and are members of The University of Iowa tenure-track faculty.

A department or program may impose additional structure on the composition of its examining committees.

Departments and programs may request the dean's permission to replace one of the five members of the Graduate Faculty by a recognized scholar of professorial rank from another academic institution. Also, a voting member may be added at the discretion of the Graduate College Dean.

Section XIII. Exceptions

Petitions to waive these regulations may be made for appropriate and justifiable reasons on behalf of any graduate student through the departmental executive to the dean and the Graduate Council.

Nondepartmental Courses

Most Graduate College courses are offered by the college's programs and schools. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" toward the top of this page.

The college also offers the following nondepartmental courses.

000:999 (GRAD:6999) Resident/Fellow/Post-Doctoral	0 s.h.
650:006 (GRAD:0006) SROP/McNair Scholars Program	0 s.h.
650:030 (GRAD:3030) SROP/McNair Scholars Academic Development for Juniors	0-1 s.h.
Training and mentorship opportunities to enhance academic and professional success; academic preparation (including the GRE) and exploration of doctoral graduate training programs; seminars, interactive workshops, readings, written assignments. Requirements: UI SROP/McNair Scholar and junior standing.	
650:040 (GRAD:3040) SROP/McNair Scholars Academic Development for Seniors	0-1 s.h.
Training and mentorship opportunities to enhance academic and professional success; academic preparation and professional development to navigate the graduate admissions process (including preparation of personal statements, selection of referees, mock interviews); seminars, interactive workshops, readings, written assignments. Requirements: UI SROP/McNair Scholar and senior standing.	
650:217 (GRAD:6217) Seminar in College Teaching	1-3 s.h.
Preparation for college teaching; for graduate students planning to teach. Same as 07P:217 (PSQF:6217).	
650:270 (GRAD:7270) Principles of Scholarly Integrity	0-1 s.h.
Training in the responsible conduct of research and scholarly activities; discussion of case studies—student/mentor responsibilities in the pursuit of scholarly work (ownership, authorship, plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects). Requirements: enrollment in Graduate College degree-seeking program. Recommendations: first-year graduate standing (Ph.D., M.S./M.A.) and involvement in conducting NSF/NIH-funded research.	
650:275 (GRAD:7275) OGEI Topical Seminar: Professional Sustainability in Graduate School	1 s.h.
Skill development and sustainability plan; professional literature, guest speakers.	
650:280 (GRAD:7280) Obermann Center for Advanced Studies Special Topics Seminars	1-3 s.h.
Active participation and engagement in a major program, such as the annual Humanities Symposium; readings on interdisciplinary histories, contexts, and theoretical perspectives that frame featured events; work of artists, scholars, and researchers participating in the program. Requirements: admission to Graduate College.	
650:285 (GRAD:7285) Obermann Center Professional Development Seminar	1 s.h.
Active participation and engagement in a series of classes dedicated to connecting public engagement, research, and teaching; readings and media viewings that frame course topics; production of a short film, marketing materials, grant, and syllabi relevant to public engagement project. Requirements: admission to Graduate College and completion of Obermann Graduate Institute on Engagement and the Academy.	
650:300 (GRAD:6300) Writing for Learned Journals	1-4 s.h.
Help for graduate students in bringing written work to publishable form; analysis of target journals' audiences and interests; submission, response to criticism. Same as 160:300 (PORO:6300), 08N:340 (CNW:6300).	
000:000 (GRAD:6000) Ph.D. Postcomprehensive Registration	0 s.h.
000:001 (GRAD:6001) Master's Final Registration	0 s.h.
Requirements: master's degree candidate.	
000:002 (GRAD:6002) Doctoral Continuous Registration	0 s.h.
Requirements: doctoral degree candidate who has passed comprehensive examinations.	
000:003 (GRAD:6003) Doctoral Final Registration	0 s.h.
Requirements: doctoral degree candidate in final session of enrollment.	
000:008 (GRAD:0008) CIC Scholar Nongraduate Level	arr.
000:800 (GRAD:6800) CIC Scholar	arr.
000:801 (GRAD:6801) Regents Exchange Program	arr.
000:997 (GRAD:6997) Graduate/Professional Transfer	arr.
000:998 (GRAD:6998) Undergraduate Transfer	arr.

650:313 (GRAD:6313) Digital Rhetorics 3 s.h.

Current discourse (utopic, dystopic, other strands) about the Internet as it shapes and is shaped by competing forces. Same as 160:313 (PORO:6313).

650:380 (GRAD:7400) Practicum in College Teaching arr.

Supervised college teaching experience; teaching in collaboration with faculty, observation and critiques of teaching, participation in course planning and evaluation procedures; ethical and multicultural considerations. Requirements: admission to the graduate certificate in college teaching program.

650:385 (GRAD:7385) Teaching and Learning in Higher Education 3 s.h.

Current theoretical and empirical literature on teaching and learning in higher education; focus on development of effective teaching practice. Same as 07P:385 (PSQF:7385), 07B:385 (EPLS:7385), 07S:384 (EDTL:7385), 07C:385 (RCE:7385).

650:601 (GRAD:7601) Postdoctoral Research Scholar 0 s.h.

Requirements: postdoctoral standing.

650:602 (GRAD:7602) Postdoctoral Research Fellow 0 s.h.

Requirements: postdoctoral standing.

650:604 (GRAD:7604) Principles of Scholarly Integrity 0 s.h.

Training in the responsible conduct of research and scholarly activities; discussion of case studies—student/mentor responsibilities for the pursuit of scholarly work (ownership, authorship, plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects). Requirements: postdoctoral standing. Recommendations: first-year postdoctoral scholar/fellow (FP01/FP02) conducting NSF/NIH-funded research.

650:605 (GRAD:7605) Writing for Learned Journals 0 s.h.

Help for graduate students in bringing written work to publishable form; analysis of target journals' rhetoric; submission, response to criticism. Requirements: postdoctoral standing.

650:614 (GRAD:7614) Principles of Scholarly Integrity 0 s.h.

Training in the responsible conduct of research (RCR) and scholarly activities; discussion of case studies—student/mentor responsibilities in the pursuit of scholarly work (ownership; authorship; plagiarism/falsification/fabrication of data); student/mentor relationships and intellectual dialogues (communication, collaboration, grievance management); student responsibilities to the institution/scholarly community/society (intellectual property, conflict of interest, fiscal responsibilities, human/animal subjects); may meet the RCR training obligation of the K award. Requirements: junior faculty member holding a federally-funded NIH individual K award.

Applied Mathematical and Computational Sciences

Interim chair

Gerhard Strohmer (Mathematics)

Segre (Computer Science), Elias Shiu (Statistics and Actuarial Science), Jonathan Simon (Mathematics), Milan Sonka (Electrical and Computer Engineering), John P. Spencer (Psychology), David Stewart (Mathematics), Osnat Stramer (Statistics and Actuarial Science), Gerhard O. Strohmer (Mathematics), Kai Tan (Internal Medicine/Biomedical Engineering), Qihe Tang (Statistics and Actuarial Science), Tuong Ton-That (Mathematics), Lihe Wang (Mathematics), George G. Woodworth (Statistics and Actuarial Science), Chun-Fang Wu (Biology), Yangbo Ye (Mathematics), Hantao Zhang (Computer Science), Ying Zhang (Biostatistics)

Graduate degree: Ph.D. in applied mathematical and computational sciences

Web site: <http://www.amcs.uiowa.edu/>

Applied mathematical scientists formulate scientific concepts and problems in mathematical terms; solve the resulting mathematical problems using analytical and computational methods; and discuss, interpret, and evaluate the solutions. They explore areas of mathematical application and develop mathematical theories in new areas.

Career opportunities for applied mathematicians include positions in colleges, universities, governmental laboratories, business, industry, and consulting firms.

Graduate Program

- Doctor of Philosophy in applied mathematical and computational sciences

Doctor of Philosophy

The Doctor of Philosophy program in applied mathematical and computational sciences requires a minimum of 72 s.h. of graduate credit. The Ph.D. program is autonomous, broadly based, and interdisciplinary. It is designed to help students achieve a command of theoretical and applied mathematics and obtain basic knowledge in another area (engineering, medicine, or one of the behavioral, biological, physical, or social sciences).

The program is flexible; students can concentrate on applied mathematics, such as differential equations and numerical analysis, or on other applicable techniques in mathematics. Scientific computing is an important part of applied mathematics, so it is often a part of student training and dissertation research.

Prospective students should have a desire to apply a mathematical science (mathematics or statistics) to relevant problems in another area.

PLAN OF STUDY

Faculty members help each student plan a course of study that is consistent with the student's background, interests, and goals.

These individual programs are designed to help students develop expertise in methods of applied mathematics and build a good foundation in related topics of theoretical mathematics. The individual programs also provide sufficient knowledge in an outside area to enable students to use mathematical techniques in that area.

Students can arrange their study plans to earn a master's degree from another department after they complete part of their plan. Students find suitable thesis problems and supervisors with the help of the faculty.

QUALIFYING AND COMPREHENSIVE EXAMINATIONS

Students take a qualifying examination over three of the four core course sequences required for the Ph.D. (analysis, differential equations, numerical analysis, and topology). They also take a comprehensive examination over the chosen outside area.

One program objective is to have each student's dissertation research include many of the activities of an applied mathematical scientist. For example, a student might formulate a model, do a quantitative analysis of the model, and interpret the results.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. To be prepared for graduate-level course work in mathematics and an additional area, applicants should have a bachelor's or master's degree with a strong mathematics component and some background in the additional area.

Applications for fall admission are due on January 15. For application forms and more information about the

academic program, contact the chair of the Applied Mathematical and Computational Sciences Program.

Financial Support

Fellowships and research and teaching assistantships are available to qualified applicants. Fellowship support is available during summers. Applications for financial support should be submitted at the same time as applications for admission.

Graduate Program

Participation in the Biosciences Program leads to a Ph.D. degree in a biosciences discipline. The program provides graduate students the freedom to explore research in any of 17 University of Iowa biosciences research departments and programs: the Departments of Anatomy and Cell Biology (p. 924), Biochemistry (p. 930), Biology (p. 115), Biomedical Engineering (p. 747), Chemistry (p. 127), Communication Sciences and Disorders (p. 158), Microbiology (p. 963), Molecular Physiology and Biophysics (p. 968), Pharmacology (p. 991), Physical Therapy and Rehabilitation Science (p. 994), Physics and Astronomy; and the Free Radical and Radiation Biology (p. 953), Genetics (p. 837), Human Toxicology (p. 839), Immunology (p. 841), Molecular and Cellular Biology (p. 855), and Neuroscience (p. 858) Programs.

Biosciences students enjoy the flexibility of investigating several disciplines through research rotations in the laboratories of Biosciences Program faculty members. Following completion of their first year in the program, students select a research laboratory and program affiliation and decide on a thesis project that will lead to a Ph.D.

Semester hour requirements for the doctorate vary by program, but all Ph.D. degrees at Iowa require at least 72 s.h. of graduate credit. For detailed information on Graduate College policies, see the Manual of Rules and Regulations of the Graduate College.

Curriculum

Students spend their first two semesters in the Biosciences Program. The curriculum provides them with an integrated core foundation on modern molecular and cellular biology while giving them flexibility to accommodate their individual interests.

Instead of offering one semester-long core course, the program offers at least six content modules. In consultation with their advisors, students choose modules at five-week intervals, tailoring their individual study plans to meet their interests. Some modules are intended to be taken as a series; they cover fundamentals of cell structure, intracellular trafficking, signal transduction, and protein structure. Other modules are stand-alone units on more specialized topics, such as biostatistics.

Early in the second semester, Biosciences Program students talk with prospective mentors about thesis projects and laboratory openings for the following summer. In March they submit their choice of the graduate program they wish to join and the faculty member they wish to have as a mentor.

The Biosciences web site contains typical study plans for students interested in specific graduate programs.

The student's choice of program determines his or her curriculum for subsequent years.

Students in the Biosciences Program are not required to teach, but most of the graduate programs they enter will require that they take on teaching responsibilities.

During their Biosciences Program year, students are advised on course selection, research rotations, and registration by a faculty member closely related to the student's research and academic interests. As research rotations are assigned, the faculty advisor works in consultation with the student's rotation advisors until the end of the first year.

Students provide a short oral presentation following each research rotation to an audience of their primary advisor, research advisor(s), and other biosciences students. Rotation advisors provide rotation reports, and rotations are evaluated by the student's primary advisor. The student's primary advisor also confers with the student on course grades, subsequent rotations, and the student's selection of a department or program and lab for thesis research.

All biosciences students take 156:265 (BISC:5265) Biosciences Critical Thinking and Communication, which dovetails with research rotations and seminar series offered by the University's biosciences research departments and programs. The course involves weekly discussions of selected papers and oral and written presentations tied to the student's research rotations.

Each student's overall progress is monitored by his or her primary advisor, rotation advisor(s), and program director, who meet at the end of each semester to review the student's work. At the end of the second semester, the primary advisor, in cooperation with the rotation advisor(s), makes a recommendation to the Biosciences Program director as to whether or not the student should continue in the Ph.D. program. University guidelines, such as maintaining a cumulative g.p.a. of 3.00 or higher, are considered, along with performance in rotations.

The Biosciences Program's office coordinates students' transfers to their chosen graduate programs. Matriculation is conditional upon satisfactory progress and successful completion of the second semester.

Once a student enters his or her chosen graduate program, it is that program's responsibility to advise the student, evaluate his or her academic performance, and assign the student a thesis mentor and laboratory.

Most participating departments and programs require that students take a comprehensive exam at the end of the second year and no later than the third year. Following successful completion of the exam, students advance to Ph.D. candidacy.

REQUIRED COURSES

All Biosciences Program students must complete the following course work. Students earn at least 12 s.h. each semester.

Fall Semester

156:265 (BISC:5265) Biosciences Critical Thinking and Communication	2 s.h.
156:302 (BISC:5302) Biosciences Research (8-week research rotations)	arr.
650:270 (GRAD:7270) Principles of Scholarly Integrity Electives	0-1 s.h.

Spring Semester

156:265 (BISC:5265) Biosciences Critical Thinking and Communication	2 s.h.
156:302 (BISC:5302) Biosciences Research (8-week research rotations)	arr.
Electives	

Admission

The program accepts students with a variety of backgrounds in the biological and physical sciences. Entering students must hold a baccalaureate degree from an accredited college or university and should have completed courses in biology, chemistry, physics, and calculus consistent with requirements for a baccalaureate degree in the sciences. An undergraduate g.p.a. of at least 3.00 is required.

Applicants must submit their scores on the Graduate Record Examination. Applicants whose first language is not English must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Other indicators of academic accomplishments, such as research experience and letters of recommendation, are considered.

Information about graduate training and application materials are available from the Biosciences Program office.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

Financial Support

Graduate students receive stipend and tuition support from The University of Iowa and other sources. Students promoted to the second year in the program receive support from their graduate departments and programs. The Biosciences Program also helps some students apply for competitive national awards for outstanding academic and research achievement.

Facilities

The Carver College of Medicine provides state-of-the-art facilities for students, researchers, and instructors. The Medical Education and Research Facility, completed in 2002, provides 220,000 square feet of modern laboratories, lecture halls, clinical examination rooms, and study and meeting space for students. The Carver Biomedical Research building opened in 2005. The 135,000 square-foot building is devoted to research, with five floors of specialized laboratories and new technology. In addition to its new buildings, the college offers recently renovated laboratories and classrooms.

The health sciences campus provides parking, food service, and enjoyable outdoor common areas and

pedestrian routes. Most of the University's health sciences colleges and clinical facilities are located there.

The basic science and clinical departments of the Carver College of Medicine are housed primarily in the Bowen Science Building, Carver Biomedical Research Building, Eckstein Medical Research Building, Medical Education and Research Facility, Medical Laboratories, and University of Iowa Hospitals and Clinics. Nearby are the Hardin Library for the Health Sciences and the Iowa City Veterans Affairs Medical Center.

The Departments of Anatomy and Cell Biology, Biochemistry, Microbiology, Molecular Physiology and Biophysics, and Pharmacology are housed in the Bowen Science Building. Laboratories of clinical departments are located primarily in the Medical Laboratories and the Medical Research Center.

The Eckstein Medical Research Building houses major core facilities for microscopy, image analysis, flow cytometry, protein structure, and monoclonal antibody production, as well as research laboratories for basic investigators with interdisciplinary approaches to cancer, molecular biology, genetics, and immunology. The geographic proximity of these facilities promotes interchange among clinical and basic science faculty members and students and maximizes use of the University's extensive core facilities for biomedical research.

Integral to the University's research environment are the Carver Nonprofit Genetic Testing Laboratory, Center for Auditory Regeneration and Deafness, Center for Bioinformatics and Computational Biology, Center for Emerging Infectious Diseases, Center for Functional Genomics of Hypertension, Center for Gene Therapy, Center for Research in the Implementation of Innovative Strategies in Practice, Center on Aging, Craniofacial Center Collaboratory, Cystic Fibrosis Research Center, Holden Comprehensive Cancer Center, Huntington's Disease Center for Excellence, Institute for Clinical and Translational Science, Iowa Cardiovascular Center, Iowa Comprehensive Lung Imaging Center, Helen C. Levitt Center for Viral Pathogenesis, George M. O'Brien Kidney Research Center, Specialized Center for Research in Osteoarthritis, and the Senator Paul D. Wellstone Muscular Dystrophy Cooperative Research Center.

In addition to the University's extensive facilities for research support, the Carver College of Medicine and the College of Liberal Arts and Sciences operate a variety of research support facilities. Tissue culture, autoclaving, purified water, darkrooms, counters, and a variety of general-use equipment and services are available on a shared basis.

Courses

156:201 (BISC:5201) Fundamentals of Gene Expression 1 s.h.

DNA and RNA structure, nuclear organization, DNA replication, RNA production and processing, small RNAs, RNAi, and genetic and epigenetic regulation; didactic and small group sessions, discussion of primary research publications.

156:202 (BISC:5202) Fundamentals of Protein Regulation 1 s.h.

Protein structure, purification, analysis, production, post-translation modification and cellular trafficking; didactic and small group sessions, discussion of primary research publications.

156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes 1 s.h.

Overview of actin, microtubules, motors, intermediate filaments, cell-cell junctions, G-coupled signaling, wnt-jak/stat signaling, ion channels, cell cycle, stem cells.

156:204 (BISC:5204) Biostatistics for Biomedical Research 1 s.h.

Application of statistical techniques to biological data analysis; normal distribution, sampling distribution of the mean, variance, nonparametric methods, linear regression, power, and sample size. Same as 171:151 (BIOS:5050).

156:205 (BISC:5205) Practical Bioinformatics 1 s.h.

Formal instruction on the use and application of bioinformatics for bench scientists; bioinformatics, resources, genome annotations, sequence analysis, comparative genomics, expression analysis, and systems biology. Requirements: biostatistics.

156:265 (BISC:5265) Biosciences Critical Thinking and Communication 2 s.h.

Selected papers and oral and written presentations tied to students' research rotations; introductory seminar. Same as 072:342 (MPB:5342), 002:270 (BIOL:5270).

156:302 (BISC:5302) Biosciences Research arr.

Research experience in the lab of a biosciences program faculty member.

Center for the Book

Director

Timothy Barrett (Center for the Book/Library and Information Science)

Professors

Ed Folsom (English/Center for the Book), Robert Glasgow (Art and Art History/Center for the Book), Judith Pascoe (English/Center for the Book), James Snitzer (Art and Art History/Center for the Book), Katherine Tachau (History/Center for the Book), Jonathan Wilcox (English/Center for the Book)

Associate professors

Timothy Barrett (Center for the Book/Library and Information Science), Matthew P. Brown (English/Center for the Book), Jennifer Burek-Pierce (Library and Information Science/Center for the Book), Loren Glass (English/Center for the Book), Julia Leonard (Center for the Book/Library and Information Science)

Adjunct assistant professors

Gary Frost, Cheryl Jacobsen, Penny McKean, Emily Martin, Sara Sauers, Bruce Whiteman

Adjunct instructors

Craig Kelchen, Julie Smith

Lecturers

Kathleen Kamerick (History/Center for the Book), Sara Langworthy

Graduate degree: M.F.A. in book arts

Graduate certificate: book studies/book arts and technologies

Web site: <http://book.grad.uiowa.edu>

The University of Iowa Center for the Book represents a community of faculty, staff, students, and local book specialists with interests in all facets of book production, distribution, and use. Some members of the center actively research the history and circulation of the book, examining books' role in cultural and historical processes. They also look at how changes in book production affect the way books are viewed as artifacts. Specialists in book arts and technologies study the history and technique of book crafts, including letterpress and offset printing, typography, calligraphy, papermaking, and bookbinding. Others engage in the conservation or production of books, including artists' books and literary fine press publications.

The center offers classes; sponsors lectures, seminars, and workshops; and encourages the exchange of ideas among individuals with interests in the book. A wide range of perspectives on the book as an aesthetic, cultural, and historical artifact is provided by associated faculty, staff, and graduate students in the Schools of Art and Art History and Library and Information Science; the Departments of History, English, and Cinema and Comparative Literature; University of Iowa Libraries; the Creative Writing Program (Iowa Writers' Workshop); and other areas. This interdisciplinary membership and the center's facilities combine to provide an exceptional environment for studying the history of the book, its evolution, and its future.

Graduate students may earn a master's degree or a graduate certificate through the center. Undergraduate students may add dimension to their majors in English, art, journalism, history, and other disciplines by taking Center for the Book courses in book crafts and book studies. They

also may include an emphasis on book arts or on cultural and historical aspects of the book in the interdepartmental studies major.

Graduate Programs

- Master of Fine Arts in book arts
- Certificate in Book Studies/Book Arts and Technologies

Graduate study of the book is interdisciplinary. It focuses on book arts as hands-on practice as well as historical and cultural phenomenon. Its principal objectives are to provide scholarly and aesthetic contexts for the study of book history, arts, and technologies; and to offer a structured program in book-related disciplines for graduate students with a serious interest in book studies.

Master of Fine Arts

The Master of Fine Arts program in book arts requires a minimum of 60 s.h. of graduate credit, including a thesis. Students select one of several emphasis areas: artist book work, bookbinding, calligraphy, digital book work, lettering arts, papermaking, or printing. After completing core courses, they work with a faculty advisor to design an individualized curriculum in their specialty area. The degree culminates with the successful completion of a thesis.

The program requires the following course work.

Core courses, historical context courses, other topics, and workshops	33 s.h.
Electives in the student's emphasis area	18 s.h.
Additional electives	
Thesis (maximum of 6 s.h.)	

Certificate

The Certificate in Book Studies/Book Arts and Technologies requires 18 s.h. of graduate credit and is designed to be completed in one year. The program is open to students who are enrolled in a graduate degree program at The University of Iowa as well as to students enrolled in the Graduate College with nondegree status.

Students choose courses in emphasis areas including artist book work, bookbinding, calligraphy, digital book work, lettering arts, papermaking, and printing. The program requires the following course work.

Emphasis area course(s)	3 s.h.
A studio course	3 s.h.
A historical/cultural course	3 s.h.
Discussion group	
Electives	9 s.h.

Admission

Applicants must meet the admission requirements of the Graduate College; see Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Visit Admissions on the Center for the Book web site for more information.

Courses

- 108:029 (UICB:1111) First-Year Seminar** 1 s.h.
Small discussion class taught by a faculty member; topics chosen by instructor; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, fieldtrips). Requirements: first- or second-semester standing.
- 108:100 (UICB:3900) Special Project for Undergraduates** arr.
Independent study.
- 108:101 (UICB:3310) Typography** 4 s.h.
Introduction to letterform and typographic fundamentals; designing with type—attention to composition, hierarchy, historical practice. Corequisites: 01D:090 (DSGN:2110), if not taken as a prerequisite. Same as 01D:100 (DSGN:3120).
- 108:104 (UICB:3280) Elements of Book Art** 3 s.h.
Overview of book art process and techniques for nonmajors; introduction to traditional bookbinding skills, nontraditional book structures, and content development for artist books. Same as 01X:104 (BKAT:3280).
- 108:105 (UICB:3380) Elements of Letterpress** 3 s.h.
Introduction to letterpress printing for non-book art majors; metal type, relief printing, page layout, and basic typography; basic use of Vandercook Proof Press; experimentation with diverse letterpress techniques.
- 108:110 (UICB:3100) Papermaking** 3 s.h.
History, fundamental techniques of Western and Eastern hand papermaking; projects in traditional sheet forming, basic paper chemistry, paper coloring. Offered spring semesters. Same as 01X:110 (BKAT:3100).
- 108:112 (UICB:5160) Studies in Papermaking** arr.
Topics in the history and technique of papermaking.
- 108:130 (UICB:4100) Paperworks** 3 s.h.
Conceptual and methodological approaches to 2-D and 3-D paper works; students create a body of works that couple the unique properties of paper-pulp medium with personal visual ideas and clarity of intent; contemporary issues in paper pulp and the medium's relationship to larger art and craft contexts. Same as 01X:130 (BKAT:4100).
- 108:131 (UICB:5180) Advanced Projects in Paper** 3 s.h.
Advanced independent projects undertaken in a classroom setting; collaborative group discussions to plan, implement, troubleshoot, and evaluate student projects. Prerequisites: 108:132 (UICB:5110) or 108:133 (UICB:5130) or 01X:120 (BKAT:5110) or 01Z:133 (BKAT:5120). Same as 01X:131 (BKAT:5180).
- 108:132 (UICB:5110) Islamic/Asian Papermaking History and Technique** 3 s.h.
History, technique, and aesthetics of traditional Islamic and Asian hand papermaking. Same as 01X:120 (BKAT:5110).
- 108:133 (UICB:5130) Western Papermaking History and Technique** 3 s.h.
History and technique of traditional European hand papermaking and related aesthetics; students gain confidence in pursuing independent production of handmade papers or undertaking related research in their own particular areas of interest; fiber preparation, sheet forming, and drying/finishing methods; concurrent readings and discussions of related history and aesthetics; special projects selected by student with instructor approval. Same as 01Z:133 (BKAT:5120).
- 108:136 (UICB:5170) Advanced Papermaking Production** 3 s.h.
Independent Western- or Japanese-style projects undertaken at UICB Research and Production Paper Facility at Oakdale Campus under faculty guidance; plan, implement, and evaluate professional scale production runs using full-scale equipment. Prerequisites: 108:132 (UICB:5110) or 108:133 (UICB:5130) or 01X:120 (BKAT:5110) or 01Z:133 (BKAT:5120). Same as 01X:136 (BKAT:5170).
- 108:142 (UICB:4400) History of Western Letterforms** 3 s.h.
History of Western letterforms, with focus on tools, materials, techniques; the major hands, their place in history, their influence on modern times; creation of letterforms using appropriate tools; hands-on approach with emphasis on understanding rather than mastery. Same as 01Z:142 (BKAT:4400).
- 108:143 (UICB:3400) Calligraphy: Foundational Hands** 3 s.h.
Fundamental calligraphic skills using Roman majuscule, Humanistic minuscule, Italic; basic layout and color theory incorporated into letter practice. Same as 01Z:143 (BKAT:3400).
- 108:145 (UICB:4420) Calligraphy: Blackletter Hands** 3 s.h.
Development of proficiency in various hands, from vertical Textura to floridly gothic cursive; blackletter's historical connections with other disciplines.
- 108:146 (UICB:4490) Studies in Letter Arts** 3 s.h.
Special topics and advanced projects in calligraphy and letter arts. Prerequisites: 108:140 or 108:141 or 108:142 (UICB:4400) or 108:143 (UICB:3400). Same as 01Z:146 (BKAT:4490).
- 108:150 (UICB:4205) Bookbinding I: Materials and Techniques** 3 s.h.
Hands-on introduction to materials and techniques commonly used in bookbinding. Same as 01Y:150 (BKAT:4205).
- 108:151 (UICB:4270) Bookbinding II** 3 s.h.
Build on skills acquired in 108:150 (UICB:4205); projects to complete six bindings based on historical and contemporary models; sewing styles, board attachments, endband types; nonadhesive and case-bound structures, varied materials and binding styles, their effects on structure, aesthetic considerations, further development of solid binding skills; historical development of particular binding practices. Prerequisites: 108:150 (UICB:4205). Same as 01Y:151 (BKAT:4270).
- 108:152 (UICB:5210) Bookbinding III** 3 s.h.
Bookbinding structures based on historical and contemporary models; differences in various binding practices, how these differences affect function, why the styles developed; experience choosing appropriate structures for particular uses; emphasis on fine tuning skills and techniques required for advanced binding practices; sewn endbands, rounding and backing, sewing on varied supports, board attachments, and covering methods. Requirements: for 108:152 (UICB:5210) — 108:150 (UICB:4205) and 108:151 (UICB:4270); for 01Y:152 (BKAT:5210) — 01Y:150 (BKAT:4205) or 01Y:151 (BKAT:4270) or 108:150 (UICB:4205) or 108:151 (UICB:4270). Same as 01Y:152 (BKAT:5210).
- 108:153 (UICB:5260) Studies in Bookbinding** 3 s.h.
Topics related to hand bookbinding. Same as 01Y:153 (BKAT:5260).

108:154 (UICB:4280) Artists' Books 3 s.h.

Exploration of the book as a form for artistic expression; emphasis on conceptual development; relationship between content, form, and structure; how a book's structure and design can enhance and integrate part of the work's meaning. Prerequisites: 01Y:150 (BKAT:4205) or 108:150 (UICB:4205). Same as 01Y:015 (BKAT:4280).

108:155 (UICB:4290) Historical Book Structures 3 s.h.

Historical development of book structures examined through surviving examples, construction of historical models. Prerequisites: 01Y:150 (BKAT:4205) or 108:150 (UICB:4205).

108:156 (UICB:4210) Boxes and Enclosures 3 s.h.

Hands-on techniques for a variety of book enclosures; appropriateness, aesthetic issues concerning box design; Japanese wraparound case, drop-spine box, hinged and lidded boxes, slipcase; technical skill development. Prerequisites: 108:150 (UICB:4205). Same as 01Y:156 (BKAT:4210).

108:157 (UICB:4220) Moveable/Sculptural Books 3 s.h.

Varied formats for moveable and/or sculptural books; history; readings, hands-on model making. Same as 01Y:157 (BKAT:4220).

108:158 (UICB:4230) Pop-Up Book Structures 3 s.h.

Hands-on exploration of varied aspects of paper engineering for bookmaking; historical and modern models studied and executed. Prerequisites: 108:150 (UICB:4205). Same as 01Y:158 (BKAT:4230).

108:160 (UICB:4300) Letterpress I 3 s.h.

Mechanics of letterpress printing, typography, and design as applied to hand set metal type and edition printing; printing on a Vandercook proof press; introduction to photopolymer plates and methods of illustration related to edition printing, historical aspects of printing technology, typecasting, type classification; role of letterpress in modern private press and contemporary artist books. Same as 01P:160 (ARTS:4300).

108:161 (UICB:4320) Handprinted Book: Design and Production 3 s.h.

Exploration of problems in hand-printing books—choice of manuscript, editing, design, typesetting, proofreading, printing and binding; histories of printing and of the book, emphasis on 20th- and 21st-century book design and literature. Same as 01P:161 (ARTS:4320).

108:162 (UICB:4390) Book and Publication Design 3 s.h.

Students plan, design, and produce a book using Adobe Creative Suite; page layout software, typography, page layout and design, book formatting, handling of image files, preparation of materials for print and other contemporary book media; history of book design, book design in contemporary publishing; visit to University of Iowa Libraries Special Collections. Prerequisites: 01D:100 (DSGN:3120) or 108:160 (UICB:4300). Same as 01P:162 (ARTS:4390).

108:163 (UICB:4330) Digital to Letterpress Book Design 3 s.h.

Digital typesetting and book design; chapbook production using photopolymer plates and Vandercook presses; text and content, book typography, practical and aesthetic considerations. Same as 01P:163 (ARTS:4330).

108:164 (UICB:4340) Digital Design for Artists' Books 3 s.h.

Introduction to concepts, techniques, and technologies used to design and produce artists' books with personal computers and graphic design software. Same as 01P:164 (ARTS:4340).

108:165 (UICB:4310) Innovative Letterpress 3 s.h.

Creation of the visual book using letterpress printing; narrative, serialization, type as graphic, physical structure of the book; traditional letterpress printing, monoprinting, nontraditional letterpress techniques using technology ranging from metal to digital. Same as 01P:165 (ARTS:4310).

108:166 (UICB:5370) Studies in Printing 3 s.h.

Special topics and advanced projects in printing.

108:167 (UICB:5330) Letterpress III arr.

Builds on skills acquired in 108:160 (UICB:4300) and 108:169 (UICB:4380); advanced work in fine press book design and image-making processes for fine press printing. Prerequisites: 108:169 (UICB:4380). Same as 01P:167 (ARTS:5330).

108:168 (UICB:4305) Computer Graphics for Book Arts 3 s.h.

Introduction to Adobe Creative Suite graphic design software (InDesign, Illustrator, Photoshop); emphasis on using software for book arts applications; typesetting and pagination of multipage documents; methods for combining text and image; tools and techniques for digital illustration; creation and manipulation of digital images; preparations of digital files for desktop or letterpress printing and services bureau output.

108:169 (UICB:4380) Letterpress II 3 s.h.

Builds on skills acquired in 108:160 (UICB:4300); issues of book design and production related to letterpress printing; exploration of hand-set metal, digital typesetting, printing from photopolymer plates, and imagemaking; press mechanics and operation; students produce a letterpress printed chapbook or artist book; publication philosophies, manuscript acquisition, and topics specific to literary fine press and artist books; historical and contemporary context for literary fine press publications and artist book work. Prerequisites: 108:160 (UICB:4300).

108:170 (UICB:4010) Studies in Book Technologies arr.

Topics such as book design, printing, paper arts, letterforms, typography.

108:171 (UICB:5280) Bookbinding IV 3 s.h.

Advanced studies in bookbinding; fine binding styles, leather paring and tooling, advanced finishing techniques, refining skills; continued look at differences in regional binding practices, how these differences affect function, and why particular styles developed. Prerequisites: 108:152 (UICB:5210).

108:181 (UICB:3140) Literature and the Book 3 s.h.

English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures through 17th-Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:130 (ENGL:3140).

108:182 (UICB:4910) The Book in the Middle Ages 3 s.h.

Relation of text, decoration, function, creators, and audience in different genres of medieval manuscript books 400-1500 A.D. Same as 16E:120 (HIST:4910).

108:183 (UICB:4920) The Transition from Manuscript to Print 3 s.h.

Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as 021:258 (SLIS:4920), 16E:118 (HIST:4920).

108:185 (UICB:4150) Introduction to Book Studies 3 s.h.

Theory and practice of book studies; meanings of word and image in the book format; comparative study of other media, applied study of the codex as physical artifact. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, or 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:134 (ENGL:4150).

108:186 (UICB:3142) Topics in Book History 3 s.h.

Authorship, publishing, and so forth within specific historical and cultural contexts. English majors may apply this course to the following area and/or period requirement. AREA: Literary Theory and Interdisciplinary Studies. PERIOD: Early Literatures Through 17th Century, 18th/19th-Century Literature, or 20th/21st-Century Literature. Same as 008:190 (ENGL:3142).

108:200 (UICB:5550) Special Project for Graduate Students arr.

Independent study.

108:201 (UICB:5510) Book Studies Workshop 1 s.h.

Discussion of issues central to book studies; workshop approach to current projects.

108:202 (UICB:5520) Introduction to Book History 3 s.h.

Topics related to production, distribution, and consumption of books through history and into the future.

108:204 (UICB:5530) Topics in Preservation/Conservation 3 s.h.

Care, conservation, and preservation of cultural heritage artifacts; readings, discussion, hands-on sessions.

108:205 (UICB:6500) Final Project arr.

Project for graduate certificate.

108:210 (UICB:5150) Individual Instruction in Papermaking/Paperworks arr.

Traditional papermaking or creation of works of art using paper pulp as the medium; independent projects.

108:214 (UICB:5450) Individual Instruction in Calligraphy arr.**108:215 (UICB:5250) Individual Instruction in Bookbinding/Structure** arr.

Bookbinding and artists' book works; independent projects.

108:216 (UICB:5350) Individual Instruction in Printing arr.**108:220 (UICB:5600) History of Readers and Reading** 3 s.h.

Cultural nature of reading practices in historic and contemporary contexts of reading; reading communities; dimensions of gender, age, class, religion, race, ethnicity; examples of recent scholarship; use of primary resources; seminar. Same as 021:256 (SLIS:5600).

108:222 (UICB:6120) Topics: Policy/Planning 1-3 s.h.

Current topics in national and international policies, their impact on planning. Same as 021:279 (SLIS:6500).

108:224 (UICB:6270) Electronic Publishing 3 s.h.

Modes and methods for building electronic journals, books, thematic collections; new genres for publishing, including blogs, wikis, comics, short stories on the web; social, political, and economic forces that shape electronic publishing; XML-based project. Prerequisites: 021:120 (SLIS:5020). Same as 021:224 (SLIS:6270).

108:230 (UICB:6370) Topics in Book Studies 3 s.h.

Topics relevant to book studies and special collections. Same as 021:249 (SLIS:6370).

108:280 (UICB:6520) Graduate Book Arts Workshop 3 s.h.

Development of art work and studio practice; readings and research in contemporary theory and practice; analysis of visual language; integration of creative activities and critical thinking in student's own art practice and analysis of contemporary work in book arts; group and individual critiques, studio assignments, presentations, discussions.

108:298 (UICB:6540) M.F.A. Thesis Hours arr.**108:299 (UICB:6100) Book Studies Proseminar** 1-3 s.h.

Genetics

Graduate degree: Ph.D. in genetics

Web site: <http://genetics.grad.uiowa.edu>

Graduate Program

- Doctor of Philosophy in genetics

Doctor of Philosophy

The Doctor of Philosophy program in genetics requires a minimum of 72 s.h. of graduate credit. The Ph.D. program is designed to promote collaborative investigation and intellectual interaction among students and faculty participants affiliated with several different departments.

Students who enroll in the program are encouraged to obtain a broad background in genetics, including molecular, population, and human genetics. Within this

context, course requirements are flexible enough to permit students to tailor their formal course work to their individual needs.

Students have the option to declare a Ph.D. emphasis in computational genetics.

All students enrolled in the program are required to take the following courses.

All of these:

099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
127:150 (GENE:6150) Genetic Analysis of Biological Systems	3 s.h.
127:200 (GENE:6200) Special Topics in Genetics (seminar)	1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.

One of these:

002:131 (BIOL:3172) Evolution	4 s.h.
002:168 (BIOL:4333) Genes and Development	3 s.h.
127:191 (GENE:7191) Human Molecular Genetics	3 s.h.

All of these:

650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.
Elective course work in molecular and microbial genetics, cell and development genetics, human genetics, or computational genetics	8 s.h.
Seminar courses approved by the program	5 s.h.

Even more important than formal course work is the opportunity to do significant research in genetics. Research interests of the participating faculty include virtually all areas of genetics, ranging from bacteriophage genetics to human medical genetics. In each area of genetics, there is a group of faculty members who have closely related interests.

The University is also strong in several related disciplines, including microbial physiology, enzymology, virology, protein biochemistry, computational genetics, and developmental and cell biology, all of which contribute significantly to the overall training program.

In addition to completing research and course work, students must pass a comprehensive examination, usually at the end of their second year in the program.

Joint M.D./Ph.D.

Students may work toward the Doctor of Medicine degree and a Ph.D. in genetics in a joint degree program offered by the Carver College of Medicine and the Graduate College. See Medical Scientist Training (p. 961) Program (Carver College of Medicine) in the Catalog.

Ph.D. and Dental Scientist Training Program

Ph.D. students in genetics who have earned a D.D.S. degree may be candidates for advanced training programs in dentistry. For information, contact the College of Dentistry.

Admission

Prospective doctoral students in genetics should have a strong undergraduate background in science,

including courses in general genetics, organic chemistry, biochemistry, introductory physics, and mathematics, as well as a strong commitment to genetic research and teaching. Students can make up deficiencies in a particular area during their first year of graduate study.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Admission to the program is based on assessment of applicants' undergraduate academic records, performance on the Graduate Record Examination (GRE) General Test, and letters of recommendation. Admission requirements are not rigid. Most students working toward a Ph.D. in genetics at the University have an undergraduate g.p.a. above 3.50, and a combined verbal and quantitative score above 1250 on the GRE General Test. Students with lower grade-point averages or GRE scores may be admitted, depending on prior research experience and other indications of academic potential.

Students generally begin graduate work in the fall semester.

Financial Support

All genetics graduate students receive a financial stipend of \$25,500 plus tuition for academic year 2012-13.

Financial support comes from training grants, research assistantships, teaching assistantships, scholarships, individual research grants, or other departmental or college funds. All students are required to do some teaching as part of their development as future scientists and faculty members.

Associated Courses

Credit earned in the following courses may be counted toward the Ph.D. in genetics. Not all courses are offered every year.

002:131 (BIOL:3172) Evolution	4 s.h.
002:168 (BIOL:4333) Genes and Development	3 s.h.
002:171 (BIOL:3713) Molecular Genetics	4 s.h.
051:123 (BME:5320) Bioinformatics Techniques	3 s.h.
061:268 (MICR:6268) Biology and Pathogenesis of Viruses	2 s.h.
070:110 (PEDS:8104) Medical Genetics	2 s.h.
127:170 (GENE:6170) Bioinformatics	3 s.h.
127:173 (GENE:5173) Computational Genomics	3 s.h.
132:184 (NSCI:6184) Developmental Neurobiology	3 s.h.
142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA	1 s.h.
142:220 (MCB:6220) Mechanisms of Cellular Organization	3 s.h.
142:225 (MCB:6225) Growth Factor Receptor Signaling	1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

Courses

127:150 (GENE:6150) Genetic Analysis of Biological Systems 3 s.h.

Genetic techniques and approaches for analysis of biological processes; comparison of strengths, weaknesses of a variety of experimental systems.

127:170 (GENE:6170) Bioinformatics 3 s.h.

Overview of bioinformatics topics, including access to sequence data, pairwise and multiple sequence alignment algorithms, molecular phylogeny, microarray data analysis, protein analysis, proteomics and protein structure analysis; emphasis on experimental methods and analytical approaches. Prerequisites: 002:128 (BIOL:2512) or 099:120 (BIOC:3120). Recommendations: grade of B+ or higher in 002:128 (BIOL:2512) or 099:120 (BIOC:3120), or graduate standing. Same as 002:170 (BIOL:4213).

127:173 (GENE:5173) Computational Genomics 3 s.h.

Introduction to computational methods used in genome analysis and functional genomics; biological sequence analysis, sequence database search, microarray data analysis, biological network analysis; in-depth coverage of principal genome science challenges and recent solutions. Same as 002:174 (BIOL:5320), 051:122 (BME:5330), 055:122 (ECE:5220).

127:176 (GENE:6410) Microarray Data Analysis 3 s.h.

Basic statistical principles and techniques used in bioinformatics, including analyzing microarray gene expression data. Offered spring semesters. Prerequisites: 225:030 (STAT:2010) or 225:101 (STAT:3510) or 171:161 (BIOS:5110). Same as 002:176 (BIOL:4313), 171:185 (BIOS:6410).

127:191 (GENE:7191) Human Molecular Genetics 3 s.h.

Molecular genetic approaches to human disease; the human genome project, linkage analysis, candidate gene screening, special features of inbred populations, triplet repeat expansions, mitochondrial genetics, genetics of complex traits. Requirements: fundamental genetics and molecular biology.

127:200 (GENE:6200) Special Topics in Genetics 1 s.h.

Current research in a selected field of genetics; different topic each year. Companion to a genetics seminar series. Same as 060:200 (ACB:6200).

127:234 (GENE:6234) Basic Biostatistical Methods with Genetics Applications 1 s.h.

Introduction to terminology, fundamental concepts, and methods of biostatistics as applied to genetic research; genetic investigation examples used to illustrate statistical approaches.

127:280 (GENE:6280) Directed Study in Genetics arr.

127:301 (GENE:7301) Graduate Research in Genetics arr.

Human Toxicology

Director

Larry W. Robertson (Occupational and Environmental Health)

Associate director

Peter Thorne (Occupational and Environmental Health/Civil and Environmental Engineering)

Director of graduate studies

Gabriele Ludewig (Occupational and Environmental Health)

Affiliated faculty

Garry Buettnner (Free Radical and Radiation Biology/Radiation Oncology), A. Brent Carter (Internal Medicine), Frederick Domann (Free Radical and Radiation Biology/Radiation Oncology), Jonathan Doorn (Pharmacy), Michael Duffel (Pharmacy), R. William Field (Occupational and Environmental Health/Epidemiology), Laurence Fuortes (Occupational and Environmental Health), Frederic Gerr (Occupational and Environmental Health), Prabhat Goswami (Free Radical and Radiation Biology/Radiation Oncology), Vicki Grassian (Chemistry/Chemical and Biochemical Engineering/Occupational and Environmental Health), Keri Hornbuckle (Civil and Environmental Engineering), Bahri Karacay (Pediatrics), Joel Kline (Immunology/Internal Medicine), Hans-Joachim Lehmler (Occupational and Environmental Health), Gabriele Ludewig (Occupational and Environmental Health), Paul McCray (Pediatrics/Genetics), David Murhammer (Chemical and Biochemical Engineering), Daryl Murry (Clinical and Administrative Pharmacy), Thomas Peters (Occupational and Environmental Health), Aliasger Salem (Pharmacy), Jerald Schnoor (Civil and Environmental Engineering), Andrean Simons-Burnett (Pathology), Douglas Spitz (Free Radical and Radiation Biology/Radiation Oncology), Jerrold Weiss (Immunology/Internal Medicine/Microbiology), Dale Wurster (Pharmacy)

Graduate degrees: M.S. in human toxicology; Ph.D. in human toxicology

Web site: <http://toxicology.grad.uiowa.edu/>

Toxicology is the study of how biological, chemical, physical, and radiological agents affect living organisms and the ecosystem, and how to prevent or lessen the adverse effects of those agents. The Human Toxicology Program prepares toxicologists to identify and assess environmental exposures, identify mechanisms by which toxicants affect homeostasis or induce disease, identify interventions to prevent adverse effects, and estimate acceptable levels of exposure to protect public health.

The program is interdisciplinary, involving the Graduate College, the Carver College of Medicine, and the Colleges of Engineering, Liberal Arts and Sciences, Pharmacy, and Public Health.

The Human Toxicology Program is supported by the Iowa Superfund Research Program. Human toxicology faculty members are supported by the Environmental Health Sciences Research Center, a National Institute of Environmental Health Center of Excellence.

Graduate Programs

- Master of Science in human toxicology
- Doctor of Philosophy in human toxicology

Master of Science

The Master of Science program in human toxicology requires a minimum of 39 s.h. of graduate credit; a thesis is required. The program is designed for students who wish to pursue a master's degree as a second degree or through part-time study, particularly those who perform toxicologists' functions in their jobs and who need additional training.

Entering students should have backgrounds in the biological, engineering, and physical sciences and should have completed courses in introductory chemistry and biology, and organic chemistry.

After entering the program, each student works with his or her assigned mentor to choose an advisory committee, which meets at least once a semester to help the student explore his or her research interests. The committee also provides consultation on course work and research activities and serves as the committee for the final examination (thesis defense).

The Human Toxicology Program is flexible. Students work with their advisory committees to plan a course of study tailored to their individual interests and goals within the field of toxicology.

All M.S. students must successfully complete a first course in toxicology, 175:260 (OEH:5810) Environmental Toxicology (3 s.h.) or 046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology (3 s.h.); and an advanced course, 175:265 (OEH:6720) Advanced Toxicology (4 s.h.).

All toxicology graduate students are required to register for 198:180 (TOX:7180) Toxicology Research Seminar each semester of their enrollment in the program.

Upon successful completion of all requirements, including the thesis and its oral defense, students are awarded a Master of Science.

Doctor of Philosophy

The Doctor of Philosophy program in human toxicology requires a minimum of 72 s.h. of graduate credit. The program is designed for students with backgrounds in the biological, engineering, and physical sciences. Entering students should have solid training in science, including courses in introductory chemistry and biology, and organic chemistry; knowledge of biochemistry and molecular biology is also useful. Students may remedy deficiencies by taking appropriate courses during their first year of graduate study.

Students begin the program with three two-month rotations in the laboratories of participating faculty members, in order to identify a mentor. After the first year, the mentor assumes financial responsibility for the student. With advice from his or her mentor, each student chooses an advisory committee, which meets at least once a semester to help the student explore his or her research interests. The committee also provides consultation on course work and research activities and serves as the committee for the comprehensive examination and the final examination (dissertation defense).

The Human Toxicology Program is flexible. Students work with their advisory committees to plan a course of study tailored to their individual interests and goals within the field of toxicology.

All Ph.D. students must successfully complete a first course in toxicology, 175:260 (OE:5810) Environmental Toxicology (3 s.h.) or 046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology (3 s.h.); and an advanced course, 175:265 (OE:6720) Advanced Toxicology (4 s.h.).

All toxicology graduate students are required to register for 198:180 (TOX:7180) Toxicology Research Seminar each semester of their enrollment in the program and to successfully complete 650:270 (GRAD:7270) Principles of Scholarly Integrity within the first two years of graduate study.

After successfully completing the comprehensive examination, usually at the end of the second year of graduate study, the student advances to Ph.D. candidacy. The student devotes all of his or her time to dissertation research and writing. Upon successful completion of all requirements, including the dissertation and its oral defense, the student is awarded a Doctor of Philosophy.

Admission

Prospective students may apply to the program via a centralized application system; see Admissions Information on the Human Toxicology Program web site.

Completed applications should be submitted by January 15; applications submitted after that date are reviewed as they are received and are considered for any remaining openings.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

Doctoral students in human toxicology receive stipends and tuition support from University of Iowa sources, including the Presidential Graduate Fellowship and graduate research assistantships, and from non-University sources, such as training grants from the National Institutes of Health.

Facilities

Training is conducted primarily in laboratories and teaching facilities of the departments and colleges of Human Toxicology Program faculty members. These are among the best-equipped laboratories on campus. Together with the University's central research facilities, they provide access to the most up-to-date research equipment and expertise.

Associated Courses

For course descriptions and prerequisite information, see the course listings in the College of Pharmacy (p. 1037) and Department of Occupational and Environmental Health (p. 1088) sections of the Catalog.

046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology	3 s.h.
175:260 (OE:5810) Environmental Toxicology	3 s.h.
175:265 (OE:6720) Advanced Toxicology	4 s.h.

Courses

198:171 (TOX:7171) Special Problems in Toxicology	arr.
Didactic material that may include tutorial, seminar, or faculty-directed research work; or a special topic.	
198:173 (TOX:7173) Toxicology Journal Club	arr.
Current topics in toxicology literature.	
198:180 (TOX:7180) Toxicology Research Seminar	0-1 s.h.
Contemporary research topics.	
198:201 (TOX:7201) Toxicology Research	arr.
Research that constitutes part of the thesis.	
198:300 (TOX:7300) Thesis/Dissertation	arr.
Thesis or dissertation research; seminar preparation.	

Immunology

Director

Gail Bishop (Microbiology)

Affiliated faculty

Michael Apicella (Microbiology), Vladimir Badovinac (Pathology), Zuhair Ballas (Internal Medicine), Gail Bishop (Microbiology), John Butler (Microbiology), John Colgan (Internal Medicine), Morris Dailey (Pathology), Elizabeth Field (Internal Medicine), George Giudice (Dermatology), John Harty (Microbiology), Jonathan Heusel (Pathology), Jon Houtman (Microbiology), Siegfried Janz (Pathology), Kevin Legge (Pathology), David Lubaroff (Urology), Martha Monick (Internal Medicine), Craig Morita (Internal Medicine), William Nauseef (Internal Medicine), Lyse Norian (Urology), Stanley Perlman (Microbiology), Frederick Quelle (Pharmacology), Patrick Schlievert (Microbiology), Annette Schlueter (Pathology), Fayyaz Sutterwala (Internal Medicine), Steven Varga (Microbiology), Thomas Waldschmidt (Pathology), George Weiner (Internal Medicine), Jerrold Weiss (Internal Medicine), Mary Wilson (Internal Medicine), Hai-Hui Xue (Microbiology), Nicholas Zavazava (Internal Medicine)

Graduate degree: Ph.D. in immunology

Web site: <http://immuno.grad.uiowa.edu>

The Immunology Program provides interdisciplinary training in the concepts and methodologies of basic and applied immunology. Faculty members are involved in a variety of research projects dealing with the immune system at all levels--structural, functional, cellular, biochemical, and molecular. Students take course work in immunology and related disciplines and are involved directly in laboratory research throughout their study.

Graduate Program

- Doctor of Philosophy in immunology

Doctor of Philosophy

The Doctor of Philosophy program in immunology requires a minimum of 72 s.h. of graduate credit. The program is flexible, accommodating students with a wide range of backgrounds in course work as well as practical experience in the biological and physical sciences. Entering students generally are expected to have strong backgrounds in biology, chemistry, biochemistry, microbiology, genetics, and mathematics. An introductory course in immunology is desirable. Deficiencies in specific areas often can be remedied through appropriate course work taken during the first year of graduate studies.

The curriculum consists of a sequence of required and elective courses that provide training in the conceptual and methodological aspects of immunology. The program offers ample opportunity for study in a variety of fields that interface with immunology.

The Ph.D. in immunology requires the following course work.

148:201 (IMMU:6201) Graduate Immunology	3 s.h.
148:211 (IMMU:6211) Immunology Seminar (taken fall and spring of first year, spring of second year)	1 s.h.
148:221 (IMMU:7221) Advanced Topics in Immunology	3 s.h.

156:204 (BISC:5204) Biostatistics for Biomedical Research	1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.
Elective courses (optional)	

Students complete 5 s.h. of the following.

Fundamentals:

099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression (recommended)	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes (recommended)	1 s.h.

Molecular biology:

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA	1 s.h.
142:216 (MCB:6216) Chromatin Structure and Disease	1 s.h.
142:217 (MCB:6217) Cancer, Epigenetics, and Genetic Manipulations in Mice	1 s.h.

Cell biology:

142:220 (MCB:6220) Mechanisms of Cellular Organization	3 s.h.
142:225 (MCB:6225) Growth Factor Receptor Signaling	1 s.h.
142:226 (MCB:6226) Cell Cycle Control	1 s.h.
142:227 (MCB:6227) Cell Fate Decisions	1 s.h.

After successfully completing the comprehensive examination, usually by the end of the second year of graduate study, students advance to candidacy for the Ph.D. They devote their time to research and writing their dissertation. Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Ph.D. in immunology.

Admission

For information regarding admission and application procedures, contact the Immunology Program or visit its web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate College section of the Catalog.

Financial Support

All students in the Immunology Program receive stipends and tuition support, which comes from a variety of sources, including training grants from the National Institutes of Health, University of Iowa fellowships and graduate research assistantships, and individual faculty research grants.

Facilities

Training is conducted in laboratories and teaching facilities of the Carver College of Medicine Departments of Dermatology, Internal Medicine, Pathology, Microbiology, Pharmacology, and Urology. Faculty laboratories and central research core facilities provide students with access to state-of-the-art research equipment.

Courses

148:040 (IMMU:2040) Summer Undergraduate IDGP Research 0 s.h.

148:201 (IMMU:6201) Graduate Immunology 3 s.h.

Ontogeny, activation, and function of T lymphocytes and B lymphocytes; innate immune effector mechanisms; major histocompatibility complex; antigen presentation; thymocyte positive and negative selection; signaling of T lymphocytes, B lymphocytes; emphasis on experimental methods for analysis of these processes. Requirements: for 148:201 (IMMU:6201) — college biology, general chemistry, and introductory immunology courses; for 061:201 (MICR:6201) — courses in college biology, genetics, general chemistry, and introductory immunology. Recommendations: for 148:201 (IMMU:6201) — courses in biochemistry and genetics; for 061:201 (MICR:6201) — biochemistry course. Same as 061:201 (MICR:6201).

148:211 (IMMU:6211) Immunology Seminar 1 s.h.
Requirements: immunology graduate standing.

148:217 (IMMU:7217) Integrated Topics in Infectious Diseases 1 s.h.

Clinical cases used to raise questions in host-parasite interactions; case/scientific exposés followed by related journal club discussions at next class session. Same as 061:217 (MICR:7217).

148:221 (IMMU:7221) Advanced Topics in Immunology 3 s.h.

In-depth analysis of selected areas. Prerequisites: for 148:221 (IMMU:7221) — 148:201 (IMMU:6201); for 061:207 (MICR:7207) — 061:201 (MICR:6201) or 148:201 (IMMU:6201). Same as 061:207 (MICR:7207).

148:231 (IMMU:6231) Research in Immunology arr.
Laboratory research. Requirements: immunology graduate standing.

148:247 (IMMU:6247) Graduate Survey of Immunology 3 s.h.

Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Same as 061:247 (MICR:6247).

148:251 (IMMU:8113) Principles of Medical Immunology 2 s.h.

Basic molecules, cells; organs of immune system; mechanics and regulations of immune response; clinical principles of normal and abnormal immunity. Requirements: M.D. enrollment.

148:301 (IMMU:6301) Directed Study in Immunology arr.

Informatics

Director

John C. Keller (Graduate College)

Affiliated faculty

Michael Apicella (Microbiology), Marc Armstrong (Geography), Jose Assouline (Biomedical Engineering), Gary Baumbach (Pathology), David Bennett (Geography), Warren Boe (Management Sciences), Terry Braun (Biomedical Engineering/Ophthalmology and Visual Sciences), Jane Brokel (Nursing), John Brooks (Epidemiology), Pat Brophy (Pediatrics), Lee Carmen (Health Management and Policy), Thomas Casavant (Electrical and Computer Engineering/Genetics/Biomedical Engineering), Octav Chipara (Computer Science), Josep Comeron (Biology), Thomas Cook (Occupational and Environmental Health), Mary Cowles (Statistics and Actuarial Science), James Cremer (Computer Science), Donna D'Alessandro (Pediatrics), Michael D'Alessandro (Radiology), Peter Damiano (Dentistry), Beverly Davidson (Genetics/Molecular and Cellular Biology), Deborah Dawson (Preventive and Community Dentistry), Franklin Dexter (Anesthesiology), John Donelson (Biochemistry), David Eichmann (Computer Science/Library and Information Science), John Engelhardt (Anatomy and Cell Biology), Jan Fassler (Biology/Genetics), Elizabeth Field (Internal Medicine), R. William Field (Occupational and Environmental Health/Epidemiology), Michael Finkelstein (Oral Pathology, Radiology, and Medicine), Charles Foster (Geoscience), Richard Funderburg (Urban and Regional Planning), Laurence Fuortes (Occupational and Environmental Health), Paul Hanley (Urban and Regional Planning), Eric Hoffman (Radiology), Juan Pablo Hourcade (Computer Science), Haowei Hsieh (Library and Information Science), Deborah Kacmarynski (Pediatrics/Otolaryngology-Head and Neck Surgery), Patricia Katopol (Library and Information Science), David Katz (Internal Medicine), Joseph Kearney (Computer Science), John Kemp (Pathology), Al Klingelutz (Microbiology), Matt Krasowski (Pathology), Naresh Kumar (Geography), Andrew Kusiak (Mechanical and Industrial Engineering), Yi Li (Mathematics), Jim Lin (Biology/Genetics), Marc Linderman (Geography), John Logsdon (Biology/Genetics), Der-Fa Lu (Nursing), Michael Mackey (Radiology), George Malanson (Geography), John Manak (Biology), Miwa Matsuo (Urban and Regional Planning), Bryant McAllister (Biology), Ann Marie McCarthy (Nursing/Pediatrics), Paul McCray (Pediatrics/Genetics), Cliff Missen (Library and Information Science), Peter Nagy (Pathology), Jun Ni (Radiology), Andrew Norris (Pediatrics), Gautam Pant (Management Sciences), Thomas Peters (Occupational and Environmental Health), Kirk Phillips (Nursing/Epidemiology), Phil Polgreen (Internal Medicine/Epidemiology), Joseph Reinhardt (Biomedical Engineering), Jennifer Robinson (Epidemiology), John Robinson (Electrical and Computer Engineering), Gerard Rushton (Geography), Yutaka Sato (Radiology), Todd Scheetz (Ophthalmology and Visual Sciences/Biomedical Engineering), Jerald L. Schnoor (Civil and Environmental Engineering/Occupational and Environmental Health), Alberto Segre (Computer Science/Public Health Genetics), Val Sheffield (Pediatrics/Genetics), Curt Sigmund (Internal Medicine), Lisa Skemp (Nursing), Richard Smith (Otolaryngology--Head and Neck Surgery/Genetics), David Soll (Biology), Bernard Sorofman (Pharmacy), Christopher Squier (Oral Pathology, Radiology, and Medicine/Radiology), Padmini Srinivasan (Management Sciences/Nursing/Computer Science), Kathleen Stewart

(Geography), John Stokes (Internal Medicine), Edwin Stone (Ophthalmology and Visual Sciences/Genetics), Nick Street (Management Sciences/Computer Science), Kai Tan (Biomedical Engineering), James Turner (Epidemiology/Education/Surgery/Neurosurgery), Daniel Tranel (Neurology), Kai Wang (Biostatistics), Marcia Ward (Health Management and Policy), George Weiner (Internal Medicine), Michael Welsh (Physiology/Neurosurgery/Internal Medicine), Ann Williamson (Nursing), Xiaodong Wu (Electrical and Computer Engineering/Radiation Oncology), Yi Xing (Biomedical Engineering/Biostatistics), Jinhu Xiong (Radiology/ Biomedical Engineering), Ying Zhang (Biostatistics), You-Kuan Zhang (Geoscience), Dale Zimmerman (Statistics)

Graduate degrees: M.S.in informatics; Ph.D. in informatics

Graduate certificate: informatics

Web site: <http://informatics.grad.uiowa.edu>

The field of informatics springs from the intersection of computational disciplines related to the humanities, the arts, and the biological, health, natural, and social sciences. As the rapid development of information technology transforms the world of human pursuits, informatics offers ways to solve new problems and to examine existing problems from new perspectives.

The Informatics Program provides graduate students the opportunity to study informatics in the broadest sense. The program is interdisciplinary, involving the Graduate College, the Carver College of Medicine, the Tippie College of Business, and the Colleges of Engineering, Liberal Arts and Sciences, Nursing, and Public Health.

Graduate Programs

- Master of Science in informatics
- Doctor of Philosophy in informatics
- Certificate in Informatics

The Master of Science and Doctor of Philosophy degrees in informatics are offered with two subtracks: health informatics and information science. The Certificate in Informatics is offered with four subtracks: bioinformatics and computational biology, geoinformatics, health informatics, and information science.

Master of Science

The Master of Science program in informatics requires a minimum of 32 s.h. of graduate credit. It is offered with subtracks in health informatics and information science. Students working toward a Doctor of Philosophy in informatics may be granted a Master of Science upon completion of the M.S. requirements.

The 32 s.h. required for the M.S. includes 9 s.h. in foundations of informatics and at least 9 s.h. in disciplinary applications of informatics.

Students select an advisor from their subtrack's affiliated faculty members. In consultation with their advisors, students prepare a study plan, which is reviewed at least once a year. A final master's degree examination, either oral or written, is required.

For more information about the Master of Science requirements, visit the Informatics Program web site.

Doctor of Philosophy

The Doctor of Philosophy program in informatics requires a minimum of 72 s.h. of graduate credit. It is offered with subtracks in health informatics and information science.

The 72 s.h. required for the Ph.D. includes 9 s.h. in foundations of informatics and at least 9 s.h. in disciplinary applications of informatics.

Students select an advisor from their subtrack's affiliated faculty members. In consultation with their advisors, students prepare a study plan, which is reviewed by their mentors and curricular advisory committees at least once a year. Ph.D. students must pass a comprehensive examination at or near completion of their course work requirements. The exam may be written, oral, or both, depending on the structure of the student's subtrack or the decision of the student's committee.

A student who does not already hold an M.S. in informatics from The University of Iowa and who has passed the Ph.D. comprehensive examination may be granted an M.S. degree in informatics without taking the final master's degree exam, upon recommendation by the informatics program.

Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Doctor of Philosophy.

For more information about the Doctor of Philosophy requirements, visit the Informatics Program web site.

Certificate

The Certificate in Informatics requires a minimum of 18-21 s.h. of graduate credit, depending on choice of subtrack (the subtracks in bioinformatics and computational biology, health informatics, and information science require a minimum of 18 s.h.; the geoinformatics subtrack requires minimum of 21 s.h.). The program is designed for students enrolled in University of Iowa graduate degree programs who wish to study informatics as a complement to their degree programs.

All subtracks require 9 s.h. in the foundations of informatics. In addition, the subtracks in bioinformatics and computational biology, health informatics, and information science require at least 9 s.h. in disciplinary applications of informatics; and the geoinformatics subtrack requires at least 12 s.h. in disciplinary applications of informatics. Work toward the certificate may not be substituted completely for courses or examinations required by the student's graduate degree program.

For more information about certificate requirements, visit the Informatics Program web site.

Admission

Applicants to the M.S., Ph.D., or certificate program should apply to the degree subtrack of their choice. The subtrack programs make independent admission decisions. Certificate program applicants must be enrolled in a University of Iowa graduate degree program and must be in good academic standing in their degree programs.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They also must meet the admission

requirements of the informatics subtrack they want to enter; see Prospective Students/How To Apply on the program's web site.

Courses

200:110 (IGPI:5200) Health Informatics I 3 s.h.

Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 050:283 (MED:5300), 096:283 (NURS:5300), 021:275 (SLIS:5900), 074:191 (RSNM:3195), 174:226 (HMP:5370), 051:187 (BME:5250), 056:186 (IE:5860).

200:120 (IGPI:5210) Health Informatics II 3 s.h.

Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 096:289 (NURS:5301), 056:287 (IE:5870), 021:280 (SLIS:5910).

200:199 (IGPI:5010) Research for Master's Thesis arr.

Requirements: admission to M.S. program.

200:205 (IGPI:5015) Independent Study arr.

200:220 (IGPI:6220) Social Informatics 3 s.h.

Study of information and communication tools (ICTs) in cultural or institutional contexts; how ICTs are conceptualized, disseminated, and used in everyday and specialized environments such as libraries, education settings, corporations, local communities, cultural groups, political campaigns, and Web 2.0. Prerequisites: 021:101 (SLIS:5010). Same as 021:210 (SLIS:6130).

200:296 (IGPI:6500) Topics in Informatics arr.

Current topics in informatics.

200:297 (IGPI:6510) Readings in Informatics arr.

Topics not covered in other courses; individual study.

200:298 (IGPI:6515) Independent Study arr.

200:299 (IGPI:6520) Research for Dissertation arr.

Requirements: Ph.D. candidacy.

International Writing Program

Director

Christopher Merrill

Instructors

Natasa Durovicova, Hugh Ferrer

Web site: <http://iwp.uiowa.edu/>

The International Writing Program (IWP) conducts a unique fall residency program for established writers from outside the United States and a summer writing program for American and international high school students. During spring semester, IWP offers courses related to the program's general mission, including collaborative distance learning courses for writing students overseas.

Residency Program

Each fall the International Writing Program assembles a community of poets, fiction writers, essayists, playwrights, and journalists for a one-semester residency on campus. Participants range from emerging talents to writers who are among their countries' leading literary figures and writers of world stature. For most of them, their time in the program is their first, or their first extended, stay in the United States.

At the University they live and interact with each other while working on writing and translation projects and participating in public events. Throughout their residency, they present their work in 181:191 (IWP:3191) *International Literature Today* and 181:205 (IWP:5205) *International Translation Workshop* and participate as guests in many other courses on campus, including a First-Year Seminar for new University of Iowa undergraduates. They also interact with the public through readings, panel discussions, a film series, and other presentations.

Since 1967 more than 1,400 writers from 130 countries have participated in the program.

International Writing Program participants are supported by the U.S. Department of State, through bilateral agreements with many countries, by grants from cultural institutions and governments abroad, and by private funds. The program does not provide grants for writers.

For more information, contact the International Writing Program or visit its web site.

Summer Program

Every summer IWP sponsors *Between the Lines*, bringing American high school students together with students from Russia and the Arabic-speaking world to explore creative writing and world literature in a multilingual, multicultural environment. Students attend a language-specific writing workshop, in which they create and share stories and poetry with their peers. They also participate in a literature seminar conducted in English, where they discuss works written by American and international authors.

Between the Lines is offered in two sessions, each lasting two weeks: the first half of July, for students from Russia and America; and the second half of July, for students from Arabic-speaking countries and America.

International students are nominated by embassies in their home countries. American students who have completed grade 10, 11, or 12 may apply to the program; they must

complete an online application and submit samples of their creative work, a statement of purpose, a letter of recommendation from a teacher familiar with their writing, and a current high school transcript. Application deadline for both sessions is mid-February. Contact *Between the Lines* for more information.

Between the Lines is funded by a grant from the U.S. Department of State's Bureau of Educational and Cultural Affairs.

Courses

181:001 (IWP:1181) Readings for Writers 1 s.h.

Introduction to the Iowa City writing community; attendance at readings by professional, faculty, and student writers; students keep journals about readings.

181:040 (IWP:1040) Writing Across the Atlantic: Guided Creative Writing and Reading arr.

Reading contemporary British prose and poetry and students' own creative writing; instruction by a visiting writer from Great Britain who is participating in the International Writing Program.

181:101 (IWP:3101) Independent Studies arr.

Directed readings in contemporary world literature.

181:102 (IWP:1102) On Campus Independent Study arr.

Independent study arranged in collaboration with instructor.

181:110 (IWP:3210) Comparative Arts 3 s.h.

Cultural and aesthetic issues arising from side-by-side investigation of several art forms, including literature, cinema, painting, music, opera, architecture; periods, schools, styles, and their theories. Same as 048:110 (CCL:3210).

181:120 (IWP:1120) International Issues in Creative Nonfiction Writing arr.

Where does the subjective terminate, the objective commence? What are the boundaries between domestic and global, personal and political, fiction and nonfiction? Addressing these questions through academic and creative means; examination of pressing social, environmental, and creative issues; for students unafraid of technology, interested in Skyping, working on message boards, and exchanging multimedia responses with students worldwide; online course linking to institutions of higher learning abroad.

181:152 (IWP:3152) America in Other Words 1-3 s.h.

Current idea of America in its imaginary form: post-1989 world fiction, poetry, and film in original language, in translation, and via online translation resources. Same as 048:152 (CCL:3152).

181:191 (IWP:3191) International Literature Today 1,3 s.h.

English majors may apply this course to the following area and/or period requirement. AREA: Transnational Literature and Culture. PERIOD: 20th/21st-Century Literature. Same as 008:191 (ENGL:3595), 218:191 (WLLC:3191).

181:201 (IWP:3201) Writing and Publishing for the Literary Web arr.

Technical aspects of web publishing, including step-by-step instruction on using content management systems (Drupal and Wordpress); specific stylistic and editorial protocols associated with contributing to literary web sites; utilize and navigate a content management system; create a contributor portfolio of online work, including media items, reviews, interviews, and blog posts.

181:205 (IWP:5205) International Translation Workshop 1-3 s.h.

International writers pair with University of Iowa translators to write new works of poetry and fiction in English; second-language fluency not required for international writers. Same as 048:205 (CCL:5405), 218:205 (WLLC:5205).

181:230 (IWP:5230) Writing Across Genres: A Workshop arr.

Writing across genres; exploration of modes and voices different from chosen genres (i.e., poets may test the waters of playwriting, nonfiction writers of translation, translators of fiction); rotations by guest faculty; workshop includes students from Writing University M.F.A. programs and International Writing Program residents.

181:247 (IWP:6635) Crossing Borders Seminar 2-3 s.h.

Same as 016:247 (HIST:6635), 008:231 (ENGL:6635), 01H:247 (ARTH:6635), 030:242 (POLI:6635), 044:286 (GEOG:6635), 048:247 (CCL:6635), 113:247 (ANTH:6635), 129:231 (AFAM:6635), 013:262 (GRMN:6635), 035:273 (SPAN:6904), 160:247 (PORO:6635), 009:262 (FREN:6142), 173:206 (EPID:6060).

181:260 (IWP:7460) Translation Workshop 4 s.h.

Requirements: at least one foreign language. Same as 048:260 (CCL:7460).

Library and Information Science

Interim director

Daniel A. Berkowitz

Professor emerita

Velva Jeanne Osborn

Adjunct professor

Nancy L. Baker

Associate professors

Timothy Barrett, David Eichmann, James Elmborg, Julie Leonard, Jennifer Burek Pierce

Associate professor emeritus

Carl Orgren

Assistant professors

André Brock, Haowei Hsieh, Patricia Katopol, Joan Bessman Taylor

Graduate degree: M.A. in library and information science

Web site: <http://slis.grad.uiowa.edu/>

Today's age is defined by the intersection of information, technology, and human creativity. In this context, library and information science is dedicated to understanding the nature of information, the interaction between information and communication technologies, the relationship between information and knowledge, the cognitive and affective aspects of knowledge acquisition, and the interface between people and information. It offers new knowledge, technological benefits, and professional expertise for every dimension of human affairs.

Library and information professionals take on many challenges in serving the needs of their constituencies--children and teachers, members of academic communities, employees of profit and nonprofit organizations, and the public at large--constituencies that range from information poor to information rich. They work in the contexts of issues such as information and communication technology, public and private information policy, managerial policy, and regional, national, and international economics.

The School of Library and Information Science prepares professionals to meet these diverse challenges. It offers a graduate-level program of preparation for careers in all types of libraries and information centers, providing students with a strong, well-rounded education in an environment that supports individuals from all segments of a multicultural, multiethnic, and multilingual society. Its curriculum reflects the profession's immediate and long-range needs and prepares students to be leaders in a changing field.

By promoting excellence in research, the school contributes to the base of theoretical and practical knowledge in library and information science and helps develop an understanding of how to meet the varied and changing information needs of individuals and society. It also provides public service through continuing education programs, selective consulting services for library and information centers, and participation in professional organizations.

The school strongly encourages its students, faculty members, and alumni to shape the future of the profession

by filling key roles in organizations involved in all aspects of the information cycle.

Graduate Programs

- Master of Arts in library and information science

Graduate students working toward a degree in library and information science may elect to pursue one of the joint degree programs offered by the school in collaboration with the Tippie College of Business and the College of Law. The school also offers a joint master's degree/certificate program with the Center for the Book. See "Joint Degrees" and "Joint M.A./Certificate" below.

Students interested in school librarianship may earn a teaching license through a joint program with the College of Education; see "Specializations"/"School Teacher Librarian" below. Library and information science students also may earn the Certificate in Informatics, described below.

The Master of Arts in library and information science has held continuous accreditation from the American Library Association since 1971.

Library science graduates have many options for employment. Alumni hold positions in public, school, special, and academic libraries as well as other information settings. They serve in varied roles, such as information consultant, database manager, library administrator, webmaster, network coordinator, cataloger, children's librarian, school library media specialist, and archivist.

Master of Arts

The Master of Arts in library and information science requires 36 s.h. of graduate credit. A thesis option is available for students who seek additional research experience.

Students pursuing the master's degree gain an understanding of the foundations of the library and information profession, including the history of the field, ethical and philosophical concerns, the information cycle, principles and procedures for dealing with a variety of information carriers, and the theory and practice of strategic management. They examine future trends, with emphasis on cutting-edge technological concerns. They study the discipline's research base, gaining heightened awareness of the synergism between library and information science and other disciplines, as well as the close relationship between research and practice. Finally, students become knowledgeable about the factors that underlie users' information needs and appropriate strategies to satisfy those needs.

The master's degree program is designed to be completed in two years. The maximum allowable load for graduate students is 12 s.h. during regular semesters and 8 s.h. during summer sessions. Students also may choose to complete the program through part-time study.

Students may apply a maximum of 12 s.h. of graduate transfer credit in library and information science or related areas toward the degree, subject to the approval of the transfer credit committee. Approval is given course-by-course and is determined by the course's content, currency, and applicability to the student's program.

The curriculum has three tiers. Tier I consists of three required courses that provide a solid grounding for all

successive course work. Tier II consists of four courses; students who intend to become school librarians should choose 021:262 (SLIS:6180) School Library Media Administration instead of 021:260 (SLIS:6170). In Tier III, students may earn up to 15 s.h. in electives chosen with guidance from their advisors. This three-tier arrangement allows each student to concentrate in an area that most closely matches his or her professional goals.

TIER I

All of these:

021:101 (SLIS:5010) Cultural Foundations	3 s.h.
021:120 (SLIS:5020) Computing Foundations	3 s.h.
021:122 (SLIS:5030) Conceptual Foundations	3 s.h.

TIER II

This course:

021:242 (SLIS:6160) Search and Discovery	3 s.h.
--	--------

One of these:

021:260 (SLIS:6170) Organizational Management	3 s.h.
021:262 (SLIS:6180) School Library Media Administration (for school teacher librarian specialization)	3 s.h.

Two of these:

021:124 (SLIS:6100) Database Systems	3 s.h.
021:202 (SLIS:6110) Research Methods	3 s.h.
021:205 (SLIS:6020) Literacy and Learning	3 s.h.
021:210 (SLIS:6130) Social Informatics	3 s.h.
021:226 (SLIS:6140) Digital Environments	3 s.h.
021:236 (SLIS:6150) Use and Users	3 s.h.
021:278 (SLIS:6490) Information Policy	3 s.h.

TIER III

With their advisor's guidance, students choose 15 s.h. in electives from the following courses.

021:123 (SLIS:5200) User Education: Multimedia	3 s.h.
021:141 (SLIS:5210) Reference and Information Services	3 s.h.
021:143 (SLIS:5220) Resources for Children	3 s.h.
021:144 (SLIS:5230) Resources for Young Adults	3 s.h.
021:145 (SLIS:5240) Resources for Adults	3 s.h.
021:150 (SLIS:4900) Preservation and Conservation of Collection Materials	3 s.h.
021:222 (SLIS:6250) Beginning Cataloging and Classification	3 s.h.
021:223 (SLIS:6260) Advanced Cataloging and Classification	3 s.h.
021:224 (SLIS:6270) Electronic Publishing	3 s.h.
021:228 (SLIS:6280) Hypertext Systems	3 s.h.
021:232 (SLIS:6300) Race, Gender, and Technology	3 s.h.
021:234 (SLIS:6190) Knowledge Management	3 s.h.
021:239 (SLIS:6320) Topics: Conceptual Structures/ Systems	1-3 s.h.
021:240 (SLIS:6330) Collection Management	3 s.h.
021:244 (SLIS:6340) Government Information Resources	3 s.h.
021:249 (SLIS:6370) Topics in Book Studies	3 s.h.
021:252 (SLIS:6375) Human Computer Interaction	3 s.h.
021:254 (SLIS:6380) Analysis of Scholarly Domains	3 s.h.
021:256 (SLIS:5600) History of Readers and Reading	3 s.h.
021:258 (SLIS:4920) The Transition from Manuscript to Print	3 s.h.
021:259 (SLIS:6410) Topics: Resources/Services	1-3 s.h.
021:261 (SLIS:6420) Strategic Management	3 s.h.

021:263 (SLIS:6430) Nonprofit Organizational Effectiveness I	3 s.h.
021:265 (SLIS:6435) Nonprofit Organizational Effectiveness II	3 s.h.
021:270 (SLIS:6460) Public Libraries	3 s.h.
021:271 (SLIS:6470) College and University Libraries	3 s.h.
021:272 (SLIS:6480) Special Libraries	3 s.h.
021:275 (SLIS:5900) Health Informatics I	3 s.h.
021:279 (SLIS:6500) Topics: Policy/Planning	1-3 s.h.
021:280 (SLIS:5910) Health Informatics II	3 s.h.
021:282 (SLIS:6520) Practicum in Libraries and Information Centers	2-3 s.h.
021:284 (SLIS:6530) School Library Media Practicum	3 s.h.
021:289 (SLIS:6550) Seminar in Library and Information Science	3 s.h.
021:290 (SLIS:6560) Capstone	1 s.h.
021:292 (SLIS:6570) Independent Study	1-3 s.h.
021:299 (SLIS:6580) Thesis	0-3 s.h.

Specializations

Students' programs often are designed around particular career goals. Following are examples of possible specializations.

PUBLIC LIBRARIES

Public libraries provide informational, educational, and recreational materials and a wide range of services for a diverse clientele. Although public libraries receive the bulk of their funding from local taxes, they also may be organized on a regional or statewide cooperative basis. The variety of uses, services, materials, and organizational structures of public libraries makes this a challenging area of librarianship. Public librarians need to develop skills in analyzing the communities they serve, designing comprehensive marketing plans to meet their needs, implementing the plans in a cost-effective way, and evaluating the success of their efforts.

ACADEMIC LIBRARIES

The academic library, whether in a community college, a four-year college, or a university, provides information services in support of the parent institution's teaching, research, and public service missions. These services include instruction in the use of the library and its resources. Management skills and subject or language competence often are required. Since librarians in this setting usually are considered academic faculty members, a second master's or other advanced degree is desirable.

SPECIAL LIBRARIES AND INFORMATION CENTERS

Special libraries serve corporations, private companies, government agencies, technical and academic institutions, museums, medical facilities, and information management consulting firms. They are organized to anticipate and quickly respond to the specific information needs of their users. Special librarians are information resource experts who collect, analyze, evaluate, package, and disseminate information to facilitate accurate decision making. Knowledge of information technology and the ability to design services suitable to the parent organization are professional necessities. In addition, substantial subject expertise may be required.

SCHOOL TEACHER LIBRARIAN

School teacher librarians provide instruction to students in accessing, evaluating, and using information; collaborate with teachers on the use of resources in instruction;

provide leadership in the use of instructional and information technologies; offer reading guidance; provide reference service; and manage the library media center.

The University of Iowa offers a state-approved program leading to endorsement as school teacher librarian K-12. In order to fulfill state requirements for this endorsement, students must hold or be eligible for a teaching license and must complete a designated sequence of courses that leads both to certification and to the M.A. degree.

Students who are interested in school libraries but lack a valid Iowa teaching license may earn licensure as a school teacher librarian by completing 30 s.h. in the College of Education. The Master of Arts in library and information science with teacher licensure requires 66 s.h. of credit. Students must apply and be admitted to both programs.

INFORMATION SCIENCE

The multidisciplinary field of information science is influenced by the rapid growth in digital information collections and technologies. This specialization offers expertise in retrieval, dissemination, and use of information. In addition to libraries and information centers, many for-profit organizations are finding that information is a valuable commodity in today's competitive world and are employing information management personnel. The curriculum offers opportunities to study information science aspects, such as digital libraries, electronic publishing, and automated systems design.

Joint Degrees

The School of Library and Information Science offers a joint Master of Arts/Master of Business Administration with the Tippie College of Business and a joint Juris Doctor/Master of Arts with the College of Law. The primary goal of the joint programs is integration of the two areas of study.

Students in the joint programs may apply a limited amount of credit toward both degrees. Up to 9 s.h. in business or law may be applied toward the M.A. in library and information science; up to 9 s.h. in library and information science may be applied toward the M.B.A., and 12 s.h. may be applied to the J.D.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. For more information, see College of Law (p. 880) or Master of Business Administration Program (p. 615) in the Catalog.

In addition to the joint M.A./M.B.A. and J.D./M.A., joint programs may be arranged between departments on an ad hoc basis. A minimum of 60 s.h. of graduate work is required for a joint master's degree program.

Joint M.A./Certificate

Students interested in special collections, book arts, or museum librarianship may pursue an M.A. in library and information science in conjunction with a graduate Certificate in Book Studies/Book Arts and Technologies. The joint program also may be appropriate for students interested in book studies scholarship and those seeking careers in publishing, graphic arts, or book-related industries that require a similar blend of subject and technical knowledge.

The joint program requires a total of 51 s.h. At least 27 s.h. must be earned in the M.A. program, at least 15 s.h. must

be earned in the certificate program, and the remaining 9 s.h. may be earned in either program.

Separate application to each program is required. Applicants must be admitted to both programs before they may be admitted to the joint program. For more information, see Center for the Book (p. 833) in the Catalog.

Related Certificate: Informatics

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care. Library and information science students working toward the certificate complete 021:275 (SLIS:5900) Health Informatics I, 021:280 (SLIS:5910) Health Informatics II, and approved electives. To learn more, see "Certificate" in the Informatics (p. 843) section of the Catalog.

Honor Society

The Beta Beta Theta Chapter of Beta Phi Mu, the international honor society for library and information science, is located at The University of Iowa. Each year new members are chosen from the top 25 percent of the preceding year's graduating classes. To be eligible for membership, graduates must achieve a g.p.a. of at least 3.75, demonstrate professional promise, and be recommended by the faculty.

Student Organizations and Activities

All M.A. students in the school are automatically members of LISSO, the Library and Information Science Student Organization, which also serves as the student chapter of the American Library Association. LISSO sponsors various activities, such as speaker series, workshops, brown bag lunches, and social events. Participation in LISSO events provides students with significant opportunities for professional and extracurricular growth. Students also are encouraged to join other state and national professional organizations.

The electronic journal *BSides* was created and is edited entirely by library and information science students. The journal publishes work by current students and recent alumni in a wide variety of formats, such as research papers, PowerPoint presentations, and web sites.

Admission

Applicants for admission to the M.A. program are required to have a g.p.a. of at least 3.00 on a 4.00 scale. They must have a combined verbal and quantitative score of at least 1000 and an analytical writing score of at least 4 on the Graduate Record Examination. The admissions committee also considers each applicant's letters of recommendation, statement of purpose, and other appropriate criteria. Admission is competitive.

Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). In place of TOEFL, the school accepts International English Testing System (IELTS) scores of 7.0

or higher, with no subscore below 6.0. Applicants who submit IELTS scores are required to take an on-campus English proficiency evaluation.

Applicants begin the admission process by contacting the School of Library and Information Science. The process requires a completed application form, transcripts of all academic work, a written statement of purpose and goals, and three letters of recommendation.

Completed applications should be received by the school by February 1 for consideration for fall admission. Decisions of the admissions committee are announced approximately six weeks after the application deadline. Late applications are considered if places are still available. Financial aid often is not available for late applicants. Admitted students are assigned a faculty advisor for program planning at the end of their first semester.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

The School of Library and Information Science offers partial-tuition scholarships and one-quarter-time graduate assistantships. To be considered for scholarships or assistantships, applicants must meet the M.A. program's grade-point-average and Graduate Record Exam score requirements for admission (see "Admission" above). Prospective students must submit letters of application for scholarships before February 1. Graduate assistantships are advertised as they become available; students should apply for specific assistantships.

For information on departmental scholarships, contact the School of Library and Information Science or visit its web site. Part-time employment usually is available in the University Libraries and other campus units.

Applications for student loans, work-study eligibility, or other financial assistance should be submitted directly to the University's Office of Student Financial Aid.

Job Placement

The school shares announcements of national and international job opportunities through an electronic mailing list. In addition, LISSO sponsors talks by speakers versed in areas of librarianship as well as workshops on résumé writing and interviewing. Internships and the school's practicum courses provide students with hands-on experience that may enhance their job prospects.

Facilities, Resources

The School of Library and Information Science is housed in the south wing of the University's Main Library, in a setting that promotes community among students, faculty, and staff and provides easy access to resources of the University of Iowa Libraries. Facilities are provided for the varied instructional and research activities of the school.

Technology Laboratory

The school houses a state-of-the-art technology laboratory with current Windows and Macintosh computers. The computers are networked to the campus backbone and provide access to a rich variety of relevant software.

The laboratory is used primarily by students for course assignments and to gain experience with specialized software. In addition, the classrooms are equipped with networked machines that benefit students through use of the latest teaching technologies. Wireless service is provided in the building by the University of Iowa Libraries.

University of Iowa Libraries

All of the resources of the University of Iowa Libraries are available to the school's students and faculty. The system contains more than 4 million volumes in the Main Library and six departmental libraries.

The web-based catalog provides access to books and periodicals, electronic indexes, and full-text databases held by University Libraries. In addition, the InfoHawk Catalog to online resources provides access to selected Internet and CD-ROM resources arranged by subject and academic discipline. Wireless Internet access is available in many areas of the Main Library.

The third floor of the Main Library houses the map collection and Special Collections & University Archives, including the Iowa Women's Archives.

Other Libraries

Students have access to a variety of libraries through field trips, practicum experience, and personal use: the State Historical Society of Iowa library in Iowa City; the Iowa City, Coralville, and Cedar Rapids public and school libraries; the Augustana, Coe, Cornell, Mount Mercy, and Grinnell College libraries; and the Herbert Hoover Presidential Library and Museum in West Branch.

Other Resources

Lindquist Center houses the instructional services and campus services departments of the University's Information Technology Services. It provides instructional and research computing facilities and services for the University community. All University students, staff, and faculty may use the center's computers for University-related research, thesis preparation, and class work. Instructional Technology Centers provide campuswide access to the University's academic computing resources and the Internet.

Courses

021:090 (SLIS:1090) Information Handling 3 s.h.

Gathering, evaluating, and employing information from library and nonlibrary sources, including multimedia and electronic systems. Requirements: undergraduate standing.

021:100 (SLIS:5000) Proseminar in Library and Information Science 0 s.h.

Integrated view of different areas of library and information science; early program exposure to faculty members and their research interests. Requirements: library and information science major.

021:101 (SLIS:5010) Cultural Foundations 1-3 s.h.

The role of libraries and information agencies in society; major issues, including information policy, professional ethics, literacy, diversity, technology, pedagogy. Requirements: admission to library and information science.

021:120 (SLIS:5020) Computing Foundations 3 s.h.

Introduction to analysis, specification, and design of automated systems; review of the software life cycle; testing, deployment, and evaluation of large, computer-based software. Requirements: admission to library and information science.

021:122 (SLIS:5030) Conceptual Foundations 3 s.h.

Theory, principles, and standards in organization of information; function of catalogs, indexes, bibliographic networks; introduction to metadata descriptions, name and title access, subject analysis, controlled vocabularies, classification systems. Requirements: admission to library and information science.

021:123 (SLIS:5200) User Education: Multimedia 3 s.h.

Learning theory as it relates to design of multimedia products for user education; presentation of information using multimedia technology in a Macintosh environment; development of user education products in linear and nonlinear forms.

021:124 (SLIS:6100) Database Systems 3 s.h.

Design and development of a database-driven information system, including interfaces, database schema, and essential database operations; focus on widely used relational database model. Prerequisites: 021:120 (SLIS:5020).

021:139 (SLIS:5190) Topics: Conceptual Structures and Systems 1-3 s.h.

Service-learning course for graduate students and undergraduate students at the junior and senior level; hands-on library work under supervision of professional librarian with a final project presentation.

021:141 (SLIS:5210) Reference and Information Services 3 s.h.

Resources and services; essential reference services and experience using a variety of print and electronic resources to answer specific reference questions. Prerequisites: 021:101 (SLIS:5010).

021:143 (SLIS:5220) Resources for Children 3 s.h.

Evaluation and use of books, magazines, electronic media, and other sources of information and recreation in relation to youth development.

021:144 (SLIS:5230) Resources for Young Adults 3 s.h.

Topics related to populations served by youth services departments (e.g., societal issues, informational needs); seminar.

021:145 (SLIS:5240) Resources for Adults 3 s.h.

Role of libraries in meeting adults' informational and recreational needs; popular culture materials, Reader's Advisory services, lifelong learning.

021:150 (SLIS:4900) Preservation and Conservation of Collection Materials 3 s.h.

Overview of responsible stewardship of library and archival collections; principles and practice of book conservation with focus on prototypes for conservation rebinding; appropriate care of books, papers, photographs (traditional and digital), film, and other non-print items; fundamental instruction in methods of page repair, investigation of eight historical prototypes, construction of related conservation binding models; lecture, discussion, student presentation, and hands-on activities. Prerequisites: 021:101 (SLIS:5010). Same as 024:155 (MUSM:4900).

021:202 (SLIS:6110) Research Methods 3 s.h.

Concepts and methods for research in library and information science; emphasis on design of qualitative and quantitative research; data collection techniques appropriate to information professions; examination and evaluation of research in the professional literature.

021:205 (SLIS:6020) Literacy and Learning 3 s.h.

Learning and literacy theory relevant to work in information services; how librarians can help people process information and use it to form understanding and create new knowledge. Prerequisites: 021:101 (SLIS:5010).

021:210 (SLIS:6130) Social Informatics 3 s.h.

Study of information and communication tools (ICTs) in cultural or institutional contexts; how ICTs are conceptualized, disseminated, and used in everyday and specialized environments such as libraries, education settings, corporations, local communities, cultural groups, political campaigns, and Web 2.0. Prerequisites: 021:101 (SLIS:5010). Same as 200:220 (IGPI:6220).

021:222 (SLIS:6250) Beginning Cataloging and Classification 3 s.h.

Systems for describing materials and information in catalogs and organizing them for effective retrieval in libraries, museums, and other information centers; AACR2 descriptive principles, Dewey and Library of Congress classifications, Sears and LC subject headings, cataloging networks and services. Prerequisites: 021:122 (SLIS:5030).

021:223 (SLIS:6260) Advanced Cataloging and Classification 3 s.h.

Special problems in description of materials; authority work; file structures; serials, other nonmonographic materials; Library of Congress, other classifications; subject retrieval; reclassification, other administrative issues; international bibliographic criteria; online cataloging experience. Prerequisites: 021:222 (SLIS:6250).

021:224 (SLIS:6270) Electronic Publishing 3 s.h.

Modes and methods for building electronic journals, books, thematic collections; new genres for publishing, including blogs, wikis, comics, short stories on the web; social, political, and economic forces that shape electronic publishing; XML-based project. Prerequisites: 021:120 (SLIS:5020). Same as 108:224 (UICB:6270).

021:226 (SLIS:6140) Digital Environments 3 s.h.

Methods and models for building digital libraries; organization with metadata; standards such as those for object identifiers, open access, building cross-linkages between collections; automatic harvesting of content. Prerequisites: 021:120 (SLIS:5020).

021:228 (SLIS:6280) Hypertext Systems 3 s.h.

Theory, design, and implementation of hypertext-based information systems; access mechanisms, including navigation, browsing, search; issues in representation of information, user interfaces; case studies of representative systems, including the World Wide Web. Prerequisites: 021:120 (SLIS:5020).

021:232 (SLIS:6300) Race, Gender, and Technology 3 s.h.

Brief, critical look at the ways race and gender shape the uses and design of information and communication technologies (ICTs); ICTs as a part of our social infrastructure; how the integration of ICTs into Western culture has affected, transformed, or been transformed by interactions with racial groups, men, and women; interrogate assumptions behind technology's promises of efficiency and progress—what are the norms and values embodied within the artifacts we use every day? Same as 160:232 (PORO:6232).

021:234 (SLIS:6190) Knowledge Management 3 s.h.

How organizations acquire, manage, and use information; knowledge management and competitive intelligence, information from inside and outside the organization; organization types, including library, corporate, and nonprofit. Same as 06K:234 (MSCI:6190).

- 021:236 (SLIS:6150) Use and Users** 3 s.h.
Information needs and uses; theories and models of information seeking and use, formal and informal information channels, barriers to information.
- 021:239 (SLIS:6320) Topics: Conceptual Structures/Systems** 1-3 s.h.
Special topics relevant to conceptual structures (e.g., knowledge, representation, manipulation schemes) and systems (e.g., intelligent OPACS, user interface technologies).
- 021:240 (SLIS:6330) Collection Management** 3 s.h.
Collection management of print and electronic resources; selection and management principles, policies, procedures in various settings; production and distribution of resources; intellectual freedom. Prerequisites: 021:101 (SLIS:5010) and 021:122 (SLIS:5030).
- 021:242 (SLIS:6160) Search and Discovery** 3 s.h.
Search system architecture; information needs and queries; search models; concepts in relevance and repositories, archives, web-based systems; information quality measures.
- 021:244 (SLIS:6340) Government Information Resources** 3 s.h.
Emphasis on federal documents as an information resource; state, local, foreign, international materials; special concerns of organizing and administering document collections. Prerequisites: 021:141 (SLIS:5210).
- 021:249 (SLIS:6370) Topics in Book Studies** 3 s.h.
Topics relevant to book studies and special collections. Same as 108:230 (UICB:6370).
- 021:252 (SLIS:6375) Human Computer Interaction** 3 s.h.
Design user interfaces for interacting with information, emphasis on system design and evaluation (as opposed to system implementation); construct interface prototypes, conduct evaluations of design. Prerequisites: 021:120 (SLIS:5020)
- 021:254 (SLIS:6380) Analysis of Scholarly Domains** 3 s.h.
Information transfer in academic disciplines; scientific method, other means of knowledge construction, resulting literatures; reference tools used to control literature for a variety of audiences; emphasis on humanities, social sciences, or sciences. Same as 160:230 (PORO:6290).
- 021:256 (SLIS:5600) History of Readers and Reading** 3 s.h.
Cultural nature of reading practices in historic and contemporary contexts of reading; reading communities; dimensions of gender, age, class, religion, race, ethnicity; examples of recent scholarship; use of primary resources; seminar. Same as 108:220 (UICB:5600).
- 021:258 (SLIS:4920) The Transition from Manuscript to Print** 3 s.h.
Western manuscripts and books 1200-1600; changes in production and distribution methods and in how texts were used, in cultural context. Same as 108:183 (UICB:4920), 16E:118 (HIST:4920).
- 021:259 (SLIS:6410) Topics: Resources/Services** 1-3 s.h.
Current topics in types of information resources and services.
- 021:260 (SLIS:6170) Organizational Management** 3 s.h.
Survey of management issues common to all information environments—understanding organizations, decision making, hiring and personnel, grant writing, and marketing.
- 021:261 (SLIS:6420) Strategic Management** 3 s.h.
Management and administration of all types of libraries; basics of leadership and teamwork, management issues, and skills in context of the organization.
- 021:262 (SLIS:6180) School Library Media Administration** 3 s.h.
Design of library media programs for the major functions of teaching and learning, information access, and program administration; focus on curricular and teaching responsibilities of school librarians and media specialists, development of philosophy, examination of roles and responsibilities, and program evaluation. Prerequisites: 021:101 (SLIS:5010).
- 021:263 (SLIS:6430) Nonprofit Organizational Effectiveness I** 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as 06J:247 (MGMT:9150), 09I:320 (LAW:8751), 174:247 (HMP:6360), 042:247 (SSW:6247), 102:278 (URP:6278), 024:247 (MUSM:6010), 028:257 (SPST:6010), 032:227 (RELS:6070).
- 021:265 (SLIS:6435) Nonprofit Organizational Effectiveness II** 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Requirements: for 09I:322 (LAW:8752) — 09I:320 (LAW:8751); for 174:248 (HMP:6365) — 06J:247 (MGMT:9150) or 024:247 (MUSM:6010) or 174:247 (HMP:6360). Same as 06J:248 (MGMT:9160), 09I:322 (LAW:8752), 042:248 (SSW:6248), 174:248 (HMP:6365), 102:279 (URP:6279), 024:248 (MUSM:6020), 028:258 (SPST:6020), 032:228 (RELS:6075).
- 021:270 (SLIS:6460) Public Libraries** 3 s.h.
Historical development of public libraries; current issues in public library management and policy making, including intellectual freedom; readers advisory service and genres of popular materials for adults.
- 021:271 (SLIS:6470) College and University Libraries** 3 s.h.
Objectives, organization, unique functions and services of academic libraries; educational environment in which academic libraries function; examination of issues and problems affecting academic libraries. Prerequisites: 021:101 (SLIS:5010).
- 021:272 (SLIS:6480) Special Libraries** 3 s.h.
Management, organizational structures, collections, client services in special libraries; site visits to a variety of special libraries, information centers; projects that apply theoretical principles.
- 021:275 (SLIS:5900) Health Informatics I** 3 s.h.
Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 050:283 (MED:5300), 096:283 (NURS:5300), 074:191 (RSNM:3195), 174:226 (HMP:5370), 051:187 (BME:5250), 056:186 (IE:5860), 200:110 (IGPI:5200).
- 021:278 (SLIS:6490) Information Policy** 3 s.h.
Development of policy based on ethical and legal issues in library and information professions; intellectual freedom, intellectual property, privacy, equity.
- 021:279 (SLIS:6500) Topics: Policy/Planning** 1-3 s.h.
Current topics in national and international policies, their impact on planning. Same as 108:222 (UICB:6120).

021:280 (SLIS:5910) Health Informatics II 3 s.h.

Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 096:289 (NURS:5301), 056:287 (IE:5870), 200:120 (IGPI:5210).

021:282 (SLIS:6520) Practicum in Libraries and Information Centers 2-3 s.h.

Supervised field experience in selected libraries and information centers; emphasis on application of theory to practice; at least 80 hours of fieldwork.

021:284 (SLIS:6530) School Library Media Practicum 3 s.h.

Supervised field experience in library media centers at elementary and secondary school levels; emphasis on application of theory to practice; at least 80 hours of fieldwork. Prerequisites: 021:262 (SLIS:6180).

021:289 (SLIS:6550) Seminar in Library and Information Science 3 s.h.

Contemporary issues in library and information science; student presentations, guest speakers.

021:290 (SLIS:6560) Capstone 1 s.h.

Opportunity for students to synthesize their learning in the program, to reflect on their professional education as they prepare for graduation, and to form goals. Requirements: 27 s.h. earned in library and information science.

021:292 (SLIS:6570) Independent Study 1-3 s.h.

Formal contract between student and faculty member. Requirements: formal proposal.

021:299 (SLIS:6580) Thesis 0-6 s.h.

Prerequisites: 021:101 (SLIS:5010), 021:120 (SLIS:5020), 021:122 (SLIS:5030), 021:202 (SLIS:6110), and 021:260 (SLIS:6170).

Molecular and Cellular Biology

Director

Frederick Domann (Radiation Oncology)

Affiliated faculty

Christopher Adams (Internal Medicine), Lee-Ann Allen (Internal Medicine), Michael Apicella (Microbiology), Nikolai Artemyev (Molecular Physiology and Biophysics), Sheila Baker (Biochemistry), Alexander Bassuk (Pediatrics), Jackie Bickenbach (Anatomy and Cell Biology), Gail Bishop (Microbiology), Daniel Bonthius (Pediatrics), Charles Brenner (Biochemistry), Amit Choudhury (Anatomy and Cell Biology), John Colgan (Internal Medicine), Beverly Davidson (Internal Medicine), Kris DeMali (Biochemistry), Frederick Domann (Radiation Oncology), Adam Dupuy (Anatomy and Cell Biology), John Engelhardt (Anatomy and Cell Biology), Rory Fisher (Pharmacology), C. Andrew Frank (Anatomy and Cell Biology), Ernesto Fuentes (Biochemistry), Minnetta Gardinier (Pharmacology), Pamela Geyer (Biochemistry), Paloma Giangrande (Internal Medicine), Apollina Goel (Radiation Oncology), Pedro Gonzalez-Alegre (Neurology), Prabhat Goswami (Radiation Oncology), Steven Green (Biology), Hasem Habelhah (Pathology), Raymond Hohl (Internal Medicine), Douglas Houston (Biology), Jon Houtman (Microbiology), Aloysius Klingelutz (Microbiology), J. Stacey Klutts (Pathology), C. Michael Knudson (Pathology), Amnon Kohen (Chemistry), John Koland (Pharmacology), Gloria Lee (Internal Medicine), Steven Lentz (Internal Medicine), Kimberly Leslie (Obstetrics and Gynecology), Dana Levasseur (Internal Medicine), Fang Lin (Anatomy and Cell Biology), Jim Jung-Ching Lin (Biology), John Logsdon (Biology), John Manak (Biology), Wendy Maury (Microbiology), Stephen McGowan (Internal Medicine), James McNamara (Internal Medicine), Jeffery Meier (Internal Medicine), Jessica Moreland (Pediatrics), David Motto (Internal Medicine), Scott Moye-Rowley (Molecular Physiology and Biophysics), Jeffrey Murray (Pediatrics), Chioma Okeoma (Microbiology), Bryan Phillips (Biology), David Price (Biochemistry), Miles Pufall (Biochemistry), Hank Qi (Anatomy and Cell Biology), Dawn Quelle (Pharmacology), Kamal Rahmouni (Internal Medicine), George Richerson (Neurology), Peter Rubenstein (Biochemistry), Andrew Russo (Molecular Physiology and Biophysics), Thomas Rutkowski (Anatomy and Cell Biology), Curt Sigmund (Internal Medicine), Sarit Smolikove (Biology), Peter Snyder (Internal Medicine), Mark Stamnes (Molecular Physiology and Biophysics), Jack Stapleton (Internal Medicine), Stefen Strack (Pharmacology), Fayyaz Sutterwala (Internal Medicine), Christie Thomas (Internal Medicine), Tina Tootle (Anatomy and Cell Biology), Lubomir Turek (Pathology), Lori Wallrath (Biochemistry), Todd Washington (Biochemistry), Daniel Weeks (Biochemistry), Michael Welsh (Internal Medicine), Mary Wilson (Internal Medicine), Marc Wold (Biochemistry), Yi Xing (Internal Medicine), Charles Yeaman (Anatomy and Cell Biology), Joseph Zabner (Internal Medicine)

Graduate degree: Ph.D. in molecular and cellular biology

Web site: <http://molcellbio.grad.uiowa.edu>

The Molecular and Cellular Biology Program provides interdisciplinary training in the concepts and methodologies fundamental to the investigation of biological mechanisms at the molecular level. Faculty

members are involved in a variety of research projects related to gene expression and regulation.

Graduate Program

- Doctor of Philosophy in molecular and cellular biology

Doctor of Philosophy

The Doctor of Philosophy program in molecular and cellular biology requires a minimum of 72 s.h. of graduate credit. The program is sufficiently flexible to accommodate students with a wide range of backgrounds in the biological and physical sciences. Entering students are expected to have a solid background in science, including introductory biology and chemistry, organic chemistry, physical chemistry, calculus, genetics, and biochemistry. Students can remedy deficiencies in particular areas by taking appropriate courses during the first year of graduate study.

The curriculum consists of a sequence of required, core, and elective courses that provide didactic training in molecular and cellular biology and that ensure comprehensive exposure to concepts and experimental methodologies in the field. Students engage in laboratory research immediately upon enrollment and progress rapidly to original thesis projects that lead to a Ph.D.

Because of the diversity of biological research problems that can be pursued by employing molecular and cellular approaches, the program provides options for specialization in particular areas of interest.

The Ph.D. in molecular and cellular biology requires the following course work.

DIDACTIC COURSE WORK

All of these:

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA	1 s.h.
142:217 (MCB:6217) Cancer, Epigenetics, and Genetic Manipulations in Mice	1 s.h.
142:220 (MCB:6220) Mechanisms of Cellular Organization	3 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research	1 s.h.

These, if recommended by the advisor:

099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.

Students take electives in addition to the courses listed above to total 18 s.h. of credit in didactic course work.

SEMINARS AND PROFESSIONAL DEVELOPMENT

All students take both of these:

142:290 (MCB:7290) Seminars in Molecular and Cellular Biology	1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

Precomprehensive students take this each semester:

142:280 (MCB:6280) Topics in Molecular and Cellular Biology	1 s.h.
---	--------

Postcomprehensive students take this each semester:

Journal club of the student's choice 1 s.h.

THESIS RESEARCH AND DISSERTATION

After successfully completing the comprehensive examination, usually at the end of the second year of graduate study, students advance to candidacy for the Ph.D. degree. They devote their time to completing thesis research and writing their Ph.D. dissertation. Upon successful completion of all requirements, including the dissertation and its oral defense, students are awarded a Ph.D. in molecular and cellular biology.

Admission

For application materials and information about graduate training in molecular and cellular biology, contact the Molecular and Cellular Biology Program or visit its web site.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

Graduate students in the Molecular and Cellular Biology Program receive stipends and tuition support from institutional and extramural sources, including University of Iowa fellowships and graduate research assistantships, and training grants from the National Institutes of Health.

Facilities

Training is conducted primarily in laboratories and teaching facilities of the Carver College of Medicine Departments of Anatomy and Cell Biology, Biochemistry, Internal Medicine, Microbiology, Molecular Physiology and Biophysics, Neurology, Obstetrics and Gynecology, Pathology, Pediatrics, Pharmacology, and Radiation Oncology; and in the College of Liberal Arts and Sciences Departments of Biology and Chemistry. Faculty laboratories and central research facilities available to students provide access to the most up-to-date research equipment.

Courses**142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA** 1 s.h.

Principles and techniques for investigating mechanisms of controlling eukaryotic gene expression; basic genome organization, chromatin structure, transcription, RNA processing, translation; cloning methods, use of electronic sequence databases, footprinting, chromatin immunoprecipitation, in vivo and in vitro transcription assays, DNA microarray analysis, information retrieval. Prerequisites: 156:201 (BISC:5201).

142:216 (MCB:6216) Chromatin Structure and Disease 1 s.h.

Transcriptional control by chromatin, emphasis on human disease; based on research publications. Prerequisites: 156:201 (BISC:5201).

142:217 (MCB:6217) Cancer, Epigenetics, and Genetic Manipulations in Mice 1 s.h.

Epigenetic mechanisms of transcriptional control, mouse models for understanding the molecular basis for human disease; based on research publications. Prerequisites: 156:201 (BISC:5201).

142:220 (MCB:6220) Mechanisms of Cellular Organization 3 s.h.

Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endocytic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOC:3130). Same as 072:220 (MPB:6220), 060:216 (ACB:6220).

142:225 (MCB:6225) Growth Factor Receptor Signaling 1 s.h.

Mechanisms of signaling by growth factors; cytokines and related molecules that regulate cell proliferation, development, differentiation, and survival; emphasis on molecular mechanisms of signaling, relevance of these signaling processes to various human diseases. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 072:225 (MPB:6225), 060:225 (ACB:6225).

142:226 (MCB:6226) Cell Cycle Control 1 s.h.

Cell cycle regulation, DNA damage-dependent cell cycle regulation, redox-dependent cell cycle regulation, cellular senescence. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 060:226 (ACB:6226), 072:226 (MPB:6226).

142:227 (MCB:6227) Cell Fate Decisions 1 s.h.

Cellular fate decisions, including signal integration, terminal differentiation in development, mechanisms of embryonic stem cell gene regulation/cellular reprogramming, cell death paradigms, and cell death in development and cancer. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 060:223 (ACB:6227), 072:227 (MPB:6227).

142:230 (MCB:6230) Cell Migration from Development to Metastasis 1 s.h.

Introduction to major cell migration events during development, culminating in how such principles of migration are reutilized during cancer metastasis; emphasis on utilizing current literature in the field to understand how to study cell migration, questions that can be asked, and what remains to be determined.

142:240 (MCB:6240) Inflammatory Cell Signaling and Targeted Cancer Therapy 1 s.h.

Introduction to topics in important cancer signaling pathways; promises and challenges of targeted cancer therapy; emphasis on current fundamental topics in cancer cell signalings; how altered protein ubiquitination/deubiquitination, constitutive activation of proteins kinases, and transcription factors underpin uncontrollable proliferation and survival of cancer cells in tumor microenvironment; translation of knowledge to targeted cancer therapy; promotion of critical thinking. Recommendations: 099:243 (BIOC:5243), 142:225 (MCB:6225), and 142:227 (MCB:6227).

142:280 (MCB:6280) Topics in Molecular and Cellular Biology 1 s.h.

Opportunity to work closely with participating faculty to gain skill in critical reading of research literature and facility in presenting material to an audience. Requirements: advanced graduate standing.

142:290 (MCB:7290) Seminars in Molecular and Cellular Biology 1 s.h.

Research findings in molecular biology. Requirements: molecular and cellular biology graduate standing.

142:299 (MCB:6250) Mechanisms of Parasitism 1 s.h.
Journal Club

Reviews of recent publications in molecular parasitology research and thesis research by training grant or journal club students. Same as 061:299 (MICR:6250).

142:301 (MCB:7300) Directed Study in Molecular arr.
and Cellular Biology

142:305 (MCB:7305) Molecular and Cellular arr.
Biology Research

Requirements: molecular and cellular biology graduate standing.

Graduate degree: Ph.D. in neuroscience

Web site: <http://neuroscience.grad.uiowa.edu>

The Neuroscience Program provides an interdisciplinary and interdepartmental approach to graduate education and research training in the structure, function, and development of the nervous system and its role in cognition and behavior. Students obtain training at all

levels of the nervous system, from cellular/molecular to behavioral/cognitive.

Graduate Program

- Doctor of Philosophy in neuroscience

Doctor of Philosophy

The Doctor of Philosophy program in neuroscience requires a minimum of 72 s.h. of graduate credit. The program's curriculum is designed around three tracks: molecular/cellular, developmental/systems, and cognitive/behavioral. Following broad-based instruction in a core curriculum, students specialize in one of the tracks.

Within a framework of core, track-specific, and elective courses, each student pursues a program of study individually designed according to his or her undergraduate training and graduate research goals. After enrolling in the Neuroscience Program, entering students consult with the advisory committee regarding their level of preparation for the program's required courses.

The Student Advisory Committee meets with all first- and second-year graduate students once each semester, helping each student explore his or her research interests and select faculty mentors for the required laboratory rotations. Each student is expected to complete three rotations in faculty laboratories before selecting a thesis advisor. Rotations ordinarily last 12 weeks but may last from 8 to 16 weeks. Under special circumstances, two rotations may be in the same laboratory, an arrangement that permits the student to learn a variety of techniques and approaches before settling down to work on the dissertation project. Students usually choose a dissertation lab at the end of their first year.

BACKGROUND REQUIREMENTS

Students are expected to demonstrate competency, through prerequisites or course work, in each of four fields: biochemistry, general physiology, cell biology, and statistics. These requirements ordinarily should be fulfilled by the end of the first year of graduate study. Waivers of background course requirements may be requested by students who have taken equivalent courses before entering the Neuroscience Program.

NEUROSCIENCE CORE

The following courses form the core of the neuroscience graduate curriculum.

031:278 (PSY:6370) Principles of Neuropsychology	3 s.h.
060:234 (ACB:8114) Medical Neuroscience	4 s.h.
099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
132:180 (NSCI:7180) Fundamental Neurobiology	4 s.h.
132:181 (NSCI:6181) Neurophysiology	3-4 s.h.
132:184 (NSCI:6184) Developmental Neurobiology	3 s.h.
132:235 (NSCI:7235) Neurobiology of Disease	3 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression (molecular track)	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.
One statistics course	3-4 s.h.

In addition, students register for the following two courses each semester.

132:265 (NSCI:6265) Neuroscience Seminar	0-1 s.h.
132:305 (NSCI:7305) Neuroscience Research	arr.

ELECTIVES

Elective requirements may be met with three or more courses from a list of courses offered by the Departments of Anatomy and Cell Biology, Biology, Molecular Physiology and Biophysics, Pharmacology, Psychology, and other departments as appropriate. Students must take electives in at least two of the program's three tracks, ensuring that they receive advanced training both in their area of specialization and in related areas of neuroscience. With permission of the Student Advisory Committee, students may satisfy the elective requirement wholly or in part by registration in 132:301 (NSCI:7301) Directed Study in Neuroscience.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

For information about predoctoral training opportunities in neuroscience, contact the Neuroscience Program or visit its web site.

Financial Support

Full-time Neuroscience Program students receive stipends and full tuition scholarships through fellowships and research assistantships. Awards are renewed annually, based on continued satisfactory progress and availability of funds. The standard graduate student stipend for 2012-13 is \$25,500.

The Neuroscience Program is committed to supporting its graduate students for their entire training period. Students normally are supported in the first year by the program. After that, support is expected to come from the student's primary research mentor. Occasionally, advanced students are supported through teaching assistantships. Tuition is paid for all students.

NIH TRAINING GRANT

The Neuroscience Program is supported by a training grant from the National Institutes of Health. The grant provides stipend and tuition support for a select group of first- and second-year graduate students.

Facilities

Training is conducted primarily in the laboratories and teaching facilities of the Carver College of Medicine graduate Departments of Anatomy and Cell Biology, Biochemistry, Molecular Physiology and Biophysics, and Pharmacology; clinical Departments of Internal Medicine, Neurology, and Psychiatry; and the College of Liberal Arts and Sciences graduate Departments of Biology, Communication Sciences and Disorders, Health and Human Physiology, and Psychology. Students use faculty laboratories and central research facilities for ultrastructural analysis; histochemistry and immunocytochemistry; electrophysiology; fluorescence-activated cell sorting; cellular and subcellular biochemistry; cell, tissue, and organ culture; operant and classical conditioning; molecular biology; behavioral genetics; neural substrates of complex behavior; brain-

behavior relationships in humans; neuropsychology; and functional neuroimaging (PET, fMRI).

Courses

132:161 (NSCI:5161) Undergraduate Research in Neuroscience arr.

Experimental research under faculty supervision.

132:180 (NSCI:7180) Fundamental Neurobiology 4 s.h.

Cellular neurobiology (cytoskeleton and transport, membrane physiology, synaptic transmission and plasticity, sensory transduction); systems neurobiology (peripheral and central sensory processing, autonomic and somatic motor systems); cognitive neurobiology (emotion, biological rhythms and sleep, memory, attention, language); developmental neurobiology. Prerequisites: 002:145 (BIOL:2753). Recommendations: 002:114 (BIOL:2723) and 099:110 (BIOC:3110). Same as 002:180 (BIOL:3253).

132:181 (NSCI:6181) Neurophysiology 3-4 s.h.

Physiological properties of nerve cells, nervous systems; axonal conduction, synaptic transmission, sensory transduction, integrative processes, higher functions. Prerequisites: 002:180 (BIOL:3253), 22M:025 (MATH:1850), and 029:012 (PHYS:1512) or 029:082 (PHYS:1612). Same as 002:181 (BIOL:4353).

132:184 (NSCI:6184) Developmental Neurobiology 3 s.h.

Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Requirements: grade of B- or higher in 002:180 (BIOL:3253) or graduate standing. Same as 002:184 (BIOL:4753), 072:184 (MPB:5184).

132:209 (NSCI:6209) Steroid Receptor Signaling 1 s.h.

Structure-function relationship and genomic and nongenomic actions of the steroid hormone receptor family; basis for actions of novel new ligands on these receptors. Offered spring semesters. Same as 071:209 (PCOL:6209), 072:209 (MPB:6209).

132:235 (NSCI:7235) Neurobiology of Disease 3 s.h.

Broad, thematic understanding of disease mechanisms in neurobiological disorders.

132:240 (NSCI:6240) Topics in Cognitive Neuroscience 3 s.h.

Key topics in the neural basis of human cognition; research literature. Recommendations: graduate courses in basic neuroscience, cognitive psychology. Same as 064:240 (NEUR:6240).

132:241 (NSCI:6241) Fundamentals of Behavioral Neuroscience 3 s.h.

Concepts, methods, and findings in behavioral and cognitive neurosciences; emphasis on principles of neuroscience, sensation, motivation, emotion. Same as 031:241 (PSY:5210).

132:242 (NSCI:6242) Fundamentals of Learning and Behavior 3 s.h.

Concepts, methods, and findings in behavioral and cognitive neurosciences; emphasis on principles of comparative psychology, motor control, learning. Same as 031:242 (PSY:5212).

132:250 (NSCI:6250) Functional Magnetic Resonance Imaging 2-3 s.h.

Basic physics principles of functional magnetic resonance imaging and approaches to data acquisition, including BOLD imaging, arterial spin labeling, and magnetic source imaging; data analysis strategies; paradigm design and development. Same as 051:280 (NSCI:6280).

132:265 (NSCI:6265) Neuroscience Seminar 0-1 s.h.

Research presentations. Offered fall and spring semesters. Same as 031:265 (PSY:6265), 060:265 (ACB:6265), 072:265 (MPB:6265), 002:265 (BIOL:6265).

132:277 (NSCI:7877) Mechanisms of Pain Transmission 3 s.h.

Anatomical, physiological, and pharmacological mechanisms underlying peripheral and central neuronal processing of pain; emphasis on neuronal changes that occur during pathological conditions such as inflammation/arthritis, peripheral neuropathy. Offered fall semesters of even years. Same as 101:277 (PTRS:7877), 071:277 (PCOL:7877).

132:301 (NSCI:7301) Directed Study in Neuroscience arr.**132:305 (NSCI:7305) Neuroscience Research** arr.

Requirements: neuroscience graduate standing.

132:365 (NSCI:5365) Seminar: Neuropsychology and Neuroscience arr.

Clinical neuropsychology and cognitive neuroscience: cutting-edge research from scientific journals, case presentations in clinical neuropsychology, and current research. Same as 031:365 (PSY:5365), 064:365 (NEUR:5365).

Rhetorics of Inquiry (POROI)

Director

David Depew

Professor

Leslie Margolin (Rehabilitation and Counselor Education/
Rhetorics of Inquiry)

Assistant professor

Andre Brock (Library and Information Science/Rhetorics of Inquiry)

Graduate certificate: rhetorics of inquiry

Web site: <http://poroi.grad.uiowa.edu>

The Project on Rhetorics of Inquiry (POROI) is an interdisciplinary program whose aim is to improve academic inquiry and scholarly writing in the arts, humanities, sciences, and professions, especially at the intersections between disciplines. POROI explores how scholarship and professional discourse are conducted through argument, how paradigms of knowledge are sensitive to social-political contexts, and how the presentation of scholarly and professional findings is an audience-sensitive process. The program offers classes, seminars, workshops, conferences, and a peer-reviewed online journal, *Poroi: An Interdisciplinary Journal of Rhetorical Analysis and Invention*.

POROI also collaborates with the Graduate College to offer a certificate for graduate students.

Graduate Program

- Certificate in Rhetorics of Inquiry

Certificate

The Certificate in Rhetorics of Inquiry requires completion of four POROI courses (normally a minimum of 12 s.h.). Students may pursue the certificate in conjunction with a graduate degree in any field. The interdisciplinary program helps students hone their skills for arguing in oral, written, and multimedia forms within their own disciplines and broaden their understanding of the similarities and differences among various fields.

The certificate program's objectives are to:

- help students cultivate habits of interdisciplinary study and research through reading, writing, and conversation;
- encourage students to cross conceptual and institutional boundaries that often appear to separate the arts, humanities, and professions from each other and from the social, natural, and formal sciences;
- improve students' awareness of the rhetorical dimensions of argumentation and inquiry; and
- certify that students who have completed the program are prepared to do rhetorical and cross-disciplinary work after they graduate.

All certificate students must complete 160:200 (POROI:6200) Introduction to Rhetorics of Inquiry and three additional POROI courses of their choice. See "Courses" below.

Admission

Master's and doctoral candidates in good standing are eligible to enter the certificate program. To enroll, contact the Project on Rhetorics of Inquiry.

Courses

POROI courses are open to certificate and noncertificate students.

160:110 (POROI:4100) Undergraduate Independent Study on Rhetoric of Inquiry arr.

Independent study on the rhetoric of inquiry; connections between discourses that at first may not seem connected. Requirements: undergraduate standing.

160:160 (POROI:3600) Issues in Rhetoric and Culture 3 s.h.

Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Communication studies majors may apply this course to the following area requirement. AREA: Context. Requirements: for 036:146 (COMM:3600) — g.p.a. of at least 2.50, completion of Foundations of Communication requirement, and 6 s.h. of intermediate-level course work. Same as 036:146 (COMM:3600), 048:160 (CCL:3160), 010:160 (RHET:3600).

160:161 (POROI:3610) Rhetorical Issues in Health Care 3 s.h.

Role of rhetoric in health care practice, decisions, and ethics; rhetorical production of patient and professional selves in health care; varied practices, diverse perspectives, and situated production of medical and health care knowledge. Requirements: satisfactory completion of rhetoric general education requirement. Same as 010:161 (RHET:3610), 153:161 (ASP:3610).

160:170 (POROI:4230) Philosophy of the Body 3 s.h.

Philosophical treatment of the body; perspectives from classical, modern, and contemporary texts from Western philosophy, and texts from feminist theory, critical race theory, cultural studies, and disability studies. Prerequisites: 131:010 (GWSS:1001). Same as 131:170 (GWSS:4230).

160:180 (POROI:3480) Literature and Translation 3 s.h.

Translation in the broadest sense; originality, authority, authorship, accuracy, ownership, audience; issues problematizing differences between medium and message. Same as 041:180 (SLAV:3480), 048:180 (CCL:3480).

160:183 (POROI:5160) Invention 3 s.h.

How to get writing going, keep it going, and write in an authentic meaningful way.

160:200 (POROI:6200) Introduction to Rhetorics of Inquiry 2-4 s.h.

How connections between discourses that don't seem connected suggest innovative arguments and ways of crossing boundaries between disciplines. Same as 036:210 (COMM:6200).

160:201 (POROI:6240) Foundations for Feminist Inquiry I 3 s.h.

Theory, critique, methodology, practice. Same as 131:200 (GWSS:5000).

160:210 (POROI:7100) Independent Study Rhetorics of Inquiry arr.

- 160:216 (PORO:6216) Conflict, Negotiation, and Planning** 3 s.h.
Conflict within communities, and planners' responses; networking, negotiating, mediating, coalition building, consensus building; case studies, role playing. Same as 102:216 (URP:6216).
- 160:223 (PORO:6223) Deliberation, Advocacy, and Civic Engagement** 3 s.h.
Practices of public deliberation in governance and civil society; counterpublic sphere discourses. Same as 036:223 (COMM:5223).
- 160:230 (PORO:6290) Analysis of Scholarly Domains** 3 s.h.
Information transfer in academic disciplines; scientific method, other means of knowledge construction, resulting literatures; reference tools used to control literature for a variety of audiences; emphasis on humanities, social sciences, or sciences. Same as 021:254 (SLIS:6380).
- 160:232 (PORO:6232) Race, Gender, and Technology** 3 s.h.
Brief, critical look at the ways race and gender shape the uses and design of information and communication technologies (ICTs); ICTs as a part of our social infrastructure; how the integration of ICTs into Western culture has affected, transformed, or been transformed by interactions with racial groups, men, and women; interrogate assumptions behind technology's promises of efficiency and progress—what are the norms and values embodied within the artifacts we use every day? Same as 021:232 (SLIS:6300).
- 160:233 (PORO:6220) Media Communication Theory II** 3 s.h.
Continuation of 019:231 (JMC:6210); social scientific theories. Same as 019:232 (JMC:6220).
- 160:239 (PORO:6239) Topics** 3 s.h.
Topics vary.
- 160:243 (PORO:6243) Feminist Cultural Studies** 3 s.h.
Same as 008:243 (ENGL:6015), 010:243 (RHET:6015), 036:222 (COMM:6215), 131:243 (GWSS:6015).
- 160:247 (PORO:6635) Crossing Borders Seminar** 2-3 s.h.
Same as 016:247 (HIST:6635), 008:231 (ENGL:6635), 01H:247 (ARTH:6635), 030:242 (POLI:6635), 044:286 (GEOG:6635), 048:247 (CCL:6635), 113:247 (ANTH:6635), 129:231 (AFAM:6635), 013:262 (GRMN:6635), 035:273 (SPAN:6904), 181:247 (IWP:6635), 009:262 (FREN:6142), 173:206 (EPID:6060).
- 160:250 (PORO:6250) Introduction to Rhetoric of Science** 3 s.h.
How science is related to social and political practices, examined by placing philosophical and pedagogical controversies about scientific method into their historical and rhetorical contexts. Same as 036:250 (COMM:6250).
- 160:258 (PORO:6225) Feminist Critical Theory** 3 s.h.
Questions of difference, the body, agency, identity politics, gender performativity, power as both productive and oppressive; perspectives from texts in poststructuralist and feminist philosophy. Same as 131:258 (GWSS:6225).
- 160:262 (PORO:6650) Readings in Nonfiction** 3 s.h.
Same as 08N:262 (CNW:6650).
- 160:271 (PORO:6071) Studies in Sentimentalism** 3 s.h.
Readings in sentimentalism as literary genre, rhetorical practice, cultural mode, and psycho-social phenomenon; focus on attendant theories of affect; integration of literature and culture with work on the politics of affect in postcolonial and transnational studies, critical race and ethnic studies, American studies, and gender and sexuality studies. Same as 010:271 (RHET:6071), 008:271 (ENGL:6075).
- 160:300 (PORO:6300) Writing for Learned Journals** 1-4 s.h.
Help for graduate students in bringing written work to publishable form; analysis of target journals' audiences and interests; submission, response to criticism. Same as 650:300 (GRAD:6300), 08N:340 (CNW:6300).
- 160:302 (PORO:6425) Writing Political Science** 2-4 s.h.
Practice in planning and completing political inquiries; emphasis on writing for scholarly publication. Requirements: political science Ph.D. enrollment.
- 160:313 (PORO:6313) Digital Rhetorics** 3 s.h.
Current discourse (utopic, dystopic, other strands) about the Internet as it shapes and is shaped by competing forces. Same as 650:313 (GRAD:6313).
- 160:325 (PORO:6325) Rhetorics of the Body** 3 s.h.
The body as a shifting signifier: gendered, raced, classed, sexualized, discursively constructed, materially impacted; multiple and constantly shifting dimensions and interpretations; exploration of ways the body is inscribed in culture via various theories of the body—biological, postmodern, virtual.
- 160:332 (PORO:6660) Critical Ethnography** 3 s.h.
How power relations constitute the work of ethnographic research; ethnography as a rhetorical form—how ethnographic inscription renders self, other, culture, and the world intelligible in ways that reinscribe and/or challenge dominant social relations; axes of power such as race, class, gender, sexuality, and nation within postcolonial, feminist, and antiracist approaches to ethnographic/autoethnographic theory and praxis; negotiating researcher privilege and epistemic violence; crisis of representation. Same as 036:378 (COMM:6660), 131:332 (GWSS:6660).
- 160:335 (PORO:6335) Proseminar: Contemporary Rhetorical Studies** 2-4 s.h.
Problems in contemporary rhetorical studies; may include works of Kenneth Burke, Wayne Booth, deconstructionists, feminist theorists and critics, critics of communication technologies. Same as 036:335 (COMM:6335).
- 160:336 (PORO:6336) Seminar in Rhetorical Theory** 1-4 s.h.
Topics in history and development of rhetorical theory; theory construction and application to critical practice. Same as 036:336 (COMM:6336).
- 160:338 (PORO:5200) Colloquium in Political Theory** 1-4 s.h.
- 160:340 (PORO:6450) Current Issues in Rhetoric** 3 s.h.
Ethical, social, or cultural issues; rhetoric's role in their contemporary significance; traditional aspects of rhetoric, their pertinence to present concerns. Same as 010:340 (RHET:6400), 036:317 (COMM:6400).

160:353 (PORO:6353) Seminar: Intellectual Property 3 s.h.

Areas of cultural production that have been affected by intellectual property law; notions of authorship and ownership that lie at the heart of intellectual property law, how they affect varied areas of cultural production. Same as 036:353 (COMM:6353).

160:360 (PORO:6500) Issues in Rhetoric and Culture 3 s.h.

Rhetorical theory and criticism as culturally embedded practices; rhetorical production of selves and social difference; relationships between rhetoric and literature, philosophy, popular texts. Same as 010:360 (RHET:6500).

160:400 (PORO:6400) Writing Dissertations 3-4 s.h.

Peer criticism of draft dissertation chapters and prospectuses; associated activities, such as construction of the curriculum vitae, letters of application, interview strategies, presentations at campus visits.

Second Language Acquisition

Directors

Judith E. Liskin-Gasparro (Spanish and Portuguese),
Roumyana Slabakova (Linguistics)

Affiliated faculty

Stephen M. Alessi (Psychological and Quantitative Foundations), Jill N. Beckman (Linguistics), William D. Davies (Linguistics), Sarah Fagan (German), Elena Gavruseva (Linguistics), Richard Hurtig (Communication Sciences and Disorders), Chuanren Ke (Asian and Slavic Languages and Literatures), Paula Kempchinsky (Spanish and Portuguese), Judith E. Liskin-Gasparro (Spanish and Portuguese), Kristine Fitch Muñoz (Communication Studies), Sue K. Otto (Spanish and Portuguese), Lia Plakans (Teaching and Learning), Leslie Schrier (Teaching and Learning), Kathy L. Schuh (Psychological and Quantitative Foundations), Carol Severino (Rhetoric), Christine Shea (Spanish and Portuguese), Helen Shen (Asian and Slavic Languages and Literatures), Roumyana Slabakova (Linguistics), Bruce H. Spencer (German), Pam Wesely (Teaching and Learning)

Graduate degree: Ph.D. in second language acquisition

Web site: <http://international.uiowa.edu/flare>

Second language acquisition (SLA) is a multidisciplinary field whose goal is to understand the processes that underlie non-native language learning. The Second Language Acquisition Program draws from varied academic disciplines, among them linguistics, psychology, psycholinguistics, sociology, sociolinguistics, discourse analysis, conversation analysis, and education.

Graduate Program

- Doctor of Philosophy in second language acquisition

Doctor of Philosophy

The Doctor of Philosophy program in second language acquisition requires 72 s.h., including a maximum of 33 s.h. earned in work toward a master's degree. The program is interdisciplinary and focuses on languages other than English. Students interested in pursuing the Ph.D. must hold a master's degree in an appropriate field (e.g., linguistics, foreign language education, English as a second language) or have equivalent academic experience. Students begin the program in the fall.

Doctoral students may specialize in one of three areas: linguistics, language program direction, or technology. They may pursue their interdisciplinary interests in courses offered by the College of Liberal Arts and Sciences Departments of Asian and Slavic Languages and Literatures, Communication Sciences and Disorders, French and Italian, German, Linguistics, Rhetoric, and Spanish and Portuguese, and the College of Education Departments of Psychological and Quantitative Foundations, and Teaching and Learning.

The program is divided into foundation courses (13 courses, or 39 s.h.); specialization courses (5 courses, or 15 s.h.), and dissertation work (18 s.h.). A course may be used to fulfill only one requirement.

FOUNDATION COURSES

All of these:

164:201 (SLA:6901) Second Language Acquisition Research and Theory I	3 s.h.
164:202 (SLA:6902) Second Language Acquisition Research and Theory II	3 s.h.
164:211 (SLA:6920) Multimedia and Second Language Acquisition	3 s.h.

Two of these:

07S:184 (EDTL:6484) Reading in a Second Language	3 s.h.
164:221 (SLA:6950) Topics in Second Language Acquisition: Speaking	3 s.h.
164:223 (SLA:6955) Topics in Second Language Acquisition: Listening	3 s.h.
164:225 (SLA:5973)/013:259 (GRMN:3540) Grammar in Second Language Teaching/Learning	3 s.h.
164:227 (SLA:6965) Topics in Second Language Acquisition: Writing	3 s.h.
164:229 (SLA:6970) Cultural Curriculum	3 s.h.

To complete the foundation requirement, students select one course from each of the following eight areas, in consultation with their advisor. With the advisor's approval, students may use courses not listed here to fulfill the requirement.

Curriculum

07E:300 (EDTL:7100) Design and Organization of Curriculum	3 s.h.
07S:186 (EDTL:5086) Curriculum Foundations	2-3 s.h.
07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction	3 s.h.
07S:208 (EDTL:6408) Designing Materials for Second Language Instruction	3 s.h.

Quantitative Research Tools

07P:220 (PSQF:6220) Quantitative Educational Research Methodologies	3 s.h.
07P:243 (PSQF:6243) Intermediate Statistical Methods	4 s.h.
07P:244 (PSQF:6244) Correlation and Regression	4 s.h.
07P:246 (PSQF:6246) Design of Experiments	4 s.h.

Qualitative Research Tools

07B:373 (EPLS:7373) Qualitative Research Design and Methods	3 s.h.
07S:310 (EDTL:7410) Mixed Methods Research	3 s.h.
07S:370 (EDTL:7070) Introduction to Qualitative Methods in Literacy Research	3 s.h.
164:205 (SLA:6910) Analysis of L1 and L2 Data	3 s.h.

Testing, Evaluation, Measurement

07P:150 (PSQF:5150) Introduction to Educational Measurement	3-4 s.h.
07P:165 (PSQF:5165) Introduction to Program and Project Evaluation	3 s.h.
07P:255 (PSQF:6255) Construction and Use of Evaluation Instruments	3 s.h.
07P:257 (PSQF:6257) Educational Measurement and Evaluation	3 s.h.
07P:258 (PSQF:6258) Theory and Technique in Educational Measurement	3 s.h.
07P:265 (PSQF:6265) Program Evaluation	3 s.h.
07S:200 (EDTL:6400) Fundamentals of Second Language Assessment	3 s.h.

Methodology

009:234 (FREN:5030)/013:221 (GRMN:5030)/039:234 (ASIA:5030)/041:234 (SLAV:5030) Principles of Teaching and Learning Foreign Languages	3 s.h.
---	--------

035:200 (SPAN:6000) Foreign Language Teaching Methods	3 s.h.
039:202 (CHIN:7401) Teaching Chinese as a Foreign Language I: Theories/Research	3 s.h.
039:203 (CHIN:7402) Teaching Chinese as a Foreign Language II	3 s.h.
039:204 (CHIN:7403) Teaching Chinese as a Foreign Language III	3 s.h.
39J:202 (JPNS:5401) Japanese as a Foreign Language: Practical Applications	3 s.h.
103:145 (LING:4050) Methods of Teaching English as a Second Language	3 s.h.

Phonetics, Phonology

013:258 (GRMN:6600) Modern German Phonetics and Phonology	3 s.h.
035:189 (SPAN:4100) Introduction to Spanish Phonology	3 s.h.
035:209 (SPAN:6110) Spanish Phonology	3 s.h.
103:110 (LING:3000) Articulatory and Acoustic Phonetics	3 s.h.
103:112 (LING:3020) Phonological Analysis	3 s.h.
103:203 (LING:5020) Introduction to Phonology	3 s.h.
103:204 (LING:6020) Phonological Theory	3 s.h.
103:214 (LING:7020) Advanced Phonological Theory	3 s.h.

Morphology, Syntax

013:256 (GRMN:6750) Modern German Syntax	3 s.h.
013:257 (GRMN:6700) Morphology	3 s.h.
035:186 (SPAN:4150) Introduction to Spanish Syntax	3 s.h.
035:207 (SPAN:6190) Topics in Comparative Romance Linguistics	3 s.h.
035:210 (SPAN:6120) Spanish Syntax	3 s.h.
103:111 (LING:3010) Syntactic Analysis	3 s.h.
103:201 (LING:5010) Introduction to Syntax	3 s.h.
103:202 (LING:6010) Syntactic Theory	3 s.h.
103:212 (LING:7010) Advanced Syntactic Theory	3 s.h.

General Linguistics

003:218 (CSD:6218) Psycholinguistics	3 s.h.
013:255 (GRMN:6800) Semantics	3 s.h.
013:299 (GRMN:6898) Special Topics in German Linguistics	3 s.h.
035:206 (SPAN:6150) Topics in Spanish Language Acquisition	3 s.h.
039:202 (CHIN:7401) Teaching Chinese as a Foreign Language I: Theories/Research	3 s.h.
039:144 (CHIN:3302) Introduction to Chinese Linguistics	3 s.h.
103:176 (LING:3118) Language Acquisition	1-3 s.h.
103:206 (LING:5030) First Language Acquisition	3 s.h.
103:211 (LING:6080) Generative Second Language Acquisition	3 s.h.
103:216 (LING:7080) Topics in Second Language Acquisition	3 s.h.
103:312 (LING:7090) Seminar: Problems in Linguistics	2-3 s.h.
164:157 (SLA:4080) Linguistic Theory and Second Language Acquisition	3 s.h.
164:228 (SLA:6403) Special Topics in Japanese Linguistics	3 s.h.

SPECIALIZATION COURSES

Each student selects one of three specialization areas—linguistics, language program direction, or technology—and takes five courses (total of 15 s.h.) in that area.

Linguistics Specialization

The linguistics specialization requires the following courses.

One of these three-course sequences (group 1 or group 2):

Group 1:

103:203 (LING:5020) Introduction to Phonology	3 s.h.
103:204 (LING:6020) Phonological Theory	3 s.h.
103:214 (LING:7020) Advanced Phonological Theory	3 s.h.

Group 2:

103:201 (LING:5010) Introduction to Syntax	3 s.h.
103:202 (LING:6010) Syntactic Theory	3 s.h.
103:212 (LING:7010) Advanced Syntactic Theory	3 s.h.

One of these:

103:157 (LING:4080) Linguistic Theory and Second Language Acquisition	3 s.h.
103:211 (LING:6080) Generative Second Language Acquisition	3 s.h.

An alternate course on linguistic theory and second language acquisition

One of these:

031:122 (PSY:3085) Language Development	3 s.h.
031:218 (PSY:6430) Cognitive Development	3 s.h.

An alternate course on parsing/psycholinguistic mechanisms

Language Program Direction Specialization

Students who choose the language program direction specialization take five of the following courses (chosen from those not taken to satisfy the foundation requirements).

07P:205 (PSQF:6205) Design of Instruction	3 s.h.
07P:215 (PSQF:6215) Web-Based Learning	3 s.h.
07S:180 (EDTL:6480) Issues in Foreign Language Education	3 s.h.
07S:183 (EDTL:6483) Second Language Classroom Learning	3 s.h.
07S:184 (EDTL:6484) Reading in a Second Language	3 s.h.
07S:197 (EDTL:6497) Principles of Course Design for Second Language Instruction	3 s.h.
07S:202 (EDTL:6402) Second Language Program Management	3 s.h.
07S:203 (EDTL:6403) Second Language Planning in Education	3 s.h.
07S:208 (EDTL:6408) Designing Materials for Second Language Instruction	3 s.h.
07S:415 (EDTL:7015) Ph.D. Seminar in Language, Literacy, and Culture	arr.
039:204 (CHIN:7403) Teaching Chinese as a Foreign Language III	3 s.h.
164:205 (SLA:6910) Analysis of L1 and L2 Data	3 s.h.
164:221 (SLA:6950) Topics in Second Language Acquisition: Speaking	3 s.h.
164:223 (SLA:6955) Topics in Second Language Acquisition: Listening	3 s.h.
164:225 (SLA:5973) Grammar in Second Language Teaching/Learning	3 s.h.
164:227 (SLA:6965) Topics in Second Language Acquisition: Writing	3 s.h.
164:228 (SLA:6403) Special Topics in Japanese Linguistics	3 s.h.
164:229 (SLA:6970) Cultural Curriculum	3 s.h.

Some students may include an internship experience as part of the specialization.

164:230 (SLA:7000) Internship	arr.
-------------------------------	------

Technology Specialization

The technology specialization requires the following courses.

A three-course sequence in psychological and quantitative foundations:

One of these:

07P:205 (PSQF:6205) Design of Instruction	3 s.h.
07P:275 (PSQF:6275) Constructivism and Design of Instruction	3 s.h.

Both of these:

07P:208 (PSQF:6208) Designing Educational Multimedia	3 s.h.
07P:215 (PSQF:6215) Web-Based Learning	3 s.h.

Students choose their remaining specialization course work from these (other courses may be approved by the student's advisor).

07P:203 (PSQF:6203) Learning, Technology, and Effective Teaching	3 s.h.
021:120 (SLIS:5020) Computing Foundations	3 s.h.
22C:104 (CS:3110) Introduction to Informatics	3 s.h.
103:157 (LING:4080) Linguistic Theory and Second Language Acquisition	3 s.h.
A practicum course	3 s.h.

May include one of these (if not taken for the three-course sequence in psychological and quantitative foundations, above):

07P:205 (PSQF:6205) Design of Instruction	3 s.h.
07P:275 (PSQF:6275) Constructivism and Design of Instruction	3 s.h.

*May include one of these:

07P:293 (PSQF:6293) Individual Instruction in Psychological and Quantitative Foundations	3 s.h.
164:302 (SLA:7025) Special Projects in Second Language Acquisition	3 s.h.

*May be taken after students have completed the core design and technology courses 07P:205 (PSQF:6205) Design of Instruction or 07P:275 (PSQF:6275) Constructivism and Design of Instruction, 07P:208 (PSQF:6208) Designing Educational Multimedia, and 07P:215 (PSQF:6215) Web-Based Learning.

THESIS

All candidates must complete a thesis [164:303 (SLA:7030) Ph.D. Thesis], for which they may earn up to 18 s.h. of credit.

OPTIONAL COURSE WORK

Students may include the following optional course work in their degree programs.

164:300 (SLA:7015) Special Topics in Second Language Acquisition	arr.
164:301 (SLA:7020) Readings in Second Language Acquisition	arr.
164:302 (SLA:7025) Special Projects in Second Language Acquisition	arr.

Admission

Admission is for fall semester; students are admitted only for full-time study. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the

Graduate (p. 808) College section of the Catalog. Strong applicants hold a master's degree in a related area, have a cumulative g.p.a. of at least 3.50 in master's degree work, and speak and write English and another language at a professional level. Applicants must submit a writing sample that demonstrates their ability to synthesize and analyze information using standard academic English.

Financial Support

Teaching assistantships are available through the Foreign Language Acquisition Research and Education Program (FLARE). Assistantships usually involve teaching elementary or intermediate language courses. FLARE also offers a limited number of research assistantships. Visit the FLARE web site for details.

Courses

164:125 (SLA:4202) Conversational Indonesian 1 s.h.
Open conversation in Indonesian language; active participation. Prerequisites: 164:120 and 164:121.

164:135 (SLA:4101) Conversational Turkish 1 s.h.
Open conversation in Turkish language; active participation. Prerequisites: 164:130 and 164:131. Same as 187:135 (IS:4101).

164:140 (SLA:3401) Language Development 3 s.h.
Introduction to first language acquisition, with focus on infancy through five years; sound discrimination abilities, word learning, babbling and speech production, acquisition of grammar; perspectives from psychology, audiology, linguistics, speech pathology. Prerequisites: 031:002 (PSY:2701). Requirements: grade of C- or higher in 031:010 (PSY:2810) and grade of C- or higher in 031:014 (PSY:2401) or 031:016 (PSY:2601). Same as 031:122 (PSY:3085).

164:157 (SLA:4080) Linguistic Theory and Second Language Acquisition 3 s.h.
Introduction of research results obtained by generative second language acquisition framework and their implications for classroom teaching methods; current views of language architecture; focus on inflectional morphology and linguistic interfaces, which have been proposed to be severe bottlenecks for acquisition; research findings on acquisition of syntax, phonology, semantics, linguistic pragmatics; pedagogical implications of these findings. Prerequisites: 103:111 (LING:3010) and 103:112 (LING:3020). Same as 103:157 (LING:4080).

164:160 (SLA:3400) Articulatory and Acoustic Phonetics 3 s.h.
Production and transcription of sounds in human languages; physics of sound, computer analysis of speech sounds. Offered fall semesters. Same as 103:110 (LING:3000).

164:163 (SLA:4401) Methods of Teaching English as a Second Language 3 s.h.
Observations of ESL and intensive English classes at the University; design and presentation of short lessons, text evaluation, demonstrations of innovative approaches of the last decade; materials. Offered spring semesters. Prerequisites: 103:110 (LING:3000) and 103:141 (LING:4040). Same as 103:145 (LING:4050).

164:170 (SLA:6500) Issues in Foreign Language Education 3 s.h.
Theoretical perspectives of pivotal research issues at the forefront of foreign language education; systems available to foreign language professionals for disseminating research. Same as 075:180 (EDTL:6480).

- 164:171 (SLA:6506) Second Language Classroom Learning** 3 s.h.
Synthesis of empirical findings on children's and adults' learning of a second or foreign language; emphasis on theoretical underpinnings of approaches, methods, techniques in language teaching. Same as 039:177 (ASIA:6483), 07S:183 (EDTL:6483).
- 164:172 (SLA:6501) Reading in a Second Language** 3 s.h.
Current theory, research, practice in second language reading field; role of textual features and the reader in reading comprehension. Same as 07S:184 (EDTL:6484).
- 164:173 (SLA:5501) Curriculum Foundations** 2-3 s.h.
Elementary and secondary background developments in curriculum; definitions, historical perspective, philosophies, theories of knowledge, models, learning theories, directions of development and shaping forces; emphasis on development of a curriculum project. Same as 07S:186 (EDTL:5086).
- 164:174 (SLA:6502) Principles of Course Design for Second Language Instruction** 3 s.h.
Contemporary views of second language curriculum design; guidelines necessary for the creation of prototypical curriculum units to be transposed into classroom-ready forms; for individuals interested in foreign language materials development. Same as 07S:197 (EDTL:6497).
- 164:181 (SLA:3302) Introduction to Chinese Linguistics** 3 s.h.
Aspects of modern Chinese linguistics, such as Chinese phonology, syntax, pedagogical grammar, history of the language. Taught in English. Same as 039:144 (CHIN:3302), 103:144 (LING:3302).
- 164:186 (SLA:4300) Introduction to Spanish Syntax** 3 s.h.
Basic principles of generative syntax as applied to analysis of Spanish syntactic structure; extensive syntactic analysis. Prerequisites: 03S:121 (SPAN:3100). Same as 03S:186 (SPAN:4150).
- 164:189 (SLA:4301) Introduction to Spanish Phonology** 3 s.h.
Sound patterns of Spanish; how various theoretical approaches solve basic problems in Spanish phonology; identification of linguistic universals, how they are manifested in the sound structure of Spanish. Prerequisites: 03S:121 (SPAN:3100) or 03S:122 (SPAN:3110). Same as 03S:189 (SPAN:4100).
- 164:200 (SLA:5000) Teaching and Learning Languages** 3 s.h.
Readings in pedagogical theory and practice, second language acquisition; experience designing activities for teaching and assessment with critiques based on current theories and approaches; development of reflective practices toward one's language teaching. Same as 218:200 (WLLC:5000).
- 164:201 (SLA:6901) Second Language Acquisition Research and Theory I** 3 s.h.
Theories regarding success and failure in acquisition of second or subsequent languages; research, issues. Same as 009:237 (FREN:6901), 039:200 (ASIA:6901), 03S:201 (SPAN:6901), 39J:201 (JPNS:6901).
- 164:202 (SLA:6902) Second Language Acquisition Research and Theory II** 3 s.h.
Continuation of 164:201 (SLA:6901). Prerequisites: 164:201 (SLA:6901). Same as 039:201 (ASIA:6903), 03S:202 (SPAN:6902).
- 164:203 (SLA:5020) Introduction to Phonology** 3 s.h.
Analysis of sound systems, focus on early generative phonological theory; extensive practice in analysis using data from a variety of languages; linguistic argumentation. Prerequisites: 103:110 (LING:3000). Same as 103:203 (LING:5020).
- 164:205 (SLA:6910) Analysis of L1 and L2 Data** 3 s.h.
Issues in qualitative and quantitative analysis of first- and second-language data; data collection, analytical frameworks and approaches. Prerequisites: 164:201 (SLA:6901). Same as 039:205 (ASIA:6910).
- 164:211 (SLA:6920) Multimedia and Second Language Acquisition** 3 s.h.
Foreign language multimedia in context of current second language acquisition theories and research; readings on interactivity, interface design, feedback, learner control; acquisition of vocabulary, grammar, and culture. Requirements: foreign language teaching methodology course. Same as 009:238 (FREN:6920), 013:253 (GRMN:6920), 03S:212 (SPAN:6920).
- 164:212 (SLA:7010) Practicum in CALL Software Development** 1-4 s.h.
Supervised experience in an applied setting involving development of computer-assisted language learning (CALL) software. Prerequisites: 164:211 (SLA:6920). Requirements: faculty sponsor.
- 164:221 (SLA:6950) Topics in Second Language Acquisition: Speaking** 3 s.h.
Theory, pedagogy, research, and assessment in second language speaking. Same as 009:236 (FREN:6950), 03S:228 (SPAN:6950).
- 164:223 (SLA:6955) Topics in Second Language Acquisition: Listening** 3 s.h.
Theory, pedagogy, research, and assessment in second language listening. Same as 039:223 (ASIA:6955).
- 164:225 (SLA:5973) Grammar in Second Language Teaching/Learning** 3 s.h.
Grammar, second language acquisition, and teaching. Taught in English, projects in varied languages. Same as 013:259 (GRMN:3540).
- 164:226 (SLA:6975) Reading in Non-Roman Scripts** 3 s.h.
Theory and practice of reading in languages that use non-Roman alphabets, syllabary, logographic systems; reading in first and second language contexts; instructional and literacy development issues. Prerequisites: 07E:171 (EDTL:4171) or 07P:270 or 07S:184 (EDTL:6484). Same as 07S:207 (EDTL:6407).
- 164:227 (SLA:6965) Topics in Second Language Acquisition: Writing** 3 s.h.
Theory, pedagogy, research, and assessment in second language writing. Taught in English. Same as 010:275 (RHET:6965), 03S:227 (SPAN:6965).
- 164:228 (SLA:6403) Special Topics in Japanese Linguistics** 3 s.h.
Topics in applied linguistics and language pedagogy related to Japanese language. Same as 39J:239 (JPNS:6403).
- 164:229 (SLA:6970) Cultural Curriculum** 3 s.h.
Culture's role in foreign/second language teaching; definition, pedagogy, assessment, and materials that allow culture to be taught and learned. Same as 07S:209 (EDTL:6409).
- 164:230 (SLA:7000) Internship** arr.

- 164:240 (SLA:6466) Cognitive Development** 3 s.h.
Theoretical and empirical analyses of children's cognitive development; spatial and numerical concepts, causal reasoning, categorization, metacognition, memory. Same as 031:218 (PSY:6430).
- 164:241 (SLA:5010) Introduction to Syntax** 3 s.h.
Methods and argumentation for formal analysis of sentence structure through induction from language data of central concepts and relations; hypothesis testing, empirical bases of theoretical concepts. Corequisites: 103:200 (LING:5000). Same as 103:201 (LING:5010).
- 164:242 (SLA:6010) Syntactic Theory** 3 s.h.
Current syntactic theory examined through analysis of data sets, readings in recent research; emphasis on argument construction, statement of formal principles. Offered spring semesters. Prerequisites: 103:201 (LING:5010). Same as 103:202 (LING:6010).
- 164:244 (SLA:6011) Phonological Theory** 3 s.h.
Post-SPE phonological theory, including autosegmental phonology, feature geometry, the syllable, optimality theory. Prerequisites: 103:203 (LING:5020). Same as 103:204 (LING:6020).
- 164:245 (SLA:5401) First Language Acquisition** 3 s.h.
Child language from a crosslinguistic perspective. Prerequisites: 103:110 (LING:3000), and 103:141 (LING:4040) or 103:201 (LING:5010). Same as 103:206 (LING:5030).
- 164:246 (SLA:6452) Generative Second Language Acquisition** 3 s.h.
Overview of current second-language acquisition research in the generative linguistic framework; focus on characterizing second language learners' linguistic competence and how it is constrained by principles of universal grammar. Offered fall semesters. Prerequisites: 103:111 (LING:3010) or 103:201 (LING:5010), and 103:112 (LING:3020) or 103:203 (LING:5020). Same as 103:211 (LING:6080).
- 164:247 (SLA:7401) Advanced Syntactic Theory** 2-3 s.h.
Recent developments in syntax; comparison of theories, argumentation, and uses of data. Prerequisites: 103:202 (LING:6010). Same as 103:212 (LING:7010).
- 164:248 (SLA:7402) Advanced Phonological Theory** 2-3 s.h.
Current issues. Prerequisites: 103:204 (LING:6020). Same as 103:214 (LING:7020).
- 164:249 (SLA:7403) Topics in Second Language Acquisition** 3 s.h.
Recent developments of selected issues in second language acquisition. Prerequisites: 103:211 (LING:6080). Same as 103:216 (LING:7080).
- 164:260 (SLA:6300) Foreign Language Teaching Methods** 3 s.h.
Readings in pedagogical theory and practice and second language acquisition; experience designing activities for teaching and assessment, with critiques based on current theories and approaches; development of reflective practices toward one's own language teaching. Same as 035:200 (SPAN:6000).
- 164:261 (SLA:6301) Topics in Spanish Language Acquisition** 3 s.h.
Theoretical linguistic approaches to monolingual, bilingual, and second language acquisition of Spanish and Portuguese; varied topics. Requirements: at least one course in linguistics (e.g., general introduction to linguistics). Same as 035:206 (SPAN:6150).
- 164:262 (SLA:6302) Topics in Comparative Romance Linguistics** 3 s.h.
Comparative study of phonology, morphology, or syntax of the main Romance languages as informed by linguistic theory; diachronic or synchronic perspective. Recommendations: additional graduate course work in linguistics. Same as 103:262 (LING:6190), 035:207 (SPAN:6190), 20E:201 (CLSA:6990).
- 164:263 (SLA:6303) Spanish Phonology** 3 s.h.
Modern approaches to synchronic phonology as applied to Spanish; focus on traditional descriptive problems, recent generative analyses. Requirements: phonology or linguistics course. Same as 035:209 (SPAN:6110).
- 164:264 (SLA:6304) Spanish Syntax** 3 s.h.
Spanish syntactic constructions examined in framework of selected syntactic theory; emphasis on development of syntactic argumentation. Requirements: one course in syntax. Same as 035:210 (SPAN:6120).
- 164:270 (SLA:6503) Fundamentals of Second Language Assessment** 3 s.h.
How to write language tests; discussion of fundamental issues in development of new tests or selection of existing tests. Same as 075:200 (EDTL:6400).
- 164:271 (SLA:6504) Second Language Program Management** 3 s.h.
Preparation for supervising, administering foreign language programs at all levels; for precollegiate language teachers and graduate students. Same as 075:202 (EDTL:6402).
- 164:272 (SLA:6505) Designing Materials for Second Language Instruction** 3 s.h.
Critical perspective on creating and using media for second language learning and teaching; research on materials design, development of media. Prerequisites: 075:183 (EDTL:6483). Same as 075:208 (EDTL:6408).
- 164:274 (SLA:7804) Teaching Chinese as a Foreign Language IV** 3 s.h.
Overview of goals, concepts, principles, research, and issues in assessment and testing of Chinese as a foreign language. Same as 039:208 (CHIN:7404).
- 164:275 (SLA:7405) Teaching Chinese as a Foreign Language V** 3 s.h.
Seminar on research design; for M.A. students planning to write a thesis or project, or graduate students seeking knowledge in designing qualitative or quantitative studies. Prerequisites: 07P:143 (PSQF:5143) and 039:202 (CHIN:7401). Same as 039:209 (CHIN:7405).
- 164:276 (SLA:5441) Japanese as a Foreign Language: Practical Applications** 3 s.h.
Instructional methodology, curriculum, and material design; hands-on experience. Prerequisites: 39J:122 (JPNS:4102). Same as 39J:202 (JPNS:5401).
- 164:281 (SLA:7406) Teaching Chinese as a Foreign Language I: Theories/Research** 3 s.h.
Research, theory on acquisition of Chinese as a non-native language. Same as 039:202 (CHIN:7401).
- 164:282 (SLA:7408) Teaching Chinese as a Foreign Language II** 3 s.h.
Multiple levels of major Chinese textbooks, curricular organizational schemes, language programs, communicative language instruction; development of supplementary materials for a University of Iowa Chinese course. Same as 039:203 (CHIN:7402).

164:298 (SLA:6111) Semantics 3 s.h.

Meaning in natural language, with focus on German; lexical semantics (sense relations, semantic fields, componential analysis), modality, temporal and spatial deixis, aspect. Same as 013:255 (GRMN:6800).

164:299 (SLA:6990) Special Topics in German Linguistics 3 s.h.

Same as 013:299 (GRMN:6898), 103:232 (LING:6898).

164:300 (SLA:7015) Special Topics in Second Language Acquisition arr.**164:301 (SLA:7020) Readings in Second Language Acquisition** arr.**164:302 (SLA:7025) Special Projects in Second Language Acquisition** arr.**164:303 (SLA:7030) Ph.D. Thesis** arr.**164:342 (SLA:7404) Seminar: Problems in Linguistics** 2-3 s.h.

Intensive study of theoretical and practical problems. Same as 103:312 (LING:7090).

Translational Biomedicine

Chair

Gary Rosenthal (Internal Medicine)

Education directors

Pamela Geyer (Biochemistry), Jeffrey Murray (Pediatrics/Biology/Pediatric Dentistry/Epidemiology), James Torner (Education/Surgery/Epidemiology/Neurosurgery)

Affiliated faculty

Ryan Carnahan (Epidemiology), Elizabeth Chrischilles (Epidemiology/Pharmacy), David Katz (Internal Medicine/Epidemiology), Charles F. Lynch (Epidemiology/Pathology), Audrey Saftlas (Epidemiology), Christian Simon (Internal Medicine), James Torner (Education/Surgery/Epidemiology/Neurosurgery), Mary Vaughan Sarrazin (Internal Medicine), Robert Wallace (Epidemiology/Internal Medicine)

Graduate degrees: M.S. in translational biomedicine; Ph.D. in translational biomedicine

Web site: <http://icts.uiowa.edu>

The Translational Biomedicine Program prepares skilled clinicians to pursue new knowledge about health and disease through patient-based research. The program's goal is to support the medical research enterprise in its efforts to advance the prevention, treatment, and cure of disease.

Students in the program are trained to conduct rigorous, original clinical investigations using basic biological and physiological principles. They receive didactic training and engage in substantial mentored research opportunities in the areas of disease mechanisms, or etiology; new clinical insights into diagnosis or natural history of disease; objective assessment and outcome of therapeutic intervention; medical informatics; and development of new approaches to therapeutics.

Graduate Programs

- Master of Science in translational biomedicine
- Doctor of Philosophy in translational biomedicine

Master of Science

The Master of Science program in translational biomedicine requires a minimum of 54 s.h. of graduate credit. Each student's plan of study for the three-year program is based on his or her chosen discipline.

All students take background courses in epidemiology, study design, and statistics as well as advanced courses in basic sciences relevant to their individual research areas. Students may choose to pursue research areas in any of the health sciences disciplines, and they enjoy considerable flexibility in scheduling course work and beginning research.

Work for the M.S. requires authorship of an original manuscript of publishable quality for a peer-reviewed journal or authorship of a grant proposal for an NIH career award (e.g., K23, K08, K01, R01, R03, R21) or a Veterans Administration Career Award; R03 proposals completed for 173:211 (EPID:6110) Grant Writing for Clinical Investigators do not count toward this requirement. Original research manuscripts must be a minimum of 2,500 words. They must include a structured abstract; an introduction that frames the research question; description of methodology for study design, sampling, data collection

strategies and sources, and description of data elements and data analysis; description of study results; and a discussion section that describes the relationship of current findings to prior relevant research, the clinical and policy implications of the findings, and methodological limitations.

The M.S. program in translational biomedicine requires the following course work. Students must register for 173:163 (EPID:5630) Seminar in Clinical and Translational Research each semester they are enrolled in the program.

163:225 (TBM:5000) Translational Biomedical Research	arr.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology	2-3 s.h.
173:152 (EPID:5520) Clinical Research Career Development	1 s.h.
173:161 (EPID:5610) Patient-Oriented Research Data Analysis	3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.
173:211 (EPID:6110) Grant Writing for Clinical Investigators	1 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.
173:290 (EPID:6900) Intervention and Clinical Trials	3 s.h.
173:295 (EPID:6950) Clinical Research Ethics	2-3 s.h.

Recommended but not required:

051:121 (BME:3310) Introduction to Bioinformatics	4 s.h.
---	--------

SAMPLE SCHEDULE FOR THE MASTER OF SCIENCE

First year summer session:

173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
173:152 (EPID:5520) Clinical Research Career Development	1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.

First year fall semester:

051:121 (BME:3310) Introduction to Bioinformatics (recommended but not required)	4 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology	2-3 s.h.
173:290 (EPID:6900) Intervention and Clinical Trials	3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.

First year spring semester:

173:161 (EPID:5610) Patient-Oriented Research Data Analysis	3 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.
173:295 (EPID:6950) Clinical Research Ethics	2-3 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.

Second year summer session:

163:225 (TBM:5000) Translational Biomedical Research	arr.
Elective	3 s.h.

Second year fall semester:

173:211 (EPID:6110) Grant Writing for Clinical Investigators	1 s.h.
or	
173:215 (EPID:6150) Writing for Medical Journals	1 s.h.

163:225 (TBM:5000) Translational Biomedical Research	arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.
Elective	3 s.h.
Elective	3 s.h.

Second year spring semester:

163:225 (TBM:5000) Translational Biomedical Research	arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.

Third year summer session:

163:225 (TBM:5000) Translational Biomedical Research	arr.
--	------

Third year fall semester:

163:225 (TBM:5000) Translational Biomedical Research	arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.

Third year spring semester:

163:225 (TBM:5000) Translational Biomedical Research	arr.
173:163 (EPID:5630) Seminar in Clinical and Translational Research	1 s.h.

Doctor of Philosophy

The Doctor of Philosophy program in translational biomedicine requires a minimum of 72 s.h. of graduate credit. Ph.D. students build on their M.S. study plan with more advanced work. For information about the Ph.D., contact the Translational Biomedicine Program.

Related Certificate: Translational and Clinical Investigation

The Department of Epidemiology and the Institute for Clinical and Translational Science offer the Certificate in Translational and Clinical Investigation for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. Completion of the certificate is noted on the student's transcript. See Epidemiology (College of Public Health) in the Catalog for detailed information about the certificate.

Admission

The Translational Biomedicine Program welcomes students with diverse educational and scientific backgrounds and varied research interests. Applicants to the program should have a strong interest and background in a health science profession and knowledge of basic sciences and medicine. They should hold an advanced degree in one of the health sciences (e.g., M.D., D.O., D.D.S., D.V.M., M.S.N., Pharm.D., Ph.D.).

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Admission is based on applicants' undergraduate and graduate academic achievement, performance on the Graduate Record Examination (GRE) General Test, and letters of recommendation. Applicants whose first language is not English must take the Test of English as a Foreign Language (TOEFL).

The program helps applicants find suitable mentors. All prospective students, and their mentors, must guarantee that once they are accepted as students in the program,

they will be able to devote essentially all of their time over a three-year period to training. For instance, a fellow in the Carver College of Medicine could spend no more than two months each year working on clinical assignments (e.g., two months of inpatient assignments or one month of inpatient assignments and one-half day per week in a clinic).

Financial Support

Funding of tuition and salaries or stipends is available from a number of sources. Contact the Translational Biomedicine Program for information.

Facilities

Training is conducted mainly in the laboratories and teaching facilities of the Carver College of Medicine and the College of Public Health. The University of Iowa Institute for Clinical and Translational Science is available for research training. The program also is linked with the Carver College of Medicine's graduate training program in clinical research.

Courses

163:225 (TBM:5000) Translational Biomedical Research arr.

Student research guided by mentor.

Transportation Studies

Director

Paul F. Hanley

Affiliated faculty

Marc P. Armstrong (Geography), M. Asghar Bhatti (Civil and Environmental Engineering), John W. Fuller (Urban and Regional Planning/Economics), Paul F. Hanley (Urban and Regional Planning), Jon G. Kuhl (Electrical and Computer Engineering), Hosin David Lee (Civil and Environmental Engineering), Miwa Matsuo (Urban and Regional Planning), Wilfrid A. Nixon (Civil and Environmental Engineering), Gerard Rushton (Geography/Health Management and Policy), Thomas Schnell (Mechanical and Industrial Engineering), James W. Stoner (Civil and Environmental Engineering/Urban and Regional Planning)

Graduate certificate: transportation studies

Web site: <http://ppc.uiowa.edu>

Transportation is vital to modern society. The United States, like other nations, faces many critical transportation problems and issues. The highway system is reaching an advanced stage of its life cycle, public transit operating deficits are growing, the quality of transportation available to many citizens is unacceptably low, serious inequities exist between transportation modes, and extensive changes are called for in traditional transportation institutions. New approaches to financing the nation's road system are badly needed.

Transportation engineers and planners draw on a number of skills to respond to the challenges they face. They must analyze and forecast the movement of people and goods within and between cities; identify effective and efficient means for providing desired transportation services; price these services properly; and evaluate the impact that transportation changes have on land use, environmental quality, the local or regional economy, and various subgroups within society.

No single academic discipline can supply all of the theories, principles, or methods needed to address the varied and complex problems in transportation. Recognizing this, the Department of Civil and Environmental Engineering (p. 767) and the School of Urban and Regional Planning (p. 874) participate in the interdisciplinary Transportation Studies Program, through which students in the participating units can earn the Certificate in Transportation along with their graduate degrees.

The Department of Mechanical and Industrial Engineering (p. 789) also participates in the transportation certificate program, offering courses in human factors and safety issues in transportation, and the Department of Geography (p. 285) offers courses in geographic information systems (GIS), location theory, and other related areas.

Graduate Program

- Certificate in Transportation Studies

Certificate

The Certificate in Transportation Studies requires 18 s.h. of graduate credit. Students may earn the certificate in conjunction with an M.S. or Ph.D. in civil and

environmental engineering or with an M.A. or M.S. in urban and regional planning.

Individuals working toward degrees in other transportation-related disciplines are encouraged to apply to the Transportation Studies Program. Depending on a student's background, additional course work in statistics, computer programming, simulation, mathematics, and operations research may be required for the certificate. Credit earned in these courses may not be applicable to the student's degree program.

Completion of the certificate is noted on the student's transcript.

Students enrolled in the certificate program may wish to participate in faculty-led transportation research, which may explore topics such as system planning, traffic operations and engineering, spatial data systems and analysis, simulation applications, and policy issues.

The Certificate in Transportation Studies is coordinated by the Public Policy Center in conjunction with the Graduate College.

Certificate with M.S. or Ph.D. in Civil and Environmental Engineering

Students working toward a Master of Science or a Doctor of Philosophy in civil and environmental engineering may earn the Certificate in Transportation Studies by completing the courses listed below (18 s.h.). Not all courses are offered every semester; consult ISIS to determine when specific courses are offered.

Fall Semester

053:163 (CEE:4763) Traffic Engineering	3 s.h.
053:164 (CEE:4764) Winter Highway Maintenance	3 s.h.
102:266 (URP:6266) Transportation and Land Use Planning	3 s.h.

Spring Semester

053:162 (CEE:4762) Design of Transportation Systems	3 s.h.
053:163 (CEE:4763) Traffic Engineering	3 s.h.
053:167 (CEE:4167) Public Transit Operations and Planning	3 s.h.

Engineering students may apply to the certificate program through the Graduate College and the Department of Civil and Environmental Engineering. See Civil and Environmental Engineering (p. 767) (College of Engineering) for information about graduate study and degree requirements in that department.

Certificate with M.A. or M.S. in Urban and Regional Planning

Students working toward a Master of Arts or Master of Science in urban and regional planning may earn the Certificate in Transportation Studies by completing a total of 18 s.h. from the courses listed below. Not all courses are offered every semester; consult ISIS to determine when specific courses are offered.

Fall Semester

102:263 (URP:6063) Application Simulation to Transportation	3 s.h.
102:265 (URP:6265) Planning Sustainable Transportation	3 s.h.

102:266 (URP:6266) Transportation and Land Use Planning	3 s.h.
102:268 (URP:6268) Freight Transportation Planning	3 s.h.
102:269 (URP:6269) Transportation Program Seminar	1 s.h.

Spring Semester

102:133 (URP:3350) Transportation Economics	3 s.h.
102:162 (URP:4262) Transportation Demand Analysis	3 s.h.
102:195 (URP:4195) Public Transit Operations and Planning	3 s.h.
102:260 (URP:6260) Transportation Policy and Planning	3 s.h.
102:264 (URP:6264) Transportation Planning Process	2-3 s.h.

Urban and regional planning students may apply to the certificate program through the Graduate College and the School of Urban and Regional Planning. See Urban and Regional Planning (p. 874) (Graduate College) for information about graduate study and degree requirements in the school.

Urban and Regional Planning

Director

Charles E. Connerly

Professors

Charles E. Connerly, John W. Fuller

Professors emeriti

Peter S. Fisher, James A. Throgmorton

Associate professors

Jerry A. Anthony, Paul F. Hanley, Lucie Laurian

Assistant professors

Richard Funderburg, Miwa Matsuo, Phuong Nguyen, Scott Spak, Aaron Strong

Adjunct lecturers

Leslie Beck, Josh Busard, Hilary Copeland, Bart Cramer, Rick Havel, Ron Mirr, Christine Ralston, Jeffrey Schott, Jim Schwab, Dan Swartzendruber, David Swenson

Graduate degrees: M.A. in urban and regional planning; M.S. in urban and regional planning

Web site: <http://www.urban.uiowa.edu>

Urban and regional planning encompasses the development and implementation of public policies that improve the quality of life in cities and regions. Today's planners find themselves in demand for such diverse jobs as transport planner, zoning administrator, environmental analyst with a natural resources agency, economic development planner, regional solid waste management coordinator, state public health planner, neighborhood planner, state legislative analyst, and transportation consultant.

Graduate Programs

- Master of Arts in urban and regional planning
- Master of Science in urban and regional planning

The Master of Arts and Master of Science are two-year degree programs fully accredited by the Planning Accreditation Board. Each is built on the premise that planners must be educated in methods of policy analysis and that there is a common body of knowledge, represented in the core curriculum, that provides a solid foundation for all specializations in the field.

A wide range of educational backgrounds provide good preparation for graduate study in urban and regional planning. Students with undergraduate majors such as geography, economics, English, political science, engineering, architecture, sociology, urban studies, and history currently study in the school. More than 60 full-time students and a few part-time students are enrolled. About half of them are women, and about 10 percent are international students.

The common core of courses and the design of the facilities allow students to get to know each other quickly. Students interact closely with faculty members in the classroom, in informal conversation, and while working on research projects.

Recent graduates of the school have taken positions with city, metropolitan, and regional planning agencies, state and federal government, nonprofit organizations, and private consulting firms. They work in all geographic

regions of the United States and in several countries around the world.

Graduate students working toward a master's degree in urban and regional planning may elect to pursue one of the joint degree programs offered by the school in collaboration with the College of Engineering, the College of Law, the College of Public Health, and the School of Social Work. The school also participates in the Transportation Studies Program, which offers a graduate certificate. See "Joint Degrees" and "Related Certificate: Transportation Studies" below.

Master of Arts, Master of Science

The Master of Arts and Master of Science programs in urban and regional planning require 50 s.h. of graduate credit. The graduate curriculum is based on the philosophy that planners must develop the theoretical and analytic skills that will permit them to analyze social problems and evaluate public policies. Planners also must cultivate professional skills such as report writing, oral presentation, computer use, and team management in order to work effectively in various organizational and political environments.

Work for the master's degree includes core courses, an area of concentration, electives, and capstone courses. A final examination is required for both degrees. A thesis is not required, although students may petition to write one. Students are encouraged to complete an approved internship or practicum.

All students, including those in joint degree programs, must complete a minimum of 35 s.h. of planning courses [prefix 102 (URP)]. Students must earn a grade of B-minus or higher in all core and concentration area courses and must maintain an overall graduate g.p.a. of at least 3.00.

The M.A. and M.S. in urban and regional planning require the following work.

CORE CURRICULUM

The core curriculum helps students develop an understanding of the institutions—social, economic, political, administrative, and legal systems—that provide the context for policy analysis and that constrain public choices. It also promotes development of the ability to identify social goals and normative criteria for evaluating public policies, as well as the analytic skills to perform such investigations.

The core requires a total of 23 s.h., including at least 3 s.h. in an advanced economic methods course. Early core courses are drawn primarily from traditional disciplines, particularly economics and statistics, and include an introduction to land use planning and to theories and practice of planning. As students proceed through the curriculum, increasing emphasis is placed on the development of critical judgment and insight, achieved through the application of theory and methods to realistic planning problems and case studies. The advanced economics methods course usually is taken during the first three semesters.

The core curriculum includes the following courses; students may request a waiver of selected core courses on the basis of previous course work.

102:200 (URP:6200) Analytic Methods in Planning I	3 s.h.
102:201 (URP:6201) Analytic Methods in Planning II	3 s.h.
102:202 (URP:6202) Land Use Planning: Law and Practice	4 s.h.

102:203 (URP:6203) History and Theories of Planning	3 s.h.
102:205 (URP:6205) Economics for Urban Planners	3 s.h.
102:208 (URP:6208) Program Seminar in Planning Practice	1 s.h.
102:248 (URP:6258) Modeling Dynamic Systems	3 s.h.

Advanced economic methods—at least one of these:

102:223 (URP:6233) Financing Local Government	3 s.h.
102:290 (URP:6290) Economic Impact Assessment	3 s.h.

CONCENTRATION AREA

Beginning in the second semester, students choose a concentration area and develop it by applying the concepts and skills developed in the core. Currently, the school's faculty and course offerings support five concentration areas: transportation planning, housing and community development, economic development, land use and environmental planning, and geographic information systems.

Students complete at least 9 s.h. of courses in their concentration area. Courses offered by other University departments and programs may supplement those offered by the School of Urban and Regional Planning.

Students may combine two concentration areas. Examples of combined areas are environmental and economic development planning, and transportation and community development planning. Students also may design other concentration areas, subject to faculty approval. For example, they may specialize in health services planning with appropriate course work in the Department of Health Management and Policy or Occupational and Environmental Health, or in human services planning with courses in the School of Social Work.

CAPSTONE COURSES

Students complete the following two capstone courses, usually during the third and fourth semesters. Students who complete a practicum are exempt from this requirement.

102:209 (URP:6209) Field Problems in Planning I	3 s.h.
102:210 (URP:6210) Field Problems in Planning II	3 s.h.

INTERNSHIP

Students are encouraged to complete an internship in a planning agency or related organization. To earn 2 s.h. of credit for the internship, students must submit a brief paper summarizing and evaluating their experience. Internships usually are paid staff positions and are completed during the summer between the first and second years or during the academic year.

PRACTICUM

An extended internship, consisting of at least five months of full-time employment in a planning-related organization, may qualify as a practicum. A practicum generally takes place during summer after the first year and into the fall semester of the second year. It carries 5 s.h. of credit and substitutes for the internship and the capstone courses.

THESIS

A thesis is not required, although students may petition to write one. Students may register for up to 6 s.h. of thesis credit. In addition, they may take up to 8 s.h. of readings to develop a thesis topic and prepare a literature review.

FINAL EXAM

A final examination is required for all M.A. and M.S. students. An oral exam constitutes the final exam for students who do not write a thesis.

TYPICAL MASTER'S DEGREE SCHEDULE

First semester:

102:200 (URP:6200) Analytic Methods in Planning I	3 s.h.
102:202 (URP:6202) Land Use Planning: Law and Practice	4 s.h.
102:203 (URP:6203) History and Theories of Planning	3 s.h.
102:205 (URP:6205) Economics for Urban Planners	3 s.h.
102:208 (URP:6208) Program Seminar in Planning Practice	1 s.h.

Second semester:

102:201 (URP:6201) Analytic Methods in Planning II	3 s.h.
Economic methods core course	3 s.h.
Electives and area of concentration courses	6-9 s.h.

Third semester:

102:209 (URP:6209) Field Problems in Planning I	3 s.h.
102:248 (URP:6258) Modeling Dynamic Systems	3 s.h.
Economic methods core course (if not already taken)	3 s.h.
Electives and area of concentration courses	3-6 s.h.

Fourth semester:

102:210 (URP:6210) Field Problems in Planning II	3 s.h.
Electives and area of concentration courses	9 s.h.

Joint Degrees

The School of Urban and Regional Planning participates in several joint degree programs, in which students work toward an M.A. or M.S. in urban and regional planning at the same time they work toward another degree. Joint degree programs enable students to earn both degrees in less time than it would take to earn the two degrees separately. The school participates in the following joint programs.

Joint B.S.E. in civil engineering/M.A. or M.S. in urban and regional planning; see Bachelor of Science in Engineering (p. 737) and Civil and Environmental Engineering (p. 767) (College of Engineering) for information about the Bachelor of Science in Engineering.

Joint J.D./M.A. or M.S. in urban and regional planning; see College of Law (p. 880) for information about the Juris Doctor.

Joint M.H.A./M.A. or M.S. in urban and regional planning; see Health Management and Policy (p. 1075) (College of Public Health) for information about the Master of Health Administration.

Joint M.S. in occupational and environmental health/M.A. or M.S. in urban and regional planning; see Occupational and Environmental Health (p. 1088) (College of Public Health) for information about the Master of Science in occupational and environmental health.

Joint M.S.W./M.A. or M.S. in urban and regional planning; see Social Work (p. 504) (College of Liberal Arts and Sciences) for information about the Master of Social Work.

Requirements for each joint degree program vary, but urban and regional planning requirements in each program include completion of at least 35 s.h. in School of Urban and Regional Planning courses [prefix 102 (URP)],

completion of the concentration area requirement, and the master's degree final examination.

For each of the joint programs, separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint program. Contact the School of Urban and Regional Planning admissions coordinator for more information about joint degree programs.

Related Certificate: Transportation Studies

The Transportation Studies Program offers the Certificate in Transportation Studies, which requires 18 s.h. of graduate credit. The program focuses on the varied and complex problems of transportation and on interdisciplinary approaches to addressing them. The Departments of Civil and Environmental Engineering, Mechanical and Industrial Engineering, and Geography and the School of Urban and Regional Planning participate in the program, which is administered by the Graduate College and the University's Public Policy Center. See Transportation Studies (p. 872) (Graduate College) in the Catalog for more information about the certificate.

Admission

Admission to the School of Urban and Regional Planning is open to students from any undergraduate major or concentration area.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Admission is based on Graduate Record Examination (GRE) General Test scores (verbal, quantitative, and analytical writing), letters of recommendation, previous academic performance, and a written statement of purpose. International applicants whose first language is not English are required to submit official TOEFL scores.

Applicants should submit an application form, GRE General Test scores, TOEFL score (for students whose first language is not English), recommendation letters, statement of purpose, and transcripts. For fall admission, applications should be submitted to arrive early in the year (preferably by January 15), although applications are accepted until July 15 (April 15 for international students). Applications for spring admission should be received by October 1 and no later than December 1. Fall admission is strongly preferred. Students applying for financial aid should submit their materials by January 15.

Financial Support

Students in the School of Urban and Regional Planning receive financial support from the program primarily from teaching or research assistantships and from contract or grant-funded assistantships. Assistantships typically require 10 hours of work per week under the direction of a faculty member. A few full or partial tuition scholarships also are available.

Students initiate applications for financial support, and awards are made on the basis of merit, experience, and interests. Assistantships may be renewed for a total of up to four semesters.

Students applying for financial support are encouraged to submit application materials and requests for support by January 15. Students who apply after that date are considered only as remaining funds permit. Financial support usually is not available for students beginning the program in the spring semester.

Courses

102:101 (URP:3001) Planning Livable Cities 3 s.h.

Development of livable cities in the United States; economic, physical, environmental, and political forces that shape their growth; impact of planning, how it shapes the future of cities. Same as 044:136 (GEOG:3920).

102:125 (URP:4750) Environmental Impact Analysis 4 s.h.

Environmental impact assessment methodologies; emphasis on cost-benefit-risk, cost-effectiveness and incremental analysis, and overlay and graphic techniques; optimal resource use, system simulation; field trips to local environmental control facilities. Prerequisites: 044:019 (GEOG:1070). Same as 044:125 (GEOG:4750).

102:126 (URP:3126) International Perspectives: Xicotepec arr.

Introduction to providing service to communities in underdeveloped countries through discipline-specific projects to improve community life in Xicotepec, Mexico; cultural and professional preparation for team work in an international environment; service-learning course in collaboration with Rotary International. Spring break in Xicotepec, Mexico.

102:133 (URP:3350) Transportation Economics 3 s.h.

Overview of transportation markets—intercity, rural, urban; transportation modes—rail, highway, air, water, pipeline, transit; issues in finance, policy, planning, management, physical distribution, and environmental, economic, and safety regulation. Recommendations: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 044:133 (GEOG:3940), 06E:145 (ECON:3750).

102:134 (URP:3134) Regional and Urban Economics 3 s.h.

Theory of location and regional development; central place theory; why cities exist and trade with one another; models of land use patterns, rents; empirical tests of models; policy applications. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 06E:135 (ECON:3340).

102:135 (URP:3135) Environmental and Natural Resource Economics 3 s.h.

Environmental and resource use problems; efficient mechanisms and other policies for environmental protection, management of common property resources. Prerequisites: 06E:001 (ECON:1100) and 06E:002 (ECON:1200). Same as 06E:133 (ECON:3330).

102:140 (URP:3140) Planning for Sustainability 2-3 s.h.

How planners are pursuing sustainable futures for cities and regions; green building, alternative forms of transportation, sustainable management of natural resources, renewable energy opportunities, urban form, natural hazard mitigation, waste management, smart growth; U.S. and international practice.

- 102:150 (URP:4150) Water Resource Economics** 3 s.h.
Common world water scarcity and water quality issues; economics that provide valuable insights and tools and help contribute solutions to problems; surface water allocation, ground water allocation, surface water quality issues derived from point and nonpoint source pollutants, and water demand; linear and nonlinear programming, cost-benefit analysis, regression analysis (emphasis on maximum likelihood estimation), and cost avoidance techniques.
- 102:162 (URP:4262) Transportation Demand Analysis** 3 s.h.
City planning procedures and traffic engineering techniques applied to transportation problems; trip generation, distribution, assignment, mode choice models; travel surveys, data collection techniques; arterial flow, intersection performance, parking; transit system analysis. Same as 053:176 (CEE:4176).
- 102:170 (URP:4170) Megacities Seminar** 2 s.h.
Global historical, political, economic, urban, and cultural aspects of megacity development; planning methods to address contemporary and emerging issues; critical analysis of peer-reviewed literature and computational simulations; topics include urban sprawl, poverty and inequality, economies, food scarcity, population growth, governance models, environmental and health concerns, sustainability.
- 102:195 (URP:4195) Public Transit Operations and Planning** 3 s.h.
Bus, light and heavy rail, and paratransit modes; transit operations, planning, modeling and optimization, transit agency economics, transit finance, and evolving transportation policy; skills essential to planners and engineers who intend to work for a either planning agency, transportation provider, or a transportation or planning consulting firm; individual and group projects involving transit operations. Requirements: undergraduate or graduate standing in engineering, or graduate standing in urban and regional planning. Same as 053:167 (CEE:4167).
- 102:200 (URP:6200) Analytic Methods in Planning I** 1-3 s.h.
Methods used in planning and policy analysis; emphasis on application of statistical techniques and quantitative reasoning to planning problems; use of computers and data systems in planning analysis.
- 102:201 (URP:6201) Analytic Methods in Planning II** 2-3 s.h.
Integration of methods with the planning process; application of multiple regression, population estimation and projection, survey methods, time series analysis, industrial growth and change; presentation of results to decision makers and the public. Prerequisites: 102:200 (URP:6200).
- 102:202 (URP:6202) Land Use Planning: Law and Practice** 4 s.h.
Legal, social foundations of land use planning; comprehensive planning, zoning and subdivision review; legal aspects of land use, environmental planning; ordinance drafting; staff report writing; citizen participation.
- 102:203 (URP:6203) History and Theories of Planning** 3 s.h.
History of urban planning in America as a reflection of social and economic forces; alternative planning philosophies, roles, and ethical choices open to planners.
- 102:205 (URP:6205) Economics for Urban Planners** 3 s.h.
Principles of economics for planners; concepts and techniques of microeconomic analysis; income inequality; the role of government in the economy; tax and pricing policy; project evaluation; externalities.
- 102:208 (URP:6208) Program Seminar in Planning Practice** 1 s.h.
Planning process, roles of planners, professional ethics and standards.
- 102:209 (URP:6209) Field Problems in Planning I** 3 s.h.
Experience working on a two-semester project involving a current planning issue, usually for a client. Requirements: urban and regional planning graduate standing.
- 102:210 (URP:6210) Field Problems in Planning II** 3 s.h.
Continuation of 102:209 (URP:6209). Prerequisites: 102:209 (URP:6209). Requirements: urban and regional planning graduate standing.
- 102:211 (URP:6211) Community Outreach Practicum** 1-3 s.h.
Application of planning skills to community work by non-profit organizations in local area; urban planners contributing to their communities; community outreach.
- 102:215 (URP:6225) Applied GIS for Planners** 3 s.h.
Analysis of Census of Population data using GIS software; data and analytical needs of urban planners; coverage of GIS topics to plan functions of GIS and spatial analysis, varied GIS software in a planning organization; structure of the Census.
- 102:216 (URP:6216) Conflict, Negotiation, and Planning** 3 s.h.
Conflict within communities, and planners' responses; networking, negotiating, mediating, coalition building, consensus building; case studies, role playing. Same as 160:216 (PORO:6216).
- 102:217 (URP:6227) Spatial Analysis in Planning** 3 s.h.
Data bases, GIS, planning support systems; spatial model building and use of spatial statistics; applications to substantive problems in transportation, environment, housing, economic development. Prerequisites: 102:215 (URP:6225).
- 102:218 (URP:6228) GIS for Local Government** 1 s.h.
Development, maintenance, and operation of an enterprise-wide Geographic Information System (GIS); implementation of a parcel-based data system model common to government entities; practical experience using data for land-use planning analysis.
- 102:219 (URP:6229) Practicum** 5 s.h.
Full-time internship of at least five months with a planning-related organization. Requirements: urban and regional planning graduate standing.
- 102:220 (URP:6230) Virtual Reality and Urban Development** 3 s.h.
Creation of terrain models from DEMs and CAD-based site plans, panoramas, incorporation of existing and proposed buildings into virtual reality models; use of VRML and presentation strategies, including digital movies.
- 102:222 (URP:6222) Urban Design for Non-Designers** 3 s.h.
Principles of urban design and the importance of good, well thought out urban design; background in urban design for policy planners and non-designers; past, present, and future of urban design.
- 102:223 (URP:6233) Financing Local Government** 3 s.h.
Financing of local government infrastructure through property taxes, bonding, impact fees, pricing, tax increment financing; institutional alternatives—downtown improvement districts, special districts, homeowners' associations; fiscal disparities and regional finance; case studies. Prerequisites: 102:205 (URP:6205).

- 102:225 (URP:6235) Geodatabases and GIS** 1 s.h.
Geodatabase implementation in the management of large GIS data sets. Prerequisites: 102:215 (URP:6225).
- 102:232 (URP:6242) Planning and City Administration** 1 s.h.
Relationship of planners and other local government personnel; how planning fits into city management; city management view of local political process, provision of city services, finance and budgeting, human resources, intergovernmental relations, how meetings are run, dealing with the public.
- 102:233 (URP:6243) The Land Development Process** 3 s.h.
How land is developed; analysis of site suitability, preparation of subdivision plan, site plan review, development approval process, infrastructure and site preparation, negotiating local development politics; field trips. Prerequisites: 102:202 (URP:6202).
- 102:235 (URP:6245) Growth Management** 3 s.h.
Causes and consequences of urban sprawl, shortfalls in conventional land use planning; local and state growth management policies, techniques of policy implementation, positive and negative impacts of such policies; Smart Growth; emerging challenges. Prerequisites: 102:202 (URP:6202).
- 102:237 (URP:6337) Poverty, Planning, and Public Policy** 3 s.h.
Interconnectedness of causes of poverty; operation and outcomes of federal and state antipoverty programs; impact of local planning policies and programs on low income population; ways in which planners in public agencies or advocacy organizations can work to alleviate poverty.
- 102:242 (URP:6252) Planning for Sustainable City--Regions** 3 s.h.
Understanding and improving the practice of urban environmental planning; techniques and politics of planning drinking water supply, sewage treatment, natural areas conservation.
- 102:243 (URP:6253) Healthy Cities and the Environment** 3 s.h.
Foundations of environmental planning for healthy cities and communities; how urban form, air and water quality, and natural hazards affect environmental planning and health.
- 102:246 (URP:6256) Environmental Policy** 3 s.h.
Environmental policy formation and politics; comparative international perspective on the United States' experience.
- 102:247 (URP:6257) Environmental Management** 3 s.h.
Environmental best management practices for sustainable management of natural resources; open space and habitat protection, prairie and wetland restoration, water supplies management, natural hazard mitigation, farmland protection.
- 102:248 (URP:6258) Modeling Dynamic Systems** 3 s.h.
Nonlinear dynamics in human-environment relationships; quantitative modeling of global environment processes; environment modeling for policy and land use planning; introduction to fundamentals of linked global-scale environment processes from a systems perspective, focus on historical and contemporary role of human activities in altering flows of energy and mass within the Earth system; hands-on simulation and group games to understand feedback loops in complex systems, with applications to land use, water, climate, ecosystems, and nutrient cycles across time and spatial scales; emphasis on quantifying effects of policies and planning on environmental change.
- 102:249 (URP:6249) Sustainability Seminar** 1 s.h.
Focus of increasing interest for planning students and practicing planners; involves environmental effects, economy, social justice; discussion and investigation of sustainability practice applied to local and regional efforts of public and private entities; greater awareness and understanding of the effectiveness and resource requirements of local activities addressing sustainability; presentations by the instructor, local tours, guest lectures.
- 102:260 (URP:6260) Transportation Policy and Planning** 3 s.h.
Institutional setting for transportation planning, evolution of domestic transportation policy, international influences, transportation modes and markets, current sources of transportation planning information, emerging policy issues.
- 102:263 (URP:6063) Application Simulation to Transportation** 3 s.h.
Transportation system management and traffic engineering; application of real-time simulation and visualization. Prerequisites: 053:063 (CEE:3763) or 053:163 (CEE:4763). Same as 053:263 (CEE:6763).
- 102:264 (URP:6264) Transportation Planning Process** 2-3 s.h.
Technical issues, political interface, citizen involvement, intermodal questions, public versus private roles; review and critique of transportation plans.
- 102:265 (URP:6265) Planning Sustainable Transportation** 3 s.h.
Theories and methods of exerting public control over passenger and freight transportation; social and environmental regulation; effects of changing finance, regulation, and pricing policies, including privatization, tolls, impact fees. Same as 044:265 (GEOG:6264).
- 102:266 (URP:6266) Transportation and Land Use Planning** 3 s.h.
Policies and interactions between transportation and land use; location theories and practices; transportation infrastructure, land use, travel behavior modeling; current policies that influence travel behavior and urban form.
- 102:268 (URP:6268) Freight Transportation Planning** 3-4 s.h.
Freight transportation planning in the United States; surface modes, primarily trucking and rail, as well as trade-offs in bulk movements by inland waterways and pipelines; comparison with recent developments in policy, planning, and practice for surface transportation in other developed economies (e.g., Europe).
- 102:269 (URP:6269) Transportation Program Seminar** 1 s.h.
Transportation finance, safety and economic regulation, planning processes, management, government policy issues at federal, state, and local levels.
- 102:271 (URP:6271) Housing Policy** 3 s.h.
Recent housing policy initiatives at federal, state, and local levels.
- 102:273 (URP:6273) Community Development** 3 s.h.
Community Development Corporation involvement in housing and neighborhood revitalization; infill housing development and preservation; comprehensive community development initiatives.
- 102:277 (URP:6277) Affordable Housing Finance** 3 s.h.
Financing development or rehabilitation of affordable housing; low-income housing tax credits, the housing finance system and current regulatory issues, mortgage discrimination, improving financing for rental housing.

102:278 (URP:6278) Nonprofit Organizational Effectiveness I 3 s.h.

Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as 021:263 (SLIS:6430), 06j:247 (MGMT:9150), 091:320 (LAW:8751), 174:247 (HMP:6360), 042:247 (SSW:6247), 024:247 (MUSM:6010), 028:257 (SPST:6010), 032:227 (RELS:6070).

102:279 (URP:6279) Nonprofit Organizational Effectiveness II 3 s.h.

Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Requirements: for 091:322 (LAW:8752) — 091:320 (LAW:8751); for 174:248 (HMP:6365) — 06j:247 (MGMT:9150) or 024:247 (MUSM:6010) or 174:247 (HMP:6360). Same as 06j:248 (MGMT:9160), 091:322 (LAW:8752), 021:265 (SLIS:6435), 042:248 (SSW:6248), 174:248 (HMP:6365), 024:248 (MUSM:6020), 028:258 (SPST:6020), 032:228 (RELS:6075).

102:280 (URP:6280) Planning for Disaster Mitigation and Recovery 2-3 s.h.

Types of disasters that communities face; what role planners play, what role should they play; importance of hazard mitigation and planning for post-disaster recovery; where planners' unique skills play the most significant roles in aiding a community to redesign a safer future.

102:282 (URP:6282) Grant Writing 1-2 s.h.

Same as 042:282 (SSW:6282).

102:284 (URP:6284) Green Building and LEED 1-2 s.h.

Preparation to earn LEED Green Associate professional credential; introduction to green building concepts and strategies as they relate to the United States Green Building Council's (USGBC) Leadership in Energy and Environmental Design (LEED) rating system.

102:290 (URP:6290) Economic Impact Assessment 3 s.h.

Economic impact and growth analysis, including economic base, income expenditure, input-output analysis; use of economic impact analysis in a cost-benefit context; industrial location and mobility theory with statistics applications. Prerequisites: 102:205 (URP:6205).

102:295 (URP:6295) Economic Development Policy 3 s.h.

Analysis of policies and programs at national, regional, state, and local levels that address problems of economic growth, development, decline.

102:297 (URP:6297) Community Development Finance 3 s.h.

Financial statements and small business finance; local revolving loan funds for small businesses; evaluation of loan proposals; community development agency financing of commercial redevelopment; case studies of community development lending. Prerequisites: 102:205 (URP:6205).

102:300 (URP:6300) Special Topics in Planning 1-3 s.h.**102:305 (URP:6305) Readings** arr.**102:315 (URP:6315) Independent Study in Planning** 1-6 s.h.

Research and analysis of a special planning problem; opportunity for student to apply knowledge in area of specialization.

102:325 (URP:6325) Thesis: Urban and Regional Planning arr.**102:335 (URP:6335) Internship** 2 s.h.

Work in a planning or related agency or nonprofit organization.

College of Law

Dean

Gail B. Agrawal

Associate deans

Eric G. Andersen, Arthur E. Bonfield, Carin N. Crain, Marcella David, Linda A. McGuire, Todd W. Pettys

Executive librarian

Mary Ann Nelson

Professors

Gail B. Agrawal, Eric G. Andersen, Patrick B. Bauer, Randall P. Bezanson (David H. Vernon Professor), Christina Bohannon, Arthur E. Bonfield (Allan D. Vestal Chair in Law), Willard L. Boyd (Rawlings-Miller Professor), Steven J. Burton (John F. Murray Professor), Jonathan C. Carlson, Enrique R. Carrasco, Marcella David, Ann Estin (Aliber Family Chair in Law), Thomas Gallanis (N. William Hines Chair), Josephine Gittler (Wiley B. Rutledge Professor), N. William Hines Jr. (Dannie and Joseph F. Rosenfield Professor), Herbert J. Hovenkamp (Ben and Dorothy Willie Chair in Jurisprudence), Emily Hughes, Carolyn C. Jones (F. Wendell Miller Professor of Law), Sheldon F. Kurtz (Percy Bordwell Professor), Marc Linder, Angela Onwuachi-Willig (Charles M. and Marion J. Kierscht Scholar), Mark J. Osiel (Aliber Family Chair in Law), Todd Pettys (H. Blair and Joan V. White Chair in Civil Litigation), John C. Reitz (Edward L. Carmody Professor), Alexander Somek (Charles E. Floete Chair in Law), John-Mark Stensvaag (Charlotte and Fred Hubbell Professor), James J. Tomkovicz (Edward F. Howrey Professor), Lea S. VanderVelde (Josephine R. Witte Chair in Law), Gerald B. Wetlaufer, Adrien Wing (Bessie Dutton Murray Professor)

Professors emeriti

William G. Buss (Otis K. Patton Distinguished Professor), Patricia Cain (Aliber Family Professor), Jean Love (Martha Ellen Tye Distinguished Professor), Paul Neuhauser, Larry Ward (Orville and Ermina Dykstra Chair in Federal Tax Law), Burns Weston (Bessie Dutton Murray Distinguished Professor of Law)

Clinical professors

Patricia Acton, John S. Allen, Lois K. Cox, Leonard Sandler, Barbara A. Schwartz, John Whiston (Herschel G. Langdon Clinical Professor of Trial Advocacy)

Associate professors

Amandeep S. Grewal, Barry D. Matsumoto, Jason Rantanen, Maya Steinitz, Joseph W. Yockey

Lecturers

Dawn Anderson, James Baker, Michael Bandstra, Sean Berry, Gail Brashers-Krug, Carin Crain, Alexander Domrin, Michelle Falkoff, Mark D. Hansing, Randy J. Holland, Gary W. Howell, Patrick Ingram, John A. Jarvey, Nicholas Johnson, Eileen Kamerick, Richard Koontz, Christopher Liebig, Barry Lindahl, Linda A. McGuire, Nathan Miller, Kevin Mumford, Matthew J. Nagle, Linda Neuman, Gay D. Pelzer, Mike Pitton, William Reisinger, Meredith Rich-Chappell, Ann M. Rhodes, Howard Rhodes, Chris Rossi, Mark E. Schantz, Lori Schweer, Timothy Semelroth, Caroline Sheerin, Leon F. Spies, Serena Stier, George L. Stigler, Pamela White, C.J. Williams

Professional degrees: J.D.; LL.M.

Web site: <http://www.law.uiowa.edu>

The University of Iowa College of Law, founded in 1865, is the oldest law school in continuous operation west of

the Mississippi River. More than 650 students and a full-time faculty of around 50 are engaged at the college in a cooperative study of law, legal institutions, professional ethics, the role of law in public policy matters, and the intersection of law and other disciplines.

The college's student/faculty ratio of 11-to-1 is one of the best in American legal education.

Through traditional Socratic classes, research seminars, closely supervised writing exercises, ambitious professional skills training programs, and clinical experiences, the college seeks to produce public-spirited leaders who will be rigorous thinkers, trusted advisors, forceful advocates, creative policy makers, and innovative scholars.

The Boyd Law Building, a 200,000-square-foot facility, provides a home for the college and its programs. Its spacious library, three courtrooms, clinic suite, building-wide audiovisual system, and extensive computer technologies are recognized as outstanding features in an educational facility specially designed for modern legal training.

The Iowa Law Library, one of the nation's premier law libraries, has the largest collection of legal volumes and volume equivalents among all public law schools. Its staff numbers 32 full-time-equivalent library professionals and other personnel, and it provides comfortable seating for more than 700 patrons, with 441 private study carrels, each equipped with its own data port. The library boasts a fully computerized information retrieval system. The online electronic card catalog provides instant information about all cataloged materials. The library also is on the University's wireless network.

The College of Law celebrates diversity. In 1967 it undertook one of the nation's first and most aggressive affirmative action programs aimed at attracting a more racially and ethnically diverse student body. The college's success in this continuing effort has resulted in a minority student population that makes up approximately 18 percent of its current student body (the State of Iowa's minority population is around 5 percent).

The faculty also is diverse. Among the college's full-time professors, five are from minority backgrounds, including African American, Asian American, and Hispanic American, and 17 are women. There are specialists in many area of the law, and four professors hold Ph.D. degrees in law-related disciplines in addition to their J.D. degrees.

The college offers a challenging curriculum that is carefully balanced between substantive courses, perspective offerings, examination of ethical values and professionalism, and skills-training programs, including a highly active in-house legal clinic. Iowa's writing program—one of the strongest among law schools nationwide—is an integral part of all students' academic experience. During both semesters of their first year, students take one small-section class taught by a full-time professor and one small-section course in legal analysis, writing, and research.

A requirement of four additional writing units at the upper level must be fulfilled with at least two units of faculty-supervised written work. The remaining two units may be completed through a range of options, including writing for one of the school's four law journals, participating in the clinical program, exercises in appellate advocacy, or specific seminars or independent writing projects.

The Writing Resource Center supports and builds upon classroom writing instruction and assists students with a broad range of writing tasks (see "Resources"/"Writing Resource Center" later in this section). The center and the writing program as a whole exemplify the personalized attention and dedication to individual learning for which the college is renowned in legal circles.

The college is proud of its four student-run scholarly journals. The Iowa Law Review has served as a scholarly legal journal since 1915, analyzing developments in the law and recommending new paths for the law to follow. It frequently is ranked among the top 20 legal periodicals in the country, based on the frequency with which it is cited.

The Journal of Corporation Law is the nation's oldest student-run legal periodical specializing in corporate law. It provides the legal and academic communities with high-quality articles on corporate issues and business law.

Transnational Law & Contemporary Problems addresses legal issues confronting the global community. Since it began publication in 1991, it has earned an excellent reputation based on its symposiums on issues such as world food policy and global environmental regulation.

The Journal of Gender, Race & Justice hosts a symposium at the college each year, attracting nationally renowned legal scholars and practitioners who discuss topics such as criminal justice, education, and critical race feminism. The journal publishes the papers presented at the symposium.

In keeping with its educational mission of encouraging the acquisition of broad social awareness and technical professional competence, the University of Iowa College of Law offers a strong program of study in the rapidly expanding fields of international and comparative law. It does so for three reasons: in an era of global interdependence, an effective lawyer must understand international law and foreign legal systems; as professionals and community leaders, lawyers familiar with international and comparative law are crucial to the formulation of public policy at all levels of society; and the study of international and comparative law provides an essential theoretical foundation for all lawyers by affording unique insight into the nature of law and legal process.

All College of Law students benefit from international exposure through association with students in the college's Master of Laws program in international and comparative law. LL.M. students take most of their classes with J.D. students. In addition, each year foreign-trained law professors and jurists pursue research in the Law Library; they also may audit or speak in classes.

The journal Transnational Law & Contemporary Problems offers students a law review experience dedicated to international issues, and the college fields a team every year in the Philip C. Jessup International Moot Court Competition. Students also have opportunities to get involved with two faculty-run centers, the University of Iowa Center for Human Rights and the University of Iowa Center for International Finance and Development, as well as student groups such as the International Law Society, the Society for International Human Rights Law at Iowa, and the Iowa Campaign for Human Rights.

Over the years, the college has enjoyed great success in preparing women and men to be professional and civic leaders. In the 20th century, Iowa graduates served as U.S. senators and representatives; state governors; federal and state judges; and presidents of the American Bar

Association, major universities, and some of the country's largest corporations. Iowa also has been a leader in preparing American law teachers. The college is resolved to continue its traditional role of training future lawyers for positions of professional and community leadership in the 21st century.

Professional Programs (J.D., LL.M.)

- Juris Doctor
- Master of Laws in international and comparative law

The College of Law collaborates with a variety of University of Iowa graduate programs to offer joint J.D./graduate degree programs. See "Joint J.D./Graduate Degrees" later in this section.

FULL-TIME POLICY

The faculty believes that students receive a better legal education when they devote substantially all of their time to educational pursuits. For this reason, students are expected to pursue their law training full time. This policy is consistent with the accreditation standards of the American Bar Association and the Association of American Law Schools.

In extraordinary circumstances, it may be possible for students to enroll for fewer than 10 s.h. per semester. Students who believe they may be unable to attend full time should contact the dean's office before registering for classes.

ENTRANCE DATE

Approximately 180 J.D. students enroll in late August, at the beginning of the fall semester. All students attend courses full time during fall and spring semesters and may attend the summer term at any point during their academic careers. Entrants can expect to graduate no earlier than 27 months after beginning law study.

ADMISSION TO THE IOWA BAR

A rule adopted by the Iowa Supreme Court requires all law students who intend to apply for admission to the Iowa Bar to register that intention with the court; the deadline for timely registration is November 1 of the year the student begins law school. Details are available from the College of Law registrar or the clerk of the Iowa Supreme Court.

Juris Doctor

The Juris Doctor requires 84 s.h. of credit. All entering students are required to take all courses designated as first-year courses and may not register for different courses or fewer semester hours without the associate dean's permission. No student may be enrolled during any fall or spring semester for more than 15 s.h. applicable to the J.D. or for more than 12 s.h. during any two adjacent summer sessions.

In order to be eligible to be granted the J.D., a student must:

- receive credit for 84 s.h. earned in required and elective courses;
- take and complete all required courses;

satisfy the writing requirements;

complete the course of study required for the degree in no fewer than 27 months and no more than 84 months after commencing law study at the College of Law or at a law school from which transfer credit has been accepted;

achieve a cumulative g.p.a. of at least 2.10 (a C average); and

satisfy the requirement of receiving "substantial instruction in other professional skills generally regarded as necessary for effective and responsible participation in the legal profession," as set forth in ABA accreditation Standard 302(a)(4) and ABA Standard Interpretations 302-2 & 302-3.

Receiving credit in a course is dependent upon successful completion of a final examination, or all assigned work, or both. In order to take the final examination, students must satisfy all requirements established by the instructor, including class attendance, written work, special readings, oral reports, and so forth.

First-Year Curriculum

One of the distinctive benefits of law study at Iowa is the College of Law's focus on providing students with a foundation in basic skills that will support more advanced study and professional work. The first-year curriculum emphasizes careful reading, essential writing skills, legal research, and argumentation. Students concentrate on developing analytical skills (for example, reading and understanding judicial opinions), gain a sense of the role of legal institutions in society, and focus on developing good writing and research skills.

All first-year students take 091:130 (LAW:8032) Legal Analysis Writing and Research I and 091:131 (LAW:8033) Legal Analysis Writing and Research II (LAWR), a two-semester, 4 s.h. course designed to equip them with effective skills in oral and written communication, legal research, and analysis. LAWR is staffed by full-time faculty members with expertise in teaching legal research and writing. Class size is small, with around 20 students in each section of the course.

LAWR helps students develop legal analysis skills gradually. It teaches the value of critical reading, how to analyze facts and frame legal issues, how to determine which facts are legally significant, and how to extract legal rules from judicial opinions. As the year progresses, students learn how to generate arguments and counter arguments, and how to interpret facts in order to predict the likely outcome of a client's case. They also learn varied methods of legal analysis, including precedential analysis and analysis by analogy.

The first-year program emphasizes writing in small increments, with short assignments, frequent feedback, and revisions of written assignments. Because students will eventually practice in a range of legal settings, the program exposes them to varied forms of written documents, such as memoranda, trial briefs, client letters, motions, and appellate briefs, and provides instruction in appropriate formats for the varied documents (e.g., questions presented, argument headings).

LAWR uses peer review, requiring students to assess, discuss, and critique their peers' writing assignments. This cooperative process helps students gain insight into their own legal writing abilities and learn to appreciate different

approaches to the same task. It also prepares them for the experience of collaborating as practicing lawyers.

Students begin to learn about research early in the first year, completing increasingly complex research tasks as the year progresses. LAWR reinforces research techniques covered in the classroom by integrating them into written assignments. It also teaches students the fundamentals of legal research by requiring hands-on library workshops.

First-year courses are as follows. Entering first-year students are expected to take all first-year courses and may not register for different courses or fewer hours without the associate dean's permission.

Fall Semester

091:102 (LAW:8026) Introduction to Law and Legal Reasoning	1 s.h.
091:120 (LAW:8017) Contracts	4 s.h.
091:130 (LAW:8032) Legal Analysis Writing and Research I	2 s.h.
091:132 (LAW:8037) Property	4 s.h.
091:364 (LAW:8046) Torts	4 s.h.

Spring Semester

091:104 (LAW:8006) Civil Procedure	4 s.h.
091:116 (LAW:8010) Constitutional Law I	3 s.h.
091:124 (LAW:8022) Criminal Law	3 s.h.
091:131 (LAW:8033) Legal Analysis Writing and Research II	2 s.h.
One elective	3 s.h.

A mandatory curve is applied to the grade distribution in all courses.

Upperclass Curriculum

In the second and third years, students take courses in a broad array of substantive areas of the law, with focus on fact gathering, interviewing, counseling, drafting, transaction planning, negotiation, and litigation. They also concentrate course work or writing and research opportunities in particular areas of interest.

Very few common requirements exist in the second and third years. All students must take 091:232 (LAW:8280) Constitutional Law II, a course in professional ethics, and a skills course.

Writing Requirement

All students must earn four upper-level writing units in order to graduate. At least two of the four units must be earned under direct faculty supervision, in courses, seminars, research projects, or legal clinical work. The remaining two may be earned through a combination of courses and activities that carry writing credit, including 091:402 (LAW:9046) Moot Court Board, advanced appellate advocacy activities, and journals, including the Iowa Law Review, the Journal of Corporation Law, the Journal of Gender, Race & Justice, and Transnational Law & Contemporary Problems.

Concentrated Study Opportunities

Students may pursue their interest in a particular subject area by selecting appropriate course work and independent research projects. For example, students interested in intellectual property and competition law may choose from the following courses.

091:208 (LAW:8146) Antitrust Law	3 s.h.
091:241 (LAW:8331) Business Associations	3-4 s.h.
091:283 (LAW:8301) Copyrights	3-4 s.h.
091:286 (LAW:8643) Introduction to Intellectual Property Law	3-4 s.h.
091:289 (LAW:8647) Competition Policy and Innovation	3 s.h.
091:306 (LAW:8703) Cyber and Electronic Law	2-3 s.h.
091:324 (LAW:8763) Patent Law	2-4 s.h.
091:355 (LAW:8856) Securities Regulation	arr.
091:369 (LAW:8954) Trademarks and Unfair Competition Law	2-4 s.h.
091:604 (LAW:9863) Patent Prosecution Seminar	3-4 s.h.
091:608 (LAW:9523) Advanced Topics in Intellectual Property	arr.
091:618 (LAW:9573) Cultural Property/Heritage	arr.
091:624 (LAW:9579) Cyberspace Law Seminar	arr.

Seminars

Students should direct questions about a seminar's requirements to the College of Law registrar or the instructor before the seminar begins, because they may not be permitted to drop the class after it meets the first time.

Seminars usually offer up to 4 s.h., including up to two writing units. Seminar formats vary widely; consult the College of Law Guide to Courses and semester registration materials for details. Students are graded on the basis of a research paper, and at the instructor's discretion, for class participation and other seminar requirements.

A common seminar format consists of a class portion for 2 s.h., and a writing portion for 2 s.h. Reduction of credit for seminars requires the instructor's consent. In some seminars, the instructor may permit the student to enroll for the class portion but not the writing portion. The students' performance in the class portion is evaluated on the same basis as for other courses--by examinations, papers, class participation, or other methods at the faculty member's discretion. Students must obtain the instructor's consent before registering.

Papers produced for seminars may be eligible for entry in competitions sponsored by varied groups. Cash prizes frequently are available. Competition announcements are posted on the bulletin boards outside the college's Writing Resource Center.

Clinical Programs, Internships, Clerkships, Externships

Students who have completed the equivalent of three semesters toward the J.D. (at least 39 s.h.) are eligible to apply their theoretical knowledge to real cases and projects under the supervision of faculty members and other attorneys through participation in the College of Law's Clinical Law Programs.

Around 30 students participate in the in-house program each fall and spring semester and each summer session. They may represent individual and organizational clients in a variety of areas, including immigration and workers' rights, domestic violence, criminal defense, consumer rights, disability, civil rights, employment law, and general civil practice. Students also may provide estate planning, document drafting, and other transactional services or work on policy, legislation, and other systemic matters.

Other students may enroll in externships in Iowa City and the surrounding area, where they act as staff attorneys,

assisting in all phases of the legal process. Typical placements include the City Attorney's Office, the Human Rights Commission, and Student Legal Services in Iowa City; the federal public defender and Kids First in Cedar Rapids, Iowa; Iowa Legal Aid; and HELP Legal Services and the U.S. Attorney's Office in Davenport, Iowa. Also available is a clinical semester, in which students spend an entire semester in the Iowa Attorney General's Office, the U.S. Attorney's Office, the Youth Law Center, or the federal court, all in Des Moines.

Some students are placed in judicial externships, which provide opportunities to work closely with a federal district court judge or state appellate judge. Students register for 091:399 (LAW:9322) Judicial Externship and earn 9 s.h. per semester; in some cases, they may arrange to earn 15 s.h. with an independent writing component. Under the supervision of the judge and the judge's staff, the student researches and drafts a wide variety of legal memoranda, orders, and opinions. The extern also assists in hearings and performs other duties associated with a judicial clerkship. Each judicial extern meets weekly with a faculty supervisor to discuss the externship work in chambers and takes part in biweekly classroom discussions with other externs.

Judicial externs must have strong research and writing skills and must be able to produce acceptable work under tight deadlines. Externs conduct much of their work independently. Only students who are able to meet these requirements should apply for judicial externships.

Students may earn a maximum of 15 s.h. in the Clinical Law Programs and a maximum of 20 s.h. for clinic and non-law courses offered in other University of Iowa colleges.

The College of Law also is involved in programs that do not offer academic credit. Each summer it participates in the County Attorney Internship Program, through which students work as paid employees for county attorneys throughout the state. The college also helps place students in a variety of unpaid clerkships and internships nationwide that provide insight into the workings of the legal system.

Academic Advising

The **senior associate dean** works with the dean on academic programs and issues of the law school.

The **associate dean for student affairs** provides academic advice and counseling to students; advocates for student concerns; offers information and makes referrals for students with professional, personal, or family problems; facilitates operation of the student discipline system; and arranges reasonable accommodations for disabled students. The associate dean for student affairs also advises law students pursuing combined degrees in University of Iowa graduate programs and serves as the liaison with those programs.

Each year one or two tenured faculty members are selected by the Iowa Student Bar Association to serve as College of Law **ombudspersons**. Students who have a problem or grievance should seek an ombudsperson's help. All complaints are handled in strict confidence.

The College of Law **registrar** is in charge of student record keeping and should be students' first recourse for information about course enrollment, scheduling,

combined program status, student certification for state bar applications, and progress toward graduation.

The **Student Affairs Committee** reviews and makes proposals for policies affecting students. It considers the college's efforts to recruit and provide services for students, including nontraditional students and those from disadvantaged backgrounds. It provides policy guidance and general oversight for the college's career services and its Academic Achievement Program, and it coordinates and reviews the college's methods for providing academic and curricular counseling to students. The committee also advises the dean on curricular counseling for students.

Academic Achievement Program

The College of Law Academic Achievement Program (AAP) helps students achieve their potential as they go from successful undergraduate careers to the unique challenges of law study. Although AAP focuses on helping first-year students, its programs are open to all.

AAP presents a variety of programs, including a fall-semester lecture series for new students. Examples of content areas include time management for law study, developing effective study groups, outlining and organizing class notes and course materials, taking essay exams, and answering multiple choice tests. Several weeks before exams, a voluntary practice exam is administered.

Spring semester programming responds to special challenges of the second semester, including reviewing and learning from fall exams, refining study habits, preparing for exams, and other matters.

In addition to offering group programs, AAP provides individual help with study skills. When personal issues affect a student's concentration or studying, the program provides direct help and refers students to University and community support resources.

Joint J.D./Graduate Degrees

The College of Law and the Graduate College offer several joint degree programs in which students work toward the J.D. degree and a graduate degree simultaneously. The College of Law allows students to count up to 12 s.h. of credit earned in the graduate degree program toward both the graduate degree and the J.D. degree, providing that students earn the graduate credit after they enroll in the College of Law. The individual graduate programs determine how much credit earned for the J.D. degree may be applied to the graduate degree.

Separate application to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program. Applicants to graduate programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or Graduate (p. 808) College section of the Catalog. Consult Iowa Graduate Admissions for information on how to apply to each program.

The following academic units and programs collaborate with the College of Law to offer joint J.D./graduate degree programs: the Tippie College of Business (p. 562) and its Departments of Accounting (p. 567), Economics (p. 582), and Management and Organizations (p. 602) and Master of Business Administration Program (p. 615); the Schools of Journalism and Mass Communication (p. 376) and Social

Work (p. 504) and the Departments of American Studies (p. 43), Anthropology (p. 52), Chemistry (p. 127), English (p. 222), History (p. 335), Philosophy (p. 447), Political Science (p. 464), Religious Studies (p. 488), Sociology (p. 516), and Spanish and Portuguese (p. 524) (College of Liberal Arts and Sciences); the Departments of Educational Policy and Leadership Studies (p. 660) and Rehabilitation and Counselor Education (p. 686) (College of Education); the Schools of Library and Information Science (p. 848) and Urban and Regional Planning (p. 874) (Graduate College); the Carver College of Medicine (p. 912); and the Department of Health Management and Policy (p. 1075) and the Master of Public Health Program (p. 1081) (College of Public Health).

Many departments have advisors for their joint programs. For more information, consult the associate dean of the College of Law and the individual academic units.

Students in joint degree programs pay tuition for only one of the two programs—the one with the higher tuition.

Master of Laws

The Master of Laws (LL.M.) program in international and comparative law is an important component of the College of Law's international approach to legal education. The program is designed for graduates of J.D. programs in the United States who wish to deepen their understanding of international and comparative law, including the law pertaining to international business transactions, and for foreign-trained jurists who wish to receive advanced training in these areas or a comparative orientation to and specific training in U.S. law and legal institutions.

The LL.M. program admits 10-15 students per year, allowing each student to receive substantial attention from the faculty. Admission is competitive.

The LL.M. requires a minimum of 24 s.h. earned in College of Law courses that include a strong focus on international and comparative law. With their advisor's approval, LL.M. students may count up to 6 s.h. of law study abroad, or non-law graduate-level courses or externships, toward the degree.

LL.M. students take courses [except 091:506 (LAW:9444) LL.M. Tutorial and 091:657 (LAW:9826) LL.M. Seminar] together with J.D. students, from the law school's rich offerings on U.S., international, and comparative law. This method of instruction ensures that the foreign-trained students have an effective comparative experience through broad contact with U.S. law students and professors, and the U.S. students benefit similarly from close contact with the foreign-trained lawyers.

LL.M. applicants who are graduates of U.S. law schools must have been granted a J.D. from a school that is a member of the Association of American Law Schools or is approved by the American Bar Association. Graduates of foreign law schools must have completed the basic course of university studies that qualifies them to sit for the bar examination (e.g., the French *maîtrise*, the German first state bar examination). If the home country bar exam does not require a specific degree, applicants should be experienced members of the bar or have completed the equivalent of the first university degree in law. Applicants without a degree from a four-year English-language university must score at least 580 (paper-based) or 92 (Internet-based) on the Test of English as a Foreign

Language (TOEFL). Applicants who score lower than 600 (paper-based) or 100 (Internet-based) may be required to take English language course work upon entering the University.

All applicants must present evidence of high academic potential, such as high class rank in their previous law studies; strong recommendations, especially from law professors who supervised their work in classes or seminars; and challenging professional work experience. The College of Law relies heavily on academic references to assess applicants' credentials. Because U.S. applicants and all others with first-language fluency in English are required to produce a substantial publishable paper in the program, these applicants must show evidence of ability to carry out complex research and writing projects.

Cocurricular Programs

Students may earn a maximum of 6 s.h. of the 84 s.h. required for the J.D. through participation in the college's rich cocurricular programs and/or non-law classes.

Moot Court

The Moot Court appellate advocacy programs familiarize students with writing appellate briefs, acquaints them with citation form, develops research skills, and strengthens persuasive ability in oral argument at the appellate court level.

Each academic year, the Moot Court office administers 091:210 (LAW:9010) Appellate Advocacy I in the fall semester, and two Moot Court competitions in the spring semester. Students who rank in the top scoring positions of Appellate Advocacy I are eligible for the advanced competitions in the spring semester. Advanced competitions include 091:404 (LAW:9021) Van Oosterhout Baskerville Moot Court Competition and 091:430 (LAW:9038) Jessup International Moot Court Competition.

The appellate advocacy program is administered by the Moot Court Board, which consists of student judges and an executive board.

Trial Advocacy

The Trial Advocacy Program is a student-run, faculty-supervised program in which students develop and refine skills used to prepare and try civil and criminal cases. The heart of the program is 091:370 (LAW:9060) Trial Advocacy, a 2 s.h. course taught by law school faculty, federal and state judges, and experienced trial attorneys. Students are on their feet during most class sessions, practicing the arts of jury selection, opening statement, direct and cross examination, introduction of exhibits, use of expert testimony, and closing argument. The course culminates with a full-scale trial—from the filing of pretrial motions to the rendering of a jury verdict—conducted by student cocounsel before a visiting judge and a jury of laypersons.

The Stephenson Competition is named after Judge Roy L. Stephenson, a U.S. District Court and Eighth Circuit Court of Appeals judge and a 1940 graduate of the College of Law. Students who demonstrate superior ability in advocacy skills during the trial advocacy courses participate in a series of mock trials judged by local members of the bench and bar. Individuals selected from the competition represent The University of Iowa in the national trial competition.

Journals

IOWA LAW REVIEW

Since its inception in 1915, the *Iowa Law Review* has served as a scholarly legal journal, noting and analyzing developments in the law and suggesting future paths for the law to follow. Students have managed the review since 1935, editing and publishing articles by professors and students. The *Iowa Law Review* is published five times annually and is staffed by second-year student writers and third-year editors. The review also publishes the *Iowa Law Review Bulletin*, an online companion that features responses to the pieces published in the review. To learn more, visit the *Iowa Law Review* web site.

JOURNAL OF CORPORATION LAW

The *Journal of Corporation Law* is the nation's oldest and most cited student-published legal periodical specializing in corporate law. The journal's scope includes antitrust, intellectual property, labor law, securities, taxation, employment discrimination, insurance, products liability, and regulated industries, as well as traditional corporate topics. Selected articles submitted from practitioners and academics are published in each of four annual issues. Several student articles also are selected for publication.

All students who have completed two semesters of class work are eligible to write for the journal. Students who have achieved third-year status at the College of Law are eligible for selection to the journal's editorial board and may receive additional academic credit. They also may be eligible for a monetary stipend. See the *Journal of Corporation Law* web site.

JOURNAL OF GENDER, RACE & JUSTICE

The *Journal of Gender, Race & Justice* pushes the boundaries of legal scholarship and theory in its focus on social justice issues. The journal hosts a biennial symposium at the College of Law that brings together nationally renowned legal scholars and practitioners to discuss the relationships among the law and race, gender, sex, sexual identity, economic class, ability, and other identity characteristics. The journal publishes an annual volume of legal works that includes symposium papers, papers from conferences outside the college, and articles written by Iowa law students. It also maintains a blog to promote discussion of issues related to its mission.

All students who have completed two semesters of law school, including transfer students, are eligible to write for the journal. Students who have completed the journal's student writer program or who have third-year standing at the College of Law are eligible to apply for a position on the journal's editorial board, which may provide a monetary stipend and academic credit. To learn more, visit the *Journal of Gender, Race & Justice* web site.

TRANSNATIONAL LAW & CONTEMPORARY PROBLEMS

Transnational Law & Contemporary Problems (TLCP) is produced three times a year by Iowa law students. *TLCP* content includes matters that are of interest to the international and comparative law community and that are not commonly found in other journals and reviews. The journal features symposia with articles by distinguished legal scholars and practitioners; living history interviews with people of international accomplishment; and articles reviewing foreign legislative developments, treaties, conventions, and other international agreements. The journal also publishes articles written by Iowa law students

and sponsors an internationally advertised student writing competition each year. The journal annually organizes and sponsors a symposium on a contemporary international issue. Past conference symposium topics include climate change, the international subprime mortgage crisis, and war crimes.

Law students who have completed at least two semesters of law school may earn up to 2 s.h. of credit by writing for *TLCP*. Highly qualified students who complete the writing and secondary hour requirements may be chosen to fill an editorial position, for which they earn additional credit. They also may be eligible for a monetary stipend. For more information, visit the Transnational Law & Contemporary Problems web site.

Study Abroad

A consortium of six American law schools, coordinated through The University of Iowa College of Law, offers an annual study abroad program in which students attend a spring semester at Florida State University's London study center. There they study American and English law with faculty from the American schools and the University of London. Students participating in the program register for 660:824 (LWAB:8240) London Law Consortium.

The College of Law also offers up to 8 s.h. of credit for intensive course work at Arcachon, France, in conjunction with the University of Bordeaux. Courses are offered for four weeks in May and June and are taught in English by professors from Iowa and Bordeaux. Application deadline is February 1. Students participating in the program register for 660:823 (LWAB:8230) Program in Comparative Law in Bordeaux, France.

Two Iowa law students may attend the Bucerius Law School in Hamburg, Germany, each fall semester in an exchange program with that school. Students earn 12-15 s.h. of credit through course work taught in English.

Two students may attend the Universidade Católica Portuguesa School of Law (Lisbon Campus) each fall semester in an exchange program. Students earn 12-15 s.h. of credit through courses taught in English.

Three students each year may participate in an exchange program at the Radboud University in Nijmegen, The Netherlands, during fall and spring semesters. They earn 12-15 s.h. of credit in courses taught in English.

Academic Recognition

Order of the Coif

The Order of the Coif, a national legal honor society, has a chapter at The University of Iowa. The order is dedicated to scholarship and advancement of high ethical standards in the legal profession. Membership is drawn from the top 10 percent of the graduating class. Initiates are selected by the faculty after graduation.

Prizes and Awards

Hancher-Finkbine Medallions are awarded each year by the University to outstanding graduates; honorees are chosen from nominations made by University departments and colleges based on learning, leadership, and loyalty.

The **Philip G. Hubbard Human Rights Award** is presented each year by the University to recognize outstanding contributions to human rights and equal

opportunity, as described in the University's Human Rights Policy.

The **Sandy Boyd Prize** is presented to the student who has demonstrated outstanding ability and creativity in the development of written legal scholarship.

The **Alan I. Widiss Faculty Scholar Award** is presented to the student who has made an especially outstanding and distinctive contribution to the development of written legal scholarship.

The **Randy J. Holland Award for Corporate Scholarships** is presented to the student who has written an outstanding scholarly paper in the area of corporate law.

The **Robert S. Hunt Legal History Award** is presented to a student who has written an outstanding scholarly paper in the field of legal history.

The **Donald P. Lay Faculty Recognition Award** is presented to the student who has made distinctive contributions to the College of Law's cocurricular, community, or education programs.

The **Iowa State Bar Association Prize** is presented to the student who possesses the attitude, ability, and other qualities that indicate success as a future leader of the bar association.

The **Antonia "D.J." Miller Award for Advancement of Human Rights** recognizes outstanding contributions by a student to the advancement of human rights in the law school community.

The **Dean's Achievement Award** is presented each year to a student, who, through his or her achievements, has exemplified, promoted, or contributed to cultural, racial, or ethnic diversity in the law school.

The **National Association of Women Lawyers Award** is presented to a law student who contributes to the advancement of women in society and women in the legal profession and who also has attained high academic achievement.

The **Erich D. Mathias Award for International Social Justice** is presented to a student who has made an outstanding contribution or demonstrated commitment to attaining international social justice.

The **John F. Murray Award** recognizes the student with the highest academic standing in the graduating class.

The **ALI-ABA Scholarship and Leadership Award** is presented to a student who represents an outstanding combination of scholarship and leadership, the qualities embodied by the American Law Institute and the American Bar Association.

The **Russell Goldman Award** recognizes the student who has demonstrated the most improved academic performance after the first year.

The **Iowa College of Law Appellate Advocacy Award** is presented to a student for outstanding achievement in and service to the appellate advocacy program.

The **Iowa Academy of Trial Lawyers Award** is presented to a student for outstanding achievement in the Roy L. Stephenson Trial Advocacy Competition.

The **International Academy of Trial Lawyers Award** is presented to a student who has demonstrated distinction in trial advocacy skills.

The **Michelle R. Bennett Client Representation Award** recognizes outstanding service in the college's clinical law programs.

The **ABA/BNP Award for Excellence in the Study of Intellectual Property** is presented to a student who has demonstrated excellence in the study of intellectual property law.

The **American Bankruptcy Institute Medal for Excellence in Bankruptcy Studies** is presented to a student who has demonstrated excellence in the field of bankruptcy.

The **Joan Hueffner and Stephen Steinbrink Real Estate Law and Property Award** is presented to a student who has demonstrated excellence and promise in the field of real estate law.

Student Organizations

Link to the student organizations' web sites on the college's Journals & Student Groups web page.

The **Alternative Dispute Resolution Society** promotes awareness of varied alternative dispute resolution processes, including arbitration, mediation, and other forms of negotiation; explores legal and other careers in alternative dispute resolution; and equips students with the knowledge and practical skills necessary for effective participation in alternative dispute resolution.

The **American Association for Justice** promotes justice and fairness for injured persons, safeguards victims' rights, and strengthens the civil justice system through education and disclosure of information critical to public health and safety. The University of Iowa chapter provides prospective plaintiff attorneys with opportunities to network with established attorneys, attend conventions and continuing legal education (CLE) meetings, participate in a trial advocacy competition, and more.

The **American Constitution Society** (ACS) is a new nonpartisan organization whose goal is to foster discussion of important issues of law and policy.

The **Asian American Law Students Association** (AALSA) seeks to instill greater awareness among law students of the needs of the Asian American community, and to encourage a greater commitment toward meeting those needs.

The Iowa chapter of the **Black Law Students Association** (BLSA) focuses on the relationship of black attorneys to the American legal structure and works to foster an attitude of professional competence. BLSA strives to promote the needs and goals of black law students, instill a greater awareness among law students of the needs of the black community, and encourage a greater commitment toward meeting those needs. The chapter seeks involvement in the local community and in recruitment programs. Membership is open to all students who support the association's goals.

The **Christian Legal Society** maintains a Christian law fellowship at the College of Law whose mission is to enable its members to love their Lord and to love their neighbors as themselves.

The **Environmental Law Society** provides an educational forum for environmental law topics. During spring semester, the organization sponsors a lecture series featuring professors and experts in environmental law. The group also provides limited legal research and counseling services for attorneys, organizations, and citizens who have questions concerning environmental law. Membership is open to all College of Law students.

The **Equal Justice Foundation** (EJF) supports public interest law concerns, with emphasis on promoting equal access and adequate representation in the courts and other forums for citizens and citizens' groups. The University of Iowa chapter's professional activities are aligned with those of the national organization. They include work in varied legal activities statewide; College of Law activities, including coordination with other student organizations to provide the college with a better public interest support base; promotion of public interest career opportunities; and provision of information about public interest activities and concerns. Membership is open to all College of Law students.

The **Federalist Society** fosters critical thought and debate about the application of conservative and libertarian principles to the law. Its mission is to promote, advocate, and defend its founding principles and further their application through its activities, which are aimed at reordering the legal system's priorities to place a premium on individual liberty and the rule of law, and restoring recognition of those principles among law students, faculty members, lawyers, and judges.

The **Intellectual Property Law Society** (IPLS) promotes exploration of traditional areas of intellectual property law (patent, trademark, copyright) and related areas such as antitrust and entertainment law. The society provides a forum for faculty and student discussion of contemporary issues relating to intellectual property law and its practice; fosters interaction between law students and intellectual property law practitioners through a mentor program that pairs members with intellectual property law practitioners; and offers symposia. All members of the University community are welcome to attend a Society meeting or symposium.

The **International Law Society** aims to increase student and faculty awareness of international law and related issues. The society's brown bag lunch lecture series and annual spring conference expose students and faculty to a wide variety of contemporary legal issues surrounding the study and practice of international law. Members also work to support the activities of the University of Iowa Center for Human Rights; promote the Iowa-Arcachon, France, summer program in comparative and international law; participate in the annual Philip C. Jessup International Moot Court Competition; and bring together faculty members and students who share an interest in international affairs.

The **Iowa Campaign for Human Rights** (ICHR) promotes human rights awareness and education at the College of Law, among University of Iowa students, and across the Iowa City community.

The **Iowa Student Bar Association** (ISBA) acts as the College of Law's student government. Governed by an executive council, the association provides a collective voice for the student body and a source of organization and funding for a variety of college activities and programs. Law students may get involved with the association by serving as class representatives or on

faculty-student committees, which deal with admissions, curriculum, financial aid, placement, and so forth. The association presents speakers, sponsors events with other organizations, publishes a newsletter, and sponsors social events. Its legal guardian program assigns entering law students to upperclass students, who provide encouragement and information.

The **J. Reuben Clark Law Society** emphasizes three basic values and attitudes toward the practice of law and the place of law in modern society: public service, loyalty to the rule of the law and the Constitution of the United States, and appreciation for the religious dimension in American society and in lawyers' personal lives.

The **Jewish Law School Association** (JLSA) strives to provide social, educational, religious, political, cultural, and professional resources and opportunities for all Jewish law students at Iowa. The society educates and involves its members in the social, moral, and ethical obligations of the profession; plans and implements programming to facilitate a sense of community among Jewish law students; and raises awareness of Jewish cultural and educational issues at the college.

The **Latino/a Law Student Association** (LLSA) promotes viable changes within existing legal institutions in order to develop constructive legal and community programs, produce competent and effective Latino and Latina attorneys, and utilize available resources—activities necessary to safeguard and advance the rights and opportunities of oppressed peoples. To achieve these goals, LLSA recruits for the law school. LLSA's philosophy is that national unity is fundamental for the collective awareness needed to bring about progressive policies in legal education. The association welcomes all students.

Law Students for Reproductive Justice (LSRJ) is committed to increasing education and professional training in reproductive rights law. The society supports Iowa law student activism, advocacy, and networking in order to ensure that new lawyers can successfully defend and expand family planning rights and reproductive freedoms.

The **Legal Cinema Studies Society** provides regular screenings of fiction, nonfiction, and international films addressing legal issues and the legal profession. Each screening is followed by a discussion section that addresses relevant legal issues and examines pop culture expressions of the world of law and lawyers. The society's membership is intended for College of Law students, but the group welcomes all who wish to attend screenings and discussion sections.

The **Middle Eastern Legal Student Association** (MELSA) aims to increase student and faculty awareness of issues pertaining to the Middle East and how they affect the legal profession.

The **National Security and Law Society** aims to provide opportunities and resources to promote discourse on national security issues in the Iowa Law School community and to increase understanding of the intersection of national security issues and the law.

The **Native American Law Students Association** (NALSA) promotes awareness of legal, political, cultural, and social issues that affect Native Americans, Alaskan Natives, Native Hawaiians, and other indigenous peoples. NALSA also seeks to promote the study of federal Indian law and provides a forum for the exploration of issues

in tribal sovereignty, natural resources, family law, trust obligations, and cultural identity.

The **Organization for Women Law Students and Staff** (OWLSS) aims to address the changing needs and problems of women in the legal profession and to develop, recommend, and implement new programs, especially those that meet the needs of women at the College of Law. It also sponsors programs of interest to the general law school community. OWLSS has sponsored fall recruitment of prospective women law students, a safety-in-numbers program, brown bag lunches with guest speakers, sponsorship of members to the annual National Women and the Law Conference, a support network, a regular newsletter, and joint programs with women student groups in medicine and dentistry. Membership is open to all College of Law students, faculty members, and staff members.

The Outlaws provides a common forum for gay, lesbian, bisexual, and transgendered persons interested in the law, and promotes a climate of mutual support, protection, and professional advancement. Membership is open to all College of Law students and faculty members.

Founded in 1902, **Phi Alpha Delta** (PADS) is the nation's oldest and largest law fraternity. It was the first law fraternity to remove membership restrictions based on race, color, creed, national origin, and grade-point average. Iowa's Hammond Chapter was established in 1908 and became the first PADS chapter to accept students of all races and religions. It participates in fund-raisers and other service projects to benefit local and national service organizations. Membership is open to all College of Law students.

Phi Delta Phi (PHIDS) promotes the highest standards of ethics and professionalism in law schools and the legal profession. Since its establishment in 1869, the fraternity has initiated more than 200,000 members. It has more judges, American presidents, governors, senators, representatives, and cabinet members among its membership than does any other legal fraternity.

The **Pro Bono Society** exists to reinforce the value of public service and volunteerism in the legal profession. Membership in the *Pro Bono Society* is earned through objectively measured activities during the academic year. Iowa law students who complete and report 15 hours of voluntary public service in each of two consecutive semesters are considered for membership. Time donated to a charitable or public service cause, which may be law-related or not, is considered voluntary public service; the requirement is interpreted broadly, so that students may volunteer in an area of interest to them. Members receive a certificate of membership and are invited to attend the annual recognition dinner. The society is a project of the Iowa Student Bar Association.

The **Society for International Human Rights Law at Iowa** (SIHRLI) brings together College of Law students who share an interest in the study of international human rights issues. Members support other law students' efforts to incorporate this interest into their future legal careers.

The **Sports Law Society** connects College of Law students interested in sports law with professionals in the sports industry. Membership is open to all College of Law students.

Admission

Undergraduate Education and Law School

Applicants for admission to The University of Iowa College of Law must complete all requirements for the baccalaureate degree before beginning law school. In addition, the baccalaureate degree must be earned from an undergraduate institution that is accredited by an accrediting agency recognized by the Department of Education. This is in line with standards that are set by the College of Law's primary accrediting agency, the American Bar Association.

Fulfillment of the basic requirements does not guarantee admission. The College of Law Admissions Committee selects applicants it deems best able to help the college fulfill its primary mission of providing a high quality legal education in a diverse and stimulating environment and preparing students to serve as leaders in their professional and civic communities. Some additional consideration is given to applicants who are residents of Iowa.

The services that College of Law graduates are called upon to perform are so varied, and the possible fields of endeavor so broad and diverse, that the college prescribes no uniform undergraduate program for those planning to enter law school. With the assistance of faculty advisors, each student should develop an undergraduate program that explores and develops that student's particular intellectual interests. Reading, writing, research, public speaking, critical thinking, and a healthy respect for the historical perspective are important academic skills for students considering law school.

Iowa strongly endorses the three basic objectives recommended by a committee of the Association of American Law Schools: education for comprehension and expression in words; education for a critical understanding of the human institutions and values with which the law deals; and education for greater power in thinking. Anyone thinking of attending law school should keep these objectives in mind while planning an undergraduate course of study.

The association's recommendations emphasize that undergraduate education of students for a full life through liberal education is far more important than education directed too pointedly toward later professional training and practice. Students are urged not to sacrifice broad perspective for detailed specialization.

Selection of Applicants

The college uses multiple criteria in evaluating applicants for admission. Part of the entering class is admitted under a "presumptive admit" process, in which the faculty admissions committee admits students primarily, but not solely, on the strength of their numbers, namely the cumulative undergraduate grade-point average and LSAT score (see "Law School Admission Test" below). Before admission offers are made, each applicant's complete file is reviewed to ensure that the overall record suggests the applicant's suitability for admission, in keeping with the primary mission of the law school.

Although undergraduate academic record and performance on the LSAT are both important admission criteria, the college recognizes that in some circumstances they do not accurately reflect an applicant's potential to succeed in the study of law, develop skills as a leader,

enrich the learning environment of his or her fellow students, and serve the public interest as a lawyer.

To evaluate applicants' total suitability for admission, the college has developed a "numbers-plus" admissions policy, under which part of each entering class is admitted. Under the "numbers-plus" policy, undergraduate record and LSAT scores are supplemented by nonquantifiable factors that may provide insight to an applicant's overall potential for success in the study and practice of law.

For example, an applicant who can substantiate that his or her standardized test scores are not predictive of academic performance in law school may receive proportionately greater consideration from the committee for his or her grade-point average. Other factors the committee may consider include special academic or professional abilities not reflected in the grade-point average, disability or serious health factors that affected prior academic performance, extracurricular activities, exceptional school-year work commitments due to family financial circumstances, postbaccalaureate academic success (including graduate study), law-related employment experience, public service commitment, leadership in groups historically underrepresented in the legal profession, educational or socioeconomic disadvantage, native language other than English, unusual motivation or perseverance in overcoming obstacles to law study, and any other information the committee considers relevant to the applicant's potential for law study.

Candidates who wish to bring such factors to the committee's attention may do so by including addenda and other documentation with their applications.

Entrance Date

Admission is for August. Applications are accepted beginning September 1 of the year before admission, with an application deadline of March 1 in the year of admission. Because the college has a rolling admissions process, applicants are encouraged to submit their applications as early as possible.

Each application must include an application fee, which is nonrefundable. Students from disadvantaged backgrounds who cannot afford the fee should apply for a waiver. Students who seek a waiver must submit a written request and a recent FAFSA or income tax statement along with their application.

For additional information, visit the College of Law Office of Admissions web site, which provides the office's e-mail address and other contact information, and see the Iowa Graduate Admissions web site.

Application Process

CAS REPORT AND TRANSCRIPTS

The University of Iowa College of Law participates in the Credential Assembly Service (CAS). Applicants must register for this service through the Law School Admission Council (LSAC); foreign-educated applicants are exempt from this requirement. Prospective law applicants can find the information they need to complete their application for admission to the law school in the council's free annual publication, *Law School Admission Information Book*, and on LSAC's web site. It takes approximately one week from the time the College of Law requests the CAS report until it arrives.

Applicants whose fall course work does not appear on the Credential Assembly Service report should send an official transcript of that course work to CAS.

Applicants are responsible for submitting an official transcript from each college or university they have attended to Law School Admission Council, Box 2000, Newtown, PA 18940-0998.

Each applicant's undergraduate institution must forward the applicant's class rank or the grade distribution for the applicant's class to the College of Law, if such information is available. Information about class rank is helpful in the application process, but not required. Currently enrolled or former University of Iowa students need not provide this information.

Before classes begin, every applicant who accepts admission to the College of Law must file official transcripts showing conferral of degree with the University's Office of Admissions.

LETTERS OF RECOMMENDATION

The college requires applicants to submit at least two, but not more than three, letters of recommendation. Recommendations from professors or others who can comment on the candidate's critical thinking, writing skills, and potential for success in law school are particularly welcome.

The college participates in the Letter of Recommendation Service offered by the Law School Admission Council. A letter of recommendation form can be downloaded on the council's web site. Individuals writing letters of recommendation should send their letters, with the required forms, to Law School Admission Council, P.O. Box 8508, Newtown, PA 18940-8508.

LAW SCHOOL ADMISSION TEST

Applicants for admission must take the Law School Admission Test (LSAT). The test is given several times each year and may be taken at numerous locations in the United States and abroad. Test application forms may be obtained from the Law School Admission Council.

Applicants are urged to take the test no later than the fall preceding the fall semester for which they are applying. Applicants' LSAT scores may not be available until approximately four weeks after their test date.

The February test date is the last one that the admissions committee can consider for applicants requesting admission the following fall. Scores more than five years old are not accepted.

Applicants whose first language is not English must take the Test of English as a Foreign Language (TOEFL) or the International English Testing System (IELTS) exam.

DEFERRALS

Admission is for the year of application; deferrals are granted only in extraordinary circumstances.

DEPOSIT UPON ACCEPTANCE

All applicants must make a nonrefundable deposit of \$250 (U.S.). Fall entrants accepted before March 15 must submit the deposit by April 1; those accepted after March 15 have two weeks to submit the deposit.

Fall entrants must pay a second nonrefundable deposit of \$150 (U.S.) by June 1.

For those who enroll, the deposit is credited toward tuition and fees. All accepted applicants, including recipients of scholarships, fellowships, and loans, are required to pay the deposit. Applicants who fail to make the deposit by the specified time forfeit their place in the entering class.

Financial Support

The College of Law administers its substantial scholarships and fellowships to advance the goals of its selective admission policy and to provide access to legal education for the talented and diverse students admitted to the college.

Inquiries regarding financial aid should be directed either to the University's Office of Student Financial Aid or to the College of Law Office of Financial Aid.

All financial aid information is subject to change without notice.

Application for Financial Aid

Eligibility for federal loans is based on need established by completion of the Free Application for Federal Student Aid (FAFSA) and the required supporting documents. The FAFSA should be completed online at www.fafsa.ed.gov after January 1 each year and should be completed as soon as possible thereafter, since some financial aid is subject to the availability of funds.

Although financial aid awards are not made until after applicants are admitted to the College of Law, applicants should not wait for the notice of admission before filing the FAFSA. Admitted students who provide the required documents are informed of their eligibility for financial aid on the award notification letter. Students must reapply for aid every year.

Applicants are urged to investigate other sources of aid. Public libraries, private and civic organizations, and the Internet are excellent sources for information about financial aid resources.

Scholarships, Fellowships

MERIT-BASED SUPPORT

All students admitted to the College of Law are considered for merit-based scholarships and fellowships based on their academic achievement. A separate application is not required. Recipients are notified by letter. Awards may range from \$500 to full tuition with a research assistantship component in upper-level years.

NEED-BASED SCHOLARSHIPS

All admitted students who file a Free Application for Federal Student Aid (FAFSA) and required supporting documents are considered automatically for need-based scholarships. Recipients are notified by award letter. Awards may range from \$500 to full tuition.

IOWA LAW SCHOOL FOUNDATION SCHOLARSHIPS

The University of Iowa Law School Foundation Scholarships include scholarships based on need, merit, or a combination of need and merit. These scholarships are available to a limited number of students who meet the criteria established by the scholarship donors. All admitted students are considered for the merit-based scholarships, and all admitted students who file the FAFSA and required supporting documents are considered automatically for the need-based scholarships. A separate application is not

required. Recipients are notified by award letter. Awards may range from \$500 to full tuition.

LAW OPPORTUNITY FELLOWSHIP

The College of Law is committed to affording opportunity for a legal career to persons historically underrepresented in the legal profession. The Law Opportunity Fellowship Program was established by the University to provide access to law school for students from groups and backgrounds historically underrepresented within the legal community. Among criteria considered in awarding the fellowships are educationally and/or socioeconomically disadvantaged backgrounds, leadership potential, academic merit, and importance of the fellowship award to the student's financial ability to attend law school.

The Law Opportunity Fellowship may provide up to full tuition for three years and the opportunity to hold a research assistant position for the second and third years. All admitted students who file the FAFSA and required supporting documents are considered for the Law Opportunity Fellowship. A separate application is not required. Recipients are notified by award letter.

Employment

The College of Law does not employ students during their first year of law school, due to the intensive course schedule. In no event may a full-time student work more than 20 hours per week.

RESEARCH ASSISTANT POSITIONS

Research assistant positions are available with many faculty members for second- and third-year students. Students classified as nonresidents who hold one-quarter-time research assistantships (10 hours per week) automatically qualify for resident tuition status during the semester(s) in which they serve as research assistants; see Research Assistantships on the college's web site.

UI PART-TIME EMPLOYMENT

The University offers a variety of part-time employment positions for students. Students do not need to apply for financial aid in order to work in these positions. Information about part-time employment is available from the University's Office of Student Financial Aid.

FEDERAL WORK-STUDY PROGRAM

The Federal Work-Study Program provides a need-based employment opportunity for a limited number of students in their second and/or third year at the law college. College Work-Study may reduce the student's William D. Ford Federal Direct Loan eligibility. Students must demonstrate financial eligibility for work-study through the FAFSA and its required documents.

Loans

All admitted students who file the FAFSA and required supporting documents are considered for the Federal Perkins Loan and the William D. Ford Federal Direct Loans.

FEDERAL PERKINS LOAN

The Federal Perkins Loan is a low-interest loan based on exceptional financial need. Interest does not accrue and payments are not required until the student is no longer enrolled at least half-time in school.

FEDERAL DIRECT FORD/STAFFORD LOANS, FEDERAL GRADUATE/PROFESSIONAL PLUS LOANS

The Federal Direct Ford/Stafford Loans (unsubsidized) and the Federal Graduate/Professional PLUS Loans are funded by the federal government. The two loan programs have different interest rates and interest subsidies based on annual maximum loan amounts. Interest on the Unsubsidized Direct Stafford Loan and the Graduate/Professional PLUS Loan accrues while a student is in school, but principal and interest payments may be deferred while a student is in school. Eligibility for the Graduate/Professional PLUS Loan also includes a determination that the applicant does not have an adverse credit history.

Academic Rules and Procedures

Transfer Credit

No more than 30 s.h. may be transferred to Iowa from another law school. To qualify for transfer credit, courses must have been completed at a law school accredited by the American Bar Association. Grades received at another law school are not counted in calculating the cumulative grade-point average.

Courses Taken Before Admission to the College of Law

Students may not count toward the J.D. any credit they earned in courses they took before matriculating at the College of Law, with the exception of transfer students from other law schools.

Courses Taken Outside the College of Law

Students who take courses outside the College of Law must first obtain permission from the associate dean. If "special permission of the instructor required" is indicated on ISIS (Iowa Student Information Services web site), the student also must obtain the instructor's signature.

Students not enrolled in a joint degree program may apply toward the J.D. a maximum of 6 s.h. earned in courses outside the College of Law and/or through cocurricular work. Such courses are approved only if they contribute directly to the professional competence of an attorney or broaden the student's understanding of law, the legal process, or any particular legal subject. More information about limitations on accreditation of non-College of Law courses is available from the associate dean.

Courses Taken at Another Law School After Enrollment at Iowa

With the permission of the dean, enrolled students may receive credit for courses taken and passed at other law schools accredited by the American Bar Association, up to a maximum of 30 s.h. Courses are shown on the student's transcript as credit for the designated semester hours. Grades received at another law school are not counted in the student's weighted cumulative grade-point average.

Externships and Summer Legal Placements

Students may earn academic credit for externships with nonprofit or governmental organizations throughout the United States, and in some circumstances, abroad. Externship credit counts toward the maximum of 15 s.h.

that may be earned for clinical work. Students may earn credit for only one nonclinical externship during their law school tenure, no matter what amount of credit that externship carries.

Most externships are done during summer, with students registering for 091:395 (LAW:9335) Summer Legal Placement in order to earn 3 s.h. of credit. Students must spend at least 150 hours on site. They are assigned to a section supervised by a faculty member, who conducts a virtual seminar for the section's students during the externship. The faculty supervisor also conducts regular conferences with individual students (usually by telephone) and reviews their written reports on the work in progress.

Some summer externships offer 6 s.h. of credit. Students in these externships must arrange their own faculty supervision and are required to write a 40-page research paper that satisfies the faculty-supervised writing requirement for the J.D. degree. A faculty site visit may be required.

Externships also may be scheduled for a fall or spring semester. In unusual circumstances, externships for up to 15 s.h. of credit may be approved.

Students considering externships are responsible for initiating contact with appropriate sponsoring organizations and for securing an externship position. The College of Law Career Services Office offers assistance with arranging externships. Information also is available at Legal Externships on the college's web site.

Applications for summer externships are due by April 1, except in extraordinary circumstances. Students interested in externships should contact the College of Law Career Services Office.

Grading Policy

The College of Law has adopted a numbering system for grading, effective for students who entered the college in May 2004 and later.

A numerical grade is assigned to each student in each course, except as otherwise provided (e.g., for courses graded pass/fail, for courses that continue the following term, for grades of incomplete). Grades are recorded in the University's permanent record.

The highest grade awarded at the College of Law is 4.3, the lowest 1.5. No academic credit is given for grades below 1.8 or for grades of "fail."

Numerical grades may be translated into a letter grade as follows.

- 4.3–4.2 = A+
- 4.1–3.9 = A
- 3.8–3.6 = A-
- 3.5–3.3 = B+
- 3.2–3.0 = B
- 2.9–2.7 = B-
- 2.6–2.4 = C
- 2.3–2.1 = C-
- 2.0–1.8 = D
- 1.7–1.5 = F

Professors may disenroll students for cause or reduce grades for inappropriate academic conduct, for example, plagiarism. Such measures are subject to appropriate due process.

The faculty has adopted a mandatory grade curve for all courses.

A student who fails a required course must repeat the course, with a different professor if possible. Both enrollments and both final grades earned in the course appear on the student's transcript and are included in the calculation of the student's grade-point average. A student who earns a grade lower than 2.1 in the retaken course is referred to the Retention Committee.

A student who fails a nonrequired course may repeat the course with the permission of the associate dean for academic affairs. The grade on the retaken course is recorded as pass (P) or fail (F) and is not used in computing the student's cumulative grade-point average. To receive a P in a retaken course, the student must earn a grade of 2.1 or higher.

Pass/Fail Grades

Credit for certain courses is offered only on a pass/fail (P/F) basis. In the case of a failing academic performance in a pass/fail course, the faculty supervisor or instructor may assign a failing numerical grade, i.e., between 1.7 and 1.5. Individual faculty members may allow students to withdraw from a course rather than receive a failing grade.

Miscellaneous Grading Marks

Marks other than pass, fail, and numerical grades are as follows.

Registered (R) indicates that a student has completed the first half of a year-long program, such as a seminar or journal, for which a grade cannot be assigned until the second half of the program has been completed.

Withdrawn (W) carries no course credit and is not used in computing the cumulative grade-point average.

Incomplete (I) carries no course credit toward a degree until it is changed, nor is it used in computing the cumulative grade-point average. A mark of I may be reported only in exceptional cases and only if the unfinished part of the work is small and is unfinished for reasons acceptable to the instructor, and if the student's standing in the course is satisfactory. Students remove an incomplete by completing the unfinished work during their next period of residence.

Class Ranking

Students in the top 10 percent in each class may be informed of their exact rank; grade-point averages at the 12.5 percentile and 37.5 percentile are posted.

Students are ranked following the fall semester and spring semester each year. Final class standing is determined each August and is available in September. It includes students who completed all graduation requirements in August, May, and the previous December. For purposes of ranking underclass students, the same system is used, based on the expected graduation date.

Release of Transcripts

A student's grades are not given to persons outside the College of Law, including prospective employers, without written permission of the student.

Class Attendance and Preparation

Students must attend classes regularly and punctually. They must be prepared to participate in class discussions. A student may be dropped from a course or failed, at the discretion of the instructor, for excessive absence or for repeated lack of adequate preparation. In addition, students are expected to attend special class meetings and be punctual in submitting course assignments, in accordance with ABA Standard 304(d).

Examination Policy

One examination is given in each course, with few exceptions. Before taking an exam, each student is assigned an identification number for that exam, to ensure anonymity in grading. Students must write their examination number on scratch paper and any other materials that are distributed at the start of the examination and collected at its conclusion. The instructor submits a grade for each identification number. The grade is kept on file for two years at the College of Law.

To preserve anonymous grading, students must not identify themselves and must not place their name on the examination answer or other materials that the instructor might see. They also may not discuss the examination with their instructors until the exam has been graded and the grades released. Students who have questions should pose them to a proctor during the examination or to the College of Law dean of students or registrar after the exam.

Students may be offered the option of taking some exams on their personal laptops. Each course's instructor determines whether this option is available for his or her specific course.

Students who have more than one examination scheduled for the same day, two consecutive exams (i.e. Wednesday afternoon, Thursday morning), or exams four days in a row may schedule a make-up time for one of the exams. Students who have exams three days in a row may reschedule one only with permission of the instructor.

Students are expected to take the exam on the next scheduled makeup date immediately following the regularly scheduled exam. Whenever possible, the dean sets aside one to three days as an upperclass study period between the end of regular classes and the first regularly scheduled upperclass exam. See the College of Law Student Handbook for all policies related to examinations.

Exam Accommodations for English Language, Physical, or Medical Reasons

A student who is at a substantial disadvantage in taking an exam within the specified time limit because he or she does not have English as a primary language or because he or she has a physical or recognized medical disability may be granted additional time to complete the exam commensurate with the extent of the disadvantage. A student seeking such additional time must make a request to the dean of students by the deadline announced each semester, unless the disability comes into existence after that deadline has passed, stating the nature of the

disability and the examination(s) for which the student seeks additional time.

An undergraduate degree from an English-language college or University is considered evidence that the student is not qualified to be granted extra exam time due to not having English as a primary language. When additional time is granted, it generally is reduced each semester as the student becomes more proficient in English.

Program Accommodations for Students with Disabilities

The College of Law is committed to making all of its programs, activities, and services accessible to students with disabilities. In compliance with the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, it strives to provide equal access to all academically qualified students and does not discriminate against students on the basis of disability. The college provides reasonable accommodations to students with disabilities, commensurate with the nature and extent of the disability and consistent with federal law, state law, and policies of The University of Iowa and the College of Law. Students may request accommodations for any University of Iowa sponsored curricular, cocurricular, or extracurricular program, including those in the College of Law.

The College of Law's cocurricular and extracurricular programs include, but are not limited to, Appellate Advocacy I, Trial Advocacy Board, the *Iowa Law Review* and its editorial board, Moot Court Board, Advanced Moot Court Competition, Van Oosterhout-Baskerville Moot Court Competition, National Moot Court Competition, *The Journal of Corporation Law* and its editorial board, *Transnational Law & Contemporary Problems* and its editorial board, *The Journal of Gender Race & Justice* and its editorial board, Jessup International Moot Court Competition, and Jessup International Law Moot Court team.

Withdrawal and Leave of Absence

First-year students who withdraw during the academic year or who fail to reenroll for the second semester must apply for reentry to the College of Law. They must compete with other applicants for a place in the first-year class for the year in which they wish to return. For each readmission application, the reason for the withdrawal and the quality of work done before withdrawal or failure to reenroll is considered. For admission purposes, individuals who have earned fewer than 27 s.h. of credit at the time of withdrawal or failure to reenroll are considered first-year students.

Second- and third-year students who fail to enroll for any semester during the academic year and who have not been granted a leave of absence by the dean of students must obtain permission from the Admissions Committee if they wish to reenroll. Requests for permission to reenroll must be submitted no later than 90 days before the opening of classes for the semester or summer session in which the student seeks to reenroll.

The dean of students may grant a second- or third-year student a leave of absence for up to one year, if the student shows good cause. First-year students may be granted leaves of absence only under extraordinary circumstances, such as a medical or family emergency, or as a reasonable accommodation for a disability.

Students who withdraw from the College of Law after they have paid tuition are entitled to a pro rata refund of that tuition depending on the effective date of their withdrawal. Consult with the college's Office of Financial Aid for details.

Student Conduct

Students are expected to act in a manner appropriate at a professional school. An act or omission that is dishonest or designed to take unfair advantage may subject a student to sanctions as serious as expulsion from school. Misconduct policies and procedures are published annually in the College of Law Student Handbook.

Research Centers and Programs

Participation in research centers and outreach programs is an important part of the College of Law's service to professional and civic communities. The college was home to the nation's first agricultural law center. Since that center's closing, several new centers and institutes have been founded in diverse fields such as child and maternal health care, disability law and policy, human rights law, not-for-profit entities, public affairs, and public international finance. These programs enjoy increasing national and international recognition for their specialized research projects and service activities. Several have enjoyed success in attracting competitive grants from state, federal, and private sources.

Innovation, Business, and Law Center

The Innovation, Business, and Law Center is an interdisciplinary teaching and research venture that brings together faculty members who teach and study problems of business, technology, innovation, regulation, and legal policy from diverse perspectives. The center's purpose is twofold: to offer an innovative curriculum and outstanding legal training in areas pertaining to government regulation of entrepreneurship, innovation, and management of resources; and to encourage creative individual and collaborative interdisciplinary research in these areas.

Program in Law and History

The Program in Law and History, founded in 2009, builds on The University of Iowa's tradition of scholarship and teaching in the field of legal history. Faculty members from law, history, and other disciplines are affiliated with the program. As part of its work to foster continued research and teaching at the intersection of law and history, the program presents a series of legal history workshops and the Donald Sutherland lecture in legal history; promotes awareness of the College of Law's extensive library resources in legal history; and promotes the teaching of legal history.

University of Iowa Center for Human Rights

The University of Iowa Center for Human Rights was founded in 1999 as an outgrowth of the University's year-long commemoration celebrating the 50th anniversary of the Universal Declaration of Human Rights. The center's mission is to promote and protect human rights at home and abroad by providing distinguished multidisciplinary leadership in human rights research, education, and public service. Its focus includes all categories of human rights, from first-generation civil and political rights, to second-

generation economic, social, and cultural rights, to third-generation group or community rights.

University of Iowa Center for International Finance and Development

The University of Iowa Center for International Finance and Development is a project to help laypersons understand the often impenetrable world of international finance and development. The center's web site features a 300-page e-book, written by a University of Iowa law professor and a group of his students, that explains the complex world of international finance and development in plain language. It also offers related news, issues discussions, briefing papers, frequently asked questions, and links to other useful sites.

Institute of Public Affairs

The Institute of Public Affairs provides services and information to help maintain and strengthen the effectiveness of Iowa's local governments. Efforts include facilitation of goal setting and strategic planning, public policy and organizational assistance, professional development and training, timely and topical conferences and workshops, publications, outreach, and linkage with other University programs and activities. The Institute provides training for newly elected mayors and council members through a municipal leadership academy and publishes the *Iowa Municipal Policy Leader's Handbook* for city officials. It also holds the annual Iowa Municipal Management Institute, a professional development conference for city and county managers and administrators in Iowa.

Larned A. Waterman Iowa Nonprofit Resource Center

The Larned A. Waterman Iowa Nonprofit Resource Center was created in 2000 to help nonprofit organizations throughout Iowa. The interdisciplinary center works to increase accessibility to educational and service programs focused on strengthening nonprofit organizations. It collaborates with government agencies, nonprofit organizations, and educational institutions. It also introduces students to the nonprofit sector and develops their sense of public and community service.

Law, Health Policy & Disability Center

The Law, Health Policy & Disability Center is an emerging leader in law, technology, education, and research. Its aim is to improve quality of life for persons living with disabilities. Based at the University of Iowa College of Law, the center concentrates on public policy and its impact on persons with disabilities, with emphasis on employment, self-determination, and self-sufficiency.

National Health Law and Policy Resource Center

The National Health Law and Policy Resource Center promotes laws and public policies that foster and facilitate accessible, affordable, high-quality health care for all Americans, particularly members of vulnerable and disadvantaged populations. It provides a nonpartisan forum for informed dialogue on health law and policy issues, based on the best available data and information, between academics, practitioners, and public policy makers. It conducts the Program on Aging and the Program on Maternal and Child Health and maintains the Conflict

Management Institute. Its activities include an information clearinghouse, research and demonstration projects, education and training, and technical assistance and consultations.

Facilities and Resources

Boyd Law Building

The Willard L. Boyd Law Building exemplifies Iowa's continuing commitment to legal education and the legal profession. The large, circular structure reflects the special character of the Iowa law school and allows the college to operate in a physical environment in which every square foot of space is designed to promote the college's academic and professional programs.

Classrooms in the Boyd Law Building provide an atmosphere conducive to the college's goals. They are air conditioned, carpeted, and properly lit. The building's largest classroom seats only 93 people. Small seminar rooms and special-purpose learning areas are distributed throughout the building, permitting students and faculty members to work together in close professional interaction. The newly renovated clinic suite functions as a teaching law firm, offering ease of access, usability, and visibility. The student lounge, faculty lounge, and faculty offices are located on the same floor, encouraging interaction between students and faculty members.

Iowa Law Library

The centerpiece of the Boyd Law Building is the University of Iowa Law Library, which occupies space on four floors and is one of the major repositories of legal materials in the United States. Iowa's collection, containing 1,298,646 volumes and volume equivalents, is ranked second in the number of volumes and volume equivalents and second in the number of titles among all U.S. law school libraries. The collection covers a full range of Anglo-American, foreign, international, and comparative law; contains in-depth collections on law of the United States and of every state and territory; and has extensive holdings of early English legal source materials. Since 1968 the library has been a selective Federal Documents Depository.

The Law Library has an open-stack policy that makes its collection accessible to all patrons, who are served by a full staff of professional librarians. The Westlaw and LexisNexis computerized information retrieval systems are available for training and research activities, and a full range of legal and nonlegal databases are available through the online catalog.

The library's entire collection is cataloged on the University's InfoHawk database, including the collection of U.S. government documents. InfoHawk also features an automated circulation system for checking materials out of the library. The library uses OCLC (Online Computer Library Center) for online cataloging and interlibrary loan.

Iowa Legal Studies Workshop

The Iowa Legal Studies Workshop gives authors at the College of Law an opportunity to receive constructive, critical analyses of their written work. The workshop draws inspiration for its format from the Iowa Writers' Workshop. It welcomes law faculty at all ranks and from all areas of expertise as well as faculty from other colleges across the University.

Writing Resource Center

The Writing Resource Center is dedicated to strengthening law students' command of writing skills central to the study and practice of law. The first writing center in the country established specifically for a law school community, the Writing Resource Center serves as an extension of the classroom and supplements the college's first-year legal writing, analysis, and research program.

Members of the Writing Resource Center staff help law students with a broad range of writing, including class assignments, seminar papers, law journal articles, and symposium presentations. They also assist students with résumés, application letters, and writing samples.

In addition to helping students with general writing skills in one-on-one tutorial sessions, the center's staff members train editors in editing skills, set up individualized programs of study, offer grammar and style workshops, provide guidance on avoiding plagiarism, and suggest strategies for overcoming writer's block and adapting material for varied audiences.

The Writing Resource Center is staffed by writers, including graduate students enrolled in the Iowa Writers' Workshop, second- and third-year law students, lawyers, and a director who holds a Ph.D. in the area of writing instruction.

Career Services Office

The College of Law Career Services Office provides career planning and job search assistance to law students. Each year the office sponsors a comprehensive series of programs on career options and job search skills. It also maintains a library of resources and provides individual advising by professional staff. Job search assistance also is available to alumni.

The special rigor that characterizes Iowa's distinctive brand of legal education attracts a wide variety and growing number of recruiters to campus each year. During a typical academic year, approximately 100 employers send representatives to Iowa City to conduct job interviews, and many more employers use the college's Career Services Office to search for prospective employees through written inquiries and off-campus interviews.

Iowa graduates traditionally have had excellent success in finding employment; usually, more than 90 percent are employed within a few months of graduation. The career services staff is happy to talk with prospective students regarding the college's programs and the success of its graduates.

Bookstore

The College of Law has its own bookstore, which carries all assigned texts and materials for law classes. It also stocks a variety of professionally prepared outlines, hornbooks, and other study aids, as well as a limited selection of school supplies and merchandise, including pens, notebook paper, binders, computer disks, exam software, stamps, t-shirts, and sweatshirts. The bookstore also can make change.

Photocopied handouts and teaching materials assigned by course instructors are available through the bookstore.

Students may charge costs for books, class materials, supplies, and merchandise directly to their University accounts. The bookstore does not accept credit cards.

Information Technology

Since electronic information technologies are vital in legal and business work, the College of Law encourages all law students to become proficient with computers. Access to word processing software also helps law students draft the many papers, articles, and other manuscripts that are a regular part of the law curriculum. The college has installed 41 personal computers attached to a local area network for use by its students. Students also are encouraged to purchase personal computers and Microsoft Windows software, if possible, and to use them in connection with their law school work.

The law college provides network and Internet access from all student library carrels. To participate, law students supply their own laptop computers, which must meet required specifications. Specifications are available from the Law Library computer support office. Wireless Internet access is available throughout the Boyd Law Building.

The college's computers are loaded with WordPerfect and Microsoft Office software, and the college provides training for and access to the two major online computer research databases, West Publishing Company's WESTLAW and Mead Data's LEXIS. Once students complete the training, they have unlimited free access to these services at home via their own PCs and on the student and public workstations in the Law Library.

The Law Library also provides CD-ROM workstations that allow access to databases in CD-ROM formats. Some of the titles available are United Nations documents, complete from 1945; Index to Legal Periodicals; TIARA, a database containing treaties; and numerous U.S. government documents published on CD-ROM.

The University provides free e-mail accounts to its students, faculty, and staff through its Information Technology Services office (ITS). Students can sign up for e-mail accounts online or at the ITS offices in University Capitol Centre. ITS advises University of Iowa students, faculty, and staff on computer hardware and software needs and can provide information about educational discounts on some purchases. ITS also offers a wide variety of free computer short courses throughout the year. For information on computing resources at the University, consult the Information Technology Services web site.

Copy Services

Networked copy machines are available on each floor of the Law Library. Students may set up a copying account at the circulation desk. They also may use networked printers in the library and charge them to their University account.

A University-operated copy service on the first floor of the Boyd Law Building provides high-volume, high-quality copying. Prices are comparable to those at commercial concerns, and students may charge copying to their University accounts.

Legal Aid for Students

Students in need of legal assistance may consider turning to the University's Student Legal Services. The

Legal Services Corporation of Iowa also provides civil representation to indigent clients.

College of Law Events

Parents and Partners Day

Each fall, the parents, spouses, and friends of all students are invited to the campus for activities sponsored by the Iowa Student Bar Association and the Iowa Law School Foundation. Past activities have included a simulated class, a brunch, an auction, and a tour of the college. The weekend is a good opportunity for families and friends to see what the life of a law student is really like.

Supreme Court Day

The College of Law hosts the Iowa Supreme Court on The University of Iowa campus each fall. Third-year students present oral arguments in a moot case to the court, and faculty members host receptions at their homes for the justices, attorneys, and students, providing an opportunity for informal visits with members of the court.

Iowa Law School Foundation

During the three years that students spend at the College of Law, many of the classes, programs, and projects in which they participate are partially or totally supported by private gifts from law alumni and friends.

The Iowa Law School Foundation was created by the 1952 graduating class to promote close relations between the college and its alumni and to solicit gifts for scholarships, faculty support, and other projects that benefit the college.

Foundation funding benefits faculty positions, student scholarships, loans, research assistantships, guest speakers, and student orientation activities; the clinical law, Moot Court, Trial Advocacy, and Client Counseling programs; and the student-edited law journals.

In order to support these programs and activities, the Iowa Law School Foundation actively solicits contributions from the college's approximately 10,000 alumni.

Courses

The following list includes all approved College of Law courses. The college does not offer each course every year. For information on current course offerings, consult the College of Law registrar. The College of Law Guide to Courses contains a list of courses that have been offered within the past two academic years. It also lists courses the college expects to offer during the next academic year.

First Year

091:102 (LAW:8026) Introduction to Law and Legal Reasoning 1 s.h.

Basic concepts and intellectual skills necessary for understanding the first-year curriculum.

091:103 (LAW:9445) LL.M. Orientation: Introduction to U.S. Law and Legal System 2 s.h.

Orientation for international-trained LL.M. student to U.S. legal system; introduction to U.S. patterns of legal argumentation, main institutional structures of U.S. legal system, and other distinctive aspects and/or fundamental principles of U.S. law; material drawn from basic areas of law (e.g., constitutional law, civil and criminal procedure, contracts, torts, property).

091:104 (LAW:8006) Civil Procedure 4 s.h.

Procedure before trial; commencement of a suit; subject matter jurisdiction; jurisdiction over the person and venue; pleadings, motion practice, including summary judgment, simple joinder of parties and claims in determining scope and size of the lawsuit; pretrial discovery procedures, the trial, claim and issue preclusion.

091:116 (LAW:8010) Constitutional Law I 3 s.h.

Constitutional allocation of governmental powers; doctrine of judicial review and nature of judicial function in constitutional cases; relationships among several branches of national government; the federal system, including powers delegated to national government, powers reserved to states, and intergovernmental immunities; role of judicial process in structuring limits within which society operates; institutional development of legal system, relationship among institutions within the system.

091:120 (LAW:8017) Contracts 4 s.h.

Law that governs the otherwise unregulated sector of the economy; making and enforcement of promises, usually as part of a bargain; formation of agreements, consideration, invalidating causes, parole evidence and interpretation, conditions, and remedies; roles of promises and promissory exchanges in a modern economy; the law's limitations on freedom of contract; brief introduction to Uniform Commercial Code, Article 2.

091:124 (LAW:8022) Criminal Law 3 s.h.

Basic understanding of substantive criminal law; underlying premises of and justifications for criminal law; emphasis on general doctrines that dictate the minimum elements necessary to impose criminal liability, essential requirements of culpable conduct (an *actus reus*, or guilty act), blameworthy mental state (a *mens rea* or guilty mind); rape, homicide, causation, attempt, conspiracy, accomplice liability; various defenses to criminality, such as self-defense, duress, intoxication, insanity, diminished capacity.

091:129 (LAW:9442) Legal Analysis Writing and Research--LL.M. 1-2 s.h.

Legal analysis, writing, and research; for international LL.M. students.

091:130 (LAW:8032) Legal Analysis Writing and Research I 2 s.h.

Structured development of effective skills in legal analysis, writing, and research; first of a two-semester sequence.

091:131 (LAW:8033) Legal Analysis Writing and Research II 2 s.h.

Structured development of effective skills in legal analysis, writing, and research; second of a two-semester sequence. Prerequisites: 091:130 (LAW:8032).

091:132 (LAW:8037) Property 4 s.h.

Concept of private property as one of the legal system's basic foundations; historical development of Anglo-American property law examined in conjunction with changing currents of economic, social, and political thought; emphasis on understanding decision making by courts in the common-law tradition, and its interplay with legislative enactments intended to change the common law; fundamental notions relating to the origins of property rights; relationship of possession and ownership, with emphasis on capacity of property law to recognize a wide range of interest configurations; impetus for promoting ease and reliability in conveyance of property interests, commercially and gratuitously; function of public recording in providing stability to transfers of interest in land; role of adverse possession and prescriptive use in recognizing expectations based on long-standing property relationships; responsiveness of property law to social change as illustrated by modern reforms in landlord-tenant act.

091:364 (LAW:8046) Torts 4 s.h.

Development of tort principles; civil responsibility for harms to tangible personal and property interests; roles of legislatures, judges, juries; intentional harms, negligence, and strict liability considered from perspectives of jurisprudence, economics, and moral philosophy.

Second and Third Year

091:125 (LAW:8350) Criminal Procedure: Investigation 3-4 s.h.

Guarantees and rights of the Fourth, Fifth, and Sixth Amendments to the U.S. Constitution against police and prosecutorial practices designed to investigate and prove criminal cases; protection against unreasonable searches and seizures, guarantee against extraction of involuntary confessions, privilege against self-incrimination constraints upon securing confessions (i.e., *Miranda* doctrine), due process protection against unreliably suggestive identification procedures, right to counsel, protection against inculpatory admissions and identification practices; exclusionary rules and remedies that enforce constitutional guarantees.

091:136 (LAW:8796) Property II 3 s.h.

Continuation of 091:132 (LAW:8037); limitations imposed on landowner's use of their property by private agreements, judicial actions, and public regulations; problem areas including servitudes, nuisance, eminent domain ("takings"), constitutional limitations on governmental activities adversely affecting private property, community planning, zoning and other forms of local land use control; discrimination as it relates to land development and housing; relative effectiveness of private ordering, judicial decisions, legislative enactments and administrative processes for resolving conflicts over use of land resources; relationships between law and other disciplines, particularly economics, in forging solutions to land use issues; law's utility as an instrument for achieving societal objectives regarding land use.

091:192 (LAW:8163) Art, Law, and Ethics 3 s.h.

How law and ethics apply to individuals and institutions concerned with the visual arts. Same as 01H:182 (ARTH:4040).

091:193 (LAW:8570) Human Rights in the World Community 1-3 s.h.

Introduction to established and developing legal rules, procedures, and enforcement mechanisms that govern protection of international human rights; liberal western and developing world notions of human rights, recent examples of human rights controversies worldwide; international human rights of women.

091:195 (LAW:8649) Foundations of International Law 1-3 s.h.

Introduction to fundamentals of international law; focus on aspects of international law that concern interests in the United States; survey of sources, methodology, and major doctrines of international law within framework of understanding diverse jurisprudential approaches; international law's relationship to U.S. domestic law and institutions; procedural aspects of international law involving international institutions, including the International Court of Justice; foundation course for students interested in international trade, business, family law, human rights, environmental law, and an interest in European Union law.

091:198 (LAW:8123) Advanced Legal Research 2 s.h.

Builds on 091:130 (LAW:8032) and 091:131 (LAW:8033); in-depth exploration of American legal resources; current print and electronic resources that help students develop better, more efficient search techniques and select the most effective formats for their research; opportunity to review the basic sources of legal information, use varied techniques to access legal information, develop personal strategies for managing information; advanced training in LEXIS, WESTLAW, the Internet; nonlegal information sources important to the legal community, research resources of other legal jurisdictions and international law.

091:201 (LAW:8165) American Legal History 3 s.h.**091:202 (LAW:8112) Advanced Civil Procedure** 3 s.h.

Complex civil litigation, personal and subject matter jurisdiction, discovery, intervention, necessary parties, interpleader, consolidation, discovery and confidentiality orders, appellate jurisdiction; mechanisms to structure trials such as bifurcation of issues; class actions.

091:203 (LAW:8581) Income Taxation of Estates and Trusts 2-3 s.h.

Income tax basis of property acquired by gift or devise, part-gift/part-sale transactions, income and deductions in respect of a decedent, allocation of receipts and expenditures between income and principal, income taxation of trusts and estates, treatment of distributions of cash and property to beneficiaries, administration of marital deduction formula clauses. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:378 (LAW:8981).

091:204 (LAW:8105) Administrative Law 3 s.h.

Formal and informal procedures, processes, and functions of state and federal administrative agencies; legislative, executive, and judicial control of their actions; nature and definition of administrative agencies; permissible delegation of authority to administrative agencies; scope of agency authority; agencies' right to obtain information from members of the public; citizens' right to obtain information in agencies' possession; definition and types of administrative rules; rule-making procedure; agency discretion to make law by rule or adjudication; right to a trial-type hearing before an agency; parties' specific rights in an administrative hearing, including notice, open or closed hearing, right to counsel, evidence, nature and exclusivity of the record; agency decision-making process, including role of hearing officers, separation of functions and bias of decision makers, nature of opinion required; judicial review of administrative action, including reviewability of agency action, primary jurisdiction of agencies, exhaustion of administrative remedies, standing, scope of judicial review, mechanics of judicial review.

091:206 (LAW:8348) Criminal Procedure: Adjudication 3-4 s.h.

Adjudicatory phases of the criminal justice system: indictments and the charging process, preliminary hearings, applications for release on bail and pretrial detention, processes of discovery, guilty pleas, jury selection, conduct of criminal trials, sentencing proceedings and post-trial motions, appellate review, collateral remedies; focus on constitutional rights, specifically the Fifth, Sixth, Eighth, and Fourteenth Amendments; statutory provisions, rules of criminal procedure.

091:207 (LAW:8159) Arbitration: Law and Theory 2-3 s.h.

The law of arbitration and its role in modern conflict resolution, conceptual framework and explanatory theories for the analysis of issues frequently encountered; statutory and contractual grounds for arbitration, such as labor relations, employment, consumer, and commercial transactions; the decision to use arbitration; the role of lawyers; judicial enforcement of arbitration agreements and arbitration awards; contractual issues and defenses; federal preemption; arbitrability and separability; remedies; the relationship between arbitration and litigation and mediation and other non-adversary forms of dispute resolution.

091:208 (LAW:8146) Antitrust Law 3 s.h.

Laws dealing with restraints of trade, monopolization and mergers; history of these laws and their development in the courts; current doctrine and its underlying legal and economic theories; analytical tools of trade: sufficiency of economic efficiency as the measure of justice.

091:209 (LAW:8161) Arbitration Advocacy Competition 1-2 s.h.

Development and application of arbitration advocacy skills in preparation for the Iowa intramural and regional competitions; addresses arbitration presentation methodology, procedure, prehearing preparation, and advocacy skills; students who advance in the intramural Iowa Arbitration Tournament are selected to represent Iowa in the ABA Arbitration Competition the following fall.

091:210 (LAW:9010) Appellate Advocacy I 1 s.h.

Experience based on an assigned fictitious case: writing an appellate brief asserting the client's position, and arguing the case before a panel of students, faculty, community attorneys.

091:213 (LAW:8188) Business Bankruptcy Reorganizations arr.

Reorganization of distressed businesses using chapter 11 of the Bankruptcy Code; prebankruptcy negotiations and out-of-court restructurings, avoiding powers and other tools to restructure the company, formation and confirmation of a plan of reorganization, post-confirmation issues; for work as commercial litigators or transactional lawyers.

091:214 (LAW:8186) Bankruptcy 3-4 s.h.

Rights of individuals and entities under the federal bankruptcy laws, from perspectives of debtors and creditors; foundational topics from liquidation bankruptcy (chapter 7) to reorganization bankruptcy (chapters 11 and 13); consumer and business bankruptcies; advanced bankruptcy topics such as small business reorganizations, farm bankruptcies, ethical issues in bankruptcy law, international insolvencies. Prerequisites: 091:215 (LAW:8374) or 091:222 (LAW:8235).

091:215 (LAW:8374) Debt Transactions

4 s.h.

Laws and practices of modern lending; procedures for collection of unsecured debts, including enforcement of judgments, exemptions, prejudgment remedies, fraudulent conveyances, statutory liens; secured transactions that involve real property (mortgages) and personal property (security interests governed by Uniform Commercial Code, Article 9); consumer and commercial transactions, counseling hypothetical creditor or debtor clients, understanding realities that shape enforcement of credit agreements.

091:217 (LAW:8307) Corporate Finance

1-3 s.h.

Introduction to fundamental principles of corporate finance, including financial statement analysis, valuation of corporate securities and of businesses, capital structure decisions, portfolio theory, and efficient capital markets hypothesis; focus on financial and accounting aspects of corporate decisions than with any particular body of law. Prerequisites: 091:241 (LAW:8331).

091:218 (LAW:8504) Federal White Collar Criminal Law

1-3 s.h.

How corporations and their officers, directors, employees, and agents can violate criminal law; liability imposed under state and federal laws in the United States, criminal liability under laws of other countries; fundamentals of U.S. law; case studies of recent prosecutions involving American corporations.

091:219 (LAW:8216) Civil Procedure in Pre-Trial Theory and Practice

arr.

The law of pleadings and other pretrial matters presented in 091:104 (LAW:8006); hypothetical case developed from interview to pleading to early pretrial stages; experience drafting relevant pleadings and motions. Prerequisites: 091:104 (LAW:8006).

091:221 (LAW:8246) Comparative Employment Law

3 s.h.

Regulation of individual employee rights in the workplace, as distinguished from regulation of collective bargaining between management and unions.

091:222 (LAW:8235) Commercial Transactions

3-4 s.h.

Commercial debt transactions, with focus on use of personal property security interests; basic legal structure of Article 9 of the Uniform Commercial Code, related provisions of Articles 3 and 8 of the Bankruptcy Code; problems of commercial finance, skills involved in using commercial statutes (transaction planning and drafting).

091:223 (LAW:8250) Comparative Islamic Law

3 s.h.

Sources of Islamic law; origins and functions of varied schools of jurisprudence; Islamic legal philosophy and Islamic legal rulings in contexts of five major schools of law; major legal topics covered by the Ottoman Legal Code. Same as 032:159 (RELS:4859).

091:224 (LAW:8263) Comparative Law

2-3 s.h.

Comparative study of origins, development, and principal features of the world's main legal systems; common and civil law traditions; historical development of the main legal systems, their sources, ideologies, techniques; subjects important to international legal practice (e.g., international judicial assistance, application of foreign law in American courts; in-depth study of modern legal systems of the United States, Britain, France, Germany, Japan, Russia; introduction to other legal traditions, including preliterate tribal law, traditional Chinese and Islamic law.

091:225 (LAW:8268) Comparative Law in Post-Communist Countries

arr.

Law and legal reforms in Russia, the newly independent states (NIS), and post-communist countries of eastern and central Europe.

091:226 (LAW:8245) Comparative Equality

arr.

Affirmative action or "positive discrimination" for examining/ comparing inequality and inclusion in the countries of France, Brazil, Canada, India, South Africa, and the United States; historical context in which affirmative action or positive discrimination programs have been implemented for certain groups within Brazil, Canada, India, South Africa, and the United States as arguments in favor of and against such programs in those countries; lessons learned from these countries applied to France to answer the question, "is France in need of affirmative action?"

091:227 (LAW:8241) Comparative Constitutional Law

2-3 s.h.

Constitutional law structures; decision making and substantive results under a variety of different constitutional systems, including major Western and non-Western systems; forms of judicial review and separation of powers, forms of federalism and alternatives to federalism, conceptions of fundamental human rights.

091:228 (LAW:8272) Conflict of Laws

2-3 s.h.

Problems created when a transaction or relationship has associations with more than one jurisdiction; emphasis on selection of appropriate jurisdiction-selecting rules, recognition of other states' judgments; current evolution in theoretical approaches to these problems; limitations imposed on American state courts by the federal constitution.

091:231 (LAW:8322) Corporate Taxation

3 s.h.

Influence of tax considerations on the structure of corporate transaction, from a merger to a restructuring to a securities offering; examination of primary Internal Revenue Code provisions that affect corporations and their shareholders; corporate formations, dividends, redemptions, liquidations, taxable asset and stock acquisitions, tax-free reorganizations; analysis of statutory and regulatory materials; tax reform proposals. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:232 (LAW:8280) Constitutional Law II

3 s.h.

Limits on governmental power imposed by the national constitution for protection of individuals; protection of life, liberty, and property by due process and equal protection; freedom of expression and association; religious freedom and the guarantee against establishment of religion; 1st and 14th Amendments.

091:233 (LAW:8257) Comparative Law and Religion

3 s.h.

091:234 (LAW:8229) Commercial Contract Drafting

2-3 s.h.

Components of common commercial contracts, analytical and technical processes involved in drafting contracts for specific commercial purposes; contracts for services, agency agreements, employment agreements, stock or asset purchase agreement, problems associated with data processing contracts; trial drafting of appropriate clauses for a series of contract problems in varied commercial settings. Corequisites: 091:241 (LAW:8331). Requirements: third-year standing.

091:236 (LAW:8296) Contemporary Russian Law in Historical Context

3 s.h.

Contemporary law and legal reforms in Russia, in context of Russian, Soviet, and European history; introduction to the current Russian legal system; similarities and differences in the contemporary Russian legal system and the traditional (pre-1917) and Soviet legal models; major legal issues of contemporary Russia; degree to which Russian law is characterized by continuity or change relative to law of former Russian empire and USSR.

091:237 (LAW:8243) Comparative Criminal Law Issues: US & UK 1,3 s.h.

Comparative study of issues in British and American criminal law; focus on the right of silence/right against self-incrimination in the two countries; historical origins and recent development of these rights in Britain and America with emphasis on the practical application of the rights; effect of capacity and age on the exercise of the rights; prosecution's obligation of disclosure and discovery; confessions; and the admissibility of evidence.

091:238 (LAW:8255) Comparative Law of Foreign Relations 3 s.h.

Comparison of legal foundations for external relations in the United States, the European Union, post-Communist states, and other countries; external powers and objectives; instruments, principles, and actors who determine and carry out external policies; legal effects of international agreements and other aspects of international law; basic questions of constitutionalism raised by foreign relations law (i.e., division of competencies, separation of powers, protection of fundamental rights, issues of democracy and legitimacy, judicial review).

091:239 (LAW:8318) Corporate Governance and Control 1-3 s.h.

Principal issues in creation of appropriate governance and control systems for large publicly-held corporations; questions of corporate structure, shareholder voting rights, duties of directors, derivative suits, indemnification and transfers of control viewed from perspective of Delaware's statutory and common law. Recommendations: 091:241 (LAW:8331).

091:240 (LAW:8160) Arbitration: Practice and Advocacy 1-2 s.h.

Skill development to effectively participate in arbitration and related court proceedings; advise clients on various aspects of arbitration; opportunity to draft an arbitration agreement, a petition to compel arbitration, a prehearing arbitration booklet with legal authorities and supporting exhibits, and pleadings necessary for judicial review; examination of all aspects of the arbitration process; procedures for post-award remedies and judicial review; hybrid methods of arbitration, applicable rules, and ethics concepts.

091:241 (LAW:8331) Business Associations 3-4 s.h.

Structure, characteristics of both large publicly and closely held corporations; distribution of powers among management, directors, shareholders; fiduciary duties that limit those powers; enforcement of such duties by shareholder suits; may include basic principles of agency, partnership, and limited partnership law.

091:243 (LAW:8927) Taxation of Business Enterprise 3-4 s.h.

Income tax treatment of corporations, partnerships, and limited liability companies, with focus on closely held firms and their owners; choice of entity, the life cycle of the entity (organization, operation, sale or liquidation), corporate mergers and acquisitions. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:247 (LAW:8259) Comparative Labor Law 3 s.h.

Legal regulation of union-employer-employee relationships.

091:248 (LAW:9070) Deposition Practice 2 s.h.

Actual practice of depositions; law of deposition practice, procedural prerequisites to a deposition, including drafting of necessary documents (e.g., subpoenas duces tecum); structure and strategies of taking and defending a position; students conduct depositions in varied circumstances (e.g., discovery of a party, perpetuation deposition of an expert). Prerequisites: 091:370 (LAW:9060).

091:249 (LAW:8378) Development of the Western Legal Tradition 2-3 s.h.

Major developments in the history of Western European law; laws of ancient Greece and Rome through 19th-century codifications in France and Germany; fusion of law and equity in England; evolution of and interaction among the four main components of Western legal tradition—Roman and civil law, customary and feudal law, canon law, and English common law; primary and secondary sources translated into English.

091:250 (LAW:8421) Employment Law 2-3 s.h.

Rights of employers, employees in unorganized workplaces; legal issues that arise between employers and employees in nonunionized settings; hiring, discipline, termination, minimum wage, covenants not to compete, employment-related intellectual property issues, occupational safety and health, unemployment.

091:251 (LAW:8407) Topics in Employee Benefits Law arr.

Survey of major topics in employee benefits law; overview of the plans that are subject to the Internal Revenue Code, ERISA, or both; tax-qualification rules for retirement plans focusing on 401(k) plans; disclosure owed and relief available to plan participants under ERISA; fiduciary responsibility for investment decisions under 401(k) plans; and whether ERISA preempts state and local initiatives to expand health care coverage. Prerequisites: 091:272 (LAW:8194).

091:252 (LAW:8551) Family, Gender, and Constitutional History 3 s.h.

Same as 16A:175 (HIST:4285).

091:253 (LAW:8415) Employment Discrimination 2-3 s.h.

Legal prohibitions against discrimination in employment on the basis of race, sex, national origin, age; focus on Title VII of the Civil Rights Act of 1964; procedural and remedial problems, elementary issues of proof.

091:255 (LAW:8433) Environmental Law 2-3 s.h.

Role of the legal system in addressing problems of environmental disruption, with special emphasis on air, water, hazardous waste pollution.

091:256 (LAW:8497) Federal Criminal Practice 2 s.h.

Introduction to each step in the criminal process together with instruction in advocacy skills required for the effective practice of law; complete chronology of a typical federal criminal case, from grand jury investigation through post-trial motions; importance of strategic thinking. Prerequisites: 091:125 (LAW:8350).

091:259 (LAW:8487) Federal Government Contracting 1 s.h.

Specialized litigation forums created by the federal government to remedy contract disputes over federal contracts for goods, services, and construction; similarities and differences between the federal litigation system and the common law of contracts and UCC Article 2 law; assessment of whether the federal litigation forums and policy goals work; related issues most attorneys encounter during their practices.

091:260 (LAW:8527) Foreign Relations Law arr.

Impact of the constitutional distribution of powers on the conduct of U.S. foreign relations; influence of separation of powers doctrines on conduct of foreign relations, status of international law in the U.S. legal system, role of courts in adjudicating issues affecting foreign relations, controversy over distribution of war powers between the president and Congress.

091:261 (LAW:8562) Health Law 2-3 s.h.

Major areas of concern in health law; tension between quality, access, costs; may include malpractice, quality control, health care financing, access (insurance, Medicare, and Medicaid), licensing, bioethics (end-of-life decisions, informed consent, surrogacy, organ transplantation).

091:262 (LAW:8492) Federal Regulations of Health Care Industry: Fraud and Abuse 2-3 s.h.

Impact of governmental regulation on business planning and transactions in application of federal fraud and abuse laws to organizational entities; False Claims Act and the Stark Law, corporate compliance programs, enforcement efforts. Prerequisites: 091:241 (LAW:8331).

091:265 (LAW:8460) Evidence 3 s.h.

Rules of evidence developed in common-law courts and under statutes; judicial notice; examination of witnesses; privilege and competence; remote and prejudicial evidence; hearsay; burden of proof and presumptions; roles of judge and jury.

091:266 (LAW:8452) European Union Law 2-3 s.h.

Law of the European Union; EU legal and institutional structure; role of the European Court of Justice in elaborating constitutional and administrative law for the EU on the basis of treaties and legislation; principle of free movement; progress of European integration.

091:267 (LAW:9331) Legal Externship arr.

Experience in nonprofit organizations, government agencies; unpaid; usually summer.

091:268 (LAW:8467) Family Law 3-4 s.h.

Creation, dissolution of marriage and parent-child relationships; lawyer's practical approach to family law problems combined with a broader view of how the law might treat those problems in light of findings from social and behavioral sciences.

091:269 (LAW:8471) Family Responsibilities Discrimination 1-3 s.h.

Exploding area of employment discrimination law (a form of sex discrimination) in which workers are treated less favorably at work because of their caregiving responsibilities for children, elderly parents, or ill relatives; theories and cases brought under a variety of statutes. Recommendations: helpful to have taken Employment Law or Employment Discrimination before this class.

091:272 (LAW:8194) Basic Federal Income Taxation 3-4 s.h.

Operation, policies, principles of federal income tax, including gross income, deductions, property dispositions, tax accounting, assignment of income among family members, time value of money, leveraging.

091:274 (LAW:8481) Federal Courts 3 s.h.

Role of the federal courts in our federal system of government; the federal courts' original and appellate jurisdiction; Supreme Court review of state courts' judgments; Congress' power to strip the federal courts of jurisdiction; development of federal common law; federal writ of habeas corpus; abstention doctrines; state sovereign immunity; federal remedies against state and local action; and Congress' power to create non-Article III adjudicative tribunals. Prerequisites: 091:104 (LAW:8006) and 091:116 (LAW:8010).

091:276 (LAW:8787) International Finance 3 s.h.

International banking and securities transactions; major national markets of the United States, Europe, and Japan, and offshore markets; major areas of international regulation and policy, such as capital adequacy, clearance, and settlement.

091:277 (LAW:8629) Taxation of International Business Transactions 3 s.h.

Introduction to U.S. aspects of international taxation and international tax policy issues; how the United States taxes foreign persons on income they derive from U.S. sources; taxation of U.S. persons on their worldwide income; United States bilateral tax treaty network, under which many of the statutory rules regarding the taxation of foreigners are modified or supplanted; solving problems that illustrate the operation of the Code and regulations. Prerequisites: 091:272 (LAW:8194). Corequisites: 091:241 (LAW:8331).

091:278 (LAW:9838) Selected Topics in International and Comparative Law 1-3 s.h.

Opportunity for students to learn from distinguished faculty from U.S. and international institutions.

091:279 (LAW:8579) Immigration Law and the Workplace 3 s.h.

Intersection of immigration and employment law, with focus on the United States; employment rights and remedies of immigrant workers, including undocumented workers; issues relating to employment eligibility verification and antidiscrimination protections; workers' claim of unpaid wages, protection for day laborers, English-only rules, entitlement to benefits such as workers' compensation, human trafficking, coverage under antidiscrimination statutes, and the right to engage in collective bargaining; gender implications; some discussion of international perspectives. Prerequisites: 091:250 (LAW:8421).

091:280 (LAW:8577) Immigration 1-3 s.h.

Legal, historical, social, philosophical, and policy foundations of immigration control; modern debate over immigration; criteria and procedures that govern admission of non-U.S. citizens to the United States for permanent residence and temporary visits; deportation criteria and processes; national security and civil liberties implications of immigration policy; refugees and political asylum; undocumented migrants; acquisition, loss, and significance of U.S. citizenship; focus on U.S. law with introduction to perspectives from comparative and international law; experience analyzing varied fact problems that require strategic decision making and interpretation of complex statutory provisions.

091:281 (LAW:8594) Interest-Based Negotiation for Lawyers 2-3 s.h.

Theory and practice of interest-based or problem-solving negotiation; acquisition and enhancement of the skills for this approach to negotiation; negotiation exercises.

091:282 (LAW:8600) International Business Transactions 1-3 s.h.

Legal and practical issues in international trade and investment; typical private transactions, such as the sale of goods (documentary sales transaction, INCOTERMS, letters of credit, agency, distribution), transfer of technology (franchising, licensing), and direct investment across national borders; how private international sales, investment, and licensing transactions are structured to permit private businesses to minimize and plan for the risks associated with conducting business on a global scale.

091:283 (LAW:8301) Copyrights 3-4 s.h.

Federal law of copyrights, primarily the Copyright Act of 1976; emphasis on copyright protections affecting new technologies, such as videotape, computer hardware and software, electronic data transfer, cable television rebroadcast; ability of legal concepts to keep pace with technological developments. Recommendations: 091:286 (LAW:8643).

- 091:284 (LAW:8584) Insurance** 1-3 s.h.
Legal principles of insurance; applicability of general principles of contract formation; principles involved in determining which persons and interests are protected, which risks are transferred, and when rights are at variance with insurance policy provisions; claims process, disposition of disputed claims; adoption of tort principles and statutes to alter common law approach to insurance contracts.
- 091:285 (LAW:8513) Foreign Comparative and International Legal Research** 1-2 s.h.
Treaty research, locating and identifying documents from international organizations and tribunals, legal research in selected jurisdictions outside the United States; print and electronic sources and research methods in foreign and international law; project to complete a pathfinder on a foreign or international law topic.
- 091:286 (LAW:8643) Introduction to Intellectual Property Law** 3-4 s.h.
Concept of intellectual property, survey of decisions in patents, trademark and unfair competition, copyright, trade secrets, related areas; issues arising from intersections of areas.
- 091:287 (LAW:8631) International Trade Law: Basic Norms and Regulations** 3 s.h.
Basic norms and legal framework of international trade as expressed in the GATT/WTO regime and U.S. trade laws; issues raised by regional trade blocs such as NAFTA; controversies such as the economic and philosophical justifications for, and objections to, free trade from a variety of perspectives.
- 091:288 (LAW:8658) Jurisprudence** 2-3 s.h.
Selected legal philosophies, with emphasis on legal positivism and natural law; relationship between law and morality.
- 091:289 (LAW:8647) Competition Policy and Innovation** 3 s.h.
Important issues at intersection of federal competition policy and intellectual property law; competition policy referenced as antitrust laws; competition policies that emanate from intellectual property laws or other regulatory provisions; exclusionary practices, collusion and joint ventures, vertical integration, and procedural issues.
- 091:291 (LAW:8622) International Environmental Law** 3 s.h.
Laws and institutions developed by the international community to deal with international environmental problems, including those of the atmosphere (acid rain, ozone depletion, radioactive fallout, climate change), hydrosphere (land-based sea pollution, sea-based vessel pollution, transboundary groundwater diversion), lithosphere (hazardous waste disposal, toxic pollutants, decertification), biosphere (driftnet fishing, endangered elephants, loss of tropical rainforests).
- 091:292 (LAW:8670) Labor Law** 3-4 s.h.
How national labor law regulates labor relations in the private sector; law relating to unionized employees and firms; right of employees to organize into unions; limits of concerted activities by employees; scope and provisions of collective bargaining; enforcement of the collective bargaining agreement; rights of individual employees in collective units and in labor organizations; lawyer's role in dealing with judicial, administrative, and arbitral tribunals involved in enforcing labor law; lawyer's role in complex interrelationships between policy, statute, judicial, and administrative decisions.
- 091:294 (LAW:8608) Complex Litigation in a Comparative Context** 3 s.h.
Principles and practical techniques relevant to complex civil cases; study abroad program taught in London.
- 091:295 (LAW:8615) International Commercial Arbitration** arr.
Formation and enforcement of agreements to enter arbitration in order to settle international business disputes; recognition and enforcement of arbitral awards, process of arbitrating an international business dispute; role-playing exercises to hone advocacy and decision-making skills.
- 091:296 (LAW:8618) International and Comparative Family Law** 1-3 s.h.
Introduction to the family law system in England; issues of international legal practice in family cases; international legal instruments for the protection of children, including the U.N. Convention on the Rights of the Child, the Hague Convention on the Civil Aspects of International Child Abduction, and the Hague Convention on Intercountry Adoption. Corequisites: 091:268 (LAW:8467).
- 091:298 (LAW:8428) English Legal System** 1 s.h.
Taught in spring London Law Consortium.
- 091:299 (LAW:8626) International Humanitarian Law** arr.
Examination of modern international law of war (referred to as law of armed conflict or international humanitarian law); purposes, sources, and principles of this body of law; specific provisions; emphasis on responding to terrorism and other forms of asymmetrical warfare, use of weapons of mass destruction and chemical and biological weapons, and intersection between international humanitarian law and international human rights; legal and policy issues related to international humanitarian responses to natural disasters. Recommendations: 091:193 (LAW:8570) or 091:195 (LAW:8649).
- 091:301 (LAW:8634) International Transacting Skills** 1-2 s.h.
Key negotiation concepts and skills necessary to successfully negotiate international deals through a series of role simulations involving cross-border joint ventures, international project finance deals, and deal-making in developing countries; students engage in one or more simulated negotiations each session, followed by debrief—discussion of how negotiation concepts and features of international transactions, introduced in readings, played out in negotiation dynamics.
- 091:302 (LAW:8444) Estate Planning** 2-3 s.h.
Introduction to will drafting, use of powers of attorney, and advance directives (topics frequently taught in courses on trusts and estates); taxes that can be imposed upon the transfer of money or other property by gift (the gift tax), at death (the estate tax), and by certain generation skipping transfers (the generation-skipping tax); interrelationship of these taxes with each other and with the income tax. Prerequisites: 091:272 (LAW:8194). Recommendations: 091:378 (LAW:8981).
- 091:303 (LAW:8593) Federal Indian Law** 3 s.h.
Specialized body of law that allocates power and authority in Indian country and has grown up around Native American peoples and their reservations; sovereignty arrangements, jurisdiction, federal Indian policy, tribal self-government. Same as 149:178 (AINS:8593).

091:306 (LAW:8703) Cyber and Electronic Law 2-3 s.h.

Legal and public policy issues created by electronic technologies—computers, the Internet and Web, other electronic communications and new media, including privacy and surveillance; cyber-torts (defamation) and cyber-crime; cyber-terrorism and cyber-warfare; social networking in politics and revolution; cyber-property, real (copyright, Fair Use, trademark) and virtual; First Amendment and restrictions on speech; geography and sovereignty (jurisdiction); regulation by means of technology as well as law; electronic commerce; broadband and other transmission technologies policies (net neutrality); and intermediaries' liability for content.

091:307 (LAW:8698) Law in the Muslim World 2-3 s.h.

International and comparative law issues relevant to countries in the Muslim world; legal cultures, institutions, rules, actors, processes of several jurisdictions including Afghanistan, Saudi Arabia, Iran, Iraq, Algeria, Nigeria, Palestine, Pakistan; Islamic sharia law as practiced in Sunni and Shiite countries; the role of church versus state, fundamentalism versus secularism, as manifested in the legal system; tension between communitarianism and individualism in modern constitutionalism; intertwining of customary and religious legal practices; first, second, and third generations of human rights; international law on issues such as terrorism, self-determination; women's rights, including polygamy, divorce, child custody, inheritance. Requirements: junior or senior standing.

091:308 (LAW:8791) Professional Responsibility 1-3 s.h.

Public and private professional responsibility of lawyers; organization of the profession; its economics, ethics, and sociology.

091:309 (LAW:8680) Law and Economics 3 s.h.

Introduction to economics analysis of law; how economic reasoning is used to explain and predict the effects of legal rules; fundamental areas of American law (e.g., property, contracts, torts, criminal law); use of economic efficiency as a normative criterion for evaluating legal rules; efficiency compared to various moral concepts to evaluate such rules.

091:310 (LAW:8682) Law and Human Behavior 3 s.h.

Implications of recent social science research on human behavior for law and legal decision making.

091:311 (LAW:8709) Law of France and the European Union 2-3 s.h.

Summer abroad program.

091:312 (LAW:8619) International and Comparative Intellectual Property Law 3 s.h.

Issues related to international protection of intellectual property.

091:315 (LAW:8720) Mediation: Theory and Practice 3-4 s.h.

Essential characteristics; comparison of mediation with litigation and other alternative dispute resolution processes; stages of mediation; confidentiality; enforceability of agreement; ethical problems, particularly lawyer-mediator; student role playing; short writing assignments.

091:317 (LAW:8733) Narrative Strategies for Lawyers 1-3 s.h.

Fiction writing; narrative nonfiction writing techniques; use of narrative in the legal context; workshop format to read and critique stories, published works, and works students have written.

091:318 (LAW:8726) Mergers and Acquisitions 3 s.h.

Significant legal and financial aspects of business combination transactions; transaction documents (e.g., stock purchase agreements, asset purchase agreements, merger agreements); valuation of companies and pricing of deals; legal and financial considerations affecting the structuring of deals; tender offers and their regulation under the Williams Act, tender offer rules; fiduciary duties of target board, including Revlon duties and the Unocal standard; anti-takeover devices (e.g., poison pills and staggered boards, deal protection devices, freezeout transactions); state anti-takeover statutes. Prerequisites: 091:241 (LAW:8331).

091:320 (LAW:8751) Nonprofit Organizational Effectiveness I 3 s.h.

Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as 021:263 (SLIS:6430), 06J:247 (MGMT:9150), 174:247 (HMP:6360), 042:247 (SSW:6247), 102:278 (URP:6278), 024:247 (MUSM:6010), 028:257 (SPST:6010), 032:227 (RELS:6070).

091:322 (LAW:8752) Nonprofit Organizational Effectiveness II 3 s.h.

Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Requirements: for 091:322 (LAW:8752) — 091:320 (LAW:8751); for 174:248 (HMP:6365) — 06J:247 (MGMT:9150) or 024:247 (MUSM:6010) or 174:247 (HMP:6360). Same as 06J:248 (MGMT:9160), 021:265 (SLIS:6435), 042:248 (SSW:6248), 174:248 (HMP:6365), 102:279 (URP:6279), 024:248 (MUSM:6020), 028:258 (SPST:6020), 032:228 (RELS:6075).

091:324 (LAW:8763) Patent Law 2-4 s.h.

All aspects of U.S. patent law; patent claims, adequacy of disclosure, statutory subject matter, validity, inequitable conduct, infringement, remedies, varied specialized doctrines; focus on recent pronouncements from the Court of Appeals for the Federal Circuit. Recommendations: 091:295 (LAW:8615).

091:325 (LAW:9851) Philanthropy and Philanthropic Organizations arr.

Overview of law applicable to the American philanthropic sector; recent and controversial issues in the interface between philanthropy and the law; comparative and international aspects of the regulation of philanthropy and the nonprofit sector. Same as 034:188 (SOC:4465).

091:327 (LAW:8770) Payment Law: Negotiable Instruments and Electronic Payment Systems 2-3 s.h.

Law that governs methods by which businesses and consumers typically pay for goods and services in modern economy; legal rules applicable to traditional paper-based payment system, including negotiable instruments (checks and notes) and bank collection of checks; modern payment methods (credit cards, debit cards, wire transfers); focus on Articles 3, 4, and 4A of the Uniform Commercial Code and related federal law and regulations.

091:330 (LAW:8919) Survey of Work Law 2-3 s.h.

Introductory survey of four types of legal regulation of the workplace: labor law, employment discrimination, law of private employment, and law of public employment.

091:331 (LAW:8329) Comparative Criminal Procedure 2 s.h.

Study abroad program.

091:333 (LAW:8639) International Economic Law and Institutions arr.

Survey of three principal global economic organizations: International Monetary Fund, World Bank, and World Trade Organization; study abroad program taught in London.

091:340 (LAW:8819) Remedies 3 s.h.

Legal and equitable remedies by which the law corrects injustice and redresses legal wrongs; remedies for tortious wrongs, including damages and injunctive relief; remedies for breaches of contract, including damages, specific performance, rescission, reformation; law of restitution, with emphasis on restitutionary remedies (quasi-contract, constructive trust, equitable lien).

091:341 (LAW:8714) Managing National Security 1-3 s.h.

Substance, process, and practice of national security law.

091:342 (LAW:8742) Negotiations 2-4 s.h.

Nature and theory of negotiations, diverse rhetorics (including the rhetoric of legal argument) relevant to conduct of negotiations, conflict between ethics and effectiveness; readings from game theory, social psychology, anthropology, rhetoric and ethics.

091:345 (LAW:8875) Sentencing 3 s.h.

Introduction to the law, history, and policies that govern criminal sentencing in federal and state systems; traditional indeterminate sentencing, modern determinate sentencing at federal and state levels, capital sentencing.

091:346 (LAW:8879) Sports Law 3 s.h.

Exploration and understanding of the many ways in which law and lawyers intersect and impact the multi-billion-dollar industry that is high school, collegiate, and professional sports; basic legal foundation for those who are merely curious as well as those considering legal representation for players, coaches, teams, leagues, schools, media, or other sports related institutions and individuals; common contractual processes and provisions, judicial oversight of institutional self-governance and commissioner enforcement, antitrust implications of leagues, labor law, gender issues, intellectual property, criminal and torts law.

091:349 (LAW:8877) Sex-Based Discrimination 2-3 s.h.

Survey of sex-based discrimination and legal responses in the United States and worldwide; American context—constitutional guarantees and various statutory guarantees, including Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972; global context—examination of various regions of the world, emphasis on France, South Africa, and countries with majority Muslim populations; issues involving customary law, affirmative action/quotas, and constitutional reform.

091:352 (LAW:8939) Title Examination and Selected Real Estate Transactions 2 s.h.

Examination of abstracts of title to real property and preparation of resulting title opinion; drafting and interpretation of legal description to real property; subdivision of real property; negotiating and drafting basic contractual and transfer documents involved in typical real estate transactions.

091:354 (LAW:8887) State and Local Government 1-3 s.h.

Allocation of decision-making authority in society; allocation between public and private decision makers; allocation among governmental units, and among public institutions; principles and policies that underlie legal doctrines and the relationship of those principles and policies.

091:355 (LAW:8856) Securities Regulation arr.

Regulation and sale of securities to the public under the Securities Act of 1933 and state blue-sky laws; remedies provided through the Securities Act; regulation and litigation under the Securities Exchange Act of 1934, which focuses on companies with publicly-traded securities. Prerequisites: 091:241 (LAW:8331).

091:356 (LAW:8917) Surrogate Decision Making for Incapacitated Individuals 1-2 s.h.

Types and forms of substitute decision making for individuals whose decision making capacity is impaired due to dementia, mental disabilities, or mental illnesses and who need a surrogate, or substitute decision maker, to make decisions about matters such as health care, personal care, and finances; representative payees; financial powers of attorney; guardianships; conservatorships; advance directives including living wills, health care powers of attorney, and out-of-hospital do-not-resuscitate orders (OOH-DNR); introduction to probate court procedures and processes.

091:358 (LAW:8533) Forms of Argument/Systems of Belief 2-3 s.h.

Major theories of law relevant to study and practice of law in contemporary America; six distinct operating systems, including legal formalism, legal realism, the legal process school, law and economics, the legal positivist/analytic tradition, and critical legal theory (including legal studies, feminist legal theory, critical race theory); diverse forms of legal argument, including those associated with particular theories of law.

091:359 (LAW:8891) State and Local Taxation 3 s.h.

Limitations on state taxing powers under the United States Constitution, including Commerce, Due Process, and Privileges and Immunities Clauses; subnational jurisdictions, particularly states with an emphasis on sales tax and corporate income taxes, gross receipts taxes, and excise taxes; issues relating to ecommerce.

091:360 (LAW:8936) Taxation of Gratuitous Transfers 1-3 s.h.

Justification of wealth taxation, effectiveness of current law, alternate methods of wealth taxation; federal estate, gift, and generation-skipping taxes; tax and estate planning; identification of the tax base and tax paying unit. Prerequisites: 091:272 (LAW:8194) and 091:378 (LAW:8981).

091:361 (LAW:8929) Taxation of Partnerships 2-3 s.h.

Introduction to federal tax treatment of partnerships and limited liability companies, the most common business entities in use in the United States today; classification of entities as partnerships for federal tax purposes; formation of partnership and subsequent contributions to partnership capital; flow-through tax treatment of partnership operations; tax-sensitive allocations of items of partnership income, deduction, credit and loss; partnership distributions and related tax-sheltering strategies, liquidation or sale of partnership interests; death or retirement of partners, tax treatment of partnerships compared with S corporations. Prerequisites: 091:272 (LAW:8194).

091:362 (LAW:8933) Tax Practice and Procedure 3 s.h.

Issues relating to proper tax liability of a taxpayer, not necessarily how IRS collects taxes and administers tax laws; judicial deference to agency guidance; procedural issues related to examination and filing of returns and payment of taxes; attorney-client and other privilege matters; ethical issues related to tax practice; IRS investigatory powers; IRS assessment and collection procedures; assigned problems and discussion of current issues in tax policy. Corequisites: 091:272 (LAW:8194).

091:366 (LAW:8961) Select Issues in Transnational Litigation arr.

Transnational litigation as any litigation involving a foreign element (usually an American party in a foreign court or a foreign party in an American court); litigation that seems completely domestic and turns into a transnational one (when discovery, interim measures, or enforcement are sought overseas); encountering elements of transnational litigation in today's global economy; in-depth study of a few representative topics; emphasis on all relevant aspects of transnational litigation (practice, doctrine, policy, theory).

091:369 (LAW:8954) Trademarks and Unfair Competition Law 2-4 s.h.

Acquisition and retention of trademark rights, registration, infringement, remedies; application of section 43 (a) of the Lanham Act to protect creative as well as commercial products. Recommendations: 091:286 (LAW:8643).

091:370 (LAW:9060) Trial Advocacy 2 s.h.

Training in basic skills of trial advocacy, aspects of trial technique; student participation in a full trial. Prerequisites: 091:265 (LAW:8460).

091:371 (LAW:9062) Trial Advocacy Board 1-2 s.h.

Administration of Trial Advocacy Program and Stephenson Competition; research and writing in connection with trial problems and readings used in program; critique of performances of trial problems. Prerequisites: 091:265 (LAW:8460) and 091:370 (LAW:9060).

091:373 (LAW:9066) Stephenson Trial Advocacy Team arr.

Student participation as College of Law representatives in Stephenson Trial Advocacy Competition. Prerequisites: 091:374 (LAW:9061).

091:374 (LAW:9061) Advanced Trial Advocacy - Stephenson Competition 1-2 s.h.

Review and expansion of topics presented in the initial trial advocacy course; preparation and application of these principles in the Stephenson trials; introduction to additional advanced problems such as the evidentiary issues raised in the trial problem. Corequisites: 091:370 (LAW:9060).

091:377 (LAW:8992) Water Law arr.

Legal schemes for securing and using water rights in surface water and groundwater for private and public uses in the United States; riparian and prior appropriation doctrines of water allocation, groundwater management regimes, federal water management and regulation, and interstate and transboundary allocation devices; evolving role of science, economics, and policy in water allocation law; does not address issues of water quality, which are covered in environmental law.

091:378 (LAW:8981) Trusts and Estates 1-4 s.h.

Transmittal of wealth within the family; policy of donative freedom, with focus on property law, including intestate succession, wills, lifetime transfers in trust or otherwise, powers of appointment, future interests; experience drafting a will, trust, or other estate planning document; for 4 s.h., additional classes on federal estate, gift, generation skipping transfer taxes, their effect on wealth transfer.

091:379 (LAW:8979) Advanced Trusts & Estates arr.

Substantive provisions of wills and trust instruments; recurring construction problems and pitfalls in drafting; powers of appointment; future interests and how they operate in complex trusts; impact of rules of policy restricting the disposition of property, including the rule against perpetuities. Corequisites: 091:378 (LAW:8981).

091:380 (LAW:8984) The Global Financial Crisis 1-3 s.h.

Today's financial and economic crisis—the worst since the Great Depression; roots of the crisis, spread from the United States and Europe via securitization, key actors in the crisis, domestic and international regulatory aspects, impact on emerging and developing countries, measures taken to tackle the crisis.

091:390 (LAW:9346) British Legal Methods Clinical Program 3 s.h.

British Law externship; placement in London law office under guidance of barrister or solicitor; seminar and enrollment in course on English legal system taught by faculty of King's College, University of London.

091:395 (LAW:9335) Summer Legal Placement 1-3 s.h.

Externship opportunities for direct involvement in activities characteristically performed by attorneys (e.g., research and writing, document drafting, client interviewing and counseling, fact investigation, negotiations, court appearances); in-depth exposure to as many facets of the actual practice of law as practicable in each externship.

091:399 (LAW:9322) Judicial Externship arr.

One-semester student assignments to the chambers of selected judges, at both trial and appellate levels; experience participating in work of the chambers, including researching and writing memoranda to the court, drafting opinions, other court business.

091:400 (LAW:9115) Law Review 1-2 s.h.

Work on *Iowa Law Review*.

091:401 (LAW:9118) Student Journal Editor--Law Review arr.

Experience on the *Iowa Law Review* editorial staff: managing production, overseeing business operations, administering student writing program, selecting and editing articles for publication, supervising student research and writing. Eligibility based on previous writing for the journal. Prerequisites: 091:400 (LAW:9115).

091:402 (LAW:9046) Moot Court Board 1-3 s.h.

Experience as member of the Moot Court Board administering the Appellate Advocacy Program, researching appellate cases used in the program, judging appellate arguments. Requirements: membership based on performance in 091:210 (LAW:9010).

091:403 (LAW:9037) Advanced Moot Court Competition 1 s.h.

Advanced Moot court team; members are top advocates from previous year's Van Oosterhout/Baskerville competition. Fall of third year.

091:404 (LAW:9021) Van Oosterhout Baskerville Moot Court Competition 1 s.h.

Single-elimination tournament culminating in the final four advocates arguing before a panel of judges; advocates write a portion of the brief, argue for and against the issue they briefed. Prerequisites: 091:210 (LAW:9010).

091:406 (LAW:9302) Clinical Law Program--Internship arr.

Experience working directly with faculty members on cases and in-house program; full participation in interviewing, fact investigation, negotiation, courtroom proceedings.

091:407 (LAW:9307) Clinical Law Program--Externship arr.

Experience representing clients through legal assistance offices in eastern Iowa, under supervision of faculty members and staff attorneys.

- 091:408 (LAW:9033) National Moot Court Competition** 1 s.h.
Participation by third-year students as law school's representatives in the regional Moot Court competition (fall semester), and in judging intramural Moot Court competitions (spring semester). Requirements: placement as one of four finalists in 091:404 (LAW:9021).
- 091:409 (LAW:9355) Child and Family Advocacy Clinic** arr.
Experience working with faculty members on cases involving children with health problems and their families; representation of clients in connection with health insurance, social security disability, education, and public benefits (e.g., food stamps, school lunch programs, WIC, housing, fuel and utility assistance, income support); interviews, fact investigation, negotiation, administrative and courtroom proceedings; close work with Carver College of Medicine faculty members and residents who staff pediatric units at University of Iowa Hospitals and Clinics.
- 091:410 (LAW:8224) Client Counseling I** 1-2 s.h.
Foundation for recognizing and resolving legal, nonlegal, ethical issues in the legal interview; interviewing and counseling skills developed through practice sessions, lectures, observation.
- 091:415 (LAW:9124) Journal of Corporation Law** 1-2 s.h.
Experience editing articles and writing commentaries for *The Journal of Corporation Law*, a student-operated scholarly publication that examines subjects of current importance to businesses and the bar.
- 091:416 (LAW:9127) Student Journal Editor--Journal of Corporate Law** arr.
Experience on *The Journal of Corporation Law* editorial staff: managing production, overseeing business operations, administering student writing program, selecting and editing articles for publication, supervising student research and writing. Eligibility based on previous writing for the journal. Prerequisites: 091:415 (LAW:9124).
- 091:420 (LAW:9142) Transnational Law and Contemporary Problems Journal** 1-2 s.h.
Experience researching and writing on issues in international and comparative law for the journal *Transnational Law & Contemporary Problems*. Requirements: second- or third-year law standing.
- 091:421 (LAW:9145) Student Journal Editor--TLCP Journal** arr.
Experience researching, writing, and editing on issues in international and comparative law for the journal *Transnational Law & Contemporary Problems*. Requirements: second- or third-year law standing.
- 091:425 (LAW:9163) Journal of Gender, Race and Justice** 1-2 s.h.
Academic year experience on *The Journal of Gender, Race & Justice*: writing two journal pieces, including a recent development and a note or a comment, and performing office duties. Requirements: second- or third-year law standing.
- 091:426 (LAW:9166) Student Journal Editor--Gender, Race and Justice** arr.
Experience on *The Journal of Gender, Race & Justice* editorial staff: managing student writing program, overseeing business operations and production, selecting symposium topic and participants, selecting and editing all publications pieces; eligibility based on writing and editing experience.
- 091:430 (LAW:9038) Jessup International Moot Court Competition** 1 s.h.
Participation by second-year students in intramural regional- and national-level moot court competition in international law; intensive criticism in appellate brief writing and oral argument. Prerequisites: 091:210 (LAW:9010).
- 091:431 (LAW:9028) Jessup Moot Court Competition Team** 1-2 s.h.
Participation as team member in Jessup International Moot Court Competition; preparation of memorials in fall, travel to February regional rounds; travel to international competition in Washington, D.C., for top two teams. Prerequisites: 091:210 (LAW:9010).
- 091:450 (LAW:9404) Corporate Law Practicum** arr.
One-semester externship with Justice Holland of the Delaware Supreme Court or with Vice Chancellor Parsons of the Court of Chancery of the State of Delaware.
- 091:455 (LAW:9413) Health Law and Policy Practicum** 1-3 s.h.
Opportunity to participate in research involving current health law and policy issues, in collaboration with organizations such as public health agencies, health professional organizations.
- 091:460 (LAW:9220) Law Study Abroad at Bucerius** arr.
Exchange student study at Bucerius Law School, Hamburg, Germany. Fall semester.
- 091:463 (LAW:9223) Law Study Abroad at Catolica University** arr.
Exchange student study at the University of Católica in Lisbon, Portugal.
- 091:464 (LAW:9226) Law Study Abroad at Radboud University Nijmegen** arr.
Exchange student study at Radboud University in Nijmegen, Netherlands.
- 091:500 (LAW:9490) Independent Research Project** arr.
Work under faculty supervision; research.
- 091:501 (LAW:9486) Directed Research and Writing** arr.
Research and writing project unrelated to any substantive course, supervised by a faculty member.
- 091:502 (LAW:9481) Supplementary Writing** arr.
Supplemental writing project that is related to a student's course, but goes beyond the requirements for the course, and is supervised by the faculty member who teaches the course.
- 091:503 (LAW:9473) Writing Tutorial** arr.
Writing project on a subject or topical area specified by the supervising faculty member; group meetings; writing tutorial.
- 091:504 (LAW:9424) Tutorial** 1-4 s.h.
Work under faculty supervision; may involve substantive area of the law of jurisprudential ideas as they appear in various intellectual spheres; tutorials.
- 091:505 (LAW:9491) Independent Research** arr.
Work under faculty supervision; research.
- 091:506 (LAW:9444) LL.M. Tutorial** 1 s.h.
Requirements: LL.M. candidate.

091:507 (LAW:9427) First Amendment Tutorial: Religion Guarantees

arr.

Focus on varied issues decided in the course of the Supreme Court's still-unfolding jurisprudence under the First Amendment Religion Guarantees.

091:508 (LAW:9429) Intellectual Property Advocacy

1-3 s.h.

Integrates teaching of substantive intellectual property law with development of oral and written advocacy skills in intellectual property field; builds on earlier learning in preparation for practice of law.

091:509 (LAW:9733) Journalism and Freedom of the Press

2-3 s.h.

Constitutional theory and doctrine under the First Amendment, with focus on the free press guarantee and protection for news and journalism; prior restraints and injunctions against publication; libel; privacy; other communicative torts; commercial speech and news publications; public forum and time, place, and manner restrictions on the press and publishers; ownership, control, copyright, related intellectual property interests of the press; meaning of journalism, news, and news organizations; governmental control or sponsorship of news organizations; subsidies for the press; taxation of the press; access to the press; newsgathering; press privileges; equality and press freedom; problems in the financial and regulated sectors, such as regulation of business news periodicals; control of advertising by news organizations; advertorial practices and First Amendment freedoms; limits of press speech and journalism. Corequisites: 091:232 (LAW:8280), if not taken as a prerequisite.

091:512 (LAW:9433) Service Tutorial

arr.

Designed to enhance learning through the completion of a group service project. Corequisites: 091:265 (LAW:8460).

091:513 (LAW:9423) Tutorial

arr.

Different types of pedagogical techniques.

091:514 (LAW:9435) Sexual Orientation and the Law Tutorial

arr.

Exploration of the intersection of law and sexual orientation.

091:515 (LAW:9468) Washington, D.C. Tutorials for the National Practice of Law

3 s.h.

Insight into and experience with a national practice of law dealing with issues, specialized forums, and the policies and procedures that arise from practicing law for state clients in the nation's capital.

091:520 (LAW:9450) Patent Law Tutorial

arr.

Examination of recent patent-related en banc Federal Circuit and Supreme Court decisions. Prerequisites: 091:286 (LAW:8643) or 091:324 (LAW:8763) or 091:604 (LAW:9863).

091:600 (LAW:9502) Abused, Neglected, and Dependent Children

arr.

Laws relating to abused, neglected, and dependent children—those not receiving proper parental care and protection as defined by statutes and case law; history of child abuse, neglect, and dependency laws; jurisdiction of juvenile and family courts; abuse, neglect, dependency proceedings; termination of parental rights in abuse, neglect, and dependency cases.

091:601 (LAW:9518) Advanced Topics in Corporate Law

arr.

Wide range of topics; theory of the firm, fiduciary duties, corporate counseling issues, history of corporate law, and so forth. Requirements: one law or business course in corporate law.

091:602 (LAW:9541) Asian Americans and the Law

arr.

Legal issues encountered by Asians and Asian Americans in the United States; how those issues have been addressed by Congress, state legislatures, the judiciary, the executive branch, the public, and the legal community.

091:603 (LAW:9549) Capital Punishment

arr.

Overview of the death penalty as presently applied in America; moral issues; long-term trends limiting the use of the death penalty in the United States and abroad; legal issues and Eighth Amendment jurisprudence that has developed since the 1960s regarding limits on the exercise of juror discretion, jury selection, proportionality, the execution of minors, racial discrimination, *mens rea* requirements, capital appeals and collateral attacks, and death penalty lawyering; critique of death penalty bills proposed in recent years for Iowa.

091:604 (LAW:9863) Patent Prosecution Seminar

3-4 s.h.

Drafting seminar on patent application preparation and prosecution; student drafting exercises and presentations on advanced patent law topics; administrative rules and procedures governing practice before the U.S. Patent and Trademark Office; for students who plan to practice patent law. Prerequisites: 091:324 (LAW:8763).

091:605 (LAW:9509) Advanced Problems in International Environmental Law

arr.

Focus on the so-called trade and environmental debate.

091:607 (LAW:9534) Animals and the Law

arr.

Issues concerning nonhuman animals and the laws that affect them; historic and philosophical rationales for conferring or refusing to confer legally cognizable rights upon nonhuman animals; topics such as laws governing use of animals (e.g., for scientific research, human consumption, companionship, entertainment), laws to preserve endangered species, laws governing international animal trafficking, laws governing efforts to establish standing in lawsuits aimed at improving animals' welfare; how laws relating to animals intersect with issues of broader concern, such as the rights of children and persons with severe mental disabilities, respect owed to cultural differences when crafting laws regarding fundamental areas of human activity, evolution of modern thought regarding basic human rights.

091:608 (LAW:9523) Advanced Topics in Intellectual Property

arr.

Opportunity to explore complex intellectual property issues with a focused topic area; for students experienced in intellectual property law. Requirements: one intellectual property course.

091:609 (LAW:9548) Business Bankruptcy Reorganizations Seminar

arr.

Examination of the reorganization of distressed businesses using Chapter 11 of the Bankruptcy Code; prebankruptcy negotiations and out-of-court restructurings, avoiding powers and other tools to restructure the company, formation and confirmation of a plan of reorganization, and post-confirmation issues; suitable for those who plan to work as commercial litigators or transactional lawyers. Prerequisites: 091:241 (LAW:8331).

091:610 (LAW:9504) Advanced Problems in Contract Law

arr.

Study of contract law beyond what was covered in the first-year course; in-depth review of selected topics, recent developments.

091:612 (LAW:9562) Criminal Law in Context: Legal and Social Images of Victims and Perpetrators

arr.

Criminal law contextualized by an in-depth study of the legal and social characterizations of victims and perpetrators in U.S. law, politics, and popular culture; overview of the laws treatment of victims and perpetrators and its relationship to political and social dynamics over the past century; legal and social characterizations of victims and perpetrators in select areas of criminal law, including rape, domestic violence, and child sexual abuse; victim-precipitated crimes, specifically crimes involving claims of provocation and self-defense, and their relationship to the current victim-perpetrator discourse.

091:613 (LAW:9557) Constitutional Interpretation Seminar arr.

How the United States Supreme Court interprets the Constitution; particular emphasis on substantive due process and equal protection doctrine. Corequisites: 091:232 (LAW:8280).

091:614 (LAW:9585) Design of Law arr.

Development of ability to critique the design of laws and to refine laws; legal literature addressing the design of law, classic articles from design literature, and three basic codes adopted by different societies at different times—the Code of Manu, Blackstone's Commentaries, and the Code of Iowa; theories of how laws change over time, how laws are reformed for better or worse, preconditions for progressive social change that prompts refinement of a law that is working less than optimally; empirical assessments of a law's effectiveness and visual displays of detailed empirical information, such as that used in court and in Brandeis briefs.

091:615 (LAW:9563) Topics in Criminal Procedure arr.

In-depth look at criminal procedure topics not addressed or discussed briefly in basic criminal procedure courses, including jury selection, trial strategies, bond hearings, litigating suppression motions, sentencing advocacy, inner workings of courtrooms, and mass incarceration. Corequisites: 091:125 (LAW:8350) or 091:206 (LAW:8348) or 091:265 (LAW:8460) or 091:370 (LAW:9060).

091:616 (LAW:9591) Family Law in the World Community arr.

Family law from an international and comparative law perspective; treatment of family law problems in varied legal systems; application of international treaties and conventions to issues such as child custody, adoption, reproductive freedom, domestic violence. Prerequisites: 091:195 (LAW:8649) or 091:268 (LAW:8467).

091:618 (LAW:9573) Cultural Property/Heritage arr.

Concept of cultural property, measures for its protection, impact of these measures on the transfer of cultural items; traditional art and architecture, biological and fossil material, human remains; contexts in which issues have arisen, such as stolen cultural property, property acquired during armed conflict and in colonial settings, and property collected in the field or excavated; international, national, and state law, including UNESCO convention on illicit transfer of cultural property, U.S. Archaeological Resources Protection Act, Native American Graves Protection and Repatriation Act; how developing professional ethics codes affect the concept of cultural property.

091:619 (LAW:9600) Farm Labor Regulation arr.

Farm labor regulation; seminar.

091:620 (LAW:9806) Law and Technology Seminar arr.

Production of a model statute addressing the range of issues in the selected subject area with suggested solutions; definition of statute's scope, research projects to identify existing law and develop competing ideas and approaches; further definition and a vote on the statute's scope and policies; further research memoranda as the statute takes shape; drafting of the statute with seminar review sessions; students work as a draft committee modeled after the Commission on Uniform State Laws.

091:621 (LAW:9627) Global Corruption 2-3 s.h.

Range of corruption issues in key countries; legislative, regulatory, and other methods used to combat it; roles of lawyers in advising and litigating on business and other corruption cases; developing anti-corruption programs; a growing legal specialty, omnipresent in international legal practice, as lawyers advise on the Foreign Corrupt Practices Act in the U.S., national anti-corruption and anti-fraud regulation in countries around the world, and international agreements in the area; law and development specialists' work with national governments, the United Nations, regional bodies, and nongovernment organizations to craft solutions to this set of problems.

091:622 (LAW:9681) Elder Law arr.

Qualification for Medicaid, elder abuse and neglect, discrimination in employment and elsewhere, retirement pension planning and taxation, elderly patients' rights in nursing homes; conservatorships and guardianships.

091:623 (LAW:8362) Critical Race Theory arr.

Race relations and racial discrimination in America from perspectives of the Critical Race Theory movement (CRT); affirmative action, hate speech, queer theory, voting rights, postmodernism, liberalism, Asian-critical theory, Latin-critical theory, federal Indian law, critical white studies; critical race feminism—essentialism, motherhood, lawbreaking, employment law, sexual harassment, global issues.

091:624 (LAW:9579) Cyberspace Law Seminar arr.

The wide range of legal and public policy issues created by the newly-emerging electronic technologies; focus on student research, writing, presentations, discussion.

091:625 (LAW:9656) The History of Free Labor arr.

Employer and employee rights and major changes in the common law of employment; actual rights, obligations, and protections on the job historically; dramatic changes in 19th century law; readings from original sources on free and unfree labor, such as slavery laws, the Thirteenth Amendment, supreme court cases dealing with free labor, treatises, significant court cases, modern legal and historical interpretations of free labor's history in American Law.

091:629 (LAW:9639) History of Regulation of Smoking and Tobacco arr.

Regulation of smoking and tobacco use; history, beginning with 19th and early-20th centuries; state statutes and case law; OSHA, EPA, and FDA regulations; class action litigation, involvement of law firms in formulating tobacco company strategies, use of medical studies, economic history of the tobacco industry.

091:631 (LAW:9695) Intellectual Property Research and Writing arr.

Opportunity to develop research and writing skills for intellectual property practice; basic intellectual property law research exercises; major drafting assignment, typically in intellectual property litigation. Recommendations: 091:286 (LAW:8643).

091:632 (LAW:9631) Higher Education and the Law arr.

Practice of law in and for a complex institution; problems confronting attorneys in higher education, doctrinal issues prevalent in a university setting; focus on real or hypothetical problems considered in light of background reading rather than doctrinal analysis.

091:633 (LAW:9701) International Criminal Law arr.

How a single crime may occur in or harm more than one nation; questions addressed: which courts have jurisdiction, whose law governs; when countries may apply their criminal law extraterritorially; collaborative enforcement; the International Criminal Court.

091:635 (LAW:9720) UI Center for International Finance & Development

arr.

Study of problems and issues in the complex world of international finance and development; focus on the International Monetary Fund and the World Bank; research and writing a new issue for the UICIFD web site.

091:636 (LAW:9723) Seminar on Islamic Law and Government

3 s.h.

Islamic legal and political legacy from formative period until modern time; critical analysis of logic and context of development; development of jurisprudential, legal, and political literature; overview of theories and practices of governance in Islam beginning with Caliphate system and ending with modern nation-state models. Same as 032:225 (RELS:6723).

091:642 (LAW:9692) Innovation, Business, and Law Colloquium

arr.

Varied topics: antitrust, intellectual property, corporate, securities law, or the interfaces between those areas; taught by one or more College of Law faculty with some sessions taught by expert visitors from other institutions, including government officials and representatives of private enterprise; interdisciplinary course offered under the aegis of the Iowa College of Law Center on Innovation, Business, and Law.

091:644 (LAW:9739) Topics in Jurisprudence Seminar

arr.

Opportunity to explore certain questions of jurisprudence at greater depth; topics may vary, ranging from foundational questions to issues with strong practical implications for public policy, remarkable career of conventionalism in contemporary American legal theory, debate over whether there is one and only one right answer to legal questions, foundation of legal system concerns, or questions of great practical import (e.g., nature and limits of public shaming or issues of criminal punishment). Recommendations: 091:280 (LAW:8577).

091:646 (LAW:9849) Nonprofit and Philanthropic Organizations

arr.

Issues in law and policy relating to philanthropic and nonprofit institutions; creation, role, nature, and history of nonprofit entities; tax exemption, tax treatment (including property and donor tax issues); political and legislative activities; roles of members, directors, officers; problems of external regulation, accreditation, ethics; special issues for religious organizations, community foundations, private foundations, universities; development of philanthropic and nonprofit activity in foreign jurisdictions.

091:647 (LAW:9787) The Law of the Frontier: U.S. 1820-1870

arr.

How law really functioned at the edges of the nation's jurisdictional limits; earlier patterns of power, adjustments for environmental circumstances; difference between concepts of law and justice.

091:649 (LAW:9803) Law and Social Science

arr.

Fundamental legal concepts and theories built on empirically testable assumptions about human behavior and decision making; testing common sense assumptions against relevant psychological and social neuroscience research; focus on domains of criminal law and criminal procedure.

091:650 (LAW:9767) Law and Colonialism

arr.

The role of law in colonial and imperial expansion, with focus on the history of Anglo-American empires; how importation of common law as part of the colonial enterprise changed indigenous societies (e.g., labor relations, property rights, family law, criminal justice); use of the rule of law to justify colonialism, law as a practical dilemma for administrators; how colonialism's legal history fits into broader theories of imperialism; current globalization of common law.

091:653 (LAW:9799) Law and Popular Culture

arr.

How law and popular culture influence each other; viewing of selected films and a TV series involving different aspects of law and legal institutions; readings related to each film that raise issues in cultural studies, and legal and film theory.

091:655 (LAW:9811) Law of War, Peace, and Military Affairs

arr.

Three aspects of law's efforts to govern military affairs: international law of war, U.S. law regulating foreign commitment of the nation's military forces, rights of individual soldiers (particularly women, homosexuals, religious observers).

091:656 (LAW:9801) Law and Religion

3-4 s.h.

Role of law in ongoing conflicts over the relationship between religion, morality, and society in the United States.

091:657 (LAW:9826) LL.M. Seminar

arr.

Basic research and analytical methodologies for the international and comparative law fields; workshop approach to project proposals, drafts.

091:658 (LAW:9616) Seminar on the First Amendment

arr.

Issues decided in the Supreme Court's unfolding jurisprudence under the First Amendment; varied topics from year to year.

091:659 (LAW:9758) Law and Lawyers in Literature

arr.

Fundamental societal issues and ethical questions examined through discussion of literary works, including novels and plays by writers such as Camus, Coetzee, Dostoyevsky, Durrenmatt, Faulkner, Ibsen, Kafka, Melville, Schaffer, Thucydides.

091:660 (LAW:9455) Medical Tutorial for Law Students

arr.

Participation on medical and/or surgical rounds under supervision of attending physician; didactic sessions on legal, medical, and ethical issues arising from the clinical experience, and issues such as peer review, credentialing, quality assurance, cost containment, AIDS, reproductive technology; recent developments in medical technologies. Cosponsored by Carver College of Medicine. Prerequisites: 091:261 (LAW:8562).

091:661 (LAW:9818) Legal Issues: Intercollegiate Athletics

arr.

Legal issues affecting college and university athletics and athletes; includes drug testing, recruitment, gender equity (Title IX), NCAA regulations, endorsement contracts, coaching contracts, trademark licensing, and broadcasting rights.

091:662 (LAW:9621) Freedom of Expression

3 s.h.

London Law Consortium, available through Study Abroad.

091:663 (LAW:9528) Advanced Topics in International Law

arr.

Contemporary problems of public international law and policy; issues arising from armed conflict, use of force, pacific settlement of disputes; human rights law and policy (individual civil, political, economic, social, and cultural rights; group rights such as self-determination, development, environment, peace); trade and development; environmental law and policy (e.g., climate change, species extinction, pollution).

091:665 (LAW:9833) National Security Law and Government Powers in Emergencies

arr.

National security powers of the federal government in national and international emergencies and crises; constitutional and statutory framework within which national security powers are exercised; conflicts between national security powers and individual rights, war powers and the rules of engagement, apprehension of foreign aliens through extradition or force; military tribunals and indefinite detentions of suspected terrorists, government practices in withholding information from the public and extracting critical information through extraordinary conduct, imposition of obligations on the United States under international law.

091:666 (LAW:9841) Notable American Trials: Trial Skills

arr.

Trial skills and strategy; real trial transcripts, contemporary accounts of the selected trials, secondary literature evaluating what actually happened in the courtroom and relevant history; skills of opening and closing argument, *voir dire*, direct and cross examination, witness selection, use of exhibits.

091:667 (LAW:9717) Iowa Medical Innovation Group Seminar

arr.

Team of law, medicine, engineering, and business students observe medical procedures, interview surgical and other medical personnel, and originate an idea for a medical device; design and produce figures or prototype, reports on patentability, and draft patent application; design business model for marketing with required legal documents, which may include entity documents and licensing documents; law students procure necessary intellectual property rights, business association documents, contracts, and licensing agreements.

091:670 (LAW:9853) Advanced Issues in Nonprofit Organization Law

arr.

Topics relating to nonprofit organizations; may include formation and dissolution of nonprofit organizations (NPOs), internal governance and external regulation, accountability and ethics, tax issues, self-regulation in the nonprofit sector, categories of nonprofits (e.g., religious organizations, philanthropic foundations, charitable trusts, mutual benefit societies), international and comparative perspectives on nonprofits and nongovernmental organizations (NGOs); research and writing seminar.

091:671 (LAW:9933) Selected Topics in Health Care Law

arr.

Examination and analysis of issues relating to the delivery of health care; topics may include doctor/patient relationship, financing of health care, public health issues, bioethics issues; preparation and presentation of papers in seminar.

091:672 (LAW:9912) Selected Issues in Family Law

arr.

In-depth look at an issue or set of issues in family law; relevant cases, statutes, scholarship; class visits or on-the-job observations with community members who play roles in the family law process being examined.

091:673 (LAW:9920) Federal Criminal Sentencing

arr.

Sentencing as a key stage of the criminal justice system; purposes of sentences, guilty pleas, and plea bargaining; procedural rights during the sentencing process; types of sentencing statutes, federal guidelines, and the federal death penalty; supervised release, probation, and revocation of supervised release and collateral; consequences and sanctions.

091:677 (LAW:9929) Selected Topics in Consumer Law

arr.

Topics relevant to broad issues in consumer law—effects of deregulating the consumer credit industry, rapid growth of consumer borrowing in other nations, merits of proposed policy reforms in consumer law; may include credit cards, usury regulation, disclosure requirements for consumer transactions, unfair and deceptive practices lawmaking, expansive uses of credit reporting; focus intersection of economic, social, and political consequences of current approach to consumer law; interdisciplinary perspectives. Recommendations: course in consumer law, debt transactions, or bankruptcy.

091:679 (LAW:9941) State Constitutional Law

arr.

Power of state courts to independently interpret state constitutional provisions that are identical or similar to the federal counterparts; various approaches taken by state courts with respect to this issue; in-depth analysis of cases where a state court has departed from the federal interpretation. Prerequisites: 091:232 (LAW:8280).

091:680 (LAW:9959) Supreme Court Seminar

arr.

Supreme Court practice, procedure, jurisdiction; the art of opinion writing; in-depth analysis of cases on the court's pending docket; writing briefs, conducting research, conferencing cases sitting as a mock Supreme Court, assigning and preparing opinions, soliciting votes of colleagues; preparation of two opinions.

091:683 (LAW:9906) Rethinking Public International Law

arr.

Major transformations of public international law; how to integrate human rights into a system designed to secure world peace; transformation of laws of war; emergence of new sites of authority (supranational, international); blurring of line between public international law and constitutional law; conflicts of interpretation in relations between major players (United States, European and Asian countries).

091:684 (LAW:9877) The Future of Public Law

arr.

Addresses slowly developing sense of crisis in public law worldwide, arising from attempt to use a model of law as an autonomous force in society that arose in the development of Western legal traditions as a way of resolving private disputes and only later applied to resolution of disputes between private citizens and the state; how this model is called upon to resolve disputes of great political salience involving various state or supra-national actors increasingly in the modern world; can public law provide what is expected of it, and is public law an experiment that has run its course?

091:685 (LAW:9901) Seminar: Religion and Law

3-4 s.h.

The role of law in ongoing conflicts over the relationship between religion, morality, and society in the United States. Same as 032:240 (RELS:6240).

091:693 (LAW:9980) Transitional Justice

arr.

How states resolve and manage tensions between objectives of social peace, justice, reconciliation (e.g., redress past abuses of basic rights); judicial and nonjudicial responses, including criminal prosecution, truth-seeking initiatives, private lawsuits for compensation from wrongdoers, monetary reparations by states to victims, displacement of perpetrators from prominent positions; strengths and weaknesses of each approach and conditions under which an approach is suitable, examined through countries including South Africa, Peru, Chile, Argentina, Rwanda, Sierra Leone, former Yugoslavia; how methods increasingly are combined to achieve comprehensive societal remediation in aftermath of abuse.

Law Study Abroad

660:823 (LWAB:8230) Program in Comparative Law in Bordeaux, France arr.

Intensive course work in France taught by professors from Iowa and France. Five-week courses in May and June.

660:824 (LWAB:8240) London Law Consortium arr.

Study abroad program for students from seven law schools (Iowa, Georgia, Utah, Kansas, Missouri-Columbia, Indiana-Bloomington, Chicago-Kent); American and British law taught by faculty drawn from the seven schools and British universities; clinical law program, work with British barristers and solicitors.

660:825 (LWAB:8825) International and Comparative Study Abroad arr.

One-week course in London, England.

Carver College of Medicine

Acting dean

Donna L. Hammond

Executive associate dean

Senior associate dean, scientific affairs

Michael Apicella

Associate dean, clinical and translational science

Patricia L. Winokur

Associate dean, student affairs and curriculum

Christopher Cooper

Associate dean, faculty affairs and development

Lois J. Geist

Interim associate dean, cultural affairs and diversity

Denise Martinez Adams

Associate dean, information technology

Boyd Knosp

Associate dean, graduate medical education

Mark C. Wilson

Associate dean, clinical affairs, and executive director, University of Iowa Physicians

Craig Syrop

Assistant deans

David Asprey, Daniel Fick, James D. Henderson, Nancy Rosenthal, Roger D. Tracy

Undergraduate majors: clinical laboratory sciences (B.S.); nuclear medical technology (B.S.); radiation sciences (B.S.)

Professional degree: M.D.

Graduate degrees: M.A.; M.M.E.; M.P.A.S.; M.P.T.; M.S.; Ph.D.

Web site: <http://www.medicine.uiowa.edu>

The Roy J. and Lucille A. Carver College of Medicine is an integral part of The University of Iowa. It contributes to the education of several thousand University students, is home to ground-breaking research in a wide array of disciplines, and provides a statewide educational health care resource.

The Carver College of Medicine is the only college in Iowa that offers a curriculum leading to the Doctor of Medicine. It also offers a Bachelor of Science in clinical laboratory sciences, nuclear medicine technology, and radiation sciences (see "Undergraduate Programs" later in this Catalog section) as well as Master of Science and Doctor of Philosophy degrees in several disciplines, the Master in Medical Education, the Master of Physician Assistant Studies, and the Doctor of Physical Therapy (see "Graduate Programs" later in this section).

Doctor of Medicine and other health science students have a number of opportunities to gain experience in private medical offices and community hospitals. M.D. graduates may pursue further training in the specialties of family medicine, internal medicine, surgery, and pediatrics at one of 10 University of Iowa-affiliated residency programs in six Iowa cities. In addition, they have access to two transitional-year programs.

The college also participates in the education of students in the Colleges of Dentistry, Nursing, Pharmacy, and Public Health and in the life-sciences and health-related

programs of the College of Liberal Arts and Sciences, the College of Engineering, and the Graduate College.

Health professionals from throughout the Midwest take part in the college's year-round program of continuing medical education. They update their knowledge and skills through refresher courses, clinics, and conferences. The college also offers a variety of services in support of Iowa physicians and community hospitals.

In addition to providing education and resources for physicians and other health care organizations, the college addresses broad public issues of distribution and organization of health care services. Its faculty members advise and serve on national, state, and regional health planning councils, health boards, and various health agencies; some faculty members also take part in the University's Center for Health Services Research.

Accredited by the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges, the Carver College of Medicine meets the requirements of all state licensing boards. Its M.D. diploma admits the holder to all privileges granted to graduates of all medical colleges before such boards. All other professional programs administered by the college are accredited by their respective accrediting bodies.

Professional Program (M.D.)

The Doctor of Medicine is a four-year program that prepares students to practice primary care medicine and to pursue further education and training in specialized areas of medicine. For a description of the M.D. curriculum and information about admission to the program, financial support, and academic rules and procedures, see Doctor of Medicine (p. 942) in the Catalog.

Undergraduate Programs

The Carver College of Medicine offers a Bachelor of Science with majors in clinical laboratory science, nuclear medicine technology, and radiation sciences. The clinical laboratory sciences major is offered through a partnership with the University of Nebraska Medical Center. See Clinical Laboratory Sciences (p. 938), Nuclear Medicine Technology (p. 974), and Radiation Sciences (p. 1010) in the Catalog.

Undergraduate study in the Carver College of Medicine is guided by the following academic rules and procedures.

Health Insurance, Immunizations

All health professions students are required to provide proof of health insurance coverage annually. Contact the University Benefits Office or visit its web site.

All health sciences students must show proof of health examinations and screenings annually. For more information, contact Student Health Service and see Forms and Reports on its web site.

Application for Degree

Students who want to be considered for graduation must file an Application for Degree with the Office of the Registrar before the deadline for the session in which the degree is to be conferred. Students who want to have a minor listed on their transcript must indicate this on

the degree application form so that completion of the requirements for the minor can be verified.

Academic Recognition

The University of Iowa and the Carver College of Medicine recognize academic achievement every fall and spring semester.

GRADUATION WITH DISTINCTION

Graduating students may be recognized for their scholastic achievement upon recommendation by their academic program and with the dean's approval. Graduation with distinction, high distinction, or highest distinction is determined by cumulative and University of Iowa grade-point average. Highest distinction requires a g.p.a. of 3.85 or higher; high distinction requires a g.p.a. of 3.75 to 3.84; and distinction requires a g.p.a. of 3.65 to 3.74. Radiologic technology certificate course grades are not included in grade-point-average.

To graduate with distinction, students must have completed a minimum of 60 s.h. in residence at The University of Iowa and must have completed 45 of the final 60 s.h. before their final semester of registration.

Students graduating with distinction are recognized at graduation and a notation is added to their transcript and diploma.

DEAN'S LIST

Undergraduate students who achieve a g.p.a. of 3.50 or higher on 12 s.h. or more of University of Iowa graded course work during a given semester or summer session and who have no semester hours of I (incomplete) or O (no grade reported) during the same semester are recognized by inclusion on the Dean's List for that semester. Students may qualify for the Dean's List with fewer than 12 s.h. of graded credit if deemed appropriate by the college.

PRESIDENT'S LIST

University of Iowa undergraduate students who achieve a g.p.a. of 4.00 on 12 s.h. or more of University of Iowa graded course work and who have no semester hours of I (incomplete) or O (no grade reported) for two consecutive semesters (excluding summer sessions) are recognized by inclusion on the President's List.

Financial Support

Students are eligible to apply for undergraduate financial aid. Scholarships, grants, loans, and part-time job placement are administered by the University's Office of Student Financial Aid. Part-time work in related areas is sometimes available.

Registration, Credit, Grading

REGISTRATION

Information about tuition and fees, registration, and deadlines is available from the Office of the Registrar. Students who add or drop a course after registration or who register late are assessed a fee. Each course dropped after the deadline results in a W (withdrawal) on the transcript (see Changes in Registration below). Students are not allowed to register for full-semester courses after the second week of the semester or the first week of the summer session. Students must register for off-cycle courses before the first day of the course. The maximum permitted registration is 20 s.h. in a regular semester and 10 s.h. in the summer session. Students must obtain

permission from the head of the division to register for more than the maximum semester hours allowed.

CHANGES IN REGISTRATION

Courses may be added with the signatures of the advisor and the course instructor at any time during the first one-fifth of the course. They may be dropped at any time during the first two-thirds of the course. Approval is required from the dean of the Carver College of Medicine for all other changes in registration and is granted only in extraordinary circumstances. Students are assigned a mark of W (withdrawn) for any course dropped after the first one-fifth of the course. Students whose drop of one or more courses results in a registration of 0 s.h. for the semester must follow the procedure for withdrawal from the University instead of the add/drop procedure.

Students who have registered for courses offered for variable or arranged credit may change the number of semester hours with the signatures of the instructor, the advisor, and the head of the division at any time before the end of the first two-thirds of the course.

Other changes in registration (such as to audit for zero credit) may be made only during the first one-fifth of the course.

It is the student's responsibility to see that the change of registration form is approved by the necessary individuals and is delivered to the Registration Center. Changes in registration become effective on the date the completed form is submitted to the Registrar's Service Center.

WITHDRAWAL OF REGISTRATION

Students may withdraw registration without academic penalty at any time before the end of the first four-fifths of the course, but no credit is given for the course. Later withdrawal results in automatic assignment of an F. Students who withdraw are not reinstated after the deadline for that session.

AUDITING COURSES

Students may register to audit a course with approval of the appropriate program director and course instructor. In addition to obtaining these signatures, students must register for zero credit in the course to be audited. The mark of R (registered) is assigned if the student's attendance and performance are satisfactory; if they are unsatisfactory, the mark of W (withdrawn) is assigned. Courses completed with a mark of R do not meet any college requirement and carry no credit toward graduation. Auditing may not be used as a second-grade-only option.

COURSES OFFERED BY OTHER UNIVERSITY OF IOWA COLLEGES

Students who enroll in courses offered by other University of Iowa colleges are governed by those colleges' rules in matters regarding the courses. See Policy Governing Students Enrolled in Courses Outside Their Own College or Degree Program.

IN-RESIDENCE REQUIREMENT

The in-residence requirement may be met by earning the final consecutive 30 s.h. in residence at The University of Iowa, or 45 of the last 60 s.h. in residence, or an overall total of 90 s.h. in residence.

Nonresident instruction includes course work and correspondence study at other colleges, universities, and

institutions. Undergraduate course work in other University of Iowa colleges counts toward in-residence requirements.

DUPLICATION AND REGRESSION

Duplication occurs when students take the same course more than once or when they take a course that duplicates the content of a course they already have completed satisfactorily. Regression occurs when students take a course that is less advanced or at a lower level than one in the same subject that they already have completed satisfactorily. Duplication and regression are assessed by the registrar at the time of graduation analysis. Semester hours earned by duplication or regression do not count toward graduation.

MINIMUM GRADE REQUIREMENT

Students must earn a g.p.a. of at least 2.00 each semester in all college work attempted, all work undertaken at The University of Iowa, and all graded work attempted after admission to the Carver College of Medicine. Students enrolled in a program that uses the pass/fail/honors grading system must pass all courses required to complete the program.

Students must earn a C or higher in professional specialty (modality) courses.

GRADING PROCEDURES

Grading procedures vary from program to program. Students should consult individual program policy statements for information.

PASS/NONPASS

Students may take a maximum of 15 s.h. of course work pass/nonpass (P/N). Students must be in good academic standing (not on academic probation) to be eligible for the pass/nonpass option. They may take a maximum of two P/N courses in one semester. Courses taken P/N may not be used to satisfy General Education requirements or requirements for a major or a minor. Students may use P/N for elective courses that are not part of their major.

P/N registration must be completed during the first 10 days of a fall or spring semester, the first one and a half weeks of a summer session, or the first one-fifth of an off-cycle course. Students must have the approval of the advisor and the instructor and must submit a P/N form with the advisor's and instructor's signatures to the Registration Center by the appropriate deadline.

Earned grades of C-minus and higher are recorded as P; earned grades of D-plus and lower are recorded as N. Credit from P/N courses is not included in grade-point-average calculations, but courses graded P count toward graduation.

SECOND-GRADE-ONLY OPTION

Repeating courses for the second-grade-only option is allowed in extraordinary circumstances. To repeat a course for the second-grade-only option, students must obtain the signatures of the course instructor, the program director, and the dean on a form available from the dean's office; the signed form must be returned to the Registrar's Service Center before the end of the first one-fifth of the course. Both grades remain on the permanent record, but only the second one is used to calculate grade-point average and credit earned. Students using the second-grade-only option for courses that are not part of their

major must follow the procedure for the college that offers the course.

INCOMPLETE

A grade of I (incomplete) may be reported if the reasons for inability to finish the course satisfactorily are acceptable to the program director and the course instructor. There also must be evidence that the course work will be finished within a reasonable length of time, usually by the end of the next academic session. Incompletes not removed by the deadline for submission of final grades for the next session result in the assignment of a grade of F. Changing the grade when an incomplete has been converted to an F requires the signature of the dean on a change-of-grade form.

REPORTS TO STUDENTS

Instructors notify any student whose work falls below the minimum acceptable level once the problem is recognized. Grades are reported on the student's transcript, following University protocol. No formal midterm reports are given.

Degrees and Minors

TWO BACHELOR'S DEGREES

Students who want to earn two bachelor's degrees, each from a different college, must graduate from one major, must apply to the college of the second major, and must complete the degree requirements for the second major, including the residency requirement.

SECOND BACHELOR'S DEGREE

Students who already hold a bachelor's degree and wish to earn an additional bachelor's degree must complete at least 30 s.h. consecutively in the Carver College of Medicine and must meet college and program degree requirements. Individuals interested in earning a second bachelor's degree must apply for admission to the degree program at the University's Office of Admissions.

MINORS

Students graduating from the Carver College of Medicine may earn a minor or minors in any degree-granting department or program in the college outside of their major department or in another college of the University by meeting that department's requirements for the minor.

Academic Progress, Probation, Dismissal

Students are expected to maintain satisfactory academic and professional standards and to demonstrate reasonable progress toward the Bachelor of Science and certificate of completion. Students who fail to maintain satisfactory academic progress or professional standards of behavior as determined by their program may be placed on probation or dismissed from the program. Probation serves as a warning that the student will not graduate unless his or her academic performance and/or professional behavior improves.

Students on probation are restored to good standing by the program director upon evidence that the problem has been corrected. Such action is usually taken at the end of a semester or session. Entering students may be admitted on probation if they fail to meet the minimum stated standards for admission.

Continued unsatisfactory scholarship or unprofessional behavior may result in dismissal from a program. Students dismissed from a program must reapply for admission

through the regular, established program admissions process, following review by a faculty committee, at least four months before the requested date of readmission.

Students placed on probation or dismissed from a program are notified in writing by the dean; copies are placed in their files. An academic probation notation is placed on the transcript.

In order to be restored to good standing, students placed on academic probation during a semester or summer session must have a University of Iowa g.p.a. and a cumulative g.p.a. of at least 2.00 by the end of the next semester (for full-time students) or by the time they have earned the next 8 s.h. (for part-time students). Students on academic probation who fail to meet the grade-point average requirement in the designated time frame for restoration to good standing are subject to dismissal at the end of the semester.

Students are expected to attend classes regularly. Students who miss classes or examinations because of illness are expected to present evidence that they have been ill. Any other absences must be approved in advance by the course instructor.

Any offense against good order committed by a student in a classroom, clinical setting, or laboratory may be dealt with by the instructor or referred to the program director. The instructor reports in writing any disciplinary action taken against a student to the program director. Repeated or exceptional instances are reported to the dean.

Academic Misconduct

PLAGIARISM AND CHEATING

All cases of plagiarism and cheating in the Carver College of Medicine are reported to the dean with a statement of relevant facts. The program director and the instructor may submit recommendations for appropriate disciplinary action.

The individual instructor may reduce the student's grade, including assignment of the grade of F in the course. A report of this action is sent to the student, the program director, and the dean.

The dean, or a faculty committee appointed by the dean, may impose the following or other penalties, as the offense warrants: disciplinary probation, requirement of additional hours for the degree, suspension from the program for a period of time, or recommendation of expulsion from the program.

APPEALS PROCEDURE

Students who want to appeal a decision should appeal in writing to the dean within two weeks after the date of receipt of the decision in writing.

Graduate Programs

The Carver College of Medicine offers graduate programs leading to the M.S. in pathology (p. 984); the M.S. and Ph.D. in biochemistry (p. 930), free radical and radiation biology (p. 953), microbiology (p. 963), molecular physiology and biophysics (p. 968), and pharmacology (p. 991); the Ph.D. in anatomy and cell biology (p. 924) and physical rehabilitation science (p. 994); the Master in Medical Education (p. 959) (M.M.E.); the Master of

Physician Assistant Studies (p. 1002) (M.P.A.S.); and the Doctor of Physical Therapy (p. 994) (D.P.T.).

It also offers a joint M.D./Ph.D. degree through the Medical Scientist Training (p. 961) Program; see "joint M.D./Graduate Degrees" in the Doctor of Medicine (p. 942) section of the Catalog.

Many of the college's faculty members participate in the Graduate College's interdisciplinary programs in genetics, immunology, molecular and cellular biology, and neuroscience, and in its Biosciences Program.

The Biosciences Program gives graduate students the opportunity to become acquainted with basic molecular research in the Departments of Anatomy and Cell Biology, Biochemistry, Biology, Biomedical Engineering, Chemistry, Communication Sciences and Disorders, Microbiology, Molecular Physiology and Biophysics, Pharmacology, and the Programs in Free Radical and Radiation Biology, Genetics, Human Toxicology, Immunology, Molecular and Cellular Biology, Neuroscience, and Physical Therapy and Rehabilitation Science. The Biosciences Program offers graduate students flexibility during their first year of study, after which they select the department or program in which they will earn their Ph.D. degree. See Biosciences (Graduate College) for details.

Interdisciplinary Programs and Centers

The college's interdisciplinary programs and centers draw strength from college faculty members and the facilities available to them, without regard to departmental units or to the distinction between graduate and postgraduate training. For more information, contact the senior associate dean for scientific affairs.

The following centers are subdivisions of the Carver College of Medicine.

Alzheimer's Disease Research Center

The Alzheimer's Disease Research Center studies Alzheimer's disease and related neurological conditions from the viewpoint of neuroanatomy, neuroimaging, neuropsychology, and neurochemistry. The center's purposes are to improve the diagnosis and treatment of these conditions, to disseminate information on new research to the public, and to contribute to a better understanding of the neural basis of cognition.

Carver Genetic Testing Laboratory

The John and Marcia Carver Nonprofit Genetic Testing Laboratory provides genetic testing for rare eye diseases, especially diseases so rare that commercial tests are unavailable for them. The laboratory's test results provide information to patients and their families while keeping the tests affordable.

Holden Comprehensive Cancer Center

The Holden Comprehensive Cancer Center (HCCC) coordinates the efforts of University of Iowa faculty and staff in research, education, and clinical programs related to all aspects of cancer. The HCCC is recognized by the National Cancer Institute as an NCI-designated cancer center and has "comprehensive" status, a designation that recognizes the depth and breadth of interdisciplinary

cancer research activity taking place at the University of Iowa.

Iowa Cardiovascular Center

The Iowa Cardiovascular Center coordinates research and training programs related to cardiovascular diseases. It encompasses several programs: Program Project Grant on Integrative Neurobiology of Cardiovascular Function, Program Project Grant on Cerebral Blood Vessels, Program Project Grant on Oxidative Mechanisms in Vascular Disease, Program Project Grant on Genetic and Signaling Mechanisms in the Central Regulation of Blood Pressure, Program Project Grant on Airway Physiology and Pathophysiology in a Porcine CF Model, Program Project Grant on Gene Therapy for Cystic Fibrosis Lung Disease, a Leducq Foundation Consortium grant, and a Cystic Fibrosis Foundation research and development program. It also coordinates several training programs and a program of other interdisciplinary research supported by a number of individual project grants. The center occupies two floors of cardiovascular research laboratories and administrative offices in the Medical Research Center.

Iowa Mental Health Clinical Research Center

The major emphasis of the Iowa Mental Health Clinical Research Center is the study of schizophrenia. The center provides the facilities for research linking the clinical picture of the illness with its underlying neurobiology. The center's seven research units conduct the necessary integrative and interdisciplinary research to advance knowledge about the disease.

Facilities

Education and Patient Care Facilities

Carver College of Medicine classes are taught in the Medical Education and Research Facility, Bowen Science Building, Medical Education Building, Medical Laboratories, and in University of Iowa Hospitals and Clinics classrooms and conference rooms.

The Medical Education and Research Facility contains the college's four learning communities. The communities group students who are at different stages in their medical education, encouraging peer-to-peer learning and emphasizing leadership and community service. Each learning community features small-group rooms, study and social spaces, computer workstations, a kitchen area, and staff offices. The Medical Education and Research Facility also houses the Performance-Based Assessment Program, which evaluates students' clinical and communications skills by reviewing simulated physician-patient encounters recorded in mock patient examination suites.

The Hardin Library for the Health Sciences is centrally located on the health sciences campus.

Students acquire clinical-skills experience at the 718-bed University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, and in affiliated hospitals and ambulatory care centers throughout Iowa.

University of Iowa Hospitals and Clinics serves as a tertiary care center for Iowa and portions of adjoining states. Many patients are referred to UI Hospitals and Clinics for care and treatment not available in their home communities.

Research Facilities

The Eckstein Medical Research Building provides space, mechanical systems, and support services that offer flexibility and adaptability for current and future research. The facility enables interdisciplinary groups of faculty scientists, each of whom is researching a human biology problem at the advancing edge of science, to conduct research in close proximity to other select researchers. It also is home to the Biomedical Research Store, which provides University of Iowa investigators with common molecular and cell biology enzymes, reagents, and kits.

The Medical Education and Research Facility houses research laboratories in addition to space for medical education. Connected to it is the Carver Biomedical Research Building. With a state-of-the-art nuclear magnetic resonance facility on its lower level and five floors of laboratories above, the Carver Biomedical Research Building greatly expands the college's research capabilities.

Other buildings that house research labs include Medical Laboratories, Bowen Science Building, Medical Education Building, Medical Research Facility, Medical Research Center, and buildings at the University of Iowa Research Park.

The Office of Consultation and Research in Medical Education is staffed by education specialists from a range of disciplines who serve the faculty, staff, and administrators of all Carver College of Medicine programs. The office provides educational consultation, initiates and cooperates in educational research endeavors, and conducts faculty development activities.

Core Research Facilities are centralized laboratories dedicated to developing and providing resources that facilitate biomedical research. They are available on a fee-for-service basis to University of Iowa investigators as well as to entities outside the University.

Currently under construction is the Pappajohn Biomedical Discovery Building. The 200,000-square-foot, six-story facility, located adjacent to the Medical Education and Research Facility and the Carver Biomedical Research Building, is scheduled for completion in 2014. It will contain laboratories and office space and will house the Pappajohn Biomedical Institute, which will bring together scientists from across campus to collaborate on high-risk, high-yield life sciences research.

Nondepartmental Courses

Most Carver College of Medicine courses are offered by the college's departments and programs. They are listed and described in the corresponding General Catalog sections; see the links under "Index: Academic Programs" toward the top of this page. The college also offers the following nondepartmental courses.

050:001 (MED:8001) Medical Elective	arr.
050:003 (MED:8003) Clinical Clerkships	arr.
050:005 (MED:8005) Medical Student Research Fellowships	0 s.h.

- 050:006 (MED:8006) Doris Duke Clinical Research Fellowship** 0 s.h.
Clinical research projects under University of Iowa faculty mentorship. Requirements: leave of absence from Carver College of Medicine.
- 050:120 (MED:8102) Medical Cell Biology** 2 s.h.
- 050:147 (MED:3740) End-of-Life Care for Adults and Families** 2-4 s.h.
End-of-life issues in care of adults, older adults, and their families. Requirements: RN license or 096:141 (NURS:3530). Same as 096:147 (NURS:3740), 153:147 (ASP:3740), 046:146 (PHAR:3740).
- 050:162 (MED:8105) Foundations of Clinical Practice I** 5 s.h.
- 050:163 (MED:8115) Foundations of Clinical Practice II** 5 s.h.
- 050:164 (MED:8205) Foundations of Clinical Practice III** 5 s.h.
Experience practicing and expanding clinical skills and self-directed learning skills in clinical medicine; understanding medical practice in a social context. Prerequisites: 050:162 (MED:8105) and 050:163 (MED:8115). Requirements: second-year M.D. enrollment.
- 050:165 (MED:8215) Foundations of Clinical Practice IV ICD** arr.
Basic diagnostic considerations in each of medicine's clinical disciplines, as required of primary care providers. Prerequisites: 050:162 (MED:8105), 050:163 (MED:8115), and 050:164 (MED:8205). Requirements: second-year M.D. enrollment.
- 050:168 (MED:8040) Teaching of Physical Exam Skills** 1-2 s.h.
Components of complete physical exam and educational techniques for teaching such skills: teaching of physical exam components to first-year students. Requirements: fourth-year M.D. enrollment.
- 050:170 (MED:8300) Clinical Beginnings** 1 s.h.
Orientation to third-year clerkships; technical skills, simulated patient activities, competence with the physical exam.
- 050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants** 5 s.h.
Practice and expansion of clinical skills; development of broad understanding of the practice of medicine in social context; strengthening of self-directed learning skills in clinical medicine. Prerequisites: 117:101 (PA:8209). Requirements: Physician Assistant Program enrollment.
- 050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants** arr.
Basic diagnostic considerations in each of medicine's clinical disciplines, as required of primary care providers.
- 050:176 (MED:8076) Bioethics and Humanities Seminar** 1 s.h.
Broad range of topics in bioethics and medical humanities, including philosophical principles, clinical ethics, research ethics, medical professionalism, narrative ethics, and historical and cultural aspects of medicine. Requirements: Carver College of Medicine student in humanities distinction track.
- 050:178 (MED:8041) Facilitation of Patient-Centered Learning** 1-2 s.h.
Experience in facilitating patient-centered learning groups; case discussion, critique of student presentations and assignments, clinical insight, evaluation of student performances.
- 050:180 (MED:8301) Community-Based Primary Care** arr.
Introduction; clinical activities, work with community agencies and resources, didactic and conferences. Requirements: M.D. enrollment.
- 050:183 (MED:8213) Healthcare Ethics, Law, and Policy** 2 s.h.
Ethical and legal aspects of health care delivery.
- 050:185 (MED:8070) The Examined Life: Writing and Medicine** 1 s.h.
Literature, essays, poetry; discussion of participants' writing; students prepare portfolios of their own writing.
- 050:188 (MED:8071) Career Life Planning** 1 s.h.
Students' individual interests, values, and decision-making processes important in selecting a specialty, engaging in the match process, and integrating oneself into the medical profession; personal career development, culture and climate in which physicians work and learn.
- 050:189 (MED:8072) Evidence-Based Medicine for Clinical Medicine** 1 s.h.
Evaluation of literature and development of critical thinking skills necessary for evidence-based medical practice.
- 050:190 (MED:8010) Introduction to Medical Education at Iowa** 0 s.h.
Introduction to first-year fall courses; advanced concepts in anatomy, biochemistry, cell biology, and clinical reasoning skills; for M.D. students.
- 050:191 (MED:8073) Biomedical Innovation** 1 s.h.
Introduction to all phases of medical device/technology development; development of knowledge of entire medical innovation process through didactic sessions, faculty, interactions, and interdisciplinary collaboration; interdisciplinary approach; research and development of a novel medical device, therapy, or model of care. Requirements: M.D. enrollment.
- 050:195 (MED:8021) Community Health Outreach I** 0-1 s.h.
Presentations and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.
- 050:196 (MED:8022) Community Health Outreach II** 1-2 s.h.
Presentations, patient-based learning groups, readings, and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.
- 050:197 (MED:8023) Community Health Outreach III** 1-2 s.h.
Presentations, patient-based learning groups, readings, and practical experience working with agencies that provide health care and wellness promotion to communities; substance abuse; child, adolescent, and adult health; aging; interpersonal violence; homelessness.

- 050:203 (DIET:9203) Clinical Dietetics** 1 s.h.
Nutritional aspects of health and disease, with emphasis on medical nutrition therapy; human nutrition in the clinical state as it relates to physiology and biochemistry.
- 050:211 (MSTP:8511) MSTP Research** arr.
Research experience. Requirements: Medical Scientist Training Program enrollment.
- 050:212 (MSTP:8512) MSTP Clinical Connections** arr.
Experience with physician-scientist preceptor in medical interviewing, physical examination, patient presentation through direct patient interaction. Requirements: Medical Scientist Training Program graduate phase enrollment.
- 050:213 (MSTP:8513) Analyzing and Presenting Medical Research** 1 s.h.
How to read, interpret, and present medical and scientific literature; students read and present representative papers from scientific and medical literature.
- 050:240 (MED:8112) Human Organ Systems** 8 s.h.
Microscopic structure and function of major and specialized human organ systems; approach integrating normal microscopic anatomy and human physiology. Requirements: M.D. enrollment.
- 050:270 (MED:9270) Responsible Conduct in Research** 0 s.h.
Ethical issues; misconduct and fraud; proper handling of data; responsible authorship; conflict of interest; research on animals and human subjects.
- 050:280 (MED:8401) Medicine, Literature, and Writing** arr.
Insights, freedom, joy, responsibilities, and challenges of a life in medicine; reading, discussion, individual creative writing.
- 050:281 (MED:8081) Global Health Issues I** 1 s.h.
Core issues in the current field of global health, including history of global health, health and development, social determinants of health, measuring health and disease, disparities in the American health care system, poverty and health, gender issues and reproductive health, child health, immigrant and migrant health issues, and introduction of major players in global health. Requirements: M.D. enrollment.
- 050:282 (MED:8480) Global Cross-Cultural Clerkship** arr.
Cross-cultural medical program at an international site; focus on health care problems of a specific community; individual educational objectives set in advance.
- 050:283 (MED:5300) Health Informatics I** 3 s.h.
Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 096:283 (NURS:5300), 021:275 (SLIS:5900), 074:191 (RSNM:3195), 174:226 (HMP:5370), 051:187 (BME:5250), 056:186 (IE:5860), 200:110 (IGPI:5200).
- 050:284 (MED:8083) Global Cross-Cultural Elective** arr.
Cross-cultural medical program with focus on health care problems of a domestic or international community; individually arranged.
- 050:285 (MED:8082) Global Health Issues II** 1 s.h.
Core issues in the current field of global health, including health care as a human right, why the Third World is the Third World, communicable disease issues, outbreaks and pandemics, noncommunicable issues, malnutrition and obesity, cultural context of health care, violence as a health issue, and emergency response and transition to development. Prerequisites: 050:281 (MED:8081). Requirements: M.D. enrollment.
- 050:286 (MED:8028) Introduction to U.S. Health Care System** 1 s.h.
Structure, function, and finance of U.S. health care system; access, cost, quality, finance mechanisms, reform process.
- 050:287 (MED:8084) Global Health Seminar** 1 s.h.
Presentations by faculty members, University special guests, and alumni on their current work in global medicine/global health; implementation of global health concepts. Requirements: M.D. enrollment.
- 050:300 (MED:8403) Teaching Skills for Medical Students** 4 s.h.
Practical teaching techniques; opportunity for students to develop teaching skills before they become medical residents.
- 050:301 (MED:8404) Advanced Teaching Skills for Medical Students** 2 s.h.
Opportunity to expand knowledge and experience in medical education; investigation of medical education in students' specialty of interest through literature research and interaction with faculty; primary focus is to design and successfully complete a faculty approved project. Prerequisites: 050:300 (MED:8403). Requirements: fourth-year M.D. enrollment.
- 050:310 (MED:8410) Patient Safety for Health Professional Students** 2 s.h.
Interprofessional experience using multiple pedagogic methods, including team-based simulation to teach about patient safety and teamwork; collaboratively taught by representatives from anesthesia, pediatrics, internal medicine, Office of Consultation and Research in Medical Education, College of Nursing, College of Public Health, and office of UIHC chief quality officer. Same as 096:128 (NURS:3728).
- 050:701 (MED:9701) Instructional Design and Technology** 3 s.h.
Skills and techniques necessary for analysis, design, development, implementation, and evaluation of effective instruction.
- 050:702 (MED:9702) Clinical Teaching in Medical Education** 3 s.h.
Principles and methods for teaching individuals and small groups in outpatient and inpatient settings. Prerequisites: 050:701 (MED:9701) or 07P:205 (PSQF:6205). Recommendations: educational psychology course.
- 050:703 (MED:9703) Educational Research and Evaluation** 3 s.h.
Research design and program evaluation; approaches relevant to medical education.
- 050:711 (MED:9711) Teaching Methods in Medical Education** 3 s.h.
Principles and methods for teaching in large and small classrooms. Recommendations: educational psychology course.
- 050:712 (MED:9712) Introduction to Educational Measurement in Medical Education** 3 s.h.
Classical test theory; overview of medical education assessment methods; practical information for designing and critiquing assessments.
- 050:713 (MED:9713) Assessment in Medical Education** 3 s.h.
Medical education assessment methods; research methods and literature that support current practices; research project. Prerequisites: 050:712 (MED:9712).

050:714 (MED:9714) Current Issues in Medical Education	3 s.h.	670:120 (RSRT:2120) Radiologic Technology Clinical Internship I	1 s.h.
Selected issues, policies, and research.		Student rotations through different radiography-related areas of University of Iowa Hospitals and Clinics; assist, practice, and test radiographic examinations learned in didactic setting; skill building for care and management of patients; conduction of performance assessments and completion of guideline objectives for each rotation; performance expectations become progressively higher as students gain experience and skills. Requirements: acceptance to RSRT/CT, CVI, or MRI degree track.	
050:720 (MED:9720) Portfolio Project	3 s.h.	670:140 (RSRT:3140) Radiographic and Digital Imaging	5 s.h.
Production of individual student portfolios used to integrate knowledge across courses; capstone activity.		Factors that govern and influence production of radiographic image; X-ray and scatter production; patient interactions; function of kVp, mAs, and distance as applied to contrast and spatial resolution; practical issues concerning automatic exposure control and grid usage; labs to practice and apply theoretical principles associated with production of quality images. Prerequisites: 22M:009 (MATH:1020) or 22M:015 (MATH:1440). Requirements: acceptance to RSRT/CT, CVI or MRI degree track.	
050:721 (MED:9721) Study in Faculty Development	3 s.h.	670:210 (RSRT:3210) Radiographic and Digital Quality Control Lab	1 s.h.
Academic credit for approved project or other assigned activities for students in the Teaching Scholars program.		Exploration and performing radiographic and digital quality control tests.	
050:722 (MED:9722) Independent Study	arr.	670:230 (RSRT:3230) Radiographic Physics and Imaging Equipment	4 s.h.
050:723 (MED:9723) Medical Education Project	3 s.h.	Characteristics of atomic structure, electricity, and X-ray machines; properties of X-rays and their interaction with matter; measurement of radiation exposure; construction principles and theories of operation of specialized imaging equipment, including fundamentals of acquisition for imaging intensification, geometric tomography, mobile/portable radiography, and magnification principles. Prerequisites: 22M:009 (MATH:1020) or 22M:015 (MATH:1440).	
Experience working with a faculty mentor to design and implement a curriculum or educational research project.		670:901 (RSRT:2100) Radiologic Technology I	0 s.h.
050:724 (MED:9724) Leadership in Medicine	3 s.h.	Patient care and ethics, radiographic positioning, radiographic critique, medical terminology, radiologic physics, anatomy and physiology, radiographic technique, computer technology, radiation biology, radiographic processing, imaging equipment, quality assurance; supervised clinical education; two-year program; national board examination required at completion.	
Introduction to basic leadership and management theories pertaining to a health care setting; focus on the history of leadership development, various components of leadership, and how these components can be used to be a successful leader/administrator. Requirements: Master in Medical Education degree program enrollment.		670:902 (RSRT:3100) Radiologic Technology II	0 s.h.
050:725 (MED:9725) Simulation in Medical Education	3 s.h.	Prerequisites: 670:901 (RSRT:2100).	
Appropriate use of various types of simulation in medical education; how to design, deliver, and debrief a simulation activity; literature supporting use of simulation in medical education. Requirements: Master in Medical Education degree program enrollment.		671:902 (OTP:4902) Orthoptics Program	0 s.h.
050:999 (MED:8499) Individually Arranged Medicine Elective	arr.	Clinical science of binocular vision, ocular motility, and related eye disorders; practical, theoretical training in the Department of Ophthalmology and Visual Sciences two-year program; written, oral and practical national board examinations required at completion. Requirements: bachelor's degree with specific class recommendations.	
Individually arranged elective through the Office of Student Affairs and Curriculum.		672:803 (RSTH:4100) Radiation Therapy I	0,12 s.h.

Hospital Certificate Programs

The following courses are conducted by University of Iowa Hospitals and Clinics staff.

670:110 (RSRT:2110) Radiographic Procedures and Analysis I	4 s.h.		
Introduction to radiographic positioning principles; technical, positioning, and analysis information needed to perform and evaluate images of chest and abdomen on adult and pediatric patients; emphasis on quality patient care and adaptation to a variety of client conditions; labs. Prerequisites: 027:053 (HHP:1100), 060:099 (ACB:1199), 060:113 (ACB:2113) or 060:110 (ACB:2110), and 20E:103 (CLSA:3750). Requirements: acceptance to RSRT/CT, CVI, or MRI degree track.			
670:115 (RSRT:3115) Radiographic Procedures and Analysis III	4 s.h.		
Technical, positioning, and analysis information needed to perform and evaluate images of hip, pelvis, spine, thorax, skull, and GU system radiographic procedures; emphasis on quality patient care and adaptation to a variety of client conditions; labs. Prerequisites: 670:112 (RSRT:2215).			

- 672:804 (RSTH:4200) Radiation Therapy II** 0,12 s.h.
Theory and techniques of radiation therapy technology; emphasis on areas of oncology treatment planning, treatment set-up, dosimetry, use of megavoltage radiation-producing equipment to administer treatment; one-year program ending in eligibility for national certification examination in radiation therapy. Prerequisites: 672:803 (RSTH:4100). Requirements: graduation from an accredited radiography program and eligibility for registration with a national certification program.
- 672:805 (RSTH:4300) Radiation Therapy III** 0,6 s.h.
Prerequisites: 672:804 (RSTH:4200).
- 673:110 (RSMS:3110) Foundations of Sonography** 3 s.h.
Sonography history, ergonomics, terminology, image orientation; basic theories of sound waves, echo production, transducers, equipment operation, body imaging, Doppler, hemodynamics. Requirements: 029:008 (PHYS:1400) or radiologic technology program physics course or diagnostic medical sonography physics course.
- 673:111 (RSMS:3111) Foundations of Sonography Lab** 1 s.h.
Sonography history, ergonomics, terminology, image orientation; basic theories of sound waves, echo production, transducers, equipment operation, body imaging, Doppler, and hemodynamics. Corequisites: 673:110 (RSMS:3110).
- 673:115 (RSMS:3120) Abdominal Sonography I** 3 s.h.
Embryology, anatomy, and physiology of various abdominal structures imaged sonographically; abdominal vasculature, hepatobiliary system, pancreas, urinary system, adrenals, spleen, male anatomy; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings. Prerequisites: 676:100 (RSCT:4100). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.
- 673:120 (RSMS:3130) Obstetrical and Gynecological Sonography I** 3 s.h.
Embryology, anatomy, and physiology of the female reproductive system and developing fetus; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings. Prerequisites: 676:100 (RSCT:4100). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.
- 673:125 (RSMS:3140) Vascular Sonography I** 3 s.h.
Embryology, anatomy, and physiology of peripheral and cerebral vascular system; normal and abnormal hemodynamics, Doppler waveforms, pressure measurements, plethysmography, sonographic appearance, scanning techniques; common types of pathology of the lower extremity arterial and venous system, cerebrovascular system. Prerequisites: 675:110 (RSCI:4110). Corequisites: 673:110 (RSMS:3110), if not taken as a prerequisite. Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.
- 673:140 (RSMS:3230) Sonography Principles, Physics, and Instrumentation** 3 s.h.
Physical principles of sound waves, their applications to imaging of the human body, operation and physical characteristics of various ultrasound transducers, method by which the sound wave is converted into a visual image, instrumentation components and their functions, Doppler principles, image artifacts, advanced hemodynamics, and spectral Doppler waveform analysis. Prerequisites: 673:110 (RSMS:3110).
- 673:145 (RSMS:3240) Abdominal Sonography II** 3 s.h.
Pathophysiology of abdominal structures imaged sonographically, including the GI system, abdominal wall, peritoneal, retroperitoneal, and superficial structures from 673:115 (RSMS:3120); interventional sonographic procedures (aspirations, biopsies, intraoperative procedures, sterile technique, needle-guide use); post-procedure protocol; clinical findings, laboratory studies, prognosis correlated with sonographic findings; appropriate image analysis and documentation of pathology. Prerequisites: 673:115 (RSMS:3120).
- 673:150 (RSMS:3250) Obstetrical and Gynecological Sonography II** 3 s.h.
Sonographically-related pathological and abnormal congenital conditions of gynecology and obstetrics, infertility, assisted reproductive therapy, invasive procedures in obstetrics and gynecology, postpartum complications and maternal-fetal bonding; clinical findings, laboratory studies, and prognosis correlated with sonographic findings; appropriate image analysis and documentation of pathology. Prerequisites: 673:120 (RSMS:3130).
- 673:152 (RSMS:3260) Breast Sonography** 2 s.h.
Embryology, anatomy, physiology, and pathophysiology of the breast as it relates to sonographic imaging; proper sonographic imaging techniques, including appearance of normal anatomy, imaging protocol, proper instrument settings; sonographic findings of diseases involving the breast. Prerequisites: 673:110 (RSMS:3110). Requirements: successful completion of a two-year radiologic technology or diagnostic medical sonography program.
- 673:155 (RSMS:3270) Vascular Sonography II** 3 s.h.
Pathophysiology of peripheral, cerebral, and abdominal vascular systems as evaluated sonographically; normal and abnormal hemodynamics, Doppler waveforms, pressure measurements, plethysmography, sonographic appearance, scanning techniques; sonographic findings of diseases involving the lower extremity arterial and venous system, upper extremity arterial and venous system, cerebrovascular system, and abdominal vascular system. Prerequisites: 673:125 (RSMS:3140).
- 673:803 (RSMS:4100) Diagnostic Medical Sonography I** 0,9 s.h.
- 673:804 (RSMS:4200) Diagnostic Medical Sonography II** 0,9 s.h.
Principles and methods in using ultrasound as an imaging modality; abdomen, obstetrics and gynecology, neurosonography, and vascular technology specialties; 18-month program; national certification required at completion. Prerequisites: 673:803 (RSMS:4100). Requirements: completion of an allied health program or bachelor's degree with course work in physics, anatomy, patient care, and algebra.
- 673:805 (RSMS:4300) Diagnostic Medical Sonography III** 0,3 s.h.
Prerequisites: 673:804 (RSMS:4200). Requirements: completion of an allied health program or bachelor's degree with course work in physics, anatomy, patient care, medical technology, and algebra.
- 673:806 (RSMS:4400) Diagnostic Medical Sonography IV** 0,9 s.h.
Principles and methods in using ultrasound as an imaging modality; specialties including abdomen, pediatrics, obstetrics, gynecology, interventional procedures, vascular imaging, neurosonography; 18-month program; national certification examination required at completion. Prerequisites: 673:805 (RSMS:4300). Requirements: completion of an allied health program or bachelor's degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:807 (RSMS:4500) Diagnostic Medical Sonography V 0,6 s.h.

Prerequisites: 673:806 (RSMS:4400). Requirements: completion of an allied health program or bachelor's degree with course work in physics, anatomy, patient care, medical technology, and algebra.

673:911 (RSMS:4150) Diagnostic Cardiac Sonography 0 s.h.

Principles, methods in using ultrasound; specialties including adult and stress echocardiography; six-month program; national certification examination required at completion of program. Requirements: completion of an accredited medical sonography or vascular technology program.

673:912 (RSMS:4250) Cardiac Sonography Clinical Course 0 s.h.

Using ultrasound as an imaging modality; specialties, including adult echocardiography, stress echocardiography; six-month program; national certification examination required at completion. Requirements: completion of an accredited medical sonography or vascular technology program.

674:110 (RSMR:4110) Fundamentals for the MRI Technologist 3 s.h.

Care-giving skills specific to patients undergoing MRI examinations; techniques in effectively communicating for safety and comfort; maintaining patient and personnel safety; patient preparation, monitoring, and venipuncture; technologist's role in a wide variety of MRI examinations and patient conditions. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, sonography, or radiation therapy.

674:120 (RSMR:4120) MRI Procedures I 4 s.h.

Imaging techniques related to central nervous and musculoskeletal systems; specific clinical applications; available coils and their use; considerations in imaging parameters; specific choices in protocols and positioning criteria; anatomical structures and the plane that best demonstrates anatomy; signal characteristics of normal and abnormal structures. Requirements: 676:100 (RSCT:4100) or minimum of three months of fulltime MRI clinical work experience; and 674:110 (RSMR:4110), if not taken as a prerequisite, or minimum of six months of MRI clinical work experience.

674:130 (RSMR:4130) MRI Procedures II 3 s.h.

MRI techniques related to neck, thorax, breast, abdomen, and pelvis; specific clinical applications; available coils and their use; considerations in imaging parameters; specific choices in protocols and positioning criteria. Prerequisites: 674:120 (RSMR:4120).

674:140 (RSMR:4140) MRI Acquisition and Principles I 3 s.h.

Physics and hardware used in obtaining a magnetic resonance signal, including magnetism, NMR signal production, tissue characteristics, spatial localization, pulse sequencing, imaging parameters and options, and special applications; exploration of skills useful in maximizing MR image quality. Corequisites: 674:110 (RSMR:4110).

674:150 (RSMR:4150) MRI Acquisition and Principles II 3 s.h.

Advanced MRI techniques; MR angiography and further investigation of fast image acquisition sequences; overview of MR magnets, installation, operation, and facility design; computers and digital image acquisition as they apply to MR; outline of quality assurance procedures. Prerequisites: 674:140 (RSMR:4140).

674:160 (RSMR:4160) MRI Clinical Internship I 3,6 s.h.

Work in UI Healthcare's MRI department, completing clinical documentation needed to take the ARRT certification examination in MRI; 36 hours per week. Prerequisites: 674:110 (RSMR:4110). Corequisites: 674:120 (RSMR:4120) and 674:140 (RSMR:4140), if not taken as prerequisites. Requirements: pre-acceptance into the MRI Clinical Internship.

674:170 (RSMR:4170) MRI Clinical Internship II 3,6 s.h.

Work in UI Healthcare's MRI department, completing clinical documentation needed to take the ARRT certification examination in MRI; 36 hours per week. Prerequisites: 674:160 (RSMR:4160). Corequisites: 674:140 (RSMR:4140), if not taken as a prerequisite.

674:175 (RSMR:4175) MRI Clinical Internship III 4 s.h.

Rotation through MRI department scanning rooms at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical preceptor facilitates schedules, rotations, learning objectives, evaluations, and competencies; experience facilitated by MRI technologists, radiologists, residents, and preceptor; participation in routine and advanced MRI scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 674:170 (RSMR:4170).

675:110 (RSCI:4110) Vascular Anatomy 3 s.h.

Normal arterial and venous anatomy of the circulatory system, illustrated through angiographic, magnetic resonance imaging (MRI), and computed tomography (CT) images; common variants. Prerequisites: 027:053 (HHP:1100) or 060:110 (ACB:2110) or 060:113 (ACB:2113).

675:120 (RSCI:4120) CVI Principles 4 s.h.

Imaging and accessory equipment for vascular interventional and cardiac interventional procedures; imaging equipment quality control; fundamental principles of vascular and cardiac procedures, including patient preparation and care, radiation safety, contrast medium, pharmacology, and sedation. Corequisites: 675:110 (RSCI:4110). Requirements: ARRT primary certification in radiologic technology.

675:130 (RSCI:4130) Electrocardiogram and Hemodynamics 3 s.h.

ECG analysis, hemodynamic principles and waveform analysis, cardiac output, vascular resistance, calculations of stenotic valves. Prerequisites: 027:053 (HHP:1100), 060:110 (ACB:2110), or 060:113 (ACB:2113).

675:140 (RSCI:4140) CVI Peripheral Procedures and Pathology 3 s.h.

Angiographic and interventional procedures of the abdomen, thorax, and upper and lower extremities; associated pathologies. Prerequisites: 675:110 (RSCI:4110). Corequisites: 675:120 (RSCI:4120), if not taken as a prerequisite.

675:150 (RSCI:4150) CVI Neurology and Nonvascular Procedures and Pathology 3 s.h.

Angiographic and interventional procedures of the head and neck; associated pathologies. Prerequisites: 675:110 (RSCI:4110). Corequisites: 675:120 (RSCI:4120), if not taken as a prerequisite.

675:160 (RSCI:4160) CVI Cardiac Procedures and Pathology 4 s.h.

Cardiac diagnostic and interventional procedures; associated pathologies. Prerequisites: 675:110 (RSCI:4110). Corequisites: 675:120 (RSCI:4120) and 675:130 (RSCI:4130), if not taken as prerequisites.

- 675:170 (RSCI:4170) Cardiac Interventional Clinical Internship** 6 s.h.
Thirty-six hours per week in the CI clinical setting; practical experience on CI exams. Corequisites: 675:130 (RSCI:4130) and 675:160 (RSCI:4160), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology and acceptance to UI Hospitals and Clinics CVI internships.
- 675:180 (RSCI:4180) Vascular Interventional Clinical Internship** 6 s.h.
Thirty-six hours per week in the vascular interventional (VI) clinical setting; practical experience on VI exams. Corequisites: 675:140 (RSCI:4140) and 675:150 (RSCI:4150), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology and acceptance to UI Hospitals and Clinics CVI internships.
- 675:190 (RSCI:4190) CVI Clinical Internship** 2 s.h.
Introduction to VI and CI labs, including basic set up, equipment, and procedures; preparation to spend more concentrated time in each area for future internships; provides 192 hours of clinical experience over a 12-week period. Requirements: acceptance to RSRT/CVI degree track or CVI clinical internship.
- 676:100 (RSCT:4100) Sectional Anatomy for Imaging Sciences** 3 s.h.
Sectional anatomy identifiable on computed tomography and magnetic resonance imaging, including transverse, coronal, and sagittal planes. Prerequisites: 027:053 (HHP:1100) or 060:110 (ACB:2110) or 060:113 (ACB:2113).
- 676:105 (RSCT:4105) Computed Tomography Clinical Internship I** 1 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at UI Healthcare; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation becomes progressively higher as students gain experience and skills. Requirements: Acceptance into the BSRS Radiologic Technology/Computed Tomography track.
- 676:110 (RSCT:4110) CT/MRI Pathology** 3 s.h.
Common pathological conditions found in CT and MRI images; protocol appearance variations; units of CNS, musculoskeletal, neck/thorax, and abdominopelvic pathology; textbook readings, in-class discussions, special projects including case studies and presentations. Requirements: concurrent enrollment in 676:100 (RSCT:4100), if not taken as a prerequisite, or at least 3 months fulltime CT/MRI clinical experience.
- 676:115 (RSCT:4115) Computed Tomography Clinical Internship II** 3 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation in routine and advanced CT scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 676:140 (RSCT:4140).
- 676:120 (RSCT:4120) Computed Tomography Procedures I** 3 s.h.
Computed tomography procedures of the head, neck, thorax, mediastinum, abdomen, and pelvis; positioning techniques, patient preparation, monitoring and care, indications and contraindications for procedures, contrast media usage; basic protocol information and adjustments to tailor procedures for patients' indications; patient care topics relevant to CT patients and procedures; CT parameters and equipment. Corequisites: 676:100 (RSCT:4100). Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy.
- 676:125 (RSCT:4125) Computed Tomography Procedures II** 3 s.h.
Imaging information in musculoskeletal exams, 3-D reconstruction, CTAs; cardiac, including gating, biopsies, drains, post-myelography, radiation therapy planning, and 4-D imaging; CT arthrography, PET/CT, SPECT/CT, virtual colonoscopy; procedure indications and contraindications, patient and room preparation, positioning techniques, contrast media usage, and scan parameters; basic protocol information and how to tailor procedures to a patient's indications. Prerequisites: 676:120 (RSCT:4120). Corequisites: 675:110 (RSCI:4110), if not taken as a prerequisite.
- 676:130 (RSCT:4130) Computed Tomography Physical Principles and QC** 4 s.h.
Historical development and evolution of computed tomography; characteristics of x-ray, beam attenuation, linear attenuation coefficients, tissue characteristics, Hounsfield numbers application, data acquisition, image reconstruction, image manipulation techniques, tube configuration, collimator design and function, detector type; characteristics, image quality factors, and functions of CT computer and array processor; CT image processing and display examined from data acquisition through post-processing and archiving; radiation protection practices and QC. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy.
- 676:140 (RSCT:4140) Computed Tomography Clinical Internship** 6 s.h.
Completion of clinical documentation needed to take the ARRT certification examination in computed tomography; 32 hours per week in UI Healthcare's computed tomography department. Corequisites: 676:120 (RSCT:4120) and 676:130 (RSCT:4130), if not taken as prerequisites. Requirements: ARRT primary certification in radiologic technology, nuclear medicine, or radiation therapy; and acceptance into the CT internship.
- 676:215 (RSCT:4215) Computed Tomography Clinical Internship III** 3 s.h.
CT scanners, 3-D lab, and radiation therapy department rotation at University of Iowa Hospitals and Clinics; competency and objective-based education with required clinical performance evaluations; clinical coordinator facilitates schedule, rotations, learning objectives, evaluations, and competencies; experience facilitated by CT technologists, radiologists, residents, and coordinator; participation in routine and advanced CT scans; performance expectations become progressively higher as students gain experience and skills. Prerequisites: 676:115 (RSCT:4115).
- 677:101 (EMTP:0101) Emergency Medical Technician--Paramedic I** 0 s.h.
Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Requirements: certification as an emergency medical technician—basic.

677:102 (EMTP:0102) Emergency Medical Technician--Paramedic II 0 s.h.

Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Prerequisites: 677:101 (EMTP:0101).

677:103 (EMTP:0103) Emergency Medical Technician--Paramedic III 0 s.h.

Preparation for role of entry-level paramedic: comprehension, application, and evaluation of the clinical role; demonstration of technical proficiency in all required skills; demonstration of personal behaviors consistent with professional and employer expectations. Prerequisites: 677:102 (EMTP:0102).

Anatomy and Cell Biology

Head

John F. Engelhardt

Professors

Adel K. Afifi, Brad A. Amendt, Jackie Bickenbach, Martin D. Cassell, Masataka Kawai, Nicholas J. Pantazis, Alexander Sandra

Professors emeriti

Ronald Bergman, Ramesh C. Bhalla, Paul M. Heidger Jr., Frank J. Longo, Jeanne M. Snyder, Robert J. Tomanek

Associate professors

Botond B. Banfi, Robert A. Cornell, Charles A. Yeaman

Assistant professors

Amit Choudhury, Adam J. Dupuy, C. Andrew Frank, Fang Lin, Hank Qi, D. Thomas Rutkowski, Tina Tootle

Lecturers

Kathleen Andersen, Darren S. Hoffmann, Justin Sipla, Nathan Swailes

Associates

Gregory H. Leno, Marc Pizzimenti

Graduate degree: Ph.D. in anatomy and cell biology

Web site: <http://www.anatomy.uiowa.edu>

The Department of Anatomy and Cell Biology performs three major functions. It teaches human anatomy to students preparing for careers in the health care professions; provides advanced courses, teaching experience, and research training to graduate students preparing for careers in academic research and related scientific fields; and conducts original research on the biological basis of cellular functions and human disease processes.

Preclinical Study

The department contributes to the preclinical education of health care professionals by providing major courses in gross anatomy, cell biology, histology, and neuroscience. The department participates in the Carver College of Medicine's Medical Scientist Training (p. 961) Program and the Graduate College's Biosciences (p. 829), Molecular and Cellular Biology (p. 855), Immunology (p. 841), Genetics (p. 837), and Neuroscience (p. 858) Programs.

Graduate Program

- Doctor of Philosophy in anatomy and cell biology

Doctor of Philosophy

The Doctor of Philosophy program in anatomy and cell biology requires a minimum of 72 s.h. of graduate credit. Students in the Ph.D. program work toward the doctorate without an intermediate master's degree program. They complete courses focused in one of three major areas—molecular medicine and gene therapy, developmental and stem cell biology, or cancer biology—in addition to related background and elective courses. Students also teach in lecture and laboratory courses under faculty supervision. The program may be completed in four or five years of intensive, full-time residence.

Students interested in pursuing graduate study in anatomy and cell biology spend their first year in the University of

Iowa Biosciences Program, where they investigate different disciplines by performing research rotations in three of the program's affiliated laboratories. They also take courses that introduce them to basic principles in the biosciences; participate in the biosciences seminar, where they learn how to evaluate scientific literature critically; and attend departmental seminars.

Students are assigned an advisor to assist in their selection of courses and research rotations during the Biosciences Program year. The curriculum is tailored to fit each student's individual interests. For more detailed information about the program, see Biosciences (p. 829) (Graduate College) in the Catalog.

Students enter the Biosciences Program in fall semester. The following May, after completing three research rotations, each student is expected to select a research laboratory and program affiliation and to begin his or her thesis research project. Students who choose to pursue a Ph.D. in anatomy and cell biology may apply all credit earned in the Biosciences Program toward requirements for the degree.

By the end of their second year of graduate study, anatomy and cell biology students take the comprehensive examination, which assesses their ability to analyze, organize, and apply the information, concepts, and skills acquired during the first two years of study. They define a research problem with their major advisor and formulate a research prospectus.

Subsequent years are devoted primarily to research.

The final Ph.D. examination consists of a public oral defense of the dissertation. The dissertation is based on original research conducted with the guidance of the major advisor and at least four other faculty members on the thesis committee.

Admission

Individuals interested in pursuing a Ph.D. in anatomy and cell biology must apply to and be accepted by the University's Biosciences Program, where they will spend their first year of graduate study. The program accepts applicants with a variety of backgrounds in the biological and physical sciences.

The Biosciences Program has specific admission requirements, including a bachelor's degree and certain undergraduate course work; specific scores on the Graduate Record Examination (GRE) General Test; and for applicants whose first language is not English, specific scores on the Test of English as a Foreign Language (TOEFL). For detailed admission requirements and application information, see Biosciences (p. 829) (Graduate College) in the Catalog.

Admission to the Department of Anatomy and Cell Biology, after completion of the biosciences year, is based on evaluation of each applicant's credentials by the department's faculty. In addition to having met all admission requirements of the Biosciences Program, applicants to the Ph.D. program in anatomy and cell biology must have completed a bachelor's degree with the following undergraduate course work: chemistry through organic chemistry, one semester of biochemistry or the equivalent, one semester of another advanced biology course, mathematics through calculus, one year of physics, and one semester of statistics or the equivalent. Desirable qualifications include an undergraduate major in

the biological sciences or chemistry; a master's degree in the biological sciences, chemistry, or a related area; and scores from a GRE Advanced Test in the applicant's major area.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

All students in the Department of Anatomy and Cell Biology receive stipends and tuition support. Sources include training grants from the National Institutes of Health, University of Iowa and departmental fellowships and graduate research assistantships, and individual faculty research grants.

Facilities

The department occupies more than 35,000 square feet in the Bowen Science Building on the University of Iowa health sciences campus. The building houses modern teaching facilities and well-equipped research laboratories. The most modern instrumentation is available, including facilities and equipment for digital microscopic imaging, confocal microscopy, molecular biological techniques, tissue culture, and protein chemistry. Other specialized equipment (e.g., electron microscopes, mass spectrophotometers) is available in other facilities. Through collaborative programs with the Holden Comprehensive Cancer Center and Iowa Cardiovascular Center, faculty and students also have access to outstanding research facilities throughout the University's health sciences campus.

Courses

060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science 4 s.h.

Integrative systemic study of the structure and function of the human body; body systems defined and described by their constituent organs; body's most basic cellular level, tissue level, and study of organs which comprise various systems; online course with lectures, assignments, and virtual laboratory study. Requirements: high school biology course.

060:101 (ACB:8120) Human Gross Anatomy for Dental Students 6 s.h.

Regional dissection, lectures, demonstrations, with emphasis on head and neck; neuroanatomy. Offered spring semesters. Requirements: D.D.S. enrollment.

060:103 (ACB:8101) Medical Gross Human Anatomy 6 s.h.

Complete dissection of the body with regional emphasis stressing relationships to the living system; clinically relevant areas of radiologic imaging, surface anatomy, embryology, and clinical correlations; anatomical knowledge through lectures, small group work, independent activities. Offered fall semesters. Requirements: M.D. enrollment.

060:108 (ACB:5108) Human Anatomy 5 s.h.

Regional dissection, lectures, demonstrations; areas important to physical therapists, particularly the upper and lower extremities. Offered fall semesters. Requirements: Physical Therapy Program enrollment.

060:109 (ACB:2109) Human Anatomy Lab for Health Professions 1 s.h.

Regional and systemic approaches to the study of human anatomy, using histological (microscopic) as well as gross (macroscopic) studies. Prerequisites: 002:002 (BIOL:1141). Requirements: 060:110 (ACB:2110) for pre-nursing students.

060:110 (ACB:2110) Principles of Human Anatomy 3 s.h.

Gross and microscopic human anatomy; systemic approach to regional anatomy, with emphasis on clinical relevance; optional tutorial sessions. Offered fall and spring semesters. Prerequisites: 002:002 (BIOL:1141) or 002:010 (BIOL:1402) or 002:031 (BIOL:1411). Requirements: pharmacy, pre-nursing, or associated medical sciences major.

060:111 (ACB:8201) Gross Human Anatomy for Physician Assistant Students 6 s.h.

Focused regional dissection with clinical integration through lectures, demonstrations, and tutorials; neuroanatomy, radiology. Offered summer sessions. Requirements: Physician Assistant Program or M.D. enrollment, or graduate standing.

060:112 (ACB:8121) General Histology for Dental Students 4 s.h.

Microscopic study of cells, fundamental tissues, organ systems; emphasis on tooth-related structures. Offered spring semesters. Requirements: D.D.S. enrollment or anatomy and cell biology graduate standing.

060:113 (ACB:2113) Human Anatomy Online 4 s.h.

Integrative systemic and regional study of the human body's structure. Prerequisites: 002:002 (BIOL:1141).

060:122 (ACB:3122) Independent Study in Anatomy and Cell Biology arr.

Projects arranged with department faculty members.

060:153 (ACB:3053) Hard Cases: Science Policy and Values 3 s.h.

Major issues in practical ethics through difficult case studies in fields such as law, medicine, business, politics; readings in classic authors; recent contributions from several disciplines.

060:156 (ACB:4156) Scanning Electron Microscopy and X-Ray Microanalysis arr.

Microscopy methods for research; all aspects of research, from sample preparation to imaging to data analysis; when to use a particular microscopy procedure; theory, operation, and application of scanning electron microscopy, scanning probe microscopy, laser scanning microscopy, X-ray microanalysis. Requirements: a physical science course. Same as 012:156 (GEOS:4156), 052:156 (CBE:4156).

060:200 (ACB:6200) Special Topics in Genetics 1 s.h.

Current research in a selected field of genetics; different topic each year. Companion to a genetics seminar series. Same as 127:200 (GENE:6200).

060:203 (ACB:5203) Gross Human Anatomy for Graduate Students 6 s.h.

Regional dissection, lectures, demonstrations, tutorials, discussions, seminars; clinically relevant areas of anatomical radiology, surface anatomy with clinical correlations. Requirements: anatomy and cell biology graduate standing.

060:205 (ACB:5205) General Histology for Graduate Students 1-4 s.h.

Structure and function of cells, tissues, and organs studied at light and electron microscopic levels. Offered spring semesters. Corequisites: 050:240 (MED:8112). Requirements: anatomy and cell biology graduate standing.

- 060:206 (ACB:5206) Graduate Research in Anatomy and Cell Biology** arr.
Individual laboratory research training in anatomical sciences.
- 060:207 (ACB:5207) Human Organ Systems for Graduate Students** 8 s.h.
Integration of basic concepts of the physiology and microscopic anatomy of tissues and organ systems, utilizing didactic lectures, small group discussion, and laboratory exercises; emphasis on the relevance of altered morphology and physiology to pathologic processes, at both the light and electron microscopic level. Requirements: graduate standing in anatomy and cell biology.
- 060:210 (ACB:6210) Clarity and Style in Scientific Writing** 3 s.h.
Forms of scientific writing; writing with clarity and style about scientific problems, principles, and discoveries; writing strategies and how to write for specific audiences; exercises to improve clarity and style in writing; writing a professional scientific paper (review or research), and writing a science article for nonscientists. Requirements: biomedical sciences trainee and must have passed comprehensive examination.
- 060:216 (ACB:6220) Mechanisms of Cellular Organization** 3 s.h.
Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endocytic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOC:3130). Same as 142:220 (MCB:6220), 072:220 (MPB:6220).
- 060:218 (ACB:5218) Microscopy for Biomedical Research** arr.
Preparation, analysis of biomedical projects by light and electron microscopy. Prerequisites: 002:114 (BIOL:2723). Same as 061:218 (MICR:5218), 002:218 (BIOL:5218).
- 060:220 (ACB:5220) Advanced Microscopy for Biomedical Research** arr.
Technically advanced microscopy methods for research; individualized laboratory experience with opportunity to explore application of microscopy methods. Requirements: for 060:220 (ACB:5220) — an introductory microscopy course; for 002:220 (BIOL:5220) — 060:218 (ACB:5218) or 061:218 (MICR:5218), or 012:156 (GEOS:4156) or 052:156 (CBE:4156) or 060:156 (ACB:4156); for 061:220 (MICR:5220) — an introductory EM course. Same as 002:220 (BIOL:5220), 061:220 (MICR:5220).
- 060:223 (ACB:6227) Cell Fate Decisions** 1 s.h.
Cellular fate decisions, including signal integration, terminal differentiation in development, mechanisms of embryonic stem cell gene regulation/cellular reprogramming, cell death paradigms, and cell death in development and cancer. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:227 (MCB:6227), 072:227 (MPB:6227).
- 060:224 (ACB:5224) Graduate Student Seminar** 0-1 s.h.
Current research, literature. Requirements: anatomy and cell biology graduate standing.
- 060:225 (ACB:6225) Growth Factor Receptor Signaling** 1 s.h.
Mechanisms of signaling by growth factors; cytokines and related molecules that regulate cell proliferation, development, differentiation, and survival; emphasis on molecular mechanisms of signaling, relevance of these signaling processes to various human diseases. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:225 (MCB:6225), 072:225 (MPB:6225).
- 060:226 (ACB:6226) Cell Cycle Control** 1 s.h.
Cell cycle regulation, DNA damage-dependent cell cycle regulation, redox-dependent cell cycle regulation, cellular senescence. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:226 (MCB:6226), 072:226 (MPB:6226).
- 060:227 (ACB:7227) Anatomic Study for Teaching** 2-3 s.h.
Experience completing a detailed dissection of a region of the human body; opportunity to create models depicting anatomical concepts. Requirements: enrollment in teaching certificate program.
- 060:232 (ACB:8401) Advanced Human Anatomy** arr.
Regional dissection of the body with emphasis on systems relevant to student's specialty interests; discussion, reading, clinically relevant imaging, embryology. Offered spring semesters. Requirements: fourth-year M.D. enrollment or graduate standing.
- 060:234 (ACB:8114) Medical Neuroscience** 4 s.h.
Basic principles of neurophysiology, neuroanatomy; emphasis on human central nervous system; laboratory emphasis on anatomical study of spinal cord, brain. Offered spring semesters. Requirements: M.D. or Physical Therapy and Rehabilitation Science Program enrollment or graduate standing.
- 060:237 (ACB:6237) Critical Thinking in Biochemistry** 1 s.h.
How nucleic acids, proteins, lipids, and carbohydrates interact to influence the function of cells and tissues; based on research publications.
- 060:238 (ACB:6238) Critical Thinking in Genetics** 1 s.h.
Current topics in molecular and classical genetics; emphasis on genetic underpinnings of disease; based on primary research publications.
- 060:239 (ACB:6239) Critical Thinking in Cell Biology** 1 s.h.
Understanding subcellular organization and intercellular communication; emphasis on critical thinking and primary research publications.
- 060:247 (ACB:6247) Critical Thinking in Molecular Biology** 1 s.h.
How molecules drive signaling pathways and cellular processes essential for biological functions; based on research publications. Requirements: graduate standing in anatomy and cell biology.
- 060:248 (ACB:6248) Critical Thinking in Development** 1 s.h.
Current topics in molecular basis of vertebrate development; based on primary research publications. Requirements: graduate standing in anatomy and cell biology.
- 060:249 (ACB:6249) Critical Thinking in Cellular Physiology** 1 s.h.
Control of physiological systems at the cellular level; emphasis on regulation by molecular signaling pathways; literature-based. Requirements: graduate standing in anatomy and cell biology.
- 060:250 (ACB:8250) Integrated Gross Human Anatomy, General and Oral Histology for Dental Students (GRISTO)** 10 s.h.
Integrated study of morphology of human body at microscopic and macroscopic levels; covers breadth and depth of traditional professional-level anatomy and histology courses; focus on structures of head and neck, oral cavity, and in-depth study of nervous system; combination of traditional lectures, cadaver laboratory dissection, virtual histology laboratories, and supported self-regulated learning strategies. Requirements: D.D.S. program enrollment.

060:265 (ACB:6265) Neuroscience Seminar 0-1 s.h.

Research presentations. Offered fall and spring semesters. Same as 031:265 (PSY:6265), 072:265 (MPB:6265), 132:265 (NSCI:6265), 002:265 (BIOL:6265).

060:270 (ACB:6000) Human Anatomy for Advanced Practice 3 s.h.

Interrelationships between anatomic structure and physiological function in health and disease; clinical assessment of functional integrity of organ systems; implications of pathophysiology for anesthesia. Requirements: admission to anesthesia nursing program. Same as 096:270 (NURS:6000).

060:403 (ACB:8402) Teaching Elective in Regional Anatomy 2,4 s.h.

Expand knowledge and experience in medical education; investigate educational pedagogy in a laboratory setting coupled with self-directed learning of anatomical content relevant to professional development; prepare, design, and implement four teaching interactions with M1/D1/PA1 students; design a classroom exercise (e.g., interactive lecture, learning activity, computer-based study module) that helps bridge the basic science content with clinical procedure. Requirements: M.D. standing and enrollment in teaching track distinction.

Anesthesiology

Head

Michael M. Todd

Professors

Timothy J. Brennan (Samir Gergis Professor of Anesthesia), Javier H. Campos, Won W. Choi, Franklin Dexter, Robert B. Forbes, Donna L. Hammond, Bradley J. Hindman, John R. Moyers, Robert Raw, Michael M. Todd

Professors emeriti

Mohamed Ghoneim, Peter J.R. Jebson, Franklin L. Scamman, Martin Sokoll

Associate professors

Max T. Baker, James N. Bates, Robert I. Block, James Y. Choi, Deborah J. Dehring, Robert P. From, Laurilyn Helmers, Yasser M.G.A. Karim, Toshihiro Kitamoto, Avinash B. Kumar, Paul A. Leonard, Anil Marian, Rashmi N. Mueller, Clark J. Obr, David P. Papworth, Kent S. Pearson, Alan F. Ross, Jonathan Simmons, Shawn T. Simmons, Debra J. Szeluga, Joss Thomas, Ruth E. Wachtel, Tyrone B. Whitter

Assistant professors

Ron Abrons, Emine Bayman, Anke Bellinger, Esther Benedetti, Yasser M.S. El-Hattab, Christopher Faust, Peter Foldes, Brent Hadder, Satoshi Hanada, Denisa Haret, Jeanette A. Harrington, Merete Ibsen, Sundar Krishnan, John Laur, Ronald Lind, Magboul M.A. Magboul, Nicholas Mohr, Martin Mueller, Srinivasan Rajagopal, Sundara Reddy, Melinda Seering, Rapipen Siriwetcharak, Christina Spofford, David E. Swanson, Kokila Thenuwara, Sarah Titler, Danaï Udomtecha, Kenichi Ueda, Ann Willemsen-Dunlap

Adjunct assistant professor

Lee Kral

Associates

Foad Elahi, Unyime Ituk, Sinyoung Kang, Sudhakar Subramani

M.D. Student Training

The Department of Anesthesiology introduces second-year medical students to anesthesia as a specialty; helps third-year students develop concepts and technical skills related to resuscitation, airway management, and care of the unconscious patient; and offers fourth-year students intensive study in the specialty. It offers the following courses for medical students. For course descriptions and prerequisite information, see "Courses" below.

116:006 (ANES:8301) Clinical Anesthesia	2 s.h.
116:010 (ANES:8401) Clinical Anesthesia Senior	arr.
116:011 (ANES:8402) Intensive Care	arr.
116:333 (ANES:8495) Intensive Care off Campus	arr.
116:998 (ANES:8498) Anesthesia on Campus	arr.
116:999 (ANES:8499) Anesthesia off Campus	arr.

Postgraduate and Residency Program

The department's postgraduate and residency program involves diverse clinical experiences, seminars and teaching conferences, and ongoing research activities that

help postgraduate students and residents develop the knowledge and skills required of an anesthesia specialist.

Anesthesia Nursing Program

The department coordinates the Anesthesia Nursing Program, a collaboration between the Carver College of Medicine and the College of Nursing. The program, which is open to nurses who hold a bachelor's degree, prepares nurse anesthetists to serve rural hospitals in Iowa and nationwide. The curriculum provides intensive training in didactic and clinical anesthesia and includes diverse clinical experience as well as classroom instruction, seminars, and clinical case conferences. It includes the following courses. For course descriptions and prerequisite information, see "Courses" below.

116:271 (ANES:6005) Chemical and Physical Principles of Anesthesia Practice	3 s.h.
116:273 (ANES:6006) Pharmacology of Anesthesia Practice II	3 s.h.
116:274 (ANES:6007) Basic Principles of Anesthesia Practice	5 s.h.
116:275 (ANES:6010) Advanced Principles of Anesthesia Practice I	4 s.h.
116:277 (ANES:6012) Advanced Principles of Anesthesia Practice II	1 s.h.
116:279 (ANES:6016) Equipment and Technological Principles of Anesthesia Practice	3 s.h.
116:290 (ANES:6050) Introductory Clinical Anesthesia	1 s.h.
116:291 (ANES:6051) Clinical Anesthesia I	1 s.h.
116:292 (ANES:6052) Clinical Anesthesia II	1 s.h.
116:293 (ANES:6053) Advanced Clinical Anesthesia	1 s.h.
116:294 (ANES:6054) Obstetrical Anesthesia	1 s.h.
116:295 (ANES:6055) Rural Anesthesia	1 s.h.

Courses

For M.D. Students

116:006 (ANES:8301) Clinical Anesthesia 2 s.h.
Clinical instruction in perioperative care of the surgical patient; preoperative evaluation, consideration of coexisting medical problems, intraoperative care, postoperative management; basic airway management; introduction to clinical management of acute and chronic pain; case conferences, simulator training.

116:010 (ANES:8401) Clinical Anesthesia Senior arr.
Advanced clinical experience in anesthesia management of surgical patients with coexisting medical problems; clinical experience in various forms of anesthesia; general, regional (spinal, epidural, peripheral nerve block) anesthesia; practical experience in airway management; mask ventilation, endotracheal intubation, LMA placement, other alternative airway techniques; medical management of surgical patient under anesthesia; pharmacology, cardiovascular and pulmonary physiology; case conferences.

116:011 (ANES:8402) Intensive Care arr.
Evaluation, treatment of seriously ill patients in intensive care; ventilator management, evaluation of pulmonary function, monitoring of cardiovascular status, fluid balance and acid base problems, advance monitoring techniques.

116:333 (ANES:8495) Intensive Care off Campus arr.

Evaluation and treatment of seriously ill patients in an intensive care unit (other than University of Iowa Hospitals and Clinics); artificial ventilation, evaluation of pulmonary function, monitoring of cardiovascular status, fluid balance and acid base problems, advance monitoring techniques. Requirements: 4 s.h. of 116:010 (ANES:8401).

116:998 (ANES:8498) Anesthesia on Campus arr.

Well defined research project relating to anesthesia; arranged by student with departmental approval.

116:999 (ANES:8499) Anesthesia off Campus arr.

Knowledge development in anesthesia work and monitor use; ability to identify respiratory, cardiovascular, and neurologic effects of anesthetic agents; skill in airway management; basic skills in general, spinal, epidural, and peripheral nerve block anesthesia.

For Anesthesia Nursing Students

116:271 (ANES:6005) Chemical and Physical Principles of Anesthesia Practice 3 s.h.

Chemistry and physics, as applied to anesthesia. Requirements: admission to anesthesia nursing program. Same as 096:271 (NURS:6005).

116:273 (ANES:6006) Pharmacology of Anesthesia Practice II 3 s.h.

Continuation of 071:115 (PCOL:6204); vascular, hepatic, renal, GI, endocrine aspects; cellular mechanisms, electrolytes alterations, anesthesia specific implications. Prerequisites: 071:115 (PCOL:6204). Requirements: grade of 2.75 or higher in 071:115 (PCOL:6204) and enrollment in anesthesia nursing program. Same as 096:273 (NURS:6006).

116:274 (ANES:6007) Basic Principles of Anesthesia Practice 5 s.h.

Overview of anesthesia as a nursing specialty; patient assessment, anesthetic planning and management, pertinent regulations; principles of general and regional anesthesia for surgical specialties. Requirements: for 096:274 (NURS:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 096:271 (NURS:6005); for 116:274 (ANES:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 116:271 (ANES:6005). Same as 096:274 (NURS:6007).

116:275 (ANES:6010) Advanced Principles of Anesthesia Practice I 4 s.h.

Special needs and intraoperative management of obstetric, pediatric, and neurological patients; emphasis on pathophysiology, monitoring, ancillary requirements. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 096:275 (NURS:6010).

116:277 (ANES:6012) Advanced Principles of Anesthesia Practice II 1 s.h.

Acute and chronic pain management; anesthetic problems with concurrent multisystem disease, advanced age, altered physical and/or mental status. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 096:277 (NURS:6012).

116:279 (ANES:6016) Equipment and Technological Principles of Anesthesia Practice 3 s.h.

Anesthesia delivery systems, ancillary equipment, monitoring devices; correlation of applicable chemical and physical principles for use, safe operation, care, and cleaning of anesthesia-related equipment. Prerequisites: 116:271 (ANES:6005). Requirements: anesthesia nursing program enrollment. Same as 096:279 (NURS:6016).

116:290 (ANES:6050) Introductory Clinical Anesthesia 1 s.h.

Initial anesthesia preceptorship; development of basic clinical skills for work as a nurse anesthetist. Requirements: for 096:290 (NURS:6050) — grades of 3.00 or higher in 096:273 (NURS:6006) and 096:279 (NURS:6016); for 116:290 (ANES:6050) — grades of 3.00 or higher in 116:273 (ANES:6006) and 116:279 (ANES:6016). Recommendations: basic science core courses and anesthesia nursing program enrollment. Same as 096:290 (NURS:6050).

116:291 (ANES:6051) Clinical Anesthesia I 1 s.h.

Supervised anesthesia clinical experience for general, orthopedic, gynecologic, pediatric, urologic, dental, EENT, ambulatory surgery, or invasive diagnostic procedures. Prerequisites: 096:290 (NURS:6050) or 116:290 (ANES:6050). Requirements: for 096:291 (NURS:6051) — grade of S (satisfactory) in 096:290 (NURS:6050); for 116:291 (ANES:6051) — grade of S (satisfactory) in 116:290 (ANES:6050). Recommendations: anesthesia nursing program enrollment. Same as 096:291 (NURS:6051).

116:292 (ANES:6052) Clinical Anesthesia II 1 s.h.

Clinical anesthesia experience under faculty supervision at University Hospitals and Clinics, in surgical subspecialty rotations not completed in 096:291 (NURS:6051) or 116:291 (ANES:6051). Prerequisites: 096:291 (NURS:6051) or 116:291 (ANES:6051). Requirements: for 096:292 (NURS:6052) — grade of 3.00 or higher in 096:291 (NURS:6051); for 116:292 (ANES:6052) — grade of 3.00 or higher in 116:291 (ANES:6051). Recommendations: anesthesia nursing program enrollment. Same as 096:292 (NURS:6052).

116:293 (ANES:6053) Advanced Clinical Anesthesia 1 s.h.

Clinical anesthesia experiences in neurologic surgery, cardiovascular/thoracic surgery; experience providing anesthesia for patients with complex pathophysiology in varied surgical settings. Requirements: for 096:293 (NURS:6053) — anesthesia nursing program senior standing, anesthesia nursing concentration courses, and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:293 (ANES:6053) — anesthesia nursing program enrollment, anesthesia nursing concentration courses, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 096:293 (NURS:6053).

116:294 (ANES:6054) Obstetrical Anesthesia 1 s.h.

Experience providing anesthesia for the parturient, initial neonatal care; two one-month rotations off campus. Requirements: for 096:294 (NURS:6054) — anesthesia nursing program enrollment and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:294 (ANES:6054) — anesthesia nursing courses, anesthesia nursing program enrollment, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 096:294 (NURS:6054).

116:295 (ANES:6055) Rural Anesthesia 1 s.h.

Anesthesia experience in community hospitals; three one-month rotations at UI-affiliated clinical sites in rural Iowa. Requirements: for 096:295 (NURS:6055) — anesthesia nursing program enrollment and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:295 (ANES:6055) — anesthesia nursing courses, anesthesia nursing program enrollment, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 096:295 (NURS:6055).

Biochemistry

Head

Charles M. Brenner

Professors

Charles M. Brenner, Pamela Geyer, George Giudice, David H. Price, Peter Rubenstein, Madeline A. Shea, Lori L. Wallrath, Daniel L. Weeks, Ronald Weigel, Marc S. Wold

Professors emeriti

Arthur Arnone, Thomas W. Conway, John Donelson, Alice B. Fulton, Rex Montgomery, Bryce Plapp, Arthur A. Spector, Earle Stellwagen, Charles A. Swenson

Adjunct professors

Theresa Gioannini, Nancy C. Stellwagen, Ramaswamy Subramanian, Joseph Walder, Liping Yu

Associate professors

John Dagle, Adrian Elcock, Maria Spies, M. Todd Washington

Assistant professors

Sheila A. Baker, Heather L. Bartlett, Kris DeMali, Ernesto Fuentes, Miles Pufall, M. Ashley Spies

Adjunct assistant professor

Lokesh Gahkar

Lecturer

Elisabeth Swain

Undergraduate major: biochemistry (B.A., B.S.)

Graduate degrees: M.S. in biochemistry; Ph.D. in biochemistry

Web site: <http://www.biochem.uiowa.edu/>

Biochemistry is the study of basic chemical processes that occur in and govern all living systems. Nearly all areas of the life sciences engage in biochemical research.

Biochemistry graduates with bachelor's degrees often work as research assistants in industry, government, education, or health services; teach in secondary schools; or go on to advanced study in medicine, dentistry, or other areas. Those with advanced degrees pursue careers as teachers, researchers, or administrators in universities and medical schools, government, research agencies, and varied industries.

The Department of Biochemistry offers an undergraduate major and graduate degree programs and determines the curricula for those programs. Undergraduates majoring in biochemistry receive their degrees (B.A. or B.S.) from the College of Liberal Arts and Sciences, and their studies are governed by that college's undergraduate academic policies. Graduate degrees in biochemistry are conferred by the Graduate College.

Undergraduate Programs

- Major in biochemistry (Bachelor of Science, Bachelor of Arts)

Bachelor of Science

The Bachelor of Science with a major in biochemistry requires a total of 120 s.h., including 73 s.h. of work for the major. In order to count transfer credit in biochemistry toward the major, students must have the approval of an undergraduate advisor in the department.

The biochemistry major for the B.S. prepares students to work in positions that require a mastery of general biochemistry. It is also excellent preparation for graduate study in biochemistry and related sciences or for study toward a professional degree in the health sciences.

Students are encouraged to take courses from other disciplines, such as business, pre-law, psychology, or journalism. This prepares them for a variety of career paths.

All students must complete the College of Liberal Arts and Sciences General Education Program.

The biochemistry major for the Bachelor of Science requires the following course work.

All of these:

004:011 (CHEM:1110)-004:012 (CHEM:1120) Principles of Chemistry I-II	8 s.h.
22M:025 (MATH:1850)-22M:026 (MATH:1860) Calculus I-II	10 s.h.
029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II	8 s.h.
099:101 (BIOC:3101) Technical Communication in Biochemistry	1 s.h.
099:120 (BIOC:3120) Biochemistry and Molecular Biology I	3 s.h.
099:130 (BIOC:3130) Biochemistry and Molecular Biology II	3 s.h.
099:140 (BIOC:3140) Experimental Biochemistry	2 s.h.
Advanced science electives, chosen in consultation with advisor	9 s.h.

One of these:

099:155 (BIOC:4155) Research, Independent Study	6 s.h.
Lab-intensive advanced science electives, chosen in consultation with advisor	6 s.h.

One of these sequences:

002:010 (BIOL:1402)-002:011 (BIOL:1502) Principles of Biology I-II (not offered after fall 2012)	8 s.h.
002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function	8 s.h.

Courses 002:010 (BIOL:1402) and 002:011 (BIOL:1502) will not be offered after fall semester 2012, so students who satisfy the biology requirement with those courses must complete them by the end of that semester.

One of these sequences:

004:123 (CHEM:2230)-004:124 (CHEM:2240) Organic Chemistry I for Majors - Organic Chemistry II for Majors (recommended)	6 s.h.
004:121 (CHEM:2210)-004:122 (CHEM:2220) Organic Chemistry I-II (accepted)	6 s.h.

One of these:

004:141 (CHEM:2410) Organic Chemistry Laboratory	3 s.h.
004:142 (CHEM:2420) Organic Chemistry Laboratory for Majors	3 s.h.

Two of these:

004:131 (CHEM:4431) Physical Chemistry I	3 s.h.
004:132 (CHEM:4432) Physical Chemistry II	3 s.h.
099:241 (BIOC:5241) Biophysical Chemistry I	3 s.h.
099:242 (BIOC:5242) Biophysical Chemistry II	3 s.h.

Students are encouraged to begin research by taking 099:115 (BIOC:3115) Undergraduate Independent Study, which has no prerequisites. The course involves

experience in an active biochemistry research lab, which must be arranged ahead of time with a supervising faculty member. Students may make arrangements directly with the faculty member or they may request assistance from an undergraduate advisor. Credit earned in 099:115 (BIOC:3115) does not count toward the major, but it does count toward the minimum 120 s.h. required to graduate.

In order to register for 099:155 (BIOC:4155) Research, Independent Study, students must have a completed 099:120 (BIOC:3120), 099:130 (BIOC:3130), and 099:140 (BIOC:3140) with a grade average of B or higher in the three courses, and they must not have earned a grade below B-minus in any one of them; or they must have their advisor's consent and the instructor's consent to enroll in 099:155 (BIOC:4155).

Bachelor of Arts

The Bachelor of Arts in biochemistry requires a total of 120 s.h., including 57 s.h. of work for the major. In order to count transfer credit in biochemistry toward the major, students must have the approval of an undergraduate advisor in the department.

Students are encouraged to take courses from other disciplines, such as business, pre-law, psychology, or journalism. This prepares them for a variety of career paths.

All students must complete the College of Liberal Arts and Sciences General Education Program.

The biochemistry major for the Bachelor of Arts requires the following course work.

All of these:

004:011 (CHEM:1110)-004:012 (CHEM:1120) Principles of Chemistry I-II	8 s.h.
22M:025 (MATH:1850)-22M:026 (MATH:1860) Calculus I-II	10 s.h.
029:011 (PHYS:1511)-029:012 (PHYS:1512) College Physics I-II	8 s.h.
099:120 (BIOC:3120) Biochemistry and Molecular Biology I	3 s.h.
099:130 (BIOC:3130) Biochemistry and Molecular Biology II	3 s.h.
099:140 (BIOC:3140) Experimental Biochemistry	2 s.h.
Advanced science electives, chosen in consultation with advisor	6 s.h.

One of these sequences:

002:010 (BIOL:1402)-002:011 (BIOL:1502) Principles of Biology I-II (not offered after fall 2012)	8 s.h.
002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function	8 s.h.

Courses 002:010 (BIOL:1402) and 002:011 (BIOL:1502) will not be offered after fall semester 2012, so students who satisfy the biology requirement with those courses must complete them by the end of that semester.

One of these sequences:

004:123 (CHEM:2230)-004:124 (CHEM:2240) Organic Chemistry I for Majors - Organic Chemistry II for Majors (recommended)	6 s.h.
004:121 (CHEM:2210)-004:122 (CHEM:2220) Organic Chemistry I-II (accepted)	6 s.h.

One of these:

004:131 (CHEM:4431) Physical Chemistry I	3 s.h.
004:132 (CHEM:4432) Physical Chemistry II	3 s.h.
099:241 (BIOC:5241) Biophysical Chemistry I	3 s.h.
099:242 (BIOC:5242) Biophysical Chemistry II	3 s.h.

Bachelor of Arts students who intend to go on to advanced degrees in the biological or health sciences are advised to earn at least 4 s.h. in 099:115 (BIOC:3115) Undergraduate Independent Study or 099:155 (BIOC:4155) Research, Independent Study. There are no prerequisites for 099:115 (BIOC:3115). The course involves experience in an active biochemistry research lab, which must be arranged ahead of time with a supervising faculty member. Students may make arrangements directly with the faculty member or they may request assistance from an undergraduate advisor. Credit earned in 099:115 (BIOC:3115) does not count toward the major, but it does count toward the minimum 120 s.h. required to graduate.

In order to register for 099:155 (BIOC:4155) Research, Independent Study, students must have completed 099:120 (BIOC:3120), 099:130 (BIOC:3130), and 099:140 (BIOC:3140) with a grade average of B or higher in the three courses, and they must not have earned a grade below B-minus in any one of them; or they must have their advisor's consent and the instructor's consent to enroll in 099:155 (BIOC:4155).

B.A. or B.S. with Teacher Licensure

Biochemistry majors interested in earning licensure to teach in elementary and/or secondary schools must complete the College of Education's Teacher Education Program (TEP) in addition to the requirements for the major and all requirements for graduation. The TEP requires several College of Education courses and student teaching. Contact the Office of Education Services for details.

Students must satisfy all degree requirements and complete Teacher Education Program licensure before degree conferral.

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Bachelor of Science

Before the third semester begins: 004:011 (CHEM:1110) Principles of Chemistry I and 004:012 (CHEM:1120) Principles of Chemistry II, 22M:025 (MATH:1850) Calculus I and 22M:026 (MATH:1860) Calculus II, and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: the courses listed above, plus 002:031 (BIOL:1411) Foundations of Biology and 002:032 (BIOL:1412) Diversity of Form and Function; 004:121 (CHEM:2210) Organic Chemistry I, 004:122 (CHEM:2220) Organic Chemistry II, and 004:141 (CHEM:2410) Organic Chemistry Laboratory; and at least one-half of the semester hours required for graduation

Before the seventh semester begins: the courses listed above, plus 029:081 (PHYS:1611) Introductory

Physics I and 029:082 (PHYS:1612) Introductory Physics II, 099:120 (BIOC:3120) Biochemistry and Molecular Biology I, 099:130 (BIOC:3130) Biochemistry and Molecular Biology II, 099:101 (BIOC:3101) Technical Communication in Biochemistry, and 099:140 (BIOC:3140) Experimental Biochemistry, two science electives, and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: the courses listed above, plus 004:131 (CHEM:4431) Physical Chemistry I or 004:132 (CHEM:4432) Physical Chemistry II or 099:241 (BIOC:5241) Biophysical Chemistry I or 099:242 (BIOC:5242) Biophysical Chemistry II, a science elective, and at least 3 s.h. of 099:155 (BIOC:4155) Research, Independent Study

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Bachelor of Arts

Before the third semester begins: 004:011 (CHEM:1110) Principles of Chemistry I and 004:012 (CHEM:1120) Principles of Chemistry II; math through 22M:026 (MATH:1860) Calculus II or above; and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: the courses listed above, plus 002:031 (BIOL:1411) Foundations of Biology and 002:032 (BIOL:1412) Diversity of Form and Function, 004:121 (CHEM:2210) Organic Chemistry I and 004:122 (CHEM:2220) Organic Chemistry II, and at least one-half of the semester hours required for graduation

Before the seventh semester begins: the courses listed above, plus 029:011 (PHYS:1511) College Physics I and 029:012 (PHYS:1512) College Physics II; 099:120 (BIOC:3120) Biochemistry and Molecular Biology I, 099:130 (BIOC:3130) Biochemistry and Molecular Biology II, and 099:140 (BIOC:3140) Experimental Biochemistry; two science electives, and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: the courses listed above, plus 004:131 (CHEM:4431) Physical Chemistry I or 004:132 (CHEM:4432) Physical Chemistry II or 099:241 (BIOC:5241) Biophysical Chemistry I or 099:242 (BIOC:5242) Biophysical Chemistry II, and a science elective

During the eighth semester: enrollment in all remaining course work in the major, all remaining General Education courses, and a sufficient number of semester hours to graduate

Honors

Qualified students may work toward graduation with honors in biochemistry. They must be members of the University of Iowa Honors Program, which requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33 (contact the University of Iowa Honors Program for more information). To graduate with honors in the major, students must earn 6 s.h. in 099:155 (BIOC:4155) Research, Independent Study. They must present their research results in a report written in the form of a journal article and in an oral report given at a special open departmental seminar.

Graduate Programs

- Master of Science in biochemistry
- Doctor of Philosophy in biochemistry

Students admitted to graduate study in biochemistry usually pursue the Doctor of Philosophy. Qualified students interested in earning the Doctor of Medicine along with the Ph.D. may apply to the Medical Scientist Training (p. 961) Program, which offers a joint M.D./Ph.D. program.

Master of Science

The Master of Science program in biochemistry requires a minimum of 30 s.h. of graduate credit, thesis research, and a thesis. See "Doctor of Philosophy" for information about the graduate curriculum.

Doctor of Philosophy

The Doctor of Philosophy program in biochemistry requires a minimum of 72 s.h. of graduate credit. The focus of the graduate program is on the individual student.

The 72 s.h. required for the degree includes 34 s.h. of course work and 38 s.h. of research credit. Students may take courses that enhance their educational goals. All Ph.D. students take the following 19 s.h. of course work; they choose an additional 13 s.h. from courses offered by the Department of Biochemistry and other University of Iowa departments.

099:261 (BIOC:5261) Research Techniques (first-year laboratory rotation)	1-5 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0-1 s.h.
Biophysical chemistry (students typically earn 6 s.h.)	3 s.h.
Molecular or cellular biology (students typically earn 6-8 s.h.)	4 s.h.
Graduate seminar	3 s.h.

The following is a typical first-year curriculum.

First semester:

099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
099:245 (BIOC:5245) Biophysical Chemistry Module 2: Structure and Stability of Proteins and Nucleic Acids	1 s.h.
099:247 (BIOC:5247) Biophysical Chemistry Module 3: Biophysics of Macromolecular Interactions	1 s.h.
099:261 (BIOC:5261) Research Techniques	1-5 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research	1 s.h.
156:265 (BISC:5265) Biosciences Critical Thinking and Communication	2 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0-1 s.h.

Second semester:

099:226 (BIOC:5226) Enzyme Kinetics and Bioorganic Mechanisms	1-2 s.h.
099:244 (BIOC:5244) Biophysical Chemistry Module 4: Ligand Binding and X-Ray Crystallography	1 s.h.
099:246 (BIOC:5246) Biophysical Chemistry Module 5: Enzyme Kinetics and Enzyme Mechanisms	1 s.h.
099:248 (BIOC:5248) Biophysical Chemistry Module 6: Nuclear Magnetic Resonance Spectroscopy	1 s.h.
099:261 (BIOC:5261) Research Techniques	1-5 s.h.

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA	1 s.h.
142:216 (MCB:6216) Chromatin Structure and Disease	1 s.h.
142:217 (MCB:6217) Cancer, Epigenetics, and Genetic Manipulations in Mice	1 s.h.
156:205 (BISC:5205) Practical Bioinformatics	1 s.h.
156:265 (BISC:5265) Biosciences Critical Thinking and Communication	2 s.h.
099:282 (BIOC:5282) Seminar	0-1 s.h.
or	
156:265 (BISC:5265) Biosciences Critical Thinking and Communication	2 s.h.

Once students are promoted to the second year of study, they choose research laboratories for Ph.D. thesis research and begin their thesis projects. They take courses that supplement their interests and preparation, including the following.

099:282 (BIOC:5282) Seminar	1 s.h.
099:292 (BIOC:7292) Research Biochemistry	arr.
Graduate-level science electives	6 s.h.

Students take the comprehensive examination before the end of June in their second year, after which they are admitted formally to degree candidacy and begin to concentrate on thesis research. The program culminates in successful defense of completed thesis work before an examining committee.

In addition to meeting these requirements and those of the Graduate College, students are expected, as part of their training, to assist in teaching biochemistry for one semester.

Throughout the program, students are associated with faculty-directed research groups. They receive close personal attention from the biochemistry faculty members who serve as research advisors.

Admission

Most graduate students in biochemistry work toward a Doctor of Philosophy. Applicants who wish to earn a master's degree must contact the Department of Biochemistry before they apply.

The graduate program in biochemistry is flexible enough to accommodate students with bachelor's degrees in any of the biological, biochemical, or physical sciences. Appropriate preparation includes one-year, college-level courses in organic and physical chemistry, biology, physics, and mathematics through calculus. Students are expected to have had one or more introductory courses in biochemistry.

Applicants must have an undergraduate g.p.a. of at least 3.00 and must submit acceptable verbal, quantitative, and analytical scores on the Graduate Record Examination (GRE) General Test. Applicants are encouraged to submit their scores on the GRE Subject Test in Chemistry; Biology; or Biochemistry, Cell, and Molecular Biology.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Financial Support

Students admitted to the Ph.D. program in biochemistry routinely receive a stipend and tuition support.

Faculty and Research

The department's faculty members supervise research in biochemistry; molecular, cellular, developmental, computational, and structural biology; and model system genetics. Their work is supported by grants from the National Institutes of Health, the National Science Foundation, the American Heart Association, the American Cancer Society, the Muscular Dystrophy Association, and other sources. To learn more about the department's faculty members and areas of research, visit the Department of Biochemistry web site.

Facilities

The Department of Biochemistry occupies 36,700 square feet on the fourth floor of the Bowen Science Building and 7,500 square feet on the third floor of the Medical Education Research Facility on the University's health sciences campus. It has a number of well-equipped research laboratories; other departmental facilities include the Biochemistry Stores, the Mattill Biochemistry Reading Room, and the Heath Conference Room.

The department makes available a number of shared instruments; among them are an Applied PhotoPhysics stopped flow spectrometer SX20 (2009); a Jasco spectropolarimeter, model J815 (2010); a Horiba fluorlog-3 spectrofluorometer (2010); and a Beckman Coulter ultra XLI analytical centrifuge (1996).

Faculty, staff, and students in the department have access to a variety of shared Carver College of Medicine resources, including X-ray crystallography, the DNA Facility, the NMR Facility, the Proteomics Facility, the Flow Cytometry Facility, the Gene Transfer Vector Core Facility, the Small Animal Imaging Core, and the Transgenic Animal Facility. The University also supports resources such as the Central Microscopy Research Facilities and the Center for Biocatalysis and Bioprocessing.

Courses

099:101 (BIOC:3101) Technical Communication in Biochemistry 1 s.h.

Practical aspects of writing formal scientific papers and giving oral presentations on technical topics. Prerequisites: 099:120 (BIOC:3120) or 099:130 (BIOC:3130) or 099:140 (BIOC:3140). Requirements: junior or senior biochemistry major pursuing a B.S. degree.

099:110 (BIOC:3110) Biochemistry 3 s.h.

Basic concepts in modern biochemistry and molecular biology; understanding of life processes in molecular terms. Requirements: one year each of college-level biology and chemistry. Recommendations: one semester of organic chemistry.

099:115 (BIOC:3115) Undergraduate Independent Study arr.

Experience in an active biochemistry research lab, learning and performing experiments relevant to the current projects in that lab; exploration of scientific literature on topic of interest; arranged in advance by student and faculty member. Requirements: first-year, sophomore, or junior standing.

- 099:120 (BIOC:3120) Biochemistry and Molecular Biology I** 3 s.h.
Physical and chemical foundations of biochemistry, structure of biological molecules, catalysis, transport, and oxidative reactions in biology; first course of two-semester sequence that concludes with 099:130 (BIOC:3130). Requirements: two semesters of general chemistry and one of organic chemistry. Recommendations: 002:010 (BIOL:1402) and 002:011 (BIOL:1502), or 002:031 (BIOL:1411) and 002:032 (BIOL:1412); and an additional organic chemistry course.
- 099:130 (BIOC:3130) Biochemistry and Molecular Biology II** 3 s.h.
Carbohydrate biosynthesis, lipid metabolism, hormone regulation and integration of metabolism, signal transduction, genes and chromosomes, DNA replication and repair, transcription, RNA processing, protein translation and regulation of gene expression. Prerequisites: 099:120 (BIOC:3120).
- 099:140 (BIOC:3140) Experimental Biochemistry** 2 s.h.
Use of modern instruments and techniques to fractionate, identify, and characterize constituents of biochemical systems. Prerequisites: 099:120 (BIOC:3120). Requirements: grade of C or higher in 099:120 (BIOC:3120), two semesters of general chemistry, and one semester of organic chemistry.
- 099:155 (BIOC:4155) Research, Independent Study** arr.
Independent study and research in areas of interest to the student; arranged in advance by student and biochemistry honors advisor. Requirements: grades of B- or higher in 099:120 (BIOC:3120), 099:130 (BIOC:3130), and 099:140 (BIOC:3140); and an average grade of B or higher in all three courses.
- 099:161 (BIOC:8101) Biochemistry for Dental Students** 4 s.h.
Biochemical concepts and application to clinical problems. Requirements: 004:121 (CHEM:2210), and D.D.S. enrollment. Recommendations: 004:122 (CHEM:2220).
- 099:162 (BIOC:8102) Biochemistry for Pharmacy Students** 4 s.h.
Biochemical concepts and application to clinical problems. Requirements: 004:121 (CHEM:2210) and Pharm.D. enrollment. Recommendations: 004:122 (CHEM:2220).
- 099:163 (BIOC:8103) Medical Biochemistry** 4 s.h.
Biochemical concepts and application to clinical problems. Requirements: M.D. enrollment.
- 099:164 (BIOC:8204) Biochemistry for Physician Assistant Students** 3 s.h.
Aspects of general biochemistry necessary for understanding the biochemical basis of human disease; analysis of appropriate clinical cases. Prerequisites: 099:110 (BIOC:3110).
- 099:215 (BIOC:5215) Directed Readings for Graduate Students** arr.
Directed readings with course content arranged with professor.
- 099:226 (BIOC:5226) Enzyme Kinetics and Bioorganic Mechanisms** 1-2 s.h.
Principles and applications of steady-state and transient enzyme kinetics; mechanisms of catalysis of biochemical reactions. Prerequisites: 099:120 (BIOC:3120).
- 099:238 (BIOC:6238) Topics in Biophysical Chemistry** 1-2 s.h.
Current topics in structure and function of membranes or proteins; DNA-protein interactions; computational biochemistry; applications of NMR, X-ray diffraction, calorimetry, or spectroscopy. Prerequisites: 099:241 (BIOC:5241) or 099:242 (BIOC:5242).
- 099:241 (BIOC:5241) Biophysical Chemistry I** 3 s.h.
Principles and experimental approaches used to study structure and function of biological macromolecules; protein structure, stability, and dynamics; macromolecular interactions; common biophysical methods. Requirements: one year of biochemistry. Recommendations: physical chemistry course and one semester of calculus.
- 099:242 (BIOC:5242) Biophysical Chemistry II** 3 s.h.
Principles and experimental approaches used to study structure and function of biological macromolecules; ligand binding and enzyme catalysis; X-ray crystallography; NMR spectroscopy. Requirements: one year of biochemistry. Recommendations: physical chemistry course and one semester of calculus.
- 099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics** 1 s.h.
Overview of principles of protein structure, stability, folding, and dynamics; brief treatment of structural biology approaches to help students become critical users of models derived from X-ray crystallography and NMR; taken alone or as part of 099:241 (BIOC:5241). Requirements: introductory course in biochemistry.
- 099:244 (BIOC:5244) Biophysical Chemistry Module 4: Ligand Binding and X-Ray Crystallography** 1 s.h.
In-depth examination of principles of ligand binding; experimental approaches to study interactions with small molecules, proteins, and nucleic acids; X-ray crystallography in determining structures of biological macromolecules; taken alone or as part of 099:242 (BIOC:5242). Requirements: introductory course in biochemistry.
- 099:245 (BIOC:5245) Biophysical Chemistry Module 2: Structure and Stability of Proteins and Nucleic Acids** 1 s.h.
In-depth examination of statistical thermodynamics and molecular forces in biological systems as related to protein structure, stability, and folding; nucleic acid structure and stability; taken alone or as part of 099:241 (BIOC:5241). Requirements: introductory course in biochemistry.
- 099:246 (BIOC:5246) Biophysical Chemistry Module 5: Enzyme Kinetics and Enzyme Mechanisms** 1 s.h.
In-depth examination of principles of steady-state and pre-steady-state kinetics; mechanisms of catalysis of a wide range of biochemical reactions; taken alone or as part of 099:242 (BIOC:5242). Requirements: introductory course in biochemistry.
- 099:247 (BIOC:5247) Biophysical Chemistry Module 3: Biophysics of Macromolecular Interactions** 1 s.h.
In-depth examination of protein-protein interactions and protein-nucleic acid interactions; implications in biological motility, transcription, and replication; taken alone or as part of 099:241 (BIOC:5241). Requirements: introductory course in biochemistry.
- 099:248 (BIOC:5248) Biophysical Chemistry Module 6: Nuclear Magnetic Resonance Spectroscopy** 1 s.h.
Basic principles of nuclear magnetic resonance (NMR) and applications important for understanding structure and function of biological macromolecules; emphasis on methodology and experimental design, interpretation of data, and critical reading of literature; intended for graduate students with an interest in applications of NMR to problems of structural biology; taken alone or as part of 099:242 (BIOC:5242). Requirements: one year of biochemistry. Recommendations: basic knowledge of spectroscopy and some previous exposure to NMR from basic chemistry courses.

099:253 (BIOC:7253) Metabolism I 1 s.h.

Basics of carbohydrate metabolism (glycolysis, gluconeogenesis, the pentose phosphate pathway), hormonal regulation of carbohydrate metabolism, the citric acid cycle, amino acid catabolism, oxidative phosphorylation; assignment of an advanced topic related to material, typically a recent research paper, extending inquiry beyond that presented in class and presented orally at end of five-week module. Requirements: undergraduate biochemistry course or background in enzyme function.

099:254 (BIOC:7254) Metabolism II 1 s.h.

Central carbon metabolism, carbohydrate biosynthesis in plants and bacteria, lipid structure/function, fatty acid catabolism, lipid biosynthesis, and biological membranes/transport; assignment of an advanced topic related to material, typically a recent research paper, extending inquiry beyond that presented in class and presented orally at end of five-week module. Prerequisites: 099:253 (BIOC:7253).

099:256 (BIOC:7256) Molecular Biology 1 s.h.

DNA, RNA, and protein metabolism, regulation of gene expression, and DNA-based information technologies.

099:261 (BIOC:5261) Research Techniques 1-5 s.h.

Laboratory rotation for first-year graduate students in biochemistry.

099:275 (BIOC:5875) Perspectives in Biocatalysis 1-3 s.h.

Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as 004:275 (CHEM:5875), 046:275 (PHAR:5875), 052:275 (CBE:5875), 053:275 (CEE:5875), 061:275 (MICR:5875).

099:282 (BIOC:5282) Seminar 0-1 s.h.

How to evaluate reports of scientific investigations critically; techniques for presenting scientific information.

099:283 (BIOC:6283) Thesis Seminar 1 s.h.

Preparation and oral presentation of thesis proposal. Requirements: second-year graduate standing in biochemistry.

099:292 (BIOC:7292) Research Biochemistry arr.

Thesis research.

Cardiothoracic Surgery

Head

Mark D. Iannettoni

Professor

Mark Iannettoni

Associate professors

James Davis, William Lynch

Assistant professors

Michael Bates, R. Saeid Farivar, Kalpaj Parekh, Sotiris Stamou, Joseph Turek

Web site: <http://www.uihealthcare.com/depts/med/cardiothoracicsurgery/index.html>

The University of Iowa cardiothoracic surgery program is the third oldest program of its kind in the United States. Since its establishment in 1948 as the Division of Cardiothoracic Surgery, the program has advanced from providing operative interventions for patients with diseases of the chest to performing a broad range of the most current and innovative surgical procedures.

The Department of Cardiothoracic Surgery's facilities are located at University of Iowa Hospitals and Clinics. Each year cardiothoracic surgeons at the hospitals perform more than 500 adult and pediatric heart surgeries, including coronary bypasses, transplants, and placement of mechanical cardiac assist devices; minimally invasive procedures such as mitral valve replacement and epicardial lead placement; and more than 600 general thoracic surgeries with emphasis on esophageal and lung diseases. Preparations are under way for providing coronary artery bypass grafting using robotics.

M.D. Student Training

The department trains fourth-year M.D. students in two courses, 193:232 (CTS:8401) Subinternship in Cardiothoracic Surgery and 193:233 (CTS:8497) Research in Cardiothoracic Surgery.

Residency Program

Iowa's cardiothoracic surgery residency program was established in 1948 and is fully accredited by the Accreditation Council for Graduate Medical Education. It is the only cardiothoracic surgery training program in Iowa. Two residents are accepted into the two-year program each year.

Postbaccalaureate Training

The department plays a primary instructional role in University of Iowa Hospitals and Clinics' 20-month postbaccalaureate Perfusion Technology Program; see the department's perfusion technology courses (193:161 through 193:171) under "Courses" later in this section. For more information about the Perfusion Technology Program, contact the Department of Cardiothoracic Surgery or visit the Perfusion Technology Program web site.

Research

University of Iowa cardiothoracic surgeons are leaders in clinical research, particularly in oncologic surgery, diseases of the esophagus, artificial organs, pediatric cardiac

surgery, and transplantation. Research also is under way in the sequence of mutations and in localization of genes predisposed to cancer.

Facilities

The Department of Cardiothoracic Surgery has specialty laboratories in gastric motility, analytical chemistry, transplantation, tissue culture, surgical bacteriology, shock, and cardiac bypass. These facilities permit study of experimental procedures such as heart valve replacement in large animals and heterotopic heart transplantation in mice and rats.

The laboratories also are used for supervised teaching exercises in surgical technique for medical students and junior residents, and for refinement of technique for senior residents and faculty members.

Courses

193:161 (CTS:4161,PERF:4161) Instrumentation in Perfusion Technology 3 s.h.

Electrical circuitry, filters, pressure transducers, thermistors, cardiac output computers, fluid dynamics, intra-aortic balloon pumps, blood gas analyzers. Requirements: Perfusion Technology Program enrollment. Same as 193:161 (CTS:4161,PERF:4161).

193:162 (CTS:4162,PERF:4162) Pathophysiology of Perfusion Technology 5 s.h.

Hemostasis, acid base physiology, gas transfer, heart anatomy, heart embryology, congenital cardiac defects. Requirements: Perfusion Technology Program enrollment. Same as 193:162 (CTS:4162,PERF:4162).

193:163 (CTS:4163,PERF:4163) Clinical Experience I 2 s.h.

Perfusion in operating room: patient workup, observation, and reporting on extracorporeal setup, surgical procedure. Requirements: Perfusion Technology Program enrollment. Same as 193:163 (CTS:4163,PERF:4163).

193:164 (CTS:4164,PERF:4164) Clinical Experience II 3 s.h.

Continuation of 193:163 (CTS:4163,PERF:4163); setup of the extracorporeal circuit, ancillary duties of perfusionist. Prerequisites: 22S:101 (STAT:3510), 069:133 (PATH:8133), 193:161 (CTS:4161,PERF:4161), 193:162 (CTS:4162,PERF:4162), and 193:163 (CTS:4163,PERF:4163). Same as 193:164 (CTS:4164,PERF:4164).

193:165 (PERF:4165) Clinical Experience III 12 s.h.

Continuation of 193:164 (CTS:4164,PERF:4164); management of cardiopulmonary bypass system. Prerequisites: 071:130 (PCOL:4130), 193:164 (CTS:4164,PERF:4164), 193:170 (PERF:4170), and 193:171 (PERF:4171).

193:166 (CTS:4166,PERF:4166) Clinical Experience IV 12 s.h.

Continuation of 193:165 (PERF:4165); emphasis on supply maintenance, perfusion department management. Prerequisites: 193:165 (PERF:4165). Same as 193:166 (CTS:4166,PERF:4166).

193:167 (CTS:4167,PERF:4167) Perfusion Seminar 1 s.h.

Ethics in perfusion. Requirements: Perfusion Technology Program enrollment. Same as 193:167 (CTS:4167,PERF:4167).

193:168 (CTS:4168,PERF:4168) Research in Perfusion 1 s.h.

From topic selection to manuscript. Requirements: Perfusion Technology Program enrollment. Same as 193:168 (CTS:4168,PERF:4168).

193:169 (PERF:4169) Clinical Experience V 12 s.h.

Continuation of 193:166 (CTS:4166,PERF:4166). Prerequisites: 193:166 (CTS:4166,PERF:4166).

193:170 (PERF:4170) Principle and Practice of Perfusion Technology 6 s.h.

Hypothermia, hemodilution, left heart bypass, dialysis, ultrafiltration, membrane and bubbler oxygenation. Prerequisites: 22S:101 (STAT:3510), 069:133 (PATH:8133), 193:161 (CTS:4161,PERF:4161), 193:162 (CTS:4162,PERF:4162), and 193:163 (CTS:4163,PERF:4163).

193:171 (PERF:4171) Devices in Perfusion Technology 3 s.h.

Components of extracorporeal circuit; in vitro laboratory evaluation of components. Prerequisites: 22S:101 (STAT:3510), 069:133 (PATH:8133), 193:161 (CTS:4161,PERF:4161), 193:162 (CTS:4162,PERF:4162), and 193:163 (CTS:4163,PERF:4163).

193:232 (CTS:8401) Subinternship in Cardiothoracic Surgery arr.

Participation in diagnosis, preoperative, operative, and postoperative care of thoracic and cardiac patients.

193:233 (CTS:8497) Research in Cardiothoracic Surgery arr.

Participation in diagnosis, preoperative, operative, and postoperative care of thoracic and cardiac patients.

Clinical Laboratory Sciences

Site coordinator

Judith Kittleson (Pathology)

Undergraduate major: clinical laboratory sciences (B.S.)

Web site: <http://www.medicine.uiowa.edu/pathology/education/clsp/clsp>

Clinical laboratory scientists and medical technologists, now known as medical laboratory scientists, perform the laboratory tests that provide physicians with information vital for accurate diagnosis and proper treatment of disease. They are in demand in hospital, private, and government laboratories; clinics; physicians' offices; and industrial, pharmaceutical, biological, and environmental research laboratories. Clinical laboratory scientists and medical technologists are highly skilled health team members who use a battery of sophisticated procedures and instruments in their work and who possess specialized knowledge and skills acquired through completion of a formal program of academic and clinical study.

Undergraduate Program

- Major in clinical laboratory sciences (Bachelor of Science)

The Carver College of Medicine partners with the University of Nebraska Medical Center (UNMC) to offer the major in clinical laboratory sciences. The UNMC program is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences. All graduates are eligible for national certification examinations in clinical laboratory sciences and medical technology.

Undergraduate study in clinical laboratory sciences is guided by the academic rules and procedures outlined under "Undergraduate Programs" in the Carver College of Medicine (p. 912) section of the Catalog.

Bachelor of Science

The Bachelor of Science with a major in clinical laboratory sciences requires a minimum of 131 s.h., including 86 s.h. of preparatory study and the 45 s.h. professional (clinical) program, which consists of 12 months of didactic and practical instruction and clinical rotations.

Bachelor of Science students who have completed all preparatory study (years one through three) begin the fourth-year professional program in May with an 11-week summer session of lecture and student laboratory courses. In mid-August they begin clinical rotations in the laboratories of University of Iowa Hospitals and Clinics, the State Hygienic Laboratory at The University of Iowa, and the Iowa City Veterans Affairs Medical Center. They complete additional University of Nebraska Medical Center course work online during fall and spring. Students complete the program the first week in May.

University of Iowa students who successfully complete the 12-month professional program graduate with a Bachelor of Science from The University of Iowa and a letter of completion from the UNMC clinical laboratory sciences program.

Non-University of Iowa students may enroll in a clinical laboratory sciences certificate-only program if they hold a baccalaureate degree from an accredited institution or are enrolled at an affiliated institution that will grant them a

baccalaureate at the completion of the certificate program. Contact the Clinical Laboratory Sciences Program for more information.

FOURTH YEAR (PROFESSIONAL PROGRAM)

The professional program requires the following course work. Students must have completed 86 s.h., including all prerequisites (see "Admission" below), in order to enter the professional program. These courses are open only to Clinical Laboratory Sciences Program students in the fourth year (professional program).

069:150 (PATH:4150) Clinical Laboratory Skills	6 s.h.
069:152 (PATH:4152) CLS Theory, Application, and Correlation	5 s.h.
069:154 (PATH:4154) Clinical Chemistry I	4 s.h.
069:155 (PATH:4155) Clinical Chemistry II	3 s.h.
069:156 (PATH:4156) Clinical Hematology I	4 s.h.
069:157 (PATH:4157) Clinical Hematology II	3 s.h.
069:158 (PATH:4158) Clinical Microbiology I	4 s.h.
069:159 (PATH:4159) Clinical Microbiology II	3 s.h.
069:160 (PATH:4160) Clinical Immunology and Molecular Diagnostics	1 s.h.
069:162 (PATH:4162) Clinical Immunohematology I	3 s.h.
069:163 (PATH:4163) Clinical Immunohematology II	2 s.h.
069:164 (PATH:4164) Phlebotomy for Clinical Laboratory Science	1 s.h.
069:166 (PATH:4166) Urine and Body Fluid Analysis	1 s.h.
069:170 (PATH:4170) Clinical Laboratory Management I	2 s.h.
069:171 (PATH:4171) Clinical Laboratory Management II	3 s.h.
069:172 (PATH:4172) Clinical Endocrinology and Toxicology I	1 s.h.

For course descriptions and prerequisites, see Pathology (p. 984) in the Catalog.

Admission

Admission to the clinical laboratory sciences professional program is competitive; enrollment may be limited. Applications are reviewed yearly beginning October 1 for students planning to begin the program the following May. Applications are accepted until the class is filled.

Applicants must have completed all of the following prerequisites and must have earned at least 86 s.h. of college credit by the beginning of the professional program (fourth year).

Biological sciences—must include microbiology (with lab), genetics, and immunology	16 s.h.
Chemistry—must include two semesters of general chemistry, one semester of organic chemistry, and one semester of organic chemistry lab or biochemistry	14 s.h.
Mathematics through precalculus	3 s.h.
Statistics	3 s.h.
English	6 s.h.
Public speaking/oral communication	3 s.h.

Applicants must have a cumulative grade-point average of at least 2.70 both overall and in science course work. Those who intend to receive a Bachelor of Science from The University of Iowa must fulfill all College of Liberal Arts and Sciences General Education Program (p. 276) requirements before beginning the professional program. University of Iowa students satisfy the English and public speaking prerequisite requirements by fulfilling the General Education Program's Rhetoric requirement. Students must satisfy any English as a Second Language

requirements specified by the University before beginning the professional program.

Students should consult with a Clinical Laboratory Sciences Program advisor as early as possible to plan preclinical studies that meet all requirements.

Expenses

Students are responsible for buying textbooks and paying University of Iowa tuition and student fees. Students who intend to receive a Bachelor of Science in clinical laboratory science from The University of Iowa at the end of the professional program must pay full-time study University tuition and fees. Students in the clinical laboratory sciences certificate-only program pay a program fee, a certificate fee, and student fees. Contact the Clinical Laboratory Sciences Program for more information.

Students must arrange and pay for their own meals and housing, including meals and lodging during the summer session.

The Clinical Laboratory Sciences Program provides laboratory coats for professional program students.

Dermatology

062:999 (DERM:8499) Dermatology off Campus

arr.

Arranged by student with departmental approval.

Head

Janet A. Fairley

Professors

George J. Giudice, Kathi C. Madison, Mary S. Stone

Professors emeriti

Richard M. Caplan, John S. Strauss

Adjunct clinical professors

Marc E. Boddicker, Roger I. Ceilley

Clinical associate professors

Vincent Liu, Marta J. Van Beek

Adjunct clinical associate professors

Dan A. Bovenmyer, Robert F. Godwin, Susan Wall

Adjunct assistant professor

Laura M. Myers

Clinical assistant professors

Allison A. Legler, Jill L. Lightfoot, Brian L. Swick

Research assistant professor

Kelly A. N. Messingham

Adjunct clinical assistant professors

Timothy G. Abrahamson, Mark G. Cleveland, David A. Davis, Gary Quinby

Web site: <http://www.uihealthcare.com/depts/med/dermatology/>

The Department of Dermatology instructs M.D. students and trains dermatology residents in the care of patients with skin diseases. It also provides researchers with an opportunity to develop their skills in dermatology.

M.D. Student Training

The Carver College of Medicine is one of the few medical colleges in the country with a required dermatology rotation for students. Each third-year M.D. student spends two weeks in the clinic and attends around 10 one-hour lectures. Students see a good cross-section of patients, including those receiving primary or tertiary care at University of Iowa Hospitals and Clinics and a large number of patients referred from Student Health Service. Additional patients are seen at the nearby Iowa City Veterans Affairs Medical Center.

Varied electives are open to fourth-year M.D. students, including further clinical experience, dermatologic research, and special studies.

Courses

062:001 (DERM:8301) Clinical Dermatology 2 s.h.

Basic dermatology; lectures, independent study, clinical experience. Requirements: third-year M.D. enrollment.

062:002 (DERM:8401) Dermatology Elective arr.

Advanced clinical experience, dermatologic surgery, special assignments. Requirements: fourth-year M.D. enrollment.

062:004 (DERM:8497) Research in Dermatology arr.

General principles of medical research; clinical or laboratory projects; individual study.

Dietetic Internship

Director

Laurie Kroymann

Web site: <http://www.healthcare.uiowa.edu/fns/internship/internship.htm>

University of Iowa Hospitals and Clinics offers a Dietetic Internship Program that is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics. It qualifies graduates to take the exam for qualification as a Registered Dietitian (RD). Clinical dietitians and food service operation managers of the Department of Food and Nutrition Services at University of Iowa Hospitals and Clinics provide the teaching for the program. Graduate courses in the program are administered by the Carver College of Medicine and the College of Public Health. See "Associated Courses" below.

Students generally complete the program with 9 s.h. of graduate credit, which may be applied toward an advanced degree. Approximately half of the program's graduates go on to complete advanced degree programs, typically a master's degree in health promotion, public health, or business.

University of Iowa Hospitals and Clinics awards a certificate to the program's graduates.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They also must complete a didactic program in dietetics that has approval of the ADA Commission on Accreditation for Dietetics Education.

Students enter the program in the fall semester. The postmark deadline for applications is February 15.

Associated Courses

For course descriptions, see "Nondepartmental Courses" in the Carver College of Medicine (p. 912) section of the Catalog and "Courses" in the Epidemiology (p. 1066) section (College of Public Health).

050:203 (DIET:9203) Clinical Dietetics	1 s.h.
173:230 (EPID:6300) Principles of Dietary Assessment	1 s.h.
173:235 (EPID:6350) Nutritional Epidemiology	2 s.h.
173:236 (EPID:6360) Nutrition Intervention in Clinical Trials Research	2 s.h.
173:237 (EPID:6370) Nutrition Intervention in Research Lab	3 s.h.

Doctor of Medicine

Professional degree: M.D.

Web site: <http://www.medicine.uiowa.edu>

Professional Program

- Doctor of Medicine

The Doctor of Medicine is a professional degree awarded by the Carver College of Medicine. The college is accredited by the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges and meets the requirements of all state licensing boards. Its M.D. diploma admits the holder to all privileges granted to graduates of all medical colleges before such boards.

This catalog section provides information about the Doctor of Medicine curriculum, admission to the program, financial support, and academic rules and procedures.

Doctor of Medicine

The Doctor of Medicine is a four-year program that prepares students to practice primary care medicine and to pursue further education and training in specialized areas of medicine. The program admits 152 new students each year.

The M.D. curriculum begins with study of basic medical sciences and foundations of clinical practice and progresses through in-depth clinical course work and clinical clerkships served primarily at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, and the Des Moines Area Medical Education Consortium. Students also may have opportunities to gain experience in private medical offices and community hospitals.

Graduates may pursue further training in the specialties of family medicine, internal medicine, surgery, and pediatrics at one of 10 University of Iowa-affiliated residency programs in six Iowa cities. They also have access to two transitional-year programs. For more information, contact the Office of Student Affairs and Curriculum and visit Information for Current Students on the Carver College of Medicine web site.

First and Second Years: Basic Medical Sciences and Clinical Foundations

The first four semesters present a core of sciences basic to the study of medicine and introduce students to the foundations of clinical practice.

Some elective courses are available to students during the first and second years. These normally carry 1 or 2 s.h. of credit. Topics include areas not specifically covered in the regular curriculum and areas related to medical practice and the role of the physician. Courses vary from year to year, but typical subject areas are global health issues, U.S. health care systems, and community health outreach.

FIRST SEMESTER

099:163 (BIOC:8103) Medical Biochemistry presents concepts concerning structures of biological macromolecules, cellular metabolism, elements of human nutrition, molecular biology and genetics, and extra- and intracellular signaling mechanisms. It uses clinical

examples to illustrate how alterations in these molecules and pathways can lead to pathological conditions.

060:103 (ACB:8101) Medical Gross Human Anatomy includes complete dissection of the human body with a regional focus that emphasizes relationships to the living system. Clinically relevant areas of radiologic imaging, surface anatomy, embryology, and clinical correlations complement the dissection experience. Students acquire anatomical knowledge through lectures, small group work, and independent activities.

050:120 (MED:8102) Medical Cell Biology presents concepts concerning the structure and function of the cell and its organelles at the molecular level. The course consists of basic science lectures and clinical correlations and relates basic cell biological concepts to the understanding and treatment of human disease.

070:110 (PEDS:8104) Medical Genetics is integrated with ongoing classes in anatomy, biochemistry, and cell biology. It provides an overview of clinical and medical genetics, with particular emphasis on recent changes that affect clinical practice with respect to common diseases that have a genetic component.

050:162 (MED:8105) Foundations of Clinical Practice I is the first semester of a sequential four-semester course that introduces clinical skills students need in order to become practicing primary care physicians.

The five major goals for students over the four-semester course are to develop knowledge, attitudes, and skills that are necessary for:

- maturation into a competent and confident clinician;
- maintaining a lifelong process of learning the practice of medicine;
- application of relevant basic science and clinical concepts and other scientific advances to the practice of medicine;
- application of the principles of health promotion and disease prevention to the practice of medicine; and
- increasing awareness of the ethical and social context in which medicine is practiced.

Through large group lectures, small case-based learning groups, and small-group skill building sessions, students focus on communication in the doctor-patient relationship, accessing and managing medical information, and applying basic principles of evidence-based medicine and medical ethics.

SECOND SEMESTER

060:234 (ACB:8114) Medical Neuroscience is a course for medical students, physical therapy students, and graduate students in the basic medical or related sciences. Through lectures, clinical correlate presentations, laboratories, and small group discussion sessions, the course emphasizes the interdisciplinary and integrated study of the human central nervous system. Its faculty is drawn from basic science and clinical departments.

148:251 (IMMU:8113) Principles of Medical Immunology is offered by the interdisciplinary Immunology Program. Its goals are to teach basic components and mechanisms of the immune response as well as medical principles of normal and abnormal immunity. The course consists of lectures by Immunology Program faculty and small group case analysis sessions.

050:240 (MED:8112) Human Organ Systems is an interdepartmental course that presents the normal structure (histology) and function (physiology) of human organ systems in a coordinated and integrated organ systems approach. The course is designed to emphasize structure/function relationships by integrating the microscopic anatomic and physiologic function of normal human organ systems. The course's faculty includes members of basic science departments and clinical departments.

050:163 (MED:8115) Foundations of Clinical Practice II is the second semester of a sequential, four-semester course that introduces clinical skills students need in order to become practicing primary care physicians (see 050:162 (MED:8105) Foundations of Clinical Practice I under "First Semester" above for overall course goals). In this semester, students continue to work toward course goals through small case-based learning groups, large-group lectures, and small-group skill acquisition sessions. They also are introduced to clinical medicine in a shadowing experience with health care providers. Principles of doctor-patient communication are reinforced and performance of the components of the general physical examination are taught and practiced. Other topics include multiculturalism, preventive medicine, the social context of medicine, and health across the lifespan.

THIRD SEMESTER

071:105 (PCOL:8203) Pharmacology for Health Sciences: Medical introduces basic principles of drug action and drug disposition through discussion of mechanisms of action, therapeutic uses, and side effects for a wide variety of commonly used medications. Lectures integrate knowledge from related scientific disciplines, including biochemistry, microbiology, pathology, and physiology. Students acquire knowledge of rationale and basis for appropriate selection of medications in clinical situations and an understanding of the basis for common drug-drug interactions and adverse drug reactions.

061:103 (MICR:8202) Principles of Infectious Diseases presents a comprehensive approach to the microbiology of infectious diseases, covering infectious agents at both the organismic and molecular levels. The molecular aspects of pathogenesis are presented as the basis for present and future preventive and therapeutic measures. The laboratory includes hands-on experiments ranging from principles of aseptic technique to the most modern molecular aspects of diagnostic microbiology.

069:205 (PATH:8204) Medical Pathology I starts with general principles of disease: cell injury, inflammation, immune mechanisms, neoplasia, and hemodynamic disorders, followed by etiology, pathogenesis, epidemiology, and major clinical and morphologic manifestations of disease by organ systems. The course combines lecture information, small group analytic skills, and observation of current laboratory procedures.

050:164 (MED:8205) Foundations of Clinical Practice III is the third semester of a sequential, four-semester course that introduces clinical skills students need in order to become practicing primary care physicians (see 050:162 (MED:8105) Foundations of Clinical Practice I under "First Semester" above for overall course goals). Foundations of Clinical Practice III introduces students to the abnormal structure and function of the human body and to a broader understanding of the practice of medicine in a social context. Students integrate and apply principles

of clinical history taking, physical exam skills, and lecture material by working with simulated and real patients. Practicing clinicians deliver lectures on topics including common complaints of childhood through old age as well as human sexuality. Small-group learning and clinical skills activities take place throughout the semester.

FOURTH SEMESTER

069:206 (PATH:8214) Medical Pathology II is a continuation of 069:205 (PATH:8204) Medical Pathology I.

050:183 (MED:8213) Healthcare Ethics, Law, and Policy introduces M.D. and physician assistant students to health care ethics, law, and policy. Students learn to appreciate the inseparable relationship between medicine and ethics, recognize key ethical obligations and challenges common in medical practice, identify sources of ethical value commonly used in ethical reasoning, and apply a systematic approach to clinical ethical reasoning. They learn fundamental legal doctrines and theories that relate to business and professional aspects of the law pertaining to health care delivery. They also develop an understanding of the relationship and contrasts between ethics and law in medical practice, and they gain familiarity with the ways in which health policy influences medical practice. Through small group discussions about ethical challenges in patient care, they learn to interact respectfully with peers and faculty when discussing controversial issues.

050:165 (MED:8215) Foundations of Clinical Practice IV ICD is the final course in the foundation series. The fourth semester is devoted primarily to this major interdisciplinary course, which includes participation by a large proportion of the faculty and is vital in providing students with the tools for a lifetime of patient care.

Mornings are devoted to intensive review of the diagnostic and therapeutic aspects of organ-system-based clinical medicine. The reviews are presented by teams of specialty and subspecialty clinicians. Students spend afternoons acquiring and practicing the clinician's skills in history taking and physical examination and in learning specialized exams. Small group learning and clinical case conferences take place throughout.

Each student is evaluated individually during the semester. Evaluations include the student's approach to the patient, accuracy of history and physical examination, precision in communicating gathered data, ability to synthesize available data into a realistic differential diagnosis, and ability to apply the process of problem-based learning to the understanding of patient-based problems. Cognitive knowledge of topics covered in the morning lecture and small group sessions is assessed through computer-based multiple-choice examinations. Students who need further work receive guidance and assistance.

All M.D. students are required to pass Step 1 of the United States Medical Licensing Examination before they may be promoted to the third year of the curriculum.

Third and Fourth Years: Clinical Training

The M.D. curriculum's third and fourth years consist of clinical training. Students must complete 81 weeks of courses during the two clinical years, including 65 weeks of required courses and 16 weeks of elective courses. They complete 49 weeks of courses during the third year and 32 weeks of courses during the fourth year.

Students begin the third year with the skills training course 050:170 (MED:8300) Clinical Beginnings (one week) and continue the year with the generalist core (total of 36 weeks of required clerkships) plus 12 weeks of courses chosen from selectives and other required clerkships.

During the fourth year, students complete required clerkships not completed during the third year, a subinternship (four weeks), and 16 weeks of advanced electives.

Primary venues for clinical training of medical students include University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, and the Des Moines Area Medical Education Consortium. Students also participate in the family practice preceptorship and the community-based primary care clerkship, which are off-campus rotations. Other courses may be assigned to off-campus sites, as well.

The third and fourth years of the M.D. curriculum consist of the following work.

PRECLERKSHIP SKILLS TRAINING

050:170 (MED:8300) Clinical Beginnings (one week) helps students make the transition from the first two years of the M.D. curriculum to the clinical work in years three and four. It emphasizes the "four Cs": clinical reasoning and reflection; the core competencies (patient care, medical knowledge, practice-based learning and improvement, interpersonal and communication skills, professionalism, and systems-based practice); collaboration and teamwork; and clinical appraisal of the literature and lifelong learning.

GENERALIST CORE

M.D. students complete the generalist core during the third year. It consists of the following 36 weeks of clerkships.

078:204 (IM:8458) Community-Based General Internal Medicine (4 weeks)	4 s.h.
078:102 (IM:8302) Outpatient Internal Medicine (4 weeks)	4 s.h.
115:300 (FAM:8301) Preceptorship in Family Medicine (4 weeks)	4 s.h.
078:101 (IM:8301) Inpatient Internal Medicine (6 weeks)	6 s.h.
066:004 (OBG:8301) Clinical Obstetrics and Gynecology (6 weeks)	6 s.h.
070:002 (PEDS:8301) Clinical Pediatrics (6 weeks)	6 s.h.
075:005 (SURG:8301) Clinical Surgery (6 weeks)	6 s.h.

SELECTIVES

During the third and fourth years, M.D. students complete eight weeks of selectives chosen from these.

062:001 (DERM:8301) Clinical Dermatology (2 weeks)	2 s.h.
067:111 (OPHT:8301) Clinical Ophthalmology (4 weeks)	4 s.h.
074:006 (RAD:8301) Clinical Radiology (2 weeks)	2 s.h.
079:104 (URO:8301) Clinical Urology (2 weeks)	2 s.h.
069:240 (PATH:8301) Laboratory Medicine in Clinical Practice (1 week)	1 s.h.
078:304 (IM:8303) Electrocardiography (1 week)	1 s.h.

OTHER REQUIRED CLERKSHIPS

M.S. students complete the following 36 weeks of additional required clerkships and other work during the third and fourth years.

073:005 (PSYC:8301) Clinical Psychiatry (4 weeks)	4 s.h.
064:011 (NEUR:8301) Clinical Neurology (4 weeks)	4 s.h.
076:002 (ORTH:8301) Clinical Orthopaedics (2 weeks)	2 s.h.
068:003 (OTO:8301) Clinical Otolaryngology (2 weeks)	2 s.h.
Emergency medicine or critical care medicine (4 weeks)	
One subinternship (4 weeks during the fourth year)	
Advanced electives (total of 16 weeks during the fourth year)	

Joint M.D./Graduate Degrees

The Carver College of Medicine offers a joint M.D./Ph.D. program for students who are interested in a career that combines clinical and academic medicine with basic and clinical research; see Medical Scientist Training Program (p. 961) in the Catalog.

The college also collaborates with other University of Iowa colleges to offer the joint M.D./M.B.A. program with the Tippie College of Business (p. 562); the joint M.D./J.D. program with the College of Law (p. 880); and the joint M.D./M.P.H. program with the College of Public Health (p. 1051).

Students must be admitted to both of the individual degree programs before they may be admitted to the joint degree program. Those interested in joint M.D./graduate degree programs must make arrangements with the appropriate graduate department and with the Carver College of Medicine associate dean for student affairs and curriculum.

Admission

The Carver College of Medicine participates in the American Medical College Application Service (AMCAS), a nonprofit centralized application processing service for applicants to U.S. medical schools. AMCAS applications are available for completion in May of the year preceding the beginning of the class for which application is being made. Prospective students are urged to apply as early as possible. The deadline for AMCAS submission is November 1.

Secondary applications are forwarded to applicants whose AMCAS applications pass a review conducted by the college. A \$60 fee must accompany the secondary application from all applicants.

Admitted applicants must have an official transcript from each college they have attended sent to the University's Office of Admissions.

Technical Standards for Admission and Retention

The Carver College of Medicine seeks students who will serve the needs of society best, and it strives to graduate skilled and effective physicians. To achieve these goals, it applies the following principles and technical standards to candidates for admission and to continuing students.

PRINCIPLES

Technical standards refer to criteria that go beyond academic requirements for admission and are essential to meeting the academic requirements of the M.D. program.

Applicants to the Carver College of Medicine and students continuing in the college, with or without disabilities, are expected to meet the same requirements.

Matriculation and continuation in the college assume a certain level of cognitive and technical skill. Medical students with disabilities are held to the same fundamental standards as their nondisabled peers. Although not all students should be expected to gain the same level of proficiency with all technical skills, some skills are so essential that mastery must be achieved, with the assistance of reasonable accommodations where necessary.

Reasonable accommodations are provided to assist in learning, performing, and satisfying the technical standards.

Every reasonable attempt is made to facilitate the progress of students, providing that such efforts do not compromise collegiate standards or interfere with the rights of other students and patients.

TECHNICAL STANDARDS

Applicants for admission to the Carver College of Medicine and continuing students must possess the capability to complete the entire medical curriculum and be granted the degree. To this end, they must complete all courses in the curriculum successfully. In order to acquire the knowledge and skills to function in a broad variety of clinical situations and to provide a wide spectrum of patient care, M.D. students must have abilities and skills in six areas, including observation; communication; motor skills; intellectual, conceptual, integrative, and quantitative abilities; behavioral and social attributes; and cultural competence.

Technological compensation can be made for some disabilities in certain areas, but each student must meet the essential technical standards in such a way that he or she is able to perform in a reasonably independent manner. The use of a trained intermediary is not acceptable in many clinical situations, because it implies that the student's judgment must be mediated by someone else's power of selection and observation.

Observation: Students must have the functional ability to observe demonstrations and experiments in the basic sciences and must have sufficient use of the senses necessary to perform a physical examination.

Communication: Students must be able to relate reasonably to patients and establish sensitive, professional relationships with patients, colleagues, and staff. They are expected to communicate the results of the history and examination to the patient and to their colleagues with accuracy, clarity, and efficiency.

Motor: Students are expected to participate in basic diagnostic and therapeutic maneuvers and procedures. Those who cannot perform these activities independently should be able to understand and direct the methodology involved in such activities.

Intellectual, conceptual, integrative, and quantitative abilities: Students must be able to learn to analyze, synthesize, solve problems, and reach reasonable diagnostic and therapeutic judgments. Students are expected to be able to display good judgment in the assessment and treatment of patients. They must be able to learn to respond with prompt and appropriate action in emergency situations.

Behavioral and social attributes: Students are expected to be able to accept criticism and respond with appropriate modification of their behavior. Students also

are expected to possess the perseverance, diligence, and consistency necessary to complete the M.D. curriculum and enter the independent practice of medicine in a reasonable period of time. They must demonstrate professional and ethical demeanor and behavior in all dealings with peers, faculty, staff, and patients.

Cultural Competence: Medical students must be able to communicate with and care for persons whose culture, sexual orientation, or religious beliefs are different from their own. They must be able to perform a complete history and physical exam on any patient regardless of the student's or the patient's race, religion, ethnicity, socioeconomic status, gender, age, or sexual preference. Similarly, students must be able to interact professionally with colleagues and other health care professionals without regard to race, religion, ethnicity, socioeconomic status, gender, age, or sexual preference.

Applicants who may not meet these standards are encouraged to contact the college's admissions office.

Admission Requirements

Applicants for admission to the Carver College of Medicine must have a baccalaureate degree; or they must be enrolled in a baccalaureate degree program, have earned at least 94 s.h. of credit or the equivalent, and expect to receive their degree before enrolling in the Carver College of Medicine. They must have earned college credit in the following courses.

Physics: a complete introductory course (one year), including lab instruction.

Mathematics: college algebra and trigonometry; applicants who completed college algebra and trigonometry in high school must take a course in advanced college mathematics or in statistics.

Chemistry: a minimum of one complete introductory course in organic chemistry (one year), ordinarily following a complete introductory course in modern general chemical principles, each with the appropriate laboratories.

Biological sciences: a complete introductory course in the principles of biology, or zoology and botany (one year), each with the appropriate laboratories; and an advanced biology course (one semester or quarter); recommended advanced biology courses include biochemistry, molecular and cell biology, human physiology, genetics, and microbiology.

English: two courses (including composition and literature); the requirement may be waived if the applicant's school has an integrated writing requirement in courses across its curriculum.

Social and behavioral sciences, and humanities: four courses; because writing skills are important in the study and practice of medicine, prospective applicants are encouraged to fulfill this requirement with courses that include a writing component; recommended courses include behavioral psychology, foreign language, and other courses that encourage appreciation for diversity and cultural competency.

Fulfillment of these requirements does not guarantee admission to the Carver College of Medicine. The college's admissions committee selects applicants who appear to be best qualified to study and practice medicine.

Applicants must have a cumulative g.p.a. of at least 2.50 for all college work. Applicants should have taken the required science courses for a grade rather than electing pass/fail grading.

Preference is given to Iowa residents with high scholastic standing. Consideration also is given to outstanding nonresidents.

Applicants are required to take the Medical College Admission Test (MCAT) no earlier than five years before and no later than September of the year of application. To register for the test, see "Reserving a Seat" on the Medical College Admission Test web site.

Personal interviews are part of the admission process. Candidates invited for an interview are contacted by the admissions committee.

An external criminal background check is performed for all admitted students at the time of admission.

All students who enter the Carver College of Medicine are required to comply with the pre-entrance and annual health screening program developed by the University's Student Health Service in cooperation with University of Iowa Hospitals and Clinics; see Forms and Reports on the Student Health Service web site.

All registered Carver College of Medicine students are required to maintain health insurance (or an equivalent care plan) that satisfies minimum standards of coverage. Insurance coverage must be maintained continuously throughout each year of attendance at The University of Iowa.

Financial Support

The Carver College of Medicine's philosophy is that no student should be denied a medical education due to a lack of financial resources. Admissions decisions at the Carver College of Medicine are made without consideration of financial need. Therefore, the Carver College of Medicine financial aid staff actively seeks financial aid sources so every student interested in a medical education can finance that education.

Financial assistance is provided by the Carver College of Medicine primarily on the basis of demonstrated financial need. Although a limited number of collegiate or institutional grants are available for the most economically disadvantaged students, most aid is in the form of loans. Examples of federal loan programs are the Federal Direct Unsubsidized Stafford/Ford Student Loan, the Federal Perkins Loan, and the Primary Care Loan (PCL). Students also may qualify for Federal Direct Grad PLUS Loans or private loans to supplement their financial aid package.

In addition, the college supports scholarship and loan programs through permanent endowments and/or contributions from alumni and friends of the Carver College of Medicine. These funds are administered by the college's financial aid office and are awarded as a part of a student's total financial aid package. Funds to support short-term emergency loans are available for students with immediate financial need.

A small number of Dean's Scholarships are awarded by the college's admissions office to highly qualified candidates on the basis of their academic excellence, leadership abilities, and their potential to enrich the

college. Dean's Scholarships are included in the recipient's overall financial aid package.

To learn more about financial aid, contact the Carver College of Medicine Financial Services office.

Academic Rules and Procedures

Student Promotion

The Carver College of Medicine has established promotion policies and procedures to ensure that each of its graduates has adequate skills, knowledge, judgment, ethical standards and personal integrity to assume the responsibilities of a medical doctor. The student promotions committee, made up of seven faculty members and two students, performs these duties with the cooperation, advice, and judgment of course directors, faculty members, students, and administrators.

The committee recommends specific actions to be taken when a student's skills, knowledge, judgment, or ethical behavior is in any way considered consistently marginal or unsatisfactory. Possible recommendations include dismissal of the student from the college; suspension for a specified period of time; requiring the student to repeat all or any part of the curriculum on academic probation; and allowing the student to continue on academic probation with a full or partial course load. The committee's recommendations are forwarded for action to the executive dean of the Carver College of Medicine.

Medical students have the right to appeal a promotion decision. They must submit the appeal in writing to the Carver College of Medicine's executive dean within five days of notification of the decision. Appeals are considered by the Appeals Committee, made up of faculty representatives of the Medical Council and the Executive Committee, a medical student, a lay member, and the associate dean for student affairs (ex officio). Students may request an opportunity to appear before the Appeals Committee to make a statement and answer questions. The committee then makes its recommendation to the college's dean, who is the final authority.

Specific information about student promotion policies and procedures is available from the Office of Student Affairs and Curriculum and is online in the Student Handbook.

Leaves of Absence, Withdrawal, Reinstatement

The Carver College of Medicine has established policies regarding leaves of absence, dropping courses, withdrawal from the college, and reinstatement to the college. Information about each of these policies is available at the college's Office of Student Affairs and Curriculum and is published annually in the Student Handbook.

Disputes and Complaints

Student complaints concerning actions of faculty members or departments are pursued first through mechanisms established in the Carver College of Medicine. These procedures allow the greatest flexibility for all concerned in resolving a conflict. They are intended for situations such as grading disputes, alleged academic dishonesty, alleged dishonesty during a clinical rotation, alleged unethical or unprofessional conduct, and perceived discrimination or harassment.

Complaints regarding sexual harassment are handled confidentially in accordance with University policy

and procedures; see the University's Policy on Sexual Harassment.

For information about the established informal mechanisms, contact the Office of Student Affairs and Curriculum or see the Student Handbook.

Emergency Medicine

Director

Andrew Nugent

Clinical professor

Mark Graber

Clinical associate professors

Azeem Ahmed, Chris Buresh, Carlyn Christensen-Szalanski, Hans House, Charles Jennissen, Mike Takacs

Clinical assistant professors

Agustin Aguilar, Olivia Bailey, Gregory Bell, Dana Collaguazo, Chris Hogrefe, Harlo Hove, Dan Miller, Mike Miller, Nick Mohr, Bobby Peters, Shoshone Richardson, Jon Van Heukelom

Web site: <http://www.uihealthcare.com/depts/med/emergencymedicine/>

The Department of Emergency Medicine prepares new physicians to recognize and treat a variety of urgent and emergent conditions. The program fosters basic science and clinical research relevant to emergency medicine and is dedicated to the education and training of Emergency Medical Services (EMS) personnel through the Emergency Medical Services Learning Resources Center (EMSLRC).

M.D. Student Training

Elective rotations for Doctor of Medicine students are available at University of Iowa Hospitals and Clinics and at several other sites throughout Iowa, including St. Luke's Hospital, Cedar Rapids; Great River Medical Center, Burlington; Covenant Medical Center, Waterloo; Broadlawns Medical Center, Des Moines; and Mercy Medical Center, Sioux City. Students also may arrange an off-service elective independently with established residency programs throughout the United States.

The program offers an annual introductory month to emergency medicine; advanced life support; and Wilderness Medicine, a rotation that includes a trip to wilderness areas such as Colorado Rockies, Lake Macbride, and the Ozarks.

Residency Program

The emergency medicine faculty directs the Iowa Emergency Medicine Residency, Iowa's only emergency medicine residency. The residency is a three-year program that prepares residents for careers in diverse areas of emergency medicine, from rural practice to academics. The program emphasizes critical care training and rotations in a wide variety of specialties. Part of the clinical component is spent at St. Luke's Hospital, Cedar Rapids.

Resources

The Emergency Department, located on the first floor of Roy Carver Pavilion, is a Level I Adult and Pediatric Trauma Center. It serves as a referral center for communities across Iowa.

Courses

184:220 (EM:8404) Emergency Medicine: St. Luke's, Cedar Rapids 4 s.h.

Preceptorship with full-time emergency department physicians; clinical shifts, case conferences, simulations, exams. Requirements: completion of M.D. third year.

184:221 (EM:8402) Emergency Medicine UIHC arr.

Preceptorship with residents and faculty; emphasis on principles of acute medicine; clinical shifts, case conferences, simulations, exams. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management.

184:222 (EM:8499) Emergency Medicine off Campus arr.

Preceptorship with residents and faculty; emphasis on principles of acute medicine; Liaison Committee on Medical Education (LCME) accredited off-campus site. Requirements: Completion of M.D. third year and approval from UIHC Emergency Medicine clerkship director.

184:223 (EM:8405) Rural Emergency Medicine at Burlington, Iowa 4 s.h.

In-depth clinical experience in a busy rural hospital emergency department under supervision of residency-trained emergency physicians; lectures, skill labs, projects. Requirements: completion of M.D. third year.

184:224 (EM:8401) Introduction to Advanced Life Support Skills 4 s.h.

Experience managing acute threats to life, including trauma, respiratory failure, poisoning, sepsis, stupor/coma, and acute MI, using ACLS and PALS courses and clinical manikin work with EMS staff. Requirements: completion of M.D. third year.

184:225 (EM:8403) Wilderness Medicine 4 s.h.

Didactic and scenario training in physiology, diagnosis, and emergency treatment of heat- and cold-related illnesses, high altitude disorders, wilderness trauma, envenomations, and immersion injuries. Taught in wilderness areas. Requirements: completion of M.D. third year.

184:226 (EM:8409) Transition to Residency 2 s.h.

Intensive program providing basic training in life support skills, experience in procedures common to inpatient hospital environment, and practice with simulated critical care scenarios; lectures, small group discussions, procedure labs, high-fidelity simulations, and self-directed online learning; students become certified in Advanced Cardiac Life Support (ACLS). Requirements: completion of surgery, pediatrics, and IM or APM.

184:402 (EM:8406) Emergency Medicine Des Moines 4 s.h.

Participation in acute emergency care, management of acute illnesses, follow-up care when possible; Broadlawns Hospital, Des Moines. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management.

184:425 (EM:8407) Emergency Medicine Waterloo 4 s.h.

Participation in acute emergency care, management of acute illnesses, follow-up care when possible; Covenant Medical Center, Waterloo. Requirements: completion of M.D. third year.

184:430 (EM:8408) Emergency Medicine Sioux City 4 s.h.

Experience with a routine cross section of emergency problems in a regional trauma center and with functions of area resource hospitals (St. Luke's Medical Center, Mercy Medical Center); option to accompany ambulance crews. Requirements: completion of surgery, pediatrics, and internal medicine or advanced practice management; and basic life support certification.

184:998 (EM:8498) Emergency Medicine on Campus arr.

Clinical research experience with a mentor in the Emergency Treatment Center and the Department of Emergency Medicine; principles of design, methodology, basic statistics.

M.D. Student Training

The Department of Family Medicine trains primary care physicians. The department offers course work that is included throughout the four-year M.D. program. Twenty-one elective senior rotations give students opportunities for exposure to various Iowa communities through work in affiliated hospitals or connected facilities, in the department's model office on the University of Iowa campus, and in preceptorships with selected family physicians throughout the state. There also is the opportunity for independent study during the fourth year.

Residency Program

Family Practice Residency

The Department of Family Medicine directs a three-year residency program whose graduates are eligible for certification by the American Board of Family Medicine. The residency program trains physicians to provide continuous and comprehensive medical care to patients and their families. Residents are educated in all areas of family medicine—adult medicine, maternal and child health, behavioral science, surgical specialties, and community medicine. Training emphasizes the value of wellness and preventive medicine as well as curative medicine.

The program is organized as a progressive educational experience. It consists of formal teaching and clinical experiences on assigned rotations, structured conferences, and patient care in the Family Care Center. As residents develop clinical skills, medical judgment, and competence, their patient responsibilities increase. Some patients at the Family Care Center are assigned to residents, who provide medical care under faculty supervision. Each resident is responsible for his or her patients for the duration of the residency program.

Residents also learn the principles of practice management, including organizational and administrative decision making, patient record and bookkeeping procedures, and chart auditing methodologies.

Residents are expected to take responsibility for their learning environment, to avail themselves of the department's diverse resources, and to collaborate with the faculty in order to have the best possible learning experience.

Family Medicine-Psychiatry Residency

The Department of Family Medicine and the Department of Psychiatry cosponsor the combined Family Medicine-Psychiatry Residency program. The program's residents acquire broad-based training in both disciplines, including

focused training in geriatrics and geriatric psychiatry, substance and alcohol abuse, diagnosis and treatment of depression, delirium, eating disorders, panic disorders, and neurotic and somatizing behavior. Graduates are eligible for certification by the American Board of Family Medicine and the American Board of Psychiatry and Neurology.

Facilities

The Department of Family Medicine is located on the University of Iowa health sciences campus. Faculty offices are close to the Family Care Center, where patients are seen by appointment. The department also has community-based clinics in southeast Iowa City and North Liberty, Iowa, and a rural satellite office located in Lone Tree, Iowa.

Courses

- 115:203 (FAM:8005) Medical Education Community Orientation** 0 s.h.
Experience in a local health care delivery system away from the University setting, between first and second year of M.D. program.
- 115:300 (FAM:8301) Preceptorship in Family Medicine** arr.
One-on-one experience with a practicing physician in his or her office; exposure to illnesses, conditions often seen in primary care; realistic background for evaluation of family medicine as a career alternative.
- 115:401 (FAM:8408) Family Medicine Clerkship, Broadlawns Hospital, Des Moines Family Health Center** 4 s.h.
Clinical experience in inpatient and outpatient care.
- 115:403 (FAM:8419) Lone Tree Family Medicine Clerkship** 4 s.h.
Experience providing patient care in a rural setting; continuity of care for patients of all ages. Requirements: fourth-year M.D. enrollment.
- 115:404 (FAM:8403) Advanced Preceptorship in Family Medicine** 4 s.h.
Experience in community practice of family medicine.
- 115:405 (FAM:8401) Subinternship in Family Medicine, University of Iowa** arr.
Inpatient aspects of family medicine's key components; experience on the family medicine inpatient service.
- 115:406 (FAM:8409) Subinternship in Family Medicine, Iowa Lutheran** 4 s.h.
Patient-oriented interactive experience in an inpatient family practice environment. Requirements: fourth-year M.D. enrollment.
- 115:407 (FAM:8410) Family Medicine, Iowa Lutheran** arr.
Requirements: fourth-year M.D. enrollment.
- 115:408 (FAM:8402) U of I Family Medicine Clerkship** 4 s.h.
Work with family practice residents and staff in day-to-day delivery of primary medical care at Family Practice Center; experience in the Family Stress Clinic observing family-centered counseling; nursing home visits, work with departmental social worker and sports medicine specialist.
- 115:409 (FAM:8420) Family Medicine, Mason City** 4 s.h.
Work with family physicians on staff at Mercy or other affiliated community hospitals; management of all patients admitted by the family physicians, participation in care rendered by consultants; primary care experience in family practice office.
- 115:410 (FAM:8496) Independent Studies** arr.
Work with departmental researcher on investigation in family medicine, community medicine, health care delivery, health maintenance, and other areas.
- 115:411 (FAM:8404) Rural Preceptorship in Family Medicine** 2,4 s.h.
- 115:415 (FAM:8406) Subinternship in Family Medicine--Cedar Rapids** 4 s.h.
Experience as a junior resident in all areas of inpatient family medicine, including maternity care, child and adolescent health, adult medicine.
- 115:416 (FAM:8407) Clerkship in Family Medicine--Cedar Rapids** 4 s.h.
Experience as a junior resident in all areas of family medicine, including maternity care, child and adolescent health, adult medicine.
- 115:417 (FAM:8450) Continuity of Care--Family Medicine** 4 s.h.
Longitudinal continuity of care experience for fourth-year M.D. students in an outpatient family medicine setting.
- 115:419 (FAM:8411) Family Medicine Clerkship, Davenport** 4 s.h.
Assignment to problems commonly seen in family practice office; supervision by residents and faculty for history and physical evaluation and diagnostic workups and treatment of each specific problem; exposure to acutely ill patients in services of medicine, surgery, obstetrics, pediatrics.
- 115:420 (FAM:8416) Family Medicine Clerkship, Sioux City** 4 s.h.
Methods common in family practice medicine; participation in care of patients seen by family practice physicians and residents.
- 115:423 (FAM:8417) Subinternship in Family Medicine, Waterloo** 4 s.h.
Experience working as a member of family practice inpatient team at Allen Memorial Hospital and Covenant Medical Center, following patients from admission through discharge.
- 115:424 (FAM:8418) Family Medicine Clerkship, Waterloo** 4 s.h.
Rotation at the Northeast Iowa Family Practice Center; work with patients from outpatient care through hospitalization; basic concepts of family practice, team concept in medical care.
- 115:426 (FAM:8405) Geriatrics Elective** arr.
Experience in monitoring and evaluating health and functional status of patients age 65 and older in the UI Geriatric Assessment Clinic and community settings. Same as 078:800 (IM:8405).
- 115:427 (FAM:8413) Family Medicine Geriatrics, Davenport** 4 s.h.
Geriatric, palliative, and end-of-life care issues; assessment of competency in evaluation and management of patients; interdisciplinary nature of geriatric and palliative care.
- 115:429 (FAM:8415) Subinternship in Family Practice, Sioux City** 4 s.h.
Experience as a junior resident in all areas of family medicine. Requirements: fourth-year M.D. enrollment.

115:430 (FAM:8412) Sub-Internship in Family Medicine, Davenport 4 s.h.

Experience in inpatient family medicine; assessing and managing hospitalized patients, evaluating and treating patients in the emergency room, participating in call coverage with family medicine residents.

115:431 (FAM:8421) Primary Care Sports Medicine 4 s.h.

Comprehensive, diverse, and educational experience in the field of sports medicine; clinical competence to diagnose and manage medical illnesses and injuries related to sports and exercise in varied patients, recreational and organized athletes, and teams. Requirements: medical student.

115:999 (FAM:8499) Family Medicine off Campus arr.

Clerkships; may include community hospitals.

Free Radical and Radiation Biology

Director

Douglas R. Spitz

Professors

Mark Anderson, John Buatti, Garry R. Buettner, Gary E. Christensen, Joseph Cullen, Frederick E. Domann Jr., John F. Engelhardt, Gerry Funk, Prabhat C. Goswami, Michael Graham, Richard Hichwa, Henry T. Hoffman, Kevin C. Kregel, Larry W. Robertson, Milan Sonka, Douglas R. Spitz, Timothy Tewson, Marc Wold

Professors emeriti

Frank Hsieh-Fu Cheng, James W. Osborne

Adjunct clinical professor

Geraldine Jacobson

Associate professors

Kyle E. Brown, Brent Carter, Aloysius J. Klingelutz, Michael Knudson, Yusuf Menda, Francis J. Miller, John Sunderland, Aliye Uc, Douglas Van Dael, M. Todd Washington, Xiaodong Wu

Adjunct associate professors

Sanford Meeks, Timothy Ryken

Clinical associate professor

Gordan Watkins

Assistant professors

Paloma Giangrande, Apollina Goel, Mathews Jacob, Michael Schultz

Adjunct assistant professors

Nukhet Aykin-Burns, Andrian L. Burnett, Melissa Fath, Michael L. McCormick, Ehab Sarsour, Melissa Laitee Teoh

Graduate degrees: M.S. in free radical and radiation biology; Ph.D. in free radical and radiation biology

Web site: <http://www.uiowa.edu/~frrbp/>

The Free Radical and Radiation Biology Program provides in-depth training and research experience in the physical, chemical, and biological effects of radiation. It also focuses on free radical biology. Free radicals, which are generated in great number by radiation, play a major role in the interaction of radiation with biological systems. Free radicals are of great interest to basic researchers and clinicians because of their role in a variety of diseases and pathological states, including aging and cancer. The program stresses the importance of all of these areas to scientific research, clinical medicine, and public health.

Undergraduate Education

Three courses offered by the Free Radical and Radiation Biology Program are open to University of Iowa undergraduate students: 077:103 (FRRB:5000) Radiation Biology, 077:107 (FRRB:4000) Special Topics: Advanced Undergraduates, and 077:108 (FRRB:4001) Special Topics: Advanced Undergraduates. Students looking for an overview of the biological effects of radiation, including the role of free radicals, will find 077:103 (FRRB:5000) Radiation Biology especially appropriate. All three courses are appropriate for students who plan to enter medicine, nuclear medicine technology, environmental health, or related programs.

Graduate Programs

- Master of Science in free radical and radiation biology
- Doctor of Philosophy in free radical and radiation biology

The Carver College of Medicine administers graduate programs in free radical and radiation biology; graduate degrees are granted through the Graduate College. See Carver College of Medicine (p. 912) and Graduate (p. 808) College in the Catalog for general information about study in medicine and graduate study at the University.

Master of Science, Doctor of Philosophy

The Master of Science in free radical and radiation biology requires a minimum of 30 s.h. of graduate credit; the Doctor of Philosophy requires a minimum of 72 s.h. of graduate credit.

The M.S. and Ph.D. programs are open to graduate students with a background in physics, chemistry, mathematics, biology, health sciences, veterinary medicine, or engineering.

After completing the introductory course 077:103 (FRRB:5000) Radiation Biology, students typically concentrate on a particular aspect of the field. Some students elect to focus on radiation biology, while others choose to emphasize free radical biology.

In addition to formal lectures and some structured laboratory exercises, plans of study for free radical and radiation biology students involve small-group conferences, discussions, and seminars. Students are encouraged to spend at least one semester as a teaching assistant, for which no registration is required and no academic credit is given.

Many of the department's graduate students elect to take 077:120 (FRRB:3130) Radiation Safety and Radiobiology, a course that covers safe operation of radiation-producing equipment and handling of radioactive materials, regulations and regulatory agencies, formulas and techniques in radiation protection programs, radiation protection, and other topics.

Postgraduate Training

Postdoctoral training is available by arrangement with the program's director and individual faculty members. Contact the Free Radical and Radiation Biology Program.

Financial Support

Graduate students are supported as graduate assistants from funds available through research grants and contracts or from departmental funds. Individual postdoctoral awards also may be available; the candidate and his or her faculty sponsor apply for them jointly.

Facilities

The Free Radical and Radiation Biology Program has a 300 kVp orthovoltage X-ray generator and other radiation sources, including a kilo-Curie Cs-137 irradiator. Students and staff also have access to other radiation sources, such as the Co-60 gamma source and linear accelerators in the Department of Radiation Oncology.

The program has a number of radiation detectors and counters, including liquid scintillation counters. It also has ultraviolet/visible spectrophotometers; various types of equipment for densitometry, chromatography, and electrophoresis; molecular biology equipment, including thermal cyclers; an automatic cell counter and particle sizer; tissue culture facilities; Typhoon Phosphoimager; HPLC; Electron Spin Resonance Spectrometers; and nitric oxide analyzers.

Courses

077:103 (FRRB:5000) Radiation Biology 4 s.h.

Characteristics and biological effects of ionizing radiations. Offered fall semesters. Prerequisites: 004:121 (CHEM:2210), 029:240 (PHYS:6002), and 099:120 (BIOC:3120).

077:107 (FRRB:4000) Special Topics: Advanced Undergraduates arr.

Readings and/or laboratory experience. Offered fall semesters.

077:108 (FRRB:4001) Special Topics: Advanced Undergraduates arr.

Readings and/or laboratory experience. Offered spring semesters.

077:120 (FRRB:3130) Radiation Safety and Radiobiology 2 s.h.

Instruction on safe operation of radiation producing equipment and handling of radioactive materials; origin and/or derivation of certain formulae and techniques useful in radiation protection programs; regulatory agencies, regulations, and regulatory guides pertinent to student's field; emphasis on applied aspects of radiation protection; characteristics and biological effects of ionizing radiations, properties and uses of radioisotopes, medical applications, and biological basis for protection procedures. Requirements: Radiation Science Program enrollment. Same as 107:120 (RSNM:3130).

077:207 (FRRB:6000) Seminar: Free Radical and Radiation Biology 1 s.h.

Offered fall semesters.

077:211 (FRRB:6002) Medical Physics 4 s.h.

Characteristics of X-ray machines, nuclear accelerators, teletherapy devices; properties of X-rays and gamma rays, their interaction with matter; radiation exposure, depth dose measurements; radiation therapy. Offered spring semesters of even years. Requirements: 8 s.h. of physics. Same as 029:240 (PHYS:6002).

077:222 (FRRB:7000) Free Radicals in Biology and Medicine 4 s.h.

Chemistry of free radicals, antioxidants; antioxidant enzymes—their structure, function, regulation; targets of free radicals—lipids, proteins, DNA; free radicals in health and disease. Offered spring semesters of odd years. Prerequisites: 004:121 (CHEM:2210) or 099:120 (BIOC:3120).

077:288 (FRRB:7001) Molecular and Cellular Biology of Cancer 3 s.h.

Fundamental aspects of oncology at the cellular and molecular levels; mechanisms of cancer initiation and progression, oncogene action, DNA damage and repair, carcinogenesis by radiation, chemicals, viruses; tumor immunology, anticancer therapies. Offered spring semesters of odd years. Requirements: strong basic science background. Same as 069:288 (PATH:7001).

077:305 (FRRB:6004) Research: Free Radical and Radiation Biology arr.

077:307 (FRRB:5001) Research: Special Topics arr.

077:308 (FRRB:5002) Research: Special Topics arr.

077:545 (FRRB:6006) Topics in Free Radical Biology and Medicine 1 s.h.

New literature in area of free radicals. Offered fall semesters.

077:547 (FRRB:6008) Topics in Radiation and Cancer Biology 1 s.h.

Emerging concepts in the biological effects of radiation and cancer biology; current topics in journal club format. Offered fall semesters.

Internal Medicine

Head

Mark E. Anderson

Professors

Francois M. Abboud, Lee Ann Allen, Mark E. Anderson, Michael A. Apicella, Zuhair K. Ballas, Gail A. Bishop, Donald D. Brown, Kevin P. Campbell, Mark W. Chapleau, Alan J. Christensen, Gerald H. Clamon, Beverly L. Davidson, Peter Densen, David E. Elliott, John F. Engelhardt, Frank M. Faraci, Robert B. Felder, Kristi J. Ferguson, Elizabeth H. Field, F. Jeffrey Field, Laurence J. Fuortes, Lois J. Geist, Fredric E. Gerr, Joel A. Gordon, William G. Haynes, Donald D. Heistad, Loreen A. Herwaldt, Eric Hoffman, Raymond J. Hohl, Lawrence G. Hunsicker, Frederick C. Johlin Jr., Lawrence P. Karniski, Richard E. Kerber, Michael G. Kienzle, Louis V. Kirchhoff, Joel N. Kline, Ulla C. Kopp, Douglas R. LaBrecque, Steven R. Lentz, Brian K. Link, Donald E. Macfarlane, Allyn L. Mark, James B. Martins, Stephen E. McGowan, James A. Merchant, William M. Nauseef, Thomas M. O'Dorisio, Brian Olshansky, Eli Perencevich, Gary B. Rosenthal, James D. Rossen, Paul B. Rothman, Peter A. Rubenstein, Janet A. Schlechte, Gregory A. Schmidt, Warren N. Schmidt, Konrad S. Schulze, Curt D. Sigmund, William I. Sivitz, Richard J. Smith, Peter M. Snyder, Jack T. Stapleton, John B. Stokes III, Christie P. Thomas, Robert B. Wallace, George J. Weiner, Jerrold P. Weiss, Robert M. Weiss, Michael J. Welsh, Mary E. Wilson, Patricia L. Winokur, Fred D. Wolinsky, Mark A. Yorek, Joseph L. Zabner, Nicholas Zavazava, Craig S. Zwerling

Professors emeriti

Robert F. Ashman, Robert S. Bar, C. Patrick Burns, James Christensen, James A. Clifton, John S. Cowdery, Richard L. DeGowin, Gerald F. DiBona, Michael J. Flanagan, William B. Galbraith, Roger D. Gingrich, Nancy E. Goeken, Daryl Granner, Charles M. Helms, Kenneth A. Hubel, John E. Kasik, Victoria S. Lim, Hal B. Richerson, Phillip C. Schmid Jr., Helmut G. Schrott, Paul M. Seebohm, D. Michael Shasby, Arthur A. Spector, Robert W. Summers, John M. Weiler, Donald C. Zavala

Adjunct professors

Edgar Carvalho, Selma Jeronimo

Clinical professors

Naurang Agrawal, Gwen Beck, Herbert A. Berger, Kanu Chatterjee, Daniel J. Diekema, Gregory C. Doelle, Jeffrey C. Dunkelberg, Mary Beth Fasano, John F. Fieselmann, Christopher J. Goerdt, Ellen E.I. Gordon, Patrick G. Hartley, Douglas B. Hornick, Richard F. LeBlond, Margarida Magalhaes-Silverman, Rachel A. Miller, Paul L. Mulhausen, Nicole L. Nisly, Margo Schilling, William B. Silverman, Haraldine Stafford, Karl Thomas, Scott A. Vogelgesang, Michael D. Voigt, Terry L. Wahls, Jeffrey S. Wilson, Mark C. Wilson, Scott R. Wilson

Adjunct clinical professors

Steven R. Craig, Patrick H. Henry, Nathan Josephson, Udaya M. Kabadi, Louis Katz, Thomas J. McIntosh, Barbara A. Muller, William J. Yost

Associate professors

Christopher Adams, Christopher J. Benson, Daniel J. Berg, J. Andrew Bertolatus, Kyle E. Brown, A. Brent Carter, Peter M. Cram, Joseph S. Dillon, Bradley S. Dixon, Thomas J. Gross, Peter J. Kaboli, Lauris C. Kaldjian, David A. Katz, Anne E. Kwitek, Kathryn G. Lamping, Gloria Lee, Jeffery L. Meier, Francis J. Miller Jr., Craig T. Morita, Philip Polgreen, Jennifer

G. Robinson, Christian M. Simon, Linda G. Snetselaar, Mark Stamnes, Mark W. VanderWeg, Charles Yeaman

Associate professors emeriti

Henri A. Cuddihy, James R. Flanagan, William J. Lawton, Jeanne M. Smith

Clinical associate professors

Lisa M. Antes, Dale E. Bieber, Theresa M. Brennan, Ann Broderick, Todd L. Burstain, Thomas L. Carlisle, Thomas H. Carter, William Clark, Elaine M. Demetroulis, Kevin C. Doerschug, Brian Gehlbach, Henning Gerke, Rebecca L. Hegeman, Robert Hegeman, Jacob Ijdo, Phillip A. Horwitz, William L. Iverson, Katarzyna Jamieson, Frances L. Johnson, Melinda J. Johnson, Roberto S. Kalil, Mark W. Karwal, Paul D. Lindower, Alexander Mazur, Frances J. Meyer, Mohammed Milhem, Susan L. Roeder, Antonio Sanchez, Douglas L. Somers, Manish Suneja, Joseph F. Szot, Alexandra Thomas, Rebecca S. Tuetken, Daniel A. Vaena, Byron F. Vandenberg, R. Todd Wiblin, Chad L. Williams

Adjunct clinical associate professors

Russell Adams, Bradley J. Archer, Craig Bainbridge, Oscar C. Beasley, Anuj Bhargava, Robert H. Caplan, M. Craig Champion, Prem K.G. Chandran, Craig B. Clark, Susan L. Espeland, Gregory A. Hicklin, Martin Izakovic, David W. Kabel, Karl Larsen, Peter Mohler, Thomas R. Nicknisch, Mark W. Purtle, Deanna Questad, Craig A. Shadur, Nicholas W. Shammass, Richard B. Trimble, Lisa A. Veach

Assistant professors

Thad Abrams, Botond Banfi, Jason H. Barker, Reinhard R. Beichel, Suzanne Cassel, Anil Chauhan, John D. Colgan, Alejandro Comellas, Lakshmi Durairaj, Paloma Giangrande, Kevin A. Glenn, Dayna J. Groskreutz, Isabella M. Grumbach, Denice M. Hodgson-Zingman, Sarah Holstein, Mirac Ince, Julia Klesney-Tait, Helena Laroche, Petar Lenert, Dana Levasseur, James O. McNamara, David G. Motto, Michael E. Ohi, Steven F. Polyak, Kamal Rahmouni, Heather Reisinger, Long-Sheng Song, David A. Stoltz, Fayyaz S. Sutterwala, Kai Tan, Yi Xing, Leonid Zingman

Adjunct assistant professors

Paul Casella, Michael Cassaday, Lynda L. Hemann, Valerie F. Hoffman, Anton P. McCaffrey

Clinical assistant professors

Antoine E. Azar, Kimberly Baker, Christopher Blosser, Mohan Brar, Anthony Brenneman, Jaspreet K. Chahal, Mayy Chahla, John S. Chase, Bogdan Cherascu, Brian P. Daniel, Rebecca Davis, Ravneet Dhaliwal, Amy M. Dowden, Michael Eberlein, Rami El Abiad, Michele M. Fang, Dawn M. Flaherty, Mory Fraer, Jennifer Goerbig-Campbell, Ambar Haleem, Thorvardur Halfdanarson, Sif Hansdottir, Katherine Harris, Ihab Hassan, Adrian Holm, Birgir Johannsson, Aparna Kamath, Vicki J. Kijewski, Sarat Kuppachi, Petar Lenert, KellyAnn Light-McGroary, Hilary Mosher, Carla M. Nester, Kantima Phisitkul, John W. Rachow, Lori Rosenstein, Ron Schey, Amal S. Shibli-Rahhal, Gardar Sigurdsson, Justin Smock, Kimberly Staffey, Judy A. Streit, Timothy Thomsen, Ahmad Wehbe, Shawna J. Westermann

Adjunct clinical assistant professors

Daniel P. Allen, Eduardo S. Antezano, David A. Basel, Hriden N. Basu, Walter W. Bate, Byron T. Beasley, Susan K. Beebout, Robert J. Behrens, Mark M. Belz, John P. Bennett, Leyla Best, Edward M. Bottei, Ailey Brehmer, Leslie M. Brettell, Michael S. Brooks, Thomas M. Brown Jr., Mark Burdt, Katherine Burns, Katrina Cannon, Paul Casella, Michael Cassaday, Charles R. Caughlan, Angela

Collins, Steven Craig, Sanjiv Dahal, James L. Donahue, Nile S. Dusdieker, Amerion L. Enriquez, John Even, Steven Eyanson, James E. Feeley, Matthew A. Flemming, Michael T. Flood, Michael Fraizer, Sarah Garner, Brent F. Gerleman, Magdi G.H. Ghali, Angie R. Goodson, David F. Gordon, Katrina A. Guest, Philip A. Habak, Joel E. Hade, Douglas L. Hanson, Nidal H. Harb, Timothy J. Hart, Roger L. Harvey, Frank Haugland, Lisa M. Hazelton, Steven P. Hedding, Alan D. Hilgerson, Matthew L. Hill, John D. Hines, Eric N. Holm, Robert H. Hoyt, Susan M. Jacobi, Nancy Kane-Johnson, Natraj Katta, Abul N. Khan, Tech Khoo, Sudhir Kumar, James A. Kwirant, Charles C. Larson, Allan P. Latcham, David R. Laughrun, Robert H. Leisy, David K. Lemon, Roshan Lewis, Yue Li, Charles Link, Randy N. Maigaard, Mark D. McGaughey, Joe Moonjely, Bharat Motwani, Roscoe Morton, Pamela L. Nerheim, David J. Nordstrom, Michael O'Connor, Muhammad A. Pathan, Donald E. Paynter, Arvind Perathur, James G. Piro, Cory B. Pittman, Mary A. Radia, Ronald Reider, Ramon Reyes, Heather Roberts, Christopher J. Ronkar, Jay A. Rosenberger, George Sakoulas, Johann P. Schmolck, Mahesh Shetty, Michael J. Slavin, Melinda A. Smith, Craig A. Stark, Daniel Sullivan, Christina L. Taylor, Yuvaraj Thangara, Joseph D. Thoreson, Dirk A. VerSteeg, Julie Vogel, Devendra G. Wadwekar, Robert F. Weis, Edward R. Winga, Mohammed Yousufuddin, Gholam R. Zadeii

Adjunct clinical instructors

Philip A. Bear, Alan L. Braun, Cam F. Campbell, Christopher M. Covert, Wilson L. Davis Jr., R. Joe Ewing, Ethel F. Faust, Michael J. Finan, Jonathan L. Fudge, Joseph O. Gilg, Thomas B. Hakes, Kristin L. Harts, Janie C. Hendricks, Shelly A. Jones, Marta M. Little, Jack M. Lockart, James P. Lovell, Lawrence J. Rettenmaier, Mark P. Runde, Tyler Schwiesow, Diana Wright, Thomas L. Zurbriggen

Associates

Chaitanya Are, Thomas Brown, Dwayne Campbell, Eunjin Chung, Dominic Cirillo, Hardik Doshi, Osama Elmhishi, Ali Gardezi, Milena Gebeska, Tariq Hameed, Kyoung Im, Dilek Ince, Hamza Ismail, Hassan Kaleem, Yogesh Kiranraj Sanghvi, Abhishek Kumar, Ravinder Kumar, Steven Kunkel, Michael Kwofie, Lan Lin, Bret McFarlin, Kalyani Meduri, Scott Miller, Varun Monga, Mary Murphy, Boulos Nassar, Tamara Nelson, Raphael Ngengwe, Masaru Niki, Rachna Raman, Jane Rowat, Marin Schweizer, Mahmoud Soubra, Faroug Suliman, Ramakrishna Swarna, Rizwan Tahir, Jabeen Taj, Rudhir Tandon, Prashanth Vennalaganti

Web site: <http://www.int-med.uiowa.edu/>

Internal medicine is concerned with the diagnosis, prevention, and treatment of diseases of adults. The Department of Internal Medicine's educational, patient care, and research activities cover all facets of the discipline, including general internal medicine and primary care as well as the specialized areas of allergy and immunology, cardiology, clinical pharmacology, endocrinology and metabolism, gastroenterology and hepatology, hematology, oncology, blood and marrow transplant, infectious diseases, nephrology, pulmonary, critical care, occupational medicine, and rheumatology.

The department is committed to the complete spectrum of medical education, from didactic and clinical education of M.D. students to resident and fellowship training.

M.D. Student Training

Department of Internal Medicine faculty members bear a major share of teaching first- and second-year M.D.

students. In the first year, faculty members participate in 050:120 (MED:8102) Medical Cell Biology, 050:240 (MED:8112) Human Organ Systems, and 148:251 (IMMU:8113) Principles of Medical Immunology. In the second year, they participate in 071:105 (PCOL:8203) Pharmacology for Health Sciences: Medical and 061:103 (MICR:8202) Principles of Infectious Diseases. They are key participants in 050:162 (MED:8105) Foundations of Clinical Practice I, 050:163 (MED:8115) Foundations of Clinical Practice II, 050:164 (MED:8205) Foundations of Clinical Practice III, and 050:165 (MED:8215) Foundations of Clinical Practice IV ICD.

In the third year, the department's faculty members teach students for six focus weeks in 078:101 (IM:8301) Inpatient Internal Medicine and for four weeks in 078:102 (IM:8302) Outpatient Internal Medicine at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, or hospitals of the Des Moines Area Medical Education Consortium. M.D. students actively participate as members of an inpatient ward team in 078:101 (IM:8301) Inpatient Internal Medicine and in the evaluation and management of patients at outpatient internal medicine clinics in 078:102 (IM:8302) Outpatient Internal Medicine.

In the fourth year, M.D. students may select a clinical experience to fit their own career goals from courses offered in general medicine, subspecialties, intensive care, and a subinternship program.

Residency Program, Postgraduate Work

The department offers a three-year residency training program in internal medicine. In addition, most of the department's specialty divisions offer two- and three-year clinical and research fellowships, in which fellows develop special knowledge and skills relevant to their specialties. Fellows who hold doctoral degrees may be accepted to programs whose major focus is laboratory research.

Facilities

Teaching in the Department of Internal Medicine takes place in the medical services and laboratories of University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center, and in Des Moines at the Veterans Affairs Central Iowa Health Care System and Iowa Methodist Medical Center.

Courses

078:101 (IM:8301) Inpatient Internal Medicine arr.

Development of knowledge, diagnostic and management skills vital to care of hospitalized patients; clinical responsibilities, educational conferences, independent study.

078:102 (IM:8302) Outpatient Internal Medicine 3-4 s.h.

Development of knowledge, diagnostic and management skills in the outpatient clinical setting; clinical activities, discussion of problems, independent study.

- 078:202 (IM:8401) Subinternship in Internal Medicine** 4 s.h.
Student responsibility for evaluating, treating, and following patients admitted to inpatient general medicine services. Requirements: fourth-year M.D. enrollment.
- 078:204 (IM:8458) Community-Based General Internal Medicine** 4 s.h.
Primary care internal medicine in a community setting. Requirements: fourth-year M.D. enrollment.
- 078:205 (IM:8450) Continuity of Care in Outpatient Internal Medicine** 4 s.h.
Experience with longitudinal continuity of care for patients in the outpatient setting; clinical and didactic exposure to broad spectrum of general internal medicine problems. Requirements: fourth-year M.D. enrollment.
- 078:210 (IM:8436) Alternative and Complementary Medicine** arr.
Requirements: for 046:105 (PHAR:8436) — P4 standing. Same as 046:105 (PHAR:8436), 096:182 (NURS:3436).
- 078:217 (IM:8445) Integrated Topics in Infectious Diseases** 4 s.h.
Questions in host-parasite interactions; monthly case study followed by journals club discussions.
- 078:218 (IM:8453) Critical Care Rotation, IMMC, ICU, DM** 4 s.h.
Subinternship on medical critical care team, with daily rounds, teaching. Requirements: fourth-year M.D. enrollment.
- 078:219 (IM:8452) Subinternship in Internal Medicine at VAMC, Des Moines** arr.
Rotation at the Veterans Affairs Central Iowa Health Care System; subinternship on general internal medicine ward. Requirements: fourth-year M.D. enrollment.
- 078:220 (IM:8451) Subinternship in General Internal Medicine and ICU, Des Moines** arr.
Four-week rotation at Des Moines Medical Education Consortium; experience as a subintern in general internal medicine and the ICU. Requirements: fourth-year M.D. enrollment.
- 078:221 (IM:8455) Public Health Medicine** arr.
Participation in ongoing projects related to public health issues of acute disease; training and career opportunities in public health practice.
- 078:225 (IM:8454) General Medicine Consult Service, IMMC** arr.
Principles of consultative medicine provided by general internists to non-internal medicine patients; how to assess perioperative risk for patients evaluated before surgery.
- 078:250 (IM:8410) Clinical Allergy Immunology** arr.
Pathogenesis, diagnosis, and management of asthma and allergic and immunologic diseases; conducting and interpreting relevant specialized clinical and laboratory tests; emphasis on outpatients; formal and informal teaching sessions.
- 078:300 (IM:8412) Clinical Cardiology** arr.
Development of breadth and depth in diagnostic and therapeutic problems encountered in clinical cardiology; participation in evaluation and decisions regarding patients seen sometimes in the cardiovascular clinic, inpatient cardiology wards, and electrophysiology service.
- 078:304 (IM:8303) Electrocardiography** arr.
Scalar electrocardiography with option of viewing exercise studies including treadmill testing; initial interpretation of current tracings and daily staff conferences.
- 078:325 (IM:8456) Clinical Cardiology Coronary Care Experience, Iowa Methodist, Des Moines** arr.
- 078:333 (IM:8495) Internal Medicine ICU off Campus** arr.
Experience as subintern in the ICU/MICU; daily rounds and teaching with medical critical care staff.
- 078:400 (IM:8414) Clinical Endocrinology** arr.
New patient evaluation, inpatient referral; returning patients in diabetes, endocrine clinics; complete patient evaluations, charts; participation in clinical conferences.
- 078:450 (IM:8416) Clinical Gastroenterology** arr.
Work in consultation service at University Hospitals and Clinics or Veterans Affairs Iowa City Health Care System; assistance in diagnostic procedures for patients examined as part of consultation service; participation in patient follow-up through weekly return clinic.
- 078:501 (IM:8418) Hematology Oncology** arr.
Diagnostic skills in hematology and oncology.
- 078:503 (IM:8435) Palliative Care** 2,4 s.h.
Requirements: M.D. enrollment.
- 078:504 (IM:8437) Multidisciplinary Cancer Care** 2 s.h.
Basic concepts of cancer care; role of multidisciplinary team in care of cancer patients; development of attitudes, knowledge, and skills useful for entering a specialty that encounters patients with cancer. Requirements: M.D. enrollment.
- 078:550 (IM:8422) Clinical Infectious Disease** arr.
Diagnosis, treatment, follow-up, study of patients with infectious diseases, under staff guidance; techniques of diagnostic microbiology; participation in conferences, teaching activities.
- 078:600 (IM:8426) Pulmonary Disease** arr.
Breadth, depth in diagnostic, therapeutic problems encountered in clinical pulmonary disease; evaluation of outpatients and inpatients under staff supervision; interpretation of special studies carried out in pulmonary function laboratory, fiberoptic bronchoscopy and brush biopsy of lung; exposure to diagnosis and management of acute respiratory failure in intensive care units at University of Iowa Hospitals and Clinics, Veterans Affairs Iowa City Health Care System.
- 078:602 (IM:8424) Medical Intensive Care Unit** arr.
- 078:650 (IM:8428) Nephrology** arr.
Evaluation of patients from University of Iowa Hospitals and Clinics inpatient service, Veterans Affairs Iowa City Health Care System, clinics; emphasis on early kidney disease, all varieties of hypertension.
- 078:652 (IM:8457) Clinical Nephrology, Iowa Methodist, Des Moines** 2,4 s.h.
Exposure to common nephrology problems, including acute renal failure, chronic renal failure, acid-base disorders, common electrolyte disorders.
- 078:653 (IM:8430) Adult and Pediatric Nephrology and Hypertension** arr.
Requirements: for 070:653 (PEDS:8430) — fourth-year M.D. enrollment. Same as 070:653 (PEDS:8430).

078:662 (IM:8432) Medical and Pediatric Endocrinology arr.

Requirements: for 070:662 (PEDS:8432) — fourth-year M.D. enrollment. Same as 070:662 (PEDS:8432).

078:700 (IM:8434) Clinical Rheumatology arr.

Clinical features of rheumatic diseases, their differential diagnosis, principles of management; patients from arthritis clinic, inpatient consultation service of University of Iowa Hospitals and Clinics, Veterans Affairs Iowa City Health Care System.

078:800 (IM:8405) Geriatrics Elective arr.

Experience in monitoring and evaluating health and functional status of patients age 65 and older in the UI Geriatric Assessment Clinic and community settings. Same as 115:426 (FAM:8405).

078:998 (IM:8498) Internal Medicine on Campus arr.**078:999 (IM:8499) Internal Medicine off Campus** arr.

Medical Education Program

Director

Kristi J. Ferguson

Affiliated faculty

Rick Axelson (Family Medicine), Kristi J. Ferguson (Internal Medicine/Community and Behavioral Health), Clarence Kreiter (Family Medicine), Jeff Pettit, Marcy Rosenbaum (Family Medicine)

Graduate degree: M.M.E.

Graduate certificate: medical education

Web site: <http://www.healthcare.uiowa.edu/ocrme/masters/programoverview.htm>

The Medical Education Program is dedicated to providing medical faculty members with formal training in medical education. The program is coordinated through the Office of Consultation and Research in Medical Education.

Graduate Programs

- Master in Medical Education
- Certificate in Medical Education

Application requirements are the same for both programs; see "Admission" below.

Master in Medical Education

The Master in Medical Education requires a minimum of 30 s.h. of graduate credit. The program is designed to prepare medical faculty members to educate health professionals. It is intended for Carver College of Medicine faculty members and professional staff as well as for University of Iowa resident physicians and fellows.

The program gives participants the opportunity to specialize in theory and practice of curriculum design, effective teaching, assessment, and other aspects of medical education. Graduates of the program should be able to:

- design evidence-based education programs and materials with appropriate scope, sequence, and focus for intended learners;
- deliver effective instruction to individuals and small or large groups in classroom, laboratory, or clinical settings;
- evaluate the effectiveness of educational instruction, using formative and summative methods;
- understand basic principles of educational measurement and be able to apply them to medical education;
- use assessments to promote learning and to assess learning progress and status; and
- understand basic principles of, and be able to interpret and use, educational research.

The M.M.E. may be completed in as few as two years or as many as five. Students may begin the program in fall semester, spring semester, or summer session. Some of the required courses are offered online, and required on-campus courses have evening meeting times.

The curriculum includes 24 s.h. of required courses and 6-9 s.h. of electives. Students must register for at least one course each academic year in order to maintain satisfactory progress toward the degree. The

program's faculty provides substantial student advising and consultation.

During their first semester, students file a plan of study. Each student's plan must include a description of the student's goals, intended graduation date, and a list of courses the student plans to take each semester he or she is working toward the degree. The study plan must incorporate all of the courses required for the degree and must include any requests for transfer credit. The plan must be approved by the director of the M.M.E. program and by the student's advisor. Subsequent revisions of the plan must have the advisor's approval.

The Master in Medical Education requires the following course work.

050:701 (MED:9701) Instructional Design and Technology	3 s.h.
050:702 (MED:9702) Clinical Teaching in Medical Education	3 s.h.
050:703 (MED:9703) Educational Research and Evaluation	3 s.h.
050:711 (MED:9711) Teaching Methods in Medical Education	3 s.h.
050:712 (MED:9712) Introduction to Educational Measurement in Medical Education	3 s.h.
050:713 (MED:9713) Assessment in Medical Education	3 s.h.
050:714 (MED:9714) Current Issues in Medical Education	3 s.h.
050:720 (MED:9720) Portfolio Project	3 s.h.
Electives	6-9 s.h.

Students who do not do clinical teaching may substitute another course for 050:702 (MED:9702) Clinical Teaching in Medical Education.

Students must have completed at least 18 s.h. before enrolling in 050:720 (MED:9720) Portfolio Project. In the portfolio, students integrate the materials they have developed over the course of the program into a document. Three faculty members review the project and evaluate the student's participation in the program.

Electives require approval of the student's advisor. They may include courses in the M.M.E. program as well as those offered by relevant departments and programs (e.g., College of Education, Tippie College of Business). Graduate-level courses are numbered 100 or above.

Certificate

The Certificate in Medical Education requires a minimum of 12 s.h. of graduate credit. The certificate program is designed to help participants find new ways to enhance their scholarship and skills in teaching, curriculum design, and education assessment. It is intended for Carver College of Medicine faculty and professional staff as well as for University of Iowa resident physicians and fellows.

Required course work for the certificate is taken from the Master of Medical Education program. Individuals who complete the certificate and then decide they would like to earn the master's degree may count their certificate course work toward the M.M.E.

The Certificate in Medical Education requires the following course work.

Methods—one of these:

050:701 (MED:9701) Instructional Design and Technology	3 s.h.
050:702 (MED:9702) Clinical Teaching in Medical Education	3 s.h.
050:711 (MED:9711) Teaching Methods in Medical Education	3 s.h.

Research and measurement—one of these:

050:703 (MED:9703) Educational Research and Evaluation	3 s.h.
050:712 (MED:9712) Introduction to Educational Measurement in Medical Education	3 s.h.

And:

Additional courses chosen from M.M.E. requirements	6 s.h.
--	--------

Admission

Application requirements are the same for the M.M.E. degree and the certificate program. Applicants should hold an M.D. degree and must have performed satisfactorily on the Medical College Admission Test (MCAT). Basic sciences applicants without an M.D. must hold an equivalent degree and must have performed satisfactorily on an admission test equivalent to the MCAT.

Applicants whose first language is not English and who do not hold a baccalaureate or advanced degree from an accredited university in the United States, English-speaking Africa, Australia, Canada (except Quebec), New Zealand, or the United Kingdom must submit scores on the Test of English as a Foreign Language (TOEFL).

Application materials must include an official transcript showing medical course work and medical degree, or equivalent for basic sciences applicants (current and former University of Iowa students do not need to request a UI transcript or transcripts previously submitted to the University); a letter of reference from the applicant's department head and one additional letter of reference; and a 300-500 word essay describing the applicant's interest in medical education and in the Master in Medical Education program or the Certificate in Medical Education program.

To apply to the M.M.E. program, see Application for Admission to the Medical Education Program on the program's web site; to apply to the certificate program, see Nondegree Application on the University of Iowa Office of Admissions web site. Application materials should be submitted to the Office of Admissions.

Application deadlines are July 15 for fall semester entry, November 15 for spring semester entry, and April 15 for summer session entry.

Medical Scientist Training Program

Directors

Pamela Geyer (Biochemistry), Steven R. Lentz (Internal Medicine)

Web site: <http://www.healthcare.uiowa.edu/mstp>

Professional/Graduate Program

- Joint Doctor of Medicine/Doctor of Philosophy

The Iowa Medical Scientist Training Program (MSTP) prepares trainees for careers in academic medicine, with emphasis on basic and clinical research.

Joint M.D./Ph.D.

The joint Doctor of Medicine/Doctor of Philosophy normally requires seven to eight years of continuous study. It provides an effective and efficient means to integrate graduate and clinical training, combining the scientific approach with clinical medicine.

In the first two years of the program, trainees enroll in the basic science and introductory clinical portions of the Carver College of Medicine's Doctor of Medicine (p. 942) curriculum. This provides a broad exposure to the language and organizing concepts that form the foundation for a career as a physician scientist. Trainees begin the research component of the graduate phase of the program during the first two years as well, through summer laboratory rotations, enrollment in 050:213 (MSTP:8513) Analyzing and Presenting Medical Research, research presentations by MSTP faculty and students, and a student-sponsored seminar series. They also participate in Conversations in Research, in which MSTP faculty members discuss their research and career interests, and attend MSTP Grand Rounds, a forum for patient-based discussions that emphasizes how science and medicine intersect.

The first year of the M.D. curriculum addresses normal structure and function of human organ systems and emphasizes relationships among different disciplines. During the first semester, trainees take courses in biochemistry, gross anatomy, cell biology, and medical genetics. The second semester presents an integrated systemic core, which incorporates physiology, histology, and embryology and focuses on the development, structure, and function of human organ systems. Discipline-specific basic science instruction continues through the second semester with medical neuroscience and immunology courses.

The second-year curriculum emphasizes abnormal structure and function of human organ systems. Trainees take courses in pathology, microbiology, and pharmacology.

Throughout the first two years of study, students receive instruction in the foundations of clinical practice, including patient experience in medical history taking and physical examination. At the end of the second year, all trainees take Step 1 of the U.S. Medical Licensing Exam and then complete the basic core clinical clerkship in internal medicine. They gain broad exposure to the spectrum of

human disease and experience with direct patient care before they enter the graduate phase of training.

At the beginning of the third year, trainees enroll in a graduate department or interdisciplinary graduate program.

The focus of the graduate years of study is engagement in academic and research experiences that promote the trainees' development into independent investigators. Clinical contact is maintained during this phase of training through participation in seminar programs, MSTP grand rounds, and 050:212 (MSTP:8512) MSTP Clinical Connections, a course that provides the opportunity for mentored clinical experiences.

Upon completing the Ph.D. dissertation, trainees return to the Carver College of Medicine's M.D. curriculum to complete the clinical clerkship requirements for the joint M.D./Ph.D. program. During this phase, trainees bring a sophistication in the scientific approach to problem solving that they apply to human disease. They renew and develop clinical skills acquired in their early training and reinforce their understanding of the scientific basis of disease through continued participation in MSTP grand rounds. Upon completion of the clinical curriculum, trainees are awarded the M.D. and Ph.D.

Most graduates of the program elect to enter residency programs in clinical medicine and embark on careers as medical school faculty members in clinical disciplines with opportunities for basic and applied research. Other graduates accept academic appointments in basic science departments and spend a major part of their professional activity in biomedical research and teaching.

Admission

Applicants must meet requirements for admission to the M.D. program in the Carver College of Medicine; see "Admission to the M.D. Program" under Doctor of Medicine (p. 942) in the Catalog. They also must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Applicants should have completed requirements for a bachelor's degree at an accredited academic institution. In addition to outstanding academic credentials, including strength in biological, physical, and mathematical sciences, they must demonstrate aptitude for and commitment to scientific research through productive research experience during their undergraduate years or after. Admission normally is made for entry to the first year of the program, but applicants already enrolled in the Carver College of Medicine may request admission with advanced standing.

Application

The Carver College of Medicine participates in the American Medical College Application Service (AMCAS). Program applicants should select M.D./Ph.D. Program-Type on their AMCAS application and instruct AMCAS to forward their credentials to the Carver College of Medicine (IA131). Applications should be submitted as early as possible to allow careful review by the admissions committees of the Medical Scientist Training Program and the Carver College of Medicine.

All candidates must take the Medical College Admission Test (MCAT), according to Carver College of Medicine

requirements. The Graduate Record Exam (GRE) is not required for admission.

Application to the Graduate College is not required before acceptance to the MSTP. Trainees admitted to the program receive assistance with Graduate College enrollment.

Financial Support

Trainees receive stipend and full tuition support from a National Institutes of Health MSTP training grant to The University of Iowa, supplemented by other institutional and individual awards. Students in the graduate phase of training receive support from their graduate departments or interdisciplinary programs and their research advisors. The program office also helps selected trainees apply for competitive national awards for outstanding academic and research achievement.

Courses

050:211 (MSTP:8511) MSTP Research arr.

Research experience. Requirements: Medical Scientist Training Program enrollment.

050:212 (MSTP:8512) MSTP Clinical Connections arr.

Experience with physician-scientist preceptor in medical interviewing, physical examination, patient presentation through direct patient interaction. Requirements: Medical Scientist Training Program graduate phase enrollment.

050:213 (MSTP:8513) Analyzing and Presenting Medical Research 1 s.h.

How to read, interpret, and present medical and scientific literature; students read and present representative papers from scientific and medical literature.

Microbiology

Head

Patrick M. Schlievert

Professors

Lee-Ann H. Allen (Internal Medicine), Michael A. Apicella (Internal Medicine), Gail A. Bishop (Internal Medicine), John E. Butler, Steven Clegg, John T. Harty (Pathology), Bradley D. Jones, David M. Lubaroff (Urology), Wendy J. Maury, Linda L. McCarter, Paul B. McCray Jr. (Pediatrics), William M. Nauseef (Internal Medicine), Stanley Perlman (Pediatrics), Richard J. Roller, Patrick M. Schlievert (Internal Medicine), Jack T. Stapleton (Internal Medicine), George V. Stauffer, Jerrold P. Weiss (Internal Medicine), Mary E. Wilson (Internal Medicine)

Professors emeriti

Robert F. Ashman (Internal Medicine), Charles D. Cox, Michael G. Feiss, David T. Gibson, Louis G. Hoffmann, William Johnson, Erich W. Six, Donald P. Stahly, Mark F. Stinski, C. Martin Stoltzfus

Associate professors

Alexander R. Horswill, Jon C.D. Houtman, John R. Kirby, Aloysius J. Klingelutz (Radiation Oncology), Kevin L. Legge (Pathology), Steven M. Varga (Pathology), David S. Weiss, Hai-Hui Xue, Timothy L. Yahr

Associate professor emeritus

Jose E. Rodriguez

Assistant professors

Craig D. Ellermeier, Chioma M. Okeoma

Research assistant professor

Keith W. Jarosinski

Lecturers

Jennifer D. Boddicker, Marcia L. Cordts, Linda M. Knudtson

Undergraduate major: microbiology (B.S.)

Undergraduate minor: microbiology

Graduate degrees: M.S. in microbiology; Ph.D. in microbiology

Web site: <http://www.medicine.uiowa.edu/microbiology>

Study in the Department of Microbiology is dedicated to the branch of biological sciences that deals with the smallest living things: bacteria, archaea, fungi, algae, protozoa, and viruses. It is coupled with immunology, the study of the response of higher organisms to foreign substances.

Microbiology and immunology are at the forefront of the modern biological revolution. Microbes are often the experimental subjects of choice for examining basic genetic and biological phenomena because of their small size, rapid growth rate, and relative simplicity. A significant portion of contemporary biochemical research employs microbiological and immunological methods.

Current research is making theoretical and practical advances concerning microbial species and viruses that infect animals, including man, plants, and other microbes; the use of comparative genomics, gene expression profiling, and recombinant DNA methods to analyze basic biological processes and generate valuable products; the nature and occurrence of microbial life in extreme or unusual environments; microbial synthesis and modification of antibiotics and other natural products; the role of microbes in stabilization of the biosphere by recycling and detoxifying waste products; the genetics

and regulation of metabolic processes; and the genetics and regulation of the immune response, including characterization of mechanisms used by bacteria to signal one another and characterization of interactions between different types of immune cells and their targets.

The Department of Microbiology offers an undergraduate major, and undergraduate minor, and graduate degree programs and determines the curricula for those programs. Undergraduates majoring in microbiology receive their degrees (B.S.) from the College of Liberal Arts and Sciences and are governed by that college's undergraduate academic policies. Graduate degrees in microbiology are conferred by the Graduate College.

Undergraduate Program

- Major in microbiology (Bachelor of Science)
- Minor in microbiology

Microbiology is an excellent major for undergraduate students who want a good general education with emphasis on an important and interesting branch of biological sciences. Graduates find employment opportunities in government, hospitals, public health laboratories, research laboratories, and industrial laboratories (food, dairy, chemical, pharmaceutical, and genetic engineering companies). Those who pursue advanced degrees have more advanced career opportunities in these same areas as well as in college and university teaching.

Bachelor of Science

The Bachelor of Science with a major in microbiology requires a minimum of 120 s.h., including 63-65 s.h. of work for the major (21 s.h. in microbiology and 42-44 s.h. in supporting course work). Students must complete at least 12 s.h. of the required 21 s.h. in microbiology courses at The University of Iowa. Students also must complete the College of Liberal Arts and Sciences General Education Program (p. 276).

The major requires the following course work.

MICROBIOLOGY COURSES

Students earn 21 s.h. in microbiology courses, as follows.

061:157 (MICR:2157) General Microbiology (with a grade of C or higher)	5 s.h.
061:163 (MICR:4163) Seminar: Microbiology (taken during last two semesters before graduation)	2 s.h.
Additional microbiology courses, with at least 14 s.h. in courses numbered 061:147 (MICR:3147) and above, excluding 061:164 (MICR:3164) and 061:220 (MICR:5220)	14 s.h.

Students must earn a grade of C or higher in 061:157 (MICR:2157) in order to take more advanced microbiology courses.

Students must take 061:163 (MICR:4163) once for credit during their last two semesters before graduation. They may apply a maximum of 2 s.h. earned in the course toward the major, but they are encouraged to take it for 0 s.h. during other semesters after they have completed 061:157 (MICR:2157).

A maximum of 4 s.h. earned in 061:161 (MICR:4161) Undergraduate Research in Microbiology may be counted toward the major. However, honors students must complete 23 s.h. of microbiology courses for the major and

may count 6 s.h. earned in 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology; see "Honors" below.

SUPPORTING COURSE WORK

In addition to the required 21 s.h. of microbiology, the major requires supporting course work. These courses may not be taken pass/nonpass.

One of these sequences:

002:010 (BIOL:1402)-002:011 (BIOL:1502) Principles of Biology I-II	8 s.h.
002:031 (BIOL:1411)-002:032 (BIOL:1412) Foundations of Biology - Diversity of Form and Function	8 s.h.

All of these:

004:011 (CHEM:1110)-004:012 (CHEM:1120) Principles of Chemistry I-II	8 s.h.
004:121 (CHEM:2210)-004:122 (CHEM:2220) Organic Chemistry I-II	6 s.h.
004:141 (CHEM:2410) Organic Chemistry Laboratory	3 s.h.
099:120 (BIOC:3120) Biochemistry and Molecular Biology I	3 s.h.
099:130 (BIOC:3130) Biochemistry and Molecular Biology II	3 s.h.

One of these sequences:

029:011 (PHYS:1511)-029:012 (PHYS:1512) College Physics I-II	8 s.h.
029:081 (PHYS:1611)-029:082 (PHYS:1612) Introductory Physics I-II	8 s.h.

One of these:

22M:016 (MATH:1460) Calculus for the Biological Sciences	4 s.h.
22M:025 (MATH:1850) Calculus I	5 s.h.
22M:031 (MATH:1550) Engineering Mathematics I: Single Variable Calculus	4 s.h.
22S:101 (STAT:3510) Biostatistics	3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.

In addition, the following course may be recommended for some students.

08N:080 (CNW:1680) Nonfiction Writing	3 s.h.
---------------------------------------	--------

Four-Year Graduation Plan

The following checkpoints list the minimum requirements students must complete by certain semesters in order to stay on the University's Four-Year Graduation Plan. (Courses in the major are those required to complete the major; they may be offered by departments other than the major department.)

Before the third semester begins: 002:031 (BIOL:1411) Foundations of Biology; 004:011 (CHEM:1110) Principles of Chemistry I and 004:012 (CHEM:1120) Principles of Chemistry II; an approved calculus or biostatistics class; and at least one-quarter of the semester hours required for graduation

Before the fifth semester begins: 002:032 (BIOL:1412) Diversity of Form and Function; 004:121 (CHEM:2210) Organic Chemistry I, 004:122 (CHEM:2220) Organic Chemistry II, and 004:141 (CHEM:2410) Organic Chemistry Laboratory; 061:157 (MICR:2157) General Microbiology; and at least one-half of the semester hours required for graduation

Before the seventh semester begins: five more courses in the major and at least three-quarters of the semester hours required for graduation

Before the eighth semester begins: another 10-12 s.h. of course work

During the eighth semester: enrollment in all remaining course work in the major, all remaining required General Education courses, and a sufficient number of semester hours to graduate

Honors

Microbiology majors who are members of the University of Iowa Honors Program may enroll in the honors program in microbiology. Membership in the University Honors Program requires that students maintain a cumulative University of Iowa g.p.a. of at least 3.33. Microbiology honors students also must maintain a g.p.a. of at least 3.33 in microbiology courses. To graduate with honors in the major, students must complete 23 s.h. of course work in microbiology, including 6 s.h. in 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology, which introduces them to experimental research. At the end of the research, they must successfully present written and oral reports.

Minor

The minor in microbiology requires a minimum of 15 s.h. in microbiology courses, including 12 s.h. in advanced courses taken at The University of Iowa. Courses numbered 061:147 (MICR:3147) Survey of Immunology and above are considered advanced for the minor, except 061:164 (MICR:3164) Nursing Microbiology. Students must maintain a g.p.a. of at least 2.00 in the minor. Course work in the minor may not be taken pass/nonpass. Students may count a maximum of 2 s.h. earned in 061:161 (MICR:4161) Undergraduate Research in Microbiology or 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology, and 2 s.h. earned in 061:163 (MICR:4163) Seminar: Microbiology, toward the minor. They may count 061:218 (MICR:5218) Microscopy for Biomedical Research toward the minor, but not 061:220 (MICR:5220) Advanced Microscopy for Biomedical Research.

Graduate Programs

- Master of Science in microbiology
- Doctor of Philosophy in microbiology

Graduate study in microbiology is designed to help students become highly qualified in microbiology research and teaching. Admitted graduate students usually pursue the Ph.D.

Graduate study is offered in six subdisciplines: pathogenic bacteriology, microbial genetics, immunology, microbial physiology, animal virology, and bioinformatics. Several areas involve interdisciplinary training both within and outside the department, so students gain broad experience during their course of study. Students also may pursue interdisciplinary Ph.D. programs in genetics (p. 837), immunology (p. 841), and molecular and cellular biology (p. 855).

During their first year, students rotate in three laboratories of their choice and are advised by the Graduate Student Advisory Committee. At the end of March of the first year, they choose a research supervisor who chairs their

advisory committee. The committee provides intellectual and research guidance for the student's training.

The Department of Microbiology cooperates with other University of Iowa departments to give students ample access to diverse course offerings, seminars, and research programs. For example, microbiology students may participate in courses and seminars in immunology, genetics, molecular and cellular biology, biocatalysis/biotechnology, and electron microscopy.

All students admitted to advanced degree programs are expected to assist in departmental teaching.

Master of Science

The Master of Science program in microbiology requires a minimum of 30 s.h. of graduate credit. M.S. students are required to earn a minimum of 12 s.h. in microbiology courses chosen from three of the department's six subdivisions. They may substitute a course they have already taken (at The University of Iowa or elsewhere) for a course requirement, with the M.S. advisory committee's approval. Additional course requirements depend on students' interests and the advice of the examining committee.

Students must write a thesis based on their own research and defend it satisfactorily in an oral examination. No more than 9 s.h. of credit for thesis research may be counted toward the 30 s.h. required for the Master of Science.

Doctor of Philosophy

The Doctor of Philosophy program in microbiology requires a minimum of 72 s.h. of graduate credit. Ph.D. students are required to earn approximately 10 s.h. of credit in graduate-level microbiology courses. They may substitute a course they have already taken (at The University of Iowa or elsewhere) for a course requirement, with the Ph.D. advisory committee's approval.

Students must pass a comprehensive examination before the end of their fourth semester in the program and write a thesis based on their own research. The thesis must be defended satisfactorily in an oral examination.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They should have a cumulative g.p.a. of at least 3.00 and must have completed courses in biology, chemistry (inorganic and organic), mathematics including calculus, and physics. Those admitted with deficiencies must complete the relevant course work during their first year of graduate study. Admission is determined through a review and formal vote by the faculty. Preference is given to students applying for the Ph.D. program.

Facilities

The Department of Microbiology is situated on the University of Iowa health sciences campus, where it shares the Bowen Science Building with the Departments of Anatomy and Cell Biology, Biochemistry, Molecular Physiology and Biophysics, and Pharmacology. Laboratory

space and modern equipment are available for teaching and research.

Courses

061:103 (MICR:8202) Principles of Infectious Diseases 5 s.h.

Principles and methods essential to study of microorganisms, their isolation and identification; microorganisms in infectious diseases; current immunology concepts. Requirements: M.D. enrollment.

061:104 (MICR:7202) Principles Infectious Diseases--Physician Assistant 5 s.h.

Principles and methods essential to study of microorganisms, their isolation and identification; microorganisms in infectious diseases; current immunology concepts. Requirements: Physician Assistant Program enrollment.

061:112 (MICR:3112) Pharmacy Microbiology 4 s.h.

Medical microbiology: bacteriology, immunology, pathogenic bacteriology, virology, mycology, parasitology. Requirements: pre-pharmacy standing.

061:113 (MICR:8230) Dental Microbiology 3 s.h.

Medical microbiology: bacteriology, immunology, pathogenic bacteriology, virology, mycology, parasitology. Requirements: D.D.S. enrollment.

061:147 (MICR:3147) Survey of Immunology 3 s.h.

Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Prerequisites: 002:010 (BIOL:1402), 002:011 (BIOL:1502), and 061:157 (MICR:2157).

061:157 (MICR:2157) General Microbiology 5 s.h.

Principles of microbial diversity, microbial genetics, physiology and metabolism, pathogenic microbiology, virology, immunology, industrial and environmental microbiology; laboratory emphasis on basic techniques. Prerequisites: 002:010 (BIOL:1402) or 002:031 (BIOL:1411).

061:159 (MICR:3159) Pathogenic Bacteriology 5 s.h.

Pathogenic bacteria, with emphasis on mechanisms of pathogenicity, laboratory methods for isolation, identification; laboratory emphasis on advanced methods for study of pathogenic bacteria. Requirements: grade of C or higher in 061:157 (MICR:2157).

061:160 (MICR:3160) Microbial Physiology 3 s.h.

Bacterial genomes, cell structure, growth, energy metabolism, biosynthesis, mechanisms of signal transduction and regulation. Requirements: biochemistry course and grade of C or higher in 061:157 (MICR:2157).

061:161 (MICR:4161) Undergraduate Research in Microbiology arr.

Experimental research under faculty supervision. Prerequisites: 002:010 (BIOL:1402) or 002:031 (BIOL:1411).

061:163 (MICR:4163) Seminar: Microbiology 2 s.h.

Current topics in microbiology, immunology. Requirements: grade of C or higher in 061:157 (MICR:2157). Recommendations: senior standing.

- 061:164 (MICR:3164) Nursing Microbiology** 4 s.h.
Overview of bacteria, viruses, and eukaryotic microorganisms that cause human disease; microbial structure, growth control and reproduction; immunology in the context of host defense mechanisms. Corequisites: 002:002 (BIOL:1141) or 002:010 (BIOL:1402) or 002:021 (BIOL:1140) or 002:031 (BIOL:1411), if not taken as a prerequisite. Requirements: pre-nursing student.
- 061:168 (MICR:3168) Introduction to Animal Viruses** 3 s.h.
Basic physical, chemical, and biological properties of animal viruses; association with human disease. Requirements: grade of C or higher in 061:157 (MICR:2157).
- 061:169 (MICR:4169) Molecular Biology and Pathogenesis of HIV** 1 s.h.
Overview of the biology of HIV; includes life cycle, immune response, antiviral treatments, potential for vaccine, animal models; lectures introducing subject matter; discussion of literature relevant to each week's topic. Prerequisites: 061:168 (MICR:3168).
- 061:170 (MICR:3170) Microbial Genetics** 3 s.h.
Genetics of bacteria, bacteriophages. Requirements: grade of C or higher in 002:128 (BIOL:2512) or 061:157 (MICR:2157).
- 061:171 (MICR:4171) Honors Undergraduate Research in Microbiology** arr.
Experimental research under faculty supervision. Prerequisites: 002:010 (BIOL:1402) or 002:031 (BIOL:1411). Requirements: microbiology major, junior or senior standing, 3.33 overall g.p.a., and 3.33 g.p.a. in microbiology courses.
- 061:175 (MICR:3175) Microbial Genetics Laboratory** 3 s.h.
Basic principles of genetic analysis of bacteria and bacteriophage. Prerequisites: 061:170 (MICR:3170)
- 061:178 (MICR:3178) Animal Viruses Laboratory** 2 s.h.
Basic techniques and approaches in animal virology, including virus detection, virus growth measurement, and virus genetics. Corequisites: 061:168 (MICR:3168). Requirements: grade of C or higher in 061:157 (MICR:2157).
- 061:179 (MICR:3179) Bacterial Diversity** 3,5 s.h.
Analysis of bacteria from varied habitats; emphasis on the physiological basis and molecular characteristics of diversity. Prerequisites: 061:157 (MICR:2157). Corequisites: 061:170 (MICR:3170). Recommendations: 099:120 (BIOC:3120).
- 061:190 (MICR:3190) Web-Based Nursing Microbiology** 4 s.h.
Nursing microbiology, principles of immunology; web-based instruction. Corequisites: 002:002 (BIOL:1141) or 002:010 (BIOL:1402) or 002:021 (BIOL:1140) or 002:031 (BIOL:1411), if not taken as a prerequisite. Requirements: pre-nursing standing.
- 061:201 (MICR:6201) Graduate Immunology** 3 s.h.
Ontogeny, activation, and function of T lymphocytes and B lymphocytes; innate immune effector mechanisms; major histocompatibility complex; antigen presentation; thymocyte positive and negative selection; signaling of T lymphocytes, B lymphocytes; emphasis on experimental methods for analysis of these processes. Requirements: for 148:201 (IMMU:6201) — college biology, general chemistry, and introductory immunology courses; for 061:201 (MICR:6201) — courses in college biology, genetics, general chemistry, and introductory immunology. Recommendations: for 148:201 (IMMU:6201) — courses in biochemistry and genetics; for 061:201 (MICR:6201) — biochemistry course. Same as 148:201 (IMMU:6201).
- 061:207 (MICR:7207) Advanced Topics in Immunology** 3 s.h.
In-depth analysis of selected areas. Prerequisites: for 148:221 (IMMU:7221) — 148:201 (IMMU:6201); for 061:207 (MICR:7207) — 061:201 (MICR:6201) or 148:201 (IMMU:6201). Same as 148:221 (IMMU:7221).
- 061:217 (MICR:7217) Integrated Topics in Infectious Diseases** 1 s.h.
Clinical cases used to raise questions in host-parasite interactions; case/scientific exposés followed by related journal club discussions at next class session. Same as 148:217 (IMMU:7217).
- 061:218 (MICR:5218) Microscopy for Biomedical Research** arr.
Preparation, analysis of biomedical projects by light and electron microscopy. Prerequisites: 002:114 (BIOL:2723). Same as 060:218 (ACB:5218), 002:218 (BIOL:5218).
- 061:220 (MICR:5220) Advanced Microscopy for Biomedical Research** arr.
Technically advanced microscopy methods for research; individualized laboratory experience with opportunity to explore application of microscopy methods. Requirements: for 060:220 (ACB:5220) — an introductory microscopy course; for 002:220 (BIOL:5220) — 060:218 (ACB:5218) or 061:218 (MICR:5218), or 012:156 (GEOS:4156) or 052:156 (CBE:4156) or 060:156 (ACB:4156); for 061:220 (MICR:5220) — an introductory EM course. Same as 002:220 (BIOL:5220), 060:220 (ACB:5220).
- 061:221 (MICR:7221) Advanced Topics in Prokaryotic Biology Module 1** 1-2 s.h.
Cell division and sporulation; development of critical thinking, experimental approach and design, writing, and oral presentation skills through primary literature and course specific assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.
- 061:222 (MICR:7222) Advanced Topics in Prokaryotic Biology Module 2** 1-2 s.h.
Subversion of innate immune response by Gram-positive and Gram-negative bacteria; development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to primary literature and assignments (proposal writing, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.
- 061:223 (MICR:7223) Advanced Topics in Prokaryotic Biology Module 3** 1-2 s.h.
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.
- 061:224 (MICR:7224) Advanced Topics in Prokaryotic Biology Module 4** 1-2 s.h.
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.
- 061:225 (MICR:7225) Advanced Topics in Prokaryotic Biology Module 5** 1-2 s.h.
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.

- 061:226 (MICR:7226) Advanced Topics in Prokaryotic Biology Module 6** 1-2 s.h.
Development of critical thinking, experimental approach and design, writing, and oral presentation skills through exposure to selected topics in microbiology and assignments (proposal, writing manuscript reviews, oral presentations, small group discussions). Requirements: graduate standing in microbiology.
- 061:227 (MICR:7227) Advanced Topics in Microbiology** 1 s.h.
Presentations by graduate students on selected research topics in microbiology; different topics each semester. Offered fall and spring semesters. Requirements: graduate standing in microbiology.
- 061:247 (MICR:6247) Graduate Survey of Immunology** 3 s.h.
Important principles and key concepts in immunology; overview of innate and adaptive immune systems and their functions at cellular and molecular levels. Same as 148:247 (IMMU:6247).
- 061:259 (MICR:6259) Graduate Pathogenic Bacteriology** 3 s.h.
Pathogenic bacteria, with emphasis on mechanisms of pathogenicity, laboratory methods for isolation, identification.
- 061:260 (MICR:6260) Graduate Microbial Physiology** 3 s.h.
Bacterial genomes, cell structure, growth, energy metabolism, biosynthesis, mechanisms of signal transduction and regulation.
- 061:261 (MICR:7261) Graduate Research in Microbiology** arr.
Requirements: microbiology graduate standing.
- 061:263 (MICR:7263) Graduate Student Research Seminar** 1 s.h.
Presentation of thesis work in progress. Requirements: microbiology graduate standing.
- 061:264 (MICR:5264) Directed Study in Microbiology** arr.
- 061:265 (MICR:7265) Topics in Virology Literature** 1 s.h.
Papers of current interest in primary virology literature.
- 061:267 (MICR:6267) Graduate Introduction to Animal Viruses** 3 s.h.
Basic physical, chemical, biological properties of animal viruses, their association with human diseases; discussion topics in the primary literature.
- 061:268 (MICR:6268) Biology and Pathogenesis of Viruses** 2 s.h.
Molecular biology of animal DNA and RNA viruses, interaction of these viruses with eucaryotic cells; mechanisms of viral latency, persistence, cellular transformation, oncogenesis; virology literature. Prerequisites: 061:168 (MICR:3168) or 061:267 (MICR:6267).
- 061:269 (MICR:7269) Molecular Biology and Pathogenesis of HIV** 1 s.h.
Overview of the biology of HIV; includes life cycle, immune response, antiviral treatments, potential for vaccine, animal models; lectures introducing subject matter; discussion of literature relevant to each week's topic. Prerequisites: 061:267 (MICR:6267).
- 061:270 (MICR:6270) Graduate Microbial Genetics** 3 s.h.
Genetics of bacteria, bacteriophages.
- 061:271 (MICR:6271) Graduate Microbial Genetics Laboratory** 3 s.h.
Basic principles of genetic analysis in bacteria. Recommendations: 061:270 (MICR:6270).
- 061:275 (MICR:5875) Perspectives in Biocatalysis** 1-3 s.h.
Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as 004:275 (CHEM:5875), 046:275 (PHAR:5875), 052:275 (CBE:5875), 053:275 (CEE:5875), 099:275 (BIOC:5875).
- 061:279 (MICR:6279) Graduate Bacterial Diversity** 3 s.h.
Analysis of bacteria from varied habitats; emphasis on the physiological basis and molecular characteristics of diversity.
- 061:299 (MICR:6250) Mechanisms of Parasitism Journal Club** 1 s.h.
Reviews of recent publications in molecular parasitology research and thesis research by training grant or journal club students. Same as 142:299 (MCB:6250).

Molecular Physiology and Biophysics

Head

Kevin P. Campbell

Executive associate head

W. Scott Moye-Rowley

Professors

François M. Abboud (Internal Medicine), Mark Anderson (Internal Medicine), Nikolai Artemyev, Kevin P. Campbell, Mark Chapleau (Internal Medicine), Beverly Davidson (Internal Medicine), Wayne Johnson, W. Scott Moye-Rowley, George Richerson (Neurology), Robert Piper, Andrew Russo, Thomas J. Schmidt, Deborah Segaloff, Curt Sigmund (Internal Medicine), Richard Smith (Otolaryngology--Head and Neck Surgery), Peter Snyder (Internal Medicine), Michael J. Welsh (Internal Medicine)

Professors emeriti

Gerald DiBona, Robert E. Fellows, G. Edgar Folk Jr., Charles C. Wunder

Associate professors

Christopher Adams (Internal Medicine), Michael Anderson, Michael Henry, Anne Kwitek (Pharmacology), Amy Lee, Robert Mullins (Ophthalmology and Visual Sciences), Erwin F. Shibata, Mark Stamnes, Christopher Stipp (Biology)

Assistant professors

N. Charles Harata, John Wemmie (Psychiatry), Michael Wright

Graduate degrees: M.S. in molecular physiology and biophysics; Ph.D. in molecular physiology and biophysics

Web site: <http://www.physiology.uiowa.edu>

The Department of Molecular Physiology and Biophysics offers graduate study leading to the Master of Science and Doctor of Philosophy. It participates in interdisciplinary graduate programs, including the Medical Scientist Training (p. 961) Program, a joint M.D./Ph.D. program offered by the Graduate College and the Carver College of Medicine, and it provides instruction in molecular physiology and biophysics for M.D., D.D.S., and other health professions students. The department also conducts a co-op exchange, a vigorous training program that gives undergraduate students the opportunity to develop as independent researchers in preparation for graduate studies.

The department's principal research areas include cell biology, genetics, endocrinology, neuroscience, and membrane physiology and biophysics. The unifying theme is the understanding of signal transduction mechanisms involved in regulating function at the cellular and molecular levels.

Graduate Program

- Master of Science in molecular physiology and biophysics (with or without thesis)
- Doctor of Philosophy in molecular physiology and biophysics

Graduate study in molecular physiology and biophysics provides students with fundamental knowledge of life processes at molecular, cellular, and integrative levels of

biological function. It also imparts knowledge of modern research skills applicable to contemporary problems.

Students may enter the graduate program through the Biosciences (p. 829) Program (Graduate College) or directly through the Department of Molecular Physiology and Biophysics. Those who enter directly are advised by the department's director of graduate studies, who guides them in planning required course work and introduces them to research activities of the department's faculty members.

All degree candidates have experience as classroom instructors, under faculty supervision, as part of their training.

Master of Science

The Master of Science program in molecular physiology and biophysics requires a minimum of 30 s.h. beyond the bachelor's degree and is offered with and without thesis. Thesis students complete laboratory research and write a thesis that fulfills the requirements of the Graduate College (see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog). Nonthesis students complete a library research report and take a written examination on the research report area and the graduate program in physiology.

University of Iowa research assistants may pursue an M.S. in molecular physics and biophysics while continuing to work in their research laboratories. Research assistants interested in the M.S. program must submit a letter of support from their supervisor.

Doctor of Philosophy

The Doctor of Philosophy program in molecular physiology and biophysics requires a minimum of 72 s.h. beyond the bachelor's degree. The core curriculum includes graduate-level courses in cell biology, molecular biology, human physiology, and neurophysiology. Advanced electives, offered by the Department of Molecular Physiology and Biophysics and other departments, cover a wide range of topics, including receptors and signal transduction, and developmental neurophysiology.

After successful completion of required course work and the comprehensive examination, students devote full time to thesis research, which culminates in preparation of a doctoral dissertation and its defense in a final oral exam.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They must have a bachelor's degree from an accredited institution, with an undergraduate major in one of the biological, chemical, physical, mathematical, or engineering sciences and one or more years of course work in biology, physics, biochemistry, and calculus. They also must have a cumulative science g.p.a. of at least 3.00 and a combined verbal and quantitative score above 1200 on the Graduate Record Examination (GRE) General Test.

Financial Support

All full-time students receive financial aid in the form of tuition and stipend support from the Department of

Molecular Physiology and Biophysics. Support is renewed annually based on satisfactory progress in meeting degree requirements.

Research

Faculty research interests in the Department of Molecular Physiology and Biophysics encompass molecular and cellular endocrinology, cellular and developmental neurophysiology, and membrane structure and function. Within these, there are multiple areas of interest, including hormone receptors, reproductive endocrinology, signal transduction, regulation of gene expression, synaptic transmission, neuronal differentiation, membrane ion channels, regulation of excitability, and cardiovascular electrophysiology and regulation. Experimental models currently being investigated include rodents, yeast, *Drosophila*, and cultured cell lines from a variety of species.

Facilities

Two floors of the Bowen Science Building are devoted to research and teaching in the Department of Molecular Physiology and Biophysics. Department faculty members also occupy laboratory facilities in the Eckstein Medical Research Building and the Carver Biomedical Research Building. In addition to specialized equipment in faculty research laboratories, the department provides equipment for fluorescence microscopy, isotope analysis, cell culture, and molecular biology. It also has access to the University network and the multimedia education facilities. Additional resources are available at the Hardin Library for the Health Sciences.

Courses

072:152 (MPB:8115) Human Physiology for Dental Students 4 s.h.

Principles of human physiology, organ systems, cell function. Offered fall semesters. Requirements: grade of C- or higher in 002:010 (BIOL:1402) or 002:031 (BIOL:1411), 004:121 (CHEM:2210), and 004:122 (CHEM:2220); and D.D.S. enrollment.

072:153 (MPB:5153) Graduate Physiology 4 s.h.

Principles of human physiology, organ systems, cell function. Offered fall semesters. Requirements: grade of C- or higher in 002:010 (BIOL:1402) or 002:031 (BIOL:1411), 004:121 (CHEM:2210), and 004:122 (CHEM:2220); and graduate standing.

072:164 (MPB:8208) Human Physiology for Physician Assistant Students 4 s.h.

Principles of human physiology, organ systems, cell function. Offered summer sessions. Requirements: grade of C- or higher in 002:010 (BIOL:1402) or 002:031 (BIOL:1411), 004:121 (CHEM:2210), and 004:122 (CHEM:2220); and Physician Assistant Program enrollment.

072:165 (MPB:7209) Advanced Human Physiology 4 s.h.

Requirements: matriculation to the anesthesiology C.R.N.A. program.

072:180 (MPB:5180) How the Brain Works 1 s.h.

Brief, integrated look at how the brain works, based on recent neuroscience research; how the brain's biochemistry, anatomy, and physiology change constantly due to interaction with physical, emotional, and social environments; does the world we see around us exist outside the brain; does the mind exist; is emotion necessary for learning and memory; are we born with pre-existing circuits and codes in the brain for language, recognition of faces, and other complex behaviors; can aging of the brain be delayed; approach relevant for sciences, humanities.

072:184 (MPB:5184) Developmental Neurobiology 3 s.h.

Neural induction and nervous system patterning; neurogenesis, axon and dendrite outgrowth and targeting; synapse formation, specificity, refinement; mechanisms of neuronal cell death; myelination; neural stem cells; introduction to cellular, molecular, and genetic techniques in studies of neural development. Requirements: grade of B- or higher in 002:180 (BIOL:3253) or graduate standing. Same as 002:184 (BIOL:4753), 132:184 (NSCI:6184).

072:199 (MPB:4199) Research, Independent Study arr.

Recommendations: closed to molecular physiology and biophysics graduate students.

072:200 (MPB:5200) Medical Physiology Online 4 s.h.

Fundamental principles of cellular membranes, muscle, sensory organs, motor neurological systems, autonomic nervous systems, cardiovascular, pulmonary, renal, gastrointestinal, endocrine, and reproductive systems; interdependence of organ systems to maintain a normal physiological state using clinical correlates as applied to humans; basic physiological principles that establish a solid foundation for future pathophysiological and pharmacological concepts. Recommendations: medical, dental, physician assistant, nurse anesthesia, physical therapy, or graduate standing.

072:209 (MPB:6209) Steroid Receptor Signaling 1 s.h.

Structure-function relationship and genomic and nongenomic actions of the steroid hormone receptor family; basis for actions of novel new ligands on these receptors. Offered spring semesters. Same as 071:209 (PCOL:6209), 132:209 (NSCI:6209).

072:211 (MPB:5211) Biophysics of Excitable Membranes 3 s.h.

Selected electrophysiological and biophysical topics from published research. Prerequisites: 027:130 (HHP:3500).

072:220 (MPB:6220) Mechanisms of Cellular Organization 3 s.h.

Current understanding of basic cell biological processes; key experiments that led to guiding insights; mechanisms that cells use for compartmentalization and how those mechanisms are regulated; biogenesis of major organelles (e.g., mitochondria, peroxisomes, nucleus, secretory/endocytic membrane system); functions of cytoskeleton in cell motility, organelle motility, and cell division. Prerequisites: 099:130 (BIOC:3130). Same as 142:220 (MCB:6220), 060:216 (ACB:6220).

072:225 (MPB:6225) Growth Factor Receptor Signaling 1 s.h.

Mechanisms of signaling by growth factors; cytokines and related molecules that regulate cell proliferation, development, differentiation, and survival; emphasis on molecular mechanisms of signaling, relevance of these signaling processes to various human diseases. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:225 (MCB:6225), 060:225 (ACB:6225).

072:226 (MPB:6226) Cell Cycle Control 1 s.h.

Cell cycle regulation, DNA damage-dependent cell cycle regulation, redox-dependent cell cycle regulation, cellular senescence. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:226 (MCB:6226), 060:226 (ACB:6226).

072:227 (MPB:6227) Cell Fate Decisions 1 s.h.

Cellular fate decisions, including signal integration, terminal differentiation in development, mechanisms of embryonic stem cell gene regulation/cellular reprogramming, cell death paradigms, and cell death in development and cancer. Recommendations: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203). Same as 142:227 (MCB:6227), 060:223 (ACB:6227).

072:240 (MPB:5240) Physiology Workshop 1 s.h.

Presentations by faculty, postdoctoral fellows, graduate students, and scientists. Requirements: graduate standing.

072:265 (MPB:6265) Neuroscience Seminar 0-1 s.h.

Research presentations. Offered fall and spring semesters. Same as 031:265 (PSY:6265), 060:265 (ACB:6265), 132:265 (NSCI:6265), 002:265 (BIOL:6265).

072:302 (MPB:6302) Research Physiology and Biophysics arr.

Requirements: molecular physiology and biophysics graduate standing.

072:342 (MPB:5342) Biosciences Critical Thinking and Communication 2 s.h.

Selected papers and oral and written presentations tied to students' research rotations; introductory seminar. Same as 156:265 (BISC:5265), 002:270 (BIOL:5270).

072:402 (MPB:7402) Thesis arr.

Requirements: molecular physiology and biophysics Ph.D. candidacy.

Web site: <http://www.uihealthcare.com/depts/med/neurology/>

Neurology is the branch of medical science concerned with diagnosis and management of disorders of the brain, spinal cord, peripheral nervous system, and muscle.

The Department of Neurology's hallmark is its history of carefully integrating patient care, scientific investigation,

and the education of medical, postdoctoral, and graduate students.

M.D. Student Training, Graduate Education

The department provides clinical and clinical research training to third- and fourth-year M.D. students. It also offers research opportunities in various fields of neuroscience, including neuropsychology, neuroimaging, and neuroanatomy, to Ph.D. students in neuroscience and psychology.

Residency Program

The Department of Neurology offers an active, four-year approved residency program that qualifies physician trainees for board certification in neurology. Experience in clinical electrophysiology, pediatric neurology, psychiatry, and neuropathology is part of this training.

Research

The faculty's investigative interests center on cognitive neuroscience, degenerative diseases, cerebrovascular disease, neurogenetics, neuromuscular diseases, electrophysiological correlates of central and peripheral nervous system disease, growth factors in the nervous system, control and regulation of autonomic functions, neuro-ophthalmology, movement disorders, epilepsy, and pain management. For more information see the Department of Neurology web site.

Courses

064:011 (NEUR:8301) Clinical Neurology 2,4 s.h.

Experience in clinical neurology through ward work and case-based conferences linked to required reading; focus on neurologic examination, diagnosis of neurologic problems; four-week clerkship.

064:238 (NEUR:7238) Introduction to Neuropsychological Assessment arr.

Standard neuropsychological and behavioral assessment procedures; selection, administration, and scoring of neuropsychological tests under staff supervision; involvement in case presentation.

064:239 (NEUR:7239) Advanced Neuropsychological Assessment arr.

Continuation of 064:238 (NEUR:7238); preparation of integrated reports on collected data; case presentations.

064:240 (NEUR:6240) Topics in Cognitive Neuroscience 3 s.h.

Key topics in the neural basis of human cognition; research literature. Recommendations: graduate courses in basic neuroscience, cognitive psychology. Same as 132:240 (NSCI:6240).

064:302 (NEUR:8401) Advanced Inpatient Neurology 4 s.h.

Experience and management of patients with seizure disorders, headache, cerebrovascular diseases; conferences, clinical rounds; two weeks on each inpatient service for a total of four weeks. Prerequisites: 064:011 (NEUR:8301).

064:303 (NEUR:8402) Advanced Outpatient Neurology 4 s.h.

Experience in evaluation, management of patients with various neurologic diseases; four weeks in clinic patient care. Prerequisites: 064:011 (NEUR:8301).

064:310 (NEUR:8403) Cerebrovascular Disease arr.

Experience in evaluation, management of patients with cerebrovascular diseases; conferences, clinical rounds. Prerequisites: 064:011 (NEUR:8301).

064:365 (NEUR:5365) Seminar: Neuropsychology and Neuroscience arr.

Clinical neuropsychology and cognitive neuroscience: cutting-edge research from scientific journals, case presentations in clinical neuropsychology, and current research. Same as 031:365 (PSY:5365), 132:365 (NSCI:5365).

064:998 (NEUR:8498) Neurology on Campus arr.**064:999 (NEUR:8499) Neurology off Campus** arr.

Neurosurgery

Head

Matthew A. Howard III

Professors

Patrick W. Hitchon, Matthew A. Howard III, Arnold H. Menezes

Associate professors

Jeremy Greenlee, Hiroto Kawasaki

Assistant professors

David Hasan, Hiroyuki Oya

Web site: <http://www.uihealthcare.com/depts/med/neurosurgery>

The Department of Neurosurgery provides an experience oriented toward patient care and basic research concerning diseases and physiology of the nervous system. Students develop awareness of neurosurgery's role in treating head and spine trauma, vascular disorders, brain and spinal cord tumors, pain and peripheral nerve abnormalities, degenerative spine pathology, and surgical treatment of epilepsy and movement disorders.

Clinical courses are designed around patient-centered discussions interwoven with operating room experiences. Lectures and conferences are scheduled on specific topics.

M.D. Student Training

The department provides fourth-year M.D. students with access to special expertise in selected topics of investigation regarding the central nervous system and to a clinical course through special arrangements with the faculty.

Faculty

Neurosurgery faculty strengths are centered in physiology of spinal cord trauma, epilepsy, auditory brain function and pain, primary brain tumor genetics, central nervous system tissue culture, spinal column biomechanics, and movement disorders. The department has expertise in clinical management across the spectrum of central nervous system diseases.

Facilities

Multiple, fully equipped laboratory space is available to support scientific research of the central nervous system. Faculty and technical assistance is available in all laboratories.

Courses

Neurosurgery courses are open only to M.D. and qualified associated health sciences students.

183:227 (NSG:8401) Subinternship in Neurosurgery 4 s.h.

Advanced clinical clerkship in neurological surgery; emphasis on diagnosis and operative management of surgical neurological disease.

183:228 (NSG:8497) Research in Neurological Surgery arr.

Laboratory investigation of spinal cord injury, spinal column biomechanics and instrumentation, electrophysiology of pain, epilepsy and hearing, molecular genetics and physiology of brain tumors.

183:999 (NSG:8499) Neurosurgery off Campus arr.

Arranged by student with department approval.

Nuclear Medicine Technology

Director

Anthony W. Knight

Medical director

Michael M. Graham

Technical director

John A. Bricker

Affiliated faculty

David L. Bushnell (Radiology), Michael M. Graham (Radiology/Radiation Oncology), Daniel Kahn (Radiology), Anthony W. Knight (Radiology), Mark T. Madsen (Radiology/Physics and Astronomy), Yusef Menda (Radiology/Radiation Oncology), James A. Ponto (Pharmacy)

Undergraduate major: nuclear medicine technology (B.S.)

Web site: <http://www.healthcare.uiowa.edu/radsci/NMT>

Nuclear medicine technologists are professionals in a medical specialty that uses radioactive tracers for diagnostic, therapeutic, and research purposes. Technologists generally are employed in hospitals and clinics. They work hand-in-hand with nuclear medicine physicians, health physicists, radiopharmacists, and radiochemists as an integral part of a highly trained specialty team.

In addition to using sophisticated detectors and computers to trace the movement and localization of radioactive tracers in the human body, nuclear medicine technologists have responsibilities that include radiation safety; quality control testing; radiopharmaceutical preparation and administration; and general patient care.

The Nuclear Medicine Technology Program is fully accredited by the Joint Review Committee on Educational Programs in Nuclear Medical Technology (JRCNMT). Nuclear medicine technology is one of two undergraduate majors in the field of medical imaging offered by the Carver College of Medicine. Students interested in radiologic technology, computed tomography, magnetic resonance imaging, cardiovascular interventional, diagnostic medicine sonography, or radiation therapy may complete the major in radiation sciences; see Radiation Sciences (p. 1010) in the Catalog.

The Carver College of Medicine is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation's largest university-owned teaching hospitals. For information about the college's academic programs and resources, see Carver College of Medicine (p. 912) in the Catalog.

Undergraduate Program

- Major in nuclear medicine technology (Bachelor of Science)

Undergraduate study in nuclear medicine technology is guided by the academic rules and procedures outlined under "Undergraduate Programs" in the Carver College of Medicine (p. 912) section of the Catalog.

Requirements for the major in nuclear medicine technology have changed. First-year students who enter the University in or after fall 2012 and transfer students who enter the University in or after fall 2012 with less than 30 s.h. of undergraduate credit must complete the

requirements stated below. Students who entered the University before fall 2012 and transfer students who enter the University in fall 2012 with at least 30 s.h. of undergraduate credit may complete the requirements stated in the Nuclear Medicine Technology section of the 2011-12 General Catalog.

Bachelor of Science

The Bachelor of Science with a major in nuclear medicine technology requires a minimum of 120 s.h. of credit. Work for the degree includes a set of courses that are prerequisite to entering the major, 60 s.h. of course work in the major, and elective course work sufficient to complete the 120 s.h. required for graduation.

Students who plan to complete all requirements for the degree at The University of Iowa enter the University as students in the College of Liberal Arts and Sciences (CLAS) with a nuclear medicine technology interest. As CLAS students, they complete the course work that is prerequisite to entering the major.

Admission to the major is competitive; the program accepts a maximum of 10 students per year. Students must apply to the major by January 15 of the year in which they wish to enter it. Personal interviews with qualified applicants are scheduled in February, and the class is selected by March 15. The program begins the following fall semester and lasts two years.

Students who are admitted to the major become Carver College of Medicine students. Upon completing the program successfully, they are granted a Bachelor of Science degree and a certificate of training. Graduates are eligible for national certification as nuclear medicine technologists.

The program strongly advises students entering the University to pursue a course of study that is applicable to another major, most commonly biology, chemistry, biochemistry, or microbiology, so that if they are not admitted to the Nuclear Medicine Technology Program, they still may complete a major and receive a bachelor's degree.

The Bachelor of Science with a major in nuclear medicine technology requires the following work.

PREREQUISITES TO THE NUCLEAR MEDICINE TECHNOLOGY MAJOR

Students must complete the following prerequisite courses and must have earned 60 s.h. of college credit with a cumulative g.p.a. of at least 2.50 before they may enter the nuclear medicine technology major. In addition to providing a foundation for the major, the prerequisite courses are good preparation for other majors.

Rhetoric:

010:003 (RHET:1030) Rhetoric	4 s.h.
------------------------------	--------

Culture, society, and the arts—3 s.h. in each of two of these (total of 6 s.h.):

Historical Perspectives approved course work	3 s.h.
International and Global Issues approved course work	3 s.h.
Literary, Visual, and Performing Arts approved course work	3 s.h.
Values, Society, and Diversity approved course work	3 s.h.

See General Education Program (p. 276) (College of Liberal Arts and Sciences) in the Catalog for approved courses in the culture, society, and the arts areas.

Mathematics—one of these:

22M:009 (MATH:1020) Elementary Functions	4 s.h.
22M:015 (MATH:1440) Mathematics for the Biological Sciences	4 s.h.

A more advanced mathematics course

Introductory chemistry with laboratory:

004:011 (CHEM:1110) Principles of Chemistry I	4 s.h.
---	--------

Introductory physics—one of these:

029:008 (PHYS:1400) Basic Physics	3 s.h.
029:011 (PHYS:1511) College Physics I	4 s.h.

Psychology:

031:001 (PSY:1001) Elementary Psychology	3 s.h.
--	--------

Medical terminology:

20E:103 (CLSA:3750) Medical and Technical Terminology	2 s.h.
---	--------

Anatomy and physiology—students must complete one of the three options below.

Option 1 (one course, 4 s.h.):

060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science	4 s.h.
---	--------

Option 2 (two courses, 6-7 s.h.)—one of these:

060:110 (ACB:2110) Principles of Human Anatomy	3 s.h.
060:113 (ACB:2113) Human Anatomy Online	4 s.h.

And one of these:

027:050 (HHP:1300) Fundamentals of Human Physiology	3 s.h.
027:130 (HHP:3500) Human Physiology	3 s.h.

Option 3 (three courses, 7 s.h.)—both of these:

027:053 (HHP:1100) Human Anatomy	3 s.h.
027:054 (HHP:1110) Human Anatomy Laboratory	1 s.h.

And one of these:

027:050 (HHP:1300) Fundamentals of Human Physiology	3 s.h.
027:130 (HHP:3500) Human Physiology	3 s.h.

RECOMMENDED PRE-MAJOR COURSES

The Nuclear Medicine Technology Program strongly recommends that students who intend to apply to the major take the following course work in addition to the required prerequisite courses listed above.

004:012 (CHEM:1120) Principles of Chemistry II	4 s.h.
680:010 (RSP:1100) Introduction to the Radiation Sciences	1 s.h.

One of these:

002:021 (BIOL:1140) Human Biology	4 s.h.
002:031 (BIOL:1411) Foundations of Biology	4 s.h.

One of these:

22S:025 (STAT:1020) Elementary Statistics and Inference	3 s.h.
22S:101 (STAT:3510) Biostatistics	3 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods	3 s.h.

One of these:

22C:001 (CS:1020) Principles of Computing	3 s.h.
22C:005 (CS:1110) Introduction to Computer Science	3 s.h.

Prospective students are encouraged to consult the Nuclear Medicine Technology Program office to plan an appropriate pre-major program of study.

COURSE WORK IN THE MAJOR

Students admitted to the nuclear medicine technology major spend two years in a clinical curriculum that is organized in accordance with the JRCNMT Essentials of an Accredited Educational Program in Nuclear Medicine Technology. They complete course work in the following areas: radiopharmacy, radiation safety and radiobiology, patient care, nuclear medicine and positron emission tomography (PET) procedures, radiation physics and instrumentation, administration and management, medical and professional ethics, and principles of computed tomography (CT). Practical clinical rotations focus on nuclear medicine, PET and CT imaging, nuclear medicine therapy, clinical radiopharmacy, nuclear medicine computer applications, and quantification of radioactivity in vivo and in vitro.

Courses

107:101 (RSNM:4110) Principles of Nuclear Medicine I 0,6 s.h.

Didactic and laboratory work in radiopharmacy, patient care, radiation protection, math and statistics, radiation physics, anatomy and physiology, radiochemistry and tracer techniques, medical terminology, computer applications. Requirements: Nuclear Medicine Technology Program enrollment.

107:102 (RSNM:4111) Introductory Clinical Nuclear Medicine 0,6 s.h.

Experience in preparing radiopharmaceuticals, performing routine nuclear imaging and in vitro procedures; work with clinical instructors. Requirements: Nuclear Medicine Technology Program enrollment.

107:103 (RSNM:4210) Principles of Nuclear Medicine II 0,3 s.h.

Didactic and laboratory work in nuclear medicine instrumentation, radiobiology, professional ethics, administration and management, computer applications. Requirements: nuclear medicine technology student.

107:104 (RSNM:4211) Intermediate Clinical Nuclear Medicine 0,9 s.h.

Progressive responsibility in radiopharmacy, nuclear and P.E.T. imaging, cardiac stress testing. Requirements: Nuclear Medicine Technology Program enrollment.

107:105 (RSNM:4310) Advanced Clinical Nuclear Medicine 0,6 s.h.

Proficiency in performance, quality assurance of all radiopharmacy and nuclear medicine procedures; opportunities for independent study, research. Requirements: Nuclear Medicine Technology Program enrollment.

107:120 (RSNM:3130) Radiation Safety and Radiobiology 2 s.h.

Instruction on safe operation of radiation producing equipment and handling of radioactive materials; origin and/or derivation of certain formulae and techniques useful in radiation protection programs; regulatory agencies, regulations, and regulatory guides pertinent to student's field; emphasis on applied aspects of radiation protection; characteristics and biological effects of ionizing radiations, properties and uses of radioisotopes, medical applications, and biological basis for protection procedures. Requirements: Radiation Science Program enrollment. Same as 077:120 (FRRB:3130).

M.D. Student Training

Courses in the Department of Obstetrics and Gynecology are designed to give M.D. students a comprehensive survey of reproductive medicine. This is done through a series of didactic lectures, inpatient and outpatient assignments, ward rounds, teaching seminars, and special elective courses.

The third-year clerkship 066:004 (OBG:8301) Clinical Obstetrics and Gynecology gives students the core knowledge, skills, and attitudes needed to provide primary health care to female patients.

The department offers fourth-year medical students a variety of electives that provide advanced training in the special areas of obstetrics and gynecology. In addition to clerkships at University of Iowa Hospitals and Clinics, these electives include a rotation at the Washington County Hospital and Clinics and other arranged off-campus courses.

Residency Program

The department offers a four-year residency. Upon completion, graduates are eligible for the written and oral examinations leading to certification by the American Board of Obstetrics and Gynecology.

Residents are assigned to the divisions and clinical services of the department; they care for both hospital inpatients and outpatients. Training is provided in normal and abnormal obstetrics, gynecologic surgery, office gynecology, ultrasound, reproductive endocrinology, gynecologic oncology, urogynecology, family planning, and endoscopic procedures.

Courses

066:004 (OBG:8301) Clinical Obstetrics and Gynecology arr.

Proficiency in evaluation and management of core women's health care relating to the reproductive tract; special history taking, physical examination, laboratory and imaging assessment of obstetric and/or gynecological patients, application of current concepts to well women's health care and to management of diseases and pathologies; outpatient and inpatient obstetrics and gynecology; family planning, screening and early detection of cancer and other diseases.

066:006 (OBG:8401) High Risk Antepartum Obstetrics Subinternship arr.

Experience in evaluating new patients in a high-risk obstetric clinic; continuing antepartum care; doing work-up, ordering diagnostic studies, and following course of complicated patients admitted to obstetric ward; assisting in diagnostic, therapeutic procedures such as fetal heart rate testing, amniocentesis, ultrasonography, intrauterine fetal transfusion.

066:010 (OBG:8402) Gynecologic Oncology Subinternship arr.

Experience on a gynecologic oncology service, including operating room, inpatient and outpatient care; team management approach to gynecologic cancer patients, treatment and follow-up of invasive gynecologic malignancies, etiology and risk factors for gynecologic neoplasias, pre- and postoperative evaluation and treatment of surgical management of gynecologic neoplasia; research project encouraged.

066:013 (OBG:8403) Reproductive Endocrinology Senior Elective arr.

Experience evaluating new and returning patients in the Reproductive Endocrinology and Infertility Clinic; participation in preoperative, operative, and inpatient postoperative care; advanced gynecologic ultrasonography, in vitro fertilization services.

066:015 (OBG:8405) Urogynecology Advanced Elective 4 s.h.

Experience as active member of urogynecology clinical team, participating in clinical care activities including outpatient clinic, outpatient procedures, inpatient surgery, hospital care; presentation to team on topic chosen by student.

066:017 (OBG:8450) Continuity of Care in Outpatient Gynecology 4 s.h.

M4 students work with experienced gynecologist in longitudinal clinical experience for the academic year; students paired with faculty member to see patients in weekly clinic and provide clinical care to defined patient population.

066:018 (OBG:8406) Community-Based Ob/Gyn, Washington 4 s.h.

Varied out-patient and in-patient obstetric and gynecologic patients in the Washington County Hospital and Clinic; perform and master OB/GYN histories and examinations; frequent supervised active participation of procedures where appropriate.

066:019 (OBG:8407) Family Planning 2,4 s.h.

Participation as active member of the Family Planning Services team; clinical activities, including clinic and outpatient procedures. Requirements: M.D. enrollment.

066:020 (OBG:8408) Non-Interventional Birth Elective 2 s.h.

Experience with normal physiologic birth; participation in intrapartum and postpartum care of low-risk women. Requirements: M.D. enrollment.

066:998 (OBG:8498) Ob/Gyn on Campus arr.

066:999 (OBG:8499) Ob/Gyn off Campus arr.

Ophthalmology and Visual Sciences

Head

Keith D. Carter

Professors

Michael D. Abramoff, Wallace L.M. Alward, Nikolai O. Artemyev (Physiology), H. Culver Boldt, Keith D. Carter, Thomas L. Casavant (Electrical and Computer Engineering), James C. Folk, Kenneth M. Goins, A. Tim Johnson, Chris A. Johnson, Randy H. Kardon, Patricia A. Kirby (Pathology), Young H. Kwon, Thomas A. Oetting, Steven R. Russell, Val C. Sheffield (Pediatrics/Genetics), Milan Sonka (Electrical and Computer Engineering), Edwin M. Stone, Michael D. Wagoner, Michael Wall (Neurology), Mark E. Wilkinson

Professors emeriti

Sohan S. Hayreh, G. Frank Judisch, Karl C. Ossoinig, Edward S. Perkins, William E. Scott, H. Stanley Thompson, Thomas A. Weingeist

Associate professors

Richard C. Allen, Michael G. Anderson (Physiology), Terry A. Braun, Arlene V. Drack, John H. Fingert, Markus H. Kuehn, Robert F. Mullins, Richard J. Olson, Todd E. Scheetz, Christine W. Sindt, Nasreen A. Syed

Assistant professors

Sheila A. Baker, Mark Greiner, Brian R. Kirschling, Anna S. Kitzmann, Beth R. Kutzbach, Reid A. Longmuir, Susannah Q. Longmuir, Vinit B. Mahajan, Seongjin Seo, Khadija S. Shahid, Elliott H. Sohn, Steven F. Stasheff (Pediatrics), Stewart Thompson, Matthew J. Thurtell, Budd A. Tucker

Web site: <http://webeye.ophth.uiowa.edu>

Ophthalmology is a medical and surgical specialty concerned with the diagnosis and treatment of diseases of the eye and its adnexa. The Department of Ophthalmology and Visual Sciences combines postgraduate training with research and patient care in all aspects of the visual sciences. Subspecialties represented in the department include cataract surgery, comprehensive ophthalmology, cornea and external diseases, contact lens and refraction services, genetics and molecular biology, glaucoma, laser refractive surgery, neuro-ophthalmology, oculoplastic surgery, ocular echography, ocular pathology, ocular vascular diseases, optometric services, pediatric ophthalmology and adult strabismus, vitreoretinal disorders, and vision rehabilitation.

M.D. Student Training, Graduate Education

The department offers clinical and research training to M.D. students and limited graduate studies for Ph.D. students in Anatomy and Cell Biology (p. 924), Molecular and Cellular Biology (p. 855), and Genetics (p. 837). A three-year residency program with clinical experience in the ophthalmic subspecialties is offered to physician trainees. Graduates qualify for the written and oral examinations leading to certification by the American Board of Ophthalmology. Postgraduate fellowships of one to two years are available for qualified ophthalmologists in most subspecialty areas.

Continuing Education

The department sponsors clinical conferences open to community ophthalmologists in Iowa and surrounding states where physicians can earn continuing medical education credits. The department also sponsors an annual alumni meeting with participation by nationally and internationally recognized ophthalmologists and vision scientists.

Facilities

The department maintains research laboratories for cell biology, biochemistry, morphology, tumor diagnosis, pathology, electrophysiology, pupillography, molecular biology, and vascular disease. Clinical facilities in ophthalmology are available at University of Iowa Hospitals and Clinics in the Pomerantz Family Pavilion and at the Iowa City Veterans Affairs Medical Center and the Veterans Affairs Central Iowa Health Care System in Des Moines. The department also manages an eye clinic at the Broadlawns Medical Center in Des Moines as well as outreach programs in other communities. The John and Marcia Carver Nonprofit Genetic Testing Laboratory, dedicated to providing affordable testing for rare eye diseases, is associated with the department.

Courses

- 067:100 (OPHT:8404) Elective in Ocular Pathology** 4 s.h.
Pathophysiology of eye disease; emphasis on use of Socratic method, self-study.
- 067:101 (OPHT:8401) Elective in External Eye Disease** 4 s.h.
Common diseases of eyelid, conjunctiva, cornea.
- 067:102 (OPHT:8402) Elective in Neuro-Ophthalmology** arr.
Visual, ocular motor dysfunction due to neurologic disease; patient work-up, readings, neuro-ophthalmology rounds.
- 067:109 (OPHT:8403) Molecular Ophthalmology** arr.
Use of recombinant DNA, tissue culture, protein electrophoresis in study of inherited eye diseases.
- 067:111 (OPHT:8301) Clinical Ophthalmology** 2,4 s.h.
All aspects of clinical ophthalmology; patient rounds, lectures, case presentations; clinical duties with staff, residents, faculty in UIHC and VAMC ophthalmology clinics. Requirements: M.D. enrollment.
- 067:998 (OPHT:8498) Ophthalmology on Campus** arr.
- 067:999 (OPHT:8499) Ophthalmology off Campus** arr.

The Department of Orthopaedics and Rehabilitation offers training for residents and provides education for undergraduate students.

Residency Programs

The department offers two programs for postgraduate trainees. The first is a five-year integrated clinical program, in which interns and residents participate simultaneously in inpatient and outpatient care, surgery, and sciences related to the neuromusculoskeletal system. The second provides the same training as the first, but includes an additional one to two years of research.

Clinical Residency

Trainees enter this program directly from medical school through the National Internship Matching Plan.

During the first year, trainees gain experience not only in clinical orthopaedics but also in medicine, pediatrics, surgical specialties, intensive care, anesthesiology, and other services.

During years two through five, residents gain experience in trauma, musculoskeletal oncology, children's orthopaedics, adult orthopaedics, neuromuscular disorders, rehabilitation, prosthetics and orthotics, rheumatology, and basic science related to orthopaedics. They take specialized courses in anatomy, bone histology, biochemistry, physiology, and pathology.

Weekly seminars cover biomechanics, kinesiology, and selected clinical subjects.

Residency with Research

In addition to the training described for the clinical program, this program includes an additional one to two years of research in a field that interests the resident and is related to the musculoskeletal system. The research may be done in one of the orthopaedic laboratories.

Undergraduate Education

At the undergraduate level, the Department of Orthopaedics and Rehabilitation participates in the Bachelor of Science in athletic training, which is offered by the Department of Health and Human Physiology (p. 319) (College of Liberal Arts and Sciences). Members of the orthopaedics and rehabilitation sports medicine faculty teach 076:187 (ORTH:4187) Practicum in Athletic Training IV, a two-semester advanced clinical sequence (8 s.h.). Students who complete the program are eligible to apply for national certification in athletic training and pursue employment opportunities as health care professionals for sports medicine clinics and hospitals, as well as in academic settings.

Laboratories

The orthopaedics laboratories deal with problems in these major subject areas.

Biochemistry: the biochemistry of proteoglycans, collagens, and matrix proteins, both normal and altered in musculoskeletal disorders

Biomechanics: problems of the upper extremity; biomechanics of the spine, hip, and gait; total joint replacements (in conjunction with the College of Engineering (p. 729))

Cell and molecular biology: studies of normal bone, cartilage, tendon, muscle, and tissues altered by experiment and disease

Bone healing: research toward better ways to heal bones

Facilities

The Department of Orthopaedics and Rehabilitation is housed in the John Pappajohn Pavilion of University of Iowa Hospitals and Clinics and has an active service in the Iowa City Veterans Affairs Medical Center. The department's facilities include 48 orthopaedic beds, five outpatient clinics, inpatient and outpatient operating rooms, a specialty library, a specialty radiology unit, and physical therapy and rehabilitation facilities. Its specialty clinics deal with disorders such as scoliosis, club feet, congenital dislocated hip, neuromuscular disease, metabolic disease, amputation, neoplasm, trauma, and neck, back, hip, foot, knee, and hand problems. Physicians in the outpatient clinic see approximately 175 patients per

day. Approximately 5,000 major operations are performed each year under the auspices of the department.

The department's Institute for Orthopaedics, Sports Medicine, and Rehabilitation is located on the University of Iowa's Hawkeye Campus. The institute provides MRI, X-ray, and physical therapy services.

The department also provides consulting service to the University's Center for Disabilities and Development and its Child Health Specialty Clinics and to two State of Iowa programs that serve people with mental retardation.

Courses

076:002 (ORTH:8301) Clinical Orthopaedics arr.

076:187 (ORTH:4187) Practicum in Athletic Training IV 4 s.h.

Clinical experience arranged through the athletic training program and the Department of Orthopaedic Surgery for athletic training majors; development of global proficiency in clinical skills. Requirements: athletic training major and grade of C or higher in 027:183 (ATEP:3040) and 027:186 (ATEP:3030).

076:201 (ORTH:8401) Advanced Clinical Orthopaedics arr.

Requirements: fourth-year M.D. enrollment.

076:202 (ORTH:8402) Musculoskeletal Trauma arr.

Requirements: fourth-year M.D. enrollment.

076:203 (ORTH:8403) Subinternship in Orthopaedics 4 s.h.

Opportunity to enhance clinical skills by taking intern-level responsibility for management of a limited number of orthopaedic patients; proficiency in perioperative patient assessment and management, including assisting in procedures and using laboratory diagnosis and radiologic studies pertinent to one faculty member's clinical practice.

076:204 (ORTH:8404) Introduction to Physical Medicine and Rehabilitation 2 s.h.

Management of a wide range of common acute and chronic neuro-musculoskeletal pain conditions (shoulder, back, knee pain) to more devastating neuromuscular injuries (spinal cord injuries, brain injury, strokes, amputations). Requirements: M.D. enrollment.

076:205 (ORTH:8405) Advanced Physical Medicine and Rehabilitation 4 s.h.

Management of a wide range of common acute and chronic neuro-musculoskeletal pain conditions (shoulder, back, or knee pain) to more devastating neuromuscular injuries (spinal cord injuries, brain injury, strokes, amputations); students work-up individual patients in outpatient clinics and perform inpatient consultations at subintern level. Requirements: M.D. enrollment.

076:998 (ORTH:8498) Orthopaedics on Campus arr.

Requirements: fourth-year M.D. enrollment.

076:999 (ORTH:8499) Orthopaedics off Campus arr.

Requirements: fourth-year M.D. enrollment.

Otolaryngology—Head and Neck Surgery

Head

Bruce J. Gantz

Professors

Paul J. Abbas, John Buatti, Keith D. Carter, Gerry F. Funk, Bruce J. Gantz, Scott M. Graham, Henry T. Hoffman, Michael P. Karnell, Richard J.H. Smith, Richard S. Tyler

Associate professors

Carolyn J. Brown, Kristi E. Chang, Gerry Funk, Marlan R. Hansen, José M. Manaligod, Douglas Van Daele

Assistant professors

Rodrigo Bayon, Eugene Chang, Eileen M. Finnegan, Jeremy D. Greenlee (Otolaryngology--Head and Neck Surgery/Neurosurgery), Doug Henstrom, Deb Kacmarynski, Erin K. O'Brien, Nitin A. Pagedar

Clinical assistant professors

Jeffrey Carithers, Thomas A. Ericson, Steven R. Herwig, Brenton Koch, Richard B. Merrick, Irving E. Peterson, Russell E. Schurtz, Mark K. Zlab

Adjunct clinical assistant professors

Matthew R. Brown, Robert T. Brown, Timothy Dettmer, Phillip C. Lee, Donald A. Maschka, Richard J. Rinehart

Web site: <http://www.uihealthcare.com/depts/med/otolaryngology/>

The Department of Otolaryngology—Head and Neck Surgery is one of the most comprehensive otolaryngology departments in the world. Founded in 1922, it is among the oldest in the United States. *U.S. News & World Report* has consistently ranked the department's program among the top three in the nation.

The department's chief focus areas are education and training, patient care, and research. M.D. students in the Carver College of Medicine, residents, and fellows benefit from a faculty dedicated to providing thorough training in all aspects of otolaryngology and patient care. Patients in the otolaryngology clinic enjoy access to comprehensive care in any of five subspecialties: pediatric otolaryngology, otology/neurotology, general otolaryngology and rhinology, head and neck oncology, and facial plastic and reconstructive surgery. University of Iowa faculty members from ophthalmology and radiation oncology hold joint appointments in otolaryngology, adding depth to the department's resources.

The department is home to prominent research programs in cleft palate and other craniofacial defects, head and neck oncology, cochlear implants, and molecular genetics. It also offers fellowships in otology/neurotology, pediatric otolaryngology, and head and neck oncology.

The department is located at University of Iowa Hospitals and Clinics.

Residency Program

The Department of Otolaryngology—Head and Neck Surgery offers a residency program accredited by the Accreditation Council for Graduate Medical Education. The program has two tracks: a four-year clinical track and a six-year research track. Five applicants are accepted each

year, three to the clinical track and two to the research track.

The clinical track provides four years of concentrated clinical study and application in all aspects of otolaryngology. Residents begin their training with a seven-week intensive basic science course divided into an anatomy component and a 160-hour lecture series. The anatomy component includes a supervised cadaver dissection, and the lecture series details the study of otolaryngology and related disciplines. Each resident also completes two research rotations in order to explore research areas that interest him or her.

The research track is a combined clinical-research program designed for residents interested in an otolaryngology research career. After an internship year, residents complete two years of research followed by four years of clinical training. The interaction of clinicians and basic scientists from several departments affords residents the opportunity for involvement in a wide spectrum of current research in areas such as electrophysiology of the auditory system, the genetics of head and neck cancer, and gene therapy.

Fellowships

The Department of Otolaryngology—Head and Neck Surgery offers two-year fellowships in otology/neurotology and in pediatric otolaryngology, which are accredited by the Accreditation Council for Graduate Medical Education, and a one- or two-year fellowship in head and neck oncology accredited by the Advanced Training Council of the American Head and Neck Society.

One applicant is admitted to the otology/neurotology fellowship program every two years. Otology fellows spend a minimum of 20 months on the clinical service. They attend all otology/neurotology clinics and neurotology cases in the operating room and are responsible for inpatient service. They also have one day of dedicated research time each week.

The pediatric otolaryngology fellowship program admits one applicant each year. Fellows spend a minimum of 18 months on the clinical service, where they have the opportunity to train with all pediatric otolaryngology faculty members. Each fellow also has six months of dedicated time for academic research.

One applicant is accepted as a head and neck oncology fellow each year. Training is largely clinical, allowing fellows the opportunity to participate in a variety of procedures, ranging from skull base resection to laryngeal rehabilitation. Fellows routinely perform 35 to 45 free-tissue transfers during one year of training. They also complete a clinical and/or basic science research project relating to head and neck oncology.

Courses

068:003 (OTO:8301) Clinical Otolaryngology 2 s.h.

068:100 (OTO:8401) Sub-Internship in Otolaryngology arr.

068:199 (OTO:8199) Basic Otolaryngologic Science arr.
Supervised cadaver head and neck dissection, with 14 areas in detail. Two weeks.

068:998 (OTO:8498) Otolaryngology on Campus

arr.

068:999 (OTO:8499) Otolaryngology off Campus

arr.

Arranged by student with department approval.

Pathology

Head

Barry De Young

Professors

Gary L. Baumbach, Jackie R. Bickenbach, Leslie A. Bruch, Barry De Young, Daniel Diekema, John Harty, Siegfried Janz, Chris Jensen, John D. Kemp, Patricia Kirby, Charles F. Lynch, Frank A. Mitros, Steven Moore, Marcus Nashelsky, Tom Raife, Robert A. Robinson, Nancy Rosenthal, Mary Stone, Lubomir P. Turek, Steven Vincent, Thomas Waldschmidt

Professors emeriti

Jo Ann Benda, Robert T. Cook, Fred Dee, Gary Doern, James A. Goeken, George F. Johnson, Michael Pfaller, Charles E. Platz, Ronald G. Strauss

Adjunct clinical professor

Oskar W. Rokhlin

Associate professors

Aaron Bossler, Laila Dahmouh, Morris O. Dailey, Hasem Habelhah, Thomas H. Haugen, Michael Henry, Jonathan Heusel, Carol Holman, Michael Icardi, Marina Ivanovic, Michael Knudson, Matthew Krasowski, Kevin Legge, Vincent Liu, David Meyerholz, Ramesh Nair, Dawn Quelle, Annette Schlueter, Stefan Strack, Nasreen Syed, Sergei Syrbu, Robert D. Tucker, Steve Varga

Adjunct clinical associate professors

Linda Fell, Julia C. Goodin

Assistant professors

Ryan Askeland, Vladimir Badovinac, Amani Bashir, Andrew Bellizzi, Adam Dupuy, Yasuko Erickson, Dennis Firchau, Katherine Gibson-Corley, Apollina Goel, Leana Guerin, Fiorenza Ianzini, Stacey Klutts, Degin Ma, Alicia Oliver, Megan Samuelson, Andrean Simons-Burnett, Brian Swick

Adjunct clinical assistant professors

Michelle Catellier, Timothy Drevankyo, Dennis Klein, Jeffrey Rissman, Jonathan Thompson, Jeremy Weydert

Clinical instructor

Judith Kittleson

Graduate degree: M.S. in pathology

Web site: <http://www.medicine.uiowa.edu/pathology/>

The Department of Pathology offers education and training for a broad range of students, from undergraduates through postgraduate fellows and researchers. It provides basic pathology courses to health sciences students; a clinical training program for clinical laboratory scientists; a Master of Science program in pathology; residency training programs leading to American Board of Pathology certification in anatomic pathology, clinical pathology, and neuropathology; fellowship training in pathology subspecialties; and postdoctoral research training in cellular and molecular pathology.

Undergraduate Education

Pathology courses are a major component of the University's Clinical Laboratory Sciences Program, a Bachelor of Science program that trains medical laboratory scientists; see Clinical Laboratory Sciences (p. 938) in the Catalog.

M.D. Student Training

The department provides seven 12-month fellowships for M.D. students: the Emory Warner Fellowship, a full-time research position in a facet of experimental pathology; and six pathology externships, for students interested in careers as pathologists. It also offers clerkships for M.D. students in all areas of anatomical and clinical pathology.

Residency Program

The department offers 20 residency positions in pathology, which provide up to four years of training. Patients at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center are integral to the residency programs.

Residents gain experience in systematic rotation through the varied laboratory services, including surgical pathology, autopsy pathology, neuropathology, cytology, clinical chemistry, clinical microbiology, hematology, immunopathology, molecular pathology, and transfusion medicine. They also have the opportunity to pursue one or two years of additional fellowship training in most pathology subspecialties. To learn more, visit the Department of Pathology web site.

Graduate Program

- Master of Science in pathology

Master of Science

The Master of Science program in pathology requires a minimum of 30 s.h. of graduate credit, including 21 s.h. of classroom work and 9 s.h. earned for research. The program trains graduate students in cell and molecular biology. Graduates work as research scientists in a range of academic and commercial laboratories, including those in the rapidly expanding biotechnology sector. Others advance to doctoral-level study.

M.S. students take a core curriculum in cell and molecular biology as well as electives suited to their individual interests. They acquire contemporary research skills by pursuing a laboratory thesis project under the guidance of a faculty member. Currently, there are active research programs in immunology, microbiology, neuroscience, signaling and apoptosis, inflammation and vascular biology, tumor biology and cancer, and virology.

Most M.S. students complete their course of study in three years.

The department encourages applicants who have earned a Bachelor of Science with a major in biology, chemistry, biochemistry, clinical laboratory science, microbiology, or zoology. Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They should have an undergraduate g.p.a. of at least 3.00 and a combined verbal and quantitative score of at least 1100 on the Graduate Record Exam (GRE) General test.

For more information about graduate study, contact the Department of Pathology.

Postgraduate Training

The Department of Pathology offers postgraduate clinical fellowship programs in hematopathology, transfusion medicine, clinical microbiology, cytopathology, molecular genetics pathology, and surgical pathology for physicians who have completed residency training in pathology. These fellowships consist of one to two years of diagnostic work and up to two years of laboratory research.

The department provides postdoctoral research training in immunology, neuropathology, apoptosis, cancer biology, and clinical microbiology as well as in other areas of cellular and molecular pathology. These positions are open to individuals who have earned a Ph.D. or an M.D.

Facilities

The Department of Pathology is well-equipped to carry out the sophisticated technology of modern cellular and molecular pathology. It administers more than 90,000 square feet of clinical laboratories at University of Iowa Hospitals and Clinics and has individual research and core facility laboratories, including histopathology and laser capture microscopy for cellular and molecular pathology research, in the Medical Research Center, Medical Laboratories, and at the Iowa City Veterans Affairs Medical Center. Also available are Carver College of Medicine research facilities for nucleic acid chemistry, hybridoma production, flow cytometry, ultrastructural studies, protein structure, image analysis, electron spin resonance, mass spectroscopy, nuclear magnetic resonance, and laboratory animal care.

Courses

069:130 (PATH:7207) Clinical Laboratory Medicine for Physician Assistants 0-1 s.h.

Theory and practice of selected clinical laboratory techniques and procedures; emphasis on effective use of clinical laboratory in diagnosis and management of disease. Requirements: Physician Assistant Program enrollment.

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students 4 s.h.

Human disease; basic disease processes, organ-related and multisystem diseases; case analysis. Offered fall semesters. Same as 069:153 (PATH:5133).

069:150 (PATH:4150) Clinical Laboratory Skills 0,6 s.h.

Summer clinical laboratory science instruction in Iowa City. Requirements: acceptance to Clinical Laboratory Science Program.

069:152 (PATH:4152) CLS Theory, Application, and Correlation 0,5 s.h.

Theory, application, and correlation of clinical laboratory science. Prerequisites: 069:150 (PATH:4150).

069:153 (PATH:5133) Introduction to Human Pathology for Graduate Students 4 s.h.

Human disease; basic disease processes, organ-related and multisystem diseases; case analysis. Offered fall semesters. Same as 069:133 (PATH:8133).

069:154 (PATH:4154) Clinical Chemistry I 0,4 s.h.

Theory, practical application, technical performance, and evaluation of clinical chemistry laboratory procedures; correlation of laboratory data with diagnosis of disease. Prerequisites: 069:150 (PATH:4150).

069:155 (PATH:4155) Clinical Chemistry II 0,3 s.h.

Advanced theory, practical application, technical performance, and evaluation of clinical chemistry laboratory procedures; correlation of laboratory data with diagnosis of disease. Prerequisites: 069:154 (PATH:4154).

069:156 (PATH:4156) Clinical Hematology I 0,4 s.h.

Introduction to theory, practical application, technical performance, and evaluation of hematological and hemostasis procedures; correlation of laboratory data with disease diagnosis. Prerequisites: 069:150 (PATH:4150).

069:157 (PATH:4157) Clinical Hematology II 0,3 s.h.

Advanced theory, practical application, technical performance, and evaluation of hematological and hemostasis procedures; correlation of laboratory data with disease diagnosis. Prerequisites: 069:156 (PATH:4156).

069:158 (PATH:4158) Clinical Microbiology I 0,4 s.h.

Introduction to theory, practical application, technical performance, and evaluation of procedures for isolation, identification, and susceptibility testing of infectious disease organisms in humans. Prerequisites: 069:150 (PATH:4150).

069:159 (PATH:4159) Clinical Microbiology II 0,3 s.h.

Advanced theory, practical application, technical performance, and evaluation of procedures for isolation, identification, and susceptibility testing of infectious disease organisms in humans. Prerequisites: 069:158 (PATH:4158).

069:160 (PATH:4160) Clinical Immunology and Molecular Diagnostics 0-1 s.h.

Theory, application, and evaluation of immunological components, principles, and methodologies used to assess immune dysfunction; theory and application of molecular diagnostic tools. Prerequisites: 069:150 (PATH:4150).

069:162 (PATH:4162) Clinical Immunohematology I 0,3 s.h.

Introduction to theory, practical application, technical performance, and evaluation of blood bank procedures required for storage and transfusion of blood and blood components. Prerequisites: 069:150 (PATH:4150).

069:163 (PATH:4163) Clinical Immunohematology II 0,2 s.h.

Clinical immunohematology for laboratory science. Prerequisites: 069:162 (PATH:4162).

069:164 (PATH:4164) Phlebotomy for Clinical Laboratory Science 0-1 s.h.

Theory, practical application, technical performance, and evaluation of procedures used in collecting, handling, and processing blood specimens. Prerequisites: 069:150 (PATH:4150).

069:166 (PATH:4166) Urine and Body Fluid Analysis 0-1 s.h.

Theory, practical application, technical performance, and evaluation of procedures used in analyzing urine and other body fluids, including cerebrospinal, synovial, serous, and amniotic fluids. Prerequisites: 069:150 (PATH:4150).

- 069:170 (PATH:4170) Clinical Laboratory Management I** 0,2 s.h.
Theory, practical application, technical performance, and evaluation of laboratory management principles and associated models; critical thinking, problem solving, leadership skills. Prerequisites: 069:150 (PATH:4150).
- 069:171 (PATH:4171) Clinical Laboratory Management II** 0,3 s.h.
Advanced theory, application, technical performance, and evaluation of laboratory management principles and associated models; critical thinking, problem solving, leadership skills. Prerequisites: 069:170 (PATH:4170).
- 069:172 (PATH:4172) Clinical Endocrinology and Toxicology I** 0-1 s.h.
Introduction to theory, practical application, and evaluation of clinical chemistry laboratory procedures; emphasis on correlation of clinical laboratory data with diagnosis and treatment of endocrine disorders, toxicology disturbances, and therapeutic drug monitoring.
- 069:205 (PATH:8204) Medical Pathology I** 5 s.h.
Mechanisms of disease, etiology, pathogenesis, epidemiology, major clinical manifestations of disease in organ systems. Requirements: M.D. enrollment or graduate standing.
- 069:206 (PATH:8214) Medical Pathology II** 5 s.h.
Mechanisms of disease, etiology, pathogenesis, epidemiology, major clinical manifestations of disease in organ systems. Requirements: 069:205 (PATH:8204) and M.D. enrollment, or graduate standing.
- 069:211 (PATH:7211) Research in Pathology** arr.
Basic aspects of pathology or clinical patient material; emphasis on experimental design, methods, literature review, obtaining formal answers to specific questions. Requirements: M.D. enrollment or graduate standing.
- 069:220 (PATH:6220) Seminar in Pathology** 1 s.h.
Current research and literature. Requirements: pathology graduate standing.
- 069:240 (PATH:8301) Laboratory Medicine in Clinical Practice** arr.
Issues in appropriate use of clinical laboratory and pathology resources in the primary care setting; case-based approach. Requirements: third- or fourth-year M.D. enrollment.
- 069:241 (PATH:8401) Autopsy Pathology Clerkship** arr.
- 069:245 (PATH:8402) Hematopathology Clerkship** arr.
- 069:246 (PATH:8403) Surgical Pathology Clerkship** arr.
- 069:247 (PATH:8404) Blood Bank Clerkship** arr.
- 069:260 (PATH:5260) Translational Histopathology** 3 s.h.
Didactic sessions on human comparative histology, molecular and cellular pathology, and animal model applications; laboratory sessions on microscopy, histology, histotechnology, and immunohistochemistry, with group discussions of model papers; experience in scientific writing and oral presentation skills; for students who plan to investigate experimental models of human disease. Prerequisites: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203).
- 069:270 (PATH:5270) Pathogenesis of Major Human Diseases** 3 s.h.
Critical analysis of pathogenesis models in a series of major human diseases; clinical presentation, analysis of cellular and molecular events leading to the disease, discussion of key papers. Prerequisites: 156:201 (BISC:5201), 156:202 (BISC:5202), and 156:203 (BISC:5203).
- 069:272 (PATH:6720) Translational Research in Cancer** 2 s.h.
Basic tumor biology and lab-based methods applied to development of translational approaches to prevention, early diagnosis, and treatment of human cancers. Offered fall semesters of even years. Same as 173:272 (EPID:6720).
- 069:288 (PATH:7001) Molecular and Cellular Biology of Cancer** 3 s.h.
Fundamental aspects of oncology at the cellular and molecular levels; mechanisms of cancer initiation and progression, oncogene action, DNA damage and repair, carcinogenesis by radiation, chemicals, viruses; tumor immunology, anticancer therapies. Offered spring semesters of odd years. Requirements: strong basic science background. Same as 077:288 (FRRB:7001).
- 069:290 (PATH:8007) Medical Student Fellowships in Pathology (Externships)** 0 s.h.
First-hand experience in autopsy, surgical and clinical pathology, teaching, and research to further understanding of disease mechanisms, normal and pathologic anatomy, laboratory use.
- 069:291 (PATH:8008) Warner Fellowship in Experimental Pathology** 0 s.h.
One-year, full-time membership in established research laboratory in the Department of Pathology or collaborating laboratory. Requirements: M.D. enrollment.
- 069:998 (PATH:8498) Pathology on Campus** arr.
- 069:999 (PATH:8499) Pathology off Campus** arr.

Pediatrics

Head

Raphael Hirsch

Professors

Richard C. Ahrens, Dianne L. Atkins, Edward F. Bell, Warren Bishop, Daniel Bonthius, Trudy Burns (Nursing/Epidemiology), Donna D'Alessandro, Josephine Gittler (Law), Charles Grose, Dennis C. Harper (Education), Raphael Hirsch, David Johnsen (Dentistry), Scott D. Lindgren, Larry T. Mahoney, Katherine Mathews, Ann Marie McCarthy (Nursing), Paul McCray, Frank H. Morriss Jr., Jeffrey C. Murray, Peg Nopoulos (Psychiatry), M. Sue O'Dorisio, Stanley Perlman (Microbiology), Jean Robillard, Thomas D. Scholz, Jeffrey Segar, Val C. Sheffield, Richard Smith (Otolaryngology), Eva Tsalikian, Don C. Van Dyke, David P. Wacker, Miles M. Weinberger, John A. Widness, Ekhard E. Ziegler

Professors emeriti

Adel K. Afifi, William E. Bell, Brenda Cruikshank, Claibourne Dungy, Lois B. Dusdieker, James Hardy, Alfred Healy, Herman Hein, C. Thomas Kisker, Vera Loening-Baucke, Shivanand R. Patil, Charles H. Read, Charles Rebouche, Lynn C. Richman, James A. Stehbins, Raymond Tannous, Robert Weir, Douglas Weismann

Clinical professors

Rami Boutros, R. Erik Edens, Lenore Holte (Communication Sciences and Disorders), Ian Law, Ellen Link, Resmiye Oral, Vickie Pyevich, Mary Ann Roberts, Michael Tansey

Adjunct clinical professors

Ken Cheyne, Stephen Stephenson

Associate professors

Alexander Bassuk, Patrick Brophy, Christopher Cooper (Urology), John Dagle, Arlene Drack (Ophthalmology and Visual Sciences), Polly Ferguson, Jonathan M. Klein, Andrew Lidral (Orthodontics), Jose Morcuende (Orthopaedics and Rehabilitation), Jessica Moreland, Jody R. Murph, Andrew Norris, Robert Roghair, Joel Shilyansky (Surgery), Timothy Starner, Raymond Tannous, Aliye Uc, Thomas Wassink (Psychiatry), Jerold C. Woodhead

Adjunct associate professors

Bahri Karacay, Brian Schutte

Clinical associate professors

Dale Bieber (Internal Medicine), Lori Christensen, Linda Cooper-Brown, James Davis (Cardiothoracic Surgery), Abhay Divekar, Dawn Ebach, Patricia Espe-Pfeifer (Psychiatry), Mary Beth Fasano (Internal Medicine), Charles Jennissen (Emergency Medicine), Charuta Joshi, Mary Larew, Deborah Lin-Dyken, Dianne McBrien, Royann Mraz, Richard Olson (Ophthalmology and Visual Sciences), George Phillips, Graeme Pitcher (Surgery), Riad Rahhal, Benjamin Reinking, Jeffrey Smith, Shannon Sullivan, Pamela Trapane, Gretchen Vigil, Debra Waldron

Adjunct clinical associate professors

Vidya Chande, Jorge Di Paola, Stephen C. Elliott, Keevin Franzen, Gregory Garvin, Adel F. Makar, Rizwan Shah, Peter D. Wallace, Mir Waziri, Veljko Zivkovich

Assistant professors

Heather Bartlett, Chadi Calarge (Psychiatry), Tarah Colaizy, Benjamin Darbro, Sarah Haskell, Susannah Longmuir (Ophthalmology and Visual Sciences), John Manak (Biology), Steven McElroy, David Motto (Internal Medicine), Carla Nester, Andrew Norris, Christoph Randak,

Oleg Shchelochkov, Steven Stasheff, Joseph Turek (Cardiothoracic Surgery), A. Paige Volk

Clinical assistant professors

Rolla Abu-Arja, Ghada Abusin, Sunny Arikat, Nancy Beyer (Psychiatry), Christopher Blosser (Internal Medicine), Nancy Bonthius, D. Keala Clark, Bradley Coots (Surgery), Vanessa Curtis, Ayman El-Sheikh, Gwen Erkonen, Eyad Hanna, Sandy Hong, Jennifer Jetton, Deborah Kacmarynski (Otolaryngology--Head and Neck Surgery), Sameer Kamath, Kathleen Kieran (Psychiatry), Jean Kim, Julie Lindower, Jennifer McWilliams (Psychiatry), Dayna Miller, Anita Moonjely, Benton Ng, Ram Niwas, Katie Larson Ode, Marguerite Oetting, Liuska Pesce, Andrew Peterson, Patricia Quigley, Glenda Rabe, Andrea Reasoner, Benjamin Reinking, Alvaro Serrano Russi, Amy Stier, Nicholas Von Bergen, Kelly Wood, Diana Zepeda-Orozco

Adjunct clinical assistant professors

Mary Ann Abrams, Nader R. Ajluni, Samir Alabsi, Baha Al-Shawwa, Naser Al-Zein, Kenneth W. Anderson, Julie Anderson-Suddarth, Scott Barron, David Basel, Thomas E. Becker, Edward Bottei, Allison Brown, Holly Bzdega, Basaviah Chandramouli, Jennifer S. Cook, Steven Dawson, Ronda Dennis-Smithart, Rhonda Dodge, Eric Dodson, Dan Ellsbury, Ricardo Flores, Jennifer Groos, Stanley A. Hackbarth, Susan M. Harrell, Eric Haugen, James A. Hendrix, Jay Hinkhouse, Norma J. Hirsch, Steven Joyce, Haidar Kabbani, Jason Kessler, David L. Little, Asha Madia, Donald R. McCabe, Lisa J. Menzies, Debra K. Miller, Whitney Molis, Duangchai Narawong, Edward G. Nassif, Scott K. Nau, Kathleen Opdebeeck, Linda Ozaki, Richard Robus, Mariastella Serrano, Jaffar Shaik, Scott Sheets, Tameen Shoukih, Daniel Sloven, Cheryl Standing, Julianne H. Thomas, David Thornston, Rajeev Vibhakar, Judy Walker, Christopher Youngman

Research assistant professors

Martine Dunnwald, Patrick Sinn

Adjunct instructor

Robin Paetzold-Durumeric

Associates

Rebecca Benson, Jane Brumbaugh, Kristin Buroker-Marsh, Natalie Kamberos, Elizabeth Newell, Sonali Patel, Janice Staber

Fellow associates

Jessie Marks, Nicole Schick

Web site: <http://www.uihealthcare.com/depts/med/pediatrics/>

The Department of Pediatrics provides a solid foundation for M.D. students and postgraduate trainees. It offers extensive opportunities for general pediatrics and subspecialties.

Affiliated programs add depth to the educational program in community pediatrics and primary care. The department is affiliated with the child and material health programs of the Bureau of Family Health, Iowa Department of Public Health; the University of Iowa regional Child Health Specialty Clinics and the Center for Disabilities and Development; Blank Children's Hospital in Des Moines; and community sites.

M.D. Student Training

Didactic lectures and physical examination of newborns, toddlers, and older children provide M.D. students with their initial pediatric patient contact. This experience

includes taking a history, performing a physical examination, appraisal of growth and development, nutrition, and symptomatology of newborns, toddlers, and adolescents.

For junior and senior medical students, the inpatient service provides training in the complex problems of disease and critical illness. Students participate in daily rounds involving general pediatrics and all subspecialties. Challenging and interesting cases are presented for discussion of diagnosis and treatment.

Outpatient experience, available in the junior clerkship and fourth-year electives, stresses principles and practices required for the maintenance of children's health, treatment of common general pediatric disorders, and the diagnosis and treatment of subspecialty ambulatory patients.

Residency Program, Fellowships

The department offers an accredited three-year residency program designed to prepare trainees for professional careers in general pediatrics or for further fellowship training. The program meets the eligibility requirements of the American Board of Pediatrics (ABP).

Fellowships are available in many pediatrics subspecialties. Fellowship programs encourage development of knowledge and skill through research and clinical orientations in the chosen discipline. Upon satisfactory completion of the program, fellows meet the ABP eligibility requirements in their subspecialty.

Facilities

The Department of Pediatrics is located in the University of Iowa Children's Hospital at University of Iowa Hospitals and Clinics. Inpatient and outpatient areas are adjacent to faculty offices.

The pediatric inpatient service has approximately 120 beds, and more than 50,000 patients are seen each year in the general, specialty, continuity care, and field clinics and in the Emergency Department. The Center for Disabilities and Development provides resources for children with developmental disabilities, cerebral palsy, or mental retardation.

The department maintains laboratories that perform both clinical and research studies.

Courses

070:002 (PEDS:8301) Clinical Pediatrics 6 s.h.

Principles, practices of health maintenance and treatment of acute and chronic illnesses in children; emphasis on diagnosis and evaluation, nutrition, behavior problems, disorders affecting children; patient care, daily rounds, ward work. Requirements: third-year M.D. enrollment.

070:013 (PEDS:8402) Subinternship in Pediatrics: Blank Children's Hospital, Des Moines arr.

Experience in the care of general pediatric inpatients; daily rounds and teaching by senior residents and faculty members; daily didactic conferences. Requirements: fourth-year M.D. enrollment.

070:014 (PEDS:8405) Emergency Room Blank Children's Hospital, Des Moines arr.

Pediatric emergencies and urgent care, proficiency in pediatric medicine procedures; expansion of basic knowledge. Requirements: fourth-year M.D. enrollment.

070:015 (PEDS:8416) Neonatal Intensive Care Unit, Blank Children's Hospital 4 s.h.

Experience equivalent to intern on neonatal intensive care unit teaching service at Blank Children's Hospital, Des Moines; four-week rotation.

070:016 (PEDS:8409) Pediatric Hematology/Oncology arr.

Basic concepts of clinical approach to hematologic and oncologic problems in children and adolescents; primarily outpatient experience. Requirements: fourth-year M.D. enrollment.

070:017 (PEDS:8410) Pediatric Neurology arr.

Participation in outpatient and inpatient activities, teaching, morning ward rounds. Requirements: fourth-year M.D. enrollment.

070:019 (PEDS:8407) Pediatric Cardiology arr.

Participation in clinical activities; observation of cardiac catheterization; experience in cardiac auscultation, ECG, radiography; emphasis on physical diagnosis, approach to heart disease and murmurs in children. Requirements: fourth-year M.D. enrollment.

070:023 (PEDS:8412) Developmental and Behavioral Pediatrics 2,4 s.h.

Normal developmental sequence of gestation and early childhood, impact of environmental influences; antecedents of developmental disabilities; methods to detect cognitive and motor delays in preschool children; long-term consequences of developmental disabilities for children, their families; advantages of interdisciplinary teamwork. Requirements: fourth-year M.D. enrollment.

070:025 (PEDS:8411) Child Abuse and Neglect 2,4 s.h.

Hospital- and community-based multidisciplinary responses to child abuse and neglect; experience developing diagnostic skills to recognize, assess, and report cases of child abuse and neglect. Requirements: fourth-year M.D. enrollment.

070:027 (PEDS:8403) Neonatology (NICU) arr.

Experience caring for ill neonates, proficiency in using diagnostic tests and procedures; responsibility for care of several infants; reference and literature review, conferences, teaching, clinical rounds. Requirements: fourth-year M.D. enrollment.

070:028 (PEDS:8401) Pediatric Inpatient Care Subinternship arr.

Experience on pediatric inpatient team caring for patients ranging from infants through adolescents; evaluation, formulation of differential diagnoses, diagnostic workups, appropriate therapy programs. Requirements: fourth-year M.D. enrollment.

070:029 (PEDS:8404) Critical Care (PICU) 4 s.h.

Direct care of critically ill children in a multidisciplinary medical/surgical/cardiac intensive care unit, under supervision of pediatric residents and staff; participation in educational activities and formal clinical rounds. Requirements: fourth-year M.D. enrollment.

070:030 (PEDS:8415) Medical Genetics for the Senior Student arr.

Participation in diagnostic, therapeutic problems; techniques for evaluation, appropriate counseling in genetic cases; conferences. Requirements: fourth-year M.D. enrollment.

070:031 (PEDS:8431) Pediatric Nephrology 2,4 s.h.

Introduction to general pediatric nephrology cases and management. Requirements: M.D. enrollment.

070:033 (PEDS:8408) Pediatric Gastroenterology arr.

Diagnosis, management, treatment of diseases of gastrointestinal tract, liver, pancreas in children; ward rounds, consultations, clinics, diagnostic procedures, conferences. Requirements: fourth-year M.D. enrollment.

070:043 (PEDS:8406) Pediatric Allergy arr.

Experience in evaluating and treating respiratory and allergic diseases in infants, children, and adolescents. Requirements: fourth-year M.D. enrollment.

070:055 (PEDS:8413) General Pediatric Outpatient Clinic 4 s.h.

Work in general pediatric outpatient clinics with acutely or chronically ill patients and with well children. Requirements: fourth-year M.D. enrollment.

070:060 (PEDS:8450) Continuity of Care in Outpatient General Pediatrics 4 s.h.

Work with experienced general pediatrician in a longitudinal clinical experience for the academic year; paired with faculty pediatrician to see patients in a weekly clinic, provide clinical care to a defined patient population; growth and development, health supervision, and management of common acute and chronic clinical problems. Requirements: fourth-year M.D. enrollment.

070:110 (PEDS:8104) Medical Genetics 2 s.h.

Gene structure and function, basic genetics concepts, application to problems in human disease. Offered fall semesters. Requirements: M.D. enrollment or graduate standing in related health field.

070:201 (PEDS:6101) Primary Care: Infants, Children, and Adolescents II 3 s.h.

Enhancement of clinical knowledge and skills for infant, child, adolescent care; development and refinement of knowledge and skills in primary health care delivery. Requirements: for 096:220 (NURS:6101) — 096:219 (NURS:6100) or 096:280 (NURS:6200); for 070:201 (PEDS:6101) — 096:219 (NURS:6100) and 096:280 (NURS:6200). Same as 096:220 (NURS:6101).

070:245 (PEDS:7245) Evaluation of Children with ADHD and LD arr.

Clinical experience in conducting pediatric neuropsychology examinations in the Pediatric Attention/Learning Disorders Clinic. Requirements: course on psychological testing (including IQ) and graduate psychology standing (school, counseling, rehabilitation, clinical). Same as 07P:207 (PSQF:7245).

070:251 (PEDS:7251) Clinical Pediatric Neuropsychology arr.

Learning and behavior disorders resulting from central nervous system dysfunction; clinical experience in assessment of cognitive, behavioral patterns.

070:252 (PEDS:7252) Assessment of Attention Deficit Disorder 3 s.h.

Participation in clinical, research, didactic work in evaluating children with attention deficit disorder. Requirements: experience in intellectual assessment of children.

070:253 (PEDS:7253) Assessment of Behavior Disorders arr.

Experience in diagnostic and behavioral assessments of children with conduct disorders.

070:255 (PEDS:7255) Autism Spectrum Disorders 2 s.h.

Overview of autism spectrum disorders (ASDs), including autistic disorder, Asperger's disorder, other pervasive developmental disorders; ASD diagnoses and their etiology; tools used in assessing individuals with ASDs; common interventions for ASDs; resources for work with individuals who have ASDs.

070:256 (PEDS:7256) Pediatric Psychology Inpatient Practicum 1-3 s.h.

Knowledge and practical skills in implementing psychological practice with hospitalized pediatric patients; referrals include challenging behaviors (e.g., treatment adherence, disruptive behaviors), neuropsychological assessment (e.g., child with seizure disorder, child with TBI), and social-emotional evaluation; how to consult with medical teams and work with families with children who have acute and chronic health conditions, including asthma, diabetes, cancer, brain tumors, burns, head injury. Requirements: enrollment in an applied doctoral program in a psychological field. Recommendations: completion of a practicum in an outpatient Pediatric Psychology Clinic.

070:258 (PEDS:7258) Seminar in Pediatric Psychology 2 s.h.

Basic introduction to the field of pediatric psychology; professional issues in pediatric psychology; consultation and professional relations with physicians; psychological services in pediatric psychology; specialized populations, such as childhood chronic illness, children's hospitalization and surgery. Requirements: enrollment in an applied doctoral program in a psychological field.

070:260 (PEDS:7260) Neurobehavioral Assessment and Intervention 1-3 s.h.

Experience evaluating the interaction between a child's neurocognitive profile and their behavior at school and home; interviews with parents/children, assessments to assist in identifying cognitive and learning disorders, behavior analyses to identify interventions; follow-up with families and school teams.

070:261 (PEDS:7261) Autism Assessment and Behavioral Intervention 1-3 s.h.

Experience evaluating children suspected of having an autism spectrum disorder; behavioral assessments/interventions with children who have been diagnosed with an autism spectrum disorder and who display challenging behaviors in home and/or school; interviews with parents, assessments to assist in the diagnosis of autism spectrum disorders, behavioral assessments/interventions; follow-up with families and school teams.

070:262 (PEDS:7262) Biobehavioral Assessment and Intervention 1-3 s.h.

Experience conducting brief functional assessments and behavioral treatments for children and adults with developmental disabilities; interviews with caregivers, behavioral assessments, matched treatments (e.g., functional communication training); follow-up with caregivers.

070:263 (PEDS:7263) Evaluation and Treatment of Pediatric Feeding Disorders 1-3 s.h.

Experience evaluating children with varied feeding disorders, such as food overselectivity by texture or type, dependence on gastrostomy or nasogastrostomy tubes, failure to grow adequately due to inadequate caloric intake; methods to evaluate feeding behaviors, evaluate design interventions, and measure outcomes; caregiver training and follow-up.

070:264 (PEDS:7264) Clinical Applications of Applied Behavior Analysis 1-3 s.h.

Experience behavioral observations, consultation, and/or conducting behavioral assessments (including preference assessments and functional analyses), matched treatments; interviews with care providers, collect behavioral data, conduct behavioral assessments, matched treatments; follow-up with care providers.

070:265 (PEDS:7265) Research in Applied Behavior Analysis 1-3 s.h.

Experience developing and conducting research in applied behavior analysis; conduct behavioral observations, behavioral assessments, matched treatments; weekly readings and lab meetings; participate in research sessions as data collector or therapist.

070:300 (PEDS:7300) Pediatric Independent Study arr.**070:333 (PEDS:8495) Pediatric Intensive Care off Campus** arr.

Arranged by student and department. Requirements: fourth-year M.D. enrollment.

070:653 (PEDS:8430) Adult and Pediatric Nephrology and Hypertension arr.

Requirements: for 070:653 (PEDS:8430) — fourth-year M.D. enrollment. Same as 078:653 (IM:8430).

070:662 (PEDS:8432) Medical and Pediatric Endocrinology arr.

Requirements: for 070:662 (PEDS:8432) — fourth-year M.D. enrollment. Same as 078:662 (IM:8432).

070:998 (PEDS:8498) Pediatrics on Campus arr.

Requirements: fourth-year M.D. enrollment.

070:999 (PEDS:8499) Pediatrics off Campus arr.

Requirements: fourth-year M.D. enrollment.

Pharmacology

Head

Curt D. Sigmund

Professors

Mario Ascoli, Timothy Brennan, Frank Faraci, Rory Fisher, Donna L. Hammond, Donald Heistad, Raymond Hohl, A. Kim Johnson, Curt D. Sigmund, Stefan Strack

Professors emeriti

Jeffrey Baron, Ranbir Bhatnagar, Gary R. Dutton, Gerald F. Gebhart, Ulla Kopp, Herbert K. Proudfit, Thomas Shires, Thomas Tephly, Harold Williamson

Associate professors

Christopher Benson, Minnetta Gardinier, Barry Kasson, John Koland, Anne Kwitek, Kathryn G. Lamping, Dawn E. Quelle, Frederick W. Quelle, Kamal Rahmouni, Yuriy Usachev

Assistant professors

Songhai Chen, Justin Grobe, D.P. Mohapatra, Matthew Potthoff, Qi Wu

Graduate degrees: M.S.in pharmacology; Ph.D. in pharmacology

Web site: <http://www.medicine.uiowa.edu/pharmacology>

The Department of Pharmacology provides professional training for health science students and participates with other departments in educational and research activities such as the Medical Scientist Training (p. 961) Program, the Physician Scientist Training Pathway, the Molecular and Cellular Biology (p. 855) Program, the Neuroscience (p. 858) Program, the Holden Comprehensive Cancer Center, the Iowa Cardiovascular Center, and the Fraternal Order of Eagles Diabetes Research Center.

The department was a pioneer in offering pharmacology to undergraduate students with little or no science background. Lectures in 071:120 (PCOL:1120) Drugs: Their Nature, Action, and Use emphasize the mechanisms of drug action and give students a background for rational decisions concerning use of drugs.

Pre- and postdoctoral students pursue research training in all areas of pharmacology in the department in preparation for career opportunities in academia, government, and industry.

Graduate Programs

- Master of Science in pharmacology
- Doctor of Philosophy in pharmacology

Department of Pharmacology graduate study includes both didactic and research experience. Qualified students may pursue the joint M.D./Ph.D. in the University's Medical Scientist Training Program.

Master of Science

The Master of Science program in pharmacology requires a minimum of 30 s.h. of graduate credit. Core course requirements are as follows.

071:135 (PCOL:5135) Principles of Pharmacology	1 s.h.
071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics	1 s.h.
071:137 (PCOL:5137) Neurotransmitters	1 s.h.

071:203 (PCOL:6090) Graduate Research in Pharmacology	arr.
071:204 (PCOL:6080) Pharmacology Seminar	1 s.h.
071:302 (PCOL:6203) Pharmacology for Graduate Students	6 s.h.
072:153 (MPB:5153) Graduate Physiology	4 s.h.
099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research	1 s.h.

Students are expected to gain maximum experience in laboratory research while completing their course work. Satisfactory preparation and oral defense of a thesis based on the student's own research are required for completion of the program.

Doctor of Philosophy

The Doctor of Philosophy program in pharmacology requires a minimum of 72 s.h. of graduate credit. Core course requirements are as follows.

071:135 (PCOL:5135) Principles of Pharmacology	1 s.h.
071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics	1 s.h.
071:137 (PCOL:5137) Neurotransmitters	1 s.h.
071:138 (PCOL:5138) Ion Channels	1 s.h.
071:203 (PCOL:6090) Graduate Research in Pharmacology	arr.
071:204 (PCOL:6080) Pharmacology Seminar	1 s.h.
071:208 (PCOL:6208) G Proteins and G Protein-Coupled Receptors	1 s.h.
071:209 (PCOL:6209) Steroid Receptor Signaling	1 s.h.
071:250 (PCOL:6250) Advanced Problem Solving in Pharmacological Sciences	1 s.h.
071:302 (PCOL:6203) Pharmacology for Graduate Students	6 s.h.
072:153 (MPB:5153) Graduate Physiology	4 s.h.
099:243 (BIOC:5243) Biophysical Chemistry Module 1: Protein Structure, Stability, and Dynamics	1 s.h.
142:225 (MCB:6225) Growth Factor Receptor Signaling	1 s.h.
156:201 (BISC:5201) Fundamentals of Gene Expression	1 s.h.
156:203 (BISC:5203) Fundamentals of Dynamic Cell Processes	1 s.h.
156:204 (BISC:5204) Biostatistics for Biomedical Research	1 s.h.

Individual faculty research advisors may require additional courses.

During the first semester in the program, students are required to work in two different faculty laboratories before selecting a laboratory in which to pursue thesis research. Students then are expected to gain maximum laboratory research experience while completing course work. The Ph.D. comprehensive examination (written and oral) is given at the end of the fourth semester. Satisfactory preparation and oral defense of the thesis complete the program.

There is no departmental foreign language requirement.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and

Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They should have a g.p.a. of at least 3.00 and a combined verbal and quantitative score of at least 312 on the Graduate Record Examination (GRE) General Test. They should have completed undergraduate courses in chemistry, biology, biochemistry, and mathematics.

Admission to the graduate programs is determined by the faculty after receipt of a completed formal application and interview (if appropriate) by faculty members or other designated individuals. Each application is reviewed individually. Some standard admission criteria may be set aside for applicants who possess outstanding credentials in other areas.

Financial Support

The department provides all Ph.D. students and some M.S. students with financial support in the form of stipends and tuition support. Support is renewed annually based on satisfactory progress toward meeting degree requirements.

Courses

- 071:105 (PCOL:8203) Pharmacology for Health Sciences: Medical** 5 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 050:240 (MED:8112) and 099:163 (BIOC:8103). Requirements: M.D. enrollment.
- 071:111 (PCOL:8240) Basic Pharmacology for Dental Students** 3 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered spring semesters. Prerequisites: 072:152 (MPB:8115) and 099:161 (BIOC:8101). Requirements: D.D.S. enrollment.
- 071:115 (PCOL:6204) Pharmacology for Health Sciences: Nurse Anesthetist** 5 s.h.
Principles of pharmacology; pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 060:270 (ACB:6000) or 096:270 (NURS:6000). Requirements: enrollment in Anesthesia Nursing Program.
- 071:120 (PCOL:1120) Drugs: Their Nature, Action, and Use** 2 s.h.
Principles of drug action, toxicity; sedatives, stimulants, hallucinogens, narcotics, over-the-counter agents, antibiotics, oral contraceptives. Offered spring semesters. Recommendations: closed to Pharm.D. students.
- 071:125 (PCOL:8225) Pharmacology for Health Sciences: Physician Assistant Students** 6 s.h.
Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 072:164 (MPB:8208) and 099:164 (BIOC:8204). Requirements: Physician Assistant Program enrollment.
- 071:130 (PCOL:4130) Drug Mechanisms and Actions** 3 s.h.
Introduction to principles of pharmacology, pharmacologic actions of drugs. Offered spring semesters. Requirements: undergraduate biochemistry and physiology courses.
- 071:135 (PCOL:5135) Principles of Pharmacology** 1 s.h.
Basic pharmacological principles underlying drug absorption, drug distribution throughout the body, drug metabolism, and drug elimination; how these processes determine drug dosing and the means by which dosing parameters are characterized; drug receptor interactions and their quantitation. Offered spring semesters.
- 071:136 (PCOL:5136) Pharmacogenetics and Pharmacogenomics** 1 s.h.
Impact of genetic variation on the actions and metabolism of drugs; database search techniques to identify variants. Offered spring semesters. Prerequisites: 071:135 (PCOL:5135). Recommendations: undergraduate or graduate biochemistry.
- 071:137 (PCOL:5137) Neurotransmitters** 1 s.h.
Mechanisms of neurotransmission focusing on mechanisms of synthesis, regulation of release, mechanisms of action, means of degradation, and CNS pathways for major neurotransmitters; disease states involving various neurotransmitter systems. Offered spring semesters.
- 071:138 (PCOL:5138) Ion Channels** 1 s.h.
A heuristic, semiquantitative approach to concepts in ion channel physiology and pharmacology; discussions on up-to-date physical principles, classification, and structure/function relationships for major voltage-gated ion channels that facilitate the application of abstract concepts to physiological, pharmacological, and general biological problems. Offered spring semesters.
- 071:180 (PCOL:8180) Pharmacology for Pharmacy Students I** 3 s.h.
Principles of pharmacology, toxicology; drug and toxic mechanisms; systemic and organ-specific pharmacologic and toxic responses. Offered spring semesters. Requirements: first-year Pharm.D. enrollment or graduate standing.
- 071:181 (PCOL:8181) Pharmacology for Pharmacy Students II** 3 s.h.
Continuation of 071:180 (PCOL:8180). Offered fall semesters. Requirements: second-year Pharm.D. enrollment or graduate standing.
- 071:199 (PCOL:4199) Undergraduate Research in Pharmacology** arr.
Experimental research under faculty supervision in department laboratories.
- 071:203 (PCOL:6090) Graduate Research in Pharmacology** arr.
- 071:204 (PCOL:6080) Pharmacology Seminar** 1 s.h.
- 071:208 (PCOL:6208) G Proteins and G Protein-Coupled Receptors** 1 s.h.
Structure and function of small molecular weight G proteins; heteromeric G proteins and G protein-coupled receptors. Offered spring semesters. Prerequisites: 099:243 (BIOC:5243), 156:201 (BISC:5201), and 156:203 (BISC:5203). Recommendations: 142:225 (MCB:6225).
- 071:209 (PCOL:6209) Steroid Receptor Signaling** 1 s.h.
Structure-function relationship and genomic and nongenomic actions of the steroid hormone receptor family; basis for actions of novel new ligands on these receptors. Offered spring semesters. Same as 072:209 (MPB:6209), 132:209 (NSCI:6209).
- 071:210 (PCOL:6099) Special Topics in Pharmacology** arr.

071:215 (PCOL:6015) Topics in Neuropharmacology 1 s.h.

Recent advances in neuropharmacology, developmental neurobiology, neuroendocrinology, related neurosciences.

071:225 (PCOL:6025) Topics in Molecular Pharmacology 1 s.h.

Recent advances in molecular pharmacology; receptor, postreceptor events in stimulus coupling.

071:235 (PCOL:6035) Topics in Pain Analgesia 1 s.h.

Recent advances in pain research, therapy.

071:250 (PCOL:6250) Advanced Problem Solving in Pharmacological Sciences 1 s.h.

Discussion of methodologies, strategies, and approaches commonly used to solve pharmacological sciences problems; use of interpersonal problem-solving skills to develop experimental study plans for solving contemporary scientific problems in pharmacology.

071:277 (PCOL:7877) Mechanisms of Pain Transmission 3 s.h.

Anatomical, physiological, and pharmacological mechanisms underlying peripheral and central neuronal processing of pain; emphasis on neuronal changes that occur during pathological conditions such as inflammation/arthritis, peripheral neuropathy. Offered fall semesters of even years. Same as 101:277 (PTRS:7877), 132:277 (NSCI:7877).

071:302 (PCOL:6203) Pharmacology for Graduate Students 6 s.h.

Principles of pharmacology, pharmacologic actions of drugs, correlation with therapeutic uses. Offered fall semesters. Prerequisites: 072:153 (MPB:5153), 099:243 (BIOC:5243), 156:201 (BISC:5201), and 156:203 (BISC:5203).

Physical Therapy and Rehabilitation Science

Director

Richard K. Shields

Professors

Annunziato Amendola (Orthopaedics and Rehabilitation), Thomas Cook (Occupational and Environmental Health), Warren Darling (Health and Human Physiology), Richard K. Shields, Kathleen Sluka

Professors emeriti

David H. Nielsen, Gary L. Smidt, Gary L. Soderberg

Associate professors

David Asprey (Physician Assistant Program), Kelly Cole (Health and Human Physiology), Laura Frey Law, H. John Yack

Adjunct associate professor

Bryon Ballantyne

Clinical associate professor

Joseph Chen (Orthopaedics and Rehabilitation)

Assistant professors

Susanne M. Morton, Barbara Rakel (Nursing), Glenn N. Williams, Brian R. Wolf (Orthopaedics and Rehabilitation)

Adjunct assistant professor

Pamela A. Duffy

Lecturer

Byron Bork

Associates

Karla Laubenthal, Kelly Sass, Carol Vance, David Williams

Adjunct associates

Lisa Ainsworth, Kathryn Albrecht, Rhonda Barr, Marcie Becker, Sarah Bengtson, Michelle Borgwardt, Christopher Brink, Kelly Brouwer, Molly Camacho, Leslie Carpenter, Nicholas Cooper, Wendy Craft, Matt Ehlers, Kim Eppen, Richard Evans, Jerry F. Gillon, Jaclyn Hall, Scott Harms, James Holte, Melanie House, Masaki Iguchi, Alexas Ihrig, Judy Jicinsky, Patrick Johnston, Carol Kelderman, Janine Kelly, Lisabeth Kestel, Jill Kilkenney, Paul Kraushaar, Tami Lansing, Ken Leo, Joseph A. Leone, Kelly Michaels, Shannon Miers, Bruce Miller, Joy Miller, Shelley Mockler, Jacob Moore, Mike Reiling, Elayne Sexsmith, Michael Shaffer, Mary Shepherd, Kolleen Shields, Jamie Smelser, Sue Sohrweide, Sherry Steffen, Patrick Swancutt, Blake Tiedtke, Barbara Van Gorp, Elizabeth Vermeer

Graduate degrees: D.P.T.; M.A. in physical therapy; Ph.D. in physical rehabilitation science

Web site: <http://www.healthcare.uiowa.edu/PhysicalTherapy>

Physical therapists provide services to patients and clients who have impairments, functional limitations, disabilities, pain, or changes in physical function resulting from injury, disease, or other causes. Physical therapists practice and collaborate with a variety of health professionals. In the area of health promotion and wellness, they provide screening examinations, prescribe fitness programs, and educate the public regarding healthy lifestyles. Research, teaching, consultation, and administration also are parts of a physical therapist's professional role.

A wide variety of opportunities exist for professional practice in inpatient, outpatient, and community-based settings. Examples include practice in general or specialized hospitals, programs for children with disabilities, private physical therapy clinics, extended care facilities, nursing homes, community and governmental agencies, rehabilitation centers, the armed forces, foreign service, home health agencies, school systems, fitness centers, and athletic facilities. Research and teaching careers in academic institutions are available for those who earn a Ph.D. in rehabilitation science.

The Physical Therapy and Rehabilitation Science Program is located in the Carver College of Medicine on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation's largest university-owned teaching hospitals. The program has eight state-of-the-art independent research laboratories and is well equipped for classroom and laboratory instruction and innovative research. Students have access to faculty members in the basic sciences and medicine, basic sciences courses, clinical specialty expertise, and innovative learning experiences associated with a medical college environment.

Graduate Programs

- Doctor of Physical Therapy
- Master of Arts in physical therapy
- Doctor of Philosophy in physical rehabilitation science

The Doctor of Physical Therapy (D.P.T.) is the entry-level professional degree for physical therapists. The Master of Arts in physical therapy is granted to students working toward the Doctor of Philosophy in physical rehabilitation science. Each year 36 students are admitted to the D.P.T. program and around 20 students are enrolled in the Ph.D. program.

Doctor of Physical Therapy

The Doctor of Physical Therapy requires a minimum of 101 s.h. and is completed in two and one-half years. The program is fully accredited by the Commission on Accreditation in Physical Therapy Education. Satisfactory completion of the professional program qualifies candidates to take the National Physical Therapy Examination for licensure to practice. The minimum passing score on the exam is the same in all jurisdictions.

Technical Standards for Graduation

Doctor of Physical Therapy graduates must possess and demonstrate the physical and cognitive skills and character attributes required to provide physical therapy services in a broad variety of clinical situations and environments. All D.P.T. candidates must perform, with or without reasonable accommodation, the following skills safely, effectively, efficiently, and in compliance with the legal and ethical standards set by the American Physical Therapy Association Code of Ethics and Standards of Practice:

- communicate effectively through appropriate verbal, nonverbal, and written communication with patients, families, and others;
- demonstrate ability to apply universal precautions;

- utilize appropriate tests and measures in order to perform a physical therapy examination; examples include, but are not limited to, examination and evaluation of cognitive/mental status, vital signs, skin and vascular integrity, wound status, endurance, segmental length, girth, volume, sensation, strength, tone, reflexes, movement patterns, coordination, balance, developmental stage, soft tissue, joint motion/play, cranial and peripheral nerve function, posture, gait, functional abilities, assistive devices fit/use, psychosocial needs, and the pulmonary system;
- demonstrate the ability to reach diagnostic and therapeutic judgments through analysis and synthesis of data gathered during patient/client examination in order to develop an appropriate plan of care;
- perform fully, or in a reasonably independent manner, physical therapy interventions appropriate to the patient's status and desired goals;
- apply teaching/learning theories and methods in health care and community environments;
- accept criticism and respond by appropriate behavior modification;
- possess the perseverance, diligence, and consistency to complete the physical therapy curriculum and enter the practice of physical therapy.

Applicants with health conditions or disabilities who need accommodation to meet the technical standards for graduation should contact the University's Student Disability Services office.

Curriculum

The Doctor of Physical Therapy degree requires the following course work (total of 101 s.h.). Students have the option to earn a total of 3 s.h. in electives.

First Summer Session

101:140 (PTRS:5101) Introduction to Physical Therapy Practice	2 s.h.
101:141 (PTRS:5102) Principles of Physical Therapy I	2 s.h.
101:205 (PTRS:5205) Health Promotion and Wellness	3 s.h.

First Semester (Fall)

060:108 (ACB:5108) Human Anatomy	5 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
101:120 (PTRS:5100) Professional Issues and Ethics	1 s.h.
101:142 (PTRS:5103) Principles of Physical Therapy II	2 s.h.
101:189 (PTRS:5790) Clinical Education I	1 s.h.
101:209 (PTRS:5209) Surface Anatomy	1 s.h.
101:210 (PTRS:5210) Kinesiology and Pathomechanics	4 s.h.
101:235 (PTRS:5235) Case-Based Learning I	1 s.h.

Second Semester (Spring)

060:234 (ACB:8114) Medical Neuroscience	4 s.h.
101:131 (PTRS:5131) Therapeutic Physical Agents	2 s.h.
101:185 (PTRS:5201) Musculoskeletal Therapeutics I	3 s.h.
101:190 (PTRS:5791) Clinical Education II	1 s.h.
101:201 (PTRS:5215) Applied Clinical Medicine	2 s.h.
101:206 (PTRS:5206) Cardiopulmonary Therapeutics	3 s.h.
101:236 (PTRS:5236) Case-Based Learning II	1 s.h.
Elective (optional)	1 s.h.

Second Summer Session

101:119 (PTRS:6120) Physical Therapy Management and Administration I	2 s.h.
101:143 (PTRS:6143) Selected Topics in Physical Therapy Practice	2 s.h.
101:176 (PTRS:6176) Pharmacology for Physical Therapists	3 s.h.
101:194 (PTRS:6794) Clinical Internship	3 s.h.

Third Semester (Fall)

101:122 (PTRS:6122) Psychosocial Aspects of Patient Care	1 s.h.
101:134 (PTRS:6134) Physical Therapy Management of Integumentary System	2 s.h.
101:170 (PTRS:6170) Prosthetics and Orthotics	2 s.h.
101:200 (PTRS:6200) Pediatric Physical Therapy	arr.
101:202 (PTRS:6202) Musculoskeletal Therapeutics II	3 s.h.
101:224 (PTRS:6224) Movement Control Systems in Health and Disease	4 s.h.
101:237 (PTRS:6237) Service Learning I	1 s.h.
101:248 (PTRS:6250) Research in Physical Therapy	2 s.h.
Elective (optional)	1 s.h.

Fourth Semester (Spring)

101:121 (PTRS:6121) Physical Therapy Management and Administration II	1 s.h.
101:133 (PTRS:6133) Pain Mechanisms and Treatment	2 s.h.
101:151 (PTRS:6204) Progressive Functional Exercise	2 s.h.
101:172 (PTRS:6172) Radiology/Imaging for Physical Therapists	2 s.h.
101:173 (PTRS:6173) Differential Diagnosis in Physical Therapy	2 s.h.
101:191 (PTRS:6792) Clinical Education III	1 s.h.
101:203 (PTRS:6203) Musculoskeletal Therapeutics III	4 s.h.
101:225 (PTRS:6225) Neuromuscular Therapeutics	3 s.h.
101:238 (PTRS:6238) Service Learning II	1 s.h.
101:251 (PTRS:6251) Critical Inquiry in Physical Therapy I	2 s.h.
Elective (optional)	1 s.h.

Third Summer Session

101:194 (PTRS:6794) Clinical Internship	7 s.h.
---	--------

Fifth Semester (Fall)

101:194 (PTRS:6794) Clinical Internship	5 s.h.
101:252 (PTRS:6252) Critical Inquiry in Physical Therapy II	1 s.h.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They must have completed a baccalaureate degree from an accredited institution in the United States, or anticipate completing the degree before enrolling in the D.P.T. program. They must have a cumulative g.p.a. of at least 3.00 and must have completed the following prerequisite course work, preferably with a g.p.a. of at least 3.00. All science courses must include the appropriate laboratory instruction. The prerequisite courses must have been taken for a letter grade. Credit awarded through advanced placement testing may be applied only to the mathematics requirement.

Biological sciences: a complete introductory course in principles of general biology or zoology, and advanced

course work in biology or zoology (for which an introductory course is prerequisite) equivalent to 12 s.h.

Physics: a complete introductory course equivalent to 8 s.h.

Chemistry: a complete introductory course equivalent to 8 s.h.

Physiology: a systemic human physiology course equivalent to 3 s.h.

Psychology: courses equivalent to 6 s.h.

Mathematics: a college-level mathematics course, at the level of trigonometry or higher, equivalent to 3 s.h.

Statistics: a statistical methods course equivalent to 3 s.h.

All applicants must take the Graduate Record Examination (GRE) General Test. They must take the test early enough for their scores to be received by the University in time for the November 1 application deadline.

Applications are submitted online through the Physical Therapist Centralized Application Service (PTCAS). PTCAS allows applicants to use a single application and one set of materials to apply to multiple physical therapy programs. Once the application portfolio is complete, PTCAS forwards it to The University of Iowa.

Personal interviews are required of applicants selected for consideration by the admissions committee. Interviews are conducted at The University of Iowa. The physical therapy admissions committee selects applicants who appear to be best qualified for the study and practice of the profession. Some preference is given to Iowa residents.

Applications are accepted from July 1 to November 1 for entry the following summer. Prospective students should apply as early as possible.

EARLY ADMISSION

The Doctor of Physical Therapy early admission plan is available to outstanding applicants. Early admission applicants must have outstanding grade-point averages, generally 3.75 or higher. They also must have Graduate Record Examination (GRE) General Test scores at or above the 50th percentile for both the verbal and the quantitative sections, or a score of at least 1100 (verbal and quantitative combined) on the old version of the test. Application materials are the same as those for regular admission. Application deadline for the early admission plan is September 15; applicants are notified of admission by December 1. Those who are interviewed but are not selected for early admission are automatically placed in the final general applicant pool. Contact the Physical Therapy and Rehabilitation Science Program for more information.

Background Checks

Enrollment in the Doctor of Physical Therapy program is contingent on a successful criminal background check. Drug screening may be required for some clinical rotations.

Expenses

Applicants admitted to the D.P.T. program must make an advance tuition payment of \$300, which is forfeited if the applicant does not enroll. In addition to paying University tuition and fees, students are assessed laboratory fees for the human anatomy and medical neuroscience courses

and are responsible for purchasing lab coats, patient evaluation kits, and course syllabi.

All students are required to comply with the pre-entry and periodic health screening program developed by Student Health Service in cooperation with University of Iowa Hospitals and Clinics. Students must pay for the health screenings. Students also are required to have health insurance.

Ph.D. in Physical Rehabilitation Science

The Doctor of Philosophy in physical rehabilitation science requires a minimum of 72 s.h. of graduate credit. The program is designed to advance the student's ability to independently develop and carry out research that establishes the scientific basis for prevention, evaluation, and treatment of impairments, functional limitations, and disability. The curriculum is flexible enough to accommodate research focusing on basic, applied, or clinical studies in the rehabilitation sciences. Students have access to the program's research laboratories (see "Research Facilities" later in this section).

Graduates who complete the program are prepared for academic appointments that emphasize research, scholarship, and teaching. They possess:

- theoretical and scientific knowledge to perform basic, applied, or clinical-level original research that leads to scientific presentations, publication in peer-reviewed journals, and competition for extramural funding through scientific grant writing;
- breadth of knowledge in exercise physiology, biomechanic, neuroscience, or motor control specialty areas as they relate to impairment, functional limitation, and disability; and
- theoretical and practical skills required for college or university teaching at the professional entry and advanced graduate levels.

Curriculum

Ph.D. students complete a minimum of 72 s.h. beyond the baccalaureate. Each student and his or her faculty advisor develop an individualized study plan. A preliminary study plan is developed within the first 9 s.h. of graduate study; a final plan is submitted to the Graduate College when the Ph.D. comprehensive examination is scheduled.

To ensure breadth of knowledge, all students complete specific core, research, and scientific specialty area content courses. Elective courses are selected to provide in-depth study of the specialty; they are complemented by an advanced seminar course specific to the student's specialty and taken in preparation for the comprehensive examination.

Students must satisfactorily complete the comprehensive examination, which is taken after all required course work is completed. Doctoral study culminates with 12 s.h. of thesis research and an oral examination.

GENERAL CORE REQUIREMENT

Ph.D. students must complete the following core requirements. Exception: the capstone course 101:300 (PTRS:7900) Rehabilitation Research Capstone Project is recommended but not required for students who enter the program with a master's or doctoral-level degree;

however, it is required for all students who enter the program with a bachelor's degree.

07P:385 (PSQF:7385) Teaching and Learning in Higher Education	3 s.h.
101:212 (PTRS:7812) Biomedical Instrumentation and Measurement	3 s.h.
101:220 (PTRS:7820) Seminar in Rehabilitation Science (taken twice)	2 s.h.
101:280 (PTRS:7880) Teaching Practicum	arr.
101:300 (PTRS:7900) Rehabilitation Research Capstone Project	arr.
101:326 (PTRS:7826) Scientific Writing in Rehabilitation Science	3 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.
650:604 (GRAD:7604) Principles of Scholarly Integrity	0 s.h.
650:614 (GRAD:7614) Principles of Scholarly Integrity	0 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
or	
22S:102 (STAT:5543) Introduction to Statistical Methods	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
or	
22S:148 (STAT:6513) Intermediate Statistical Methods	4 s.h.

RESEARCH REQUIREMENT

Students complete at least 24 s.h. from the following.

101:214 (PTRS:7895) Advanced Seminar in Rehabilitation Science	3 s.h.
101:284 (PTRS:7884) Practicum in Research	arr.
101:301 (PTRS:7990) Thesis: Rehabilitation Science	12 s.h.
101:325 (PTRS:7925) Independent Study	arr.
101:327 (PTRS:7927) Research in Rehabilitation Science	arr.

SPECIALTY CONTENT REQUIREMENT

Each student must complete at least 9 s.h. in his or her scientific specialty area. Students may choose courses from the following list, but other courses suited to the student's background knowledge and interest area are considered.

Physical Therapy

101:210 (PTRS:5210) Kinesiology and Pathomechanics	4 s.h.
101:224 (PTRS:6224) Movement Control Systems in Health and Disease	4 s.h.
101:275 (PTRS:7875) Analysis of Movement Control Systems in Health and Disease	3 s.h.
101:277 (PTRS:7877) Mechanisms of Pain Transmission	3 s.h.
101:285 (PTRS:7885) Biomechanical Analysis in Rehabilitation	3 s.h.

Health and Human Physiology

027:141 (HHP:4410) Exercise Physiology	3 s.h.
027:145 (HHP:4460) Cardiovascular Physiology	3 s.h.
027:155 (HHP:4130) Skeletal Muscle Biology	3 s.h.
027:160 (HHP:4300) Neural Control of Posture and Movement	3 s.h.
027:197 (HHP:4220) Biomechanics of Human Motion	3 s.h.
027:314 (HHP:6300) Seminar in Motor Control	1 s.h.

Pharmacology

071:137 (PCOL:5137) Neurotransmitters	1 s.h.
071:138 (PCOL:5138) Ion Channels	1 s.h.
071:235 (PCOL:6035) Topics in Pain Analgesia	1 s.h.
071:250 (PCOL:6250) Advanced Problem Solving in Pharmacological Sciences	1 s.h.

Neuroscience

060:234 (ACB:8114) Medical Neuroscience	4 s.h.
132:180 (NSCI:7180) Fundamental Neurobiology	4 s.h.
132:235 (NSCI:7235) Neurobiology of Disease	3 s.h.

Epidemiology

173:290 (EPID:6900) Intervention and Clinical Trials	3 s.h.
--	--------

Occupational and Environmental Health

175:190 (OE:4310) Occupational Ergonomics I	3 s.h.
175:294 (OE:6320) Occupational Ergonomics II	3 s.h.
175:295 (OE:6310) Clinical Ergonomics	3 s.h.

Civil and Environmental Engineering

053:190 (CEE:5090) Readings in Civil and Environmental Engineering	2 s.h.
--	--------

Biomedical Engineering

051:121 (BME:3310) Introduction to Bioinformatics	4 s.h.
---	--------

Anatomy and Cell Biology

060:232 (ACB:8401) Advanced Human Anatomy	arr.
---	------

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. They should have a cumulative g.p.a. of at least 3.00 and a combined verbal and quantitative score of at least 1100 on the Graduate Record Exam (GRE) General Test. A minimum of two years of clinical experience is desirable.

Applicants whose first language is not English must score at least 600 (paper-based), 250 (computer-based), or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL).

Application materials must include a complete Graduate College application form, test scores, transcripts, three letters of recommendation, and a statement of purpose. Completed applications should be sent to the Physical Therapy and Rehabilitation Science Program.

Personal interviews are required of all applicants selected for consideration by the admissions committee. On-campus interviews are preferred, but telephone interviews may be substituted when necessary.

Application deadlines are October 15 for spring semester entry (notification by December 15); March 15 for summer entry (notification by May 15); and May 15 for fall semester entry (notification by July 15).

Financial Support

A number of research assistantships are available for Ph.D. students. Faculty advisors provide guidance for students seeking external scholarship support through foundations and federal programs that support Ph.D. training.

Research Facilities

The program's state-of-the-art research facilities include the Orthopedic Gait Analysis Laboratory and a spinal cord research laboratory at University Hospitals and Clinics; the Neuromuscular Research/Motor Control Laboratory; the Musculoskeletal Biomechanics and Sports Medicine Research Laboratory; the Neurobiology of Pain Laboratory; the Neural Control of Movement Laboratory; and the Neuromuscular Biomechanics Laboratory. Use of other laboratories may be arranged.

Courses

101:119 (PTRS:6120) Physical Therapy Management and Administration I 2 s.h.

The changing U.S. health care system; access to physical therapy services, reimbursement to health care providers, mechanisms for controlling costs while providing quality care; clinical vignettes, small group problem solving. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:120 (PTRS:5100) Professional Issues and Ethics 1 s.h.

Evolution of physical therapy and rehabilitation science as a profession; contemporary issues in education and practice; ethical theory and approaches to analyzing and acting on ethical problems; professional and peer relationships. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:121 (PTRS:6121) Physical Therapy Management and Administration II 1 s.h.

Principles of management in physical therapy practice; historical perspective, current health care environment; business principles; marketing, managing risk, medical/legal concerns, preparing for the future. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:122 (PTRS:6122) Psychosocial Aspects of Patient Care 1 s.h.

Emotional reactions to disability, psychosocial aspects of disability as they relate to patient-physical therapist interaction; specific problems of the angry, non-compliant, or chronic-pain patient; complementary roles of other health professionals; cultural competence in professional behavior and patient treatment; importance of holistic health care. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:131 (PTRS:5131) Therapeutic Physical Agents 2 s.h.

Theoretical and practical applications for safe, effective use of physical agents (superficial and deep heat, cold, hydrotherapy), electrotherapeutic modalities (biofeedback, NMES, TENS, iontophoresis); massage and soft tissue mobilization; emphasis on problem solving, clinical decision making. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:133 (PTRS:6133) Pain Mechanisms and Treatment 1-2 s.h.

Introduction to basic science mechanisms, assessment, and management of pain; basic science mechanism involved in transmission and perception of painful stimuli after tissue injury, assessment and physical therapy management of pain; emphasis on scientific principles and published literature to support treatment techniques. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:134 (PTRS:6134) Physical Therapy Management of Integumentary System 2 s.h.

Overview of physical therapy examination and management of the integumentary system; wound pathology, diagnosis associated with the integumentary system, inflammation and repair, examination and reexamination techniques, documentation, clinical decision making, lecture and laboratory formats; interventions, including patient/client information, physical agents, electrotherapy, wound dressing. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:140 (PTRS:5101) Introduction to Physical Therapy Practice 2 s.h.

Lectures, case presentations, and group activities using the Guide to Physical Therapist Practice; elements of the patient/client management model, concepts of the disablement model, preferred practice patterns as applied in clinical problems; importance of professionalism, professional socialization; introduction to evidence-based practice; competence in medical terminology. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:141 (PTRS:5102) Principles of Physical Therapy I 2 s.h.

Patient management skills: interviewing, medical history taking, vital signs, positioning, draping, transfers, body mechanics, assisted gait, wheelchairs, and negotiation of architectural barriers. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:142 (PTRS:5103) Principles of Physical Therapy II 2 s.h.

Continuation of 101:141 (PTRS:5102); expansion of existing skills and provides new learning experiences in documentation, assessment of joint range of motion/goniometry, manual muscle testing, preambulatory intervention strategies, gait analysis; musculoskeletal, neuromuscular, and integumentary systems review. Prerequisites: 101:141 (PTRS:5102). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:143 (PTRS:6143) Selected Topics in Physical Therapy Practice 2 s.h.

Specialty topics in physical therapy; geriatrics, wheelchair seating/positioning, women's health, home health, industrial physical therapy; alternative or new treatments; guest lectures, lab component. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:151 (PTRS:6204) Progressive Functional Exercise 2 s.h.

Therapeutic exercise options (e.g., isometrics, isotonic, isokinetic, plyometrics, endurance exercises, stretching exercises) and training principles; application to functional activities, including those of daily living, work, recreation, and sport; laboratory component. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:170 (PTRS:6170) Prosthetics and Orthotics 2 s.h.

Physical therapy management and assessment of patients in need of prosthetic and orthotic devices; principles and components of prosthetic and orthotic design and use. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:172 (PTRS:6172) Radiology/Imaging for Physical Therapists 2 s.h.

Basic principles and procedures for acquisition and interpretation of radiology and imaging in clinical practice and research; plain film radiographs, CT, MRI, other common imaging modalities; case-based, multidisciplinary approach. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

- 101:173 (PTRS:6173) Differential Diagnosis in Physical Therapy** 2 s.h.
Use of physical therapy examination and evaluation skills to diagnose physical therapy problems; focus on use of good clinical decision-making skills when analyzing a patient's history and administering physical therapy tests and measures to confirm or rule out differential diagnoses; components of the medical examination; importance of collaboration between therapists and other health professionals; interactive case studies presented by clinical experts. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:176 (PTRS:6176) Pharmacology for Physical Therapists** 3 s.h.
Contemporary pharmacology; overview of basic pharmacokinetic and pharmacodynamic principles; relation of drug therapy to therapeutic interventions provided by physical therapists; small group clinical case presentations. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:185 (PTRS:5201) Musculoskeletal Therapeutics I** 3 s.h.
Musculoskeletal techniques and biomechanical principles applied to assessment and evaluation of common orthopedic problems of the spine; problem solving, case-study approach to clinical methods, skill acquisition. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:189 (PTRS:5790) Clinical Education I** 1 s.h.
Integrated clinical experiences in area physical therapy clinics; overview of the diverse nature of practice through half- or full-day experience; basic skills in examination, intervention, documentation. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:190 (PTRS:5791) Clinical Education II** 1 s.h.
Continuation of 101:189 (PTRS:5790); integrated half-day clinical experiences. Prerequisites: 101:189 (PTRS:5790). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:191 (PTRS:6792) Clinical Education III** 1 s.h.
Two-week, full-time clinical experience in physical therapy clinics in Iowa, under the guidance of physical therapists; theory and practice of physical therapy procedures, competence building in basic skills. Prerequisites: 101:190 (PTRS:5791). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:194 (PTRS:6794) Clinical Internship** arr.
Full-time clinical education divided among varied settings; development of competence in independent examination, evaluation, and treatment of patients under supervision of clinical faculty. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:200 (PTRS:6200) Pediatric Physical Therapy** arr.
Preparation for physical therapy practice in pediatric settings using interdisciplinary family-centered practice; normal and abnormal development, standardized assessment, service-delivery settings, interventions, management strategies specific to pediatrics. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:201 (PTRS:5215) Applied Clinical Medicine** 2 s.h.
Pathological disorders frequently encountered by physical therapists in clinical practice, addressed by physicians and health professionals who are not physical therapists; physical therapy management. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:202 (PTRS:6202) Musculoskeletal Therapeutics II** 3 s.h.
Pathology, assessment, management of orthopedic disorders of the upper quarter; problem-solving approach to evaluation and management of patients with musculoskeletal conditions. Prerequisites: 101:185 (PTRS:5201). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:203 (PTRS:6203) Musculoskeletal Therapeutics III** 4 s.h.
Pathology, assessment, management of orthopedic disorders of the lower quarter; problem-solving approach to evaluation and management of patients with musculoskeletal conditions. Prerequisites: 101:202 (PTRS:6202). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:205 (PTRS:5205) Health Promotion and Wellness** 3 s.h.
Overview of health promotion, fitness, and wellness strategies, including information on levels of health promotion, risk assessment, applied physiology (skeletal muscle, energy metabolism, and physiological responses to exercise), exercise testing and training guidelines, body composition assessment, and development of individual weight management and exercise training programs; classroom and laboratory experiences. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:206 (PTRS:5206) Cardiopulmonary Therapeutics** 3 s.h.
Cardiorespiratory anatomy, physiology, and application of basic concepts, techniques in management of patients with acute and chronic cardiac, pulmonary disorders; laboratories. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:209 (PTRS:5209) Surface Anatomy** 1 s.h.
Laboratory teaching activities that parallel the human anatomy course; observation, palpation, and problem solving skills; upper- and lower-limb, head and neck, thorax, and abdomen. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:210 (PTRS:5210) Kinesiology and Pathomechanics** 4 s.h.
Normal and pathological movement based on understanding of muscle mechanics, segment and joint mechanics, muscle function; instructor- and student-centered learning experiences; EMG laboratories. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.
- 101:212 (PTRS:7812) Biomedical Instrumentation and Measurement** 3 s.h.
Introduction to biomedical instrumentation and measurement; understanding sources of error and noise in biomedical research applications; basic circuit analysis, calibration of measurement tools, A/D conversion, digital filtering; lab components. Offered fall semesters of even years.
- 101:214 (PTRS:7895) Advanced Seminar in Rehabilitation Science** arr.
Current status of research for biological, mechanical, psychological components pertinent to cardiopulmonary, musculoskeletal, neuromuscular areas of rehabilitation science; preparation for comprehensive exam.
- 101:220 (PTRS:7820) Seminar in Rehabilitation Science** 1 s.h.
Exploration of research related to rehabilitation science; lectures by faculty, graduate students, and guest scholars with expertise in areas relevant to rehabilitation science (e.g., neuroscience, physiology, medicine, engineering, pharmacology, integrated physiology).

101:224 (PTRS:6224) Movement Control Systems in Health and Disease 4 s.h.

Examination of neural, muscular, and skeletal plasticity to increased and decreased use in normal and pathological states (chronic inactivity, obesity, metabolic syndromes, orthopedic and neurological injuries); principles of genetic regulation with physical activity including underlying mechanisms contributing to acute and chronic adaptations of muscle, spinal circuitry, and supra-spinal centers; integration of movement control concepts through contemporary papers evaluating short and long latency reflexes, posture and balance control, spasticity, and motor learning in individuals with acute and chronic perturbations to the nervous system. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:225 (PTRS:6225) Neuromuscular Therapeutics 3 s.h.

Application of clinical neuroscience knowledge and motor control and motor learning concepts to the practice of neurological physical therapy; emphasis on diagnosis and therapeutic intervention for persons with central nervous system dysfunction of adult onset. Prerequisites: 101:224 (PTRS:6224). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:235 (PTRS:5235) Case-Based Learning I 1 s.h.

Small group case study seminars and simulated patient instructor learning experiences; clinical problems coordinated with concurrent courses; student-centered, problem-based learning format with emphasis on evidence-based practice objectives. First in a two-course sequence. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:236 (PTRS:5236) Case-Based Learning II 1 s.h.

Small-group case study seminars and simulated patient instructor learning experiences; clinical problems coordinated with concurrent courses taken in curriculum; student centered, problem-based learning format; emphasis on evidence-based practice objectives. Second in a two-part series of integrated courses. Prerequisites: 101:235 (PTRS:5235). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:237 (PTRS:6237) Service Learning I 1 s.h.

Service-learning work experience with community partners; students develop individual learning goals for these experiences; classroom reflection on service activities, experiences with elderly and/or disabled, and social responsibility, advocacy, and professionalism in physical therapy; written reflection assignments. First in a two-course sequence. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:238 (PTRS:6238) Service Learning II 1 s.h.

Service-learning work experience with community partners; students develop individual learning goals for these experiences; classroom reflection on service activities, experiences with elderly and/or disabled, and social responsibility, advocacy, and professionalism in physical therapy; written reflection assignments. Second in a two-course sequence. Prerequisites: 101:237 (PTRS:6237). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:248 (PTRS:6250) Research in Physical Therapy 2 s.h.

Topics relevant to evidence-based practice and research design; identification of appropriate questions for research and clinical applications, location and evaluation of available evidence, identification of issues that affect validity of research designs, interpretation of basic statistical analyses. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:251 (PTRS:6251) Critical Inquiry in Physical Therapy I 2 s.h.

Experience conducting group research projects under faculty supervision; data collection and analysis, manuscript preparation, oral defense of research findings during a formal poster presentation. Prerequisites: 101:248 (PTRS:6250). Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:252 (PTRS:6252) Critical Inquiry in Physical Therapy II 1 s.h.

Principles and procedures learned in 101:248 (PTRS:6250) and 101:251 applied to a clinical setting; students write and present a case report with an evidence-based practice focus, using a clinical case from their final internships. Requirements: Physical Therapy and Rehabilitation Science Program enrollment.

101:275 (PTRS:7875) Analysis of Movement Control Systems in Health and Disease 3 s.h.

Examination of neural, muscular, and skeletal plasticity to increased/decreased use in normal and pathological states (chronic inactivity, obesity, metabolic syndromes, orthopedic and neurological injuries); genetic regulation with physical activity and underlying mechanisms contributing to acute and chronic adaptations of muscle, spinal circuitry, and supra-spinal centers; integration of movement control concepts through contemporary papers evaluating short and long latency reflexes, posture and balance control, spasticity, and motor learning in individuals with acute and chronic perturbations to the nervous system; individual research projects.

101:277 (PTRS:7877) Mechanisms of Pain Transmission 3 s.h.

Anatomical, physiological, and pharmacological mechanisms underlying peripheral and central neuronal processing of pain; emphasis on neuronal changes that occur during pathological conditions such as inflammation/arthritis, peripheral neuropathy. Offered fall semesters of even years. Same as 071:277 (PCOL:7877), 132:277 (NSCI:7877).

101:280 (PTRS:7880) Teaching Practicum arr.

Individual instruction, observation, experimentation in teaching, guidance, analysis of evaluation processes in Physical Therapy and Rehabilitation Science Program.

101:284 (PTRS:7884) Practicum in Research arr.

Laboratory experiences connected with investigative process; individual instruction, observation, activities in methodological development, data acquisition, data analysis aspects of research.

101:285 (PTRS:7885) Biomechanical Analysis in Rehabilitation 3 s.h.

Assessment of pathological movement through human movement analysis techniques, including link segment modeling and analysis, mechanical energy and power analysis, electromyography and muscle modeling.

101:300 (PTRS:7900) Rehabilitation Research Capstone Project arr.

Specific phases of the research process; development of a research question and associated hypotheses, collection and analysis of data, interpretation and discussion of the information's meaning; presentation to sponsoring mentor's laboratory/program, and written document.

101:301 (PTRS:7990) Thesis: Rehabilitation Science arr.

Investigative process: formulation of problem, literature search and analysis, procedure for collecting data, data analysis, organization and writing of thesis proposal, thesis.

101:325 (PTRS:7925) Independent Study arr.

Problem-solving experience in physical therapy; commensurate with student's interest, ability.

101:326 (PTRS:7826) Scientific Writing in Rehabilitation Science 3 s.h.

Knowledge of and experience related to scientific writing, critical review of scientific literature, publication in the biomedical sciences, thesis/dissertation writing, grant writing, scientific presentation, writing used in academic and scientific careers.

101:327 (PTRS:7927) Research in Rehabilitation Science arr.

Placement of physical therapy on sound scientific base; therapy; initiation, refinement, establishment of methods in physical therapy evaluation, treatment; direct clinical and laboratory approach, philosophical treatise, or research proposal.

Katie Iverson

Graduate degree: M.P.A.S.

Web site: <http://paprogram.medicine.uiowa.edu/>

The physician assistant profession is one of the newest and most exciting in health care. Physician assistants (PAs) are licensed to practice medicine with physician supervision. They are responsible for making medical decisions and providing a broad range of diagnostic and therapeutic services.

Physician assistants work in a variety of settings, including medical offices, hospital emergency rooms, nursing homes, rural satellite clinics, health maintenance organizations, and patients' homes.

In the traditional office setting, PAs see patients, obtain histories, perform physical examinations, and order necessary laboratory and/or radiological studies. Based on this information, the PA establishes a diagnosis, develops an appropriate management plan, and initiates treatment that may include prescribing medications. The physician is consulted as needed and remains ultimately responsible for the care provided by the physician/PA team. PAs also are involved in both patient and community health education.

The Physician Assistant Program is administered by the Carver College of Medicine. It is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation's largest university-owned teaching hospitals.

Graduate Program

- Master of Physician Assistant Studies

The Master of Physician Assistant Studies (M.P.A.S.) program emphasizes primary care medicine, particularly family medicine. It also offers elective clinical rotations in selected medical subspecialties. Students who complete the program are eligible to take the National Certifying Examination for Primary Care Physician Assistants, which they must complete successfully in order to register as physician assistants in the United States.

The Physician Assistant Program is accredited by the Accreditation Review Commission on Education for the Physician Assistant, Inc., and is a member of the Physician Assistant Education Association.

Master of Physician Assistant Studies

The Master of Physician Assistant Studies requires a minimum of 104 s.h. The curriculum spans 25 months and is divided into two phases, didactic and clinical. Both phases emphasize primary health care delivery and the physician assistant's role as a member of the health care team. The program is integrated with teaching at the Carver College of Medicine, permitting interdisciplinary activities between Doctor of Medicine and health care professions students. Physician assistant students complete approximately 60 percent of the curriculum's didactic phase with second-year M.D. students; see Doctor of Medicine (p. 942) in the Catalog.

The first phase is conducted on the University's health sciences campus. It begins in mid-May with seven months of course work in a number of basic science areas, including anatomy, biochemistry, infectious disease, pathology, pharmacology, and physiology. Whenever appropriate, related subjects are integrated to provide sequential lecture and laboratory experience. The first phase also includes 050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants as well as courses in clinical decision making and an introductory course on taking a medical history and performing a physical examination.

The program's patient assessment curriculum couples a sequence of didactic instruction with practical experiences involving simulated and real patients. The level and intensity of patient interactions increase throughout the curriculum as the student gains confidence and clinical competence.

The spring semester of the first phase consists of 050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants, an 18-week course. Three interrelated courses focus on the application of basic science knowledge to understanding clinical-pathologic correlations of common and/or catastrophic disorders encountered in clinical medicine's major disciplines. The courses continue with instruction in obtaining a problem-oriented medical history and performing a physical examination. The semester also includes continuation of the clinical decision-making course and a short course in clinical pathology.

Before clinical rotations begin, students complete 117:110 (PA:8302) Introduction to Clinical Skills, which includes instruction in several skill areas (e.g., suturing, injections, prescription writing, medical orders, Advanced Cardiac Life Support).

The program's second phase concentrates on clinical education. In 117:201 (PA:8303) Clinical Decision Making III, students select a pertinent health question and apply an evidence-based medicine review of the data. They give a PowerPoint presentation of their findings to their colleagues, write a paper for submission to a journal, or prepare a poster presentation for a conference. They also complete 117:107 (PA:8301) Seminar for Physician Assistant Students, in which they research and discuss

professional issues that will affect their practice as physician assistants.

Students complete a 40-week core of required primary care clinical rotations, including six weeks each of general internal medicine and surgery and four weeks each of family medicine I, family medicine II, pediatrics, emergency medicine, gynecology, and psychiatry. Students also select 12 weeks of electives, which may include rotations such as geriatrics, cardiology, dermatology, and orthopaedics.

The primary care clinical rotations are designed to provide instruction and experience in caring for patients in a way that enables students to integrate the knowledge, skills, behaviors, and attitudes they learned in the program's didactic phase. Clinical training is provided at University of Iowa Hospitals and Clinics, the Iowa City Veterans Affairs Medical Center, the Veterans Affairs Central Iowa Health Care System and Broadlawns Medical Center in Des Moines, and other affiliated hospitals throughout Iowa. In elective rotations, students gain additional clinical experience through placement with selected preceptors involved in office-based practices, typically in medically underserved rural areas.

The Master of Physician Assistant curriculum is as follows.

FIRST YEAR (PHASE I)

Summer and Fall

050:174 (MED:7205) Foundations of Clinical Practice for Physician Assistants	5 s.h.
060:111 (ACB:8201) Gross Human Anatomy for Physician Assistant Students	6 s.h.
061:104 (MICR:7202) Principles Infectious Diseases--Physician Assistant	5 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
071:125 (PCOL:8225) Pharmacology for Health Sciences: Physician Assistant Students	6 s.h.
072:164 (MPB:8208) Human Physiology for Physician Assistant Students	4 s.h.
099:164 (BIOC:8204) Biochemistry for Physician Assistant Students	3 s.h.
117:101 (PA:8209) Introduction to Medical History and Physical Examination for Physician Assistant Students	3 s.h.
117:103 (PA:8210) Clinical Decision Making I	1 s.h.

Spring

050:175 (MED:7215) Foundations of Clinical Practice IV for Physician Assistants	13 s.h.
050:183 (MED:8213) Healthcare Ethics, Law, and Policy	2 s.h.
069:130 (PATH:7207) Clinical Laboratory Medicine for Physician Assistants	1 s.h.
117:104 (PA:8211) Clinical Decision Making II	1 s.h.

SECOND YEAR (PHASE II)

117:107 (PA:8301) Seminar for Physician Assistant Students	1 s.h.
117:110 (PA:8302) Introduction to Clinical Skills	1 s.h.
117:201 (PA:8303) Clinical Decision Making III	1 s.h.

The following clinical rotations are required.

117:300 (PA:8304) Emergency Medicine for Physician Assistant Students	4 s.h.
117:301 (PA:8305) Gynecology for Physician Assistant Students	4 s.h.
117:302 (PA:8306) Family Practice I for Physician Assistant Students	4 s.h.

117:303 (PA:8307) Family Practice II for Physician Assistant Students	4 s.h.
117:304 (PA:8308) General Surgery for Physician Assistant Students	6 s.h.
117:305 (PA:8309) Internal Medicine for Physician Assistant Students	6 s.h.
117:306 (PA:8310) Pediatrics for Physician Assistant Students	4 s.h.
117:307 (PA:8311) Psychiatry for Physician Assistant Students	4 s.h.

Elective clinical rotations are selected from the following.

117:321 (PA:8320) Dermatology Elective for Physician Assistant Students	arr.
117:322 (PA:8321) Neurology Elective for Physician Assistant Students	arr.
117:323 (PA:8322) Obstetrics for Physician Assistant Students	arr.
117:324 (PA:8323) Ophthalmology Elective for Physician Assistant Students	arr.
117:325 (PA:8324) Otolaryngology Elective for Physician Assistant Students	arr.
117:326 (PA:8325) Pediatric Elective for Physician Assistant Students	arr.
117:327 (PA:8326) Radiology Elective for Physician Assistant Students	arr.
117:328 (PA:8327) Pediatric Elective (Bone Marrow Transplant) for Physician Assistant Students	arr.
117:329 (PA:8328) Pediatric (Cardiology) Elective for Physician Assistant Students	arr.
117:330 (PA:8329) Psychiatry Elective for Physician Assistant Students	arr.
117:331 (PA:8330) Surgery Elective for Physician Assistant Students	arr.
117:332 (PA:8331) Surgery Elective (Transplant/Organ Retrieval) for Physician Assistant Students	arr.
117:333 (PA:8332) Surgery Elective (Burn Unit) for Physician Assistant Students	arr.
117:334 (PA:8333) Surgery Elective (Cardiac Surgery) for Physician Assistant Students	arr.
117:335 (PA:8334) Orthopedics Elective for Physician Assistant Students	arr.
117:336 (PA:8335) Internal Medicine Elective for Physician Assistant Students	arr.
117:337 (PA:8336) Internal Medicine (Cardiology) Elective for Physician Assistant Students	arr.
117:338 (PA:8337) Internal Medicine (EKG) Elective for Physician Assistant Students	arr.
117:339 (PA:8338) Internal Medicine (Gastroenterology) Elective for Physician Assistant Students	arr.
117:340 (PA:8339) Internal Medicine (Oncology) Elective for Physician Assistant Students	arr.
117:341 (PA:8340) Internal Medicine (Geriatrics) Elective for Physician Assistant Students	arr.
117:342 (PA:8341) Internal Medicine (Pulmonary) Elective for Physician Assistant Students	arr.
117:343 (PA:8342) Internal Medicine (Hospice) Elective for Physician Assistant Students	arr.
117:344 (PA:8343) Internal Medicine (Infectious Disease) Elective for Physician Assistant Students	arr.
117:345 (PA:8344) Internal Medicine (Correctional Medicine) Elective for Physician Assistant Students	arr.
117:347 (PA:8345) Urology Elective for Physician Assistant Students	arr.
117:348 (PA:8346) Family Practice Elective for Physician Assistant Students	arr.
117:349 (PA:8347) Gynecology Elective (Women's Health) for Physician Assistant Students	arr.

117:350 (PA:8348) Migrant Health Elective for Physician Assistant Students	arr.
117:351 (PA:8349) Occupational Medicine Elective for Physician Assistant Students	arr.
117:352 (PA:8350) Pediatrics (Neonatology) Elective for Physician Assistant Students	arr.
117:353 (PA:8351) Internal Medicine (Rheumatology) for Physician Assistant Students	arr.
117:354 (PA:8352) Medical Intensive Care for Physician Assistant Students	arr.
117:355 (PA:8353) International Medicine for Physician Assistant Students	arr.
117:356 (PA:8354) Interventional Radiology for Physician Assistant Students	arr.
117:357 (PA:8355) Gynecologic Oncology Elective for Physician Assistant Students	arr.

Admission

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Applicants must be citizens or permanent residents of the United States. Applicants whose first language is not English and who do not hold a master's or doctoral degree from an accredited U.S. institution must score at least 93 (total score, Internet-based) and 26 (speaking score, Internet-based) on the Test of English as a Foreign Language (TOEFL). Only the Internet-based test is accepted. Scores must be sent to the Physician Assistant Program by the Educational Testing Service.

Applicants must have taken the Graduate Record Examination (GRE) General Test or the Medical College Admission Test (MCAT) no more than 10 years before they apply. They must hold a baccalaureate degree from an accredited institution in the United States and have a cumulative g.p.a. and a science g.p.a. of at least 3.00 on a 4.00 scale or a g.p.a. of at least 3.00 on their last 40 s.h. of college-level science course work. They must have completed preparatory science courses in organic and inorganic chemistry, introductory animal biology or zoology, and general statistics or biostatistics. They also must have completed an upper-level course in human or animal physiology (lower-level combined anatomy/physiology courses do not satisfy this requirement); a minimum of three upper-level natural science courses such as cell biology, cell physiology, endocrinology, genetics, histology, immunology, microbiology, molecular biology, neurobiology, histology, and/or related disciplines; and an introductory biochemistry course (combined organic/biochemistry courses do not satisfy this requirement).

Applicants must have at least 1,000 clock hours of health care experience.

The admissions committee gives special attention to applicants' performance in science courses. Some successful applicants have had a g.p.a. of at least 3.70, both cumulative and in science; up to 141 s.h. of college credit, including at least 81 s.h. in the sciences; and more than 3,000 hours of clinical and/or research experience.

Satisfaction of the basic admission requirements does not ensure acceptance to the program. The admissions committee selects the applicants it considers best qualified. Previous health care experience involving direct

patient contact is preferred. The committee requests interviews with the most qualified applicants.

Applications are accepted from April 15 to November 1 for entry the following May. Each applicant must complete the Physician Assistant Education Association centralized application, which includes three letters of recommendation, GRE or MCAT scores, and transcripts. The majority of prerequisite course requirements must be completed by the November 1 application deadline.

Expenses

In addition to University of Iowa tuition and fees, Physician Assistant Program students must purchase their medical uniforms and diagnostic equipment, an expense of approximately \$1,700. Microscopes are not required.

Courses

117:001 (PA:8300) Physician Assistant Clinical Second Year arr.

117:101 (PA:8209) Introduction to Medical History and Physical Examination for Physician Assistant Students 0-3 s.h.

Development of skills vital to taking a comprehensive medical history, psychomotor skills, and physical examination techniques necessary for conducting a comprehensive physical exam.

117:103 (PA:8210) Clinical Decision Making I 1 s.h.

Review of basic concepts of research design and statistics as they apply to medical research literature; formation of a basis for sound, evidence-based, clinical decision making.

117:104 (PA:8211) Clinical Decision Making II 1 s.h.

Core concepts of evidence-based medicine; development of the knowledge and practical skills to search the medical literature for answers to clinical questions and critically appraise the evidence found.

117:107 (PA:8301) Seminar for Physician Assistant Students 1 s.h.

Professional issues that affect the physician assistant's practice of medicine.

117:110 (PA:8302) Introduction to Clinical Skills 1 s.h.

Suturing, injections, prescription and order writing, medical records, patient confidentiality, Iowa Law governing physician assistant practice, completion of the American Heart Association's Advanced Cardiac Life Support Program. Requirements: completion of physician assistant curriculum phase I.

117:201 (PA:8303) Clinical Decision Making III 1 s.h.

Asking appropriate clinical questions in the course of patient care; gathering information from multiple sources to answer questions.

117:300 (PA:8304) Emergency Medicine for Physician Assistant Students arr.

Obtaining and recording pertinent historical data, obtaining indicated laboratory studies, assessing the results, arriving at a diagnosis, formulating a treatment plan, implementing appropriate therapy.

117:301 (PA:8305) Gynecology for Physician Assistant Students	4 s.h.	117:325 (PA:8324) Otolaryngology Elective for Physician Assistant Students	arr.
Opportunity to develop proficiency in history and physical exams of gynecological patients; outpatient, family planning, gynecological cancer, concepts of diagnostic techniques and therapy.		Proficiency in recognizing otolaryngology problems; how to institute appropriate management of these conditions; opportunity for involvement in varied surgical procedures.	
117:302 (PA:8306) Family Practice I for Physician Assistant Students	4 s.h.	117:326 (PA:8325) Pediatric Elective for Physician Assistant Students	arr.
Obtaining and recording complete history and physical exams; formulation of differential diagnosis and problem list; ordering, obtaining, and interpreting lab and diagnostic studies; implementation of therapeutic procedures and treatment plans.		Experience working with children and adolescents.	
117:303 (PA:8307) Family Practice II for Physician Assistant Students	4 s.h.	117:327 (PA:8326) Radiology Elective for Physician Assistant Students	arr.
Opportunity to participate in delivery of ambulatory primary care; at a different site from 117:302 (PA:8306).		Proficiency in systematic evaluation of normal and abnormal routine radiologic examinations; listing indications for special exam procedures, including details of prepping the patient.	
117:304 (PA:8308) General Surgery for Physician Assistant Students	6 s.h.	117:328 (PA:8327) Pediatric Elective (Bone Marrow Transplant) for Physician Assistant Students	arr.
Preparation for work as an assistant to the generalist; outpatient and inpatient surgical services, including surgical procedures and management of postoperative course.		Basic clinical knowledge and skills for diagnosis, treatment, and management of pre- and post-bone-marrow transplant patients.	
117:305 (PA:8309) Internal Medicine for Physician Assistant Students	6 s.h.	117:329 (PA:8328) Pediatric (Cardiology) Elective for Physician Assistant Students	arr.
Eliciting a medical history, doing a pertinent physical exam, obtaining indicated lab studies, assessment of results, formulation of management plan and implementation of appropriate therapy for common internal medicine problems.		Cardiovascular assessment and problem management of pediatric patients; experience with a range of acute, chronic, common, and rare cardiology diseases.	
117:306 (PA:8310) Pediatrics for Physician Assistant Students	arr.	117:330 (PA:8329) Psychiatry Elective for Physician Assistant Students	arr.
Knowledge and skills required for providing appropriate medical care to infants, children, and adolescents; initiation and promotion of interpersonal relationships.		Training in evaluation and treatment of psychiatry patients.	
117:307 (PA:8311) Psychiatry for Physician Assistant Students	4 s.h.	117:331 (PA:8330) Surgery Elective for Physician Assistant Students	arr.
Training in history and physical exams of psychiatry patients, including individual and family therapy, vocational testing and guidance, development of interviewing skills.		Experience in a wide range of surgical problems, procedures, and treatments, including diagnosis, care and treatment, and postoperative courses of surgical patients.	
117:308 (PA:8312) Long-Term Care for Physician Assistant Students	arr.	117:332 (PA:8331) Surgery Elective (Transplant/ Organ Retrieval) for Physician Assistant Students	arr.
Development of clinical knowledge and skill in diagnosing, treating, and performing procedures for patients of long-term care settings; knowledge of relevant conditions.		Extensive experience in care of patients with end-stage organ failure; evaluation of potential transplant candidates, participation in surgical procedures on transplant service.	
117:321 (PA:8320) Dermatology Elective for Physician Assistant Students	arr.	117:333 (PA:8332) Surgery Elective (Burn Unit) for Physician Assistant Students	arr.
Recognizing dermatologic diseases and disorders, instituting appropriate management of patients with dermatologic problems.		Involvement in care on burn unit and in operating room; skills in burn debridement, grafting techniques, skin storage techniques, dressing changes, tub baths, and physical therapy procedures.	
117:322 (PA:8321) Neurology Elective for Physician Assistant Students	arr.	117:334 (PA:8333) Surgery Elective (Cardiac Surgery) for Physician Assistant Students	arr.
Performing general and neurological exams, establishing diagnosis, recommending lab studies, instituting appropriate management of common neurological diseases and disorders, recognizing the need for urgent treatment.		Development of technical skills in operating room; essentials of preoperative evaluation and postoperative management of cardiac surgical patient.	
117:323 (PA:8322) Obstetrics for Physician Assistant Students	arr.	117:335 (PA:8334) Orthopedics Elective for Physician Assistant Students	arr.
Proficiency in physical exam of OB patients; applying concepts of diagnostic techniques and therapy; following patients' course, including labor, delivery, and postpartum care.		Recognition of varied orthopedic problems and treatments; musculoskeletal diseases and disorders, both emergencies and common conditions, and how to establish appropriate management.	
117:324 (PA:8323) Ophthalmology Elective for Physician Assistant Students	arr.	117:336 (PA:8335) Internal Medicine Elective for Physician Assistant Students	arr.
Proficiency in recognizing ophthalmology problems; how to institute appropriate management of these conditions.		Training in varied internal medicine problems; recognition, appropriate treatment.	
		117:337 (PA:8336) Internal Medicine (Cardiology) Elective for Physician Assistant Students	arr.
		Cardiovascular assessment and problem management; experience with wide range of acute, chronic, common, and rare diseases.	

117:338 (PA:8337) Internal Medicine (EKG) Elective for Physician Assistant Students	arr.	117:351 (PA:8349) Occupational Medicine Elective for Physician Assistant Students	arr.
Experience reading electrocardiograms, interpreting cardiac arrhythmias, performing and evaluating EKG stress tests.		Basic clinical knowledge and skills for diagnosis, treatment, and prevention of work-related diseases, injuries, and conditions related to environmental exposure.	
117:339 (PA:8338) Internal Medicine (Gastroenterology) Elective for Physician Assistant Students	arr.	117:352 (PA:8350) Pediatrics (Neonatology) Elective for Physician Assistant Students	arr.
Experience with a wide range of gastrointestinal pathology; history and physical exams of gastrointestinal diagnostic procedures, follow-up care of patients through outpatient clinics.		Basic clinical knowledge and skill for diagnosis, treatment, and management of critically ill infants.	
117:340 (PA:8339) Internal Medicine (Oncology) Elective for Physician Assistant Students	arr.	117:353 (PA:8351) Internal Medicine (Rheumatology) for Physician Assistant Students	arr.
Experience to develop diagnostic skills in clinical oncology and gain familiarity with methods of staging common cancers; assistance in therapy and outpatient management of cancer patients.		Basic clinical knowledge and skills for diagnosis, treatment, and management of rheumatologic diseases.	
117:341 (PA:8340) Internal Medicine (Geriatrics) Elective for Physician Assistant Students	arr.	117:354 (PA:8352) Medical Intensive Care for Physician Assistant Students	arr.
Familiarity with broad spectrum of medical conditions among the elderly; experience in history and physical exams, diagnosis of geriatric patients along with follow-up visits.		Basic clinical knowledge and skills for diagnosis, treatment, and management of critically ill patients.	
117:342 (PA:8341) Internal Medicine (Pulmonary) Elective for Physician Assistant Students	arr.	117:355 (PA:8353) International Medicine for Physician Assistant Students	arr.
Development of basic clinical knowledge and skills for diagnosis, treatment, and management of pulmonary diseases.		Basic clinical knowledge and skills for diagnosis, treatment, and prevention of diseases, injuries, and conditions relevant to international medicine.	
117:343 (PA:8342) Internal Medicine (Hospice) Elective for Physician Assistant Students	arr.	117:356 (PA:8354) Interventional Radiology for Physician Assistant Students	arr.
Work on a hospice care team performing evaluation, treatment, and education of patients with terminal illnesses; dealing with the prospect of death.		Basic clinical knowledge and skills for diagnosis and treatment of conditions requiring interventional therapy.	
117:344 (PA:8343) Internal Medicine (Infectious Disease) Elective for Physician Assistant Students	arr.	117:357 (PA:8355) Gynecologic Oncology Elective for Physician Assistant Students	arr.
Development of basic clinical knowledge and skills for diagnoses, treatment, and management of infectious diseases.		Experience developing diagnostic skills in clinical gynecologic oncology, learning methods of staging specific cancers; and assisting in therapy and outpatient management of patients with varied cancers.	
117:345 (PA:8344) Internal Medicine (Correctional Medicine) Elective for Physician Assistant Students	arr.	117:358 (PA:8356) Wilderness Medicine for Physician Assistant Students	arr.
Experience with ambulatory medicine in a correctional institution; management of acute and chronic diseases, including HIV, hepatitis B&C, psychiatric conditions; focus on confidentiality, security.		Four-week emergency medicine elective taken in conjunction with Carver College of Medicine; mix of didactic and experiential learning; ten-day trip to Colorado to learn about hypothermia, altitude medicine, search and rescue, field evaluation, treatment and evacuation of common back country injuries; lectures and simulations.	
117:347 (PA:8345) Urology Elective for Physician Assistant Students	arr.		
Proficiency in managing patients with urologic conditions; skill in taking a urologic history, performing physical exams, interpreting laboratory studies and data.			
117:348 (PA:8346) Family Practice Elective for Physician Assistant Students	arr.		
Proficiency in delivering ambulatory primary care.			
117:349 (PA:8347) Gynecology Elective (Women's Health) for Physician Assistant Students	arr.		
Experience in annual gynecologic exams, PAP screening, gynecology problems, contraception issues, STD screening and counseling, common gynecologic procedures.			
117:350 (PA:8348) Migrant Health Elective for Physician Assistant Students	arr.		
Basic clinical knowledge and skills for diagnosis, treatment, and prevention of diseases, injuries, and conditions related to environmental exposure in migrant worker populations.

Head

James Potash

Professors

Nancy Andreasen, Stephan Arndt, George Bergus, Donald Black, Kathleen Buckwalter, Brian Cook, William Coryell, Samuel Kuperman, Douglas Langbehn, Jeffrey Long, Delwyn Miller, David Moser, Peggy Nopoulos, Daniel O'Leary, Jane S. Paulsen, Bruce Pfohl, Robert Philibert, Susan Schultz, Scott Stuart

Professors emeriti

Arnold Andersen, Arthur Canter, Raymond Crowe, Michael Garvey, Harold Mulford, Russell Noyes, Paul Perry, Robert Smith

Clinical professors

Bruce Alexander, John Bayless, Wayne Bowers, Judith Crossett, Michael Flaum, Scott Temple, Nancy A. Williams

Associate professors

Leigh Beglinger, Kristin Marsh Buroker, Chadi Calarge, Yelena Chistyakova, Gary Gaffney, Beng Choon Ho, Ricardo Jorge, Vincent Magnotta, Sergio Paradiso, Victor Swayze, Carolyn Turvey, Thomas Wassink, John Wemmie, Virginia Willour, Catherine Woodman

Adjunct associate professors

Janeta Tansey, Kevin Took

Clinical associate professors

James Amos, James Beeghly, Thomas Brashers-Krug, Peter Daniolos, Patrisica Espe-Pfeiffer, Vicki Kijewski, Jill Liesveld, Alison Lynch, Linda Madson, Anthony Miller, Karen Nelson, Debra Suda, Jodi Tate, Beth Troutman

Assistant professors

Lilian Dindo, Eric Epping, Jess Fiedorowicz, Hans Johnson, Michael Lutter, Laurie McCormick, Megan Smith

Adjunct assistant professors

Tami Argo, Michael Hall, John Hartson, Polly Nichols

Clinical assistant professors

Thad Abrams, Jeffery Alden, Nancy Beyer, Erin Crocker, Ravneet Dhaliwal, Elizabeth Faust, Elaine Himadi, Anne Kolar, Hristina Koleva, Robin Kopelman, Jennifer McWilliams, Anthony Miller, Angeles Morcuende, Susan Pike, Richard Rinehart, Michelle Weckmann, Allison Williams, Jessica Wood

Adjunct clinical assistant professors

Dew Abramoff, Raja Akbar, Eric Barlow, Bridgit Buck, Martin Carpenter, Donner Dewdney, Jason Gucfa, Adnan Iqbal, Kent Kunze, Leenu Mishra, Mark Preston, Larry Richards, Ara Robinson, Kevin Satisfsky, Bruce Sieleni, Manmohan Singh, Douglas Steenblock, William Warnes, Christopher Welsh

Adjunct instructors

Nancee Blum, Dan Grinstead, Bev Klug, Betty Moore

Web site: <http://www.medicine.uiowa.edu/psychiatry>

The Department of Psychiatry teaches M.D. students, principally during their third year, and trains resident physicians for academic and clinical careers in psychiatry.

Residency Programs

The department offers a four-year training program approved by the Residency Review Committee of the

American Medical Association. Training experiences are available at University of Iowa Hospitals and Clinics and at the Iowa City Veterans Affairs Medical Center. Additional experiences are available at affiliated institutions: Broadlawns Medical Center in Des Moines, the Iowa Medical and Classification Center at Oakdale, the Community Mental Health Center for Mid-Eastern Iowa in Iowa City, and the Independence Mental Health Institute (Iowa Department of Human Services).

The department also offers an approved two-year residency in child psychiatry. Fellowships in geriatrics and psychosomatic medicine are available after residency training.

Research

Department of Psychiatry staff members are involved in genetic and family studies of psychiatric disorders and research in genetic and biological psychiatry, neurochemistry, neuroimaging, neurophysiology, neuropsychiatry, and psychosocial aspects of behavior.

The department's students and residents have many research opportunities in psychiatry and in the basic science areas of neurochemistry, neurophysiology, and electrophysiology. The clinical areas of psychology, child psychiatry, and psychotherapy also offer opportunities for research and further study to a limited number of students.

Courses

073:255 (PSYC:8267) Psychiatric Epidemiology 3 s.h.

Population-based studies of psychiatric disorders and associated etiologic tools; diagnostic criteria used in psychiatric research, common structured interviews and rating scales; recent research relevant to common psychiatric disorders; experience writing a research idea using NIH PHS grant form. Offered spring semesters. Prerequisites: 173:140 (EPID:5400). Recommendations: 173:240 (EPID:6400) or two years of resident training in psychiatry. Same as 173:267 (EPID:6670).

For M.D. Students

073:005 (PSYC:8301) Clinical Psychiatry 4 s.h.

Requirements: third-year M.D. enrollment.

073:033 (PSYC:8401) Adult Psychiatry, Pappajohn Pavilion arr.

Requirements: M.D. enrollment.

073:035 (PSYC:8402) Child Psychiatry, Pappajohn Pavilion arr.

Roles of child psychiatry as a consultation service. Prerequisites: M.D. enrollment.

073:045 (PSYC:8403) Adult Outpatient Psychiatry and Psychotherapy 2,4 s.h.

Diagnostic assessment, evaluation, treatment of psychiatric patients; exposure to both psychotherapeutic, psychopharmacologic treatments. Requirements: M.D. enrollment.

073:047 (PSYC:8404) Women's Wellness and Counseling Service 4 s.h.

Experience evaluating and treating women with mental illness, with some emphasis on practitioner's autonomy; four-week rotation. Requirements: psychiatry clerkship.

073:049 (PSYC:8409) Eating Disorders 4 s.h.

Inpatient rotation; emphasis on co-occurring psychiatric and comorbid medical conditions associated with eating disorders; patient assessment and management at an advanced level; direct patient care and engagement in clinical decision making for complex patients with substantial comorbidity; call is required; student experience maximizes autonomy and responsibility; didactic curriculum; focus on critical appraisal of relevant medical literature. Prerequisites: 073:005 (PSYC:8301). Requirements: fourth-year M.D. enrollment.

073:050 (PSYC:8410) Intellectual Disability 2,4 s.h.

In-depth two week clinical experience in the interdisciplinary approach to assessment and management of individuals with intellectual disability. Requirements: M.D. enrollment.

073:051 (PSYC:8411) Substance Abuse 2,4 s.h.

In-depth clinical experience in assessment and management of individuals with alcohol and drug abuse. Requirements: M.D. enrollment.

073:052 (PSYC:8412) Emergency Psychiatry 2,4 s.h.

In-depth clinical experience in assessment and management of acute psychiatric illness under supervision of faculty with expertise in care within this setting; clinical experiences centered in emergency department at University of Iowa Hospitals and Clinics. Prerequisites: 073:005 (PSYC:8301). Requirements: third- or fourth-year M.D. enrollment.

073:053 (PSYC:8407) Advanced Clinical Psychiatry, Des Moines 4 s.h.

Work in adult psychiatry setting and/or child-adolescent psychiatry setting for a four-week rotation; optional participation in psychiatric emergency/crisis care team, substance abuse clinics, and/or ECT treatment sessions.

073:060 (PSYC:8450) Continuity of Care in Psychiatry 4 s.h.

Experience in Psychiatry Continuity of Care Clinic; maximizes autonomy and responsibility in an outpatient continuous care setting. Requirements: fourth-year M.D. enrollment.

073:105 (PSYC:8497) Research Psychiatry arr.

Experience, training in practical application of scientific methodology; work with research project at Psychiatric Service or affiliated cooperating research centers. Requirements: fourth-year M.D. enrollment.

073:835 (PSYC:8405) Subinternship in Medical Psychiatry 4 s.h.

Hands-on experience in evaluation and treatment of patients with combined medical and psychiatric disease; decisions regarding appropriate consultations, diagnostic tests, treatment; etiology and pathophysiology. Requirements: M.D. enrollment.

073:836 (PSYC:8408) Subinternship in Mood/Psychotic Disorders 4 s.h.

Subinternship in adult psychiatry; experiences that maximize autonomy and responsibility; inpatient rotation focuses on one subspecialty area (psychotic disorders or mood disorders); emphasis on substantial medical comorbidity; assess and address medical and psychiatric needs of assigned patients in a collaborative and integrative fashion; assess and manage patients independently at the level of a psychiatry intern, reporting directly to the attending; call is required; didactic curriculum focuses on critical appraisal of medical literature. Prerequisites: 073:005 (PSYC:8301). Requirements: fourth-year M.D. enrollment.

073:998 (PSYC:8498) Psychiatry on Campus arr.

Arranged by student with departmental approval. Requirements: M.D. enrollment.

073:999 (PSYC:8499) Psychiatry off Campus

arr.

Requirements: M.D. enrollment.

Radiation Oncology

Web site: <http://www.uihealthcare.com/depts/med/radiationoncology>

Radiation oncology specializes in the delivery of radiation treatments for cancer patients. It includes treatments with linear accelerators as well as isotopes and temporary and permanent surgically implanted sources. Radiation oncologists also use these methods to treat some benign diseases, such as Graves' ophthalmopathy and trigeminal neuralgia.

The Department of Radiation Oncology is dedicated to educating graduate students, radiation therapy technology students, physics students, medical residents, and medical students. Its faculty members provide instruction for Master of Science and Doctor of Philosophy students in the Free Radical and Radiation Biology (p. 953) Program, through their participation in 077:103 (FRRB:5000) Radiation Biology, 077:211 (FRRB:6002) Medical Physics, 077:222 (FRRB:7000) Free Radicals in Biology and Medicine, and 077:288 (FRRB:7001) Molecular and Cellular Biology of Cancer. The faculty also provides instruction for Carver College of Medicine students.

The department's professional staff provides training in radiation therapy technology for undergraduate students in the Radiation Sciences (p. 1010) Program by teaching courses 672:803 (RSTH:4100) Radiation Therapy I and 672:804 (RSTH:4200) Radiation Therapy II.

The department provides a four-year physician residency training program in radiation oncology that includes clinical care and education. It also has a residency program in medical physics. M.D. students can elect a two- or four-week radiation oncology rotation. Nursing students, dental residents, and fellows in gynecologic oncology and in adult and pediatric hematology and oncology do rotations in the department.

The department also offers specialized research projects and sponsors postdoctoral students in biology, physics, and clinical disciplines by arrangement with the instructor or mentor.

Courses

186:202 (RADO:8401) Radiation Oncology 2,4 s.h.

Integration of clinical oncology, physics, and cancer biology; clinical work with faculty mentors; experience in clinical evaluation, technical physics, biological application.

186:998 (RADO:8498) Radiation Oncology on Campus arr.

Development of new markers for normal tissue toxicity following radiation treatment.

186:999 (RADO:8499) Radiation Oncology off Campus arr.

Arranged by the student with department approval.

Undergraduate major: radiation sciences (B.S.)

Web site: <http://www.healthcare.uiowa.edu/radsci>

Radiation sciences professionals work with physicians to gather accurate patient information for diagnosis, treatment, and/or research of disease and injury. They provide direct patient care, produce quality images, and deliver treatment using a variety of radiation sources. The radiation sciences professional must apply knowledge, skill, and mature judgment while operating complex equipment safely and efficiently.

The University of Iowa's radiation science educational programs are designed to provide students with opportunities for intellectual, professional, and social growth. Students learn with faculty members and instructors who are committed to radiation science education.

Radiation sciences is one of two undergraduate majors in the field of medical imaging offered by the Carver College of Medicine. It encompasses radiologic technology, computed tomography, magnetic resonance imaging, cardiovascular interventional, diagnostic medicine sonography, and radiation therapy programs. The other undergraduate major in medical imaging is nuclear medicine technology; see Nuclear Medicine Technology (p. 974) in the Catalog.

The Carver College of Medicine is located on the University of Iowa health sciences campus, which includes University of Iowa Hospitals and Clinics, one of the nation's largest university-owned teaching hospitals. For information about the college's academic programs and resources, see Carver College of Medicine (p. 912) in the Catalog.

Undergraduate Program

- Major in radiation sciences (Bachelor of Science)

Undergraduate study in radiation sciences is guided by the academic rules and procedures outlined under "Undergraduate Programs" in the Carver College of Medicine (p. 912) section of the Catalog.

Requirements for the major in radiation sciences have changed. Students who enter the University in or after fall 2012 and those who have not completed a radiation sciences professional program must fulfill the requirements stated below. Students who have completed or who will complete a radiologic technology program before fall 2014 fulfill the requirements stated in the Radiation Sciences section of the 2011-12 General Catalog.

University of Iowa Hospitals and Clinics no longer offers the two-year certificate program in radiologic technology.

Bachelor of Science

The Bachelor of Science with a major in radiation sciences requires a minimum of 120 s.h. Work for the degree includes a set of courses that are prerequisite to entering the radiation sciences major, completion of one of several radiation sciences professional programs, and elective course work sufficient to complete the 120 s.h. required for graduation. Students must complete the radiation sciences professional program at The University of Iowa.

Admission to the radiation sciences major is competitive. Students who wish to enter the major must first be admitted to The University of Iowa as College of Liberal Arts and Science (CLAS) students with a radiation sciences interest. As CLAS students, they must apply to the radiation sciences professional program of their choice by January 15 of the year in which they wish to enter it (see "Radiation Sciences Professional Programs" below). Students who are accepted enter the professional program, the radiation sciences major, and the Carver College of Medicine the following fall semester.

Applicants for admission to The University of Iowa whose first language is not English must submit a score of at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Those who do not meet this requirement must take the on-campus English Proficiency Evaluation and must complete English as a Second Language (ESL) courses required as a result of the evaluation. They must be able to satisfy the University's English language proficiency requirement before they may be admitted to a radiation sciences professional program.

For additional information on UI admission requirements, contact the University's Office of Admissions.

First-year and transfer applicants who are admitted to CLAS as radiation sciences interest students must complete all courses that are prerequisite to the radiation sciences major (including approved transfer equivalents) before they may begin one of the radiation sciences professional programs and enter the major. Prerequisite courses vary slightly depending on which professional program the student wishes to enter.

Students who have declared a radiation sciences interest but have not yet applied and been accepted to a professional program are advised at the University's Academic Advising Center. After they have been accepted to a professional program, they are advised by the Radiation Sciences Program.

When students complete the professional multimodality program, they are eligible to take national certification exams for their program's specialty areas. Once they have completed the professional program and all other requirements for graduation, they are granted a Bachelor of Science degree.

The Bachelor of Science with a major in radiation sciences requires the following work.

PREREQUISITES TO THE RADIATION SCIENCES MAJOR

All students must complete the following prerequisite courses before they may enter a radiation sciences professional program and the major. Students who wish to enter the radiation therapy professional program must complete a total of 60 s.h. of college course work,

including the following prerequisites, before they may enter the program and the major.

Rhetoric:

010:003 (RHET:1030) Rhetoric	4 s.h.
------------------------------	--------

Anatomy—one of these:

027:053 (HHP:1100) Human Anatomy	3 s.h.
060:099 (ACB:1199) Human Anatomy and Basic Physiology for Radiation Science	4 s.h.
060:110 (ACB:2110) Principles of Human Anatomy	3 s.h.
060:113 (ACB:2113) Human Anatomy Online	4 s.h.

Natural sciences—one of these (students who wish to enter a diagnostic medical sonography program or the radiation therapy program must choose 029:008 (PHYS:1400) or 029:011 (PHYS:1511)):

002:021 (BIOL:1140) Human Biology	4 s.h.
004:007 (CHEM:1070) General Chemistry I	3 s.h.
004:011 (CHEM:1110) Principles of Chemistry I	4 s.h.
027:050 (HHP:1300) Fundamentals of Human Physiology	3 s.h.
027:130 (HHP:3500) Human Physiology	3 s.h.
029:008 (PHYS:1400) Basic Physics	3-4 s.h.
029:011 (PHYS:1511) College Physics I	4 s.h.

Quantitative or formal reasoning—one of these:

22M:009 (MATH:1020) Elementary Functions	4 s.h.
22M:015 (MATH:1440) Mathematics for the Biological Sciences	4 s.h.

Social science:

031:001 (PSY:1001) Elementary Psychology	3 s.h.
--	--------

Medical terminology:

20E:103 (CLSA:3750) Medical and Technical Terminology	2 s.h.
---	--------

Culture, society, and the arts—3 s.h. in each of two of these (total of 6 s.h.):

Historical Perspectives approved course work	3 s.h.
International and Global Issues approved course work	3 s.h.
Literary, Visual, and Performing Arts approved course work	3 s.h.
Values, Society, and Diversity approved course work	3 s.h.

See General Education Program (p. 276) (College of Liberal Arts and Sciences) in the Catalog for approved courses in the culture, society, and arts areas.

RECOMMENDED PRE-MAJOR WORK

The Radiation Sciences Program recommends that before students enter a radiation sciences professional program and the major, they job-shadow a professional who works in their area of interest, gain hands-on experience with patient care, and complete the following additional preparatory courses.

680:010 (RSP:1100) Introduction to the Radiation Sciences	1 s.h.
---	--------

One of these:

22C:001 (CS:1020) Principles of Computing	3 s.h.
22C:005 (CS:1110) Introduction to Computer Science	3 s.h.

One of these:

22S:025 (STAT:1020) Elementary Statistics and Inference	3 s.h.
22S:101 (STAT:3510) Biostatistics	3 s.h.
22S:102 (STAT:5543) Introduction to Statistical Methods	3 s.h.

For students interested in entering the radiation therapy professional program, one of these sequences:

004:007 (CHEM:1070)-004:008 (CHEM:1080) General Chemistry I-II	6 s.h.
004:011 (CHEM:1110)-004:012 (CHEM:1120) Principles of Chemistry I-II	8 s.h.

ELECTIVES

In order to earn the minimum of 120 s.h. required for graduation, students may need to complete elective course work in addition to the prerequisite course work listed above and one of the professional programs in medical imaging described below. They should plan their elective courses in consultation with their advisor.

RADIATION SCIENCES PROFESSIONAL PROGRAMS

Students must complete one of the following radiation sciences professional programs at University of Iowa Hospitals and Clinics. Each program offers modality-specific didactic and supervised clinical education courses. Graduates of the professional programs and associated internships are eligible to take one or more certification exams.

The radiologic technology programs and diagnostic medical sonography programs last three years, and the radiation therapy program lasts two years. Each program begins in fall.

Students must apply to the program of their choice by January 15 of the year in which they wish to enter it. The radiologic technology programs will be offered for the first time in fall 2013; students must apply to them by January 15, 2013. The diagnostic medical sonography programs and the radiation therapy program will be offered for the first time in fall 2014; students must apply to them by January 15, 2014.

Admission to all radiation sciences professional programs is competitive; each program accepts a limited number of students. To apply, students must have a cumulative g.p.a. of at least 2.50 in college course work.

Radiologic Technology and Computed Tomography

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography and computed tomography (CT). The computed tomography component concentrates on sectional anatomy, single and multislice CT, electron beam CT, physiologic and 3-D imaging, CT simulation, physics and imaging, and procedures and pathology.

Upon completing the program, graduates are eligible to take the national certification exams in radiography and computed tomography.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15. The program's first group of students will begin fall 2013.

Radiologic Technology and Magnetic Resonance Imaging

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography and magnetic resonance imaging (MRI). The magnetic resonance imaging component offers intensive study and practice in MRI, including patient care procedures, pathophysiology, physics, sectional anatomy, and instrumentation.

Upon completing the program, graduates are eligible to take the national certification exams in radiography and magnetic resonance imaging.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15. The program's first group of students will begin fall 2013.

Radiologic Technology and Cardiovascular Interventional

The radiologic technology component of this program provides education in pathology, radiation biology, radiation protection, patient care, and ethics. Students learn about radiographic procedures, imaging, and evaluation. They become acquainted with imaging equipment, study quality assurance, and participate in supervised clinical education in radiography, cardiac interventional, and peripheral/neurological interventional. The cardiovascular interventional component concentrates on imaging equipment; pharmacology; sterile techniques; cardiac monitoring; vascular anatomy and physiology; cardiovascular, peripheral, and neurological procedures and pathology; therapeutic intervention techniques; and digital angiography.

Upon completing the program, graduates are eligible to take the national certification exams in radiography, vascular interventional technology, and cardiac interventional technology.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15. The program's first group of students will begin fall 2013.

Diagnostic Medical Sonography in General and Vascular Sonography

The diagnostic medical sonography program in general and vascular sonography provides a multispecialty education in obstetrical, abdominal, and vascular sonography (ultrasound imaging). Students learn about sonographic imaging and evaluation, hemodynamics and Doppler evaluation, sonography equipment, sectional anatomy, pathology, patient care, medical ethics, and quality assurance methods. They become proficient in using sonographic imaging equipment and in performing obstetrical and gynecological, abdominal, and vascular sonographic procedures, including invasive procedures, emergency exams, and 3-D imaging. They also participate in supervised clinical education. Elective courses are available in neurosonography and breast sonography.

Upon completing the program, graduates are eligible to take the national certification exams in diagnostic medical

sonography and in the specialty areas of obstetrics and gynecology, abdomen, and vascular technology.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15. The program's first group of students will begin fall 2014.

Diagnostic Medical Sonography in Cardiac and Vascular Sonography

The diagnostic medical sonography program in cardiac and vascular sonography provides a multispecialty education in cardiac (echocardiography) and vascular sonography (ultrasound imaging). Students learn about sonographic imaging and evaluation, hemodynamics and Doppler evaluation, sonography equipment, sectional anatomy, pathology, patient care, medical ethics, and quality assurance methods. They become proficient in using sonographic imaging equipment and in performing cardiac and vascular sonographic procedures, including invasive procedures, emergency exams, and 3-D imaging. They also participate in supervised clinical education. Elective courses are available in neurosonography and breast sonography.

Upon completing the program, graduates are eligible to take the national certification exams in diagnostic medical sonography and in the specialty areas of cardiac (echocardiography) and vascular technology.

Students typically apply to this three-year program during their first year and begin it in fall of their sophomore year. Application deadline is January 15. The program's first group of students will begin fall 2014.

Radiation Therapy and Computed Tomography

The radiation therapy professional program teaches theory and techniques of radiation therapy technology, with emphasis on competence in areas of oncology treatment planning, treatment delivery, dosimetry, and use of megavoltage radiation-producing equipment to administer treatment. Students participate in clinical education in radiation therapy. The computed tomography (CT) portion of this program concentrates on sectional anatomy, single and multislice CT, electron beam CT, physiologic and 3-D imaging, CT simulation, physics and imaging, and procedures and pathology.

Upon completing the program, graduates are eligible to take the national certification exam in radiation therapy. Students will have completed the course work but not the clinical component to take the national certification exam in computed tomography.

Students typically apply to this two-year program during their sophomore year and begin it in fall of their junior year. Application deadline is January 15. The program's first group of students will begin fall 2014.

Courses

680:010 (RSP:1100) Introduction to the Radiation Sciences 1 s.h.

Exploration of radiation sciences field (radiologic technology, nuclear medicine and PET, diagnostic medical sonography, radiation therapy, computed tomography, magnetic resonance imaging, cardiovascular interventional); introduction to basic principles and modalities associated with the field in preparation for application to radiation sciences or nuclear medicine technology major.

680:110 (RSP:2110) Pathology for Radiation Sciences 2 s.h.

General pathologic processes; introduction to imaging modalities; pathological terms that describe the body's response to stress and disease; how the body responds to and forms pathological diseases (e.g., infectious and parasitic diseases, inflammation and repair, immunopathology, neoplasia, genetic disorders, dietary deficiencies and excesses, hemodynamic disorders, trauma and emergencies). Requirements: acceptance to radiation science degree track.

680:111 (RSP:4110) Research Methodology for Radiation Sciences 3 s.h.

Introduction to research concepts and methods for the radiation science professional. Requirements: radiation sciences or nuclear medicine technology major.

680:120 (RSP:2120) Patient Care for the Radiation Sciences 3 s.h.

Foundation for providing care to clients during radiographic examinations; taking medical histories, basic life support, medical emergencies, vital sign assessment, body mechanics, infection control, sterile techniques, intravenous equipment, administration; advance concepts in client assessment and monitoring, including evaluation and monitoring of clients in pain, and clients in acute and chronic states of illness; communication techniques, role playing. Requirements: acceptance to radiation science degree track.

680:150 (RSP:4101) Medical Imaging and Radiology Informatics 3 s.h.

Issues in informatics used in medical imaging and radiology; basic concepts, principles, terminology, and technology in medical imaging informatics; PACS operation, design, implementation; digitalization and acquisition of medical images; storage retrieval; image data formation and conversion, image data communication, workflow, visualization and display; medical imaging informatics; web application/services-based telemedicine and teleradiology.

680:210 (RSP:3210) Medical Ethics and Law 2 s.h.

Introduction to ethical reasoning and problem solving; integration of knowledge about patient care and ethical/legal issues which occur in process of providing care; ethical principles of autonomy, beneficence, justice, nonmaleficence, paternalism, Patient's Bill of Rights, resolving moral dilemmas; legal principles of malpractice, intentional torts, negligence. Requirements: radiation science or nuclear medicine technology major.

680:220 (RSP:3220) Radiation Sciences Quality Management and Health Care Administration 2 s.h.

Introduction to health care administration; quality management, safety, and patient satisfaction concepts for the radiation sciences professional. Requirements: radiation sciences or nuclear medicine technology major.

Radiology

Interim head

Edmund A. Franken Jr.

Professors

Monzer M. Abu-Yousef, Kevin S. Berbaum, David Bushnell, Michael D'Alessandro, Georges Y. El-Khoury, Laurie L. Fajardo, Michael M. Graham, Richard D. Hichwa, Eric A. Hoffman, Malik Juweid, Daniel Kahn, Simon Kao, Mark T. Madsen, Brian Mullan, John D. Newell Jr., Kenjiro Ohashi, Jeong Mi Park, Axel Ruprecht, Yutaka Sato, Wendy Smoker, Timothy Tewson

Professors emeriti

Frank Cheng, James Ehrhardt, William E. Erkonen, Edmund A. Franken Jr., Peter Kirchner, Charles C. Lu, William Stanford

Associate professors

Thomas Barloon, D. Lee Bennett, Thomas Grabowski, Jerry Kovoov, David Kuehn, Vincent Magnotta, Joan Maley, Yusuf Menda, Louis Messerle, Toshio Moritani, Jun Ni, Bruno Policeni, Laura Ponto, Punam Saha, Alan Stolpen, Shiliang Sun, John Sunderland, Brad H. Thompson, G. Leonard Watkins, Jinhu Xiong

Associate professor emeritus

Web site: <http://www.healthcare.uiowa.edu/surgery/>

The Department of Surgery offers didactic instruction as well as clinical and other practical experiences for medical students. It also hosts a wide spectrum of clinical and scientific research.

M.D. Student Training

Department of Surgery courses provide a unique combination of experience oriented toward patient care and understanding of surgery's place among the physician's skills. Surgery courses are open only to M.D. students and qualified students in associated health sciences.

Students develop an awareness of surgery's role in the treatment of disease. Emphasis is placed on general surgery, basic emergency surgery, trauma, oncology, burns, gastrointestinal and biliary tract disease, endocrine disease, pediatric surgery, transplantation, plastic and reconstructive surgery, and peripheral vascular surgery.

The majority of surgery courses involve patient-centered discussions and practical exercises interwoven with operating room experience. Lectures and conferences are scheduled regularly on specific topics.

The department offers independent study courses in selected surgery topics and clinical experiences; some are available to fourth-year M.D. students by arrangement with the faculty.

Faculty

The faculty's strengths center in pathophysiology and problems of severe burns, trauma, organ transplantation, surgical control of morbid obesity, surgical oncology, bowel disease, biliary tract disease, pediatric surgery, endocrine disease, plastic surgery, and vascular surgery.

Facilities

Abundant patient contact provides education in a wide variety of surgical diseases. The Department of Surgery provides training in the only burn unit in Iowa approved by the American College of Surgeons and in the Level I Trauma Center at University of Iowa Hospitals and Clinics.

Laboratories provide equipment, space, and technical expertise to support teaching and a wide spectrum of clinical and scientific research. Projects are available in gastrointestinal surgery, surgical microbiology, peripheral vascular surgery, transplantation, wound healing, organ preservation, vascular surgery, pediatric surgery, and surgical oncology.

Courses

075:005 (SURG:8301) Clinical Surgery 6 s.h.

Experience as active member of surgical team; work on inpatient units, in clinics and operating room; assist in elective and emergency patient care.

075:216 (SURG:8402) Subinternship in General Surgery 4 s.h.

Responsibility for management of selected surgical inpatients, on a surgical service. Prerequisites: 075:005 (SURG:8301).

075:217 (SURG:8401) Advanced General Surgery 4 s.h.

Opportunity to strengthen clinical skills through experiences in the operating rooms, clinics, wards, and intensive care units of University of Iowa Hospitals and Clinics.

075:235 (SURG:8406) General Surgery, Des Moines, IA 4 s.h.

Care of general surgery patients in private hospital setting. Prerequisites: 075:005 (SURG:8301).

075:236 (SURG:8407) Intensive Care Unit-Trauma, Iowa Methodist 4 s.h.

Subinternship on trauma service team; evaluation and management of critically ill patients in the emergency room, operating room, intensive care unit. Prerequisites: 075:005 (SURG:8301). Requirements: fourth-year M.D. enrollment.

075:237 (SURG:8409) General Surgery, Davenport, IA 4 s.h.

Participation in diagnosis and management of general surgical patients under supervision of attending surgeons from Davenport Surgical Group, Genesis Medical Center. Prerequisites: 075:005 (SURG:8301). Requirements: fourth-year M.D. enrollment.

075:998 (SURG:8498) Surgery on Campus arr.

Surgery on campus; individually arranged. Prerequisites: 075:005 (SURG:8301).

075:999 (SURG:8499) Surgery off Campus arr.

Prerequisites: 075:005 (SURG:8301).

Urology

Head

Karl J. Kreder

Professors

James A. Brown, Christopher S. Cooper, Karl J. Kreder, David M. Lubaroff, Michael A. O'Donnell

Professors emeriti

Bernard Fallon, Charles E. Hawtrey

Clinical professor

Victoria Sharp

Associate professor

Moshe Wald

Clinical associate professor

Elizabeth B. Takacs

Assistant professors

Brad Erickson, Amit Gupta

Clinical assistant professors

Kathleen Kieran, Chad Tracy

Web site: <http://www.medicine.uiowa.edu/urology>

Urology encompasses the subspecialty areas of urologic nephrology, oncology, and endocrinology; male reproductive physiology; erectile dysfunction; neurourology; pediatric urology; urinary tract stone and infection, including endourology; laparoscopic urology; diagnostic urology, and urinary tract obstruction.

The Department of Urology offers instruction in all of these areas at both the undergraduate and graduate levels and provides continuing education for the delivery of urologic care.

M.D. Student Training

The Department of Urology cooperates with several University of Iowa basic science departments to educate first-year M.D. students in the relationship between urology and the basic sciences. It collaborates with the Department of Microbiology (p. 963) in teaching and research concerning immunology of genitourinary cancers and renal transplantation.

In the second-year M.D. course, 050:165 (MED:8215) Foundations of Clinical Practice IV ICD, the department presents illustrative lectures and demonstrations related to diagnosis and treatment of genitourinary tract diseases.

Third- and fourth-year M.D. students take Department of Urology courses that provide experience in all areas of urology. The department's required two-week clerkship covers the fundamentals of these areas through experience in outpatient clinics and inpatient units at University of Iowa Hospitals and Clinics and the Iowa City Veterans Affairs Medical Center as well as in daily interactive teaching seminars. Fourth-year M.D. students can take advanced elective courses of intensive study in any of the urologic subspecialties.

Continuing Education

The department offers continuing education activities throughout the year for urologic and family practitioners. These activities are conducted by the senior staff, whose interests include pediatric urology, reproductive

physiology, urologic oncology, urinary tract stone (including endourology/laparoscopy), and prostatic diseases.

Research

The department has earned international recognition for its studies of prostatic diseases. The urological laboratories conduct research and offer instruction in experimental oncology, cellular immunology, and infertility.

Courses

079:104 (URO:8301) Clinical Urology 2 s.h.

Work in urology unit, clinic; responsibility for patient care, working with residents.

079:108 (URO:8401) Advanced Clerkship in Urology 4 s.h.

Experience as integral member of urological staff, junior resident level.

079:109 (URO:8402) Advanced Clerkship Pediatric Urology 2,4 s.h.

In-depth study of pediatric urology topics. Prerequisites: 079:104 (URO:8301). Requirements: M.D. enrollment.

079:110 (URO:8496) Individual Study and Research arr.

Preclinical or clinical projects; may include research presentation, collaboration on a publication.

079:115 (URO:8403) Urology Oncology 2,4 s.h.

Multispecialty exposure to diagnosis and treatment of patients with current and newly-diagnosed urologic malignancies. Requirements: M.D. enrollment.

079:117 (URO:8404) Female Pelvic Floor Dysfunction 2,4 s.h.

Requirements: M.D. enrollment.

079:120 (URO:8405) Community General Urology, Des Moines 4 s.h.

Exposure to the entire spectrum of private practice urology, in office and operating room settings; experience with preoperative and postoperative care; nonoperative aspects of office-based community urology. Prerequisites: 079:104 (URO:8301).

079:999 (URO:8499) Urology off Campus arr.

Individually arranged by students with department approval.

College of Nursing

Dean

Rita A. Frantz

Associate dean for academic affairs

Jill Scott-Cawiezell

Associate dean for faculty

Keela Herr

Associate dean for research

Ann Marie McCarthy

Assistant dean for undergraduate and prelicensure programs

Ellen Cram

Professors

Mary Kathleen Clark, Kenneth Culp, Rita Frantz, Keela Herr, Diane Huber, Ann Marie McCarthy, Jill Scott-Cawiezell, Janet Specht, Toni Tripp-Reimer, Janet Williams

Professors emeritae

Kathleen Buckwalter, Gloria Bulechek, Martha Craft-Rosenberg, Connie Delaney, Joanne McCloskey Dochterman, M. Patricia Donahue, Melanie Dreher, Geraldene Felton, Marion Johnson, Meridean L. Maas, Rosemary McKeighen, Hope Solomons, Barbara Thomas, Edward S. Thompson

Clinical professors

Patricia Clinton, Carol Watson, Ann Williamson

Associate professors

Lioness Ayres, Howard K. Butcher, Joann Eland, Sue Gardner, Sue Moorhead, Barbara Rakel, Elizabeth Swanson, Janette Taylor

Associate professors emeritae

Toni Clow, Janice Ann Denehy, Mildred Freel, Rose Marie Friedrich, Orpha Glick, Laura Hart, Charmaine Kleiber, Jean Lakin, Leslie Marshall, Eleanor McClelland, Paula Mobily, Sandra Powell, Jean Reese, Kay Weiler

Clinical associate professors

Mary Berg, Richard Bogue, Virginia Conley, Ellen Cram, Brenda Hoskins, Teresa Judge-Ellis, Robin Pattillo, Ann M. Rhodes, Kerri Rupe, Deborah Schoenfelder, Rebecca Siewert, Anita Stineman, Jill Valde

Assistant professors

Sandra Daack-Hirsch, Nancy Downing, Martha Driessnack, Anne Ersig, Der-Fa Lu, Pamela Mulder, Sandra Ramey, Lisa Segre, Marianne Smith, Victoria Steelman, Andrea Wallace

Assistant professors emeritae

Pam Ballard, Carolyn Crowell, Louise Kruse, Sonja Lively, Frances Milde, Beverly Saboe, Mary Stewart-Dedmon, Pamela Willard

Clinical assistant professors

Veronica Brighton, Connie De Boef, Jan Foote, Todd Ingram, Maria Lindell Joseph, Susan Lehmann, Nicolett Markovetz, Sherry McKay, Cormac O'Sullivan

Clinical instructors

Vanessa Kimm, Kelly Smith

Lecturers

Kelley Blackburn, Jacinda Bunch, Carol Dupic, Darlene Gibson, Mila Grady, Margaret Hyndman, Theresa Keller, Barbara Kyles, Curtis Long, Debra McCarthy, Patricia

Nelson, Nicole Peterson, N. Jane Prater, Debra Strobel, Ann Struve

Associates

Heide Bursch, Amany Farag, Ruth Grossmann, Patricia Groves, Melissa Lehan Mackin, Elisa Torres

Undergraduate major: B.S.N.

Graduate degrees: M.S.N.; D.N.P.; Ph.D. in nursing

Graduate certificate: advanced practice nursing

Web site: <http://www.nursing.uiowa.edu>

The College of Nursing is an integral part of the University of Iowa health science campus, sharing in and contributing to teaching, research, and patient care resources that have earned international recognition. The University provides an unusually fine setting for nursing preparation because the educational and clinical resources vital to educating nurses are available on or near the campus. Faculty and students participate fully in University life and contribute their time, interests, and abilities to the many general and special activities of a major research university.

The college's Bachelor of Science in Nursing (B.S.N.), Master of Science in Nursing (M.S.N.), clinical nurse leader (in the M.S.N.), and Doctor of Nursing Practice (D.N.P.) programs are accredited by the Commission on Collegiate Nursing Education (CCNE), an autonomous accrediting arm of the American Association of Colleges of Nursing (AACN). They also are approved by the Iowa Board of Nursing. The anesthesia nursing program (in the Doctor of Nursing Practice) is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

Graduates of the prelicensure B.S.N. and the M.S.N. clinical nurse leader programs qualify to take the licensure examination required for practice as registered nurses (RN). Graduates of advanced practice majors in the graduate program are eligible to take certification examinations and apply for Advanced Registered Nurse Practitioner (ARNP) licensure.

Undergraduate Programs

- Bachelor of Science in Nursing

The Bachelor of Science in Nursing (B.S.N.) prepares students for careers caring for patients in hospitals and in community agencies such as public health services, schools, homes, and industries. It also provides a base for graduate study in nursing.

The College of Nursing offers two B.S.N. programs: a prelicensure program for students who do not hold a nursing license (see "Bachelor of Science in Nursing" below) and a program for registered nurses (see "RN-B.S.N. for Registered Nurses" below).

In addition to combining general education with specialized career preparation, the University of Iowa program in nursing offers the advantages of full participation in the social, cultural, and recreational activities of a highly diverse campus community. A university education enables students to prepare for a career as well as a life of thought and action informed by knowledge, introspection, and contemplation.

The nursing major provides a basis for nurses' roles in wellness and health promotion, in acute care, and in long-term care for chronic illness. The professional nurse may provide care to individuals, families, groups, and

communities along a continuum of health, illness, and disability in any sector of the health care system.

In addition to providing care, the nurse serves as a coordinator of health care by organizing and facilitating the delivery of comprehensive, efficient, and appropriate service to individuals, families, groups, and communities. The nurse demonstrates the ability to conceptualize the total continuing health needs of the patient, including legal and ethical aspects of care. The University of Iowa program's goal is to produce graduates who are competent, committed, creative, and compassionate.

Bachelor of Science in Nursing

The Bachelor of Science in Nursing prelicensure program requires 128 s.h., including 64 s.h. in the nursing major and 64 s.h. in supporting course work that is prerequisite to the nursing major. The program is intended for students beginning their education in nursing. A B.S.N. program for registered nurses is described under "RN-B.S.N. for Registered Nurses" below.

B.S.N. students may complete their entire program at Iowa, enrolling in the College of Liberal Arts and Sciences to complete courses that are prerequisite to the nursing major, or they may transfer from an institution that offers comparable prerequisite courses that are approved by The University of Iowa and the College of Nursing. They must earn competitive admission to the College of Nursing once they have completed the prerequisite course work. Highly qualified applicants may be admitted to the College of Nursing directly from high school under the B.S.N. early decision program; see "Admission" later in this Catalog section.

Students who are part of the B.S.N. early decision program spend their first four semesters (two years) on prerequisite course work and complete the requirements for the nursing major during the next four semesters (their third and fourth years), earning the B.S.N. in a total of four academic years. Students who earn competitive admission to the College of Nursing spend their first five semesters on prerequisite course work. They begin work for the nursing major in spring of their third year and complete the major in four semesters, earning the B.S.N. in a total of four-and-a-half-years.

University of Iowa students who have declared an interest in the prelicensure nursing program are advised at the University's Academic Advising Center until they are admitted to the College of Nursing. After admission to the college, each student is assigned a College of Nursing faculty advisor and a professional advisor in the college's Office of Student Services.

Nursing courses are based on concepts of health, deviations from health, and nursing intervention. Course work progresses in complexity across the curriculum. The curriculum reflects the current trend in health care delivery toward emphasis on nursing as a service provided both inside and outside hospitals. Students have access to clinical experiences selected from a multitude of agencies in Iowa and around the country.

The B.S.N. prelicensure program requires the following course work. Students must complete the prerequisite course work before beginning work required for the major in nursing.

B.S.N.: PREREQUISITE COURSES

Early decision students complete all of the following prerequisites during their first and second years of enrollment at The University of Iowa. Competitive admission students must complete all of the following prerequisites, with the exception of one natural science course and one social science course, before they may apply for admission to the College of Nursing.

General education prerequisites:

010:003 (RHET:1030) Rhetoric	4 s.h.
International and Global Issues course	3 s.h.
Literary, Visual, and Performing Arts course	3 s.h.
Values, Society, and Diversity course	3 s.h.

Natural science prerequisites:

002:002 (BIOL:1141) Introductory Animal Biology	4 s.h.
004:007 (CHEM:1070) General Chemistry I	3 s.h.
004:008 (CHEM:1080) General Chemistry II	3 s.h.
027:050 (HHP:1300) Fundamentals of Human Physiology	3 s.h.
060:110 (ACB:2110) Principles of Human Anatomy	3 s.h.
061:164 (MICR:3164) Nursing Microbiology	4 s.h.

Social science prerequisites—both of these:

031:001 (PSY:1001) Elementary Psychology	3 s.h.
096:030 (NURS:1030) Human Development and Behavior	3 s.h.

And one of these:

034:001 (SOC:1010) Introduction to Sociology Principles	3-4 s.h.
034:002 (SOC:1020) Social Problems	3-4 s.h.

Other prerequisites:

22M:015 (MATH:1440) Mathematics for the Biological Sciences	4 s.h.
027:040 (HHP:2310) Nutrition and Health	3 s.h.
096:110 (NURS:3110) Healthcare Finance	3 s.h.
First-year student elective	1-2 s.h.
Non-nursing electives	10 s.h.

B.S.N.: COURSES REQUIRED FOR THE MAJOR

Early decision students and competitive admission students complete the following courses for the major in nursing.

First semester in the major:

096:117 (NURS:3518) Pathology	3 s.h.
096:120 (NURS:3128) Health Assessment and Communication Across the Lifespan	3 s.h.
096:121 (NURS:3138) Nursing and Pharmacological Interventions I	5 s.h.
096:122 (NURS:3150) Clinical Simulation Laboratory I	3 s.h.
096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety	3 s.h.

Second semester in the major:

096:131 (NURS:3438) Nursing and Pharmacological Interventions II	5 s.h.
096:132 (NURS:3450) Clinical Simulation Laboratory II	2 s.h.
096:133 (NURS:3460) Professional Role II: Research	2 s.h.
096:148 (NURS:3620) Gerontological Nursing	3 s.h.
096:149 (NURS:3625) Adult/Gerontological Nursing Practicum	5 s.h.

Third semester in the major:

096:144 (NURS:3630) Parent-Child Nursing	3 s.h.
096:160 (NURS:3640) Psychiatric/Mental Health Nursing	3 s.h.
096:161 (NURS:3645) Mental Health and Parent-Child Nursing Practicum	4 s.h.
096:162 (NURS:3660) Professional Role III: Improving Health Systems	2 s.h.
B.S.N. elective or honors course	3 s.h.

Fourth semester in the major:

096:164 (NURS:3650) Community and Public Health Nursing	3 s.h.
096:165 (NURS:3655) Community and Public Health Nursing Practicum	2 s.h.
096:166 (NURS:4155) Senior Nursing Internship	5 s.h.
096:167 (NURS:4160) Professional Role IV: Leadership and Professional Engagement	3 s.h.
B.S.N. elective or honors course	2 s.h.

See B.S.N. Plans of Study on the College of Nursing web site for semester-by-semester study plans for early decision and competitive admission students.

RN-B.S.N. for Registered Nurses

The RN-B.S.N. program requires 32 s.h. of credit. RN-B.S.N. students must hold a valid Iowa nursing license (RN) and an Associate Degree in Nursing or Diploma in Nursing.

The program is designed to offer registered nurses the opportunity to build on their nursing knowledge and experience by earning a Bachelor of Science in Nursing. RN-B.S.N. students take courses that focus on professionalism and patient safety, research, improvement of health systems, leadership, and professional engagement.

Students may transfer course work completed at other colleges and universities to satisfy the prerequisites for admission to the College of Nursing, general education requirements, electives, and the world language requirement (see "Admission to the RN-B.S.N. Program" below). Once a student is admitted to the RN-B.S.N. program, he or she has the option of completing the required 32 s.h. in three semesters (full-time study) or in five semesters (part-time study).

Most of the RN-B.S.N. program is delivered online, with limited face-to-face meetings that are associated with practicum experiences. Students must complete a practicum experience in Iowa and may be required to drive up to 100 miles to a regional practicum setting.

The College of Nursing participates as a receiving institution in the Iowa Statewide Articulation Plan for Nursing Education: RN to Baccalaureate.

The RN-B.S.N. program requires the following College of Nursing course work.

RN-B.S.N.: COURSES REQUIRED FOR THE MAJOR

096:110 (NURS:3110) Healthcare Finance	3 s.h.
096:116 (NURS:3734) Introduction to Human Genetics	3 s.h.
096:117 (NURS:3518) Pathology	3 s.h.
096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety	3 s.h.
096:133 (NURS:3460) Professional Role II: Research	2 s.h.
096:162 (NURS:3660) Professional Role III: Improving Health Systems	2 s.h.
096:164 (NURS:3650) Community and Public Health Nursing	3 s.h.

096:165 (NURS:3655) Community and Public Health Nursing Practicum	2 s.h.
096:167 (NURS:4160) Professional Role IV: Leadership and Professional Engagement	3 s.h.
096:170 (NURS:4165) Professional Role IV: Leadership and Professional Engagement Practicum	2 s.h.
Nursing electives	6 s.h.

See RN-B.S.N. Plans of Study on the College of Nursing web site for semester-by-semester views of required course work for full-time (three semesters) and part-time (five semesters) study.

Honors

The College of Nursing Honors Program provides seminars and independent study experience for qualified students. In order to pursue honors studies in nursing, students must maintain a University of Iowa g.p.a. of at least 3.33 and a nursing major g.p.a. of at least 3.50.

The honors program enables students to explore subject matter based on individual interests, needs, and goals. It provides opportunities for self-initiative, research experience, and intellectual and personal development and challenges students to grow and excel. Students who fulfill the requirements of the program graduate with honors in nursing.

Related Certificate or Minor: Aging Studies

College of Nursing students may participate in the Aging Studies Program, which provides undergraduate students with a multidisciplinary approach to gerontology. The program offers a certificate (21 s.h.) and a minor (15 s.h.). Students plan their course of study with their academic advisor in close cooperation with the Aging Studies Program coordinator. See Aging Studies (p. 34) in the Catalog for details. The Aging Studies Program is administered by the School of Social Work (College of Liberal Arts and Sciences).

Expenses and Insurance

Students pay University of Iowa student fees throughout the B.S.N. program. They must purchase uniforms, shoes, a stethoscope, and a watch with a full-sweep second hand, and they must pay the cost of computer testing, supplies, and materials for required nursing courses. All nursing students arrange and pay for their own health screening requirements, health insurance, and transportation once they are enrolled in clinical nursing courses. They also pay fees that cover the cost of criminal background checks and laboratory equipment.

MANDATORY HEALTH INSURANCE

Upon admission to the College of Nursing and each August afterward, all students must provide verification that they have obtained and currently hold health insurance that satisfies the following minimal standards of coverage (or an equivalent alternative health care plan):

\$250,000 lifetime benefit;

coverage for hospitalization, including coverage for room and board, physician visits, surgeon services, X-ray, and lab services;

inpatient deductible under an individual policy not exceeding \$500 per admission and a 20 percent copayment/coinsurance requirement;

coverage for medically necessary care, including physician services, X-ray, and lab services for treatment of emergencies, illness, accident, and injury.

PROFESSIONAL LIABILITY INSURANCE

All students in the College of Nursing are required to carry professional liability insurance throughout the duration of their program. Agencies that provide clinical practicums for College of Nursing programs require that students have insurance coverage. The College of Nursing provides students with information about the liability insurance requirement during orientation.

B.S.N. prelicensure students are covered by a group policy supported by student fees.

RN-B.S.N. students must provide verification that they are covered by professional liability insurance for registered nurses with a minimum coverage of \$1 million per single occurrence and \$3 million aggregate coverage.

Admission

Students entering the University who are not licensed registered nurses (RN) apply to the B.S.N. prelicensure program. Registered nurses apply to the RN-B.S.N. program.

All entering first-year and undergraduate transfer students who have earned fewer than 24 s.h. when they apply for admission to The University of Iowa must complete the American College Test (ACT) or the Scholastic Aptitude Test (SAT). For information about the American College Test, visit the ACT web site; for information about the Scholastic Aptitude Test, visit the College Board web site.

Applicants to the B.S.N. and RN-B.S.N. programs whose first language is not English must score at least 550 (paper-based) or 81 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Registered nurses educated outside the United States are required to present verification of having passed the Commission on Graduates of Foreign Nursing Schools (CGFNS) examination and specified Excelsior baccalaureate nursing examinations. They also must meet the University's English proficiency requirements.

Applicants admitted to the College of Nursing are expected to be able to meet the curriculum's performance standards; see "Core Performance Standards" below.

A criminal background check is conducted for all prelicensure and undergraduate students; admission to all programs is conditional pending successful review of criminal background and abuse registry.

ADMISSION TO THE B.S.N. PRELICENSURE PROGRAM

All applicants to the B.S.N. prelicensure program (early decision applicants and competitive admission applicants) must have satisfied the following minimum high school course requirements.

English: four years

Mathematics: three years, including algebra I, algebra II, and geometry

Science: one year of biology, one year of chemistry, and one year of physics

Social science: three years

World languages: four years (fourth-level proficiency) of the same world language or two years (second-level proficiency) in each of two world languages

B.S.N. Early Decision Admission

A select group of highly qualified students are admitted to the College of Nursing directly from high school through the B.S.N. early decision program (EDP). To be considered for the EDP, students must:

- have an ACT composite score of at least 28;
- have an ACT science reasoning score of at least 25;
- have a g.p.a. of at least 3.80; and
- have completed the minimum high school course requirements listed under "Admission to the B.S.N. Prelicensure Program" above.

Students admitted through the Early Decision Program must maintain a cumulative g.p.a. of at least 3.20 and clean criminal and student life records during their first four semesters in the program. Students who fail to meet these requirements may be subject to probation or dismissal from the EDP.

B.S.N. Competitive Admission

In order to apply for competitive admission to the College of Nursing, students must:

- have a cumulative g.p.a. of at least 3.00;
- have a minimum of 48 s.h. of college credit;
- have completed the minimum high school course requirements listed under "Admission to the B.S.N. Prelicensure Program" above, with any deficiencies satisfied through college course work;
- have completed all B.S.N. prerequisite course work listed under "Bachelor of Science in Nursing" above (a maximum of one natural science prerequisite and one social science prerequisite may be in progress or planned at the time of application); and
- must have a grade of C (2.00) or higher on all prerequisite course work.

In order to enter the College of Nursing, successful competitive admission applicants must:

- maintain a cumulative g.p.a. of at least 3.00;
- have a minimum of 64 s.h. of college credit; and
- have completed any remaining prerequisite course work listed under "Bachelor of Science in Nursing" above, including any remaining natural science and/or social science prerequisites.

Successful competitive admission students must complete any remaining natural science prerequisite no more than 10 years before they enter the College of Nursing and enroll in course work for the nursing major.

ADMISSION TO THE RN-B.S.N. PROGRAM

Applicants to the RN-B.S.N. program must hold an RN license and an Associate Degree in Nursing or Diploma in Nursing. They must have a cumulative g.p.a. of at least 3.00. Admission is highly competitive, with emphasis on the natural sciences (anatomy, biology, chemistry,

microbiology, physiology), writing (composition I and II), and mathematics (statistics).

Applicants must complete prerequisite course work before applying to the RN-B.S.N. program and additional elective course work before entering the program. They may complete these requirements at a community college.

They also must complete course work in one or more world languages; the requirement varies according to the applicant's year of high school graduation:

before 1991: applicant is exempt from the world language requirement;

1991-2010: applicant must demonstrate second-level proficiency in a single world language;

2011 and after: applicant must demonstrate fourth-level proficiency in a single world language or second-level proficiency in each of two world languages.

CORE PERFORMANCE STANDARDS

Applicants to the College of Nursing are expected to be capable of completing the entire nursing curriculum and of earning a B.S.N. The nursing curriculum requires demonstrated proficiency in a variety of cognitive, problem-solving, manipulative, communicative, and interpersonal skills. Therefore, College of Nursing students must meet the following performance standards (examples in the following list are not all-inclusive):

- possess and use critical thinking skills sufficient for clinical judgment (e.g., identify cause-effect relationships in clinical situations, develop nursing care plans);
- demonstrate interpersonal abilities sufficient for interaction with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds (e.g., establish rapport with patients, clients, colleagues);
- possess and use communication skills sufficient for interacting with others (e.g., explain treatment procedures, initiate health teaching, observe patient/client responses, document and interpret nursing actions and patient/client responses);
- administer cardiopulmonary procedures and other clinical procedures necessary for nursing care; calibrate and use equipment, position patients and clients; and
- possess the tactile abilities (with or without an assistive device) sufficient for performing physical assessment (e.g., perform palpation functions of physical exam and those related to nursing interventions).

Applicants who may not meet these standards are encouraged to contact the College of Nursing associate dean for academic affairs for a personal interview.

SELECTION

The college's admission committee recommends to the dean the applicants who appear to be best qualified. Fulfillment of minimum admission requirements does not guarantee admission to the College of Nursing. The committee may require personal interviews. A physical examination report and specific health screening requirements must be on file at the University of Iowa Student Health Service 10 days before the class opens for the first clinical nursing course.

APPLICATION DEADLINES

B.S.N. prelicensure early decision admission: January 1 (for fall entry)

B.S.N. prelicensure competitive admission: September 1 (for spring entry)

RN-B.S.N. program: April 30 (for fall entry)

Financial Support

In addition to general assistance available to University students, there are assistance programs specifically for nursing students. Information about financial aid is available from the University's Office of Student Financial Aid.

Graduate Programs

- Master of Science in Nursing
- Doctor of Nursing Practice
- Doctor of Philosophy in nursing
- Certificate in Advanced Practice Nursing

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Master of Science in Nursing

The Master of Science in Nursing requires a minimum of 39 s.h. of graduate credit. The program has a clinical nurse leader focus. It is designed to build on general and professional baccalaureate study.

The M.S.N. curriculum consists of a core component of 28 s.h., which students take with College of Nursing doctoral students, and a specialization component of 11 s.h. that centers on the clinical nurse leader role.

Students must maintain a g.p.a. of at least 2.75 and must successfully complete a thesis, project, or portfolio.

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal. Transfer credit applicable to the M.S.N. is limited and must be approved by the College of Nursing associate dean for academic affairs. Course work taken 10 years or more before the M.S.N. final examination must be updated according to University policy.

Doctor of Nursing Practice

The Doctor of Nursing Practice requires a minimum of 72 s.h. of graduate credit. Students may complete the program in three years of full-time study; part-time study also is available. Individuals who have been granted an M.S.N. may complete the D.N.P. with a minimum of 31 s.h. of graduate credit.

The D.N.P. program prepares nurses for leadership and advanced practice roles. Students choose from a number of specialties, including adult/gerontology nurse practitioner, anesthesia nursing, family nurse practitioner, health systems, neonatal nurse practitioner, pediatric nurse practitioner, and psychiatric/mental health nursing.

All D.N.P. students complete basic graduate core courses, specialty courses, advanced core courses, and practicums. They enroll in didactic courses exploring clinical leadership, public policy and advocacy, specialty systems, change theory, finance and business, and entrepreneurial tools.

D.N.P. students must complete a minimum of 1,000 clinical hours. Individuals who enter the program having completed an M.S.N. may transfer the approved clinical hours from their M.S.N. program to the D.N.P. program. The clinical hours requirement is evaluated for each student who has completed an M.S.N. with a specialty program. Students who completed more than 1,000 clinical hours in an M.S.N. advanced practice program still must complete the number of D.N.P. practicum and capstone project hours determined in consultation with their advisor and the D.N.P. program's director.

Other transfer credit applicable to the D.N.P. is limited and must be approved by the College of Nursing associate dean for academic affairs. Transcripts for individuals who have completed an M.S.N. are evaluated individually.

Graduate students in the College of Nursing must adhere to all Graduate College policies regarding academic standing, probation, and dismissal. Course work taken 10 or more years before the students plans to graduate from the D.N.P. program must be updated according to University policy.

Doctor of Philosophy

The Doctor of Philosophy program in nursing requires a minimum of 74 s.h. of graduate credit. The program prepares students to advance nursing science and contribute to the body of nursing knowledge. It emphasizes student participation with faculty members on research teams; focused course work; presentation and publication of research-based knowledge; and interdisciplinary learning experiences. Graduates are prepared for careers as researchers, college and university faculty members, consultants, and leaders in the profession.

The program is open to individuals who have earned a B.S.N. or a master's degree. Applicants who hold an advanced degree outside nursing may be admitted; their curriculum is based on a review of their transcripts.

The Ph.D. in nursing requires the following work.

REQUIRED COURSES

Basic core (required for students who enter with a B.S.N.):

096:201 (NURS:5007) Applied Epidemiology	3 s.h.
--	--------

Advanced core:

096:202 (NURS:5008) Foundations of Nursing Science I	3 s.h.
096:330 (NURS:6802) Health Policy, Law, and Advocacy	3 s.h.
096:338 (NURS:7002) Designing Research	3 s.h.
096:339 (NURS:6811) Social Determinants of Health and Health System Inequities	3 s.h.
096:497 (NURS:7801) Seminar: Research Scholarship Role Development	3 s.h.
Intermediate statistics	3 s.h.
Clinical specialization courses	6 s.h.
Elective course	3 s.h.

Advanced research methods:

096:340 (NURS:7000) Foundations of Nursing Science II	4 s.h.
096:342 (NURS:7001) Qualitative Research	4 s.h.
096:344 (NURS:7003) Quantitative Research	4 s.h.
096:490 (NURS:7803) Research Practicum I	1 s.h.
096:491 (NURS:7804) Research Practicum II	1 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0-1 s.h.
Advanced statistics	6 s.h.

Content focus:

Advanced Seminar in Health Research	3-6 s.h.
Cognate courses	6-9 s.h.

Dissertation (students must earn a minimum of 11 s.h.):

096:499 (NURS:7805) Dissertation Research	arr.
---	------

COMPREHENSIVE EXAM AND DISSERTATION

All Ph.D. students must complete a written and oral comprehensive examination before they begin work on the dissertation. They must write the dissertation and defend it orally.

Certificate

The Certificate in Advanced Practice Nursing program enables D.N.P. students who are certified in a specialty area to pursue clinical training in a second specialty area. Students choose from one of five areas: adult/gerontology nurse practitioner, family nurse practitioner, neonatal nurse practitioner, pediatric nurse practitioner, or psychiatric/mental health nursing. Certificate requirements include advanced clinical core courses and a sequence of specialty courses determined by the coordinator of the specialty area. Students who complete the D.N.P. program and the certificate requirements are qualified to sit for a professional certification examination. Completion of the certificate and specialty area is noted on the student's transcript.

Related Certificate: Informatics

The Graduate College offers the Certificate in Informatics with a health informatics subtrack, which requires 18 s.h. of credit. The subtrack emphasizes the organization, management, and use of health care information; health care research, education, and practice; and information technology developments in the socioeconomic context of health care.

College of Nursing students working toward the certificate complete 096:283 (NURS:5300), which explores decision-making processes and technological tools to support health care administration, management, and practice; and 096:289 (NURS:5301), which focuses on field projects related to health informatics topics and includes a seminar. Students earn an additional 12 s.h. of credit in courses outside their major program of study, chosen in consultation with their major program advisor and their certificate advisor. Students who earn credit for a thesis, project, or independent study in their major program of study may apply the credit to the Certificate in Informatics if the certificate advisor determines that the subject matter is pertinent.

Completion of the certificate is noted on the student's transcript. To learn more, see "Certificate" in the Informatics (p. 843) (Graduate College) section of the Catalog.

Admission

Applicants to College of Nursing graduate programs must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Applicants must have a g.p.a. of at least 3.00.

The College of Nursing has additional application requirements, as follows.

Applicants whose first language is not English must score at least 550 (paper-based) or 81 (Internet-based) on the Test of English as a Foreign Language (TOEFL); or they must score at least 7.0 on the International English Language Testing System (IELTS).

A criminal background check is required for all graduate students upon admission.

ADMISSION TO THE M.S.N. AND D.N.P. PROGRAMS

Application requirements specific to the M.S.N. and D.N.P. programs are:

- a bachelor's degree with a major in nursing from an accredited program (for the D.N.P. program, limited options are available for registered nurse applicants who have earned a bachelor's degree with a major other than nursing or a bachelor's degree in nursing from an institution outside the United States);

- a g.p.a. of at least 3.00;

- satisfaction of the legal requirements for the practice of nursing in Iowa;

- current written recommendations from three persons knowledgeable about the applicant's competence in the practice of nursing and potential for leadership and scholarship (forms required);

- a current résumé, goal statement, and supplemental/information form;

- transcripts from all undergraduate and graduate course work;

- completion of an upper-division nursing research course in the undergraduate program; and

- completion of an upper-level statistics course within five years of the application deadline; acceptable University of Iowa courses include 07P:143 (PSQF:5143), 22S:101 (STAT:3510), 22S:102 (STAT:5543), and 171:161 (BIOS:5110); see How Do My Courses Transfer? on ISIS for information about using equivalent courses from other institutions.

Application deadline for the M.S.N. program is October 1.

Application deadline for the D.N.P. program is October 1 for all specialties except anesthesia nursing, which has a June 1 application deadline.

Applications to both programs are reviewed once a year. In order to be reviewed, the application must be complete, with all materials submitted.

Applicant interviews are required for the D.N.P. and M.S.N. programs; in some cases, telephone interviews may be arranged. D.N.P. applicants with master's degrees in nursing from other schools must provide verification of completed clinical hours from their school's graduate director or must submit appropriate course syllabi.

ADMISSION TO THE PH.D. PROGRAM

The Ph.D. program accepts applications from individuals who have earned a B.S.N. or a master's degree.

Applicants to the Ph.D. program must have taken the Graduate Record Examination (GRE) General Test, preferably within the preceding five years. They must have completed an accredited basic nursing program and must hold a current license to practice nursing (special license for international students). They also must have a g.p.a. of at least 3.00. Applicants must submit:

- a two-to-three-page statement describing their educational objectives, career goals, and an area of research for their doctoral study;

- three recommendations from nursing professionals that speak to the applicant's potential as a scholar;

- a current résumé or curriculum vitae; and

- a complete transcript of all college programs and courses.

Applicants who hold a master's degree must have successfully completed at least one graduate-level course in research and inferential statistics (3 s.h.).

B.S.N. graduates who apply directly to the Ph.D. program must have successfully completed an upper-division course in statistics. They also must submit a strong statement of their educational goals, career goals, and potential area of research.

Application deadline for the Ph.D. program is November 15. Applications are reviewed once a year. In order to be reviewed, the applicant's file must be complete, with all materials submitted.

Professional Improvement

Registered nurses who wish to take University of Iowa course work to fulfill professional or personal improvement objectives may request admission in the professional improvement (PI) category. This admission status allows students to take some graduate courses at the University without committing to a degree objective.

Admission as a nursing professional improvement student requires a formal application, including submission of three current written recommendations and all academic transcripts. GRE General Test scores, required by the University, must be submitted before the end of first semester registration.

Application deadlines are July 15 for fall semester admission, December 1 for spring semester admission, and May 1 for summer session admission.

Since acceptance as a PI student does not influence acceptance to the college's graduate degree programs, PI students interested in earning a graduate degree in nursing must apply for admission to the degree program (see "Admission" under "Graduate Programs" above). Students may count a maximum of 6 s.h. or two required nursing core courses that they complete as PI students toward M.S.N. requirements. Professional improvement students may not enroll in Ph.D. courses.

Continuing Education

The college offers nonacademic, short-term continuing education programs for registered nurses. Continuing Education Units (CEUs) are awarded for these programs. The College of Nursing is an Iowa Board of Nursing approved provider of continuing education, Provider Number 1.

Student Organizations

All College of Nursing undergraduate students are members of the National Student Nurses Association and its local chapter, the Iowa Association of Nursing Students. The University of Iowa Association of Nursing Students (UIANS) provides opportunities for professional growth and development in nursing. UIANS representatives are members of the University of Iowa Student Government (UISG), and there is a UIANS representative on the Academic Council of the College of Nursing.

The University of Iowa Minority Student Nurse Association (UIMNSA) provides opportunities for professional growth and development for students from populations underrepresented in nursing. UIMNSA board members are members of the University of Iowa Student Government.

University of Iowa Men in Nursing (UIMiN) provides opportunities for nurses to meet, to recruit, to talk, and to influence the environment for men in nursing. It is open to all nursing students.

The college's Association of Graduate Nursing Students (AGNS) provides opportunities for professional growth, sharing of research, and representation on varied college and University committees.

Facilities

The College of Nursing Building is centrally located on the University's main campus, in close proximity to the Carver College of Medicine, the College of Dentistry, the College of Pharmacy, the College of Public Health, University of Iowa Hospitals and Clinics, Bowen Science Building, and the Hardin Library for the Health Sciences.

The college's building was completed in 1971. Administrative offices are located on the first floor, a research suite is on the second floor, and faculty offices are on the third and fourth floors. The lower level houses the Office of Student Services; a student lounge; a computer lab; and the Ph.D. student office, with desk space, access to computers, a printer, a copier, and a meeting space. Classrooms are located throughout the building.

The Nursing Clinical Education Center provides clinical experiences for nursing students and serves as a resource for the University's professional nursing staff. Opened in 2006 at University of Iowa Hospitals and Clinics, the center offers the latest technology in an 11-room clinical simulation lab. It also has an 86-seat classroom, a resource library, and gathering spaces for private study. The center is operated collaboratively by the College of Nursing and UI Hospitals and Clinics Department of Nursing Services and Patient Care.

Courses

Primarily for Undergraduates

096:029 (NURS:1020) First-Year Seminar 1 s.h.

Introduces first-year undergraduate students to the intellectual life of the University of Iowa; provides an opportunity to work closely with a faculty member or senior administrator; seminars help students make the transition to college-level learning through active participation in their own learning.

096:030 (NURS:1030) Human Development and Behavior 3 s.h.

Normal developmental transitions experienced by individuals and family systems throughout the lifespan, including physical, cognitive, and social-emotional development. Prerequisites: 031:001 (PSY:1001). Requirements: nursing or nursing-interest major.

096:107 (NURS:3198) Distance Education: Independent Study 1-3 s.h.

Supervised study designed for individual undergraduate students.

096:108 (NURS:3008) Basic Aspects of Aging 3 s.h.

Social, psychological, and biological aspects; demographics of aging, health, economic issues, primary relationships, social services. GE: Social Sciences. Same as 042:108 (SSW:3008), 153:108 (ASP:3008), 169:108 (LEIS:3008).

096:109 (NURS:3099) Leadership U 1-3 s.h.

Development of leadership in nursing; application of leadership theory in practice by participating in activities such as attending professional organization meetings, acting as a delegate, writing legislation, holding a board position, or being part of a multidisciplinary or international team to organize events for community involvement. Requirements: nursing major.

096:110 (NURS:3110) Healthcare Finance 3 s.h.

Basic structure of U.S. health care system and how it is funded; tools for making decisions about available financial resources.

096:112 (NURS:3712) Human Sexuality, Diversity, and Society 1-3 s.h.

Physiological, psychological aspects; parameters defined by students, instructor. Same as 042:112 (SSW:3712).

096:113 (NURS:4096) Distance Education: Honors Independent Study 1-3 s.h.

Supervised study designed for individual honors undergraduate students.

096:114 (NURS:3505) Human Pathophysiology: Organ Systems 3 s.h.

Normal and abnormal functioning of human cells, tissues, and organ systems over the lifespan; focus on cardiovascular, respiratory, renal, gastrointestinal, endocrine, and reproductive systems, and on processes of metabolism and homeostasis of the internal milieu. Requirements: approved courses in biology, inorganic chemistry, microbiology, and human anatomy.

096:115 (NURS:3500) Human Pathophysiology: Cellular/Neurology/Immunology 3 s.h.

Normal and abnormal functioning of human cells, tissues, and organ systems over the lifespan; focus on processes of communication, control, defense, and movement. Requirements: approved courses in animal biology, inorganic chemistry, microbiology, and human anatomy.

096:116 (NURS:3734) Introduction to Human Genetics

3 s.h.

Introduction to organization of the human genome and basic principles of inheritance in humans; cells and development, chromosome structure and function, gene structure and function, genes in pedigrees and populations, implications of genetic variation on health.

096:117 (NURS:3518) Pathology

3 s.h.

Introduction to abnormal functioning of cells, tissues, organs, and systems over the human lifespan; focus on hematological, immune, neurological, musculoskeletal, cardiovascular, respiratory, renal, gastrointestinal, endocrine, and reproductive system; alterations in metabolic processes and alterations in homeostatic mechanisms impacting the internal milieu; emphasis on critical thinking. Prerequisites: 004:007 (CHEM:1070), 004:008 (CHEM:1080), 002:002 (BIOL:1141), 061:164 (MICR:3164), 060:110 (ACB:2110), and 027:130 (HHP:3500).

096:118 (NURS:3510) Pathophysiology

3 s.h.

Abnormal physiological health transitions; disorders in cells, organs; systems involved in vegetative functioning and biological defense of the human organism. Requirements: one course each in anatomy, chemistry, microbiology, physics, physiology, and psychology.

096:119 (NURS:3515) Neurological and Behavioral Pathology

1-2 s.h.

Abnormal physiological and psychological health transitions that have well-documented physiological and/or behavioral bases; focus on neurological and behavioral disorders. Corequisites: 096:118 (NURS:3510), if not taken as a prerequisite. Requirements: one course in anatomy, chemistry, microbiology, physics, physiology, and psychology.

096:120 (NURS:3128) Health Assessment and Communication Across the Lifespan

3 s.h.

Assessment and communication skills; development and application of cognitive skills to perform systematic, holistic, and culturally competent health assessments; emphasis on application of clinical reasoning involving assessment, nursing diagnoses, interventions, and outcomes. Corequisites: 096:117 (NURS:3518), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Requirements: admission to the College of Nursing.

096:121 (NURS:3138) Nursing and Pharmacological Interventions I

5 s.h.

First of a two-part series focusing on basic biophysical concepts that inform nursing and pharmacological interventions, including sleep, immobility, skin care, wound healing, infection, and human response to illness; selected disorders and/or diseases, including GI disease, disorders of bowel and urine elimination, diabetes, and cancer; introduction to health literacy and principles of health education. Prerequisites: 002:002 (BIOL:1141), 004:007 (CHEM:1070), 004:008 (CHEM:1080), 22M:015 (MATH:1440), 027:130 (HHP:3500), 060:110 (ACB:2110), and 061:164 (MICR:3164). Corequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:122 (NURS:3150), and 096:123 (NURS:3160). Requirements: 64 s.h. of undergraduate course work, including successful completion of required science courses and general education liberal arts and sciences requirements and electives.

096:122 (NURS:3150) Clinical Simulation Laboratory I

3 s.h.

First of a two-part series focusing on laboratory-based learning and simulation experience involving basic biophysical and psychosocial assessment skills needed to provide safe and effective nursing care across diverse settings and populations; emphasis on development of nurse-patient and intra- and inter-professional communication skills. Requirements: admission to the College of Nursing.

096:123 (NURS:3160) Professional Role I: Professionalism and Patient Safety

3 s.h.

Introduction to inherent nursing values, history, theories, and scope of professional nursing; concepts of safety, risk identification, and clinical decision making; information technologies that promote quality and safety. Requirements: admission to the College of Nursing.

096:124 (NURS:3135) Pharmacotherapeutics in Nursing

3 s.h.

Basic principles of pharmacotherapeutics and pharmacologic interventions; focus on mechanism of drug actions in patient treatment. Prerequisites: 096:114 (NURS:3505) and 096:115 (NURS:3500).

096:125 (NURS:3715) Health Disparities and Cultural Competence

2-4 s.h.

Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 046:377 (PHAR:8715), 172:135 (CBH:8715).

096:126 (NURS:3120) Communication for Health Professionals

2 s.h.

The communication process in health care settings; emphasis on theory-based strategies to improve communication with individuals, families, other health care professionals. Requirements: admission to prelicensure BSN program.

096:127 (NURS:3125) Health Assessment Across the Life Span

4 s.h.

Knowledge and skills health professionals need to perform holistic health assessments of individuals across the life span; emphasis on history taking, physical assessment skills; laboratory practices. Requirements: admission to the College of Nursing, and courses in anatomy, human development and behavior, and animal biology.

096:128 (NURS:3728) Patient Safety for Health Professional Students

2 s.h.

Interprofessional experience using multiple pedagogic methods, including team-based simulation to teach about patient safety and teamwork; collaboratively taught by representatives from anesthesia, pediatrics, internal medicine, Office of Consultation and Research in Medical Education, College of Nursing, College of Public Health, and office of UIHC chief quality officer. Same as 050:310 (MED:8410).

096:130 (NURS:3730) Teaching and Learning Online

3 s.h.

Synthesis and critical evaluation of current knowledge regarding use of online learning as a tool; empirical research, best practices, and available resources to support effective implementation and management of online learning; skill development and practice; web-based course.

096:131 (NURS:3438) Nursing and Pharmacological Interventions II

5 s.h.

Second of a two-part series focusing on complex biophysical concepts that inform nursing and pharmacological interventions, including fluids and electrolytes, shock, and perioperative care; focus on selected disorders and/or diseases, including neurological, immune, musculoskeletal, cardiovascular, respiratory, renal, and endocrine disorders. Prerequisites: 096:121 (NURS:3138) and 096:122 (NURS:3150). Corequisites: 096:132 (NURS:3450), 096:133 (NURS:3460), 096:148 (NURS:3620), and 096:149 (NURS:3625).

- 096:132 (NURS:3450) Clinical Simulation Laboratory II** 2 s.h.
Second of a two-part series focusing on laboratory-based learning and simulation experience involving complex biophysical and psychosocial assessment skills, critical thinking, and decision making needed to provide safe and effective nursing care across diverse settings and populations; emphasis on development of clinical reasoning skills across the lifespan, including end-of-life care. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438).
- 096:133 (NURS:3460) Professional Role II: Research** 2 s.h.
Introduction to concepts and process of research in nursing; primary focus on understanding research and its foundation for nursing practice. Requirements: basic statistics. Recommendations: upper-level statistics.
- 096:134 (NURS:3130) Basic Concepts of Nursing Care** 4 s.h.
Physiological and behavioral concepts, nursing interventions, and activities across settings and populations; based on nursing interventions classification taxonomy. First in a two-course sequence. Corequisites: 096:114 (NURS:3505) or 096:115 (NURS:3500), and 096:127 (NURS:3125); if not taken as prerequisites. Requirements: nursing major.
- 096:135 (NURS:3140) Complex Concepts of Nursing Care** 4 s.h.
Continuation of 096:134 (NURS:3130); physiological and behavioral concepts, nursing interventions, and activities across settings and populations. Prerequisites: 096:134 (NURS:3130). Corequisites: 096:136 (NURS:3145), 096:114 (NURS:3505) or 096:115 (NURS:3500), and 096:124 (NURS:3135); if not taken as prerequisites. Requirements: nursing major.
- 096:136 (NURS:3145) Core Clinical Practicum** 4 s.h.
Acute care of adult clients in the clinical setting; in-depth practicum experience applying basic and complex concepts of nursing care; focus on clinical decision-making skills. Prerequisites: 096:126 (NURS:3120), 096:127 (NURS:3125), and 096:134 (NURS:3130). Corequisites: 096:135 (NURS:3140).
- 096:137 (NURS:3737) Nursing Care of the Patient in Pain** 3 s.h.
Assessment, pharmacological and nonpharmacological nursing intervention, evaluation of acute, chronic-benign, and chronic-malignant pain. Requirements: RN license or successful completion of 096:134 (NURS:3130).
- 096:139 (NURS:3520) Parent-Child Nursing** 3 s.h.
Health promotion, maintenance, and restoration for parents, infants, children, and adolescents in childbearing and child-rearing families. Prerequisites: 096:124 (NURS:3135) and 096:135 (NURS:3140).
- 096:140 (NURS:3521) Parent-Child Nursing Practicum** 3 s.h.
Principles of health promotion, maintenance, and restoration applied among parents, infants, children, and adolescents in childbearing and child-rearing families. Prerequisites: 096:124 (NURS:3135), 096:135 (NURS:3140), and 096:136 (NURS:3145). Corequisites: 096:139 (NURS:3520), if not taken as a prerequisite.
- 096:141 (NURS:3530) Gerontological Nursing** 3 s.h.
Nurse's role in promoting, maintaining, and restoring the health of aging adults; nursing science applied to care of older adults in diverse settings. Prerequisites: 096:124 (NURS:3135) and 096:135 (NURS:3140).
- 096:142 (NURS:3531) Gerontological Nursing Practicum** 3 s.h.
Nursing process applied to promote, maintain, and restore health of older adults; opportunities to provide nursing care to well elderly and to acutely and/or chronically ill elderly in a variety of settings. Prerequisites: 096:124 (NURS:3135), 096:135 (NURS:3140), and 096:136 (NURS:3145). Corequisites: 096:141 (NURS:3530), if not taken as a prerequisite.
- 096:143 (NURS:3685) Research for Nursing Practice** 1-3 s.h.
Introduction to the concepts and process of nursing research; focus on critique of published research and application to nursing practice. Requirements: nursing major and an approved statistics course.
- 096:144 (NURS:3630) Parent-Child Nursing** 3 s.h.
Promoting, maintaining, and restoring the health of parents, infants, children, and adolescents in childbearing and childrearing families; nursing care prior to and during pregnancy, labor, and delivery; care of newborns, well children, and children with acute and chronic illness examined within the context of family and community. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), 096:131 (NURS:3438), and 096:132 (NURS:3450). Corequisites: 096:160 (NURS:3640), 096:161 (NURS:3645), and 096:162 (NURS:3660).
- 096:146 (NURS:3246) Health Promotion for Older Adults** 3 s.h.
Problems, strategic efforts toward long-term goal of health promotion; disease prevention; slowing the decline caused by chronic conditions to extend independent, rewarding lives. Same as 153:146 (ASP:3246), 169:146 (LEIS:3246).
- 096:147 (NURS:3740) End-of-Life Care for Adults and Families** 2-4 s.h.
End-of-life issues in care of adults, older adults, and their families. Requirements: RN license or 096:141 (NURS:3530). Same as 153:147 (ASP:3740), 050:147 (MED:3740), 046:146 (PHAR:3740).
- 096:148 (NURS:3620) Gerontological Nursing** 3 s.h.
Nurse's role in promoting, maintaining, and restoring the health of aging adults; internal and external influences on older adults, application of nursing science to the care of older adults in diverse settings. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438), 096:132 (NURS:3450), 096:133 (NURS:3460), and 096:149 (NURS:3625).
- 096:149 (NURS:3625) Adult/Gerontological Nursing Practicum** 5 s.h.
In-depth clinical experience designed to apply basic and complex concepts of nursing care for adults of all ages in a variety of settings; focus on older adults; development and application of critical thinking skills necessary to understand disease process and the associated signs and symptoms, interventions, and outcomes. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), and 096:123 (NURS:3160). Corequisites: 096:131 (NURS:3438), 096:132 (NURS:3450), 096:133 (NURS:3460), and 096:148 (NURS:3620).
- 096:150 (NURS:3199) Independent Study** arr.
Supervised study designed for individual undergraduate students.
- 096:151 (NURS:4099) Honors Independent Study** 1-3 s.h.
Supervised study designed for individual honors students.
- 096:152 (NURS:4098) Honors Seminar** 1 s.h.
Supervised study designed for individual honors students.

096:153 (NURS:3540) Community and Public Health Nursing Theory: Generalist 3 s.h.

Nursing's role in the relationship between community conditions and public health; principles of public health with nursing knowledge and skills to address health needs of individuals, families, communities, populations. Prerequisites: 096:135 (NURS:3140).

096:154 (NURS:3541) Community and Public Health Nursing Practicum: Generalist 3 s.h.

Application of public health principles with nursing knowledge and skills to address the health needs of communities and populations. Prerequisites: 096:124 (NURS:3135), 096:135 (NURS:3140), and 096:136 (NURS:3145). Corequisites: 096:153 (NURS:3540), if not taken as a prerequisite.

096:155 (NURS:3550) Psychiatric/Mental Health Nursing 3 s.h.

General principles and practices of psychiatric/mental health nursing; psychiatric disorders, populations at risk, continuity of care, problems in daily living. Prerequisites: 096:124 (NURS:3135) and 096:135 (NURS:3140).

096:156 (NURS:3551) Psychiatric/Mental Health Nursing Practicum 3 s.h.

Nursing process used to deliver nursing care to individuals and families with mental illness in a variety of clinical settings; focus on promotion, maintenance, restoration of the mental health of individuals and families. Prerequisites: 096:124 (NURS:3135), 096:135 (NURS:3140), and 096:136 (NURS:3145). Corequisites: 096:155 (NURS:3550), if not taken as a prerequisite.

096:157 (NURS:4040) Nursing Leadership and Care Management 3 s.h.

Analysis of nursing leadership, care management, and models of care in the context of society and the interdisciplinary health care system. Requirements: senior standing in the College of Nursing.

096:158 (NURS:4050) Clinical Nursing Internship 5 s.h.

Independent internship in one of a variety of health care settings to promote role transition, lifelong learning; emphasis on integration and application of knowledge and skills to design, provide, manage, and coordinate care. Requirements: senior standing in the College of Nursing.

096:159 (NURS:4030) Contemporary Nursing Practice Issues 3 s.h.

Identification, exploration, analyses of selected issues in nursing and health care; impact of significant historical, social, political, genetic, legal, and ethical factors on development of the nursing discipline. Requirements: senior standing in the College of Nursing.

096:160 (NURS:3640) Psychiatric/Mental Health Nursing 3 s.h.

General principles and practices of psychiatric/mental health nursing; psychiatric disorders, populations at risk, continuity of care, and problems in daily living; unique needs of diverse populations. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), 096:131 (NURS:3438), and 096:132 (NURS:3450). Corequisites: 096:144 (NURS:3630), 096:161 (NURS:3645), and 096:162 (NURS:3660).

096:161 (NURS:3645) Mental Health and Parent-Child Nursing Practicum 4 s.h.

Application of nursing knowledge to promote, maintain, and restore health; vulnerable populations of interest include persons with mental health disorders, infants, children, adolescents, and families; processes of childbearing and childrearing within the context of families. Prerequisites: 096:149 (NURS:3625). Corequisites: 096:144 (NURS:3630), 096:160 (NURS:3640), and 096:162 (NURS:3660). Requirements: successful completion of two semesters in BSN curriculum.

096:162 (NURS:3660) Professional Role III: Improving Health Systems 2 s.h.

Legal and regulatory processes that impact health care, how disparities influence health care, and evidence-based approaches for improving quality of care; strategies for working effectively in intra and interdisciplinary teams; integration of a culture of safety. Prerequisites: 096:123 (NURS:3160) and 096:133 (NURS:3460).

096:163 (NURS:3560) Information Management and Patient Care Technology in Practice 3 s.h.

Information management, patient care technology; information systems for quality improvement data, regulatory reporting; range of technologies and infrastructure of evidence-based information for clinical care, including patient monitoring systems, medication administration systems, longitudinal electronic records, clinical decision support tools, and other data gathering devices to support patient care; open to continual learning. Prerequisites: 096:136 (NURS:3145). Requirements: admission to the prelicensure B.S.N. program.

096:164 (NURS:3650) Community and Public Health Nursing 3 s.h.

Role of nursing in the relationship between community conditions and public health; emphasis on principles of public health combined with nursing knowledge and skills to address health needs of individuals, families, communities, and populations. Prerequisites: 096:110 (NURS:3110), 096:117 (NURS:3518), 096:123 (NURS:3160), 096:133 (NURS:3460), and 096:162 (NURS:3660). Corequisites: 096:165 (NURS:3655). Requirements: (for pre-licensure BSN student) successful completion of 096:144 (NURS:3630), 096:148 (NURS:3620), 096:149 (NURS:3625), 096:160 (NURS:3640), and 096:161 (NURS:3645), and concurrent enrollment in 096:166 (NURS:4155) and 096:167 (NURS:4160); (for post-licensure RN-BSN student) successful completion of 096:167 (NURS:4160) and 096:170 (NURS:4165), 6 s.h. of required nursing elective courses, and completion of general education electives.

096:165 (NURS:3655) Community and Public Health Nursing Practicum 2 s.h.

Learning opportunities to apply principles of public health with nursing knowledge and skills to address health promotion, disease and injury prevention, and nursing management of infectious disease and chronic health conditions; nursing activities focus on improvement of health outcomes at individual, family, community, and global levels within the context of population-focused practice. Corequisites: 096:164 (NURS:3650). Requirements: (for pre-licensure BSN student) successful completion of 096:149 (NURS:3625) and 096:161 (NURS:3645), and concurrent enrollment in 096:166 (NURS:4155) and 096:167 (NURS:4160); (for post-licensure RN-BSN student) successful completion of 096:110 (NURS:3110), 096:116 (NURS:3734), 096:117 (NURS:3518), 096:123 (NURS:3160), 096:133 (NURS:3460), 096:162 (NURS:3660), 096:167 (NURS:4160), and 096:170 (NURS:4165); 6 s.h. of required nursing electives; completion of general education electives; RN licensure in state of practicum; and concurrent enrollment in 096:116 (NURS:3734), if not taken as a prerequisite.

096:166 (NURS:4155) Senior Nursing Internship 5 s.h.

Immersion capstone experience to engage in practice under direct supervision of a professional registered nurse mentor; design, provide, coordinate, and evaluate care; work with teams to deliver evidence-based care; improve quality, patient safety, and outcomes. Prerequisites: 096:117 (NURS:3518), 096:120 (NURS:3128), 096:121 (NURS:3138), 096:122 (NURS:3150), 096:123 (NURS:3160), 096:131 (NURS:3438), 096:132 (NURS:3450), 096:133 (NURS:3460), 096:144 (NURS:3630), 096:148 (NURS:3620), 096:149 (NURS:3625), 096:160 (NURS:3640), 096:161 (NURS:3645), and 096:162 (NURS:3660). Corequisites: 096:164 (NURS:3650), 096:165 (NURS:3655), and 096:167 (NURS:4160).

096:167 (NURS:4160) Professional Role IV: Leadership and Professional Engagement 3 s.h.

Concepts of leadership, fellowship, management, informatics, and professional engagement; quality improvement strategies and skills; professional development, career trajectory, and role transitions. Prerequisites: 096:123 (NURS:3160), 096:133 (NURS:3460), and 096:162 (NURS:3660). Corequisites: 096:162 (NURS:3660), if not taken as a prerequisite.

096:168 (NURS:3595) Nonprofit Organizational Effectiveness I 3 s.h.

Operational and financial aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as 06T:144 (ENTR:3595), 024:147 (MUSM:3500), 042:157 (SSW:3500), 06J:147 (MGMT:3500), 032:127 (RELS:3700).

096:169 (NURS:3600) Nonprofit Organizational Effectiveness II 3 s.h.

Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Same as 024:148 (MUSM:3600), 06J:148 (MGMT:3600), 042:158 (SSW:3600), 032:128 (RELS:3701).

096:170 (NURS:4165) Professional Role IV: Leadership and Professional Engagement Practicum 2 s.h.

Completion of a change project that contributes value to a health care organization using evidence-based quality improvement tools. Prerequisites: 096:123 (NURS:3160), 096:133 (NURS:3460), and 096:162 (NURS:3660). Corequisites: 096:162 (NURS:3660), if not taken as a prerequisite, and 096:167 (NURS:4160). Requirements: RN licensure in state of practicum.

096:171 (NURS:3115) Nursing and Society 3 s.h.

Introduction to health care systems and the nursing profession; health care systems, resources, financing health care, and health care accessibility in the United States; the creative and scientific processes that underlie and guide the practice of nursing. Requirements: admission to the prelicensure B.S.N. program.

096:172 (NURS:3733) Providing Culturally Congruent Care for Diverse Populations 3 s.h.

Role of health care professionals in providing care that is culturally congruent with the client's values, beliefs, and traditions; opportunity to build knowledge, attitudes, awareness, and skills necessary in providing culturally congruent care for specific populations; demonstration of essential skills; exploration of personal attitudes, biases; issues and trends that impact delivery of care to specific populations. Offered online. Requirements: sophomore standing.

096:176 (NURS:5620) Clinical Reasoning 4 s.h.

Skills to help nontraditional nursing students synthesize, expand, and refine nursing concepts and clinical reasoning competencies; development and application of cognitive and psychomotor skills necessary for performing systematic, holistic, and culturally competent health assessment. Prerequisites: 096:115 (NURS:3500). Corequisites: 096:114 (NURS:3505) and 096:177 (NURS:5630). Requirements: admission to MSN:CNL program.

096:177 (NURS:5630) Therapeutic Nursing Interventions I 4 s.h.

Physiological and behavioral concepts, nursing diagnoses, interventions, and outcomes across settings and populations; nursing classifications; experience in the laboratory. Prerequisites: 096:115 (NURS:3500). Corequisites: 096:114 (NURS:3505) and 096:176 (NURS:5620). Requirements: admission to MSN:CNL program.

096:178 (NURS:5640) Therapeutic Nursing Interventions II 4 s.h.

Continuation of 096:177 (NURS:5630). Prerequisites: 096:176 (NURS:5620) and 096:177 (NURS:5630). Corequisites: 096:124 (NURS:3135). Requirements: admission to MSN:CNL program.

096:179 (NURS:3742) Selected Topics in Nursing 1-2 s.h.

In-depth study of topics in professional nursing practice and health care; workshop format.

096:180 (NURS:5650) Intensive Practicum I 3 s.h.

Applications of health care concepts, nursing diagnoses, interventions, and outcomes presented in 096:176 (NURS:5620) and 096:177 (NURS:5630); focus on clinical decision-making skills. Prerequisites: 096:176 (NURS:5620) and 096:177 (NURS:5630). Corequisites: 096:124 (NURS:3135) and 096:178 (NURS:5640). Requirements: admission to MSN:CNL program.

096:181 (NURS:3781) Clinical Instruction in Nursing Education 3 s.h.

Role and functions of the nurse educator in the clinical setting; development of teaching strategies and learning activities that support effective clinical and laboratory instruction; evidence-based teaching and evaluation practices; how to incorporate the core concepts of critical thinking for clinical decision-making, effective communication, and cultural competence into clinical experiences; learners with diverse learning styles and backgrounds; ethical and legal implications in clinical teaching and evaluation of learning; technology and emerging trends that impact teaching in the clinical setting. Requirements: RN-BSN or graduate standing.

096:182 (NURS:3436) Alternative and Complementary Medicine arr.

Requirements: for 046:105 (PHAR:8436) — P4 standing. Same as 046:105 (PHAR:8436), 078:210 (IM:8436).

096:183 (NURS:5660) Intensive Practicum II 3 s.h.

Experience in varied acute and community-based settings; opportunity to apply principles to the care of diverse populations, consistent with the three specialty theory courses; proficiency with advanced care management interventions and technologies. Prerequisites: 096:180 (NURS:5650). Corequisites: 096:139 (NURS:3520), 096:141 (NURS:3530), and 096:155 (NURS:3550). Requirements: admission to MSN:CNL program.

096:184 (NURS:3205) Hairitage: African American Women's Hair Culture 2-3 s.h.

Hair and its centrality to the experience of women of African descent; emotional, political, economical, and historical significance; political, legal, and educational implications; connections to ideas of aesthetics, race relations, family dynamics, consumerism, and so forth.

096:187 (NURS:3736) Legal Issues for Health Care Providers 3 s.h.

Legal issues faced by health care providers, counselors, and social services providers; administrative and regulatory requirements, civil lawsuits, issues that affect students as providers, advocates, and individuals.

096:190 (NURS:3190) Dimensions of Professional Nursing 3 s.h.

The nursing discipline; identification, exploration, analysis of contemporary issues and trends in nursing; professional roles and responsibilities; the health care environment; importance of nursing science, theory, and research to nursing practice. Requirements: computer literacy and RN/BSN standing.

096:191 (NURS:3195) Health Assessment 4 s.h.

Health assessment of adults; experience demonstrating assessment skills, compiling a health history, conducting a physical exam, and developing nursing diagnoses for clients. Requirements: RN/BSN standing.

096:194 (NURS:4080) Leadership and Care Management in Professional Nursing Practice 3 s.h.

Nursing leadership and management in a dynamic practice environment; focus on context in which nurses practice, leadership and management principles in changing health care system. Prerequisites: 096:153 (NURS:3540), 096:154 (NURS:3541), and 096:143 (NURS:3685).

096:195 (NURS:4081) Practicum for Leadership and Care Management in Professional Nursing 3 s.h.

Experience applying concepts of leadership, management, and evidence-based practice in a variety of settings; development of individualized plan of study for the experience. Prerequisites: 096:153 (NURS:3540), 096:154 (NURS:3541), and 096:143 (NURS:3685). Corequisites: 096:194 (NURS:4080), if not taken as a prerequisite. Requirements: RN licensure in state of practicum.

096:196 (NURS:4095) Special Studies in Nursing 3 s.h.

Identification, exploration, and analysis of contemporary issues that confront the professional nurse; the practice of nursing, regulation of health care systems, available resources. Prerequisites: 096:153 (NURS:3540).

096:199 (NURS:5690) Intensive Practicum III 4 s.h.

Intensive clinical experience in nursing care management in collaboration with nurse preceptors; complex, collaborative nursing care management of diverse populations; enhancement of care management skills as a basic foundation for achieving optimal clinical outcomes; experience in application of evidence-based practice, clinical decision making, delegation and supervision, fiscal accounting; focus on interdisciplinary collaboration within complex organizational systems. Prerequisites: 096:139 (NURS:3520), 096:141 (NURS:3530), 096:153 (NURS:3540), 096:155 (NURS:3550), and 096:183 (NURS:5660). Requirements: admission to MSN:CNL program.

Primarily for Graduate Students

Courses are offered only if minimum enrollments are maintained.

096:200 (NURS:5695) Capstone: Clinical Immersion and Microsystem Improvement Leadership 6 s.h.

Intensive immersion into role and practice expectations of clinical nurse leaders (CNL) at microsystem level; mentoring in design and delivery of care; application of evidence-based practice; collection and evaluation of client outcomes data; assessment and mitigation of cohort risk; interdisciplinary collaboration; client advocacy; client and staff education; direct provision of care in complex situations; principles of effective use of resources; application of systems thinking to capstone project; improvement science and quality tools to address Institute of Medicine aims for health care improvement. Prerequisites: 096:208 (NURS:5002), 096:209 (NURS:5003), 096:266 (NURS:5102), and 096:263 (NURS:5004). Requirements: all didactic and clinical courses for general and specialty practice (gerontology, parent-child, mental health, and community); and master's portfolio.

096:201 (NURS:5007) Applied Epidemiology 3 s.h.

Basic principles and methods of epidemiology; application to field of nursing and nursing research; historical perspective of epidemiology, epidemiological models of health and disease, measures of disease occurrence and association, disease screening, causal inference, study design and application of epidemiological approaches to clinical practice, program planning and evaluation.

096:202 (NURS:5008) Foundations of Nursing Science I 3 s.h.

Integration of interdisciplinary theories and philosophies of science relevant to nursing; emphasis on application of theory and philosophy in advanced nursing practice and research. Requirements: doctoral standing.

096:203 (NURS:5016) Healthcare Infrastructure and Policy 3 s.h.

Health care infrastructure; health care reform and its implementation; political theories, policy definition, role of health professionals in policy-making process, information technology and its role in patient care, cultural factors affecting access and quality of care.

096:204 (NURS:5017) Quality and Safety 3 s.h.

Foundation for understanding concepts of safety and quality across health care settings; providing a safe environment; elevating staff performance and clinical outcomes related to safety and quality; methods for continuous improvement.

096:205 (NURS:5201) Clinical Practicum: Health of Children in Schools 3 s.h.

Delivery of health care in school settings; educational, legal, cultural, ethical issues in school nursing practice; developmental issues and their relationship to risk factors and the school population's health; application of nursing interventions, evaluation of nursing and educational outcomes; clinical practicum with children in a school setting; seminar, 90 clock hours in clinical practicum. Requirements: M.S.N. enrollment with school health focus.

096:207 (NURS:5018) Clinical Education in the Care Environment 3 s.h.

Preparation to assume role of educator with individuals, groups, and communities, including staff and students; teaching/learning process for providing client education; knowledge and skills needed to effectively fill role of preceptor/mentor.

096:208 (NURS:5002) Leadership and Management Essentials 3 s.h.

Roles and strategies for leading and managing others in health care environments to influence health care delivery and provide a healthy, innovative working environment; focus on selected leadership and organizational concepts essential to leaders in health care. Requirements: graduate standing.

- 096:209 (NURS:5003) Health Systems/Economics/Policy** 3 s.h.
Global, economic, organizational, political, and technological contexts for advanced nursing practice.
- 096:211 (NURS:5009) Evaluating Evidence for Practice** 3 s.h.
Opportunity for clinicians to develop proficiency in use of research- and evidence-based practice; essentials of the research process, qualitative and quantitative research, components of evidence-based practice; acquisition of knowledge and skills necessary for research (knowledge) utilization initiatives and application of evidence-based practice principles in clinical settings; identification of appropriate research questions, synthesis of knowledge base for evidence-based practice, revision of clinical practice guidelines, and evaluation of research utilization and evidence-based practice initiatives.
- 096:212 (NURS:5006) Research for Evidence-Based Practice II** 3 s.h.
Innovation models applied to nursing practice; implementation and evaluation research applied to planning, initiating, and monitoring best-care practices; factors that impede or facilitate evidence-based practice changes within and across health care systems; strategies for successful implementation of evidence-based practice change in organizations; students participate in evidence-based implementation process. Requirements: DNP enrollment or 096:211 (NURS:5009).
- 096:213 (NURS:5025) Physiology and Pathophysiology for Advanced Clinical Practice** 3-4 s.h.
Regulation of cellular, organ, and system function; regulation of internal milieu; functional interrelationships among body systems; cellular and body-wide mechanisms of self-defense; illustrative examples of pathological phenomena.
- 096:214 (NURS:5026) Advanced Health Assessment for Clinical Practice** 3 s.h.
Knowledge and skills necessary for advanced health assessment of individuals and families across the life span. Requirements: graduate standing in the College of Nursing.
- 096:215 (NURS:5015) Health Systems, Finance, and Economics** 3 s.h.
Global, economic, organizational, legal, political, and technological contexts in advanced nursing practice; knowledge and skills necessary for understanding the evolution of health services organizations, financing of health care, and relationships among socioeconomic systems influencing health care and nursing practice; impact of macrosystems on distribution, acquisition, and use of financial and economic principles in delivery of health care services. Prerequisites: 096:208 (NURS:5002).
- 096:216 (NURS:4216) Group Facilitation in Human Sexuality** 0-3 s.h.
Principles of group dynamics, group process; leadership skills for small, task-oriented discussion groups on human sexuality. Prerequisites: 042:112 (SSW:3712). Same as 042:216 (SSW:4216).
- 096:217 (NURS:5031) Health Promotion and Assessment for Advanced Clinical Practice** 3-5 s.h.
Didactic and clinical laboratory instruction; emphasis on knowledge and skills necessary for advanced health assessment and health promotion interventions for individuals and families across the lifespan; clinical practicum consisting of intensive assessment experiences relevant to role.
- 096:218 (NURS:5032) Mental Disorders in Advanced Practice** 3 s.h.
Foundation for advanced practice nurse to provide care for common mental health disorders; presentation of neurophysiological, genomic, environmental/social, and developmental theories to understand etiology and presentation of common mental health conditions; psychopharmacological and nonpharmacological principles and modalities for treatment of common mental health problems. Requirements: admission to direct care DNP program.
- 096:219 (NURS:6100) Primary Care: Infants, Children, and Adolescents I** 3 s.h.
Enhancement of clinical knowledge and skills for infant, child, adolescent care. Prerequisites: 096:213 (NURS:5025), 096:214 (NURS:5026), 096:222 (NURS:5027), and 096:224 (NURS:5029).
- 096:220 (NURS:6101) Primary Care: Infants, Children, and Adolescents II** 3 s.h.
Enhancement of clinical knowledge and skills for infant, child, adolescent care; development and refinement of knowledge and skills in primary health care delivery. Requirements: for 096:220 (NURS:6101) — 096:219 (NURS:6100) or 096:280 (NURS:6200); for 070:201 (PEDS:6101) — 096:219 (NURS:6100) and 096:280 (NURS:6200). Same as 070:201 (PEDS:6101).
- 096:222 (NURS:5027) Health Promotion and Intervention for Primary Care** 3 s.h.
Theories of health promotion in primary care, levels of prevention, epidemiological principles and methods; specific interventions designed to maintain, promote, optimize health across the lifespan.
- 096:223 (NURS:5028) Clinical Applications for Health Assessment and Health Promotion** 1-3 s.h.
Advanced health assessment and promotion skills applied to planning, implementing, and evaluating interventions designed to maintain, promote, and optimize health across the lifespan. Corequisites: 096:214 (NURS:5026) and 096:222 (NURS:5027), if not taken as prerequisites. Requirements: graduate standing in the College of Nursing.
- 096:224 (NURS:5029) Pharmacotherapeutics for Advanced Clinical Practice** 4 s.h.
Pharmacologic, pharmacokinetic, and pharmacodynamic principles essential for advanced clinical practice; classes of drugs frequently used in management of common clinical conditions; legal considerations in prescriptive authority. Prerequisites: 096:213 (NURS:5025).
- 096:225 (NURS:5400) Biopsychosocial Dimensions of Healthy Aging** 3 s.h.
Biopsychosocial dimensions of healthy aging in individuals; healthy aging, including behavior and normal age-related physiological changes, psychosocial and cultural implications of aging; expansion of gerontological nursing based on integration of theory, research, standardized nursing languages.
- 096:226 (NURS:5636) Clinical Nurse Leader Seminar** 2 s.h.
Evolution of clinical nurse leader (CNL) role, eight core role functions, and the process of integration of CNL role into health care system. Requirements: admission to MSN-CNL program.
- 096:227 (NURS:5666) Leadership in the Microsystem** 3 s.h.
Assessment of the microsystem of practice, clinical nurse leader role as leader embedded in a microsystem, and identification of opportunities to enhance care delivery in the microsystem. Requirements: admission to MSN-CNL program.

096:228 (NURS:5500) Advanced Practice Genetic Nursing I 1-3 s.h.

Advanced practice genetic nursing for those at risk for genetic conditions or a condition with a genetic component; application of genetic/genomic science to nursing practice including chromosomal variations; Mendelian and nontraditional inheritance; preconception and prenatal health care in genetics; dysmorphism examinations; developmental delay associated with genetic conditions; application of molecular methodology to clinical and research practice; beliefs about race and ethnicity in the genomic era; ethical, legal, and social implications of genetic nursing. Prerequisites: 096:214 (NURS:5026) and 096:223 (NURS:5028) Corequisites: 096:116 (NURS:3734) Requirements: enrollment in APN-Genetics MSN program.

096:230 (NURS:5501) Advanced Practice Genetic Nursing II 1-3 s.h.

Advanced practice genetic nursing for individuals, families, and populations who are at risk for genetic conditions or who have a condition with a genetic component; application of genetic science to nursing assessments, interventions, and outcomes; genomics and the delivery of health care in primary and public health; pharmacogenetics; genomic therapeutics; childhood onset genetic disorders; adult onset genetic disorders; part two of the Advanced Practice Nursing Genetics course series. Prerequisites: 096:116 (NURS:3734), 096:214 (NURS:5026), 096:223 (NURS:5028), and 096:228 (NURS:5500). Requirements: enrollment in APN-Genetics MSN program.

096:232 (NURS:5030) Professional Aspects of Clinical Nursing Practice 3 s.h.

Advanced nursing role competencies and related settings in which advanced nursing practice occurs; history and development, core competencies, advanced practice roles, practice management issues. Prerequisites: 096:208 (NURS:5002).

096:239 (NURS:5696) CNL Capstone Clinical Immersion 6 s.h.

Intensive immersion in role and practice expectations of the CNL; experienced leaders within the microsystem, who are experts in the provision of clinical services at the point of care/ services, serve as mentors. Requirements: concurrent enrollment in master's portfolio.

096:241 (NURS:5401) The Care of the Frail Elderly 3 s.h.

Clinical management of the elderly; emphasis on economic considerations, principles of gerontological care, common syndromes, ethical issues; clinical application experience in a long-term care setting. Prerequisites: 096:214 (NURS:5026), 096:222 (NURS:5027), and 096:224 (NURS:5029). Same as 153:241 (ASP:5401).

096:245 (NURS:5803) Distance Education: Master's Independent Study arr.

Supervised study and/or clinical practice adjusted to needs of master's degree students. Requirements: M.S.N. enrollment.

096:246 (NURS:5552) Nursing Education: Process, Roles, and Strategies 3 s.h.

Role of nurse educator through study, application of teaching/ learning theories; learning tasks of students in nursing education programs. Corequisites: 096:208 (NURS:5002), if not taken as a prerequisite.

096:247 (NURS:5551) Curriculum Development in Nursing Education 3 s.h.

Societal, educational, professional factors in undergraduate curriculum design; evaluation of components in basic nursing education programs.

096:248 (NURS:5804) Distance Education: Master's Portfolio 0 s.h.

Clear and cohesive synthesis of clinical or professional experiences and competencies, including those gained in graduate study; students' clinical or professional strengths and career goals. Requirements: M.S.N. enrollment.

096:249 (NURS:5802) Master's Portfolio 0 s.h.

Opportunity for clear and cohesive synthesis of clinical or professional experiences and competencies, including those gained in graduate study, that portray students' clinical or professional strengths and career goals.

096:250 (NURS:6500) Psychiatric/Mental Health Nursing Theory I 4 s.h.

Introduction to psychological principles and theories as related to mental health across the life span, intersections between physical and mental health, and role of advanced practice nurse in psychiatric/mental health care; examination of psychological theory in a life span developmental framework from infancy to older adult; role of cultural diversity in mental health; emphasis on assessment, diagnosis, and management of mental disorders common in adults. Prerequisites: 096:218 (NURS:5032) and 096:224 (NURS:5029). Corequisites: 096:315 (NURS:6701).

096:251 (NURS:6501) Psychiatric/Mental Health Nursing Theory II 3 s.h.

Advanced psychiatric nursing practice with selected populations; definition and expansion of practice based on the integration of theory, standardized languages, research, self-evaluation. Prerequisites: 096:250 (NURS:6500).

096:256 (NURS:5526) Occupational Health Nursing I 3 s.h.

Framework for occupational health nursing practice and evolving role of the occupational health nurse; focus on health in the workplace. Prerequisites: 175:230 (OE:5620). Corequisites: 096:257 (NURS:5528).

096:257 (NURS:5528) Occupational Health Practicum I 3 s.h.

Concepts and theories of 096:256 (NURS:5526) integrated with professional nursing practice in the workplace; clinical focus on environmental perspective of worker health and role of occupational health nurse at worksite. Prerequisites: 175:230 (OE:5620) and 173:140 (EPID:5400). Corequisites: 096:256 (NURS:5526).

096:258 (NURS:5527) Occupational Health Nursing II 3 s.h.

Framework for implementing and evaluating risk reduction program in the workplace; compliance with regulatory entities in occupational health, quality assurance, surveillance, injury prevention. Prerequisites: 096:206, 096:208 (NURS:5002), and 096:256 (NURS:5526). Corequisites: 096:259 (NURS:5529).

096:259 (NURS:5529) Occupational Health Practicum II 3 s.h.

Transition from student role to clinical specialist role in occupational health nursing; in-depth experience in student's interest area. Corequisites: 096:258 (NURS:5527).

096:260 (NURS:5100) Nursing Systems Administration I 1-4 s.h.

Leadership concepts and theories, and their application to the nurse administrator's unique roles in community and institutional health care organizations; environmental, technological, and professional influences on structure and functions of health care and nursing service organizations and on the nurse administrator's role; course modules on leading patient care delivery, health care systems, and strategic management; practicum component for nurse administrator students. Prerequisites: 096:208 (NURS:5002).

096:261 (NURS:5101) Nursing Systems Administration II 1-5 s.h.

Concepts and theories regarding administration of financial, material, and human resources and quality of service, related to selected functions of the nurse administrator; course modules on financial management, human resources management, and outcomes and safety management; financial, human resources, and outcomes management in context of institutional settings (hospitals, nursing homes) or community and ambulatory care settings; influence of economic and social forces on administration of resources, personnel, and quality of service; research in nursing, business, and behavioral science related to administrative functions; practicum component for nurse administrator students. Prerequisites: 096:208 (NURS:5002) or 096:260 (NURS:5100).

096:262 (NURS:6550) Executive Leadership and Management 3-4 s.h.

Leadership and management concepts and theories; application to roles unique to executive nurse leader in health care organizations in institutional and community settings; emphasis on executive leadership roles for facilitating, integrating, and coordinating complex structures, processes, and outcomes in health care systems.

096:263 (NURS:5004) Informatics in Nursing and Health Care 3 s.h.

Foundation of information management and processing principles that support data, information, and knowledge in provision and delivery of nursing and health care. Requirements: competence in computer use and nursing major.

096:264 (NURS:6551) Financial Management 3-4 s.h.

Preparation for nurse leaders and practitioners to use techniques for financial analysis and decision making for patient care programs across the health care continuum; focus on efficient and effective management of resources for delivery of quality health care services.

096:265 (NURS:6552) Managing Care in an Organizational Environment 3-4 s.h.

Manage operations of patient care services across health care continuum within the framework of an established health care organization; focus on efficient and effective management of the structure, governance, patient care delivery system of care, and outcomes of care.

096:266 (NURS:5102) Advanced Case Management: Interdisciplinary Approach 3 s.h.

Theory, evidence, and strategies for health care coordination and integration examined through analysis of case management and disease management interventions; interdisciplinary approach; leadership for interdisciplinary teamwork; analysis and critique of case and disease management theory and models; synthesis of case and disease management principles as a framework for managing health care outcomes for cost and quality, identification of evidence-based clinical care guidelines; analysis of financial, legal, ethical, and outcomes management components of case and disease management practice. Same as 174:266 (HMP:5130).

096:267 (NURS:6553) Seminar on Innovations 4 s.h.

Strategizing about taking meaningful action, disrupting stable processes, diffusing innovation, and sustaining change; emerging innovations in nursing and health care systems that impact the functions and responsibilities of nurse leaders.

096:268 (NURS:6554) Seminar on Healthy Work Environments 3 s.h.

Application of leadership and management knowledge specific to creating and sustaining healthy work environments in health care; current and emerging issues focused on health care work environments.

096:269 (NURS:6001) Human Physiology and Pathophysiology for Advanced Practice 3 s.h.

Detailed study of normal and abnormal human physiology, including mechanisms that govern and support cell, organ, and system function; builds on basic sciences required for undergraduate nursing curriculum and on clinical skills from experience in intensive care setting. Requirements: admission to anesthesia nursing program.

096:270 (NURS:6000) Human Anatomy for Advanced Practice 3 s.h.

Interrelationships between anatomic structure and physiological function in health and disease; clinical assessment of functional integrity of organ systems; implications of pathophysiology for anesthesia. Requirements: admission to anesthesia nursing program. Same as 060:270 (ACB:6000).

096:271 (NURS:6005) Chemical and Physical Principles of Anesthesia Practice 3 s.h.

Chemistry and physics, as applied to anesthesia. Requirements: admission to anesthesia nursing program. Same as 116:271 (ANES:6005).

096:273 (NURS:6006) Pharmacology of Anesthesia Practice II 3 s.h.

Continuation of 071:115 (PCOL:6204); vascular, hepatic, renal, GI, endocrine aspects; cellular mechanisms, electrolytes alterations, anesthesia specific implications. Prerequisites: 071:115 (PCOL:6204). Requirements: grade of 2.75 or higher in 071:115 (PCOL:6204) and enrollment in anesthesia nursing program. Same as 116:273 (ANES:6006).

096:274 (NURS:6007) Basic Principles of Anesthesia Practice 5 s.h.

Overview of anesthesia as a nursing specialty; patient assessment, anesthetic planning and management, pertinent regulations; principles of general and regional anesthesia for surgical specialties. Requirements: for 096:274 (NURS:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 096:271 (NURS:6005); for 116:274 (ANES:6007) — grades of 3.00 or higher in 071:115 (PCOL:6204) and 116:271 (ANES:6005). Same as 116:274 (ANES:6007).

096:275 (NURS:6010) Advanced Principles of Anesthesia Practice I 4 s.h.

Special needs and intraoperative management of obstetric, pediatric, and neurological patients; emphasis on pathophysiology, monitoring, ancillary requirements. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 116:275 (ANES:6010).

096:277 (NURS:6012) Advanced Principles of Anesthesia Practice II 1 s.h.

Acute and chronic pain management; anesthetic problems with concurrent multisystem disease, advanced age, altered physical and/or mental status. Prerequisites: 096:274 (NURS:6007) or 116:274 (ANES:6007). Requirements: grade of 3.00 or higher in 096:273 (NURS:6006) or 116:273 (ANES:6006). Same as 116:277 (ANES:6012).

096:279 (NURS:6016) Equipment and Technological Principles of Anesthesia Practice 3 s.h.

Anesthesia delivery systems, ancillary equipment, monitoring devices; correlation of applicable chemical and physical principles for use, safe operation, care, and cleaning of anesthesia-related equipment. Prerequisites: 116:271 (ANES:6005). Requirements: anesthesia nursing program enrollment. Same as 116:279 (ANES:6016).

096:280 (NURS:6200) Primary Care: Adults and Older Individuals I 3 s.h.

Pathophysiologic alterations and clinical management of associated health care problems in adults, the elderly. Prerequisites: 096:213 (NURS:5025), 096:214 (NURS:5026), 096:222 (NURS:5027), and 096:224 (NURS:5029).

096:283 (NURS:5300) Health Informatics I 3 s.h.

Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 050:283 (MED:5300), 021:275 (SLIS:5900), 074:191 (RSNM:3195), 174:226 (HMP:5370), 051:187 (BME:5250), 056:186 (IE:5860), 200:110 (IGPI:5200).

096:284 (NURS:6201) Primary Care: Adults and Older Individuals II 3 s.h.

Continuation of 096:280 (NURS:6200). Prerequisites: 096:280 (NURS:6200).

096:289 (NURS:5301) Health Informatics II 3 s.h.

Selected health informatics initiatives, including computer-based patient records, physiologic monitoring, networking, imaging, virtual reality; participation in an interdisciplinary project team focused on an informatics innovation; application and research seminars. Same as 051:189 (BME:5252), 074:192 (RSNM:5301), 056:287 (IE:5870), 021:280 (SLIS:5910), 200:120 (IGPI:5210).

096:290 (NURS:6050) Introductory Clinical Anesthesia 1 s.h.

Initial anesthesia preceptorship; development of basic clinical skills for work as a nurse anesthetist. Requirements: for 096:290 (NURS:6050) — grades of 3.00 or higher in 096:273 (NURS:6006) and 096:279 (NURS:6016); for 116:290 (ANES:6050) — grades of 3.00 or higher in 116:273 (ANES:6006) and 116:279 (ANES:6016). Recommendations: basic science core courses and anesthesia nursing program enrollment. Same as 116:290 (ANES:6050).

096:291 (NURS:6051) Clinical Anesthesia I 1 s.h.

Supervised anesthesia clinical experience for general, orthopedic, gynecologic, pediatric, urologic, dental, EENT, ambulatory surgery, or invasive diagnostic procedures. Prerequisites: 096:290 (NURS:6050) or 116:290 (ANES:6050). Requirements: for 096:291 (NURS:6051) — grade of S (satisfactory) in 096:290 (NURS:6050); for 116:291 (ANES:6051) — grade of S (satisfactory) in 116:290 (ANES:6050). Recommendations: anesthesia nursing program enrollment. Same as 116:291 (ANES:6051).

096:292 (NURS:6052) Clinical Anesthesia II 1 s.h.

Clinical anesthesia experience under faculty supervision at University Hospitals and Clinics, in surgical subspecialty rotations not completed in 096:291 (NURS:6051) or 116:291 (ANES:6051). Prerequisites: 096:291 (NURS:6051) or 116:291 (ANES:6051). Requirements: for 096:292 (NURS:6052) — grade of 3.00 or higher in 096:291 (NURS:6051); for 116:292 (ANES:6052) — grade of 3.00 or higher in 116:291 (ANES:6051). Recommendations: anesthesia nursing program enrollment. Same as 116:292 (ANES:6052).

096:293 (NURS:6053) Advanced Clinical Anesthesia 1 s.h.

Clinical anesthesia experiences in neurologic surgery, cardiovascular/thoracic surgery; experience providing anesthesia for patients with complex pathophysiology in varied surgical settings. Requirements: for 096:293 (NURS:6053) — anesthesia nursing program senior standing, anesthesia nursing concentration courses, and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:293 (ANES:6053) — anesthesia nursing program enrollment, anesthesia nursing concentration courses, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 116:293 (ANES:6053).

096:294 (NURS:6054) Obstetrical Anesthesia 1 s.h.

Experience providing anesthesia for the parturient, initial neonatal care; two one-month rotations off campus. Requirements: for 096:294 (NURS:6054) — anesthesia nursing program enrollment and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:294 (ANES:6054) — anesthesia nursing courses, anesthesia nursing program enrollment, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 116:294 (ANES:6054).

096:295 (NURS:6055) Rural Anesthesia 1 s.h.

Anesthesia experience in community hospitals; three one-month rotations at UI-affiliated clinical sites in rural Iowa. Requirements: for 096:295 (NURS:6055) — anesthesia nursing program enrollment and grade of 3.00 or higher in 096:292 (NURS:6052); for 116:295 (ANES:6055) — anesthesia nursing courses, anesthesia nursing program enrollment, and grade of 3.00 or higher in 116:292 (ANES:6052). Same as 116:295 (ANES:6055).

096:296 (NURS:5800) Independent Study arr.

Supervised study and/or clinical practice adjusted to needs of master's degree students. Requirements: M.S.N. enrollment.

096:298 (NURS:5801) Master's Project 2-3 s.h.

Opportunity for in-depth analysis and synthesis of a chosen topic that contributes to some aspect of nursing practice.

096:299 (NURS:5805) Thesis arr.

Opportunity for systematic investigation of a nursing problem of student's choice under guidance of faculty.

For Doctoral Students

Open to doctoral students or to others with consent of instructor.

096:301 (NURS:5806) Distance Education: Master's Project 2-3 s.h.

In-depth analysis and synthesis of a chosen topic that contributes to some aspect of nursing practice. Requirements: M.S.N. enrollment.

096:302 (NURS:6800) Emerging Science 3 s.h.

Emerging science to prepare leaders, advanced practice practitioners, and researchers to meet challenges of today's workforce and health care environment; opportunities to apply emerging health care science that influence health care policy, education, research, and practice.

096:303 (NURS:6803) DNP: Advanced Role Development I 3 s.h.

Organizational and leadership skills that enhance practice and emphasize clinical care, ongoing improvement of health outcomes, and patient safety; case management, business practices, multidisciplinary role setting, leadership and ethics, conflict resolution, community or aggregate populations, vulnerable populations. Corequisites: 096:304 (NURS:6804). Requirements: admission to Doctor of Nursing Practice program.

096:304 (NURS:6804) DNP: Advanced Role Development Practicum I 3 s.h.

Opportunities to apply advanced leadership and clinical knowledge in health care systems; application of content from 096:303 (NURS:6803); identification of needs and/or interests to define student's clinical practice; experience in selected clinical or agency sites to increase competencies in areas such as clinical acumen, case management, leadership, business practices. Requirements: admission to Doctor of Nursing Practice program.

096:305 (NURS:6801) Emerging Science 3 s.h.

Acquisition of emerging scientific knowledge in health care and application to individuals, families, populations; integration of epidemiologic approaches, genomic factors, and socio-cultural influences in processes of conducting risk assessment, intervention implementation, and health care delivery evaluation; importance of research and statistical methods in establishing risk profiles; studies of clinical, community, vulnerable, and marginalized populations as essential for developing and implementing individualized health care plans for populations, family units, and individuals. Corequisites: 096:211 (NURS:5009). Requirements: admission to Doctor of Nursing Practice program.

096:306 (NURS:6805) DNP: Advanced Role Development II 3 s.h.

Builds on 096:304 (NURS:6804); continued development of in-depth clinical knowledge and skills in student's interest area; advanced levels of interprofessional collaborative skills and team building. Prerequisites: 096:303 (NURS:6803). Corequisites: 096:307 (NURS:6806).

096:307 (NURS:6806) DNP: Advanced Role Development Practicum II 3 s.h.

Builds on 096:304 (NURS:6804); advanced leadership skills and clinical knowledge applied at practicum site; enhancement of competencies in areas such as clinical acumen, case management, leadership, business practices. Prerequisites: 096:303 (NURS:6803) and 096:304 (NURS:6804). Corequisites: 096:306 (NURS:6805).

096:308 (NURS:6825) Clinical Leadership Project 1-5 s.h.

Opportunity for in-depth analysis and synthesis of a topic that contributes to an aspect of advanced nursing practice; students relate projects to evidence-based practice/translational science courses and/or 096:332 (NURS:6809) and 096:333 (NURS:6810).

096:309 (NURS:7304) Data Mining and Machine Learning 3 s.h.**096:310 (NURS:7305) Advanced Nursing Informatics** 3 s.h.

Management and processing of data and information, evaluation of information systems; related informatics research methods that support knowledge development. Requirements: graduate-level informatics course.

096:312 (NURS:7306) Advanced Practice in Clinical Information Systems 3 s.h.

Nursing informatics theory applied to design, modification, implementation, and evaluation of nursing and health information systems; supervised clinical preceptorship. Prerequisites: 096:263 (NURS:5004) and 096:310 (NURS:7305).

096:313 (NURS:6900) Computational Intelligence 3 s.h.

Concepts, models, algorithms, and tools for development of intelligent systems; data mining, expert systems, neural networks for engineering, medical and systems applications. Prerequisites: 056:171 (IE:3700). Same as 056:235 (IE:6350).

096:315 (NURS:6701) Advanced Practice Clinical Practicum I 3-4 s.h.

Application of advanced physical assessment, pathophysiology, and diagnostic reasoning in a clinical setting appropriate to a specific population.

096:316 (NURS:6702) Advanced Practice Clinical Practicum II 3 s.h.

Continuation of 096:315 (NURS:6701); emphasis on diagnostic reasoning and formulation of treatment plans.

096:317 (NURS:6703) Advanced Practice Clinical Practicum III 3-4 s.h.

Synthesis of role expectations for advanced practice with focus on clinical competencies appropriate to the specialization.

096:318 (NURS:6704) Practicum in Executive Leadership and Management 4 s.h.

Immersion experience in application of principles and methods of leadership, management, and evaluation to facilitate health care operations in various settings; student collaboration with a preceptor for mentored in-depth immersion in systems practice.

096:319 (NURS:5807) Distance Education: Master's Thesis arr.

Systematic investigation of a nursing problem of student's choice under guidance of faculty. Requirements: M.S.N. enrollment.

096:330 (NURS:6802) Health Policy, Law, and Advocacy 3 s.h.

Issues that shape health care economics and policy development; framework for understanding work of legislators and other policy makers; emphasis on state and national level; health issues in developing countries; health care system, its economics, financing, role of government, not-for-profit entities, and nongovernmental organizations. Requirements: doctoral standing.

096:331 (NURS:6808) Clinical Decision Making for Advanced Practice 3 s.h.

Coordination and integration of care delivery for population health and clinical effectiveness across the continuum of care; management of optimized outcomes; emphasis on informatics infrastructure and translation of evidence-based practice to managing care provision and achieving desired outcomes as a result of care provision.

096:332 (NURS:6809) DNP Role Integration I 4 s.h.

Application of leadership skills to enhance practice and incorporate evidence-based clinical care, improve health outcomes, and ensure safety in a patient-centered and cost-effective environment. Requirements: doctoral standing.

096:333 (NURS:6810) DNP Role Integration II 4 s.h.

Application of in-depth knowledge of complexity science and leadership skills to prepare students for transforming patient care delivery models of care. Prerequisites: 096:332 (NURS:6809). Requirements: doctoral standing.

096:338 (NURS:7002) Designing Research 3 s.h.

Introduction to designing research studies; issues related to research design as a set of choices influenced by aims, research questions, styles/traditions of research; conceptual frameworks/theories. Requirements: Ph.D. standing.

096:339 (NURS:6811) Social Determinants of Health and Health System Inequities 3 s.h.

Social determinants of health outcomes and inequities; social and economic forces that shape them using various perspectives and lenses; conceptualization and measurement of variables representing risk and inequities that serve as the organizing framework for course discussions, including individual and social factors; critical analysis of research studies for social bias. Requirements: doctoral standing.

096:340 (NURS:7000) Foundations of Nursing Science II

4 s.h.

Introduction to philosophical, historical, and conceptual underpinnings of contemporary nursing scholarship; students read primary sources on development of nursing knowledge and classic and contemporary works in philosophy of science; how these ideas influence development of nursing thought; two critical concepts of research (cause and validity); laboratory tools for synthesis of existing literature (integrative review, systematic review, concept analysis); synthesis of literature in student's interest area to identify and apply selected approach. Prerequisites: 096:202 (NURS:5008). Requirements: Ph.D. standing.

096:342 (NURS:7001) Qualitative Research

4 s.h.

Qualitative research; ethnography, grounded theory, narrative, phenomenology, philosophical underpinnings, and research designs across traditions; current and emerging issues (i.e., mixed methods, meta-synthesis, working with vulnerable populations); guided exercises, peer sharing, collaborative group projects; qualitative interviewing and transcription, field work, participant observation; use of software for managing qualitative data; data coding, analysis and interpretation; critique of qualitative research proposals and manuscripts. Prerequisites: 096:338 (NURS:7002) and 096:340 (NURS:7000).

096:344 (NURS:7003) Quantitative Research

4 s.h.

Refinement of students' understanding of the application of scientific logic; criteria for causality, its application in health-related research; various quantitative methods; sampling theory and approaches to sample selection, recruitment, and methods; issues related to instrument selection, reliability and validity considerations; management of large data sets and maintenance of data integrity; guided exercises, peer sharing, and collaborative groups provide experiences integrated with content in didactic section. Prerequisites: 096:338 (NURS:7002) and 096:340 (NURS:7000).

096:405 (NURS:7200) Family Nursing Research

3 s.h.

Family theories and empirical research from nursing and related disciplines; mid-range family theories; issues in research methodology.

096:410 (NURS:7400) State of the Science in Biobehavioral Research on Aging

3 s.h.

Analysis and evaluation of science in biobehavioral aging research; overview of aging research and interdisciplinary contributions; biobehavioral phenomena pertinent to aging populations; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, measurement studies; ethical and methodological issues, context of care; identification of literature gaps and future research agendas that promote successful aging. Requirements: for 096:410 (NURS:7400) — doctoral standing; for 153:410 (ASP:7400) — Ph.D. enrollment. Recommendations: knowledge of pathophysiology, research design, and statistics. Same as 153:410 (ASP:7400).

096:412 (NURS:7310) Methods and Measurement in Clinical Pain Research

2 s.h.

Basic theoretical models for understanding pain; insight into the state of science of clinical pain research; issues and challenges related to conduction of clinical pain research; designs, vulnerable populations, methodology, and measurement strategies relevant to clinical trials; comparative effectiveness and translational research studies; interdisciplinary presentations of research experiences, issues, and solutions to provide a foundation for discussion and analysis of best practices for clinical pain research. Corequisites: 101:133 (PTRS:6133). Requirements: Ph.D. standing. Recommendations: graduate-level research methods/design course and pathophysiology.

096:415 (NURS:7202) Genetic Nursing Research

3 s.h.

Concepts in human genetics integrated with nursing research; methodological issues in study of populations with specific genetic problems; generation of testable hypotheses.

096:420 (NURS:7401) State of the Science in Geriatric Mental Health Research

3 s.h.

Analysis and evaluation of science in geriatric mental health research in nursing and other disciplines; cognitive and affective function, substance abuse, and caregiver health/support; relevant epidemiologic research, population/community-based research, primary prevention research, qualitative and quantitative analyses, instrumentation, intervention research, and measurement studies; review and analysis of program evaluation and services research, emphasis on ethical and methodological issues; identification of literature gaps and future research agendas that promote successful aging. Requirements: for 096:420 (NURS:7401) — doctoral standing; for 153:420 (ASP:7401) — Ph.D. enrollment. Recommendations: knowledge of psychopathology, research design, and statistics. Same as 153:420 (ASP:7401).

096:423 (NURS:7403) Advanced Seminar in Health Research

3 s.h.

Health research across the lifespan and health care continuum; specific topics based on the state of the science and emerging science initiatives put forth by NIH and other funding agencies. Requirements: doctoral standing.

096:430 (NURS:7402) Nursing Research in Sociocultural Phenomena and Interventions for the Elderly

3 s.h.

Sociocultural issues for aging clients, corresponding nursing interventions; theoretical orientations to dynamics of aging, transitions and role changes, social/environmental issues. Requirements: for 153:430 (ASP:7402) — Ph.D. enrollment. Same as 153:430 (ASP:7402).

096:463 (NURS:7301) Research in Nursing Informatics II

3 s.h.

Builds on 096:462; clinical applications, related research. Prerequisites: 096:462.

096:475 (NURS:7505) Leadership Institute and Career Development

3 s.h.

Four demands of leadership: purpose, direction, and meaning; trust and accuracy; optimism; action and results. Ten-day course. Requirements: Ph.D. enrollment or postdoctoral standing.

096:485 (NURS:7509) Research Residency

3 s.h.

Participation in a research project based on an individualized plan of study, under guidance of a preceptor.

096:490 (NURS:7803) Research Practicum I

1 s.h.

First of two practicums that serve as a system of apprenticeship by which students are mentored through all aspects of scientific processes, methodologies, and analysis; principal investigator is an experienced researcher with a current large project requiring a team of investigators; project relevant to student's area of study. Requirements: Ph.D. standing.

096:491 (NURS:7804) Research Practicum II

1 s.h.

Second of two practicums that serve as a system of apprenticeship by which students are mentored through all aspects of scientific processes, methodologies, and analysis; principal investigator is an experienced researcher with a current large project requiring a team of investigators; project relevant to student's area of study. Prerequisites: 096:490 (NURS:7803).

096:496 (NURS:7800) Independent Study

arr.

Supervised study adjusted to needs of doctoral degree students. Requirements: Ph.D. enrollment.

**096:497 (NURS:7801) Seminar: Research
Scholarship Role Development** 3 s.h.

Preparation for successful completion of doctoral course work, comprehensive examination, and dissertation; faculty-guided structure provides opportunities for students to assimilate knowledge and behavior of a scholar and activities that facilitate and optimize socialization and success as nurse scientists and academic faculty. Requirements: Ph.D. standing.

College of Pharmacy

Dean

Donald E. Letendre

Executive associate dean

Bernard A. Sorofman

Associate dean, curriculum and assessment

Hazel H. Seaba

Associate dean, professional education

Michael W. Kelly

Associate dean, research and graduate affairs

Michael W. Duffel

Assistant dean, University of Iowa Hospitals and Clinics

Assistant dean, veterans' affairs

Kathy J. Rinehart (Iowa City Veterans Affairs Medical Center)

Chair, pharmaceutical sciences and experimental therapeutics

Chair, pharmacy practice and science

Bernard A. Sorofman

Head, applied clinical sciences

Jay D. Currie

Head, health services research

William R. Doucette

Head, medicinal and natural products chemistry

Robert J. Kerns

Head, pharmaceuticals and translational therapeutics

Maureen D. Donovan

Director, Division of Drug Information Service

Kevin G. Moores

Director, University of Iowa Pharmaceuticals

Mickey L. Wells

Professors

John M. Brooks, Barry L. Carter, Elizabeth Chrischilles, Jordan L. Cohen, Maureen D. Donovan, William R. Doucette, Michael W. Duffel, Douglas R. Flanagan, Lawrence L. Fleckenstein, Lee E. Kirsch, Donald E. Letendre, Kevin G. Rice, Bernard A. Sorofman, Peter Veng-Pedersen, Dale Eric Wurster

Professors emeriti

Paul W. Abramowitz, Bruce Alexander, Gilbert S. Banker, Charles F. Barfknecht, David P. Carew, J. Keith Guillory, Lloyd E. Matheson, William A. Miller, Eugene L. Parrot, Paul J. Perry, Rolland I. Poust, John P. Rosazza, Ronald D. Schoenwald

Professors (clinical)

Jay D. Currie, Michael E. Ernst, Ronald A. Herman, Michael W. Kelly, James A. Ponto, Hazel Seaba

Adjunct professors

Karen Bell, Douglas R. Geraets, Randy P. McDonough,

Associate professors

Karen Baker, Jonathan A. Doorn, Erika J. Ernst, Zhendong Jin, Robert J. Kerns, Lee E. Kirsch, Vijay Kumar, Gary Milavetz, D.J. Murry, Horacio Olivo, Aliasger K. Salem, Julie M. Urmie, Mickey L. Wells

Associate professor emeritus

Ting Fong Chin

Associate professors (clinical)

Lucinda Buys, James D. Hoehns, Cindy Marek, Deanna L. McDanel, Kevin G. Moores, John M. Swegle, Coralynn B. Trewet

Adjunct associate professors

Ruth R. Avelino, William S. Fisher, Ryan A. Hobbs, Jennifer A. James, Grace E. Jerome, Mark E. Jones, Craig D. Logemann, Steven P. Nelson, Mary B. Ross, Jamie M. Smelser, Dorothy L. Smith, Patti Sue Trenkamp, Dawn M. Whitehill

Assistant professors

Mahfoud Assem, Jennifer Fiegel, Linnea A. Polgreen, David L. Roman, Mary C. Schroeder

Assistant professors (clinical)

Amy J. Becker, Elizabeth A. Beltz, Heather Bream-Rouwenhorst, Matthew Cantrell, Christine M. Catney, Katrina Derry, Vernon K. Duba, Thomas M. Farley, Jill A. Fowler, Michelle A. Fravel, Phyllis I. Hemerson, Kathleen Horner, Kristin Horning, Ryan B. Jacobsen, Sarah J. Johnson, Vicki R. Kee, Kate M. Oltrogge, Stuart K. Pitman, Jeffrey C. Reist, Mary Starry, Brandon M. Vakiner, Susan H. Vos

Assistant professors (clinical) emeriti

Harold J. Black, Ruth A. Kellems

Adjunct assistant professors

Autumn P. Achenbach, Megan E. Alderton, Jerrad D. Aman, Rockford C. Anderson, Gloria Angelo, Lynette R. Arens, William Thomas Baer, Brett H. Barker, Luke J. Bartlett, Amber L. Baybayan, Abby E. Beane, Anna M. Behrens, Amanda R. Benzon, Gabriel M. Billiet, Kelly J. Biniak, David B. Blaha, Linsey A. Blau, David K. Boblenz, Brent M. Bovy, Julie L. Brongel, Gregory A. Brosius, Tammy S. Bullock, Brooke N. Burkhalter, Douglas A. Burks, Marra J. Burr, Grant S. Buxton, Amy J. Cagley, Brenda R. Carmody, Pedro M. Carrillo, Kara M. Carruthers, Coby Carstens, David A. Catanzaro, Tiffany L. Chamberlain, Heather Christ, Constance Clancey, Amanda Clary, Leah A. Clausen, Christopher E. Clayton, Colleen M. Clement, Amy M. Cobb, Howard L. Cobb, Bridgette F. Cochran, Michael A. Conrey, Lisa N. Cooley, Kyra J. Corbett, Thomas G. Crabb, Kirk Crabtree, John F. Daniel III, Angela M. Danielson, Cam Davis, Cory DeBuhr, Scott M. Decker, Michael J. Deninger, Amber Dodds, Ashley C. Dohrn, Gregory P. Dyke, Richard Engleka, Michelle M. Evink, Brett A. Faine, Michelle Farrell, Virginia Fedorchak, Suzanne Feeney, Mark D. Feldick, Lance J. Fischer, Jacquie Fitzgerald, Lindy Flatau, Tiffany Flynn, Angela A. Fouts, Jessica M. Frank, Joshua Free, Suzanne Freiha, Susan Frey, Michael G. Fuller, Kate Gainer, Kevin C. Gamble, Lisa D. Garner, Scott M. Garrett, Cory Garvin, Emily M. Gerds, Mindy Gueera, Bill J. Halls, Tom Halterman, John N. Hamiel, Tanya Hampton, Jason Hansel, Lucinda M. Harms, Amy C. Hartwig, Jessica K. Havel, Brianne L. Hefty, Jillian M. Hernan, David A. Herold, Amy Hetrick, Shauna Hickey, Kelly Hoenig, Matthew Horton, Nicholas M. Howell, Stevie Hudriik, Jennifer L. Hughes, Amy Lynn Jackson, Wendy Jackson, Angela Jacobs Ramspott, Ryan B. Jacobsen, Valerie E. Jensen, Megan M. Johannesen, Shella R. Johnson, Marni F. Juhasz, Thane A. Kading, Robert J. Keane, Karen Kelly, Martha A. Kemp, Kelly J. Kent, Gwendolyn L. Kirsch, Dennis W. Kitzman, Laura E. Knockel, Yvonne D. Koch, Katherine Koehn, Seth D. Koerner, Terrence Kohnen, Lee A. Kral, Terese N. Kruse, Carmen L. Kulig, Patty A. Kumbera, Mary J. Leisure, Patrick A. Lester, Dale P. Lewis, Tiffany S. Lichty-Gaffey, Tara Loan, Timothy G. Lobb, Erin M. Lockard, Joseph R. Mac, Kimberly

Malichky, Lisa Jo Marsh, Steven W. Martens, Amy Martin, Lisa A. Mascardo, Nicolo J. Mastascusa, Shana A. Mathahs, Lloyd Matowe, Bernadette A. McCowan, Melissa A. McGill, Don R. McGuire, Nathan P. Merrill, Melanie R. Millard, Katie D. Mitchell, Teresa M. Mitchell, Kristi J. Moeller, Joseph P. Moore, Rebecca A. Moore, Douglas E. Morgan, Mary A. Mosher, Joan M. Murhammer, Jennifer Musick, Billie Jo Myers, Kendra Nelson-Norman, Christina P. Neve, Brand Newland, Anh Thu Nguyen, Bic T. Nguyen, Elizabeth A. Nichols, Ellen J. Nickel, Matthew W. Niehaus, Robert J. Osterhaus, Michaela A. Otting, Michael T. Padomek, Christopher P. Parker, Laurie A. Pestel, Daniel E. Petefish, Brian M. Petersen, John D. Peterson, Stewart N. Peterson, Kelly Phan, Steven P. Pinneke, Paula J. Pisarik, Lisa C. Ploehn, Matt P. Porepp, Armand J. Potestio, Anthony Provenzano, Michelle Prull, Elana N. Pyevich, Edward C. Rainville, Heather M. Rickertsen, Sharon Rickertsen, Krista J. Ringwald, Krista J. Ringwald, Sossity A. Riordan, Kerianne M. Roder, Shawn C. Roe, Meaghan Rogers, Jessica Rosenhamer, Dennis Ruth, Bethany C. Sather, Michelle K. Scheibe, Kate E. Schemmel, Cheri R. Schmit, Ed Schnase, Robert F. Shaw, Rani Shen, Scott Sitzman, Wendy S. Slaughter, Amanda M. Smith, Jessica Smith, Trisha A. Smith, Alan Sokolowski, Mark K. Sorenson, Angela M. Spannagel, Rebecca S. Stahle, Crystal S. Starlin, Bonnie Stephens, Kim M. Stoakes, Jess W. Streif, Teri L. Swenson, Abby L. Tague, Marshall J. Tague, Amy M. Taylor, Thomas R. Temple, Corey Thieman, Patrick W. Thies, Scott A. Thompson, Lindsey J. Tieden, Sarah Tierney, Keri M. Toth, Journey Treacy, Chad A. Triplett, Gia-Lap B. Truong, Travis Tubbs, Karla N. Turney, Catherine Ulbricht, Amy Van Gorp, Kimberly A. Van Schepen, Kimberly R. Van Thournout, James L. Van Winkle, Sharon Vanek, Theresa Vavra, Lisa M. Veit, Casey S. Villhauer, Emily A. Vyverberg, Jennifer J. Walker, Nancee V. Waterbury, Jill M. Weeks, David B. Weetman, David D. Wegman, James C. Wester, Kristin K. Williams, Tim A. Wright, Michael G. Wurth, Gregory J. Yeakel, William T. Yohe, Dawn M. Youngblood, Jennifer R. Zearley, Marcia C. Zeithamel, Kimberly A. Zellmer, Christine L. Zeman

Adjunct instructors

Mary Jo Abbott, Gary R. Albers, Laurie Allbaugh, Rhonda Anderson, Teresa Anderson, Bruce A. Babcock, Patrick L. Barnes, Lori A. Barton, Jordan F. Baye, Kevin L. Bebout, Timothy D. Becker, Tracey L. Bennett, Amanda J. Bidlencik, Michele M. Birdsell, William R. Blakesley, John P. Bohlman, Randy Boyer, Jeff Bregar, Maureen Breuker, Sharon K. Cashman, Carl V. Chalstorm, Kevin Christians, Craig L. Clark, Ruth A. Clark, Courtney L. Conatser, Connie Conolly, Bernard J. Cremers, Daniel Cullinan, Neal R. Daley, Wendy L. Deppe, Tom Devaney, Kristi L. Dimke, Linda Dohrn-Chiaravalle, William M. Drilling, Rhonda S. Emry, Joshua D. Feldmann, Ann M. Fitzgibbons, Laura L. Fitzpatrick, Jeffrey L. Fries, Leon Galehouse, Tawnya Gardener, Michelle M. George, Todd Gerking, Melanie Gorvin-Boots, Robert L. Greco, Robert J. Greenwood, Thomas J. Haas, Lynn Hanish, Jillien F. Hankewich, David J. Hester, Audrey K. Housel, Jeffrey A. Houseman, Tracy J. Hughes, Denise W. Hutchinson, Bryce A. Jackman, Kerry Jessen, Linda B. Kalin, Michelle L. Krummel, Jennifer M. Kurt, Franklin J. LaDien, Paula A. Larson, Shelly K. Larson, James Chao-Shen Lee, Larry D. Lee, Joan Luikart, Chris Lundell, Timothy T. Madsen, Edward L. Maier, Stephanie J. Malenfant, Stephen D. Martin, Gayle A. Mayer, Kevin McClimon, Dana J. McDougall, Veronica L. McGee, Jon McKenna, Mark F. McMullen, Joseph J. Meese, Stephanie Mellor, James Mennen, Jeff Merideth, Andrew J. Miller, Dana K. Miller,

Kathleen C. Miller, Michelle L. Miller, Dianne R. Morrison, Jennifer Moulton, Michael F. Murray, Kim Ohnesorge, Marilyn S. Osterhaus, Matthew C. Osterhaus, Philip M. Ostrem, Wenda S. Ostrem, Karen Parcher, Deborah L. Peterson, Connie J. Pline, Dan Pomeroy, Jennifer L. Prymek, Bruce E. Rademacher, Patricia A. Randel, Carina Reichardt, Rebecca M. Reinhart, Donald L. Roehrkaase, Jordan L. Ruestman, Michael W. Runge, Kevin T. Schleich, Scott R. Schroeder, Anne M. Schuchmann, Maria L. Schult, Karen S. Schultz, Alan M. Shepley, Matthew Shivers, Christopher M. Simpson, Rachel A. Skoff, Susan R. Sorenson, Kimberly A. Spading, David W. Stark, Sheri M. Strathman, David J. Streng, Pat D. Sturtz, Sangeeta Tandon, David J. Thomsen, Michael J. Tiesi, Christopher M. Turf, Sony Tuteja, Suzanne Von Seggern, Kara R. Vonderhaar, Patrick J. Walter, Linda M. Wessel, Doug Wetrich, Daniel R. Wiese, Michael J. Williams, Yvonne E. Winkler, Kelly A. Wolf, Shari M. Wood, Douglas E. Wrenn, Arlene Wright, Kaye L. Wright, Randy R. Yeates, Kay I. Zepeski, Bryan J. Zobeck

Professional degree: Pharm.D.

Graduate degrees: M.S. in pharmacy; Ph.D in pharmacy

Web site: <http://pharmacy.uiowa.edu>

The pharmacy profession is concerned with a wide variety of activities, from developing new drug products to caring for patients. An important concept in the delivery of pharmacy services is medication therapy management—the responsible provision of drug therapy to achieve defined outcomes that improve patients' quality of life. These outcomes include preventing, arresting, or curing a disease, and/or eliminating or reducing its symptoms.

In order to carry out these activities, pharmacists specialize in the science of drugs and drug information.

The dispensing of medications and information at the corner pharmacy is just one aspect of the profession. Pharmacists work in many health care settings, engaging in research, clinical practice, teaching, and counseling. Along with their training in science and drug preparation, they learn the business and communication skills necessary for their multifaceted careers.

Demand for qualified pharmacists is high. Iowa's pharmacy students study with professors who, in many cases, are pioneering the development of new drugs and are defining the appropriate use of others to solve chronic health problems. They also enjoy advanced research facilities, including those of Iowa's drug research and manufacturing area, where experimental drugs are produced for testing and licensing by manufacturers before being introduced worldwide.

The University of Iowa College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education.

College Organization

The College of Pharmacy's faculty and programs are organized in two academic departments, each with two divisions. These units provide course work for the Doctor of Pharmacy curriculum and for the college's graduate programs.

PHARMACY PRACTICE AND SCIENCE DEPARTMENT

Faculty in the Pharmacy Practice and Science Department provide expertise and education in the professional practice of pharmacy. They specialize in a wide variety of clinical pharmacy practices; conduct research on patient and population outcomes related to medication therapy;

and provide instruction in the pharmacist's professional role and the safe, effective use of medications.

The department offers Master of Science and Doctor of Philosophy curricula in pharmaceutical socioeconomics, which encompasses the behavioral, economic, social, and administrative sciences; elements of pharmacy practice; and health services research. It offers course work through its Applied Clinical Sciences Division and its Health Services Research Division.

Applied Clinical Sciences Division: Teaching and research in this division focus on the delivery of care and related services to patients and the education of student and resident pharmacists in practice settings. Courses are offered in pharmacotherapy, communication and practice skill development, clinical problem solving, and patient care. Professional practice mentoring and education are provided in introductory and advanced pharmacy practice experiences.

Health Services Research Division: Teaching and research in this division involve economic, social, behavioral, and administrative components of pharmacy practice and medication use. Courses are offered on the health care system, practice management, the professional and business aspects of pharmacy practice, and on learning and applying economic and social psychological theories to the study of health services and medication use.

To learn more about the department and its two divisions, visit the Pharmacy Practice and Science web site.

PHARMACEUTICAL SCIENCES AND EXPERIMENTAL THERAPEUTICS DEPARTMENT

Faculty in the Pharmaceutical Sciences and Experimental Therapeutics Department provide expertise and education in clinical pharmaceutical sciences, medicinal and natural products chemistry, and pharmaceuticals. Their interests include dosage form development and performance, industrial and manufacturing pharmacy, pharmacokinetics and pharmacodynamics, and the chemistry of drugs and their action on human systems. The department offers courses through its Medicinal and Natural Products Chemistry Division and its Pharmaceuticals and Translational Therapeutics Division.

Medicinal and Natural Products Chemistry Division: Course work in this division relates to understanding the chemistry of drugs and their action on human systems, principles of drug discovery and drug design, natural product chemistry, and biotechnology and genomic strategies for producing new drug molecules. The division's curricula for the M.S. and Ph.D. programs provide abundant opportunities for interface with researchers in other areas, including medicine, pharmacology, biochemistry, chemistry, and pharmaceuticals.

Pharmaceuticals and Translational Therapeutics Division: This division prepares students to become leaders in developing and evaluating drugs, drug products, and drug delivery systems. It offers two M.S. and Ph.D. subtracks: the pharmaceuticals subtrack, which focuses on characterization of pharmaceuticals and their component materials, development of delivery systems for optimal human or veterinary use, and the pharmacokinetic and pharmacodynamic evaluation of drug actions and interactions; and the clinical pharmaceutical sciences subtrack, which focuses on investigating drug therapy outcomes in patients and identifying factors responsible

for specific drug actions in individual patients, related patient groups, and large patient populations. The division also offers multidisciplinary opportunities with programs in chemistry, engineering, biomedical science, dentistry, and veterinary medicine. Its national and international collaborations enhance the breadth of research activities available to students.

To learn more about the divisions, visit the Medicinal and Natural Products Chemistry and Pharmaceuticals and Translational Therapeutics web sites.

Professional Program (Pharm.D.)

- Doctor of Pharmacy

The College of Pharmacy collaborates with the College of Public Health to offer the joint Master of Public Health/Doctor of Pharmacy (M.P.H./Pharm.D.) program.

Doctor of Pharmacy

The Doctor of Pharmacy program prepares students for careers in pharmacy. It provides professional education in a number of areas, including pharmaceutical technology, biopharmaceuticals, medicinal chemistry and natural products, pharmaceutical socioeconomics, pharmacotherapy, patient care, clinical and hospital pharmacy, and aspects of biotechnology.

The program requires four years of full-time study preceded by at least two years of pre-pharmacy study in the College of Liberal Arts and Sciences at The University of Iowa or at any accredited community or liberal arts college in the United States or Canada. Graduates of the program are qualified to take the Iowa Board of Pharmacy examination that is required for licensure as a pharmacist.

The Pharm.D. requires satisfactory completion of required courses, including at least 12 s.h. of professional electives. Pharm.D. students also must complete a total of 20 s.h. of general education courses, including the 12 s.h. of general education courses required for admission to the Pharm.D. program (see "Admission" below). Courses in moral reasoning or ethics, communication, computer science, and business are recommended for general education; courses in behavioral and social sciences and the humanities are accepted. Courses in physical education skills, applied music, and studio art do not count toward the general education requirement. If possible, students should complete the 20 s.h. of general education courses before they enter the Pharm.D. program.

Pharm.D. students must maintain a cumulative g.p.a. of at least 2.00 and a pharmacy g.p.a. of at least 2.00. The pharmacy grade-point average is computed from grades earned in all required courses that students have completed while enrolled in the College of Pharmacy, excluding general education courses and professional electives.

Students must earn a grade of C-minus or higher in transfer courses applied to the Pharm.D.

Rules and regulations concerning academic probation, pass/nonpass, credit by examination, maximum schedule, second-grade-only option, waiver or substitution of courses, cancellation of registration, drop date, and Guided Independent Study are provided in the College of

Pharmacy section of the ISIS Student Handbook and in the College of Pharmacy Student Handbook.

The Tippie College of Business (p. 562), the Carver College of Medicine (p. 912), the College of Dentistry (p. 622), and the College of Liberal Arts and Sciences (p. 25) contribute to the education of pharmacy students by providing instruction in the physical sciences, basic medical sciences, business, the humanities, and the social sciences.

The College of Pharmacy provides students with the highest possible quality in the professional experiential program. Faculty and adjunct faculty serve as preceptors, providing introductory and advanced practice experience at institutions and pharmacies in Iowa, nationwide, and around the world.

Professional Curriculum

In addition to the specific courses listed here, students must complete 20 s.h. of general education courses chosen from behavioral, social, humanistic, and business disciplines.

FIRST YEAR

Students must complete one semester of 046:001 (PHAR:8100) Introduction to Pharmacy Practice during the first professional year. They also complete 046:004 (PHAR:8205) Student Pharmacist Professionalism throughout the first, second, and third professional years.

First Semester

046:001 (PHAR:8100) Introduction to Pharmacy Practice	1 s.h.
046:050 (PHAR:8101) Pharmacy Practice Lab I	2 s.h.
046:103 (PHAR:8103) Fundamentals of Evaluating Clinical Research	1 s.h.
046:123 (PHAR:8111) Pharmaceutics I: Solutions	4 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
099:162 (BIOC:8102) Biochemistry for Pharmacy Students	4 s.h.

Second Semester

046:001 (PHAR:8100) Introduction to Pharmacy Practice (if not taken first semester)	1 s.h.
046:051 (PHAR:8102) Pharmacy Practice Lab II	2 s.h.
046:122 (PHAR:8105) Social Aspects of Pharmacy Care	2 s.h.
046:124 (PHAR:8112) Pharmaceutics II: Solids and Semi-solids	4 s.h.
046:128 (PHAR:8121) Medicinal and Natural Products Chemistry I: Biotechnology and Chemotherapy	3 s.h.
071:180 (PCOL:8180) Pharmacology for Pharmacy Students I	3 s.h.

SECOND YEAR

Students must complete 046:002 (PHAR:8200) Introduction to Community Pharmacy Practice and 046:008 (PHAR:8206) Introduction to Hospital Pharmacy Practice during the second professional year. These practice experiences are delivered in set time blocks over the winter break or during the summer before or after the P2 year.

First Semester

046:002 (PHAR:8200) Introduction to Community Pharmacy Practice	3 s.h.
046:116 (PHAR:8203) Pharmacy Practice Lab III	2 s.h.
046:131 (PHAR:8122) Medicinal and Natural Products Chemistry II: Pharmacodynamic Agents	3 s.h.

046:138 (PHAR:8213) Pharmacokinetics and Biopharmaceutics	3 s.h.
046:149 (PHAR:8240) Introduction to Therapeutics/Special Populations	2 s.h.
046:154 (PHAR:8241) Endocrinology, Ophthalmology, Women's and Men's Health Therapeutics	2 s.h.
071:181 (PCOL:8181) Pharmacology for Pharmacy Students II	3 s.h.

Second Semester

046:008 (PHAR:8206) Introduction to Hospital Pharmacy Practice	2 s.h.
046:106 (PHAR:8201) Clinical Practice Skills I: Theory and Application	2 s.h.
046:117 (PHAR:8204) Pharmacy Practice Lab IV	2 s.h.
046:132 (PHAR:8123) Medicinal and Natural Products Chemistry III: Medicinal Neurochemistry	3 s.h.
046:155 (PHAR:8242) Respiratory and Dermatologic Therapeutics	2 s.h.
046:156 (PHAR:8243) Cardiovascular Therapeutics	2 s.h.
046:170 (PHAR:8230) Clinical Pharmacokinetics	3 s.h.
Professional electives	3 s.h.

THIRD YEAR

Students must complete one semester of 046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice during the third professional year.

First Semester

046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice (may be taken either fall or spring semester)	1 s.h.
046:107 (PHAR:8302) Clinical Practice Skills II: Critical Patient Analysis	2 s.h.
046:115 (PHAR:8313) Drug Literature Evaluation	2 s.h.
046:118 (PHAR:8305) Pharmacy Practice Lab V	2 s.h.
046:129 (PHAR:8308) Pharmaceutical Economics and Insurance	3 s.h.
046:158 (PHAR:8340) FEN, GI, and Renal Therapeutics	2 s.h.
046:159 (PHAR:8341) Rheumatology, Immunology, Hematology, Oncology, and Transplantation Therapeutics	2 s.h.
Professional electives	4 s.h.

Second Semester

046:004 (PHAR:8205) Student Pharmacist Professionalism	1 s.h.
046:104 (PHAR:8104) Pharmacy Law and Ethics	2 s.h.
046:108 (PHAR:8303) Clinical Practice Skills III: Applied Patient Management	2 s.h.
046:119 (PHAR:8306) Pharmacy Practice Lab VI	2 s.h.
046:139 (PHAR:8309) Pharmacy Management and Marketing	2 s.h.
046:164 (PHAR:8342) Neurology/Psychiatry Therapeutics	2 s.h.
046:165 (PHAR:8343) Infectious Disease Therapeutics	2 s.h.
Professional electives	5 s.h.

FOURTH YEAR: ADVANCED PHARMACY PRACTICE ROTATIONS

During the fourth year, students are required to complete eight advanced pharmacy practice rotations. All students must complete the first four rotations listed below (24 s.h.); they also must complete an additional four rotations of their choice (24 s.h.).

All of these (24 s.h.):

046:178 (PHAR:9410) Hospital Pharmacy Rotation	6 s.h.
046:179 (PHAR:9404) Community Pharmaceutical Care Rotation	6 s.h.
046:180 (PHAR:9413) Acute Care Medicine Rotation	6 s.h.
046:196 (PHAR:9401) Ambulatory Care Rotation	6 s.h.

Four of these (24 s.h.):

046:136 (PHAR:9433) Elective Academic Rotation	6 s.h.
046:140 (PHAR:9402) Elective Ambulatory Care Rotation	6 s.h.
046:142 (PHAR:9422) Elective: Compounding/Complimentary Alternative Medicine Rotation	6 s.h.
046:143 (PHAR:9423) Elective: Critical Care Medicine Rotation	6 s.h.
046:161 (PHAR:9406) Elective: Drug Information Rotation	6 s.h.
046:181 (PHAR:9407) Elective Family Medicine Rotation	6 s.h.
046:182 (PHAR:9415) Elective: Pediatrics Rotation	6 s.h.
046:184 (PHAR:9417) Elective Psychiatry Rotation	6 s.h.
046:185 (PHAR:9414) Elective Neurology Rotation	6 s.h.
046:186 (PHAR:9419) Elective: Surgery Rotation	6 s.h.
046:187 (PHAR:9403) Elective Nuclear Pharmacy Rotation	6 s.h.
046:188 (PHAR:9420) Elective Pharmacy Practice Underserved Population Rotation	6 s.h.
046:189 (PHAR:9416) Elective: Pharmacy Rotation	6 s.h.
046:192 (PHAR:9411) Elective Long Term Care Rotation	6 s.h.
046:193 (PHAR:9409) Elective Home Health Care Rotation	6 s.h.
046:194 (PHAR:9412) Elective Managed Care Rotation	6 s.h.
046:197 (PHAR:9408) Elective Hematology/Oncology Rotation	6 s.h.
046:199 (PHAR:9418) Elective Research Rotation	6 s.h.
046:300 (PHAR:9424) Elective Emergency Medicine Rotation	6 s.h.
046:301 (PHAR:9425) Elective Hospital Management Rotation	6 s.h.
046:302 (PHAR:9426) Elective Infectious Disease Rotation	6 s.h.
046:303 (PHAR:9427) Elective Medication Use Evaluation Rotation	6 s.h.
046:304 (PHAR:9428) Elective Pharmacy Industry Rotation	6 s.h.
046:305 (PHAR:9429) Elective: Pharmacy Regulatory Rotation	6 s.h.
046:306 (PHAR:9430) Elective: Professional Association Rotation	6 s.h.
046:307 (PHAR:9431) Elective: Veterinary Pharmacy Rotation	6 s.h.
046:308 (PHAR:9432) Elective: Advanced Community Pharmacy Rotation	6 s.h.

PROFESSIONAL ELECTIVES

Pharm D. students must complete 12 s.h. of professional electives, which they may choose from the following list.

046:006 (PHAR:8702) Dean's Pharmacy Forum II	2 s.h.
046:007 (PHAR:8307) Career Pathways in Pharmacy	1 s.h.
046:011 (PHAR:8703) Web 2.0 and Pharmacy Drug Information	2 s.h.
046:012 (PHAR:8791) Survey of Basic Pharmaceutical Sciences	1 s.h.
046:013 (PHAR:8717) Ambulatory Care Pharmacy	2 s.h.
046:014 (PHAR:8718) Special Topics in Acute Care	2 s.h.
046:101 (PHAR:8706) Pharmacy Projects	1-3 s.h.
046:102 (PHAR:8741) Pharmacy Workshop	1 s.h.
046:105 (PHAR:8436) Alternative and Complementary Medicine	arr.

046:110 (PHAR:3745) Drug Delivery I	arr.
046:111 (PHAR:3746) Drug Delivery II	arr.
046:121 (PHAR:8708) Substance Abuse	2 s.h.
046:126 (PHAR:8788) International Perspectives: Xicotepec	3 s.h.
046:135 (PHAR:5515) Perspectives in MNPC Research	1 s.h.
046:146 (PHAR:3740) End-of-Life Care for Adults and Families	2-4 s.h.
046:151 (PHAR:8722) Current Topics in Health Policy	2 s.h.
046:169 (PHAR:8710) Introduction to Pharmacogenomics	2 s.h.
046:171 (PHAR:8712) Nonprescription Pharmacotherapy	2 s.h.
046:190 (PHAR:8719) Overview of Pediatric Pharmacotherapy	2 s.h.
046:191 (PHAR:8720) Health Coaching and Wellness	2 s.h.
046:195 (PHAR:8721) Contemporary Issues and Leadership	arr.
046:357 (PHAR:8790) Topics in Community Pharmacy Management	2 s.h.
046:377 (PHAR:8715) Health Disparities and Cultural Competence	2-4 s.h.
046:398 (PHAR:8385) Hospital Pharmacy Practice Management Elective	2 s.h.

Joint M.P.H./Pharm.D.

The College of Pharmacy and the College of Public Health offer the joint Master of Public Health/Doctor of Pharmacy program. The joint M.P.H./Pharm.D. requires 42 s.h. of graduate credit in addition to the requirements of the Pharm.D. degree. Students who complete the program are granted both degrees.

The M.P.H./Pharm.D. program helps students develop expertise in public health related to pharmacotherapy, health promotion, disease prevention, and medication safety. Its graduates may work in areas of interest common to pharmacy and public health, such as spread and treatment of disease, community health, and immunology; bioterrorism, terrorism, and preparedness; genetics; insurance; managed care; family and juvenile health; and protection of special populations. Employment opportunities are available in hospitals and clinics and with health care providers; private practice; insurance and managed care organizations; local, county, state, and federal government; public health governmental agencies; and colleges and universities.

Separate admission to each degree program is required. Applicants must be admitted to both programs before they may be admitted to the joint degree program.

See "Joint M.P.H./Pharm.D." in the Master of Public Health Program (p. 1081) section of the Catalog to learn about curriculum and admission requirements for the joint program.

Admission

Individuals apply to the Pharm.D. program using PharmCAS, the American Association of College of Pharmacy application service. Applicants also must submit a supplemental application, including a \$100 application fee, to the University of Iowa College of Pharmacy; see Iowa Graduate Admissions—College of Pharmacy for more information.

All application materials must be received by December 1 of the year before the applicant intends to enter the College of Pharmacy. Entry is for fall semester.

All Pharm.D. applicants must take the Pharmacy College Admission Test (PCAT); they must take PCAT before December 31 of the year before they wish to enter the College of Pharmacy in order to be considered by the admissions committee.

Applicants must complete the college-level work listed under "Prerequisites to Admission to the Pharm.D. Program" below. They also must have an overall cumulative g.p.a. of at least 2.50 and must submit two letters of recommendation. Applicants considered for admission must have a personal interview; the college contacts applicants to arrange interview appointments.

Fulfillment of the admission requirements listed above does not ensure admission to the College of Pharmacy. The admissions committee considers applicants who meet these requirements and selects individuals who, in their judgment, appear to be best qualified for the study and practice of pharmacy.

Applicants who are accepted for admission are required to submit to a criminal background check and pay a \$250 admission acceptance fee. The fee is applied to tuition for the student's first semester of enrollment in the college. The deposit is not refunded to applicants who do not enroll in the College of Pharmacy.

Entering health sciences students are required to have an annual tuberculin skin test (TST) and proof of immunization against mumps, measles and rubella (2 MMRs), tetanus, diphtheria and varicella before classes begin. The usual regimen of three doses of Hepatitis B vaccine and a Hepatitis B titre must be completed by the second semester of the first year. All students are required to have hospitalization and health insurance.

PREREQUISITES FOR ADMISSION TO THE PHARM.D. PROGRAM

Applicants to the Pharm.D. program must have completed the following college-level work.

Rhetoric: 4 s.h. [010:003 (RHET:1030) Rhetoric] or 6 s.h. of transfer credit in English composition and rhetoric and 3 s.h. in speech

Human anatomy: 3 s.h. [060:110 (ACB:2110) Principles of Human Anatomy]

General biology: 8 s.h. [002:031 (BIOL:1411) Foundations of Biology and 002:032 (BIOL:1412) Diversity of Form and Function]

General chemistry: 8 s.h. [004:011 (CHEM:1110) Principles of Chemistry I and 004:012 (CHEM:1120) Principles of Chemistry II]

Organic chemistry: 6 s.h. [004:121 (CHEM:2210) Organic Chemistry I and 004:122 (CHEM:2220) Organic Chemistry II]

Mathematics: 3-4 s.h. of a satisfactory differential and integral calculus course [22M:016 (MATH:1460) Calculus for the Biological Sciences]

Microbiology: 4 s.h. [061:112 (MICR:3112) Pharmacy Microbiology]

Microeconomics: 3-4 s.h. [06E:001 (ECON:1100) Principles of Microeconomics]

Physics: one year of high school physics or one semester of college-level physics with a lab [029:008 (PHYS:1400) Basic Physics]

Human physiology: 3 s.h. [027:130 (HHP:3500) Human Physiology]

Statistics: 3 s.h.

General education electives: at least 12 s.h.

Courses in moral reasoning or ethics, communications, computer science, and business are recommended for general education; courses in the behavioral and social sciences and the humanities are accepted. Courses in physical education skills, applied music, and studio art do not count toward the general education requirement.

Financial Support

All second-, third-, and fourth-year pharmacy students are encouraged to apply for College of Pharmacy scholarships. Applications are available each April from the College of Pharmacy Office of Academic Affairs. Students complete a single application form in order to be considered for all scholarships. Award amounts vary. The Awards and Recognition Committee selects the best-qualified applicant for each scholarship.

Seymour M. Blaug Memorial Award: for a pharmacy student with above-average academic achievement.

Ilse O. Buckner Scholarship: for a pharmacy student who maintains satisfactory academic progress; nonrenewable, financial need is considered.

Burroughs-Wellcome Scholarship Fund: for a student of the committee's choice.

David and James Carlson Scholarship: for two pharmacy students interested in clinical or hospital practice; preference given to students from north of U.S. Interstate 80 and west of U.S. Interstate 35 who show financial need.

Jordan and Jana Cohen Doctor of Pharmacy Scholarship: for a pharmacy student in good academic standing; based on merit and need; renewable.

Vernon Conzemius Scholarship: for a pharmacy student who demonstrates financial need; preference given to students in the upper half of their class.

Ben M. Cooper Memorial Award: for an academically outstanding pharmacy student; preference is given to students from Scott County, Iowa; financial need is considered.

CVS Scholarships: for five pharmacy students in good academic standing who are interested in community pharmacy.

John and Margo Daniel Scholarship: preference given to a student from Webster County, Iowa.

Max Eggleston Scholarship: for a student who has completed one year; preference is given to students from Iowa; based on financial need.

Alice Gates Coxon Memorial Scholarship: for a student in good academic standing; essay required.

Lori A. Grimes Memorial Scholarship: based on financial need; renewable.

Gary Hadley Scholarship: for a student of the committee's choice.

Dick and Brenda Hartig Scholarship: for a student who demonstrates financial need; preference is given to students from Dubuque, Waukon, Dyersville, and Iowa City,

Iowa; and Galena and Stockton, Illinois; based on financial need.

Thomas D. Hill Scholarship: for a pharmacy student in good academic standing.

Janet Hinderliter Scholarship: for a P3 or P4 student with a g.p.a. of at least 3.00 and demonstrated involvement in campus and community affairs.

Frances T. and Charles Holub Memorial Award: for a third-year pharmacy student; financial need is considered; renewable once.

Iowa Pharmacy Foundation Scholarships: for selected pharmacy students who are residents of Iowa and who demonstrate outstanding academic ability; financial need is considered.

R.A. Kuever Scholarship Fund: for a pharmacy student from Iowa who is in good academic standing.

Ernest Kyle Memorial Scholarship: for a student of the committee's choice.

Ronald Madden Scholarship: for an Iowa high school graduate in good academic standing.

Charles J. Malecek Pharmacy Scholarship: for a student of the committee's choice.

Virgil R. McCutchan Memorial Scholarship: for a deserving pharmacy student.

Carleton Mikkelsen Scholarship: for the top P4 student based on final P3 grade-point average; in case of a tie, the committee chooses the recipient.

Miller-Ruegnitz Scholarships: based on financial need, non-renewable.

NACDS Scholarship: for a student interested in community pharmacy.

Petersen Linder Scholarship: for a pharmacy student in excellent academic standing who has outstanding leadership skills; based on financial need.

Pharmacists Mutual Scholarship: for a students of the committee's choice.

Pharmacy Student Aid Scholarship: for a students of the committee's choice.

Quad Cities Area Pharmacists Association Scholarships: for students who demonstrate financial need; preferably one student from Iowa and one from Illinois.

Sattler Family Scholarship: for a student of the committee's choice, alternates with the Carver College of Medicine.

Scherling Scholarship: for a student who demonstrates superior academic achievement in organic chemistry.

Chuck and Jacqueline Schwenke Scholarship: for a student of the committee's choice.

Gordon H. Sheffield Scholarship: for a P3 or P4 student from Iowa; preference given to a student who demonstrates leadership and financial need.

ShopKo Scholarship: preference given to students who reside or have resided in a state where Shop-Ko is located.

Shutt Pharmacy Scholarship: preference is given to Iowa residents; based on financial need.

H. Curtis Snyder Award: for a pharmacy student in good standing.

Supervalue Scholarship: for a student in good academic standing who is employed in a community pharmacy setting.

Wilber J. Teeters Scholarship: for a pharmacy student who has completed at least one year in the college; financial need is considered.

Teeters/Wahl Scholarship: for pharmacy students based on outstanding academic ability, U.S. citizenship, and financial need.

John Stanley Thor Memorial Award: for a pharmacy student in good standing.

Colonel Thomas C. Veach Class of 1952 Scholarship Fund: preference given to a student interested in compounding or industrial pharmacy.

Walgreens Diversity Scholarship: for a student who has made significant efforts toward raising awareness about matters of diversity that affect the pharmacy profession.

Wal-Mart Scholarship: for a P3 or P4 student with high scholastic standing who demonstrates strong leadership, desire to enter a community pharmacy practice, and financial need.

Louis C. Zopf Memorial Award: for a pharmacy student who is academically qualified; financial need is considered.

John D. Zuelke Scholarship: for a pharmacy student (preferably P3 or P4) from Wapello County, Iowa.

Graduate Programs

- Master of Science in pharmacy
- Doctor of Philosophy in pharmacy

The College of Pharmacy offers graduate programs in four areas: clinical pharmaceutical science, medicinal and natural products chemistry, pharmaceutical socioeconomics, and pharmaceuticals.

Advanced study in the pharmaceutical sciences prepares students for research, teaching, and administrative positions in the pharmaceutical industry, in colleges and universities, in government agencies, and in health-related institutions and organizations.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog. Academic requirements for maintaining graduate registration are determined by the Graduate College and by the individual divisions of the College of Pharmacy.

For more information about graduate study, visit the College of Pharmacy web site.

Facilities and Resources

Pharmacy Building

The Pharmacy Building is located on the University's Health Science Campus, in close proximity to the Carver College of Medicine, College of Dentistry, College of

Nursing, and College of Public Health. Also nearby are University of Iowa Hospitals and Clinics, the Bowen Science Building, and the Hardin Library for the Health Sciences.

The Pharmacy Building is a five-story structure designed to provide modern facilities for a comprehensive program of pharmacy education. In addition to classrooms and auditoriums, there are well-equipped separate laboratories for instruction at the professional and graduate levels.

The college operates small and large classrooms with state-of-the-art technology. The student practice lab is a technologically advanced licensed pharmacy that provides real and simulated practice experiences. The Banker Student Activity Center provides quiet individual and small-group study environments and houses offices for College of Pharmacy Student Organizations.

The building also houses a fully supported Instructional Technology Center (Pharmacy ITC) in the Learning Resource Center. The ITC provides state-of-the-art desktop workstations and laptop computers are available for student checkout. Both desktop and laptop computers have secure connections to the University network for online drug information searching and printing.

University of Iowa Pharmaceuticals

University of Iowa Pharmaceuticals, a pharmaceutical manufacturing facility registered with the U.S. Food and Drug Administration, develops pharmaceutical dosage forms and has manufactured clinical supplies in compliance with Good Manufacturing Practices since 1974. University of Iowa Pharmaceuticals has clients worldwide, including pharmaceutical companies, biotechnology firms, medical departments, and government agencies. Its staff works closely with clients and pharmaceuticals faculty members to produce virtually every type of pharmaceutical dosage form, supplying new pharmaceutical agents for use in clinical trials and other research. The facility combines the former Center for Advanced Drug Development and Division of Pharmaceutical Service. For more information, visit the University of Iowa Pharmaceuticals web site.

Division of Drug Information Service

The Division of Drug Information Service publishes the IDIS (Iowa Drug Information Service), a bibliographical database that provides full-text access to specialized information related to drugs and drug therapy. IDIS reaches subscribers throughout the world. The division also is home to the Iowa Drug Information Network, which serves a network of community pharmacies and family practice sites with drug information resources, educational programs, and direct-response consultations that support the pharmaceutical care initiatives at the network's sites. In addition, the Division of Drug Information Service plays an important educational role for pharmacy students by providing both didactic and experiential teaching in drug information. The division is located on the University of Iowa Research Park campus.

Courses

Students must be enrolled in the College of Pharmacy to take the college's courses. Undergraduate and graduate students in other colleges must have the instructor's consent to take College of Pharmacy courses.

For Undergraduates

046:020 (PHAR:8000) Introduction to Pharmaceutics Projects 3 s.h.
Introduction to pharmaceutics.

046:029 (PHAR:5000) First-Year Seminar 1 s.h.

For Pharm.D. Students

Pharmacy Practice and Science

046:001 (PHAR:8100) Introduction to Pharmacy Practice 1 s.h.

Exposure to the pharmacy profession through varied shadowing experiences in practice settings. Requirements: P1 standing.

046:002 (PHAR:8200) Introduction to Community Pharmacy Practice 3 s.h.

Exposure to community pharmacy through activities focusing on drug distribution, legal requirements, communication, patient interaction; during breaks in P2 year. Requirements: P2 standing.

046:003 (PHAR:8300) Introduction to Clinical Pharmacy Practice 1 s.h.

Clinical practice experience observing and participating in clinical activities with P4 students, faculty, and other health care providers. Requirements: P3 standing.

046:004 (PHAR:8205) Student Pharmacist Professionalism 1 s.h.

Participation in activities promoting leadership and professional learning, and service learning; required participation P1 through P3 years.

046:006 (PHAR:8702) Dean's Pharmacy Forum II 2 s.h.
Contemporary issues in pharmacy practice, pharmacy education, and health care.

046:007 (PHAR:8307) Career Pathways in Pharmacy 1 s.h.

Career preparation through writing, speaking, reading, and listening; writing résumés, curricula vitae, cover letters; interviewing techniques; electronic portfolios; web-based career information; guest speakers from pharmacy associations, major chains; workshop approach. Requirements: P3 standing.

046:008 (PHAR:8206) Introduction to Hospital Pharmacy Practice 2 s.h.

Exposure to hospital pharmacy through activities focusing on drug distribution, legal requirements, communication, patient interaction; during breaks in P2 year. Requirements: P2 standing.

046:011 (PHAR:8703) Web 2.0 and Pharmacy Drug Information 2 s.h.

Introduction to challenges and opportunities of social Internet applications, electronic drug information sources, and mobile technologies available to healthcare providers and patients; creation, use, and critical evaluation of web-based products; lectures, class discussions, required readings, reflection blogs, and group projects. Requirements: P1, P2, or P3 standing.

046:013 (PHAR:8717) Ambulatory Care Pharmacy 2 s.h.

Additional experience in the practice of clinical pharmacy; focus on key therapeutic areas where ambulatory care clinical pharmacists currently have a significant impact improving patient care, including anticoagulation management, hyperlipidemia management, and diabetes management; opportunity to develop expertise in clinical decision making, improve problem solving abilities, and continued development in writing and oral presentation skills. Prerequisites: 046:154 (PHAR:8241) and 046:156 (PHAR:8243). Requirements: P3 standing.

046:014 (PHAR:8718) Special Topics in Acute Care 2 s.h.

Pharmacology for common but varied acute care medicine topics; review of disorder, therapeutic goals, treatment plans, patient counseling, monitoring patient outcomes; lecture or case-based classes; acute and chronic renal failure; peritoneal and hemodialysis; diabetic ketoacidosis; rabies; shock, vasopressors, fluids; ACLS; deep venous thrombosis, stress ulcer prophylaxis; burns; sedation, neuromuscular blockage; opioids; multiple sclerosis. Prerequisites: 046:149 (PHAR:8240), 046:154 (PHAR:8241), 046:155 (PHAR:8242), 046:156 (PHAR:8243), 046:158 (PHAR:8340), and 046:159 (PHAR:8341). Corequisites: 046:164 (PHAR:8342) and 046:165 (PHAR:8343). Requirements: B.L.S. certification.

046:050 (PHAR:8101) Pharmacy Practice Lab I 2 s.h.

Practical application of scientific and clinical knowledge used in the provision of pharmaceutical care; activities include communication with patient and members of the healthcare team, sterile product and prescription compounding, pharmacy calculations, and use of drug information resources. Requirements: P1 standing.

046:051 (PHAR:8102) Pharmacy Practice Lab II 2 s.h.

Practical application of scientific and clinical knowledge used in the provision of pharmaceutical care; activities include prescription compounding, pharmacy calculations, communication skills, prescription counseling, and applications of drug information skills through secondary searching of the primary literature. Prerequisites: 046:050 (PHAR:8101). Requirements: P1 standing.

046:101 (PHAR:8706) Pharmacy Projects arr.

Basic and applied research problems of pharmaceutical interest.

046:102 (PHAR:8741) Pharmacy Workshop 1 s.h.

Independent study.

046:103 (PHAR:8103) Fundamentals of Evaluating Clinical Research 1 s.h.

Basic concepts for evaluation of clinical trials published in primary biomedical and pharmacy literature; design, methods, outcomes, statistical analysis, and generalizability of results. Requirements: P1 standing.

046:104 (PHAR:8104) Pharmacy Law and Ethics 2 s.h.

Legal and moral aspects involved in the practice of pharmacy. Requirements: P3 standing.

046:105 (PHAR:8436) Alternative and Complementary Medicine arr.

Requirements: for 046:105 (PHAR:8436) — P4 standing. Same as 078:210 (IM:8436), 096:182 (NURS:3436).

046:106 (PHAR:8201) Clinical Practice Skills I: Theory and Application 2 s.h.

Exploration and development of professional skills required for delivery of patient care; patient assessment, clinical decision making, communication (written and oral), teamwork. Corequisites: 046:155 (PHAR:8242).

046:107 (PHAR:8302) Clinical Practice Skills II: Critical Patient Analysis 2 s.h.

Continuation of 046:106 (PHAR:8201); development of professional skills required for delivery of patient care; patient assessment, clinical decision making, communication (written and oral) skills. Corequisites: 046:158 (PHAR:8340). Requirements: P3 standing.

046:108 (PHAR:8303) Clinical Practice Skills III: Applied Patient Management 2 s.h.

Continuation of 046:107 (PHAR:8302); development of professional skills required for delivery of patient care; patient assessment, clinical decision making, communication (written and oral), teamwork. Corequisites: 046:164 (PHAR:8342). Requirements: P3 standing.

046:115 (PHAR:8313) Drug Literature Evaluation 2 s.h.

Study design methods, drug information techniques and skills; skill development in critical analysis and evaluation of published reports of drug use and drug trials, assessment of validity of reports, trials and studies, assessment of generalizability of results to individual patients and patient groups; laboratory experience in biomedical literature analysis, evaluation.

046:116 (PHAR:8203) Pharmacy Practice Lab III 2 s.h.

Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include prescription interpretation and counseling, compounding, applications of drug information, use of patient screening tools, physical assessment, and pharmacy law. Corequisites: 046:149 (PHAR:8240) and 046:154 (PHAR:8241), if not taken as prerequisites.

046:117 (PHAR:8204) Pharmacy Practice Lab IV 2 s.h.

Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include providing medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:155 (PHAR:8242) and 046:156 (PHAR:8243), if not taken as prerequisites. Requirements: P2 standing.

046:118 (PHAR:8305) Pharmacy Practice Lab V 2 s.h.

Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:158 (PHAR:8340) and 046:159 (PHAR:8341), if not taken as prerequisites.

046:119 (PHAR:8306) Pharmacy Practice Lab VI 2 s.h.

Practical application of scientific and clinical knowledge in the provision of patient-centered care; activities include medication therapy management for patients, prescription and self-care counseling, and application of drug information skills. Corequisites: 046:164 (PHAR:8342) and 046:165 (PHAR:8343), if not taken as prerequisites. Requirements: P3 standing.

046:121 (PHAR:8708) Substance Abuse 2 s.h.

Themes and concepts in substance abuse and treatment; stimulants, depressants, alcohol, opiates, hallucinogenics, steroids; drug abuse prevention and treatment, including dual diagnosis, from cradle to the grave.

046:122 (PHAR:8105) Social Aspects of Pharmacy Care 2 s.h.

Conceptual issues related to social and behavioral components of pharmacy care; social construction of health and illness, medication use process, health communications, cultural competence, health disparities, public health. Requirements: P1 standing.

046:126 (PHAR:8788) International Perspectives: Xicotepec 3 s.h.

Introduction to providing service to a community in a less developed country; student projects intended to improve community life in Xicotepec. Requirements: P3 standing. Same as 053:126 (CEE:4788), 152:126 (GHS:4126).

- 046:127 (PHAR:8789) Pharmaceuticals Management for Underserved Populations** 3 s.h.
Experience analyzing problems and developing strategies based on real-world drug management cycle issues; the role of WHO-TRIPS, government, and NGOs in the selection and use of pharmaceuticals.
- 046:129 (PHAR:8308) Pharmaceutical Economics and Insurance** 3 s.h.
Financing of health care in the U.S.; insurance and reimbursement in pharmacy and pharmacoeconomics. Requirements: P3 standing.
- 046:136 (PHAR:9433) Elective Academic Rotation** 6 s.h.
Practice experience delivering pharmacy education with a College of Pharmacy faculty member. Requirements: P4 standing.
- 046:139 (PHAR:8309) Pharmacy Management and Marketing** 2 s.h.
Application of management principles to pharmacy practice; marketing techniques for pharmacy practice; operations, human resources, finance, quality improvement and service marketing management.
- 046:140 (PHAR:9402) Elective Ambulatory Care Rotation** 6 s.h.
Clinical experience providing pharmaceutical care in specialty outpatient settings. Requirements: P4 standing.
- 046:141 (PHAR:9421) Elective Community Management Rotation** 6 s.h.
Practice exposure to community pharmacy operations and management at the store, district, or corporate level. Requirements: P4 standing.
- 046:142 (PHAR:9422) Elective: Compounding/ Complimentary Alternative Medicine Rotation** 6 s.h.
Clinical work in a community setting with focus on team approach; experience developing extemporaneous compounds to optimize patient care and/or integrating traditional and nontraditional medicine. Requirements: P4 standing.
- 046:143 (PHAR:9423) Elective: Critical Care Medicine Rotation** 6 s.h.
Practice experience providing pharmaceutical services to intensive care unit patients. Requirements: P4 standing.
- 046:146 (PHAR:3740) End-of-Life Care for Adults and Families** 2-4 s.h.
End-of-life issues in care of adults, older adults, and their families. Requirements: RN license or 096:141 (NURS:3530). Same as 096:147 (NURS:3740), 153:147 (ASP:3740), 050:147 (MED:3740).
- 046:149 (PHAR:8240) Introduction to Therapeutics/Special Populations** 2 s.h.
Treatment modalities that promote health and treat common diseases; common laboratory and diagnostic procedures used to diagnose and monitor diseases; basic types of adverse drug reactions. Requirements: P2 standing.
- 046:151 (PHAR:8722) Current Topics in Health Policy** 2 s.h.
Legislative process and broad range of current issues in health policy; general- and pharmacy-specific health policy topics at state and federal levels. Requirements: P1, P2, P3, or graduate standing.
- 046:154 (PHAR:8241) Endocrinology, Ophthalmology, Women's and Men's Health Therapeutics** 2 s.h.
Pharmacotherapy for endocrine and ophthalmologic disorders; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P2 standing.
- 046:155 (PHAR:8242) Respiratory and Dermatologic Therapeutics** 2 s.h.
Pharmacotherapy for respiratory and dermatology disorders; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P2 standing.
- 046:156 (PHAR:8243) Cardiovascular Therapeutics** 2 s.h.
Pharmacotherapy for cardiovascular disorders; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P2 standing.
- 046:158 (PHAR:8340) FEN, GI, and Renal Therapeutics** 2 s.h.
Pharmacotherapy for fluid/electrolyte/nutrition disorders; gastrointestinal and renal diseases; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.
- 046:159 (PHAR:8341) Rheumatology, Immunology, Hematology, Oncology, and Transplantation Therapeutics** 2 s.h.
Pharmacotherapy for rheumatology, immunology, hematology, oncology, and transplantation; review of disorders, treatment goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.
- 046:161 (PHAR:9406) Elective: Drug Information Rotation** 6 s.h.
Practice experience applying drug information knowledge to service and research projects. Requirements: P4 standing.
- 046:164 (PHAR:8342) Neurology/Psychiatry Therapeutics** 2 s.h.
Pharmacotherapy for psychiatric and neurologic disorders; review of disorders, therapeutic goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.
- 046:165 (PHAR:8343) Infectious Disease Therapeutics** 2 s.h.
Pharmacotherapy for infectious diseases; review of disease, therapeutic goals, treatment plans, patient counseling, monitoring of patient outcomes. Requirements: P3 standing.
- 046:171 (PHAR:8712) Nonprescription Pharmacotherapy** 2 s.h.
Introduction to nonprescription medications; development of patient assessment and consultation skills; understanding of pharmacist's role in patient self-care. Requirements: P3 standing.
- 046:178 (PHAR:9410) Hospital Pharmacy Rotation** 6 s.h.
Instruction and practical experience in various components of hospital pharmacy; emphasis on hospital organization, inpatient and outpatient services, IV admixtures, unit dose, and clinical services. Requirements: P4 standing.
- 046:179 (PHAR:9404) Community Pharmaceutical Care Rotation** 6 s.h.
Clinical experience in the community setting; emphasis on delivery of pharmaceutical care. Requirements: P4 standing.
- 046:180 (PHAR:9413) Acute Care Medicine Rotation** 6 s.h.
Clinical experience applying therapeutic skills for the pharmacotherapeutic management of patients on general medicine or specialty inpatient areas. Requirements: P4 standing.

- 046:181 (PHAR:9407) Elective Family Medicine Rotation** 6 s.h.
Clinical practice experience applying primary care therapeutics in family medicine practice settings. Requirements: P4 standing.
- 046:182 (PHAR:9415) Elective: Pediatrics Rotation** 6 s.h.
Clinical experience in drug therapy management of general and specialty pediatric patients. Requirements: P4 standing.
- 046:184 (PHAR:9417) Elective Psychiatry Rotation** 6 s.h.
Clinical experience in the rational use of drugs in psychiatric disorders. Requirements: P4 standing.
- 046:185 (PHAR:9414) Elective Neurology Rotation** 6 s.h.
Clinical experience in the pharmacotherapeutic and pathophysiologic considerations of neurological disorders. Requirements: P4 standing.
- 046:186 (PHAR:9419) Elective: Surgery Rotation** 6 s.h.
Clinical experience in drug therapy management on a surgery unit. Requirements: P4 standing.
- 046:187 (PHAR:9403) Elective Nuclear Pharmacy Rotation** 6 s.h.
Practical experience in the handling and clinical use of radiopharmaceuticals. Requirements: P4 standing.
- 046:188 (PHAR:9420) Elective Pharmacy Practice Underserved Population Rotation** 6 s.h.
Opportunity to learn the best practices for pharmaceutical management; approaches to enhance access to and appropriate use of medicines in underserved and resource-limited environments. Requirements: P4 standing.
- 046:189 (PHAR:9416) Elective: Pharmacy Rotation** 6 s.h.
Selected practice experiences in various pharmacy practice settings. Requirements: P4 standing.
- 046:190 (PHAR:8719) Overview of Pediatric Pharmacotherapy** 2 s.h.
Discussion of issues and problems in pediatric pharmacotherapy; clinical practicum. Prerequisites: 046:149 (PHAR:8240) and 046:170 (PHAR:8230). Requirements: P3 standing.
- 046:191 (PHAR:8720) Health Coaching and Wellness** 2 s.h.
Develop expertise in health coaching and wellness to care for patients with chronic diseases; in-depth look at lifestyle changes recommended for patients with chronic diseases; discuss and investigate nutrition and exercise guidelines for patients with chronic diseases; motivational interviewing technique and incorporation of chronic care model for patients. Requirements: P2 or P3 standing.
- 046:192 (PHAR:9411) Elective Long Term Care Rotation** 6 s.h.
Practice in consulting and providing services to varied long-term patient care environments. Requirements: P4 standing.
- 046:193 (PHAR:9409) Elective Home Health Care Rotation** 6 s.h.
Clinical experience in the team approach to health care delivery, including total parenteral nutrition, chemotherapy, intravenous antibiotics, lab analysis, hospice care, and pain management. Requirements: P4 standing.
- 046:194 (PHAR:9412) Elective Managed Care Rotation** 6 s.h.
Practice experience in providing pharmaceutical care or pharmacy-related services in a managed care organization. Requirements: P4 standing.
- 046:195 (PHAR:8721) Contemporary Issues and Leadership** arr.
Introduction to leadership applications inside and outside of pharmacy; speaker series presents live interviews of prominent leaders; course work focuses on application of leadership principles and theories to contemporary pharmacy issues. Requirements: P1, P2, or P3 standing.
- 046:196 (PHAR:9401) Ambulatory Care Rotation** 6 s.h.
Clinical experience in providing pharmaceutical care in outpatient clinic settings. Requirements: P4 standing.
- 046:197 (PHAR:9408) Elective Hematology/Oncology Rotation** 6 s.h.
Drug therapy management of oncology patients and patients with hematologic malignancies, aplastic anemia, sickle cell disease, hemophilia. Requirements: P4 standing.
- 046:199 (PHAR:9418) Elective Research Rotation** 6 s.h.
Practice experience in basic pharmaceutical or clinical research; proposal, study design, data collection and analysis, presentation of results. Requirements: P4 standing.
- 046:300 (PHAR:9424) Elective Emergency Medicine Rotation** 6 s.h.
Clinical experience providing pharmaceutical care for patients treated in the emergency department. Requirements: P4 standing.
- 046:301 (PHAR:9425) Elective Hospital Management Rotation** 6 s.h.
Practice experience in hospital pharmacy operations and management. Requirements: P4 standing.
- 046:302 (PHAR:9426) Elective Infectious Disease Rotation** 6 s.h.
Clinical experience providing pharmacotherapeutic management of patients receiving antimicrobial medications. Requirements: P4 standing.
- 046:303 (PHAR:9427) Elective Medication Use Evaluation Rotation** 6 s.h.
Practical experience in drug use evaluation to improve patient outcomes. Requirements: P4 standing.
- 046:304 (PHAR:9428) Elective Pharmacy Industry Rotation** 6 s.h.
Practice experience in an area of the pharmaceutical industry. Requirements: P4 standing.
- 046:305 (PHAR:9429) Elective: Pharmacy Regulatory Rotation** 6 s.h.
Practice experience with a pharmacy regulatory body. Requirements: P4 standing.
- 046:306 (PHAR:9430) Elective: Professional Association Rotation** 6 s.h.
Practice experience in professional association management environment at the state or national level. Requirements: P4 standing.
- 046:307 (PHAR:9431) Elective: Veterinary Pharmacy Rotation** 6 s.h.
Practice experience in managing drug therapy for animals. Requirements: P4 standing.
- 046:308 (PHAR:9432) Elective: Advanced Community Pharmacy Rotation** 6 s.h.
Community pharmacy experience emphasizing patient-centered care. Requirements: P4 standing.

046:357 (PHAR:8790) Topics in Community Pharmacy Management 2 s.h.

Focus on building practical knowledge and understanding of business principles.

046:377 (PHAR:8715) Health Disparities and Cultural Competence 2-4 s.h.

Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 096:125 (NURS:3715), 172:135 (CBH:8715).

046:398 (PHAR:8385) Hospital Pharmacy Practice Management Elective 2 s.h.

Organizational structure of pharmacy departments in hospitals and health care systems; models for delivery of pharmaceutical care; pharmacy's role in drug-policy decision making; provision of drug information; clinical and distributive pharmacy services; control of pharmacy and pharmacy costs; use of information technology and automation for service delivery; supervisory management; quality improvement. Requirements: P3 standing.

Pharmaceutical Sciences and Experimental Therapeutics**046:012 (PHAR:8791) Survey of Basic Pharmaceutical Sciences** 1 s.h.

Aspects of drug discovery and development; seminar with guest speakers from industry. Requirements: admission to Pharm.D. program.

046:110 (PHAR:3745) Drug Delivery I arr.

Advanced design and development of drug delivery systems with emphasis on selection of materials and designs suitable for specific applications; comparison and evaluation of available and emerging technologies. Requirements: introductory-level courses in biochemistry and anatomy/physiology.

046:111 (PHAR:3746) Drug Delivery II arr.

Continuation of 046:110 (PHAR:3745). Prerequisites: 046:110 (PHAR:3745).

046:123 (PHAR:8111) Pharmaceutics I: Solutions 4 s.h.

Application of physical and chemical principles to formulation, preparation of liquid dosage forms, including solution, colloids, ointments, emulsions. Requirements: P1 standing.

046:124 (PHAR:8112) Pharmaceutics II: Solids and Semi-solids 4 s.h.

Properties of solids; formulation, preparation, evaluation of solid dosage forms. Requirements: P1 standing.

046:128 (PHAR:8121) Medicinal and Natural Products Chemistry I: Biotechnology and Chemotherapy 3 s.h.

Organic and inorganic medicinal and therapeutic agents of natural and synthetic origin; physical, chemical, biological, and biochemical properties as they relate to medicinal and therapeutic effects; comparative biological activity and toxicity; detoxication mechanisms; functional group chemistry; nomenclature; chemistry of radiodiagnostic and therapeutic agents; introduction to biopharmaceutical analysis. First in a three-course sequence. Prerequisites: 004:122 (CHEM:2220), 061:112 (MICR:3112), and 099:162 (BIOC:8102). Requirements: P1 standing.

046:131 (PHAR:8122) Medicinal and Natural Products Chemistry II: Pharmacodynamic Agents 3 s.h.

Medicinal chemistry of pharmacodynamic agents; introduction to peptides and proteins, thyroid hormone, diabetes, vaccines, gene therapeutics, NSAIDs, cardiovascular drugs, antihistamines, anticancer drugs. Second in a three-course sequence. Prerequisites: 046:128 (PHAR:8121). Requirements: P2 standing.

046:132 (PHAR:8123) Medicinal and Natural Products Chemistry III: Medicinal Neurochemistry 3 s.h.

Receptor site theory; steroids, lipids, and prostaglandins; sedatives and hypnotics; drugs of abuse; cholinergics; excitatory amino acids and anticonvulsants; major analgesics; adrenergics; psychotherapeutics. Third in a three-course sequence. Prerequisites: 046:128 (PHAR:8121) and 046:131 (PHAR:8122). Requirements: P2 standing.

046:138 (PHAR:8213) Pharmacokinetics and Biopharmaceutics 3 s.h.

Qualitative and quantitative description of kinetics of drug absorption, distribution, and elimination, including physiological factors that influence each process; adjustment of dosing regimens for optimizing therapeutic drug levels in the body; dosing considerations in special populations. Prerequisites: 046:123 (PHAR:8111) and 046:124 (PHAR:8112).

046:169 (PHAR:8710) Introduction to Pharmacogenomics 2 s.h.

Introduction to pharmacogenetics in pharmacy; laboratory techniques, application of pharmacogenetics to clinical pharmacy.

046:170 (PHAR:8230) Clinical Pharmacokinetics 3 s.h.

Application of pharmacokinetics to the clinical setting. Requirements: P2 standing.

For Graduate Students**Pharmacy Practice and Science****046:147 (PHAR:5350) Introduction to Research Methods** 3 s.h.

Scientific inquiry, experimental design, data collection, statistical methods used in the study of health services and clinical investigations; focus on understanding the research process and evaluating published studies. Recommendations: introductory statistics.

046:213 (PHAR:5310) Pharmaceutical Socioeconomics Seminar 1-2 s.h.

Recent research in pharmacy administration.

046:251 (PHAR:6320) Pharmaceutical Socioeconomics Research arr.**046:255 (PHAR:5335) Social Aspects of Pharmacy Care** 2 s.h.

Conceptual issues related to social and behavioral components of pharmacy care; social construction of health and illness, medication use process, health communications, cultural competence, public health.

046:257 (PHAR:6305) Foundation Literature in Pharmaceutical Socioeconomics arr.

Issues related to pharmacy administration, social and behavioral pharmacy, pharmacy education.

046:261 (PHAR:7330) Analytic Issues in Health Services Research I 3 s.h.

Analytic tools used in health services research; focus on applications in nonexperimental research settings, such as analyses using administrative claims data or preexisting public use data sets. Prerequisites: 171:162 (BIOS:5120). Same as 174:261 (HMP:7960).

046:262 (PHAR:7331) Analytic Issues in Health Services Research II 3 s.h.

Continuation of 174:261 (HMP:7960); advanced applications, including panel data and qualitative response models. Prerequisites: 174:261 (HMP:7960). Same as 174:262 (HMP:7965).

046:263 (PHAR:6330) Models of Patient Behavior and Choice 3 s.h.

Theoretical models used to describe behavior and choice in pharmaceutical socioeconomic research; models from economics, health services research, health behavior, clinical decision making.

046:264 (PHAR:6331) Models of Provider Behavior and Choice 3 s.h.

Theoretical background for study of provider decision making and behavior; models based on a classic economic approach, models used to study provider behavior.

Pharmaceutical Sciences and Experimental Therapeutics**046:135 (PHAR:5515) Perspectives in MNPC Research** 1 s.h.

Contemporary research in medicinal chemistry and natural products.

046:137 (PHAR:5537) Enzymatic Basis of Drug Metabolism 3 s.h.

Current literature on catalytic and physical properties, distribution, and substrate specificity of enzymes involved in mammalian drug metabolism. Prerequisites: 004:122 (CHEM:2220) and 099:162 (BIOC:8102).

046:148 (PHAR:6700) Pharmacokinetics and Pharmacodynamics 3 s.h.

Kinetics of drug absorption, distribution, and elimination, including development of mathematical models. Requirements: two semesters of calculus and one semester of statistics.

046:150 (PHAR:5550) Synthetic Strategies in Medicinal Chemistry 3 s.h.

Modern chemical methods for construction of carbon-carbon bonds commonly used in synthesis of natural products; strategic disconnections for the syntheses of these molecules. Prerequisites: 004:122 (CHEM:2220) and 046:132 (PHAR:8123).

046:157 (PHAR:5700) Quantitative Research Methods in Pharmacy I 3-4 s.h.

Collection and interpretation of analytical data; instrumental analysis as applied to pharmaceutical quality control; separation techniques.

046:200 (PHAR:6711) Special Topics in Nanotechnology 1 s.h.

Special topics in nanotechnology.

046:202 (PHAR:6705) Selected Topics in Pharmaceuticals and Clinical Pharmaceutical Sciences 1-4 s.h.

Recent advances and contemporary research in pharmaceuticals.

046:206 (PHAR:6701) Stability of Pharmaceuticals 3 s.h.

Mechanisms of degradation of pharmaceuticals; prediction of shelf life of pharmaceuticals, stabilization. Prerequisites: 004:132 (CHEM:4432).

046:207 (PHAR:6702) Polymers in Pharmaceutics 3 s.h.

Polymer science, its implications in pharmaceutics; polymers useful as excipients in design of controlled and/or sustained release products.

046:209 (PHAR:5512) Drug Discovery and Mechanisms 3 s.h.

Process of modern drug discovery, focus on high throughput screening strategies, target validation, pharmacological characterization of new compounds; mechanism of drugs targeting G protein coupled receptors, ion channels and transporters, targets in biological systems. Requirements: graduate standing.

046:211 (PHAR:5541) Total Synthesis of Natural Products 3 s.h.

Total synthesis of natural products; use of strategies, tactics, efficiency, selectivity, synthetic maneuvering.

046:214 (PHAR:5544) Pharmaceutical and Chemical Toxicology 3 s.h.

Principles and mechanisms of chemical toxicology related to drugs and environmental agents; modern toxicological research methods.

046:215 (PHAR:5545) Current Medicinal Chemistry 3 s.h.

Modern techniques used in drug discovery; important drug classes, their chemical mechanism of action.

046:217 (PHAR:5520) Medicinal and Natural Products Chemistry Research arr.**046:219 (PHAR:5549) Analytical Biochemistry** 3 s.h.

Application of modern chromatographic and detection methods used to isolate, characterize, and quantify drugs and macromolecules.

046:223 (PHAR:3748) Quantitative Research Methods II: Materials Characterization 2 s.h.

Introduction to physical methods of pharmaceutical materials characterization; thermal, electrochemical, and spectrophotometric methods; lecture, discussion, and laboratory activities.

046:225 (PHAR:6703) Product Development 3 s.h.

Application of physico-chemical principles to formulation and design of pharmaceutical dosage forms.

046:227 (PHAR:5510) Medicinal and Natural Products Chemistry Seminar 1-2 s.h.**046:229 (PHAR:7700) Advanced Pharmacokinetics and Pharmacodynamics** 3 s.h.

Selected topics, including nonlinear curve fittings. Prerequisites: 046:148 (PHAR:6700).

046:231 (PHAR:6710) Pharmaceutics Seminar 1-2 s.h.**046:233 (PHAR:6720) Pharmaceutics Research** arr.**046:235 (PHAR:6706) Equilibria Processes** 3 s.h.

Equilibria pertaining to ionic systems, complexation, partitioning, solubility. Prerequisites: 004:131 (CHEM:4431).

046:236 (PHAR:7701) Surface Phenomena arr.

Behavior of matter in phase boundaries, especially adsorptive processes at liquid-solid and vapor-solid interfaces. Prerequisites: 004:131 (CHEM:4431).

046:237 (PHAR:7702) Transport Phenomena 3 s.h.

Diffusion and mass transport phenomena related to pharmaceutical systems. Prerequisites: 004:131 (CHEM:4431).

046:238 (PHAR:5745) Drug Delivery: Principles and Applications I arr.

Advanced design and development of drug delivery systems with emphasis on selection of materials and designs suitable for specific applications; comparison and evaluation of available and emerging technologies.

046:239 (PHAR:5746) Drug Delivery: Principles and Applications II arr.

Continuation of 046:238 (PHAR:5745). Prerequisites: 046:238 (PHAR:5745).

046:243 (PHAR:6120) Clinical Pharmaceutical Sciences Research arr.**046:245 (PHAR:6130) Analytical Techniques in Therapeutics** 2 s.h.

Basic concepts of cell culture, animal models, and biochemical techniques for mechanistic evaluation of drug actions.

046:269 (PHAR:5135) Introduction to Clinical Pharmacogenomics 3 s.h.

Basic pharmacogenetic techniques; use of pharmacogenomics in clinical pharmacy. Prerequisites: 002:128 (BIOL:2512).

046:275 (PHAR:5875) Perspectives in Biocatalysis 1-3 s.h.

Applied enzymology, protein design, structure-activity relationships, biosensor technology, microbial transformations, biodegradation of environmental pollutants. Requirements: graduate standing in a participating department supported by the Predoctoral Training Program in Biotechnology. Same as 004:275 (CHEM:5875), 052:275 (CBE:5875), 053:275 (CEE:5875), 061:275 (MICR:5875), 099:275 (BIOC:5875).

046:280 (PHAR:5110) Clinical Pharmaceutical Sciences Seminar 1-2 s.h.

Research by faculty, graduate students.

046:284 (PHAR:5930) Introduction to Pharmaceutical Sciences Research 2 s.h.

Key principles and methods in pharmaceutical sciences research.

046:378 (PHAR:7100) Translation Research and Clinical Drug Development 3 s.h.

Clinical drug development; preclinical studies and clinical trials; phase I, II, and III clinical trials, including regulatory considerations.

046:379 (PHAR:7101) Principles of Experimental Therapeutics 3 s.h.

Introduction to key principles and concepts for research in experimental therapeutics; basic principles related to drug disposition, toxicity, and efficacy.

046:380 (PHAR:7102) Applied Clinical and Translational Science 3 s.h.

Application of clinical and translational science in a multidisciplinary collaborative environment to develop, conduct, and report research.

College of Public Health

Dean

Susan J. Curry

Associate dean, faculty affairs

Jeffrey Dawson

Associate dean, research

Corinne Peek-Asa

Associate dean, education and student affairs

Tanya Uden-Holman

Associate dean, public health practice

Christopher G. Atchison

Associate dean, M.P.H. and undergraduate programs

Mary Lober Aquilino

Associate dean, administration

Ann M. Coady

Undergraduate certificate: public health

Graduate degrees: M.H.A.; M.P.H.; M.S.; Ph.D.

Graduate certificates: agricultural safety and health; biostatistics; emerging infectious disease epidemiology; public health; translational and clinical investigation

Web site: <http://www.public-health.uiowa.edu>

The College of Public Health, established in 1999, is a partner with the Carver College of Medicine and the Colleges of Dentistry, Nursing, and Pharmacy in striving to improve human health and well-being. Consistent with the interdisciplinary traditions of public health, the college also collaborates with non-health science colleges across the University and with other Board of Regents, State of Iowa institutions, state and local agencies, and the private sector.

A population-based approach to health is a distinguishing feature of public health and of the college. For public health practitioners—a wide range of professionals including physicians, nurses, dentists, pharmacists, social workers, nutritionists, environmental scientists, health educators, and health service administrators—the primary focus is on the health of entire communities rather than individual patients. Tools that public health professionals use to improve and enhance quality of life include analytical methods to identify, describe, and monitor the health of communities and populations at risk; education and prevention programs, methods of assuring access to appropriate and cost-effective care; and formulation of sound public policies.

The public health approach has led to many important health improvements over the past century. Vaccination campaigns, improved sanitation, fluoridation of drinking water, and efforts to reduce tobacco use are among the most recognizable public health initiatives. Public health programs also have led to safer workplaces, reduction of deaths from coronary heart disease and stroke, improved motor vehicle safety, and creation of effective health systems to provide care to those who need it. Today, public health professionals play an important role worldwide in seeking better approaches to complex issues such as quality of life for the elderly, drug and alcohol abuse, teen pregnancy, new and reemerging infectious diseases, bioterrorism, health literacy, nutrition, and food safety.

The College of Public Health provides educational opportunities to students campuswide. In addition to training and educating public health students, the college

welcomes students from the Tippie College of Business, the Carver College of Medicine, the Graduate College, and the Colleges of Dentistry, Education, Engineering, Law, Nursing, and Pharmacy who enroll in public health courses. Undergraduate students in the College of Liberal Arts and Sciences and graduate students from programs such as anthropology, microbiology, and statistics also register for public health courses. The college's faculty members, staff members, and graduate and postdoctoral students contribute to teaching and research activities throughout the health sciences campus and provide services to Iowa and the nation. Partnerships for teaching and research extend across the campus. This background provides a rich array of educational opportunities.

The college includes the Departments of Biostatistics (p. 1054), Community and Behavioral Health (p. 1060), Epidemiology (p. 1066), Health Management and Policy (p. 1075), and Occupational and Environmental Health (p. 1088). It offers programs leading to four graduate degrees: Master of Health Administration (M.H.A.), Master of Public Health (M.P.H.), Master of Science (M.S.), and Doctor of Philosophy (Ph.D.). It also offers the Certificate in Agricultural Safety and Health (p. 1053), the Certificate in Biostatistics (p. 1054), the Certificate in Emerging Infectious Disease Epidemiology (p. 1065), the Certificate in Public Health (p. 1059), and the Certificate in Translational and Clinical Investigation (p. 1066).

The college is accredited by the Council on Education for Public Health (CEPH), the accrediting body for the nation's schools and colleges of public health. Three programs in the college currently are accredited: the industrial hygiene program is accredited by the Accreditation Board for Engineering and Technology (ABET) and the American Board of Industrial Hygiene (ABIH), the Master of Health Administration is accredited by the Commission on Accreditation of Healthcare Management Education (CAHME), and the Occupational Medicine Residency is accredited by the Accreditation Council for Graduate Medical Education (ACGME).

Admission

Each department in the College of Public Health has an admission committee. Admission criteria usually include a satisfactory cumulative grade-point average; Graduate Record Examination scores; references; résumés; and for applicants whose first language is not English, scores on the Test of English as a Foreign Language (TOEFL). Other evaluation criteria may include oral and on-campus interviews, written statements, special emphasis on science and math courses, and a match of available faculty mentors with student interests. Application deadlines vary by department.

Applicants to College of Public Health programs must meet the admission requirements of the Graduate College. For detailed information about Graduate College policies, including application requirements and procedures, see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Faculty

The college's faculty includes members with single appointments in the College of Public Health as well as

those with joint appointments in other University of Iowa colleges, including the Carver College of Medicine and the Colleges of Dentistry, Engineering, Law, Liberal Arts and Sciences, Nursing, and Pharmacy. In addition, the college's faculty includes adjunct members from Drake University, Iowa State University, the University of Northern Iowa, the Iowa State Department of Public Health, the State Hygienic Laboratory at The University of Iowa, the Iowa Heart Center (in Des Moines), University of Iowa Hospitals and Clinics, and the National Institutes of Health.

Research Centers and Institutes

The College of Public Health is home to 27 centers and institutes that conduct research and provide public service. These multidisciplinary centers and institutes—most of which are supported by federal grants—focus their investigative efforts on important public health topics. They conduct an array of outreach, service, and policy activities through which the College of Public Health engages with agencies, communities, and organizations throughout Iowa, the Midwest, the nation, and the world. Students are encouraged to explore opportunities for involvement with any of the college's centers and institutes.

For more information, see College of Public Health-Based Centers and Institutes on the college's web site.

Facilities

The College of Public Health Building, a state-of-the-art facility that opened in early 2012 on the University's health sciences campus, houses the college's administrative, departmental, and faculty offices. The college's research centers, institutes, and specialized laboratories are located in Westlawn, on the health sciences campus; in University Capitol Centre, on the east campus; and at the University of Iowa Research Park.

Eight student computer laboratories are housed at the college. More than 55 software packages are available for student use, most without charge. Software includes Microsoft Office products, SAS, and S+. Some specialty labs are equipped with RedHat Linux and are loaded with R, Macanova, Xlispstat, Mathematica, and other software.

Students, faculty, and staff draw on extensive library resources available across campus. Hardin Library for the Health Sciences serves as a central resource for all of the health sciences colleges. Hardin Library's Information Commons, a state-of-the-art health sciences educational technology facility, provides central support and delivery for courseware development, classroom instruction, health-related research, and independent learning. It offers high-end multimedia development workstations, networked electronic classrooms, a case-based learning and conference room, and information research workstations for searching health-related databases and the Internet.

Agricultural Safety and Health

Director

Kelly Donham

Graduate certificate: agricultural safety and health

Web site: <http://www.public-health.uiowa.edu/oeh/programs/certificate/>

The College of Public Health offers the Certificate in Agricultural Safety and Health by distance education.

Graduate Program

- Certificate in Agricultural Safety and Health

The certificate program trains students to detect safety and illness hazards and to treat and prevent farm-related illnesses, injuries, and deaths. It is intended for health and safety professionals nationwide as well as for students at The University of Iowa and at other postsecondary institutions who are enrolled in health or safety programs and would like to add an agricultural health component to their training. The certificate may enhance employment opportunities in health care delivery, government, and the private sector.

The program is accredited by the Council on Education for Public Health.

Certificate

The Certificate in Agricultural Safety and Health requires 12 s.h. of graduate credit. Completion of the certificate is noted on the student's transcript.

The certificate is offered by distance education, but students are encouraged to take 175:209 (OEH:6110) Rural Health and Agricultural Medicine on campus; the course is offered twice yearly, once during spring semester and again as an intensive five-day workshop in June. Students may be able to complete 175:203 (OEH:7140) Preceptorship in Occupational and Environmental Health in their own communities.

The Certificate in Agricultural Safety and Health requires the following course work.

All of these:

175:209 (OEH:6110) Rural Health and Agricultural Medicine	3 s.h.
175:196 (OEH:4110) Agricultural Safety: Theories and Practice	2 s.h.
175:203 (OEH:7140) Preceptorship in Occupational and Environmental Health	2 s.h.
175:172 (OEH:7120) Independent Study in Occupational and Environmental Health	1 s.h.

One of these:

175:210 (OEH:6120) Current Topics in Agricultural Health	1 s.h.
175:180 (OEH:5010) Occupational and Environmental Health Seminar	1 s.h.

One of these:

175:192 (OEH:5410) Occupational Safety	3 s.h.
175:230 (OEH:5620) Occupational Health	3 s.h.

Applicants to the certificate program should hold a bachelor's degree from an accredited university with a g.p.a. of at least 2.50; or they should have equivalent experience and education. Application materials must include the program's application form, a résumé, and a letter of interest explaining the applicant's current position and education objectives.

For more information about the program's curriculum or faculty, visit the Certificate in Agricultural Safety and Health web site.

Biostatistics

Head

Kathryn Chaloner

Deputy head

William R. Clarke

Professors

Stephan Arndt (Psychiatry), Joseph E. Cavanaugh (Statistics and Actuarial Science), Kathryn Chaloner (Statistics and Actuarial Science), William R. Clarke, Christopher S. Coffey, Jeffrey J. Dawson, Jian Huang (Statistics and Actuarial Science), Michael P. Jones (Statistics and Actuarial Science), Philip C. Kutzko (Mathematics), Joseph B. Lang (Statistics and Actuarial Science), Jane F. Pendergast, Bruce Pfohl (Psychiatry), Ying Zhang, Dale Zimmerman (Statistics and Actuarial Science)

Professors emeriti

Leon F. Burmeister, George Woodworth (Statistics and Actuarial Science), Robert F. Woolson (Statistics and Actuarial Science/Epidemiology)

Adjunct professor

Daniel J. Sargent

Clinical professor

Associate professors

M. Kathryn Cowles (Statistics and Actuarial Science), Jacob J. Oleson, Brian J. Smith, Kai Wang, Yi Xing (Internal Medicine/Biomedical Engineering), Gideon K.D. Zamba

Assistant professor

Emine O. Bayman (Anesthesiology)

Adjunct assistant professors

Hyonggin An, Yu-Hui H. Chang, Michelle A. Larson

Graduate degrees: M.S. in biostatistics; Ph.D. in biostatistics

Graduate certificate: biostatistics

Web site: <http://www.public-health.uiowa.edu/biostat>

The Department of Biostatistics prepares students for professional and academic careers in biostatistics. Graduates find positions in pharmaceutical, health care, and research companies and institutions; in universities and government agencies; and as consultants. The department also provides training for non-biostatistics students.

Current research interests in the Department of Biostatistics include computer intensive statistics, Bayesian methods, design and analysis of clinical trials, longitudinal data analysis, survival analysis, spatial modeling, analysis of data subject to missingness, time series, model selection, quality control, survey sampling, statistical genetics, and public health statistics. Biostatistics faculty members work closely with both clinical and basic science investigators on the University of Iowa health sciences campus in the design and analysis of research projects.

Graduate Programs

- Master of Science in biostatistics

- Doctor of Philosophy in biostatistics
- Certificate in Biostatistics

In addition to offering graduate degree programs in biostatistics, the department offers the biostatistics subtrack for the Master of Public Health; see "M.P.H. Subtrack" below.

Master of Science

The Master of Science program in biostatistics requires a minimum of 38 s.h. of graduate credit. The program provides training in the design of experiments and in analysis of data related to biomedical or public health problems. It emphasizes mathematical, statistical, and computer methods for dealing with quantitative information and provides opportunities for students to gain statistical consulting experience with a variety of problems.

Graduates find career opportunities in many areas, including pharmaceuticals, health care, research companies and institutions, consulting firms, universities, and government agencies.

All M.S. students are required to complete an in-depth preceptorship under the direction of a departmental faculty member and a final comprehensive-style examination.

Graduate students in biostatistics must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Master of Science in biostatistics requires the following course work.

CORE COURSES

All of these:

171:178 (BIOS:5510) Biostatistical Computing	3 s.h.
171:201 (BIOS:5710)-171:202 (BIOS:5720) Biostatistical Methods I-II	8 s.h.
171:203 (BIOS:5730) Biostatistical Methods in Categorical Data	3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials	3 s.h.
171:280 (BIOS:7500) Preceptorship in Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.

One of these sequences:

22S:153 (STAT:4100)-22S:154 (STAT:4101) Mathematical Statistics I-II	6 s.h.
22S:193 (STAT:5100)-22S:194 (STAT:5101) Statistical Inference I-II (preferred for students who intend to earn a Ph.D.)	6 s.h.

One of these:

002:169 (BIOL:3213) Introduction to Bioinformatics	4 s.h.
055:122 (ECE:5220) Computational Genomics	3 s.h.
061:157 (MICR:2157) General Microbiology	5 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
096:114 (NURS:3505) Human Pathophysiology: Organ Systems	3 s.h.
096:115 (NURS:3500) Human Pathophysiology: Cellular/Neurology/Immunology	3 s.h.
127:191 (GENE:7191) Human Molecular Genetics	3 s.h.
171:185 (BIOS:6410) Microarray Data Analysis	3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.

174:102 (HMP:4000) Introduction to the U.S. Health Care System	3 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.

ELECTIVES

At least 3 s.h. from these:

22C:104 (CS:3110) Introduction to Informatics	3 s.h.
22S:138 (STAT:4520) Bayesian Statistics	3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis	3 s.h.
22S:248 (STAT:7400) Computer Intensive Statistics	3 s.h.
22S:255 (STAT:7200) Linear Models	4 s.h.
171:164 (BIOS:5310) Research Data Management	3 s.h.
171:174 (BIOS:6310) Introductory Longitudinal Data Analysis	3 s.h.
171:185 (BIOS:6410) Microarray Data Analysis	3 s.h.
171:230 (BIOS:6710) Statistical Data Mining in Public Health	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.
171:251 (BIOS:7110) Theory of Biostatistics I	4 s.h.
171:252 (BIOS:7120) Theory of Biostatistics II	4 s.h.
171:261 (BIOS:7210) Survival Data Analysis	3 s.h.
171:262 (BIOS:7410) Analysis of Categorical Data	3 s.h.
171:264 (BIOS:7310) Longitudinal Data Analysis	3 s.h.
171:268 (BIOS:6810) Bayesian Methods and Design	3 s.h.
171:282 (BIOS:7700) Problems/Special Topics in Biostatistics	1 s.h.

M.P.H. Subtrack

The Department of Biostatistics offers the biostatistics subtrack for the Master of Public Health. The subtrack focuses on applying biostatistical methods to public health and biomedical sciences and on applying methodology for design and analysis of research investigations in the health sciences. Graduates of the program are prepared for work as statistical consultants and data analysts for public health projects. See Master of Public Health Program (p. 1081) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in biostatistics requires a minimum of 79 s.h. of graduate credit, including credit from a master's degree. The program prepares students for professional and academic careers in biostatistics, especially for positions that emphasize developing and applying statistical methodology to solve important biological and public health problems.

All Ph.D. students must successfully complete a qualifying examination, a comprehensive examination, and a dissertation—a substantial scholarly treatise. The research topic and content, which vary depending on the program of study, must be approved by the student's dissertation committee. Other degree requirements include approved electives chosen from Department of Biostatistics and other University of Iowa courses.

Graduate students in biostatistics must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Doctor of Philosophy in biostatistics requires the following work.

MASTER OF SCIENCE BACKGROUND

Ph.D. students must take the following courses (26 s.h.) required for the Master of Science in biostatistics. Students

who have completed equivalent course work at other institutions may request waivers and/or transfers of credit. Students who earned a Master of Science in biostatistics at The University of Iowa automatically receive credit for these courses.

One of these sequences:

22S:153 (STAT:4100)-22S:154 (STAT:4101) Mathematical Statistics I-II	6 s.h.
22S:193 (STAT:5100)-22S:194 (STAT:5101) Statistical Inference I-II	6 s.h.

All of these:

171:201 (BIOS:5710)-171:202 (BIOS:5720) Biostatistical Methods I-II	8 s.h.
171:203 (BIOS:5730) Biostatistical Methods in Categorical Data (171:241 may be substituted if taken fall 2006 or earlier)	3 s.h.
171:280 (BIOS:7500) Preceptorship in Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
One approved biology/public health course	

CORE COURSES

22S:255 (STAT:7200) Linear Models	4 s.h.
171:251 (BIOS:7110) Theory of Biostatistics I	4 s.h.
171:252 (BIOS:7120) Theory of Biostatistics II	4 s.h.
171:261 (BIOS:7210) Survival Data Analysis	3 s.h.
171:262 (BIOS:7410) Analysis of Categorical Data	3 s.h.
171:264 (BIOS:7310) Longitudinal Data Analysis	3 s.h.

ELECTIVES

With approval of their advisors, students choose 15-22 s.h. of graduate-level courses in biostatistics, statistics, genetics, microbiology, and so forth. They may count a maximum of 5 s.h. earned in nonquantitative courses (e.g., community and behavioral health, epidemiology, microbiology) toward the requirement. They also may count courses required for the Master of Science that are not listed under "Master of Science Background," above, toward the requirement.

Ph.D. students may take the following courses.

002:170 (BIOL:4213) Bioinformatics	3 s.h.
22S:138 (STAT:4520) Bayesian Statistics	3 s.h.
22S:156 (STAT:6560) Applied Time Series Analysis	3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis	3 s.h.
22S:195 (STAT:6300) Probability and Stochastic Processes I	3 s.h.
22S:248 (STAT:7400) Computer Intensive Statistics	3 s.h.
171:243 (BIOS:6220) Cohort Data Analysis	1 s.h.
171:280 (BIOS:7500) Preceptorship in Biostatistics (in addition to preceptorship required for M.S.)	3 s.h.
171:290 (BIOS:7600) Advanced Biostatistics Seminar	0-3 s.h.

DISSERTATION

171:300 (BIOS:7900) Thesis/Dissertation (at least two semesters in residence)	10-17 s.h.
---	------------

Certificate

The Certificate in Biostatistics requires a minimum of 15 s.h. of graduate credit. It is designed for students who would like to add a formal biostatistics emphasis to their graduate programs. Completion of the certificate is noted on the student's transcript.

The certificate program is open to students enrolled in a University of Iowa graduate degree program outside biostatistics. It is also open to individuals who hold graduate degrees in science disciplines or professional degrees in the health sciences and are admitted to the Graduate College as nondegree students (contact the Department of Biostatistics for more information).

Enrollment is limited; applicants who have completed at least one of the certificate's required courses and whose research will be advanced by biostatistics training are given priority for admission. Visit the Certificate in Biostatistics web site for an application form.

The certificate requires two core courses (6 s.h.) and three electives (9 s.h.). Students should work with an advisor to plan their course work carefully, since some certificate courses have prerequisites, require permission for enrollment, or are not offered every year. Students must earn a grade of at least B-minus in each certificate course and must maintain a cumulative g.p.a. of at least 3.00 in order to earn the certificate. They must complete at least 6 s.h. of the required course work after being admitted to the certificate program, and they may count a maximum of 6 s.h. of certificate credit toward a degree or another certificate earned at the University.

The Certificate in Biostatistics requires the following course work.

CORE COURSES

Both of these:

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.

ELECTIVES

Three of these (total of 9 s.h.):

171:164 (BIOS:5310) Research Data Management	3 s.h.
171:173 (BIOS:6510) Design of Sample Surveys	3 s.h.
171:174 (BIOS:6310) Introductory Longitudinal Data Analysis	3 s.h.
171:185 (BIOS:6410) Microarray Data Analysis	3 s.h.
171:241 (BIOS:6110) Applied Categorical Data Analysis	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials	3 s.h.
171:290 (BIOS:7600) Advanced Biostatistics Seminar	0-3 s.h.
171:295 (BIOS:7850) Research in Biostatistics	arr.

Other courses may be approved as electives by the Department of Biostatistics director of undergraduate studies.

Admission

The biostatistics faculty considers several factors when evaluating applications for admission, including Graduate Record Examination (GRE) General Test scores, grade-point averages, letters of recommendation, intent and motivation for graduate study, and research interests.

All M.S. and Ph.D. program applicants must hold a baccalaureate degree, have a cumulative g.p.a. of at least 3.00, and have taken the Graduate Record Examination (GRE) General Test. Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia,

or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) on TOEFL are required to take English fluency courses. Applicants who score below those ranges are not considered for admission. In place of TOEFL scores, the department accepts International English Testing System (IELTS) scores of 7.0 or higher, with no subscore below 6.0.

All biostatistics applicants and students are required to have strong written and oral communication skills.

All M.S. applicants must be competent in at least one computer programming language. They also must have mathematical sciences training in methods and techniques of single variable and multivariable differential and integral calculus, and in linear algebra.

Completion of an M.S. program in statistics or biostatistics generally is required for admission to the Ph.D. program.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

APPLICATION DEADLINES

M.S. (fall entrance): December 15 (priority)

Ph.D. (fall entrance): December 15 (priority)

Financial Support

A limited number of teaching and research assistantships are available. Assistantships offer financial support and resident tuition with a tuition scholarship. They also provide valuable on-the-job training experience.

For information on financing education through jobs, grants, and loans, contact the University's Office of Student Financial Aid.

Resources

Department of Biostatistics resources and activities include three centers. The Biostatistics Consulting Center provides opportunities for students to gain valuable experience working with faculty and staff in the health sciences at The University of Iowa. The Clinical Trials Statistical and Data Management Center serves the statistical design, data management, and analysis needs of a variety of multicenter clinical trials, including studies of new treatments for acute ischemic stroke and studies of islet transplantation. The Center for Public Health Statistics facilitates the collection, statistical analyses, and dissemination of health data in support of the University's research, teaching, and service missions and in partnership with the Iowa Department of Public Health.

Courses

171:121 (BIOS:4110) General Biostatistics 4 s.h.

Biostatistics and biostatistical computation; biostatistical aspects of health-related areas—clinical trials, disease modeling, disease mapping, genetics, and epidemiology; brief introduction to survival and longitudinal analyses.

- 171:151 (BIOS:5050) Biostatistics for Biomedical Research** 1 s.h.
Application of statistical techniques to biological data analysis; normal distribution, sampling distribution of the mean, variance, nonparametric methods, linear regression, power, and sample size. Same as 156:204 (BISC:5204).
- 171:161 (BIOS:5110) Introduction to Biostatistics** 3 s.h.
Application of statistical techniques to biological data, including descriptive statistics; probability; normal, binomial, and Poisson distributions; sampling distributions; tests of significance; confidence intervals; analysis of frequency data; simple linear regression. Requirements: college algebra.
- 171:162 (BIOS:5120) Design and Analysis of Biomedical Studies** 3 s.h.
Simple and multiple linear regression and correlation; one- and two-way layout considerations in planning experiments; factorial experiments; multiple comparison techniques; orthogonal contrasts. Offered spring semesters. Prerequisites: 171:161 (BIOS:5110). Same as 22S:140 (STAT:5610).
- 171:164 (BIOS:5310) Research Data Management** 3 s.h.
Overview of problems encountered in gathering and processing data from biomedical investigations; introduction to data management techniques useful in biomedical studies; introduction to Microsoft Access. Offered fall semesters of odd years. Requirements: Fortran or C programming capability.
- 171:173 (BIOS:6510) Design of Sample Surveys** 3 s.h.
Challenges in designing sample surveys; emphasis on construction and number of strata, unbiased ratio estimators, multistaged sampling, estimation of variance in complex surveys, double sampling, sampling frame construction problems, panel studies, and problems due to nonresponse. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101) or 171:202 (BIOS:5720).
- 171:174 (BIOS:6310) Introductory Longitudinal Data Analysis** 3 s.h.
Statistical models and estimation methods used to analyze correlated data (e.g., same subject measured repeatedly); emphasis on use of statistical software. Offered fall semesters of even years. Prerequisites: 22S:152 (STAT:3200), 22S:162 (STAT:6510), 171:203 (BIOS:5730), or 171:241 (BIOS:6110). Same as 22S:160 (STAT:6550).
- 171:178 (BIOS:5510) Biostatistical Computing** 3 s.h.
Groundwork in SAS and R programming; emphasis on data management, Monte Carlo simulations, and expectation maximization techniques. Offered fall semesters. Corequisites: 171:201 (BIOS:5710). Recommendations: C and C++ skills.
- 171:185 (BIOS:6410) Microarray Data Analysis** 3 s.h.
Basic statistical principles and techniques used in bioinformatics, including analyzing microarray gene expression data. Offered spring semesters. Prerequisites: 22S:030 (STAT:2010) or 22S:101 (STAT:3510) or 171:161 (BIOS:5110). Same as 002:176 (BIOL:4313), 127:176 (GENE:6410).
- 171:201 (BIOS:5710) Biostatistical Methods I** 4 s.h.
Problem-oriented probability distributions, moments, estimation, parametric and nonparametric inference for one-sample and two-sample problems, analysis of frequency data, linear regression, and correlation analysis, with emphasis on use of computers. Offered fall semesters. Requirements: two semesters of calculus.
- 171:202 (BIOS:5720) Biostatistical Methods II** 4 s.h.
Continuation of 171:201 (BIOS:5710), which is prerequisite; linear regression and correlation, multiple linear regression, multiple factor experiments, multiple comparisons, orthogonal contrasts, block and split-plot designs, confounding interactions, and mixed models. Offered spring semesters. Prerequisites: 171:201 (BIOS:5710).
- 171:203 (BIOS:5730) Biostatistical Methods in Categorical Data** 3 s.h.
Introduction to methods for allied categorical data analysis; estimation of proportions, rates, and risks; measures of relative risk and odds ratios, stratified analysis, case control studies, logistic regression. Offered spring semesters. Prerequisites: 171:178 (BIOS:5510) and 171:201 (BIOS:5710). Corequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).
- 171:230 (BIOS:6710) Statistical Data Mining in Public Health** 3 s.h.
Introduction to a set of supervised statistical methods (e.g., regression, decision tree, neural network) and some unsupervised methods (e.g., association rules, and clustering) for data analysis in health-related applications. Offered spring semesters of even years. Prerequisites: 171:202 (BIOS:5720), and 22S:153 (STAT:4100) or 22S:193 (STAT:5100).
- 171:241 (BIOS:6110) Applied Categorical Data Analysis** 3 s.h.
Overview of methods to analyze categorical data from health science investigations; estimation of rates and risks, measures of relative risk, stratified analysis, logistic regression analysis. Offered fall semesters. Prerequisites: 171:162 (BIOS:5120) and 173:140 (EPID:5400).
- 171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis** 3 s.h.
Nonparametric and semiparametric methods for survival data; methods of directly comparing standardized rates and standardization mortality ratios; Poisson regression for cohort data. Offered spring semesters of odd years. Prerequisites: 171:203 (BIOS:5730) or 171:241 (BIOS:6110).
- 171:243 (BIOS:6220) Cohort Data Analysis** 1 s.h.
Methods of comparing direct standardized rates and standardized mortality ratios; Poisson regression for cohort data. Offered spring semesters of odd years. Prerequisites: 171:241 (BIOS:6110).
- 171:251 (BIOS:7110) Theory of Biostatistics I** 4 s.h.
Intermediate study of sufficiency, exponential families, methods of estimation, uniform minimum variance unbiasedness, information, likelihood theory, confidence intervals, the Neyman-Pearson lemma, asymptotic theory and its applications. Offered fall semesters of even years. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).
- 171:252 (BIOS:7120) Theory of Biostatistics II** 4 s.h.
Nonparametric hypothesis tests, semiparametric estimation, generalized linear models, generalized estimation equations, generalized linear mixed models, EM algorithm, computer-intensive methods; application of theory learned in 171:251 (BIOS:7110) to classical and new methods in biostatistics. Offered spring semesters of odd years. Prerequisites: 171:251 (BIOS:7110).

171:261 (BIOS:7210) Survival Data Analysis 3 s.h.

Types of censoring and truncation; survival function estimation; life tables; parametric inference using exponential, Weibull, and accelerated failure time models; nonparametric tests; sample size calculation; Cox regression with stratification and time-dependent covariates; regression diagnostics; competing risks; analysis of correlated survival data. Offered fall semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720). Same as 22S:225 (STAT:7570).

171:262 (BIOS:7410) Analysis of Categorical Data 3 s.h.

Models for discrete data, distribution theory, maximum likelihood and weighted least squares estimation for categorical data, tests of fit, models selection. Offered spring semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 22S:164 (STAT:5200) or 171:202 (BIOS:5720). Same as 22S:220 (STAT:7510).

171:264 (BIOS:7310) Longitudinal Data Analysis 3 s.h.

Introduction to statistical methodology for analyzing data from observational and experimental studies in which the response variable from each subject is measured repeatedly; emphasis on use of statistical software packages and specialized programs. Offered spring semesters of odd years. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).

171:266 (BIOS:6610) Statistical Methods in Clinical Trials 3 s.h.

Survey of statistical methods commonly used in clinical trials; methodologic perspective on the design, conduct, and analysis of trials; emphasis on Phase III randomized controlled clinical trials. Offered spring semesters. Prerequisites: 22S:154 (STAT:4101) or 22S:194 (STAT:5101), and 171:202 (BIOS:5720).

171:268 (BIOS:6810) Bayesian Methods and Design 3 s.h.

Theory and application of Bayesian methods in biomedical research; foundations of Bayesian statistics, including axiomatic development of subjective probability and decision theory, study design, model development, inference, and implementation of computational algorithms. Prerequisites: 171:178 (BIOS:5510), 171:202 (BIOS:5720), 171:203 (BIOS:5730), 22S:153 (STAT:4100), and 22S:154 (STAT:4101).

171:271 (BIOS:7220) Advanced Survival Analysis 3 s.h.

Counting process/martingale theory leading to asymptotic results of survival methods; semiparametric regression of accelerated failure time and additive hazard models; multivariate survival models for clustered, multiple event, and recurrent event data; special topics. Prerequisites: 171:261 (BIOS:7210).

171:280 (BIOS:7500) Preceptorship in Biostatistics arr.

Work experience using knowledge and skill acquired in classroom; arranged in conjunction with ongoing departmental or collegiate activities or with governmental agencies or private industry; preparation of prospectus and presentation of research results in a department seminar.

171:281 (BIOS:7800) Independent Study in Biostatistics arr.

In-depth pursuit of an area of special interest in biostatistics requiring substantial creativity and independence.

171:282 (BIOS:7700) Problems/Special Topics in Biostatistics arr.

Didactic material in biostatistics; may include tutorials, seminars, faculty-directed independent work (e.g. literature search, project, short research project).

171:290 (BIOS:7600) Advanced Biostatistics Seminar 0-3 s.h.

Current topics; supervised experience in reading and interpreting biostatistical literature. Offered spring semesters.

171:295 (BIOS:7850) Research in Biostatistics arr.

Research that may lead to a dissertation.

171:300 (BIOS:7900) Thesis/Dissertation arr.

Certificate in Public Health

For more information about the program and how to apply, visit the Certificate in Public Health web site.

Coordinator

Katie Yamaki

Undergraduate certificate: public health

Graduate certificate: public health

Web site: http://www.public-health.uiowa.edu/academics/certificate_ph/

The College of Public Health offers the Certificate in Public Health by distance education.

Undergraduate and Graduate Program

- Certificate in Public Health

The certificate program is designed to improve public health practice and public health workforce capacity in Iowa and the upper Midwest. It is intended primarily for individuals in public health practice, those in the workforce, and those interested in acquiring a basic knowledge of public health practice. The program is open to undergraduate and graduate students.

Certificate

The Certificate in Public Health requires 12 s.h. of credit and is offered by distance education. Completion of the certificate is noted on the student's transcript.

All certificate courses are offered on the Internet at least once a year. Some also are offered on the University of Iowa campus. Certificate students must have access to a computer and the Internet. Students who are enrolled only in the Certificate in Public Health program may not register for courses other than those required for the certificate.

Students must complete the certificate's required course work within five years of entering the program and must maintain a g.p.a. of at least 2.75 in work for the certificate. Students who have graduate standing while they work toward the certificate and are admitted to the M.P.H. program after they complete the certificate may apply a maximum of 9 s.h. of certificate credit toward the M.P.H. degree.

The Certificate in Public Health requires the following course work.

Both of these:

170:101 (MPH:5100) Introduction to Public Health	3 s.h.
173:099 (EPID:5000) Evidence-Based Public Health Methods	3 s.h.

Two of these:

172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.
174:102 (HMP:4000) Introduction to the U.S. Health Care System	3 s.h.
175:197 (OEH:4240) Environmental Health	3 s.h.

Applicants to the certificate program must have completed at least 60 s.h. of postsecondary education course work and must have a cumulative g.p.a. of at least 2.75. They must submit official transcript(s), a statement of purpose, two reference letters, a résumé, and an application form.

Community and Behavioral Health

Head

Edith A. Parker

Professors

Elizabeth Altmaier (Psychological and Quantitative Foundations), Julie Andsager (Journalism and Mass Communication), Leslie Baxter (Communication Studies), Joe D. Coulter (Anatomy and Cell Biology), Kristi Ferguson (Internal Medicine), Paul Greenough (History), Ann Marie McCarthy (Nursing), Edith A. Parker, Jerry Suls (Psychology), Michael Teague (Health and Human Physiology)

Professors emeriti

Melanie Dreher (Nursing), Peter Nathan

Adjunct professor

Frank Boster

Clinical adjunct professor

Gene Lutz

Associate professors

Shelly Campo, Faryle Nothwehr, Erica Prussing (Anthropology), Nancy Thompson, Jingzhen Ginger Yang

Clinical associate professors

Mary Aquilino, Anne Helene Skinstad, Deb Waldron (Pediatrics)

Adjunct associate professors

Kevin Kelly, Connie Kohler

Clinical adjunct associate professor

Mary Losch

Assistant professors

Sandra Ramey (Nursing), Vanessa Simonds, Briana Woods

Adjunct lecturers

Ro Foege, Dawn Gentsch, Kevin Teale, Laurie Walkner

Graduate degrees: M.S. in community and behavioral health; Ph.D. in community and behavioral health

Web site: <http://www.public-health.uiowa.edu/cbh>

The Department of Community and Behavioral Health examines the relationship between human behavior and community health and focuses on creating effective strategies for change. Its faculty members come from a variety of disciplines within the social and health sciences, drawn together by an interest in health behavior and promoting healthy communities.

Community and behavioral health students learn how to design, implement, and evaluate interventions directed toward identified public health problems in communities. They learn how public and institutional policy, the media, and community organizations can promote healthy behavior and effect positive change.

Graduate Programs

- Master of Science in community and behavioral health
- Doctor of Philosophy in community and behavioral health

Graduate students in community and behavioral health may earn degrees with or without subtracks. The Master

of Science program offers an optional subtrack in health communication. The Doctor of Philosophy program offers two optional subtracks: addiction studies and health communication.

The department also offers two subtracks for the Master of Public Health: the community and behavioral health subtrack and the health communication subtrack. See "M.P.H. Subtracks" below.

Master of Science

The Master of Science program in community and behavioral health requires 35 s.h. of graduate credit, including a thesis. The program prepares students for research and professional positions in community and behavioral health or for Ph.D. study in community and behavioral health. The degree is offered with an optional subtrack in health communication; see "M.S. Subtrack in Health Communication" below.

During the first semester, M.S. students work with their academic advisor to develop a plan of study that satisfies their interests and professional goals as well as the program's requirements. Students are required to attend departmental seminars and to complete all courses required for the degree.

The Master of Science in community and behavioral health requires the following course work.

COLLEGE OF PUBLIC HEALTH CORE

All of these (9 s.h.):

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.

BEHAVIORAL AND SOCIAL SCIENCES CORE

Three of these (9 s.h.):

172:106 (CBH:6205) Designing and Implementing Interventions	3 s.h.
172:110 (CBH:5210) Community Development in Public Health	3 s.h.
172:130 (CBH:5205) Social Determinants of Health	3 s.h.
172:135 (CBH:8715) Health Disparities and Cultural Competence	2-4 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.
172:185 (CBH:5420) Communicating with the Community	3 s.h.
172:240 (CBH:6210) Health Communication	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220) Health Communication Campaigns	3 s.h.

RESEARCH METHODS CORE

Two of these (6 s.h.):

07P:243 (PSQF:6243) Intermediate Statistical Methods	4 s.h.
07P:249 (PSQF:6249) Factor Analysis and Structural Equation Models	3 s.h.
07P:252 (PSQF:6252) Introduction to Multivariate Statistical Methods	3 s.h.
044:106 (GEOG:3505) Foundations of GIS	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
171:241 (BIOS:6110) Applied Categorical Data Analysis	3 s.h.
172:181 (CBH:5305) Evaluation I: Theory and Applications	3 s.h.

172:183 (CBH:5310) Qualitative Research for Public Health	3 s.h.
172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods	3 s.h.
172:282 (CBH:6305) Evaluation II: Design and Methods	3 s.h.
172:285 (CBH:6335) Research Methods in Community and Behavioral Health	3 s.h.

CONTENT AREA ELECTIVES

Students work with their advisors to select at least 5 s.h. of course work appropriate to their educational goals and emphasis areas. They may choose from any community and behavioral health courses not already taken, other College of Public Health courses, or other University of Iowa graduate-level courses.

THESIS

The thesis requirement is 6 s.h.

M.S. Subtrack in Health Communication

The M.S. subtrack in health communication is designed for students who wish to gain knowledge and skill in designing, evaluating, and implementing effective communication strategies and messages that use mediated and interpersonal channels to address the health needs of diverse audiences. The program focuses on clinician-patient interaction, family communication, group and organizational communication, and mass media and web-based campaigns.

The health communication subtrack combines the M.S. core course work with additional concentrated learning opportunities. Students fulfill the regular M.S. requirements, using the health communication core to satisfy the content area electives requirement.

HEALTH COMMUNICATION CORE

Four of these (12 s.h.):

036:371 (COMM:6371) Communication Theory	3 s.h.
172:140 (CBH:4825)/019:160 (JMC:4825) Media and Health	3 s.h.
172:240 (CBH:6210)/036:270 (COMM:6210) Health Communication	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220)/036:379 (COMM:6220) Health Communication Campaigns	3 s.h.

M.P.H. Subtracks

The Department of Community and Behavioral Health offers two subtracks for the Master of Public Health: the community and behavioral health subtrack and the health communication subtrack.

The M.P.H. subtrack in community and behavioral health prepares public health practitioners for a variety of positions in community development, health program implementation, and health education.

The M.P.H. subtrack in health communication prepares public health practitioners for a variety of employment opportunities in health communication strategies, health communication in groups and organizations, and mass media/web-based campaigns in health promotion.

For detailed information about the M.P.H. degree, see Master of Public Health Program (p. 1081) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in community and behavioral health requires at least 75 s.h. of graduate credit, including credit from a master's degree. The program prepares individuals for academic, research, and policy-making work in the social and behavioral health sciences. This fast-growing academic specialty offers many career opportunities in academic and research institutions. The Ph.D. is offered with optional subtracks in addiction studies and in health communication; see "Ph.D. Subtrack in Addiction Studies" and "Ph.D. Subtrack in Health Communication" below.

Ph.D. students must successfully complete a qualifying exam, a comprehensive exam, and a dissertation—a substantial scholarly treatise. The research topic must be approved by the student's dissertation committee.

During the first semester, students work with their academic advisors to develop a plan of study that satisfies their interests and professional goals as well as the program's requirements. Students are required to attend departmental seminars and to complete all courses required for the degree.

The Doctor of Philosophy in community and behavioral health requires the following work.

COLLEGE OF PUBLIC HEALTH CORE

All of these (9 s.h.):

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.

BEHAVIORAL AND SOCIAL SCIENCES CORE

Seven of these (21 s.h.):

172:106 (CBH:6205) Designing and Implementing Interventions	3 s.h.
172:110 (CBH:5210) Community Development in Public Health	3 s.h.
172:130 (CBH:5205) Social Determinants of Health	3 s.h.
172:131 (CBH:5415)/113:184 (ANTH:5415) Anthropology and International Health	3 s.h.
172:135 (CBH:8715) Health Disparities and Cultural Competence	2-4 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.
172:173 (CBH:5125)/113:185 (ANTH:3102) Medical Anthropology	3 s.h.
172:185 (CBH:5420) Communicating with the Community	3 s.h.
172:240 (CBH:6210) Health Communication	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220) Health Communication Campaigns	3 s.h.

RESEARCH METHODS CORE

Five of these (15 s.h.):

07P:243 (PSQF:6243) Intermediate Statistical Methods	4 s.h.
07P:249 (PSQF:6249) Factor Analysis and Structural Equation Models	3 s.h.
07P:252 (PSQF:6252) Introduction to Multivariate Statistical Methods	3 s.h.
034:214 (SOC:6170) Introduction to Sociological Data Analysis	3 s.h.

034:215 (SOC:5160) Sampling, Measurement, and Observation Techniques	3 s.h.
034:216 (SOC:6180) Linear Models in Sociological Research	3 s.h.
034:218 (SOC:7170) Advanced Statistical Modeling of Data	3 s.h.
034:219 (SOC:7180) Structural Equation Modeling	3 s.h.
044:106 (GEOG:3505) Foundations of GIS	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
171:241 (BIOS:6110) Applied Categorical Data Analysis	3 s.h.
172:181 (CBH:5305) Evaluation I: Theory and Applications	3 s.h.
172:183 (CBH:5310) Qualitative Research for Public Health	3 s.h.
172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods	3 s.h.
172:282 (CBH:6305) Evaluation II: Design and Methods	3 s.h.
172:285 (CBH:6335) Research Methods in Community and Behavioral Health	3 s.h.

CONTENT AREA ELECTIVES

Students work with their advisors to select at least 18 s.h. of course work appropriate to their educational goals and emphasis areas. They may choose from any Department of Community and Behavioral Health courses they have not already taken, other College of Public Health courses, or other University of Iowa graduate-level courses.

DISSERTATION

The dissertation requirement is 12 s.h.

Ph.D. Subtrack in Addiction Studies

The Ph.D. subtrack in addiction studies is designed for students who wish to gain skill in developing and evaluating addiction prevention and intervention programs. This area of study and practice examines addiction prevention and treatment from both a public health and a biopsychosocial perspective.

The addiction studies subtrack combines core course work from the Ph.D. curriculum with additional specialized training. Students fulfill the regular Ph.D. requirements, using the addiction studies core to satisfy the content area electives requirement.

ADDICTION STUDIES CORE

Students work with their advisor to select 18 s.h. of addictions studies course work offered by the department. Courses focusing on treatment of substance abuse and comorbid psychopathology, prevention of substance abuse and comorbid psychopathology, and assessment and diagnosis of addiction and comorbid psychopathology are under development.

Ph.D. Subtrack in Health Communication

The Ph.D. subtrack in health communication is designed for students who wish to prepare for academic, research, and policy-making careers in the area of health communication.

The health communication subtrack combines the core course work from the Ph.D. curriculum with additional specialized training. Students fulfill the regular Ph.D. requirements, using the health communication core to satisfy the content area electives requirement.

HEALTH COMMUNICATION CORE

Four of these (12 s.h.):

036:371 (COMM:6371) Communication Theory	3 s.h.
172:140 (CBH:4825)/019:160 (JMC:4825) Media and Health	3 s.h.
172:240 (CBH:6210)/036:270 (COMM:6210) Health Communication	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220)/036:379 (COMM:6220) Health Communication Campaigns	3 s.h.

Admission

The community and behavioral health faculty considers several factors when evaluating applications for admission, including scores on the Graduate Record Exam (GRE) General Test, grade-point averages, letters of recommendation, intent and motivation for graduate study, and research interests. A student with deficiencies in one area may be admitted if all other components of his or her application are very strong.

All applicants must submit academic transcripts, three letters of recommendation, and a statement of purpose. Forms are available from the Department of Community and Behavioral Health or on its web site (see "Prospective Students").

Applicants to the M.S. program must have a cumulative grade-point average of at least 3.00 and should hold a bachelor's degree from an accredited college or university. No specific undergraduate major is required. Preference is given to applicants with Graduate Record Exam (GRE) General Test verbal scores of at least 154, quantitative scores of at least 149, and analytical writing scores of at least 4.0 (GRE scores must be less than five years old).

Applicants to the Ph.D. program must have a graduate grade-point average of at least 3.40 and should hold a graduate degree from an accredited college or university—ideally, an M.S. in community and behavioral health, or another public health degree, or a related social science degree, or a clinical health degree. Applicants who do not hold a graduate degree should apply to the M.S. program. Preference is given to applicants with Graduate Record Exam (GRE) General Test verbal scores of at least 154, quantitative scores of at least 150, and analytical writing scores of at least 4.0 (GRE scores must be less than five years old). Ph.D. program applicants also must submit their master's thesis, or if no thesis is available, a sample of their scholarly writing.

Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

APPLICATION DEADLINES

Students enter the program in fall. The application deadline is January 15.

Financial Support

Several forms of financial support are available, including scholarships and awards, student loans, and graduate assistantships.

Graduate assistantships provide a stipend and entitle students to resident tuition and reduced health insurance costs. Research assistantships are competitive and are awarded according to department need and student merit.

Scholarships and fellowships are available through federal agencies, such as the Centers for Disease Control and the National Institutes of Health, and from private foundations.

Resources

The department houses four centers. The Center for Health Communication and Social Marketing promotes communication research to address today's public health challenges. The Iowa Tobacco Research Center supports research and education on tobacco use and prevention of tobacco use. It also supports culturally competent and accessible smoking cessation services. The Prairielands Addiction Technology Transfer Center provides state-of-the-art training, curricula, and resources on substance use issues for counselors, health care professionals, and members of the community. The Prevention Research Center for Rural Health focuses on improving the health of rural Iowans.

Graduate students may have opportunities to work with ongoing research projects in the centers.

Courses

172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention 3 s.h.

Basic concepts, strategies, and methods of health promotion and disease prevention; health promotion in the context of public health, theories and principles that underpin health promotion; overview of policy formation and health promotion planning, implementation, evaluation. Offered spring semesters. Requirements: graduate standing.

172:106 (CBH:6205) Designing and Implementing Interventions 3 s.h.

Background and skills necessary to plan a public health intervention program; program planning models. Offered fall semesters. Prerequisites: 172:150 (CBH:5220). Requirements: admission to College of Public Health.

172:110 (CBH:5210) Community Development in Public Health 3 s.h.

Concepts, strategies, and methods of community development as major approaches to creating healthy communities and promoting social change; role of public health practitioners as agents of change in organizations, communities. Offered fall semesters. Requirements: graduate standing.

172:115 (CBH:5215) Community Preventive Programs and Services 3 s.h.

Current public health problems and associated community preventive interventions. Offered fall semesters.

172:122 (CBH:6405) Maternal, Child, and Family Health 3 s.h.

Major issues, policies, and programs for health of women, children, and families in the United States; social, political, and economic determinants. Offered spring semesters. Prerequisites: 096:030 (NURS:1030) and 173:140 (EPID:5400).

172:130 (CBH:5205) Social Determinants of Health 3 s.h.

Relationship between social factors and health, with focus on family, neighborhood, community, and social group levels. Offered spring semesters. Requirements: graduate standing.

172:131 (CBH:5415) Anthropology and International Health 3 s.h.

Anthropological contributions to and critiques of the international health enterprise; case studies illustrating anthropology and international health's intersection, and their differences. Offered spring semesters. Same as 113:184 (ANTH:5415), 152:184 (GHS:5415).

172:133 (CBH:5140) The Anthropology of Women's Health 3 s.h.

How female gender intersects with culture, environment, and political economy to shape health and illness; reproductive health, violence, drug use, cancer; readings in anthropology, public health. Prerequisites: 113:003 (ANTH:1101). Same as 113:133 (ANTH:4140), 131:133 (GWSS:4140).

172:135 (CBH:8715) Health Disparities and Cultural Competence 2-4 s.h.

Characteristics, causes, and effects of health disparities in the U.S. health care system; foundation for development of knowledge, attitudes, and skills required of culturally competent health care providers; definitions and models of cultural competence, characteristics of culturally effective practitioners and workplaces; health disparities among specific populations, evidence for cultural competence as a remedy; taking a culturally appropriate history; working with interpreters; legal and professional imperatives for cultural competence. Same as 046:377 (PHAR:8715), 096:125 (NURS:3715).

172:140 (CBH:4825) Media and Health 3 s.h.

Potential and limits of mass media's ability to educate the public about health; research and theory on the influence of information and entertainment media; theories, models, assumptions of mass communication in relation to public health issues. Same as 019:160 (JMC:4825).

172:150 (CBH:5220) Health Behavior and Health Education 3 s.h.

Common theories of health behavior and health education and their application to varied public health problems and settings. Offered spring semesters. Requirements: graduate standing.

172:155 (CBH:5230) Public Health Issues in Overweight Management 3 s.h.

Overview of overweight and obesity from a public health perspective, including epidemiology, measurement issues, and intervention approaches at individual, community, and policy levels. Prerequisites: 170:101 (MPH:5100) or 172:101 (CBH:5105).

172:161 (CBH:5435) Substance Abuse Prevention and Early Intervention 3 s.h.

Prevalence and characteristics of several substance use disorders and the impact of such disorders on the individual, the community, and public health workers; how prevalence of substance use disorders varies among different ethnic and cultural groups, between men and women, across the life span, and through different socio-economic levels; how outcomes of substance abuse disorders vary at both the individual and community level as a function of these factors. Requirements: graduate standing and substance abuse course.

- 172:162 (CBH:5440) Prevention and Early Intervention of Mental Health Disorders** 3 s.h.
Prevalence and characteristics of mental health disorders; differences between ethnicity and culture, gender, age, and socioeconomic background; primary and secondary prevention; assessment and tertiary treatment approaches to mental health disorders.
- 172:170 (CBH:6410) Special Topics** arr.
Didactic material in community and behavioral health that may include tutorial, seminar, or faculty-directed independent work (e.g., literature search, project, short research project).
- 172:173 (CBH:5125) Medical Anthropology** 3 s.h.
Major theoretical, methodological approaches; international health and development; biomedicine as a cultural system; ethnomedicine; anthropology and AIDS, human reproduction, epidemiology, ethnopsychiatry. Prerequisites: 113:003 (ANTH:1101) or 113:010 (ANTH:2100). Same as 113:185 (ANTH:3102), 152:185 (GHS:3102).
- 172:181 (CBH:5305) Evaluation I: Theory and Applications** 3 s.h.
Program evaluation methods in public health; overview of evaluation theory and models of program evaluation, examples of public health program evaluation, criteria for judging evaluation methods and products. Offered fall semesters. Prerequisites: 172:150 (CBH:5220) and 173:140 (EPID:5400). Requirements: public health student.
- 172:183 (CBH:5310) Qualitative Research for Public Health** 3 s.h.
Introduction to methods and theories of qualitative research that facilitate description and explanation of social phenomena related to health behavior, illness, prevention, and treatment in the public health domain. Offered fall semesters. Requirements: graduate standing.
- 172:185 (CBH:5420) Communicating with the Community** 3 s.h.
Communication skills for research and practice settings, taught from a cultural perspective with reference to gender, age, ethnicity; individual and constructive interviewing, public speaking, conducting focus groups. Offered fall semesters. Requirements: graduate standing.
- 172:202 (CBH:6115) Ethnographic Field Methods** 3 s.h.
Basic data-gathering techniques for field research in sociocultural anthropology. Same as 113:202 (ANTH:6115).
- 172:240 (CBH:6210) Health Communication** 3 s.h.
Theories, concepts, research associated with health communication; interpersonal and mass communication approaches. Offered summer sessions. Same as 036:270 (COMM:6210).
- 172:242 (CBH:6215) Persuasion and Health** 3 s.h.
Theories of persuasion and social influence; attitude formation, relationship between attitudes and behavior, persuasion theories and their applications across health topics. Offered spring semesters.
- 172:246 (CBH:6220) Health Communication Campaigns** 3 s.h.
Design and analysis of health campaigns; theory, practice, methods; mass media, community, organization, and interpersonal approaches. Offered spring semesters. Same as 036:379 (COMM:6220).
- 172:248 (CBH:6225) Health Information and Health Literacy** 3 s.h.
How health information is accessed, sought, used, and delivered in various health information contexts; current issues about health information and literacy, including concepts, measures, factors, consequences, interventions.
- 172:270 (CBH:6415) Independent Study in Community and Behavioral Health** arr.
Pursuit of an interest in community and behavioral health requiring substantial creativity and independence.
- 172:282 (CBH:6305) Evaluation II: Design and Methods** 3 s.h.
Research design and methodology for evaluation of public health and related programs; causality, evaluation theory, threats to validity, selection and comparison of research designs, sample selection and size, survey and scale construction, quantitative and qualitative data collection and analysis, data management, reporting; based on case study of an infant mortality prevention program. Offered spring semesters. Prerequisites: 172:181 (CBH:5305). Requirements: biostatistics or statistics course.
- 172:285 (CBH:6335) Research Methods in Community and Behavioral Health** 3 s.h.
Overview of quantitative research methods for community and behavioral health; major elements of behavioral and social science research, critical evaluation of research related to community and behavioral health, application of research methods in public health practice; opportunities for students to build skills for evaluation of research and application of quantitative research methods. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).
- 172:300 (CBH:7505) CBH Thesis/Dissertation** arr.
Work on M.S. thesis or Ph.D. dissertation in community and behavioral health, with thesis/dissertation advisor.

Emerging Infectious Disease Epidemiology

Coordinator

Katie Yamaki

Graduate certificate: emerging infectious disease epidemiology

Web site: http://www.public-health.uiowa.edu/academics/certificate_eide.html

Emerging infectious diseases increasingly are recognized as global and regional issues. Some infectious diseases are controlled effectively with the help of modern technology. But new diseases—such as SARS, West Nile, and avian influenza virus infections—appear frequently, and older ones, including malaria, tuberculosis, and bacterial pneumonia, are now appearing in forms that are resistant to drug treatments. All of them have the potential to seriously affect human and animal health as well as economies locally and worldwide. They pose novel and unceasing challenges for professionals in health care, government, and private agencies.

The College of Public Health offers the Certificate in Emerging Infectious Disease Epidemiology. It has a required on-campus component (summer), but the remaining work may be done either on campus or by distance education.

Graduate Program

- Certificate in Infectious Disease Epidemiology

The certificate program provides basic information and training related to infectious diseases. It is designed for a broad range of individuals, including graduate students, international public health professionals, laboratory professionals, physicians, nurses, veterinarians, and medical technologists.

Certificate

The Certificate in Emerging Infectious Disease Epidemiology requires 12 s.h. of graduate credit. Completion of the certificate is noted on the student's transcript.

Three of the certificate's required courses must be completed on campus during summer: 173:157 (EPID:5570) Zoonotic Diseases, 173:158 (EPID:5580) Public Health Laboratory Techniques, and 173:159 (EPID:5590) Applied Infectious Disease Epidemiology. The remaining courses may be completed on campus or by distance education.

Students must complete the certificate's required course work within five years of entering the program and must maintain a g.p.a. of at least 2.75 in work toward the certificate. Students who are admitted to the Master of Public Health program after they complete the certificate may count a maximum of 9 s.h. of certificate work toward the M.P.H. requirements. Those working concurrently toward the certificate and the Master of Public Health may apply a maximum of 3 s.h. of certificate work toward the M.P.H. requirements.

The Certificate in Emerging Infectious Disease Epidemiology requires the following course work.

All of these (6 s.h.):

173:157 (EPID:5570) Zoonotic Diseases	2-3 s.h.
173:158 (EPID:5580) Public Health Laboratory Techniques	1 s.h.
173:159 (EPID:5590) Applied Infectious Disease Epidemiology	2 s.h.

Two of these (6 s.h.):

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology	3 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.

Applicants to the certificate program must hold a baccalaureate degree from an accredited college or university and must have a g.p.a. of at least 2.75 (or foreign equivalent). For more information about the program and how to apply, visit the Certificate in Emerging Infectious Disease Epidemiology web site.

Epidemiology

Head

James C. Torner

Professors

John Brooks (Pharmacy/Health Management and Policy), Trudy Burns (Pediatrics/Nursing), Elizabeth Chrischilles (Pharmacy), William Field (Occupational and Environmental Health), Laurence Fuortes (Occupational and Environmental Health/Internal Medicine/International Programs), Fredric Gerr (Occupational and Environmental Health/Internal Medicine/International Programs), Loreen Herwaldt (Internal Medicine), Kathleen Janz (Health and Human Physiology), Susan Johnson (Obstetrics and Gynecology), Louis Kirchhoff (Internal Medicine), Barcey Levy, Steven Levy (Preventive and Community Dentistry), Charles Lynch (Pathology), Jody Murph (Pediatrics), Jeffrey Murray (Pediatrics/Biology/Pediatric Dentistry/Anatomy and Cell Biology), Corinne Peek-Asa (Occupational and Environmental Health/Nursing), Eli Perencevich (Internal Medicine), Jennifer Robinson (Internal Medicine), Gary Rosenthal (Internal Medicine/Health Management and Policy), Audrey Saftlas, Elaine Smith (Preventive and Community Dentistry/Obstetrics and Gynecology), Linda Snetselaar (Internal Medicine), James Torner (Surgery/Neurosurgery), Robert Wallace (Internal Medicine), Mary Wilson (Internal Medicine/Microbiology/International Programs)

Professors emeriti

Gary Doern (Pathology), Claibourne Dungy (Pediatrics), James Hanson (Pediatrics), Herman Hein (Pediatrics), Michael Pfaller (Pathology), Helmut Schrott (Internal Medicine), Don VanDyke (Pediatrics), Robert Woolson (Biostatistics/Statistics and Actuarial Science)

Adjunct professors

James Cerhan, James Dickson, Gregory Gray, Paul Pomrehn (Community and Behavioral Health), M. Patricia Quinlisk, James Roth, Wayne Sanderson

Associate professors

Catherine Bradley (Obstetrics and Gynecology), Peter Kaboli (Internal Medicine), David Katz (Internal Medicine), Paul Romitti, Neil Segal (Orthopaedics and Rehabilitation/Radiology), Tara Smith, Carolyn Turvey (Psychiatry)

Adjunct associate professors

Jesse Hostetter, Neal Kohatsu, Annette O'Connor, Jose Sanchez, Mario Schootman

Clinical associate professor

Michael Pentella

Assistant professors

Jess Fiedorowicz (Psychiatry), Maureen McCue (International Programs), Philip Polgreen (Internal Medicine), Anne Wallis

Adjunct assistant professors

Lucy DesJardin, Daniel Gregory, Valerie Hoffman (Internal Medicine), Brian Lund (Pharmacy), Christine Petersen, Shannon Putnam, Sheila Riggs, Kathleen Schneider, Anne Tabor

Clinical assistant professors

Ryan Carnahan, Mary Charlton, Kathleen Tharp

Adjunct instructor

Kirk Phillips (Nursing)

Adjunct lecturer

Glenda Dvorak

Associates

Margaret Chorazy, Marin Schweizer

Graduate degrees: M.S. in clinical investigation; M.S. in epidemiology; Ph.D. in epidemiology

Graduate certificate: translational and clinical investigation

Web site: <http://www.public-health.uiowa.edu/epi>

The Department of Epidemiology focuses on surveillance for disease, risk factors for disease in the general population, behavioral factors in disease, use and outcome of health interventions and care, and the establishment and evaluation of disease control measures in the community. Students are guided by faculty members whose research interests include epidemiology of communication disorders, pharmacoepidemiology, cancer epidemiology, infectious disease epidemiology, adverse reproductive outcome epidemiology, anatomic pathology, genetics, cardiovascular disease, nutrition, smoking cessation, epidemiology of reproduction, dental epidemiology, clinical epidemiology, neuroepidemiology, meta-analysis, intervention trials, international health, and effects of aging.

Graduate Programs

- Master of Science in clinical investigation
- Master of Science in epidemiology (with or without thesis)
- Doctor of Philosophy in epidemiology
- Certificate in Translational and Clinical Investigation

The Department of Epidemiology collaborates with the University of Iowa Institute for Clinical and Translational Science to offer the M.S. in clinical investigation and the Certificate in Translational and Clinical Investigation. In addition to its graduate degree and certificate programs, the department offers the epidemiology subtrack for the Master of Public Health; see "M.P.H. Subtrack" below.

Master of Science: Clinical Investigation

The Master of Science program in clinical investigation requires 30 s.h. of graduate credit. It is offered in collaboration with the University's Institute for Clinical and Translational Science.

The program is designed for clinicians interested in pursuing careers in clinical research. It includes in-depth training in biostatistics, epidemiology, research ethics, and academic survival skills as well as didactic training applicable to clinical research careers.

Graduates of the program are able to critically evaluate clinical literature, write competitive grant proposals, design and conduct clinical research projects, work effectively with other researchers and support staff, and disseminate research results through manuscripts and presentations.

Applicants to the program must have completed at least 6 s.h. of pathology, physiology, and/or pharmacology. Students must remedy deficiencies by taking courses that fill this requirement during their enrollment in the program.

Graduate students in the Department of Epidemiology must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

The Master of Science in clinical investigation requires the following course work.

CORE COURSES

Students earn a minimum of 15 s.h. as follows.

All of these:

173:150 (EPID:5500) Introduction to Clinical Epidemiology	2 s.h.
173:152 (EPID:5520) Clinical Research Career Development	1 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research (four semesters, 1 s.h. each)	4 s.h.
173:211 (EPID:6110) Grant Writing for Clinical Investigators	1 s.h.
173:295 (EPID:6950) Clinical Research Ethics	2 s.h.

One of these:

173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers	2 s.h.
173:161 (EPID:5610) Patient-Oriented Research Data Analysis	3 s.h.

One of these:

173:195 (EPID:5950) Preceptorship in Epidemiology	3-6 s.h.
173:300 (EPID:7000) Thesis/Dissertation	3-6 s.h.

EPIDEMIOLOGY CORE

Students earn a minimum of 12 s.h. as follows.

Both of these:

171:241 (BIOS:6110) Applied Categorical Data Analysis (or approved substitute)	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.

One of these:

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:201 (BIOS:5710) Biostatistical Methods I	4 s.h.

One of these:

171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
171:202 (BIOS:5720) Biostatistical Methods II	4 s.h.

FOCUS AREA ELECTIVES

Students earn a minimum of 3 s.h. from one focus area.

General (Applicable to More Than One Focus Area)

06J:269 (MGMT:7140) Meta-Analysis in Behavioral Social Sciences (Ph.D.)	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials	3 s.h.
172:183 (CBH:5310) Qualitative Research for Public Health	3 s.h.
173:210 (EPID:6100) Writing a Research Protocol	3 s.h.
173:290 (EPID:6900) Intervention and Clinical Trials	3 s.h.
174:221 (HMP:6120) Evaluation and Outcomes in Health Care	2 s.h.

Patient-Oriented Research

142:215 (MCB:6215) Transcription and Multi-Functional Regulation by RNA	1 s.h.
173:236 (EPID:6360) Nutrition Intervention in Clinical Trials Research	2 s.h.

Epidemiology and Behavioral Research

031:263 (PSY:5330) Principles of Psychological Assessment	4 s.h.
044:131 (GEOG:3110) Geography of Health	1-3 s.h.
111:204 (DPH:6004) Principles of Oral Epidemiology	arr.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology	2 s.h.
173:225 (EPID:6250) Genetics and Epidemiology	4 s.h.
173:235 (EPID:6350) Nutritional Epidemiology	2 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.
173:251 (EPID:6510) Injury Epidemiology	3 s.h.
173:253 (EPID:6530) Epidemiology of Occupational Injuries	3 s.h.
173:255 (EPID:6550) Epidemiology of Infectious Diseases	3 s.h.
173:256 (EPID:6560) Hospital Epidemiology	2 s.h.
173:260 (EPID:6600) Epidemiology of Chronic Diseases	3 s.h.
173:261 (EPID:6610) Epidemiology of Aging	1-2 s.h.
173:262 (EPID:6620) Neuroepidemiology	2 s.h.
173:263 (EPID:6630) Epidemiology of Reproductive Diseases	2 s.h.
173:265 (EPID:6650) Cardiovascular Disease Epidemiology	3 s.h.
173:267 (EPID:6670) Psychiatric Epidemiology	3 s.h.
173:270 (EPID:6700) Cancer Epidemiology and Control	3 s.h.
173:291 (EPID:6910) Pharmacoepidemiology	3 s.h.

Outcomes and Health Services Research

06J:270 (MGMT:7120) Methods for Field Research (Ph.D.)	2 s.h.
07B:222 (EPLS:6222) Introduction to Policy Analysis and Evaluation	3 s.h.
07P:165 (PSQF:5165) Introduction to Program and Project Evaluation	3 s.h.
07P:265 (PSQF:6265) Program Evaluation	3 s.h.
050:283 (MED:5300) Health Informatics I (or II)	3 s.h.
172:181 (CBH:5305) Evaluation I: Theory and Applications	3 s.h.
172:282 (CBH:6305) Evaluation II: Design and Methods	3 s.h.
173:276 (EPID:6760) Health Care Utilization Outcomes	3 s.h.
174:200 (HMP:5005) Introduction to Health Care Organization and Policy	3 s.h.
174:204 (HMP:5310) Quantitative Management in Health Care	2-3 s.h.
174:212 (HMP:5410) Health Economics I	3 s.h.
174:228 (HMP:7550) Cost Effectiveness and Decision Analysis	3 s.h.
174:261 (HMP:7960) Analytic Issues in Health Services Research I	3 s.h.
174:268 (HMP:7150) Health Care Utilization Outcomes	3 s.h.

Master of Science: Epidemiology

The Master of Science program in epidemiology requires 38 s.h. of graduate credit and is offered with or without thesis. The program prepares graduate students for professional careers in which specialized knowledge of epidemiological methods and analytic techniques are

essential. Graduates find employment in local, state, and federal health agencies, academic institutions, and private enterprise.

Graduate students in epidemiology must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program. Students who choose to complete the degree without thesis are required to pass a comprehensive examination.

Students are required to attend 80 percent, for three semesters, of all Department of Epidemiology seminar meetings and journal club meetings. They also must present one scientific poster at an international, national, regional, state, University, or departmental level before they may graduate.

The Master of Science in epidemiology requires the following course work.

CORE COURSES

Students earn 28-29 s.h. in the required core, as follows.

All of these:

170:200 (MPH:6100) Essentials of Public Health	1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
173:241 (EPID:5241) Statistical Methods in Epidemiology	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles (web-based course cannot be used)	3 s.h.
173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers	2 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.

One of these:

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
069:270 (PATH:5270) Pathogenesis of Major Human Diseases	3 s.h.

One of these:

173:255 (EPID:6550) Epidemiology of Infectious Diseases	3 s.h.
173:260 (EPID:6600) Epidemiology of Chronic Diseases	3 s.h.

One of these:

173:195 (EPID:5950) Preceptorship in Epidemiology (for nonthesis students)	3 s.h.
173:300 (EPID:7000) Thesis/Dissertation (for thesis students, may be taken twice)	3 s.h.

ELECTIVES

Students must earn a total of 7-8 s.h. in elective course work, including at least 5 s.h. in Department of Epidemiology courses (prefix 173) and 2 s.h. in additional graduate-level course work pertinent to the student's educational goals and background (the additional 2 s.h. may be earned in an epidemiology course or in another graduate course, with the advisor's approval). The following courses are recommended.

171:164 (BIOS:5310) Research Data Management	3 s.h.
171:174 (BIOS:6310) Introductory Longitudinal Data Analysis	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.

174:200 (HMP:5005) Introduction to Health Care Organization and Policy	3 s.h.
175:197 (OEH:4240) Environmental Health	3 s.h.

Students may need to do additional elective course work in order to complete the minimum 38 s.h. required for the degree.

M.P.H. Subtrack

The Department of Epidemiology offers the epidemiology subtrack for the Master of Public Health. The subtrack focuses on fundamental concepts and methods and provides training in the use of data and methods for disease assessment and for evaluation of programs and interventions. Graduates of the program work in public health departments and other health care settings. See Master of Public Health Program (p. 1081) in the Catalog.

Doctor of Philosophy: Epidemiology

The Doctor of Philosophy program in epidemiology requires a minimum of 75 s.h. of graduate credit. The program prepares graduate students for careers as scientists, teachers, and practitioners of epidemiologic methods. Employment opportunities exist in academic institutions; local, state, and federal health agencies; and in commercial enterprises.

Graduate students in epidemiology must maintain a g.p.a. of at least 3.00. Those who receive a grade of C on 7 s.h. of course work may be dismissed from the program.

All doctoral students must successfully complete a qualifying examination, a comprehensive examination, and a dissertation--a substantial scholarly treatise. The research topic and content, which vary depending on the program of study, must be approved by the student's dissertation committee. Other degree requirements include approved electives chosen from Department of Epidemiology courses and other University of Iowa courses.

Students are required to attend 80 percent, for five semesters, of all Department of Epidemiology seminar meetings and journal club meetings; attendance during the student's enrollment in the M.S. program does not count toward this requirement. Students also must present one scientific poster or make another presentation at an international, national, regional, state, University, or departmental level before they may graduate.

The Doctor of Philosophy in epidemiology requires the following course work.

CORE COURSES

Students earn 40-42 s.h. in the required core, as follows.

All of these:

170:200 (MPH:6100) Essentials of Public Health	1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
171:164 (BIOS:5310) Research Data Management	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles (web-based course cannot be used)	3 s.h.
173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers	2 s.h.
173:205 (EPID:6050) Research in Epidemiology	3 s.h.

173:210 (EPID:6100) Writing a Research Protocol	3 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.
173:241 (EPID:5241) Statistical Methods in Epidemiology	3 s.h.
173:340 (EPID:7400) Epidemiology III: Theories	3 s.h.

One of these:

171:174 (BIOS:6310) Introductory Longitudinal Data Analysis	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.

One of these:

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
069:270 (PATH:5270) Pathogenesis of Major Human Diseases	3 s.h.

One of these:

027:130 (HHP:3500) Human Physiology	3 s.h.
072:153 (MPB:5153) Graduate Physiology	4 s.h.

Ph.D. students also must earn 3 s.h. in epidemiology courses outside their emphasis area.

FOCUS AREA

Each Ph.D. student must declare a focus area. Working with the focus area coordinator, the student develops a study plan that will enable him or her to develop substantive knowledge in a specific area that will lead to important original research. Focus areas for Ph.D. students include cancer control, cancer etiology, infectious disease, occupational and environmental epidemiology, and pharmacoepidemiology. For lists of required course work in each focus area, see Ph.D. in Epidemiology on the department's web site.

ELECTIVES

Students must complete a total of 23-25 s.h. of elective course work. They must earn 3 s.h. in a Department of Epidemiology course (prefix 173) outside their focus area and at least 20 s.h. in courses in their focus area. Course selection must be approved by the student's advisor and Ph.D. plan of study committee.

DISSERTATION

All doctoral students must successfully complete a Ph.D. thesis.

173:300 (EPID:7000) Thesis/Dissertation	10-18 s.h.
---	------------

Certificate

The Department of Epidemiology and the Institute for Clinical and Translational Science (ICTS) offer the Certificate in Translational Investigation for clinicians who seek advanced training in clinical methodology and applied patient-oriented research skills. The certificate requires 19 s.h. of graduate credit and may be completed in one year. Completion of the certificate is noted on the student's transcript.

Certificate students complete didactic course work and clinical preceptorships and participate in clinical research seminars. They become proficient in the conduct of independent clinical research, including hypothesis development, study design, knowledge of research ethics, survey development, data collection, basic and advanced

statistical analyses, and interpretation of results. They also develop core competencies in their area of interest.

The Certificate in Translational and Clinical Investigation requires the following work.

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
173:150 (EPID:5500) Introduction to Clinical Epidemiology	2-3 s.h.
173:152 (EPID:5520) Clinical Research Career Development	1 s.h.
173:163 (EPID:5630) Seminar in Clinical and Translational Research (completed twice)	2 s.h.
173:295 (EPID:6950) Clinical Research Ethics	2-3 s.h.
ICTS Bench to Bedside seminar	arr.
Electives	6 s.h.

The certificate program is open to individuals who hold a doctoral-level degree in a clinical discipline (e.g., M.D., D.O., D.D.S., Ph.D., Pharm.D., D.V.M.) and graduate admission to the College of Public Health or enrollment in a basic or health science doctoral program at The University of Iowa. Other admission requirements are similar to those for the M.S. program in epidemiology (see "Admission" below) or the M.S. program in translational biomedicine (p. 870) (Graduate College).

Related Certificate: Emerging Infectious Disease Epidemiology

The College of Public Health and the Graduate College offer the Certificate in Emerging Infectious Disease Epidemiology. The certificate program provides basic information and training related to infectious diseases. It is designed for a broad range of individuals, including graduate students, international public health professionals, laboratory professionals, physicians, nurses, veterinarians, and medical technologists. Completion of certificate is noted on the student's transcript. To learn more, see Emerging Infectious Disease Epidemiology (p. 1065) in the Catalog.

Admission

M.S.: Clinical Investigation

Applicants to the M.S. program in clinical investigation must hold a doctoral-level degree in a clinical discipline (e.g., M.D., D.O., D.D.S., Ph.D., Pharm.D., D.V.M.) or be enrolled in the Medical Scientist Training Program (p. 961) (Carver College of Medicine). They must hold a baccalaureate degree with a cumulative g.p.a. of at least 3.00; foreign-trained applicants must have an outstanding doctoral training record.

All applicants must have taken the Graduate Record Examination (GRE) General Test, Medical College Admission Test (MCAT), or Dental Admission Test (DAT). Applicants whose first language is not English and who do not hold a degree from an accredited English-speaking college or university must have taken the Test of English as a Foreign Language (TOEFL).

Applicants are considered based on their credentials, prior training, and research training plans. An applicant with deficiencies in one area may be admitted if all other components of his or her application are strong. Applicants must have a sponsoring department.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

The M.S. in clinical investigation accepts students only for summer entrance. Application deadlines are April 15 for U.S. citizens, March 1 for international applicants.

M.S. and Ph.D.: Epidemiology

The epidemiology faculty considers several factors when evaluating applications for admission, including Graduate Record Exam (GRE) General Test scores, grade-point average, letters of recommendation, intent and motivation for graduate study, and research interests. A student with deficiencies in one area may be admitted if all other components of his or her application are very strong.

All M.S. program applicants must hold a baccalaureate degree and have a cumulative g.p.a. of at least 3.00. Undergraduate preparation must include two semesters of biological sciences, and mathematics through algebra.

Ph.D. program applicants must hold a baccalaureate degree (an M.S. or M.P.H. usually is required), and must have a cumulative g.p.a. of at least 3.00. Courses in the biological, physical, and mathematical sciences provide important background; one semester of calculus and two semesters of biological sciences are highly recommended. Computing skills also are desirable.

All applicants to the M.S. or Ph.D. program must have taken the Graduate Record Examination (GRE) General Test, the Medical College Admission Test (MCAT), or the Dental Admission Test (DAT), scoring above the 50th percentile, within five years before applying to the epidemiology program.

Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission. In place of TOEFL scores, the department accepts International English Testing System (IELTS) scores of 7.0 or higher, with no subscore below 6.0.

All M.S. and Ph.D. applicants and students are required to have strong written and oral communication skills.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Application deadlines for fall entrance to the M.S. in epidemiology are July 1 for U.S. citizens, April 15 for international applicants. Application deadlines for spring entrance are April 15 for U.S. citizens, March 1 for international applicants.

Application deadline for fall entrance to the Ph.D. in epidemiology is April 1. Application deadline for spring entrance (not encouraged) is October 1.

Financial Support

A limited number of graduate research assistantships are available for advanced M.S. and Ph.D. students; for information, consult the department. For information on financing education through jobs, grants, and loans, contact the University's Office of Student Financial Aid.

Opportunities for funded predoctoral fellowships are available. Funded positions sponsored by federal agencies are available only to U.S. citizens.

Resources

The State Health Registries of Iowa, which encompasses the Iowa Cancer Registry and the Iowa Registry for Congenital and Inherited Disorders, works in cooperation with the Iowa Department of Public Health to collect medical data on Iowans. The Iowa Cancer Registry is one of 18 registries nationwide that report data to the National Cancer Institute.

The Preventive Intervention Center conducts population-based intervention trials to prevent occurrence and recurrence of disease and to promote wellness, with a focus on the elderly. It also specializes in research promoting prevention of cardiovascular disease and provides an interdisciplinary approach to risk factor interventions. The Healthcare Effectiveness Research Center is a collaborative research enterprise with the College of Pharmacy that studies whether particular health care treatments or services are over- or underutilized. The Center for Emerging Infectious Diseases employs epidemiological methods, laboratory technologies, and clinical evaluations to achieve a better understanding of emerging infectious diseases. The Nutrition Center provides expertise in nutrition and dietary assessment, dietary interventions, and nutrition lifestyle change strategies.

Courses

173:099 (EPID:5000) Evidence-Based Public Health Methods 3 s.h.

How to choose, conduct, and evaluate evidence-based programs and policies in public health; finding and using scientific evidence, implementing and evaluating interventions that produce new evidence. Offered summer sessions. Requirements: Certificate in Public Health enrollment.

173:111 (EPID:4210) International Health 3 s.h.

Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as 152:111 (GHS:4210), 175:111 (OEH:4210).

173:120 (EPID:5200) Principles of Public Health Informatics 3 s.h.

Systematic applications of information science, computer science, and technology to public health practice, research, and learning; methods of disease surveillance, data collection, analysis, and reporting with health informatics.

- 173:130 (EPID:5300) Food Safety** 3 s.h.
Current issues and concepts of food safety in the United States, from plant to table; foodborne illness from microbial agents, food toxins, adulterants; disease investigation, risk analysis, risk mitigation, prevention.
- 173:132 (EPID:5320) Exotic and Emerging Diseases of Animals** 1 s.h.
Major exotic and emerging animal diseases; veterinarian's role in recognizing and diagnosing such diseases; how outbreaks affect economies and veterinary medicine; public health concerns; responding agencies and their roles in control and eradication.
- 173:140 (EPID:5400) Epidemiology I: Principles** 3 s.h.
Epidemiological concepts and methods; design of descriptive and analytic studies, such as aggregate, case series, cross-sectional, case-control, cohort studies, clinical trials; application of epidemiology to public health practice; communication and dissemination of epidemiological findings.
- 173:142 (EPID:5314) Field Experiences in Public Health** 3 s.h.
Epidemiology application in public health practice; environmental, infectious diseases, chronic diseases, occupational and injury, behavioral health, emergency response, and death investigations. Prerequisites: 173:140 (EPID:5400).
- 173:145 (EPID:5450) Public Health Data** 2 s.h.
Concepts and methods of obtaining and using public health data in community settings; how public health data are used for epidemiologic investigations and prevention programs. Offered spring semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).
- 173:147 (EPID:5470) Applied Veterinary Epidemiology/Biostatistics** 3 s.h.
Epidemiology and biostatistics applied to veterinary public health; outbreak investigations, surveillance, analyzing and evaluating diagnostic tests, translation methodology, risk assessment, data analysis software programs. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).
- 173:150 (EPID:5500) Introduction to Clinical Epidemiology** 2-3 s.h.
Epidemiologic applications and methods used in clinical settings to evaluate clinical medicine and other health profession disciplines, including health measurement, health outcome determination, diagnostic process, risk assessment and communication, prognosis, study design, patient surveys, clinical trials, decision analysis and meta-analysis, health services research. Offered fall semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400), if not taken as prerequisites.
- 173:152 (EPID:5520) Clinical Research Career Development** 1 s.h.
Practical skills of clinical research; grant development and management, data management, communication of research findings, and academic career development. Offered summer sessions.
- 173:153 (EPID:5530) Surveillance Internship: IRCID** 2 s.h.
Experience in the Iowa Registry for Congenital and Inherited Disorders; active, population-based surveillance for selected congenital and inherited disorders. Prerequisites: 173:140 (EPID:5400), 173:160 (EPID:5600), and 173:240 (EPID:6400).
- 173:154 (EPID:5540) Cancer Registration Internship** 2 s.h.
Sources of data necessary for operation of a population-based cancer registry; potential uses of the data; methods and personnel required for collecting, editing, storing, reporting, and assuring quality of data. Prerequisites: 173:140 (EPID:5400).
- 173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology** 3 s.h.
Introduction to microbiological culture, antigen detection, immunological and molecular amplification laboratory techniques for bacteria, viruses, parasites, fungi. Offered spring semesters. Prerequisites: 061:103 (MICR:8202) or 061:112 (MICR:3112) or 061:157 (MICR:2157) or 061:164 (MICR:3164).
- 173:156 (EPID:5560) Introduction to Molecular Epidemiology** 3 s.h.
Introduction to basic techniques of molecular biology (DNA, RNA, protein techniques) and their use in epidemiological research (e.g., diagnosis of disease, biomarker discovery and validation). Corequisites: 173:140 (EPID:5400), if not taken as a prerequisite.
- 173:157 (EPID:5570) Zoonotic Diseases** 2-3 s.h.
Introduction to the epidemiology and control of zoonotic diseases; zoonoses endemic to the midwestern United States. Offered summer sessions. Prerequisites: 061:103 (MICR:8202) or 061:112 (MICR:3112) or 061:157 (MICR:2157) or 061:164 (MICR:3164) or 173:155 (EPID:5550) or 173:255 (EPID:6550).
- 173:158 (EPID:5580) Public Health Laboratory Techniques** 1 s.h.
Common laboratory techniques in emerging infectious respiratory disease research and epidemiologic surveillance laboratories; emphasis on techniques for culturing, characterization, and serological surveillance of exposure to influenza viruses. Requirements: completion of online Basic Biological Safety and Blood-Borne Pathogens courses; completed certificates must be brought to class.
- 173:159 (EPID:5590) Applied Infectious Disease Epidemiology** 2 s.h.
Introduction to infectious disease surveillance, diagnostic tools, outbreak investigations, vaccine trials, public health interventions, biodefense, emerging infectious diseases, and analytical approaches pertaining to infectious disease prevention and control; emphasis on respiratory viral diseases. Duplicates 173:255 (EPID:6550).
- 173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers** 2 s.h.
Organization, collection, management, and analysis of epidemiological data using computer programs. Offered fall semesters. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400), if not taken as prerequisites.
- 173:161 (EPID:5610) Patient-Oriented Research Data Analysis** 3 s.h.
Basic principles of data analysis and collaborative research; SAS fundamentals; data manipulation and interpretation techniques.
- 173:163 (EPID:5630) Seminar in Clinical and Translational Research** 1 s.h.
Presentation of ongoing clinical research projects, grant applications, and methodological articles, with emphasis on works in progress.
- 173:170 (EPID:4510) Injury and Violence Prevention** 3 s.h.
Theory, research, and practice of injury control; unintentional and intentional injuries; local, national, international injury issues. Same as 175:170 (OE:4510).

173:175 (EPID:4520) Research Methods in Disaster Studies 3 s.h.

Epidemiologic study of disasters and their health consequences; research to identify and reduce health effects, research in context of response and preparedness. Same as 175:175 (OEH:4520).

173:190 (EPID:5900) Problems and Special Topics in Epidemiology arr.

Didactic material in epidemiology; may include tutorial, seminar, faculty-directed independent work (e.g. literature search, project, short research project).

173:195 (EPID:5950) Preceptorship in Epidemiology arr.

Quantitative research-oriented project performed with a preceptor; preparation of prospectus, presentation of research results in a publication-quality report and a scientific poster session.

173:199 (EPID:5990) Practicing Evidence-Based Public Health 3 s.h.

How epidemiologic and other scientific studies underlie public health practice; relationship between evidence and action; controversies at interface of science and policy. Offered spring semesters.

173:200 (EPID:6000) Independent Study in Epidemiology arr.

In-depth pursuit of an area of special interest in epidemiology requiring substantial creativity and independence.

173:205 (EPID:6050) Research in Epidemiology arr.

Research that may lead to a dissertation.

173:206 (EPID:6060) Crossing Borders Seminar 2-3 s.h.

Same as 016:247 (HIST:6635), 008:231 (ENGL:6635), 01H:247 (ARTH:6635), 030:242 (POLI:6635), 044:286 (GEOG:6635), 048:247 (CCL:6635), 113:247 (ANTH:6635), 129:231 (AFAM:6635), 013:262 (GRMN:6635), 035:273 (SPAN:6904), 160:247 (PORO:6635), 181:247 (IWP:6635), 009:262 (FREN:6142).

173:207 (EPID:6070) Social Epidemiology 3 s.h.

Introduction with global focus and emphasis on methodological issues, including definition/measurement of social constructs, appropriate research designs, analytic approaches. Prerequisites: 173:140 (EPID:5400) and 171:161 (BIOS:5110).

173:208 (EPID:6080) Conducting Literature Syntheses 1 s.h.

Opportunity to develop skills for conducting literature searches and writing literature summaries or reviews, for grant or thesis background sections. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400). Recommendations: 173:160 (EPID:5600) or Hardin Library Reference Works course.

173:209 (EPID:6090) Behavioral Epidemiology 3 s.h.

Behavioral epidemiology, including diet, exercise, smoking, social support; use of design and measurement concepts and problem-solving skills in research, including focus groups, cognitive interviewing, and pilot studies that use qualitative methods to design quantitative questions regarding behavior. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:210 (EPID:6100) Writing a Research Protocol 3 s.h.

Small group projects to develop research protocols using epidemiological study designs; presentation and defense of proposals before faculty site visitors. Offered fall semesters. Prerequisites: 171:161 (BIOS:5110), 171:162 (BIOS:5120), 173:140 (EPID:5400), and 173:240 (EPID:6400). Requirements: pass epidemiology Ph.D. qualifying exam, approval of research topic by dissertation advisor, and completion and approval of literature review by dissertation advisor prior to the first day of class.

173:211 (EPID:6110) Grant Writing for Clinical Investigators arr.

Development of skills for writing effective, scientifically sound applications for external research grants; for students who have completed the literature review section for their topic. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:214 (EPID:5214) Meta-Analysis of Epidemiologic Studies 3 s.h.

Methods for quantitative pooling of analytic study associations (cohort and case-control) between exposure and a dichotomous outcome; literature searches, data abstraction, test of homogeneity, publication bias and consideration of adjusted risk ratios (effects of confounding). Prerequisites: 171:162 (BIOS:5120) and 173:140 (EPID:5400).

173:215 (EPID:6150) Writing for Medical Journals 1 s.h.

Skill development in writing medical journal articles for publication.

173:220 (EPID:6200) Environmental and Occupational Epidemiology 3 s.h.

Environmental and occupational epidemiologic study designs; basic and novel methods of exposure assessment; methodologies to improve study validity. Prerequisites: 173:140 (EPID:5400). Corequisites: 171:161 (BIOS:5110) and 175:197 (OEH:4240). Same as 175:220 (OEH:6510).

173:225 (EPID:6250) Genetics and Epidemiology 4 s.h.

Basic human genetic and population genetics principles; methods of integrating genetic principles into epidemiological studies; analytical methods for case control and family data. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:230 (EPID:6300) Principles of Dietary Assessment 1 s.h.

Overview of current dietary assessment methods; evaluation of dietary records, dietary recall, food frequency questionnaires, brief dietary scanners, nutrient database, nutrient intakes standards. Offered spring semesters. Requirements: 3 s.h. of college nutrition courses.

173:233 (EPID:6330) Global Nutrition Policy 3 s.h.

Concepts and methods used in setting public health nutrition policy; evidence-based aspects of nutrition policy formation in public health settings; evaluation of nutritional public health policy implementation and ways of changing policy in China, Korea, Micronesia, Hawaii, Italy, and the United States. Offered summer sessions.

173:234 (EPID:5234) Public Health Nutrition 3 s.h.

Case studies of state and federal public health nutrition programs and role of public health practitioners; identifying community need for action around public health nutrition policy and environmental change; topic-specific public health nutrition programs in children; prevention of obesity, cardiovascular disease, and cancer.

173:235 (EPID:6350) Nutritional Epidemiology 2 s.h.

Application of epidemiology study designs to nutrition variables and chronic disease; analysis of nutrition epidemiology studies; research protocol design. Offered spring semesters. Recommendations: a basic nutrition course.

173:236 (EPID:6360) Nutrition Intervention in Clinical Trials Research 2 s.h.

Nutrition interventions in clinical trials; disease related to nutrition variables; research that links effects of diet on chronic diseases. Offered fall semesters. Recommendations: a basic nutrition course.

173:237 (EPID:6370) Nutrition Intervention in Research Lab 3 s.h.

Development, demonstration of group counseling skills in ongoing nutrition research projects at The University of Iowa. Offered fall semesters. Corequisites: 173:236 (EPID:6360), if not taken as a prerequisite.

173:240 (EPID:6400) Epidemiology II: Advanced Methods 4 s.h.

Epidemiologic study design and analysis; bias, confounding, effect modification; case-control studies; cohort studies; field methods; measurement principles; exposure and disease classification; acute and chronic disease examples. Offered spring semesters. Prerequisites: 171:161 (BIOS:5110), 173:140 (EPID:5400), and 173:160 (EPID:5600).

173:241 (EPID:5241) Statistical Methods in Epidemiology 3 s.h.

Overview of methods to analyze data from epidemiologic investigations; estimation of relative measures of risk, attributable risk, stratified analysis, model-fitting approaches using logistic and Poisson regression analysis; confounding and effect modification; analysis of epidemiologic data sets. Prerequisites: 171:161 (BIOS:5110) and 171:162 (BIOS:5120).

173:245 (EPID:6245) Epidemiology of Physical Activity 3 s.h.

Physical activity/disease relationships examined through application of epidemiologic methods, including research design, interpretation of studies, selection of measures to fit research questions. Same as 027:249 (HHP:6210).

173:251 (EPID:6510) Injury Epidemiology 3 s.h.

How epidemiology can be applied to injury prevention and control: epidemiology literature, specific methodological problems involved in the epidemiology of injuries, critical evaluation of research articles. Offered spring semesters of odd years. Prerequisites: 173:140 (EPID:5400). Same as 175:251 (OEH:6520).

173:253 (EPID:6530) Epidemiology of Occupational Injuries 3-4 s.h.

Epidemiological literature on occupational injuries and their prevention; focus on research methods. Offered spring semesters of even years. Prerequisites: 173:140 (EPID:5400). Same as 175:253 (OEH:6530).

173:255 (EPID:6550) Epidemiology of Infectious Diseases 3 s.h.

Underlying epidemiological concepts of infection disease, including causation and surveillance; prevention and control; case studies. Offered fall semesters. Prerequisites: 173:140 (EPID:5400). Same as 152:257 (GHS:6550).

173:256 (EPID:6560) Hospital Epidemiology 2 s.h.

Health care-associated infections; surveillance, investigative methods, resistant organisms, molecular epidemiology; methods for preventing spread of pathogens, including isolation precautions; environmental issues, construction, sterilization; interactive exercises. Prerequisites: 173:140 (EPID:5400).

173:257 (EPID:6570) Infectious Causes of Chronic Disease 3 s.h.

Evidence linking various infectious agents with the development of different types of chronic disease. Offered even years. Corequisites: 173:140 (EPID:5400), if not taken as a prerequisite.

173:260 (EPID:6600) Epidemiology of Chronic Diseases 3 s.h.

Chronic disease epidemiology; survey of leading chronic diseases, including measurement of disease, lifestyle, nutrition, occupation, family history. Offered spring semesters. Prerequisites: 173:140 (EPID:5400).

173:261 (EPID:6610) Epidemiology of Aging 1-2 s.h.

Epidemiologic methods for studying health and social problems of older persons; applications including research and public health practice and policy. Offered spring semesters. Prerequisites: 173:140 (EPID:5400). Same as 153:261 (ASP:6610).

173:262 (EPID:6620) Neuroepidemiology 2 s.h.

Basic epidemiologic concepts of neurologic disease; concepts, methods, examples of neuroepidemiology; varied diseases, methods. Prerequisites: 173:140 (EPID:5400), and 173:160 (EPID:5600).

173:263 (EPID:6630) Epidemiology of Reproductive Diseases 2 s.h.

Evaluation of methodological issues and current findings for reproductive diseases and conditions; etiological mechanisms, including behavioral and genetic. Offered fall semesters of odd years. Prerequisites: 173:140 (EPID:5400).

173:264 (EPID:6640) Epidemiology of Maternal and Infant Health 2 s.h.

Overview of maternal and infant epidemiologic and methodologic issues; prevalence and trends; risk factors; data sources, including limitations and availability; relevant measurement issues; directions for future research. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:265 (EPID:6650) Cardiovascular Disease Epidemiology 3 s.h.

Natural history of atherosclerotic disease in humans and risk factors affecting its development; atherosclerotic disease by age, sex, and in varied populations worldwide; recent guidelines and clinical trials to delay onset, reduce incidence, improve outcome of cardiovascular disease. Offered fall semesters of odd years. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:267 (EPID:6670) Psychiatric Epidemiology 3 s.h.

Population-based studies of psychiatric disorders and associated etiologic tools; diagnostic criteria used in psychiatric research, common structured interviews and rating scales; recent research relevant to common psychiatric disorders; experience writing a research idea using NIH PHS grant form. Offered spring semesters. Prerequisites: 173:140 (EPID:5400). Recommendations: 173:240 (EPID:6400) or two years of resident training in psychiatry. Same as 073:255 (PSYC:8267).

173:270 (EPID:6700) Cancer Epidemiology and Control 3 s.h.

Incidence, mortality, survival; risk factors, cancer control options for major cancer sites; principles and methods of cancer registration; research examples by type of study design. Offered spring semesters of even years. Prerequisites: 171:161 (BIOS:5110), 173:140 (EPID:5400), and 069:133 (PATH:8133).

173:272 (EPID:6720) Translational Research in Cancer 2 s.h.

Basic tumor biology and lab-based methods applied to development of translational approaches to prevention, early diagnosis, and treatment of human cancers. Offered fall semesters of even years. Same as 069:272 (PATH:6720).

173:276 (EPID:6760) Health Care Utilization Outcomes 3 s.h.

Research tools to assess changes in health care use and cost as outcomes of treatment; theories of health outcomes; analysis of hospital discharge data sets. Requirements: knowledge of SAS or SPSS. Same as 174:268 (HMP:7150).

173:290 (EPID:6900) Intervention and Clinical Trials 3 s.h.

Methodologic introduction to rationale, design, conduct, analysis, and presentation of clinical trials; basics of clinical trial design, variety of designs, examples from clinical trials; biostatistical methods, including sample size determination. Offered fall semesters. Prerequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

173:291 (EPID:6910) Pharmacoepidemiology 3 s.h.

Drug approval process, methods for identification and attribution of adverse drug events, current understanding of the epidemiology of adverse drug events; study designs, data sources for pharmacoepidemiology, pharmacoeconomics. Offered fall semesters of even years. Prerequisites: 173:140 (EPID:5400).

173:295 (EPID:6950) Clinical Research Ethics 2-3 s.h.

Ethical and regulatory aspects of clinical research; historical background, current regulations, Institutional Review Board requirements related to human subjects protection issues. Requirements: K30 training grant or enrollment in degree program with clinical research project.

173:300 (EPID:7000) Thesis/Dissertation arr.**173:320 (EPID:7200) Teaching in Epidemiology** 3 s.h.

Teaching methods in epidemiology; guided practicum experience in teaching epidemiology, in preparation for academic careers. Prerequisites: 173:140 (EPID:5400), 173:160 (EPID:5600), and 173:240 (EPID:6400).

173:340 (EPID:7400) Epidemiology III: Theories 3 s.h.

How epidemiology fits into the wider context of scientific inquiry. Offered fall semesters of odd years. Prerequisites: 171:241 (BIOS:6110), 173:140 (EPID:5400), and 173:240 (EPID:6400).

Health Management and Policy

Head

Keith J. Mueller

Professors

John Brooks (Pharmacy/Epidemiology), Susan J. Curry, Franklin Dexter (Anesthesiology), Josephine Gittler (Law/Pediatrics/Nursing), Diane Huber (Nursing), Michael Kienzle (Medicine/Nursing), Samuel Levey (Distinguished Professor in Health Management and Policy), Keith J. Mueller (Gerhard Hartman Professor), Gary E. Rosenthal (Internal Medicine/Epidemiology), Gerard Rushton (Geography), Marcia M. Ward, Fredric D. Wolinsky (John W. Colloton Chair/Internal Medicine/)

Professors emeriti

Rachel Anderson, Kathleen Buckwalter, Barry Greene, Charles Helms, Larry D. Prybil

Clinical professor

Christopher Atchison (Nursing)

Adjunct professors

William W. Hesson, Kenneth Kates, John H. Staley

Associate professors

Brian Kaskie, Thomas E. Vaughn (Nursing)

Clinical associate professor

Tanya Uden-Holman (Nursing)

Adjunct associate professors

Douglas Beardsley, Thomas Evans, Kenneth Fisher, Ian Montgomery, William D. Petasnick, Peter Roberts

Clinical adjunct associate professor

Peter Wallace

Assistant professors

Padmaja Ayyagari, George Wehby, Xi Zhu

Adjunct assistant professors

Lee Carmen, Shane Cerone, Jason Hockenberry, Sara Imhof, Thomas Klobucar, Mark Moser, Brian White

Clinical assistant professors

Mary Charlton (Epidemiology), A. Clinton MacKinney

Adjunct instructor

Thomas Persoon (Industrial Engineering)

Adjunct lecturers

Timothy Ahlers, Richard C. Breon, Charles E. Brown, Eric T. Crowell, Stacey T. Cyphert, Mary L. Hensley, Thomas W. Keel, Christopher Klitgaard, Todd C. Linden, Duncan Moore, David Olson, Ronald R. Reed, Sarabdeep Singh, James H. Skogsbergh, Julie A. Stark Manas, Thomas F. Tibbitts, James A. Tinker, Stephen L. Ummel, John C. Wocher

Graduate degrees: M.H.A.; Ph.D. in health services and policy

Web site: <http://www.public-health.uiowa.edu/hmp>

The Department of Health Management and Policy educates health care professionals for leadership roles in an increasingly complex and dynamic health care system. Graduates hold key executive, academic, research, government, and consulting positions in all areas of health management and policy, both in the United States and abroad.

Graduate Programs

- Master of Health Administration
- Doctor of Philosophy in health services and policy

The department offers joint M.H.A. degree programs with the Tippie College of Business, the College of Law, and the Graduate College's School of Urban and Regional Planning; see "Joint M.H.A. Degrees" below. It also offers the policy subtrack for the Master of Public Health; see "M.P.H. Subtrack" below.

The department's degree programs rank among the foremost in the field. The M.H.A. is accredited by the Commission on Accreditation of Healthcare Management Education.

Master of Health Administration

The Master of Health Administration requires 60 s.h. of graduate credit earned in two academic years of full-time study. The program prepares students for a wide variety of positions in health care management. It is designed to provide a comprehensive understanding of issues encountered by health care delivery organizations, and strong business skills. Graduates are well prepared to advance to senior executive roles in a variety of health care organizations.

Students work with their advisors to create a plan of study that incorporates required and elective course work that supports their career goals in areas such as operations management, managed care, or financial management. Required courses in management, economics, law, managerial finance, and financial accounting focus on health care applications. Students also may take course work in other University of Iowa departments and programs, such as business, urban and regional planning, and aging studies.

During the first year, students are introduced to the social, political, economic, and financial environments of health care organizations. The concepts, tools, and techniques necessary for effective management also are presented. During the second year, courses focus on in-depth health care applications of management concepts that integrate prior course work and develop skills in areas relating to students' special interests and career objectives.

Transfer credit and course waivers may be accepted, but all students are expected to complete a minimum of 54 s.h. at The University of Iowa during their course of study.

The Master of Health Administration requires the following course work.

CORE COURSES

06N:215 (MBA:8140) Corporate Financial Reporting	3 s.h.
06N:225 (MBA:8180) Managerial Finance	3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
174:100 (HMP:5000) Professional Development Seminar	0 s.h.
174:200 (HMP:5005) Introduction to Health Care Organization and Policy	3 s.h.
174:201 (HMP:5200) Health Care Management	3 s.h.
174:203 (HMP:6110) Strategic Planning and Marketing	3 s.h.
174:204 (HMP:5310) Quantitative Management in Health Care	2 s.h.
174:205 (HMP:6150) Issues in Health Management and Policy	3 s.h.

174:208 (HMP:5315) Health Services Information Systems	2 s.h.
174:210 (HMP:5342) Operations Research for Health Services Managers	3 s.h.
174:212 (HMP:5410) Health Economics I	3 s.h.
174:216 (HMP:6410) Financial Management of Health Institutions	3 s.h.
174:223 (HMP:6315) Seminar in Health Care Ethics	2 s.h.
174:224 (HMP:6310) Human Resources for Health Organizations	2 s.h.
174:237 (HMP:6610) Legal Aspects of Health and Medical Care	3 s.h.
174:243 (HMP:5610) Health Policy	2 s.h.

ELECTIVES

Students choose 14 s.h. of elective course work; they may count a maximum of 6 s.h. of elective credit earned outside the Department of Health Management and Policy toward the M.H.A. degree.

SUMMER INTERNSHIPS, FELLOWSHIPS, RESIDENCIES

The department facilitates placement of M.H.A. students in required summer internships between the first and second years of study. Internships offer opportunities for practical experience interacting with executives in a health care setting. Internships are full-time positions that usually last 10-12 weeks and may carry up to 3 s.h. of credit. Students normally receive a salary or stipend, and in some cases, assistance with living arrangements.

Most M.H.A. students complement their academic training with a postgraduate fellowship or residency. Such experiences provide opportunities to observe, develop, and demonstrate management skills and to develop connections with colleagues. The department takes an active role in helping students identify and secure fellowship and residency positions.

Joint M.H.A. Degrees

The Department of Health Management and Policy offers joint degree programs with the Tippie College of Business, the College of Law, and the Graduate College's School of Urban and Regional Planning. Students interested in combining an M.H.A. with a master's or professional degree in another field should discuss their plans with both academic units and indicate their interest when they apply to the M.H.A. program.

Joint M.H.A./M.B.A.

The joint Master of Health Administration/Master of Business Administration requires a minimum of 75 s.h. of graduate credit. The program combines the traditional strengths of health management and policy with additional course work in management. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the M.B.A., see Master of Business Administration Program (p. 615) (Tippie College of Business) in the Catalog.

Joint M.H.A./J.D.

The joint Master of Health Administration/Juris Doctor requires 126 of postbaccalaureate credit. The program is highly individualized, allowing students to gain training in both health care management and law. Students usually complete the program in four years; they enroll only in law courses during the first year. Separate application to each

degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the J.D., see College of Law (p. 880) in the Catalog.

Joint M.H.A./M.A. or M.S. in Urban and Regional Planning

The joint Master of Health Administration/Master of Arts or Master of Science in urban and regional planning requires 76 s.h. of graduate credit. The program gives students the opportunity to acquire expertise in community and health planning and prepares them to develop public policy alternatives that help improve the quality of life in cities and throughout regions. Students usually complete the program in three years. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the graduate programs in planning, see Urban and Regional Planning (p. 874) (Graduate College) in the Catalog.

M.P.H. Subtrack

The Department of Health Management and Policy offers the policy subtrack for the Master of Public Health. The subtrack prepares individuals for careers in health policy analysis, system and organizational planning, and program evaluation. Graduates find positions in federal, state, and local government as well as in professional associations and private agencies. See Master of Public Health Program (p. 1081) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in health services and policy requires a minimum of 77 s.h. of graduate credit, which may include up to 30 s.h. earned for a master's degree. The program, established in 1950, was the nation's first doctoral program in health care management. It prepares students for careers in health services research, education, and policy leadership in universities, government agencies, and health organizations.

The program is oriented toward applied, interdisciplinary research. Students develop mastery of theories and research methodologies necessary to study the complex American health system. Students work closely with faculty mentors on research projects and develop research design and methodology skills through course work and an apprenticeship model of training.

The program's faculty members are committed to interdisciplinary scholarly inquiry and research. Individual plans of study allow students to prepare for specific careers, and small class size encourages frequent student-faculty interaction, including participation in research projects as well as scholarly publications.

The Doctor of Philosophy in health services and policy requires the following work.

CORE COURSES

Ph.D. students take course work in core content areas covering health care systems, health economics, health outcomes, and health policy. Courses in research design and statistical analysis are required. Credit may be awarded for guided and independent research project work. Students may waive specific courses, depending on their background.

173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
171:174 (BIOS:6310) Introductory Longitudinal Data Analysis	3 s.h.
174:200 (HMP:5005) Introduction to Health Care Organization and Policy	3 s.h.
174:212 (HMP:5410) Health Economics I	3 s.h.
174:213 (HMP:6555) Health Economics II	3 s.h.
174:217 (HMP:5450) Health Insurance and Managed Care	3 s.h.
174:243 (HMP:5610) Health Policy	3 s.h.
174:245 (HMP:6750) Seminar in Health Policy	3 s.h.
174:252 (HMP:7250) Organizational Behavior and Theory in Health Care	3 s.h.
174:255 (HMP:7910) Seminar in Contemporary Health Issues (two semesters)	0 s.h.
174:257 (HMP:7920) Ph.D. Guided Research	3 s.h.
174:259 (HMP:7950) Design Issues in Health Service Research	3 s.h.
174:260 (HMP:7930) Ph.D. Independent Research	3 s.h.
174:261 (HMP:7960) Analytic Issues in Health Services Research I	3 s.h.
174:262 (HMP:7965) Analytic Issues in Health Services Research II	3 s.h.
174:268 (HMP:7150) Health Care Utilization Outcomes	3 s.h.
174:270 (HMP:7970) Seminar in Health Research and Instruction	3 s.h.
174:285 (HMP:7990) Ph.D. Dissertation	8-15 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

EXAMINATIONS

All Ph.D. students must pass a preliminary examination that tests the student's mastery of core material covered during the first year in the department, including American health systems and health services research methods.

Students take the comprehensive examination at or near the end of their formal course work. The comprehensive exam focuses on the student's specific area of research and theoretical interest.

DISSERTATION

Doctoral candidates prepare dissertations based on original research that tests, extends, or applies concepts or principles to a problem in health care. Students may choose to complete a traditional dissertation or may complete a dissertation based on three publishable papers.

Admission

Applicants to the M.H.A. program must hold a bachelor's degree from an accredited college or university. No specific undergraduate major is required, but prospective applicants are strongly advised to complete introductory courses in accounting, economics, and statistics and to gain facility in using spreadsheet and presentation software. A cumulative g.p.a. of at least 3.00 is expected. M.H.A. program applicants must submit scores on the Graduate Record Exam (GRE) General Test (a combined verbal and quantitative score of 1100 or above is preferred) or the Graduate Management Admission Test (a score of 600 or above is preferred); official MCAT, VAT, LSAT, or DAT scores are accepted in place of GRE or

GMAT scores. Previous work experience in health care is desirable.

Applicants to the Ph.D. program must have a bachelor's or master's degree. Experience in health care and a master's degree in health administration, public health, or health planning are excellent preparation for the program. A graduate degree in social science, management, economics, or law is acceptable, depending on the applicant's background and career goals. A cumulative g.p.a. of at least 3.25 is usually required. All Ph.D. applicants must submit GRE scores (a combined verbal and quantitative score of 1100 or above is preferred).

All applicants must submit academic transcripts, a resume, three letters of recommendation, and a statement of objectives form (contact the Department of Health Management and Policy).

Applicants whose first language is not English and who do not hold a baccalaureate or more advanced degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Students begin the program in fall semester. Campus visits are encouraged, and personal interviews are required before admission. The admissions committee conducts telephone interviews with applicants unable to interview on campus.

Financial Support

A variety of financial assistance is available, including scholarships and awards, student loans, and research assistantships. Every effort is made to provide financial support to students who demonstrate need and maintain satisfactory academic standards. Some awards are offered in recognition of outstanding academic performance and experience, regardless of need.

Research assistantships generally are awarded on the basis of student merit and the department's need. Assistantships afford valuable experience in health services research and management projects. Research assistants work 10-20 hours per week and must apply for reappointment each year. Research assistantships provide a stipend and some tuition assistance and entitle students to resident tuition.

Opportunities also exist for part-time employment both on and off campus. For information and financial aid application forms, contact the University's Office of Student Financial Aid.

Resources

The Center for Health Policy and Research, the research arm of the Department of Health Management and Policy, is a University-wide interdisciplinary research facility. Faculty members from the Carver College of Medicine, the Tippie College of Business, and the Colleges of Dentistry,

Liberal Arts and Sciences, Nursing, Pharmacy, and Public Health serve as investigators in a variety of studies at the center. Graduate students assist with ongoing research projects.

Primary project funding for the center comes from the National Institute of Health (NIH), the State of Iowa, and the Agency for Healthcare Research and Quality (AHRQ) as well as from foundations and private organizations.

The center also sponsors educational activities and promotes collaboration among health organizations through frequent exchanges with professional and provider associations, policy and planning groups, insurance organizations, health delivery institutions, and other members of the health services research community.

Alumni Relations

An active alumni association with more than 1,000 members supports the program in a number of ways, including scholarships, consultation on curriculum, continuing education, research, and fund development. Alumni serve as visiting faculty, consultants, mentors, and preceptors for summer internships, residencies, and fellowships. The alumni association also provides a network for graduates entering the profession.

Graduates maintain their Iowa connection and learn about news of their classmates, the department, and faculty members and students through the *Alumni Newsletter*.

The Department of Health Management and Policy and its alumni association jointly sponsor the Annual Iowa Healthcare Executive Symposium each fall. Renowned speakers from across the country present a variety of symposium topics. Health care leaders, alumni, educators, students, and friends of the department attend the symposium, which offers students a high quality educational experience in addition to the opportunity to network with faculty and alumni.

Courses

174:100 (HMP:5000) Professional Development Seminar 0-1 s.h.

Development of critical foundational management skills: business writing, personal presentation, teamwork, providing feedback, self-assessment, engaging other professionals, and organizational ethics.

174:102 (HMP:4000) Introduction to the U.S. Health Care System 3 s.h.

The U.S. health care system; socioeconomic, political, and environmental forces that influence the organization, financing, and delivery of personal and public health services; health services, policy, concepts, terminology.

174:144 (HMP:5750) Medicare and Medicaid Policy 3 s.h.

Health policies most pertinent to Americans over age of 65. Same as 153:144 (ASP:5750).

174:200 (HMP:5005) Introduction to Health Care Organization and Policy 3 s.h.

Organization of U.S. health care system, health policies that shape its development; historical, socioeconomic, political, environmental forces that influence the organization, financing, and delivery of personal and public health services; health services, policy concepts, and terminology, including health determinants, access to care, system integration, policy development, federalism.

174:201 (HMP:5200) Health Care Management 3 s.h.

Application of basic management principles such as leadership, goal setting, decision making, human resource management, to health care organizations.

174:202 (HMP:5350) Hospital Organization and Management 2-3 s.h.

Role of hospitals, governance, organizational structure, medical staff organization, departmental operations. Prerequisites: 174:200 (HMP:5005) and 174:201 (HMP:5200).

174:203 (HMP:6110) Strategic Planning and Marketing 3-4 s.h.

Strategy in health care including role of mission, vision, values, environmental analysis, strategic alternatives, organizational design, and evaluation of strategic decisions. Prerequisites: 174:201 (HMP:5200).

174:204 (HMP:5310) Quantitative Management in Health Care 2-3 s.h.

Quantitative analysis techniques used by managers in health care settings to assist with planning, decision making, resource allocation.

174:205 (HMP:6150) Issues in Health Management and Policy 3 s.h.

Integration and application of theories, concepts, principles; case studies. Requirements: 174:201 (HMP:5200) and 174:203 (HMP:6110).

174:207 (HMP:6350) Group Practice and Ambulatory Care Administration 3 s.h.

Delivery of ambulatory health care services, for-profit, and not-for-profit organizations; emphasis on structures, payment mechanism, compensation, effects of managed care, other internal issues. Prerequisites: 174:200 (HMP:5005), 174:201 (HMP:5200), and 174:202 (HMP:5350).

174:208 (HMP:5315) Health Services Information Systems 2-3 s.h.

Conceptual, practical aspects of analysis, development, and use of computer-based information systems; emphasis on application to the health sciences environment.

174:210 (HMP:5342) Operations Research for Health Services Managers 3 s.h.

Functions and issues associated with health care management decision making using quantitative analysis and methodology; emphasis on operations research techniques (i.e., linear programming); resource management and optimization issues.

174:212 (HMP:5410) Health Economics I 3 s.h.

Microeconomic principles applied to health care, health insurance, information and uncertainty, models of physician and hospital behavior, theory of the firm, market structure, regulation, competitive reform, managed care.

174:213 (HMP:6555) Health Economics II 3 s.h.

Economic theory and its application to health behavior, markets for health care and health insurance, public policy related to health. Prerequisites: 174:212 (HMP:5410).

- 174:216 (HMP:6410) Financial Management of Health Institutions** 3 s.h.
Issues in working capital management, capital financing, cost analysis and rate setting, budgeting, reimbursement, managed care contracting and health reform initiatives; emphasis on use of information from accounting, financial management systems.
- 174:217 (HMP:5450) Health Insurance and Managed Care** 3 s.h.
History and theory of insurance, comparative health systems, health systems and networks, HMOs, public health insurance, care for uninsured; emphasis on public policy. Prerequisites: 174:200 (HMP:5005). Corequisites: 046:263 (PHAR:6330) or 174:212 (HMP:5410). Same as 152:217 (GHS:5455).
- 174:218 (HMP:6055) Topics in Health Administration** 1-3 s.h.
Topics related to contemporary problems that concern health care students, administrators.
- 174:221 (HMP:6120) Evaluation and Outcomes in Health Care** 2 s.h.
Qualitative and quantitative methods for evaluating health care quality, effectiveness; program evaluation, health outcomes, clinical and cost effectiveness, evaluation across health care delivery systems. Prerequisites: 174:102 (HMP:4000) or 174:200 (HMP:5005).
- 174:223 (HMP:6315) Seminar in Health Care Ethics** 1-2 s.h.
Biomedical and organization ethics in the contemporary health care environment; ethical concepts and principles, ethical issues that confront executive, clinical, and governance leaders in context of complex health organizations.
- 174:224 (HMP:6310) Human Resources for Health Organizations** 2-3 s.h.
Overview of human resource management theories and practices for health care organizations; strategic human resource management, equal employment, staffing, training and development, appraisal, compensation. Prerequisites: 174:201 (HMP:5200).
- 174:225 (HMP:5120) Decision Modeling and Project Management** 1-3 s.h.
Basic project management skills to ensure benefits from health care projects; quantitative decision modeling for a scientific approach to decision making.
- 174:226 (HMP:5370) Health Informatics I** 3 s.h.
Technological tools that support health care administration, management, and decision making. Requirements: graduate standing. Same as 050:283 (MED:5300), 096:283 (NURS:5300), 021:275 (SLIS:5900), 074:191 (RSNM:3195), 051:187 (BME:5250), 056:186 (IE:5860), 200:110 (IGPI:5200).
- 174:228 (HMP:7550) Cost Effectiveness and Decision Analysis** 3 s.h.
Methods of cost-effectiveness analysis and decision analysis; applications to resource allocation decisions in public health and medicine.
- 174:229 (HMP:5290) Lean Sigma Principles: Applications in Health Care** 1,3 s.h.
General lean and six sigma principles (1 s.h.); application to health care situations (3 s.h.); examples from University of Iowa Hospitals and Clinics, other institutions.
- 174:234 (HMP:5810) Administrative Internship** arr.
- 174:235 (HMP:6860) Administrative Residency/Fellowship** arr.
- 174:236 (HMP:6855) Administrative Practicum** 2-3 s.h.
Experience with operational and planning matters in a health care setting. Requirements: second-year standing and g.p.a. of at least 3.00 for two consecutive semesters.
- 174:237 (HMP:6610) Legal Aspects of Health and Medical Care** 3 s.h.
Statutory, common law frameworks applicable to health care system; court decisions that illustrate applications of general legal doctrines in hospital, health settings.
- 174:242 (HMP:6710) Federalism and Health Policy** 3 s.h.
How American government's organization shapes development and implementation of health policy, programs, services.
- 174:243 (HMP:5610) Health Policy** 1-3 s.h.
Policy process, policies and programs that shape provision of health care in the United States; health policies such as Medicare, Medicaid, Older Americans Act.
- 174:245 (HMP:6750) Seminar in Health Policy** 3 s.h.
Contemporary health policy issues; theoretical and applied perspectives; social justice and health care for vulnerable populations (e.g., mental health, nursing homes); readings, discussion. Requirements: 174:243 (HMP:5610).
- 174:247 (HMP:6360) Nonprofit Organizational Effectiveness I** 3 s.h.
Operational and financing aspects of nonprofit management; mission and governance of organization; strategic planning for effective management, including finance, budget, income generation, fund-raising. Same as 021:263 (SLIS:6430), 06J:247 (MGMT:9150), 091:320 (LAW:8751), 042:247 (SSW:6247), 102:278 (URP:6278), 024:247 (MUSM:6010), 028:257 (SPST:6010), 032:227 (RELS:6070).
- 174:248 (HMP:6365) Nonprofit Organizational Effectiveness II** 3 s.h.
Qualities for leadership of nonprofit organizations, including relationships with staff and volunteers; relationship of nonprofit and outside world; marketing, public relations, advocacy strategies for nonprofits. Requirements: for 091:322 (LAW:8752) — 091:320 (LAW:8751); for 174:248 (HMP:6365) — 06J:247 (MGMT:9150) or 024:247 (MUSM:6010) or 174:247 (HMP:6360). Same as 06J:248 (MGMT:9160), 091:322 (LAW:8752), 021:265 (SLIS:6435), 042:248 (SSW:6248), 102:279 (URP:6279), 024:248 (MUSM:6020), 028:258 (SPST:6020), 032:228 (RELS:6075).
- 174:252 (HMP:7250) Organizational Behavior and Theory in Health Care** 3 s.h.
Key concepts of organizational behavior and organizational theory and their application to health care organizations and health services; perspectives from theoretical writings and empirical studies. Requirements: Ph.D. standing and knowledge of human services organizations.
- 174:253 (HMP:6255) History and Health Policy in the U.S.** arr.
Books, articles, other readings on history of the medical and nursing professions, evolution of the hospital and other key sectors of the health economy; health policy issues and their implications.
- 174:255 (HMP:7910) Seminar in Contemporary Health Issues** 0 s.h.
Review of relevant literature on methodological substantive issues in health care, presentations by researchers on health services and policy research.
- 174:257 (HMP:7920) Ph.D. Guided Research** 1-3 s.h.
Experience with empirical research, guided by a faculty mentor; structured and supervised research activities.

174:259 (HMP:7950) Design Issues in Health Service Research 3 s.h.

Design and causal inference reliability and validity in measurement; rules of evidence; research design for randomized-control trials, observational studies, meta-analysis.

174:260 (HMP:7930) Ph.D. Independent Research 1-3 s.h.

Experience in empirical research through one or more substantive research experiences, with faculty mentor; authorship or coauthorship of at least one manuscript suitable for publication in peer review journal. Requirements: Ph.D. in health services and policy and satisfactory completion of Ph.D. preliminary exams.

174:261 (HMP:7960) Analytic Issues in Health Services Research I 3 s.h.

Analytic tools used in health services research; focus on applications in nonexperimental research settings, such as analyses using administrative claims data or preexisting public use data sets. Prerequisites: 171:162 (BIOS:5120). Same as 046:261 (PHAR:7330).

174:262 (HMP:7965) Analytic Issues in Health Services Research II 3 s.h.

Continuation of 174:261 (HMP:7960); advanced applications, including panel data and qualitative response models. Prerequisites: 174:261 (HMP:7960). Same as 046:262 (PHAR:7331).

174:266 (HMP:5130) Advanced Case Management: Interdisciplinary Approach 3 s.h.

Theory, evidence, and strategies for health care coordination and integration examined through analysis of case management and disease management interventions; interdisciplinary approach; leadership for interdisciplinary teamwork; analysis and critique of case and disease management theory and models; synthesis of case and disease management principles as a framework for managing health care outcomes for cost and quality, identification of evidence-based clinical care guidelines; analysis of financial, legal, ethical, and outcomes management components of case and disease management practice. Same as 096:266 (NURS:5102).

174:268 (HMP:7150) Health Care Utilization Outcomes 3 s.h.

Research tools to assess changes in health care use and cost as outcomes of treatment; theories of health outcomes; analysis of hospital discharge data sets. Requirements: knowledge of SAS or SPSS. Same as 173:276 (EPID:6760).

174:270 (HMP:7970) Seminar in Health Research and Instruction 1-3 s.h.

Opportunity for Ph.D. students to develop research and teaching skills through presentations, readings, workshops. Requirements: satisfactory completion of Ph.D. preliminary exams.

174:280 (HMP:6850) Independent Study and Research arr.

Supervised tutorial.

174:285 (HMP:7990) Ph.D. Dissertation arr.

Research for preparation of dissertation; seminar presentation.

Master of Public Health Program

Director

Mary L. Aquilino

Graduate degree: M.P.H.

Web site: <http://www.public-health.uiowa.edu/mph/>

The Master of Public Health is recognized as the primary professional degree in public health. The objective of Iowa's M.P.H. program is to provide education and practical training in public health to students who will be leaders in their respective communities. The program is appropriate for individuals who already have professional experience and/or training in public health as well as for those whose expertise lies outside of public health.

The Master of Public Health program is offered by the College of Public Health; the degree is awarded by the Graduate College.

Graduate Program

- Master of Public Health

Students may earn the M.P.H. as a single degree, or they may pursue one of several joint degree programs. The College of Public Health offers joint M.P.H./professional degree programs with the Carver College of Medicine and the Colleges of Law and Pharmacy. It also offers two programs in collaboration with the College of Veterinary Science at Iowa State University. See "M.P.H. for Practicing Veterinarians" and descriptions of the joint degree programs later in this section.

Master of Public Health

The Master of Public Health requires 42-59 s.h. of graduate credit, depending on the student's choice of specialization. Students must choose one of seven subtracks: biostatistics, community and behavioral health, epidemiology, ergonomics, health communication, occupational and environmental health, or policy.

Degree requirements include a core course in public health practice and in each of the five core disciplines of public health (epidemiology, biostatistics, environmental health, health policy and management, and social and behavioral sciences); a practicum; a set of content-specific required courses; and a set of content-specific electives. Students in the epidemiology subtrack and the occupational and environmental health subtrack also must complete a bioscience course. A final written report with oral presentation or a poster presentation related to the practicum constitutes the final examination.

All M.P.H. students complete the course work listed under "Common Requirements." In addition, each student completes the course work listed for his or her chosen subtrack.

Common Requirements

The following course work is required for all M.P.H. students. Students must earn a B-minus or higher in each core course. Students may repeat courses to achieve this standard.

CORE COURSES

All of these (15 s.h.):

170:101 (MPH:5100) Introduction to Public Health	3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics (biostatistics subtrack students must substitute 171:201 for 4 s.h.)	3 s.h.
172:101 (CBH:5105) Introduction to Health Promotion and Disease Prevention	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
175:197 (OEH:4240) Environmental Health	3 s.h.

One of these (3 s.h.):

174:102 (HMP:4000) Introduction to the U.S. Health Care System	3 s.h.
174:200 (HMP:5005) Introduction to Health Care Organization and Policy	3 s.h.

PRACTICUM

The practicum is a fieldwork experience in which students show proficiency in applying academic principles in community settings. There are many practicum opportunities for M.P.H. students in Iowa and surrounding states; the college's Institute for Public Health Practice coordinates placements. The practicum is the culmination of the M.P.H. program.

Students must choose an approved topic and complete the six core courses before registering for and beginning the practicum. A final written report with an oral presentation or a poster presentation is required. The practicum constitutes the final examination for the M.P.H.

170:299 (MPH:7000) M.P.H. Practicum Experience	3 s.h.
--	--------

Biostatistics Subtrack

The Master of Public Health with biostatistics subtrack requires 44 s.h. of graduate credit. The subtrack is offered by the Department of Biostatistics (p. 1054) (College of Public Health).

The subtrack focuses on application of biostatistical methods to public health and biomedical sciences, and applications of methodology for design and analysis of research investigations in the health sciences. It also provides fundamental training in the public health sciences, core biostatistical theory, and core biostatistical methods vital for health science investigations. Graduates of the program are prepared for work as statistical consultants and data analysts for public health projects.

Applicants to the biostatistics subtrack should have a bachelor's degree or equivalent in the biological, mathematical, or physical sciences. Applicants should have mathematics training in methods and techniques of single variable and multivariable differential and integral calculus, and in linear algebra. They also should be competent in at least one computer language, preferably FORTRAN, Pascal, or C.

Applicants with deficiencies in any of these areas may apply for admission and make up the deficiencies during the first year of graduate study. The following University of Iowa courses provide training at the required level.

22M:025 (MATH:1850) Calculus I	5 s.h.
22M:026 (MATH:1860) Calculus II	5 s.h.
22M:027 (MATH:2700) Introduction to Linear Algebra	4 s.h.
22M:028 (MATH:2850) Calculus III	4 s.h.

In addition to the M.P.H. course work listed under "Common Requirements" above, the biostatistics subtrack requires the following courses.

SUBTRACK CORE

All of these (13 s.h.):

22S:153 (STAT:4100)-22S:154 (STAT:4101) Mathematical Statistics I-II	6 s.h.
171:202 (BIOS:5720) Biostatistical Methods II	4 s.h.
171:241 (BIOS:6110) Applied Categorical Data Analysis	3 s.h.

One of these (3 s.h.):

171:173 (BIOS:6510) Design of Sample Surveys	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.

ELECTIVES

At least 6 s.h. chosen from these:

22S:138 (STAT:4520) Bayesian Statistics	3 s.h.
22S:161 (STAT:6540) Applied Multivariate Analysis	3 s.h.
22S:255 (STAT:7200) Linear Models	4 s.h.
171:164 (BIOS:5310) Research Data Management	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.
171:261 (BIOS:7210) Survival Data Analysis	3 s.h.
171:262 (BIOS:7410) Analysis of Categorical Data	3 s.h.
171:264 (BIOS:7310) Longitudinal Data Analysis	3 s.h.
171:266 (BIOS:6610) Statistical Methods in Clinical Trials	3 s.h.
171:271 (BIOS:7220) Advanced Survival Analysis	3 s.h.

Community and Behavioral Health Subtrack

The Master of Public Health with community and behavioral health subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Community and Behavioral Health (p. 1060) (College of Public Health).

The subtrack prepares public health practitioners for a variety of positions related to community development, health program implementation, and health education. Students learn how to design, implement, and evaluate evidence-based interventions directed toward identified public health problems in populations.

A bachelor's degree in the social and behavioral sciences is good preparation for this program, but students come from a variety of educational backgrounds. Preference is given to applicants who have professional experience.

In addition to the M.P.H. course work listed under "Common Requirements" above, the community and behavioral health subtrack requires the following courses.

SUBTRACK CORE

At least 12 s.h. chosen from these:

172:106 (CBH:6205) Designing and Implementing Interventions	3 s.h.
172:130 (CBH:5205) Social Determinants of Health	3 s.h.
172:135 (CBH:8715) Health Disparities and Cultural Competence	3 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.
172:181 (CBH:5305) Evaluation I: Theory and Applications	3 s.h.

172:183 (CBH:5310) Qualitative Research for Public Health	3 s.h.
172:185 (CBH:5420) Communicating with the Community	3 s.h.
172:240 (CBH:6210) Health Communication	3 s.h.
172:248 (CBH:6225) Health Information and Health Literacy	3 s.h.

ELECTIVES

At least 9 s.h. chosen from these:

044:106 (GEOG:3505) Foundations of GIS	3 s.h.
172:110 (CBH:5210) Community Development in Public Health	3 s.h.
172:115 (CBH:5215) Community Preventive Programs and Services	3 s.h.
172:122 (CBH:6405) Maternal, Child, and Family Health	3 s.h.
172:131 (CBH:5415) Anthropology and International Health	3 s.h.
172:133 (CBH:5140) The Anthropology of Women's Health	3 s.h.
172:140 (CBH:4825) Media and Health	3 s.h.
172:161 (CBH:5435) Substance Abuse Prevention and Early Intervention	3 s.h.
172:170 (CBH:6410) Special Topics	arr.
172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220) Health Communication Campaigns	3 s.h.
172:270 (CBH:6415) Independent Study in Community and Behavioral Health	arr.
172:282 (CBH:6305) Evaluation II: Design and Methods	3 s.h.
172:285 (CBH:6335) Research Methods in Community and Behavioral Health	3 s.h.

Epidemiology Subtrack

The Master of Public Health with epidemiology subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Epidemiology (p. 1066) (College of Public Health).

The subtrack focuses on fundamental epidemiological concepts and methods and provides training in the use of public health data and methods for disease assessment and in methods for evaluating the need and outcome of programs and interventions. Graduates of the program work in public health departments and other health care settings.

Epidemiology subtrack students are required to attend departmental seminars and journal club. They also must present one scientific poster at an international, national, regional, state, university, or departmental poster session.

In addition to the M.P.H. course work listed under "Common Requirements" above, the epidemiology subtrack requires the following courses.

SUBTRACK CORE

All of these (10 s.h.):

171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
173:158 (EPID:5580) Public Health Laboratory Techniques	1 s.h.
173:160 (EPID:5600) Introduction to Epidemiology Data Analysis With Computers	2 s.h.
173:240 (EPID:6400) Epidemiology II: Advanced Methods	4 s.h.

One of these (2-3 s.h.):

173:145 (EPID:5450) Public Health Data	2 s.h.
173:199 (EPID:5990) Practicing Evidence-Based Public Health	3 s.h.

One of these (2 s.h.):

173:153 (EPID:5530) Surveillance Internship: IRCID	2 s.h.
173:154 (EPID:5540) Cancer Registration Internship	2 s.h.

Bioscience—one of these (3-4 s.h.):

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
069:270 (PATH:5270) Pathogenesis of Major Human Diseases	3 s.h.

Students who already have completed a course equivalent to one of these bioscience courses may substitute an additional elective.

ELECTIVES

Students earn at least 2 s.h. in elective courses (or 5 s.h. if they substitute an elective for the bioscience requirement). At least 3 s.h. of elective credit must be earned in courses offered by the Department of Epidemiology (prefix 173) or in one of the following biostatistics courses.

171:241 (BIOS:6110) Applied Categorical Data Analysis	3 s.h.
171:242 (BIOS:6210) Applied Survival and Cohort Data Analysis	3 s.h.

Ergonomics Subtrack

The Master of Public Health with ergonomics subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Occupational and Environmental Health (p. 1088) (College of Public Health).

The subtrack takes advantage of interdisciplinary faculty strengths in the Colleges of Public Health and Engineering and the Carver College of Medicine. Ergonomics students gain a thorough understanding of workplace physical environments that contribute to musculoskeletal injuries and illness. They also acquire knowledge of engineering and administrative methods to control workplace risk factors. The program prepares students for work in industry and government agencies, as well as for further academic training.

In addition to the M.P.H. course work listed under "Common Requirements" above, the ergonomics subtrack requires the following courses.

SUBTRACK CORE

All of these (16 s.h.):

056:144 (IE:3400) Human Factors	3 s.h.
056:147 (IE:3450) Ergonomics	3 s.h.
175:180 (OE:5010) Occupational and Environmental Health Seminar	1 s.h.
175:190 (OE:4310) Occupational Ergonomics I	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:295 (OE:6310) Clinical Ergonomics	3 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0-1 s.h.

ELECTIVES

Ergonomics subtrack students earn 5 s.h. in elective courses. Electives may be chosen from the following list

or may include a related course approved by the student's advisor.

175:192 (OE:5410) Occupational Safety	3 s.h.
175:231 (OE:6420) Industrial Hygiene Fundamentals	3 s.h.
175:251 (OE:6520) Injury Epidemiology	3 s.h.
175:253 (OE:6530) Epidemiology of Occupational Injuries	3 s.h.

Health Communication Subtrack

The Master of Public Health with health communication subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of Community and Behavioral Health (p. 1060) (College of Public Health).

The subtrack provides opportunities for students to develop knowledge and skill in designing, evaluating, and implementing effective communication strategies and messages that speak to the health needs of diverse audiences. The program addresses clinician-patient interaction, family communication, group and organizational communication, and mass media and web-based campaigns. The M.P.H. may be of interest to clinicians, such as physicians, nurses, pharmacists, and dentists, as well as other professionals who do not wish to earn a Ph.D.

In addition to the M.P.H. course work listed under "Common Requirements" above, the health communications subtrack requires the following courses.

SUBTRACK CORE: HEALTH COMMUNICATION

Four of these (12 s.h.):

036:371 (COMM:6371) Communication Theory	3 s.h.
172:140 (CBH:4825)/019:160 (JMC:4825) Media and Health	3 s.h.
172:185 (CBH:5420) Communicating with the Community	3 s.h.
172:240 (CBH:6210)/036:270 (COMM:6210) Health Communication	3 s.h.
172:242 (CBH:6215) Persuasion and Health	3 s.h.
172:246 (CBH:6220)/036:379 (COMM:6220) Health Communication Campaigns	3 s.h.

SUBTRACK CORE: COMMUNITY AND BEHAVIORAL HEALTH

Three of these (9 s.h.):

044:106 (GEOG:3505) Foundations of GIS	3 s.h.
172:106 (CBH:6205) Designing and Implementing Interventions	3 s.h.
172:130 (CBH:5205) Social Determinants of Health	3 s.h.
172:135 (CBH:8715) Health Disparities and Cultural Competence	3 s.h.
172:150 (CBH:5220) Health Behavior and Health Education	3 s.h.
172:181 (CBH:5305) Evaluation I: Theory and Applications	3 s.h.
172:183 (CBH:5310) Qualitative Research for Public Health	3 s.h.
172:202 (CBH:6115)/113:202 (ANTH:6115) Ethnographic Field Methods	3 s.h.

Occupational and Environmental Health Subtrack

The Master of Public Health with occupational and environmental health subtrack requires 42 s.h. of graduate credit. The subtrack is offered by the Department of

Occupational and Environmental Health (p. 1088) (College of Public Health).

The subtrack provides students with a broad perspective on public health and career preparation for a variety of professional positions in occupational and environmental health. Public health experience provides desirable background for this subtrack.

In addition to the M.P.H. course work listed under "Common Requirements" above, the occupational and environmental health subtrack requires the following courses.

SUBTRACK CORE

All of these (18-22 s.h.):

175:180 (OE:5010) Occupational and Environmental Health Seminar	1 s.h.
Occupational and environmental health courses not already listed, or other approved courses	17-21 s.h.

Bioscience—one of these (3-4 s.h.):

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
069:270 (PATH:5270) Pathogenesis of Major Human Diseases	3 s.h.

Students who already have completed a course equivalent to one of these bioscience courses may substitute an additional elective.

Policy Subtrack

The Master of Public Health with policy subtrack requires 59 s.h. of graduate credit. The subtrack is offered by the Department of Health Management and Policy (p. 1075) (College of Public Health).

The subtrack offers course work and applied learning experiences that prepare students for careers in health policy analysis, system and organizational planning, and program evaluation. Graduates of the program find positions in federal, state, and local government; professional associations; and private agencies. Varied academic backgrounds are appropriate preparation for this program, including business, liberal arts and sciences, and the health professions.

In addition to the M.P.H. course work listed under "Common Requirements" above, the policy and administration subtrack requires the following courses.

SUBTRACK CORE

All of these:

174:144 (HMP:5750) Medicare and Medicaid Policy	3 s.h.
174:212 (HMP:5410) Health Economics I	3 s.h.
174:217 (HMP:5450) Health Insurance and Managed Care	3 s.h.
174:221 (HMP:6120) Evaluation and Outcomes in Health Care	2 s.h.
174:223 (HMP:6315) Seminar in Health Care Ethics	2 s.h.
174:237 (HMP:6610) Legal Aspects of Health and Medical Care	3 s.h.
174:242 (HMP:6710) Federalism and Health Policy	3 s.h.
174:243 (HMP:5610) Health Policy	3 s.h.
174:245 (HMP:6750) Seminar in Health Policy	3 s.h.

ELECTIVES

At least 6 s.h. chosen from these:

030:113 (POLI:3100) American State Politics	3 s.h.
030:120 (POLI:3117) Public Administration and Bureaucratic Politics	3 s.h.
030:125 (POLI:3118) Interest Groups	3 s.h.
030:126 (POLI:3111) American Public Policy	3 s.h.
030:150 (POLI:3404) Public Policy Around the World	3 s.h.
030:151 (POLI:3417) Political Leadership	3 s.h.
030:152 (POLI:3102) The U.S. Congress	3 s.h.
030:153 (POLI:3121) The Judicial Process	3 s.h.
030:200 (POLI:5000) Introduction to Political Analysis	4 s.h.
030:310 (POLI:7100) Modeling American Politics	4 s.h.
030:315 (POLI:7102) The Presidency	4 s.h.
030:319 (POLI:7150) Problems in American Politics	4 s.h.
030:339 (POLI:7350) Problems in Political Theory	4 s.h.
030:352 (POLI:7200) Legislative Behavior	4 s.h.
091:261 (LAW:8562) Health Law	3 s.h.
091:650 (LAW:9767) Law and Colonialism	arr.
Policy courses not already listed in the required section, or other approved courses	

M.P.H. for Practicing Veterinarians

The Master of Public Health for practicing veterinarians requires a minimum of 42 s.h. of graduate credit. The program is presented through a collaboration between the University of Iowa College of Public Health and the College of Veterinary Medicine at Iowa State University and is offered primarily by distance learning. It enables students to prepare for new career opportunities and equips them to respond to public health challenges such as zoonotic diseases, food security and foodborne illnesses, bioterrorism, and environmental health.

Students participate in two summer institutes, one on each campus during consecutive summers (two weeks in May and June); the rest of the program is Internet-based, so students may complete requirements at times that fit their schedules. Specific courses are required each semester of the program.

The M.P.H. for practicing veterinarians requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

ADDITIONAL REQUIRED COURSES

All of these (21 s.h.):

170:175 (MPH:6700) Public Health Emergency Preparedness for Veterinarians and Other Public Health Disciplines	2 s.h.
173:120 (EPID:5200) Principles of Public Health Informatics	3 s.h.
173:130 (EPID:5300) Food Safety	3 s.h.
173:132 (EPID:5320) Exotic and Emerging Diseases of Animals	1 s.h.
173:147 (EPID:5470) Applied Veterinary Epidemiology/Biostatistics	3 s.h.
173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology	3 s.h.
173:159 (EPID:5590) Applied Infectious Disease Epidemiology	2 s.h.

175:209 (OE:6110) Rural Health and Agricultural Medicine	3 s.h.
175:211 (OE:5120) Veterinary Public Health: The Profession	1 s.h.

Joint M.P.H./D.V.M.

The joint Master of Public Health/Doctor of Veterinary Medicine is offered by the University of Iowa College of Public Health and the College of Veterinary Medicine at Iowa State University (ISU). It requires a minimum of 42 s.h. in addition to the requirements of the D.V.M. degree (see College of Veterinary Medicine in the Iowa State University catalog). The program prepares students for work as state veterinarians, as college and university faculty members, in local and state departments of public health, in the Public Health Commissions Corp., in state agricultural departments, and for public health positions in the military.

Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For M.P.H. admission requirements, see "Admission" later in this section.

The joint M.P.H./D.V.M. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students must earn at least 9 s.h. from the following courses.

173:130 (EPID:5300) Food Safety	3 s.h.
173:147 (EPID:5470) Applied Veterinary Epidemiology/Biostatistics	3 s.h.
173:155 (EPID:5550) Diagnostic Microbiology for Epidemiology (offered by distance education)	3 s.h.
173:159 (EPID:5590) Applied Infectious Disease Epidemiology	2 s.h.
173:255 (EPID:6550) Epidemiology of Infectious Diseases (offered by distance education)	3 s.h.
175:170 (OE:4510) Injury and Violence Prevention (offered by distance education)	3 s.h.
175:209 (OE:6110) Rural Health and Agricultural Medicine (offered by distance education)	3 s.h.
175:210 (OE:6120) Current Topics in Agricultural Health (offered by distance education)	0-1 s.h.
175:211 (OE:5120) Veterinary Public Health: The Profession	1 s.h.

REQUIRED D.V.M. COURSES

All of these (ISU courses):

Public Health and the Role of the Veterinary Profession (VMPP 388)	3 s.h.
Small Animal Internal Medicine (VCS 436)	2 s.h.
Infectious Diseases and Preventive Medicine (VMPP 437)	3 s.h.
Pharmacology and Therapeutics (BMS 443)	3 s.h.
Laboratories in Public Health (VMPP 486)	1 s.h.

Joint M.P.H./J.D.

The joint Master of Public Health/Juris Doctor requires a minimum of 42 s.h. of graduate credit in addition to the requirements of the J.D. degree. The program helps

students develop special expertise in public health legal issues. It is designed to train qualified students for leadership roles in both the public and private sectors. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program.

The joint M.P.H./J.D. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students earn 9 s.h. in elective courses chosen from one of the following public health areas: aging studies; biostatistics; community and behavioral health; epidemiology; global health; health policy; maternal, child, and family health; nutrition and exercise; or occupational and environmental health. Students choose electives in consultation with their advisors in the College of Law and the College of Public Health.

J.D. REQUIREMENTS

Students in the joint M.P.H./J.D. program must complete the curriculum of the J.D. program; see College of Law (p. 880) in the Catalog. Students must be enrolled in the College of Law to take College of Law courses.

COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following College of Law courses toward the M.P.H. degree.

091:204 (LAW:8105) Administrative Law	3 s.h.
091:250 (LAW:8421) Employment Law	2-3 s.h.
091:251 (LAW:8407) Topics in Employee Benefits Law	arr.
091:255 (LAW:8433) Environmental Law	3 s.h.
091:261 (LAW:8562) Health Law	2-3 s.h.
091:262 (LAW:8492) Federal Regulations of Health Care Industry: Fraud and Abuse	2-3 s.h.
091:268 (LAW:8467) Family Law	3-4 s.h.
091:284 (LAW:8584) Insurance	1-3 s.h.
091:291 (LAW:8622) International Environmental Law	3 s.h.
091:292 (LAW:8670) Labor Law	3-4 s.h.
091:320 (LAW:8751) Nonprofit Organizational Effectiveness I	3 s.h.
091:322 (LAW:8752) Nonprofit Organizational Effectiveness II	3 s.h.
091:341 (LAW:8714) Managing National Security	1-3 s.h.
091:342 (LAW:8742) Negotiations	2-4 s.h.
091:354 (LAW:8887) State and Local Government	1-3 s.h.
091:409 (LAW:9355) Child and Family Advocacy Clinic	arr.
091:455 (LAW:9413) Health Law and Policy Practicum	1-3 s.h.

Joint M.P.H./M.D.

The joint Master of Public Health/Doctor of Medicine requires a minimum of 42 s.h. of graduate credit in addition to the requirements of the M.D. degree. Students who complete the program enjoy expanded career opportunities and are well prepared to apply the principles of medicine and public health in their work. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint program.

The joint M.P.H./M.D. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students earn 9 s.h. in elective courses chosen from one of the following public health areas: biostatistics, community and behavioral health, epidemiology, health communication, health policy, occupational and environmental health. Students choose electives in consultation with their advisors in the Carver College of Medicine and the College of Public Health.

M.D. REQUIREMENTS

Students in the joint M.P.H./M.D. program must complete the curriculum of the M.D. program; see Doctor of Medicine (p. 942) (Carver College of Medicine) in the Catalog.

COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following M.D. courses toward the M.P.H. degree.

050:180 (MED:8301) Community-Based Primary Care (up to 10 s.h.)	arr.
050:183 (MED:8213) Healthcare Ethics, Law, and Policy	2 s.h.
078:101 (IM:8301) Inpatient Internal Medicine	arr.
078:102 (IM:8302) Outpatient Internal Medicine	3-4 s.h.

Joint M.P.H./Pharm.D.

The joint Master of Public Health/Doctor of Pharmacy requires 42 s.h. of graduate credit in addition to the requirements of the Pharm.D. degree. The program helps students develop expertise in public health related to pharmacotherapy, health promotion, disease prevention, and medication safety.

Graduates of the program may work in areas of interest common to pharmacy and public health, such as spread and treatment of disease, community health, and immunology; bioterrorism, terrorism, and preparedness; genetics; insurance; managed care; family and juvenile health; and protection of special populations. Employment opportunities are available in hospitals and clinics and with health care providers; private practice; insurance and managed care organizations; local, county, state, and federal government; public health governmental agencies; and colleges and universities.

Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program.

The joint M.P.H./Pharm.D. requires the following course work.

M.P.H. COMMON REQUIREMENTS

Students must complete courses listed under "Common Requirements" (core courses and practicum) for the Master of Public Health; see the beginning of this Catalog section.

M.P.H. ELECTIVES

Students select electives totaling 9 s.h. from one of the following public health areas: biostatistics, community and behavioral health, epidemiology, health communication, health policy, or occupational and environmental health.

Electives are chosen in consultation with the student's advisors in the Colleges of Pharmacy and Public Health.

PHARM.D. REQUIREMENTS

Students in the joint M.P.H./Pharm.D. program must complete the curriculum of the Pharm.D. program; see the College of Pharmacy (p. 1037) section of the Catalog. Students must be enrolled in the College of Pharmacy in order to take College of Pharmacy courses.

COURSES THAT COUNT TOWARD BOTH DEGREES

Students may count up to 12 s.h. earned in the following Pharm.D. courses toward the M.P.H. degree.

046:117 (PHAR:8204) Pharmacy Practice Lab IV (1 s.h. counts toward both degrees)	2 s.h.
046:122 (PHAR:8105) Social Aspects of Pharmacy Care	2 s.h.
046:129 (PHAR:8308) Pharmaceutical Economics and Insurance	3 s.h.
046:154 (PHAR:8241) Endocrinology, Ophthalmology, Women's and Men's Health Therapeutics	2 s.h.
046:156 (PHAR:8243) Cardiovascular Therapeutics	2 s.h.
046:165 (PHAR:8343) Infectious Disease Therapeutics	2 s.h.

Admission

Applicants to the M.P.H. program must have successfully completed one semester each of college algebra and biology.

All M.P.H. applicants must submit a Graduate College application form, three letters of reference, a statement of purpose that describes their interest in public health and identifies a specialty area, and a résumé highlighting professional experience in public health or in nursing. They also must submit scores on the Graduate Record Exam (GRE) General Test, LSAT, DAT, VCAT, GMAT, or another professional placement exam; scores must be at or above the median scores for test takers applying to similar programs.

Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Students may enter the M.P.H. program in fall and summer. Application deadlines for fall entrance to the M.P.H. program are May 1 for U.S. citizens and permanent residents, April 1 for international applicants. Application deadlines for summer entrance are April 1 for U.S. citizens and permanent residents, March 15 for international applicants.

Application deadline for the M.P.H. for practicing veterinarians is March 1.

Students may enter the M.P.H. joint programs in fall, spring, and summer. Contact the individual joint programs

for deadline information and see Admissions/Application Process on the Master of Public Health web site.

Financial Support

A limited number of modest tuition awards are available each year for M.P.H. students. For information on financing education through jobs, grants, and loans, contact the University's Office of Student Financial Aid.

Courses

170:099 (MPH:3000) Fundamentals of Public Health 3 s.h.

Introduction to public health; emphasis on issues, challenges, achievements, careers; historical events that serve as a foundation for public health practice.

170:101 (MPH:5100) Introduction to Public Health 3 s.h.

Concepts, structures, and activities in public health practice. Offered fall semesters and summer sessions.

170:172 (MPH:6500) Independent Study in Public Health arr.

In-depth pursuit of an area of special interest in public health.

170:173 (MPH:6600) Service-Learning in Public Health arr.

Community service learning experience directly related to goals and objectives of a specific public health course; faculty-guided planning and reflection.

170:175 (MPH:6700) Public Health Emergency Preparedness for Veterinarians and Other Public Health Disciplines 2 s.h.

Introduction to public health emergency preparedness for humans and animals; federal, state, local perspectives; preparing responders; preparedness information systems and communication techniques.

170:200 (MPH:6100) Essentials of Public Health arr.

Introduction and overview of the scope of public health; emphasis on history, definitions, issues, achievements, and future challenges; examples of public health research and practice.

170:299 (MPH:7000) M.P.H. Practicum Experience 0-6 s.h.

Comprehensive and integrated application of knowledge acquired in the M.P.H. program in a practice setting; demonstration of professional competence in public health practice. Prerequisites: 170:101 (MPH:5100), 171:161 (BIOS:5110), 172:101 (CBH:5105), 173:140 (EPID:5400), 174:102 (HMP:4000) or 174:200 (HMP:5005), and 175:197 (OE:4240). Requirements: an approved practicum proposal.

Occupational and Environmental Health

Head

Peter Thorne (Civil and Environmental Engineering)

Professors

Thomas Cook (Physical Therapy and Rehabilitation Science/International Programs), Kenneth Culp (Nursing), Kelley Donham (Nursing), William Field (Epidemiology), Laurence Fuortes (Internal Medicine/Epidemiology/International Programs), Fredric Gerr (Epidemiology/Internal Medicine), Vicki Grassian (Chemistry/Chemical and Biochemical Engineering/Education), Keri Hornbuckle (Civil and Environmental Engineering), Paul James (Family Medicine), Joel Kline (Internal Medicine), James Merchant (Nursing/Internal Medicine), Patrick O'Shaughnessy (Civil and Environmental Engineering), Gene Parkin (Civil and Environmental Engineering), Corinne Peek-Asa (Epidemiology/Nursing), Larry Robertson (Radiation Oncology), Jerald Schnoor (Civil and Environmental Engineering), Peter Thorne (Civil and Environmental Engineering)

Professors emeriti

L.W. Knapp Jr., Keith Long, Donald Morgan, Nancy Sprince, Craig Zwerling

Adjunct professor

Wayne Sanderson (Epidemiology)

Clinical professor

Patrick Hartley (Internal Medicine)

Associate professors

Hans-Joachim Lehmler, Gabriele Ludewig, Thomas Schnell (Neurology/Electrical and Computer Engineering/Industrial Engineering), David Wilder (Biomedical Engineering)

Adjunct associate professors

Kevin Kelly (Anthropology/Community and Behavioral Health), Kenneth McMains, Michael Rosmann

Clinical associate professors

David Osterberg (Geography), George Phillips (Pediatrics)

Clinical adjunct associate professor

Craig Bainbridge (Internal Medicine)

Assistant professors

Renee Anthony, Nathan Fethke (Biomedical Engineering), Matthew Nonnenmann, Marizen Ramirez

Assistant professor emerita

Pamela Willard

Adjunct assistant professors

Chandran Achutan, Danelle Bickett-Weddle, Razvan Chereches, Gregory Couser, Christine Deignan, Gregory Flamme, Dian Gottlob, Rex Kuye, Murray Madsen, John Rosecrance, Donald Simmons, Laurie Taylor, John Vargo, Londa Wanderwal, Peter Weyer, Michael Wichman, Catherine Zeman

Clinical assistant professor

Brenda Buikema

Adjunct clinical assistant professor

Edward Bottei (Emergency Medicine/Pediatrics/Pharmacy)

Adjunct associate

Daniel McGehee

Graduate degrees: M.S. in occupational and environmental health; Ph.D. in occupational and environmental health

Web site: <http://www.public-health.uiowa.edu/oeh>

The Department of Occupational and Environmental Health focuses on assessment of risk factors in the physical environment and their relationship to disease--particularly health problems of agricultural and industrial workers. Students are guided by faculty members whose research interests include rural health care delivery, agricultural health, environmental health, occupational medicine, occupational lung disease, mammalian toxicology, inhalation toxicology, ergonomics, indoor air quality, occupational injury, injury epidemiology, injury prevention programs, aerosol physics, air and water quality, environmental chemistry, analytical toxicology, and environmental health in developing countries.

Graduate Programs

- Master of Science in occupational and environmental health
- Doctor of Philosophy in occupational and environmental health

The department offers a joint master's degree program with the Graduate College's School of Urban and Regional Planning; see "Joint M.S./M.A. or M.S. in Urban and Regional Planning" below. It also offers two subtracks for the Master of Public Health: the ergonomics subtrack and the occupational and environmental health subtrack; see "M.P.H. Subtracks" below. In addition, it participates in the College of Public Health's graduate Certificate in Agricultural Safety and Health; see Agricultural Safety and Health (p. 1053) in the Catalog.

Individuals who are not enrolled in one of the department's degree programs but wish to take courses offered by the department may apply for professional improvement status. The department also offers an occupational medicine residency training program.

Master of Science

The Master of Science program in occupational and environmental health requires a minimum of 38 s.h. of graduate credit. It is offered with two optional subtracks: agricultural safety and health and industrial hygiene. The M.S. with agricultural safety and health subtrack requires a minimum of 40 s.h. of graduate credit; the M.S. with industrial hygiene subtrack requires a minimum of 43 s.h. of graduate credit. All M.S. students are required to complete a thesis.

The M.S. in occupational and environmental health without a subtrack requires the following work.

CORE COURSES

Students must complete all of the following courses.

175:197 (OE:4240) Environmental Health	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:260 (OE:5810) Environmental Toxicology	3 s.h.
175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.

069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0 s.h.

ELECTIVES

Credit earned in elective courses and the thesis completes the 38 s.h. required for the degree. Students work with their advisors to select electives appropriate for their professional goals.

THESIS

A thesis is required. Students may earn a maximum of 6 s.h. for the thesis. Additional thesis credit may be allowed for students who earn more than 38 s.h.

175:300 (OE:7000) Thesis/Dissertation	arr.
---------------------------------------	------

M.S. with Subtrack in Agricultural Safety and Health

The M.S. with subtrack in agricultural safety and health requires a minimum of 40 s.h. of graduate credit. The program prepares students for careers in education, health care, insurance, and agribusiness as specialists in agricultural safety and health.

The M.S. in occupational and environmental health with the agricultural safety and health subtrack requires the following work.

SUBTRACK CORE

Students must complete all of the following courses.

175:209 (OE:6110) Rural Health and Agricultural Medicine	3 s.h.
175:196 (OE:4110) Agricultural Safety: Theories and Practice	2 s.h.
175:210 (OE:6120) Current Topics in Agricultural Health (seminar, taken two times, once for 0 s.h. and once for 1 s.h.)	1 s.h.
175:203 (OE:7140) Preceptorship in Occupational and Environmental Health	1 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:260 (OE:5810) Environmental Toxicology	3 s.h.
175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0 s.h.

One of these:

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
175:182 (OE:4540) Statistics for Experimenters	3 s.h.

ELECTIVES

Credit earned in elective courses and the thesis completes the 38 s.h. required for the degree. Agricultural safety and health subtrack students must complete elective course work from one of five focus areas. The amount of credit required varies by focus area, as follows.

Industrial hygiene: 9 s.h.

Ergonomics: 9 s.h.

Occupational and environmental health: 9 s.h.

Occupational epidemiology: 9 s.h.

Occupational injury prevention: 8 s.h.

THESIS

A thesis is required. Students earn a minimum of 3 s.h. for the thesis.

175:300 (OE:7000) Thesis/Dissertation	arr.
---------------------------------------	------

M.S. with Subtrack in Industrial Hygiene

The M.S. with subtrack in industrial hygiene requires a minimum of 43 s.h. of graduate credit. The program prepares students for careers in industrial hygiene as well as the broad field of occupational and environmental health. Career opportunities are available in health and safety departments of industries; in consulting firms; in academic institutions; and in local, state, and federal public health agencies.

The M.S. in occupational and environmental health with the industrial hygiene subtrack requires the following work.

SUBTRACK CORE

Students must complete all of the following courses.

175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
175:182 (OE:4540) Statistics for Experimenters	3 s.h.
175:190 (OE:4310) Occupational Ergonomics I	3 s.h.
175:192 (OE:5410) Occupational Safety	3 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.
175:221 (OE:6450) Aerosol Technology	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:231 (OE:6420) Industrial Hygiene Fundamentals	3 s.h.
175:232 (OE:6430) Assessing Physical Agent Hazards	3 s.h.
175:233 (OE:6440) Control of Occupational Hazards	3 s.h.
175:260 (OE:5810) Environmental Toxicology	3 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	0 s.h.

ELECTIVES

Credit in elective courses and the thesis completes the 43 s.h. required for the degree. Students work with their advisors to select electives appropriate for their professional goals.

THESIS

A thesis is required. Students may earn a maximum of 6 s.h. for the thesis.

175:300 (OE:7000) Thesis/Dissertation	arr.
---------------------------------------	------

Joint M.S./M.A. or M.S. in Urban and Regional Planning

The joint Master of Science in occupational and environmental health/Master of Arts or Master of Science in urban and regional planning requires 65 s.h. of graduate credit. Separate application to each degree program is required; applicants must be admitted to both programs before they may be admitted to the joint degree program. For information about the graduate programs in planning, see Urban and Regional Planning (p. 874) (Graduate College) in the Catalog.

M.P.H. Subtracks

The Department of Occupational and Environmental Health offers two subtracks for the Master of Public Health: the ergonomics subtrack and the occupational and environmental health subtrack.

The ergonomics subtrack focuses on understanding how workplace environments contribute to musculoskeletal injuries and illness and on control of workplace risk factors. Graduates are prepared to work in industry and government agencies or pursue further academic training.

The occupational and environmental health subtrack provides a broad perspective on public health and career preparation for a variety of professional positions in occupational and environmental health.

For detailed information about the M.P.H. degree, see Master of Public Health Program (p. 1081) in the Catalog.

Doctor of Philosophy

The Doctor of Philosophy program in occupational and environmental health requires 72 s.h. of graduate credit. The program prepares students for professional and academic careers in environmental and occupational health. It is offered with two optional subtracks: agricultural safety and health, and industrial hygiene.

All doctoral students must complete a dissertation—a substantial scholarly treatise.

The Ph.D. in occupational and environmental health without a subtrack requires the following work.

CORE COURSES

Students must complete all of the following courses.

175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

ELECTIVES

Students must earn a minimum of 24 s.h. in non-research-related courses, including classroom courses or equivalent web-based courses. Students work with their advisors to select courses appropriate for their professional goals.

RESEARCH CREDIT

Students earn the remaining credit for the Ph.D. by completing any combination of the following courses or other classroom courses. All Ph.D. students must complete a dissertation.

175:172 (OE:7120) Independent Study in Occupational and Environmental Health	arr.
175:201 (OE:7130) Research in Occupational and Environmental Health	arr.
175:300 (OE:7000) Thesis/Dissertation	arr.

Ph.D. with Subtrack in Agricultural Safety and Health

The Ph.D. with subtrack in agricultural safety and health prepares doctoral students for academic, research, and policy-making careers in occupational and environmental health, with specialty in agricultural safety and health.

The Ph.D. in occupational and environmental health with the agricultural safety and health subtrack requires the following work.

SUBTRACK CORE

Students must complete all of the following courses.

175:209 (OE:6110) Rural Health and Agricultural Medicine	3 s.h.
175:196 (OE:4110) Agricultural Safety: Theories and Practice	2 s.h.
175:210 (OE:6120) Current Topics in Agricultural Health (seminar, taken two times, once for 0 s.h. and once for 1 s.h.)	1 s.h.
175:203 (OE:7140) Preceptorship in Occupational and Environmental Health	3 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
173:157 (EPID:5570) Zoonotic Diseases	2 s.h.
069:133 (PATH:8133) Introduction to Human Pathology for Graduate Students	4 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

One of these:

171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.
175:182 (OE:4540) Statistics for Experimenters	3 s.h.

ELECTIVES

Agricultural safety and health subtrack students must complete elective course work from one of five focus areas. The amount of credit required varies by focus area, as follows.

Industrial hygiene: 24 s.h.

Ergonomics: 15 s.h.

Occupational and environmental health: 24 s.h.

Occupational epidemiology: 11 s.h.

Occupational injury prevention: 11 s.h.

RESEARCH CREDIT

Students earn the remaining credit for the Ph.D. by completing any combination of the following courses or other classroom courses. All Ph.D. students must complete a dissertation.

175:172 (OE:7120) Independent Study in Occupational and Environmental Health	arr.
175:201 (OE:7130) Research in Occupational and Environmental Health	arr.
175:300 (OE:7000) Thesis/Dissertation	arr.

Ph.D. with Subtrack in Industrial Hygiene

The Ph.D. with subtrack in industrial hygiene provides doctoral students with specialized knowledge in industrial

hygiene in addition to their expertise in the broad field of occupational and environmental health.

The Ph.D. in occupational and environmental health with the industrial hygiene subtrack requires the following work.

SUBTRACK CORE

Students must complete all of the following courses.

175:231 (OE:6420) Industrial Hygiene Fundamentals	3 s.h.
175:232 (OE:6430) Assessing Physical Agent Hazards	3 s.h.
175:233 (OE:6440) Control of Occupational Hazards	3 s.h.
175:221 (OE:6450) Aerosol Technology	3 s.h.
175:234 (OE:6460) Quantitative Exposure Assessment: Study Design and Evaluation	3 s.h.
175:230 (OE:5620) Occupational Health	3 s.h.
175:192 (OE:5410) Occupational Safety	3 s.h.
175:190 (OE:4310) Occupational Ergonomics I	3 s.h.
175:260 (OE:5810) Environmental Toxicology	3 s.h.
175:197 (OE:4240) Environmental Health	3 s.h.
175:180 (OE:5010) Occupational and Environmental Health Seminar (taken three times, twice for 0 s.h. and once for 1 s.h.)	1 s.h.
170:200 (MPH:6100) Essentials of Public Health	1 s.h.
173:140 (EPID:5400) Epidemiology I: Principles	3 s.h.
171:162 (BIOS:5120) Design and Analysis of Biomedical Studies	3 s.h.
650:270 (GRAD:7270) Principles of Scholarly Integrity	1 s.h.

One of these:

175:182 (OE:4540) Statistics for Experimenters	3 s.h.
171:161 (BIOS:5110) Introduction to Biostatistics	3 s.h.

ELECTIVES

Students must earn a minimum of 12 s.h. in non-research-related courses, including classroom courses or equivalent web-based courses. Students work with their advisors to select courses appropriate for their professional goals.

RESEARCH CREDIT

Students earn the remaining credit for the Ph.D. by completing any combination of the following courses or other classroom courses. All Ph.D. students must complete a dissertation.

175:172 (OE:7120) Independent Study in Occupational and Environmental Health	arr.
175:201 (OE:7130) Research in Occupational and Environmental Health	arr.
175:300 (OE:7000) Thesis/Dissertation	arr.

Admission

The occupational and environmental health faculty takes several factors into consideration when evaluating applications for admission, including Graduate Record Exam (GRE) General Test scores, grade-point averages, letters of recommendation, intent and motivation for graduate study, and research interests. A student with deficiencies in one area may be admitted if all other components of his or her application are very strong.

All M.S. and Ph.D. program applicants must hold a baccalaureate degree and have a cumulative g.p.a. of at least 3.00 (M.S. applicants) or at least 3.25 (Ph.D. applicants). All applicants must have taken the Graduate Record Exam (GRE) General Test. A GRE combined verbal and quantitative score of 299 (1050 on the old test) or

higher is recommended for applicants to the M.S. program; a combined verbal and quantitative score of 302 (1100 on the old test) or higher is recommended for applicants to the Ph.D. program. For applicants who have not taken the GRE, the department considers scores from other standardized tests, such as the Medical College Admission Test (MCAT).

Applicants whose first language is not English and who do not hold a baccalaureate degree from an accredited college or university in the United States, the United Kingdom, Canada (except Quebec), Australia, or New Zealand must score at least 600 (paper-based) or 100 (Internet-based) on the Test of English as a Foreign Language (TOEFL). Applicants who score 550-599 (paper-based) or 81-99 (Internet-based) are required to take English fluency courses. Applicants who score below those ranges are not considered for admission.

Undergraduate preparation for M.S. applicants must include course work in mathematics, biology, chemistry, and either physical sciences or engineering, depending on the applicant's chosen specialty area.

M.S. applicants who intend to pursue the industrial hygiene subtrack also must have taken physics and mathematics through calculus; course work in biology, microbiology, and computer programming is highly recommended.

Completion of the M.S. program before beginning Ph.D. study is recommended. Undergraduate preparation for doctoral applicants must include at least two semesters of chemistry, one semester of physics, and one semester of calculus. Course work in biological sciences, microbiology, and computer programming are highly recommended, particularly for students interested in some specialized areas.

Applicants must meet the admission requirements of the Graduate College; see the Manual of Rules and Regulations of the Graduate College or the Graduate (p. 808) College section of the Catalog.

Students may enter the graduate programs only in the fall. February 1 is the priority application deadline for consideration for financial support; May 1 is the final application deadline.

Financial Support

Several graduate student awards, including tuition and stipend support, are available for individuals interested in industrial hygiene, agricultural safety and health, ergonomics, occupational epidemiology, or occupational injury prevention. Both stipend and tuition support are available for all occupational medicine residents. Full-time graduate students in good academic standing (those not admitted on conditional status) are eligible for a stipend and tuition support. All other students are eligible for tuition support only; requests are considered case-by-case. All recipients must be U.S. citizens or permanent residents.

POSTDOCTORAL POSITIONS

The College of Public Health's Environmental Health Sciences Training Program offers postdoctoral positions in environmental health/toxicology. Appointments are made for two years with the possibility of an additional year. Applicants must be U.S. citizens or permanent residents.

Residency Program

In cooperation with University of Iowa Hospitals and Clinics, the department offers residency training in occupational medicine for physicians seeking specialty training in occupational medicine. For information contact the director of the Occupational Medicine Residency Program.

Facilities and Resources

The Department of Occupational and Environmental Health is housed in the College of Public Health Building, on the University's health sciences campus, and at the Institute for Rural and Environmental Health, at the University of Iowa Research Park. College of Public Health-based laboratory facilities give researchers and students access to cutting-edge technologies for the study of occupational and environmental health.

The Inhalation Toxicology Facility provides a full array of inhalation toxicology, aerosol science, and bioaerosol assay services. A primary focus of the facility is the study of toxicants found in the agricultural environment and related exposure situations. The facility is particularly well-equipped for studying organic dusts and bioaerosols.

The Occupational Hygiene Laboratory provides expertise and equipment for exposure assessment in occupational settings. The laboratory offers a range of sample collection capabilities and an extensive inventory of sampling equipment. Field and laboratory services available through the laboratory support exposure-response studies and control technology development studies in a variety of occupational arenas, including agriculture, construction, and indoor environments (home and office).

A computer laboratory is available for student use, and a library collection is located at the Institute for Rural and Environmental Health.

HEARTLAND CENTER FOR OCCUPATIONAL HEALTH AND SAFETY

The Heartland Center for Occupational Health and Safety, one of 17 education and research centers funded by the National Institute of Occupational Safety and Health, provides training, education, and outreach. Its program areas are occupational health nursing, industrial hygiene, occupational medicine, ergonomics, agricultural safety and health, occupational injury prevention research, occupational epidemiology, and continuing education/outreach.

Courses

175:101 (OEH:3210) Health, Work, and the Environment 3 s.h.

Current topics in occupational and environmental health; how the United States protects workers, protects people from environmental agents, and reduces environmental harm. Same as 044:174 (GEOG:4130).

175:111 (OEH:4210) International Health 3 s.h.

Urgent health problems in the developing world and among disadvantaged populations in developed countries; biological, social, cultural, political aspects of international health problems; applications of research methods from epidemiology, environmental health, social sciences. Same as 152:111 (GHS:4210), 173:111 (EPID:4210).

175:170 (OEH:4510) Injury and Violence Prevention 3 s.h.

Theory, research, and practice of injury control; unintentional and intentional injuries; local, national, international injury issues. Same as 173:170 (EPID:4510).

175:171 (OEH:7110) Problems in Occupational and Environmental Health arr.

Didactic material in occupational and environmental health; may include tutorial, seminar, faculty-directed independent work (e.g., literature search, project, short research project).

175:172 (OEH:7120) Independent Study in Occupational and Environmental Health arr.

In-depth pursuit of an area in occupational and environmental health requiring substantial creativity and independence.

175:175 (OEH:4520) Research Methods in Disaster Studies 3 s.h.

Epidemiologic study of disasters and their health consequences; research to identify and reduce health effects, research in context of response and preparedness. Same as 173:175 (EPID:4520).

175:180 (OEH:5010) Occupational and Environmental Health Seminar 0-1 s.h.

Contemporary topics in occupational health, agricultural and comparative medicine, environmental health.

175:182 (OEH:4540) Statistics for Experimenters 3 s.h.

Application of statistical techniques to evaluate data derived from experimental samples designs; use of spreadsheets, statistical software; design and analysis of experiments; regression analysis; model building; practical applications. Same as 053:187 (CEE:4187).

175:185 (OEH:5020) Occupational Health Research Seminar 2 s.h.

Tools necessary for making critical assessment of published scientific research reports from a methodological perspective; examples from recently published research studies in occupational and environmental health. Corequisites: 171:161 (BIOS:5110) and 173:140 (EPID:5400).

175:190 (OEH:4310) Occupational Ergonomics I 2-3 s.h.

Principles of ergonomics, with focus on physical capabilities of workers and their interactions with their work environment; physiological basis of work, patterns of work, occupational risk factors for musculoskeletal and neurovascular disorders, workplace and equipment design, integration of ergonomics in manufacturing processes.

175:192 (OEH:5410) Occupational Safety 3 s.h.

Principles and practices of occupational safety; applications in industrial and other occupational settings; interactions with other disciplines.

175:195 (OEH:4230) Global Environmental Health 1 s.h.

Current problems, including transboundary movement of pollutants, vectors of infectious agents, global warming and climatic change. Prerequisites: 175:111 (OEH:4210) or 175:197 (OEH:4240).

- 175:196 (OE:4110) Agricultural Safety: Theories and Practice** 2 s.h.
General theories and practice of injury prevention from varied fields, including industrial safety, engineering, regulation, education, epidemiology, social psychology; strategic application in agriculture.
- 175:197 (OE:4240) Environmental Health** 3 s.h.
Survey of the field; assessment of contemporary human health issues associated with biological, chemical, physical factors of environment; critical review of environmental factors that affect health; public policies governing recognition, intervention, control.
- 175:198 (OE:4920) Solid and Hazardous Wastes** 3 s.h.
Sources, characteristics, collection, disposal of solid and hazardous wastes; environmental impacts of hazardous waste management; resource recovery systems. Requirements: for 053:158 (CEE:4158) — 053:050 (CEE:2150); for 175:198 (OE:4920) — 175:197 (OE:4240). Same as 053:158 (CEE:4158).
- 175:201 (OE:7130) Research in Occupational and Environmental Health** arr.
Research that may lead to a dissertation.
- 175:203 (OE:7140) Preceptorship in Occupational and Environmental Health** arr.
Work experience using knowledge and skills acquired in the classroom; arranged in conjunction with departmental or collegiate activities or with governmental agencies or private industry.
- 175:209 (OE:6110) Rural Health and Agricultural Medicine** 3 s.h.
Clinical orientation of specific health problems of rural residents, agricultural workers; rural health care delivery, socioeconomic issues in agriculture and their effects on health and safety of the agricultural population; occupational health problems, environmental health hazards in rural areas. Requirements: enrollment in College of Public Health or health sciences.
- 175:210 (OE:6120) Current Topics in Agricultural Health** 0-1 s.h.
Issues that affect the health of agricultural populations, such as agro-terrorism, antibiotic resistance, genetically modified organisms; current scientific literature.
- 175:211 (OE:5120) Veterinary Public Health: The Profession** 1 s.h.
History and overview of veterinary public health and the American College of Veterinary Preventive Medicine (ACVPM); preparation for ACVPM board of certification.
- 175:220 (OE:6510) Environmental and Occupational Epidemiology** 3 s.h.
Environmental and occupational epidemiologic study designs; basic and novel methods of exposure assessment; methodologies to improve study validity. Prerequisites: 173:140 (EPID:5400). Corequisites: 171:161 (BIOS:5110) and 175:197 (OE:4240). Same as 173:220 (EPID:6200).
- 175:221 (OE:6450) Aerosol Technology** 3 s.h.
Particle statistics and physics of aerosols, including inertia, diffusion, nucleation, evaporation, condensation, optics, electrical properties; relationship to fields such as agriculture, nanotechnology, environmental and occupational health, atmospheric chemistry, drug delivery.
- 175:230 (OE:5620) Occupational Health** 3 s.h.
Principles, practice of occupational medicine, fundamentals of industrial hygiene and safety, occupational health management, ergonomics, occupational health nursing. Offered fall semesters.
- 175:231 (OE:6420) Industrial Hygiene Fundamentals** 3 s.h.
Principles, with emphasis on recognition of chemical health hazards, physical health hazards at work. Corequisites: 175:230 (OE:5620), if not taken as a prerequisite.
- 175:232 (OE:6430) Assessing Physical Agent Hazards** 3 s.h.
Basic principles of recognizing and evaluating hazards presented by physical agents in occupational environments. Prerequisites: 175:231 (OE:6420).
- 175:233 (OE:6440) Control of Occupational Hazards** 3 s.h.
Physical science concepts applied to control of occupational hazards ranging from dusts to mists to vapors; strategies, management issues, personal protective equipment, implementation skills; in-depth instruction on local exhaust ventilation system design. Prerequisites: 175:231 (OE:6420).
- 175:234 (OE:6460) Quantitative Exposure Assessment: Study Design and Evaluation** 3 s.h.
Principles of designing occupational and environmental exposure assessment studies, analyzing exposure data, and conducting exposure-response evaluations. Prerequisites: 175:182 (OE:4540) or 171:161 (BIOS:5110).
- 175:251 (OE:6520) Injury Epidemiology** 3 s.h.
How epidemiology can be applied to injury prevention and control: epidemiology literature, specific methodological problems involved in the epidemiology of injuries, critical evaluation of research articles. Offered spring semesters of odd years. Prerequisites: 173:140 (EPID:5400). Same as 173:251 (EPID:6510).
- 175:252 (OE:4220) Environmental Health Policy** 3 s.h.
Major concerns in environment and human health, legislation enacted to deal with these concerns; emphasis on contemporary issues. Offered fall semesters of odd years. Requirements: for 175:252 (OE:4220) — 175:197 (OE:4240); for 053:204 (CEE:4220) — 053:050 (CEE:2150). Same as 053:204 (CEE:4220), 152:252 (GHS:4220).
- 175:253 (OE:6530) Epidemiology of Occupational Injuries** 3-4 s.h.
Epidemiological literature on occupational injuries and their prevention; focus on research methods. Offered spring semesters of even years. Prerequisites: 173:140 (EPID:5400). Same as 173:253 (EPID:6530).
- 175:260 (OE:5810) Environmental Toxicology** 3 s.h.
Sources, routes of absorption, effects of environmental toxicants affecting man; pathophysiology of toxicant actions, including those of air and water pollutants, metals, pesticides, solvents, food toxicants, chemicals. Requirements: college organic and inorganic chemistry, or physiology, or biochemistry.
- 175:265 (OE:6720) Advanced Toxicology** 4 s.h.
Hepatic metabolism and toxification mechanisms, pulmonary and immunotoxicology, nervous system poisons and their mechanisms of action, general and molecular concepts of chemical carcinogenesis. Prerequisites: 175:260 (OE:5810).
- 175:285 (OE:6610) Advanced Topics in Occupational Medicine** 2 s.h.
Skills and knowledge for evaluating and treating patients with work-related illness.

175:294 (OE:6320) Occupational Ergonomics II 3 s.h.

Application of ergonomic principles in varied work settings, through case study approach; participatory ergonomics, economics of ergonomics, workforce issues, psychosocial factors, shift work, integration of ergonomics into business models, current legislative issues, legal aspects of ergonomics, international perspectives; biomedical instrumentation used for risk factor exposure measurements.

175:295 (OE:6310) Clinical Ergonomics 3 s.h.

Clinical orientation to specific ergonomic problems and issues; preparation for conducting independent on-site ergonomic evaluations in occupational settings; experience developing and evaluating ergonomic inventions in an occupational setting; rotation through an occupational medicine clinic. Prerequisites: 175:190 (OE:4310).

175:300 (OE:7000) Thesis/Dissertation arr.**175:996 (OE:8610) Occupational Medicine** arr.

In-depth study of an area in occupational and environmental medicine, with clinical experience in an outpatient community setting. Four-week course. Requirements: M.D. enrollment.

Public Health Genetics

Interim head

Jeffrey D. Dawson

Graduate degree: Ph.D. in statistical genetics

Graduate certificate: statistical genetics

Graduate Programs

- Doctor of Philosophy in statistical genetics
- Certificate in Statistical Genetics

Admission to the Ph.D. and certificate programs in statistical genetics has been suspended. See the 2010-11 General Catalog for each program's requirements.

Courses

185:290 (PHG:7290) Statistical Genetics Seminar	1 s.h.
185:295 (PHG:7295) Research in Statistical Genetics	arr.
185:300 (PHG:7300) Dissertation in Statistical Genetics	arr.

Web site: <http://www.uiowa.edu/~ucoll/>

University College is home to a wide range of programs for University of Iowa students and precollege students. It includes major college-level programs such as the University of Iowa Honors Program, Study Abroad, Career Center Programs, and study at Iowa Lakeside Laboratory.

University College offers a program leading to the Bachelor of Applied Studies (B.A.S.), which is designed for graduates of community college technical programs who wish to complete a bachelor's degree by distance education. The B.A.S. provides alternatives to traditional majors. Students work with their advisors to plan their own emphasis areas, which may help them advance in their chosen careers, begin new careers, or prepare for graduate or professional study.

The college also offers undergraduate certificate programs in human rights, leadership studies, nonprofit management, and sustainability.

Some University College programs are designed to smooth entering students' transition to college life, such as College Success Initiatives and First-Year Programs, or to provide opportunities for populations underrepresented in the sciences and engineering, such as Iowa Biosciences Advantage.

Lifetime Leisure Skills courses in a broad range of sport and fitness activities are offered through University College, as are special courses for student orientation advisors, residence hall assistants, fraternity and sorority community leaders, and students who design web sites for University departments and offices.

The University's Reserve Officer Training Corps programs, Aerospace Studies (Air Force ROTC) and Military Science (Army ROTC), reside in University College.

In addition, University College offers courses in several precollege programs: the Belin-Blank Center for Gifted Education, the Center for Diversity & Enrichment, the Iowa Young Writers' Studio, the Secondary Student Training Program, and University of Iowa Upward Bound.

Courses offered through University College programs are taught by University of Iowa faculty and staff members.

Aerospace Studies (Air Force ROTC)

Head

Lt. Col. Darren R. Makela

Assistant professor

Capt. Anthony Clark

Web site: <http://www.uiowa.edu/~afrotc>

The Aerospace Studies Program administers the Air Force Reserve Officer Training Corps (AFROTC) at The University of Iowa. AFROTC prepares highly qualified students who are working toward a degree for commissions as officers in the United States Air Force.

AFROTC is voluntary, with courses open to all undergraduate and graduate students. The amount of AFROTC academic credit that may be applied toward a degree varies from college to college at the University. The College of Liberal Arts and Sciences, for example, accepts a maximum of 20 s.h.

In order to receive a commission, AFROTC cadets must complete all University of Iowa degree requirements as well as courses specified by the U.S. Air Force.

Programs

AFROTC offers programs lasting three or four years. Joining early gives students the opportunity to try AFROTC without obligation. It also can give them an advantage in the scholarship selection process.

The AFROTC program's three main components are the general military course (GMC), the professional officer course (POC), and field training (FT).

General Military Course

The general military course (GMC) consists of one AFROTC course (1 s.h.) and a leadership laboratory taken each semester for two years. Any student who meets AFROTC qualifications and is in good academic standing is eligible to participate in the GMC. Students normally apply for the GMC up to the time they earn 60 s.h. Students who have earned more than 60 s.h. may enroll in the GMC if they are willing to extend their academic plan by a semester or more.

Professional Officer Course

The professional officer course (POC) consists of one AFROTC course (3 s.h.) and a leadership laboratory taken each semester for two years. Students accepted into the POC make a commitment to serve a minimum of four years as U.S. Air Force officers. To enter the POC, students must be selected to attend and must successfully complete field training. Students generally take the POC during their last 60 s.h.

Field Training

All POC applicants must successfully complete field training at a U.S. Air Force base. Field training is an intensive, four-week program completed the summer after the sophomore year. It provides a first-hand look at the active duty Air Force and develops military leadership and discipline. Students participate in aircraft and aircrew

orientation, junior officer education, marksmanship, survival training, and physical fitness training. When they complete the program, they are ready to return to school and assume a leadership position in the AFROTC program.

Students receive authorized pay and allowances when they attend field training.

Activities

Students have the option to compete for acceptance to a variety of optional AFROTC summer training programs. They can shadow a junior officer in a career field of interest, or they can compete to attend the Air Force Academy's free-fall parachute, glider, or combat survival schools. Students can return to field training as cadet training assistants, go to the Pentagon to see how the Air Force operates, or travel to a foreign country for a cultural immersion program. The Air Force provides transportation, meals, lodging, and a daily expense allowance for all summer programs.

Throughout the year, students may learn more about the Air Force by choosing to participate in base visits, aircraft orientation rides, a Dining Out (a formal ball in Air Force tradition), and other activities.

The AFROTC Cadet Corps also sponsors many social events, including informal parties, formal dinners, and intramural athletics.

Education Delay

Cadets may request an education delay to postpone entry to active duty until after completion of an advanced degree or professional training program.

Financial Aid

Merit scholarships are available for one, two, and three years of study. They provide tuition, fees, a \$900 stipend for books, and a tax-free subsistence allowance of \$300-500 per month. Applicants are selected based on objective and subjective factors. Students should apply directly to the head of aerospace studies.

Nonscholarship cadets in the last two years of AFROTC are eligible for some financial assistance. They receive a tax-free subsistence allowance of \$450-500 per month. Uniforms are furnished as well as all books for AFROTC classes.

Courses

23A:010 (AERO:1100) Foundations of the U.S. Air Force I 1 s.h.

Introduction to U.S. Air Force: military customs and courtesies, basic oral and written communication techniques, careers available to Air Force officers. Requirements: first-year or sophomore standing.

23A:011 (AERO:1150) AFROTC Leadership Laboratory (LLAB) AS 100-FA 1 s.h.

A progression of experiences designed to develop leadership ability; military customs and courtesies, drill and ceremonies, military professional development, the life and work of a junior officer; leadership skills in a practical, supervised military lab setting. Offered fall semesters. Corequisites: 23A:010 (AERO:1100). Requirements: first-year or sophomore standing.

23A:012 (AERO:1200) Foundations of the U.S. Air Force II 1 s.h.

Continuation of 23A:010 (AERO:1100); leadership theory and practice, team building, diversity in the work force. Requirements: first-year or sophomore standing.

23A:013 (AERO:1250) AFROTC Leadership Laboratory (LLAB) AS 100-SP 1 s.h.

A progression of experiences designed to develop leadership ability; military customs and courtesies, drill and ceremonies, military professional development, the life and work of a junior officer; leadership skills in a practical, supervised military lab setting. Offered spring semesters. Corequisites: 23A:012 (AERO:1200). Requirements: first-year or sophomore standing.

23A:020 (AERO:2100) Evolution of USAF Air and Space Power I 1 s.h.

Air power from Civil War hot air balloons through World War II; emphasis on developments in U.S. Air Force.

23A:021 (AERO:2150) AFROTC Leadership Laboratory (LLAB) AS 200-FA 1 s.h.

See 23A:011 (AERO:1150). Offered fall semesters. Corequisites: 23A:020 (AERO:2100).

23A:022 (AERO:2200) Evolution of USAF Air and Space Power II 1 s.h.

Continuation of 23A:020 (AERO:2100); air power from post-World War II to present; emphasis on developments in U.S. Air Force.

23A:023 (AERO:2250) AFROTC Leadership Laboratory (LLAB) AS 200-SP 1 s.h.

See 23A:011 (AERO:1150). Offered spring semesters. Corequisites: 23A:022 (AERO:2200).

23A:130 (AERO:3100) Air Force Leadership Studies I 3 s.h.

Emphasis on management, leadership, communication skills required of an Air Force officer. Requirements: junior or higher standing.

23A:131 (AERO:3150) AFROTC Leadership Laboratory (LLAB) AS 300-FA 1 s.h.

See 23A:011 (AERO:1150). Offered fall semesters. Corequisites: 23A:130 (AERO:3100).

23A:132 (AERO:3200) Air Force Leadership Studies II 3 s.h.

Continuation of 23A:130 (AERO:3100); leadership topics in counseling, accountability, ethics. Requirements: junior or higher standing.

23A:133 (AERO:3250) AFROTC Leadership Laboratory (LLAB) AS 300-SP 1 s.h.

See 23A:011 (AERO:1150). Offered spring semesters. Corequisites: 23A:132 (AERO:3200).

23A:140 (AERO:4100) National Security Affairs and Active Duty Preparation I 3 s.h.

America's evolving national security policy; structure of national security agencies, development of national security strategies; global regions and their historical and current importance to U.S. security policies. Requirements: junior or higher standing.

23A:141 (AERO:4150) AFROTC Leadership Laboratory (LLAB) AS 400-FA 1 s.h.

See 23A:011 (AERO:1150). Offered fall semesters. Corequisites: 23A:140 (AERO:4100).

23A:142 (AERO:4200) National Security Affairs and Active Duty Preparation II 3 s.h.

Continuation of 23A:140 (AERO:4100); Department of Defense structure, missions, and responsibilities, with emphasis on role

of the U.S. Air Force; Air Force standards; preparation for active duty as Air Force junior officers. Requirements: junior or higher standing.

23A:143 (AERO:4250) AFROTC Leadership Laboratory (LLAB) AS 400-SP 1 s.h.

See 23A:011 (AERO:1150). Offered spring semesters. Corequisites: 23A:142 (AERO:4200).

23A:150 (AERO:2500) Readings in Contemporary Military Issues 1-4 s.h.

Independent research on the U.S. Air Force; historical topics, current missions, future technologies, comparisons to other nations.

Bachelor of Applied Studies

Coordinators

Nancy Romine, Jared S. Trullinger, Destiny L. Wallace

Undergraduate major: Bachelor of Applied Studies (B.A.S.)

Web site: <http://www.continuetolearn.uiowa.edu/programs/undergraduate/bas/index.html>

Undergraduate Program

- Bachelor of Applied Studies

The Bachelor of Applied Studies (B.A.S.) is designed for graduates of community colleges who wish to complete a bachelor's degree by distance education. The B.A.S. is a general undergraduate degree without a traditional academic major, but students have the option to include a certificate or an emphasis area in their program or to design an individual program. B.A.S. students may not earn minors.

Working with their academic advisors, B.A.S. students may plan programs designed to advance their careers, begin new careers, or prepare for graduate or professional study. Students who have specific career goals or advanced degree programs in mind should learn what educational background they will need in order to achieve their goals, and they should include appropriate course work in their B.A.S. programs.

Students may earn credit toward the degree through several types of courses, including Saturday & Evening Classes, web-based independent study courses, semester-based web courses, extension courses at sites throughout Iowa, and regular session courses.

Individuals interested in applying to the B.A.S. program should hold an A.A.S., an A.A., or an A.S. degree; see "Admission" below for more detailed admission requirements.

The B.A.S. is awarded by University College and is administered by the Division of Continuing Education.

Bachelor of Applied Studies

The Bachelor of Applied Studies requires a minimum of 120 s.h. and is intended to be completed entirely by distance education. Students must earn at least 30 s.h. of credit toward the degree in University of Iowa courses after admission to the B.A.S. program. They must earn at least 60 s.h. of the minimum 120 s.h. at four-year colleges, including 45 s.h. in course work defined as upper level.

The University is in the process of revising its course numbering system. Under the current system, University of Iowa courses are considered upper level if they are numbered 100 and above. Some courses numbered below 100 may be considered upper level for the B.A.S.; for a list of these courses, contact Distance Education. Under the new system, University of Iowa courses numbered 3000-4999 will be considered upper level for the B.A.S.

The program of study requires that students complete 12 s.h. in three of the following five distribution areas (total of 36 s.h.). In each distribution area, 6 of the required 12 s.h. must be earned in upper-level courses.

Humanities (e.g., literature, history, philosophy, religion)

Communication and arts (e.g., journalism, speech, drama, art, music)

Natural sciences and mathematics (e.g., geology, biology, statistics, computer science)

Social sciences (e.g., geography, psychology, economics, political science, anthropology)

Professional fields (e.g., business, education, nursing, social work, library science)

Students must maintain a cumulative g.p.a. of 2.00 or higher in all course work attempted, work undertaken at The University of Iowa, and all upper-level course work.

All University College policies regarding pass/nonpass and satisfactory/fail grading, academic standards, and so forth apply to B.A.S. students; see the B.A.S. Academic Policies Manual.

Optional Certificate or Emphasis Area

Students may include a certificate or an emphasis area in their B.A.S. programs, or they may design an interdisciplinary focus area. Certificates and emphasis areas are noted on students' transcripts.

CERTIFICATE IN ENTREPRENEURIAL MANAGEMENT

The Certificate in Entrepreneurial Management is offered by the Tippie College of Business. It requires 18-20 s.h. Courses are offered online. See Entrepreneurial Management (Tippie College of Business) in the Catalog or contact the Tippie College of Business for details.

CERTIFICATE IN NONPROFIT MANAGEMENT

The Certificate in Nonprofit Management is offered by University College in collaboration with Distance Education and the Larned A. Waterman Iowa Nonprofit Resource Center. The certificate requires 18 s.h. Courses are offered primarily online. See Nonprofit Management (p. 1128) (University College) in the Catalog or contact Distance Education for details.

CERTIFICATE IN PUBLIC HEALTH

The Certificate in Public Health (p. 1059) is offered by the College of Public Health and is designed primarily for individuals working in public health practice and for those considering public health careers. The certificate requires 12 s.h. Courses are offered online. Applicants must have substantial relevant work experience. Contact the College of Public Health for details.

CREATIVE WRITING EMPHASIS AREA

The creative writing emphasis area requires 18 s.h. It provides students with an understanding of the multiple facets of written communication. For details about the emphasis area and related careers, see the creative writing emphasis page on the Bachelor of Applied Studies web site.

HUMAN RELATIONS EMPHASIS AREA

The human relations emphasis area requires 18 s.h. It focuses on human development, personality theory, interpersonal and group communication, multiculturalism, professional ethics, and the development of helping skills. For details about the emphasis area and related careers, see the human relations emphasis page on the Bachelor of Applied Studies web site.

JUSTICE STUDIES EMPHASIS AREA

The justice studies emphasis area requires 18 s.h. It is a good choice for students who hold associate degrees in disciplines such as community service, corrections, criminal justice, law enforcement, police science, or public safety. For details about the emphasis area and related careers, see the justice studies emphasis page on the Bachelor of Applied Studies web site.

POLITICAL SCIENCE EMPHASIS AREA

The political science emphasis area requires 18 s.h. It focuses on the United States' political role in shaping social and public policy worldwide and on the interplay between foreign and domestic politics. For details about the emphasis area and related careers, see the political science emphasis page on the Bachelor of Applied Studies web site.

Admission

Individuals who wish to earn a B.A.S. must apply formally for admission to the program. Prospective students should contact the Distance Education office before applying.

The B.A.S. is designed for students who need to earn a bachelor's degree by distance education. Individuals who have access to the full range of the University's on-campus daytime classes should seek admission to the College of Liberal Arts and Sciences in order to earn a degree with a major. The interdepartmental studies major allows students to tailor a degree program to their individual interests (see Interdepartmental Studies (p. 349) in the Catalog).

Applicants to the B.A.S. program must have earned an Associate of Applied Science (A.A.S.) degree, an Associate of Arts (A.A.), or an Associate of Science (A.S.) from a community college that participates in the Iowa Community College/Regents Articulation Agreement or from a regionally accredited community college. They must have a minimum of 60 s.h. of approved transfer credit. Applicants who graduated from an Iowa community college must have a cumulative g.p.a. of at least 2.00; those who graduated from a community college outside Iowa must have a cumulative g.p.a. of at least 2.50.

The program recommends that B.A.S. applicants complete the following B.A.S. minimum core requirements before entering the program.

Rhetoric (course work equivalent to composition I, composition II, and speech)

Quantitative or formal reasoning (3 s.h.)

Social sciences (3 s.h.)

Values, society, and diversity (3 s.h.)

Business/management (6 s.h.)

See a B.A.S. advisor for a list of other acceptable courses.

Contact Distance Education for more information about the B.A.S. program.

Belin-Blank Center for Gifted Education

Director

Nicholas Colangelo

Associate director

Susan Assouline

Research director

David Lohman

Web site: <http://www.education.uiowa.edu/belinblank>

The Connie Belin & Jacqueline N. Blank International Center for Gifted Education and Talent Development is dedicated to serving the needs of the gifted community at local, national, and international levels. It offers programs for preservice and inservice educators, including the State of Iowa Talented and Gifted Endorsement. Its online and on-campus courses and workshops on gifted education support the professional development of educators worldwide.

The center is home to the Assessment and Counseling Clinic, the Institute for Research and Policy on Acceleration, and the National Institute for Twice-Exceptionality.

For more information about the center and its programs, contact the Belin-Blank International Center for Gifted Education and Talent Development or visit its web site.

Precollege Programs

The Belin-Blank Center offers a wide variety of programs for precollege students. The Exceptional Student Talent Search (grades 2-9) helps determine talented students' academic abilities and needs. Outreach programs include Invent Iowa (grades K-12), which encourages students to think about and solve problems through invention, and Scholastic Arts and Writing Awards (grades 7-12), which recognize achievement in the literary, visual, and performing arts.

The center's academic-year nonresidential programs include Challenge Saturdays (grades 3-8), which offers half-day Saturday classes in Iowa City and in Des Moines, Iowa, for high-ability students and for Belin-Blank Exceptional Student Talent Search members; and the Weekend Institute for Gifted Students (grades 3-8), which offers three-hour Saturday classes in Iowa City and in Council Bluffs, Iowa, for high-ability students. Challenges for Elementary School Students (grades 2-6) is a nonresidential summer program for Belin-Blank Exceptional Student Talent Search members that offers two weeks of half-day classes in Iowa City and Des Moines.

The Junior Science and Humanities Symposium (grades 9-12) engages students in original research and experimentation in the STEM fields (science, technology, engineering, and math). Students present the results of their research to a panel of judges and an audience of their peers at the Iowa Regional Junior Science and Humanities Symposium. The top two presenters are invited to present at the national symposium.

The National Academy of Arts, Sciences, and Engineering (grade 12) gives high-achieving students the opportunity to enroll at the University of Iowa before they finish

high school. To enter the program, students must have completed grade 11 or the equivalent. The program is open to high-ability students worldwide.

The Belin-Blank Center also offers the following residential programs, which are held on the University of Iowa campus during summer. Students in each program participate in cultural and recreational activities and have access to the University's libraries, computer facilities, and study areas. Housing and meals are provided at the University's residence halls.

Blank Summer Institute

The Blank Summer Institute for the Arts & Sciences (BSI) is a one-week program that provides an intensive, advanced educational experience designed to enhance exceptionally talented students' intellectual and social growth. The BSI study plan, which complements the regular school curriculum, consists of eight courses that explore advanced science, math problem solving, social sciences, creative writing, invention and innovation, visual arts, performing arts, and global and cultural studies.

To be eligible for BSI, students must be Iowa residents, must be completing grade 7 or 8, and must be nominated by their schools. Students selected for BSI receive a Myron and Jacqueline Blank Summer Scholarship to cover part of the institute's cost.

Junior Scholars Institute

The Junior Scholars Institute (JSI) is a one-week program in which students take a single advanced course for the entire week. Students choose from courses on subjects ranging from creative writing to engineering to the arts.

JSI is open to students from around the world. To be eligible, students must be completing grade 6, 7, or 8. They may nominate themselves and must submit a nomination packet. Students selected for JSI receive a scholarship to cover part of the institute's cost.

National Scholars Institute

The National Scholars Institute (NSI) is a one-week program that provides an advanced educational experience designed to enhance the development of talent in one advanced-level course. Students select one of the following seven courses: Visual Arts Studio, Creative Writing, Asian and Pacific Studies, Advanced Leadership, Physics, Computers, or Engineering.

To be eligible for the institute, students must be completing grade 9, 10, or 11 and must submit a nomination packet. Students selected for the institute receive a scholarship to cover part of the institute's cost.

Secondary Student Training Program

Students in grades 9-11 may nominate themselves for the Secondary Student Training Program (SSTP), a six-week residential summer research program at the University of Iowa. SSTP students conduct scientific research in University laboratories under the guidance of a faculty mentor. See Secondary Student Training Program (p. 1132) in the Catalog to learn more.

Iowa Talent Project

The Belin-Blank Center collaborates with the Des Moines and Cedar Rapids school districts through the Iowa Talent Project (ITP) to identify talented and gifted students from underrepresented populations who are taking Advanced

Placement (AP) courses as they progress through secondary school. ITP participants attend a residential summer program at The University of Iowa that focuses on college preparation. They also complete AP courses and take at least three AP exams. Upon finishing high school, successful ITP students are admitted to The University of Iowa. Many earn an Iowa Talent Project scholarship.

.

Career Center Programs

Director

David Baumgartner

Web site: <http://www.careers.uiowa.edu>

The University of Iowa Marvin A. and Rose Lee Pomerantz Career Center administers the University's Career Center Programs. The center helps students explore and plan careers, search for employment and internship opportunities, and prepare for interviews. Students may use the Pomerantz Career Center's services at any time during their academic careers, but the center encourages entering first-year and transfer students to visit after they arrive on campus and to make use of all of the center's services throughout their study at Iowa.

The center offers online workshops throughout the year on a variety of topics, including résumé writing, job and internship search techniques, employer research, interviewing skills, and more. It hosts several career fairs each fall and spring, offering students the opportunity to talk with and learn about prospective employers.

The Pearson Library contains career-related books, periodicals, and online resources—some broad in scope, others targeted to specific careers or jobs. Employer recruiting brochures join information on salaries, geographical cost of living, resources for jobs and internships, graduate schools, and other topics.

The Pomerantz Career Center facilitates job and internship interviewing with a wide range of employers: regional, national, and international; profit and nonprofit; state and federal government. Employers conduct on-campus interviews at specific times during the year, and many post immediate openings year-round for internships and for full-time positions. On-campus recruiting and job postings are available on the center's web site. The center also offers career-related courses.

The center helps students find internships in Iowa, the Midwest, nationwide, and sometimes in other countries. For a list of discipline-related internships (all require course registration), see "Internships" under "Courses" below.

For more information about the center's services and facilities, contact the Pomerantz Career Center.

Courses

Career Exploration

409:102 (CCP:2000) Job Search Strategies 2-3 s.h.

How to conduct successful job search; résumé development, interviewing, networking, branding, job search strategies; develop career management plan.

409:110 (CCP:1300) Career Exploration 2 s.h.

Helps students identify their interests, skills, and values relative to majors and careers; self-assessment, information interviews, research on majors and careers, site visits.

Internships

Students must register before beginning an internship in order for the internship to be noted on the transcript.

409:001 (CCP:1001) Internship in Art 0 s.h.

409:002 (CCP:1002) Internship in Biological Science 0 s.h.

409:003 (CCP:1003) Internship in Communication Sciences and Disorders 0 s.h.

409:004 (CCP:1004) Internship in Chemistry 0 s.h.

Prerequisites: 004:122 (CHEM:2220). Requirements: junior standing, completion of 12 s.h. of UI course work, and minimum 2.75 cumulative g.p.a.

409:006 (CCP:1006) Internship in Business 0 s.h.

409:007 (CCP:1007) Internship in Education 0 s.h.
Requirements: admission to Teacher Education Program.

409:008 (CCP:1008) Internship in English 0 s.h.

409:009 (CCP:1009) Internship in French 0 s.h.

409:012 (CCP:1012) Internship in Geoscience 0 s.h.
Requirements: cumulative g.p.a. of at least 2.50, g.p.a. in geology courses of at least 3.00, and grade of C or higher in 012:052.

409:013 (CCP:1013) Internship in German 0 s.h.

409:015 (CCP:1015) Internship 0 s.h.

409:016 (CCP:1016) Internship in History 0 s.h.

409:019 (CCP:1019) Internship in Journalism 0 s.h.

409:020 (CCP:1020) Internship in Classics 0 s.h.

409:021 (CCP:3021) Internship in Library Science 0 s.h.

409:022 (CCP:1022) Internship in Computer Science 0 s.h.
Prerequisites: 22C:021 (CS:2230), and 22M:025 (MATH:1850) or 22M:031 (MATH:1550). Requirements: 24 s.h. of undergraduate course work.

409:024 (CCP:1024) Internship in Museum Studies 0 s.h.

409:025 (CCP:1025) Internship in Music 0 s.h.

409:027 (CCP:1027) Internship in Health and Human Physiology 0 s.h.
Requirements: admission to health and human physiology.

409:029 (CCP:1029) Internship in Physics and Astronomy 0 s.h.

409:030 (CCP:1030) Internship in Political Science 0 s.h.

409:031 (CCP:1031) Internship in Psychology 0 s.h.
Requirements: completion of 12 s.h. of departmental course work.

409:032 (CCP:1032) Internship in Religious Studies 0 s.h.

409:033 (CCP:1033) Internship in Literature, Science, and the Arts 0 s.h.

409:034 (CCP:1034) Internship in Sociology 0 s.h.

409:035 (CCP:1035) Internship in Spanish 0 s.h.

409:036 (CCP:1036) Internship in Communication Studies	0 s.h.	409:104 (CCP:2010) Des Moines Center Classroom	3 s.h.
Requirements: declared communication studies major, completion of 12 s.h. of departmental course work, and minimum 2.50 cumulative g.p.a.		Classroom portion of Des Moines Center internship program; in-depth look at Iowa's place in national landscape; readings, discussions, field trips, and experiential activities to show ways in which Iowa situates, articulates, and forms its identity in national landscape; analysis of varied representations of the state; voice that Iowa articulates in national conversation; opportunities that Iowa has to offer recent graduates; businesses and industries located within Iowa and specifically, Des Moines. Corequisites: 409:105 (CCP:2011).	
409:039 (CCP:1039) Internship in Asian Languages and Literature	0 s.h.	409:105 (CCP:2011) Des Moines Center Internship	9 s.h.
409:041 (CCP:1041) Internship in Russian	0 s.h.	Professional internship in Des Moines, Iowa; offered in areas including business, finance, accounting, marketing, nonprofit organizations, outreach, environmental science, government. Corequisites: 409:104 (CCP:2010). Requirements: enrollment in business or engineering or liberal arts and sciences; 2.50 g.p.a.; and sophomore or higher standing.	
409:042 (CCP:1042) Internship in Social Work	0 s.h.	409:112 (CCP:1112) International Internship: London	2 s.h.
409:044 (CCP:1044) Internship in Geography	0 s.h.	One-week orientation to London followed by seven-week unpaid internship. Requirements: acceptance to undergraduate internship program in London.	
Requirements: sophomore standing, completion of 12 s.h. of departmental course work, and minimum 2.25 cumulative g.p.a.		409:113 (CCP:1113) Internship in Anthropology	0 s.h.
409:045 (CCP:1045) Internship in American Studies	0 s.h.	409:114 (CCP:1114) International Internship: Madrid	2 s.h.
409:048 (CCP:1048) Internship in Cinema and Comparative Literature	0 s.h.	Ten-week program, includes orientation, Spanish language school, and eight-week unpaid internship. Requirements: acceptance to undergraduate internship program in Madrid.	
409:049 (CCP:1049) Internship in Theatre Arts	0 s.h.	409:115 (CCP:1115) International Internship: Paris	2 s.h.
409:061 (CCP:1061) Internship in Microbiology	0 s.h.	Ten-week program, includes orientation, French language school, and eight-week unpaid internship. Requirements: acceptance to undergraduate internship program in Paris.	
409:062 (CCP:1062) Internship in Informatics	0 s.h.	409:122 (CCP:1122) Internship in Mathematics	0 s.h.
Prerequisites: 22C:080 (CS:2110). Requirements: 24 s.h. of undergraduate course work.		Prerequisites: 22M:025 (MATH:1850) or 22M:031 (MATH:1550). Requirements: junior standing, completion of 12 s.h. of UI course work, and cumulative g.p.a. of at least 2.75.	
409:070 (CCP:1070) Global Internship Preparation	1 s.h.	409:131 (CCP:1131) Internship in Gender, Women's, and Sexuality Studies	0 s.h.
Classroom preparation for international summer internship program in Paris, London, or Madrid; internship goal setting, predeparture orientation activities, reflective learning, professional development concepts.		409:137 (CCP:1137) Internship in Dance	0 s.h.
409:071 (CCP:1071) ROTC International Cultural Internship	0 s.h.	409:145 (CCP:1145) Internship in Interdepartmental Studies	0 s.h.
Internship opportunity to develop leaders capable of positive interactions with other cultures and their governments, and who possess the language skills to effectively communicate cultural sensitivities when interacting with American and international media; recent locations include China, Indonesia, Japan, Morocco, Russia, Senegal, Slovakia, Tajikistan, Tanzania, Ghana, Thailand, Botswana, Costa Rica, Czech Republic, and Vietnam. Requirements: ROTC member and Military Science program chair approval.		409:153 (CCP:1153) Internship in Aging Studies	0 s.h.
409:072 (CCP:1072) Internship in Human Rights	0 s.h.	409:159 (CCP:1159) Internship in Environmental Sciences	0 s.h.
Recognition of approved work in human rights arena.		Requirements: cumulative g.p.a. of at least 2.50.	
409:074 (CCP:1074) Office of the Provost Internship	0 s.h.	409:169 (CCP:1169) Internship in Leisure Studies	0 s.h.
Internship in the Office of the Provost.		409:170 (CCP:3170) Internship in Public Health	0 s.h.
409:091 (CCP:1091) Internship in Law	0 s.h.	Requirements: admission to the College of Public Health.	
409:099 (CCP:1099) Internship in Biochemistry	0 s.h.	409:171 (CCP:3171) Internship in Biostatistics	0 s.h.
409:103 (CCP:1103) Internship in Linguistics	0 s.h.	Requirements: admission to the College of Public Health.	
		409:172 (CCP:3172) Internship in Community and Behavioral Health	0 s.h.
		Requirements: admission to the College of Public Health.	
		409:173 (CCP:3173) Internship in Epidemiology	0 s.h.
		Requirements: admission to the College of Public Health.	

- 409:174 (CCP:3174) Internship in Health Management and Policy** 0 s.h.
Requirements: admission to the College of Public Health.
- 409:175 (CCP:3175) Internship in Occupational and Environmental Health** 0 s.h.
Requirements: admission to the College of Public Health.
- 409:187 (CCP:1187) Internship in International Studies** 0 s.h.
- 409:188 (CCP:1188) Internship in Performing Arts** 0 s.h.
- 409:190 (CCP:2020) Washington Center Internship Program** arr.
Internship placements for students in all University of Iowa majors (typical placements include Congress, the White House, the Center for Strategic and International Studies, the U.S. Department of Commerce, the U.S. Department of Defense, the Environmental Protection Agency, CNN, C-SPAN, BET, MCI Center, the Smithsonian Institution, the National Institutes of Health, Amnesty International, the Children's Defense Fund, Mexican Cultural Institute Embassies, the U.S. Marshall's Office, federal courts, law offices, and the U.S. Secret Service); participation in Presidential Lecture Series and Congressional Breakfast Series. Full semester or summer session.
- 409:191 (CCP:2021) Washington Center Seminar** arr.
Combined classroom instruction, faculty-led discussions, and experiential work opportunities; usually offered in Washington, D.C., occasionally at other locations tied to an event (e.g., political convention); one or two weeks.
- 409:192 (CCP:1192) Internship in Statistics and Actuarial Science** 0 s.h.
Requirements: junior standing.
- 409:193 (CCP:1193) Internship in Accounting** 0 s.h.
Requirements: admission to Tippie College of Business and accounting major.
- 409:194 (CCP:1194) Internship in Finance** 0 s.h.
Requirements: admission to Tippie College of Business and finance major.
- 409:195 (CCP:1195) Internship in Marketing** 0 s.h.
Requirements: at least 3.00 g.p.a. in 06M:100 (MKTG:3000) and 06M:134 (MKTG:3100), admission to Tippie College of Business, and marketing major.
- 409:196 (CCP:1196) Internship in Economics** 0 s.h.
Requirements: economics major.
- 409:197 (CCP:1197) Internship in Management and Organizations** 0 s.h.
Requirements: admission to Tippie College of Business and management and organizations major.
- 409:198 (CCP:1198) Internship in Management Information Systems** 0 s.h.
Requirements: admission to the Tippie College of Business and management sciences major.
- 409:201 (CCP:1201) Academic Internship** 1-3 s.h.
Opportunity for students to expand on internship experiences by developing learning objectives and reflecting on experience; how internship experience relates to academic course work and future career goals. Requirements: secured internship, cumulative g.p.a. of at least 2.00, and completion of 24 s.h. of UI course work (12 s.h. for transfer students).
- 409:217 (CCP:1217) Internship in Fundraising and Philanthropy Communication** 0 s.h.
Supervised experience working with fundraising and development professionals in nonprofit organization. Requirements: sophomore standing and completion of 12 s.h. of UI course work.

Center for Diversity & Enrichment

Director

Nancy J. Humbles

Web site: <http://cde.uiowa.edu/>

The Center for Diversity & Enrichment offers the Iowa First Nations summer program for students entering grades 11 and 12. The program offers Native American students the opportunity to explore the varied educational opportunities offered on the University of Iowa campus and by higher education in general.

Iowa First Nations students live on campus for one week (Monday through Friday), spending five nights in one of the University's residence halls. The program features structured field trips to varied campus departments, hands-on classroom experiences, and involvement in activities on campus and in the community.

Students interested in applying to the Iowa First Nations program should contact the Center for Diversity & Enrichment.

Courses

402:002 (CDE:0002) Life Science Summer Program 0 s.h.

402:023 (CDE:0023) Iowa First Nations 0 s.h.

College Success Initiatives

Coordinator

Brian J. Corkery

The College Success Initiatives program is designed to enrich students' experiences at The University of Iowa. College Success Initiatives offers the following courses focused on helping first-year and entering students make a successful transition to the University: 407:001 (CSI:1100) The College Transition, a traditional first-year experience course; 407:011 (CSI:2100) The Transfer Transition, a transition course for transfer students; 407:007 (CSI:1700) Online at Iowa, a web-based course introducing students to electronic tools and resources at The University of Iowa; and 407:002 (CSI:1500) College Success Seminar, a course for first-year students who have been placed on academic probation.

College Success Initiatives is administered by the associate provost for undergraduate education. For more information about College Success Initiatives courses, contact the Academic Advising Center.

Courses

407:001 (CSI:1100) The College Transition 2-3 s.h.

College culture, University of Iowa resources, refinement of study skills, test taking, identification of personal values, self-motivation, goal setting; taught in small sections with emphasis on classroom discussion. Requirements: entering first-year student.

407:002 (CSI:1500) College Success Seminar 1 s.h.

Skills, habits, and attitudes essential for college success; self-assessment, goal setting, problem solving, motivation, time management, study skills, preparing for and taking tests; campus resources, including the Pomerantz Career Center, University Counseling Service; emphasis on class participation and completion of assignments related to course topics. Requirements: selected students with first-year standing in the College of Liberal Arts and Sciences.

407:004 (CSI:1150) The College Transition Lab 1 s.h.

Preparation for affiliated lecture course; practical context to apply, evaluate, and refine study skills strategies explored in 407:001 (CSI:1100); expand study strategies, enhance grasp of affiliated course material, and apply study skills to future course work. Corequisites: 407:001 (CSI:1100). Requirements: Concurrent enrollment in a CIC affiliated lecture course.

407:007 (CSI:1700) Online at Iowa 1 s.h.

Web-based introduction to electronic tools and resources at The University of Iowa; web sites, e-mail, databases; how to research courses, register for classes, and review grades; computer security; virtual campus tour.

407:008 (CSI:1800) Managing Your Money: Personal Finance for College Students 1 s.h.

Introduction to basic concepts and practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans.

407:011 (CSI:2100) The Transfer Transition 2 s.h.

University of Iowa resources, career and major selection, identification of personal values, self-motivation, goal setting, study and test-taking skills; small sections with classroom discussion. Requirements: entering transfer student standing.

407:025 (CSI:1000) Mindfulness: Being Here With It All 2 s.h.

Training in Mindfulness-Based Stress Reduction; application to dealing with life changes (i.e., transition to University life); navigating daily life (academics, roommates, schedules); improving academic skills; self-regulation of emotions; questions of meaning and purpose. Same as 07P:026 (PSQF:1026).

407:101 (CSI:2200) Learning Community Peer Educator arr.

Training and/or service as a peer educator in the University's living-learning communities program. Requirements: selection as a Learning Community Peer Educator.

First-Year Programs

Director

Beth F. Ingram

Assistant director

Andrew Beckett

First-Year Programs offers courses designed for first-year students and provides special opportunities for students to interact with faculty and senior administrators.

Courses

420:029 (FYP:1000) First-Year Seminar 1 s.h.

Introduction to the intellectual life of the University; opportunity to work closely with a faculty member or senior administrator; active participation that eases the transition to college-level learning.

420:050 (FYP:1100) College Expectations: Safe and Smart 0 s.h.

Alcohol and sexual violence awareness training.

420:060 (FYP:2100) College Expectations for Transfer Students 0 s.h.

Alcohol and sexual violence awareness training.

Human Rights

Director

Greg Hamot

Associate director

Amy Weismann

Affiliated faculty

Loyce Arthur (Theatre Arts), Jeremy Brigham (International Programs), Diana Cates (Religious Studies), Mary Cohen (Education/Music), Carolyn Colvin (Education), Brian Farrell (Law/International Programs), Elizabeth Heineman (History/Gender, Women's, and Sexuality Studies), Maureen McCue (Public Health/International Programs), David Osterberg (Occupational and Environmental Health), Jacki Rand (History/American Indian and Native Studies), Shelton Stromquist (History), Burns H. Weston (Law), Andrew Willard (International Programs/University of Iowa Honors Program), Adrien Wing (Law)

Undergraduate certificate: human rights

Web site: <http://international.uiowa.edu/uichr/certificate>

Human rights concern the inherent dignity of all human beings and the promotion and protection of that dignity regardless of race, color, gender, sexual orientation, religion, culture, nationality, birth, or other status. The Certificate in Human Rights program broadens students' understanding of human rights issues and helps them learn how to use an interdisciplinary approach to identify solutions.

Course work for the certificate is drawn from units across The University of Iowa. It prepares students to examine societal problems critically and to design specific solutions to human rights dilemmas in a wide range of areas, such as civil governance, the situations of women and racial and sexual minorities, child welfare, socioeconomic development and well-being, hunger and poverty, education, health, immigration, ecological sustainability, and mass violence.

Undergraduate Program

- Certificate in Human Rights

Certificate

The Certificate in Human Rights requires 18 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student's transcript.

Individuals must declare their intent to earn the certificate and must submit a plan of study; see the Certificate in Human Rights web site for details.

Work for the certificate consists of two core courses (6 s.h.) and several approved electives (12 s.h.) chosen from the lists under "Elective Courses" below.

Students may use certificate courses to fulfill requirements of the College of Liberal Arts and Sciences General Education Program (p. 276) and requirements of majors and minors. They may count a maximum of 6 s.h. of transfer credit toward the certificate with approval

from the certificate program's faculty advisory group. A maximum of 3 s.h. of credit graded satisfactory/unsatisfactory may be counted toward the certificate.

The Certificate in Human Rights requires the following course work.

CORE COURSES

Philosophical foundations and contemporary issues in human rights—one of these (students who wish to take more than one course may use the others as certificate electives):

091:193 (LAW:8570) Human Rights in the World Community	3 s.h.
016:101 (HIST:4101) History of Human Rights	3 s.h.
216:080 (HRTS:2115)/187:080 (IS:2115) Introduction to Human Rights	3 s.h.

Human rights in practice—all students must take this course:

216:180 (HRTS:3910)/187:180 (IS:3910) Human Rights Advocacy	3 s.h.
---	--------

ELECTIVE COURSES

Certificate students must earn 12 s.h. of credit in elective course work chosen from the following lists. They may count a maximum of 6 s.h. of credit from any one department or program toward the certificate elective requirement.

The courses below are grouped by theme to help students choose electives that meet their interests and objectives, but some courses could fit into more than one of these groupings. Each course's content is described on ISIS.

Students who would like to take a course not included in the following lists may submit a petition to the certificate's faculty advisory group. The petition should state the course's number and name and tell why the student wishes to include the course in his or her certificate electives. The petition should be submitted before the preregistration period for the session in which the course will be offered. Students must receive approval from the advisory group in order to count the course toward the certificate. Many courses have prerequisites, and some require enrollment in certain programs or colleges; students should consult the certificate program advisor to be sure they meet the registration requirements for the course they are petitioning to count toward the certificate.

Culture

01H:167 (ARTH:3970) African American Art and Architecture (enroll in section 1)	3 s.h.
16A:104 (HIST:4201) History of the American Deaf Community	3-4 s.h.

Rights of the Child

- 07C:176 (RCE:4176) Child Abuse: Assessment, Intervention, and Advocacy 3 s.h.
- 216:175 (HRTS:3900)/187:175 (IS:3900) Child Labor and International Human Rights 3 s.h.

Topics

- 187:003 (IS:2012) Issues in International Studies 1 s.h.
- 187:176 (IS:3905)/216:176 (HRTS:3905) Topics in Human Rights 1-3 s.h.

216:173 (HRTS:4283) U.S. Women's History as the History of Human Rights 3-4 s.h.

History of human rights in the United States traced through the perspective of women; aspects of women's experience (social, political, intellectual) related to fundamental human rights—right to a nationality, right to life, liberty and personal security, right to freedom of movement, right to take part in the government of their country, right to own property; these and other rights specified by the United Nations in the Universal Declaration of Human Rights, 1948; different history of men and women enjoying these rights; how human rights have been constructed and experienced in the United States from the era of colonial settlement to present. Same as 16A:173 (HIST:4283), 045:173 (AMST:4283), 131:173 (GWSS:4283).

216:174 (HRTS:3895) Human Rights and Community Development 3 s.h.

Exploration of connections and tensions between human rights as defined by member states of the United Nations; meaning and practice of community development, especially but not exclusively, in the United States; focus on critical thinking, in-depth discussion of readings, group work, and individual writing.

216:175 (HRTS:3900) Child Labor and International Human Rights 3 s.h.

Complexity of child labor in global, regional, national, and local contexts; international human rights system, current programs and strategies for reducing or eliminating abusive child labor. Same as 187:175 (IS:3900).

216:176 (HRTS:3905) Topics in Human Rights 1-3 s.h.

Examination of emerging human rights issues from an interdisciplinary and international perspective. Same as 187:176 (IS:3905).

216:180 (HRTS:3910) Human Rights Advocacy 3 s.h.

Theoretical foundations and critical issues for international human rights advocacy and international humanitarian movements. Same as 187:180 (IS:3910).

216:181 (HRTS:3915) Human Rights and the Arts 3 s.h.

Ways in which violations of and struggle for human rights have affected and been affected by literary, musical, visual, architectural, and theatrical/dramatic arts in various countries past and present; art considered as expression, as market of identity, and as historical document.

Courses

216:080 (HRTS:2115) Introduction to Human Rights 3 s.h.

Analysis and evaluation of the international human rights program; relationship between human rights and international law. Same as 187:080 (IS:2115).

Intercollegiate Athletic Participation

Students who are members of University of Iowa intercollegiate athletics teams and are certified to participate in their sport may register for 408:021 (IAP:1021) Intercollegiate Athletic Participation. Each section of the course represents a specific sports team; students register for the appropriate section. Registration requires approval from the director of athletic student services. Qualified students may repeat the course. Members of University of Iowa sport clubs are not eligible to enroll in 408:021 (IAP:1021).

Courses

408:021 (IAP:1021) Intercollegiate Athletic Participation	1 s.h.

Iowa Biosciences Advantage

Co-directors

Vincent G.J. Rodgers (Physics and Astronomy), Lori Adams (Biology)

Lecturer

Alex Warner

Web site: <http://ogi.grad.uiowa.edu/iba/>

Iowa Biosciences Advantage (IBA) is a highly competitive undergraduate research and academic enrichment program funded by the National Institutes of Health. The program identifies academically talented undergraduate, underrepresented minority students who aspire to research careers and gives them first-rate training that facilitates entry into doctoral programs in biomedical, behavioral, and biophysical sciences.

Iowa Biosciences Advantage students have opportunities to work in research laboratories with faculty mentors during the course of their undergraduate careers. The program's faculty represents a broad range of disciplines in the basic and biomedical sciences. IBA students also benefit from specialized course work, career workshops, and academic advising for biomedical and bioscience careers.

Students selected for IBA must maintain good standing in academics and research. Good academic standing requires a g.p.a. of at least 3.00 and is evaluated at the end of each semester. Good research standing is determined by each student's research mentor. Students work with their mentors throughout the academic year and summer.

STUDENTS ACCEPTED FROM HIGH SCHOOL

Students admitted to IBA from high school spend their first year at The University of Iowa establishing good academic standing and conducting laboratory rotations.

During fall semester, IBA students enroll in 407:001 (CSI:1100) The College Transition (2 s.h., graded satisfactory/unsatisfactory), which covers topics such as defining college culture, discovering University resources, refining study skills, taking tests, and setting goals.

During spring semester, IBA students enroll in two courses. They take 168:041 (IBA:1041) IBA Student Development Seminar (1 s.h.), an extension of subject matter introduced in The College Transition. They also take a special section of 168:047 (IBA:1047) IBA Research in Biomedical Science (0 s.h.) and complete two research rotations. The rotations, which are set up by IBA staff, introduce students to laboratory research at the University.

At the end of the first year, each student is evaluated for admission to the IBA Scholar Program. Students selected as IBA scholars remain on campus for the eight-week summer session and continue in the program throughout the year. They earn wages for laboratory work with their research mentors, live in the IBA Summer Learning Community, and participate in IBA events.

STUDENTS ACCEPTED FROM COLLEGE

Applications also are accepted from current University of Iowa undergraduates majoring in the sciences as well as students transferring to Iowa. Students accepted to IBA during their first, second, or third year of college join the appropriate cohort of IBA scholars. During their first semester of participation, new undergraduates complete

lab rotations and establish good academic standing. They also enroll in 168:041 (IBA:1041) IBA Student Development Seminar. Once students are matched with a research mentor, they earn wages for their laboratory work during summer and the academic year.

Admission

Students apply to Iowa Biosciences Advantage during their senior year of high school or once they are undergraduate students.

Applicants must:

- have a strong interest in pursuing a research career;
- have a qualifying academic major;
- be in good academic standing;
- submit an IBA application, including short essays and a release that allows IBA to obtain the applicant's transcripts; and
- submit one letter of recommendation from a science or math instructor.

Admission requires an interview. Admission decisions are made throughout the year.

Faculty

Faculty members from the University's broad range of basic and biomedical science disciplines serve as teachers and mentors to IBA students. They represent many departments, including anatomy and cell biology, biochemistry, biology, biomedical engineering, chemistry, health and human physiology, microbiology, molecular physiology and biophysics, neuroscience, and psychology.

Courses

168:039 (IBA:1039) Introduction to Laboratory Techniques 2 s.h.

Exercises that teach basic laboratory techniques through experimentation with biological materials; preparation for conducting research in the mentor's laboratory.

168:041 (IBA:1041) IBA Student Development Seminar 1 s.h.

Academic and professional development; presentations by faculty researchers, admissions representatives, or students in graduate bioscience programs; discussions about succeeding at the University; talks by professional educators on topics such as effective study skills.

168:047 (IBA:1047) IBA Research in Biomedical Science 0 s.h.

Registration in a section taught by student's research mentor. Requirements: enrollment in IBA.

Iowa Lakeside Laboratory

Director

Peter J. van der Linden

University of Iowa coordinator

Stephen Hendrix (Biology)

Iowa State University participating faculty

Bonnie S. Bowen (Ecology, Evolution, and Organismal Biology), Lee Burras (Agronomy)

University of Iowa participating faculty

John F. Doershuk (Anthropology)

University of Northern Iowa participating faculty

Daryl D. Smith (Biology)

Web site: <http://www.continuetolearn.uiowa.edu/lakesidelab/>

Iowa Lakeside Laboratory is a field station run cooperatively by The University of Iowa, Iowa State University, and the University of Northern Iowa. Students at all three institutions may take Iowa Lakeside Laboratory courses for credit. They should check with their advisors to determine whether specific courses count toward requirements of their academic majors or minors or toward other requirements.

Iowa Lakeside Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially the numerous lakes, wetlands, and prairies of the Iowa Great Lakes region. The campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside's mission is to provide undergraduate and graduate students an opportunity for hands-on experience in a variety of natural and human environments through its field-oriented summer courses, and to provide research facilities and support for graduate students and faculty members working on research projects in northwestern Iowa.

Each summer Iowa Lakeside Laboratory offers students a unique educational experience—small, full-immersion, field-oriented courses in the natural sciences (archaeology, botany, ecology, hydrology, soils, zoology). Courses are taught at the sophomore/junior level and the senior/graduate level. Enrollment usually is limited to 10 or fewer students. Most courses meet all day Monday through Friday, last four weeks, and offer 1 s.h. of credit for each week (40 clock hours) in class. One- and two-week courses also are available, including courses designed especially for teachers.

Weather permitting, students normally spend at least part of each day doing fieldwork, either as part of their class work or for individual or group projects.

Not all courses are offered every year; visit List of Courses on the Iowa Lakeside Laboratory web site or consult the University of Iowa summer course offerings on ISIS (Iowa Student Information Services) to learn which courses will be offered during a particular summer session.

Research projects by undergraduates, graduate students, and faculty members can be completed either on the Iowa Lakeside Laboratory campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at the laboratory, and graduate students are welcome to use Lakeside as a base for their thesis and dissertation research. Laboratory

space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to derive full advantage of its educational, professional, and social life.

Registration

Students may enroll in Iowa Lakeside Laboratory courses only by submitting an Iowa Lakeside Laboratory Registration and Housing Form to the Iowa Lakeside Laboratory Administrative Office. Information about current courses and housing is available on the Iowa Lakeside Laboratory web site.

Registration usually opens in early January. Enrollment is limited, so students should register early. When they register, they must apply for housing or indicate that they plan to live off campus.

Financial Support

The Friends of Lakeside Lab organization provides a merit scholarship that is equivalent to the cost of room and board. Additional financial support for undergraduate and graduate students may be available from Iowa Lakeside Laboratory and from other sources.

Courses

00L:010 (IAL:1010) Earth, Air, and Sky 3 s.h.
Essentials of earth science, including astronomy, meteorology, geology, and paleontology; includes laboratory and fieldwork.

00L:019 (IAL:1019) Soils and Environmental Quality 3-4 s.h.
The role of soils in environmental quality and natural resources management; soil erosion and conservation, water quality, environmental planning; weekend field trip.

00L:030 (IAL:1030) Natural History Workshop 1-2 s.h.
A specific aspect of the upper Midwest's natural history, or techniques for studying natural history; amphibians and reptiles, birds and birding, nature photography, mushrooms and other fungi, Iowa's trees and forests, fish biology, prairies, common algae, common insects, aquatic plants, life in rivers, life in lakes, mosses and liverworts, natural history of Iowa Great Lakes region, field archaeology, scuba diving, astronomy, nature sketching; five-day, nontechnical introductions.

00L:040 (IAL:1040) Archaeology 4 s.h.
Nature of cultural and environmental evidence in archaeology, how such evidence is used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying, excavation techniques.

00L:043 (IAL:1043) Illustrating Nature--Sketching 2 s.h.
Sketching plants, animals, terrain; visual communication, development of a personal style, integration of typographic and visual elements on a page.

00L:044 (IAL:1044) Illustrating Nature--Photography 2 s.h.
Beginning/intermediate technique and composition in color photography of natural areas, their plants and animals.

00L:050 (IALL:1050) Undergraduate Internship 1-4 s.h.

Placement with county conservation boards, camps, parks, and other agencies for experience as interpreters, rangers, technicians. Requirements: sophomore standing.

00L:100 (IALL:3100) Techniques for Biology Teaching 1-2 s.h.

Development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses; exercises built around common organisms and ecosystems in Iowa; animal biology, plant biology, fungi and lichens, aquatic ecology, prairie ecology, wetland ecology, limnology, animal behavior, insect ecology, biology of invertebrates, noninvasive use of living organisms, Project WET; field trips.

00L:102 (IALL:3102) Plant-Animal Interactions 4 s.h.

Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, plant-herbivore interactions; field and laboratory work, reading, discussion. Requirements: one biological science course.

00L:103 (IALL:3103) Aquatic Ecology 4 s.h.

Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals. Requirements: ecology, chemistry, and physics courses.

00L:105 (IALL:3105) Plant Taxonomy 4 s.h.

Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys; field and laboratory studies emphasizing identification of local flowering plants, recognition of major plant families.

00L:109 (IALL:3109) Freshwater Algae 4 s.h.

Structure and taxonomy of freshwater algae based on field material collected; emphasis on genus-level identifications; habitat visits to lakes, fens, streams, rivers; algal ecology.

00L:111 (IALL:3111) Summer Writing Festival at Iowa Lakeside Laboratory 1 s.h.

Application of imagination to life experiences to become more effective writers; writing exercises invite imaginative leaps, thoughtful reflections, humor, and seriousness; participants work in various forms of expression, including personal essay, poetry, and short fiction; designed for young adult to adult writers of all levels. One week.

00L:113 (IALL:3113) Undergraduate Independent Study 1-4 s.h.

Requirements: junior or senior standing.

00L:115 (IALL:3115) Field Mycology 4 s.h.

Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

00L:117 (IALL:3117) Ecology and Systematics of Diatoms 4 s.h.

Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution, including construction of reference and voucher collections; data organization and analysis.

00L:121 (IALL:3121) Plant Ecology 4 s.h.

Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands, forests; group or individual projects.

00L:122 (IALL:3122) Prairie Ecology 4 s.h.

Basic patterns, underlying physical and biotic causes of regional and local distributions of North American prairie plants and animals; field and laboratory analysis and projects. Requirements: familiarity with basic principles of biology and ecology.

00L:124 (IALL:3124) Wetland Ecology 4 s.h.

Ecology, classification, creation, restoration, and management of wetlands; field studies on composition, structure, and function of local natural wetlands, restored prairie pothole wetlands; individual or group projects. Prerequisites: 00L:131 (IALL:3131).

00L:126 (IALL:3126) Ornithology 4 s.h.

Biology, ecology, and behavior of birds; emphasis on field studies of local avifauna; group projects with focus on techniques of population analysis and methodology for population studies.

00L:127 (IALL:3127) Introduction to Insect Ecology 4 s.h.

Insects; their diversity and life history; emphasis on ecology and behavior; field, laboratory study.

00L:128 (IALL:3128) Fish Ecology 4 s.h.

Basic principles of fish interaction with biotic and abiotic environments; field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.

00L:131 (IALL:3131) Ecology 4 s.h.

Introduction to the principles of ecology at the population, community, ecosystem levels; field studies of local lakes, wetlands, and prairies used to examine factors that control distributions, interactions, and roles of plants and animals in native ecosystems. Requirements: two semesters of introductory biology.

00L:133 (IALL:3133) Animals and Their Ecosystems 4 s.h.

Vertebrate and invertebrate animals of the Midwest; observation of animals in nature, either through passive observational techniques or active trapping exercises; once identified, placement of animals in proper taxonomic position (i.e., "Tree of Life"); ecological perspective, including habitat preferences (i.e., wetland, lake, prairie, forest, river, edge), trophic position, and activity patterns; discussion and emphasis on conservation status. Requirements: introductory biology course.

00L:135 (IALL:3135) Aquatic Toxicology and Wetland Dynamics in Freshwater Systems 2-4 s.h.

Fundamental knowledge and understanding of scientific concepts related to the physio-chemical and biological environment; problems and issues (global, national, regional, and local) of freshwater systems; how wetland restoration is used to ameliorate problems; basic tools used to assess aquatic toxicological problems. Requirements: one year of biology and one year of chemistry.

00L:140 (IALL:3140) Water Policy and Politics 1 s.h.

Historical, legal, economic, cultural, and political dimensions of water resources; public perception and enjoyment of this abundant and important natural resource; how public policy developed; private rights; differences between the previous appropriation system in the western U.S. and eastern riparian rights law; public rights regarding water for navigation, recreation, and environmental protection; water-related institutions such as suppliers of municipal water and irrigation water; interbasin transport of water.

00L:142 (IALL:3142) Watershed Hydrology and Surficial Processes 4 s.h.

Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds; fieldwork emphasizing investigations of the Iowa Great Lakes watershed. Requirements: four courses in physical or biological sciences or engineering.

00L:151 (IALL:3151) Analysis of Environmental Data 2 s.h.

Theory and application of statistical techniques for analysis of ecological and paleoecological data.

00L:160 (IALL:3160) Restoration Ecology 4 s.h.

Ecological principles for restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations; emphasis on prairie restoration, wetland vegetation. Requirements: an ecology course.

00L:163 (IALL:3163) Conservation Biology 4 s.h.

Population- and community-level examination of factors influencing viability of plant and animal populations from demographic and genetic perspectives; assessment of biodiversity; design, management of preserves. Offered summer sessions of odd years. Prerequisites: 00L:031.

00L:165 (IALL:3165) Behavioral Ecology 4 s.h.

Ecological and evolutionary theories of animal behavior examined through field studies of animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, parental care. Requirements: two biology courses.

00L:175 (IALL:3175) Soil Formation and Landscape Relationships 4 s.h.

Relationships between soil formation, geomorphology, environment; soil description, classification, geography, mapping, interpretation for land use. Prerequisites: 00L:142 (IALL:3142).

00L:199 (IALL:3199) Undergraduate Research 1-4 s.h.

Requirements: junior or senior standing.

00L:210 (IALL:5210) Global Climate Change: Causes, Connections, and Cures 2 s.h.

Underlying causes of global climate change, both natural and human; web of interrelated links affecting the physical and living world, including human society; cause-and-effect relationships and interventions that may reduce negative consequences; for teachers of grades 7-12 and students enrolled in teacher education programs for those grades. Requirements: bachelor's degree.

00L:213 (IALL:5213) Graduate Independent Study 1-4 s.h.**00L:217 (IALL:5217) Ecology and Systematics of Diatoms** 4 s.h.**00L:225 (IALL:5225) Physical Limnology** 2-4 s.h.

Mechanisms of physical transport of heat and contaminants in lakes; temperature cycle and stratification; disturbances to seasonal temperature structure, including the diurnal mixed layer, waves, upwelling, differential heating; turbulence, mixing, transport; field measurements of physical processes, computer models of transport.

00L:240 (IALL:5240) Natural History Workshop 1-3 s.h.

An aspect of the upper Midwest's natural history, or techniques for studying natural history.

00L:250 (IALL:5250) Graduate Internship 1-5 s.h.

Experience as interpreters, rangers, technicians, and teachers through placement with county conservation boards, camps, parks, schools, other agencies.

00L:299 (IALL:5299) Research 1-4 s.h.

Iowa Young Writers' Studio

Director

Stephen Lovely

Web site: <http://www.uiowa.edu/youngwriters>

The Iowa Young Writers' Studio is a summer creative writing program for high school students at The University of Iowa. Students in the program build a community of peers while working with experienced writing teachers, primarily students and graduates of the University's M.F.A. program in creative writing.

The program is residential; students live on campus in one of the University's residence halls.

The studio offers three courses of study: poetry, fiction, and creative writing (a mix of poetry, fiction, and creative nonfiction). Each course consists of a seminar and a workshop. In seminars, students read literature by established writers. In workshops they share their own writing, get feedback from their classmates and teacher, and discuss issues of narrative and form.

The studio offers two two-week sessions: one in June and one in July.

Young writers who have completed grade 10, 11, or 12 are eligible to attend the studio. Application materials include an application form, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation from an English teacher or another instructor familiar with the applicant's writing. For complete application information, contact the Iowa Young Writers' Studio or visit its web site.

Application deadline is early February for the following summer.

Courses

406:001 (IYWS:1001) Iowa Young Writers' Studio 0 s.h.

Leadership Studies

Director

David Baumgartner

Undergraduate certificate: leadership studies

Web site: <http://www.careers.uiowa.edu/leadershipstudies>

Leadership studies is a multidisciplinary academic field that draws upon theories and applications from a wide variety of related disciplines, such as the social sciences (e.g., psychology, sociology, political science, and anthropology) and the humanities (e.g., philosophy and history), as well as professional fields, including management and education. The University of Iowa's Leadership Studies Program examines ethical issues, principles, theories, and styles of leadership; the dynamics of interactions between leaders, followers, and group members; leaders' impact on organizations and communities; and leadership skills such as goal setting, communicating effectively, creating a vision, and empowering others.

Undergraduate Programs

- Certificate in Leadership Studies

The Certificate in Leadership Studies is an interdisciplinary program coordinated by the Pomerantz Career Center and supported by the Tippie College of Business, the College of Education, the College of Liberal Arts and Sciences, and the Center for Student Involvement and Leadership. The Leadership Studies Program also offers the Career Leadership Academy, a four-course sequence designed to help undergraduate students develop leadership and employment skills, and the online course Global Leadership Initiative. See "Other Programs" later in this section.

Certificate

The Certificate in Leadership Studies requires 21 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student's transcript.

Students must declare their intent to earn the certificate to a leadership studies advisor in the Pomerantz Career Center; see Certificate in Leadership Studies on the center's web site for information on how to enter the certificate program.

The certificate program provides a structure for involvement and commitment to leadership. It introduces students to leadership concepts and offers them hands-on leadership experiences they will need in order to begin the life-long development of these skills. Certificate students complete an interdisciplinary core course (3 s.h.), area electives (15 s.h.), an experiential learning course (3 s.h.), and a final personal and program evaluation.

The Certificate in Leadership Studies requires the following course work.

INTERDISCIPLINARY CORE COURSE

All certificate students are required to complete the interdisciplinary core course (3 s.h.). In order to enroll in the course, they must have earned a minimum of 30 s.h. of credit and must be in good academic standing as defined by the College of Liberal Arts and Sciences (cumulative g.p.a. of at least 2.00).

421:072 (LS:2010) Perspectives on Leadership: Principles and Practices	3 s.h.
--	--------

The core course provides students with a broad foundation of leadership knowledge. It introduces diverse approaches to studying and practicing leadership and gives students a structure for organizing knowledge and skills from other leadership courses and experiences. The course features presentations by guest instructors from across the University, offering students an interdisciplinary perspective on leadership.

Certificate students must complete 421:072 (LS:2010) before they may enroll in the required experiential learning or service learning course.

AREA ELECTIVES

Area electives are drawn from five developmental areas central to effective leadership: self-leadership, group leadership, communication, cultural competence, and ethics and integrity. Students must complete 3 s.h. from each of these areas (total of 15 s.h.).

Self-Leadership

At least 3 s.h. from these:

023:101 (MILS:1010) Leadership and Personal Development MSL101	1 s.h.
023:102 (MILS:1020) Introduction to Tactical Leadership MSL102	1 s.h.
034:123 (SOC:4225) The Social Psychology of Leadership	3 s.h.
06J:162 (MGMT:4300) Leadership and Personal Development	3 s.h.
410:045 (LLS:1045) Leadership in the Outdoors	3 s.h.
413:050 (STS:1050) Introduction to Leadership	3 s.h.
413:100 (STS:1100) President's Leadership Class (PLC)	3 s.h.
421:071 (LS:3010) Global Leadership Initiative	1 s.h.
421:076 (LS:1006) Career Leadership Academy Intensive Phase I/II	3 s.h.
421:077 (LS:1007) The 7 Habits of Highly Successful College Students	1 s.h.
421:106 (LS:1004) Career Leadership Academy--Phase 1	2 s.h.
421:107 (LS:2001) Career Leadership Academy--Phase 2	1 s.h.
421:108 (LS:3001) Career Leadership Academy--Phase 3	2 s.h.
421:109 (LS:4001) Career Leadership Academy--Phase 4	1 s.h.

Group Leadership

At least 3 s.h. from these:

023:103 (MILS:2010) Innovative Team Leadership MSL201	2 s.h.
023:104 (MILS:2020) Foundations of Tactical Leadership MSL202	2 s.h.
23A:130 (AERO:3100) Air Force Leadership Studies I	3 s.h.
23A:132 (AERO:3200) Air Force Leadership Studies II	3 s.h.
031:015 (PSY:2501) Introduction to Social Psychology	3 s.h.
034:020 (SOC:3210) Principles of Social Psychology	3 s.h.
034:123 (SOC:4225) The Social Psychology of Leadership	3 s.h.
034:164 (SOC:3610) Organizations and Modern Society	3 s.h.
036:019 (COMM:1019) Organizational Leadership	3 s.h.

042:157 (SSW:3500) Nonprofit Organizational Effectiveness I	3 s.h.
042:158 (SSW:3600) Nonprofit Organizational Effectiveness II	3 s.h.
06J:048 (MGMT:2100) Introduction to Management	3 s.h.
06J:130 (MGMT:3200) Individuals, Teams, and Organizations	3 s.h.
169:061 (LEIS:1061) Recreation Leadership and Programming	3 s.h.
410:067 (LLS:1067) Team Building Challenge Course	1 s.h.

Communication

At least 3 s.h. from these:

01J:115 (INTM:3755) What is Storytelling For?	4 s.h.
036:001 (COMM:2001) Core Concepts in Communication Studies	3 s.h.
036:012 (COMM:1012) Interpersonal Communication	3 s.h.
036:017 (COMM:1017) Theory and Practice of Argument	4 s.h.
036:018 (COMM:1018) Leadership and Organizational Procedures	2 s.h.
036:030 (COMM:1030) The Art of Persuading Others	3 s.h.
036:070 (COMM:1070) Communication Theory in Everyday Life	3 s.h.
036:091 (COMM:3091) Organizational Communication	3 s.h.
06B:100 (BUS:3000) Business Communication and Protocol	3 s.h.
06J:156 (MGMT:4100) Dynamics of Negotiations	3 s.h.

Cultural Competence

At least 3 s.h. from these:

07B:150 (EPLS:4150)-07B:151 (EPLS:4151) Leadership and Public Service I-II (both courses are required)	5 s.h.
016:040 (HIST:1040) Perspectives: Diversity in American History	3 s.h.
16A:154 (HIST:2279)/131:158 (GWSS:2279) Sexuality in the United States	3 s.h.
025:103 (MUS:3310) World Music	3 s.h.
129:116 (AFAM:3459) African American Literature Before 1900	3 s.h.
165:126 (ABRD:3352) & 421:071 (LS:3010) International Perspectives: Xicotepec - Global Leadership Initiative (both courses are required)	arr.
208:120 (CCCC:2220) Foundations of Critical Cultural Competence	3 s.h.
One elective approved for the Certificate in Critical Cultural Competence	3 s.h.

Students who use an elective approved for the Certificate in Critical Cultural Competence to satisfy this requirement must choose it from the list Elective Courses for Selected Categories: Certificate in Critical Cultural Competence.

Ethics and Integrity

At least 3 s.h. from these:

019:140 (JMC:3300) Media Law and Communication	3 s.h.
019:168 (JMC:4805) Journalism Ethics	3 s.h.
026:001 (PHIL:2401) Matters of Life and Death	3 s.h.
026:034 (PHIL:1034) Philosophy and the Just Society	3 s.h.
026:036 (PHIL:1636) Principles of Reasoning: Argument and Debate	3 s.h.
026:102 (PHIL:2402) Introduction to Ethics	3 s.h.
026:132 (PHIL:3432) Introduction to Political Philosophy	3 s.h.
026:135 (PHIL:3435) Philosophy of Law	3 s.h.
06J:132 (MGMT:3400) Law and Ethics in Management	3 s.h.
07C:195 (RCE:4195) Ethics in Human Relations and Counseling	3 s.h.

101:120 (PTRS:5100) Professional Issues and Ethics	1 s.h.
174:223 (HMP:6315) Seminar in Health Care Ethics	1-2 s.h.
216:080 (HRTS:2115) Introduction to Human Rights	3 s.h.

EXPERIENTIAL LEARNING

Certificate students must earn 3 s.h. in a course focused on experiential, or hands-on, learning. An experiential learning course may take different forms, such as a service learning experience, an internship, or an on-campus leadership practicum.

Before they may enroll in the hands-on course, students must have completed at least 9 s.h. of work toward the certificate, including the core course 421:072 (LS:2010) Perspectives on Leadership: Principles and Practices, so that they have a solid foundation of knowledge to apply to the experience.

Service Learning Courses

Service learning courses incorporate community engagement with academic course work. They allow students to gain hands-on experience along with a deeper understanding of course content while responding to real community needs. Students may satisfy the certificate's experiential learning requirement by earning 3 s.h. in service learning courses approved by the University of Iowa Center for Teaching or by completing 421:078 (LS:1008) Service Learning Fellow Course.

Students who satisfy the requirement with 421:078 (LS:1008) register for the course in order to receive credit for their service learning experience. Students must complete all course assignments and must earn 3 s.h. in order to fulfill the experiential learning requirement. The service learning experience must take place during the semester in which 421:078 (LS:1008) is offered. Service learning experiences completed during fall and spring semesters must last at least 15 weeks and must require six and a half hours of service per week; those completed during a summer session must last at least 10 weeks and must require 10 hours of service per week.

Students enrolled in 421:078 (LS:1008) meet weekly to discuss topics related to theory and practices of academic service learning, including how service learning relates to democracy, citizenship, and civic responsibility.

Service that fulfills the certificate's experiential learning requirement must be approved in advance by the instructor of 421:078 (LS:1008); contact the Pomerantz Career Center.

Internship

Internships consist of preapproved, supervised on-the-job learning; they may be paid or unpaid.

Students register for 421:073 (LS:3011) Leadership Certificate Internship in order to receive certificate credit for the internship; they must complete all course assignments and must earn 3 s.h. in order to fulfill the experiential learning requirement.

To meet the certificate's experiential learning requirement, an internship must consist of professional experience that relates to the student's major field of study or career interest area and allows the student to build on the academic course work he or she has completed in the certificate program. At least 80 percent of the student's internship duties must be professional-level work, and the student must receive continuous supervision by a professional (not a student) in the internship field. The

internship must last a minimum of 6 weeks and must require 225 hours of work.

Internships that fulfill the certificate's experiential learning requirement must be approved in advance by one of the certificate program's internship advisors, and the internship site supervisor must agree to the terms of the internship and must complete the required form before the internship may be approved. Students may work with staff at the Pomerantz Career Center to find an approved internship opportunity, or they may develop their own internship.

For more information about internships, see Internships/Students on the Pomerantz Career Center web site.

On-Campus Leadership Practicum

Students who wish to fulfill the experiential learning requirement with an on-campus leadership practicum must engage in a formal, approved experience that is meaningful, educational, and cocurricular. It must require the student to take initiative and pursue active leadership roles and responsibilities. Examples include positions as student organization leaders, student government leaders, University Housing resident assistants, student orientation advisors, peer educators, and fraternity and sorority leaders. Practicums may be paid or unpaid.

Students register for 413:125 (STS:1125) Leadership Certificate Practicum Class in order to receive certificate credit for the practicum; they must earn 3 s.h. in order to fulfill the experiential learning requirement. Students meet weekly in the practicum course to discuss topics related to the academic course work as applied in practice, and they must successfully complete a goal-setting assignment and a reflection assignment.

To meet the certificate's experiential learning requirement, a practicum must last at least 15 weeks during the semester in which 413:125 (STS:1125) is offered and must require six and a half hours of work per week [413:125 (STS:1125) is not offered every semester].

Practicums that fulfill the certificate's experiential learning requirement must be approved in advance by the leadership practicum instructor in the University's Center for Student Involvement and Leadership. Students must submit a list of goals and assignments and/or duties they will complete during the practicum, to demonstrate that the practicum will provide substantive work assignments and opportunities to build on the academic course work they have completed in the certificate program.

Each student also must identify a practicum mentor and demonstrate that the mentor will be willing to guide and evaluate the student's work and development of leadership skills, and will participate in reviewing the student's goal-setting assignment and in the final review of the student's performance.

PERSONAL AND PROGRAM EVALUATION

In order to be awarded the Certificate in Leadership Studies, students must complete a final report detailing how they completed the certificate requirements. The report should include:

- a list of all courses taken for the certificate, indicating the requirement each course met, when each course was taken, and what grade the student earned for each course;

- a copy of the goal-setting and reflection exercises the student completed for the course focused on experiential learning;

- a document reflecting on additional progress toward these goals over the student's entire time at The University of Iowa; and

- a document reflecting on the most and least useful elements of the Certificate in Leadership Studies experience.

Other Programs

Career Leadership Academy

The Career Leadership Academy is a four-semester sequence of courses designed to help undergraduate students develop vital skills for leadership and employment: communication, interpersonal, and presentation skills and the ability to work well with others. Students earn 6 s.h. for the four-course sequence. The program consists of weekly seminars, activities, and events. Participants also have access to exclusive programs such as career exploration opportunities, networking events, and leadership development experiences.

421:076 (LS:1006) Career Leadership Academy Intensive Phase I/II	3 s.h.
421:106 (LS:1004) Career Leadership Academy--Phase 1	2 s.h.
421:107 (LS:2001) Career Leadership Academy--Phase 2	1 s.h.
421:108 (LS:3001) Career Leadership Academy--Phase 3	2 s.h.
421:109 (LS:4001) Career Leadership Academy--Phase 4	1 s.h.

For more information, see Career Leadership Academy on the Pomerantz Career Center web site.

GLOBAL LEADERSHIP INITIATIVE

The Leadership Studies Program offers 421:071 (LS:3010) Global Leadership Initiative (1 s.h.), an online course designed to help those engaged in international experiences develop their leadership knowledge, awareness, and skills. Individuals involved in study abroad, international internships, international exchange programs, or employment opportunities that involve international cooperation may enroll in the course concurrently with their international experiences. The course includes online discussion with other students, guided reflection, access to guest speakers who are successful in their leadership roles, pre- and postexperience assessment, and direction for continued development of global leadership competence after the course concludes.

Courses

421:071 (LS:3010) Global Leadership Initiative 1 s.h.

Development of knowledge, attitudes, and skills to be effective global leaders regardless of the industry or field; working effectively in a global environment with empathy; ability to deal with ambiguity and unfamiliarity; critical thinking and comparative skills, including the ability to think creatively and integrate knowledge; pre- and post-travel assessment, guided reflection, guest speakers, online discussion; intercultural communication; online course for students engaged in a study abroad experience or international internship. Requirements: concurrent enrollment in a study abroad or international internship experience, or completing an international component of current employment.

421:072 (LS:2010) Perspectives on Leadership: Principles and Practices 3 s.h.

Broad foundation of leadership knowledge representing diverse approaches to studying and practicing leadership; core course for students pursuing the leadership certificate. Requirements: sophomore standing.

421:073 (LS:3011) Leadership Certificate Internship 0,3 s.h.

Registration of practical work experience (internship) with leadership components, for students pursuing the leadership certificate. Prerequisites: 421:072 (LS:2010). Requirements: an additional 6 s.h. of approved leadership course work.

421:075 (LS:1005) Leadership Community Seminar 0-1 s.h.

Opportunity to expand on content and deepen discussion from Career Leadership Academy; leadership skill development through workshops and programs; meaningful involvement and engagement on campus and in community through service learning opportunities; team building through a variety of initiatives and student-led programming; mentors participate while sharing their knowledge, skills, and experiences. Requirements: Leadership Learning Community member or Career Leadership Academy peer mentor.

421:076 (LS:1006) Career Leadership Academy Intensive Phase I/II 3 s.h.

Combines 421:106 (LS:1004) and 421:107 (LS:2001) into one course; intensive instruction and preparation to enter 421:108 (LS:3001).

421:077 (LS:1007) The 7 Habits of Highly Successful College Students 1 s.h.

Workshop to help students change their approach to responsibilities, relationships, problems, and opportunities; balancing aspects of college life through time management skills; uncovering and exploring a personal mission and setting goals; increase trust levels and proactive behaviors; developing strong relationships with other students and professors; understand and effectively meet needs and expectations of professors, family, and others most important to student; setting priorities to achieve what matters most.

421:078 (LS:1008) Service Learning Fellow Course 3 s.h.

Basic theory and practices of academic service-learning, including how it connects to higher education priorities of democracy, citizenship, and civic responsibility; practical skills and deep learning related to student's major and/or career goals by incorporating community engagement with academic course work; key theoretical elements of establishing and maintaining successful community partnerships; awareness of potential benefits to students and communities derived from development of civic capacity and community leadership skills. Prerequisites: 421:072 (LS:2010). Requirements: an additional 6 s.h. of approved leadership course work.

421:106 (LS:1004) Career Leadership Academy--Phase 1 2 s.h.

Leadership history and concepts, goal setting, the Relational Leadership Model, personal values and ethics, meaningful involvement and engagement, time and stress management, career development information, and varied self-awareness assessments and interest inventories. First in a four-semester sequence.

421:107 (LS:2001) Career Leadership Academy--Phase 2 1 s.h.

Group dynamics and teambuilding, understanding others, effective communication and listening, delivering presentations, problem solving, and dealing with difficult people; participation in a low ropes teambuilding workshop. Second in a four-semester sequence. Prerequisites: 421:106 (LS:1004).

421:108 (LS:3001) Career Leadership Academy--Phase 3 2 s.h.

Collaboration, conflict resolution, delegation and empowerment, interviewing, networking, understanding power, service project management, and motivation. Third in a four-semester sequence. Prerequisites: 421:106 (LS:1004) and 421:107 (LS:2001).

421:109 (LS:4001) Career Leadership Academy--Phase 4 1 s.h.

Professionalism and office communication, marketing one's skills, transitioning from college to the workforce, negotiating salaries, understanding benefits, realistic expectations of an entry-level position, and building a career. Last in a four-semester sequence. Prerequisites: 421:106 (LS:1004), 421:107 (LS:2001), and 421:108 (LS:3001).

Lifetime Leisure Skills

Director

Robert DuBay

Web site: <http://www.recserv.uiowa.edu/>

Lifetime Leisure Skills courses are open to University of Iowa undergraduate and graduate students. Undergraduates in the College of Liberal Arts and Sciences may count credit earned in Lifetime Leisure Skills courses toward the 120 s.h. required for a bachelor's degree. Students should consult with their academic advisors.

Courses

- | | |
|--|--|
| <p>410:001 (LLS:4000) Independent Study arr.
Individual study in an area of interest to students; course work determined by faculty supervisor.</p> <p>410:002 (LLS:1002) Water Safety Instructor 1 s.h.
Training for instructor candidates to teach courses in the American Red Cross Swimming and Water Safety Program; how to use course materials, conduct training sessions, and evaluate participants' progress.</p> <p>410:003 (LLS:1003) Wilderness First Responder 2 s.h.
Tools to make critical medical and evacuation decisions in remote locations; practical skills, case studies, and scenarios designed to challenge decision making abilities; Wilderness Medicine Institute (WMI) adult and child CPR.</p> <p>410:004 (LLS:1004) Waltz 1 s.h.
Beginning through intermediate-level waltz figures; performing a beautiful waltz routine; skills and knowledge to dance with confidence at any formal dance occasion.</p> <p>410:005 (LLS:1005) Intermediate Ballroom Dancing: Rhumba, Cha Cha, Merengue 1 s.h.
Intermediate-level figures in three of the most popular, sexy, energy- charged Latin dances of today—rhumba, cha cha, and merengue; review of basics. Recommendations: 410:060 (LLS:1060).</p> <p>410:006 (LLS:1006) Intermediate Ballroom Dancing: Foxtrot, Waltz, Tango 1 s.h.
Intermediate-level figures in three of the most beautiful and popular dances in the world—foxtrot, waltz, and tango; review of basics. Recommendations: 410:060 (LLS:1060).</p> <p>410:007 (LLS:1007) Introduction to Rowing 1 s.h.
Introduction to technique, vocabulary, and procedures needed to safely participate in the sport of rowing; use of rowing machines, rowing tank, and rowing shells.</p> <p>410:008 (LLS:1008) Intermediate Kickboxing 1 s.h.
Aggressive workout utilizing heavy bags, coach's mitts, and other equipment; conducted at moderate to intense pace using competitive kickboxing techniques, training methods, and equipment; kickboxing as a conditioning tool with self-defense as a byproduct; not designed to prepare for competition. Prerequisites: 410:047 (LLS:1047).</p> <p>410:009 (LLS:1009) Introduction to the Outdoors 1 s.h.
Mastering fundamental skills needed to safely enjoy an extended experience in an outdoor environment; development of technical skills in "Leave No Trace" principles, outdoor cooking, useful knots, campsite selection, setup; participation in overnight experiential learning camping class; team work to demonstrate skills in completing camp chores.</p> | <p>410:041 (LLS:1041) Scuba 1 s.h.
Basics of scuba diving. Taught in Field House pool. Seven weeks.</p> <p>410:042 (LLS:1042) Introduction to Rock Climbing 1 s.h.
Basics of rock climbing. Taught at Pictured Rocks County Park. Two days.</p> <p>410:043 (LLS:1043) Bicycle Touring 1 s.h.
Basics of bicycle touring. Taught on Johnson County area roads.</p> <p>410:044 (LLS:1044) Mountain Bicycling 1 s.h.
Basics of mountain bicycling. Taught on Sugar Bottom recreation trail system.</p> <p>410:045 (LLS:1045) Leadership in the Outdoors 3 s.h.
Leadership theories, group dynamics, permits, outdoor leadership skills; experience as leader for a day during a weeklong wilderness field trip.</p> <p>410:046 (LLS:1046) Tae Kwon Do 1 s.h.
Basics of Tae Kwon Do. Eight weeks.</p> <p>410:047 (LLS:1047) Kickboxing 1 s.h.
Basics of kickboxing. Eight weeks.</p> <p>410:048 (LLS:1048) Canoeing 1 s.h.
Basics of canoeing. Taught at Macbride Nature Recreation Area. Two days.</p> <p>410:049 (LLS:1049) White-Water Kayaking 1 s.h.
Basics of white-water kayaking. Taught in Field House pool, rivers in Wisconsin, Missouri.</p> <p>410:050 (LLS:1050) White-Water Canoeing 1 s.h.
Basics of white-water canoeing. Taught on rivers in Wisconsin, Missouri.</p> <p>410:051 (LLS:1051) Marathon Training and Racing 1 s.h.
Multiweek training program culminating in the Midwest; for students who run 30-40 miles per week.</p> <p>410:052 (LLS:1052) Intermediate Cross-Country Skiing 1 s.h.
Skate skiing in northern Wisconsin. Prerequisites: 410:075 (LLS:1075).</p> <p>410:053 (LLS:1053) River Canoeing 1 s.h.</p> <p>410:054 (LLS:1054) Dog Sledding 1 s.h.
Basics of dog sledding and winter camping.</p> <p>410:055 (LLS:1055) Intermediate Rock Climbing 1 s.h.
Belaying, anchor placement. Prerequisites: 410:042 (LLS:1042).</p> <p>410:056 (LLS:1056) Hiking 1 s.h.
Basics of hiking. Taught at Governor Dodge or Devil's Lake State Parks in Wisconsin.</p> <p>410:057 (LLS:1057) Backcountry Skiing and Snowshoeing 1 s.h.
Basics of backcountry winter travel and camping.</p> <p>410:058 (LLS:1058) Basic Self-Defense 1 s.h.
Basics of self-defense.</p> <p>410:059 (LLS:1059) Intermediate Tae Kwon Do 1 s.h.
Development of knowledge and skills learned in beginning Tae Kwon Do. Prerequisites: 410:046 (LLS:1046).</p> |
|--|--|

410:060 (LLS:1060) Ballroom Dancing	1 s.h.	410:078 (LLS:1078) Ballroom Dancing--Nightclub Series	1 s.h.
Basics of ballroom dancing.		Salsa, the Hustle, Nightclub Two-Step, Argentine tango.	
410:062 (LLS:1062) Trail Running	1 s.h.	410:079 (LLS:1079) Ballroom Dancing--Rhythm and Smooth	1 s.h.
Training, clothing, equipment, nutrition.		Mambo, samba, waltz, Viennese waltz.	
410:063 (LLS:1063) Introduction to Nature Photography	1 s.h.	410:080 (LLS:1080) Challenge Course Facilitation	1 s.h.
Basics of outdoor photography; no darkroom requirement. Taught at Macbride Nature Recreation Area.		How to lead groups through a low- and high-elements challenge course; sequencing of events, processing and debriefing techniques, front-loading games and initiatives, introducing games and initiatives; risk management issues in conducting challenge course activities; history of challenge courses.	
410:064 (LLS:1064) Basic Orienteering	1 s.h.	410:081 (LLS:1081) Hut-to-Hut Skiing	1 s.h.
Basics of orienteering, including map and compass skills. Taught at Macbride Nature Recreation Area.		Cross-country skiing in Colorado's 10th Mountain Hut System.	
410:065 (LLS:1065) Low-Impact Camping	1 s.h.	410:082 (LLS:1082) Introduction to Bouldering	1 s.h.
Basics of low-impact camping; one overnight camping experience. Taught at Macbride Nature Recreation Area.		Basic skills and technique for bouldering with a partner. Taught at Horse Pens 40 in Alabama, and Rocktown in Georgia.	
410:066 (LLS:1066) Exploring the Natural Wonders of Iowa	1 s.h.	410:083 (LLS:1083) Tandem Biking	1 s.h.
History of the Loess Hills area of western Iowa or Yellow River Forest of northeastern Iowa; includes a weekend of hiking and camping.		How to ride a tandem bicycle with a partner; traffic principles for bike operation, safety for road operations, safe and comfortable tandem bike operations; equipment and accessories for tandem bikes.	
410:067 (LLS:1067) Team Building Challenge Course	1 s.h.	410:084 (LLS:1084) Late Night Outdoor Recreation	1 s.h.
How to work in a group setting and be responsible group members.		Nighttime outdoor activities such as moonlight kayaking and canoeing, night hiking, orienteering, bouldering.	
410:068 (LLS:1068) Wilderness Appreciation	1 s.h.	410:085 (LLS:1085) Bicycle Racing Techniques	1 s.h.
Basics of wilderness appreciation; one overnight camping experience. Taught at Macbride Nature Recreation Area.		Basic skills and techniques of bicycle racing.	
410:069 (LLS:1069) Basic Snowshoeing	1 s.h.	410:086 (LLS:1086) Stretch Strength Relaxation (RelaXercise)	1 s.h.
Basics of snowshoeing. Taught on trails in Wisconsin.		Thorough exercise; strength, flexibility, full-body breathing techniques, relaxation methods for stress reduction and body-mind integration.	
410:070 (LLS:1070) Intermediate Bicycle Touring	1 s.h.	410:087 (LLS:1087) Modern Dance for Fitness	1 s.h.
Bicycling on roads and trails in Wisconsin; focus on bike touring skills. Prerequisites: 410:043 (LLS:1043).		Basic working knowledge of modern dance; introduction to modern dance styles, skills, physical art, and discipline; focus on movement, dance techniques and skill, performance, creative experience.	
410:071 (LLS:1071) Advanced Open Water Scuba	1 s.h.	410:088 (LLS:1088) Salsa Dancing	1 s.h.
Participation in five scuba diving specialty activities. Prerequisites: 410:041 (LLS:1041). Requirements: certification as open water scuba diver.		Fundamentals of Latin/Salsa dancing; musical rhythms, cultural history, postures, technique, basic movements; techniques for developing strength, stamina, balance, poise, and partner dancing skills; gender interaction and traditional social behaviors in salsa's cultural context.	
410:072 (LLS:1072) Basic Sea Kayaking	1 s.h.	410:089 (LLS:1089) Service Learning	1 s.h.
Basics of sea kayaking using solo and tandem boats. Taught at Lake Macbride.		Service learning project in an urban or wilderness setting; learn about local community, environment; projects depend on location, season.	
410:073 (LLS:1073) Winter Camping	1 s.h.	410:090 (LLS:1090) Rock Climbing Anchor Systems	2 s.h.
Basics of winter camping; snow shelters, hydration, meal preparation, clothing needs, snowshoe/ski travel with sleds.		Development of basic skills for climbing anchors; understanding setting top-rope anchors; use of bolts, trees, and passive and mechanical chocks for anchor setting; equalization of anchors; basic knots for rope, webbing, and cordelettes; basic understanding of the structural integrity and frictional forces important to anchor setting.	
410:074 (LLS:1074) Intermediate Mountain Bicycling	1 s.h.		
Mountain bicycling knowledge and skill developed on intermediate-level trails; on-trail maintenance. Prerequisites: 410:044 (LLS:1044).			
410:075 (LLS:1075) Basic Cross-Country Skiing	1 s.h.		
Basics of cross-country skiing in northern Wisconsin.			
410:076 (LLS:1076) Mountain Bicycling in Moab	1 s.h.		
Advanced mountain bicycling techniques. Taught near Moab, Utah. Prerequisites: 410:044 (LLS:1044).			
410:077 (LLS:1077) Backpacking	1 s.h.		
Remote backcountry experience in the Grand Canyon region; minimum-impact camping; may be strenuous.			

410:091 (LLS:1091) Lifeguarding 1 s.h.

American Red Cross lifeguard training through classroom learning, hands-on practice; surveillance skills for preventing and recognizing injuries; land and water rescue skills; first-aid training, professional rescuer CPR; professional lifeguard responsibilities (e.g., interacting with the public, addressing uncooperative persons); certification in lifeguarding, first aid, professional rescuer CPR, AED.

410:092 (LLS:1092) Bicycling Southern States 1 s.h.

Ride routes and trails between Memphis, TN and Vicksburg, MS; see everything from Graceland to cotton fields by bicycle; vehicle supported adventure, camp while exploring the Southern states.

410:093 (LLS:1093) Intermediate Sea Kayaking 1 s.h.

Experience paddling in the beautiful blue waters of Lake Powell, exploring remote hidden side canyons, enjoying the stunning landscape, camping on secluded beaches under the star filled sky; learn skills needed to be a safe and efficient sea kayak adventurer, including transportation of boats, entering and exiting the kayak in different conditions, paddle strokes, and rescue techniques; learn what equipment to bring on a sea kayak adventure and how to effectively pack boats while traveling and camping around Lake Powell.

410:094 (LLS:1094) Land Navigation 1 s.h.

Travel to the Southwest and learn navigation skills with map and compass; topics include declination, bearings, map reading and recognizing land features on topographical map; camping and backpacking to multiple campsites.

410:095 (LLS:1095) Movement Analysis and Relaxation Techniques for Fitness 1 s.h.

Intensive workshop about connections: body to mind, breathing to efficient strengthening and stretching, stability to mobility, exertion to recuperation, function to expression; objectively observe, record, analyze, and understand student's own movement and that of classmates to bring positive change to movement habits and behavior which block energy and create unneeded stress, inhibit full movement ability and not allow for optimal, desired performance; mindful, efficient, articulate movement.

410:096 (LLS:1096) Brazilian Jiu-Jitsu 1 s.h.

Introduction to the sport of Brazilian Jiu Jitsu; basic self-defense, positional grappling, submissions, submission defense.

410:097 (LLS:1097) Introduction to Lead Climbing 1 s.h.

Lead climb using the 52.5 foot tall climbing wall at CRWC; lead fall, lead belay, and clip bolts while climbing; eligible to lead climb at UI Climbing Wall after completion of course. Prerequisites: 410:042 (LLS:1042).

410:098 (LLS:1098) Yoga 1 s.h.

Emphasis on mindfulness, breath awareness, and attention to alignment.

410:099 (LLS:1099) Golf 1 s.h.

Basic principles and fundamentals of the golf swing (i.e., full swing, pitching, chipping, putting); opportunity to practice skills at various facilities; history, basic rules, proper golf etiquette, and the evolution of golf related to technology.

Military Science (Army ROTC)

Head

LTC David Deyak

Professor

LTC David Deyak

Assistant professors

MAJ Mike Belin, LTC Dave Lewis, CPT Michael Pederson, LTC Tony Wolf

Web site: <http://armyrotc.com/edu/univia/index.htm>

The Military Science Program administers Iowa Army ROTC. It gives students who wish to serve on active or reserve status in the U.S. Army the opportunity to earn commissions as army officers. It also administers merit scholarships from the United States government to qualified students.

Although the Military Science Program does not offer degrees, its courses provide education in the military's role and instruction in leadership and management. The program's courses are an essential part of the Iowa ROTC program, which competes annually in national leadership assessments.

Military Science Program courses are open to all students. Course credit that counts toward graduation varies by college. Students in the College of Liberal Arts and Sciences may count up to 20 s.h. earned in military science courses toward graduation.

Programs

Basic Course

The ROTC basic course is designed primarily for first- and second-year students. It provides the fundamentals of leadership and management and introduces the roles of the military as influenced by national and foreign policy. Students incur no obligation to the military for participation in the basic course.

The following courses satisfy the basic course requirement. Some of these courses are prerequisites to others, so students must be careful to take courses in the correct order. Courses 023:101 (MILS:1010) Leadership and Personal Development MSL101 and 023:102 (MILS:1020) Introduction to Tactical Leadership MSL102 are prerequisite to 023:103 (MILS:2010) Innovative Team Leadership MSL201; courses 023:101 (MILS:1010) Leadership and Personal Development MSL101, 023:102 (MILS:1020) Introduction to Tactical Leadership MSL102, and 023:103 (MILS:2010) Innovative Team Leadership MSL201 are prerequisite to 023:104 (MILS:2020) Foundations of Tactical Leadership MSL202.

023:101 (MILS:1010) Leadership and Personal Development MSL101	1 s.h.
023:102 (MILS:1020) Introduction to Tactical Leadership MSL102	1 s.h.
023:103 (MILS:2010) Innovative Team Leadership MSL201	2 s.h.
023:104 (MILS:2020) Foundations of Tactical Leadership MSL202	2 s.h.

The basic course requirements may be taken over a one- or two-year period or during a four-week paid summer camp, the Leader's Training Course (LTC), at Fort Knox,

Kentucky. Students with prior military training normally are exempt from the basic course requirements.

Advanced Course

The ROTC advanced course is open to any student who meets the prerequisites, but is designed primarily for cadets who wish to pursue a commission as a lieutenant in the U.S. Army upon graduation. It is open to both undergraduate and graduate students. Most cadets in the advanced course incur an obligation to the military that can be satisfied in the Active Army, Army Reserve, or Army National Guard.

To enter the advanced course, students must satisfy the basic course requirements, earn at least 54 s.h., and have a cumulative g.p.a. of at least 2.00. In order to become U.S. Army officers, cadets must complete the Leadership Development and Assessment course (LDAC), a five-week session held at Fort Lewis, Washington. Cadets normally attend LDAC during the summer between their third and fourth years. With the military science professor's permission, cadets may delay LDAC until the summer after their final ROTC class.

A tax-free monthly stipend is provided to cadets who enter a contractual agreement with ROTC to serve in the armed forces. Additional financial assistance may be provided through scholarships.

The following courses are the academic requirements for completion of the advanced course. Some of these courses have prerequisites and corequisites, so students must be careful to take courses in the correct order. Prerequisites and corequisites for each course are listed with course descriptions; see "Courses" at the end of this section.

023:090 (MILS:1090) Leadership Laboratory	0 s.h.
023:095 (MILS:1095) Advanced Military Fitness Training	1 s.h.
023:105 (MILS:3010) Adaptive Tactical Leadership MSL301	3 s.h.
023:106 (MILS:3020) Leadership in Changing Environments MSL302	3 s.h.
023:107 (MILS:4010) Developing Adaptive Leaders MSL401	3 s.h.
023:108 (MILS:4020) Leadership in a Complex World MSL402	3 s.h.

Additional Course Work

Cadets whose aim is a commission must satisfy a Professional Military Education (PME) requirement. They must complete at least one course in military history from the following list. This course may be the same as one used to complete the College of Liberal Arts and Sciences General Education Program (p. 276). Cadets may use other courses to meet the requirement, with the military science professor's approval.

016:011 (HIST:1016) Issues in Human History: The Vietnam War in Historical Perspective	3 s.h.
016:014 (HIST:1012) Issues in Human History: Europe's Expansion Overseas	3 s.h.
16A:153 (HIST:4264) U.S.A. in a World at War 1931-1945	3 s.h.
16A:162 (HIST:4271) American Revolutionary Period 1740-1789	3 s.h.
16A:166 (HIST:4256) The Progressive Era in America	3 s.h.
16A:168 (HIST:4268) The Contemporary U.S. 1940-Present	3 s.h.

Financial Aid

Military Science offers two-, three-, and four-year ROTC scholarships for students who enter the ROTC program. These scholarships pay tuition at The University of Iowa, an allotment for books and supplies each semester, most mandatory educational fees, and a tax-free monthly stipend during the academic year. Scholarships also are available for nursing students who wish to become Army nurses.

Courses

023:090 (MILS:1090) Leadership Laboratory 0 s.h.

Hands-on training in basic soldier skills, such as customs and courtesies, drill and ceremony, first aid, weapons employment, troop movement techniques; leadership training for U.S. army officership. Offered fall and spring semesters.

023:095 (MILS:1095) Advanced Military Fitness Training 1 s.h.

Aerobics and running, muscular strength and endurance, flexibility, and nutrition through exercise and classroom instruction; how to evaluate and measure fitness improvement; developed around Army physical fitness training program. Offered fall and spring semesters.

023:101 (MILS:1010) Leadership and Personal Development MSL101 1 s.h.

Introduction to the personal challenges and competencies critical for effective leadership; how skills such as critical thinking, goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the army as a profession; dimensions of army leadership; understanding of the ROTC program, its purpose in the army, its advantages for students. Offered fall semesters.

023:102 (MILS:1020) Introduction to Tactical Leadership MSL102 1 s.h.

Leadership fundamentals such as setting direction, problem solving, listening, presenting briefs, providing feedback, using effective writing skills; leadership values, attributes, skills, and actions explored through hands-on, interactive exercises; cadre role models, development of strong relationships among students through common experience, practical interaction. Offered spring semesters.

023:103 (MILS:2010) Innovative Team Leadership MSL201 2 s.h.

Dimensions of creative, innovative tactical leadership strategies and styles explored through team dynamics and historical leadership theories (trait and behavior) central to the Army leadership framework; personal motivation and team building through planning, executing, and assessing team exercises and participating in leadership labs; continued development of leadership values and attributes through understanding army rank, structure, duties, basic aspects of land navigation and squad tactics; case studies on soldier's creed and warrior ethos in the contemporary operating environment. Offered fall semesters. Prerequisites: 023:101 (MILS:1010) and 023:102 (MILS:1020).

023:104 (MILS:2020) Foundations of Tactical Leadership MSL202 2 s.h.

Challenges of leading tactical teams in the complex contemporary operating environment; dimensions of terrain analysis, patrolling, operation orders; theoretical basis of the army leadership framework, dynamics of adaptive leadership in the context of military operations; self-assessment of cadet leadership styles, practice in communication and team building skills; case studies on importance and practice of teamwork and tactics in real-world scenarios. Offered spring semesters. Prerequisites: 023:101 (MILS:1010), 023:102 (MILS:1020), and 023:103 (MILS:2010).

023:105 (MILS:3010) Adaptive Tactical Leadership MSL301 3 s.h.

Study, practice, and evaluation of adaptive leadership skills in challenging scenarios related to squad tactical operations; feedback on cadets' leadership attributes and actions, continued development of leadership and critical thinking abilities; development of tactical leadership abilities in preparation for Leadership Development and Assessment Course (LDAC). Offered fall semesters. Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095). Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader's Training Course.

023:106 (MILS:3020) Leadership in Changing Environments MSL302 3 s.h.

Development of cadet awareness and tactical leadership to platoon level, through increasingly intense situational leadership challenges; experience reviewing combat, stability, and support operations, conducting military briefings, developing proficiency in garrison operation orders; focus on exploring, evaluating, and developing skills in decision making, persuasion, and motivation of team members in a contemporary operating environment; preparation for summer Leader Development Assessment Course. Offered spring semesters. Prerequisites: 023:105 (MILS:3010). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095). Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader's Training Course.

023:107 (MILS:4010) Developing Adaptive Leaders MSL401 3 s.h.

Development of proficiency in planning, executing, and assessing complex operations, functioning as member of a staff, providing performance feedback to subordinates; experience assessing risk, making ethical decisions, leading fellow cadets; military justice and personnel processes in preparation for officership; identification of key staff responsibilities, coordination of staff roles, use of situational opportunities to teach, train, and develop subordinates. Offered fall semesters. Prerequisites: 023:105 (MILS:3010) and 023:106 (MILS:3020). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095).

023:108 (MILS:4020) Leadership in a Complex World MSL402 3 s.h.

Leadership dynamics in complex military operations of the contemporary operating environment; differences in customs and courtesies, military law, principles of war, rules of engagement in the face of international terrorism; interaction with nongovernmental organizations, civilians on the battlefield, host nation support; ethical and practical demands on army commissioned officers; preparation for first unit assignment through case studies, scenarios, exercises. Offered spring semesters. Prerequisites: 023:105 (MILS:3010), 023:106 (MILS:3020), and 023:107 (MILS:4010). Corequisites: 023:090 (MILS:1090) and 023:095 (MILS:1095).

023:121 (MILS:3121) Readings in Contemporary Military Issues 1-3 s.h.

Preparation of book reviews from a reading list provided by the instructor, with topics ranging from historical battles and campaigns to global impact of U.S. political policies; or writing of an operations order relating to an ROTC event or similar project of historical significance (work in conjunction with instructor).

Requirements: 023:101 (MILS:1010), 023:102 (MILS:1020), 023:103 (MILS:2010), and 023:104 (MILS:2020); or completion of army basic training or Leader's Training Course.

Nonprofit Management

Coordinator

Jared S. Trullinger

Undergraduate certificate: nonprofit management

Web site: <http://www.continuetolearn.uiowa.edu/programs/certificates/nonprofmanagement.html>

Nonprofit organizations play vital roles in our communities and contribute to our quality of life. Nonprofit organizations have unique management, funding, and finance issues that require specialized training. The Certificate in Nonprofit Management is designed to help staff members, board members, and volunteers develop the business and leadership skills necessary for building a successful nonprofit organization. The program provides a balance of academic principles and real-world experience as well as a fundamental understanding of how nonprofit organizations participate in building communities.

Certificate courses cover a wide range of topics and issues, such as community and government partnerships, organizational leadership, planning, human resources, financial accountability, grant writing, and web site creation and maintenance.

Courses are offered primarily online.

The Certificate in Nonprofit Management is presented by the Division of Continuing Education and the Larned A. Waterman Iowa Nonprofit Resource Center, in collaboration with University College.

Undergraduate Program

- Certificate in Nonprofit Management

Certificate

The Certificate in Nonprofit Management requires a minimum of 18 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individuals who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student's transcript.

See the Certificate in Nonprofit Management web site for details about how to enter the program.

Bachelor of Applied Studies (p. 1099) and Bachelor of Liberal Studies (p. 107) students may be able to incorporate certificate courses into their degree programs; students should consult their advisors.

The Certificate in Nonprofit Management requires the following course work.

FOUNDATION COURSES

Students should complete these two courses before they enroll in the remaining certificate course work.

06J:147 (MGMT:3500)/06T:144 (ENTR:3595)/024:147 (MUSM:3500)/042:157 (SSW:3500)/096:168 (NURS:3595)/032:127 (RELS:3700) Nonprofit Organizational Effectiveness I	3 s.h.
06J:148 (MGMT:3600)/024:148 (MUSM:3600)/096:169 (NURS:3600)/042:158 (SSW:3600)/032:128 (RELS:3701) Nonprofit Organizational Effectiveness II	3 s.h.

Students complete one of the following three courses. Two of them, 06T:120 (ENTR:2000) and 06T:125 (ENTR:3520), have corequisites; see the course descriptions on ISIS for choice of corequisites [06T:050 (ENTR:1000) Foundations in Entrepreneurship is the only corequisite that may be taken online].

06J:125 (MGMT:3100) Entrepreneurial Strategy	3 s.h.
06T:120 (ENTR:2000) Entrepreneurship and Innovation	3 s.h.
06T:125 (ENTR:3520)/049:111 (THTR:3520)/145:111 (INTD:3520)/188:111 (DPA:3520) New Ventures in the Arts	3 s.h.

ELECTIVES

Students earn a minimum of 9 s.h. in courses chosen from this list.

01P:185 (ARTS:3400) Grant Writing in the Arts	3 s.h.
06T:147 (ENTR:3500) Social Entrepreneurship	3 s.h.
07E:181 (EDTL:4081)/07P:181 (PSQF:4081)/07X:181 (EALL:4081)/07C:181 (RCE:4081)/07B:181 (EPLS:4081) ePortfolio Production	1-2 s.h.
07U:136 (EDTL:4936)/07P:136 (PSQF:4136) Home/School/Community Partnerships	3 s.h.
030:110 (POLI:3123) State Politics in Iowa	3 s.h.
030:111 (POLI:3110) Local Politics	3 s.h.
034:123 (SOC:4225) The Social Psychology of Leadership	3 s.h.
036:019 (COMM:1019) Organizational Leadership	2-3 s.h.
042:204 (SSW:3904) Human Services Administration	2 s.h.
187:180 (IS:3910)/216:180 (HRTS:3910) Human Rights Advocacy	3 s.h.
188:109 (DPA:3510)/049:109 (THTR:3510)/145:109 (INTD:3510) Introduction to Arts Management	3 s.h.

Orientation Training

Director

Jon Sexton

Web site: <http://fye.uiowa.edu/welcome-iowa>

The University of Iowa holds orientation programs presented by Orientation Services staff members for all incoming undergraduates. Parents and guardians are invited to attend separate but concurrent orientation programs.

The Orientation Training Program offers the following courses for student employees who assist the Orientation Services professional staff in presenting orientation programs. Hawkeye Guides are required to take 412:077 (ORT:1077) Orientation Leader Training.

Courses

412:077 (ORT:1077) Orientation Leader Training 2 s.h.

Preparation for role of Hawkeye Guide in the Office of Orientation Services; knowledge of academic requirements, policies, and procedures at The University of Iowa; development of leadership, group facilitation, presentation, and peer mentoring skills.

412:078 (ORT:1078) Orientation Leader Parent Training 2 s.h.

Preparation for the role of parent program assistant in the Office of Orientation Services; understanding the needs of parents who attend orientation programs; enhancement of communication, problem solving, and conflict management skills; knowledge of resource units on campus.

Patient Care Practicum

Director

Beth F. Ingram

The Patient Care Practicum prepares students for work and/or internships at University of Iowa Hospitals and Clinics (UIHC). Students complete required online training modules through the University's course management system. Once the training modules are completed, students are certified to work at UIHC.

Courses

414:198 (PCP:3198) UIHC Compliance Training 0 s.h.

Research Experiences for Undergraduates in Microbiology

Web site: <http://www.medicine.uiowa.edu/microbiology/summer>

The Department of Microbiology offers 403:030 (REUM:4030) Undergraduate Research Fellowship Program, a 10-week summer program for qualified undergraduate students who are studying microbiology or other biological sciences and are interested in pursuing careers in science. Participants conduct research on a project they select, under the direct supervision of a faculty member.

Each participant receives a stipend and an allowance for food. The program reimburses participants for travel expenses and provides housing.

Applicants must be U.S. citizens or permanent residents who have completed their sophomore or junior year in a bachelor's degree program in the biological sciences. Application materials should include a completed online application, transcript, and two letters of recommendation. Deadline to apply is mid-February for the following summer.

Visit the program's web site or contact the Department of Microbiology, Carver College of Medicine, for more information.

Courses

403:030 (REUM:4030) Undergraduate Research Fellowship Program 0 s.h.

Secondary Student Training Program

Director

Janice M. Warren

Web site: <http://www.education.uiowa.edu/html/belinblank/old/summer/programs/9-11/sstp/>

Students who are currently in grades 9-11 may nominate themselves for the Secondary Student Training Program (SSTP), a six-week residential summer research program at The University of Iowa. SSTP students conduct scientific research in University laboratories under the guidance of a faculty mentor. They also produce a research project paper as a part of the program.

Students who participate in the program pay an SSTP fee that covers room, board, all materials, and admission to all regularly scheduled activities. They also pay University of Iowa tuition for a required 3 s.h. of credit. Students and their families are responsible for their transportation to and from SSTP and for incidental expenses, such as souvenirs and snacks. Students are considered for financial aid after they are selected for the program.

The Secondary Student Training Program is administered by the Belin-Blank International Center for Gifted Education and Talent Development. For more information, visit the center's SSTP web page.

Courses

418:001 (SSTP:1001) Secondary Student Training Program 3 s.h.

Experience conducting research under the guidance of a faculty mentor; presentation of research findings at concluding seminar. Six weeks.

Student Information Technology Skills

Director

Mary Grabe (Information Technology Services)

Web site: <http://helpdesk.its.uiowa.edu/training/>

Student Information Technology Skills offers courses for students who are interested in on-campus employment providing IT support or creating and maintaining web sites.

Students are graded on participation in online and class discussions and projects. They must obtain the instructor's consent before registering for these courses.

Courses

416:100 (SITS:3100) Creating Web Sites 2 s.h.

HTML, CSS fundamentals, use of Dreamweaver software for page and site development, web graphics; examination and critique of UI and non-UI web pages; design standards and practices for meeting federal accessibility guidelines; guidance in understanding how to work effectively with campus web customers.

416:102 (SITS:3102) Core IT Support Skills 2 s.h.

Knowledge and hands-on skills necessary for supporting computers in an institutional setting; basic hardware, operating systems, application, and networking support topics.

Student Services

Director

William Nelson

Associate director

Kelly Jo Karnes

Web site: <http://imu.uiowa.edu/students/>

Student Services focuses on leadership development opportunities for University of Iowa students, offering four courses through the Center for Student Involvement and Leadership. Three focus on leadership: 413:050 (STS:1050) Introduction to Leadership, 413:100 (STS:1100) President's Leadership Class (PLC), and 413:125 (STS:1125) Leadership Certificate Practicum Class. The fourth, 413:075 (STS:1075) Current Issues and Leadership in Fraternity and Sorority Life, examines the experience of belonging to these organizations and looks at how their cocurricular activities and programs enhance students' college experiences.

Courses

413:050 (STS:1050) Introduction to Leadership 3 s.h.

Overview of leadership theory and skills for effective leadership; historical perspective, development of a personal philosophy of leadership, self-assessments, leadership models; study of groups, culture, and communities, and apply what learned in experiential learning settings; geared toward emerging student leaders.

413:075 (STS:1075) Current Issues and Leadership in Fraternity and Sorority Life 3 s.h.

Current issues facing leaders (alcohol and hazing education, conflict management, lasting impact of organizations on members); lifetime membership and values-based decision making; for leaders of fraternity and sorority community.

413:100 (STS:1100) President's Leadership Class (PLC) 3 s.h.

Meetings on current UI issues and the UI Presidents' philosophy on leadership; leaders from inside and outside the University, including Board of Regents, political leaders, influential alumni, student leaders, professors, coaches, other administrators; activities linked to the development of personal leadership style. Requirements: first-year standing and application.

413:125 (STS:1125) Leadership Certificate Practicum Class 3 s.h.

Meaningful and educational cocurricular experiences in on-campus leadership positions (i.e., student organization leader, student government leader, residence assistant, student orientation advisor, peer educator, fraternity/sorority leader); active leadership roles and responsibilities (i.e., executive leadership position, initiating and organizing a major event); application of leadership models and theories to practical experiences; for students completing the leadership certificate. Requirements: leadership certificate program enrollment, completion of introductory course requirements (general leadership pillar), and completion of 9 s.h. in certificate program.

Study Abroad

Web site: <http://international.uiowa.edu/study-abroad/>

The University of Iowa sponsors or cosponsors a wide variety of study abroad programs in approximately 50 countries. Students may choose from summer, fall or spring semester, academic year, and winter session programs that complement and extend the University's academic programs across the curriculum.

Students also may participate in study abroad programs sponsored by other accredited U.S. and foreign institutions. They should obtain advance approval of all transfer credit by completing a Study Abroad Credit Approval Form.

Information on University of Iowa and other study abroad programs is available from International Programs Study Abroad.

Courses

165:105 (ABRD:4510) International Student Exchange Program arr.

Study on reciprocal exchange at foreign universities worldwide; some instruction in English. Year-long, one semester, and summer options. Requirements: 40 s.h. of credit, g.p.a. of at least 3.00, and in some cases, command of a foreign language.

165:106 (ABRD:4000) UK Exchange Program arr.

Regular degree course work at the Universities of Birmingham, Hull, and Lancaster (England) and the University of Strathclyde (Scotland); humanities, social sciences, physical sciences, business, engineering. Requirements: 40 s.h. of credit and g.p.a. of at least 3.00.

165:108 (ABRD:4420) Japan Exchange Program arr.

Seven levels of Japanese language and area studies at Nanzan University's Center for Japanese Studies, Nagoya; language and culture classes at Kanda University of International Studies, Tokyo; language study or degree course work at Meiji University, Tokyo; language and area studies at Nagoya University of Foreign Studies, year or spring; area studies and international relations, taught in English, at Tokyo Denki University, School of Information Environment, fall. Prerequisites vary by university.

165:112 (ABRD:4500) The Iowa Exchanges arr.

Exchange programs offer courses in a wide variety of academic disciplines at several foreign universities. Many exchange partners offer courses taught in English. Universities are located in Canada, China, the Czech Republic, Denmark, France, Germany, Hungary, Iceland, Japan, Korea, Mexico, and the Netherlands.

165:117 (ABRD:4040) Frankfurt Exchange Program arr.

Regular degree course work in business and economics at Johann Wolfgang Goethe Universität; courses taught in German. Semester or academic year. Arranged through Tippie College of Business. Requirements: two years of college German or equivalent, and relevant academic background.

165:119 (ABRD:4055) Vienna Exchange Program arr.

Regular degree course work in business administration and economics at Wirtschatsuniversität in Vienna, Austria; taught in English and German. Semester or academic year. Arranged through Tippie College of Business. Requirements: one year of college German, g.p.a. of at least 2.75, and relevant academic background.

165:126 (ABRD:3352) International Perspectives: Xicotepec arr.

Introduction to providing service to communities in underdeveloped countries through discipline-specific projects to improve community life in Xicotepec, Mexico; cultural and professional preparation for team work in an international environment; service-learning course in collaboration with Rotary International. Spring break in Xicotepec, Mexico.

165:197 (ABRD:3445) International Development: India arr.

Exploration of student interests in social entrepreneurship, global health, microfinance, cultural production, environmental sustainability, or other development issues in India; varied disciplinary perspectives (i.e., public health, business, social work, geography, art); student work with Indian NGOs employing a diverse variety of techniques to address social problems such as child labor, health care for the poor, illiteracy, and disability services; led by UI faculty. Winter session.

165:200 (ABRD:3200) CIEE Alcala Liberal Arts Program 12 s.h.

Solidify informal and academic language skills of advanced students of Spanish; development of appreciation and understanding of issues relevant to contemporary Spain and its people. Semester or academic year program. Requirements: 2.75 g.p.a. and at least four to five semesters of college-level Spanish.

165:201 (ABRD:3201) CIEE Alcala Language and Culture Program 6,12 s.h.

Established in 1999, the CIEE Study Center at the Universidad de Alcala (Alcala de Henares, Spain) provides an academic program for students with a high- intermediate to advanced-level of Spanish; the summer program (established in 2008) consists of language and culture courses offered through the Institute; all courses offered in Spanish; many approved for Spanish majors, minors, and general education requirements, and may be approved for other degree requirements; 6 s.h. taken in each four-and-one-half-week session. Requirements: 2.75 cumulative g.p.a., 3.00 g.p.a. in most recent Spanish course, four semesters of college-level Spanish, and valid passport at time of application.

165:205 (ABRD:3205) CIEE Alicante Language and Culture Program 12 s.h.

Rapid progress in language skills while taking area studies courses related to Europe and Spain; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes and supplementary visits and excursions; administered by the Council on International Education Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 minimum g.p.a., three to four semesters of college-level Spanish, and valid passport at time of application.

165:206 (ABRD:3206) CIEE Alicante Language and Culture Summer Program 6 s.h.

Development of Spanish language skills and knowledge of Spanish art, cinema, and culture in Alicante, Spain; linguistic development and cultural immersion through housing in Spanish-speaking homes, supplementary visits and excursions, content courses in Spanish, and direct enrollment at the University of Alicante; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Summer. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:207 (ABRD:3207) CIEE Alicante Language in Context Program 12 s.h.

Solid foundation provided in Spanish language; improvement of language skills while pursuing studies focusing on Spain and Europe; topics in history, art history, political science, and international business; intensive language course work; area studies courses in English, conversation exchange program, excursions, and homestays; administered by the Council on International Educational Exchange (CIEE). Requirements: 2.75 minimum g.p.a., two semesters or less of college-level Spanish, and valid passport at time of application.

165:208 (ABRD:3208) CIEE Alicante Liberal Arts Program 12 s.h.

Development of spoken and written Spanish language skills; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes, supplementary visits and excursions, content courses in Spanish, and direct enrollment at the University of Alicante; administered by the Council on International Education Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 minimum g.p.a., at least five semesters of college-level Spanish, and valid passport at time of application.

165:215 (ABRD:3215) CIEE Barcelona Advanced Liberal Arts Program 12 s.h.

Development of fluency through direct enrollment in a wide range of regular university classes; classes taken alongside Spanish classmates who become friends and guides to the culture; dramatic improvement of Spanish language skills while living the language every day in the city and the university; for students with advanced Spanish language skills. Semester or academic year. Requirements: 3.00 minimum g.p.a., at least six semesters of college-level Spanish, and valid passport at time of application.

165:216 (ABRD:3216) CIEE Barcelona Architecture and Design Program 12 s.h.

Exploration of the intersection of two fields in a city famous for its vibrant architecture and innovative design; courses offered by ELISAVA and CIEE allow a unique opportunity to collaborate in a joint core class alongside courses in student's track and Spanish language; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a. and valid passport at time of application; for design track students — design or related major or minor and four semesters of college-level Spanish.

165:217 (ABRD:3217) CIEE Barcelona Business and Culture Program 12 s.h.

Development of competency in Spanish language while studying issues related to business in Spain and the European Union, Spanish language and culture; company visits, excursions, and homestays or student residence option in the vibrant city of Barcelona contribute to students' cultural immersion and development of language skills; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium; designed for students with varied levels of Spanish. Semester or academic year. Requirements: 3.00 cumulative g.p.a.; three semesters of microeconomics, macroeconomics, accounting, finance, management, or statistics; and valid passport at time of application.

165:218 (ABRD:3218) CIEE Barcelona Economics and Culture Program 12 s.h.

Classes at a Spanish university for students with varying levels of Spanish and a strong background in economics; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 3.25 cumulative g.p.a., three semesters of microeconomics or macroeconomics, one semester of calculus, and valid passport at time of application.

165:219 (ABRD:3219) CIEE Barcelona Language and Culture Program 12 s.h.

Development of skills and competency in Spanish language while studying Spanish history, arts, politics, and culture; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a., junior standing, one to three semesters of college-level Spanish, and valid passport at time of application.

165:220 (ABRD:3220) CIEE Barcelona Language and Culture Summer Program 6 s.h.

Rapid progress in language skills while taking language, culture, or business courses in Barcelona; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Summer. Requirements: 2.75 cumulative g.p.a. and four semesters of college-level Spanish.

165:221 (ABRD:3221) CIEE Barcelona Liberal Arts Program 12 s.h.

Development of skills and competency in Spanish language while studying Spanish history, politics, and culture at Universitat Pompeu Fabra; cultural immersion and development of language skills through excursions and homestays or student residence option in the vibrant city of Barcelona; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 3.00 cumulative g.p.a., junior standing, four semesters of college-level Spanish, and valid passport at time of application.

165:230 (ABRD:3230) CIEE Madrid Legal Studies Program 12 s.h.

Opportunity to further develop Spanish language skills while pursuing cocurricular program focused on law and public policy in Spain; goals achieved through a specially-designed language course, course on legal issues in Spain, an optional internship, and law and political science elective course at the Universidad Carlos III de Madrid; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for highly motivated students with a strong Spanish background, from any academic discipline. Requirements: g.p.a. of at least 3.00, six semesters of college-level Spanish, junior standing or above, and valid passport at time of application. Recommendations: good background in math/statistics in order to grasp the more theoretical focus of European business instruction.

165:231 (ABRD:3231) CIEE Madrid Liberal Arts Program 12 s.h.

Opportunity to matriculate in a combination of content courses in Hispanic studies, regular university courses, and short seminars while continuing to improve language skills and take advantage of the vibrant and rich cultural milieu of Madrid; linguistic development and cultural immersion promoted through housing in Spanish-speaking homes, and supplementary visits and excursions; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for independent, advanced-level students. Semester or academic year. Requirements: 3.00 minimum g.p.a., five or six semesters of college-level Spanish, and valid passport at time of application.

165:240 (ABRD:3240) CIEE Palma de Mallorca Liberal Arts Program 12 s.h.

Established in 2006, the CIEE study center at Universitat de les Illes Balears provides an academic program for students with an advanced level of Spanish who are interested in tourism studies, business, humanities, Spanish literature and language, and social sciences; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:241 (ABRD:3241) CIEE Palma de Mallorca Business and Tourism Program 12 s.h.

Study business, tourism, and hospitality alongside Spanish students in a direct enrollment environment with a global perspective in Palma de Mallorca; development of management skills for future leadership in the tourism and hospitality industry; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and valid passport at time of application. Recommendations: two semesters of college-level Spanish.

165:242 (ABRD:3242) CIEE Palma de Mallorca Language and Culture Summer Program 3,6 s.h.

Established in 2006, the CIEE Study Center at Universitat de les Illes Balears provides an academic summer program for students interested in tourism; development or improvement of Spanish language skills while learning about Spain and Europe; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:243 (ABRD:3243) CIEE Palma de Mallorca Summer Internship Program 6 s.h.

Enhancement of academic and language skills in a professional context while being immersed in Spanish professional work environment; intensive Spanish language course related to business and tourism taken during first three weeks with substantial interactive and practical component; five-week internship in hotel, company, or nonprofit organization with completion of 130 hours of work and meeting three hours each week with a university professor; designed for business and tourism students. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:250 (ABRD:3250) CIEE Seville Advanced Liberal Arts Program 12 s.h.

Achievement of fluency in spoken and written Spanish; wide variety of academic fields to gain deeper understanding from a Spanish perspective; direct matriculation in university courses, homestays, local and overnight excursions, conversational exchange program, volunteer opportunities, and independent study options in Seville, Spain. Requirements: 3.00 cumulative g.p.a., 3.00 minimum g.p.a. in Spanish courses, six semesters of college-level Spanish, and valid passport at time of application.

165:251 (ABRD:3251) CIEE Seville Business and Society Program 12 s.h.

Opportunity to study business in an international context through a combination of course work in Spanish business, society, and language; related field visits to Spanish companies; designed for highly motivated students of business with advanced-level Spanish skills at the University of Seville's Business School; unpaid internships may be available to students with advanced language ability; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: at least 2.75 g.p.a.; five semesters of college-level Spanish; 6 s.h. of microeconomics, macroeconomics, accounting, finance, management, or statistics; and valid passport at time of application. Recommendations: good background in math/statistics to grasp the more theoretical focus of European business instruction.

165:252 (ABRD:3252) CIEE Seville Business Internship Program 6 s.h.

Exposure to a professional workplace atmosphere in Seville, Spain for business students; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Eight weeks. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:253 (ABRD:3253) CIEE Seville Communications, New Media, and Journalism Program 12 s.h.

Valuable hands-on experience in a multifaceted academic and professional environment; courses through CIEE and with Spanish students at the Universidad de Sevilla; may include CIEE classes offered through the Liberal Arts program; social and cultural immersion of participants in the host society through specialized projects and extracurricular activities; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member; for students considering a career in any communication environment. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:254 (ABRD:3254) CIEE Seville International Business and Culture Program 12 s.h.

Spanish language improvement in Seville, Spain; courses in English, primarily in the field of international business; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for beginning to intermediate students. Semester or academic year. Requirements: 2.75 g.p.a., four semesters or less of college-level Spanish, and valid passport at time of application.

165:255 (ABRD:3255) CIEE Seville Language and Culture Summer Program 3,6,9 s.h.

Development of Spanish language skills and exposure to Spanish culture through an intense immersion experience; courses in Spanish language and culture, conversational exchange program, homestay program, and local visits and excursions; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Three, six, or nine weeks. Requirements: 2.75 cumulative g.p.a., four semesters of college-level Spanish, and valid passport at time of application.

165:257 (ABRD:3257) CIEE Seville Language and Society Program 12 s.h.

Rapid improvement of Spanish language skills; Spanish culture and its artistic, literary, historical, or political traditions; linguistic and cross-cultural development enhanced by participation in community life, volunteer work, field trips, and housing with Spanish-speakers in homestays; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for intermediate or low-advanced level students. Fall or spring semester. Requirements: 2.75 minimum g.p.a., completion of three and no more than four semesters of college-level Spanish, and valid passport at time of application.

165:258 (ABRD:3258) CIEE Seville Liberal Arts Program 12 s.h.

Achieve fluency in written and spoken Spanish; language acquisition and cultural immersion through housing in Spanish-speaking homes, involvement in volunteer opportunities, and conversation exchanges; courses at the CIEE Study Center, the University of Seville, and Pablo de Olavide University (UPO); administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:259 (ABRD:3259) CIEE Seville Teaching Development Program 12 s.h.

Achieve greater competency in written and spoken Spanish while developing specific expertise in international education and second language acquisition; academic program, teaching development course, homestay, excursions and cultural activities, conversation exchanges, and volunteer opportunities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a., five semesters of college-level Spanish, and valid passport at time of application.

165:270 (ABRD:3270) USAC Alicante Program 12 s.h.

Intensive language study in Alicante, Spain; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:272 (ABRD:3272) USAC Bilbao Program 3,6,12 s.h.

Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish and include offerings in business and environmental sustainability; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:274 (ABRD:3274) USAC Madrid Program 4,8,12 s.h.

Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester, or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:276 (ABRD:3276) USAC San Sebastian Program 4,6,8,12 s.h.

Intensive language study; up to two years of university language requirements may be met in one semester; additional courses taught in English or Spanish; administered by the University Studies Abroad Consortium (USAC) of which The University of Iowa is a member. Summer, semester, or academic year. Requirements: 2.50 g.p.a. and good academic standing.

165:328 (ABRD:4004) University of Birmingham Exchange 12 s.h.

Reciprocal exchange program between The University of Iowa and the University of Birmingham in Birmingham, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:329 (ABRD:4003) University of Hull Exchange 12 s.h.

Reciprocal exchange programs between The University of Iowa and University of Hull in Kingston-upon-Hull, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:330 (ABRD:4001) Lancaster University Exchange 12 s.h.

Reciprocal exchange programs between The University of Iowa and Lancaster University in Lancaster, England; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:331 (ABRD:4002) University of Strathclyde Exchange 12 s.h.

Reciprocal exchange program between The University of Iowa and the University of Strathclyde in Glasgow, Scotland; full integration with British students in student housing and regular classes. Semester or academic year. Requirements: 3.00 cumulative g.p.a., junior or senior standing, declared major, and good understanding of requirements for major.

165:332 (ABRD:4426) University of Nanzan Exchange 12 s.h.

Reciprocal exchange program between The University of Iowa and Nanzan University in Nagoya; study at Nanzan's Center for Japanese Studies; living options include a home stay program that places students in a Japanese home as a family member or residence hall accommodations; for students interested in developing fluency in Japanese language. Semester or year. Requirements: 3.00 minimum g.p.a. and completion of at least one semester in residence at The University of Iowa. Recommendations: strong record in Japanese.

165:333 (ABRD:4422) Kanda University of International Studies Exchange

12 s.h.

Reciprocal exchange program between The University of Iowa and Kanda University of International Studies; year of study at the Japanese Language and Culture Program at Kanda; small, ultramodern university; facilities designed to promote cross-cultural experience; Multilingual Communication Center has resources and equipment pertaining to Japanese, Korean, Spanish, Portuguese, Indonesian, Vietnamese, and Thai. Requirements: 3.00 minimum g.p.a. and completion of at least one semester in residence at The University of Iowa. Recommendations: strong record in Japanese.

165:334 (ABRD:4424) University of Meiji Exchange

12 s.h.

Reciprocal exchange program between The University of Iowa and Meiji University; study in Tokyo as visiting foreign student in a department of one of Meiji's various academic divisions; for undergraduates and graduate students with an appropriate research interest; the Japanese academic calendar runs late March through late January the following year, which involves spring through fall semesters at U Iowa. Requirements: 3.00 minimum g.p.a., sophomore standing or higher at time of enrollment in Meiji, and enrollment in fourth-year Japanese at time of application; graduate students intending to do research must have an appropriate project and proficiency at third-year level Japanese; graduate students participating in English-taught curriculum of the Special Graduate Student Exchange Program, Department of Political Science and Economics, must have sufficient Japanese to function in everyday living.

165:408 (ABRD:3328) CIEE Guanajuato Liberal Arts Program 12 s.h.

Personal reflection of identity, culture, and contemporary society encouraged through active reading and writing; development of Spanish language proficiency in course work and homestay living; Mexican literature, history, and art studied alongside Mexican peers at the University of Guanajuato; courses in migration, revolution, and community-based Spanish specially designed for CIEE. Requirements: 2.75 g.p.a. and four semesters of college-level Spanish.

165:409 (ABRD:3317) CIEE Santiago (Chile) Business and Culture Program 12 s.h.

Development of competency in Spanish language while studying issues related to local and regional business environment, management practices, and entrepreneurship in Chile and the southern cone; homestay living provides opportunities for cultural and linguistic immersion; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with varying levels of Spanish. Requirements: 2.75 cumulative g.p.a. Recommendations: completion of Spanish language course within past year.

165:410 (ABRD:3318) CIEE Santiago (Chile) Liberal Arts Program 12 s.h.

Special CIEE courses and direct enrollment with Chilean students in regular courses at the Pontificia Universidad Catolica de Chile and the Universidad de Chile; first-hand knowledge of contemporary issues and cultural patterns in Chile; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Semester or academic year. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish.

165:411 (ABRD:3323) CIEE Valparaiso Liberal Arts Program 12 s.h.

Special CIEE courses and direct enrollment with Chilean students in regular courses at the Universidad Catolica de Valparaiso; first-hand knowledge of contemporary issues to better understand Chilean society and an appreciation for Chilean history and identity; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish.

165:412 (ABRD:3329) CIEE Managua Social Justice and Development Program 12 s.h.

Contemporary Nicaraguan society and work of cooperatives, nongovernmental organizations, and social movements striving to achieve social justice in the country; impact of revolutionary and neoliberal policies in advancement of human development goals in Nicaragua; intensive course work, language study, rural immersion, and volunteer opportunities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish.

165:413 (ABRD:3312) CIEE Buenos Aires Liberal Arts Program 12 s.h.

Critical appreciation of Argentina and its importance in Latin America from perspective of social sciences and humanities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for advanced Spanish students with strong language preparation. Requirements: 2.75 cumulative g.p.a. and six semesters of college-level Spanish. Recommendations: completion of Spanish language course in session prior to study abroad and college-level course work in Latin American Studies.

165:414 (ABRD:3326) CIEE Santiago (DR) Liberal Arts Program 12 s.h.

Enrollment in one of three distinct academic tracks based on language proficiency level; tracks offer a variety of courses on society, culture, economics, and politics of Hispaniola and the Greater Hispanic Caribbean; regional literature, history, and widely variant sociocultural issues facing the region; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., 3.00 g.p.a. in Spanish language, and four semesters of college-level Spanish.

165:415 (ABRD:3327) CIEE Santo Domingo Liberal Arts Program 12 s.h.

Direct enrollment at three local universities in a wide range of courses in humanities and social sciences, in addition to a number of CIEE advanced language and area studies courses; optional track of study focused solely on the region with courses in social and ethno-cultural identity, authors of Hispanic Caribbean, and Dominican-Haitian relations; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish. Recommendations: Spanish language course within past year.

165:416 (ABRD:3331) CIEE Lima Language and Culture Program 12 s.h.

Rapid progress in language while learning about Peru; CIEE courses addressing contemporary times, ancient civilizations, and historical events that have shaped Peruvian society; administered by the Council on International Educational Exchange (CIEE) on behalf of an academic consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and three to four semesters of college-level Spanish.

165:417 (ABRD:3332) CIEE Lima Liberal Arts Program 12 s.h.

CIEE-taught course, homestay, and city-based cultural activities with direct enrollment alongside Peruvian students at the Pontificia Universidad Catolica del Peru; immersion to refine language skills and develop understanding of contemporary Peruvian society; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and five semesters of college-level Spanish. Recommendations: completion of Spanish language course within past year.

165:419 (ABRD:3313) CIEE Bahia Liberal Arts Program 12 s.h.

Special CIEE courses and direct enrollment in regular classes at two local universities; improvement of Portuguese language skills; the northeast region of Brazil and its Afro-Brazilian culture; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese.

- 165:420 (ABRD:3314) CIEE Sao Paulo Liberal Arts Program** 5,12 s.h.
Language-learning course in Brazil; direct enrollment in a host of English-taught courses at Pontificia Universidade Catolica de Sao Paulo; subjects range from anthropology, history, and international relations to business administration, journalism, and performing arts; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with multiple levels of Portuguese fluency. Requirements: 2.75 g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese. Recommendations: Portuguese or Spanish course taken within past year.
- 165:421 (ABRD:3315) CIEE Sao Paulo Business and Culture Program** 12 s.h.
Opportunity to begin or continue study of Portuguese while studying issues related to economy and business in Brazil and Latin America alongside Brazilian and other international students at the International Program in Management at the prestigious Getulio Vargas Foundation; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with varying levels of Portuguese language skills. Requirements: 3.00 cumulative g.p.a. and three semesters of microeconomics, macroeconomics, accounting, finance, management, marketing, or statistics.
- 165:422 (ABRD:3316) CIEE Bahia Intensive Language and Culture** 6 s.h.
Intensive summer program to develop Portuguese language proficiency and a critical appreciation of Brazilian life and society; cultural immersion through classroom, homestay living, program excursions and activities; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Five weeks. Requirements: 2.75 cumulative g.p.a., and four semesters of college-level Spanish or two semesters of college-level Portuguese.
- 165:423 (ABRD:3324) CIEE Monteverde Tropical Ecology and Conservation** 10,12 s.h.
Rich understanding of tropical ecology through hands-on exposure, direct experimentation, study of theory, taxonomy of major groups, and observation of empirical patterns; science courses taught in English; Spanish-language course for various levels; travel to diverse ecosystems; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member. Requirements: 2.75 cumulative g.p.a. and two semesters of college-level biology. Recommendations: college-level ecology or environmental science course, and college-level Spanish.
- 165:424 (ABRD:3325) CIEE Monteverde Sustainability and the Environment** 12 s.h.
Insight into complexity of pressures that confront global biodiversity (e.g., population growth, consumption, urbanization, globalization); homestay with local families provides exposure to Spanish language and Costa Rican culture; administered by the Council on International Educational Exchange (CIEE) on behalf of a consortium of which The University of Iowa is a member; for students with an interest in environmental studies. Requirements: 2.75 g.p.a. and three semesters of college-level environmental studies. Recommendations: college-level Spanish.
- 165:500 (ABRD:3500) Study Abroad** 0 s.h.
Students participating in study abroad programs at other U.S. or foreign universities maintain their status at The University of Iowa by registering for this course.
- 165:501 (ABRD:3501) Study Abroad** arr.
- 165:600 (ABRD:3502) Study Abroad Independent Enrollment** arr.
- 165:805 (ABRD:3010) Iowa Regents Semester in Wales** arr.
University of Swansea, Wales; three-week interdisciplinary course on British life and culture, followed by regular degree course work in the humanities, social sciences, physical sciences, business, engineering. Fall and spring semesters. Requirements: g.p.a. of at least 2.80.
- 165:806 (ABRD:3012) Iowa Regents Semester in Scotland** arr.
Advanced undergraduate study at the University of Edinburgh; humanities, social sciences, science, engineering. Fall and/or spring. Requirements: g.p.a. of at least 3.00.
- 165:810 (ABRD:3100) CIEE Spain Program** arr.
Several programs in Alcala, Alicante, Barcelona, Madrid, Palma de Mallorca, and Seville addressing specific language proficiency levels and academic interests. Prerequisites vary.
- 165:811 (ABRD:3110) USAC Studies in Spain** arr.
Intensive Spanish language at beginning through advanced levels; culture and literature at third-year level; Basque language; some courses taught in English; program sites include Alicante, Bilbao, Madrid, San Sebastian. Requirements: g.p.a. of at least 2.50.
- 165:812 (ABRD:3065) CIEE France Program** arr.
Contemporary French studies program: language skills for students taking courses on French culture and contemporary civilization; two semesters of French required. Critical studies program: critical approach to contemporary French thought in literature, film, philosophy, art, aesthetics; proficiency in French required. Requirements: g.p.a. of at least 3.00.
- 165:813 (ABRD:3400) CIEE China Program** arr.
Four programs in the People's Republic of China, one program in Taiwan. Mandarin Chinese, Chinese civilization, area studies, and international relations. Summer, semester, or academic year. Prerequisites and sessions vary.
- 165:814 (ABRD:3411) Iowa in Tianjin** arr.
Chinese language, area studies, and folk art; based at Tianjin University of Technology. Summer or semester. Requirements: one to three years of college-level Chinese.
- 165:816 (ABRD:3310) CIC Latin American Health and Nutrition Program** arr.
Interdisciplinary and field-based study with course work in Spanish language, public health, social sciences, humanities; independent research project. Summer and/or fall semesters. Requirements: one year of Spanish (summer), or two years of Spanish (summer and fall), or three years of Spanish (fall); and g.p.a. of at least 2.50.
- 165:817 (ABRD:3311) CIC Program in Mexico** arr.
University of Guanajuato; advanced Spanish language, Latin American literature, art, history, anthropology, film, political science; homestays with Mexican families. Summer. Requirements: five semesters of Spanish and g.p.a. of at least 3.00.
- 165:818 (ABRD:3900) CIC Program in Quebec** arr.
Laval University; French language, Quebec literature and culture; home-stays with Francophone families or dormitory accommodations. Summer. Requirements: one year of college-level French and g.p.a. of at least 3.00.

- 165:828 (ABRD:3800) ACTR Program Russia** arr.
Russian language programs at institutions in Leningrad, Moscow, or Vladimir; or business language and internship program; or Eurasian language program. Semester, academic year, or summer. Requirements: three years of college-level Russian.
- 165:829 (ABRD:3020) London Performance Study** arr.
Selected theater productions, lectures, performances, discussions, written exercises, workshops, cultural activities. Credit may be applied toward a University of Iowa major in English or theatre arts. Summer.
- 165:831 (ABRD:3530) Elementary Student Teaching Abroad** arr.
Supervised student teaching in an overseas school.
- 165:832 (ABRD:3531) Secondary Student Teaching Abroad** arr.
Supervised student teaching in an overseas school.
- 165:833 (ABRD:3045) Academic Year in Freiburg** arr.
Combination of special program classes, German for foreigners, and regular degree course work in most liberal arts subjects at Albert-Ludwigs University, Freiburg, Germany. Academic year. Requirements: at least four semesters college German with g.p.a. of at least 3.00.
- 165:836 (ABRD:3440) Semester in South India** arr.
Indian civilization and culture; science, technology, and sustainable development; women's studies; environment and health, Hindi, Kannada, or Sanskrit; internship or independent research project. Based in Mysore. Fall semester.
- 165:837 (ABRD:3600) Iowa Regents Semester in Australia** arr.
Regular course work in humanities, social sciences, business, engineering, and physical sciences at the University of Newcastle and the University of Tasmania. Fall and spring semesters. Requirements: sophomore standing and g.p.a. of at least 2.50.
- 165:838 (ABRD:3035) Irish Writing Program** arr.
Dublin, Ireland; writing workshops directed by Irish writers, literature courses taught by faculty. Summer.
- 165:839 (ABRD:3510) International Student Exchange Program Direct** arr.
Study at some ISEP member institutions in Brazil, Chile, Costa Rica, Estonia, Ghana, Italy, Malta, The Netherlands, New Zealand, South Africa, Thailand, the United Kingdom; fields and terms vary.
- 165:840 (ABRD:3165) Archaeological Field Work Abroad** arr.
Major archeology projects hosted at international excavation sites. Summer.
- 165:841 (ABRD:6560) International Perspectives: Engineering** arr.
Exploration of historical, cultural, social, economic, ethical, environmental, and/or political conditions that may affect engineering projects in a specific country or world region; location and topics vary.
- 165:847 (ABRD:3420) Japan Summer Language Institute** arr.
Development of strong communication skills and cultural awareness through integrated language study and homestay, cultural immersion; Hokkaido, eight weeks. Requirements: one semester college-level Japanese.
- 165:848 (ABRD:4701) University of KwaZulu-Natal Exchange** arr.
Introduction to South African culture from varied academic perspectives, summer session. Enrollment in regular University courses; fall and spring semesters.
- 165:849 (ABRD:3350) Social Work International Travel/Study Seminar** arr.
Impact of socio/political economy on family and community systems in the country visited; seminars, guest speakers, field visits. Summer. Prerequisites: 042:143 (SSW:4843).
- 165:850 (ABRD:3320) USAC Studies in Costa Rica** arr.
Intensive beginning-level Spanish language; advanced language, literature, civilization at third-year level; tropical ecology. Three program sites—Heredia, Puntarenas, San Ramon. Some courses taught in English. Requirements: g.p.a. of at least 2.50 and college biology (depending on site).
- 165:851 (ABRD:3321) USAC Studies in Chile** arr.
Intensive beginning-level Spanish language; advanced language, literature, civilization at third-year level; area studies. Some courses taught in English. Requirements: g.p.a. of at least 2.50.
- 165:854 (ABRD:3025) Undergraduate International Business Abroad** arr.
Study of the international business environment in one of the world's financial capitals; may count toward undergraduate business major or Certificate in International Business. Winter. Prerequisites vary depending on classes being offered. Requirements: junior standing.
- 165:855 (ABRD:3515) Business Internships Abroad** arr.
Orientation, academic course work, internship; London, Madrid and Paris. Requirements: g.p.a. of at least 2.75, 45 s.h. earned, at least one semester at The University of Iowa; and Spanish proficiency for Madrid program or French proficiency for Paris program.
- 165:856 (ABRD:3120) Regents Hispanic Institute** arr.
Study of Spanish language and culture in Valladolid, Spain. Six weeks in summer. Requirements: four semesters of college-level Spanish.
- 165:865 (ABRD:3060) Iowa Regents Summer Program in France** arr.
Study of French language and culture in Lyon, France. Six weeks in summer. Requirements: four semesters of college-level French and g.p.a. of at least 2.75.
- 165:866 (ABRD:3030) Iowa Regents Semester in Ireland** arr.
Regular course work in all disciplines at University College Cork in Ireland. Fall and spring semesters. Requirements: sophomore standing and g.p.a. of at least 3.00.
- 165:867 (ABRD:3140) American College of Thessaloniki Semester** arr.
Undergraduate studies in varied academic disciplines (business, history, international relations, psychology, fine arts, literature, philosophy, modern Greek language) at the American College of Thessaloniki. Taught in English.

- 165:868 (ABRD:3330) CIEE Latin America Programs** arr.
Choice of several institutions. Argentina: social sciences at the Facultad Latinoamericana de Ciencias Sociales (FLACSO), humanities at the Universidad de Buenos Aires or Universidad Catolica de Argentina. Chile: social sciences at FLACSO Chile, humanities at the Universidad Catolica de Chile, Universidad de Chile, or Universidad de Santiago. Dominican Republic: liberal arts, including Teaching English as a Second Language at the Universidad Madre y Maestra. Mexico: liberal arts at the Universidad de Guanajuato. Peru: business at the Universidad del Pacifico, liberal arts at the Universidad del Pacifico. Requirements: g.p.a. of at least 2.75 and fourth semester of college Spanish.
- 165:869 (ABRD:3070) USAC Studies in France** arr.
Beginning through advanced French language study at the University of Pau; additional courses in French culture, literature, politics, history, and other disciplines. Taught in English and French. No previous study of French required. Requirements: g.p.a. of at least 2.50.
- 165:871 (ABRD:3071) Study Abroad in Montpellier** arr.
Special courses for foreign students or regular courses with French students at University of Montpellier; taught in French. Semester or academic year. Requirements: four semesters of French.
- 165:872 (ABRD:3080) USAC Studies in Italy** arr.
Intensive beginning-level Italian; intermediate and advanced language; international business, art, architecture and Italian studies options in Turin; intensive language, humanities, and area studies in Viterbo.
- 165:873 (ABRD:3580) USAC Direct Programs** arr.
Direct enrollment in foreign universities in 15 countries. Semester or academic year.
- 165:875 (ABRD:7670) Overseas Writers Workshop** arr.
Opportunity for students to meet with and have their creative nonfiction read and critiqued by prominent host country writers; location, dates, and duration vary.
- 165:876 (ABRD:4425) Nagoya University of Foreign Studies Exchange** arr.
Language instruction at all levels and Japanese studies taught in English at Nagoya University of Foreign Studies. Semester or year.
- 165:877 (ABRD:3322) USAC Studies in Mexico** arr.
Universidad Iberoamericana in Puebla: intensive beginning and intermediate Spanish language; advanced language and literature; Mexican studies and Spanish for health care professionals. Summer or semester. Requirements: g.p.a. of at least 2.50.
- 165:879 (ABRD:3029) Health Promotion in Great Britain** arr.
Health care as offered by Great Britain's National Health Service and private providers, compared to health care delivery systems in the United States. Offered every other year during spring break.
- 165:880 (ABRD:3370) Spanish Language and Service Learning in Peru** arr.
Spanish language and Peruvian civilization course work (6 s.h.) and 100 hours of community service learning in Cusco, Peru. Two months in summer. Requirements: two years of college-level Spanish.
- 165:881 (ABRD:3319) CIEE Monteverde Environmental Studies** arr.
Rain forest conservation in Monteverde, Costa Rica; intensive tropical fieldwork and science course work, excursions, independent project; homestays with local families. Courses taught in English. Requirements: environmental science or biology major.
- 165:883 (ABRD:3805) Russian Politics and Foreign Affairs** arr.
Courses in Moscow (Russian politics and institutions, Russian foreign policy) taught in English by Russian professors; additional basic Russian language course (1 s.h.). Summer.
- 165:885 (ABRD:3830) USAC Studies in the Czech Republic** arr.
Introductory Czech language and culture courses taught in English at Charles University. Summer, semester, or academic year.
- 165:887 (ABRD:6086) Opera in Milano** arr.
Intensive study of a Mozart/da Ponte opera in Milan, Italy; scene work, recitativo, musical style; opportunity to stage characters in a contemporary interpretation of Mozart, tutor in Italian, and attend rehearsals; museum tour and performances at Teatro alla Scala; participants chosen by audition. Requirements: vocal performance major.
- 165:888 (ABRD:3520) Virtual International Project Team (VIPT) Abroad** arr.
Experience for undergraduate engineering students working on a real-world engineering project with engineering students at Marseille Polytech in Marseille, France; communication by Internet, email, video conference, shared Web sites, and so forth; French students to travel to Iowa in February, Iowa students travel to France in May (includes visits to industries such as Airbus, Eurocopter, and John Deere European headquarters); team-based project experience; understanding engineering standards, practices, and cultures in other countries; teamwork skills related to international work; issues and skills relevant to electronic communication.
- 165:893 (ABRD:3088) CIMBA Italy Program** arr.
Course work in business and related disciplines in the Veneto region of Italy, taught in English. Four weeks in summer or 13-week semesters.
- 165:894 (ABRD:3342) Brazilian Carnival: Music and Dance** 3 s.h.
arr.
- 165:895 (ABRD:3750) Iowa Regents Arabic Program in Morocco** arr.
Moroccan colloquial Arabic, modern standard Arabic, and Moroccan culture; development of communication skills and cultural awareness through language study, homestays, cultural immersion; based in Fez, Morocco. Seven weeks in summer. Requirements: completion of General Education Program foreign language requirement and 3.00 minimum g.p.a.
- 165:896 (ABRD:3023) Literature & Culture of the Middle Ages: Study Abroad in England** 3 s.h.
Great medieval literature and the culture in which it was produced; reading, analysis; taught in English at sites connected to the age. Requirements: good academic standing and demonstrated interest in the area.

165:897 (ABRD:3441) Global Health in Rural and Resource-Limited India

arr.

Experience in a comprehensive care system where institutional and community health care complement each other in a resource-limited setting; attendance at seminars, participation in clinical discussions, contribution to case reports in the hospital's specialty areas; participation in community outreach and mobile clinics that serve remote tribal populations; individual projects; for clinical or advanced health science students. Requirements: good academic standing and enrollment/participation in a medical or health-related field.

165:898 (ABRD:3364) Pharmacy Rotations Abroad

arr.

Practicum experience; focus on best practices for pharmaceutical management, ways to enhance access to medicine; promotion in underserved and resource-limited environments abroad. Recommendations: successful completion of all requirements listed as prerequisites for rotations in the advanced practice experience syllabus.

165:900 (ABRD:3141) City of Athens

arr.

Athens from the Bronze Age to the present; archeological, literary, and other evidence to reconstruct the narratives that gave this city and its inhabitants their identity over time; opportunity for students to walk through the city and gain first-hand knowledge of the relationship of its ancient and modern layout; broad understanding of the history of this city that was so important in the development of western ideas and institutions.

165:901 (ABRD:3711) Introduction to Africa: Tanzania

arr.

Introduction to history, conservation, development initiatives, and Kiswahili language in Tanzania; focus on modern Tanzanian history, Kiswahili (Tanzania's national language), history and environment of Iringa region; based in Dar es Salaam, Tanzania's vibrant commercial capital and East Africa's most populous city; extended visit to rural, highland region of Iringa in Tanzania's southwest; led by University of Iowa professors with extensive experience in Tanzania; Mkwawa University College of Education (MUCE) in Iringa (semester option). Three-week winter session or four weeks in May and June.

165:902 (ABRD:3421) Pearl Harbor to Hiroshima

arr.

Competing narratives of the Pacific War theater during World War II, starting at Pearl Harbor in Honolulu and stretching across the Pacific Ocean to Japan; students visit peace and war memorials and museums in Tokyo, Kyoto, Ise, Hiroshima, and Nagasaki; with the passage of time and the healing of the cultural and physical scars of war, how conflicts are remembered and written into a nation's history through collective memory becomes the most important legacy of war; the contrasting conceptions of World War II seen from U.S. and Japanese perspectives.

165:903 (ABRD:3344) Art in Argentina

3 s.h.

Introduction to Latin American arts and culture with focus on Buenos Aires, Argentina; study of visual arts, music, art history, architecture, literature, and cinema; opportunity to combine formal course work with unsurpassed opportunity to experience Buenos Aires' rich cultural life; summer session. Requirements: good academic standing.

165:904 (ABRD:3360) Projects in Global Health

1 s.h.

Observation and participation in disaster relief efforts in Jacmel, Haiti. Prerequisites: 152:125 (GHS:4100).

165:905 (ABRD:3081) John Cabot University in Rome, Italy

arr.

Business, social science, humanities, art, and language courses at John Cabot University; located in the heart of Rome and surrounded by the extraordinarily rich offerings of a city of culture, history, art, creativity, business, and international affairs.

165:906 (ABRD:3082) Studio Art Centers International in Florence, Italy

arr.

Studio art, design, art conservation, art history, Italian language, and creative writing instruction at Studio Art Centers International (SACI) in Florence, Italy; focus on art courses; engagement in leading areas of research and exploration; opportunities to interact with the Florentine community through a variety of social and humanitarian programs. Summer, semester, or academic year.

165:907 (ABRD:3024) Issues in International Journalism

3 s.h.

Aspects of foreign press and reporting news from abroad; analyzing truth and accuracy of British press, becoming a foreign correspondent, issues in international journalism, host city and country as a learning laboratory for aspiring journalists.

165:909 (ABRD:3135) CIEE Portugal Program

arr.

Intensive Portuguese language study (beginning to advanced levels) and area studies courses taught in English at Lisbon's Universidade Nova; regular university courses are available to semester students with sufficient language proficiency. Summer, semester, or academic year. Requirements: g.p.a. of at least 2.75.

165:910 (ABRD:3190) European Art History Study Abroad Tour

arr.

Travel to Rome, Florence, and Paris; may include Amsterdam and other significant sites of art production and display; historic monuments and museums in capitals of European culture.

165:912 (ABRD:4430) Teaching and Learning in Korea Program

arr.

Teach and Learn in Korea (TaLK) sends native English speakers to teach English to elementary school children in South Korea; prior to leaving for South Korea, participants receive training to teach English as a second language from UI College of Education faculty and have access to crash courses in Korean language and culture; on-site orientation, training, and excursions familiarize participants with Korean classrooms and culture; free housing, airfare reimbursement, and monthly stipend; no prior knowledge of Korean language/culture required. Requirements: junior standing.

165:913 (ABRD:5172) Maternal and Child Health in Romania

3 s.h.

Maternal and child health in Romania from an epidemiological, policy, and cultural point of view; areas include pregnancy and childbirth, Roma minorities, infectious disease, child development, injury, and trauma management; observation and participation at clinics and in programs, conduct field work.

165:914 (ABRD:3566) Undergraduate Overseas Writing Workshop

3 s.h.

Nonfiction writing workshop to hone writing and observation skills while exploring the influences of the world at large; combination of traditional writing workshop with immersion into the contemporary and historical writing associated with chosen locale; destination varies from year to year; activities include workshops, lectures, field trips, and writing exercises; taught in English. Recommendations: declared major or minor in English.

165:915 (ABRD:3545) Spring Break Experiential Learning Programs Abroad

1 s.h.

Combination of academic content with an intensive, week-long international experience; activities may include workshops, lectures, field trips, service learning, and research that provide students with unique opportunities to engage with communities, individuals, and specific topical areas of interest; destinations and topics vary each year.

165:925 (ABRD:1525) Iowa International Summer Institute arr.

Several three-week courses, all satisfying various General Education Program requirements, offered in succession each summer; taught by UI professors; course offerings and locations vary; students may take one, two, or three courses. Requirements: good academic standing.

Summer Undergraduate MSTP Research Program

Web site: <http://www.healthcare.uiowa.edu/mstp/>

The Summer Undergraduate MSTP Research Program is an intensive eight-to-ten-week experience for undergraduates interested in future careers as physician scientists.

Participants gain experience in research laboratories and exposure to clinical medicine and medically relevant research in preparation for careers as physician scientists.

Students conduct research in the laboratories of biomedical sciences faculty members, shadow physician scientists in clinical settings, participate in career development seminars, and attend a weekly seminar series focusing on the intersection of science and medicine.

Participants receive a stipend for the program and live on campus in University housing.

Applicants must be U.S. citizens or permanent residents who have completed their junior year in a bachelor's degree program in the biological or physical sciences. Applicants should submit an application form (available on the program's web site); an official college transcript; and two letters of recommendation. Application deadline is early February for the following summer.

Contact the Medical Scientist Training Program, Carver College of Medicine, for more information.

Sustainability

Coordinator

Franklin L. Yoder

Undergraduate certificate: sustainability

Web site: <http://sustainability.uiowa.edu/certificate>

For decades, world leaders have defined sustainability as the implementation of policies, processes, and practices that meet the needs of the present without compromising the ability of future generations to meet their own needs. Achievement of sustainability requires an understanding of human and environmental systems and the complex interactions between them.

The Certificate in Sustainability provides students with the knowledge and skills they will need in order to contribute to sustainable systems and their interactions, especially those related to energy, society, culture, economics, the built environment, health, and public policy. The program helps students become effective leaders and agents of change for sustainability in a wide range of vocations, such as academic researcher, teacher, corporate officer, technology specialist, farmer, grassroots advocate, or government official.

The Certificate in Sustainability is offered by University College.

Undergraduate Program

- Certificate in Sustainability

Certificate

The Certificate in Sustainability requires 24 s.h. of credit. The certificate program is open to current University of Iowa undergraduate students and to all individual who hold a bachelor's degree and are not enrolled in a graduate or professional degree program. Students must maintain a g.p.a. of at least 2.00 in work for the certificate. Completion of the certificate is noted on the student's transcript.

Individuals must declare their intent to earn the certificate; see the Certificate in Sustainability web site for details.

Sustainability embraces many disciplines, methodologies, and institutional practices. Certificate students must have knowledge of the multidisciplinary breadth of the field, which is represented by the program's four areas of breadth electives: changing environments and human health; energy, climate, and built environments; ethics, economics, and public policy; and the power of culture and society. They also must have experience with analyzing real-life problems in and outside of the classroom and with working collaboratively to solve such problems.

Work for the certificate includes three introductory course courses; four breadth electives—one from each of the program's four elective areas; and one project course. Students may be able to count some certificate courses toward requirements for their majors or minors. They may count a maximum of three courses in a single department or program toward the certificate. A maximum of 6 s.h. of approved transfer credit may be counted toward the certificate. Certificate courses may not be taken pass/nonpass. A single course may be used to satisfy only one certificate requirement.

The Certificate in Sustainability requires the following course work.

INTRODUCTORY CORE

Students complete the following three introductory core courses.

012:008 (GEOS:1080)/159:008 (ENVS:1080) Introduction to Environmental Science	3-4 s.h.
044:019 (GEOG:1070) Contemporary Environmental Issues	3 s.h.
057:013 (ENGR:4013) Introduction to Sustainability	3 s.h.

BREADTH ELECTIVES

Students complete at least 3 s.h. in each of the following four breadth areas, choosing from the courses in each list below.

Changing Environments and Human Health

002:103 (BIOL:2374)/044:103 (GEOG:2374) Biogeography	3 s.h.
002:108 (BIOL:2346) Vertebrate Zoology	4 s.h.
002:134 (BIOL:2673)/159:134 (ENVS:2673) Ecology	3-4 s.h.

102:243 (URP:6253) Healthy Cities and the Environment	3 s.h.
165:841 (ABRD:6560) International Perspectives: Engineering (when topic is international perspectives in water science and management)	3 s.h.
175:101 (OEH:3210)/044:174 (GEOG:4130) Health, Work, and the Environment	3 s.h.
175:197 (OEH:4240) Environmental Health	3 s.h.

Ethics, Economics, and Public Policy

06E:133 (ECON:3330) Environmental and Natural Resource Economics	3 s.h.
06E:183 (ECON:3320) Natural Resource Economics	3 s.h.
008:179 (ENGL:3152)/048:179 (CCL:3379) Literature and Society (when topic is locally grown)	3 s.h.
030:045 (POLI:1405) Introduction to Comparative Politics	3 s.h.
030:060 (POLI:1500) Introduction to International Relations	3 s.h.
036:043 (COMM:3043) Rhetoric, Science, and Technology	3 s.h.
044:030 (GEOG:2910) The Global Economy	3 s.h.
044:111 (GEOG:2930) Water Resources	3 s.h.
044:112 (GEOG:3530) Mapping American Cities and Regions	3 s.h.
044:125 (GEOG:4750)/102:125 (URP:4750) Environmental Impact Analysis	4 s.h.
044:127 (GEOG:3750) Environmental Quality: Science, Technology, and Policy	3 s.h.
044:175 (GEOG:3760) Hazards and Society	3 s.h.
044:177 (GEOG:4770) Environmental Justice	3 s.h.
044:194 (GEOG:3910) Geographic Perspectives on Development	3 s.h.
044:197 (GEOG:3001) Special Topics (when topic is international environmental policy or globalization in the developing world)	3 s.h.
091:291 (LAW:8622) International Environmental Law	3 s.h.

102:247 (URP:6257) Environmental Management	3 s.h.
113:139 (ANTH:4130)/032:130 (RELS:4730) Religion and Environmental Ethics	3 s.h.
129:029 (AFAM:1000) First-Year Seminar (when topic is Black New Orleans before and after Hurricane Katrina)	1 s.h.
175:252 (OEH:4220)/053:204 (CEE:4220)/152:252 (GHS:4220) Environmental Health Policy	3 s.h.

Power of Culture and Society

01H:009 (ARTH:1090) Earthly Paradises: A Global History of Gardens	3 s.h.
01H:186 (ARTH:3090) Contemporary Architecture	3 s.h.
01H:187 (ARTH:3890) Sustainable Architecture: Past, Present, and Future	3 s.h.
01T:022 (TDSN:2220) Problems in 3-D Design II: Form and Function	4 s.h.
01T:137 (TDSN:3210)/049:158 (THTR:3206) Environmental Design I	4 s.h.
002:095 (BIOL:1260) Plants and Human Affairs	2-3 s.h.
004:005 (CHEM:1050) Technology and Society	3 s.h.
008:052 (ENGL:2193)/131:052 (GWSS:2193) Literature, Culture, and Women (when topic is women's nature)	3 s.h.
008:136 (ENGL:3105) Topics in Popular Culture (when topic is food studies and popular culture)	3 s.h.
008:164 (ENGL:3510) Topics in Transnational Literature (when topic is story of water)	3 s.h.
008:175 (ENGL:3130) Topics in Film and Literature (when topic is U.S. environmental literature)	3 s.h.
008:179 (ENGL:3152) Literature and Society (when topic is capturing animals)	3 s.h.
008:188 (ENGL:3120) Prose by Women Writers (when topic is Rachel Carson, Jane Jacobs, and their legacy)	3 s.h.
08C:110 (CW:3210)/145:110 (INTD:3210) Creative Writing for the Ecologically Aware: Stories in the Land	3 s.h.
009:007 (FREN:1007) Nature/Ecology French Philosophy and Fiction	3 s.h.
010:170 (RHET:3700) Rhetoric of Sustainability	3 s.h.
032:076 (RELS:3976)/149:076 (AINS:3276) American Indian Environmentalism	3 s.h.
044:001 (GEOG:1010) Introduction to Human Geography	3 s.h.
044:010 (GEOG:1090) Globalization and Geographic Diversity	3 s.h.
044:011 (GEOG:2110) Population Geography	3 s.h.
044:104 (GEOG:2410) Environment and Development	3 s.h.
045:050 (AMST:1154) Food in America	3 s.h.
045:090 (AMST:3090) Seminar in American Cultural Studies (when topic is eco-criticism: the culture of nature in the U.S.)	3 s.h.
045:147 (AMST:3047) American Disasters	3 s.h.
045:150 (AMST:3050) Topics in American Cultural Studies (when topic is nature and the American mind: environment and sustainability in U.S. history)	3 s.h.
045:163 (AMST:3063) American Ruins	3 s.h.
052:030 (CBE:2030) Energy and Society	3 s.h.
113:010 (ANTH:2100) Anthropology and Contemporary World Problems	3 s.h.
113:113 (ANTH:2261) Human Impacts on the Environment	3 s.h.
113:114 (ANTH:3112) Environmentalisms	3 s.h.
113:126 (ANTH:3282) Animals, Culture, and Food	3 s.h.
113:139 (ANTH:4130)/032:130 (RELS:4730) Religion and Environmental Ethics	3 s.h.
113:143 (ANTH:3103) Environment and Culture	3 s.h.
113:179 (ANTH:3260) Pleistocene Peopling of the Americas	3 s.h.

169:040 (LEIS:1040) The Good Society	3 s.h.
169:080 (LEIS:1080) Introduction to Place Studies	3 s.h.
410:068 (LLS:1068) Wilderness Appreciation	1 s.h.

PROJECT COURSES

Students complete 3 s.h. from these.

01J:108 (INTM:3750) Art and Ecology	4 s.h.
01T:249 (TDSN:6295) Advanced Problems in Design (when topic is special issues and topics in design)	4 s.h.
06M:140 (MKTG:4250) Marketing and Sustainability	3 s.h.
08N:133 (CNW:4642) Team Writing for Business (when topic is sustainability)	3 s.h.
08N:145 (CNW:3660) Multimedia Writing (when topic is the green economy: environmental writing and filmmaking)	3 s.h.
012:193 (GEOS:3150) Sustainability Project	arr.
044:179 (GEOG:3340) Ecosystem Services: Human Dependence on Natural Systems	3 s.h.
044:197 (GEOG:3001) Special Topics (when topic is international development)	3 s.h.
045:150 (AMST:3050) Topics in American Cultural Studies (when topic is environmental history; food studies; nature in collections and museums)	3 s.h.
048:166 (CCL:4266) Topics in Literature and Theory (when subtitle is City as Text/Text as City)	3 s.h.
052:237 (CBE:5405) Green Chemical and Energy Technologies	3 s.h.
053:107 (CEE:4107)/052:107 (CBE:4410) Sustainable Systems	3 s.h.
053:141 (CEE:4141) Design for the Developing World	3 s.h.
152:125 (GHS:4100) Topics in Global Health	3 s.h.

University Housing

Director

Von Stange

Assistant director

Kathleen A. Fitzgerald

Web site: <http://housing.uiowa.edu/>

University Housing courses are designed to help students involved in the resident assistant (RA) program become effective RAs. Students learn how to establish healthy student communities in the residence halls, how to confront crises and emergencies, and how to develop leadership skills. Enrollment is open only to students who have been selected to serve as resident assistants.

Courses

415:001 (UHSG:1001) Issues in College Residence Halls I 1 s.h.

Development of knowledge and skills required for work as a resident assistant; creating community, handling crises and emergencies; leadership.

415:002 (UHSG:1002) Issues in College Residence Halls II 1 s.h.

Continuation of 415:001 (UHSG:1001).

University Libraries

Coordinator

Kathy Magarrell

Web site: <http://www.lib.uiowa.edu/instruction/index.html>

University Libraries offers three courses intended for undergraduates: 417:001 (ULIB:1001) Library Research in Context, 417:096 (ULIB:3011) Focused Academic Research for International Studies Majors, and 417:101 (ULIB:2001) Being Responsible Online: From Facebook to Academic Research.

Library Research in Context is an activity-based course that helps students integrate information skills and concepts into their academic tool kit, enabling them to develop habits of critical inquiry and to accomplish course goals. Designed primarily for sophomores and juniors, the course introduces students to the basic research process and helps them formulate research questions and evaluate information. It also touches on the social and ethical contexts of information. Subject-specialist librarians present the course, using in-class activities and assignments and class discussion. The course is offered online as well as on campus.

Academic Research for International Studies Majors provides a step-by-step orientation to the academic research process, in preparation for the major's senior project [187:095 (IS:3010) Research and Final Project Preparation]. The course helps students learn to think critically, understand and apply the components of the research process, and explore the nature of scholarly information--skills that will be valuable throughout student's academic careers and beyond.

Being Responsible Online introduces students to ethical issues that surround online information, especially in the context of social media. Discussion topics include issues of privacy, security, free versus fee-based information, censorship, one's digital footprint, and academic integrity.

Courses

417:001 (ULIB:1001) Library Research in Context 1 s.h.

Academic research, effective use of the library and its resources, basic research methods, process of scholarly communication; content may be keyed to a discipline-specific course; students apply concepts and processes to their research projects; transferable skills.

417:096 (ULIB:3011) Focused Academic Research for International Studies Majors 1 s.h.

Same as 187:096 (IS:3011).

417:101 (ULIB:2001) Being Responsible Online: From Facebook to Academic Research 1 s.h.

Introduction to ethical issues surrounding online information; using information as researchers or creating information on a social networking site; issues of privacy, reliability, and intellectual property; skills to navigate online information responsibly and knowledgeably.

University of Iowa Honors Program

Director

Art L. Spisak

Web site: <http://honors.uiowa.edu>

The University of Iowa Honors Program enriches the intellectual and personal lives of outstanding undergraduates across the University. It provides academic opportunities, cocurricular programs, special recognitions, and social events, many held in the award-winning Blank Honors Center. It also sponsors four residential communities for honors students, all located close to the Blank Honors Center.

Honors at Iowa challenges students and helps them make connections. For example, honors students learn from some of the top professors on campus when they choose from the University's many honors courses, course sections, and seminars. Those who need to find mentors and funding for research get help from the Iowa Center for Research by Undergraduates.

Honors students engage in a wide variety of academic and cocurricular activities, with support from numerous programs. Honors Writing Fellows refine their own writing skills by mentoring other student writers. Some students investigate topics for Iowa communities and the Iowa Legislature through the Iowa Policy Research Organization. All honors students may take part in programs that offer opportunities in the arts, sciences, politics, international relations, diverse cultures, varied cuisines, movie making and watching, and field trips. Honors also offers inventive programs for campus and community volunteering.

The honors staff helps students tailor their honors curricula to enrich their majors. The staff also helps to arrange internships, service learning, study away, teaching, and other experiences for students exploring their interests in and beyond the classroom.

Honors at Iowa admits many students automatically from high school based on grades and test scores. Entering students who are not admitted automatically may become members by submitting a high school transcript, a letter of recommendation from a teacher, and a personal letter saying how the student expects to gain from participation in honors at Iowa.

New transfer students who have a cumulative g.p.a. of at least 3.50 and have earned at least 24 s.h. of college credit are admitted to honors. Transfer students with less than 24 s.h. of college credit enter honors on the same basis as do students who enter the University directly from high school.

Continuing University of Iowa students who maintain a UI cumulative g.p.a. of at least 3.33 are eligible to join the honors program.

To remain in the honors program and to graduate with honors, students must maintain a University of Iowa cumulative g.p.a. of at least 3.33. For more information, see About/Admissions on the honors program web site.

Academic Opportunities

Honors at Iowa helps tailor opportunities to different educational needs and goals. Honors students may take honors courses every semester they are enrolled at the University. Honors courses generally are small and highly interactive, and they connect students with distinguished professors. New topics are offered each semester.

Honors encourages early connections for honors students. In 143:020 (HONR:1100) Honors Primetime Workshop, entering students earn 1 s.h. of honors credit by taking a short course a few days before fall classes begin. New students who take 143:030 (HONR:1300) Honors First-Year Seminar earn 1 s.h. for fall semester work with selected professors on current topics. Honors students in the College of Liberal Arts and Sciences may fulfill General Education Program (p. 276) requirements through honors sections of 010:003 (RHET:1030) Rhetoric, 08G:001 (ENGL:1200) The Interpretation of Literature, and other courses that are approved for General Education. The Courses in Common program also offers honors sections.

In addition to enrolling in honors sections of courses, students have the option of using honors designations for courses without honors sections, which lets them earn honors credit by negotiating additional assignments with the instructors. Upper-level students may take honors courses in their majors or pursue individual instruction with faculty members through honors courses such as 143:100 (HONR:3200) Honors Research Practicum. Additional academic opportunities include honors advanced seminars, honors major seminars, honors studies, and honors practicums in teaching and service.

Students learn about honors opportunities in weekly e-mails from the honors program. Honors professional staff and peer advisors offer guidance in personal meetings and group presentations. In addition, the honors staff helps students design individualized curricula for their special interests. For more information, see Academics on the honors program web site.

Honors in the Major

Each University of Iowa college, department, and program determines its own requirements for graduation with honors, and its faculty members serve as honors advisors. Most majors offer opportunities to pursue an original honors thesis or senior project under the guidance of a faculty member, usually through upper-level honors courses, honors seminars, and independent research.

After students declare a major in the College of Liberal Arts and Sciences or enter the Tippie College of Business or the College of Education, Engineering, or Nursing, they should speak with their collegiate or departmental honors advisor about their academic programs. Students who graduate with honors in their major receive special recognition during commencement, and their permanent academic record notes their achievement.

In order to graduate with honors in any major, a student also must graduate as a member of the University of Iowa Honors Program.

Honors Commendations

Honors at Iowa and the University president join in awarding Honors Commendations to students who complete at least 12 s.h. of honors course work with a grade of B-minus or higher in each honors course

or a comparable level of accomplishment in honors experiences beyond the classroom. There are a number of ways to earn an Honors Commendation; many students earn several. The honors program celebrates students graduating with Honors Commendations or with honors in their majors at annual ceremonies. See Academics/Honors Commendations on the honors program web site.

Academic Activities

Honors Peer Advisors earn academic credit for acquiring and then sharing knowledge of honors opportunities by organizing events around the campus and meeting with prospective students and their parents.

Honors Writing Fellows are trained and paid to assist in undergraduate courses by mentoring a dozen students each semester on two major writing assignments.

The **ICRU Research Ambassadors** earn academic credit for showing how and why research with faculty mentors is an important aspect of education at The University of Iowa.

The **Iowa Policy Research Organization** selects a dozen honors students each year to earn academic credit by learning to do policy analysis and then writing policy papers for Iowa communities and the Iowa Legislature.

Study away, in foreign countries or culturally contrasting parts of the United States, enables students to earn academic credit and Honors Commendations for course work, research, or service.

The **University of Iowa Mock Trial Association** hosts an annual championship and competes in many other tournaments throughout the country; students earn academic credit by performing as attorneys and witnesses in practice trials related to public issues.

Learn more about honors activities by visiting Experiences on the honors program web site.

Cocurricular Programs

Honors at Iowa offers students a rich variety of activities outside the classroom. Many honors students find cocurricular programming a good way to meet people, get involved, and learn more about the world around them. Some of the programs are volunteer, some offer pay, and some award honors credit. These opportunities provide peak educational experiences, especially extensive and intensive interactions with faculty mentors and other talented students.

The **Honors Student Advisory Committee** enables volunteers to work with the honors director on awards, initiatives, and priorities for honors education at The University of Iowa.

Honors House mentors are upper-level student volunteers selected to live in Honors House, where they help with honors educational and social programs and guide first-year students.

Honors interns receive academic credit for service learning that is mentored by faculty members and provided in professional or other practical settings.

Honors newsletters inform readers on and beyond the campus about honors at Iowa.

The **honors student staff** earn pay to make the Blank Honors Center useful to students. They also produce most honors cocurricular programs.

Honors summer ambassadors earn pay to orient entering students to the honors program by informing them of academic opportunities and activities.

ICRU fellows receive scholarships from the Iowa Center for Research by Undergraduates to do research with faculty mentors on significant issues in professional fields of study.

Honors Arts sends groups of honors students to music, dance, and theater events at the University and in the community. Students have opportunities to interact with artists, faculty members, and other honors students through related discussions, lectures, and visits.

Honors Discourses stages small-group discussions with professors and other experts on hot topics of the day. Students tap the latest scholarship in developing their personal perspectives.

Honors Diversity offers a wide range of events to expand cultural horizons and enlarge personal perspectives. These include feasts, films, dances, documentaries, and more.

Honors Gallery takes advantage of the Blank Honors Center's design to display art. It exhibits student works throughout the year, and it complements these with receptions and other events.

Honors Volunteers provides students with service opportunities at varied organizations in eastern Iowa. Honors students learn more about their communities and related needs, often continuing to volunteer on their own.

The **Iowa City Foreign Relations Council** hosts luncheon dialogues on relevant international issues. Past speakers include award-winning journalists, Nobel Peace Prize laureates, seasoned diplomats, prominent politicians, and policy analysts. Honors students become better informed of world affairs by listening to and talking with these expert speakers.

The **Presidential Scholars Community** introduces recipients of Iowa's top merit scholarships to four years of adventures in service, team building, and more. Scholars participate in cookouts, arts events, canoeing adventures, legacy projects, dinners with faculty, mentoring programs, and volunteer projects.

The University of Iowa Honors Program advises four major national and international honor societies: Phi Eta Sigma, National Society of Collegiate Scholars, Mortar Board, and Omicron Delta Kappa. It also works closely with Phi Beta Kappa in the College of Liberal Arts and Sciences. These societies provide select students with opportunities to lead, serve their communities, and cultivate academic excellence.

For more information, see Activities on the honors program web site.

Financial Support

Honors at Iowa helps students apply for many scholarships, awards, and prizes. The program offers its own scholarships to continuing honors students selected from academic programs throughout the University. Honors scholarships are not available to incoming first-year or transfer students.

Iowa students win major national and international scholarships each year. Honors provides advising and nominations for Rhodes, Marshall, Gates Cambridge, Churchill, Truman, Udall, Goldwater, Fulbright, Humanity in Action, National Science Foundation, and other prominent scholarships. The Iowa Center for Research by Undergraduates provides research scholarships for students and travel grants for those who pursue research at distant sites or present work at conferences. Announcements about scholarships and other awards appear on the honors program web site and e-mails. See Scholarships on the honors program web site for more information.

Facilities

Blank Honors Center

Honors at Iowa makes its home in the Blank Honors Center, a modern facility that fosters community among honors students. The Blank Honors Center offers social areas, a kitchenette, quiet study areas, wireless Internet access, a computer lab, and classrooms for students. The center also houses the honors staff and has rooms for meetings, events, presentations, and conversation.

Honors Residential Communities

The honors program sponsors four living-learning communities, all located in University of Iowa residence halls within a block of the Blank Honors Center. Each community hosts its own social events, and all community members have access to the full range of honors academic and cocurricular opportunities.

Honors House is open to first-year, transfer, and continuing honors students. It is located in Daum Hall and is connected to the Blank Honors Center by a skywalk. Honors House provides a convenient place for residents to socialize and study with each other. It also sponsors cultural, academic, and social events for honors students living in Daum Hall. It organizes group outings to arts events, workshops on scholarship and research opportunities, volunteer activities, and dinners with faculty members.

Honors: Research Opportunities in Biology and Chemistry is open to first-year honors students. The community connects its members with faculty and research opportunities in the biological and chemical sciences.

Honors: Society, Economy, and the Environment is open to transfer and continuing honors students. The community provides opportunities to focus on sustainability in the University of Iowa community and beyond.

Honors Centerstone is open to continuing honors students. It offers networking and other support for students who are highly engaged in learning and service activities on or beyond the campus. Some of its social events are held in the Blank Honors Center.

Students must apply to live in the honors residential communities. See Living-Learning Communities on the University Housing & Dining web site for application and other information about the communities.

Courses

Honors courses are specifically for honors students.

143:020 (HONR:1100) Honors Primetime Workshop 1 s.h.

Workshop to connect honors students, honors teachers, and staff members; preparation for honors opportunities, especially activities and courses; team work on projects that develop skills of invention and communication; presentation of products and performances.

143:030 (HONR:1300) Honors First-Year Seminar 1-2 s.h.

Small discussion classes taught by faculty members on special topics; may include outside activities (e.g., films, lectures, performances, readings, visits to research facilities, field trips). Requirements: first- or second-semester standing.

143:040 (HONR:3050) Honors Studies arr.

Independent studies arranged with faculty members who certify satisfactory completion of study plans and performance for topics not covered by other UI courses.

143:041 (HONR:3160) Honors Internship 0-3 s.h.

Independent service internship arranged with faculty members, who certify satisfactory performance and completion of project.

143:042 (HONR:3150) Honors Service Learning arr.

Service learning projects arranged with faculty members who certify satisfactory completion of study plans and service.

143:044 (HONR:3400) Honors Writing Workshop 1-3 s.h.

Learn writing through the Iowa workshop tradition of sharing new work with colleagues who provide detailed, constructive suggestions in response; emphasis on invention, structure, style; each edition targets a distinct kind of writing; an experienced writer leads the workshop with meeting formats; credit suited to exercises for the type of featured writing. Requirements: completion of Rhetoric requirement.

143:051 (HONR:2110) Honors Seminar in Historical Perspectives 3 s.h.

Small-class learning with a faculty member to explore and explain historical developments. GE: Historical Perspectives.

143:052 (HONR:2120) Honors Seminar in International and Global Issues 3 s.h.

Small-class learning with a faculty member to introduce perspectives of other nations and cultures through international or global issues. GE: International and Global Issues.

143:053 (HONR:2130) Honors Seminar in Literary, Visual, and Performing Arts 3 s.h.

Small-class learning with a faculty member to appreciate, analyze, create, or perform art. GE: Literary, Visual, and Performing Arts.

143:054 (HONR:2170) Honors Seminar in Values, Society, and Diversity 3 s.h.

Small-class learning with a faculty member to explore fundamental questions on human experience from cultural, social, performative, philosophical, or spiritual perspectives. GE: Values, Society, and Diversity.

143:060 (HONR:1600) Honors Seminar in Social Sciences 3 s.h.

Small-class learning with a faculty member on social science topics. GE: Social Sciences.

143:070 (UIHP:1700) Honors Seminar in Natural Sciences 3 s.h.

Small-class learning with a faculty member on natural science topics. GE: Natural Sciences without Lab.

143:080 (HONR:1800) Honors Seminar in Quantitative and Formal Reasoning 3 s.h.

Patterns of reasoning useful for understanding and evaluating scientific evidence, theory, controversy; historical and contemporary examples from the physical, biological, behavioral, biomedical sciences. GE: Quantitative or Formal Reasoning.

143:083 (HONR:1883) War 3 s.h.

Emotions soldiers have as they fight, what makes them continue voluntarily to face death, and how modern society memorializes these experiences; how literature and art transform the experience of war; human responses to war in Homer's *Iliad* and select Greek tragedies. GE: Values, Society, and Diversity. Same as 20E:083 (CLSA:1883).

143:085 (HONR:1885) Reading the Ancient City 3 s.h.

How ancient Mediterranean and Near Eastern peoples from third millennium B.C.E. to fourth century C.E. described, celebrated, and deplored life in their great cities (Babylon, Jerusalem, Athens, Alexandria, Rome); readings selected from ancient literary prose, poetry, drama, and religious writings; study of popular writing (e.g., ancient inscriptions, graffiti, letters, prayers, account books, and magic spells). Same as 20E:085 (CLSA:1085).

143:100 (HONR:3200) Honors Research Practicum 1-3 s.h.

Individual research performed in conjunction with a faculty member's research.

143:101 (HONR:3100) Honors Teaching Practicum 1-3 s.h.

Teaching internship in first- and second-year courses; may include providing tutorial assistance, conducting review sessions, aiding course organization.

143:102 (HONR:3220) Honors Writing Fellows: Writing Theory and Practice 3 s.h.

Preparation of honors students selected as writing fellows to serve as peer tutors in writing-intensive courses; theories of writing, evaluation of drafts, peer tutoring with students. Requirements: sophomore or junior honors standing, admission to Writing Fellows Program, and availability to work as a writing fellow in subsequent semesters.

143:130 (HONR:3300) Mock Trial 2 s.h.

Legal analysis and argumentation, public performance, participation in the University of Iowa Mock Trial Club; mock trial role preparation, tournament competition, stage annual club tournament.

143:140 (HONR:3211) Honors Policy Research Practicum 1 s.h.

Theory and practice of public policy research; development of policy-research skills; production of policy-research papers. Requirements: sophomore or junior standing.

143:185 (HONR:3180) ICRU Research Ambassadors 1-2 s.h.

ICRU Research Ambassadors share knowledge and experiences in research; weekly meeting and interaction with students through presentations, online chat, or other venues to answer questions, provide information, and inform students about undergraduate research opportunities; student perspective on how to navigate research opportunities at The University of Iowa.

143:190 (HONR:2190) Honors Peer Advising 1-2 s.h.

Experience sharing knowledge and experiences of the Honors Program with other students in meetings during office hours, online chats, other venues; peer advisors answer questions, provide information, help students find honors opportunities in and out of class.

143:199 (HONR:4990) Honors Thesis or Project 1-3 s.h.

Culminating project of research or artistic creation; preparation and completion of the final product associated with graduation with honors in the student's major. Requirements: member of the University of Iowa Honors Program and junior or senior standing.

University of Iowa Upward Bound

Director

Dana Thomann

Web site: <http://upwardbound.uiowa.edu>

University of Iowa Upward Bound is an academic program for eligible high school students from four southeastern Iowa communities. Students participate during the academic year at their local high school and attend a six-week residential program on the University of Iowa campus from mid-June through July. Participants take mathematics, science, language arts, computer technology, and foreign language courses to prepare them for classes they will take at their local high school in the fall. They also participate in extracurricular activities, field trips, and college visits.

Bridge students (those who will enter college in the fall) enroll in a University of Iowa course during the six-week summer session. Bridge students participate in an on-campus job shadow and take a college transition seminar.

Participants receive all services at no cost.

To be admitted to University of Iowa Upward Bound, students must:

- reside in the target area and attend a target school;
- be in grade 9 or 10;
- have a family income that meets U.S. Department of Education low-income guidelines;
- be a potential first-generation college student; and
- show need for Upward Bound services.

Upward Bound provides services to students until they graduate from high school and enroll in postsecondary education.

University of Iowa Upward Bound serves students who attend the following Iowa high schools: Columbus Community High School, Davenport Community high schools, Muscatine High School, and West Liberty High School. Other postsecondary institutions in Iowa and across the nation sponsor Upward Bound programs. High school students who do not attend schools served by the University of Iowa program should ask their counselors whether an Upward Bound program serves their area.

For more information, contact University of Iowa Upward Bound.

VIGRE Heartland REU

Director

Jonathan Simon (Mathematics)

Web site: <http://www.uiowa.edu/~vigre>

The University of Iowa Department of Mathematics offers a summer program of research experience for undergraduates. VIGRE Heartland REU is designed for well-prepared students who have completed two years of college, but younger or more advanced students also may be admitted. Preference is given to students from Heartland Mathematics Partnership schools.

The eight-week program begins with three introductory workshops followed by work in a small research group with a faculty member. Students choose one of nine research projects that are connected to background developed in the introductory workshops.

Students participate in hands-on introduction to mathematical writing in LaTeX; gain experience using computer systems such as Maple, Mathematica, or MatLab; and attend talks and panels about subsequent research opportunities, graduate school, the Graduate Record Examination, and career opportunities. The program also offers cultural and social activities.

Instruction is provided by Department of Mathematics faculty members, Heartland Mathematics Partnership instructors, VIGRE trainees, and staff members of the National Alliance for Doctoral Studies in the Mathematical Sciences, which is supported by the National Science Foundation (NSF).

VIGRE Heartland REU is supported by Vertical Integration of Research and Education in the Mathematical Sciences, an NSF program. For more information visit the VIGRE Heartland REU web site.

Courses

419:099 (VHR:2099) Research Experiences for Undergraduates Summer Course 0 s.h.

Introduction to mathematical research in preparation for graduate education.

Division of Continuing Education

Dean

Chet Rzonca

Web site: <http://www.continuetolearn.uiowa.edu>

The Division of Continuing Education increases access to the services and resources of The University of Iowa. In partnership with the University's colleges and departments, the division provides high-quality credit and noncredit courses, workshops, and programs to traditional and nontraditional learners. Using a variety of locations, schedules, and technologies, the division helps provide a University of Iowa learning environment beyond the physical borders of campus.

The division administers the following programs.

On-Campus Courses

Director: Marlys Boote

Web site: <http://www.continuetolearn.uiowa.edu/coursetypes/on-campus/index.html>

The Division of Continuing Education offers On-Campus Courses (formerly Saturday & Evening Classes) and sponsors University courses on campus during late afternoon and evening hours that are convenient for part-time and nontraditional students. Undergraduate and graduate course work is available in a wide range of academic disciplines.

Summer and Winter Sessions

Dean: Chet Rzonca

Web site, summer session: <http://www.continuetolearn.uiowa.edu/summer/index.html>

Web site, winter session: <http://www.continuetolearn.uiowa.edu/dceunits/wintersession>

The University of Iowa conducts a summer session with terms of three, six, and eight weeks. Classes also are offered outside these normal summer session terms. In addition, a three-week winter session is offered during the break between the fall and spring semesters.

During the summer and winter sessions, students may take undergraduate and graduate course work. Classes during these sessions are taught mainly by University of Iowa faculty members, so students receive the same first-rate instruction provided during the spring and fall semesters. Courses are offered in a variety of formats both on and off campus. They are open to University of Iowa students and to persons not formally admitted to a degree program.

Distance Programs and Courses

Associate dean: Anne Zalenski

Web site: <http://www.continuetolearn.uiowa.edu/>

The University of Iowa offers a number of online degree and certificate programs, courses in a wide range of disciplines, and Guided Independent Study courses using distance education delivery modes such as the Internet and virtual classroom technology. The division also offers

on-site programming in the Quad Cities, Sioux City, Des Moines, and at Iowa Lakeside Laboratory.

The University has established partnerships with many of Iowa's community colleges so that Iowans who earn an associate's degree at their community college can continue to live and work in their community while earning a degree from The University of Iowa.

For information about programs, procedures, and enrollment, contact the Division of Continuing Education.

Bachelor of Applied Studies

Web site: <http://www.continuetolearn.uiowa.edu/programs/undergraduate/bas/index.html>

The Bachelor of Applied Studies (B.A.S.) is a bachelor's degree that may be completed entirely by distance education. The degree requires a minimum of 120 s.h. and is offered without an academic major, but students may include certificate programs in their degree or develop an area of emphasis by selecting from seven B.A.S. tracks. Students may earn credit toward the degree by taking courses offered in varied distance education formats; they also may use courses offered in on-campus formats. Applicants must hold an Associate of Applied Science (A.A.S.), an Associate of Arts (A.A.), or an Associate of Science (A.S.) degree. The B.A.S. is awarded by University College and is administered by the Division of Continuing Education. For a detailed program description, see Bachelor of Applied Studies (p. 1099) (University College) in the Catalog.

Bachelor of Liberal Studies

Web site: <http://www.continuetolearn.uiowa.edu/programs/undergraduate/bls/index.html>

The Bachelor of Liberal Studies (B.L.S.) is a bachelor's degree that may be completed entirely by distance education. The degree requires a minimum of 120 s.h. and is offered without an academic major, but students may include certificate programs or emphasis areas within the degree. Students may earn credit toward the degree by taking courses offered in varied distance education formats; they also may use courses offered in on-campus formats. Applicants must have either an Associate of Arts (A.A.) degree or have earned at least 60 s.h. of credit. The B.L.S. is awarded by the College of Liberal Arts and Sciences and is administered by the Division of Continuing Education. For a detailed program description, see Bachelor of Liberal Studies (p. 107) (College of Liberal Arts and Sciences) in the Catalog.

A. Craig Baird Debate Forum

Coordinator of forensics: Paul Bellus

Web site: <http://www.continuetolearn.uiowa.edu/debate/>

The A. Craig Baird Debate Forum provides a forum for advancement in argumentation theory and practice. It provides nationally renowned advocacy training programs on issues of public concern and supports an atmosphere of civil discourse. The forum's local, regional, national, and international outreach programs enhance students' learning environment and reach beyond the physical borders of the University of Iowa campus.

The A. Craig Baird Debate Forum administers the following programs.

Intercollegiate debate: provides coaching and research to advance students' competitive success; includes attendance at 10-15 collegiate debate tournaments yearly; the program has won two national championships.

International parliamentary debate: participation in the world tournament.

National Summer Institute in Forensics: a summer program in which students live on the Iowa campus; features Lincoln-Douglas debate and a policy debate institute; the 78-year-old program draws top scholars to campus and has counted students and teachers from every state of the nation and from Japan, Korea, and Guam as participants.

Iowa High School Forensics League: a partnership between Iowa high schools and The University of Iowa that promotes scholarship, communication and expression, and leadership in forensics; founded in 1906, the league holds three tournaments and an academic conference each year that bring more than 1,000 participants to the Iowa campus.

University public debate series: founded in 1960, the series presents 12 radio broadcast debates each year, investigating local, regional, national, and international controversies; debate attendance is required for some University of Iowa courses.

Community public debate series: a forum in which local political, social, economic, and intellectual controversies are debated.

International public debate series: engages in cross-cultural exchanges and provides a forum for high school debaters to participate with The University of Iowa in international debates.

The National Lincoln-Douglas Debate Round-Robin: brings the nation's top 28 high school Lincoln-Douglas debaters to campus for the national competition.

Center for Conferences

Director: Jo Dickens

Web site: <http://www.continuetolearn.uiowa.edu/conferences>

The University of Iowa Center for Conferences (UICC) is the University's principal agency for initiating, coordinating, conducting, and supporting noncredit continuing education programs. It also serves as the University of Iowa's Continuing Education Unit (CEU) database.

UICC coordinates national and international conferences for University faculty, departments, colleges, administrative units, student groups and related academic societies, professional associations, and other groups sponsored by the University. Its services include initial planning, site location, budget development, income and expense management, payment processing, and online conference registration.

The Center for Conferences uses facilities on the University of Iowa campus as well as those located in Iowa City and Coralville, throughout Iowa, and nationwide. For more information, visit the Center for Conferences web site.

Iowa Lakeside Laboratory

Executive director: Peter J. van der Linden

Web site: <http://www.continuetolearn.uiowa.edu/lakesidelab/>

Iowa Lakeside Laboratory is a field station run cooperatively by The University of Iowa, Iowa State University, and the University of Northern Iowa and administered by The University of Iowa. The laboratory offers summer courses and research opportunities for undergraduate and graduate students. Courses focus on the ecology, taxonomy, and conservation of northern plains animals, plants, microorganisms, and ecosystems. Students take one course at a time, 40 hours per week, for one to four weeks. Class sizes are small, and most students spend at least part of every day outdoors.

The Board of Regents, State of Iowa, has designated Lakeside Laboratory a Regents Resource Center, dedicated to providing lifelong learning opportunities for Iowans.

For information about academic programs and courses at the laboratory, see Iowa Lakeside Laboratory (p. 1114) (University College) in the Catalog or visit the Iowa Lakeside Laboratory web site.

Iowa Summer Writing Festival

Director: Amy Margolis

Web site: <http://www.continuetolearn.uiowa.edu/iswfest/>

The Iowa Summer Writing Festival is a short-term, noncredit creative writing program for adults. It brings some 1,400 writers to the University of Iowa campus each summer to participate in weeklong and weekend workshops. The program is open to individuals age 21 and older; the sole requirement is the desire to write.

Participants choose from more than 130 workshops across the genres, including the novel, short fiction, poetry, memoir, essay, screenwriting, playwriting, travel writing, humor, writing for children, mystery, science fiction, and more. There are sessions for all skill levels and objectives. In the workshop format, participants read and discuss each other's own creative work.

Weeklong sessions meet for three hours each day, Monday through Friday, with individual student/instructor conferences as well. Weekend sessions meet for eight hours over two days.

Visit the Iowa Summer Writing Festival web site for information about workshops, schedule, and registration. Information about the coming summer festival workshops and dates usually is posted in February or March.

Iowa Young Writers' Studio

Director: Stephen Lovely

Web site: <http://www.uiowa.edu/youngwriters>

The Iowa Young Writers' Studio is a two-week summer residential program for high school students who love to write. Students build a community of peers while working with experienced writing teachers, primarily students and graduates of the University's M.F.A. program in creative writing.

The studio offers three courses of study: poetry, fiction, and creative writing (a mix of poetry, fiction, and creative nonfiction). Each course consists of a seminar and a workshop. In seminars, students read literature by established writers. In workshops they share their own

writing, get feedback from their classmates and teacher, and discuss issues of narrative and form.

The studio offers two two-week sessions: one in June and one in July. Young writers who have completed grade 10, 11, or 12 are eligible to attend the studio. Application materials include an application form, a creative writing sample, a statement of purpose, a high school transcript, and a letter of recommendation from an English teacher or another instructor familiar with the applicant's writing. For complete application information, contact the Iowa Young Writers' Studio or visit its web site.

John and Mary Pappajohn Education Center

Director: Chet Rzonca

Manager: Richard Gardner

Web site: <http://www.continuetolearn.uiowa.edu/jmpec>

The John and Mary Pappajohn Education Center (JMPEC) serves a wide range of adult learning needs. It also provides central Iowa students with access to a variety of University of Iowa undergraduate and graduate degree programs and courses. The center is located in downtown Des Moines, Iowa, close to many corporate businesses and government offices. With classrooms that can accommodate groups of up to 80 people, JMPEC is ideal for small conferences, educational workshops, and meetings. It is equipped to handle on-site instructional technology and to deliver distance education to students anywhere. JMPEC also makes noncredit learning opportunities for professional and workforce development available to corporations and individuals. Learn more at the John and Mary Pappajohn Education Center web site.

Labor Center

Director: Jennifer Sherer

Web site: <http://www.continuetolearn.uiowa.edu/laborctr>

The University of Iowa Labor Center provides educational programs and research support to Iowa's working people and their organizations. The center offers a wide range of noncredit courses designed for labor union members and leaders; they cover steward education and contract administration, collective bargaining, labor and employment law, public policy issues, leadership development, organizing and mobilizing, economics, labor history, workplace health and safety, and other topics relevant to union members. Courses are offered both on and off campus at times and locations convenient to working adults. The Labor Center also provides research assistance and technical information.

Administrative Officers

Board of Regents, State of Iowa

The Board of Regents, State of Iowa, governs The University of Iowa, Iowa State University of Science and Technology, the University of Northern Iowa, the Iowa Braille and Sight-Saving School, and the Iowa School for the Deaf. The board has nine members and an executive director.

President: Craig A. Lang, West Des Moines
President pro tem: Bruce L. Rastetter, Alden
 Nicole C. Carroll, Carroll
 Robert N. Downer, Iowa City
 Ruth R. Harkin, Cumming
 Greta A. Johnson, LeMars
 David W. Miles, West Des Moines
 Katie S. Mulholland, Marion
Executive director: Robert Donley, Urbandale

Central Administration

President: Sally Mason
Executive vice president and provost: P. Barry Butler
Senior vice president and university treasurer: Douglas K. True
Vice president for medical affairs: Jean E. Robillard
Vice president for research and economic development: Jordan Cohen
Vice president for student life: Thomas R. Rocklin
Vice president for human resources: Susan C. Buckley
Vice president for legal affairs and general counsel: Carroll J. Reasoner
Vice president for strategic communication: Tysen Kendig
Chief diversity officer and associate vice president: Georginia Dodge
Director, Office of Equal Opportunity and Diversity: Jennifer Modestou
University ombudspersons: Susan Johnson, Cynthia Joyce

Office of the Provost

Provost and executive vice president: P. Barry Butler
Associate vice president and director of administration and planning: Don J. Szeszycki
Associate provost for undergraduate education and dean of University College: M. Beth Ingram
Associate provost for faculty: Tom W. Rice
Associate provost for graduate education and dean of the Graduate College: John C. Keller

Faculty

The following persons held University of Iowa faculty appointments with the rank of professor, associate professor, assistant professor, or instructor on October 16, 2012. In this listing, the year of first appointment follows the departmental identification, and the year of present appointment is given in parentheses.

A'Hearn, Amy K., Adjunct Lecturer, University College, 2006 (2007); BA 2001 Iowa; MS 2004 Western Illinois

Abbas, Haruhi, Adjunct Lecturer, College Transition, 2006 (2006); MA 1985 Indiana PA; MA 1988 Iowa; MA 2002 Iowa

Abbas, Paul J., Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1974 (1984); BS 1969 Massachusetts Inst of Technolo; PHD 1974 Johns Hopkins

Abbott, Charles Wilson, Adjunct Lecturer, International Programs, 2009 (2009); BA 1989 SUNY at Buffalo; PHD 2006 Iowa

Abbott, Linda I., Clinical Adjunct Instructor, Nursing, 2000 (2000); BSN 1980 Iowa; MSN 1996 Iowa

Abbott, Mark B., Adjunct Lecturer, University College, 2011 (2011); BA 1970 Cornell; JD 1973 Iowa; MA 1989 Ohio

Abbott, Mary Jo, Adjunct Instructor, Pharmacy, 2009 (2009); BSPH 1971 Iowa

Aboud, Francois, Professor, Internal Medicine/Physiology, 1961 (1968); BS 1948 Christian Brothers' Schl-Egypt; PNS 1949 Cairo; MBCH 1955 Ain Chams-Egypt; MBCHB 1955 Ain Chams-Egypt

Abdel-Malek, Karim, Professor, Mechanical Engineering/Biomedical Engineering, 1994 (2005); BS 1988 Jordan; MS 1990 Pennsylvania; PHD 1993 Pennsylvania

Abernathy, M. Glenn, Clinical Assistant Professor, Family Medicine, 2008 (2011); BS 1972 South Carolina; MD 1978 South Carolina

Abiva, Jeannine Therese, Adjunct Instructor, Mathematics, 2012 (2012);

Abrahamson, Timothy Garth, Clinical Adjunct Assistant Professor, Dermatology, 2002 (2002); BA 1993 Wartburg; MD 1997 Iowa

Abram, Nancy J., Adjunct Lecturer, Marketing, 2007 (2007); BA 1980 St. Ambrose

Abramoff, Michael David, Professor, Ophthalmology Visual Science/Electrical-Computer Engineering/Biomedical Engineering, 2004 (2012); MS 1989 Amsterdam; MD 1994 Amsterdam; PHD 2001 Utecht

Abramoff, Sandra Dewi, Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); BA 1991 Amsterdam; MD 1994 Amsterdam

Abramowitz, Paul W., Emeritus Professor, Pharmacy, 1998 (1998); BA 1972 Indiana; BSPH 1977 Toledo; PHARM 1979 Michigan

Abrams, Catherine Helen, Lecturer, Nursing, 2012 (2012);

Abrams, Mary Ann, Clinical Adjunct Assistant Professor, Pediatrics, 2007 (2007); MD 1982 Ohio State; MPH 1988 Ohio State

Abrams, Thad Eugene, Assistant Professor, Internal Medicine/Psychiatry, 2008 (2011); BA 1996 Luther College; MD 2000 Iowa

Abrons, Jeanine Porter, Clinical Assistant Professor, Oral Path,RadiologyMedicine/Pharmacy Practice and Science, 2011 (2011); PHAR 2004 Drake

Abrons, Ron Owen, Clinical Assistant Professor, Anesthesia, 2011 (2011); MD 2004 Iowa

Abu Hejleh, Taher, Clinical Assistant Professor, Internal Medicine, 2012 (2012); MD 2004 Jordan University of Science

Abu-Yousef, Monzer M., Professor, Radiology, 1976 (1991); MBCHB 1970 Cairo-Egypt

Abusin, Ghada Ahmed Yousif, Clinical Assistant Professor, Pediatrics, 2011 (2011); MBBS 2001 Khartoum, Sudan

Acerbo, Martin, Adjunct Assistant Professor, Psychology, 2007 (2007); PHD 2001 Konstanz, Germany

Achenbach, Autumn Peace, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2007 Drake

Achepohl, Keith A., Emeritus Professor, Art Art History, 1973 (1981); BA 1956 Knox; MFA 1960 Iowa

Achrazoglou, George John, Adjunct Professor, Teaching and Learning, 1987 (2012); BA 1981 Iowa; MA 1993 Iowa; PHD 2003 Iowa

Achter, Charles T., Lecturer, Teaching and Learning, 2011 (2011); BA 1969 St Cloud State; MA 1975 St. Cloud State; EDS 1978 Mankato State

Achutan, P. Chandran, Adjunct Assistant Professor, Occupational Environmental Health, 2002 (2002); BSC 1991 Sains Malaysia; MS 1996 Iowa; PHD 2001 Iowa

Acton, Patricia Jo Nassif, Clinical Professor, Law-Faculty, 1981 (1985); BA 1971 Iowa; JD 1974 Iowa

Adam, Matthew, Adjunct Lecturer, Management Organizations, 2006 (2006); MBA 2002 Iowa

Adamek, Mary, Clinical Professor, Music, 1996 (2007); BM 1977 Virginia Commonwealth; MM 1981 Miami; PHD 1993 Minnesota

Adams, Brian D., Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1992 (1996); BS 1978 Nebraska; MD 1982 Nebraska

Adams, Charlotte, Associate Professor, Dance, 1998 (2003); BA 1976 Appalachian State; MA 1984 Arizona; MFA 1995 Arizona

Adams, Christopher Maxin, Associate Professor, Physiology/Internal Medicine, 2006 (2011); BS 1992 Kansas, Lawrence; MD 1999 Iowa; PHD 1999 Iowa

Adams, Denise Allene Martinez, Clinical Assistant Professor, Family Medicine, 2011 (2011); BA 2003 Seattle Pacific; MA 2008 Tufts

Adams, Harold P., Professor, Neurology, 1976 (1985); BA 1966 Drake; BS 1968 South Dakota-Vermillion; MD 1970 Northwestern

Adams, Jess, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BA 1999 Colorado; DDS 2007 Colorado

Adams, Lafayette Bluford, Associate Professor, English/American Studies, 1994 (2001); BA 1985 Duke; MA 1987 Virginia; PHD 1993 Virginia

Adams, Russell, Clinical Adjunct Associate Professor, Internal Medicine, 2000 (2004); MD 1979 Iowa

Adams, Susan L., Adjunct Assistant Professor, Nursing, 2008 (2008); BSN 2002 Iowa; MSN 2005 Iowa; PHD 2007 Iowa

Adamson, Timothy L., Adjunct Assistant Professor, Religion, 2005 (2004); BA 1988 Chicago; MA 1994 Wesley Theological Seminary; PHD 2002 Oregon

Adcock, Craig, Professor, Art Art History, 1994 (1994); BFA 1971 Colorado; MA 1974 University of Colorado; PHD 1981 Cornell University

Addis Jr., Laird C., Emeritus Professor, Philosophy, 1963 (1974); BA 1959 Iowa; MA 1960 Brown; PHD 1964 Iowa

Adolphs, Ralph, Adjunct Professor, Neurology, 1997 (2005); BSC 1986 Stanford; MSC 1986 Stanford; PHD 1992 California Technology of Tech

Adrain, Jonathan M., Professor, Geoscience, 1999 (2011); BS 1989 Alberta; PHD 1993 Alberta

Adrain, Tiffany Sara, Adjunct Instructor, Anthropology/Geoscience, 2004 (2004); BA 1988 Exeter; BS 1995 London; MS 2003 Iowa

Afifi, Adel Kasim, Emeritus Professor, Neurology/Anatomy Cell Biology/Pediatrics, 1973 (1980); BA 1951 American University of Beirut; MD 1957 American University of Beirut; MS 1965 Iowa

Afzal, Alia, Adjunct Instructor, Asian Slavic Languages Literature, 2012 (2012);

Agrawal, Gail B., Professor, Law-Faculty, 2010 (2010); BA 1978 New Orleans; MPH 1983 Tulane; JD 1983 Tulane

Agrawal, Naurang, Clinical Professor, Internal Medicine, 2010 (2010); MBBS 1968 Grant Medical, India

Agrell, Jeffrey, Associate Professor, Music, 2000 (2008); BA 1970 St Olaf; MM 1974 Wisconsin

Aguilar Jr., Agustin, Clinical Assistant Professor, Emergency Medicine, 1988 (1995); BS 1978 Emory; MD 1982 Univ Autonoma de Guadalajara

Ahari, Abdi, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); BA 1987 Rudbeckianska Skolan; MD 1995 Uppsala Univ of Med

Ahern, Christopher A., Associate Professor, Physiology, 2012 (2012);

Ahlers, Timothy John, Adjunct Lecturer, Health Management Policy, 2008 (2008); BBA 2003 Iowa; MBA 2005 Iowa; MHA 2005 Iowa

Ahmed, Amina, Clinical Assistant Professor, Obstetrics Gynecology, 2010 (2010); BS 1997 Illinois, Urbana; MD 2001 Rush Medical

Ahmed, Azeemuddin, Clinical Associate Professor, Emergency Medicine, 2005 (2008); BA 1996 Augustana; MD 2000 Iowa; MBA 2010 Iowa

Ahrendsen, Jon Sidney, Clinical Adjunct Assistant Professor, Family Medicine, 2008 (2008); MD 1982 Iowa

Ahrens, Mark Charles, Adjunct Lecturer, University College, (); SCB 2002 Iowa

Ahrens, Richard C., Professor, Pediatrics, 1980 (2002); BS 1969 Wisconsin-Madison; MD 1973 Medical College of Wisconsin; MS 1980 Iowa

Aikin, Judith P., Emeritus Professor, German, 1975 (1988); BA 1968 Oregon; MA 1969 Oregon; PHD 1974 California-Berkeley

Ajluni, Nader, Clinical Adjunct Assistant Professor, Pediatrics, 1999 (1999); DO 1985 Osteopathic Medicine

Akbar, Raja M., Clinical Adjunct Assistant Professor, Psychiatry, 1999 (1999); MD 1971 King Edward Medical

Akgun, Ugur, Adjunct Assistant Professor, Physics Astronomy, 2006 (2006); PHD 2003 Iowa

Akiyama, Yasuko, Lecturer, Asian Slavic Languages Literature, 2007 (2007); BA 1985 Okayama Univ; MA 1994 Penn State Univ; PHD 2003 Iowa

Akyea, Modei Kwasi, Adjunct Instructor, Dance, 2008 (2011); BA 1997 Iowa

Al-Harthi, Mohammed Humaid, Adjunct Instructor, French Italian, 2012 (2012);

Al-Shawwa, Baha'Uddin A., Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); MD 1995 University of Jordan

Alabsi, Samir Y., Clinical Adjunct Associate Professor, Pediatrics, 2007 (2012); MD 1985 Cairo, Egypt

Albers, Gary Ronald, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1975 Iowa

Albert, James Laurence, Lecturer, Theatre Arts/Dance, 1996 (1999); MFA 1986 Iowa

Atkins, Dianne Lee, Professor, Pediatrics, 1983 (2002); BA 1974 Johns Hopkins; MD 1977 Johns Hopkins

Atkinson, Alice M., Emeritus Associate Professor, Teaching and Learning, 1973 (1995); BS 1961 Iowa State; MS 1963 Wisconsin; PHD 1982 Iowa

Atkinson, Kendall E., Emeritus Professor, Computer Science/Mathematics, 1972 (1975); BS 1961 Iowa State; MS 1963 Wisconsin; PHD 1966 Wisconsin

Aubrey, Elizabeth, Emeritus Professor, Music, 1982 (1998); BA 1973 Grinnell; MM 1975 Maryland; PHD 1982 Maryland

Aubrey, Paul Woodrow, Clinical Assistant Professor, Prosthodontics, 2009 (2009); BA 1982 Iowa; DDS 1987 Iowa

Aul, Edward, Clinical Assistant Professor, Neurology, 1998 (2000); BS 1988 Pittsburgh; MD 1992 Pittsburgh

Aunan, Carol Diane, Adjunct Assistant Professor, Nursing, 1997 (2004); BSN 1993 Iowa; MSN 2001 Iowa

Aurand, Gary A., Adjunct Associate Professor, Chemical Biochemical Engineering, 1997 (2004); BS 1986 Nebraska @ Lincoln; PHD 1996 North Carolina State

Avelino, Rosario Ruth, Adjunct Associate Professor, Pharmacy, 2008 (2008); PHARM 1993 Chicago

Avila Ortiz, Gustavo, Assistant Professor, Periodontics, 2011 (2011); DDS 2003 Granada, Spain; DPHIL 2006 Granada, Spain; MS 2009 Michigan

Axelson, Rick Don, Assistant Professor, Family Medicine, 2007 (2007); PHD 2003 Arizona

Ayati, Bruce, Associate Professor, Mathematics, 2007 (2011); BA 1993 California, San Diego; MS 1994 Chicago; PHD 1998 Chicago

Ayers-Arnone, Rachael Marie, Lecturer, Teaching and Learning, 2008 (2008); BA 2000 Iowa; MA 2004 Iowa

Aykin-Burns, Nukhet, Adjunct Assistant Professor, Radiation Oncology, 2008 (2008); BS 1995 Middle East Technical Univ; PHD 2002 Missouri-Rolla,

Ayres, Lioness, Associate Professor, Nursing, 2005 (2011); MSN 1992 Illinois @ Chicago; PHD 1998 Illinois @ Chicago

Ayyagari, Padmaja, Assistant Professor, Health Management Policy, 2011 (2011); BS 2000 Calcutta; MS 2002 Indian Statistical; PHD 2008 Duke

Azar, Antoine E., Clinical Associate Professor, Internal Medicine, 2007 (2012); BS 1995 American Univ/Beirut, Lebanon; MD 1999 American Univ/Beirut, Lebanon

Azuero, Rodrigo, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Baalrud, Scott David, Assistant Professor, Physics Astronomy, 2012 (2012);

Babcock, Bruce A., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1987 Drake

Bacon, Robert A., Adjunct Lecturer, Teaching and Learning/Public Policy Center, 1997 (1997); BA 1969 Stanford University; MA 1978 Iowa

Badovinac, Vladimir, Assistant Professor, Pathology, 2007 (2007); BS 1994 Belgrade; MS 1997 Belgrade; PHD 1999 Belgrade

Baenziger, Norman C., Emeritus Professor, Chemistry, 1949 (1957); BS 1943 Hamline; PHD 1948 Iowa State

Baer, William Thomas, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BS 1976 Iowa

Bagford, Jack, Emeritus Professor, Teaching and Learning, 1962 (1970); MED 1956 Miami-Ohio; EDD 1960 Indiana

Bahls, Fredrick Howard, Clinical Adjunct Assistant Professor, Neurology, 2007 (2007); BA 1973 Iowa; MD 1980 Iowa; PHD 1980 Iowa

Bahrack, Audrey S., Adjunct Assistant Professor, Psych Quant Foundations, 1995 (1995); BA 1980 Ohio Wesleyan; MA 1981 Ohio State; MA 1986 Ohio State; PHD 1989 Ohio State

Bai, Er-Wei, Professor, Radiology/Electrical-Computer Engineering, 1987 (2000); BS 1977 Fudan-China; ME 1982 Shanghai Jiaotong; PHD 1987 Calif-Berkeley

Bailey, Jonathon, Adjunct Lecturer, Civil-Environmental Engineering, 2006 (2007); BA 1985 Iowa State; BS 1985 Iowa State

Bailey, Olivia Erin, Clinical Assistant Professor, Emergency Medicine, 2007 (2007); BA 2000 Iowa; BS 2000 Iowa; MD 2004 Chicago

Bailey, Shawn, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2003 (2003); BS 1987 Eastern Illinois; DDS 1991 Iowa; MD 1995 New York

Bailey, William J., Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2000); MD 1975 Creighton

Baillie, Kyrke Brandon, Adjunct Assistant Professor, Periodontics, 2009 (2007); DDS 2001 CO U School of Dentistry

Bainbridge, Craig Wayne, Clinical Adjunct Associate Professor, Internal Medicine/Occupational Environmental Health, 1977 (2002); MD 1974 Iowa

Bair, Heather Lucy, Clinical Adjunct Instructor, Nursing, 2000 (2008); BSN 1997 Iowa; MSN 2005 Iowa

Bair, Thomas Brian, Adjunct Instructor, Biomedical Engineering, 2007 (2007); BS 1991 Western Illinois; MS 1993 Western Illinois; PHD 2001 Iowa

Baird, Robert D., Emeritus Professor, Religion, 1966 (1974); BA 1954 Houghton; BD 1957 Fuller Theological Seminary; MA 1958 SMU; PHD 1964 Iowa

Baker, David Lee, Adjunct Lecturer, Law-Faculty, 2011 (2011); BA 1975 Iowa; JD 1979 Iowa

Baker, Foster G., Adjunct Instructor, Mathematics, 1995 (1995); BS 1949 Northwest Missouri State Univ; MS 1960 Kansas; BS 1963 Northwest Missouri St.

Baker, James E., Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1982 Yale; JD 1990 Yale

Baker, Karen Ann Kenaley, Associate Professor, Oral Path, Radiology Medicine/Pharmacy, 1981 (1991); BS 1979 Pharmacy - Iowa; MS 1981 Iowa

Baker, Larry, Adjunct Assistant Professor, English, 1992 (1992); PHD 1986 Iowa

Baker, Laurence J., Clinical Adjunct Assistant Professor, Family Medicine, 1982 (2002); BS 1974 Iowa; DO 1977 Coll of Osteopathic Med

Baker, Max T., Associate Professor, Anesthesia, 1989 (1994); BS 1975 Georgia; MS 1978 Georgia; PHD 1980 Georgia

Baker, Nancy L., Adjunct Professor, Library Information Science, 2002 (2002); BA 1972 Connecticut; AMLS 1973 Michigan; MA 1978 SUNY-Binghamton

Baker, Richard G., Emeritus Professor, Geoscience/Biology, 1970 (1982); BA 1960 Wisconsin; MA 1964 Minnesota; PHD 1969 Colorado

Baker, Richard Lance, Associate Professor, Mathematics, 1989 (1995); BA 1972 Drake; MS 1979 Iowa; PHD 1987 California-Berkeley

Baker, Sheila, Assistant Professor, Ophthalmology Visual Science/Biochemistry, 2010 (2010); PHD 2003 Medical College of Wisconsin

Baker-El Abiad, Kimberly Michelle, Clinical Assistant Professor, Internal Medicine, 2008 (2008); BA 1996 Iowa; MD 2000 Iowa

Balakrishnan, Ramji, Professor, Accounting, 1986 (2000); BS 1977 Madras-India; MBA 1979 Indian Institute of Management; PHD 1986 Columbia

Balasubramaniam, Ramaswami, Adjunct Professor, International Programs, 2011 (2011); MPHIL Birla Inst. of Science; MBBS 1988 Govern. Med. College, Mysore U; MBCHB 1988 Govern Med, Mysore; MPHIL 2003 Birla Inst. of Science Tech.; MPA 2010 Harvard

Ballantyne, Bryon Todd, Adjunct Associate Professor, Physical Therapy, 2007 (2007); MA 1991 Iowa; PHD 2005 Iowa

Ballard, Pamela S., Emeritus Assistant Professor, Nursing, 1993 (2002); BA 1958 Iowa; BSN 1978 Iowa; MSN 1985 Iowa

Ballas, Zuhair K., Professor, Internal Medicine, 1980 (1993); BS 1970 Amer Univ of Beirut-Lebanon; MD 1974 Amer Univ of Beirut-Lebanon

Baller, Ryan, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); DDS 2009 UNMC

Balster, Erik Thomas, Adjunct Assistant Professor, Pediatric Dentistry, 2006 (2006); DDS 2004 Iowa

Baltrusaitis, Jonas, Adjunct Assistant Professor, Occupational Environmental Health, 2010 (2010); BS 1998 Kaunas Technology; MS 2000 Kaunas Technology; PHD 2007 Iowa

Banas, Jeffrey A., Professor, Pediatric Dentistry, 2006 (2006); BS 1981 Notre Dame; PHD 1987 Michigan

Bancroft, Jeanne N., Lecturer, Teaching and Learning, 2003 (2003); BA 1969 IOWA; AM 1979 IOWA

Bandstra, Mike J., Adjunct Assistant Professor, Law-Faculty/Social Work, 1999 (2002); BS 1987 Iowa State; JD 1993 Iowa State

Banfi, Botond B., Associate Professor, Internal Medicine/Anatomy Cell Biology, 2004 (2010); MD 2000 Semmelweis; PHD 2002 Semmelweis

Banker, Gilbert S., Emeritus Professor, Pharmacy, 1992 (1992); BS 1953 Union New York; MS 1955 Purdue; PHD 1957 Purdue

Banks, Kathleen, Assistant Professor, Psych Quant Foundations, 2006 (2006); BS 1994 Wisconsin @ Whitewater; MS 1997 Wisconsin @ Milwaukee; PHD 2004 Wisconsin @ Milwaukee

Bansal, Ritu, Adjunct Assistant Professor, Preventive Community Dentistry, 2011 (2011); BDS 2000 Manipal Academy; MPH 2006 UT Houston

Baquero, Barbara I., Assistant Professor, Community Behavioral Health, 2012 (2012);

Bar, Robert S., Emeritus Professor, Internal Medicine, 1977 (1986); BS 1964 Tufts; MS 1970 Ohio State; MD 1970 Ohio State

Bennett, Tracey L., Adjunct Instructor, Pharmacy, 2007 (2007); BSPH 1992 Drake

Benoit, Gena Lou Rose, Clinical Adjunct Assistant Professor, Family Medicine, 2009 (2009); BS 1995 St. Ambrose; MD 1999 Iowa

Benson, Christopher J., Associate Professor, Pharmacology/Internal Medicine, 1999 (2006); BS 1986 St. John's; MD 1991 Minnesota

Bentler, Ruth Ann Winnike, Professor, Communication Sciences and Disorders, 1977 (2002); BS 1971 Iowa; MA 1973 Iowa; PHD 1987 Iowa

Bentz, Dale M., Emeritus Professor, Library Information Science, 1953 (1964);

Benzon, Amanda Renee, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2001 Iowa

Beran, Maureen Ruth, Adjunct Lecturer, Management Organizations, 2009 (2009); BA 2004 Iowa

Beranek, Randi Lea, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2012); PHARM 2010 Drake

Berbaum, Kevin S., Professor, Radiology, 1977 (1993); BA 1971 Millikin; PHD 1978 State University of New York

Berg, Daniel J., Associate Professor, Internal Medicine, 1995 (2003); BS 1981 Illinois; MD 1986 Illinois

Berg, Joyce E., Professor, Accounting, 1992 (2010); BS 1979 Minnesota; MBA 1985 Minnesota; PHD 1988 Minnesota

Berg, Mary Susan, Clinical Associate Professor, Nursing, 1992 (2011); BSN 1988 Iowa; MSN 1997 Iowa; DNP 2009 Iowa

Berger, Herbert, Clinical Professor, Internal Medicine, 1992 (2005); BS 1981 Loyola; MD 1985 Loyola Stritch Schl of Medicin

Berger, Karmen R., Adjunct Lecturer, Division of Interdisciplinary Program, 2009 (2009); MA 1987 California; PHD 1996 California

Bergman, Elizabeth June, Adjunct Assistant Professor, Dance, 2011 (2011); BA 2005 Desales Univ; MFA 2009 Iowa

Bergman, Marvin L., Adjunct Assistant Professor, History, 2010 (2010); MA 1979 Chicago, Divinity; PHD 1990 Chicago, Divinity

Bergman, Ronald A., Emeritus Professor, Anatomy Cell Biology, 1980 (1980); MS Illinois; BS 1950 Illinois; PHD 1955 Illinois

Bergus, George Ravdin, Professor, Family Medicine/Psychiatry, 1990 (2005); BA 1976 Pennsylvania; MD 1982 Pennsylvania; MA 2002 Iowa

Bergus, Nicholas Baldwin, Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 2002 Iowa; MA 2008 Iowa

Berkowitz, Daniel A., Professor, International Programs/Journalism Mass Communication, 1988 (2006); BS 1975 Humboldt State; MS 1985 Oregon; PHD 1988 Indiana

Berman, Constance A., Professor, History, 1988 (1994); BA 1970 Carleton; MA 1972 Wisconsin-Madison; PHD 1978 Wisconsin-Madison

Berman, David H., Adjunct Associate Professor, Physics Astronomy, 1996 (2008); BA 1967 Carleton College; PHD 1976 Wisconsin

Bern-Klug, Mercedes Eva, Associate Professor, Social Work/International Programs, 2004 (2010); BA 1982 Iowa; MSW 1984 Iowa; MA 1991 Georgetown; DR 2003 Kansas

Bernhardt, Melissa, Adjunct Instructor, Preventive Community Dentistry, 1999 (1999); MS 1998 Iowa

Bernstein, Mitchel, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Bernstein, Neil P., Adjunct Professor, University College, 2010 (2010); BS 1975 Colorado State; MS 1977 John Carroll; PHD 1982 Minnesota

Berrey, Marquis Shane, Assistant Professor, Classics, 2011 (2011); BA 2003 St Olaf; MA 2006 Texas @ Austin; PHD 2011 Texas @ Austin

Berry, Sean R., Adjunct Lecturer, Law-Faculty, 2001 (2003); BBA 1982 Notre Dame; JD 1987 Northwestern

Berry, Stephen Joseph, Associate Professor, Journalism Mass Communication, 2003 (2006); BS 1970 Montevallo; MA 1984 North Carolina-Greensboro

Berry, Venise Torriana, Associate Professor, African-American Studies/Journalism Mass Communication, 1991 (1998); BA 1977 Iowa; MA 1979 Iowa; PHD 1989 Texas-Austin

Bertocci, Angelo P., Emeritus Professor, English, 1966 (1966);

Bertolatus, John Andrew, Associate Professor, Internal Medicine, 1982 (1992); BA 1972 Johns Hopkins; MD 1976 Johns Hopkins

Bessman-Quintero, Margaret Ann, Adjunct Instructor, Social Work, 2005 (2005); MSW 2005 Iowa

Best, Leyla, Clinical Adjunct Assistant Professor, Internal Medicine, 2012 (2012);

Bettis, Elmer Arthur Iii, Associate Professor, Geoscience, 1995 (1995); BS 1975 Iowa State; MS 1979 Iowa State; PHD 1995 Iowa

Betts, Carl E., Emeritus Associate Professor, Communication Sciences and Disorders/Pediatrics, 1970 (1979); BA 1951 Iowa; MA 1957 Iowa; PHD 1963 Iowa

Beverly, Jasmine Onea, Clinical Adjunct Lecturer, Nursing, 2010 (2010); MHP 2006 Iowa; MSN 2010 University of Iowa

Beyer, Nancy Ellen, Clinical Assistant Professor, Psychiatry/Pediatrics, 2008 (2008); BA 1982 Iowa; MA 1985 Iowa; MD 2003 Iowa

Bezanson, Randall P., Professor, Law-Faculty, 1973 (1979); BS 1968 Northwestern; JD 1971 Iowa

Bhalla, Ramesh C., Emeritus Professor, Anatomy Cell Biology, 1973 (1982); BVSC 1957 Panjab-India; FRVCS 1962 Stockholm; PHD 1970 Wisconsin

Bhandary, Asha Leena, Assistant Professor, Philosophy, 2012 (2012);

Bhargava, Anuj, Clinical Adjunct Associate Professor, Internal Medicine, 2005 (2010); MBBS 1996 Manlana Azad Medical

Bhatia, Sudershan K., Clinical Assistant Professor, Radiation Oncology, 2005 (2005); MD 1977 Allahabad; MPH 1986 John Hopkins; PHD 1992 John Hopkins

Bhatnagar, Ranbir K., Emeritus Professor, Pharmacology, 1971 (1981); BS 1954 Lucknow-India; DVM 1958 Agra-India; MS 1963 Michigan State; PHD 1971 Michigan State; MFA 1999 Iowa

Bhatt, Rajankumar, Adjunct Associate Professor, Mechanical Engineering, 2007 (2012); BE 2001 MS University; ME 2004 SUNY at Buffalo; DPHIL 2007 SUNY at Buffalo

Bhatti, M. Asghar, Professor, Civil-Environmental Engineering, 1980 (2006); BE 1972 Karachi-Pakistan; MS 1975 Calif-Berkeley; PHD 1980 Calif-Berkeley

Bianchi, Alison J., Associate Professor, Sociology, 2007 (2010); MA 1998 Stanford; MA 2000 San Jose State; PHD 2001 Stanford

Bickenbach, Jackie R., Professor, Anatomy Cell Biology/Dermatology, 1999 (2009); BS 1973 Iowa; MS 1979 Iowa; PHD 1982 Iowa; MA 1988 Iowa

Bickett-Weddle, Danelle, Adjunct Assistant Professor, Occupational Environmental Health, 2005 (2005); MPH 2003 Iowa

Bieber, Dale, Clinical Associate Professor, Internal Medicine/Pediatrics, 2007 (2007); BS 1969 Elizabethtown; MS 1972 Penn State; MD 1976 Penn State

Bieri, Linda Olson, Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); DDS 1978 Iowa

Bigolin, Simone, Adjunct Lecturer, Management Sciences/Management Organizations, 2009 (2009); MS 2003 Kansas; MBA 2003 University of Kansas

Bilbeisi, Ayah, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Bilek, Guy Otto, Adjunct Assistant Professor, Periodontics, 1973 (2000); BS 1968 Iowa; DDS 1972 Loyola; MS 1974 Iowa

Billiet, Gabriel Mcquade, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARM 2003 Iowa

Bills, David B., Professor, Sociology/Educ Policy Leadership Studies, 1985 (2005); BA 1975 Edinboro State; MS 1977 Wisconsin-Madison; PHD 1981 Wisconsin-Madison

Binder, Perry, Adjunct Assistant Professor, Journalism Mass Communication, 2010 (2010); BA 1981 NY @ Binghamton; JD 1984 SUNY Buffalo

Binegar, Lisa Marie, Adjunct Lecturer, Nursing, 2010 (2010); BSN 2005 Iowa; MSN 2009 Iowa

Bingham, Heather Lynne, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2008 (2008); BS 1997 Brigham Young University; MD 2004 Texas Southwestern, Dall

Biniak, Kelly Jeanne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2009 Drake

Birdsell, Michele M., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1993 Iowa

Birrell, Susan J., Professor, Gender, Women's and Sexuality Studies/American Studies, 1980 (1992); BA 1968 St Lawrence; MS 1976 Massachusetts; PHD 1978 Massachusetts

Brighton, Veronica A., Clinical Assistant Professor, Nursing, 1975 (2002); BSN 1975 Iowa; MA 1977 Iowa

Brinkman, John Henry, Clinical Adjunct Associate Professor, Internal Medicine, 2000 (2000); BA 1959 Iowa; MD 1962 Iowa

Brinkman, Mary Kay, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009);

Bristol, Timothy John, Adjunct Assistant Professor, Nursing, 2006 (2006); BSN 1998 Wisconsin-Madison; MSN 2000 Clarkson; PHD 2005 Capella

Brochu, Christopher Andrew, Associate Professor, Geoscience/University College, 2001 (2006); BS 1989 Iowa; MA 1992 Texas-Austin; PHD 1997 Texas-Austin

Brock, Andre, Assistant Professor, Interdisciplinary Programs/Library Information Science, 2007 (2007); BA 2001 CUNY; MA 2003 Carnegie Mellon; PHD 2007 Illinois

Broderick, Ann, Clinical Associate Professor, Internal Medicine, 2001 (2004); AB 1978 Princeton; MD 1986 Iowa; MS 1991 Iowa

Broffitt, James D., Emeritus Professor, Statistics Actuarial Science, 1970 (1988); BA 1963 DePauw; MS 1965 Colorado State; PHD 1969 Colorado State

Brogden, Kim Alan, Professor, Periodontics, 2004 (2004); BS 1975 Iowa State; MS 1977 Iowa State; PHD 1981 Iowa State

Brokel, Jane, Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1988 Iowa; MA 1992 Iowa; PHD 2003 Iowa

Brongel, Julie Lynn, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPH 1995 Iowa; PHARM 1997 Iowa

Brook, Stacey Lee, Lecturer, Economics, 2008 (2008); BBA 1989 Eastern New Mexico; MA 1991 Nebraska-Lincoln; PHD 1995 Colorado State

Brooks, John M., Professor, Epidemiology/Health Management Policy/Pharmacy, 1996 (2010); BA 1982 Michigan State; MA 1984 North Carolina; PHD 1993 Michigan

Brooks, Michael S., Clinical Adjunct Assistant Professor, Internal Medicine, 1986 (1986); MD 1980 Loyola

Brooks, Philip Dean, Adjunct Lecturer, Finance, 2005 (2005); BBA 1972 Iowa; MBA 1974 Iowa; JD 1977 Creighton

Brophy, Patrick David, Associate Professor, Surgery/Pediatrics, 2007 (2007); MD 1994 Saskatchewan

Brosius, Gregory Alan, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 2000 Iowa

Brown, Allison, Clinical Adjunct Assistant Professor, Pediatrics, 2005 (2005); BA 1997 William Jewell; MD 2001 Iowa

Brown, Bruce Philson, Emeritus Associate Professor, Radiology, 1977 (1995); BS 1966 Michigan; MD 1971 Medical College of VA

Brown, Carolyn Jane, Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1992 (2006); BS 1980 Iowa; MSPA 1982 Washington; PHD 1989 Iowa

Brown, Carolyn J., Adjunct Associate Professor, Communication Sciences and Disorders, 1983 (1992); PHD 1981 Iowa

Brown, Charles Edward, Adjunct Lecturer, Health Management Policy, 2000 (2000); MHA 1984 Washington

Brown, Donald D., Professor, Internal Medicine, 1973 (1994); BA 1962 Iowa; MS 1965 Iowa; MD 1966 Iowa

Brown, Elizabeth Ann, Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 2005 (2005); BS 1988 Iowa; MD 1992 Iowa; MA 1994 Iowa

Brown, Gregory Robert, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Brown, Hugh Michael, Adjunct Instructor, Computer Science, 2011 (2011); BS 1998 Brigham Young; MS 2000 Brigham Young

Brown, James Andrew, Professor, Biomedical Engineering/Urology, 2009 (2011); BS 1986 Colorado State University, CO; BA 1986 Colorado State; MD 1991 Baylor

Brown, Kenneth G., Professor, Management Organizations, 1998 (2012); BS 1993 Maryland; MA 1996 Michigan State; PHD 1999 Michigan State

Brown, Kyle E., Associate Professor, Radiation Oncology/Internal Medicine, 2001 (2007); BA 1981 Case Western Reserve; MSC 1982 London-Economics; MD 1986 Case Western Reserve

Brown, Matthew Robert, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2006 (2006); MD 1996 Iowa

Brown, Matthew P., Associate Professor, English, 2001 (2007); BA 1986 Oberlin; PHD 1996 Virginia

Brown, Patricia Kay, Adjunct Instructor, Journalism Mass Communication, 2011 (2011); BA 1994 Iowa

Brown, Robert Terrance, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 1997 (1997); MD 1966 Iowa

Brown, Thea Abigail, Adjunct Assistant Professor, Creative Writing/International Writing, 2011 (2011); MFA 2011 Iowa

Brown, Thomas D., Professor, Mechanical Engineering/Biomedical Engineering/Orthopaedics and Rehabilitation, 1983 (1987); BS 1972 Maryland; PHD 1976 Carnegie-Mellon

Brown, Thomas M. Jr., Clinical Adjunct Assistant Professor, Internal Medicine, 1980 (1980); MD 1969 Vanderbilt

Brown, Timothy Leo, Adjunct Assistant Professor, Industrial Engineering, 2003 (2003); BE 1994 Iowa; MS 1996 Iowa; PHD 2000 Iowa

Brown-Matthes, Alicia Anne, Emeritus Associate Professor, Dance, 1976 (1982); BA 1972 George Washington; MA 1976 Iowa

Brownell, Travis Richard Bradley, Clinical Adjunct Assistant Professor, Emergency Medicine, 2009 (2009); MD 2004 Iowa

Bruch, Leslie Anne, Clinical Professor, Pathology/Neurosurgery, 2006 (2011); BS 1986 Iowa; MD 1992 Iowa

Bruch, Sarah Kathleen, Assistant Professor, Sociology, 2012 (2013);

Bruch Cannon, Delores R., Emeritus Professor, Music, 1979 (1987); BS 1956 Central Missouri; MM 1969 Missouri-Kansas City; DMA 1979 Kansas

Bruell, Steven C., Emeritus Professor, Computer Science, 1985 (1996); BA 1973 Texas-Austin; MS 1975 Purdue; PHD 1978 Purdue

Bruhn, Allison Leigh, Assistant Professor, Teaching and Learning, 2011 (2011); PHD 2011 Vanderbilt

Brunick, Brad, Adjunct Lecturer, Psych Quant Foundations/University College, 2011 (2011); AA 1998 Western Iowa Tech; BA 2000 Iowa; PSYD 2005 Argosy University

Bruning-Anderson, Mary Christine, Adjunct Instructor, Preventive Community Dentistry, 2003 (2003); AS 1971 Minnesota; BS 2006 University of Iowa; CER 2006 Aging Studies; U of Iowa

Brunner, Emily S., Adjunct Lecturer, College Transition, 2012 (2012); MA 1999 Univ of Chicago

Brus, Christine Peterson, Adjunct Instructor, Division of Interdisciplinary Program, 2000 (2000); BLS 1985 Iowa; MS 1994 Iowa

Bryant, Karen Nancy, Clinical Associate Professor, Communication Sciences and Disorders, 2003 (2010); BA 1984 Augustana; SCM 1989 Wisconsin

Bryce, Helen Margaret, Adjunct Assistant Professor, Physics Astronomy, 2002 (2002); BSC 1998 Glasgow; PHD 2001 Glasgow

Buatti, John, Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery/Neurosurgery, 1999 (2001); BS 1982 Georgetown; MD 1986 Georgetown

Buch, Elana D., Assistant Professor, Anthropology, 2011 (2011); MSW 2004 Michigan-Ann Arbor; MA 2005 Michigan-Ann Arbor; PHD 2010 Michigan-Ann Arbor

Buchanan, Edward B. Jr., Emeritus Professor, Chemistry, 1960 (1982);

Buchholz, James Harry John, Assistant Professor, Mechanical Engineering, 2008 (2008); BSC 1995 University of Alberta (Canada); BS 1995 Alberta; MS 1997 Alberta; PHD 2006 Princeton

Buchkina, Julia Renee, Clinical Assistant Professor, Family Medicine, 2012 (2012);

Buchman, Thomas A., Adjunct Associate Professor, Accounting, 2010 (2010); BS 1965 Illinois; MS 1970 Illinois; PHD 1976 Illinois

Buck, Bridget L., Clinical Adjunct Assistant Professor, Psychiatry, 1999 (1999); MD 1985 Nebraska

Buckingham, Edward T., Clinical Assistant Professor, Psychiatry, 2012 (2012);

Buckley, Jennifer Ann, Lecturer, Rhetoric, 2011 (2011); BA 1998 Michigan; MA 2005 Columbia; MPHIL 2007 Columbia

Buckwalter, Joseph Addison, Professor, Health and Human Physiology/Orthopaedics and Rehabilitation/Pediatrics, 1979 (1985); BA 1969 Iowa; MS 1972 Iowa; MD 1974 Iowa

Buckwalter, Kathleen Coen, Emeritus Professor, Nursing, 1974 (1989); BSN 1971 Iowa; MA 1976 Iowa; PHD 1980 Illinois

Budd, Ann F., Professor, Geoscience, 1978 (1995); BA 1973 Lawrence; MS 1975 Johns Hopkins; PHD 1978 Johns Hopkins

Budzine, Janice Mae, Clinical Adjunct Instructor, Nursing, 2007 (2007); BSN 1989 Coe College; MSN 2001 Iowa

Buettner, Garry R., Professor, Radiation Oncology, 1993 (1999); BA 1967 Northern Iowa; MS 1969 Iowa; PHD 1976 Iowa

Buikema, Brenda Sue, Clinical Assistant Professor, Internal Medicine/Occupational Environmental Health, 2008 (2008); MD 2004 Iowa

Bulechek, Gloria Marie, Emeritus Professor, Nursing, 1963 (1996); BSN 1963 Iowa; MA 1967 Iowa; PHD 1981 Iowa

Bullock, Tammy Sue Clapham, Adjunct Assistant Professor, Pharmacy, 2003 (2003); PHARM D 1998 Iowa

Bunch, Jacinda, Lecturer, Nursing, 2009 (2009); BSN 2006 Missouri - Columbia; MSN 2008 Missouri - Columbia

Bunnell, Charlene Elisabeth, Adjunct Professor, Journalism Mass Communication, 2008 (2012); MA 1979 Western Illinois; PHD 1995 Delaware

Bunting, Dean A., Clinical Adjunct Assistant Professor, Family Medicine, 1990 (2002); BS 1980 Dubuque; MD 1984 Iowa

Buntz, Lois Ann, Adjunct Instructor, Social Work, 1990 (1990); BA 1975 Wisconsin; MSW 1977 Iowa

Burden, Paige C., Adjunct Instructor, Communication Sciences and Disorders, 2005 (2005); BS 1990 Arizona; MA 2002 Iowa

Burden, Sara Lynn, Adjunct Lecturer, University College, 2006 (2007); AA 1999 Indian Hills CC; BA 2001 Iowa; MA 2003 Iowa

Burdt, Mark, Clinical Adjunct Assistant Professor, Internal Medicine, 2005 (2005); BA 1989 Northern Iowa; DO 1993 U of Osteopathic Med

Burek Pierce, Jennifer, Associate Professor, Library Information Science, 2005 (2011); MA 1990 Gonzaga; AMLS 1999 Indiana; PHD 1999 Indiana

Burer, Samuel, Professor, Management Sciences, 2001 (2012); BS 1997 Georgia; PHD 2001 Georgia Inst of Technology

Buresh, Christopher Thomas, Clinical Associate Professor, Emergency Medicine, 2007 (2011); BA 1997 St. Olaf College; MD 2001 Iowa

Burgess, David Mitchell, Adjunct Lecturer, International Programs, 2003 (2003); BA 1993 Miami, OH; BM 1993 Miami, OH; MPHIL 1997 Vilnius University (Lithuania); MFA 2003 Iowa

Burgmeier, Daniel Richard, Adjunct Assistant Professor, Family Dentistry, 2011 (2011); DDS 1985 Iowa

Burke, Maureen Elizabeth, Adjunct Instructor, Linguistics, 1981 (1997); BA 1968 Emmanuel College; MA 1984 Iowa

Burke, N. Peggy, Emeritus Associate Professor, Health, Sport Studies, 1964 (1978); BA 1956 Moorhead State; MA 1957 Moorhead State; PHD 1965 Iowa

Burke Jr., Richard Martin, Clinical Associate Professor, Pediatric Dentistry, 1999 (2008); BA 1982 South Florida; DMD 1986 Pittsburgh; CER 1999 The University of Iowa

Burkhalter, Brooke Nicole, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 2005 Iowa

Burks, Douglas Alan, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 1979 Iowa; MBA 1998 St Ambrose

Burmeister, Leon F., Emeritus Professor, Public Health Administration, 1969 (1982); BS 1964 Iowa State; MS 1966 Iowa State; PHD 1972 Iowa State

Burnett, Andrean, Assistant Professor, Pathology, 2010 (2010); BS 2000 Iowa State; PHD 2005 Iowa State

Burns, C. Patrick, Emeritus Professor, Internal Medicine, 1971 (1980); BA 1959 Kansas; MD 1963 Kansas

Burns, Robert Raymond, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 2005 Iowa

Burns, Trudy L., Professor, Epidemiology/Pediatrics/Nursing, 1982 (1993); BA 1973 Oakland; MPH 1976 Michigan; PHD 1982 Michigan

Burr, Marra Jeane, Adjunct Assistant Professor, Pharmacy Practice and Science, 2009 (2010); PHARM 2009 Drake

Burras, Charles Lee, Adjunct Professor, University College, 2011 (2011); PHD 1992 Ohio State

Bursch, Heide Christine, Lecturer, Nursing, 1992 (2000); BSN 1981 Iowa; MSN 2006 Iowa

Burstain, Todd L., Clinical Associate Professor, Internal Medicine, 2000 (2003); BA 1986 Rice; MD 1990 Texas Southwestern

Burt, Charlotte White, Adjunct Instructor, Nursing, 1999 (1999); MA 1979 Marycrest

Burton, Donald J., Emeritus Professor, Chemistry, 1962 (1970); BS 1956 Loyola-Maryland; PHD 1961 Cornell

Burton, Richard G., Clinical Professor, Oral Maxillofacial Surgery, 1997 (2002); BA 1973 Hanover College; DDS 1977 Ohio State; MS 1985 Iowa

Burton, Steven J., Professor, Law-Faculty, 1977 (1981); BA 1970 California; JD 1973 Southern California

Busard, Joshua F., Adjunct Lecturer, Urban Regional Planning, 2012 (2012); BS 1999 Iowa; MS 2006 IL @ Champagne

Bushnell, David, Professor, Radiology, 1992 (2004); BS 1975 Illinois; MD 1979 Illinois

Buss, William G., Emeritus Professor, Law-Faculty, 1967 (1970); BA 1955 Yale; LLB 1960 Harvard

Butcher, Howard K., Associate Professor, Nursing, 1998 (2005); BS 1977 Lebanon Vally; BSN 1979 Thomas Jefferson; MSN 1986 Toronto; PHD 1994 South Carolina

Butchvarov, Panayot, Emeritus Professor, Philosophy, 1967 (1967); BA 1952 Robert-Turkey; MA 1954 Virginia; PHD 1955 Virginia

Butler, Amy C., Associate Professor, Social Work, 1992 (1996); BA 1977 Boston; MSW 1980 Michigan; MA 1984 Michigan; PHD 1987 Michigan

Butler, Audrey Ahchin, Lecturer, Chemical Biochemical Engineering, 1989 (1998); PHD 1989 Iowa

Butler, John E., Professor, Microbiology, 1971 (1980); BS 1961 Univ of Wisconsin-River Falls; PHD 1965 Kansas

Butler, Patrick Barry, Professor, Mechanical Engineering, 1984 (1995); BS 1979 Illinois; MS 1981 Illinois; PHD 1984 Illinois

Buxton, Grant Stevens, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2010 Iowa; PHD 2010 Iowa

Buys, Lucinda M., Clinical Associate Professor, Family Medicine/Pharmacy, 1994 (2005); BS 1985 Briarcliff; BS 1987 Creighton; PHARM 1989 Creighton

Bybee, Jerald W., Clinical Adjunct Assistant Professor, Family Medicine, 2001 (2001); MD 1978 Iowa

Byrn, John C., Clinical Assistant Professor, Surgery, 2009 (2009); BA 1998 Hope, Holland MI; MD 2002 Illinois College

Byrne, John Paul, Adjunct Professor, Marketing, 1999 (2006); BBA 1987 Notre Dame; MBA 1990 Loyola; PHD 1996 Iowa

Bzdega, Holley A., Clinical Adjunct Assistant Professor, Pediatrics, 1987 (1987); MD 1978 Manitoba-Canada

Cac, Nguyen P., Emeritus Professor, Mathematics, 1968 (1972); LIC 1958 Saigon-Vietnam; MS 1961 London-England; PHD 1965 Cambridge-England

Cadaret, Linda Marie, Clinical Associate Professor, Internal Medicine, 1999 (2012);

Cagley, Amy Joleen, Adjunct Assistant Professor, Pharmacy, 2007 (2007); DDS 1999 Iowa; PHARM 1999 Iowa

Cai, Jianfeng, Assistant Professor, Mathematics, 2011 (2011); BSC 2000 Fudan; MS 2004 Fudan; PHD 2007 Univ of Hong Kong

Cain, George D., Emeritus Professor, Biology, 1970 (1984); BS 1962 Sterline; MS 1964 Purdue; PHD 1968 Purdue

Cain, Patricia A., Emeritus Professor, Law-Faculty, 1991 (1991); BA 1968 Vassar; JD 1973 Georgia

Calarge, Chadi Albert, Associate Professor, Psychiatry, 2005 (2011); MD 1998 Dekwaneh, Lebanon

Callaghan, John J., Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1990 (1993); BS 1975 Notre Dame; MD 1978 Loyola

Cameron, John, Professor, Theatre Arts, 1997 (2012); BS 1977 Brigham Young; MA 1982 Kent State; PHD 1986 Kent State

Camillo Jr., Victor P., Professor, Mathematics, 1970 (1979); BA 1966 Bridgeport; PHD 1969 Rutgers

Campbell, Ann Melissa, Associate Professor, Management Sciences, 2000 (2006); BA 1993 Rice; PHD 2000 Georgia Tech

Campbell, Cam F., Clinical Adjunct Instructor, Internal Medicine, 1992 (1992); MD 1982 Southern California

Campbell, David L., Adjunct Professor, Geoscience, 2002 (2004); BA 1963 Iowa; MA 1966 California-Berkeley; PHD 1969 California-Berkeley

Campbell, Kevin P., Professor, Internal Medicine/Neurology/Physiology, 1981 (1988); BS 1973 Manhattan; MS 1976 Rochester; PHD 1979 Rochester

Campbell, Mary E., Associate Professor, Sociology, 2004 (2010); BA 1997 George Washington; MA 1999 Wisconsin; PHD 2004 Wisconsin

Campe, Lee, Adjunct Lecturer, Management Sciences, 2009 (2009); MBA 1998 Clemson

Campo, Michelle, Associate Professor, Communication Studies/Community Behavioral Health, 2002 (2008); BS 1990 Cornell; MA 1994 Ohio State; PHD 1999 Michigan State

Campos, Javier H., Clinical Professor, Anesthesia, 1987 (2001); BS 1971 Federal Prep School; MD 1975 Autonomous

Canahuate, Guadalupe Mercedes, Assistant Professor, Electrical-Computer Engineering, 2009 (2009); BS 2000 Pontificia; MS 2003 Ohio State; PHD 2009 Ohio State

Canin, Ethan A., Professor, English/Creative Writing, 1991 (1998); BA 1982 Stanford; MFA 1984 Iowa; MD 1991 Harvard

Cannon, Katrina Terese, Clinical Adjunct Assistant Professor, Internal Medicine, 2009 (2009); BS 1998 Iowa; MD 2002 Iowa

Canter, Arthur, Emeritus Professor, Psychiatry, 1960 (1965); BA 1946 Iowa; MA 1948 Iowa; PHD 1950 Iowa

Cantor, Joan H., Emeritus Professor, Psychology, 1960 (1979); BA 1951 Syracuse; MA 1953 Iowa; PHD 1954 Iowa

Cantrell, Matthew A., Clinical Assistant Professor, Pharmacy, 2005 (2007); BS 2000 Mount Mercy; PHARM 2005 Iowa

Capizzano, Aristides Andres, Assistant Professor, Radiology, 2009 (2010); MD 1992 Buenos Aires

Caplan, Daniel Jonathan, Professor, Preventive Community Dentistry, 2007 (2007); DDS 1988 Iowa; PHD 1995 North Carolina

Caplan, Richard M., Emeritus Professor, Dermatology, 1961 (1969); BS 1949 Iowa State; MA 1951 Iowa; MD 1955 Iowa

Caplan, Robert H., Clinical Adjunct Associate Professor, Internal Medicine, 1982 (1990); MD 1961 Chicago

Carew, David P., Emeritus Professor, Pharmacy, 1957 (1965); BS 1952 Massachusetts; MS 1954 Massachusetts; PHD 1958 Connecticut

Cargill, Robert Raymond, Assistant Professor, Religion/Classics, 2011 (2011); MDIV 2000 Pepperdine; MA 2006 UCLA; PHD 2008 UCLA

Carlile, Mark Elton, Adjunct Assistant Professor, History, 1993 (1996); BA 1982 Marquette; MA 1984 Marquette; PHD 1995 Iowa

Carlisle, Thomas L., Clinical Associate Professor, Internal Medicine, 1992 (2002); BS 1972 Maryland-Baltimore; PHD 1978 Wisconsin-Madison; MD 1986 Missouri-Columbia

Carlson, Elizabeth D., Adjunct Assistant Professor, Nursing, 2008 (2008); BSN 1994 Texas Health Science; MPH 1997 Texas Health Science; PHD 2003 Texas Health Science

Carlson, Jonathan C., Professor, Law-Faculty/International Programs/Public Policy Center, 1983 (1987); BA 1976 McGill; JD 1979 Chicago

Carlson, Kent David, Adjunct Associate Professor, Mechanical Engineering, 1998 (2006); BSE 1991 Iowa; MS 1993 Iowa; PHD 1997 Florida State

Carlson, Wayne R., Emeritus Professor, Biology, 1968 (1993); BA 1962 Rockford; MA 1966 Indiana; PHD 1968 Indiana

Carlstein, Andres Augustine, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Carmen, Lee T., Adjunct Assistant Professor, Health Management Policy, 2002 (2002); BS 1983 Oklahoma; BS 1990 Iowa

Carmichael, Gregory R., Professor, Civil-Environmental Engineering/Chemical Biochemical Engineering, 1978 (1985); BS 1974 Iowa State; MS 1975 Kentucky; PHD 1979 Kentucky

Carmichael, Robert S., Emeritus Professor, Geoscience, 1977 (1983); BA 1963 Toronto; MS 1964 Pittsburgh; PHD 1967 Pittsburgh

Carmody, Brenda Renee, Adjunct Assistant Professor, Pharmacy, 1998 (2007); BSPH 1991 Iowa

Carnahan, Ryan Michael, Clinical Assistant Professor, Epidemiology, 2003 (2008); PHAR 2001 Iowa; MS 2004 Iowa

Caropreso, Philip R., Clinical Adjunct Professor, Surgery, 1987 (2004); MD 1972 Upstate Medical School

Carpenter, Martin, Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); MD 2002 Missouri

Carr, Lucas, Assistant Professor, Health and Human Physiology, 2012 (2012);

Carrasco, Enrique R., Professor, Law-Faculty, 1990 (1994); BA 1980 Indiana; JD 1986 Georgetown

Carrel, Margaret, Assistant Professor, Geography, 2011 (2011); BA 2002 American University; MA 2007 Chapel Hill; PHD 2011 Chapel Hill

Carrica, Pablo, Associate Professor, Mechanical Engineering, 2002 (2002); PHD 1993 Nacional De Cuyo

Carrier, Heidi Johnson, Adjunct Assistant Professor, English, 2001 (2001); PHD 2001 Iowa

Carrillo, Pedro M., Adjunct Assistant Professor, Pharmacy, 1990 (1990); BSPH 1981 Iowa; PHARM 1987 Iowa

Carrillo Rowe, Aimee M., Associate Professor, Communication Studies/Rhetoric, 2001 (2007); AA 1990 Riverside Community; BA 1992 Pepperdine; MA 1993 Pepperdine; PHD 2000 Washington

Carroll, John Raymond, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); MD 1979 Iowa

Carroll, Thomas J., Lecturer, Accounting, 1989 (1999); BBA 1979 Notre Dame; PHD 1988 Michigan-Ann Arbor

Carrollhach, Haley Aundrea, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2011 (2011); MFA 2011 Iowa

Carruthers, Kara Michelle, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BS 1998 Iowa State; PHARM 2004 Iowa

Carstens, Coby, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BA 2002 Iowa; PHARM 2006 Iowa

Carter, A. Brent, Associate Professor, Radiation Oncology/Internal Medicine, 1998 (2008); AB 1988 William Jewell; MD 1992 Missouri

Carter, Anthony David, Clinical Adjunct Assistant Professor, Emergency Medicine, 2004 (2004); BA 1989 Cornell-Iowa; DO 1995 Univ of Osteopathic Medicine

Carter, Barrie James, Adjunct Professor, Anatomy Cell Biology, 2009 (2009); BS 1966 Otago, New Zealand; BSC 1967 U Otago, New Zealand; PHD 1969 Otago, New Zealand

Carter, Barry L., Professor, Pharmacy, 2000 (2000); BS 1978 Iowa; PHARM 1980 Virginia

Carter, David Alan, Adjunct Associate Professor, Finance, 2009 (2009); BS 1985 Brigham Young; MBA 1990 Utah; PHD 1996 Georgia

Casko, John S., Professor, Orthodontics, 1976 (1976); BS 1960 Holy Cross; DDS 1964 Georgetown; MS 1968 Georgetown; PHD 1970 Pittsburgh

Cassaday, Michael, Adjunct Assistant Professor, Internal Medicine, 2009 (2009); DO 1976 Des Moines

Cassel, Suzanne, Assistant Professor, Internal Medicine, 2007 (2010); BA 1992 Reed, Portland OR; MD 2000 Temple

Cassell, Martin D., Professor, Anatomy Cell Biology, 1982 (2004); BS 1976 Bristol-England; PHD 1980 Bristol-England

Castagnini, Luis Antonio, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Castelein, Paul T., Adjunct Assistant Professor, Orthodontics, 2012 (2012);

Castellanos, Horacio, Assistant Professor, Spanish Portuguese, 2011 (2011);

Castro Ruiz, Leyre, Adjunct Assistant Professor, Psychology, 2006 (2006); PHD 2003 Deusto, Bilbao, Spain

Catanzaro, David Austin, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARM 2004 Cincinnati

Catellier, Michelle J., Clinical Adjunct Assistant Professor, Pathology, 2007 (2007); MD 1987 Indiana

Cater, E. David, Emeritus Professor, Chemistry, 1961 (1979); BS 1954 Trinity; PHD 1960 Kansas

Cates, Diana F., Professor, Religion, 1990 (2010); BA 1983 St. Olaf; PHD 1990 Brown

Catney, Christine M., Clinical Assistant Professor, Pharmacy, 1996 (1996); BS 1975 St. Louis Coll of Pharmacy; MA 1986 Iowa; PHARM 1996 Iowa

Caughlan, Charles R., Clinical Adjunct Assistant Professor, Internal Medicine, 1992 (1997); MD 1973 Iowa

Cavanaugh, Joseph E., Professor, Statistics Actuarial Science/Biostatistics, 2003 (2008); BS 1986 Montana Tech; MS 1988 Montana State; PHD 1993 California

Cawiezell, Jill Renee, Professor, International Programs/Nursing, 2008 (2008); MSN 1994 Missouri-Columbia; PHD 1998 Missouri-Columbia

Cearlock, Kenneth, Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2002); MD 1979 Missouri

Ceilley, Roger Ivan, Clinical Adjunct Professor, Dermatology, 1976 (2000); MD 1971 Iowa

Cerhan, James, Adjunct Professor, Epidemiology, 2000 (2005); BA 1986 Iowa; PHD 1991 Iowa; MD 1993 Iowa

Cerone, Shane Michael, Adjunct Assistant Professor, Health Management Policy, 1998 (2004); MA 1995 Iowa

Cerreta, Florindo V., Emeritus Professor, French Italian, 1957 (1964); BA 1943 Fordham; PHD 1954 Columbia

Chadima, Helen Louise Gower, Emeritus Associate Professor, Dance, 1983 (1990); BA 1949 Iowa; MA 1981 Iowa

Chaffee, James William, Adjunct Lecturer, Management Sciences, 2007 (2007); BS 1990 California PA; MA 2001 Illinois

Chahla, Mayy, Clinical Assistant Professor, Internal Medicine, (2011); MD 2005 John's Hopkins

Chalkley, Yvonne M., Emeritus Associate Professor, Operative Dentistry, 1977 (1984); BS 1973 Iowa; DDS 1977 Iowa; MS 1979 Iowa

Chaloner, Kathryn, Professor, Statistics Actuarial Science/Biostatistics/Design Biostat and Ethics, 2002 (2002); BA 1975 Oxford; MS 1976 London; PHD 1982 Carnegie Mellon

Chalstrom, Carl Victor, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1987 Iowa

Chaly, Yury, Assistant Professor, Pediatrics, 2012 (2012);

Chamberlain, David S., Emeritus Professor, English, 1961 (1975); BA 1952 Dartmouth; MA 1958 Oxford-England; PHD 1966 Princeton

Chamberlain, Tiffany Lynn, Adjunct Assistant Professor, Pharmacy, 2006 (2006); BS 1997 Wisconsin; PHARM 2004 Iowa

Chambers, Susan Elizabeth, Adjunct Assistant Professor, Theatre Arts/Division of Performing Arts, 1999 (1999); BA 1976 Shimer; MFA 1981 Pennsylvania State

Chametzky, Robert, Adjunct Associate Professor, Linguistics, 2003 (2008); BA 1979 Columbia; PHD 1987 Chicago

Champion, Christopher Scott, Clinical Adjunct Assistant Professor, Family Medicine, 2005 (2005); BA 1993 Missouri @ Kansas City; DO 2000 Kansas City

Champion, Craig M., Clinical Adjunct Associate Professor, Internal Medicine, 1973 (1983); MD 1962 Iowa

Chan, Bing C., Emeritus Associate Professor, Asian Slavic Languages Literature, 1979 (1987);

Chan, Kung-Sik, Professor, Statistics Actuarial Science, 1991 (1999); BSC 1980 Chinese-Hong Kong; MA 1982 Princeton; PHD 1986 Princeton

Chande, Vidya Balkrishna, Clinical Adjunct Professor, Pediatrics, 2001 (2012); MD 1986 Iowa

Chandramouli, B., Clinical Adjunct Assistant Professor, Pediatrics, 1971 (1985); MBBS 1960 Mysore India

Chandran, Krishnan B., Professor, Biomedical Engineering/Mechanical Engineering, 1978 (1984); BS 1963 American-India; BTECH 1966 Indian Institute of Technology; MS 1969 Washington-Missouri; DSC 1972 Washington-Missouri

Chandran, Prem K., Clinical Adjunct Associate Professor, Internal Medicine, 1987 (1999); MBBS 1973 Kerala-India

Chang, Eugene Hanyoung, Assistant Professor, Otolaryngology-Head Neck Surgery, 2010 (2010); BA 1999 Brown Univ; MD 2004 Brown Medical School

Chang, Kristi Erin, Clinical Associate Professor, Radiation Oncology/Otolaryngology-Head Neck Surgery, 2003 (2009); BS 1991 Palo Alto, CA; MD 1997 Southern California

Chang, Lan Samantha, Professor, Creative Writing/English, 1998 (2006); BA 1987 Yale; MPA 1991 Harvard; MFA 1993 Iowa

Chang, Yu-Hui Huang, Adjunct Assistant Professor, Biostatistics, 2010 (2010); MA 2001 Boston; MS 2006 Iowa; PHD 2010 Iowa

Chanthanakone, Peter, Assistant Professor, Art Art History, 2012 (2012);

Chapleau, Mark W., Professor, Physiology/Internal Medicine, 1989 (2004); BS 1977 Wisconsin-Whitewater; PHD 1985 Louisiana State

Chapler, Frederick K., Emeritus Professor, Obstetrics Gynecology, 1970 (1976); BA 1957 UC Berkeley; MD 1960 UC-San Francisco

Chappelle, Christopher Mark, Adjunct Instructor, Social Work, 2010 (2010); BSW 1970 South Dakota; MPA 1985 Drake

Charlton, Mary Elizabeth, Clinical Assistant Professor, Epidemiology, 2009 (2009); BN 1998 Iowa; MS 2002 Iowa; PHD 2008 Iowa

Charsha-Harney, Angela Leigh, Adjunct Instructor, Health and Human Physiology, 2009 (2009); BA 1998 Monmouth College; MA 2001 Michigan State; MS 2002 Michigan State

Charukamnoetkanok, Puwat, Adjunct Assistant Professor, Ophthalmology Visual Science, 2010 (2010); BS 1992 State University of New York; MD 1998 Rochester

Chase, John, Clinical Assistant Professor, Internal Medicine, 1999 (2000); BA 1989 North Carolina; MD 1993 North Carolina

Chatterjee, Kanu, Clinical Professor, Internal Medicine, 2009 (2009); MBBS 1956 R.G. Kar Medical

Chaudhry, Qasim L., Clinical Adjunct Assistant Professor, Surgery, 2011 (2011); MBBS 2001 University of Cambridge; MBCHB 2001 Cambridge

Chauhan, Anil, Assistant Professor, Internal Medicine, 2008 (2008); PHD 2002 Intl Centre for Genetic Eng

Chavez, Joel, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BS 1975 Regis University; DDS 1980 Colorado

Chawansky, Megan E., Adjunct Lecturer, American Studies, 2011 (2011); BA 1999 Northwestern; MA 2002 Ohio State; PHD 2008 Ohio State

Cheatum, Christopher, Associate Professor, Chemistry, 2003 (2011); BS 1995 New Mexico; PHD 2001 Wisconsin

Chen, Joseph Jack, Clinical Associate Professor, Physical Therapy/Orthopaedics and Rehabilitation, 2000 (2006); BSC 1991 Brown; MD 1996 Brown

Chen, Lea-Der, Emeritus Professor, Mechanical Engineering, 1982 (1991); BS 1974 National Taiwan; MS 1979 Pennsylvania State; PHD 1981 Pennsylvania State

Chen, Shuang, Assistant Professor, History, 2010 (2010); MA 2002 Peking; MA 2005 Michigan; PHD 2009 Michigan

Chen, Songhai, Assistant Professor, Pharmacology/Internal Medicine, 2008 (2008); MD 1988 Fujian, China; PHD 2002 New South Wales, Australia

Chen, Wei Fan, Assistant Professor, Surgery, 2011 (2011); MD 2002 New York

Chen, Yong, Associate Professor, Industrial Engineering, 2003 (2010); MS 2000 Michigan; MA 2003 Michigan; PHD 2003 Michigan

Cheng, Chi-Lien, Associate Professor, Biology, 1990 (1997); BS 1969 National Taiwan; PHD 1982 Connecticut

Cheng, Frank H., Emeritus Professor, Radiology, 1964 (1980); BS 1946 St Johns-China; MS 1950 Tennessee; PHD 1957 Indiana

Chereches, Razvan, Adjunct Assistant Professor, Occupational Environmental Health, 2007 (2007); MD 2001 LuLiu Hatieganu, Romania; MS 2005 Univ Lucian Blaga, Romania; PHD 2007 Univ Lucian Blaga, Romania

Cheyne, Ken, Clinical Adjunct Professor, Pediatrics, 1999 (2006); MD 1982 Iowa

Chi, Donald Leslie, Adjunct Lecturer, Public Policy Center, 2010 (2010); AB 2000 Cornell; DDS 2006 Washington

Chibnik, Michael S., Professor, International Programs/Anthropology, 1978 (1994); BA 1968 Cornell; MA 1973 Columbia; PHD 1975 Columbia

Chifan, Ionut, Assistant Professor, Mathematics, 2011 (2011); BS 2001 Bucharest; MS 2003 Bucharest; PHD 2009 California Los Angeles

Chihak, Benjamin John, Adjunct Assistant Professor, Psychology, 2008 (2008); PHD 2007 Minnesota

Childs, Christopher A., Adjunct Lecturer, University College, 2011 (2011); PHB 1995 Purdue; AMLS 2005 North Texas

Chin, Hak Keung, Clinical Adjunct Instructor, Nursing, 2008 (2008); MSN 2006 North Dakota

Chin, Ting-Fong, Emeritus Associate Professor, Pharmacy, 1963 (1976); BS 1951 Nat'l Defense Med Ctr-Taiwan; MS 1960 Iowa; PHD 1962 Iowa

Chipara, Octav, Assistant Professor, Computer Science, 2011 (2011); BS 2003 Indiana; PHD 2010 Washington

Chiusano, Robert Michael, Adjunct Lecturer, Engineering Administration, 2008 (2008); BSE 1977 New York; MBA 1984 Iowa

Cho, Peter, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 2005 Iowa; MS 2009 Iowa

Choe, Steve, Assistant Professor, Cinema Comparative Literature, 2008 (2008); PHD 2008 California - Berkeley

Choi, James Yuknam, Clinical Associate Professor, Anesthesia, 1996 (2004); BA 1986 Northwestern; MD 1991 University of Iowa

Choi, Kent Choung, Clinical Associate Professor, Surgery, 2001 (2007); BS 1989 Florida; MD 1993 Georgia Medical

Choi, Kyong Mi, Assistant Professor, Teaching and Learning, 2009 (2009); BS 2002 Seoul National; MPHIL 2008 Columbia Univ; PHD 2009 Columbia Univ

Choi, Kyung Kook, Professor, Mechanical Engineering, 1983 (1990); BS 1970 Yon Sei-Korea; MS 1977 Iowa; PHD 1980 Iowa

Choi, Won Wung, Professor, Anesthesia, 1979 (1992); MD 1957 Chon-nam-Korea; DMS 1966 Seoul National-Korea

Chong, Hui Sen, Clinical Assistant Professor, Surgery, 2010 (2010); MD 2004 Calgary

Choo, Chunghi, Professor, Art Art History, 1968 (1981); BFA 1961 Ewha Women's-Korea; MFA 1965 Cranbrook Academy of Art

Chope, Roger Allen, Adjunct Professor, Accounting/Finance, 2008 (2008); BA 1968 Albion; MBA 1977 Louisville; PHD 1981 Oregon

Choudhary, Jaspreet, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 2005 Creighton

Choudhury, Amit K., Assistant Professor, Anatomy Cell Biology/Orthopaedics and Rehabilitation, 2007 (2007); BS 1987 Gandhi Memorial, India; MS 1992 Nat. Dairy Resch, India; PHD 1998 Chandigarh, India

Chrischilles, Elizabeth A., Professor, Epidemiology/Pharmacy/Design Biostat and Ethics, 1982 (2000); BS 1979 Iowa; MS 1981 Iowa; PHD 1986 Iowa

Christ, Heather Ann, Adjunct Assistant Professor, Pharmacy, 2006 (2006); AA 1994 Kirkwood Community; PHARM 2002 Iowa

Christensen, Alan J., Professor, Psychology/Internal Medicine, 1993 (2002); BS 1987 Utah; MS 1991 Utah; PHD 1993 Utah

Christensen, Cynthia K., Emeritus Associate Professor, Pediatric Dentistry, 2002 (2002); BS 1976 Iowa; DDS 1980 Iowa; MS 1983 Iowa

Christensen, Gary E., Professor, Radiation Research Laboratory/Electrical-Computer Engineering, 1997 (2010); BS 1988 Washington-St. Louis; MS 1989 Washington-St. Louis; PHD 1994 Washington-St. Louis

Christensen, James, Emeritus Professor, Internal Medicine, 1963 (1972); BA 1953 Nebraska-Lincoln; MS 1957 Nebraska-Omaha; MD 1957 Nebraska-Omaha

Christensen, Lori, Clinical Associate Professor, Pediatrics, 2001 (2007); BA 1993 Iowa; MD 1998 Iowa

Christensen, Steve, Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); DDS 1986 Iowa

Christensen, Theodore Edward, Adjunct Professor, Accounting, 2011 (2011); PHD 1995 Georgia

Christensen-Szalanski, Carlyn M., Clinical Associate Professor, Emergency Medicine, 2003 (2011); MD 1983 Washington

Christensen-Szalanski, Jay, Professor, Management Organizations, 1986 (1991); AB 1975 Harvard; PHD 1978 Washington; MPH 1979 Washington

Christians, Kevin, Adjunct Instructor, Pharmacy, 2004 (2004); BSPH 1995 Iowa

Christiansen, Margaret A., Adjunct Instructor, Communication Sciences and Disorders, 2008 (2008); BA 1999 UNI; MA 2001 UNI; DAUD 2006 AT Still U of Health Sci

Christie, Kevin, Adjunct Lecturer, Biology, 2012 (2012); BS 2001 College of William and Mary; PHD 2010 U of Ill Urbana - Champaign

Christison, Thomas A., Lecturer, Art Art History, 2006 (2006); BFA 1981 Wisconsin @ Eau Claire; MFA 1984 Arizona State

Cigrand, Karla Kay, Lecturer, Teaching and Learning, 2000 (2000); BS 1982 Iowa; MA 1990 Iowa

Cilek, Joseph C., Adjunct Instructor, Health and Human Physiology, 2008 (2008); BA 1999 Iowa; MA 2003 Iowa

Cilek, Toni Lee Daters, Clinical Associate Professor, Communication Sciences and Disorders, 1992 (1992); BA 1975 Iowa; MA 1976 Iowa

Ciochon, Russell L., Professor, Pediatric Dentistry/Anthropology, 1987 (1996); BA 1971 California-Berkeley; MA 1974 California-Berkeley; PHD 1986 California-Berkeley

Clabaugh, Gerd William, Adjunct Lecturer, Nursing, 2011 (2011); MPA 1989 Iowa State

Clair, Isaac John, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BA 2005 Iowa; DDS 2009 Iowa

Clamon, Gerald H., Professor, Internal Medicine, 1976 (1991); BS 1967 Dartmouth; MD 1971 Washington-Missouri

Clancey, Constance Jean Lehman, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHD 1990 Baylor College

Clancy, James M., Associate Professor, Prosthodontics, 1986 (1991); BS 1975 Iowa; DDS 1978 Iowa; MS 1980 Iowa

Clancy, Thomas R., Adjunct Assistant Professor, Nursing, 1999 (2007); BSN 1978 Iowa; MBA 1993 Iowa; PHD 2006 Iowa

Clark, Anthony S., Assistant Professor, Aerospace Studies, 2011 (2011); BA 2004 Maryland

Clark, Charles R., Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1980 (1988); BS 1972 Notre Dame; MD 1976 Michigan

Clark, Craig Leo, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1978 Iowa

Clark, Craig B., Clinical Adjunct Professor, Internal Medicine, 2001 (2012); BS 1991 Iowa State; DO 1995 Des Moines- Col of Osteopa

Clark, Dewey Kealakai, Clinical Assistant Professor, Pediatrics, 2007 (2007); MD 2000 Iowa

Clark, Elizabeth Lee, Adjunct Assistant Professor, English, 2001 (2001); BA 1986 Carroll; MA 1993 Iowa; PHD 2001 Iowa

Clark, Emily, Lecturer, English as Second Language, 2011 (2011); MA 2010 Georgia State

Clark, Eve D., Clinical Assistant Professor, Radiology, 2008 (2008); MD 2002 Iowa

Clark, Jason K., Assistant Professor, Psychology, 2009 (2009); BA 2000 Purdue; MS 2005 Purdue; PHD 2007 Purdue

Clark, Lee Anna, Emeritus Professor, Psychology, 1993 (1993); BA 1972 Cornell; MA 1977 Cornell; PHD 1982 Minnesota

Clark, Mary Kathleen, Professor, IA Consortium Substance Abuse/Nursing, 1982 (2007); BSN 1973 Michigan; MN 1979 Washington; PHD 1990 Iowa

Clark, Robert L., Clinical Adjunct Associate Professor, Surgery, 2012 (2012); MD 1985 Arkansas Medical

Clark, Ruth Ann, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1992 Iowa

Clark, Sarah Elizabeth, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); DDS 2003 Iowa

Clark, Shaunda Louise, Adjunct Instructor, Preventive Community Dentistry, 1998 (1998); BS 1997 Iowa

Clark, Steven Heyen, Clinical Associate Professor, Periodontics, 1991 (2009); BS 1977 Illinois; DDS 1983 Illinois

Clark, Tara Ann Noard, Adjunct Instructor, Social Work, 2007 (2007); BA 1997 Iowa; MSW 1998 Washington; MBA 2005 University of Iowa

Clark, William David, Clinical Associate Professor, Family Medicine, 1999 (1999); BS 1973 Iowa State University; MD 1977 Iowa

Clarke, Mary Frances, Adjunct Assistant Professor, Nursing, 1996 (2007); BSN 1982 Mount Mercy College; MA 1993 Iowa; PHD 2006 Iowa

Clarke, William Radue, Professor, Biostatistics, 1964 (1986); BA 1964 Oregon; MS 1967 Iowa; PHD 1975 Iowa

Clary, Amanda E., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2009 Iowa

Clausen, Leah Ann, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARMD 2003 Iowa

Clayton, Christopher Edmund, Adjunct Assistant Professor, Pharmacy, 2005 (2005); AS 1995 North Iowa Area Community; PHARMD 2000 Iowa

Clegg, Steven, Professor, Microbiology, 1980 (1992); BSC 1975 Dundee - Scotland; PHD 1978 Dundee-Scotland

Clement, Colleen Marie, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2000 Iowa

Clemson, Lance, Adjunct Instructor, Social Work, 1997 (1997); MS 1986 Columbia

Cleveland, Mark G., Clinical Adjunct Assistant Professor, Dermatology, 1999 (1999); BS 1984 Baylor; MD 1990 Texas Medical Galveston; PHD 1990 Texas Medical-Houston

Clifton, James A., Emeritus Professor, Internal Medicine, 1953 (1963); BA 1944 Vanderbilt; MD 1947 Vanderbilt

Cline, Robert N., Lecturer, Marketing, 1996 (1996); BA 1968 Iowa

Clinton, Patricia Kay, Clinical Professor, Nursing, 1984 (2002); BSN 1976 Iowa; MA 1984 Iowa; PHD 1995 Iowa

Clougherty, Leo P., Adjunct Lecturer, University College, 2011 (2011); BS 1981 Wisconsin-Whitewater; AMLS 1982 Wisconsin-Milwaukee

Clow, Toni J., Emeritus Associate Professor, Nursing, 1976 (1981); BSN 1966 Iowa; MA 1975 Iowa

Cloyd, Brett S., Adjunct Lecturer, University College, 2011 (2011); BA 1993 St. Mary's of Maryland; AMLS 1998 Iowa

Clubb, Merrel D., Associate Professor, Theatre Arts, 1999 (1999); BA 1976 Amherst College; MFA 1982 Yale; DFA 1991 Yale

Cobb, Amy Marie, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARMD 2002 Iowa

Cobb, Deborah Scheckel, Associate Professor, Operative Dentistry, 1986 (2000); BS 1976 Northern Arizona; DDS 1982 Iowa; MS 1995 Iowa

Cobb, Howard Lee, Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 2000 Iowa; PHARMD 2005 Iowa

Cobb, Stuart Stanley, Adjunct Assistant Professor, Endodontics, 1988 (1988); DDS 1982 Iowa

Coblin, Weldon S., Emeritus Professor, Asian Slavic Languages Literature, 1973 (1985); BA 1967 Washington; PHD 1972 Washington

Cochran, Bridgette Fay, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARMD 2005 Iowa

Cochran, Heather M., Clinical Adjunct Assistant Professor, Psych Quant Foundations, 2009 (2009); BS 2000 Aquinas; MA 2003 Central Michigan; PHD 2006 Central Michigan

Cochran, Sam V. Iii, Clinical Professor, Psych Quant Foundations, 1994 (2001); BA 1972 Chicago; MED 1975 Missouri; PHD 1983 Missouri

Coelho, Benjamin Antonio, Professor, Music, 1998 (2010); BA 1984 State Univ of NY - Purchase; MA 1986 Manhattan School of Music

Coffey, Christopher S., Professor, Biostatistics, 2009 (2009); BS 1992 Tennessee; MS 1996 Chapel Hill; PHD 1999 Chapel Hill

Coffman, Don D., Emeritus Professor, Teaching and Learning/Music, 1987 (2002); BME 1978 Kansas; MMED 1984 Wichita State; PHD 1987 Kansas

Coffman, Robert E., Emeritus Professor, Chemistry, 1967 (1979); BS 1953 Illinois; MS 1955 UC Berkeley; PHD 1964 Minnesota

Coggins Mosher, Sarah Lucinda, Lecturer, Rhetoric, 2001 (2002); PHD 2001 Iowa

Cohen, Jordan L., Professor, Pharmacy, 1999 (1999); BS 1965 Wisconsin; PHD 1969 Wisconsin; MS 1997 Wisconsin

Cohen, Mary L., Assistant Professor, Teaching and Learning/Music, 2007 (2007); BME 1992 Kansas; MME 2000 Kansas; PHD 2007 Kansas

Cohen, Matthew Allen, Adjunct Assistant Professor, Communication Studies, 2011 (2011); MA 2004 Kansas; PHD 2011 Iowa

Cohen, Michael B., Professor, Urology/Epidemiology/Pathology, 1990 (1996); BA 1977 Havard; MD 1982 Albany Medical

Cohen, Ronald M., Associate Professor, Art Art History, 1991 (1991); BFA 1969 Philadelphia; MFA 1973 Queens

Cohenour, Michelle Marie, Adjunct Lecturer, College Transition/University College, 2008 (2008); BS 2000 Eastern Illinois; MS 2003 Western Illinois

Colaizy, Tarah T., Assistant Professor, Pediatrics, 2004 (2004); MD 1988 Wisconsin; BS 1998 Wisconsin

Colbert, Amy Elizabeth, Associate Professor, Management Organizations, 2007 (2010); BS 1995 Culver-Stockton; MA 1999 St Louis; PHD 2004 Iowa

Colbert, Michael William, Lecturer, Management Sciences, 2007 (2007); BS 1994 Culver-Stockton

Cole, Catherine A., Professor, Marketing, 1984 (2004); BA 1971 Beloit; MBA 1976 Wisconsin; PHD 1983 Wisconsin

Cole, Kelly J., Associate Professor, Health and Human Physiology/Physical Therapy, 1987 (1993); BS 1977 Wisconsin-Madison; MS 1981 Wisconsin-Madison; PHD 1984 Wisconsin-Madison

Cole, Renee Susan, Associate Professor, Chemistry, 2011 (2011); BA 1992 Hendrix, AR; MS 1995 Oklahoma; PHD 1998 Oklahoma

Colgan, John David, Associate Professor, Internal Medicine/Anatomy Cell Biology, 2004 (2012); MA 1989 Columbia; MPHIL 1991 Columbia; PHD 1994 Columbia

Collaguazo, Dana Marie, Clinical Assistant Professor, Emergency Medicine, 2003 (2003); BS 1996 Iowa; MD 2000 Iowa

Collins, Angela Sue, Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); MD 1990 South Dakota

Collins, Daniel W., Professor, Accounting, 1977 (1981); BBA 1968 Iowa; PHD 1973 Iowa

Collins, David E., Lecturer, Marketing, 1997 (2000); BS 1974 Iowa

Collins, Paul J., Emeritus Associate Professor, Periodontics, 1969 (1982); DDS 1966 Iowa; MS 1973 Iowa

Collins, Steve M., Emeritus Professor, Electrical-Computer Engineering, 1976 (1987); BS 1971 Illinois-Chicago; MS 1974 Illinois-Chicago; PHD 1977 Illinois-Chicago

Collins, Thomas, Clinical Associate Professor, Surgery, 2007 (2012); MD 2000 Texas

Colville, Jennifer, Adjunct Assistant Professor, English, 2011 (2011); BA 1994 Whittier; MFA 1998 Syracuse; PHD 2008 Utah

Colvin, Carolyn, Associate Professor, Teaching and Learning, 1991 (1997); BA 1971 Doane; MED 1981 Nebraska-Lincoln; PHD 1987 Nebraska-Lincoln

Comellas, Alejandro, Assistant Professor, Internal Medicine, 2008 (2008); MD 1996 Venezuela

Comeron, Josep M., Associate Professor, Biology, 2002 (2008); BS 1987 Barcelona; PHD 1997 Barcelona

Conklin, Scott, Associate Professor, Music, 2005 (2010); BM 1997 Cleveland Institute; MM 1999 Michigan; DMA 2002 Michigan

Conley, Virginia Mary, Clinical Associate Professor, Nursing, 2010 (2011); BS 1993 Excelsior; MN 1996 Wyoming; PHD 2001 South Florida

Connell, Susan Jane, Lecturer, Teaching and Learning, 2011 (2011); BS 1970 Missouri; MED 1992 Marycrest

Connerly, Charles, Professor, Urban Regional Planning/Public Policy Center, 2008 (2008); BA 1968 Grinnell College; MUP 1976 Michigan; PHD 1980 Michigan

Connolly, Connie Jo, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1992 Iowa

Connolly, Kyle James, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); DDS 2005 Iowa

Connor, Richard John, Adjunct Instructor, Social Work, 2005 (2005); BA 1980 Quincy College; MSW 1990 Iowa

Conrey, Michael Arthur, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2004 Iowa

Constantine, Elizabeth A., Adjunct Assistant Professor, International Programs/College Transition, 1998 (2003); BA 1980 Univ Wisconsin-Madison; MA 1989 Monterey Inst Internat'l Studi; PHD 2001 Indiana

Constantinescu, George, Associate Professor, Civil-Environmental Engineering, 2004 (2009); MS 1992 Bucharets; PHD 1997 Iowa

Contrada, Deborah, Associate Professor, French Italian, 1986 (1996); AB 1972 Mount Holyoke; AM 1973 Middlebury; PHD 1985 Harvard

Conway, Maureen Therese, Adjunct Assistant Professor, Marketing, 2007 (2007); BA 1971 Marycrest; MFA 1978 Georgia; PHD 2000 Illinois

Conway, Thomas W., Emeritus Professor, Biochemistry, 1964 (1973); BS 1953 St Thomas; MA 1955 Texas; PHD 1962 Texas

Conybeare, John A., Professor, Political Science, 1987 (1988); BA 1971 Australian National; MA 1974 Harvard; PHD 1976 Harvard

Coohey, Carol Ann, Professor, Social Work, 1996 (2010); BA 1984 Northern Iowa; MSW 1985 Michigan; PHD 1993 Chicago

Cook, Brian L., Professor, Psychiatry, 1986 (2001); BA 1976 Grinnell; DO 1979 Col of Osteopathic Med Surge; MS 1984 Iowa

Cook, Elizabeth Lorraine, Clinical Assistant Professor, Obstetrics Gynecology, 2010 (2010); BSN 2007 Excelsior; MSN 2009 Frontier Midwifery

Cook, Jennifer, Clinical Adjunct Assistant Professor, Pediatrics, 1999 (1999); MD 1985 Iowa

Cook, Robert T., Emeritus Professor, Pathology, 1977 (1996); AB 1958 Kansas; MD 1962 Kansas; PHD 1967 Kansas

Cook, Robert C., Assistant Professor, Music, 2003 (2003); BM 1987 Northwestern; MA 1995 Chicago; PHD 2001 Chicago

Cook, Susan Wagner, Assistant Professor, Psychology, 2008 (2008); BS 2000 Chicago; PHD 2006 Chicago

Cook, Thomas Michael, Professor, International Programs/Physical Therapy/Occupational Environmental Health, 1981 (1998); BA 1968 Thomas More-Kentucky; MS 1973 Duke; MS 1980 Drexel; PHD 1987 Iowa

Cooley, Lisa N., Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 2002 Iowa

Cooper, Christopher Scott, Professor, Urology/Pediatrics, 1999 (2008); BA 1987 Iowa; MD 1991 Iowa

Cooper, Reginald R., Emeritus Professor, Orthopaedics and Rehabilitation, 1962 (1971); BA 1952 West Virginia; BS 1953 West Virginia; MD 1955 Med College of Virginia; MS 1960 Iowa

Cooper, Steven H., Adjunct Assistant Professor, Periodontics/Family Dentistry, 1970 (1973); DDS 1966 Iowa; MS 1970 Iowa

Cooper-Brown, Linda Jo, Clinical Associate Professor, Pediatrics, 2000 (2011); BA 1984 Miami; EDS 1988 Iowa; PHD 1991 Iowa

Coots, Bradley Kevin, Clinical Assistant Professor, Surgery/Pediatrics, 2011 (2011); MD 2001 Southern Illinois

Corbett, Kyra Jean, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARM 2004 Iowa

Cordts, Marcia L., Lecturer, Microbiology, 2001 (2010); BA 1982 Stephens; PHD 1988 Cornell

Coretsopoulos, Chris, Lecturer, Chemical Biochemical Engineering, 1992 (2012); BS 1981 Massachusetts; PHD 1989 Illinois

Corkery, Brian James, Adjunct Lecturer, College Transition, 2002 (2002); BA 1983 Iowa; MS 1988 Iowa State; PHD 1996 Utah; MPA 1996 Utah

Corkery, Julie M., Adjunct Assistant Professor, Psych Quant Foundations, 2002 (2002); BA 1983 Mount Mercy; EDS 1987 Iowa State; PHD 1991 Iowa State

Corlette, Kristina R., Adjunct Assistant Professor, Nursing, 2004 (2004); BSN Iowa; MA 1988 South Florida; JD 2000 Iowa

Cornell, Robert A., Associate Professor, Anatomy Cell Biology, 2001 (2007); BS 1987 Stanford; PHD 1995 Washington

Cornell, Steven Hajos, Emeritus Professor, Radiology, 1963 (1971);

Correia, Amy E., Adjunct Instructor, Social Work, 2006 (2006); MSW 1998 Iowa

Correia, Monica Cruz De Gusmao, Associate Professor, Art Art History, 2003 (2010); AB 1991 Uni of Rio de Janeiro; MA 1999 Iowa; MFA 2000 Iowa

Coryell, William H., Professor, Psychiatry, 1977 (1986); BS 1970 Georgia; MD 1973 Medical College of Georgia

Cossman, George W., Emeritus Associate Professor, Teaching and Learning, 1966 (1970); AB 1952 Shimer; BS 1954 Illinois; MED 1955 Illinois; PHD 1967 Iowa

Cotarlan, Vlad, Clinical Assistant Professor, Internal Medicine, 2012 (2012);

Cotterman, Billie Jay, Adjunct Instructor, Classics, 2012 (2012); BA 2003 Florida State University; MA 2006 University of Florida

Coulter, Joe D., Professor, Community Behavioral Health/Anatomy Cell Biology/Community Programs, 1985 (1985); BA 1966 Oklahoma; PHD 1971 Oklahoma

Couser, Gregory Patrick, Adjunct Assistant Professor, Occupational Environmental Health, 2004 (2007); BSE 1992 Iowa; MD 1997 Iowa; MPH 2002 Iowa

Covaci, Jessica Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011);

Covert, Christopher M., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); DO 1984 Osteopathic Med Hlth

Covington, Cary, Associate Professor, Political Science/University College, 1982 (1988); BA 1973 Whittier; MA 1975 Illinois-Urbana; PHD 1981 Illinois-Urbana

Cowdery Jr., John S., Emeritus Professor, Internal Medicine, 1983 (1994); BA 1971 Duke; MS 1974 Emory; MD 1978 Emory

Cowen, Howard, Clinical Professor, Preventive Community Dentistry, 1982 (2009); BA 1972 Colorado; DDS 1976 Iowa; MS 1995 Iowa

Cowles, Mary Kathryn, Associate Professor, Statistics Actuarial Science/Biostatistics, 1997 (2002); BA 1971 Carleton college; MM 1972 Northwestern; MS 1990 Minnesota-Minneapolis; PHD 1994 Minnesota-Minneapolis

Cox, Charles D., Emeritus Professor, Microbiology, 1974 (1988); BS 1967 William and Mary; PHD 1971 Georgia

Cox, Chelsea Faye, Adjunct Lecturer, Division of Interdisciplinary Program, 2012 (2012);

Cox, Jeffrey L., Professor, History, 1977 (1988); BA 1970 Rice; AM 1971 Harvard; PHD 1978 Harvard

Cox, Lois K., Clinical Professor, Law-Faculty, 1991 (1999); BA 1971 Rice; MA 1973 Tufts; JD 1978 Boston

Cox, Paul Russell, Adjunct Instructor, German, 2005 (2005); BA 1993 Missouri - Columbia; MA 1995 Missouri - Columbia

Cox, Ruth A., Adjunct Assistant Professor, Nursing, 1985 (1985); PHD 1984 Iowa

Crabb, Larry, Emeritus Associate Professor, Family Dentistry, 1977 (1979);

Crabb, Thomas G., Adjunct Assistant Professor, Pharmacy, 2006 (2006); BS 1973 Morningside; BSPH 1977 Creighton; JD 1991 Drake

Crabtree, Kirk, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 2001 Iowa

Craft-Rosenberg, Martha Jane, Emeritus Professor, Nursing, 1980 (1997); BSN 1970 Iowa; MA 1978 Iowa; PHD 1985 Iowa

Craig, Steven Robert, Clinical Adjunct Professor, Internal Medicine, 1987 (2005); MD 1979 Iowa

Craig, Steven Michael, Adjunct Assistant Professor, Internal Medicine/Medicine Administration, 2010 (2010); MD 2004 Iowa

Crain, Carin N., Adjunct Lecturer, Law-Faculty, 2008 (2008); BA 1983 Scripps College; JD 1991 California, Davis

Cram, Albert Edwin, Emeritus Professor, Surgery, 1975 (1991); BS 1965 Nebraska; MD 1969 Nebraska

Cram, Ellen, Clinical Associate Professor, Nursing, 2000 (2005); BSN 1980 Coe; MA 1989 Iowa; PHD 2002 University of Iowa

Cram, Peter M., Associate Professor, Internal Medicine, 2002 (2008); BA 1991 Vermont; MD 1997 Wake Forest

Cramer, Barton Emmet, Adjunct Assistant Professor, Urban Regional Planning/Economics, 2007 (2009); BS 1963 MA Inst of Technology; MS 1966 MA Inst of Technology; PHD 2007 Iowa

Cramer, Bradley Douglas, Assistant Professor, Geoscience, 2012 (2012);

Cramer, Elizabeth Suzanne, Clinical Assistant Professor, Family Medicine, 2012 (2012);

Cranberg, Gilbert, Emeritus Professor, Journalism Mass Communication, 1982 (1982); BA 1949 Syracuse; MA 1956 Drake

Cranston, Jane Barnes, Clinical Instructor, Teaching and Learning, 2005 (2009); MA 1980 Western Illinois; MA 1993 Iowa

Crawford, Eean Robert, Assistant Professor, Management Organizations, 2011 (2011); MAC 2006 Brigham Young; BS 2006 Brigham Young; PHD 2011 Florida

Crawford, Lance Wayne, Adjunct Assistant Professor, Endodontics, 2003 (2003); BS 1971 Iowa; BDS 1975 Loyola-Chicago; CER 1981 Loyola-Chicago

Crawford, Robert G., Adjunct Associate Professor, Economics, 2009 (2009); MS 1971 Carnegie Mellon; PHD 1976 Carnegie Mellon

Creedon, Pamela J., Emeritus Professor, Journalism Mass Communication, 2002 (2002); BA 1969 Mount Union; MA 1970 Oregon

Creekmur, Corey, Associate Professor, Cinema Comparative Literature/International Programs/English, 1997 (2000); BA 1979 Florida; MA 1981 Chicago; PHD 1991 Illinois-Urbana Champaign

Cremer, James F., Professor, Computer Science, 1992 (2003); BS 1982 Cornell University; MS 1988 Cornell University; PHD 1989 Cornell University

Cremers, Bernard J., Adjunct Instructor, Pharmacy, 2000 (2000); BS 1964 Iowa

Cretzmeyer, Margaret T., Adjunct Assistant Professor, Social Work, 2006 (2006); PHD 2006 Iowa

Criswell, Thomas J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2012); PHARM 2010 Iowa

Crocco, Margaret, Professor, Teaching and Learning, 2011 (2011); AB 1972 Georgetown; MA 1973 Pennsylvania; PHD 1976 Pennsylvania

Crocco, Robert Joseph, Adjunct Lecturer, Civil-Environmental Engineering, 2011 (2011); BSC 1970 Georgetown; MES 1976 Drexel

Crocker, Erin M., Clinical Assistant Professor, Psychiatry, 2011 (2011); MD 2007 South Carolina

Crocker, Stephen Russell, Adjunct Lecturer, Marketing, 2012 (2012);

Croco, Matthew Alexander Terrance, Adjunct Assistant Professor, Orthodontics, 2010 (2010); BA 1997 Grinnell; DDS 2002 Iowa; MS 2005 Iowa

Croft, Jerry, Adjunct Professor, International Programs/Division of Interdisciplinary Program, 2001 (2001); PHD 1971 Tulsa

Croft, Laurie J., Adjunct Associate Professor, Teaching and Learning, 1998 (2007); BA 1978 Oklahoma State; MA 1984 Oklahoma; PHD 1994 Tulsa

Cromwell, John, Clinical Associate Professor, Surgery, 2009 (2009); BS 1989 Lincoln, Nebraska; MD 1994 Minnesota

Cross, Lowell M., Emeritus Professor, Music, 1972 (1981); BA 1961 Texas Tech; BA 1963 Texas Tech; MA 1968 Toronto-Canada

Crossett, Clay, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); DMD 1983 Louisville; BS 1983 Centre College; DMD 1987 Louisville

Crossett, Judith H., Clinical Professor, Psychiatry/Nursing, 1998 (2008); BA 1968 Grinnell; MA 1970 Toronto; MD 1984 Iowa; MS 1988 Iowa

Crowe, Raymond R., Emeritus Professor, Psychiatry, 1972 (1981); BA 1963 Vanderbilt; MD 1966 Vanderbilt

Crowell, Carolyn M., Emeritus Assistant Professor, Nursing, 1968 (1969);

Crowell, Eric T., Adjunct Lecturer, Health Management Policy, 1995 (1995); MA 1982 Minnesota

Cruden, Robert W., Emeritus Professor, Biology, 1967 (1978); AB 1958 Hiram; MS 1960 Ohio State; PHD 1967 UC Berkeley

Cruikshank, Brenda M., Emeritus Associate Professor, Pediatrics, 1972 (1995); BA 1964 DePauw; MD 1967 North Carolina

Cryer, Jonathan D., Emeritus Professor, Statistics Actuarial Science, 1966 (2000); BA 1961 DePauw; PHD 1966 North Carolina

Cuddihy, Henri A., Emeritus Associate Professor, Internal Medicine, 2000 (2000); BA 1969 New York; MD 1977 Alabama

Cullen, Joseph John, Professor, Radiation Oncology/Surgery, 1993 (2005); BS 1981 Loras; MD 1986 Iowa

Cullen, Laura M., Clinical Adjunct Instructor, Nursing, 2000 (2000); BSN 1982 Iowa; MA 1990 Iowa

Cullinan, Daniel, Adjunct Assistant Professor, Pharmacy, 2002 (2002); BS 1995 Iowa; MS 1997 Iowa; PHARM 1999 Iowa

Culp, Kenneth Ray, Professor, Occupational Environmental Health/Nursing, 1985 (2007); BSN 1980 Iowa; MA 1985 Iowa; PHD 1992 Iowa

Cumings, Lauren Rachael, Adjunct Assistant Professor, Pharmacy Practice and Science, 2008 (2008); PHAR 2006 Drake

Cummings, James Michael, Clinical Adjunct Assistant Professor, Family Medicine, 2005 (2005); BA 1992 Central Pella, IA; MD 1996 Iowa

Cummings, Stephen Paul, Clinical Assistant Professor, Social Work, 2005 (2012); BA 1994 Iowa; MSW 2002 Iowa

Cummins, Phillip D., Emeritus Professor, Philosophy, 1963 (1974); BA 1957 Iowa; MA 1959 Iowa; PHD 1961 Iowa

Cunliffe, Paul William, Adjunct Assistant Professor, Dance, 2002 (2002);

Cunning, David, Associate Professor, Philosophy, 2003 (2007); BA 1993 California, @ Berkeley; MA 1996 California @ Irvine; PHD 2000 California @ Irvine

Cunningham-Ford, Marsha Ann, Associate Professor, Preventive Community Dentistry, 1979 (1985); BS 1976 Old Dominion; MS 1979 Old Dominion

Curley, Melissa Anne-Marie, Assistant Professor, Religion, 2009 (2009); BA 1997 McGill; MA 2004 McGill; PHD 2009 McGill

Curran, Daniel Joseph, Adjunct Lecturer, Management Organizations, 2012 (2012); BBA 1993 Cardinal Stritch; MBA 2008 UNI

Currie, Jay Dean, Clinical Professor, Pharmacy, 1984 (2005); BSPH 1980 Iowa; PHARM 1984 Iowa

Curry, Clifford R., Lecturer, Electrical-Computer Engineering, 2008 (2008); BSEE 1975 Illinois Urbana; MSEE 1977 Wichita State; PHD 1997 Washington Seattle

Curry, Raygena Ann, Adjunct Instructor, Social Work, 1997 (1997); BA 1977 Simpson College; MSW 1992 Iowa

Curry, Sue J., Professor, Health Management Policy, 2008 (2008); BA 1976 Massachusetts; MA 1979 New Hampshire; PHD 1981 New Hampshire

Curtis, Vanessa Ann, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2005 Wisconsin

Curtius, Anny Dominique, Associate Professor, International Programs/French Italian, 2002 (2007); BA

1984 Antilles-Guyane; MA 1992 Montreal; PHD 1997 Montreal

Curto, Ines Zigrino, Lecturer, Computer Science, 2000 (2001); PHD 2000 Iowa

Curto, Raul E., Professor, Mathematics, 1981 (1987); BS 1975 San Luis-Argentina; PHD 1978 State Univ of NY - Stony Brook; MA 1978 State Univ of NY - Stony Brook

Curto, Roxanna Nydia, Assistant Professor, Spanish Portuguese/French Italian, 2011 (2011); AB 2001 Harvard; MA 2003 Yale; PHD 2008 Yale

Curtu, Iulian, Adjunct Instructor, Mathematics, 2011 (2011); BSE 1993 Politehnica, Timisoara

Curtu, Rodica, Associate Professor, Mathematics, 2007 (2012); BS 1995 Transilvania U of Brasov, Roman; MA 1999 Pittsburgh; PHD 2003 Pittsburgh

Cwiertny, David Michael, Assistant Professor, Civil-Environmental Engineering, 2011 (2011); BS 2000 California; PHD 2005 Johns Hopkins

Cyphert, Stacey Todd, Adjunct Lecturer, Health Management Policy, 1990 (1990); MHA 1983 Ohio State; PHD 1990 Iowa

Czuprynski, Hiroko, Lecturer, Asian Slavic Languages Literature, 2012 (2012);

D'Agata, John, Associate Professor, English, 2005 (2007); BA 1995 Iowa; MFA 1998 Iowa

Davis, Rebecca, Clinical Assistant Professor, Internal Medicine, 2007 (2007); BS 1981 Indiana; MD 1987 Indiana

Davis, Roy C., Adjunct Assistant Professor, Pharmacy, 1997 (1997); BA 1979 Pittsburgh; BS 1987 Kansas; PHARM 1995 Duquesne

Davis, William Alan, Clinical Associate Professor, Obstetrics Gynecology, 2000 (2003); BA 1963 Wartburg; MD 1967 Illinois

Davis, Wilson L. Jr., Clinical Adjunct Instructor, Internal Medicine, 1990 (1990); MD 1978 Iowa

Davison, Alice L., Associate Professor, Linguistics, 1988 (1988); AB 1962 Bryn Mawr; MA 1969 Chicago; PHD 1973 Chicago

Daws, William R., Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1976 Iowa

Dawson, Deborah V., Professor, Pediatric Dentistry/Biostatistics, 2001 (2001); BA 1974 Montclair State; SCM 1976 Johns Hopkins; PHD 1981 North Carolina

Dawson, Jeffrey D., Professor, Biostatistics, 1991 (2009); BS 1987 Brigham Young; SCD 1991 Harvard

Dawson, Steven, Clinical Adjunct Assistant Professor, Pediatrics, 2003 (2003); BA 1980 Wheaton; BS 1982 Washington; MD 1986 American University/Caribbean

Day, Anthony Alan, Clinical Adjunct Associate Professor, Family Medicine, 2008 (2008); BS 1988 Iowa; MD 1992 Iowa

De Boef, Connie Lou, Clinical Assistant Professor, Nursing, 1993 (2002); BSN 1970 Iowa; MA 1991 Iowa

De Geest, Koen, Clinical Professor, Obstetrics Gynecology, 2003 (2003); BS 1973 Gent, Belgium; MD 1977 Gent, Belgium

De La Pena, George R., Associate Professor, Dance, 2004 (2005);

De Mali, Kris A., Assistant Professor, Biochemistry/Dermatology, 2006 (2006); PHD 1999 Colorado Health

De Matta, Renato E., Associate Professor, Management Sciences, 1990 (1997); BS 1977 Philippines; MA 1979 Philippines; PHD 1989 Pennsylvania

De Nardi, Silvia, Adjunct Lecturer, French Italian, 2008 (2008); BA 1992 Degli Studi di Padova, Italy

De Puma, Richard Daniel, Emeritus Professor, Art Art History, 1968 (1986); BA 1964 Swarthmore; MA 1967 Bryn Mawr; PHD 1969 Bryn Mawr

De Saint Victor, Carol, Emeritus Professor, English, 1966 (1984); BA 1956 Indiana; PHD 1966 Indiana

Dean, Asabi Afi, Lecturer, Rehabilitation and Counselor Education, 2011 (2011); BA 1998 Chicago State; MA 2006 Chicago State

Dean, Jane, Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); BS 1978 Iowa

Dean, Thomas Keith, Adjunct Assistant Professor, Health and Human Physiology, 2000 (2000); BA 1982 Northern Illinois; BM 1982 Northern Illinois; MA 1984 Northern Illinois; PHD 1991 Iowa

Deboer, Angela, Lecturer, English as Second Language, 2010 (2010); MA 2001 Minnesota

Decker, Scott Matthew, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2008 Iowa

Decook, Rhonda R., Lecturer, Statistics Actuarial Science, 2006 (2012); BS 1993 Iowa State; MS 2002 Iowa State; PHD 2006 Iowa State

Dee, Fred Randolph, Emeritus Professor, Pathology, 1974 (1983); BA 1963 Iowa; MD 1967 Iowa

Degowin, Richard L., Emeritus Professor, Internal Medicine, 1968 (1973); MD 1959 Chicago

Dehn, Richard William, Emeritus Professor, Physician Assistant, 1994 (2000); BA 1973 Iowa; BS 1976 Iowa; MPA 1991 Golden Gate

Dehring, Deborah J., Associate Professor, Anesthesia, 1993 (1993); BS 1974 Wisconsin; MD 1978 Wisconsin

Deignan, Christine Chadek, Adjunct Assistant Professor, Occupational Environmental Health, 2004 (2004); BA 1970 Cornell-Iowa; MD 1977 California

Dejong, Douglas V., Professor, Accounting, 1980 (1993); BBA 1970 Iowa; MBA 1971 Iowa; PHD 1980 Michigan

Delaney, Connie J., Emeritus Professor, Library Information Science, 1986 (2002); BSN 1975 Viterbo; MA 1978 Iowa; PHD 1986 Iowa

Delaty, Simone, Emeritus Professor, French Italian, 1968 (1986); MA 1962 Grenoble-France; PHD 1970 Bordeaux-France

Deligiorgis, Stavros, Emeritus Professor, Cinema Comparative Literature/English, 1965 (1973);

Dell, Suzanne, Adjunct Instructor, Social Work, 1998 (1998); MSW 1995 Illinois

Delsandro, Elizabeth M., Clinical Assistant Professor, Communication Sciences and Disorders, 2010 (2010); BS 1989 W Virginia U; MS 1991 W Virginia U

Demello, George, Emeritus Professor, Spanish Portuguese, 1967 (1995); BA 1954 Massachusetts; MA 1959 Colorado; PHD 1968 Colorado

Demetroulis, Elaine Marie, Clinical Associate Professor, Internal Medicine, 2004 (2007); BS 1992 Wisconsin-Madison; MD 1997 Iowa

Demir, Ibrahim, Adjunct Assistant Professor, Civil-Environmental Engineering, 2012 (2012); PHD 2010 University of Georgia

Den Adel, Kevin John, Lecturer, Accounting, 2009 (2009); PHD 1999 Iowa

Denburg, Jeffrey Lewis, Professor, Biology, 1977 (1990); BA 1965 Amherst; PHD 1970 Johns Hopkins

Denburg, Natalie Lisa, Assistant Professor, Neurology, 1999 (1999); BA 1991 New York-Binghamtpm; MA 1994 Michigan State; PHD 1997 Michigan State

Denehy, Gerald, Professor, Operative Dentistry, 1968 (1977); DDS 1968 Loma Linda; MS 1970 Iowa

Denehy, Janice Ann, Emeritus Associate Professor, Nursing, 1968 (1998); BS 1966 Loma Linda; MA 1971 Iowa; PHD 1978 Iowa

Deninger, Elizabeth Ellen, Lecturer, Teaching and Learning, 2008 (2008); BA 1990 Iowa; MA 1995 Iowa

Dennis, Leslie, Adjunct Associate Professor, Epidemiology, 1999 (2004); BA 1984 Loretto Heights College; MS 1988 Colorado; PHD 1993 Washington

Dennis-Smithart, R. K., Clinical Adjunct Assistant Professor, Pediatrics, 1988 (1988); MD 1982 Iowa

Denniston, Rhawn Flavell, Adjunct Assistant Professor, Geoscience, 2001 (2001); PHD 2000 Iowa

Denry, Isabelle, Professor, Dows Institute-Research/Prosthodontics/Biomedical Engineering, 2011 (2011); DDS 1981 Paris VII; MS 1986 Paris VII; PHD 1989 Paris VII

Densen, Peter, Professor, Internal Medicine, 1983 (1991); BA 1966 Colby; MD 1970 Johns Hopkins

Deorah, Sundeep, Assistant Professor, Urology, 2012 (2012); MD 2003 All India Institute of Med Sci

Depew, David, Emeritus Professor, Communication Studies/Interdisciplinary Programs/Graduate College-Operations, 1990 (1995); BA 1965 St Marys-Calif; MA 1972 Calif-San Diego; PHD 1978 Calif-San Diego

Depew, Mary J., Associate Professor, Classics/International Programs, 1990 (1996); BA 1976 California State; BA 1979 Calif-Irvine; MA 1985 California-Los Angeles; PHD 1989 Calif-Los Angeles

Deppe, Wendy L., Adjunct Instructor, Pharmacy, 2006 (2006); BS 1988 Moorhead State; BSPH 1995 Drake

Deprosse, Charles, Emeritus Associate Professor, Obstetrics Gynecology, 1972 (1978); AB 1946 Cornell; MD 1950 Cornell

Deshpande, Milind S., Adjunct Assistant Professor, Chemical Biochemical Engineering, 2011 (2011); BS 1984 Poona,India; MSC 1986 Poona,India; PHD 1992 Poona,India

Desjardin, Lucy E., Adjunct Assistant Professor, Epidemiology, 2003 (2003); BS 1981 Florida; DPHIL 1993 Florida

Dettmer, Helena R., Professor, Classics, 1976 (1997); BA 1972 Indiana; PHD 1976 Michigan

Dettmer, Timothy, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2007 (2007); BA 1996 Wartburg College; MA 2000 Jewish Hosp. Cincinnati OH; MD 2000 Iowa

Devaney, Tom, Adjunct Instructor, Pharmacy Practice and Science, 2003 (2003); BSPH 1985 Iowa

Devine, Arthur William, Clinical Adjunct Assistant Professor, Urology, 1999 (1999); MD 1977 Iowa

Devocht, James William, Adjunct Assistant Professor, Biomedical Engineering, 1997 (1998); PHD 1996 Iowa

Devor, Eric, Assistant Professor, Obstetrics Gynecology, 2010 (2010); BS 1972 New Mexico; MS 1977 New Mexico; PHD 1979 New Mexico

Dewdney, Donner, Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); MD 1963 Western Ontario

Dexter, Franklin, Professor, Anesthesia/Health Management Policy, 1994 (2005); SCB 1985 Brown; MS 1988 Case Western Reserve; PHD 1989 Case Western Reserve; MD 1990 Case Western Reserve

Dey, Mishtu, Assistant Professor, Chemistry, 2011 (2011); BS 1994 Utkal, India; MS 1996 Utkal, India; PHD 2004 Indian, Tech Bombay

Deyak, David Joseph, Professor, Military Science, 2009 (2009); BA 1989 Gustavus Adolphus, MN; MA 2001 Troy

Deyoung, Barry, Clinical Professor, Orthopaedics and Rehabilitation/Pathology, 2000 (2006); BS 1982 Iowa; MS 1986 Maryland; MD 1991 Georgetown

Dhaliwal, Ravneet S., Clinical Assistant Professor, Internal Medicine/Psychiatry, 2011 (2011); MBBS 1994 Punjabi,India

Di Paola, Jorge Andres, Clinical Adjunct Associate Professor, Pediatrics, 2000 (2007); MD 1989 Buenos Aires

Diaz-Arnold, Ana M., Professor, Family Dentistry, 1987 (2002); BS 1979 Indiana; DDS 1983 Indiana; MS 1987 Iowa

Diaz-Duque, Ozzie F., Lecturer, Spanish Portuguese, 1980 (1999); BA 1973 Queens College - NY; MA 1975 Iowa; PHD 1980 Iowa

Dibona, Gerald F., Emeritus Professor, Physiology, 1969 (1975); BA 1960 Harvard; MD 1964 Tufts

Dicarlo, Monique G., Adjunct Instructor, Social Work, 1999 (1999); BA 1986 Augustana; MSW 1994 Michigan

Dicharry, Bradley Clark, Assistant Professor, Art Art History, 2008 (2005); BFA 2001 Tennessee Chatta; MA 2003 Iowa; MFA 2005 Iowa

Dick, David Wayne, Clinical Assistant Professor, Radiology, 2011 (2011); BS 1999 Western Washington; MS 2003 Madison; PHD 2004 Madison

Dickerson, Nikolas, Lecturer, American Studies, 2012 (2012); BA 2005 Ithica College; MA 2007 University of Maryland

Dickson, Eric W., Adjunct Professor, Emergency Medicine, 2003 (2007); BA 1991 Merrimack; MD 1995 Massachusetts

Dickson, James Sparrow, Adjunct Professor, Epidemiology, 2009 (2009); BA 1977 Clemson; MA 1980 Georgia; PHD 1984 Nebraska-Lincoln

Diehl, Paul B., Emeritus Associate Professor, English, 1975 (1981); BA 1966 Texas; MA 1970 Texas; PHD 1976 Texas

Diekema, Daniel James, Clinical Professor, Internal Medicine/Pathology, 1999 (2008); BA 1985 Calvin; MD 1989 Vanderbilt; MS 1995 Iowa

Dietz, Cory Lynn, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); MD 1990 Iowa

Dietz, Frederick R., Professor, Orthopaedics and Rehabilitation/Pediatrics, 1984 (1993); BA 1973 Harvard; MD 1977 Columbia

Diffley, Kathleen, Associate Professor, English, 1983 (1991); BA 1972 Bard; MED 1974 Harvard; MA 1977 Columbia; MPHIL 1980 Columbia; PHD 1983 Columbia

Dilg, John, Professor, Art Art History, 1975 (1987); BFA 1969 Rhode Island School of Design

Dilley, Paul C., Assistant Professor, Religion/Classics, 2011 (2011); MA 2002 Yale; MPHIL 2005 Yale; PHD 2008 Yale

Dillon, Dena M. B., Adjunct Associate Professor, Pharmacy Practice and Science, 1998 (2003); PHARM 1995 Michigan

Dillon, Joseph S., Associate Professor, Internal Medicine, 1996 (2003); MBCH 1981 BAO University College-Dublin

Dimke, Kristi Leigh, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2012); PHARM 2011 Iowa

Dindo, Lilian Nazar, Assistant Professor, Psychology/ Psychiatry, 2009 (2009); BA 1998 Beirut; MA 2004 Iowa; PHD 2008 Iowa

Dion, Douglas, Associate Professor, Political Science, 1999 (1999); BA 1984 North Carolina; MS 1986 Minnesota; PHD 1991 Michigan

Dion, Mark William, Clinical Assistant Professor, Radiation Oncology, 2000 (2000); BA 1973 Western State-Colorado; MD 1977 Colorado

Dirksen, Rachael Rickertsen, Clinical Assistant Professor, Internal Medicine, 2012 (2012);

Disselhorst, Delbert, Emeritus Professor, Music, 1970 (1980); BM 1962 Illinois; MMUS 1965 Illinois; DMA 1970 Michigan

Dittmer, Mark Allen, Clinical Assistant Professor, Family Dentistry, 1989 (1998); BS 1975 Iowa; DDS 1986 Iowa

Dittrich, Howard, Adjunct Professor, Internal Medicine, 2012 (2012);

Divekar, Abhay Ashok, Clinical Associate Professor, Pediatrics, 2007 (2007); MD 1995 Lokmanya Tilak Municipal

Dixon, Bradley S., Associate Professor, Internal Medicine, 1990 (1994); BS 1975 Arizona State; MD 1979 Southern California

Djalali, Chaden, Professor, Physics Astronomy, 2012 (2012);

Dobrian, Walter, Emeritus Associate Professor, Spanish Portuguese, 1962 (1965); BA 1952 Wisconsin; PHD 1960 Wisconsin

Dobyns, Richard Craig, Clinical Professor, Family Medicine/International Programs, 1988 (2004); BA 1978 St. Olaf; MD 1983 Minnesota

Dochterman, Joanne Marie, Emeritus Professor, Nursing, 1980 (1987); BSN 1967 Simmons; MSN 1972 Illinois; PHD 1981 Chicago

Dodds, Amber Lynne, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2006 Iowa

Dodge, Georgina, Adjunct Associate Professor, English, 2010 (2010); BA 1991 California, Irvine; MA 1993 California; PHD 1996 California

Dodge, Jaime Kent, Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);

Dodge, Rhonda Lynn, Clinical Adjunct Assistant Professor, Pediatrics, 2005 (2005); BA 1996 Simpson; MD 2001 Iowa

Dodson, Eric, Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); BS 1991 Northeast Missouri State; DO 2000 Kirksville/ Osteopathic Med

Doelle, Gregory Charles, Clinical Professor, Internal Medicine, 2000 (2003); BA 1973 St. Thomas; MD 1977 Minnesota

Doering, John Val, Professor, Family Dentistry, 1974 (1989); BA 1966 Regis; DDS 1970 Iowa; MA 1976 Iowa

Doern, Gary V., Emeritus Professor, Epidemiology/ Pathology, 1997 (1997); BS 1972 Northwestern; MS 1974 Medical College of Wisconsin; PHD 1977 Medical College of Wisconsin

Duvall, Kimberlee A., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Duys, David K., Associate Professor, Rehabilitation and Counselor Education, 2005 (2011); BS 1986 Northern Illinois; MS 1989 Northern Illinois; PHD 1998 Western Michigan

Dvorak, Glenda D., Adjunct Lecturer, Epidemiology, 2009 (2009); BS 1995 Iowa State; MS 1997 Iowa State; DVM 2001 Iowa State

Dvorak, Laine Douglas, Clinical Adjunct Assistant Professor, Family Medicine, 1991 (2002); MD 1978 Iowa

Dvorak, Luann, Lecturer, Rhetoric, 2011 (2012); PHD 2005 Iowa

Dworkin, Rebecca Lee, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Dwyer, David S., Clinical Adjunct Instructor, Ophthalmology Visual Science, 1992 (1992); MD 1979 Illinois

Dybevik, Heidi Jo, Lecturer, Finance, 2004 (2004); BA 1991 Northeast Missouri State; PHD 1997 Purdue

Dyck, Mary J., Adjunct Assistant Professor, Nursing, 2006 (2006); BSN 1974 Goshen; MSN 1982 Virginia; PHD 2004 Iowa

Dyer, Carolyn S., Emeritus Professor, Journalism Mass Communication, 1978 (1995); BA 1965 Beloit; MA 1973 Wisconsin; PHD 1978 Wisconsin

Dyke, Gregory Peter, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); BSPH 1983 Illinois

Dyken, Mark E., Professor, Neurology, 1990 (2010); BA 1979 Indiana; MD 1984 Indiana

Dykstra, Richard L., Emeritus Professor, Statistics Actuarial Science, 1981 (1982); BA 1965 Central; PHD 1968 Iowa

Easter, Lonnie Dewayne, Adjunct Assistant Professor, Family Dentistry, 2011 (2011); DDS 1991 Iowa

Eastman, Diane Lynn, Clinical Adjunct Instructor, Nursing, 1990 (1990); BSN 1973 Iowa; MA 1983 Iowa

Easton, Scott D., Adjunct Assistant Professor, Social Work, 2011 (2011); BA 1989 Harvard; MSW 2006 Iowa; DR 2011 Iowa

Ebach, Dawn Renae, Clinical Associate Professor, Pediatrics, 2005 (2011); BS 1994 Creighton, Omaha; MD 1998 Washington, St. Louis

Eberl, Daniel F., Professor, Biology, 1998 (2010); BS 1983 Alberta-Edmonton; MS 1987 Guelph, Canada; PHD 1991 Guelph, Canada

Eberle Fink, Katherine Ann, Professor, International Programs/Music, 1991 (2002); BME 1976 Baldwin-Wallace; MM 1978 Cincinnati; DMA 1986 Michigan

Eberlein, Michael, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MD 2003 Friedrich Alexander

Eckert, Michael S., Professor, Music, 1985 (2011); BA 1972 Antioch; MA 1975 Chicago; PHD 1977 Chicago

Eckert, Nicholas E., Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Eckert, Robert W., Emeritus Professor, Music, 1964 (1968); BA 1948 Midland; MA 1949 Wisconsin; MFA 1951 Iowa

Eckler, Petya, Assistant Professor, Journalism Mass Communication, 2010 (2010); BA 2001 Bulgari; MA 2005 Missouri; PHD 2010 Missouri

Ecklund, Dixie Jean, Clinical Adjunct Instructor, Nursing, 2004 (2011); BSN 1983 Mt. Mercy College; MBA 2001 Iowa; MSN 2001 Iowa

Eckstein, Barbara J., Professor, International Programs/English, 1990 (2006); BA 1973 Ohio Northern; MA 1975 Cincinnati; PHD 1980 Cincinnati

Edel, James Patrick, Adjunct Instructor, Division of Performing Arts, 2010 (2010); BA 2005 Iowa

Edelstein, Burton L., Adjunct Assistant Professor, Pediatric Dentistry, 1999 (1999); MPH 1977 Harvard

Edens, R. Erik, Clinical Professor, Pediatrics, 2000 (2012); BS 1987 Saint Ambrose; PHD 1993 Iowa; MD 1994 Iowa

Edlund, Mark B., Adjunct Assistant Professor, University College, 2010 (2010); BS 1987 Minnesota; MS 1992 Michigan; PHD 1998 Michigan

Edvalson, Sherri Ivy, Lecturer, Rehabilitation and Counselor Education, 2010 (2010); BA 1998 Eastern Oregon; MA 2005 Vermont

Edwards, Kathleen A., Adjunct Assistant Professor, Cinema Comparative Literature, 2004 (2004); BA 1979 Richmond, Virginia; MA 1985 Philadelphia College of Art

Edwards, Matthew Christopher, Adjunct Lecturer, University College, 2009 (2009); MED 2007 Georgia

Egesdal, Travis, Adjunct Instructor, Preventive Community Dentistry, 2005 (2005); BS 1994 Iowa State; DDS 2002 Iowa

EGge, Jason Alan, Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARM 2002 Iowa

EGge, Jessica Lea, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 1999 Iowa; MA 2001 Iowa; DAUD 2004 PA College of Optometry/Audiol

Ehly, Stewart W., Professor, Psych Quant Foundations, 1979 (1996); BA 1971 Massachusetts; PHD 1975 Texas-Austin

Ehrhardt, James C., Emeritus Professor, Radiology, 1970 (1981); BA 1964 Iowa; MA 1968 California-Berkeley; PHD 1970 California-Berkeley

Ehrstine, Glenn, Associate Professor, German/International Programs, 1994 (2001); BA 1985 Michigan; MA 1990 Texas-Austin; PHD 1995 Texas-Austin

Eichenberger Gilmore, Julie Mae, Adjunct Assistant Professor, Preventive Community Dentistry, 2004 (2004); BA 1981 Iowa; MS 1987 Iowa; PHD 2001 Iowa

Eichinger, Leanne Marie, Adjunct Lecturer, Rehabilitation and Counselor Education, 2000 (2000); BS 1976 Wisconsin @ Eau Claire; MED 1988 Long Island

Eichinger, William E., Professor, Civil-Environmental Engineering, 1997 (2002); BS 1976 West Point; MS 1985 Air Force Inst of Technology; PHD 1990 California-Davis

Eichmann, David A., Associate Professor, Computer Science/Library Information Science, 1986 (2000); BS 1978 Iowa; MS 1983 Iowa; PHD 1989 Iowa

Eid, Bassel, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Eilers, Lee D., Lecturer, Management Organizations, 2012 (2012);

Eilertson, Nicholas Jeffrey, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Ejnavarzala, Haribabu, Adjunct Professor, International Programs, 2006 (2006); PHD 1980 Indian Inst of Technology

Ekdale, Brian Robert, Assistant Professor, Journalism Mass Communication, 2011 (2011); BA 2000 Augustana; MA 2005 Northern Illinois; PHD 2011 Wisconsin

Eko, Lyombe S., Associate Professor, Journalism Mass Communication, 2003 (2006); BA 1980 Sioux Falls; MA 1982 Wheaton College; PHD 1997 Southern Illinois

El Abiad, Rami Ghassan, Clinical Assistant Professor, Internal Medicine, 2009 (2009); BS 1998 American UNIV - Beirut; MD 2002 American UNIV, Beirut

El-Hattab, Yasser, Clinical Assistant Professor, Anesthesia, 2002 (2002); MBCHB 1985 Alexandria; MSC 1990 Alexandria

El-Khoury, George Y., Professor, Radiology/Orthopaedics and Rehabilitation, 1975 (1984); BS 1965 American university of Beirut; MD 1969 American University of Beirut

El-Shanti, Hatem, Adjunct Associate Professor, Pediatrics, 2003 (2006); MBCH 1983 Cairo, Egypt

El-Sheikh, Ayman A., Clinical Assistant Professor, Pediatrics, 2009 (2009); MD 1989 Tanta University Egypt

Eland, Joann Marie, Associate Professor, Nursing, 1975 (1986); BSN 1970 Iowa; MA 1974 Iowa; PHD 1980 Iowa

Eland, Joyce Ellen Frank, Adjunct Instructor, Nursing, 1998 (1998); BSN 1971 Iowa

Elangovan, Satheesh, Assistant Professor, Periodontics, 2011 (2011); BDS 2002 Dr. MGR Medical; DSC 2007 Boston; DMS 2011 Harvard

Elardo, Richard, Emeritus Associate Professor, Teaching and Learning, 1978 (1978); BA 1965 Arizona State; MA 1969 Arizona State; PHD 1971 Arizona State

Elas, Diane Elaine, Clinical Adjunct Instructor, Nursing, 1985 (1985); BS 1981 Iowa State; BSN 1984 Iowa; MSN 2002 Iowa

Elcock, Adrian H., Professor, Biochemistry, 2000 (2012); BS 1989 East Anglia; PHD 1994 Oxford

Elias, Stella B., Associate Professor, Law-Faculty, 2012 (2012);

Elkins Nesheim, Becki S., Adjunct Assistant Professor, Educ Policy Leadership Studies, 2005 (2005); BS 1990 KANSAS; MS 1994 Iowa State; PHD 2004 Iowa

Ellermeier, Craig D., Assistant Professor, Microbiology, 2007 (2007); BS 1998 Iowa State; MS 2000 Illinois - C/U; PHD 2003 Illinois C/U

Ellingson, Stephanie Jo Kellogg, Adjunct Instructor, Radiology, 2010 (2010); BA 1993 Ottawa; MSED 2003 California State

Ellingwood, Nathan David, Adjunct Instructor, Mathematics, 2012 (2012);

Elliott, David E., Professor, Internal Medicine, 1993 (2006); BS 1979 Wheaton; PHD 1985 Wayne State; MD 1988 Wayne State

Elliott, Stephen C., Clinical Adjunct Associate Professor, Pediatrics, 1977 (1977); DO 1974 Coll of Osteopathic Med

Ellis, Mark, Adjunct Assistant Professor, Preventive Community Dentistry, 2010 (2010); BS 2005 Brigham Young; DDS 2009 Texas San Antonio

Ellsbury, Danny Lynn, Clinical Adjunct Associate Professor, Pediatrics, 2006 (2011); MD 1994 Iowa

Elmborg, James K., Associate Professor, Library Information Science, 2000 (2006); BA 1976 Washburn; MA 1984 Kansas; PHD 1994 Kansas

Elser, Caroline, Lecturer, Teaching and Learning, 2010 (2010); BA 1996 Northern Iowa; MA 2008 Northern Iowa

Elson, Elysha Emilee, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Elson, Marygrace, Clinical Professor, Obstetrics Gynecology, 2000 (2010); AB 1978 Vassar; MD 1982 Illinois-Rockford; MMEDC 2010 University of Iowa

Elvers, Ronald Dale, Clinical Associate Professor, Oral Path, Radiology Medicine, 1996 (2000); BS 1971 Iowa; DDS 1974 Iowa; MS 1980 Southern California

Ely, John William, Professor, Family Medicine, 1979 (2007); BS 1968 Hiram; MD 1972 SUNY

Embree, Robert W., Emeritus Associate Professor, Biology, 1968 (1968); BA 1954 Simpson; MS 1956 Nebraska; PHD 1962 California-Berkeley

Emery, Mary Lou, Professor, English, 1983 (2008); BA 1972 Oklahoma; MA 1980 Stanford; PHD 1981 Stanford

Emrich, Jeff L., Adjunct Lecturer, College Transition, 2002 (2004); BBA 1982 Iowa; MS 1988 Notre Dame

Emry, Rhonda Sue, Adjunct Instructor, Pharmacy, 2002 (2002); BSPH 1983 Iowa

Endres, Jill, Clinical Associate Professor, Family Medicine, 2002 (2008); BA 1993 Iowa; MD 1997 Iowa

Engel, Robert E., Emeritus Associate Professor, Educ Policy Leadership Studies, 1968 (1978); AB 1955 Cornell; BD 1958 Drew; PHD 1969 Iowa

Engel, Schael Ann Mathews, Adjunct Instructor, Social Work, 2002 (2002); BA 1990 Grinnell; PHD 1990 Arkansas

Engeldinger, Jane, Clinical Professor, Obstetrics Gynecology, 1980 (2001); BA 1972 DePauw; MD 1976 Iowa

Engelhardt, John F., Professor, Internal Medicine/Anatomy Cell Biology, 1997 (2001); BS 1981 Iowa State; PHD 1990 Johns Hopkins

England, Sarah K., Adjunct Professor, Physiology, 1997 (2009); BA 1988 Carleton College; PHD 1993 Medical College of Wisconsin

Engle, Hualing Nieh, Emeritus Professor, Research Administration, 1965 (1988); BA 1948 National Central-China; MFA 1966 Iowa; LHD 1981 Coe

Fethke, Carol C., Emeritus Professor, Marketing, 1975 (1990); BA 1964 Wellesley; MA 1966 Iowa; PHD 1971 Iowa

Fethke, Gary Craig, Emeritus Professor, Management Sciences, 1974 (1985); BA 1964 Iowa; PHD 1968 Iowa

Fethke, Nathan B., Assistant Professor, Biomedical Engineering/Occupational Environmental Health, 2009 (2009); BSE 1996 Iowa; MSE 2000 Iowa; PHD 2006 Iowa

Fick, Daniel Scott, Clinical Professor, Family Medicine, 1993 (2003); BA 1960 Northern Iowa; MD 1989 Iowa

Fiedorowicz, Jess G., Assistant Professor, Internal Medicine/Epidemiology/Psychiatry, 2007 (2009); BA 1997 Marquette; MD 2001 Wisconsin; MS 2007 Iowa

Fiegel, Jennifer, Assistant Professor, Chemical Biochemical Engineering/Pharmacy, 2006 (2006); BCHE 1998 Massachusetts; BS 1998 Massachusetts Amherst; PHE 2003 Johns Hopkins; PHD 2003 Johns Hopkins Baltimore

Field, Elizabeth H., Professor, Internal Medicine, 1986 (1999); BA 1974 Millersville; MD 1978 Pennsylvania State

Field, F. Jeffrey, Professor, Internal Medicine, 1980 (1991); BS 1970 Wisconsin; MD 1974 Wisconsin

Field, Howard, Emeritus Associate Professor, Preventive Community Dentistry, 1973 (1973); DDS 1964 Marquette University

Field, R. William, Professor, Epidemiology/Occupational Environmental Health, 1998 (2007); BA 1977 Pennsylvania; MS 1985 Pennsylvania; PHD 1994 Iowa

Fielder, Ronald S., Clinical Professor, Educ Policy Leadership Studies, 2011 (2011); BS 1972 Fort Hays State; MS 1976 Fort Hays State; PHD 1989 Kansas State

Fielding, Linda G., Associate Professor, Teaching and Learning, 1989 (1994); BA 1972 Florida; MED 1975 Florida; PHD 1988 Illinois Urbana

Fields, Mitchell Andrew, Adjunct Associate Professor, Finance, 2010 (2010); MBA 1977 Virginia Polytechnic; MAC 1980 Virginia Polytechnic; PHD 1982 Virginia Polytechnic

Fields, Sandra M., Adjunct Lecturer, Marketing, 2013 (2013); BS 1976 James Madison; MS 1980 Radford

Fieselmann, John F., Clinical Professor, Internal Medicine, 1975 (2002); BS 1968 Iowa; MD 1972 Iowa

Figdor, Carrie, Assistant Professor, Philosophy, 2007 (2007); BA 1981 Swarthmore; MA 1997 City Univ of New York; PHD 2005 City Univ of New York

Figge, Paul Karl Henry, Clinical Assistant Professor, Obstetrics Gynecology, 2009 (2009); MD 1970 Iowa

Filean, Erik Paul, Lecturer, English as Second Language, 2006 (2012); BA 1990 Iowa; MA 1997 Iowa; PHD 2006 Iowa

Fili, James M., Adjunct Assistant Professor, Periodontics, 2003 (2003); DDS 1990 New York; MSCD 1997 Iowa

Filios, Denise K., Associate Professor, Spanish Portuguese/International Programs, 1999 (2005); BA 1985 Massachusetts-Amherst; PHD 1997 California-Berkeley; MA 1998 Massachusetts-Amherst

Filstrup, Christopher Thomas, Adjunct Assistant Professor, University College, 2012 (2012);

Finamore, John F., Professor, Classics, 1983 (2003); BA 1972 Maryland; MA 1975 Tufts; PHD 1983 Rutgers

Finan, Michael J., Clinical Adjunct Instructor, Internal Medicine, 2005 (2005); MD 1981 Illinois

Fine, Lydia, Adjunct Lecturer, Marketing, 2011 (2011); BBA 2002 Iowa

Fine, Perry G., Adjunct Associate Professor, Nursing, 2004 (2004); BA 1973 California, Santa Cruz; MD 1981 Virginia Commonwealth

Fineran, Shirley, Adjunct Instructor, Social Work, 2002 (2002); BA 1971 Briar Cliff; MSW 1976 Illinois@Chicago

Finger, Kristi Lea, Adjunct Lecturer, College Transition, 2004 (2004); BA 1987 Iowa; MA 1992 Iowa

Fingert, John Harrison, Associate Professor, Ophthalmology Visual Science/Anatomy Cell Biology, 2005 (2010); BSE 1991 Dartmouth; MD 2000 Iowa; PHD 2000 Iowa

Finkelstein, Michael William, Professor, Oral Path,RadiologyMedicine/Anatomy Cell Biology, 1982 (1994); BS 1972 Illinois; DDS 1976 Iowa; MS 1982 Iowa

Finken, Teresa Marie, Lecturer, Teaching and Learning, 2002 (2002); BS 1973 NORTHERN ILLINOIS; MA 1997 IOWA; PHD 2002 IOWA

Finnegan, Eileen Marguerite, Associate Professor, Communication Sciences and Disorders, 1999 (2005); MA 1992 Iowa; PHD 1998 Iowa

Finnerty, Diane Lee, Adjunct Instructor, Social Work, 2000 (2005); BA 1983 Northern Iowa; MS 1988 Minnesota State

Finzel, Emily, Assistant Professor, Geoscience, 2012 (2012);

Firchau, Dennis, Clinical Assistant Professor, Pathology, 2010 (2010); BS 2000 Michigan State; MD 2004 Wayne State

Fischer, Gary W., Emeritus Associate Professor, Industrial Engineering, 1985 (1985); BA 1964 Iowa; BSME 1964 Iowa; MS 1966 Iowa; PHD 1969 Iowa

Fischer, Lance John, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM D 1997 Iowa

Fisher, Dale William, Adjunct Instructor, Teaching and Learning, 2008 (2011); BS 1986 Missouri; MFA 1998 Missouri

Fisher, Ken L., Adjunct Associate Professor, Health Management Policy, 2008 (2008); MBA 1986 North Carolina-Charlot

Fisher, Peter S., Emeritus Professor, Urban Regional Planning, 1977 (1997); BA 1968 Harvard; MA 1972 Missouri; PHD 1978 Wisconsin

Fisher, Rory A., Professor, Pharmacology/Internal Medicine, 1987 (2004); BS 1976 Rockford; PHD 1983 Iowa State

Fisher, Scott Randall, Adjunct Lecturer, Finance, 1999 (1999); JD 1987 Iowa

Fisher, William Scott, Adjunct Associate Professor, Pharmacy, 1988 (2003); BSPH 1979 Iowa; MS 1985 Iowa

Fitzgerald, Jacquie, Adjunct Assistant Professor, Pharmacy, 2000 (2000); PHARM D 2000 Iowa

Fitzgerald, M. Paula, Adjunct Professor, Marketing, 2010 (2010); PHD 1987 South Carolina

Fitzgerald, Vera J., Lecturer, Biology, 1987 (1997); PHD 1980 Chicago

Fitzgibbons, Ann Marie, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1985 Iowa

Fitzpatrick, Laura Lee, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1990 Iowa

Fitzpatrick, Lynn Rae, Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1989 Iowa; MSN 1998 Iowa

Fixmer-Oraiz, Natalie, Assistant Professor, Communication Studies, 2012 (2012);

Flaherty, Dawn Marie, Clinical Assistant Professor, Internal Medicine, 1999 (2002); BA 1985 New College, South Florida; MS 1987 Michigan; MD 1992 Wayne State

Flamme, Gregory A., Adjunct Assistant Professor, Occupational Environmental Health, 2001 (2001); BA 1991 Doane; MA 1996 Memphis; PHD 2000 Memphis

Flanagan, Douglas R., Emeritus Professor, Pharmacy, 1978 (1995); BS 1967 Michigan; MS 1969 Michigan; PHD 1971 Michigan

Flanagan, James R., Emeritus Associate Professor, Internal Medicine, 1990 (1996); BS 1974 Marquette; PHD 1979 Washington; MD 1983 Washington

Flanagan, Shawn Whitney, Lecturer, Health and Human Physiology, 1997 (2010); BA 1988 Northern Iowa; MED 1990 Virginia; PHD 1996 Iowa

Flanigan, Michael J., Emeritus Professor, Internal Medicine, 1980 (2003); BS 1971 Wisconsin-Milwaukee; MD 1975 Wisconsin-Madison

Flatau, Lindy Kay, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2003 North Dakota State

Flatte, Jennifer, Adjunct Instructor, Religion, 1999 (1999); AB 1987 Harvard; MA 1990 Hebrew Union; MA 1993 California-Santa Barbara

Flatte, Michael E., Professor, Electrical-Computer Engineering/Physics Astronomy, 1995 (2005); AB 1988 Harvard; PHD 1992 Calif-Santa Barbara

Flaum, Michael Alan, Clinical Professor, Psychiatry, 1990 (2009); BS 1978 Columbia; MD 1982 State U of NY-Stony Brook

Fleck, Arthur C., Emeritus Professor, Computer Science, 1965 (1972); BS 1959 Western Michigan; MA 1960 Michigan State; PHD 1964 Michigan State

Fleckenstein, Lawrence L., Professor, Pharmacy, 1991 (1991); BA 1968 California-Berkeley; PHARM 1972 California-San Francisco

Fleckenstein, Stephanie M., Clinical Assistant Professor, Communication Sciences and Disorders, 2003 (2003); BS 1994 Iowa; MA 1996 Iowa

Flemming, Matthew, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BA 1987 McGill, Canada; MD 1991 Albany Medical College

Fletcher, Amy, Lecturer, Health and Human Physiology, 2004 (2010); BS 1993 Nebraska @Lincoln; MS 1996 Tennessee

Fletcher, D. Jimmeh, Clinical Assistant Professor, Neurology, 2011 (2011); MD 2006 Temple

Fletcher, Steven Lloyd, Clinical Assistant Professor, Oral Maxillofacial Surgery, 2010 (2010); BS 1998 Brigham Young; DDS 2006 Iowa

Flood, Michael T., Clinical Adjunct Associate Professor, Internal Medicine, 1992 (2005); BA 1972 Holy Cross; DO 1977 Osteopathic-Des Moines

Flores, Ricardo, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1984 California-Los Angeles

Flynn, Mary Leslie, Clinical Instructor, Teaching and Learning, 2011 (2011); MS 1989 Iowa

Flynn, Ryan Thomas, Clinical Assistant Professor, Radiation Oncology, 2007 (2007); BA 2002 Luther; MS 2004 Madison- Wis.; PHD 2007 Madison-Wis

Flynn, Tiffany A., Adjunct Assistant Professor, Pharmacy, 2009 (2009); BSPH 2002 North Dakota State; PHARM 2004 North Dakota State

Gallanis, Thomas P., Professor, History/Law-Faculty, 2008 (2008); JD 1990 Chicago; LLM 1993 Cambridge; PHD 1997 Cambridge

Gallo, John Gregory, Lecturer, Finance, 2008 (2010); BGS 1978 Iowa; MBA 1983 Texas, Arlington; PHD 1992 Texas, Arlington

Gallup, William George, Adjunct Assistant Professor, History, 1999 (1999); BA 1975 Queens College; MA 1977 Iowa; PHD 1983 Iowa

Galusha, Yvonne, Lecturer, Management Sciences, 2003 (2003); BS 1981 Graceland; MBA 1991 Wichita State

Galvao, Antonio Fialho, Assistant Professor, Economics, 2010 (2010); MA 2003 Getulio Vargas Foundation; MS 2007 Illinois; PHD 2009 Illinois

Galvin, James A., Professor, Creative Writing/English, 1983 (1992); BA 1974 Antioch; MFA 1977 Iowa

Gamble, Kevin Charles, Adjunct Assistant Professor, Pharmacy Practice and Science, 1997 (2011); MS 1995 TROY STATE; PHARM 2004 Iowa

Gambrall, Melissa A., Clinical Adjunct Instructor, Nursing, 2001 (2008); BSN 1991 IOWA; MSN 2006 Iowa

Ganim, Russell, Professor, World Languages, Literatures, and Cultures, 2011 (2011); BA 1983 Grinnell; MA 1987 Virginia; PHD 1992 Virginia

Gannon-Palmer, Joan, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); DDS 1992 Iowa

Ganske, Corrine M., Clinical Adjunct Assistant Professor, Family Medicine, 1985 (1985); MD 1977 Iowa

Gantz, Bruce Jay, Professor, Otolaryngology-Head Neck Surgery/Neurosurgery, 1980 (1987); BS 1968 Iowa; MD 1974 Iowa; MS 1980 Iowa

Gardener, Tawnya, Adjunct Instructor, Pharmacy, 2006 (2006); BSPH 1983 Minnesota

Gardinier, Minnetta V., Associate Professor, Pharmacology/Graduate College Administration, 1998 (1998); BS 1975 Le Moyne College; PHD 1988 Louisiana St Univ -New Orleans

Gardner, Martin R., Adjunct Professor, Law-Faculty, 2005 (2005); BS 1969 Utah; JD 1972 Utah

Gardner, Sue Ellen, Associate Professor, Nursing, 2000 (2008); BSN 1981 Iowa; MA 1990 Iowa; PHD 1999 Iowa

Gardner, Thomas V., Emeritus Professor, Family Dentistry/Oral Maxillofacial Surgery, 1974 (1982);

Garfinkel, Jon A., Professor, Finance, 1999 (2012); BA 1988 Virginia Tech; PHD 1994 Florida

Garner, Cory, Adjunct Assistant Professor, Preventive Community Dentistry, 2010 (2010); DDS 2009 Iowa

Garner, Lisa Dawn, Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARM 2000 Iowa

Garner, Sarah Ann, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); BS 2002 Iowa; MD 2007 Iowa

Garr, Valerie Susanne, Adjunct Instructor, Educ Policy Leadership Studies, 2002 (2011); BA 1987 Iowa; MA 1995 Iowa

Garrett, Matthew A., Lecturer, English as Second Language, 2011 (2011); MA 2010 Southern Illinois

Garrett, Robert E., Emeritus Associate Professor, Family Medicine, 1997 (1997); BA 1971 Trinity; MA 1974 Johns Hopkins; MD 1981 Calif-San Diego; MS 1986 Case Western Reserve

Garrett, Scott Michael, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2003 Iowa

Garvey, Michael J., Emeritus Professor, Psychiatry, 1985 (1992); BA 1968 Stanford; MD 1971 Stanford

Garvin, Cory G., Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARM 1996 Iowa

Garvin, Gregory L., Clinical Adjunct Associate Professor, Pediatrics, 1989 (2010); DO 1975 Kirksville

Garvin, Justin Wayne, Lecturer, Mechanical Engineering, 2010 (2011); BSE 2001 Iowa; MS 2003 Iowa; PHD 2006 Iowa

Garvin, Mona Kathryn, Assistant Professor, Electrical-Computer Engineering, 2008 (2008); BSE 2003 Iowa; MS 2004 Iowa; PHD 2008 Iowa

Gasparoni, Alberto, Clinical Assistant Professor, Oral Path, Radiology/Medicine/Dental Clinic Administration, 2006 (2006); DDS 1985 Siena (Italy); DPHIL 2003 Iowa; DDS 2010 Iowa

Gasway, Julie Hansen, Clinical Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BA 1982 University of Iowa; MA 1984 University of Iowa

Gatica, Juan A., Emeritus Professor, Mathematics, 1975 (1990); PHD 1972 Iowa

Gavruseva, Elena, Associate Professor, Linguistics, 1998 (2005); BS 1991 Moscow Linguistic; MA 1993 Georgetown; PHD 1998 Georgetown

Gay, Paula Bradbury, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Gayley, Kenneth, Associate Professor, Physics Astronomy, 1997 (2003); AB 1983 Princeton; PHD 1990 San Diego

Gaylord, Joseph Robert, Adjunct Instructor, Political Science, 2011 (2011); BA 1967 Iowa

Gazsi, Denes, Assistant Professor, French Italian, 2009 (2011); MA 2004 Eotvos Lorand Univ; PHD 2010 Eotvos Lorand Univ

Gbasha, Rebecca Roberts, Emeritus Associate Professor, Geography, 1987 (1992); BA 1969 Calif State-Northridge; MS 1976 Oregon State; PHD 1982 Oregon State

Gebhart, Gerald Francis, Emeritus Professor, Pharmacology, 1973 (1981); BS 1967 Illinois; MS 1969 Iowa; PHD 1971 Iowa

Gebska, Milena Anna, Clinical Assistant Professor, Internal Medicine, 2011 (2012); MD 1995 Silesia, Poland; PHD 2002 London, UK

Gehl, Brian Kenneth, Adjunct Assistant Professor, Psychology, 2009 (2010); BA 1999 Jamestown; PHD 2010 Iowa

Gehlbach, Brian, Clinical Associate Professor, Internal Medicine, 2011 (2011); MD 2005 Washington

Gehring, David Charles, Adjunct Assistant Professor, Orthodontics, 2009 (2009); BA 1989 Coe; DDS 1993 Iowa; MS 1995 Iowa

Geisinger, Brenda Sue, Adjunct Instructor, Social Work, 2006 (2006); MSW 2005 Iowa

Geist, Lois J., Professor, Internal Medicine, 1990 (2009); BS 1978 Trinity; MS 1980 Case Western Reserve; MD 1984 Case Western Reserve

Gelfand, Miriam J., Emeritus Assistant Professor, Russian, 1962 (1986); BA 1946 St Johns-China

Gellhaus, Thomas M., Clinical Associate Professor, Obstetrics Gynecology, 1991 (2010); BA 1979 Augustana College, Sioux Falls; MD 1983 Oklahoma

Genadry, Rene, Clinical Professor, Urology/Obstetrics Gynecology, 2012 (2012);

Geneser, Matthew K., Clinical Assistant Professor, Pediatric Dentistry/Preventive Community Dentistry, 2009 (2009); BA 2002 Iowa; DDS 2006 Iowa

Geng, Maxwell Lei, Professor, Chemistry, 1995 (2008); BS 1986 Science and Technology-China; PHD 1994 Duke

Gent, Courtney Sue, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Gentil-Archer, Anne Christine, Adjunct Lecturer, Nursing, 2010 (2010); BSN 2002 Iowa

Gentsch, Dawn Kristine, Adjunct Lecturer, Community Behavioral Health, 2001 (2001); MPH 1996 Indiana

Georgakakos, K. P., Adjunct Professor, Civil-Environmental Engineering, 1986 (1997); BS 1977 National Technical-Athens; MS 1980 MIT; SCD 1982 MIT

George, Joseph P., Lecturer, Management Organizations, 2007 (2007); BA 1970 Mississippi

George, Michelle M., Adjunct Instructor, Pharmacy, 2003 (2003); BA 1997 Wartburg; PHARM 2000 Creighton

Geraets, Douglas R., Adjunct Professor, Pharmacy, 1988 (2004); PHARM 1980 Tennessee

Gerbyshak, Jennifer Erin, Lecturer, English as Second Language, 2004 (2010); MA 2004 Iowa

Gerdts, Emily Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2006 (2006); PHARM 2002 Iowa

Gerhard, Peter, Adjunct Lecturer, College Transition, 2002 (2002); MA 1985 Phillips; PHD 2000 Iowa

Gerhold, Linda Susan, Lecturer, Biology, 1988 (2003); PHD 1987 Iowa

Gerke, Alicia, Assistant Professor, Internal Medicine, 2008 (2012); BS 1998 South Florida, Tampa; MD 2002 South Florida, Tampa; MBA 2002 South Florida, Tampa

Gerke, Henning, Clinical Associate Professor, Internal Medicine, 2004 (2009); MD 1996 Hamburg, Germany

Gerken, Kathryn C., Associate Professor, Psych Quant Foundations, 1973 (1978); BS 1962 Southern Illinois; MA 1967 Bradley; PHD 1974 Southern Illinois

Gerking, Michael Todd, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1986 Iowa

Gerleman, Brent F., Clinical Adjunct Assistant Professor, Internal Medicine, 1990 (1990); MD 1978 Kansas

Gerr, Fredric E., Professor, Internal Medicine/Epidemiology/Occupational Environmental Health, 2002 (2002); MD 1978 New York-Stony Brook; BA 1978 Clark

Gervais, Martin, Associate Professor, Economics, 2011 (2011); MBA 1993 University Laval; MA 1995 Western Ontario; PHD 1999 Western Ontario

Getz, Christine, Professor, Music, 1999 (2012); BM 1979 Evansville; MM 1982 Southern Illinois; PHD 1991 Texas

Geweke, John F., Emeritus Professor, Statistics Actuarial Science/Economics, 1999 (1999); BS 1970 Michigan State; PHD 1975 Minnesota

Geyer, Pamela, Professor, Biochemistry/Obstetrics Gynecology, 1989 (2000); BSC 1978 McGill; PHD 1983 Ohio State

Gfeller, Kay E., Professor, Communication Sciences and Disorders/Music, 1985 (1993); BM 1971 Drake; MM 1974 Northwestern; PHD 1982 Michigan State

Ghali, Magdi G., Clinical Adjunct Assistant Professor, Internal Medicine, 1986 (1986); MBBCH 1975 Cairo, Egypt

Ghimire, Krishna, Clinical Adjunct Assistant Professor, Internal Medicine, 2012 (2012);

Ghoneim, Mohamed M., Emeritus Professor, Anesthesia, 1967 (1976); MD 1957 Cairo-Egypt; MBBCH 1957 Ein Shams-Egypt; FFARCS 1963 London -England

Ghosh, Joyee, Assistant Professor, Statistics Actuarial Science, 2010 (2010); PHD 2008 Duke

Ghosh, Sukumar, Professor, Computer Science, 1984 (1996); BSC 1964 Calcutta; BTECH 1966 Calcutta-India; PHD 1971 Calcutta

Ghosheh, Natalie Jana, Adjunct Assistant Professor, Pediatric Dentistry, 2008 (2008); BA 2002 Iowa; DDS 2006 Iowa

Giangrande, Paloma Hoban, Assistant Professor, Radiation Oncology/Internal Medicine, 2007 (2007); BA 1994 Wheaton; PHD 1999 Duke

Giblin, Blandina Kaduma, Lecturer, French Italian, 2001 (2006);

Giblin, James L., Professor, History, 1986 (2001); BA 1975 McGill; MA 1978 McGill; PHD 1986 Wisconsin-Madison

Gibson, Craig A., Professor, Classics, 1999 (2011); BA 1990 Rhodes; PHD 1995 Duke

Gibson, Darlene J., Lecturer, Nursing, 1987 (2010); ADN 1985 Kirkwood; BSN 1990 Iowa; MSN 2004 Phoenix

Gibson, David T., Emeritus Professor, Microbiology, 1988 (1988); BSC 1961 Leeds-United Kingdom; PHD 1964 Leeds-United Kingdom

Gibson-Corley, Katherine N., Assistant Professor, Pathology, 2011 (2011); DVM 2005 Iowa State; PHD 2010 Iowa State

Gidal, Eric, Associate Professor, International Programs/English, 1996 (2002); BA 1988 Brandeis; MA 1992 Michigan; PHD 1995 Michigan

Gienapp, Barbara Ann Brady, Adjunct Instructor, Communication Sciences and Disorders, 1989 (1996); BS 1982 South Dakota; MA 1984 South Dakota

Gier, David, Professor, Music, 1995 (2008); BM 1983 Michigan; MM 1985 Yale; MA 1986 Yale; DMA 1992 Yale

Gilbert, Betty, Clinical Adjunct Instructor, Continuing Education, 2012 (2012);

Gilbert, Miriam, Professor, English, 1969 (1982); BA 1965 Brandeis; MA 1967 Indiana; PHD 1969 Indiana

Gilchrist, Matthew James, Lecturer, Rhetoric, 2006 (2011); BA 2001 Tennessee; MFA 2004 Iowa

Gilg, Joseph, Adjunct Instructor, Internal Medicine, 2005 (2005); BS 1983 Nebraska; MD 1987 Nebraska Med

Gillan, Edward G., Associate Professor, Chemistry, 1997 (2003); BS 1989 California-Berkeley; PHD 1994 California-Los Angeles

Gillum, Matthew P., Assistant Professor, Neurology, 2011 (2011); PHD 2010 Yale

Gilotti, Jane A., Associate Professor, Geoscience, 1999 (2005); BA 1978 Maine; MA 1984 Johns Hopkins; PHD 1987 Johns Hopkins

Gilsenan, Thomas P., Adjunct Instructor, Social Work, 2010 (2010); BA Minnesota; MSW St. Thomas; MSW 1999 St. Thomas

Gilster, Megan E., Assistant Professor, Social Work, 2013 (2012);

Gimer, David Arthur, Adjunct Assistant Professor, Family Dentistry, 2011 (2011); DDS 1976 Iowa

Gingrich, Roger D., Emeritus Professor, Internal Medicine, 1981 (1993); BA 1970 Macalaster; MD 1974 Cornell; PHD 1981 Oxford

Gray, Jon R., Adjunct Lecturer, Marketing, 2002 (2002); BS 1985 COLORADO STATE; MBA 2000 IOWA

Green, Carin M., Professor, Classics, 1991 (2006); BA 1971 San Jose State; MA 1975 Texas-Austin; PHD 1991 Virginia

Green, Dennis C., Adjunct Instructor, Pharmacy, 2003 (2003); BS 1975 Creighton; BS 1980 Nebraska

Green, Peter, Adjunct Professor, Classics, 1997 (1997); PHD 1954 Trinity College England

Green, Steven H., Professor, Biology/Otolaryngology-Head Neck Surgery, 1987 (2006); BS 1975 Wisconsin; PHD 1982 Calif Inst of Tech (Pasadena)

Green, T. L., Adjunct Associate Professor, Endodontics, 2007 (2012); MS 1976 Florida; DMD 1978 Florida

Greene, Barry, Emeritus Professor, Health Management Policy, 1999 (1999); BA 1963 Wartburg; MA 1967 Northern Illinois; PHD 1971 St Louis

Greenhoe, David S., Emeritus Professor, Music, 1979 (1989); BM 1964 Eastman School of Music; MM 1969 Ball State

Greenlee, Emily Chua, Adjunct Assistant Professor, Ophthalmology Visual Science, 2003 (2005); BA 1991 Notre Dame; MD 1993 Loyola

Greenlee, Jeremy D., Associate Professor, Otolaryngology-Head Neck Surgery/Neurosurgery, 2005 (2011); BS 1993 Michigan; MD 1998 Indiana

Greenough, Paul R., Professor, International Programs/Community Behavioral Health/History, 1974 (1987); BS 1968 Columbia; MA 1970 Chicago; PHD 1977 Chicago

Gregory, Daniel J., Adjunct Assistant Professor, Epidemiology, 2010 (2010); BS 2002 Iowa; MS 2003 Iowa; PHD 2007 Iowa

Greiner, Mark A., Assistant Professor, Ophthalmology Visual Science, 2012 (2012);

Gressang, Jane Elizabeth, Lecturer, English as Second Language, 2009 (2009); MA 2001 Iowa; PHD 2010 Iowa

Greteman, Blaine, Assistant Professor, English, 2009 (2009); BA 1998 Oklahoma State; MPHIL 2001 Oxford; PHD 2008 California - Berkeley

Grewal, Amandeep, Associate Professor, Law-Faculty, 2011 (2011); BA 2002 Williams; JD 2005 Michigan; LLM 2006 Georgetown

Greyser, Naomi, Assistant Professor, English/Rhetoric, 2006 (2008); BA 1995 Wesleyan; MA 1998 California @Irvine; PHD 2004 California @ Irvine

Griebahn, Lynn R., Adjunct Assistant Professor, Operative Dentistry, 2004 (2005); DDS 1984 Iowa

Grier, Megan Lynn, Adjunct Instructor, Family Dentistry, 2005 (2005); DDS 2005 Iowa

Grieves, Michael William, Adjunct Associate Professor, Management Sciences, 2009 (2009); MBA 1979 Oakland, MI; EDM 2000 Case Western Reserve

Griffiths, Timothy, Adjunct Professor, Neurosurgery, 2009 (2009); MD 1998 Oxford, England

Grignon, Constance, Clinical Adjunct Associate Professor, Ophthalmology Visual Science, 1988 (2004); BSC 1969 McGill; MD 1973 McGill

Grigsby, William R., Emeritus Professor, Periodontics, 1973 (1993); BA 1956 Dartmouth; DDS 1960 Missouri; PHD 1970 Virginia Commonwealth

Grimlund, Richard A., Emeritus Associate Professor, Accounting, 1978 (1983); BS 1959 Washington; MBA 1974 Washington; PHD 1977 Washington

Grinstead, Dan M., Adjunct Instructor, Psychiatry/University College, 1979 (1979); BA 1972 Wartburg; MSW 1975 Minnesota-Duluth

Grismore, Steven Dean, Lecturer, Music, 2000 (2006); MA 1990 Iowa

Grobe, Justin L., Assistant Professor, Pharmacology, 2010 (2012); BA 2001 Hope College; BS 2001 Hope College; PHD 2006 Florida

Groen, Amy M. Martin, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Groeschl, Lee Robert, Adjunct Lecturer, Management Organizations, 2010 (2010); MBA 2009 North Dakota; BBA 2009 North Dakota

Gronbeck, Bruce E., Emeritus Professor, Communication Studies, 1973 (1979); BA 1963 Concordia; MA 1966 Iowa; PHD 1970 Iowa

Groos, Jennifer A., Clinical Adjunct Assistant Professor, Pediatrics, 2005 (2005); BS 1997 Loras College; MD 2001 Iowa

Gros-Louis, Julie J., Assistant Professor, Psychology, 2008 (2008); BS 1992 Michigan; MA 1995 Pennsylvania; MA 1996 Pennsylvania; PHD 2001 Pennsylvania

Grose, Charles, Professor, Pediatrics, 1984 (1987); BA 1963 Beloit; MD 1967 Chicago

Groskreutz, Dayna Joy, Assistant Professor, Internal Medicine, 2006 (2007); BA 1996 Augustana, SD; MD 2000 Minnesota

Grosland, Nicole Marie, Professor, Biomedical Engineering/Orthopaedics and Rehabilitation, 1998 (2012); BSE 1994 Iowa; PHD 1998 Iowa

Gross, Gregory Joseph, Adjunct Instructor, Social Work, 2012 (2012); BA 2003 Drake University

Gross, Thomas J., Associate Professor, Internal Medicine, 1991 (1997); BS 1980 Michigan; MD 1983 Michigan

Gruber, Gwendolyn Mae, Adjunct Assistant Professor, Classics, 2009 (2009); BA 1998 Creighton; MA 2001 Iowa; PHD 2009 Iowa

Gruca, Thomas S., Professor, Marketing, 1991 (2006); BS 1983 Illinois; MBA 1985 Illinois; PHD 1989 Illinois

Grumbach, Isabella, Assistant Professor, Internal Medicine, 2006 (2006); MD 1992 Ruhr Univ Germany

Grunder, Richard W., Adjunct Assistant Professor, Operative Dentistry, 1995 (2000); DDS 1984 Iowa

Gu, Xiaomei, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012); HS 1997 WEIHAI NO 1 MIDDLE SCHOOL; BDS 2002 BINZHOU MEDICAL COLLEGE; MSD 2005 PEKING UNIVERSITY

Guayara Sanchez, Consuelo, Lecturer, Rhetoric, 2007 (2009); MA 1994 Iowa; PHD 2007 Iowa

Gucfa, Cornelius J., Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); MD 1999 American/Caribbean

Guckert, Donald J., Adjunct Lecturer, Civil-Environmental Engineering, 2004 (2004); BA 1978 Penn State; BS 1978 Penn State; ME 1986 Penn State

Gudavalli, M. Ram, Adjunct Assistant Professor, Biomedical Engineering, 2001 (2001); BS 1970 Andhra, India; MS 1980 McMaster, Canada; PHD 1989 Cincinnati

Guentner, Wendelin, Professor, International Programs/French Italian, 1985 (1998); BA 1972 St. Teresa; MA 1974 Magistere-Paris; MA 1975 Delaware; PHD 1982 Chicago

Guerin, Leana Arleen, Clinical Assistant Professor, Pathology, 2010 (2010); MD 2006 Iowa

Guest, Katrina A., Clinical Adjunct Assistant Professor, Internal Medicine, 1995 (2001); MD 1986 SUNY-Buffalo

Gui, Lichuan, Adjunct Associate Professor, Mechanical Engineering, 2011 (2011); PHD 1997 Essen, Germany

Guillory, J. Keith, Emeritus Professor, Pharmacy, 1964 (1971); BS 1956 Loyola-Louisiana; MS 1960 Wisconsin; PHD 1961 Wisconsin

Gulick, Kris G., Adjunct Lecturer, Accounting, 2008 (2008); BA 1980 Northern Iowa; MA 1982 Iowa; BA 1986 Coe

Gullickson, Gregory Leo, Adjunct Assistant Professor, Psychology, 2000 (2001); BA 1979 Notre Dame; MA 1983 Iowa; PHD 1993 Iowa

Gunstream, Adrienne, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 2004 Pacific; MS 2007 California

Gunter, Tracy Diane, Clinical Adjunct Associate Professor, IA Consortium Substance Abuse/Psychiatry, 2003 (2009); BS 1985 Southern Carolina; MD 1990 Southern Carolina

Guo, Junfeng, Adjunct Associate Professor, Radiology/Biomedical Engineering, 2010 (2010); BS 1988 Xi'an Jiaotong, China; MS 1991 Xi'an Jiaotong, China; PHD 1995 Xi'an Jiaotong China

Guo, Man, Assistant Professor, Social Work, 2011 (2011); BSW 2003 Renmin of China; MSW 2005 Hong Kong; DR 2011 University of Southern Califor; PHD 2011 Southern California

Gupta, Amit, Assistant Professor, Urology/Epidemiology, 2011 (2011); MBBS 2002 All India Institute; MPH 2004 Texas

Gupta, Prahlad, Associate Professor, Psychology, 1999 (2005); BA 1980 Delhi; MBA 1982 Delhi; MS 1991 Carnegie Mellon; PHD 1995 Carnegie Mellon

Gurll, Nelson J., Emeritus Professor, Surgery, 1976 (1983); AB 1963 Calif-Berkeley; MD 1967 Calif-San Francisco

Gurnett, Donald A., Professor, Physics Astronomy, 1965 (1972); BSEE 1962 Iowa; MS 1963 Iowa; PHD 1965 Iowa

Gurwell, Adelaide Maria, Clinical Assistant Professor, Family Medicine, 1997 (1997); BSN 1980 Iowa Methodist; BGS 1986 Drake; MD 1991 Iowa

Gussin, Gary N., Emeritus Professor, Biology, 1969 (1980); BS 1961 Michigan; PHD 1966 Harvard

Guymon, C. Allan, Professor, Chemical Biochemical Engineering, 2002 (2009); BS 1993 Weber State; MS 1995 Colorado; PHD 1997 Colorado

Guzman, Elizabeth Eunice, Adjunct Instructor, Spanish Portuguese, 2007 (2007); BA 1977 Santiago; MA 1985 West Virginia

Guzman-Armstrong, Sandra, Clinical Associate Professor, Operative Dentistry, 2001 (2008); DDS 1994 Iowa; MS 1999 Iowa

Gwebu, Amukela Mazithulela, Adjunct Lecturer, Health and Human Physiology, 2007 (2007); MS 2004 Idaho

Haack, Josephine A., Adjunct Lecturer, University College, 2012 (2012);

Haack, Marcus J., Clinical Associate Professor, Educ Policy Leadership Studies, 2002 (2002); BA 1973 Northern Iowa; MA 1978 Northern Iowa; EDD 1991 Northern Iowa

Haas, Thomas J., Adjunct Instructor, Pharmacy, 1997 (1997); BS 1979 Iowa

Habashi, Meara, Lecturer, Psychology, 2011 (2011); BA 2000 Baylor; MS 2005 Purdue; PHD 2008 Purdue

Habecker, Erik Owen, Adjunct Lecturer, Management Organizations, 2012 (2012);

Habelhah, Hasem, Associate Professor, Pathology, 2005 (2011); BS 1987 Beijing Normal; MS 1990 Beijing Normal; PHD 1998 Hokkaido

Hackbarth, Stanley A., Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1977 Iowa

Hadder, Brent Allen, Clinical Assistant Professor, Anesthesia, 2009 (2010); BS 1998 Alabama; MD 2004 Alabama School of Med

Hade, Joel Edward, Clinical Adjunct Assistant Professor, Internal Medicine, 1995 (1995); MD 1983 Iowa

Haes, Amanda J., Assistant Professor, Chemistry, 2006 (2006); BA 1999 Wartburg; MS 2001 Northwestern; PHD 2004 Northwestern

Hagarty, Bradley Tyler, Adjunct Instructor, Preventive Community Dentistry, 1998 (1998); DDS 1994 Iowa

Hagle, Timothy M., Associate Professor, Political Science, 1988 (1994); BA 1978 Michigan State; BS 1978 Michigan State; JD 1982 J D Cooley Law School; MA 1985 Michigan State; PHD 1988 Michigan State

Hahn, Oscar A., Emeritus Professor, Spanish Portuguese, 1977 (1983); PHD 1963 Chile; MA 1972 Iowa; PHD 1977 Maryland

Haines, Don R., Emeritus Associate Professor, Music, 1974 (1978); BM 1959 Illinois Wesleyan; MM 1961 Eastman School of Music; DMA 1973 Rochester

Hakes, Thomas E., Clinical Adjunct Instructor, Internal Medicine, 1990 (1990); MD 1978 Iowa

Hakken, Lynda Sue, Adjunct Assistant Professor, Music, 2012 (2012);

Haldeman, Lauren Elizabeth, Adjunct Lecturer, International Writing, 2011 (2011); BA 2001 Iowa; MFA 2006 Iowa

Haleem, Ambar, Clinical Assistant Professor, Internal Medicine, 2009 (2011); MBBS 1999 Aga Khan, Pakistan

Hall, Daniel L., Emeritus Professor, Oral Path, Radiology Medicine, (1997); DDS 1959 Iowa; MS 1974 Iowa

Hall, David Mark, Adjunct Assistant Professor, Health and Human Physiology, 2008 (2008); PHD 1997 Iowa

Hall, Duane D., Assistant Professor, Internal Medicine, 2009 (2009); PHD 2000 Wisconsin @Madison

Hall, Margaret S., Emeritus Associate Professor, Theatre Arts, 1951 (1974);

Hall, Mederic Micah, Clinical Assistant Professor, Family Medicine/Orthopaedics and Rehabilitation, 2011 (2011); BS 2002 Notre Dame; MD 2006 Illinois, Chicago

Hall, Michael, Clinical Adjunct Assistant Professor, Psych Quant Foundations/Psychiatry, 2008 (2008); BS 1993 Guilford College; MA 1998 Kent State

Hall, Penelope J., Emeritus Associate Professor, Communication Sciences and Disorders, 1968 (1991); BA 1965 Iowa; MA 1967 Iowa

Hallisey, Brendan, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BA 2002 Bowdoin; AB 2002 Bowdoin College; DMD 2006 Connecticut

Hallmark, Shauna, Adjunct Associate Professor, Civil-Environmental Engineering, 2007 (2007); BS 1991 Brigham Young; MS 1996 Utah State; PHD 1999 Georgia Institute of Tech

Halloran, Carol Anne, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 1989 Minnesota

Halloran, Vivien Janis Olson, Adjunct Assistant Professor, Nursing, 2008 (2008); BSN 1987 Iowa; MA 1991 Iowa

Halls, Bill J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2009 Iowa

Halterman, Tom, Adjunct Assistant Professor, Pharmacy, 2002 (2003); BS 1989 Iowa

Haman, Mary L., Lecturer, Communication Studies, 2012 (2012);

Hamarstrom, Michael L., Adjunct Instructor, Radiology, 2010 (2011); BA 2000 Iowa; SCB 2007 Iowa

Hamiel, John N., Adjunct Assistant Professor, Pharmacy, 2002 (2002); BS 1985 Iowa; PHARM 1997 Iowa

Hamilton, David B., Emeritus Professor, English, 1975 (1982); AB 1961 Amherst; MA 1964 Virginia; PHD 1968 Virginia

Hammes, Megan Ann, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BS 2001 Iowa; MS 2004 American Univ Washington

Hammond, Donna L., Professor, Pharmacology/Anesthesia, 2000 (2000); BS 1975 New York-Buffalo; PHD 1980 Illinois-Chicago

Hammond, Harold L., Emeritus Professor, Oral Path, Radiology Medicine, 1967 (1983); DDS 1962 Loyola; MS 1967 Chicago

Hamot, Gregory Edward, Professor, International Programs/Teaching and Learning, 1995 (2007); BA 1975 Northwestern; MA 1976 Ohio State; PHD 1995 Ohio State

Hastings, Adi M., Assistant Professor, Anthropology, 2003 (2004); BA 1993 Reed, Oregon; MA 1994 Chicago; PHD 2004 Chicago

Hatcher, William B., Emeritus Professor, Music, 1987 (1987); BME 1957 Nebraska-Lincoln; MMUS 1960 Nebraska-Lincoln

Haug, Edward J., Emeritus Professor, Mechanical Engineering, 1968 (1976); BS 1962 Missouri; MS 1964 Kansas State; PHD 1966 Kansas State

Haugen, Alice Bordwell Fulton, Emeritus Professor, Biochemistry, 1981 (1993); BS 1973 Brown; PHD 1977 Brown

Haugen, Eric, Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); BS 1995 Drake; MD 2000 North Dakota

Haugen, Thomas H., Associate Professor, Pathology, 1990 (1997); BA 1971 California-Berkeley; PHD 1976 California-Davis; MD 1983 Iowa

Haugland, Ann Beret, Lecturer, Journalism Mass Communication, 2002 (2005); BA 1974 Carleton; MA 1986 Minnesota; PHD 1992 Iowa

Haugland, Frank N., Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); BS 1980 Iowa; MD 1987 Iowa; PHD 1987 Iowa

Haupt, Christopher L., Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 2005 (2005); BA 1989 Luther College; MD 1994 Iowa

Haupt, Raymond Bruce, Adjunct Lecturer, Management Organizations, 2012 (2012);

Hauser, James P., Adjunct Associate Professor, Industrial Engineering, 2007 (2007); PHD 1974 Colorado

Hauser, Scott Richard, Adjunct Lecturer, Management Organizations, 2005 (2005); MBA 1993 Northern Iowa

Hauserman, Nancy Russell, Professor, Law-Faculty/Management Organizations, 1977 (1995); BA 1971 Rhode Island; JD 1976 Iowa

Hausman-Miller, Brenda, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); DDS 2002 Iowa

Havel, Jessica Kay, Adjunct Assistant Professor, Pharmacy Practice and Science, 2003 (2003); PHARM 2000 Iowa

Havel, Richard, Adjunct Lecturer, Urban Regional Planning, 2011 (2011); MA 1993 Southwest Missouri

Havens, Timothy John, Associate Professor, African-American Studies/Communication Studies, 2003 (2008); BA 1990 Wisconsin; MA 1994 George Mason; DPHIL 2000 Indiana

Hawkins, Benny F., Emeritus Associate Professor, Periodontics, 1978 (1978); BS 1952 Morehouse; DDS 1958 Meharry; MS 1972 Iowa

Hawley, Clifford B., Adjunct Professor, Economics, 2009 (2009); PHD 1977 Duke

Hawley, Ellis W., Emeritus Professor, History, 1969 (1969);

Hawtrey, Charles E., Emeritus Professor, Urology, 1969 (1977); BA 1957 Grinnell; MD 1961 Iowa

Hayakawa, Minako, Clinical Assistant Professor, Radiology/Neurology, 2003 (2003); MD 1990 ST MARIANNA, JAPAN

Haycraft, Edwin J., Adjunct Instructor, Social Work, 2007 (2007); BSW 2001 Iowa; MSW 2003 Iowa

Hayes, Greg W., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1989 Baylor; MD 1993 Texas-Galveston

Hayes, Joy, Associate Professor, Communication Studies, 1994 (2000); BA 1987 Reed; MA 1988 California-San Diego; PHD 1994 California-San Diego

Haynes, Kevin, Adjunct Lecturer, Law-Faculty, 2011 (2011); BA 1986 Rice University; JD 1991 Stanford Law

Haynes, Melissa Jean, Adjunct Assistant Professor, Psych Quant Foundations, 2009 (2009); BA 2002 Coe College; PHD 2009 Iowa

Haynes, William G., Professor, Inst for Clinical and Translational Science/Internal Medicine, 1995 (2000); BSC 1981 Sheffield - UK; MBCHB 1984 Sheffield - UK

Hayreh, Sohan S., Emeritus Professor, Ophthalmology Visual Science, 1973 (1973); MBBS 1951 Punjab-India; MS 1959 Punjab-India; PHD 1965 London-England; DSC 1987 London-England

Hazeltine, Richard Eliot, Associate Professor, Psychology, 2003 (2009); BA 1990 Harvard; PHD 1997 California

Hazelton, Lisa M., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1987 Louisville Medical

Healy, Alfred, Emeritus Professor, Teaching and Learning/ Pediatrics, 1967 (1980); BS 1956 Notre Dame; MA 1957 Iowa; MD 1963 Iowa

Hebl, Lisa Marie, Adjunct Instructor, Preventive Community Dentistry, 1999 (1999); BS 1982 Iowa

Heckart, Kim, Lecturer, Teaching and Learning, 2010 (2010); BS 1990 NE Missouri State; MA 2004 Viterbo University

Heckel, Philip H., Emeritus Professor, Geoscience, 1971 (1978); BA 1960 Amherst; PHD 1966 RICE

Heddens, Heather B., Adjunct Associate Professor, Family Dentistry, 1987 (2000); DDS 1980 Iowa

Heddinger, Steven P., Clinical Adjunct Assistant Professor, Internal Medicine, 2004 (2004); BS 1991 Notre Dame; MD 1995 Iowa

Hedgcock, William Mccaskill, Assistant Professor, Marketing, 2008 (2008); BA 1996 Macalester; PHD 2008 Minnesota

Heffner, Ray L., Emeritus Professor, English, 1963 (1963); AB 1948 Yale; PHD 1953 Yale; PHD 1966 Franklin; PHD 1967 Rhode Island; DBA 1967 Bryant

Hegeman, Rebecca Lea, Clinical Associate Professor, Internal Medicine, 1993 (1999); BSN 1977 Iowa; MD 1986 Iowa

Hegeman, Robert James, Clinical Associate Professor, Internal Medicine, 2010 (2010); MD 1977 Michigan

Hegmann, Theresa Elaine, Clinical Professor, Physician Assistant, 2001 (2012); BS 1987 Iowa; BS 1991 Iowa; MPAS 1999 Nebraska

Hehr, Nathan J., Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); DDS 1993 Iowa

Heidel, Richard M., Associate Professor, Music, 2008 (2008); BME 1986 Texas Tech; MM 1989 Texas Tech; EDD 1999 Illinois

Heidger, Paul M., Emeritus Professor, Anatomy Cell Biology, 1974 (1979); BA 1963 Northern Colorado; PHD 1967 Tulane

Heimer, Karen, Professor, Gender, Women's and Sexuality Studies/Sociology/Public Policy Center, 1991 (2006); BA 1981 Florida Atlantic; MA 1984 Wisconsin-Madison; PHD 1989 Wisconsin-Madison

Hein, Herman A., Emeritus Professor, Epidemiology/Pediatrics, 1973 (1981); BA 1959 Wartburg; MD 1963 Iowa

Heineman, Elizabeth Dian, Associate Professor, Gender, Women's and Sexuality Studies/History/International Programs, 1999 (1999); BA 1985 Oberlin; MA 1988 North Carolina; PHD 1993 North Carolina

Heiner, Anneliese D., Adjunct Assistant Professor, Biomedical Engineering, 2001 (2001); BS 1990 Michigan; MS 1992 Case Western Reserve; PHD 1995 Case Western Reserve

Heintz, Brett, Clinical Associate Professor, Pharmacy Practice and Science, 2012 (2012);

Heintz, James A., Adjunct Professor, Accounting, 2010 (2010); DBA 1972 Washington@ St. Louis

Heistad, Donald, Professor, Pharmacology/Internal Medicine, 1970 (1976); BS 1959 Chicago; MD 1963 Chicago

Heitzman, Kendall, Assistant Professor, Asian Slavic Languages Literature, 2012 (2012);

Hellstein, John W., Clinical Professor, Oral Path,RadiologyMedicine, 2002 (2002); BA 1977 Missouri-Kansas City; MS 1991 Iowa; DDS 1991 Missouri-Kansas City

Helmers, Laurilyn Dee, Clinical Associate Professor, Anesthesia, 1996 (2011); BS 1979 South Dakota; MD 1991 Iowa

Helms, Charles M., Emeritus Professor, Internal Medicine/Health Management Policy, 1976 (1991); BA 1964 Cornell; PHD 1969 Rochester; MD 1971 Rochester

Helms, Lelia Biggs, Professor, Educ Policy Leadership Studies, 1979 (1993); BA 1964 Sarah Lawrence; MA 1966 Tufts; PHD 1968 Tufts; JD 1984 Iowa

Hemann, Lynda Lorraine, Adjunct Assistant Professor, Internal Medicine, 2009 (2009); MD 1998 Iowa Carver COM

Hemenway, Arna Bontemps, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Hemley, Robin, Professor, International Programs/English, 2004 (2004); BA 1980 Bloomington, IN; MFA 1982 Iowa

Henderson, Sally Jean, Adjunct Assistant Professor, Rehabilitation and Counselor Education, 2000 (2000); BA 1971 North Dakota; MA 1973 North Dakota; PHD 1999 Iowa

Hendricks, Janie C., Clinical Adjunct Instructor, Internal Medicine, 2000 (2000); DO 1992 Osteopathic-Des Moines

Hendrickson, Jo M., Professor, Teaching and Learning, 1989 (1996); BA 1969 Wisconsin-Madison; MA 1971 Wisconsin-Madison; PHD 1977 George Peabody

Hendrix, James Alton, Clinical Adjunct Assistant Professor, Pediatrics, 1977 (1980); MD 1974 Iowa

Hendrix, Mary, Adjunct Professor, Anatomy Cell Biology, 1996 (1996); BS 1974 Shepherd; PHD 1977 George Washington

Hendrix, Stephen D., Professor, Biology, 1975 (1994); BS 1969 Florida State; PHD 1975 California-Berkeley

Henfield, Malik S., Associate Professor, Rehabilitation and Counselor Education, 2005 (2012); BS 1998 Francis Marion; EDS 2002 South Carolina; MED 2002 South Carolina; PHD 2006 Ohio State

Henkin, Alan B., Professor, Educ Policy Leadership Studies, 1975 (1985); BS 1962 Alabama; MA 1963 Alabama; PHD 1967 Alabama; PHD 1972 Wisconsin

Henry, Kathryn, Adjunct Associate Professor, International Programs, 2006 (2006); PHD 1990 Stanford

Henry, Michael Darrin, Associate Professor, Physiology/Pathology, 2003 (2003); BS 1989 Georgia; PHD 1995 M.I.T.

Henry, Patrick H., Clinical Adjunct Professor, Internal Medicine, 2005 (2005); MD 1958 Kansas

Henry, Suzanne, Clinical Adjunct Assistant Professor, Pediatrics, 2009 (2009); MD 1962 Duke

Hensley, David Keith, Clinical Professor, Management Organizations, 2000 (2006); BS 1986 Iowa; MBA 1992 Missouri-Kansas City

Hensley, Mary L. Floyd, Adjunct Lecturer, Health Management Policy, 1994 (1994); AS 1983 State of New York; BBA 1985 Iowa; MAC 1998 Iowa

Henstrom, Douglas, Clinical Assistant Professor, Otolaryngology-Head Neck Surgery, 2011 (2011); MD 2004 Iowa

Hering, Robert G., Emeritus Professor, Mechanical Engineering, 1971 (1971); BSME 1956 Illinois; MSME 1958 Southern California; PHD 1961 Purdue

Herlitzka, Alfred J., Emeritus Associate Professor, Surgery, 1974 (1985);

Herman, Ellen, Clinical Professor, Teaching and Learning, 2000 (2010); BS 1972 Northern Illinois; MS 1976 Western Illinois; PHD 1990 Iowa

Herman, Ronald Alton, Clinical Professor, Pharmacy, 1990 (2010); BSPH 1976 Iowa; MS 1978 Iowa; PHD 1992 Iowa

Herman, Ted, Professor, Computer Science, 1991 (2008); BS 1975 Nebraska; PHD 1991 Texas-Austin

Hermanson, Nellie, Adjunct Lecturer, Psychology/University College, 2010 (2010); MS 2007 Old Dominion

Hermanson, Paul, Adjunct Assistant Professor, Orthodontics, 2002 (2002); DDS 1971 Iowa; MS 1975 Iowa

Hernan, Jillian Marie, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2006 Iowa

Hernandez, Maria Marcela, Clinical Associate Professor, Operative Dentistry, 2003 (2012); DIP 1983 Gimnasio Femenino; DDS 1988 Javeriana; MS 2001 Iowa

Herr, Cheryl T., Professor, Cinema Comparative Literature/International Programs/English, 1985 (1994); BA 1971 Duke; MA 1974 North Carolina; PHD 1978 North Carolina

Herr, Keela, Professor, Nursing, 1987 (2001); BSN 1976 Northeast Missouri; MSN 1977 Texas-Austin; PHD 1986 Texas-Austin

Herrera, Jeremy, Adjunct Instructor, Division of Performing Arts, 2012 (2012);

Hershberger, Larry, Lecturer, Finance, 2003 (2003); BBA 1966 Iowa

Hooper, Catalina J., Adjunct Assistant Professor, Psychology, 2010 (2010); PHD 2008 Minnesota

Hoopes, Brooke L., Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BA 2005 Weber State

Hoover, Hiram D., Emeritus Professor, Iowa Testing Programs, 1967 (1980); BS 1962 Missouri; MA 1964 Iowa; PHD 1969 Iowa

Hope, Geoffrey R., Professor, International Programs/Teaching and Learning/French Italian, 1978 (2003); BA 1969 Johns Hopkins; MED 1971 Temple; MA 1975 Pennsylvania; PHD 1979 Pennsylvania

Horn, Mary Irene Freese, Adjunct Instructor, Nursing, 1997 (1997); MSN 1997 Iowa

Hornbuckle, Keri C., Professor, Civil-Environmental Engineering/Occupational Environmental Health, 1998 (2007); BA 1987 Grinnell; PHD 1996 Minnesota

Horner, Kathleen Elizabeth, Clinical Assistant Professor, Pharmacy, 2005 (2007); BS 1999 Saint Louis; PHARM D 2004 Iowa

Hornick, Douglas B., Clinical Professor, Internal Medicine, 1988 (2002); BS 1978 St. Lawrence; MD 1982 Maryland

Horning, Andrew Martin, Adjunct Lecturer, Management Organizations, 2010 (2010); MBA 2007 Iowa

Horowitz, Steven Paul, Adjunct Assistant Professor, American Studies, 1995 (1995); PHD 1986 Iowa

Horswill, Alexander R., Associate Professor, Microbiology, 2005 (2010); BS 1995 Wisconsin-Madison; PHD 2001 Wisconsin-Madison

Horton, Diana G., Emeritus Associate Professor, Biology, 1983 (1989); BED 1972 Alberta-Canada; PHD 1981 Alberta-Canada

Horton, Douglas James, Adjunct Associate Professor, Family Dentistry, 1997 (2012); DDS 1976 Iowa

Horton, Matthew Randy, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM D 2002 Iowa

Horton, Virginia Kim, Clinical Adjunct Instructor, Nursing, 2001 (2001); BS 1977 Western Illinois; BS 1980 Southern Illinois; MS 1983 Illinois; MS 1993 Wisconsin

Horwitz, Henry G., Emeritus Professor, History, 1963 (1970); BA 1959 Haverford; PHD 1963 Oxford

Horwitz, Phillip Andrew, Clinical Associate Professor, Internal Medicine, 2003 (2008); BA 1989 Colorado; MD 1995 Washington

Horwitz, Richard P., Emeritus Professor, American Studies, 1977 (1988); BA 1971 Pennsylvania; MA 1972 Pennsylvania; PHD 1975 Pennsylvania

Hoshi, Hisakazu, Clinical Associate Professor, Surgery, 2007 (2011); MD 1991 Shiga Univ. of Med Science

Hoskins, Brenda Lee Carter, Clinical Associate Professor, Nursing, 2005 (2010); BSN 1994 Coe College; MSN 1998 Iowa; DNP 2006 Rush University

Hosp, John L., Associate Professor, Teaching and Learning/Psych Quant Foundations, 2009 (2009); BA 1992 Hobart; MS 1995 Rochester Inst of Tech; PHD 2002 Vanderbilt

Hosp, Michelle K., Lecturer, Teaching and Learning, 2010 (2010); PHD 2002 Vanderbilt

Hostetter, Jesse Michael, Adjunct Associate Professor, Epidemiology, 2007 (2011); DVM 1991 Iowa State; PHD 2000 Iowa State

Houge, Todd, Lecturer, Finance, 1998 (2009); BA 1992 Wartburg; MBA 1994 Iowa; PHD 1998 Iowa

Hourcade, Juan Pablo, Associate Professor, Computer Science, 2006 (2012); BS 1996 American University; MS 2000 Maryland; PHD 2003 Maryland

House, Hans Robert, Clinical Professor, Emergency Medicine, 2002 (2012); MD 1997 Southern California

Housel, Audrey Kae, Adjunct Assistant Professor, Pharmacy Practice and Science, 2008 (2011); PHARM 2008 Creighton

Houseman, Jeffrey A., Adjunct Instructor, Pharmacy, 2003 (2003); BS 1981 Iowa; BSPH 1981 Iowa

Houser, Kara Marie, Adjunct Instructor, Social Work, 2012 (2012);

Houston, Douglas W., Associate Professor, Biology, 2004 (2010); BS 1992 Florida Inst. of Tech; PHD 1999 Miami School of Med

Houtman, Jon C., Associate Professor, Microbiology, 2005 (2011); BA 1994 Minnesota; PHD 1999 Wisconsin

Hove, Harlo Dennis, Emeritus Assistant Professor, Emergency Medicine, 1990 (1995); BS 1970 Iowa State; BS 1972 South Dakota; MD 1974 Nebraska

Hovenkamp, Herbert, Professor, Law-Faculty, 1986 (1986); MA 1971 Texas; PHD 1976 Texas; JD 1978 Texas

Howard, Matthew A., Professor, Neurology/Otolaryngology-Head Neck Surgery/Neurosurgery, 1993 (2002); BS 1981 Tufts; MD 1985 Virginia

Howe, James Robinson V., Professor, Surgery, 1996 (2005); AB 1982 Dartmouth; MD 1987 Vermont

Howell, Gary, Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1972 Iowa; JD 1976 Iowa

Howell, James Perry, Adjunct Assistant Professor, Psychology, 2004 (2005); BA 1979 Swarthmore College; PSYD 1987 VA Consortium for Prof. Psych.

Howell, Nicholas Mark, Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARM 2006 Iowa

Howes, Gregory Gershom, Assistant Professor, Physics Astronomy, 2008 (2008); BS 1994 CalTech; MS 1998 UCLA; PHD 2004 UCLA

Howren, Matthew Bryant, Adjunct Assistant Professor, Psychology, 2009 (2009); BA 2003 South Alabama; MA 2007 Iowa; PHD 2009 Iowa

Hoxie, Logan Davies, Clinical Adjunct Assistant Professor, Urology, 1999 (1999); MD 1992 Iowa

Hoyt, Robert Hughes, Clinical Adjunct Assistant Professor, Internal Medicine, 2008 (2008); MD 1983 Iowa

Hribar, Steven Paul, Professor, Accounting, 2006 (2012); PHD 2000 Iowa

Hsieh, Haowei, Assistant Professor, Library Information Science, 2007 (2007); BS 1991 National Tsing-Hua; MS 1995 Georgia Institute of Tech; PHD 2001 Texas A M

Hu, Hung-Shu, Emeritus Professor, Art Art History, 1968 (1982); BSC 1959 Cheng-Kung-Taiwan; MFA 1966 Cranbrook Academy of Art

Hua, Youjia, Assistant Professor, Teaching and Learning, 2008 (2008); BA 1999 Shanghai; MS 2002 Mercyhurst; PHD 2008 Penn State

Huang, Jian, Professor, Statistics Actuarial Science/Biostatistics, 1994 (2000); BS 1985 Wuhan University; MS 1987 Wuhan University; PHD 1994 Washington

Huang, Yung-Shen, Clinical Assistant Professor, Prosthodontics, 2003 (2003); DDS 1992 Taipei Taiwan; MS 2003 Iowa

Hubbard, Rebecca Ellyn Johnson, Adjunct Instructor, Communication Sciences and Disorders, 1996 (1996); MA 1984 Iowa

Hubel, Kenneth A., Emeritus Professor, Internal Medicine, 1962 (1973);

Huber, Diane Lyzotte, Professor, IA Consortium Substance Abuse/Health Management Policy/Nursing, 1982 (2003); BSN 1975 Iowa; MA 1982 Iowa; PHD 1986 Iowa

Huber, Lawrence, Clinical Assistant Professor, Prosthodontics, 1971 (1981); DDS 1960 Creighton

Huckleberry, Alan, Associate Professor, Music, 2003 (2010); BM 1991 Hochschule fur Musik Germany; MM 1994 Hochschule fur Musik Germany; DMA 2003 Univ of Michigan Ann Arbor

Hughes, Emily Ann, Professor, Law-Faculty, 2002 (2011); AB 1990 Michigan; JD 1997 Michigan Law; MD 1997 Michigan

Hughes, Tracy Jo, Adjunct Instructor, Pharmacy, 2005 (2005); AA 1991 Indian Hills; BSPH 1995 Iowa

Johnson, Norman L., Emeritus Professor, Mathematics, 1969 (1978); BA 1964 Portland State; MA 1966 Washington State; PHD 1968 Washington State

Johnson, Ralph Fred, Adjunct Assistant Professor, Psychology, 2007 (2007); BA 1977 Hamline; MA 1981 Iowa; PHD 1985 Iowa

Johnson, Sarah, Clinical Assistant Professor, Pharmacy, 2000 (2000); BS 1995 Iowa; BSPH 1995 Iowa; PHARMD 1997 Iowa

Johnson, Shella Ranae, Adjunct Assistant Professor, Pharmacy, 2004 (2004); PHARMD 2002 Iowa

Johnson, Susan Rae, Professor, Epidemiology/Obstetrics Gynecology, 1980 (1994); BA 1973 Iowa; MD 1976 Iowa; MS 1985 Iowa

Johnson, Truman Christopher, Adjunct Assistant Professor, Periodontics, 2012 (2012);

Johnson, W. Bruce, Professor, Accounting, 1988 (1993); BS 1970 Oregon; MS 1973 Ohio State; PHD 1975 Ohio State

Johnson, Wayne A., Professor, Physiology, 1989 (2002); BS 1980 Wyoming; PHD 1985 Washington

Johnson, William, Emeritus Professor, Microbiology, 1970 (1980); BS 1963 Marietta; MS 1965 Miami; PHD 1968 Rutgers

Johnson, William T., Professor, Endodontics, 1980 (1999); BA 1971 Drake; DDS 1975 Iowa; MS 1981 Iowa

Johnston, Richard C., Clinical Professor, Orthopaedics and Rehabilitation, 1967 (1982); MD 1958 Iowa

Johnston, Sara Pfister, Lecturer, Rehabilitation and Counselor Education, 2009 (2009); BS 1989 Wisconsin @ Madison; MS 2004 Wisconsin @ Madison

Joiner, Mei-Ling Anne, Assistant Professor, Internal Medicine, 2009 (2009); PHD 1999 Brandeis

Jolin, Sarah Jean, Adjunct Instructor, Family Medicine, 2010 (2010); BS 1996 Iowa State; MSW 1999 Washington Univ

Jones, Barbara M., Adjunct Instructor, Library Information Science, 2010 (2010); MAT 1970 Northwestern; MA 1986 New York; PHD 1995 Minnesota

Jones, Bradley D., Professor, Microbiology, 1994 (2011); BS 1985 Maryland; PHD 1989 Maryland

Jones, Carolyn C., Professor, Law-Faculty, 2004 (2004); BA 1976 Iowa; JD 1979 Iowa

Jones, David A., Clinical Assistant Professor, Orthodontics, 2011 (2011); AB 1973 Southern Methodist; DDS 1982 UMKC; MSD 1990 UT, Houston

Jones, Douglas W., Associate Professor, Computer Science, 1980 (1988); BS 1973 Carnegie-Mellon; MS 1976 Illinois; PHD 1980 Illinois

Jones, Ellen Louise, Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1990 Iowa; JD 1993 Iowa; MA 1994 Iowa

Jones, Jeremy, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DMD 2009 Boston University; BA 2009 Indiana; DDM 2009 Boston; BS 2009 Indiana University

Jones, Jody Lynn, Clinical Assistant Professor, Surgery/Psychology, 2009 (2009); MA 1993 Richmond; PHD 1997 Alabama

Jones, Mark E., Adjunct Associate Professor, Pharmacy, 1976 (1984); BS 1973 Washington State; PHARMD 1975 Cincinnati

Jones, Michael P., Professor, Public Policy Center/Statistics Actuarial Science/Biostatistics, 1986 (2000); BA 1972 Southern California; MA 1975 Calif-Los Angeles; PHD 1986 Washington

Jones, Morgan John, Emeritus Associate Professor, Music, 1978 (1991); BM 1960 Iowa; MA 1962 Iowa; PHD 1975 Northwestern

Jones, Nancy Lyn, Adjunct Lecturer, Law-Faculty, 2006 (2006); BA 1969 Luther College; MAT 1970 Brown; PHD 1982 Iowa

Jones, Patricia Camille, Emeritus Associate Professor, Theatre Arts/African-American Studies, 2001 (2001); BA 1977 Minnesota; MA 1985 Iowa; MFA 1991 Iowa

Jones, Philip C., Professor, Management Sciences, 1994 (1994); BIE 1973 Georgia Inst of Technology; MS 1974 Stanford; PHD 1977 California-Berkeley; MA 1977 California-Berkeley

Jones, Robert Dallas, Clinical Associate Professor, Neurology, 1997 (2004); BA 1979 Wisconsin; MA 1984 Iowa; PHD 1986 Iowa

Jones, Sarah, Lecturer, Teaching and Learning, 2012 (2012);

Jones, Shelley Ann, Clinical Adjunct Instructor, Internal Medicine, 1997 (1997); MD 1986 Iowa

Jones, Susan Sondrol, Lecturer, Music, 1998 (2001); BM 1967 Iowa; MA 1968 Iowa; MFA 1970 Iowa

Jones, William Larue, Professor, Music, 1997 (1997); BS 1960 Kansas State; MA 1962 Kansas State; MFA 1970 Iowa; DMA 1972 Wisconsin-Madison

Jones-Rogers, Stephanie, Assistant Professor, Gender, Women's and Sexuality Studies/History, 2012 (2012);

Jordan, Dennis Everett, Adjunct Lecturer, Management Organizations, 2010 (2010); AA 1989 Kirkwood Community; BA 1991 Northern Iowa; MBA 1998 Iowa

Jorge, Ricardo E., Associate Professor, Psychiatry, 2002 (2008); PHD 1983 Buenos Aires

Jorgensen, James David, Adjunct Assistant Professor, Management Organizations, 2008 (2008); BA 1990 Iowa State; JD 1993 Michigan

Jorgensen, Jodi, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); AASC 2003 Kirkwood; BA 2009 Ashford

Jorgensen, Palle E., Professor, Mathematics, 1983 (1983); BA 1968 AARHUS-Denmark; MS 1970 AARHUS; PHD 1973 AARHUS

Joselson, Rachel A., Associate Professor, Music, 1997 (2004); BM 1977 Florida State; MM 1980 Indiana-Bloomington

Joseph, Hyman, Emeritus Professor, Economics, 1966 (1982); BS 1957 Illinois Inst of Technology; MS 1959 Illinois Inst of Technology; MA 1966 Northwestern; PHD 1969 Northwestern

Joseph, Maria Lindell, Clinical Assistant Professor, Nursing, 2011 (2012); BSC 1993 Southern Adventist University; BS 1993 Southern Adventist; PHD 2007 Capella

Josephson, Nathan, Clinical Adjunct Professor, Internal Medicine, 1974 (1997); MD 1971 Iowa

Joshi, Charuta Narayan, Clinical Associate Professor, Neurology/Pediatrics, 2008 (2008); MD 1995 Grant Medical College

Joyce, Steven, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1996 Iowa

Judge-Ellis, Teresa M., Clinical Associate Professor, Nursing, 1999 (2010); BSN 1988 St. Louis; MSN 1996 Pacific Lutheran

Judisch, George Franklin, Emeritus Professor, Ophthalmology Visual Science, 1975 (1985); BS 1958 Iowa State; MD 1962 Iowa

Juergens, Shannon L., Adjunct Lecturer, Marketing, 2009 (2009); MBA 2008 Iowa

Jugessur, Aju S., Adjunct Assistant Professor, Physics Astronomy, 2012 (2012);

Juhasz, Marni F., Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 1998 North Carolina

Juhlin, Jon Jeffrey, Adjunct Assistant Professor, Endodontics, 2010 (2010); BS 1978 Iowa State; DDS 1991 Iowa; MSD 1991 Iowa

Jung, Anita, Professor, Art Art History, 2006 (2012); BFA 1985 Arizona State; MFA 1990 Wisconsin @ Madison

Jung, Michael J., Clinical Adjunct Associate Professor, Family Medicine, 1985 (1994); MD 1980 South Dakota

Juracek, Lyle, Adjunct Assistant Professor, Dance, 1996 (1996); BM 1973 Nebraska Wesleyan; MM 1975 Michigan State

Just, Craig Lavern, Assistant Professor, Civil-Environmental Engineering, 2002 (2002); BS 1992 Northern Iowa; MA 1994 Northern Iowa; PHD 2001 Iowa

Just, Tracy A., Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); AA 1989 Des Moines Comm College

Justman, Bruce Cary, Clinical Associate Professor, Endodontics, 1985 (2000); BS 1979 Loras; DDS 1983 Iowa

Kaaret, Philip Elias, Professor, Physics Astronomy, 2004 (2008); BS 1984 Mass Inst of Tech; PHD 1989 Princeton

Kabadi, Udaya M., Clinical Adjunct Professor, Internal Medicine, 1981 (2001); MBBS 1965 Bombay-India; MD 1970 Bombay-India

Kabbani, Haidar, Clinical Adjunct Assistant Professor, Pediatrics, 2006 (2006); MD 1993 Damascus Med School

Kabel, David Warren, Clinical Adjunct Associate Professor, Internal Medicine, 2006 (2006); BS 1970 Iowa; MD 1973 Iowa

Kaboli, Peter John, Professor, Internal Medicine/Epidemiology, 2000 (2012); BS 1989 Iowa; MD 1994 Iowa; MS 2000 Iowa

Kacmarynski, Deborah Sue Follmer, Clinical Assistant Professor, Otolaryngology-Head Neck Surgery/Pediatrics, 2009 (2009); MD 2002 Minnesota Medical; MSO 2009 Minnesota

Kademian, Jack, Clinical Assistant Professor, Radiology, 2007 (2007); MD 1998 St. George

Kader, Khalid, Adjunct Assistant Professor, Biomedical Engineering, 2001 (2001); BS 1992 Augsburg; MS 1998 Case Western Reserve; PHD 2001 Case Western Reserve

Kadera, Kelly Michele, Associate Professor, Political Science/International Programs, 1993 (2003); BA 1987 Wells; MA 1988 Illinois-Urbana; PHD 1995 Illinois-Urbana

Kading, Richard Reese, Adjunct Lecturer, Mechanical Engineering, 2008 (2008); MS 1985 Iowa

Kading, Thane Ann, Adjunct Assistant Professor, Pharmacy, 2004 (2004); PHARM 1996 Iowa

Kaduce, Ryan Louis, Lecturer, English as Second Language, 2011 (2011); BA 2008 Iowa; MA 2010 University of Iowa

Kahn, Daniel, Professor, Radiology, 1988 (2005); BS 1977 Illinois; MD 1981 Hahnemann

Kaldjian, Lauris Christopher, Professor, Internal Medicine, 2000 (2012); BS 1984 Michigan; BA 1986 Oxford; MD 1989 Michigan; MDIV 1994 Yale

Kalil, Roberto Sami, Clinical Associate Professor, Internal Medicine, 2000 (2003); MD 1985 Federal of Pelotas Brazil

Kalin, Linda B., Adjunct Instructor, Pharmacy, 2002 (2002); BSN 1979 South Dakota

Kalina, Paul R., Assistant Professor, Theatre Arts, 2009 (2009); BS 1991 Illinois State; MFA 2007 Idaho

Kallaus, Norman F., Emeritus Professor, Management Organizations, 1953 (1967); BSC 1949 Iowa; MA 1951 Iowa; PHD 1956 Iowa

Kallemeyn, Nicole Ann, Lecturer, Biomedical Engineering, 2011 (2011); BSE 2003 Dordt College; MS 2005 Iowa; PHD 2009 Iowa

Kamala, Jerusa Kokuhumbya, Adjunct Instructor, Obstetrics Gynecology, 2008 (2008); BSC 1976 St. Olaf College; BS 1976 St. Olaf College; MD 1980 Howard University

Kamath, Aparna Sameer, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MBBS 2001 Topiwala Nat Med Col

Kamath, Sameer Shantaram, Clinical Assistant Professor, Pediatrics, 2008 (2008); MD 1997 Case Western Reserve; MBBS 1997 Topiwala National Med

Kamerick, Eileen A., Adjunct Lecturer, Law-Faculty, 2007 (2007); AB 1980 Boston College; JD 1984 Chicago; MBA 1993 Chicago

Kamerick, Kathleen Clare, Lecturer, History, 1992 (1999); BA 1975 Iowa; MA 1984 Iowa; PHD 1991 Iowa

Kampf, Jack Alan, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011);

Kane, Francis Leo, Clinical Adjunct Assistant Professor, Family Medicine, 2010 (2010); BS 1982 Missouri; MD 1986 Missouri

Kane-Johnson, Nancy Jean, Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); MD 1985 Iowa

Kanellis, Michael James, Professor, Pediatric Dentistry, 1984 (2005); DDS 1979 Iowa; MS 1981 Iowa

Kang, Jiyeon, Assistant Professor, Communication Studies, 2010 (2010); BA 1999 Seoul National; MA 2001 Seoul National; PHD 2009 Illinois

Kanouse, Sarah, Assistant Professor, Art Art History, 2008 (2008); BA 1997 Yale; MFA 2004 Illinois

Kao, Simon Ching-Shun, Professor, Radiology, 1987 (1997); MBBS 1976 Hong Kong

Kapadia, Muneera Rehana, Clinical Assistant Professor, Surgery, 2010 (2010); MD 2002 Michigan

Karacay, Bahri, Adjunct Associate Professor, Pediatrics, 2005 (2012); MS 1987 Ataturk, Turkey; MS 1992 Ohio State; PHD 1996 Ohio State

Karacay, Kate C., Adjunct Lecturer, College Transition, 2011 (2011); BA 1997 Iowa; MA 2008 Iowa

Karam, Matthew, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2011 (2011); BS 2001 Iowa; MD 2005 Chicago Medical

Kienzle, George C., Emeritus Assistant Professor, Oral Path, Radiology/Medicine, 1966 (1996); DDS 1958 Iowa

Kienzle, Michael G., Professor, Internal Medicine/Health Management Policy/Nursing, 1984 (1997); BS 1973 Iowa; MD 1977 Iowa

Kieran, Kathleen, Clinical Assistant Professor, Urology/Pediatrics, 2010 (2010); MD 2002 Boston

Kijewski, Vicki J., Clinical Associate Professor, Internal Medicine/Psychiatry, 2003 (2010); MED 1990 Eastern Washington; MD 1998 Missouri

Kikkeri, Ramesh Satyanarayana, Adjunct Assistant Professor, International Programs, 2011 (2011); DIPL 2010 The Indian Inst of Bus Mngmt; MBA 2010 Indian Ist.

Killip, Devore E., Emeritus Professor, Operative Dentistry, 1966 (1972);

Kim, Chong Lim, Emeritus Professor, Political Science, 1967 (1976); BA 1960 Seoul-Korea; MA 1965 Oregon; PHD 1968 Oregon

Kim, Hyunggun, Adjunct Assistant Professor, Biomedical Engineering, 2005 (2007); BS 1997 Korea Inst. Of Science Tech; PHD 2005 Iowa

Kim, Jae Hee, Adjunct Assistant Professor, Division of Performing Arts, 2010 (2010); BA 1999 Sung-shim Women's; MA 2002 Han-Sung; MFA 2007 Iowa

Kim, Jae-On, Professor, Sociology/International Programs, 1970 (1981); BA 1961 Seoul-Korea; MS 1964 Southern Illinois; PHD 1976 California-Berkeley

Kim, Jean O., Clinical Assistant Professor, Pediatrics, 2012 (2012);

Kim, Ji-In, Assistant Professor, Psychiatry, 2010 (2010); MS 2002 London, UK; PHD 2006 Oxford, UK

Kim, Jinsuh, Assistant Professor, Radiology, 2005 (2005); MD 1993 Soonchunhyang

Kim, Kyungmin, Assistant Professor, Economics, 2010 (2010); BA 2004 Seoul National; PHD 2009 Pennsylvania

Kim, Su-Hyun, Adjunct Assistant Professor, Physics Astronomy, 2011 (2011); PHD 2004 Iowa

Kim, Yusung, Assistant Professor, Radiation Oncology, 2007 (2007); PHD 2007 Wisconsin

Kimm, Vanessa Alexandra, Clinical Instructor, Nursing, 2004 (2005); BSN 2001 Iowa; MSN 2003 Iowa

Kimmich, John, Emeritus Professor, Journalism Mass Communication, 1990 (2007); BS 1973 Illinois-Urbana; MA 1978 Purdue

Kimura, Jun, Professor, Neurology, 1972 (1977); BT 1957 Kyoto-Japan; MD 1961 Kyoto-Japan

Kimura, Ken, Emeritus Professor, Surgery, 1987 (1991); MD 1963 Kobe-Japan; PHD 1976 Kobe-Japan

Kinsey-Fields, Joni, Professor, Art Art History, 1991 (2006); BFA 1981 Tulsa; MA 1984 Washington; PHD 1989 Washington

Kiraly, John Jr., Emeritus Associate Professor, Teaching and Learning, 1970 (1974); MA 1966 Nevada; PHD 1970 Minnesota

Kirby, John R., Associate Professor, Microbiology, 2007 (2007); BS 1992 Illinois @ Champaign; PHD 1998 Illinois-Champaign

Kirby, Patricia Anne, Clinical Professor, Ophthalmology Visual Science/Pathology, 1996 (2008); MBBS 1979 Witwatersrand-South Africa; MMED 1986 Stellenbosch Med Schl-S Africa; MRC 1993 Royal College of Pathologists; FRACP 2001 Fellow of the Royal College

Kirby, Robert F., Adjunct Associate Professor, Psychology, 1990 (1996); BS 1978 Washington State; MA 1983 Virginia; PHD 1984 Virginia

Kirchhoff, Louis V., Professor, Internal Medicine/Epidemiology, 1985 (1997); AB 1966 Harvard; BA 1972 California-San Diego; MD 1977 Yale; MPH 1977 Yale

Kirchner, Peter T., Emeritus Professor, Radiology, 1981 (1983); BA 1960 Yale; MD 1964 Columbia

Kirk, Karen Iler, Professor, Communication Sciences and Disorders, 2009 (2009); BA 1978 California; MS 1987 Southern California; PHD 1991 Iowa

Kirk, William A., Emeritus Professor, Mathematics, 1967 (1970); BA 1958 DePauw; MA 1960 Missouri; PHD 1962 Missouri

Kirsch, Gwendolyn Lee, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHAR 2000 Iowa

Kirsch, Lee E., Professor, Chemical Biochemical Engineering/Pharmacy, 1994 (2010); BS 1975 Purdue; PHD 1982 Ohio State

Kirschling, Brian R., Clinical Assistant Professor, Ophthalmology Visual Science, 2000 (2000); BA 1995 Iowa; OD 1997 Illinois

Kiser, Dauna Marie, Adjunct Assistant Professor, History, 2011 (2011); PHD 2010 Iowa

Kisker, C. Thomas, Emeritus Professor, Pediatrics, 1973 (1979); BA 1958 Johns Hopkins; MD 1962 Cincinnati

Kitamoto, Toshihiro, Associate Professor, Anesthesia/Pharmacology, 2003 (2010); BS 1982 Tokyo, Japan; MS 1984 Tokyo, Japan; PHD 1987 Tokyo, Japan

Kitazaki, Satoshi, Professor, Neurology, 2012 (2012);

Kitchen, Andrew, Assistant Professor, Anthropology, 2012 (2012);

Kittleson, Judith, Clinical Adjunct Instructor, Pathology, 2010 (2010); BS 1977 Augustana

Kittrell, Tracy Marie, Adjunct Associate Professor, Family Dentistry, 1986 (2012); BS 1982 Iowa; DDS 1985 Iowa

Kitzman, Dennis William, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHAR 2005 Iowa

Kitzmann, Anna Sara, Assistant Professor, Ophthalmology Visual Science, 2009 (2009); BA 1999 Carleton College; MD 2003 Mayo Medical

Klahn, Jeff E., Adjunct Lecturer, Biology, 1990 (1997); PHD 1981 Iowa

Klapper, Gilbert, Emeritus Professor, Geoscience, 1968 (1973); BS 1956 Stanford; MS 1958 Kansas; PHD 1962 Iowa

Klasson, Charles, Emeritus Professor, Management Organizations, 1967 (1967);

Klaus, Carl H., Emeritus Professor, English, 1962 (1973); BA 1953 Michigan; MA 1954 Michigan; PHD 1966 Cornell

Kleiber, Charmaine Marie, Emeritus Associate Professor, Nursing, 2000 (2004); BSN 1973 Kansas; MS 1979 Colorado; PHD 1999 Iowa

Kleiber, Paul D., Professor, Physics Astronomy, 1985 (1993); BA 1976 Occidental; MS 1980 Colorado; PHD 1981 Colorado

Klein, Dennis, Clinical Adjunct Assistant Professor, Pathology, 2002 (2002); BA 1987 Bowdoin College, Maine; MD 1992 Vermont

Klein, John, Clinical Adjunct Assistant Professor, Family Medicine, 2002 (2002); BS 1984 Rocky Mount, College, MT.; MD 1994 Utah

Klein, Jonathan M., Associate Professor, Pediatrics, 1990 (1997); BA 1980 Johns Hopkins; MD 1984 Medical College of VA

Klein, Philip W., Emeritus Associate Professor, Spanish Portuguese, 1977 (1984); BA 1962 Grinnell; MA 1968 Washington; PHD 1974 Washington

Kleinfeld, Erwin, Emeritus Professor, Mathematics, 1968 (1968); BS 1948 City College of New York; MA 1949 Pennsylvania; PHD 1951 Wisconsin

Kleinfeld, Margaret, Emeritus Professor, Mathematics, 1968 (1996); BA 1960 Rochester; MS 1963 Syracuse; PHD 1965 Syracuse

Kleinschmit, Julia L., Clinical Associate Professor, Social Work, 1999 (2009); BS 1990 Nebraska; MSW 1997 Iowa

Klemm, David Eugene, Emeritus Professor, Religion, 1982 (1994); BA 1972 Marlboro; PHD 1980 Iowa

Klemuk, Sarah Allison, Adjunct Assistant Professor, Communication Sciences and Disorders, 2007 (2007); BA 1989 Northern Iowa; BS 2000 Iowa; PHD 2007 Iowa

Klesney-Tait, Julia, Assistant Professor, Internal Medicine, 2007 (2007); BA 1990 Creighton; MD 1998 UT Southwestern Med; PHD 1998 UT Southwestern Med Ctr

Kletzing, Craig, Professor, Physics Astronomy, 1996 (2005); BA 1981 California-Berkeley; MS 1983 California-San Diego; PHD 1989 California-San Diego

Kline, Bruce Richard, Adjunct Lecturer, Economics/Finance, 2011 (2011); MBA 1984 Northwestern

Kline, Joel N., Professor, Inst for Clinical and Translational Science/Internal Medicine/Occupational Environmental Health, 1993 (2005); BA 1983 Brown; MD 1986 Brown

Klingelutz, Aloysius John, Associate Professor, Radiation Oncology/Microbiology, 1999 (2006); BS 1986 St Johns; PHD 1991 Wisconsin

Klingler, George S., Emeritus Associate Professor, Communication Studies, 1974 (1982); BA 1962 Bucknell; PHD 1974 Iowa

Klink, William H., Emeritus Professor, Physics Astronomy, 1965 (1976); BA 1959 Michigan; PHD 1964 Johns Hopkins

Klise, Kurt J., Clinical Adjunct Assistant Professor, Family Medicine, 1997 (2002); BA 1978 Washburn; MD 1982 Kansas

Klitgaard, Christopher Michael, Adjunct Lecturer, Health Management Policy, 2008 (2008); BBA 1996 Iowa; MBA 1998 Iowa; MHA 1999 Iowa

Klitgaard, Erin Christine Johnson, Adjunct Assistant Professor, Management Organizations, 2006 (2006); BBA 2000 Iowa; PHD 2006 Iowa

Klobucar, Thomas Francis, Adjunct Assistant Professor, Political Science/Health Management Policy, 2003 (2003); BA 1987 Angelo State; MA 1995 Iowa; PHD 2003 Iowa

Kluber, Dawn Tuttle, Adjunct Lecturer, Management Organizations, 2012 (2012); BBA 1983 The University of Iowa; BA 1983 The University of Iowa; MBA 1990 Case Western Reserve University

Klug, Beverly Jean Eubank, Adjunct Lecturer, Psychiatry/University College, 1999 (1999); BS 1974 Iowa; MA 1985 Iowa

Klutts, James Stacey, Assistant Professor, Pathology, 2007 (2007); PHD 2002 Arkansas; MD 2002 Arkansas

Knabe, Judith M., Adjunct Instructor, Communication Sciences and Disorders, 1985 (1996); BA 1963 Indiana; MS 1964 Wisconsin

Knapp, L. W. Jr., Emeritus Professor, Occupational Environmental Health, 1959 (1969); BS 1951 Cornell; MS 1955 Cornell

Knesting, Kimberly, Lecturer, Teaching and Learning, 2010 (2010); BA 1990 Carthage; PHD 2000 Indiana

Knight, Anthony Wayne, Adjunct Instructor, Radiology, 2010 (2010); BS 1978 Iowa; MBA 1987 Iowa

Knight, Megan Linnet, Lecturer, Rhetoric, 1998 (2001); MFA 1998 Iowa

Knockel, Laura E., Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARM 2005 Iowa

Knorr, George, Emeritus Professor, Physics Astronomy, 1967 (1974); BS 1954 Inst of Technol Munich-Germany; PHD 1963 Inst of Technol Munich-Germany

Knudson, Beth Rydstrom, Adjunct Lecturer, Management Organizations, 2008 (2008); BS 1985 Indiana; MBA 1988 Iowa

Knudson, C. Michael, Associate Professor, Radiation Oncology/Pathology, 1998 (2005); BSE 1984 Iowa; MD 1992 Iowa; PHD 1992 Iowa

Knudson, Mary Kay, Adjunct Assistant Professor, Economics, 2006 (2006); BS 1981 Minnesota; MS 1983 Wisconsin; PHD 1988 Minnesota

Knudtson, Linda M., Lecturer, Microbiology, 2003 (2003); BS 1986 IOWA STATE; PHD 1992 IOWA STATE

Knudtson, Nancy Ann, Adjunct Instructor, Nursing, 2001 (2001); MS 1995 South Dakota State

Knutson, John, Emeritus Professor, Psychology, 1969 (1981); BA 1964 Augustana; MS 1967 Washington State; PHD 1969 Washington State

Koch, Brenton Berl, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2003 (2003); BA 1989 Drake; MD 1995 Iowa

Koch, Yvonne Deslover, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 2000 Iowa

Kochanska, Grazyna, Professor, Psychology, 1991 (1995); MA 1974 Warsaw-Poland; PHD 1979 Warsaw-Poland

Koehn, Darcy Lu Brown, Adjunct Assistant Professor, Nursing, 1988 (2007); MA 1987 Iowa

Koehn, Eric M., Adjunct Instructor, Chemistry, 2012 (2012); BS 2007 University of Iowa

Koehn, Katherine Louise, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPH 1996 South Dakota State; PHARM 1998 South Dakota State

Koerner, David R., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); BSW 1973 Bluffton; ADN 1979 Shepard

Koerner, Seth David, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); BSPH 1982 Iowa

Koerner, Theodore Alfred William, Emeritus Associate Professor, Pathology, 1986 (1988); BS 1970 Louisiana State; PHD 1975 Louisiana State; MD 1978 Tulane

Kohatsu, Neal, Adjunct Associate Professor, Epidemiology, 2003 (2003); BA 1978 Stanford; MD 1982 Pittsburgh; MPH 1985 Minnesota

Kohen, Amnon, Professor, Chemistry, 1999 (2010); BSC 1989 Hebrew; DSC 1994 Technion-Israel

Kohler, Connie Louise, Adjunct Associate Professor, Community Behavioral Health, 2008 (2008); BA 1973 Iowa; MA 1978 Iowa; PHD 1991 UAB

Kohnen, Terrence Joseph, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BS 1998 Iowa; PHARM 2003 Iowa

Kohout, Frank J., Emeritus Professor, Periodontics, 1969 (1988);

Koland, John G., Associate Professor, Pharmacology/Internal Medicine, 1990 (1996); BS 1977 Minnesota; PHD 1983 Illinois-Urbana

Kolar, Anne F., Adjunct Assistant Professor, Psychiatry, 2003 (2003); BS 1979 Iowa; MD 1983 Iowa

Kolder, Veronika E., Clinical Assistant Professor, Obstetrics Gynecology, 1995 (2008); MD 1983 IOWA

Kolen, Michael J., Professor, Psych Quant Foundations, 1984 (1997); BS 1973 Iowa; MA 1975 Arizona; PHD 1979 Iowa

Koleva, Hristina K., Clinical Assistant Professor, Psychiatry, 2010 (2010); MD 2003 Sofia, Bulgaria

Kolker, Justine Lane, Associate Professor, Operative Dentistry, 2005 (2010); DDS 1996 Iowa; MS 2000 Iowa; PHD 2003 Iowa

Kollmorgen, Daniel Robert, Clinical Adjunct Associate Professor, Surgery, 2004 (2012); MD 1990 Iowa

Komisaruk, Catherine, Associate Professor, History, 2006 (2012); AB 1988 Harvard; MA 1994 California @ Los Angeles; PHD 2000 California @ Los Angeles

Kopelman, Robin Cook, Clinical Assistant Professor, Psychiatry, 2003 (2006); BA 1995 Grinnell; MD 1999 Iowa

Kopelman, Todd G., Adjunct Assistant Professor, Psych Quant Foundations/Pediatrics, 2010 (2010); BA 1996 Grinnell; MSW 1998 Iowa; PHD 2005 Iowa

Kopelson, Kevin R., Professor, English, 1992 (2004); BA 1979 Yale; JD 1982 Columbia; MA 1988 Brown; PHD 1991 Brown

Kopp, Ulla C., Emeritus Professor, Pharmacology/Internal Medicine, 1988 (2006); BSC 1970 Uppsala-Sweden; PHD 1980 Gothenburg-Sweden

Kornegay, Vance L., Adjunct Professor, Journalism Mass Communication, 2010 (2010); BS 1981 South Carolina; MA 1988 South Carolina

Korpel, Adrianus, Emeritus Professor, Electrical-Computer Engineering, 1977 (1977); BS 1953 DELFT-Netherlands; MS 1955 DELFT-Netherlands; PHD 1969 DELFT-Netherlands

Kortanek, Kenneth O., Emeritus Professor, Management Sciences, 1986 (1986); BS 1958 Northwestern; MS 1959 Northwestern; PHD 1964 Northwestern

Korthank Gabaldon, Amy Johanna, Adjunct Lecturer, College Transition, 2005 (2005); BS 1994 New Mexico; MA 1997 Iowa

Kostina, Irina, Lecturer, Asian Slavic Languages Literature, 2001 (2001); PHD 1985 Pushkin

Kottick, Edward L., Emeritus Professor, Music, 1968 (1976);

Kottman, E. John, Emeritus Associate Professor, Marketing, 1956 (1967); BA 1949 Iowa; MA 1956 Iowa; PHD 1963 Iowa

Kovaleski, Thomas, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); DDS 1978 Minnesota

Kovenock, Daniel John, Professor, Political Science/Economics, 2008 (2008); BSC 1977 Hebrew Univ. of Jerusalem; PHD 1983 Wisconsin - Madison

Kowal, Rebekah J., Associate Professor, Dance, 2001 (2009); BA 1988 Barnard-Columbia; PHD 1999 New York

Kozak, Kari A., Adjunct Lecturer, University College, 2011 (2011); BS 2005 Iowa State; MS 2007 North Carolina

Kraft, Nancy E., Adjunct Instructor, Interdisciplinary Programs/Library Information Science, 2005 (2005); BA 1975 South Dakota; MA 1980 Iowa

Kragenbrink, David Eugene, Clinical Adjunct Assistant Professor, Pediatrics, 2002 (2009); BS 1987 IOWA; MD 1991 IOWA

Kraimer, Maria Lisa, Professor, Management Organizations, 2008 (2012); MBA 1994 Illinois @ Chicago; PHD 1999 Illinois @ Chicago

Krajewski, Witold F., Professor, Civil-Environmental Engineering, 1987 (1996); MS 1976 Warsaw University of Technology; PHD 1980 Warsaw University of Technology

Kral, Lee A., Adjunct Assistant Professor, Anesthesia/Pharmacy, 2003 (2003); BSPH 1993 Iowa; PHARM 1996 Iowa

Krasowski, Matthew David, Clinical Associate Professor, Pathology, 2009 (2011); MD 2001 Chicago

Krause, Kevin William, Adjunct Lecturer, Management Organizations, 2011 (2011); BS 1982 Iowa; JD 1985 Iowa

Kreder, Gay Denise Schroeder, Adjunct Lecturer, Law-Faculty, 1995 (1995); BS 1990 Coe; JD 1993 Iowa

Kreder, Karl, Professor, Urology/Obstetrics Gynecology, 1992 (1999); BA 1977 Assumption-Massachusetts; MD 1981 Georgetown; MBA 2007 University of Iowa

Kregel, Kevin C., Professor, Health and Human Physiology/Radiation Oncology, 1993 (2001); BS 1981 Iowa; PHD 1987 Iowa

Kreiter, Clarence Dennis, Professor, Family Medicine, 2000 (2008); BS 1977 Iowa; MA 1985 Iowa; PHD 1993 Iowa

Krell, Keith V., Adjunct Professor, Endodontics, 1975 (2003); BA 1970 Washington-St. Louis; MA 1975 United States International; DDS 1981 Iowa; MS 1983 Iowa

Kremenak, Charles R., Emeritus Professor, Orthodontics/Otolaryngology-Head Neck Surgery, 1959 (1973); DDS 1955 Iowa; MS 1961 Iowa

Kresnicka, David E., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BA 1969 Illinois; MD 1973 Illinois

Kresowik, Timothy F., Professor, Radiology/Surgery, 1988 (2001); BS 1976 Michigan; MD 1980 Michigan; MS 1984 Michigan

Kreyd, Vadim, Emeritus Professor, Russian, 1985 (1993); MA 1960 Leningrad-Russia; PHD 1983 Michigan

Kreze, Melissa, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Kriener, Rene L., Clinical Adjunct Instructor, Nursing, 2011 (2011); BSN 2000 Iowa

Krigsten, Lisa Michelle, Adjunct Lecturer, Law-Faculty, 2009 (2009); BA 1992 Kansas; JD 1995 Iowa College of Law

Krishnamurthy, Muthukrishnan, Assistant Professor, Mathematics, 2006 (2006); BTECH 1996 Indian Inst of Tech; PHD 2002 Purdue

Krishnan, Sundar, Clinical Assistant Professor, Anesthesia, 2009 (2010); MBBS 1995 New Delhi, India; MD 2001 New Delhi, India

Kristof-Brown, Amy, Professor, Management Organizations, 1997 (2008); BS 1992 Richmond; PHD 1997 Maryland

Krogmeier, Charles John, Adjunct Assistant Professor, Political Science, 2011 (2011); BA 1971 Iowa; JD 1974 Drake

Krokhmal, Pavlo, Associate Professor, Industrial Engineering, 2005 (2011); MS 1996 Kiev National; PHD 1999 Kiev National; PHD 2003 Florida

Krueger, Adam Charles, Adjunct Assistant Professor, Art Art History, 2009 (2009); BFA 2001 SUNY - Fredonia; MA 2005 Iowa; MFA 2006 University of Iowa

Kruger, Anton, Associate Professor, Civil-Environmental Engineering/Electrical-Computer Engineering, 1996 (2006); MENG 1986 Potchefstroom University (RSA); PHD 1992 Iowa

Kruger, Marie, Associate Professor, International Programs/English, 2004 (2011); MA 1995 Zu Koln, Germany; MA 2000 Wisconsin; PHD 2001 Wisconsin

Krummel, Michelle Leigh, Adjunct Assistant Professor, Pharmacy, 2007 (2007); BSPH 1993 Iowa

Krupp, Jennifer Lynn, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Kruse, Louise G., Emeritus Assistant Professor, Nursing, 1972 (1975); BSN 1961 Mankato State; MA 1972 Iowa

Kruse, Terese Nickol, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2006 Iowa

Kuehn, David Michael, Clinical Associate Professor, Radiology, 2002 (2005); BS 1987 Iowa; MD 1992 Iowa

Kuehn, Markus H., Associate Professor, Ophthalmology Visual Science, 2007 (2012); PHD 2000 Saint Louis

Kuenzli, Rudolf E., Emeritus Professor, English, 1970 (1982); LIC 1964 Zurich; MA 1968 Wisconsin; MA 1969 Wisconsin; PHD 1971 Wisconsin

Kuffel, Mary E., Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1999 (1999); MD 1993 Iowa

Kuhar, James, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 1969 Marquette

Kuhl, Jon Gregory, Professor, Electrical-Computer Engineering/Public Policy Center, 1980 (1992); BS 1975 Iowa; MS 1977 Iowa; PHD 1980 Iowa

Kuhn, Jerry N., Emeritus Professor, Educ Policy Leadership Studies/Teaching and Learning, 1954 (1964); BA 1948 Central Missouri; MA 1951 Central Missouri; PHD 1954 Iowa

Kuhn, Stephanie, Adjunct Lecturer, College Transition, 2008 (2008); MS 2005 Indiana

Kulig, Carmen L., Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2002 Drake

Kumar, Naresh, Adjunct Assistant Professor, Geography, 2005 (2005); MA 1990 Maharshi Dayanand India; MPHIL 1992 Maharshi Dayanand, India; PHD 1999 Durham, UK

Kumar, Priya, Associate Professor, English, 2000 (2007); BA 1992 Lady Shri Ram; MA 1994 Jawaharal Nehru

Kumar, Sudhir, Clinical Adjunct Assistant Professor, Internal Medicine, 2010 (2010); MBBS 1992 Bangalore Medical

Kumar, Vijay, Associate Professor, Pharmacy, 1992 (2002); BS 1970 Kanpur; MS 1972 Lucknow; PHD 1976 Lucknow; PHD 1981 Concordia

Kumbera, Patty A., Adjunct Assistant Professor, Pharmacy, 2000 (2004); BS 1988 Drake

Kunert, Pamela Joan, Clinical Adjunct Instructor, Nursing, 2004 (2004); BSN 1997 Lincoln, Missouri; MSN 2001 Iowa

Kuntz, J. Kenneth, Emeritus Professor, Religion, 1967 (1976); BA 1956 Grinnell; BD 1959 Yale; PHD 1963 Union Theological Seminary

Kunze, Kent E., Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); BA 1980 Wesleyan; MD 1984 Iowa

Kuperman, Samuel, Professor, Psychiatry/Pediatrics, 1983 (2000); BA 1975 Iowa; MD 1978 Iowa

Kupersmith, William R., Emeritus Professor, English, 1972 (1981); BA 1963 Georgetown; PHD 1969 Texas

Kuppachi, Sarat, Clinical Assistant Professor, Internal Medicine, 2011 (2011); MBBS 1998 Christian Med, India; MBBS 1998 Christian Medical Coll, India

Kurt, Jennifer Marie, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1996 Iowa

Kurth, Jada Irene, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BA 2005 St. Thomas; DDS 2009 Iowa

Kurth, William S., Adjunct Professor, Physics Astronomy, 2006 (2006); BA 1973 Iowa; MS 1975 Iowa; PHD 1979 Iowa

Kurtt, Jody Lyn, Clinical Adjunct Assistant Professor, Nursing, 1992 (2001); BSN 1977 Coe; MA 1990 Iowa

Kurtz, Sheldon F., Professor, Law-Faculty/Surgery, 1973 (1976); AB 1964 Syracuse; LLB 1967 Syracuse; JD 1967 Syracuse

Kusiak, Andrew, Professor, Industrial Engineering/Nursing, 1988 (1988); BSC 1972 Warsaw Technical; MSC 1974 Warsaw Technical; PHD 1979 Polish Academy of Science

Kutcher, Patricia M., Adjunct Instructor, Health and Human Physiology, 1987 (1998); BS 1975 Iowa

Kuthy, Raymond A., Professor, Preventive Community Dentistry/Public Policy Center, 1999 (1999); BS 1969 Mount St. Mary's; DDS 1973 Temple; MPH 1979 Minnesota

Kutzbach, Beth Renae, Assistant Professor, Ophthalmology Visual Science, 2011 (2011); MD 2005 Iowa

Kuye, Rex, Adjunct Assistant Professor, Occupational Environmental Health, 2011 (2011); MPH 1997 Tulane; PHD 2005 Iowa

Kvidera, Allen Paul, Adjunct Assistant Professor, Periodontics, 1986 (1986); PHD 1980 Iowa

Kwak, Emily Y., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Kwirant, James A., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1983 Nebraska

Kwitek, Anne Emilie, Associate Professor, Pharmacology/Internal Medicine/Physiology, 2007 (2007); BS 1989 Wisconsin @ Stevens Point; PHD 1996 Iowa

Kwon, Young H., Professor, Ophthalmology Visual Science, 1996 (2008); BS 1984 MIT; MD 1991 Yale; PHD 1991 MIT

Kydd, Christine T., Adjunct Professor, Management Sciences, 2011 (2011); PHD 1984 Pennsylvania

Kyles, Barbara June, Lecturer, Nursing, 2004 (2005); BSN 1981 Minnesota; MBA 1993 St. Thomas, MN

Kyser, Kathy, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 2012 (2012); BSN 1985 State University of New York; MD 2004 Uniformed Services University

La Tocha, Demetrius, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BA 1996 St. Mary's of Winona; DDS 2001 Iowa

Labrecque, Douglas R., Professor, Internal Medicine, 1977 (1988); BS 1965 Boston College; MD 1970 Stanford

Ladien, Franklin Joseph, Adjunct Instructor, Pharmacy, 2009 (2009); BSPH 1977 Wisconsin

Lafky, Sue A., Emeritus Associate Professor, Gender, Women's and Sexuality Studies, 1990 (1996); BS 1975 Oregon; MA 1986 Indiana; PHD 1990 Indiana

Lagos Lavenz, Susan Marie, Clinical Professor, Educ Policy Leadership Studies, 2003 (2011); BA 1972 St Mary of the Woods; MA 1975 Iowa; PHD 1985 Iowa

Lai, Brian H., Associate Professor, Political Science/International Programs, 2001 (2007); BA 1996 Northwestern; PHD 2001 Emory

Lainson, Phillip A., Emeritus Professor, Periodontics, 1965 (1975); BA 1960 Iowa; DDS 1962 Iowa; MS 1968 Iowa

Lake, Sharon Marie Rose Killeen, Adjunct Assistant Professor, American Studies, 2011 (2011); BA 1981 Iowa; MA 2004 Iowa; PHD 2010 Iowa

Lakin, Jean A., Emeritus Associate Professor, Nursing, 1967 (1988); BSN 1959 Michigan; PHD 1962 Iowa; MS 1967 Michigan

Lal, Geeta, Associate Professor, Surgery, 2004 (2012); MD 1995 Toronto; MS 1999 Toronto

Laleman, Melissa Marie, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012);

Lalumiere, Ryan T., Assistant Professor, Psychology, 2010 (2010); BS 2000 Mt. St. Mary's College; BA 2000 Mt. St. Mary's; PHD 2005 California @ Irvine

Lamping, Kathryn G., Associate Professor, Pharmacology/Internal Medicine, 1989 (2001); BS 1976 Illinois-Urbana; MS 1982 Milwaukee Medical; PHD 1983 Milwaukee Medical

Lampiris, Lewis N., Adjunct Instructor, Preventive Community Dentistry, 2001 (2001);

Lance, George M., Emeritus Professor, Mechanical Engineering, 1961 (1970); BSME 1952 Case Institute of Technology; MS 1954 Cast Inst. Of Technology

Landini, Gregory, Professor, Philosophy, 1989 (2001); AB 1978 Indiana; MA 1981 Indiana; PHD 1986 Indiana

Landon, Richard B., Professor, English/University College, 1978 (1991); BA 1970 Centre; MA 1973 Texas-Austin; PHD 1978 Texas-Austin

Landsman, Miriam Joy, Associate Professor, Social Work, 1988 (2007); BA 1976 Delaware; MSW 1982 Iowa; PHD 2000 Iowa

Lang, Cornelia, Associate Professor, Physics Astronomy, 2002 (2010); BA 1995 Vassar; MS 1997 California-Los Angeles; PHD 2000 California-Los Angeles

Lang, Joseph B., Professor, Statistics Actuarial Science/Biostatistics, 1992 (2006); BA 1986 St. Cloud State; MS 1988 Florida; PHD 1992 Florida

Lang, Kenneth, Adjunct Professor, University College, 2010 (2010); BS 1959 Iowa State; MS 1966 Iowa; PHD 1970 Iowa

Langbehn, Douglas Robert, Professor, Psychiatry, 1994 (2009); BA 1983 Drake; MD 1987 Iowa; MS 1988 Iowa; PHD 1996 Iowa

Langguth, Nancy J., Clinical Associate Professor, Teaching and Learning, 2003 (2009); BS 1980 Iowa State; MS 1986 NW Missouri; PHD 1996 Iowa

Langworthy, Sara Ann, Lecturer, Interdisciplinary Programs, 2006 (2007); AB 1994 Grinnell

Lanning, Lynne Dorris, Clinical Adjunct Instructor, Nursing, 2011 (2011); BSN 1977 Duke; JD 1983 Texas Southern

Lannoo, Michael J., Adjunct Professor, University College, 2010 (2010); BS 1979 Iowa State; MS 1982 Iowa State; PHD 1986 Dalhousie (Halifax N.S.)

Lansing, Kimberly M., Clinical Adjunct Assistant Professor, Family Medicine, 2006 (2006); MS 1988 Penn State; PHD 1992 Hawaii at Manoa; MD 1995 Hawaii at Manoa

Lanternier, Matthew Lyman, Clinical Assistant Professor, Family Medicine, 2000 (2000); BS 1992 Indiana; MD 1999 Iowa

Lara-Braud, Carolyn W., Emeritus Associate Professor, Health, Sport Studies, 1975 (1980); BA 1962 Texas; PHD 1969 Texas

Larew, Mary Spalding, Clinical Associate Professor, Pediatrics, 1985 (2004); BA 1974 Iowa; MD 1978 Iowa

Larkin, Leah, Adjunct Instructor, Preventive Community Dentistry, 2009 (2009); BS 2005 Marquette; DDS 2008 Marquette

Laroche, Helena Hillman, Assistant Professor, Internal Medicine/Pediatrics, 2006 (2009); BA 1994 Brown; MD 1999 Missouri Medical School

Laroia, Archana, Clinical Assistant Professor, Radiology, 2009 (2009); MBBS 1989 Gov Med College - India

Laroia, Sandeep, Clinical Assistant Professor, Radiology, 2009 (2009); MD 1987 Indira Gandhi Med College; MBBS 1987 Himachal State, India

Laronde, Michel S., Professor, International Programs/French Italian, 1982 (2009); LIC 1971 Clermont-Ferrand; MA 1976 Indiana; PHD 1981 Indiana

Larpenteur, Wilene Elaine, Adjunct Instructor, Health and Human Physiology, 2011 (2011); BS 1995 Iowa State; MS 1999 Iowa State

Larsen, Bryan, Adjunct Professor, Pediatrics, 2011 (2011); BS 1971 Iowa; MS 1973 Iowa; PHD 1976 Iowa

Larsen, Russell G., Lecturer, Chemistry, 1995 (2000); PHD 1992 Harvard

Larsen, Sarah C., Professor, Chemistry, 1995 (2008); BA 1986 Bowdoin; PHD 1992 Harvard

Larsen, Stacey Lynn, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); AS York Technical; BA 1995 Iowa; AS 1997 York Technical College

Larson, Brandy Leeann, Adjunct Assistant Professor, Preventive Community Dentistry, 2010 (2010); BS 1997 Iowa State; DDS 2003 Iowa

Larson, Charles L., Adjunct Lecturer, College Transition, 2011 (2011); BA 1990 Iowa; MA 1993 Iowa

Larson, Charles Chester, Clinical Adjunct Assistant Professor, Internal Medicine, 1990 (1990); MD 1982 Iowa

Larson, Lois Terri, Adjunct Lecturer, Management Organizations, 2010 (2010); MA 1984 Iowa

Larson, Michelle Anne, Adjunct Assistant Professor, Biostatistics, 2003 (2003); BS 1989 Iowa; MS 1994 Iowa; PHD 2002 Iowa

Larson, Paula Ann, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1998 Iowa

Larson, Scott A., Clinical Associate Professor, Ophthalmology Visual Science, 2012 (2012);

Larson, Shelly Kay, Adjunct Instructor, Pharmacy, 2007 (2007); BSPH 1987 South Dakota State

Larson Ode, Katie Marie Uling, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2005 Wisconsin; MS 2011 Minnesota

Lary, Susan Virginia, Clinical Adjunct Instructor, Nursing, 1994 (1994); BSN 1987 Iowa

Laser, Jessica Rae, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Latcham, Allan P., Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2004); BA 1984 Wartburg; MD 1988 Iowa

Laughrun, David, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BS 1985 California; MD 1990 George Washington

Lauhon, Carol Sinclair Cameron, Adjunct Assistant Professor, English, 2006 (2006); PHD 2005 Iowa

Laun, Bobbi, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); BS 2006 Nebraska; DDS 2010 Nebraska Med Ctr

Laur, John J., Clinical Assistant Professor, Anesthesia, 2008 (2009); AS 1997 Milwaukee Area Tech; BS 1999 Marquette; MD 2003 Wisconsin; MSCI 2010 University of Iowa

Laurian, Lucie, Associate Professor, Urban Regional Planning/Public Policy Center, 2004 (2009); PHD 2001 U of N. Carolina Chapel Hill

Lavelle, William E., Emeritus Professor, Prosthodontics/Otolaryngology-Head Neck Surgery, 1967 (1977); DDS 1962 Iowa; BA 1962 Iowa; MS 1967 Iowa

Lavezzo, Kathryn, Associate Professor, English, 1999 (2006); BA 1988 Calif-Los Angeles; MA 1991 Virginia; PHD 1999 Calif-Santa Barbara

Lavin, Mildred H., Emeritus Assistant Professor, Psych Quant Foundations, 1971 (2002);

Lavine, Derick, Adjunct Instructor, Art Art History, 1999 (1999); BA 1989 Macalester

Law, Ian Harry, Clinical Professor, Pediatrics, 2000 (2010); BSE 1988 Iowa; MD 1993 Iowa

Lawler, Ericka, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2006 (2006); BS 1996 Yale; MD 2000 New York UNI

Lawrence, Erika, Associate Professor, Psychology, 2001 (2009); BA 1992 Emory; MA 1996 UCLA; PHD 2001 UCLA

Lawrence, Jean Clair, Clinical Adjunct Lecturer, Law-Faculty, 2011 (2011); BS 1976 Michigan State University; BA 1976 Michigan State; JD 1980 Iowa

Lawrence, Todd Kenneth, Clinical Adjunct Assistant Professor, Family Medicine, 2007 (2007); BS 1996 Mount Mercy; MD 2001 Iowa

Lawrence, Walter Thomas, Professor, Surgery, 2010 (2010); MD 1976 Virginia

Lawton, William J., Emeritus Associate Professor, Internal Medicine, 1973 (1982); BA 1963 Northwestern; MD 1966 Northwestern

Lear, Bridget C., Assistant Professor, Biology, 2010 (2010); BS 1995 Cal - Los Angeles; PHD 2001 Chicago

Leblond, Richard F., Clinical Professor, Internal Medicine, 1996 (1996); AB 1969 Princeton; MD 1972 Washington-Seattle

Lecuona, Rene Joan, Professor, Music, 1990 (2007); BM 1985 Indiana; MM 1987 Indiana

Leddy, Johna, Associate Professor, Chemistry, 1991 (1997); BA 1978 RICE; PHD 1984 Texas

Lederhaas, George, Clinical Adjunct Assistant Professor, Anesthesia, 1998 (1998); BS 1984 Miami, FL; MD 1989 Miami

Lediaev, John P., Emeritus Associate Professor, Mathematics, 1967 (1971); BA 1963 Occidental; MA 1965 Calif-Riverside; PHD 1967 Calif-Riverside

Ledolter, Johannes, Professor, Management Sciences/Statistics Actuarial Science, 1978 (1987); MS 1972 Wisconsin; MRSO 1974 Vienna-Austria; PHD 1975 Wisconsin

Lee, Amy, Associate Professor, Biomedical Engineering/Neurology/Physiology/Otolaryngology-Head Neck Surgery, 2008 (2008); BS 1990 Michigan; PHD 1997 Virginia

Lee, Andrew G., Adjunct Professor, Ophthalmology Visual Science, 2000 (2004); BA 1985 Virginia; MD 1989 Virginia

Lee, Gloria, Associate Professor, Internal Medicine, 1998 (1998); PHD 1981 Harvard

Lee, Hosin, Professor, Civil-Environmental Engineering/Public Policy Center, 1999 (2010); BS 1980 Seoul National; MS 1981 Stanford; PHD 1985 Texas-Austin

Lee, Jennifer Ellen, Adjunct Assistant Professor, Nursing, 2012 (2012); MA 2001 University of Dayton; MA 2005 University of Iowa; PHD 2008 University of Iowa

Lee, John D., Adjunct Professor, Industrial Engineering, 1998 (2001); BA 1987 Lehigh; BS 1988 Lehigh; MS 1989 Illinois; PHD 1992 Illinois

Lee, Kathy Jo, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Lee, Larry D., Adjunct Instructor, Pharmacy, 2004 (2004); BSPH 1972 Iowa

Lee, Phillip C., Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 1991 (2001); MD 1981 Iowa

Lee, Robert A., Clinical Adjunct Assistant Professor, Family Medicine, 2002 (2002); MD 1988 Iowa

Lee, Sang Hak, Assistant Professor, Marketing, 2012 (2012);

Lee, Won-Chan, Associate Professor, Psych Quant Foundations, 2008 (2010); BA 1991 Kyungpook National; MS 1994 Oklahoma; PHD 1998 Iowa

Leger, Pierre-Majorique, Adjunct Professor, Management Sciences, 2010 (2010); PHD 2002 Ecole Polytech de Montrea

Legge, Kevin L., Associate Professor, Microbiology/Pathology, 2004 (2010); BS 1994 Knoxville, Tenn; PHD 2000 Tenn., Knoxville

Leggett, John W., Emeritus Professor, English, 1970 (1975); AB 1942 Yale

Legler, Allison A., Clinical Assistant Professor, Dermatology, 2012 (2012);

Lehman, Linda Jean, Clinical Adjunct Assistant Professor, Ophthalmology Visual Science, 2004 (2004); BA 1981 Luther College; MS 1983 Iowa State; MD 1991 Iowa

Lehmann, Brian Howard, Lecturer, Educ Policy Leadership Studies/Teaching and Learning, 2006 (2012); BA 1975 Iowa; MA 1978 Iowa

Lehmann, Susan P., Clinical Assistant Professor, Nursing, 1978 (2005); BSN 1975 Loyola; MSN 1979 Loyola

Lehmle, Hans-Joachim, Associate Professor, Occupational Environmental Health, 2003 (2010); BS 1990 Bonn, Germany; MS 1993 Bonn, Germany; PHD 1995 Bonn, Germany

Lehnert, Dawn, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); BA 1993 Drake

Leicht, Brenda M. G., Lecturer, Biology, 1998 (1998); BS 1981 Creighton; PHD 1987 Indiana

Leicht, Kevin, Professor, Sociology/Public Policy Center, 1996 (2000); BS 1981 Creighton; MA 1983 Indiana; PHD 1987 Indiana

Leidal, Rebecca R., Clinical Assistant Professor, Family Medicine, 2011 (2011); BS 1980 Iowa; MD 1986 Iowa

Leinen, Katherine Sue, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); DO 2007 Des Moines

Leira, Enrique Carlos, Associate Professor, Neurology, 2004 (2012); MD 1988 Universidad de Santiago; MS 2007 University of Iowa - Epidemiol

Leisure, Mary Jill, Adjunct Assistant Professor, Pharmacy, 1997 (2006); BSPH 1991 South Dakota State; PHARM 2003 Iowa

Leisy, Robert Henry, Clinical Adjunct Assistant Professor, Internal Medicine, 2001 (2001); DO 1985 Des Moines Osteopathic

Lembke, Valdean C., Emeritus Professor, Accounting, 1968 (1982); BS 1962 Iowa State University; MBA 1965 Univ. of Michigan; PHD 1969 Univ. of Michigan

Lemburg, Lucas Anthony, Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); AA 2002 Scott Community College; DDS 2008 Iowa

Lemon, David K., Clinical Adjunct Assistant Professor, Internal Medicine, 1977 (1977); MD 1972 Iowa

Lenert, Petar, Clinical Associate Professor, Internal Medicine, 2002 (2012); MD 1979 Novi Sad; MSC 1981 Belgrade; PHD 1991 Novi Sad

Leno, Gregory Herbert, Adjunct Associate Professor, Anatomy Cell Biology, 2004 (2010); BS 1981 NORTH DAKOTA; MS 1984 NORTH DAKOTA; PHD 1988 MED UNIV-SOUTH CAROLINA

Lensink, Stephen C., Adjunct Assistant Professor, Anthropology, 1983 (1988); BS 1968 Iowa State; MA 1976 Iowa; PHD 1984 Iowa

Lenth, Larry Eugene, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2006 (2006); DDS 1985 Iowa

Lenth, Russell V., Professor, Statistics Actuarial Science, 1975 (2005); BS 1970 New Mexico; MA 1972 New Mexico; PHD 1975 New Mexico

Lentz, Steven, Professor, Internal Medicine, 1992 (2003); BS 1979 Iowa State; MD 1985 Washington

Leonard, Julia Alexander, Associate Professor, Interdisciplinary Programs, 2001 (2012); MFA 2001 Iowa

Leonard, Paul Arthur, Clinical Associate Professor, Anesthesia, 1995 (2006); MD 1991 Iowa

Leopold, Kieran Dunne, Adjunct Lecturer, College Transition, 2011 (2011); BA 2000 Iowa; MA 2008 Iowa

Leslie, Kimberly Kay, Professor, Obstetrics Gynecology, 2009 (2009); BS 1975 Baylor; BS 1977 Texas Christian; MD 1981 Southwestern Medical

Litwiller, Denise Barbara, Clinical Adjunct Instructor, Nursing, 2010 (2010); MSN 2005 Iowa

Liu, Dongwang, Adjunct Assistant Professor, Anthropology, 2008 (2008); MA 1995 Iowa State; MBA 2001 Iowa State; PHD 2005 Iowa State

Liu, Huan-Chung Scott, Adjunct Instructor, Psych Quant Foundations, 2008 (2008); BS 1991 Chinese Culture; MA 1998 Arizona State; PHD 2003 North Texas

Liu, Jack C., Adjunct Associate Professor, Family Dentistry, 2005 (2012); DDS 2001 Iowa

Liu, Vincent, Clinical Associate Professor, Dermatology/Pathology, 2005 (2009); AB 1992 Harvard; MD 1996 Pennsylvania

Liu, William Ming, Professor, Psych Quant Foundations, 2000 (2009); BA 1991 California-Irvine; MA 1995 Maryland; PHD 2000 Maryland

Liu, Y. King, Emeritus Professor, Biomedical Engineering/Mechanical Engineering/Orthopaedics and Rehabilitation, 1978 (1978); BS 1955 Bradley; MS 1959 Wisconsin; PHD 1963 Wayne State

Lively, Sonja Inga Hoines, Emeritus Assistant Professor, Nursing, 1976 (1976); BSN 1969 Iowa; MA 1970 Iowa

Livingston, Jason T., Lecturer, Cinema Comparative Literature, 2011 (2012); BA 1994 Cornell; MA 1999 Iowa; MFA 2004 Iowa

Llopart, Ana, Assistant Professor, Biology, 2009 (2009); BSC 1992 Barcelona; PHD 1999 Barcelona

Lloyd, Benjamin Andrew, Adjunct Instructor, Operative Dentistry, 2011 (2011); BS 2006 Iowa; DDS 2010 Iowa

Lloyd, Fran Celeste Owens, Adjunct Lecturer, Management Organizations/Marketing, 2008 (2008); MBA 1964 South Carolina

Lloyd, Kenneth Edward, Adjunct Assistant Professor, Civil-Environmental Engineering, 1999 (1999); BS 1972 Iowa; BSE 1976 Michigan; MSE 1977 Michigan; PHD 1999 Iowa

Lloyd-Jones, Richard, Emeritus Professor, English, 1952 (1965); BA 1949 New Mexico; MA 1950 North Carolina; PHD 1956 Iowa

Loan, Tara Renae, Adjunct Assistant Professor, Pharmacy, 2009 (2009); DIP 2001 Clear Creek Amana; PHARM 2007 Drake

Lobb, Timothy Garr, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2000 Iowa

Lobuznov, Andrew U., Clinical Adjunct Assistant Professor, Family Medicine, 2003 (2003); MD 1995 Kemerovo State Med Inst

Lockard, Erin Mauree, Adjunct Assistant Professor, Pharmacy Practice and Science, 2009 (2011); PHARM 2009 Iowa; PHD 2009 Iowa

Locke, Kevin E., Clinical Adjunct Assistant Professor, Family Medicine, 1995 (2002); BS 1982 Iowa; MD 1986 Iowa

Lockhart, Jack M., Clinical Adjunct Instructor, Internal Medicine, 1982 (1988); MD 1970 Harvard

Loening, Stefan, Clinical Adjunct Professor, Urology, 1975 (1982); MD 1965 Medical School Freiburg G

Loening-Baucke, Vera, Emeritus Professor, Pediatrics, 1975 (1992); MD 1967 Med School of Erlangen-Germany

Loewenberg, Gerhard, Emeritus Professor, Political Science, 1969 (1970); BA 1949 Cornell; MA 1950 Cornell; PHD 1955 Cornell

Lofgren, Maria Annette, Clinical Adjunct Instructor, Nursing, 2003 (2003); BSN 1992 Iowa Wesleyan; MSN 1998 Iowa

Logan, Henrietta L., Emeritus Professor, Psych Quant Foundations/Preventive Community Dentistry, 1975 (1992); BA 1961 Wichita; MA 1973 Iowa; PHD 1976 ILWA

Logan, James, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1975 Augusta State; DDM 1978 Med of Georgia

Logan, Nelson S., Emeritus Professor, Preventive Community Dentistry, 1970 (1978); PHD 1969 Utah

Logemann, Craig D., Adjunct Associate Professor, Pharmacy, 1995 (2004); BS 1988 Iowa; PHARM 1995 Minnesota

Logsdon, John, Associate Professor, Biology, 2003 (2007); BS 1988 Iowa State; PHD 1995 Indiana

Lohafer, Susan, Emeritus Professor, English, 1973 (1982); BA 1964 Radcliffe; MA 1966 Stanford; PHD 1970 New York

Lohman, David F., Professor, Psych Quant Foundations, 1981 (1993); BA 1972 Notre Dame; PHD 1979 Stanford

Lohmuller, Joseph L., Clinical Adjunct Associate Professor, Surgery, 1999 (2008); MD 1986 Indiana

Lomax, Michael Eugene, Associate Professor, Health and Human Physiology/African-American Studies, 2004 (2004); PHD 1996 Ohio State

London, Barry, Professor, Internal Medicine, 2012 (2012);

Long, Curtis Lowell, Lecturer, Nursing, 2006 (2010); BSN 1995 Iowa; MBA 1999 Iowa; MSN 2000 Iowa

Long, Jeffrey D., Professor, Psychiatry, 2010 (2010); MA 1992 California State; PHD 1996 Southern CA

Long, Keith R., Emeritus Professor, Occupational Environmental Health, 1960 (1969); BA 1951 Kansas; MA 1953 Kansas; PHD 1960 Iowa

Long, Susan Diane, Adjunct Instructor, Nursing, 2004 (2004); BSN 1974 Iowa

Longfellow, Brenda, Associate Professor, Art Art History, 2005 (2011); PHD 2005 Michigan

Longmuir, Reid Allan, Assistant Professor, Ophthalmology Visual Science, 2008 (2008); BS 1998 Iowa; MD 2002 Iowa

Longmuir, Susannah Quisling, Assistant Professor, Ophthalmology Visual Science/Pediatrics, 2008 (2008); BA 1996 Vanderbilt; MD 2003 Vanderbilt

Longo, Frank J., Emeritus Professor, Anatomy Cell Biology, 1976 (1979); BS 1962 Loyola; MS 1965 Oregon State; PHD 1967 Oregon State

Longo, Joseph Frank, Adjunct Associate Professor, Industrial Engineering, 2005 (2006); BSE 1987 Iowa; MS 1990 Iowa; PHD 1996 Iowa

Lonngren, Karl E., Emeritus Professor, Electrical-Computer Engineering/Physics Astronomy, 1965 (1972); BS 1960 Wisconsin; MS 1962 Wisconsin; PHD 1964 Wisconsin

Looney, Angela Janine, Adjunct Instructor, Journalism Mass Communication, 2011 (2011); BA 1985 Northern Iowa

Loos, Gerald D., Clinical Adjunct Associate Professor, Family Medicine, 1987 (1987); MD 1968 Iowa

Loots, Douglas Wyatt, Adjunct Lecturer, Marketing, 2011 (2011); MBA 2010 Iowa

Lopes, Lola, Emeritus Professor, Management Organizations/Psychology, 1990 (1990); BA 1962 Redlands; MA 1971 California State; PHD 1974 California-San Diego

Losch, Mary E., Clinical Adjunct Associate Professor, Community Behavioral Health, 2004 (2004); BS 1981 Murray State; MA 1985 Iowa; PHD 1988 Iowa

Lottini, Irene, Lecturer, French Italian, 2007 (2012); MA 2002 Università Degli Studi Di Sien; DR 2007 Università Degli Studi Di Sien

Louko, Linda J., Clinical Associate Professor, Communication Sciences and Disorders, 2002 (2002); BS 1972 SUNY-Brockport; MA 1977 Nebraska; PHD 1998 Syracuse

Lounsbury, Patricia, Clinical Adjunct Instructor, Nursing, 1994 (1994); BSN 1980 Grand View College; MED 1986 Iowa State

Lovaglia, Michael J., Professor, Sociology, 1992 (2003); BA 1987 San Jose State; MA 1989 Stanford; PHD 1992 Stanford

Love, Jean C., Emeritus Professor, Law-Faculty, 1991 (1991); BA 1965 Wisconsin; JD 1968 Wisconsin

Lovell, James P., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); DO 1985 Kirksville/ Osteopathic Med

Low, Michael, Adjunct Assistant Professor, Preventive Community Dentistry, 2009 (2009); BS 1972 Notre Dame; DDS 1976 Creighton

Lowe, Timothy J., Professor, Management Sciences, 1989 (1989); BSIE 1965 Iowa State; ME 1967 Iowa State; PHD 1973 Northwestern

Lowenberg, Kathy Ann, Adjunct Lecturer, Rehabilitation and Counselor Education, 2005 (2005); BA 1972 Iowa; MA 1993 Iowa

Lu, Charles Chunhsin, Emeritus Professor, Radiology, 1974 (1991); MD 1956 National Taiwan

Lu, Chien-Tai, Emeritus Professor, Radiology, 1992 (1992);

Lu, Der-Fa, Assistant Professor, Nursing, 2004 (2005); ADN 1982 Taipei; BSN 1984 Taipei; MA 1991 Iowa; PHD 2001 Iowa

Lu, Jia, Associate Professor, Mechanical Engineering, 2001 (2007); BS 1985 Beijing Aeronautics; MENG 1988 Tsinghua; PHD 1999 California-Berkeley

Lu, Te-Ling, Adjunct Associate Professor, Biology, 2012 (2012);

Lubaroff, David M., Professor, Microbiology/Urology, 1973 (1982); BS 1961 Philadelphia-Pharmacy and Sci; MS 1964 Georgetown; PHD 1967 Yale

Ludewig, Gabriele, Associate Professor, Occupational Environmental Health, 2003 (2007); BS 1977 Mainz; MS 1982 Mainz; PHD 1991 Mainz

Luikart, Joan, Adjunct Instructor, Pharmacy, 2006 (2006); BSPH Drake

Lukas, Mary F., Adjunct Instructor, Communication Sciences and Disorders, 1995 (1996); MA 1989 Iowa

Lund, Brian Christopher, Adjunct Assistant Professor, Epidemiology/Pharmacy, 2001 (2001); PHARM 1999 Iowa; MS 2002 Iowa

Lund, Peter Scott, Clinical Associate Professor, Prosthodontics, 2007 (2007); BFA 1976 Minnesota; DDS 1980 Minnesota; MS 1987 Minnesota

Lundell, Christine M., Adjunct Instructor, Pharmacy, 2010 (2010); BSPH 1990 Drake

Lundquist, April Rose, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2004 Drake

Luo, Sheng-Nian, Adjunct Assistant Professor, Mechanical Engineering, 2010 (2010); PHD 2003 California Institute of Tech

Luo, Yi, Associate Professor, Urology, 2002 (2010); MD 1978 Nanjing Medical

Luschei, Erich S., Emeritus Professor, Communication Sciences and Disorders/Otolaryngology-Head Neck Surgery, 1983 (1983); BS 1964 Washington; PHD 1968 Washington

Lutgendorf, Philip A., Professor, Asian Slavic Languages Literature/International Programs, 1985 (2006); BA 1971 Chicago; MA 1982 Chicago; PHD 1986 Chicago

Lutgendorf, Susan Kerri, Professor, Obstetrics Gynecology/Psychology/Urology, 1988 (2006); BA 1971 Chicago; MSW 1976 Illinois; PHD 1994 Miami

Lutter, Michael, Assistant Professor, Psychiatry, 2012 (2012);

Lutz, Gene M., Clinical Adjunct Professor, Community Behavioral Health, 2004 (2004); BS 1966 Iowa State; MS 1968 Iowa State; PHD 1971 Iowa State

Lutz, Sidney Elaine, Adjunct Instructor, Social Work, 2011 (2011); BSW 1973 Iowa; MSW 1978 Iowa

Lynch, Alison Cornelia, Clinical Associate Professor, Family Medicine/Psychiatry, 2003 (2011); BS 1990 Massachusetts; MD 1998 Iowa

Lynch, Charles Francis, Professor, Epidemiology/Pathology, 1982 (1998); BS 1974 Loras; MS 1979 Iowa; MD 1979 Iowa; PHD 1984 Iowa

Lynch, Gerald Joseph, Adjunct Professor, Economics, 2009 (2009); PHD 1975 Kentucky

Lynch, William, Clinical Associate Professor, Cardiothoracic Surgery, 2005 (2010); MS 1990 Michigan; MD 1994 Michigan

Lynn, Freda B., Assistant Professor, Sociology, 2008 (2008); BA 1998 Michigan; MA 2003 Harvard; PHD 2006 Harvard

Ma, Deqin, Clinical Assistant Professor, Pathology, 2011 (2011); MD 1988 Shandong Medical Univ.-China; PHD 1988 Kentucky

Maalouf, Mouna A., Lecturer, Chemistry, 2007 (2007); PHD 2006 Iowa

Maas, James Everett, Adjunct Associate Professor, Family Dentistry, 1998 (2012); BBA 1994 Iowa; DDS 1998 Iowa

Maas, Meridean Leone Speas, Emeritus Professor, Nursing, 1976 (1994); BSN 1957 Iowa; MA 1960 Iowa; PHD 1979 Iowa State

Maassen, Rachel Anna, Clinical Assistant Professor, Obstetrics Gynecology, 2006 (2006); BS 1998 Iowa; MD 2002 Iowa

Mabry, Tad R., Clinical Associate Professor, Pediatric Dentistry, 2009 (2009); BA 1983 Westminster College; DDS 1987 Oklahoma Col of Dentistry; MS 1994 Nebraska Med Ctr

Mac, Joseph R., Adjunct Assistant Professor, Pharmacy, 1997 (1997); PHARM 1992 Nebraska-Omaha

Macagno, Matilde C., Emeritus Assistant Professor, Mathematics, 1957 (1974); BS 1940 National-Argentina; MS 1958 Iowa

Macauley, Kelly Anne, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BS 1980 Wisconsin; MA 1983 Iowa

Mace, Brandi, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BS 1999 Nebraska; DDS 2005 Creighton

Macfarlane, Donald E., Professor, Internal Medicine, 1979 (1995); MBBS 1967 London; PHD 1975 London

Macgillivray, Leonard Richard, Professor, Chemistry, 2000 (2010); BSC 1994 Saint Mary's; PHD 1998 Missouri-Columbia

Machado, Carmen Maria, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Machak, Jayne Ann, Adjunct Lecturer, College Transition, 2011 (2011); BA 2001 SW Texas State; MA 2006 Iowa

Mack, Steven John, Adjunct Assistant Professor, Orthodontics, 2009 (2009); BS 1991 Iowa State; DDS 1995 Iowa; MS 1997 Iowa

Mackey, Michael Austin, Associate Professor, Radiology/Biomedical Engineering, 2000 (2000); PHD 1998 California-Berkeley

Mackinney, A. Clinton, Clinical Assistant Professor, Health Management Policy, 2010 (2010); BA 1978 Miami; MD 1982 Ohio; MS 1998 Wisconsin @ Madison

Macneil, Richard David, Professor, Health and Human Physiology, 1975 (1991); BA 1970 Wisconsin; MED 1975 Springfield; PHD 1979 Iowa

Macpherson, Beth Joann, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 1987 Montana; MA 1989 Iowa

Macvey, Alan M., Professor, Theatre Arts, 1991 (1998); BA 1968 Stanford; MA 1970 Stanford; MFA 1977 Yale

Macvey, Carol E., Lecturer, Theatre Arts, 1991 (1999); BA 1966 Notre Dame; MA 1976 Middlebury

Madia, Asha, Clinical Adjunct Assistant Professor, Pediatrics, 1999 (1999); MD 1981 American Board of Pediatrics

Madison, Eugene W., Emeritus Professor, Mathematics, 1966 (1982); BS 1956 Le Moyne; MS 1958 Michigan State; PHD 1966 Illinois

Madison, Kathi C., Professor, Oral Path, Radiology/Medicine/Dermatology, 1984 (1999); SCB 1975 Brown; MD 1978 Brown

Madsen, Donald H., Emeritus Professor, Mechanical Engineering, 1954 (1960); BSME 1944 Iowa State; MSME 1948 Purdue; PHD 1953 Purdue

Madsen, Douglas K., Emeritus Professor, Political Science, 1971 (1987); AB 1961 Stanford; MA 1967 California-Los Angeles; PHD 1973 California-Los Angeles

Madsen, Mark T., Professor, Radiology/Physics Astronomy, 1988 (2003); BS 1973 Wisconsin-Kenosha; MS 1975 Wisconsin-Madison; MS 1976 Wisconsin-Madison; PHD 1979 Wisconsin-Madison

Madsen, Murray Dean, Adjunct Assistant Professor, Occupational Environmental Health, 2003 (2003); BS 1973 Minnesota; MBA 1984 St. Ambrose

Madsen, Timothy T., Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1982 Iowa

Madson, Linda Kay, Clinical Associate Professor, Psychiatry, 2000 (2007); BA 1981 Luther; MD 1990 Iowa

Magalhaes-Silverman, Margarida, Clinical Professor, Internal Medicine, 1997 (2003); MD 1978 University of Porto

Magboul, Magboul M. A., Clinical Assistant Professor, Anesthesia, 2001 (2001); BS 1969 Khartoum; MBBS 1974 Khartoum

Magle, Patricia Kay, Clinical Adjunct Assistant Professor, Family Medicine, 1994 (2002); BS 1973 Michigan; MD 1977 Michigan

Magnotta, Vincent Alfonso, Associate Professor, Radiology/Biomedical Engineering/Psychiatry, 2003 (2008); BA 1991 Albion; MS 1994 Iowa; PHD 1997 Iowa

Magnuson, Lori Anne, Lecturer, Rehabilitation and Counselor Education, (2012); DIP 1977 Franklin-Pierce High School; BA 1981 Northwest College; MA 1998 Seattle University

Mahadevan, Kannan Rajput, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Mahajan, Vinit Bharati, Assistant Professor, Ophthalmology Visual Science, 2008 (2008); BA 1992 California Berkeley; MD 2001 California Irvine; PHD 2001 California Irvine

Maharry, Michael Karl, Clinical Associate Professor, Family Medicine, 1999 (2008); BA 1992 Washington-St. Louis; MD 1996 Iowa

Maher, James W., Emeritus Professor, Surgery, 1985 (1989); BS 1970 Randolph-Macon; MD 1974 Florida

Mahone, Sydne, Associate Professor, Theatre Arts/African-American Studies, 1998 (2006); BA 1980 Douglass Rutgers Univ; MA 1986 Mason Gross, Rutgers Univ

Mahoney, Larry T., Professor, Epidemiology/Pediatrics, 1976 (1992); BS 1969 Loras; MD 1973 Iowa

Mahoney, Mark Alan, Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BA 1980 Bethel; MD 1984 Iowa

Maier, Edward Lee, Adjunct Instructor, Pharmacy, 1998 (1998); BS 1970 Iowa

Maierhofer, Waltraud, Professor, German/International Programs, 1990 (2007); MA 1986 Regensburg-West Germany; PHD 1988 Regensburg-West Germany

Maiers, Jennifer Jo, Adjunct Instructor, Radiology, 2010 (2010); BS 2001 Iowa

Maigaard, Randy N., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1989 Iowa

Mailhot, Jason M., Adjunct Professor, Periodontics, 2009 (2009); AA 1976 New York @Farmingdale; BS 1978 New York @ Oneonta; DMD 1981 Pittsburgh; MS 1993 Georgia

Makar, Adel F., Clinical Adjunct Associate Professor, Pediatrics, 1987 (2002); MBCH 1974 Assuit Egypt

Makela, Darren R., Professor, Aerospace Studies, 2011 (2011); BS 1994 Wright State; MS 1998 North Dakota

Maki, Dennis R., Professor, Rehabilitation and Counselor Education, 1982 (1995); BA 1970 Michigan State; MA 1975 Michigan State; PHD 1979 Wisconsin

Malanson, George P., Professor, Geography, 1985 (1996); BA 1972 Williams; MS 1978 Utah; PHD 1983 California-Los Angeles

Martin, Kippy, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BS 1987 East Central; DDS 1991 Oklahoma

Martin, Rene Elizabeth, Adjunct Associate Professor, Psychology/Nursing, 1985 (2007); BSN 1982 Iowa; MA 1993 Iowa; PHD 1996 Iowa

Martin, Stephen Douglas, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1973 Iowa; MBA 1987 Dubuque

Martin-Estudillo, Luis, Associate Professor, Spanish Portuguese, 2005 (2011); MA 2002 Minnesota; PHD 2005 Minnesota

Martinet-Moriarty, F., Emeritus Professor, Dance, 1978 (1995);

Martinez Araneda, Andres Jose, Adjunct Assistant Professor, Civil-Environmental Engineering, 2012 (2012);

Martins, James B., Professor, Internal Medicine, 1975 (1991); BA 1966 North Park; MD 1970 Illinois

Marttila, Joan Dorothy, Adjunct Instructor, Communication Sciences and Disorders, 1982 (1996); MA 1974 Iowa; DAUD 2007 A.T. Still University

Marvel, Cherie Lynn, Adjunct Assistant Professor, Psychiatry, 2005 (2005); BS 1994 Tufts; PHD 2002 Georgetown

Marvin, Roberta M., Adjunct Associate Professor, International Programs, 1997 (1997); BM 1975 Boston Conservatory; MA 1986 Tufts; PHD 1992 Brandeis

Marz, Mark L., Adjunct Associate Professor, Family Dentistry, 1979 (2000); DDS 1978 Iowa

Marzen, Vincent Paul, Adjunct Lecturer, Marketing, 1999 (2001); MBA 1999 Iowa

Mascardo, Lisa Ann, Adjunct Assistant Professor, Pharmacy, 2002 (2002); BSPH 1995 Iowa; BS 1995 Iowa; PHARM 1997 Iowa

Maschka, Donald A., Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2000 (2000); MD 1992 Iowa

Mason, Charles M., Emeritus Assistant Professor, Educ Policy Leadership Studies, 1965 (1965); BA 1949 Iowa; MA 1951 Iowa; PHD 1962 Iowa

Mason, Edward E., Emeritus Professor, Surgery, 1953 (1961); BA 1943 Iowa; MD 1945 Iowa; PHD 1953 Minnesota

Mason, Karen M., Adjunct Assistant Professor, History, 2010 (2010); BA 1975 Bryn Mawr; AM 1981 Minnesota; DR 1991 Michigan

Mason, Kenneth Andrew, Lecturer, Biology, 2007 (2007); BS 1982 Washington; PHD 1991 California @ Davis

Mason, Paul Thomas, Adjunct Lecturer, Accounting, 2009 (2009); BA 1975 Connecticut; MBA 1977 Connecticut

Mason, Sally K., Professor, Biology, 2007 (2007); BA 1972 Kentucky; MS 1974 Purdue; PHD 1978 Arizona

Mason, Sara E., Assistant Professor, Chemistry, 2010 (2010); BS 2001 St. John Fisher; PHD 2007 Pennsylvania

Mastascusa, Nicolo J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2008 Iowa

Mathahs, Shana Alyssa, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2007 Iowa

Mather, Betty B., Emeritus Professor, Music, 1952 (1973); BA 1949 Oberlin; MA 1951 Columbia

Matheson, Daniel Richard, Lecturer, Health and Human Physiology, 2011 (2011); BS 1993 Iowa; JD 1996 Minnesota

Matheson, Lloyd E., Emeritus Associate Professor, Pharmacy, 1975 (1980); BS 1964 Wisconsin; PHD 1970 Wisconsin

Mathew Wilson, Mary Ellen, Adjunct Lecturer, College Transition/University College, 2004 (2004); AA 1976 Sauk Community; BLS 1997 Iowa; MA 2003 Iowa

Mathews, Katherine Dianne, Professor, Neurology/Pediatrics, 1989 (2008); BS 1976 Iowa; MD 1981 Iowa

Mathews, Michael, Adjunct Assistant Professor, Pediatric Dentistry, 2002 (2002); BA 1991 Central; DDS 2000 Iowa

Matowe, Lloyd, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPH 1994 Zimbabwe

Matsuda, James Jiro, Clinical Adjunct Assistant Professor, Pediatrics, 2009 (2009); MD 1993 Iowa; PHD 1993 Iowa

Matsukura, Michi, Adjunct Assistant Professor, Psychology, 2011 (2011); PHD 2008 Iowa

Matsumoto, Barry D., Associate Professor, Law-Faculty, 1974 (1974); BA 1967 Washington; JD 1970 Washington

Matsuoka, Miwa, Assistant Professor, Urban Regional Planning, 2009 (2009); BE 2002 Tokyo, Japan; MS 2004 University of Tokyo; MA 2005 Tokyo, Japan; DR 2008 Harvard Grad School of Design; PHD 2008 Harvard

Matsuura, John, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); MD 1987 Hawaii

Matt, Gary David, Adjunct Assistant Professor, Endodontics, 2005 (2005); DDS 1998 Iowa; CER 2003 Naval Dental ,Bethesda

Mattes, Kyle, Assistant Professor, Political Science, 2008 (2008); BA 1997 Northwestern; MA 2005 California Institute of Tech; PHD 2008 California Institute of Tech

Mattes, Timothy Edward, Associate Professor, Civil-Environmental Engineering, 2004 (2010); BSE 1994 John Hopkins; MSE 1995 John Hopkins; PHD 2004 Cornell University

Matthes, William A., Emeritus Associate Professor, Rehabilitation and Counselor Education, 1967 (1970); BA 1961 Knox; MS 1965 Indiana; EDD 1967 Indiana

Matthews, David Carl, Adjunct Instructor, Electrical-Computer Engineering, 2008 (2008); BA 1984 Doane College; BS 1985 Washington; MS 1994 Iowa State

Matthews, Grace, Clinical Adjunct Instructor, Nursing, 2006 (2006); BSN 1995 Iowa; MSN 2000 Iowa

Matveeva, Yulia N., Clinical Assistant Professor, Family Medicine, 2011 (2011); MD 2000 Russian People's Friendship U.

Mauk, Benjamin David, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Maurer, Candida Ruth, Adjunct Assistant Professor, Psych Quant Foundations, 1994 (1994); PHD 1991 Iowa

Maurice, Thomas J., Adjunct Assistant Professor, Pediatric Dentistry, 2003 (2003); BS 1988 Illinois Wesleyan; DDS 1992 Iowa; MS 1995 North Carolina

Maury, Wendy, Professor, Microbiology, 1999 (2012); BA 1976 Duke; MS 1980 North Carolina State; PHD 1988 Virginia

Maxey, E. James, Adjunct Associate Professor, Psych Quant Foundations, 1957 (1971); BS 1957 Illinois State; MS 1959 Iowa; PHD 1967 Iowa

Maxson, Jami A., Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2002); BS 1989 Iowa; MD 1993 Iowa

Maxson, Linda, Professor, Biology, 1997 (1997); BS 1964 San Diego State; MA 1966 San Diego State; PHD 1973 California-Berkeley

Maxted, James C., Lecturer, Electrical-Computer Engineering, 2001 (2011); BSEE 1974 Iowa; MSEE 1984 Iowa

Maxwell, Briana Marie, Adjunct Assistant Professor, Division of Performing Arts, 2008 (2008); BS 2005 Austin Pray St.; MFA 2008 Iowa

Maxwell, John A., Adjunct Assistant Professor, Oral Path,RadiologyMedicine, 1999 (1999); DDS 1975 Iowa

Maxwell, Kathryn Ann Buchanan, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); BA 1974 Iowa

Mayer, Gayle Ann, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1975 Drake

Maynard, Jerry Allen, Emeritus Professor, Health and Human Physiology/Anatomy Cell Biology/Orthopaedics and Rehabilitation, 1971 (1981); BA 1958 Northern Iowa; MS 1961 Indiana; PHD 1970 Iowa

Mays, A. Louise, Emeritus Assistant Professor, Social Work, (2004);

Mazur, Alexander, Clinical Associate Professor, Internal Medicine, 2007 (2007); MD 1983 Perm, Russia

Mcallister, Bryant F., Associate Professor, Biology, 2002 (2008); BS 1989 Texas A M; MS 1992 Texas A M; PHD 1997 Rochester

Mcbride, Bunny Allen, Emeritus Professor, Art Art History, 1970 (1985); BS 1960 Montana State; MFA 1970 Alfred

Mcbrien, Dianne M., Clinical Associate Professor, Pediatrics, 1997 (2005); MD 1991 Mayo Medical

Mccabe, Donald Ray, Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1971 Iowa

Mccaffrey, Anton P., Adjunct Assistant Professor, Internal Medicine, 2004 (2004); BA 1989 California at San Diego; PHD 1999 Colorado at Boulder

Mccambridge, Chad, Clinical Adjunct Associate Professor, Family Medicine, 2011 (2011); BS 1997 Iowa; MD 2001 Iowa

Mccarter, Linda, Professor, Microbiology, 1996 (2009); BA 1974 Hawaii; PHD 1983 California-Davis

Mccarthy, Ann Marie, Professor, Community Behavioral Health/Pediatrics/Nursing, 1984 (2005); BA 1972 Simmons; MSN 1976 Boston College; PHD 1990 Iowa

Mccarthy, Christine, Associate Professor, Educ Policy Leadership Studies, 1995 (2001); BA 1976 Quinnipiac; MA 1980 Colorado; MA 1990 Ohio State; PHD 1992 Ohio State

Mccarthy, Debra Leeann, Lecturer, Nursing, 2010 (2010); BS 2002 Saint Benedict; MA 2010 Bethel, MN

Mccartney, David F., Adjunct Lecturer, Anthropology/History, 2002 (2010); BA 1979 Wisconsin; AMLS 1998 Maryland

Mccarty, Gwendolyn Jo, Lecturer, Linguistics, 2008 (2010); MA 1982 Ball State University; JD 1989 Indiana; MA 1999 Central Florida

Mccarty, Richard C., Lecturer, Management Organizations, 2004 (2004); BA 1973 University of Northern Iowa

Mccaughey, Paul T., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); DO 1985 Osteopathic-Des Moines

Mcclain, Donald H., Adjunct Assistant Professor, Computer Science, 2002 (2002); BA 1960 Northern Iowa; MS 1967 Iowa State; PHD 1970 Iowa State

McClelland, Eleanor, Emeritus Associate Professor, Nursing, 1971 (1980); BA 1959 Monmouth; MPH 1970 Michigan; PHD 1979 Iowa

McClelland, William C., Professor, Geoscience, 2008 (2008); PHD 1990 Arizona

McClellen, Ronald Eugene, Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 1969 Iowa; BFA 1974 Kansas City Art Institute

Mccliment, Edward R., Emeritus Professor, Physics Astronomy, 1964 (1983); BSE 1956 Michigan; MS 1958 Rensselaer Polytechnic; PHD 1962 Illinois

Mcclimon, Kevin, Adjunct Instructor, Pharmacy, 2000 (2000); BS 1983 Iowa

Mcconville, James B., Clinical Adjunct Assistant Professor, Family Medicine, 1979 (2002); BS 1969 Notre Dame; MD 1973 Iowa

Mccormick, George R., Emeritus Professor, Geoscience, 1968 (1976); BA 1958 Ohio Wesleyan; PHD 1964 Ohio State

Mccormick, Laurie May, Assistant Professor, Psychiatry, 2005 (2008); MD 1998 American University Car

Mccormick, Michael Leon, Adjunct Assistant Professor, Radiation Oncology, 2001 (2001); BA 1981 Iowa; MS 1985 Iowa; PHD 1989 Iowa

Mccormick, Samuel, Adjunct Assistant Professor, Communication Studies, 2010 (2010); PHD 2007 Iowa

Mccowan, Bernadette Alston, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2003 North Carolina

Mccray, Paul B., Professor, Microbiology/Internal Medicine/Pediatrics, 1991 (2001); BA 1976 St. Olaf; MD 1981 Iowa

Mccue, James F., Emeritus Professor, Religion, 1965 (1973); BA 1955 Xavier; MA 1958 Loyola University of Chicago; PHD 1961 Wisconsin

Mccue, Maureen F., Adjunct Assistant Professor, International Programs/Epidemiology, 1991 (1991); BA 1969 Wisconsin-Madison; MD 1981 Wisconsin-Madison; PHD 1997 Iowa

Mccunniff, Michael David, Adjunct Instructor, Preventive Community Dentistry, 1999 (1999); DDS 1983 Missouri-Kansas City

Mcdanel, Deanna L., Clinical Associate Professor, Pharmacy, 2002 (2011); PHARM 2001 Iowa

Mcdermott, Mark A., Lecturer, Teaching and Learning, 2012 (2012); BS 1995 Cornell College; MS 2002 Iowa State Univ; PHD 2009 Univ of Iowa

Mcdonald, Joshua, Clinical Assistant Professor, Radiology, 2012 (2012);

Mcdonough, Randy Patrick, Adjunct Professor, Pharmacy, 1988 (2003); BSPH 1987 Iowa; MS 1997 Iowa

Mcelroy, Steven James, Assistant Professor, Pediatrics, 2011 (2011); BS 1995 Juniata; MD 1999 Hahnemann

Mcentaffer, Randall L., Assistant Professor, Physics Astronomy, 2008 (2008); PHD 2007 Colorado, Boulder

Mcfadden, Ryan Clay, Adjunct Lecturer, College Transition/University College, 2010 (2010); AA 2004 Rock Valley; BA 2006 Northern Illinois; MED 2008 Northern Arizona

Mcfarland, John W., Adjunct Assistant Professor, Preventive Community Dentistry, 1991 (1991); DDS 1967 Northwestern

Mcgaughey, Mark, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); BS 1975 Carelton College; MD 1979 Johns Hopkins

Mcgee, Veronica Lou, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1996 Drake

Mcgill, Melissa Ann, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BSPH 1995 Iowa

Mcgill, R. Michael, Clinical Adjunct Assistant Professor, Pediatrics, 2010 (2010); MD 1982 Kansas

Mcginnis, William L., Clinical Associate Professor, Radiation Oncology, 1977 (2008); MD 1973 Iowa

Mcgowan, Gerald J., Clinical Adjunct Associate Professor, Family Medicine, 1975 (1982); MD 1963 Iowa

Mcgowan, Stephen E., Professor, Internal Medicine/International Programs, 1986 (1998); AB 1972 Washington; MD 1976 Rochester

Mcgraw, Amyruth, Lecturer, Communication Sciences and Disorders, 2004 (2005); BA 1993 Oberlin College; MFA 1998 Arizona State

Mcgraw, Danielle, Adjunct Instructor, Health and Human Physiology, 2011 (2011); MS 2008 Capella

Mcgraw, David Jonathan, Lecturer, Theatre Arts, 2003 (2007); BA 1995 Holy Cross, MA; MA 2005 Goucher; MFA 2007 Iowa

Mcgregor, Karla K., Professor, Communication Sciences and Disorders, 2005 (2008); BA 1984 North Carolina; MS 1987 Purdue; PHD 1992 Purdue

Mcguire, Don R., Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 1981 Butler

Mcguire, Linda Ann, Adjunct Lecturer, Law-Faculty, 1979 (2003); BS 1970 State University of New York; MA 1971 Bowling Green State University; JD 1982 IOWA

Mihm, Harold L., Clinical Adjunct Lecturer, Obstetrics Gynecology, 1982 (1982); MD 1972 Iowa

Mikelson, Bonnie, Adjunct Instructor, Social Work, 2008 (2008); BSW 1972 Northern Illinois; MSW 1977 Iowa

Milavetz, Gary, Associate Professor, Pharmacy, 1981 (1991); BS 1978 Minnesota; PHARM 1980 Minnesota

Milde, Frances Kay, Emeritus Assistant Professor, Nursing, 1974 (1977); BSN 1971 Missouri-Columbia; MSN 1974 Western Reserve; PHD 1983 Iowa

Milhem, Mohammed, Clinical Associate Professor, Internal Medicine, 2007 (2011); MD 1995 Jordan

Millard, Melanie Rani, Adjunct Assistant Professor, Pharmacy, 1997 (2006); PHARMD 1997 Iowa

Miller, Andrew James, Adjunct Instructor, Pharmacy, 2010 (2010); BSPH 1989 Long Island

Miller, Anthony Clark, Clinical Associate Professor, Psychiatry, 2008 (2010); BA 1990 Goshen College; MD 1994 University of Iowa

Miller, Benjamin James, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2010 (2010); BS 1999 Cornell; MD 2003 Iowa

Miller, Charles Anthony, Adjunct Associate Professor, Communication Sciences and Disorders, 1997 (2004); BSEE 1983 Iowa; PHD 1992 Iowa

Miller, Cynthia Marie, Lecturer, Teaching and Learning, 2004 (2004); BA 1977 INDIANA; MA 1987 NEW YORK ST.

Miller, Dana K., Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1981 Creighton

Miller, Daniel Gillett, Clinical Assistant Professor, Emergency Medicine, 2011 (2011); BA 2001 Wisconsin; BS 2001 University of Wisconsin; MD 2005 Illinois

Miller, Dayna Jo, Clinical Assistant Professor, Pediatrics, 2011 (2011); BA 2002 Northern Iowa

Miller, Debra Kay Walters, Clinical Adjunct Assistant Professor, Pediatrics, 1988 (1988); MD 1980 Iowa

Miller, Delwyn Deon, Professor, Psychiatry, 1992 (2004); BS 1977 Iowa; PHARMD 1980 Kentucky; MD 1987 Case Western Reserve

Miller, Eric, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); DDS 1988 Colorado

Miller, Franklin, Emeritus Professor, Cinema Comparative Literature, 1970 (1982); BA 1962 Oberlin; MA 1964 Ohio State; MFA 1970 Ohio State

Miller, Heather, Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); AA 1996 Hawkeye Community

Miller, James Arthur, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1971 Iowa

Miller, Kathleen C., Adjunct Instructor, Pharmacy Practice and Science, 1999 (2010); BSPH 1974 Drake University; MA 1990 ST. AMBROSE

Miller, Marguerite Lea, Adjunct Instructor, German, 2005 (2005); BA 1975 Iowa; MA 1990 Iowa

Miller, Matthew Edward, Adjunct Instructor, Operative Dentistry, 2010 (2010); DMD 2001 Southern Illinois

Miller, Merida, Clinical Assistant Professor, Obstetrics Gynecology, 2007 (2007); BA 1994 Bowdoin College; MD 2003 Minnesota Medical

Miller, Michael P., Clinical Assistant Professor, Emergency Medicine, 2010 (2010); BS 1990 Manchester; MD 1995 Iowa

Miller, Michelle, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2012); PHARMD 2010 Nebraska Medical

Miller, Nathan, Lecturer, Law-Faculty, 2011 (2011); BA 1998 Daytona; JD 2002 New York Law

Miller, Rachel Ann Warntjes, Clinical Professor, Internal Medicine, 1996 (2008); BS 1986 South Dakota State; MD 1989 Iowa

Miller, Robert Franklin, Professor, Law-Faculty, 2012 (2012); BA 2008 The George Washington University

Miller, Ryan Adam, Instructor, Military Science, 2011 (2011); BA 2009 Iowa; MA 2011 Norwich

Miller, William A., Emeritus Professor, Faculty Practice Administration, 1997 (1997); BS 1965 Ohio State; MS 1969 Ohio State; PHAR 1971 Kentucky

Miller Jr., Francis Joseph, Associate Professor, Radiation Oncology/Internal Medicine/Anatomy Cell Biology, 1995 (2003); MD 1989 Iowa

Mills, Margaret Hill, Professor, Asian Slavic Languages Literature, 1989 (2000); BA 1976 Iowa; MA 1979 Iowa; PHD 1985 Michigan; MPH 2005 Univ of Iowa

Mindrup, Steven Richard, Clinical Adjunct Assistant Professor, Urology, 2011 (2011); BA 1997 Wartburg; MD 2001 Iowa

Mineck, Daniel, Adjunct Lecturer, Mechanical Engineering, 2007 (2007); BSME 1971 Iowa State

Miner, Edward Anthony, Adjunct Assistant Professor, International Programs, 2004 (2004); BA 1986 Texas-Austin; MA 1991 Ohio; PHD 2000 Illinois; MS 2002 Illinois

Minion, F. Chris, Adjunct Professor, Microbiology, 2010 (2010); PHD 1983 Alabama, Birmingham

Mintner, Paul J., Adjunct Lecturer, University College, 2012 (2012);

Mirr, Ronald Kurt, Adjunct Instructor, Urban Regional Planning/Social Work, 1997 (1997); BA 1981 Purdue; MSW 1987 Iowa

Mishra, Leenu, Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); MD 1999 MKCG Medical

Missall, Kristen, Associate Professor, Psych Quant Foundations, 2009 (2009); BA 1996 Nebraska; MA 1999 Minnesota; PHD 2002 Minnesota

Mitchell, Colleen Catharine, Associate Professor, Mathematics, 2005 (2012); BS 1998 Duke; MA 2001 Duke; PHD 2003 Duke

Mitchell, Katie D., Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARMD 2006 Drake

Mitchell, Sara Beth, Professor, Political Science, 2004 (2011); BS 1991 Iowa State; MA 1993 Michigan State; PHD 1997 Michigan State

Mitchell, Teresa Marie, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARMD 2008 Iowa

Mitros, Frank A., Emeritus Professor, Pathology, 1976 (1988); BS 1965 Seton Hall; MD 1969 New Jersey College of Medicine

Mittelberg, K. Neil, Clinical Adjunct Assistant Professor, Urology, 2002 (2002); MD 1990 Loyola

Mittelstaedt, John Dale, Adjunct Associate Professor, Marketing, 2010 (2010); PHD 1995 Iowa

Mixdorf, Tracy Michele, Clinical Adjunct Assistant Professor, Family Medicine, 2006 (2006); BS 1992 Iowa; DO 1998 Osteopathic Medicine; MHA 1998 Osteopathic Medicine

Mobily, Kenneth Edward, Professor, Health and Human Physiology, 1979 (1994); BA 1972 Kent State; MA 1977 Iowa; PHD 1981 Iowa

Mobily, Paula Renay, Emeritus Associate Professor, Nursing, 1976 (1994); BSN 1971 Ohio State; MSN 1976 Cincinnati; PHD 1987 Iowa

Modrick, Joseph M., Clinical Assistant Professor, Radiation Oncology, 2002 (2002); BS 1989 Northern Iowa; MS 1994 Iowa; MS 1998 Wisconsin; PHD 2000 Wisconsin

Moeller, Kristi Jo, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2006 Iowa

Moeller, Lon D., Clinical Professor, Management Organizations, 1994 (2007); BBA 1982 Iowa; MA 1984 Iowa; JD 1987 Iowa

Mohapatra, Durga Prasanna, Assistant Professor, Anesthesia/Pharmacology, 2008 (2008); BS 1993 Utkal Uni, Bhubaneswar, India; MS 1997 Nat Dairy Inst, Kamal, India; PHD 2003 Erlangen-Nurnberg

Mohler, J. Dawson, Emeritus Professor, Biology, 1966 (1969); AB 1949 Missouri; AM 1950 Missouri; PHD 1955 California-Berkeley

Mohler, Peter J., Adjunct Professor, Internal Medicine/Physiology, 2006 (2011); BS 1995 Wake Forest; PHD 2000 North Carolina

Mohr, Nicholas Matthew, Clinical Assistant Professor, Anesthesia/Emergency Medicine, 2011 (2011); MD 2006 Iowa

Moline, David O., Emeritus Professor, Family Dentistry, 1983 (1992); DDS 1953 Washington

Molis, Marc Alan, Clinical Adjunct Assistant Professor, Family Medicine, 2008 (2008); BS 1996 Illinois Wesleyan; MD 2000 Northwestern

Molis, Whitney Elizabeth, Clinical Adjunct Assistant Professor, Pediatrics, 2008 (2008); MD 2001 Northwestern

Momany, Elizabeth Trumpold, Adjunct Assistant Professor, Preventive Community Dentistry, 1990 (2011); BS 1982 Iowa; MA 1984 Iowa; PHD 1988 Iowa

Monick, Martha Mary Fultz, Professor, Internal Medicine, 2009 (2009); BA 1986 Iowa; PHD 2007 Iceland

Monserud, Gerald Dale, Adjunct Associate Professor, Family Dentistry, 1985 (2000); BS 1974 Iowa; DDS 1980 Iowa

Montgomery, Ian, Adjunct Associate Professor, Health Management Policy, 2007 (2007); BA 1975 Iowa; MHA 1979 Iowa

Montgomery, John C., Emeritus Professor, Oral Maxillofacial Surgery, 1974 (1974); BA 1952 Missouri; DDS 1956 Missouri-Kansas City; MS 1959 Missouri-Kansas City

Montgomery, Lou Ann, Clinical Adjunct Assistant Professor, Nursing, 2000 (2001); MA 1988 Iowa; PHD 2000 Iowa

Montgomery, Rex, Emeritus Professor, Biochemistry, 1955 (1964); BSC 1943 Birmingham; PHD 1946 Birmingham-England; DSC 1963 Birmingham-England

Moon, Jerald B., Professor, Communication Sciences and Disorders, 1985 (2009); BS 1978 Western Ontario-Canada; MS 1980 Western Ontario-Canada; PHD 1985 Purdue

Mooney, Barbara B., Associate Professor, International Programs/Art History, 2002 (2006); BA 1975 Missouri-St. Louis; MA 1980 Illinois; PHD 1991 Illinois

Moonjely, Anita J., Clinical Assistant Professor, Pediatrics, 2007 (2007); MBBS 1993 Coimbatore, India; MD 1995 Coimbatore, India

Moonjely, Joe, Clinical Adjunct Assistant Professor, Internal Medicine, 2003 (2003); BA 1984 Unif of Calicut, India; MD 1991 Trichur Medical College

Moore, Betty Marguerite, Adjunct Instructor, Psychiatry, 1999 (1999); BA 1980 Illinois; MSW 1983 Illinois

Moore, Cathleen M., Professor, Psychology, 2007 (2007); BA 1988 Hamilton; PHD 1994 California-San Diego

Moore, Daniel, Professor, Music, 1996 (2006); BME 1981 East Texas State; MM 1985 Wichita State; DMA 2000 Kentucky

Moore, Dennis M., Emeritus Associate Professor, Rhetoric, 1980 (1988); BA 1974 Chicago; MA 1976 Princeton; PHD 1978 Princeton

Moore, Duncan, Adjunct Lecturer, Health Management Policy, 2003 (2008); BA 1963 Florida State; MA 1965 Iowa

Moore, Joseph P., Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 1994 Creighton

Moore, Joyce L., Associate Professor, Psych Quant Foundations, 1994 (2000); BS 1985 Pittsburgh; PHD 1993 Stanford

Moore, Michael Edward, Associate Professor, History/International Programs, 2008 (2011); AB 1984 Michigan; AM 1987 Michigan; PHD 1993 Michigan

Moore, Pamela Sue, Adjunct Instructor, Social Work, 2000 (2000); BA 1982 Iowa; BBA 1983 Iowa; MSW 1987 Iowa

Moore, Rebecca Ann, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2007 South Dakota State

Moore, Rosemary, Lecturer, History/Classics, 2003 (2009); AB 1990 Harvard; PHD 2002 Michigan

Moore, Steven A., Professor, Pathology, 1986 (1995); BS 1977 Purdue; PHD 1980 Indiana; MD 1982 Indiana

Moores, Kevin Gene, Clinical Associate Professor, Pharmacy, 1987 (2005); PHARM 1979 Nebraska

Moorhead, Michael Edwin, Adjunct Lecturer, Management Organizations, 2003 (2000); MBA 1995 Iowa

Moorhead, Sue Ann Parmeter, Associate Professor, Nursing, 1984 (1999); BSN 1972 Maryland; MA 1982 Iowa; PHD 1993 Iowa

Mora, Francisco, Adjunct Professor, Physiology, 1995 (1995); BS 1970 Granada; MD 1974 Granada; PHD 1978 Oxford

Moran, Michael E., Adjunct Instructor, Health and Human Physiology, 1985 (1985); BA 1978 Northern Colorado; MA 1979 Northern Colorado

Morarend, Quinn, Adjunct Assistant Professor, Periodontics, 2003 (2010); DDS 2001 Iowa; MS 2009 Iowa

Morcuende, Jose A., Associate Professor, Orthopaedics and Rehabilitation/Pediatrics, 2001 (2007); MD 1981 Autonoma Madrid

Morcuende, Maria Angeles, Clinical Assistant Professor, Psychiatry, 2007 (2007); MD 1994 Autonoma DeMadrid

Mordkoff, Jonathan Toby, Associate Professor, Psychology, 2007 (2007); MA 1988 Johns Hopkins; PHD 1992 Johns Hopkins

Moreland, Jessica Germond, Associate Professor, Pediatrics, 1998 (2006); BS 1988 Duke; MD 1992 Vanderbilt

Morelli, Brian A., Adjunct Instructor, University College, 2009 (2011); AA 2002 Des Moines; BA 2005 Iowa

Moreno Uribe, Lina Maria, Assistant Professor, Orthodontics, 2008 (2008); DDS 1991 Medellin Colombia; PHD 2005 Iowa

Morgan, Dale D., Clinical Adjunct Professor, Anesthesia, 2002 (2002); BA 1947 Coe; MD 1951 Iowa

Morgan, Donald P., Emeritus Professor, Occupational Environmental Health, 1973 (1983); BS 1944 Franklin Marshall; MD 1947 Indiana; MS 1949 Northwestern; PHD 1953 Northwestern

Nain, Amrita, Assistant Professor, Finance, 2011 (2011); BA 1996 Delhi; MS 1997 Warwick; DPHIL 2005 Michigan

Nair, Ramesh, Clinical Associate Professor, Pathology, 2005 (2008); MBBS 1987 Calicut Medical College

Nair, Vasu, Emeritus Professor, Chemistry, 1969 (1980); BSC 1963 Otago-New Zealand; PHD 1966 Adelaide-Australia; ARACI 1967 Royal Australian Chemical Inst

Nakato, Tatsuaki, Adjunct Professor, Civil-Environmental Engineering, 1977 (1996); BS 1966 Nagoya-Japan; MS 1968 Japan; PHD 1974 Iowa

Nara, Peter L., Adjunct Professor, Microbiology, 2010 (2010); PHD 1986 Ohio State

Naraindas, Harish, Adjunct Associate Professor, International Programs, 2004 (2010); PHD 1998 Delhi

Narasimhan, Balaji, Adjunct Professor, Chemical Biochemical Engineering, 2010 (2010); BS 1992 Indian Institute of Tech; PHD 1996 Purdue

Narawong, Duangechai, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1974 Mahidol

Narayanan, Nandakumar, Assistant Professor, Neurology, 2012 (2012);

Nashelsky, Marcus, Clinical Professor, Pathology, 2003 (2009); BA 1984 Wyoming; MD 1989 Nebraska

Nassar, Boulos Sami, Clinical Assistant Professor, Internal Medicine, 2011 (2012); BS 1999 Beirut, Lebanon; MD 2003 Beirut, Lebanon; MPH 2004 Beirut Lebanon

Nassif, Edward G., Clinical Adjunct Assistant Professor, Pediatrics, 1981 (1981); MD 1975 Iowa

Nathan, John E., Adjunct Professor, Pediatric Dentistry, 1999 (2007); DDS 1975 Northwestern; MS 1983 Connecticut

Nathan, Peter E., Emeritus Professor, Community Behavioral Health, 1990 (1990); AB 1957 Harvard; PHD 1962 Washington University

Nau, Scott K., Clinical Adjunct Associate Professor, Pediatrics, 1989 (2009); MD 1978 Iowa

Nauseef, William M., Professor, Microbiology/Internal Medicine, 1983 (1992); BA 1972 Hamilton; MD 1976 State U of NY-Upstate Med Ctr

Navarre-Jackson, Layana Charisse, Adjunct Assistant Professor, Sociology, 2011 (2011); MA 1999 Iowa; MA 2005 Iowa; PHD 2011 Iowa

Nayakankuppam, Dhananjay, Associate Professor, Marketing, 2001 (2008); BS 1988 Shivaji; MBA 1990 Madras; MS 2000 Michigan

Naylor, Kenneth L., Clinical Adjunct Lecturer, Obstetrics Gynecology, 1991 (1991); MD 1986 Utah

Nazareth, Peter, Professor, English, 1973 (1985); BA 1962 Honors English London-England

Neal, Ted Anthony, Clinical Instructor, Teaching and Learning, 2009 (2009); MS 2002 Drake

Neff, John S., Emeritus Professor, Physics Astronomy, 1964 (1979); BS 1957 Wisconsin; MS 1958 Wisconsin; PHD 1961 Wisconsin

Nehl, Carissa Rose, Adjunct Assistant Professor, Psych Quant Foundations, 2012 (2012);

Neiman, Maurine, Assistant Professor, Biology, 2007 (2007); BA 1999 Carleton College; PHD 2004 Indiana

Nelms, William F., Clinical Adjunct Associate Professor, Family Medicine, 1985 (2006); BA 1974 Minnesota; MD 1978 Minnesota

Nelson, Forrest D., Professor, Economics, 1980 (1989); BS 1968 Colorado State; MS 1974 Rochester; PHD 1975 Rochester

Nelson, Gary Randall, Adjunct Associate Professor, Pediatric Dentistry, 2007 (2007); DDS 1978 Loma Linda; MS 1981 Iowa

Nelson, Gayle Ann, Clinical Adjunct Instructor, Nursing, 2001 (2001); BSN 1991 St Francis; MHA 1995 St. Francis

Nelson, George C., Emeritus Professor, Mathematics, 1968 (1982); BA 1964 Oberlin; MS 1965 Case Institute of Technology; PHD 1968 Case Institute of Technology

Nelson, John S., Professor, Political Science/International Programs, 1975 (1987); BA 1971 Kentucky; PHD 1977 North Carolina

Nelson, Karen A., Clinical Associate Professor, Psych Quant Foundations/Psychiatry, 1999 (2005); BA 1987 Texas; MA 1991 Northwestern; PHD 1995 Northwestern

Nelson, Lori Jean, Adjunct Professor, Psychology, 2002 (2002); BS 1986 Iowa; MA 1988 Princeton; PHD 1990 Princeton

Nelson, Patricia A., Lecturer, Nursing, 1980 (1992); BSN 1980 Iowa; MA 1984 Iowa

Nelson, Steven P., Adjunct Associate Professor, Pharmacy, 1994 (1994); BS 1971 North Dakota State; MS 1974 North Dakota State

Nelson, Tamara Lee, Clinical Assistant Professor, Internal Medicine, 2011 (2012); BS 2002 Iowa

Nelson, William R., Adjunct Lecturer, University College, 2009 (2009); BBA 1984 Iowa State; MS 1986 Iowa State; PHD 2002 Iowa State

Nelson-Norman, Kendra, Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARM 2006 Iowa

Nepola, James V., Professor, Orthopaedics and Rehabilitation, 1984 (1993); BS 1974 Yale; MD 1978 Columbia

Neppl, Kelly M., Lecturer, World Languages, Literatures, and Cultures, 2005 (2007); AB 1993 CORNELL

Nepple, Kenneth Gerard, Assistant Professor, Urology, 2010 (2012); BS 2000 Iowa State; MD 2004 Iowa

Nerheim, Pamela Lynne, Clinical Adjunct Assistant Professor, Internal Medicine, 2002 (2002); ADN 1981 Scott Community; BS 1991 Iowa; MD 1995 Iowa

Nesbitt, John A., Emeritus Professor, Health, Sport Studies, 1972 (1975);

Nessler, Randy Alan, Adjunct Instructor, Geoscience, 2009 (2009); BGS 1988 Iowa; MBA 2003 St. Ambrose

Nestegard, Holly Jo, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Nester, Carla Marie, Assistant Professor, Internal Medicine/Pediatrics, 2007 (2007); BS 1987 Austin Peay State; MD 1998 Penn State

Nestler, John M., Adjunct Associate Professor, Civil-Environmental Engineering, 1999 (1999); PHD 1980 Clemson

Nettleton, Stephanie, Adjunct Instructor, Preventive Community Dentistry, 2002 (2002); DDS 1994 Iowa

Neu, Stacey Kirsten, Clinical Adjunct Assistant Professor, Family Medicine, 2006 (2006); BA 1992 Central, Pella IA; MD 1996 Iowa

Neuhauser, Paul M., Emeritus Professor, Law-Faculty, 1963 (1969); BA 1955 Harvard; LLB 1958 Harvard; LLM 1963 Harvard

Neumann, George R., Professor, Economics, 1984 (1984); BA 1968 Le Moyne; MA 1969 Northwestern; PHD 1974 Northwestern

Neve, Christina Pauline, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2010 Iowa

Newcomb, Mary A., Adjunct Instructor, Social Work, 1994 (1994); BS 1981 Illinois; MS 1985 Iowa

Newell, John Doty, Professor, Radiology/Biomedical Engineering, 2011 (2011); BA 1973 Occidental; MD 1976 California

Newland, Brand, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 2005 Iowa

Newman, Kathleen E., Associate Professor, Spanish Portuguese/Cinema Comparative Literature, 1988 (1993); BA 1975 Calif-Santa Cruz; MA 1980 Stanford; PHD 1983 Stanford

Newsom, Charles R., Emeritus Associate Professor, Physics Astronomy, 1985 (1989); BS 1974 Texas-Austin; PHD 1980 Texas-Austin

Nguyen, Anh Thu, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2009 Rutgers

Nguyen, Bic T., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2008 Philadelphia

Nguyen, Hien M., Assistant Professor, Chemistry, 2009 (2009); BS 1996 Tufts; PHD 2003 Illinois @ Champaign

Nguyen, Hong-Thao Thi, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Nguyen, Phuong Hoang, Assistant Professor, Urban Regional Planning/Public Policy Center, 2011 (2011); BS 1999 International Economics; MS 2006 Duke; DR 2010 Syracuse

Ni, Jun, Associate Professor, Radiology/Mechanical Engineering/Biomedical Engineering, 1998 (2003); BS 1982 Harbin Shipbuilding Engineerin; MS 1984 Shanghai Jan; PHD 1991 Iowa

Nibbelink, William H., Emeritus Professor, Teaching and Learning, 1971 (1980); BA 1961 Michigan; MS 1965 Iowa; PHD 1971 Ohio State

Nice, Dylan Thomas, Adjunct Lecturer, Division of Interdisciplinary Program, 2011 (2012); BA 2008 Pittsburg

Nichols, Elizabeth A., Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 2001 Northern Iowa; PHARM 2005 Iowa

Nichols, Mary J., Adjunct Assistant Professor, Psychiatry, 1999 (1999); MA 1973 Iowa; PHD 1981 Iowa

Nicholson, Rachael, Clinical Assistant Professor, Surgery, 2009 (2009); MD 2002 Southern Illinois

Nickel, Ellen J., Adjunct Assistant Professor, Anesthesia, 1997 (1997); BS 1980 Carroll College; BS 1985 Wisconsin-Madison; PHARM 1993 Illinois@Chicago

Nickelsburg, George W., Emeritus Professor, Religion, 1969 (1977); BA 1955 Valparaiso; BD 1960 Concordia Seminary; MA 1962 Concordia Seminary; PHD 1968 Harvard

Niebuhr, Diane Patrice, Clinical Associate Professor, Communication Sciences and Disorders, 1983 (1992); BS 1980 Iowa; MA 1982 Iowa

Niebyl, Jennifer R., Professor, Obstetrics Gynecology, 1988 (1988); BS 1963 McGill; MD 1967 Yale

Niehaus, Matthew William, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 1997 Iowa

Nielsen, David H., Emeritus Professor, Physical Therapy, 1975 (1994); BS 1965 Maryland; MA 1967 Maryland; PHD 1974 Pennsylvania State

Nierman, Craig L., Adjunct Lecturer, Law-Faculty, 2007 (2007); JD 1999 Iowa

Nieves, Ervin, Adjunct Assistant Professor, English, 2006 (2006); PHD 2004 Iowa

Nikolas, Molly A., Assistant Professor, Psychology, 2011 (2011); BA 2002 Notre Dame; MA 2007 Michigan State; PHD 2011 Michigan State

Nino-Murcia, M. Mercedes, Professor, Spanish Portuguese/International Programs, 1990 (2011); BA 1973 Mariana-Colombia; MA 1983 Rice; PHD 1988 Michigan

Nishi, Yumiko, Assistant Professor, Asian Slavic Languages Literature, 2012 (2012);

Nisly, Nicole L., Clinical Professor, Internal Medicine, 1993 (2001); MD 1982 Universidade Federal de Permbu

Niwas, Ram, Clinical Assistant Professor, Pediatrics, 2009 (2009); MD 1985 Sn Medical, Agra India

Nixon, Mary Wagner, Clinical Adjunct Instructor, Nursing, 2004 (2004); BSN 1977 Iowa; MA 1990 Iowa

Nixon, Wilfrid A., Professor, Civil-Environmental Engineering, 1987 (1998); BA 1981 Cambridge; PHD 1984 Cambridge; MA 1985 Cambridge

Njue, John Gitaari, Lecturer, French Italian, 2009 (2009); BED 1987 Kenyatta; MA 1989 Nairobi; PHD 2004 Iowa

Nobiling, Heidi Elise, Clinical Adjunct Instructor, Nursing, 2001 (2001); BSN 1986 University Center; MA 1994 Iowa; MBA 1994 Iowa

Noblett-Feld, Reta, Emeritus Professor, Law-Faculty, 1991 (2006); BA 1980 Iowa; JD 1983 Iowa

Nock, Jeffrey Bowman, Adjunct Lecturer, Management Organizations, 2012 (2012);

Noiseux, Nicolas Olivier, Clinical Assistant Professor, Orthopaedics and Rehabilitation, 2007 (2007); BSC 1996 McGill; MD 2000 McGill Medical School; MSC 2007 Mayo Grad Schl-Clin Res Trn Pr

Nonnenmann, Matthew Winston, Assistant Professor, Occupational Environmental Health, 2011 (2011); MS 1999 Iowa; PHD 2005 Iowa

Noonan, Mary Christine, Associate Professor, Sociology, 2001 (2007); BA 1992 Boston

Nooney, Gregory L., Adjunct Instructor, Social Work, 2001 (2001); MSW 1983 Loyola

Nopoulos, Peggy Colleen, Professor, Inst for Clinical and Translational Science/Psychiatry/Pediatrics, 1994 (2005); MD 1989 Iowa

Owen, Travis Michael, Adjunct Instructor, Chemistry, 2012 (2012); BS 2005 Missouri St Univ., Springfield

Oxley, Dana, Adjunct Lecturer, Law-Faculty, 2007 (2007); BA 1990 Northern Iowa; JD 1998 Iowa

Oya, Hiroyuki, Associate Professor, Neurosurgery, 2003 (2012); MD 1981 Tottori, Japan

Ozaki, Linda, Clinical Adjunct Assistant Professor, Pediatrics, 1998 (1998); MD 1979 Kansas

Ozbolat, Ibrahim Tarik, Assistant Professor, Industrial Engineering, 2011 (2011); BS 2006 Middle East Technical; PHD 2011 SUNY

Paca, Wendy Sue, Clinical Adjunct Instructor, Nursing, 2012 (2014);

Pacheco, Julianna, Assistant Professor, Political Science, 2012 (2012);

Pachow, Wang, Emeritus Professor, Religion, 1968 (1975); BA 1936 Shanghai China; PHD 1948 Bombay-India

Packer, Aaron Grant, Adjunct Instructor, Communication Sciences and Disorders, 2003 (2003); BA 1996 Iowa; MA 2000 Iowa

Paden, Stanley, Lecturer, English as Second Language, 2011 (2011); MA 1997 Hunter, New York; MAT 2005 Webster

Padomek, Michael T., Adjunct Instructor, Pharmacy, 1994 (1994); PHARM 1987 Creighton

Paetzold-Durumeric, Robin, Adjunct Instructor, Pediatrics, 2006 (2006); MBA 1995 Iowa

Page, Michael, Clinical Adjunct Assistant Professor, Surgery, 2006 (2006); BS 1990 Ohio State; MD 1994 Wright State

Pagedar, Nitin Ajitkumar, Assistant Professor, Otolaryngology-Head Neck Surgery, 2008 (2008); MD 2002 Case Western Reserve

Paige, Alfred Lebron, Clinical Associate Professor, Neurology, 2012 (2012);

Paige, Lisa Marie Staudt, Adjunct Instructor, Communication Sciences and Disorders, 2011 (2011); MA 1980 Iowa

Paik, Anthony, Associate Professor, Gender, Women's and Sexuality Studies/Sociology/Public Policy Center, 2003 (2011); BA 1988 Chicago; MA 1991 Chicago; PHD 2003 Chicago

Pandit, Srilaxmi R., Clinical Adjunct Assistant Professor, Family Medicine, 2011 (2011); MBBS 2003 JSS, India; MBBS 2003 JSS Medical College, India

Pansera, Jerome, Assistant Professor, Statistics Actuarial Science, 2008 (2008); BS 1997 Laval University; MSC 1999 Laval University; PHD 2008 Iowa

Pant, Gautam, Assistant Professor, Management Sciences, 2011 (2011); PHD 2004 Iowa

Pant, Shagun, Assistant Professor, Finance, 2011 (2011); MIS 2003 Iowa; PHD 2009 Utah

Pantazis, Nicholas J., Professor, Anatomy Cell Biology, 1979 (2000); BS 1970 Lehigh; PHD 1977 Harvard

Papanicolaou, Athanasios Nicholas, Professor, Civil-Environmental Engineering/Public Policy Center, 2003 (2009); BSE 1989 Aristoteles University; MS 1993 Virginia Tech; PHD 1997 Virginia Tech

Papworth, David P., Clinical Associate Professor, Anesthesia, 2000 (2000); MD 1974 Kings College Medical

Parcher, Karen, Adjunct Instructor, Pharmacy, 2002 (2002); BS 1994 Drake

Parekh, Kalpaj R., Assistant Professor, Cardiothoracic Surgery, 2006 (2006); MBBS 1992 Seth G.S. Medical College

Park, Alyssa, Assistant Professor, History, 2011 (2011); BA 1998 Princeton; MA 2004 Columbia; PHD 2009 Columbia

Park, Jeong Mi, Clinical Professor, Radiology, 2005 (2005); MD 1985 Seoul National University

Park, Joon B., Emeritus Professor, Biomedical Engineering, 1983 (1983); BS 1967 Boston University; MS 1969 Massachusetts Inst of Technolo; PHD 1972 Utah

Park, Myonghwa, Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1994 Keimyung, Korea; MSN 1997 Keimyung, Korea; PHD 2001 Iowa

Park, Soonhye, Associate Professor, Teaching and Learning, 2006 (2011); BA 1994 Seoul National; MA 1999 Seoul National; PHD 2005 Georgia, Athens

Parker, Amy Eleanor, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2012 (2012);

Parker, Andrew, Assistant Professor, Music, 2009 (2009); MM 2003 Yale; DMA 2009 Michigan

Parker, Christopher P., Adjunct Assistant Professor, Pharmacy, 2008 (2008); BS 1997 Nebraska; PHARM D 2006 Iowa

Parker, Edith A., Professor, Community Behavioral Health, 2010 (2010); BA 1983 Davidson; MPH 1989 North Carolina; PHD 1995 North Carolina

Parker, Stan, Clinical Adjunct Assistant Professor, Radiology, 1991 (1991); MD 1982 Iowa

Parkes, Ford B., Emeritus Associate Professor, German, 1969 (1976); BA 1964 Kent State; MA 1966 Kent State; PHD 1971 Michigan State

Parkin, Gene F., Professor, Civil-Environmental Engineering/Occupational Environmental Health, 1986 (1988); BS 1970 Iowa; MS 1971 Iowa; PHD 1978 Stanford

Parratt, Catriona, Associate Professor, American Studies, 1989 (2001); BA 1977 Birmingham; MHK 1984 Windsor; PHD 1994 Ohio State

Parrot, Eugene L., Emeritus Professor, Pharmacy, 1962 (1974);

Parrott, Ray J., Emeritus Professor, Russian, 1971 (1985); BA 1963 Cornell-Iowa; MA 1967 Michigan; PHD 1974 Michigan

Parsons, Bradley J., Adjunct Lecturer, College Transition, 2012 (2012); MA 2002 California State University

Parsons, Donald, Adjunct Lecturer, Law-Faculty, 2011 (2011); BSE 1970 Leigh; BSEE 1970 Leigh University; MAT 1972 Leigh; JD 1977 Georgetown

Parsons, Donna Sue, Lecturer, Honors Program/Music, 2002 (2009); BM 1990 Iowa; MA 1993 Iowa; PHD 2001 Iowa

Parton, David A., Emeritus Professor, Sociology, ();

Parton, David A., Emeritus Professor, Sociology, 1965 (1976);

Pascarella, Ernest T., Professor, Educ Policy Leadership Studies, 1997 (1997); BA 1965 Princeton; MS 1970 Pennsylvania; PHD 1973 Syracuse

Pascoe, Judith Marie, Professor, English, 1993 (2006); BS 1982 Duke; MA 1984 Syracuse; PHD 1992 Pennsylvania

Patel, Hina, Lecturer, Teaching and Learning, 2010 (2010); PHD 2004 Iowa State

Patel, Virendra C., Emeritus Professor, Civil-Environmental Engineering, 1971 (1975); BS 1962 A.C.G.I. London; PHD 1965 Cambridge

Paterson, George W., Emeritus Associate Professor, Religion/Internal Medicine, 1970 (1975); BA 1952 Simpson; BD 1955 Drew Theological Seminary; PHD 1969 Iowa

Patil, Shivanand R., Emeritus Professor, Pediatrics, 1977 (1986); BS 1961 Karnatak-India; MS 1963 Karnatak-India; PHD 1969 Colorado

Patrick, Joseph A., Emeritus Professor, Art Art History, 1965 (1984); BFA 1960 Georgia; MFA 1962 Colorado

Patterson, Kathleen M., Adjunct Instructor, Preventive Community Dentistry, 1993 (1993); BS 1974 Iowa

Patterson, Steven, Adjunct Lecturer, College Transition, 2005 (2010); BA 1990 Oberlin College; MFA 2002 Iowa

Patterson, Todd Phillip, Adjunct Lecturer, Marketing, 2012 (2012); BA 1997 University of Iowa; MBA 2005 University of Iowa

Pattillo, Robin Elizabeth, Clinical Associate Professor, Nursing, 2010 (2010); MSN 1993 Troy; PHD 2000 Auburn

Patton, Emily Hess Donovan, Clinical Adjunct Instructor, Nursing, 2007 (2007); BA 1977 Earlham; ADN 1991 Quinnipiac; MSN 1997 Illinois @ Chicago

Paul-Petersen, Dorothy Helen, Lecturer, Teaching and Learning, 2000 (2000); BA 1972 Glassboro State; MS 1981 Iowa

Paulsen, Brooke Marie, Adjunct Lecturer, College Transition, 2008 (2008); BA 2005 Northern Iowa; MA 2007 Iowa

Paulsen, Grant L., Clinical Adjunct Associate Professor, Obstetrics Gynecology, 1999 (1999); MD 1972 Iowa

Paulsen, Jane S., Professor, Psychology/Neurology/Psychiatry, 1996 (2001); BS 1983 Simpson; PHD 1989 Iowa

Paulsen, Michael, Professor, Educ Policy Leadership Studies, 2004 (2004); BA 1973 St. Ambrose; MA 1974 University of Wisconsin-Milwaukee; PHD 1983 Iowa

Paulson, Brandon Scott, Adjunct Lecturer, College Transition/University College, 2010 (2010); BSC 2005 UW-River Falls; MSED 2009 UW-La Crosse

Paulson, Henry L., Adjunct Professor, Neurology, 1997 (2006); BS 1981 Yale; MD 1990 Yale; PHD 1990 Yale

Paulson, Wayne L., Emeritus Professor, Civil-Environmental Engineering, 1960 (1972); BS 1959 Wisconsin; MS 1960 Wisconsin; PHD 1965 Iowa

Pauly, Peter J., Adjunct Associate Professor, Family Dentistry, 1986 (2000); DDS 1978 Iowa

Pavlik, Claire E., Lecturer, Geography, 1990 (2005); BA 1981 Minnesota; MA 1985 Minnesota; PHD 1992 Minnesota

Payne, Gerald L., Emeritus Professor, Physics Astronomy, 1969 (1980); BS 1961 Ohio State; MS 1961 Ohio State; PHD 1967 California San Diego

Paynter, Donald E., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1980 Iowa

Peace, Robert Lynn, Adjunct Professor, Management Organizations, 2010 (2010); MBA 1970 New York; JD 1974 New York

Pearce, Elizabeth Florence, Adjunct Lecturer, Communication Studies, 2005 (2006); BED 1981 St Paul St Mary; MA 1990 Iowa; PHD 2004 Iowa

Pearcy, Donna Louise, Adjunct Lecturer, Finance, 2007 (2007); BS 1977 SE Missouri State; MBA 1979 SE Missouri State

Pearson, C. Suzanne, Adjunct Lecturer, Teaching and Learning, 2005 (2005); BS 1974 Iowa; MA 1983 Iowa

Pearson, Kent S., Associate Professor, Anesthesia, 1985 (1993); BS 1977 Illinois-Urbana; MD 1981 Illinois-Rockford

Peate, David William, Associate Professor, Geoscience, 2004 (2009); BA 1985 Cambridge Univ; PHD 1989 Open Univ. UK

Pedersen, Douglas Ray, Associate Professor, Orthopaedics and Rehabilitation, 2001 (2001); BSE 1979 Iowa; MS 1983 Iowa; PHD 1998 Iowa

Pederson, Michael John, Instructor, Military Science, 2011 (2011); BA 2003 Northern Iowa

Peek, Thomas, Adjunct Associate Professor, Family Dentistry, 2003 (2004); BS 1973 Oklahoma City; DDS 1976 Iowa; MS 1978 Iowa; JD 1989 Oklahoma City

Peek-Asa, Corinne, Professor, Public Policy Center/Epidemiology/Occupational Environmental Health/Nursing, 2001 (2004); BA 1989 New Mexico; MPH 1990 California-Los Angeles; PHD 1995 Calif-Los Angeles

Peeples, Tonya L., Professor, Chemical Biochemical Engineering, 1995 (2009); BS 1988 North Carolina State; PHD 1994 Johns Hopkins

Pelaez, Carlos, Clinical Assistant Professor, Surgery, 2011 (2011); MD 2003 Universidad de Iberoamerica

Pelenski, Jaroslaw, Emeritus Professor, History, 1967 (1971); PHD 1957 Munich-Germany; PHD 1968 Columbia

Pelton, Elizabeth L., Emeritus Associate Professor, Health, Sport Studies, 1974 (1980); BS 1970 Iowa; MS 1974 Iowa

Pemmaraju, Sriram V., Associate Professor, Computer Science, 2000 (2000); MSC 1987 Birla; MS 1989 Virginia Polytechnic; PHD 1992 Virginia Polytechnic

Pendergast, Jane, Professor, Biostatistics, 1999 (2005); BA 1974 Dayton; MS 1976 Iowa; PHD 1979 Iowa

Pennathur, Priyadarshini Ravichandran, Instructor, Industrial Engineering, 2012 (2012);

Penningroth, R. Paul, Clinical Adjunct Assistant Professor, Psychiatry, 1965 (1973); MD 1964 Iowa

Penno, Mark, Professor, Accounting, 2004 (2004); BA 1973 Wisconsin; MS 1977 Wisconsin; PHD 1983 Northwestern

Penny, H. Glenn, Associate Professor, History/International Programs, 2003 (2006); BA 1987 Colorado; MA 1991 Colorado; PHD 1999 Illinois

Pentella, Michael A., Clinical Associate Professor, Epidemiology, 2003 (2008); BS 1972 Ohio State; MS 1980 Thomas Jefferson; PHD 2000 South Florida

Perathur, Arvind, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MBBS 1996 Goa, India; MBBS 1996 Goa University, Goa, India

Perencevich, Eli, Professor, Epidemiology/Internal Medicine, 2010 (2010); MD 1994 Case Western Reserve U

Perkins, Edward S., Emeritus Professor, Ophthalmology Visual Science, 1979 (1979); MBBS 1947 St. Bartholomew's-England; PHD 1957 London; MD 1959 London

Perkins, Janis, Adjunct Lecturer, International Programs, 2003 (2003); BA 1982 KANSAS; MA 1991 KANSAS

Perlman, Stanley, Professor, Microbiology/Pediatrics, 1983 (1993); AB 1968 Rochester; PHD 1972 MIT; MD 1979 Miami

Perlmutter, David Dimitri, Professor, Journalism Mass Communication, 2009 (2009); BA 1985 Pennsylvania; MA 1991 Pennsylvania; PHD 1996 Minnesota-Twin Cities

Perone, Sammy, Adjunct Assistant Professor, Psychology, 2012 (2012); PHD 2010 University of Iowa

Perovic, Katarina, Assistant Professor, Philosophy, 2011 (2011); BA 2002 Bologna, Italy; MPHIL 2003 King's; PHD 2008 King's

Perreau, Ann Elizabeth, Adjunct Instructor, Communication Sciences and Disorders, 2007 (2007); BA 2002 Iowa; MA 2004 Iowa

Perry, Eric Charles, Adjunct Lecturer, Finance, 2004 (2004); BA 1989 Iowa; MBA 1992 Iowa

Perry, Paul J., Emeritus Professor, Psychiatry, 1973 (1987); BS 1969 Univ of the Pacific; MS 1971 Univ of the Pacific; PHD 1973 Univ of the Pacific

Persoon, Thomas John, Adjunct Instructor, Management Sciences/Industrial Engineering/Health Management Policy, 2000 (2000); SCM 1972 Iowa; MSE 2002 Iowa

Persson, Dorothy Marie, Adjunct Assistant Professor, Educ Policy Leadership Studies, 1989 (1989); BA 1971 Ohio; AMLS 1972 Indiana; PHD 1985 Iowa

Pesantubbee, Michelene, Associate Professor, Religion/American Studies, 2003 (2006); MA 1991 California; PHD 1994 California

Pesce, Liuska Maria, Clinical Assistant Professor, Pediatrics, 2008 (2008); MD 1998 Central Univ of Venezuela

Pestel, Laurie Anne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARMD 2000 Creighton

Petasnick, William D., Adjunct Associate Professor, Health Management Policy, 1992 (1992); MA 1970 Minnesota

Pomrehn, Paul Rudolph, Adjunct Professor, Epidemiology, 1980 (1999); BA 1971 Iowa; MD 1975 Iowa; MS 1980 Iowa

Pontarelli, Michel Sandom, Adjunct Lecturer, Marketing, 2007 (2009); BA 1976 Connecticut; MBA 1999 St. Ambrose

Ponto, James Allen, Clinical Professor, Pharmacy, 1978 (1992); BS 1977 Iowa; BSPH 1977 Iowa; MS 1978 Southern-California-Los Angeles

Ponto, Laura L., Associate Professor, Radiology, 2000 (2008); BSPH 1977 Iowa; MS 1981 Iowa; PHD 1988 Iowa

Pooock, James Joseph, Clinical Adjunct Assistant Professor, Family Medicine, 2009 (2009); BS 1995 Upper Iowa Univ, Fayette, IA; MD 1999 Iowa; BS 1999 Upper Iowa

Pope, Hallowell, Emeritus Associate Professor, Sociology, 1968 (1968);

Pope, Melody K., Adjunct Assistant Professor, Anthropology, 2007 (2007); MA 1989 Binghamton; PHD 2005 Binghamton

Porcella, Aleta Anne, Clinical Adjunct Instructor, Nursing, 2002 (2002); BA 1974 Iowa; BSN 1979 Morningside; MSN 2000 Iowa

Poremba, Amy, Associate Professor, Psychology, 2001 (2009); BS 1988 Illinois; PHD 1996 Illinois

Porepp, Matt Paul, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2008 Drake

Poroy, Oguz, Adjunct Lecturer, College Transition, 2002 (2009); BS 1992 Bogazici; MS 1995 Tuskegee; PHD 2000 ARKANSAS-LITTLE ROCK

Porter, Horace A., Professor, African-American Studies/English/American Studies, 1999 (1999); BA 1972 Amherst; MA 1975 Yale; PHD 1981 Yale

Porter, Jeffrey L., Associate Professor, English, 1993 (2009); BA 1974 State Univ of NY-Buffalo; MA 1975 Oregon; PHD 1983 Oregon

Porter, Samuel D., Emeritus Associate Professor, Surgery, 1974 (1985); BA 1956 Grinnell; MD 1960 Creighton

Portman, Tarrell Aweagahe, Associate Professor, Rehabilitation and Counselor Education, 1999 (2005); BS 1981 Southeast Missouri State; MA 1988 Southeast Missouri State; PHD 1999 Arkansas

Posthuma, Richard Dale, Clinical Adjunct Assistant Professor, Family Medicine, 2004 (2004); BA 1982 Dordt, IA; MD 1991 Iowa

Postler, Paul Frederick, Adjunct Lecturer, Management Sciences, 1990 (1990); MBA 1986 University of Iowa

Potaczek, Karen Kay, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 2006 Marquette

Potapova, Marina, Adjunct Professor, University College, 2010 (2010); PHD 1993 Limnological Inst

Potash, James B., Professor, Psychiatry, 2011 (2011); BA 1984 Yale; MPH 1989 John Hopkins; MD 1993 John Hopkins

Potestio, Armand J., Adjunct Assistant Professor, Pharmacy, 2005 (2005); BA 1980 Colorado; BSPH 1984 Colorado

Potter, Elizabeth Mary, Clinical Assistant Professor, Obstetrics Gynecology, 2009 (2009); BA 2000 Pomona College; MS 2008 CA, San Francisco

Potthoff, Matthew Joseph, Assistant Professor, Pharmacology, 2012 (2012);

Poulakos, P. Takis, Associate Professor, Rhetoric, 1990 (1995); BA 1974 San Jose State; MA 1976 San Jose State; PHD 1988 Miami-Ohio

Poulson, Eva-Maria, Adjunct Instructor, Preventive Community Dentistry, 1993 (1994); DDS 1981 UCLA

Poulton, Jonathan E., Emeritus Professor, Biology, 1979 (1992); BA 1971 Oxford-England; MA 1974 Oxford-England; DPHIL 1974 Oxford-England

Poust, Rolland I., Emeritus Professor, Pharmacy, 1991 (1991); BS 1966 Pittsburgh; MS 1968 Pittsburgh; PHD 1971 Purdue

Powell, Sandra Rae, Emeritus Associate Professor, Nursing, 1969 (1980); BA 1963 Coe; MED 1969 Columbia Teachers College; PHD 1990 Iowa

Powell-Rennekar, Becky Sue, Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); BS 1979 Iowa

Powell-Young, Yolanda, Adjunct Assistant Professor, Nursing, 2011 (2011); PHD 2005 Southern Univ AM Co

Prahlad, Veena, Assistant Professor, Biology, 2012 (2012);

Prater, Nicola Jane, Lecturer, Family Medicine/Nursing, 2001 (2008); BSN 1986 Sangamon State; MSN 2000 Iowa

Prescott, William Crego, Adjunct Assistant Professor, Mechanical Engineering, 2008 (2008); PHD 1993 Iowa

Preston, Beth Marie, Adjunct Instructor, Nursing, 2001 (2001); MSN 1996 Grand View

Preston, Mark Allen, Clinical Adjunct Assistant Professor, Psychiatry, 2008 (2007); BS 1979 Iowa State; MD 1984 Iowa

Preucil, William W., Emeritus Professor, Music, 1958 (1971); BM 1952 Eastman School of Music; MM 1956 Rochester

Preus, Christian Abraham, Adjunct Instructor, Classics, 2012 (2012); BA 2006 University of North Dakota

Price, David H., Professor, Biochemistry, 1989 (1998); BS 1975 North Carolina State; PHD 1980 Florida State

Price, Karen L., Lecturer, English as Second Language, 2009 (2010); BA 1994 Iowa; MA 2007 Iowa

Prickman, Gregory J., Adjunct Instructor, Interdisciplinary Programs/Library Information Science, 2008 (2008); BA 1994 Macalester; AMLS 1998 Indiana

Pries, Chris M., Adjunct Instructor, Nursing, 1983 (1983); MA 1975 Iowa

Priest, Richard Tyler, Associate Professor, History/Geography, 2012 (2012);

Prineas, John Paul, Associate Professor, Electrical-Computer Engineering/Physics Astronomy, 2001 (2007); BA 1991 Carleton; PHD 2000 Arizona

Proud, Sherri Lyn Curtis, Adjunct Instructor, Health and Human Physiology, 2012 (2012);

Proudfit, Herbert K., Emeritus Professor, Pharmacology, 2000 (2000); BA 1964 Kansas; PHD 1971 Kansas-Kansas City

Prull, Michelle Ann, Adjunct Assistant Professor, Pharmacy, 1997 (2010); BS 1993 Iowa

Prussing, Erica, Associate Professor, Anthropology/Community Behavioral Health, 2002 (2011); BA 1988 Wellesley; MA 1992 California-San Diego; PHD 1999 California-San Diego; MPH 2000 California-Berkeley

Prybil, Lawrence, Emeritus Professor, Health Management Policy, 1999 (1999); BA 1962 Iowa; MA 1964 Iowa; PHD 1970 Iowa

Prymek, Jennifer L., Adjunct Instructor, Pharmacy, 2009 (2009); BSPH 1997 Drake University

Pryor, Craig Earl, Associate Professor, Physics Astronomy, 2005 (2011); PHD 1990 UCSB

Puderbaugh, David, Assistant Professor, Music, 2006 (2006); BME 1994 Drake

Pudlo, Anthony T., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Pufall, Miles A., Assistant Professor, Biochemistry, 2010 (2010); PHD 2004 Utah

Purnell, Jarvis K., Adjunct Lecturer, College Transition, 2011 (2011); BSIE 2008 Northern Illinois; MSED 2010 Northern Illinois

Purtle, Mark William, Clinical Adjunct Associate Professor, Internal Medicine, 1990 (2005); MD 1981 Iowa

Pusey, Robert Drake, Adjunct Associate Professor, Family Dentistry, 1994 (2012); DDS 1982 Iowa

Putnam, Shannon Dennis, Adjunct Assistant Professor, Epidemiology, 2005 (2005); BS 1987 Wayne State; MS 1989 Northern Arizona; PHD 1999 Iowa

Pyeich, Elana Nadine, Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 1999 Iowa

Pyeich, Vickie Diamandakis, Clinical Professor, Pediatrics, 1997 (2012); BS 1987 Iowa; MD 1991 Iowa

Pyfferoen, Matthew T., Adjunct Assistant Professor, Pediatric Dentistry, 2012 (2012); BS 1999 Iowa State; DDS 2008 Iowa

Qi, Hank Heng, Assistant Professor, Anatomy Cell Biology, 2011 (2011); MD 1991 Harbin Medical; MS 1997 Katholiek of Leuven, België; PHD 2002 Laval, Canada

Qian, Fang, Adjunct Assistant Professor, Preventive Community Dentistry, 2001 (2001); BA 1984 Chinese People's; MA 1989 Hunter; MPHIL 1990 City-New York; PHD 1994 City-New York

Qian, Yiming, Associate Professor, Finance, 2002 (2010); BA 1995 Nankai; MA 1997 Fordham; PHD 2002 New York

Quelle, Dawn E., Associate Professor, Pharmacology/Pathology, 1997 (2005); BS 1987 Maine; PHD 1992 Pennsylvania

Quelle, Frederick W., Associate Professor, Pharmacology/Internal Medicine, 1997 (2005); BA 1986 Middlebury; MA 1990 Pennsylvania State; PHD 1992 Pennsylvania State

Questad, Deanna L., Clinical Adjunct Associate Professor, Internal Medicine, 1990 (2010); MD 1983 South Dakota ((Vermillion)

Quigley, Patricia Danielle, Clinical Assistant Professor, Pediatrics, 2010 (2010); BS 2001 Wisconsin; MD 2006 Tufts School of Med

Quinby, Gary Edwin, Clinical Adjunct Assistant Professor, Dermatology, 2001 (2001); BS 1988 Iowa; MD 1996 Iowa; PHD 1996 Iowa

Quinlisk, Patricia, Adjunct Professor, Epidemiology, 1996 (2002); BS 1977 Wisconsin; MPH 1984 Johns Hopkins; MD 1988 Wisconsin-Madison

Quinn, Daniel M., Professor, Chemistry, 1982 (1992); BS 1972 Quincy; PHD 1977 Kansas

Rabe, Glenda K., Clinical Assistant Professor, Pediatrics, 2008 (2008); BS 1998 Iowa; MD 2002 Iowa

Rabedeaux, Steven Grant, Adjunct Instructor, Family Dentistry, 1992 (1992); BS 1980 Iowa; DDS 1984 Iowa

Raber, Ericka Arvidson, Adjunct Instructor, University College, 2003 (2009); BA 1991 IOWA; MA 1998 IOWA; MA 2000 IOWA

Rabinovitz, Lauren, Professor, Cinema Comparative Literature/American Studies, 1986 (1998); BS 1972 Boston University; MA 1977 Texas-Austin; PHD 1982 Texas-Austin

Racevskis, Roland, Professor, French Italian, 1998 (2009); BA 1992 Michigan State; MA 1994 Pennsylvania; PHD 1997 Pennsylvania

Rachow, John W., Clinical Assistant Professor, Internal Medicine, 1988 (1988); BS 1967 Nebraska-Lincoln; MS 1969 Nebraska-Lincoln; PHD 1976 Nebraska-Lincoln; MD 1976 Nebraska-Omaha

Rademacher, Bruce E., Adjunct Instructor, Pharmacy, 2003 (2003); BSPH 1980 Purdue

Radia, Mary A., Clinical Adjunct Assistant Professor, Internal Medicine, 1987 (2001); DO 1981 Drake

Radley, Jason J., Assistant Professor, Psychology, 2011 (2011); BA 1995 Miami; MA 1997 Princeton; PHD 2001 Princeton

Raeburn, John H., Emeritus Professor, English/American Studies, 1974 (1983); BA 1963 Indiana; PHD 1969 Pennsylvania

Raghavan, Madhavan Lakshmi, Professor, Biomedical Engineering, 2000 (2012); BE 1992 Coimbatore; PHD 1998 Pittsburgh

Raheim, Salome, Emeritus Associate Professor, Social Work/IA Consortium Substance Abuse, 1986 (1997);

BSW 1974 Bowie State; MSW 1976 Catholic University of America; PHD 1990 Iowa

Rahhal, Riad, Clinical Associate Professor, Pediatrics, 2007 (2012); BS 1996 Univ of Beirut; MD 2000 Univ of Beirut

Rahman, Sharif, Professor, Mechanical Engineering, 1995 (2005); BS 1984 Bangladesh; MS 1986 Purdue; PHD 1991 Cornell

Rahmatalla, Salam Faisal, Associate Professor, Civil-Environmental Engineering/Biomedical Engineering, 2005 (2012); MME 1985 Technology; MCE 2002 Iowa; PHE 2004 Iowa

Rahmouni, Kamal, Associate Professor, Pharmacology/Internal Medicine, 2005 (2011); PHARM 2001 Strasbourg

Raife, Thomas J., Clinical Professor, Pathology, 2001 (2009); BA 1980 Iowa State; MD 1989 Iowa

Railey, Jonathan Brent, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2011 (2011); BA 1997 Georgia; MA 2005 Naropa; MFA 2010 Iowa

Railsback, Linda Diane, Clinical Adjunct Assistant Professor, Obstetrics Gynecology, 1993 (1993); MD 1974 Iowa

Rainey, Emma, Adjunct Lecturer, University College, 2010 (2010); BA 2006 Iowa; MFA 2009 Iowa

Rainville, Edward Charles, Adjunct Assistant Professor, Pharmacy, 2007 (2007); MS 1988 Iowa

Rajagopal, Rangaswamy, Professor, Civil-Environmental Engineering/International Programs/Geography, 1979 (1987); BS 1964 Bombay-India; ME 1969 Florida; PHD 1973 Michigan

Rajagopal, Srinivasan, Clinical Assistant Professor, Anesthesia, 2005 (2007); MD 2000 Wayne State

Rajput, Maheen, Clinical Assistant Professor, Radiology, 2008 (2008); MD 2000 Illinois

Rakel, Barbara Ann, Associate Professor, Physical Therapy/Nursing, 2000 (2011); BSN 1979 Iowa; MA 1988 Iowa; PHD 2002 Iowa

Ralston, Christine R., Adjunct Lecturer, Urban Regional Planning, 2012 (2012); BM 2001 Iowa; JD 2007 Iowa; MA 2008 University of Iowa

Ramakrishnan, Prem Subramanian, Adjunct Assistant Professor, Biomedical Engineering, 2009 (2009); MS 2003 Illinois-Chicago; PHD 2006 Iowa

Ramarao, Indira, Adjunct Associate Professor, International Programs, 2009 (2009); BA 1970 Mysore; MA 1972 Mysore; PHD 1982 Mysore

Ramey, Sandra L., Assistant Professor, Community Behavioral Health/Nursing, 2006 (2006); BS 1992 St Francis; MSN 1995 Iowa; PHD 2002 Iowa State

Ramig, Lorraine, Adjunct Professor, Communication Sciences and Disorders, 1999 (1999); PHD 1980 Purdue

Ramirez, Marizen Rojas, Assistant Professor, Occupational Environmental Health, 2007 (2007); BA 1995 California at Berkeley; MPH 1998 California - Los Angeles; PHD 2002 California - Los Angeles

Rand, Jacki Thompson, Associate Professor, History, 1998 (2007); BA 1982 Maine; MS 1993 Oklahoma; PHD 1998 Oklahoma

Randak, Christoph Oskar, Assistant Professor, Pediatrics, 2009 (2009); MD 1992 Wurzburg, Germany; MSC 1996 Hagen, Germany

Randall, Eric Wayne, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BS 2000 Iowa; MA 2004 Iowa

Randel, Patricia Ann, Adjunct Instructor, Pharmacy, 1997 (1997); BS 1993 Iowa

Randell, Richard C., Professor, Mathematics, 1981 (1981); BA 1968 Iowa; MA 1971 Wisconsin; PHD 1973 Wisconsin

Rantanen, Jason, Associate Professor, Law-Faculty, 2011 (2011); AB 1999 Brown; MA 2000 Chicago; JD 2003 Chicago

Rapert, Molly I., Adjunct Associate Professor, Marketing, 2009 (2009); PHD 1992 Memphis

Rapson, Ira J., Professor, Music, 1993 (2003); BA 1976 Westmont; MA 1981 California State

Rasmussen, Maryann, Lecturer, Gender, Women's and Sexuality Studies/English, 1992 (1994); PHD 1991 Iowa

Rastetter, Dwight W., Adjunct Instructor, Preventive Community Dentistry, 2011 (2011); DDS 2000 Iowa

Ratliff, Timothy L., Emeritus Professor, Urology, 1997 (1997); BS 1971 Texas-Arlington; MS 1974 East Texas State; PHD 1977 Arkansas-Fayetteville

Ratner, Albert, Associate Professor, Mechanical Engineering, 2003 (2011); BS 1995 California; MS 1996 Michigan; MS 1999 Michigan; PHD 2000 Michigan

Rauch, Joseph Walter, Adjunct Associate Professor, Family Dentistry, 1984 (2000); DDS 1983 Iowa

Raulerson, Joshua, Adjunct Assistant Professor, English, 2010 (2010); PHD 2010 Iowa

Raw, Robert Maurice, Clinical Professor, Anesthesia, 2004 (2012); MBCHB 1979 Pretoria, South Africa

Ray, Thomas L., Emeritus Professor, Dermatology, 1979 (1991); BA 1968 Williams; MD 1972 Oregon

Raza, Hassan, Assistant Professor, Electrical-Computer Engineering, 2009 (2009); BS 2001 England and Tech Lahore; MS 2002 Purdue; PHD 2007 Purdue

Raza, Tehseen, Adjunct Assistant Professor, Physics Astronomy, 2011 (2011); BS 2001 Eng Tech, Lahore; PHD 2010 Purdue

Read, Charles H., Emeritus Professor, Pediatrics, 1954 (1959); BSC 1939 ACADIA-Nova Scotia; MD 1943 McGill-Canada

Reagan, Mark K., Professor, Geoscience, 1987 (2007); BA 1978 California-Santa Barbara; MS 1982 Arizona; PHD 1987 California-Santa Cruz

Reams, Angela Aileen, Adjunct Instructor, Health and Human Physiology, 2007 (2007); BA 2002 Northern Iowa; MA 2005 Iowa

Reasoner, Andrea Leigh, Clinical Assistant Professor, Pediatrics, 1994 (1995); BS 1984 Iowa; MD 1988 Iowa

Rebello Lima, Vinicius, Lecturer, Art Art History, 2009 (2009); BA 2005 Federal Univ of Rio De; MA 2007 Iowa; MFA 2009 Iowa

Rebouche, Charles J., Emeritus Associate Professor, Pediatrics, 1984 (1988); BS 1970 Tulane; PHD 1974 Vanderbilt

Recker, Bryan Mark, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 2006 Iowa; MS 2009 Iowa

Recober-Montilla, Ana, Assistant Professor, Neurology, 2007 (2009); MD 1997 Malaga

Reddy, Chandan Gopal, Assistant Professor, Neurosurgery, 2012 (2012);

Reddy, Sudhakar M., Professor, Electrical-Computer Engineering, 1968 (1977); BSEE 1962 Osmania; ME 1963 Indian Institute of Science; PHD 1968 Iowa

Reed, Alan I., Professor, Surgery, 2007 (2007); BS 1980 Hobart College; MD 1984 Cornell

Reed, David A., Adjunct Assistant Professor, Nursing, 2003 (2003); BA 1970 Indiana; MA 1972 Indiana; PHD 1989 Indiana

Rigal, Laura, Associate Professor, English/American Studies, 1997 (1997); BA 1982 Oberlin; PHD 1989 Stanford

Riggs, Sheila Marie, Adjunct Assistant Professor, Epidemiology, 1993 (1993); DDS 1986 Iowa; MS 1987 Harvard; MD 1991 Harvard

Rijhsinghani, Asha, Professor, Obstetrics Gynecology, 1992 (2012); ISC 1973 Jaihind College; MD 1979 ECFMG; MBBS 1979 Grand Medical College

Riley, Ann Louise, Adjunct Instructor, Nursing, 1995 (1995); BSN 1976 Mt. Mercy; MA 1991 Iowa

Riley, Ryan Lee, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); BA 2004 Simpson; DDS 2007 Iowa

Riley, Terrance Patrick, Adjunct Assistant Professor, Operative Dentistry/Oral Maxillofacial Surgery, 2007 (2008); BS 1977 Arkansas; DDS 1982 Iowa

Rim, Kwan, Emeritus Professor, Mechanical Engineering/Biomedical Engineering/Orthopaedics and Rehabilitation, 1960 (1968); BSME 1955 Tri-State; MSME 1958 Northwestern; PHD 1960 Northwestern

Rinehart, Judith, Emeritus Associate Professor, Social Work, 1978 (2005); BA 1966 Central; MSW 1970 Iowa

Rinehart, Kathy J., Adjunct Assistant Professor, Pharmacy, 1986 (1986); PHARM 1985 Iowa

Rinehart, Richard H., Clinical Assistant Professor, Psychiatry, 2002 (2002); BA 1985 Ohio State; MD 1985 Ohio State

Rinehart, Richard John, Clinical Adjunct Assistant Professor, Otolaryngology-Head Neck Surgery, 2006 (2006); BS 1987 Iowa State; MD 1992 Iowa Methodist Medical Ctr

Ringdahl, Joel E., Adjunct Assistant Professor, Pediatrics, 2000 (2000); BS 1992 Florida; PHD 1999 Louisiana State

Ringen, Catherine, Professor, Linguistics, 1975 (1988); BA 1970 Indiana; MA 1972 Indiana; PHD 1975 Indiana

Ringen, Jon, Professor, Health and Human Physiology, 1993 (1993); BA 1965 North Dakota; MA 1969 Indiana; PHD 1971 Indiana

Ringgold, Charles, Clinical Professor, Oral Maxillofacial Surgery, 2007 (2007); BS 1973 Duke; DDS 1977 Maryland

Riordan, Sossity Anne, Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2007 Illinois Chicago

Rippentrop, Jonathan Mark, Clinical Adjunct Assistant Professor, Urology, 2006 (2006); MD 1999 Iowa

Rissman, Lawrence Jeffrey, Clinical Adjunct Assistant Professor, Pathology, 2004 (2004); BA 1973 Northern Iowa; MD 1977 Iowa

Rivas, Megan Monaghan, Adjunct Assistant Professor, Theatre Arts, 2012 (2012);

Rivas, Tlaloc Antonio, Assistant Professor, Theatre Arts, 2012 (2012);

Rizzo, Matthew, Professor, Neurology/Industrial Engineering, 1985 (1996); BA 1975 Columbia; MD 1979 Johns Hopkins

Roberts, Mary Ann, Clinical Professor, Pediatrics, 1991 (2006); BA 1973 Oberlin; MS 1976 Wisconsin-Madison; PHD 1980 Wisconsin-Madison

Roberts, Ralph R. Jr., Emeritus Associate Professor, Rehabilitation and Counselor Education, 1968 (1970); BA 1950 Lebanon Valley; MA 1961 Missouri; PHD 1962 Southern Illinois

Roberts, Trina Ellis, Adjunct Assistant Professor, Anthropology, 2012 (2012); MS 2001 University of Chicago; PHD 2005 University of Chicago

Robertson, Larry, Professor, Radiation Oncology/Occupational Environmental Health, 2003 (2003); BA 1969 Stetson; MS 1971 Florida; MPH 1972 Michigan; PHD 1981 Michigan

Robertson, Maureen, Associate Professor, Asian Slavic Languages Literature/Cinema Comparative Literature, 1976 (1976); BA 1958 Indiana; MA 1960 Indiana; PHD 1970 Washington

Robertson, Terry Dale, Adjunct Associate Professor, Finance, 2008 (2008); BBA 1969 Georgia; PHD 1975 Georgia

Robillard, Jean E., Professor, Pediatrics, 2003 (2003); BA 1964 Montreal; MD 1968 Montreal

Robin, Debra Kay, Adjunct Instructor, Communication Sciences and Disorders, 1995 (1996); BA 1976 San Diego State; MS 1981 Redlands

Robinson, Ara, Clinical Adjunct Assistant Professor, Psychiatry, 2008 (2008); BA 1997 Drake; DO 2003 Des Moines

Robinson, Arlyn K., Adjunct Associate Professor, Family Dentistry, 1978 (1989); BS 1973 Upper Iowa; DDS 1977 Iowa

Robinson, Jennifer G., Professor, Internal Medicine/Epidemiology, 1998 (2010); BA 1982 Northwestern University; MD 1987 Minnesota; MPH 1995 Minnesota

Robinson, John P., Emeritus Professor, Electrical-Computer Engineering, 1965 (1972); BS 1960 Iowa State; MS 1962 Princeton; PHD 1966 Princeton

Robinson, Marilynne, Professor, Creative Writing/English, 1983 (1993); BA 1966 Brown; PHD 1975 Washington

Robinson, Robert G., Professor, Psychiatry, 1990 (1990); BS 1967 Cornell-Ithaca; MD 1971 Cornell-Ithaca

Robinson, Robert A., Professor, Oral Path, Radiology/Medicine/Pathology, 1982 (1993); MD 1976 Missouri; BA 1976 Missouri; PHD 1982 Minnesota

Robnett, Michelle K., Clinical Adjunct Associate Professor, Nursing, 2000 (2000); BA 1979 Marycrest; BSN 1979 Marycrest; MA 1986 Iowa; MBA 1989 Iowa; PHD 1992 Iowa

Robus, Richard, Clinical Adjunct Associate Professor, Pediatrics, 2003 (2006); BS 1994 Texas Christian; MD 1998 Iowa

Rocha, Rene Rolando, Associate Professor, Political Science, 2006 (2012); BA 2002 Texas-Pan American; PHD 2006 Texas A M Univ

Rockey, William M., Assistant Professor, Radiation Oncology, 2012 (2012); MD Iowa; BS 2000 Iowa State; PHD 2007 Iowa; MD 2007 University of Iowa

Rockland, Kathleen, Adjunct Professor, Neurology, 1991 (1994); BA 1969 Wellesley; MA 1972 Princeton; MA 1976 Boston; PHD 1979 Boston

Rocklin, Thomas R., Professor, Psych Quant Foundations, 1986 (1995); AB 1977 Calif-Berkeley; MS 1980 Northwestern; PHD 1981 Northwestern

Roder, Kerianne Marjorie, Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2007 Drake

Rodgers, Tracy A., Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); BS 1986 Iowa

Rodgers, Vincent G., Professor, Physics Astronomy, 1989 (2004); BS 1980 Dayton; MS 1982 Syracuse; PHD 1985 Syracuse

Rodnitzky, Robert L., Professor, Neurology, 1972 (1982); BS 1963 Chicago; MD 1966 Chicago

Rodriguez, Edgardo, Assistant Professor, Internal Medicine, 2006 (2006); PHD 2005 Florida

Rodriguez, Jose E., Emeritus Associate Professor, Microbiology, 1968 (1974); BS 1955 Yale; PHD 1963 Pennsylvania

Rodriguez Rodriguez, Ana M., Assistant Professor, Spanish Portuguese, 2008 (2008); BA 1995 Univ de Santiago de Compostela; MA 1997 Colorado-Boulder; PHD 2007 Wisconsin @ Madison

Roe, Shawn Curtis, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BS 1997 Northern Iowa; PHARM 2002 Iowa

Roeder, Kevin John, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012); BS 2006 University of Northern Iowa

Roeder, Susan L., Clinical Associate Professor, Internal Medicine, 2002 (2009); BS 1984 Iowa State; MS 1989 Iowa State; DO 1993 Osteopathic-Des Moines

Roehrke, Donald Lee, Adjunct Instructor, Pharmacy, 2006 (2006); BSPH 1977 Iowa

Roewe, Raymond F., Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2004 (2004); BA 1978 Iowa State; DDS 1982 Iowa; MS 1986 Iowa

Rogers, Meaghan Marie, Adjunct Assistant Professor, Pharmacy, 2007 (2009); PHAR 2007 Iowa

Roghair, Robert Dean, Associate Professor, Pediatrics, 2005 (2011); BS 1995 Iowa; MD 1999 Iowa

Rogovin, Howard, Emeritus Professor, Art Art History, 1969 (1984);

Rohde, Jan-Uwe, Assistant Professor, Chemistry, 2005 (2005); PHD 1999 Univ. of Kiel, Germany

Rohlf, Paul, Clinical Adjunct Professor, Urology, 2012 (2012);

Rohlman, Diane, Associate Professor, Occupational Environmental Health, 2012 (2012);

Rohrbough, Malcolm J., Emeritus Professor, History, 1964 (1971); AB 1954 Harvard; MA 1958 Wisconsin; PHD 1963 Wisconsin

Rokes, Christopher Alan, Clinical Adjunct Assistant Professor, Pediatrics, 2011 (2011);

Rolland, Brian E., Adjunct Lecturer, Management Organizations, 2009 (2009); MAC 1989 Iowa

Roller, Richard John, Professor, Microbiology, 1994 (2007); BA 1980 Lawrence; PHD 1987 Harvard

Roloff, James S., Clinical Adjunct Associate Professor, Pediatrics, 2010 (2010); MD 1972 Missouri

Roman, David L., Assistant Professor, Pharmacy, 2008 (2008); PHD 2004 Purdue

Romanowski, Ann Wegener, Adjunct Assistant Professor, Periodontics, 1993 (1998); DDS 1987 Iowa; CER 1994 Iowa; PHD 1994 Iowa

Romitti, Paul Anthony, Associate Professor, Epidemiology, 1998 (2007); BS 1985 Iowa State; BA 1985 Iowa State; MS 1987 Iowa State; PHD 1994 Iowa

Ronkar, Christopher J., Clinical Adjunct Assistant Professor, Internal Medicine, 2005 (2005); BS 1992 Nebraska; MD 1997 Nebraska

Roof, John Dean, Clinical Adjunct Assistant Professor, Family Medicine, 1995 (2002); BS 1976 Iowa State; MD 1985 Iowa

Roper, Martin Thomas, Adjunct Assistant Professor, International Programs, 2009 (2009); MFA 1998 Iowa

Rorex, Robert A., Associate Professor, Art Art History, 1970 (1979); BA 1956 Hendrix; MFA 1960 Arkansas; MFA 1968 Princeton; PHD 1975 Princeton

Rosazza, John P., Emeritus Professor, Pharmacy, 1969 (1977); BS 1962 Connecticut; MS 1966 Connecticut; PHD 1968 Connecticut

Rosburg, Thomas R., Adjunct Professor, University College, 2010 (2010); BS 1977 Iowa State; MS 1990 Iowa State; PHD 1994 Iowa State

Rose, Dennis Ray, Adjunct Associate Professor, Family Dentistry, 1974 (2000); DDS 1964 Iowa

Rose, Gerald L., Emeritus Professor, Management Organizations, 1967 (1982); BA 1960 Minnesota; MBA 1962 Cornell; PHD 1969 California-Berkeley

Rose, Stephanie Pauline, Adjunct Instructor, Communication Studies, 2011 (2011); BA 1998 Iowa; MA 2001 Regis

Rosecrance, John C., Adjunct Assistant Professor, Occupational Environmental Health, 1995 (1995); BS 1981 Calif State; MS 1986 North Carolina; PHD 1993 Iowa

Roseman, Brian J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Roseman, Dennis M., Emeritus Professor, Mathematics, 1970 (1993); BS 1961 Wisconsin; MS 1962 Wisconsin; PHD 1968 Michigan

Rosenbaum, Marcy Ellen, Associate Professor, Family Medicine, 1998 (2005); BA 1986 Indiana; MA 1990 Kentucky; PHD 1994 Kentucky

Rosenberger, Jay A., Clinical Adjunct Associate Professor, Internal Medicine, 1995 (2011); DO 1986 Osteopathic Med Hlth

Rosenfeld, Sandra R., Clinical Assistant Professor, Family Medicine, 2008 (2008); MD 1990 Ntnl Univ Rosario, Argentina

Rosenhamer, Jessica Ann, Adjunct Assistant Professor, Pharmacy, 2010 (2010); PHARM 2008 Drake

Rosenkrans, Kurt Andre, Clinical Adjunct Associate Professor, Family Medicine, 1999 (2003); BS 1989 Creighton; MD 1993 Creighton

Rosenstein, Lori Jean, Clinical Assistant Professor, Internal Medicine, 2009 (2009); BS 1996 Wisconsin @ Madison; MD 2002 Iowa

Rosenthal, Gary E., Professor, Internal Medicine/Inst for Clinical and Translational Science/Epidemiology/Health Management Policy, 1998 (2000); BA 1978 John Hopkins; MD 1983 Pennsylvania

Rosenthal, Nancy, Clinical Professor, Pathology, 1998 (2003); BA 1979 Emory; MD 1983 Pennsylvania

Rosmann, Michael Ray, Adjunct Associate Professor, Occupational Environmental Health, 2000 (2000); PHD 1976 Utah

Rosner, Sue R., Emeritus Associate Professor, Psychology, 1969 (1975);

Ross, Alan F., Associate Professor, Anesthesia, 1985 (1995); BA 1976 Calif-Berkeley; MD 1980 Northwestern

Ross, Mary Bisinger, Adjunct Associate Professor, Pharmacy, 1993 (2003); BS 1974 Iowa; BSPH 1974 Iowa; MBA 1985 Eastern Michigan

Ross-Sheehy, Shannon, Adjunct Assistant Professor, Psychology, 2007 (2007); BS 1996 Iowa; MS 1998 Wisconsin; PHD 2005 Iowa

Rossen, James D., Professor, Internal Medicine/Neurosurgery, 1986 (2005); BS 1975 Michigan; MD 1980 Chicago

Rossi, Chris, Adjunct Lecturer, Law-Faculty, 1999 (1999); JD 1982 Iowa; PHD 1992 John Hopkins

Rossi, Nicholas P., Emeritus Professor, Cardiothoracic Surgery, 1960 (1972); BA 1951 Pennsylvania; MD 1955 Hahnemann Medical

Roth, Cindy K., Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Roth, James A., Adjunct Professor, Epidemiology, 2006 (2006); DVM 1975 Iowa State; MS 1979 Iowa State; PHD 1981 Iowa State

Rotholtz, Montreux Bianca, Adjunct Assistant Professor, Division of Interdisciplinary Program, 2011 (2011); BA 2009 Washington; MFA 2011 Iowa

Round, Phillip, Professor, English/Division of Interdisciplinary Program, 1993 (2009); BA 1980 Humboldt State; MA 1982 Calif-Los Angeles; PHD 1990 Calif-Los Angeles

Roussel, Bernard, Adjunct Professor, Religion, 2008 (2008); BA 1959 Marseille; PHB 1959 Marseille; DR 1970 Strasbourg; PHD 1970 Strasbourg

Rouwenhorst, Robert Mark, Lecturer, Marketing, 2009 (2009); MBA 2004 Iowa; PHD 2009 Iowa

Rowe, Jennifer Lynn, Lecturer, English as Second Language, 2012 (2012);

Roy, Christopher, Professor, Art Art History, 1978 (1992); BA 1970 St. Lawrence; MA 1975 Indiana; PHD 1979 Indiana

Rubach, Jerzy, Professor, Linguistics, 1990 (1990); MA 1971 Warsaw; PHD 1975 Warsaw

Rubenstein, Peter A., Professor, Biochemistry/Internal Medicine/Pediatrics, 1977 (1987); AB 1968 California; MA 1971 Harvard; PHD 1973 Harvard

Rubright, William Campbell, Emeritus Professor, Periodontics, 1967 (1979); BA 1957 Westminster-Missouri; DDS 1962 Missouri; MS 1964 Missouri; MS 1965 Chicago

Rude, Mathew Bem, Assistant Professor, Art Art History, 2008 (2008); BA 1998 Luther College; MFA 2007 Montana State

Ruden, Bridgid Marie Freymann, Adjunct Instructor, Nursing, 1989 (1989); BS 1986 Mt. Mercy; MA 1994 Iowa

Rudman, Robert Alan, Adjunct Assistant Professor, Oral Maxillofacial Surgery, 2011 (2011); DDS 1988 Loyola; MS 1992 Iowa

Rudolph, Paul H., Adjunct Lecturer, Biology, 1989 (1997); PHD 1976 Michigan

Ruen, David Arthur, Clinical Adjunct Assistant Professor, Family Medicine, 1988 (2002); BA 1977 St Mary's; MD 1981 Iowa

Ruestman, Jordan Lee, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); PHARM 2011 Drake

Rukeyser, Rebecca, Adjunct Assistant Professor, Creative Writing, 2012 (2012);

Rummelhart, Jo Anne Marie, Adjunct Assistant Professor, Periodontics, 2009 (2009); DDS 1981 Iowa

Runde, Mark P., Clinical Adjunct Instructor, Internal Medicine, 1995 (1995); MD 1983 Illinois

Runge, Michael Wayne, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1986 Iowa

Runge, Richard M., Emeritus Associate Professor, German, 1964 (1974); BA 1961 Iowa; MA 1963 Iowa; PHD 1967 Iowa

Rupe, Kerri Lynn Arter, Clinical Associate Professor, Nursing, 2000 (2000); BSN 1984 Northeast Missouri; MSN 1994 Clarkson; DNP 2008 Iowa

Ruprecht, Axel, Professor, Radiology/Oral Path,RadiologyMedicine/Anatomy Cell Biology, 1987 (1987); DDS 1968 Toronto; MSCD 1972 Toronto

Rus, Teodor, Emeritus Professor, Computer Science, 1982 (1993); DMATH 1965 Romanian Academy

Rusch, Michelle Lenae, Adjunct Instructor, Industrial Engineering, 2008 (2008); MCL 2002 DePaul; PHD 2008 Iowa State

Rushton, Gerard, Professor, Geography/Health Management Policy, 1969 (1974); BA 1959 Wales-United Kingdom; MA 1962 Wales-United Kingdom; PHD 1964 Iowa

Russell, Bobby, Adjunct Assistant Professor, Preventive Community Dentistry, 2005 (2005); DDS 1988 Loyola - Chicago

Russell, Gary J., Professor, Marketing, 1996 (1999); BA 1976 Virginia; PHD 1985 Chicago

Russell, Stephen R., Professor, Ophthalmology Visual Science, 1996 (2005); BS 1978 Stanford; MD 1982 Calif-Los Angeles

Russo, Andrew F., Professor, Physiology/Neurology, 1988 (2000); BA 1979 California-San Diego; PHD 1984 California-Berkeley

Russo, Mary D., Lecturer, Statistics Actuarial Science, 1983 (2006); MAT 1976 SUNY AT Binghamton

Russo, Ralph P., Professor, Statistics Actuarial Science, 1983 (1995); BA 1974 State Univ of NY-Binghamton; PHD 1980 State Univ-NY-Binghamton

Ruth, Denise, Adjunct Assistant Professor, Pharmacy, 2008 (2008); BSPH 1984 Iowa

Rutkowski, David Thomas, Assistant Professor, Internal Medicine/Anatomy Cell Biology, 2008 (2008); BS 1997 Delaware; PHD 2002 California @ San Francisco

Rutledge-Russell, Christine Marion, Professor, Music, 1998 (2010); BA 1984 Curtis Institute of Music; MA 1988 Iowa

Ruyle, Kathleen Ann, Adjunct Instructor, Social Work, 1997 (1997); MSW 1993 Iowa

Ryan, Ginny Lyn, Assistant Professor, Obstetrics Gynecology, 2006 (2009); BS 1995 Cornell; MD 1999 Washington Univ.

Ryang, Soon, Professor, International Programs/Anthropology, 2006 (2010); PHD 1995 Cambridge, UK

Ryberg, Jacalyn L., Adjunct Associate Professor, Nursing, 2004 (2004); MA 1973 Chapman University; MA 1977 Iowa; PHD 2002 Saint Louis

Saunders, Jeanne, Associate Professor, Social Work, 2001 (2008); BA 1976 Augustana; MSW 1981 Wisconsin; PHD 2001 Washington

Saunders, Jodi L., Associate Professor, Rehabilitation and Counselor Education, 2003 (2006); BA 1986 Michigan State; MA 1988 Michigan State; PHD 1998 Michigan State

Savin, Nathan Eugene, Emeritus Professor, Economics, 1986 (1986); BA 1956 California-Berkeley; MA 1960 California-Berkeley; PHD 1969 California-Berkeley

Sayre, Robert F., Emeritus Professor, English, 1965 (1972); BA 1955 Wesleyan; MA 1958 Yale; PHD 1962 Yale

Scamman, Franklin L., Emeritus Professor, Anesthesia, 1978 (1995); BS 1966 Kansas; MD 1970 Kansas

Scandrett, Forrest R., Emeritus Professor, Prosthodontics, 1970 (1982); DDS 1965 Iowa; MS 1970 Texas

Schaal, David, Emeritus Professor, Theatre Arts, 1956 (1969); BA 1942 Geneva; MA 1946 Western Reserve

Schabillon, Jeffry T., Emeritus Professor, Biology, 1968 (1980); BS 1965 Iowa State; MA 1967 Kansas; PHD 1969 Kansas

Schacht, Elizabeth Ann Tracy, Adjunct Associate Professor, Nursing, 1979 (2004); BSN 1972 Iowa; MA 1978 Iowa; PHD 2003 Iowa

Schafer, James Michael, Adjunct Lecturer, College Transition/University College, 2005 (2005); BA 1990 Truman State; MA 1996 Memphis

Schafer, Maureen M., Adjunct Lecturer, College Transition, 2005 (2005); BA 1991 Northeast Missouri State; MS 1998 Memphis

Schantz, Mark E., Adjunct Professor, Law-Faculty, 2010 (2010); BA 1963 Iowa; MA 1965 Oxford; LLM 1968 Yale

Schares, Denise K., Lecturer, Teaching and Learning, 2010 (2010); DED 1994 Northern Iowa

Schartz, Kevin Michael, Assistant Professor, Radiology, 2009 (2009); MA 1988 Iowa; PHD 1994 Iowa; MCS 2001 Iowa

Schatteman, Gina C., Emeritus Associate Professor, Health and Human Physiology, 2001 (2005); BA 1975 New College; PHD 1985 Johns Hopkins

Schauberger, Charles William, Clinical Adjunct Professor, Obstetrics Gynecology, 1985 (2010); MD 1978 Iowa

Scheer-Cohen, Alison R., Adjunct Instructor, Communication Sciences and Disorders, 2010 (2010); BA 2001 UCLA; MS 2003 WI @ Madison; PHD 2006 WI @ Madison

Scheetz, Todd Edward, Associate Professor, Ophthalmology Visual Science/Biomedical Engineering, 2002 (2008); BS 1993 Iowa; MS 1995 Iowa; PHD 2001 Iowa

Scheibe, Kevin Paul, Adjunct Professor, Management Sciences, 2011 (2011); PHD 2003 Virginia Polytechnic

Scheibe, Michelle Kay, Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); DAUD 2008 Iowa

Schemmel, Kate E., Adjunct Assistant Professor, Pharmacy, 2008 (2008); PHARM 2007 Creighton

Schendel, Amy, Assistant Professor, Music, 2009 (2009); BM 1998 Wisconsin @ Eau Claire; MM 2001 Indiana; DMA 2007 Wisconsin @ Madison

Scherb, Cindy A., Adjunct Assistant Professor, Nursing, 2003 (2003); BS 1979 Mount Mercy; MS 1989 Minnesota; PHD 2001 Iowa

Scherer, Michelle M., Professor, Civil-Environmental Engineering, 1998 (2010); BS 1989 Virginia; MS 1994 Connecticut; PHD 1998 Oregon

Scherer, Ronald C., Adjunct Associate Professor, Communication Sciences and Disorders, 1983 (1988); PHD 1981 Iowa

Schermer, Shirley J., Adjunct Instructor, Anthropology, 1987 (1987); BA 1968 North Park; MA 1982 Iowa

Schey, Ron, Clinical Assistant Professor, Internal Medicine, 2009 (2009); MD 1991 Tel Aviv, SOM

Schiff, Robyn, Associate Professor, English, 2008 (2008); MFA 1999 Iowa; MA 2000 Bristol

Schilling, Keith Edwin, Adjunct Assistant Professor, Geoscience, 2010 (2010); PHD 2009 Iowa

Schilling, Margo Lin, Clinical Professor, Internal Medicine, 1998 (2010); BA 1981 Wartburg; MD 1985 Iowa

Schiltz, Trisha Lynn, Adjunct Instructor, Health and Human Physiology, 2010 (2010); BA 2006 Iowa; MPH 2008 Iowa

Schlapkohl, Janet Story, Adjunct Assistant Professor, Theatre Arts, 2012 (2012); BS 1980 Iowa State Univ; MA 1999 U of Iowa

Schlechte, Janet A., Professor, Internal Medicine/Inst for Clinical and Translational Science, 1981 (1993); BS 1967 Nebraska; MA 1969 California-Santa Barbara; MD 1975 Nebraska

Schleich, Kevin Thomas, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); PHARM 2011 Iowa

Schlievert, Patrick Michael, Professor, Microbiology/Internal Medicine, 2011 (2011); BA 1971 Iowa; PHD 1976 Iowa

Schlievert, Saralyn, Adjunct Instructor, Preventive Community Dentistry, 2004 (2004); BS 1977 Iowa

Schlueter, Annette, Associate Professor, Pathology, 1998 (2004); BS 1984 Valparaiso; MS 1989 Illinois; PHD 1991 Illinois-Urbana; MD 1993 Illinois-Urbana

Schlueter, Renee Jeane, Adjunct Lecturer, Management Organizations, 2009 (2009); MA 1989 St. Louis, English; PHD 1996 St. Louis, English

Schlutter, Morten, Associate Professor, Religion/International Programs, 2003 (2008); BA 1982 Copenhagen; MA 1985 Copenhagen; PHD 1998 Yale

Schmid, Phillip, Emeritus Professor, Internal Medicine, 1968 (1975); BA 1957 Carleton; MD 1961 Chicago

Schmidt, Bridgette Erin, Adjunct Assistant Professor, Pediatric Dentistry, 2010 (2010); DDS 2007 Iowa

Schmidt, Dan L., Adjunct Instructor, Pharmacy, 2002 (2002); BS 1979 Iowa; BSPH 1979 University of Iowa

Schmidt, Duane Arthur, Adjunct Instructor, Family Dentistry, 2006 (2006); DDS 1954 Iowa

Schmidt, Frank L., Emeritus Professor, Management Organizations, 1985 (1985); BA 1966 Bellarmine; MS 1968 Purdue; PHD 1970 Purdue

Schmidt, Gregory Alan, Professor, Internal Medicine, 2006 (2006); BA 1977 St. Louis; MD 1981 Chicago

Schmidt, Julius, Emeritus Professor, Art Art History, 1970 (1972); BFA 1953 Cranbrook Academy of Art; MFA 1955 Cranbrook Academy of Art

Schmidt, Renita, Associate Professor, Teaching and Learning, 2011 (2011); PHD 2005 Iowa

Schmidt, Thomas J., Professor, Physiology/Obstetrics Gynecology, 1983 (1999); BA 1969 Delaware; MS 1973 Cornell; PHD 1976 Cornell

Schmidt, Warren, Professor, Internal Medicine, 1992 (2007); BA 1973 Augustana; MS 1974 Illinois; PHD 1978 Illinois; MD 1989 Tennessee

Schmidt Clay, Kelly M., Adjunct Assistant Professor, Communication Sciences and Disorders, 2003 (2005); BA 1992 North Dakota; MA 1994 N Colorado; PHD 2003 Iowa

Schmit, Cheri Rochelle Rockhold, Adjunct Assistant Professor, Pharmacy, 2005 (2005); BSPH 1993 Iowa

Schmolck, Johann, Clinical Adjunct Assistant Professor, Internal Medicine, 2007 (2007); MD 1999 Albert Ludwigs Univ. Germany

Schnase, Edward A., Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2001 Creighton

Schneider, Galen Belmont, Professor, Prosthodontics, 1999 (2009); BS 1987 Iowa; DDS 1991 Iowa; PHD 1996 North Carolina

Schneider, Kathleen Marie, Adjunct Assistant Professor, Epidemiology, 2009 (2009); MA 1992 Illinois @ Chicago; PHD 1995 Illinois @ Chicago

Schneider, Robert L., Clinical Professor, Oral Maxillofacial Surgery, 1984 (1999); DDS 1976 Southern California; MS 1983 Iowa

Schnell, Scott R., Associate Professor, Anthropology, 1993 (1999); BS 1976 Ohio State; MS 1979 Ohio State; MA 1987 Ohio State; PHD 1993 Ohio State

Schnell, Thomas, Associate Professor, Neurology/Electrical-Computer Engineering/Industrial Engineering/Occupational Environmental Health, 1998 (2004); BS 1992 Tech-Bern-Switzerland; MS 1994 Ohio; PHD 1998 Ohio

Schnieders, Michael John, Assistant Professor, Biomedical Engineering, 2012 (2012);

Schnoebelen, Doug, Adjunct Assistant Professor, Civil-Environmental Engineering/Geoscience, 2000 (2000); PHD 1999 Indiana

Schnoor, Jerald L., Professor, Civil-Environmental Engineering/Occupational Environmental Health, 1977 (1983); BS 1972 Iowa State; MS 1974 Texas; PHD 1975 Texas

Schoderbek, Peter, Emeritus Professor, Management Organizations, 1964 (1971); MS Pennsylvania State; BA 1954 Pennsylvania State

Schoen, Eva Gisela, Adjunct Lecturer, Teaching and Learning/Health and Human Physiology, 2006 (2006); MA 1996 Northern Iowa; MA 1999 Northern Iowa; PHD 2003 Ball State

Schoen, Harold L., Emeritus Professor, Teaching and Learning/Mathematics, 1974 (1978); BS 1963 Dayton; MS 1966 Indiana; MS 1969 Dayton; PHD 1971 Ohio State

Schoenbaum, David L., Emeritus Professor, History, 1967 (1971); BA 1955 Wisconsin; MA 1958 Wisconsin; DPHIL 1965 Oxford-England

Schoenfelder, Deborah Perry, Clinical Associate Professor, Nursing, 1983 (2006); BSN 1975 Iowa; MA 1982 Iowa; PHD 1990 Iowa

Schoenwald, Ronald D., Emeritus Professor, Pharmacy, 1978 (1986); BS 1963 Arizona; MS 1969 Purdue; PHD 1971 Purdue

Schoer, Lowell A., Emeritus Professor, Psych Quant Foundations, 1961 (1967); BA 1958 Iowa; MA 1959 Iowa; PHD 1961 Iowa

Scholz, Thomas Dean, Professor, Pediatrics, 1993 (2004); BS 1981 Swathmore College; MD 1985 Washington

Schooley, Ed, Adjunct Assistant Professor, Preventive Community Dentistry, 2003 (2003); DDS 1974 Iowa; MHA 1981 Colorado

Schoonbroodt, Alice, Assistant Professor, Economics, 2011 (2011); BA 1999 Catholique de Louvain; MA 2000 McGill; PHD 2006 Minnesota

Schootman, Mario, Adjunct Associate Professor, Epidemiology, 1995 (2005); PHD 1993 Iowa

Schopick, Steffi B., Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Schott, Katharine Sue, Adjunct Assistant Professor, Nursing, 1992 (1992); PHD 1991 Iowa

Schrag, Dennis Michael, Lecturer, Management Organizations, 1998 (2000); MA 1972 Iowa; EDD 1982 Drake

Schrier, Leslie Lisbeth, Associate Professor, Spanish Portuguese/International Programs/Teaching and Learning, 1989 (1995); BA 1973 California State; MA 1979 Drake; PHD 1989 Ohio State

Schrimper, George David, Emeritus Assistant Professor, Division of Interdisciplinary Program, 1966 (1973); BS 1964 Iowa; MA 1965 Iowa

Schrock, Christian E., Emeritus Associate Professor, Internal Medicine, 1974 (1974); BA 1941 Iowa; MD 1944 Iowa

Schroeder, Katie Milden, Adjunct Instructor, Preventive Community Dentistry, 2012 (2012); HS 2003 Washington High School

Schroeder, Mary Chen, Assistant Professor, Pharmacy Practice and Science, 2011 (2011); BS 2002 Texas AM; MA 2010 Emory; PHD 2011 Emory

Schroeder, Merrie, Lecturer, Teaching and Learning, 2010 (2010); MA 1983 Iowa; PHD 2002 Nevada

Schroeder, R. Scott, Adjunct Instructor, Pharmacy, 2005 (2005); BS 1977 Luther College; BSPH 1981 Iowa

Schroeder, Thomas J., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BA 1968 Marquette; MD 1974 Loyola

Schrott, Helmut Gunther, Emeritus Professor, Internal Medicine/Epidemiology, 1973 (1998); BA 1962 Western Reserve; MD 1966 State Univ of NY-Buffalo

Schuchmann, Anne Marie, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1983 Iowa

Schuh, Kathy L., Associate Professor, International Programs/Psych Quant Foundations, 2000 (2006); AA 1979 Bismarck State; BS 1981 North Dakota State; BS 1995 North Dakota State; MS 1996 North Dakota State

Schulein, Thomas Michael, Emeritus Associate Professor, Operative Dentistry, 1979 (1988); BS 1968 Illinois; DDS 1970 Illinois; MS 1982 Illinois

Schult, Maria Lynn, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 2000 Drake

Schulte Moore, Lisa Anne, Adjunct Associate Professor, University College, 2011 (2011); BS 1993 Wisconsin; MS 1996 Minnesota; PHD 2002 Wisconsin

Schultz, Cheryl, Adjunct Lecturer, College Transition, 2005 (2005); BA 1999 Iowa State; MED 2004 Iowa State

Schultz, Karen Sue, Adjunct Instructor, Pharmacy, 1998 (1998); BS 2000 Iowa

Schultz, Michael K., Assistant Professor, Radiology/Radiation Oncology/Internal Medicine, 2006 (2009); BA 1990 South Florida; MS 1996 Florida State; PHD 2002 Florida State

Schultz, Randall L., Emeritus Professor, Marketing, 1988 (1988); BSC 1965 Ohio State; MBA 1967 Wayne State; PHD 1970 Northwestern

Schultz, Susan Kay, Professor, IA Consortium Substance Abuse/Psychiatry, 1995 (2007); BS 1986 Nebraska Wesleyan; MD 1990 Nebraska

Schulz, Rudolph W., Emeritus Professor, Psychology, 1960 (1966); BS 1954 Northwestern; MS 1955 Stanford; PHD 1958 Northwestern

Schulze, Konrad S., Professor, Internal Medicine, 1975 (1991); BS 1965 Munich; MD 1968 Heidelberg

Schurtz, Steven Harold, Clinical Adjunct Assistant Professor, Urology, 1985 (1985); MD 1975 Iowa

Schutte, Brian C., Adjunct Associate Professor, Pediatrics, 1991 (2005); BS 1983 Creighton; PHD 1988 Wisconsin

Schwab, James C., Adjunct Lecturer, Urban Regional Planning, 2008 (2008); MA 1985 Iowa

Schwabbauer, Marian Histand, Emeritus Professor, Pathology, 1971 (1997); BA 1961 Goshen; MA 1975 Iowa; PHD 1990 Iowa

Schwalm, Carla Marourneen, Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Schwalm, Leslie A., Professor, Gender, Women's and Sexuality Studies/African-American Studies/History, 1991 (2010); BA 1979 Massachusetts; MA 1984 Wisconsin-Madison; PHD 1991 Wisconsin-Madison

Schwartz, Barbara A., Clinical Professor, Law-Faculty, 1977 (1985); BA 1967 Michigan; MA 1968 Michigan; JD 1975 Wayne State

Schwartz, David Asa, Adjunct Instructor, Journalism Mass Communication, 2008 (2008); BA 1997 Iowa; MS 1998 Northwestern

Schweitzer, John W., Emeritus Professor, Physics Astronomy, 1966 (1978); BA 1960 Thomas More; MS 1962 Cincinnati; PHD 1966 Cincinnati

Schweizer, Marin Leigh, Assistant Professor, Epidemiology/Internal Medicine, 2010 (2010); PHD 2009 Maryland

Schweser, G. Carl, Emeritus Associate Professor, Finance, 1976 (1982); BS 1966 Missouri School of Mines; MBA 1968 Missouri; PHD 1976 Georgia

Schwiesow, Tyler Michael, Clinical Adjunct Instructor, Internal Medicine, 2007 (2007); BS 1999 Drake; MD 2003 Iowa

Scieszinski, John Joseph, Adjunct Assistant Professor, Family Dentistry, 2008 (2008); BS 1977 Iowa; DDS 1981 Iowa

Scott, Edward Ray, Adjunct Lecturer, Accounting, 2012 (2012);

Scott, Eric Christopher, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); BA 1996 Luther College; MD 2000 Iowa

Scott, Gerald Lee, Emeritus Assistant Professor, Endodontics, 1979 (1979); DDS 1967 University of the Pacific

Scott, John Beldon, Professor, Art Art History, 1982 (1998); BA 1968 Indiana; MA 1975 Rutgers; PHD 1982 Rutgers

Scott, Sally J., Adjunct Assistant Professor, International Programs/Public Policy Center, 2011 (2011); MA 1989 Johns Hopkins; MS 1997 Pennsylvania; PHD 2001 Johns Hopkins

Scott, William Edwin, Emeritus Professor, Ophthalmology Visual Science, 1971 (1979); BA 1959 Iowa; MS 1962 Iowa; MD 1964 Iowa

Scott-Conner, Carol, Professor, Surgery, 1995 (1995); MD 1976 New York University; PHD 1988 Kentucky; BS 1990 Massachusetts Institute of Tec

Scranton, Alec B., Professor, Chemical Biochemical Engineering, 2000 (2000); BS 1984 Iowa; PHD 1990 Purdue

Scruggs, Thomas M., Emeritus Associate Professor, Music, 1991 (2003); BA 1981 Chicago State; MM 1985 Texas-Austin; PHD 1994 Texas-Austin

Scudder, Jack D., Professor, Physics Astronomy, 1993 (1993); BA 1969 Williams; MS 1971 Maryland; PHD 1975 Maryland

Scullion, Rosemarie, Associate Professor, Gender, Women's and Sexuality Studies/Cinema Comparative Literature/International Programs/French Italian, 1987 (1994); BA 1978 Wisconsin-Madison; MA 1982 Wisconsin-Madison; PHD 1987 Wisconsin-Madison

Seaba, Hazel H., Clinical Professor, International Programs/Pharmacy, 1971 (1995); BSPH 1967 Ferris State; MS 1971 Iowa

Seabold, James E., Emeritus Professor, Radiology, 1982 (1996); BS 1964 Michigan State; MD 1968 Michigan

Seaman, Walter I., Associate Professor, Teaching and Learning/Mathematics, 1983 (1991); BA 1976 Beloit; PHD 1982 Massachusetts

Seebohm, Paul M., Emeritus Professor, Internal Medicine, 1949 (1959); BA 1938 Cincinnati; MD 1941 Cincinnati

Seering, Melinda, Clinical Assistant Professor, Anesthesia, 2011 (2011); MD 2002 Iowa

Seetharam, M. R., Adjunct Associate Professor, International Programs, 2009 (2009); MENG 1974 Univ of Pune; MBBS 1989 Mysore University; MS 1996 PGIMER, Chandigarh

Seetharam, Sridevi, Adjunct Associate Professor, International Programs, 2009 (2009); MD 1996 Pgimer, Chandigarh; MA 2007 Katholieke, Leuven

Segal, Neil A., Associate Professor, Radiology/Epidemiology/Orthopaedics and Rehabilitation, 2004 (2009); BA 1994 Brown; MD 2000 Vanderbilt; MS 2008 Iowa

Segaloff, Deborah L., Professor, Physiology/Obstetrics Gynecology, 1990 (1997); BS 1976 Pennsylvania State; PHD 1980 Vanderbilt

Segar, Jeffrey L., Professor, Pediatrics, 1992 (2004); BS 1982 Wisconsin-Madison; MD 1986 Wisconsin-Madison

Segre, Alberto M., Professor, Computer Science/Nursing, 1994 (2001); AB 1980 Illinois; BS 1980 Illinois; MS 1983 Illinois; PHD 1987 Illinois

Segre, Lisa Sharon, Assistant Professor, IA Consortium Substance Abuse/Nursing, 1998 (1998); BA 1979 Mount Holyoke; MA 1981 Maryland; PHD 1993 Illinois-Urbana Champaign

Seibert, Scott Edward, Associate Professor, Management Organizations, 2008 (2008); BS 1983 State University of New York; MS 1988 Cornell University; PHD 1994 Cornell University

Seiffert, Melinda Teresa, Adjunct Lecturer, Management Organizations, 2011 (2011); BA 1994 Iowa; MBA 2003 Iowa

Seim, Arne Rolf, Lecturer, French Italian, 2005 (2005); BS 1982 IOWA STATE; BA 1989 IOWA; MA 2004 Souty Dakota

Semelroth, Timothy Samuel, Adjunct Lecturer, Law-Faculty, 2005 (2005); BA 1994 Drake; JD 1997 IOWA

Semken, Holmes A., Emeritus Professor, Geoscience, 1965 (1973); BS 1958 Texas; MS 1960 Texas; PHD 1965 Michigan

Sen Gupta, Ananya, Adjunct Assistant Professor, Electrical-Computer Engineering, 2012 (2012);

Sener, Alan, Professor, Dance, 1991 (2005); BA 1976 Penn State

Seo, Seongjin, Assistant Professor, Ophthalmology Visual Science, 2011 (2011); PHD 2005 Washington St Louis

Serrano Russi, Alvaro, Clinical Assistant Professor, Pediatrics, 2011 (2011); MD 2002 Military Neuva Granada

Sertterh, Jennie L., Adjunct Instructor, Health and Human Physiology, 2001 (2001); BS 1996 Southern Illinois; MED 1998 Nebraska

Sessions, Jennifer E., Associate Professor, History, 2005 (2011); AB 1996 Harvard; PHD 2005 Pennsylvania

Severidt, Larry A., Clinical Adjunct Associate Professor, Family Medicine, 1987 (2001); MD 1977 Iowa

Severino, Carol J., Professor, International Programs/Rhetoric, 1990 (2012); BA 1971 Valparaiso; MA 1976 Illinois-Chicago; PHD 1989 Illinois-Chicago

Sewell, Robert Patrick, Adjunct Instructor, Preventive Community Dentistry, 2006 (2006); BS 1990 Georgia; DMD 1994 Medical College of Georgia

Sexton, Nicole Elizabeth, Adjunct Lecturer, College Transition/University College, 2008 (2008); BA 2006 Coe College; MA 2008 Iowa

Sgontz, Larry G., Emeritus Professor, Economics, 1964 (1982); BA 1958 Wooster; MA 1960 Illinois; PHD 1964 Illinois

Shadur, Craig A., Clinical Adjunct Associate Professor, Internal Medicine, 1981 (1996); MD 1974 Iowa

Shaffer, Michael A., Adjunct Instructor, Health and Human Physiology/Physical Therapy, 2003 (2003); BS 1992 Iowa; MS 1994 Beaver College

Shaftel, Matthew, Adjunct Associate Professor, Music, 2008 (2008); MPHIL 1997 Yale; PHD 2000 Yale

Shaftel, Timothy Lee, Adjunct Professor, Accounting, 2009 (2009); MS 1971 Carengie Mellon; PHARM D 1972 Carnegie Mellon; PHD 1972 Carnegie Mellon

Shah, Apurva Surendra, Assistant Professor, Orthopaedics and Rehabilitation, 2012 (2012);

Shah, Divya Kelath, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Shen, Wendy Weiyin, Clinical Assistant Professor, Family Medicine, 2005 (2008); MD 1992 Beijing Medical

Shepardson, Richard D., Emeritus Professor, Teaching and Learning, 1972 (1981); BA 1960 Chico State; MA 1968 San Jose State; PHD 1972 Texas

Shepherd, Rhoda, Adjunct Instructor, Nursing, 1995 (1995); MA 1976 Iowa

Shepley, Alan Martin, Adjunct Instructor, Pharmacy, 1997 (1997); BSPH 1971 Iowa

Sherer, Jennifer Kristene, Adjunct Lecturer, International Programs/University College, 2009 (2009); BA 1995 Oberlin; MA 2001 Iowa; PHD 2008 Iowa

Sheridan, Charlene, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); AA 1991 Des Moines Area Comm College; BA 2002 Simpson College

Sheriff, Don D., Adjunct Associate Professor, Health and Human Physiology, 1998 (2004); BA 1981 Washington-Seattle; PHD 1987 Washington-Seattle

Shetty, Mahesh, Clinical Adjunct Assistant Professor, Internal Medicine, 2011 (2011); MBBS 1999 Univ of Bombay, Bombay, India; MBBS 1999 Bombay, India

Shever, Leah Lynn, Adjunct Lecturer, Nursing, 2008 (2008); BSN 2002 Iowa; MSN 2005 Iowa; PHD 2007 University of Iowa

Shey, Kathleen Suzanne, Adjunct Instructor, Social Work, 2007 (2007); BSW 1995 Iowa; MSW 1999 Iowa

Shian, Brian Xian, Clinical Assistant Professor, Family Medicine, 2011 (2011); MD 1991 Luzhou, China; MPAS 2007 Iowa

Shibata, Erwin F., Associate Professor, Internal Medicine/Physiology, 1986 (1994); BSEE 1974 Washington; MSE 1980 Washington; PHD 1984 Texas Medical Branch-Galveston

Shibli-Rahhal, Amal Ali, Clinical Associate Professor, Internal Medicine, 2007 (2012); BS 1996 American Univ of Beirut; MD 2000 American Univ of Beirut

Shields, Richard Kemp, Professor, Physical Therapy/Orthopaedics and Rehabilitation, 1986 (2004); BA 1976 Cabawba; MA 1985 Iowa; PHD 1992 Iowa

Shields, Susan Margaret, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Shih, Ming-Che, Emeritus Professor, Biology, 1988 (2003); BS 1976 Tunghai-Taiwan; PHD 1983 Iowa

Shilyansky, Joel, Associate Professor, Surgery/Pediatrics, (2007); MD 1988 California

Shim, Hyungsub, Clinical Assistant Professor, Neurology, 2012 (2012);

Shirazi, Siroos S., Emeritus Professor, Surgery, 1972 (1981); PCB 1959 Shiraz; MD 1965 Shiraz-Iran

Shires, Robert S., Clinical Adjunct Assistant Professor, Family Medicine, 1999 (2002); BS 1972 Nebraska Wesleyan; MD 1975 Nebraska

Shires, Thomas K., Emeritus Professor, Pharmacology, 1972 (1981); AB 1957 Colgate; MS 1962 Oklahoma; PHD 1965 Oklahoma

Shiu, Elias S., Professor, Statistics Actuarial Science, 1992 (1992); BS 1971 Manitoba-Canada; MS 1971 Manitoba-Canada; PHD 1975 Calif Inst of Technology

Shivapour, Ezzatollah Torage, Clinical Professor, Neurology, 1980 (2005); MD 1972 Tabriz

Shivers, Matthew, Adjunct Instructor, Pharmacy, 2003 (2003); BS 1978 Iowa

Shoemaker, Patrick G., Adjunct Lecturer, University College, 2003 (2003); BA 1978 Dartmouth

Shokoohi-Yekta, Mohsen, Lecturer, Teaching and Learning, 1999 (2002); BA 1984 TEHRAN; MA 1989 ROOSEVELT; PHD 1993 Iowa

Shoukhi, Tameem, Clinical Adjunct Assistant Professor, Pediatrics, 2002 (2002); MD 1985 Damascus

Shoultz, Amy Kathleen Engelbert, Clinical Associate Professor, Teaching and Learning, 2002 (2010); BA 1985 Coe; MAT 1990 Iowa; PHD 2002 Iowa

Showers, Janice Ann, Lecturer, English as Second Language, 2008 (2010); MA 2008 Iowa

Shriver, Amy E., Clinical Adjunct Assistant Professor, Pediatrics, 2012 (2012);

Shy, Michael E., Professor, Neurology/Pediatrics, 2012 (2012); MD 1979 Albany Medical

Shy, Rosemary Rudolph, Clinical Assistant Professor, Pediatrics, 2012 (2012);

Shyamalkumar, Nariankadu Datatreya, Associate Professor, Statistics Actuarial Science, 2004 (2012); BS 1989 Loyola, India; MS 1991 Indian Stat Inst, India; PHD 1996 Purdue Univ, IN, USA

Sidel, Mark, Professor, Law-Faculty/International Programs, 2000 (2005); AB 1979 Princeton; MA 1982 Yale; JD 1985 Columbia

Sidwell, Richard Allen, Clinical Adjunct Associate Professor, Surgery, 2004 (2007); BS 1988 Iowa; MD 1993 Iowa

Siebert, Calvin D., Emeritus Professor, Economics, 1965 (1975); BA 1958 Kansas; MA 1960 Kansas; PHD 1966 California-Berkeley

Sieck, Timothy J., Adjunct Lecturer, Management Organizations, 2012 (2012);

Sieleni, Bruce A., Clinical Adjunct Assistant Professor, Psychiatry, 2007 (2007); MD 1982 Minnesota

Sieren, Jessica Corinne, Assistant Professor, Radiology/Biomedical Engineering, 2009 (2011); BENG 2002 Flinders Univ; BS 2002 Flinders Univ; PHD 2008 Iowa

Siewert, Rebecca, Clinical Associate Professor, Nursing, 2004 (2012); BSN 1985 St Xavier, ILL; MS 1990 Illinois@Chicago; DR 2002 Rush, ILL

Sigmund, Curt D., Professor, Pharmacology/Physiology/Internal Medicine, 1991 (2000); BA 1982 State Univ of NY-Buffalo; MA 1984 State Univ of NY-Buffalo; PHD 1987 State Univ of NY-Buffalo

Sigurdsson, Gardar, Clinical Assistant Professor, Radiology/Internal Medicine, 2008 (2008); MD 1993 Iceland, Reykjavik

Silbermann, Neil N., Clinical Adjunct Professor, Ophthalmology Visual Science, 2007 (2007); BS 1970 Yale; MD 1974 Connecticut

Silverman, William B., Clinical Professor, Internal Medicine, 1997 (2003); BA 1976 Colby College; MD 1984 University of Brussels-Belgium

Silvers, Andrea J., Clinical Adjunct Assistant Professor, Family Medicine, 2003 (2003); BS 1994 Iowa State; MD 1999 Iowa

Simmons, Donald L., Adjunct Assistant Professor, Occupational Environmental Health, 2000 (2000); BS 1985 Oklahoma; MS 1989 Oklahoma; PHD 1994 Oklahoma

Simmons, Jonathan S., Clinical Associate Professor, Emergency Medicine/Anesthesia, 2004 (2009); SCB 1994 Truman State MO; DO 1999 Kirksville/ Osteopathic Med

Simmons, Shawn T., Clinical Associate Professor, Anesthesia, 1999 (2003); BA 1990 Kansas; MD 1994 Kansas

Simmons, Tom, Associate Professor, English, 1992 (1994); AB 1978 Stanford; MA 1983 Calif-Berkeley; PHD 1988 Calif-Berkeley

Simon, Christian, Associate Professor, Creative Writing/Internal Medicine, 2008 (2008); PHD 1997 California

Simon, J. Richard, Emeritus Professor, Psychology/Industrial Engineering, 1957 (1968); BBA 1951 Wisconsin; MA 1953 Wisconsin; PHD 1955 Wisconsin

Simon, Jonathan K., Professor, Mathematics, 1969 (1980); AB 1964 Columbia; MA 1965 Wisconsin; PHD 1969 Wisconsin

Simonds, Vanessa W., Assistant Professor, Community Behavioral Health, 2011 (2011); SCM 2005 Harvard; SCD 2009 Harvard

Simpson, Christopher Miles, Adjunct Instructor, Pharmacy, 2005 (2005); BSPH 1991 Iowa

Sims, Hallie J., Assistant Professor, Geoscience, 2005 (2005); PHD 2000 Chicago

Sims, Johnnie, Adjunct Assistant Professor, Educ Policy Leadership Studies, 1995 (1995); BS 1971 Alabama State; MS 1973 Indiana University; PHD 1981 University of Iowa

Sims, Leslie B., Emeritus Professor, Chemistry, 1991 (1991); BA 1958 Southern Illinois; MS 1961 Illinois; PHD 1967 Illinois

Sindt, Christine W., Clinical Associate Professor, Ophthalmology Visual Science, 1997 (2007); BS 1990 State Univ of NY- Geneseo; OD 1994 Ohio State

Singer, Jane B., Associate Professor, Journalism Mass Communication, 1999 (2005); MA 1990 New York; PHD 1996 Missouri-Columbia

Singh, Baljit, Adjunct Instructor, Preventive Community Dentistry, 2010 (2010); DMD 1990 Boston

Singh, Madhu V., Assistant Professor, Internal Medicine, 2009 (2009); BSC 1981 Gorakhpur, India; MSC 1986 GBP, Ag Tech, India; PHD 1995 Alberta, Canada

Singh, Manmohan, Clinical Adjunct Assistant Professor, Psychiatry, 1987 (1991); MD 1979 Magadh-India

Singh, Sarabdeep, Adjunct Lecturer, Health Management Policy, 2007 (2007); MAE 1991 Punjab; MS 1995 Western Michigan

Sinha, Rajendra, Adjunct Lecturer, Management Organizations, 2012 (2012);

Sinn, Patrick Ladd, Assistant Professor, Pediatrics, 2009 (2009); PHD 1999 Iowa

Siocchi, R. Alfredo C., Assistant Professor, Radiation Oncology/Electrical-Computer Engineering/Physics Astronomy, 2005 (2005); BS 1985 Ateneo de Manila; MS 1988 Virginia Tech; PHD 1990 Virginia Polytech Institute; MS 1995 Cincinnati

Sipla, Justin Scott, Lecturer, Anatomy Cell Biology, 2010 (2010); MS 2004 Stony Brook University; MPHIL 2004 Stony Brook University; PHD 2007 Stony Brook University

Siriwetchadarak, Rapipen, Clinical Assistant Professor, Anesthesia, 2008 (2008); MD 1999 Mahidol Univ, Thailand

Sitzman, Scott J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2002 (2002); BS 1996 South Dakota State; PHARM 1998 South Dakota State

Sivitz, William I., Professor, Internal Medicine, 1987 (2001); BS 1966 Pittsburgh; MD 1972 Hahnemann

Six, Erich W., Emeritus Professor, Microbiology, 1960 (1973); MA 1949 Frankfurt-Germany; PHD 1954 Frankfurt-Germany

Sjolund, Richard D., Emeritus Professor, Biology, 1968 (1997); BS 1963 Wisconsin; PHD 1968 California-Davis

Skeete, Dionne A., Clinical Associate Professor, Surgery, 2001 (2010); MD 1996 Washington-St. Louis

Skelly Kuehn, Kelly Sue, Clinical Associate Professor, Family Medicine, 2002 (2010); BS 1988 Iowa; MD 1992 Iowa

Skemp, Lisa, Adjunct Associate Professor, International Programs/Nursing, 2002 (2008); BS 1977 Viterbo; MA 1998 Iowa; PHD 2002 Iowa

Skiff, Frederick N., Professor, Physics Astronomy, 1998 (2000); BS 1979 Cornell; MA 1981 Princeton; PHD 1985 Princeton

Skinner, Beth Ann, Adjunct Assistant Professor, Social Work, 2011 (2011); BA 1997 Iowa; MSW 2006 Iowa; DR 2010 Iowa

Skinstad, Anne H., Clinical Associate Professor, Community Behavioral Health, 1993 (2006); BA 1971 Bergen; PSYD 1977 Bergen

Skoff, Rachel Ann, Adjunct Instructor, Pharmacy Practice and Science, 2010 (2010); PHARM D 2010 Iowa

Skogsbergh, James H., Adjunct Lecturer, Health Management Policy, 1990 (1990); MA 1982 Iowa

Skopec, Gregory S., Clinical Assistant Professor, Obstetrics Gynecology, 2002 (2002); BA 1984 Northern Iowa; MD 1990 Iowa

Skopec, Mary P., Adjunct Assistant Professor, Geography, 2001 (2001); PHD 1999 Iowa

Slabakova, Roumyana, Professor, Linguistics/International Programs, 1998 (2010); MA 1981 Sofia; BA 1981 Sofia; PHD 1998 McGill

Slade, Daniel Hopkins, Adjunct Lecturer, Management Organizations, 2009 (2009); BAS 2005 Illinois; MBA 2009 Iowa; JD 2009 Iowa

Sladek, Stephen Michael, Clinical Adjunct Assistant Professor, Family Medicine, 2000 (2000); MD 1984 California

Slatton, Yvonne L., Emeritus Associate Professor, Health, Sport Studies, 1964 (1981); BS 1960 Middle Tennessee State; MS 1965 North Carolina; PHD 1970 Iowa

Slaughter, Wendi Sue, Adjunct Assistant Professor, Pharmacy, 2007 (2007); BS 1991 Iowa State; PHARM D 2001 Iowa

Slavin, Michael J., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MBA 1997 Widener

Slayton, Rebecca Lynn, Professor, Pediatric Dentistry, 1998 (2008); BA 1980 Earlham; MS 1983 Iowa; DDS 1992 Iowa; PHD 1998 Iowa

Slonneger, Kenneth Ray, Adjunct Lecturer, Computer Science, 1982 (1999); PHD 1971 Illinois; MS 1984 University of Iowa

Sloven, Daniel, Clinical Adjunct Assistant Professor, Pediatrics, 2002 (2002); BS 1979 Stanford; MD 1984 Case Western Reserve

Sluka, Kathleen A., Professor, Physical Therapy/Nursing, 1996 (2006); BS 1985 Georgia State; PHD 1993 Texas-Galveston

Slusarski, Diane C., Professor, Biology, 1998 (2010); BA 1986 Illinois-Urbana; BS 1986 Illinois-Urbana; PHD 1993 Northwestern

Small, Arnold M. Jr., Emeritus Professor, Communication Sciences and Disorders/Psychology, 1958 (1964); BA 1951 San Diego State; MS 1953 Wisconsin; PHD 1954 Wisconsin

Small, Gary, Professor, Chemistry, 2002 (2002); BS 1979 North Carolina; PHD 1984 Pennsylvania State

Smelser, Jamie Michelle, Adjunct Associate Professor, Physical Therapy/Pharmacy, 2008 (2008); BSPH 1994 Iowa; PHARM D 1996 Iowa

Smidt, Gary L., Emeritus Professor, Physical Therapy, 1969 (1977);

Smirl, Arthur L., Professor, Electrical-Computer Engineering/Physics Astronomy, 1988 (1988); BS 1968 Lamar; MSE 1969 Michigan; MS 1974 Arizona; PHD 1975 Arizona

Smith, Amanda Marie, Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARM D 2005 Iowa

Smith, Ann E., Adjunct Assistant Professor, Nursing, 2004 (2004); BSN 1989 Mount Mercy; MSN 2000 MN School of Anesthesia

Smith, Brian Joseph, Associate Professor, Biostatistics, 2001 (2008); BA 1993 St. Louis; MS 1995 Texas @ Austin; PHD 2001 Iowa

Smith, Carol Marie, Clinical Assistant Professor, Rehabilitation and Counselor Education, 2008 (2008); BS 1986 North Dakota State; MS 1992 Western Illinois; PHD 2007 Iowa

Smith, Daryl Dee, Adjunct Professor, University College, 2009 (2009); AA 1958 Keokuk Community; BA 1960 Iowa; PHD 1967 South Dakota

Smith, Donald D., Emeritus Professor, Journalism Mass Communication, 1980 (1980); BA 1955 Syracuse; MA 1957 Nebraska; PHD 1964 North Carolina

Smith, Dorothy L., Adjunct Associate Professor, Pharmacy, 2005 (2005); PHARM D 1972 Cincinnati

Smith, Edgar, Adjunct Instructor, Preventive Community Dentistry, 2007 (2007); DDS 1965 Iowa

Smith, Elaine M., Professor, Preventive Community Dentistry/Epidemiology/Obstetrics Gynecology, 1979 (1998); BA 1968 Ohio State; MPH 1971 Michigan; PHD 1977 State Univ of New York-Buffalo

Specht, Janet Kay Pringle, Professor, Nursing, 1984 (2009); BSN 1973 Iowa; MA 1981 Iowa; PHD 1996 Iowa

Spector, Arthur A., Emeritus Professor, Internal Medicine/Biochemistry, 1968 (1975); BA 1956 Pennsylvania; MD 1960 Pennsylvania

Spector, Michael, Clinical Assistant Professor, Family Dentistry, 2005 (2005); BS 1992 Binghamton; DMD 1999 Temple; MS 2002 Columbia

Spencer, John P., Professor, Psychology, 1997 (2009); BSC 1991 Brown; PHD 1998 Indiana

Spieker, Ruth D., Clinical Assistant Professor, Oral Path, Radiology Medicine, 2002 (2002); BA 1979 Toronto; DDS 1983 Toronto

Spier, Angela Lynn, Adjunct Instructor, Radiology, 2011 (2011); CER 2005 UIHC Rad. Tech. Program

Spies, Leon Fred, Adjunct Lecturer, Law-Faculty, 2005 (2005); BBA 1972 Iowa; JD 1975 Iowa

Spies, Maria, Associate Professor, Biochemistry, 2011 (2011);

Spies, Michael Ashley, Assistant Professor, Biochemistry, 2011 (2011); BA 1991 Kansas; MA 1994 Kansas; PHD 1997 Kansas

Spinks, Ruth A., Adjunct Assistant Professor, Psychology, 2001 (2001); BS 1987 Wichita State; MA 1996 Case Western; PHD 1999 Case Western

Spisak, Arthur Louis, Professor, Classics, 2011 (2011); BA 1966 Youngstown State; BA 1979 Youngstown State; MA 1985 John Carroll; PHD 1992 Loyla

Spitz, Douglas R., Professor, Radiation Oncology, 2000 (2006); BA 1978 Grinnell; PHD 1984 Iowa

Spitzer, Alan B., Emeritus Professor, History, 1957 (1963); BA 1948 Swarthmore; MA 1949 Columbia; PHD 1955 Columbia

Spitzer, John Herbert, Clinical Professor, Finance, 1995 (1997); BS 1966 Stanford; MS 1967 Iowa; PHD 1975 Duke

Spofford, Christina Marie, Assistant Professor, Anesthesia, 2008 (2011); BA 1994 Arizona; PHD 2001 Milwaukee, Wisconsin; MD 2003 Milwaukee, Wisconsin

Sponsler, Claire, Professor, English, 1993 (2004); BS 1982 Duke; MA 1984 Syracuse; PHD 1992 Pennsylvania

Spotts, Elizabeth Hailey, Adjunct Lecturer, University College, 2010 (2010); BA 2006 Iowa; MA 2009 Iowa

Spragg, Matthew Thomas, Clinical Assistant Professor, Emergency Medicine, 2011 (2012); DO 2000 Des Moines

Sprince, Nancy L., Emeritus Professor, Occupational Environmental Health/Nursing, 1990 (1999); BA 1971 Boston; MD 1971 Boston; MPH 1980 Harvard

Squier, Christopher A., Professor, Oral Path, Radiology/Medicine/International Programs, 1975 (1980); BA 1963 Cambridge - England; PHD 1967 London Hospital - England; MA 1967 Cambridge - England

Squire, Larry J., Clinical Associate Professor, Family Dentistry, 1978 (1983); BS 1972 St. Ambrose; DDS 1976 Iowa

Srinivasan, Narasimhan, Adjunct Associate Professor, Marketing, 2010 (2010); PHD 1987 NY @ Buffalo

Srinivasan, Padmini, Professor, Computer Science/Nursing, 1989 (2005); MSC 1978 Birla Inst of Tech and Science; PHD 1985 Syracuse

Sripada, Ramprasad, Clinical Associate Professor, Anesthesia, 2012 (2012);

Stachowiak, James Robert, Adjunct Lecturer, Rehabilitation and Counselor Education, 2010 (2010); BSE 2003 Michigan; MSE 2004 Michigan

Staffey, Kimberly, Clinical Assistant Professor, Radiology/Internal Medicine, 2007 (2010); MD 2001 Illinois, Rockford

Stafford, Haraldine A., Clinical Professor, Internal Medicine, 2001 (2010); BA 1975 Case Western Reserve; PHD 1981 Case Western Reserve; MD 1983 Case Western Reserve

Stahle, Keri Collison, Clinical Assistant Professor, Dental Clinic Administration, 2007 (2007); DDS 2000 Iowa

Stahle, Rebecca S., Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 2000 Iowa

Stahlin, Robert, Adjunct Lecturer, Marketing, 2000 (2000); MBA 1999 Iowa

Stahly, Donald P., Emeritus Professor, Microbiology, 1966 (1979); BS 1959 Ohio State; MS 1961 Ohio State; PHD 1964 Illinois

Staley, John H., Adjunct Professor, Health Management Policy, 1973 (2005); BA 1966 Cornell-Iowa; MA 1969 Iowa; PHD 1974 Iowa

Staley, Robert N., Professor, Orthodontics, 1970 (1985); BS 1957 Minnesota; DDS 1959 Minnesota; MA 1967 Chicago; MA 1970 State Univ of New York

Stalter, Timothy John, Professor, Music, 1999 (2012); BA 1985 Goshen College; MM 1989 Illinois-Urbana; DMA 1996 Wisconsin-Madison

Stamler, John Frederic, Clinical Adjunct Instructor, Ophthalmology Visual Science, 1996 (1996); PHD 1980 Iowa; MD 1982 Iowa

Stamnes, Mark A., Associate Professor, Internal Medicine/Physiology, 1997 (2004); BS 1986 Washington; PHD 1992 California-San Diego

Stamou, Sotiris C., Clinical Assistant Professor, Cardiothoracic Surgery, 2012 (2012);

Standing, Cheryl, Clinical Adjunct Assistant Professor, Pediatrics, 2004 (2004); BS 1978 Iowa; MD 1983 Iowa

Standish, Dominic, Adjunct Lecturer, Management Organizations/Communication Studies/Journalism Mass Communication, 2008 (2008); MA 2002 Kent, UK; PHD 2007 Kent, UK

Stanford, Clark Mitchell, Professor, Prosthodontics/Biomedical Engineering/Clinical Research Resources/Orthopaedics and Rehabilitation, 1992 (2001); BS 1984 Iowa; DDS 1987 Iowa; PHD 1992 Iowa

Stanford, William, Emeritus Professor, Radiology, 1985 (1991); BSPH 1952 Iowa; MD 1956 Iowa

Stange, Scott William, Adjunct Instructor, Social Work, 2001 (2001); MSW 1993 Iowa

Stange, Von, Adjunct Assistant Professor, Educ Policy Leadership Studies, 2004 (2004); BS 1983 South Dakota; MED 1987 Texas Tech; EDD 2002 South Dakota

Stangl, Elizabeth Ann, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012); BS 2006 U of OK; MA 2009 University of Iowa; DAUD 2010 University of Iowa

Stanier, Charles O., Associate Professor, Chemical Biochemical Engineering, 2004 (2012); BSE 1994 Princeton; ME 1998 Johns Hopkins; PHE 2003 Carnegie Mellon

Staples, Lawrence F., Emeritus Associate Professor, Internal Medicine, 1967 (1979); BS 1949 New Hampshire; MS 1950 New Hampshire; MD 1956 Iowa

Stapleton, Anne Mckee, Lecturer, English, 2001 (2005); BS 1979 Kansas; BA 1991 Iowa; MA 1997 Iowa; PHD 2001 Iowa

Stapleton, Jack T., Professor, Microbiology/Internal Medicine, 1986 (1996); BA 1977 Iowa; MD 1980 Kansas

Starck, Kenneth, Emeritus Professor, Journalism Mass Communication, 1974 (1976); BA 1956 Wartburg; MA 1960 Missouri; PHD 1968 Southern Illinois

Stark, Craig A., Clinical Adjunct Assistant Professor, Internal Medicine, 1987 (1991); MD 1982 Wayne State

Stark, David Wayne, Adjunct Instructor, Pharmacy, 2008 (2008); BSPH 1977 Iowa

Stark, Thomas Michael, Adjunct Assistant Professor, Orthodontics, 2006 (2006); BS 1980 Iowa State; DDS 1983 Iowa; MS 1985 Baylor College of Dentistry

Starlin, Crystal S., Adjunct Assistant Professor, Pharmacy, 2006 (2006); PHARM 1999 Creighton

Starner, Timothy Duane, Associate Professor, Pediatrics, 2001 (2010); BS 1987 Colorado State; BS 1991 Colorado State; MD 1995 Colorado-Denver

Starry, Mary J., Clinical Assistant Professor, Pharmacy, 1991 (2010); BSPH 1980 Iowa

Stasheff, Steven F., Assistant Professor, Ophthalmology Visual Science/Biomedical Engineering/Pediatrics, 2007 (2007); PHD 1991 Duke; MD 1992 Duke

Stauffer, George V., Professor, Microbiology, 1978 (1989); BS 1969 Pennsylvania State; MS 1974 Pennsylvania State; PHD 1976 Pennsylvania State

Stauss, Harald Martin, Associate Professor, Health and Human Physiology, 2002 (2008); MD 1991 Heidelberg; PHD 1999 Humboldt

Stay, Barbara A., Emeritus Professor, Biology, 1967 (1977); BA 1947 Vassar; MA 1949 Radcliffe; PHD 1953 Radcliffe

Stecopoulos, Harilaos, Associate Professor, English, 1999 (2008); BA 1986 Oberlin; PHD 1999 Virginia

Steele, Gillian P., Adjunct Instructor, Spanish Portuguese, 2010 (2010); BA 2006 Iowa; MA 2009 Iowa

Steele, Oliver, Emeritus Professor, English, 1967 (1974);

Steelman, Victoria Jean, Assistant Professor, Nursing, 1989 (2009); BSN 1979 Iowa; PHD 1997 Iowa

Steenblock, Douglas F., Clinical Adjunct Assistant Professor, Psychiatry, 2001 (2001); MD 1992 Creighton

Steffen, Angela Lynn, Adjunct Assistant Professor, Pharmacy Practice and Science, 2012 (2012);

Steffensmeier, Andrew Clyde, Adjunct Assistant Professor, Ophthalmology Visual Science, 2011 (2011); BA 2000 Luther; MD 2004 Iowa

Stehbens, James A., Emeritus Professor, Pediatrics, 1967 (1984); BS 1962 Iowa State; PHD 1967 Iowa

Steinberg, Allen, Emeritus Associate Professor, History, 1991 (1993); BA 1972 Northwestern; MA 1974 Columbia; MPHIL 1975 Columbia; PHD 1983 Columbia

Steinbrech, Nora, Lecturer, Teaching and Learning, 2001 (2001); PHD 1991 Iowa

Steines Wagemester, Jennifer Christine, Clinical Assistant Professor, Obstetrics Gynecology, 2012 (2012);

Steinitz, Maya, Associate Professor, Law-Faculty, 2011 (2011); BSL 1999 Jerusalem; LLM 2000 New York; JD 2005 New York

Stellwagen, Earle C., Emeritus Professor, Biochemistry, 1964 (1973); BS 1955 Elmhurst; MS 1959 Northwestern; PHD 1963 California-Berkeley

Stellwagen, Nancy C., Adjunct Professor, Biochemistry, 1993 (1993); BA 1956 Northwestern; MS 1958 California-Berkeley; PHD 1967 California-Berkeley

Stennes, Bryan Alvin, Adjunct Lecturer, Economics, 2012 (2012);

Stensvaag, John-Mark, Professor, Law-Faculty, 1987 (1987); BA 1969 Augsburg; JD 1974 Harvard

Stephens, Bonnie Sue, Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2001 Iowa

Stephens, Ralph I., Emeritus Professor, Mechanical Engineering, 1965 (1972); BS 1957 Illinois; MS 1960 Illinois; PHD 1965 Wisconsin

Swanson, Thor David, Clinical Adjunct Assistant Professor, Family Medicine, 2008 (2008); MDIV 1992 Lutheran School of Theology; MD 1997 Wisconsin

Swartzendruber, Dan C., Adjunct Lecturer, Urban Regional Planning, 2011 (2011); MA 2000 Iowa

Swayze, Victor Warren II, Associate Professor, Psychiatry, 1988 (1995); BS 1976 Union-Nebraska; MD 1979 Loma Linda

Swegle, James Robert, Clinical Adjunct Assistant Professor, Surgery, 2009 (2009); MD 1985 Iowa

Swegle, John Matthew, Clinical Associate Professor, Pharmacy, 1997 (2006); BS 1992 Drake; PHARM 1996 Iowa

Swenson, Andrea, Clinical Assistant Professor, Neurology, 2008 (2008); BA 1999 Colorado College; MD 2003 North Dakota

Swenson, Charles A., Emeritus Professor, Biochemistry, 1960 (1972); BS 1955 Gustavus Adolphus; PHD 1959 Iowa

Swenson, Dale C., Adjunct Assistant Professor, Chemistry, 1994 (1994); BS 1973 Iowa; PHD 1979 Iowa

Swenson, David, Adjunct Lecturer, Urban Regional Planning, 2010 (2010); MA 1985 Iowa

Swett, Alan, Adjunct Instructor, Operative Dentistry, 1999 (1999); BS 1980 Iowa; DDS 1983 Iowa

Swett, Keene, Emeritus Professor, Geoscience, 1966 (1974); BS 1955 Tufts; MS 1961 Colorado; PHD 1965 Edinburgh, Scotland

Swick, Brian Lester, Clinical Associate Professor, Dermatology/Pathology, 2007 (2012); BS 1996 Iowa State; MD 2001 Iowa

Swoboda, Eileen D., Adjunct Instructor, Social Work, 2000 (2000); BA 1971 Mary Washington; MSW 1991 Iowa

Swope, Bri Lee, Adjunct Instructor, Health and Human Physiology, 2009 (2009); BA 2002 Iowa; MA 2009 Univ of Iowa

Syed, Nasreen A., Clinical Associate Professor, Ophthalmology Visual Science/Pathology, 2002 (2010); BA 1989 Missouri-Kansas City; MD 1990 Missouri-Kansas City

Synan, William J., Clinical Professor, Oral Maxillofacial Surgery, 1994 (2006); BS 1979 Fordham; DDS 1983 Columbia

Syrbu, Sergei I., Clinical Associate Professor, Pathology, 2004 (2010); MD 1982 Chishinau Moldova; PHD 1987 Moscow, USSR

Syrop, Craig H., Professor, Obstetrics Gynecology, 1986 (1997); MD 1980 Virginia

Szabo, Ellen, Adjunct Instructor, Social Work, 2000 (2000); MED 1986 Columbia

Szeluga, Debra J., Clinical Associate Professor, Urology/Anesthesia, 1999 (2007); BS 1975 Maine; PHD 1985 Cornell; MD 1993 Rush

Szertics, Joseph, Emeritus Professor, Spanish Portuguese, 1967 (1975); MA 1957 Madrid-Spain; PHD 1962 Madrid-Spain

Szeszycki, Donald, Adjunct Lecturer, Economics, 2001 (2001); MA 1980 Northern Illinois

Szot, Joseph F., Clinical Associate Professor, Internal Medicine, 2003 (2009); BS 1990 St Bonaventure; MD 1994 Rochester, NY

Tabor, Anne S., Adjunct Assistant Professor, Epidemiology, 2003 (2003); BS 1975 Iowa State; MPH 1979 Minnesota

Tachau, Katherine H., Professor, History, 1985 (1993); BA 1972 Oberlin; MA 1975 Wisconsin; PHD 1981 Wisconsin

Tague, Abby L., Adjunct Assistant Professor, Pharmacy Practice and Science, 2010 (2010); PHARM 2003 Iowa

Tague, Marshall J., Adjunct Assistant Professor, Pharmacy Practice and Science, 2011 (2011); PHARM 2003 Iowa

Takacs, Elizabeth Broghammer, Clinical Associate Professor, Obstetrics Gynecology/Urology, 2006 (2011); MD 1999 Iowa

Takacs, Michael Edward, Clinical Associate Professor, Emergency Medicine, 2006 (2011); MS 1989 SUNY @ Buffalo; MD 2001 Loyola

Takahashi, Gail A., Adjunct Assistant Professor, Communication Sciences and Disorders, 2002 (2003); AB 1978 Occidental; MA 1982 California-San Diego; PHD 1990 Iowa

Talbott, Albert D., Emeritus Professor, Journalism Mass Communication, 1967 (1975); BS 1958 Iowa State; MA 1961 Michigan State; PHD 1968 Michigan State

Talman, William T., Professor, Neurology, 1983 (1990); BA 1966 Virginia Military Institute; MD 1970 Virginia

Talungchit, Supitcha, Adjunct Assistant Professor, Operative Dentistry, 2012 (2012); DDS 1996 Chulalongkorn Univ, Thailand

Tamboli, Cyrus, Assistant Professor, Internal Medicine, 2004 (2006); BS 1989 Guelph, Canada; BA 1990 Western Ontario; BSPT 1992 Queen's UNI@ Kingston; MD 1997 Alberta@Edmonton

Tan, Aixin, Assistant Professor, Statistics Actuarial Science, 2009 (2009); BS 2003 Peking; MS 2005 Florida; PHD 2009 Florida

Tan, Kai, Assistant Professor, Internal Medicine/Biomedical Engineering, 2008 (2008); PHD 2004 Washington, St. Louis

Tandon, Sangeeta, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); PHARM 2011 Iowa

Tang, Qihe, Professor, Statistics Actuarial Science, 2006 (2012); BS 1995 Anhui Univ; MS 1998 Anhui Univ; PHD 2001 U of Science Tech - China

Tang, Wenfang, Professor, International Programs/Political Science, 2009 (2009); BA 1982 Peking; MA 1985 Kansas; PHD 1990 Chicago

Tannous, Raymond, Emeritus Associate Professor, Pediatrics, 1977 (1982); MD 1971 France

Tansey, Janeta Fong, Clinical Adjunct Associate Professor, Psychiatry, 1999 (2004); MD 1995 Loyola

Tansey, Michael J., Clinical Professor, Pediatrics, 2001 (2012); BS 1991 Creighton; MD 1995 Loyola

Tarbox, Mary P., Adjunct Assistant Professor, Nursing, 1988 (1988); BSN 1974 Mt. Mercy; MSN 1977 Minnesota; EDD 1986 Columbia

Tardy, Dwight C., Emeritus Professor, Chemistry, 1969 (1980); BA 1962 San Diego State; PHD 1967 Washington

Tarvydas, Vilija Marie, Professor, Rehabilitation and Counselor Education, 1991 (2002); BA 1971 Northwestern; MS 1975 Wisconsin-Milwaukee; PHD 1987 Wisconsin-Madison

Tate, Eric, Assistant Professor, Geography, 2011 (2011); BS 1994 Rice; MS 1999 Texas; PHD 2011 South Carolina

Tate, Jodi, Clinical Associate Professor, Psychiatry, 2001 (2004); BS 1992 North Dakota State; MD 1996 North Dakota

Tawhai, Merryn Howatson, Adjunct Associate Professor, Biomedical Engineering, 2006 (2006); BE 1994 Auckland; ME 1996 Auckland; PHD 2001 Auckland

Taylor, Alexander, Adjunct Lecturer, Management Organizations, 2009 (2009); BA 1988 Iowa; MA 1989 Iowa

Taylor, Amy M., Adjunct Assistant Professor, Pharmacy, 2005 (2005); PHARM 2000 Iowa

Taylor, Christina Linn Harless, Clinical Adjunct Assistant Professor, Internal Medicine, 2008 (2008); MD 2003 Iowa

Taylor, Eric Benjamin, Assistant Professor, Biochemistry, 2012 (2012);

Taylor, Janette Yvette, Associate Professor, Nursing, 2000 (2006); BSN 1978 Lebanon Vally; MSN 1982 Pennsylvania; PHD 1998 Washington

Taylor, Joan Bessman, Assistant Professor, Library Information Science, 2007 (2007); BA 1993 Spring Hill; MED 1995 U of South Alabama; AMLS 2000 Southern Mississippi; PHD 2007 Illinois @ Champaign

Taylor, Judy, Clinical Adjunct Assistant Professor, Pediatrics, 2001 (2001); MD 1979 Illinois

Taylor, Laurie W., Adjunct Assistant Professor, Occupational Environmental Health, 2003 (2003); BS 1981 Wilkes Penn; MS 1989 Iowa State

Teague, Michael L., Professor, Health and Human Physiology/Community Behavioral Health, 1975 (1988); BA 1968 Colorado State; MED 1969 Colorado State; EDD 1976 Northern Colorado

Teahen, Peter R., Adjunct Lecturer, Rehabilitation and Counselor Education, 2009 (2009); AS 1974 Worsham Coll Mortuary Science; BA 1985 Coe

Tearse, David S., Clinical Adjunct Associate Professor, Orthopaedics and Rehabilitation, 1989 (1996); MD 1983 Wisconsin-Madison

Teitle, Jennifer Rebecca, Adjunct Instructor, Library Information Science, 2010 (2010); BS 1999 Western IL; MS 2006 Western IL

Temple, Scott D., Clinical Professor, Psychiatry, 1999 (2005); BA 1974 Oregon; PHD 1980 Temple; MS 1998 Kansas

Teng, Yue, Clinical Adjunct Assistant Professor, Family Medicine, 2011 (2011); MD 1999 Xinjiang, China

Tennapel, Mindi Joy, Adjunct Instructor, Radiation Oncology, 2010 (2010); BS 2001 Iowa; MBA 2004 Iowa; MS 2010 Iowa

Teoh-Fitzgerald, Melissa Lai Tee, Adjunct Assistant Professor, Radiation Research Laboratory, 2010 (2010); PHS 2005 Alberta, Canada

Tephly, Thomas R., Emeritus Professor, Pharmacology, 1971 (1971); BS 1957 Connecticut; PHD 1962 Wisconsin; MD 1965 Minnesota

Tershak, Carol A., Clinical Adjunct Assistant Professor, Family Medicine, 2004 (2004); BA 1974 St. Louis Univ; PHD 1982 Oklahoma State

Tessier, Joshua J., Clinical Adjunct Assistant Professor, Family Medicine, 2012 (2012);

Tewson, Timothy, Emeritus Professor, Radiology/Radiation Oncology, 2000 (2000); PHD 1972 London

Thaggert, Miriam, Associate Professor, African-American Studies/English, 2006 (2010); BA 1993 Harvard/Radcliffe; PHD 2003 California, @ Berkeley

Thangaraj, Yuvaraj, Clinical Adjunct Assistant Professor, Internal Medicine, 2008 (2008); BA 1995 Stanley Medical; MBBS 2001 Stanley Medical

Tharp, Kathleen Marie, Clinical Assistant Professor, Epidemiology/Health and Human Physiology, 2011 (2011); BS 1998 Oklahoma State; MPH 2001 Iowa; PHD 2006 Iowa

Thayer, David L., Emeritus Professor, Theatre Arts, 1955 (1968); BS 1952 Lewis and Clark; MA 1955 Iowa; PHD 1960 Iowa

Thayer, Keith E., Emeritus Professor, Prosthodontics, 1955 (1963); BA 1951 Cornell; DDS 1955 Iowa; MS 1956 Iowa

Thein, Amanda Haertling, Associate Professor, Teaching and Learning, 2011 (2011); PHD 2005 Minnesota

Theisen, William M., Emeritus Associate Professor, Social Work, 1975 (1975); BA 1960 Loras; MSW 1968 Washington-Missouri; PHD 1972 Washington-Missouri

Thelander, Kristin, Professor, Music, 1989 (1995); BM 1976 St. Olaf; MA 1978 Minnesota; DMA 1987 Wisconsin-Madison

Thenuwara, Hennadige Nandasiri, Adjunct Assistant Professor, Economics, 2008 (2012); PHD 1997 Iowa

Thenuwara, Kokila, Clinical Assistant Professor, Anesthesia, 2004 (2004); MBBS 1991 N Colombo Med, Sri Lanka; MD 2002 Uni Colombo, Sri Lanka

Therrien, William J., Associate Professor, Teaching and Learning, 2006 (2009); BA 1993 Penn State; MED 1998 Arizona State; PHD 2004 Penn State

Thieman, Corey J., Adjunct Assistant Professor, Pharmacy, 2009 (2009); PHARM 2004 Creighton

Thies, Cameron G., Professor, Political Science, 2008 (2011); BA 1991 Nebraska @Lincoln; BS 1991 Nebraska; MA 1993 Nebraska; PHD 1999 Arizona State

Thies, Patrick William, Adjunct Assistant Professor, Pharmacy, 1982 (1983); MS 1981 Iowa

Thoma, Kate Duchene, Clinical Assistant Professor, Family Medicine, 2010 (2010); BA 2001 St. Thoma, MN; MD 2005 Iowa

Thomas, Alexandra, Clinical Associate Professor, Internal Medicine, 2001 (2004); AB 1987 Princeton; MD 1995 Johns Hopkins

Thomas, Barbara Schalk, Emeritus Professor, Nursing, 1971 (1980); BS 1951 Iowa State; MA 1964 Iowa; PHD 1968 Iowa

Thomas, Barrett, Associate Professor, Management Sciences, 2002 (2009); BA 1996 Grinnell; MS 1999 Michigan; PHD 2002 Michigan

Ward, Larry D., Emeritus Professor, Law-Faculty, 1972 (1978); BS 1966 Kansas; JD 1969 Kansas; MAC 1996 Iowa

Ward, Marcia M., Professor, Health Management Policy, 1997 (2006); BA 1973 Ohio State; MA 1976 Ohio State; PHD 1981 Ohio State

Ware, Frank H., Adjunct Assistant Professor, Social Work, 2002 (2002); BA 1971 William Penn; MSW 1979 Iowa

Warhank, Rose A., Clinical Adjunct Assistant Professor, Family Medicine, 1996 (2002); BS 1985 Iowa; MD 1990 New York Medical College

Warner, Alex, Adjunct Assistant Professor, Gender, Women's and Sexuality Studies, 2012 (2012); PHD 2011 Rutgers

Warnes, William A., Clinical Adjunct Assistant Professor, Psychiatry, 2011 (2011); MD 2002 Nebraska

Warren, John Joseph, Professor, Preventive Community Dentistry, 1999 (2009); BS 1981 Iowa; DDS 1986 Iowa; MS 1991 Iowa

Washburn, Andrew Carson, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Washington, M. Todd, Associate Professor, Radiation Oncology/Biochemistry, 2003 (2009); BA 1992 Ohio State; BSC 1992 Ohio State; PHD 1998 Ohio State

Wasserman, Edward A., Professor, Psychology, 1972 (1983); BA 1968 Calif-Los Angeles; PHD 1972 Indiana

Wassink, Thomas Henry, Professor, Psychiatry/Pediatrics, 1999 (2012); BA 1985 Northwestern; MD 1993 Illinois-Chicago

Waterbury, Nancee Virginia, Adjunct Assistant Professor, Pharmacy, 2002 (2002); PHARM 2000 Iowa

Waters Freyer, Sasha A., Associate Professor, Gender, Women's and Sexuality Studies/Cinema Comparative Literature, 2000 (2006); BFA 1991 Michigan; MFA 1999 Temple

Watkins, Gordon L., Clinical Associate Professor, Radiology/Radiation Oncology, 1989 (2006); BSC 1967 Sir John Cass College-London; PHD 1983 Southern California

Watson, Carol A., Clinical Professor, Nursing, 1972 (2009); BSN 1970 Iowa; MA 1973 Iowa; PHD 1979 Iowa

Watson, David B., Emeritus Professor, Psychology, 1993 (1993); BS 1975 Santa Clara; PHD 1982 Minnesota

Watson, Ronald D., Adjunct Professor, Finance, 2010 (2010); DBA 1971 Indiana

Watt, Sherry Kay, Associate Professor, Educ Policy Leadership Studies/Rehabilitation and Counselor Education, 2000 (2007); BA 1990 North Carolina-Greensboro; MS 1993 North Carolina State; PHD 1997 North Carolina State

Watters, Bridget Marie Ruff, Clinical Adjunct Instructor, Nursing, 2008 (2008); BSN 2001 Iowa; MSN 2006 Iowa

Waziri, Mir A., Clinical Adjunct Associate Professor, Pediatrics, 1998 (2004); MD 1980 Kabul

Waziri, Rafiq, Emeritus Associate Professor, Psychiatry, 1966 (1971); BS 1956 American University of Beirut; MD 1960 American University of Beirut

Weaver, Janet Kay, Adjunct Lecturer, History, 2010 (2010); MA 1978 St. Andrews, UK

Weaver, Lisa Rose, Lecturer, Journalism Mass Communication, 2009 (2009); BA 1986 Wisconsin @ Madison; MA 1995 California-Berkley

Webb, Ralph, Adjunct Professor, Communication Studies, 2009 (2009); BA 1956 Northern Colorado; MA 1957 Northern Colorado; PHD 1965 Wisconsin @ Madison

Weber, Jennifer Yvonne, Adjunct Assistant Professor, Division of Performing Arts, 2011 (2011); BA 2001 Nebraska

Weber, Larry Joseph, Professor, Civil-Environmental Engineering, 1994 (2007); BS 1989 Iowa; MS 1990 Iowa; PHD 1993 Iowa

Weber-Gasparoni, Karin, Associate Professor, Pediatric Dentistry, 2003 (2011); DDS 1994 Estadual Brazil; MS 1999 Iowa; PHD 2003 Iowa

Weckmann, Michelle, Assistant Professor, Family Medicine/Psychiatry, 2005 (2005); BA 1993 North Central IL; MS 1995 Ohio State; MD 2000 Wisconsin

Weeks, Daniel L., Professor, Biochemistry/Pediatrics, 1987 (2001); BS 1976 Purdue; PHD 1983 Purdue

Weeks, Jill Marie, Adjunct Assistant Professor, Pharmacy, 2007 (2007); PHARM 2005 Iowa

Weenig, Duane Robert, Adjunct Assistant Professor, Periodontics, 2009 (2009); BS 1991 Brigham Young; DDS 1999 Iowa; MS 2002 Iowa

Weetman, David Brian, Adjunct Assistant Professor, Pharmacy, 1997 (1997); BS 1991 Iowa; BSPH 1991 Iowa; MS 1995 Johns Hopkins

Wegman, David D., Adjunct Assistant Professor, Pharmacy, 2005 (2005); BSPH 1977 Iowa; MS 1980 Illinois

Wehbe, Ahmad, Clinical Assistant Professor, Internal Medicine, 2009 (2009); BS 1998 Beirut; MD 2002 Beirut

Wehby, George Labib, Associate Professor, Health Management Policy, 2007 (2012); PHD 2006 Iowa

Weideman, Mary Ann, Lecturer, Management Organizations, 1995 (2010); BA 1979 Iowa; JD 1982 Iowa

Weigel, Ronald, Professor, Biochemistry/Surgery, 2005 (2005); MD 1986 Yale; PHD 1986 Yale; MBA 2005 Wharton-Univ. of Penn.

Weiler, John M., Emeritus Professor, Internal Medicine, 1977 (1991); BS 1967 Michigan; MD 1971 Temple

Weiler, Kay Boese, Emeritus Associate Professor, Nursing, 1982 (1995); BS 1972 Indiana; JD 1985 Iowa; MA 1986 Iowa

Weinberger, Miles, Professor, Pediatrics, 1975 (1980); BA 1960 Pittsburgh; MD 1965 Pittsburgh

Weiner, George J., Professor, Internal Medicine, 1989 (2000); BA 1978 Johns Hopkins; MD 1981 Ohio State

Weiner, Joshua, Associate Professor, Biology, 2004 (2011); BA 1992 Northwestern; PHD 1999 California

Weingeist, Thomas A., Emeritus Professor, Ophthalmology Visual Science, 1975 (1983); BA 1963 Earlham; PHD 1969 Columbia; MD 1972 Iowa

Weinstein, Stuart L., Professor, Orthopaedics and Rehabilitation/Pediatrics, 1976 (1984); BA 1968 Illinois; MD 1972 Iowa

Weir, Robert F., Emeritus Professor, Pediatrics, 1988 (1988); BA 1965 McMurry; BD 1968 Emory; MA 1970 Princeton; PHD 1972 Princeton

Weirich, Frank H., Associate Professor, Civil-Environmental Engineering/Geoscience, 1988 (1988); BSC 1973 Toronto-Canada; MSC 1979 McMaster; PHD 1982 Toronto

Weis, Beth Renae Nesteby, Adjunct Instructor, Communication Sciences and Disorders, 2012 (2012);

Weis, Robert F., Clinical Adjunct Assistant Professor, Internal Medicine, 2000 (2000); MD 1977 Iowa

Weismann, Amy, Adjunct Assistant Professor, International Programs, 2006 (2006); JD 2000 Iowa

Weismann, Douglas N., Emeritus Associate Professor, Pediatrics, 1977 (1984); AB 1968 Occidental; MD 1972 Arizona; MS 1977 Iowa

Weiss, David S., Associate Professor, Microbiology, 1998 (2004); BA 1985 Swarthmore; PHD 1991 Univ of California-Berkeley

Weiss, Doyle L., Emeritus Professor, Marketing, 1987 (1987); BS 1957 Kansas; MS 1960 Carnegie Mellon; PHD 1965 Carnegie Mellon

Weiss, Jerrold P., Professor, Microbiology/Internal Medicine, 1997 (1997); BS 1973 State Univ of New York; PHD 1981 New York University

Weiss, Robert M., Professor, Internal Medicine, 1989 (2004); BA 1976 Northwestern; MD 1982 Michigan

Weissbort, Daniel, Emeritus Professor, Cinema Comparative Literature/English, 1974 (1974); BA 1956 Cambridge-England; MA 1981 Cambridge-England

Weistroffer, Paula L., Clinical Assistant Professor, Periodontics, 2007 (2007); DDS 2002 Iowa

Welch, Catherine Jo, Professor, Psych Quant Foundations, 2007 (2007); BBA 1980 Iowa; MA 1984 Iowa; PHD 1990 Iowa

Welch, Myron D., Emeritus Professor, Music, 1980 (1984); BM 1965 Michigan State; MM 1966 Michigan State; EDD 1973 Illinois

Welch Breder, Barbara, Lecturer, Communication Studies, 1985 (2003); BA 1968 Dayton; MA 1975 Hunter; PHD 1984 Iowa

Weller, Paul A., Emeritus Professor, Finance, 1990 (1994); BA 1968 Oxford-England; MA 1973 Essex-Oxford; PHD 1981 Essex-Oxford

Wells, Mickey Lee, Associate Professor, Pharmacy, 2008 (2008); BSPH 1987 Iowa; PHD 1990 Iowa

Welsh, Michael James, Professor, Physiology/Internal Medicine/Neurosurgery, 1981 (1987); BS 1970 Iowa; MD 1974 Iowa

Welton, Marie Therese, Adjunct Instructor, Preventive Community Dentistry, 2008 (2008); BSE 1991 Iowa; DDS 1997 Iowa

Wemmie, John A., Associate Professor, Physiology/Psychiatry/Neurosurgery, 2000 (2008); BA 1989 Central; PHD 1996 Iowa; MD 1996 Iowa

Wendt, David A., Lecturer, Teaching and Learning, 1999 (2012); BS 1983 Southern Illinois; MA 1996 Iowa

Wentzell, Emily Anne, Assistant Professor, Anthropology, 2010 (2010); BA 2003 Johns Hopkins; MA 2006 Michigan-Ann Arb; PHD 2009 Michigan-Ann Arb

Werner, John David, Adjunct Instructor, Health and Human Physiology/Social Work, 2007 (2007); BA 1995 Iowa; BFA 1995 Iowa; MSW 1998 Iowa

Wertz, Christopher A., Emeritus Associate Professor, Russian, 1977 (1980); BA 1963 Columbia; MA 1969 Michigan; PHD 1971 Michigan

Wertz, Philip W., Professor, Oral Path, Radiology Medicine, 1990 (1993); BA 1971 Rutgers; PHD 1976 Wisconsin-Madison

Werz, Mary A., Clinical Professor, Neurology, 2009 (2009); BA 1977 John Hopkins; PHD 1982 Michigan; MD 1987 Michigan

Wesely, Pamela Mary, Assistant Professor, Teaching and Learning, 2009 (2009); BA 1996 Yale; MA 1998 New York; PHD 2009 Minnesota

Wessel, Linda Marie, Adjunct Instructor, Pharmacy Practice and Science, 2011 (2011); BSPH 1984 Iowa

West, Isaac, Assistant Professor, Communication Studies, 2008 (2008); BA 1999 Kansas State; MA 2001 Kansas State; PHD 2008 Indiana

West, Jude P., Emeritus Professor, Management Organizations, 1969 (1996); BA 1953 St Mary; MBA 1961 Chicago; PHD 1969 Iowa

Westefeld, John S., Professor, Psych Quant Foundations, 1991 (1999); BA 1972 North Carolina-Chapel Hill; MPH 1973 North Carolina-Chapel Hill; PHD 1978 North Carolina-Chapel Hill

Wester, James Claude, Adjunct Assistant Professor, Pharmacy, 2005 (2009); BSPH 1972 Iowa

Westergaard, Nickolas Harry, Adjunct Lecturer, Marketing, 2012 (2012);

Westermann, Shawna Jane, Clinical Assistant Professor, Internal Medicine, 2003 (2003); BA 1994 Augustana; MD 1998 Iowa

Westfall, Ruth Ellen, Lecturer, Spanish Portuguese, 2005 (2012); BA 1984 Iowa; MA 1987 Indiana; PHD 1995 Texas @ Austin

Westlund, Kurt Jeffrey, Adjunct Associate Professor, Oral Maxillofacial Surgery, 1990 (1990); MS 1989 Iowa

Weston, Burns H., Emeritus Professor, Law-Faculty/International Programs, 1966 (1969); BA 1956 Oberlin; LLB 1961 Yale; SJD 1973 Yale

Weston, Leah Raschel, Adjunct Instructor, Family Dentistry, 2011 (2011); DDS 2008 Iowa

Wetlaufer, Gerald, Professor, Law-Faculty, 1985 (1991); BA 1967 Princeton; JD 1972 Yale

Wetrich, Doug, Adjunct Instructor, Pharmacy, 2002 (2002); BS 1988 Iowa

Wever, William, Adjunct Instructor, Preventive Community Dentistry, 2003 (2003); BA 1991 Iowa; DDS 2002 Iowa

Weydert, Jamie Allen, Clinical Adjunct Assistant Professor, Pathology, 2005 (2005); BS 1996 Iowa; MD 2001 Iowa

Weyer, Peter J., Adjunct Assistant Professor, Geography/Occupational Environmental Health, 2000 (2001); BA 1974 Iowa; MS 1987 Iowa; PHD 1998 Iowa

Whalen, Jessica Marie, Adjunct Instructor, Pharmacy Practice and Science, 2012 (2012);

Whaley, Deborah Elizabeth, Associate Professor, American Studies/African-American Studies, 2007 (2011); PHD 2002 Kansas

Wheritt, Irene Marie, Emeritus Associate Professor, Spanish Portuguese, 1980 (1984); BA 1965 California-Berkeley; MA 1969 Arizona; PHD 1977 New Mexico

Whipple, Bradley Dale, Adjunct Instructor, Social Work, 2011 (2011); BA 2005 Spring Arbor; MSW 2009 Iowa

Iowa Administrative Code

The following is extracted from the Board of Regents section of the Iowa Administrative Code as of March 7, 2012.

Admission Rules Common to the Three State Universities

681--1.1(262) Admission of undergraduate students directly from high school

Students desiring admission to the University of Iowa, Iowa State University, or the University of Northern Iowa must meet the requirements in this rule and also any special requirements for the curriculum, school, or college of their choice.

1.1(1) Application

Applicants must submit a formal application for admission, together with the appropriate application fee as approved by the state board of regents pursuant to Iowa Code subsection 262.9(18) and detailed in rule 681.1.7(262), and have their secondary school provide a transcript of their academic record, including credits and grades, rank in class, and certification of graduation. Applicants must also submit SAT Reasoning Test or ACT scores. Applicants whose primary language is not English must also meet the English language proficiency requirement specified by each university. Applicants may be required to submit additional information or data to support their applications.

1.1(2) Admission criteria

a. Effective for students who seek admission prior to fall 2009. Graduates of approved Iowa high schools who have the subject matter background required by each university and who rank in the upper one-half of their graduating class will be admitted to any regent university. Applicants who are not in the upper one-half of their graduating class may, after an individual review of their academic and test records, and at the discretion of the admissions officers:

- (1) Be admitted unconditionally,
- (2) Be admitted conditionally,
- (3) Be required to enroll for a tryout period during a preceding summer session, or
- (4) Be denied admission.

b. Effective for students who seek admission in fall 2009 and thereafter.

(1) Decisions on admission to a regent university are based on the following four factors: performance on standardized tests (SAT Reasoning Test or ACT); high school grade point average (GPA); high school percentile rank in class; and number of high school courses completed in the core subject areas. These factors are used in the following equation to calculate a regent admission index (RAI):

$$RAI = (2 \times \text{ACT composite score}) + (1 \times \text{high school rank expressed as a percentile}) + (20 \times \text{high school grade point average}) + (5 \times \text{number of high school courses completed in the core subject areas})$$

Note: For purposes of calculating the regent admission index, the ACT composite score has a top value of 36 (SAT scores will be converted to ACT composite equivalents); high school rank is expressed as a percentile with 99 percent as the top value; high school GPA is expressed

in a four-point scale; and number of high school courses completed in the core subject areas is expressed in terms of years or fractions of years of study.

(2) Graduates of approved Iowa high schools who have the subject matter background required by each university and who meet the regent admission index of 245 required for automatic admission will be admitted to any regent university. Applicants who do not meet the regent admission index of 245 for automatic admission or for whom a regent admission index cannot be calculated may, after an individual review of their academic and test records, and at the discretion of the admissions officers:

1. Be admitted unconditionally,
2. Be admitted conditionally,
3. Be required to enroll for a tryout period during a preceding summer session, or
4. Be denied admission.

1.1(3) Graduates of approved high schools in other states may be held to higher academic standards, but must meet at least the same requirements as graduates of Iowa high schools. The options for conditional admission or summer tryout enrollment may not necessarily be offered to these students.

1.1(4) Applicants who are graduates of nonapproved high schools will be considered for admission in a manner similar to applicants from approved high schools, but additional emphasis will be given to scores obtained on standardized examinations.

1.1(5) Applicants who are not high school graduates, but whose classes have graduated, may be considered for admission. These applicants will be required to submit all academic data to the extent that it exists and achieve scores on standardized examinations which will demonstrate that they are adequately prepared for academic study.

1.1(6) Early admission

a. Students with superior academic records may be admitted, on an individual basis, for part-time university study while enrolled in high school or during the summers prior to high school graduation.

b. In rare situations, exceptional students may be admitted as full-time students to a regent university before completing high school. Early admission to a regent university is provided to serve persons whose academic achievement and personal and intellectual maturity clearly suggest readiness for collegiate level study. Each university will specify requirements and conditions for early admission.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.2(262) Admission of undergraduate students by transfer from other colleges

Students desiring admission to the University of Iowa, Iowa State University, or the University of Northern Iowa must meet the requirements in this rule and also any special requirements for the curriculum, school, or college of their choice.

Applicants must submit a formal application for admission, together with the appropriate application fee as approved by the state board of regents pursuant to Iowa Code subsection 262.9(18) and detailed in rule 681--1.7(262), and request that each college they have attended send an

official transcript of record to the admissions office. High school academic records and standardized test results may also be required. The Test of English as a Foreign Language (TOEFL) is required of foreign students whose first language is not English.

1.2(1) Transfer applicants with a minimum of 24 semester hours of graded credit from regionally accredited colleges or universities, who have achieved for all college work previously attempted the grade point required by each university for specific programs, will be admitted. Higher academic standards may be required of students who are not residents of Iowa.

Applicants who have not maintained the grade point required by each university for specific programs or who are under academic suspension from the last college attended may, after a review of their academic and test records, and at the discretion of the admissions officers:

- a. Be admitted unconditionally,
- b. Be admitted conditionally,
- c. Be required to enroll for a tryout period during a preceding summer session, or
- d. Be denied admission.

1.2(2) Admission of students with fewer than 24 semester hours of college credit will be based on high school academic and standardized test records in addition to review of the college record.

1.2(3) Transfer applicants under disciplinary suspension will not be considered for admission until information concerning the reason for the suspension has been received from the college assigning the suspension. Applicants granted admission under these circumstances will be admitted on probation.

1.2(4) Transfer applicants from colleges and universities not regionally accredited will be considered for admission on an individual basis taking into account all available academic information.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.3(262) Transfer credit practices

The regent universities endorse the Joint Statement on Transfer and Award of Academic Credit approved in 1978 by the American Council on Education (ACE), the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and the Council on Postsecondary Accreditation (COPA). The current issue of Transfer Credit Practices of Selected Educational Institutions, published by the American Association of Collegiate Registrars and Admissions Officers (AACRAO), and publications of the Council on Postsecondary Accreditation (COPA) are examples of references used by the universities in determining transfer credit. The acceptance and use of transfer credit is subject to limitations in accordance with the educational policies operative at each university.

1.3(1) STUDENTS FROM REGIONALLY ACCREDITED COLLEGES AND UNIVERSITIES

Credit earned at regionally accredited colleges and universities is acceptable for transfer except that credit in courses determined by the receiving university to be of a remedial, vocational, or technical nature, or credit in courses or programs in which the institution granting the

credit is not directly involved, may not be accepted, or may be accepted to a limited extent.

Of the course work earned at a two-year college, students may apply up to one-half but no more than 65 hours of the credits required for a bachelor's degree toward that degree at a regent university. This policy becomes effective September 29, 1993.

1.3(2) STUDENTS FROM COLLEGES AND UNIVERSITIES WHICH HAVE CANDIDATE STATUS

Credit earned at colleges and universities which have become candidates for accreditation by a regional association is acceptable for transfer in a manner similar to that from regionally accredited colleges and universities if the credit is applicable to the bachelor's degree at the receiving university.

Credit earned at the junior and senior classification from an accredited two-year college which has received approval by a regional accrediting association for change to a four-year college may be accepted by a regent university.

1.3(3) STUDENTS FROM COLLEGES AND UNIVERSITIES NOT REGIONALLY ACCREDITED

When students are admitted from colleges and universities not regionally accredited, they may validate portions or all of their transfer credit by satisfactory academic study in residence, or by examination. Each university will specify the amount of the transfer credit and the terms of the validation process at the time of admission.

In determining the acceptability of transfer credit from private colleges in Iowa which do not have regional accreditation, the regent committee on educational relations, upon request from the institutions, evaluates the nature and standards of the academic program, faculty, student records, library, and laboratories.

In determining the acceptability of transfer credit from colleges in states other than Iowa which are not regionally accredited, acceptance practices indicated in the current issue of Transfer Credit Practices of Selected Educational Institutions will be used as a guide. For institutions not listed in the publication, guidance is requested from the designated reporting institution of the appropriate state.

1.3(4) STUDENTS FROM FOREIGN COLLEGES AND UNIVERSITIES

Transfer credit from foreign educational institutions may be granted after a determination of the type of institution involved and after an evaluation of the content, level, and comparability of the study to courses and programs at the receiving university. Credit may be granted in specific courses, but is frequently assigned to general areas of study. Extensive use is made of professional journals and references which describe the education systems and programs of individual countries.

This rule is intended to implement Iowa Code section 262.9(3).

Residence

681--1.4(262) Classification of residents and nonresidents for admission, tuition, and fee purposes

1.4(1) GENERAL

a. A person enrolling at one of the three state universities shall be classified as a resident or nonresident for admission, tuition, and fee purposes by the registrar or someone designated by the registrar. The decision shall be based upon information furnished by the student and other relevant information.

b. In determining resident or nonresident classification, the issue is essentially one of why the person is in the state of Iowa. If the person is in the state primarily for educational purposes, that person will be considered a nonresident. For example, it may be possible that an individual could qualify as a resident of Iowa for such purposes as voting, or holding an Iowa driver's license, and not meet the residency requirements as established by the board of regents for admission, tuition, and fee purposes.

c. The registrar, or designated person, is authorized to require written documents, affidavits, verifications, or other evidence deemed necessary to determine why a student is in Iowa. The burden of establishing that a student is in Iowa for other than educational purposes is upon the student.

A student may be required to file any or all of the following:

- (1) A statement from the student describing employment and expected sources of support;
- (2) A statement from the student's employer;
- (3) A statement from the student's parents verifying nonsupport and the fact that the student was not listed as a dependent on tax returns for the past year and will not be so listed in future years;
- (4) A statement from the student's spouse related to sources of family support, length of residence in Iowa, and reasons for being in the state of Iowa;
- (5) Supporting statements from persons who might be familiar with the family situation;
- (6) Iowa state income tax return.

d. Applications for resident classification for a given semester or session are due no later than the fifteenth class day of that semester or session. Applications received after the fifteenth class day of that semester or session will be considered for the next semester or session. Appeals of any nonresident classification decision resulting from applications for resident classifications are due no later than midterm of that semester or session. Change of classification from nonresident to resident will not be made retroactive beyond the term in which application for resident classification is made.

e. A student who gives incorrect or misleading information to evade payment of nonresident fees shall be subject to serious disciplinary action and must also pay the nonresident fees for each term previously attended.

f. Review Committee. These regulations shall be administered by the registrar or someone designated by the registrar. The decision of the registrar or designated person may be appealed to a university review committee.

The decision of the review committee may be appealed to the state board of regents.

1.4(2) GUIDELINES

a. The following general guidelines are used in determining the resident classification of a student for admission, tuition, and fee purposes:

(1) A financially dependent student whose parents move from Iowa after the student is enrolled remains a resident provided the student maintains continuous enrollment. A financially dependent student whose parents move from Iowa during the senior year of high school will be considered a resident provided the student has not established domicile in another state.

(2) In deciding why a person is in the state of Iowa, the person's domicile will be considered. A person who comes to Iowa from another state and enrolls in any institution of postsecondary education for a full program or substantially a full program shall be presumed to have come to Iowa primarily for educational reasons rather than to establish a domicile in Iowa.

(3) A student who was a former resident of Iowa may continue to be considered a resident provided absence from the state was for a period of less than 12 months and provided domicile is reestablished. If the absence from the state is for a period exceeding 12 months, a student may be considered a resident if evidence can be presented showing that the student has long-term ties to Iowa and reestablishes an Iowa domicile.

A person or the dependent of a person whose domicile is permanently established in Iowa, who has been classified as a resident for admission, tuition, and fee purposes, may continue to be classified as a resident so long as domicile is maintained, even though circumstances may require extended absence of the person from the state. It is required that a person who claims Iowa domicile while living in another state or country will provide proof of the continual Iowa domicile as evidence that the person:

1. Has not acquired a domicile in another state,
2. Has maintained a continuous voting record in Iowa, and
3. Has filed regular Iowa resident income tax returns during absence from the state.

(4) A student who moves to Iowa may be eligible for resident classification at the next registration following 12 consecutive months in the state provided the student is not enrolled as more than a half-time student (6 credits for an undergraduate or professional student, 5 credits for a graduate student) in any academic year term, is not enrolled for more than 4 credits in a summer term for any classification, and provides sufficient evidence of the establishment of an Iowa domicile.

(5) A student who has been a continuous student and whose parents move to Iowa may become a resident at the beginning of the next term provided the student is dependent upon the parents for a majority of financial assistance.

(6) A person who has been certified as a refugee or granted asylum by the appropriate agency of the United States who enrolls as a student at a university governed by the Iowa state board of regents may be accorded immediate resident status for admission, tuition, and fee purposes when the person:

1. Comes directly to the state of Iowa from a refugee facility or port of debarkation, or
2. Comes to the state of Iowa within a reasonable time and has not established domicile in another state.

Any refugee or individual granted asylum not meeting these standards will be presumed to be a nonresident for admission, tuition, and fee purposes and thus subject to the usual method of proof of establishment of Iowa residency

(7) An alien who has immigrant status establishes Iowa residency in the same manner as a United States citizen.

(8) At the regent institutions, American Indians who have origins in any of the original people of North America and who maintain a cultural identification through tribal affiliation or community recognition with one or more of the tribes or nations connected historically with the present state of Iowa, including the Iowa, Kickapoo, Menominee, Miami, Missouri, Ojibwa (Chippewa), Omaha, Otoe, Ottawa (Odawa), Potawatomi, Sac and Fox (Sauk, Meskwaki), Sioux, and Winnebago (Ho Chunk), will be assessed Iowa resident tuition and fees.

b. Additional guidelines are used in determining the resident classification of a veteran, qualified military person, and dependent children and spouses of a veteran or qualified military person for purposes of admission and undergraduate tuition and mandatory fees:

(1) A person who is stationed on active duty at the Rock Island arsenal as a result of military orders, or the dependent child or spouse of such person, is entitled to resident status for purposes of undergraduate tuition and mandatory fees. However, if the arrival of the person under orders is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled. If the qualified military person is transferred, deployed, or restationed while the person's spouse or dependent child is enrolled in an institution of higher education under the control of the board of regents, the spouse or dependent child shall continue to be classified as a resident under this subparagraph until the close of the fiscal year in which the spouse or dependent child is enrolled.

(2) A veteran who is domiciled or moves to the state of Iowa and who is eligible for benefits, or has exhausted benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, is entitled to resident status for purposes of undergraduate tuition and mandatory fees. The dependent child or spouse of a veteran who meets these requirements is entitled to resident status for undergraduate tuition. However, if the arrival of the veteran in Iowa is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases for the dependent child or spouse until the beginning of the next term in which the dependent child or spouse is enrolled.

(3) A person who is moved into the state as the result of military or civil orders from the government for other than educational purposes, or the dependent child or spouse of such a person, is entitled to resident status. However, if the arrival of the person under orders is subsequent to the beginning of the term in which the dependent child or spouse is first enrolled, nonresident fees will be charged in all cases until the beginning of the next term in which the

dependent child or spouse is enrolled. Legislation, effective July 1, 1977, requires that military personnel who claim residency in Iowa (home of record) will be required to file Iowa resident income tax returns.

1.4(3) FACTS

a. The following circumstances, although not necessarily conclusive, have probative value in support of a claim for resident classification:

- (1) Reside in Iowa for 12 consecutive months, and be primarily engaged in activities other than those of a full-time student, immediately prior to the beginning of the term for which resident classification is sought.
- (2) Reliance upon Iowa resources for financial support.
- (3) Domicile in Iowa of persons legally responsible for the student.
- (4) Former domicile in the state and maintenance of significant connections therein while absent.
- (5) Acceptance of an offer of permanent employment in Iowa.
- (6) Military orders, if for other than educational purposes.
- (7) Other facts indicating the student's domicile will be considered by the universities in classifying the student.

b. The following circumstances, standing alone, do not constitute sufficient evidence of domicile to effect classification of a student as a resident under these regulations:

- (1) Voting or registration for voting.
- (2) Employment in any position normally filled by a student.
- (3) The lease of living quarters.
- (4) Admission to a licensed practicing profession in Iowa.
- (5) Automobile registration.
- (6) Public records, for example, birth and marriage records, Iowa driver's license.
- (7) Continuous presence in Iowa during periods when not enrolled in school.
- (8) Ownership of property in Iowa, or the payment of Iowa taxes.

This rule is intended to implement Iowa Code section 262.9(3).

681--1.5(262) Registration and transcripts--general

A person may not be permitted to register for a course or courses at a state board of regents institution until any delinquent accounts owed by the person to an institution or any affiliated organization for which an institution acts as fiscal agent have been paid.

A state board of regents institution may withhold official transcripts of the academic record of a person until any delinquent accounts owed by the person to an institution or any affiliated organization for which an institution acts as fiscal agent have been paid.

This rule is intended to implement Iowa Code section 262.9.

681--1.6(262) COLLEGE-BOUND PROGRAM

1.6(1) DEFINITIONS.

"*Accredited private institution*" means an institution of higher education as defined in Iowa Code section 261.9, subsection 5.

"*Commission*" means the college aid commission.

"*Financial need*" means the difference between the student's financial resources, including resources available from the student's parents and the student, as determined by a completed parents' financial statement and including any non-campus-administered federal or state grants and scholarships, and the student's estimated expenses while attending the institution. A student shall accept all available federal and state grants and scholarships before being considered eligible for grants under the Iowa minority academic grants for economic success program. Financial need shall be reconsidered on at least an annual basis.

"*Full-time student*" means an individual who is enrolled at an accredited private institution or board of regents university for at least 12 semester hours or the trimester or quarter equivalent.

"*Minority person*" means an individual who is black, Hispanic, Asian, or a Pacific Islander, American Indian, or an Alaskan Native American.

"*Part-time student*" means an individual who is enrolled at an accredited private institution or board of regents university in a course of study including at least three semester hours or the trimester or quarter equivalent of three semester hours.

"*Program*" means the Iowa minority academic grants for economic success program established in this division.

1.6(2) POLICY ON COLLEGE-BOUND PROGRAM

a. The regent institutions will cooperate with other state and local agencies, including the department of education, the college aid commission, and educational institutions in implementing the college-bound program.

b. The universities will develop programs for elementary, middle and secondary school students and their families in the following areas:

- (1) Encouragement to consider attending a postsecondary institution;
- (2) Enrichment and academic preparation;
- (3) Information about how to apply for admission.

c. College-bound program vouchers will be awarded to students on the basis of the participation of the student and the student's family in the college-bound program. One voucher will be awarded for participation in each college-bound program sponsored by a university.

(1) Each university will maintain records concerning those students who participate in the college-bound program, according to its established policies and procedures. The records will include information on those students who have received college-bound program vouchers which are described in Iowa Code section 262.92(2). The University of Iowa will maintain a central record on all students who have received college-bound program vouchers on behalf of all regent institutions and will make appropriate information available to the college aid commission.

(2) College-bound program vouchers may be used by students enrolled at a regent institution or at a private college or university in Iowa.

(3) A student holding vouchers and enrolling at a regent institution will receive priority in the award of funds under the Iowa minority academic grants for economic success (IMAGES) program. Awards under the IMAGES program are made on the basis of financial need. A student may be eligible for an additional award from the institution in which the student is enrolled.

(4) A student holding vouchers and enrolling at a private college or university in Iowa will receive priority in the award of funds under the Iowa minority academic grants for economic success program as provided by the rules of the college aid commission.

(5) The presidents, or their designees, will administer and coordinate the college-bound program at the universities. As part of the coordination, they will establish liaison with the appropriate state and local agencies, serve as the university contact and promote collaborative efforts among the regent universities and other appropriate agencies and institutions. Annual reports to the board of regents shall be prepared by each regent university. The reports shall contain relevant information as to the accomplishments of the program in the past year and a plan of action with goals and objectives for the forthcoming year. Reports shall be submitted to the board of regents on October 1 of each year.

This rule is intended to implement Iowa Code section 262.92.

Supplemental Specific Rules to The University of Iowa

681--1.7(262) Application fees

Application fees required for admission to the University of Iowa, Iowa State University and the University of Northern Iowa are as follows (*only the University of Iowa fees are listed*):

UNIVERSITY OF IOWA

Undergraduate domestic student: \$40
 Undergraduate international student: \$85
 Graduate/professional domestic student: \$60
 Graduate/professional international student: \$100
 Pharm.D. student: \$100
 Re-entry fee: \$20
 Nondegree student: \$40

This rule is intended to implement Iowa Code section 262.9(3).

681--2.1(262) Formal application for admission

All applicants for admission to any college of the University of Iowa must submit a formal application for admission with the required official transcripts and other supporting material as required to the director of admissions. Students may not be registered until they have been issued an admission statement by the director of admissions.

681--2.3(262) College of Business Administration

2.3(1) APPLICATION FOR ADMISSION

Applications for admission to the college of business administration should be submitted to the director of admissions.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

2.3(2) REQUIREMENTS FOR ADMISSION

For admission to the college of business administration an applicant must have--

- a. Completed specific course work as prescribed by the faculty of the college.
- b. Attained satisfactory scores on the university's required admission examinations.
- c. Maintained a satisfactory grade-point average on all courses undertaken, and on all courses undertaken at the University of Iowa, and on all courses undertaken in business and economics.

Applications from students who have minor deficiencies in meeting grade-point requirements specified above will be reviewed by the admissions committee of the college, and upon favorable recommendation of the committee, such students may be granted conditional or probationary admissions.

Fulfillment of the minimal requirements listed above, however, does not assure admission to the college of business administration. From those applicants who meet the minimum requirements, the admissions committee will select the applicants who, in their judgment, appear to be best qualified.

681--2.4(262) College of Dentistry**2.4(1) APPLICATION FOR ADMISSION**

Address all inquiries regarding admission to the Director of Admissions, University of Iowa.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

Applicants for admission to dentistry are encouraged to complete a program leading to a baccalaureate degree before entering dentistry. Applicants should consider a combined program of liberal arts and dentistry which would qualify them for a baccalaureate degree upon the completion of the freshman year in dentistry. Preference will be given to students who have the baccalaureate degree or who have completed the requirements for the degree in a combined program.

Fulfillment of the specific requirements for admission listed does not ensure admission to the college of dentistry. From the applicants meeting the minimum requirements, the admissions committee will select the applicants who in their judgment appear to be best qualified for the study and practice of dentistry.

Each applicant must place on file in the office of the director of admissions the completed application form and an official transcript from each college attended.

The college work outlined below will suffice to meet the minimal academic requirements for admission to the college of dentistry.

The college curriculum must include at least three academic years of accredited work comprising not less than 96 semester hours and including specific required science courses as prescribed by the faculty of the college. Electives should be chosen so as to give the applicant a well-rounded educational background.

In order to meet minimum scholarship requirements, the applicant should attain a cumulative grade-point average of 2.5. Since the quality of course work in pre-dental science is basic to success in dentistry, special consideration to such college work is given by the admissions committee. The grade-point average is based upon the University of Iowa's marking system in which a grade of "A" is equivalent to four points. Other marking systems will be evaluated by the office of admissions and the committee on admissions of the college of dentistry.

Applicants who have completed the requirements for admission to dentistry five or more years prior to seeking admission to this college of dentistry will be considered by the admissions committee only under exceptional conditions.

Preference will be given to applicants who are residents of Iowa, but consideration will also be given to outstanding nonresidents.

Personal interviews will be required of applicants for admission to the college of dentistry. Applicants will be notified when they should appear for the required interviews with members of the admissions committee.

All applicants must complete the dental aptitude tests sponsored by the council on dental education of the American Dental Association. Tests are given three times annually. The University of Iowa is a testing center.

To facilitate early selection, applicants for admission to the college of dentistry are urged to complete the aptitude test no later than October to enable the admissions committee to begin its selection in December.

Accepted applicants are required to make the required deposit within two weeks after notification of favorable action on their applications. This deposit is not refundable but is credited toward the first fee payment. The applicant who fails to make the deposit within the time specified forfeits a place in the entering class.

Applicants accepted for admission are required to submit a satisfactory physical examination report to the university student health service within two weeks following notification of acceptance.

All applicants must also complete, through student health service, an X-ray film of the chest and a successful vaccination against smallpox prior to registration.

2.4(2) ADVANCED STANDING

Applications for admission with advanced standing are handled as individual cases.

681--2.5(262) College of Engineering

Address all inquiries regarding admission to the Director of Admissions, University of Iowa, Iowa City, Iowa.

Closing dates for receiving applications will be announced well in advance of the opening date of any session.

2.5(1) ADMISSION OF FRESHMAN STUDENTS

The applicant must submit a formal application for admission and must have the secondary school provide a certificate of high school credits, including a complete statement of the applicant's high school record, rank in class, scores on standardized tests, and certification of high school graduation. The applicant must also submit any other evidence such as a certificate of health that may be required by this university.

Each applicant must have attained satisfactory scores on the university's required admission examinations, maintained a satisfactory cumulative grade-point average, achieved satisfactory rank in graduating class, and successfully completed all prerequisite courses. The university with the approval of the state board of regents shall establish and periodically review specific minimum requirements for admission to the college of engineering. Among the items to be so determined are test score, grade-point average, class rank, and prerequisite courses. These specific determinations will be published in the university catalog.

From applicants who do not meet minimum admission requirements, the director of admissions may after a review of the applicant's record: (a) Admit unconditionally, (b) admit on probation, (c) require enrollment for a tryout period during a preceding summer session, or (d) deny admission.

2.5(2) ADMISSION OF UNDERGRADUATE STUDENTS BY TRANSFER

The applicant must submit a formal application and official transcript of college work. Each applicant should have:

- Maintained satisfactory progress in mathematics.
- Attained satisfactory scores on the university's required admission examinations.
- Maintained a satisfactory cumulative grade-point average on all college work undertaken.

From applicants who do not meet recommended requirements, the director of admissions will review individual records and may offer probationary admission.

681--2.6(262) Graduate College

Graduates of any college or university accredited by regional accrediting associations may if the academic record is satisfactory be admitted to the graduate college. Admission to the graduate college is not the equivalent of acceptance as a candidate for an advanced degree. Such acceptance is given usually after the completion in residence of work at the university and upon recommendation of the major department and approval by the dean of the graduate college. The acceptance of a student as a degree candidate is determined upon the merits of each individual case.

A student who is within four semester hours of having satisfied all the requirements for the bachelor's degree in the University of Iowa may be given a tentative admission to the graduate college.

681--2.7(262) College of Law

2.7(1) APPLICATION FOR ADMISSION

Address all inquiries concerning admission to the Director of Admissions, University of Iowa, Iowa City, Iowa. Beginning students may enter the college of law only in the summer session or the fall semester. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

To be considered for admission, an applicant should have attained a cumulative grade-point average of at least 2.3 on all college work undertaken. The grade-point average is based upon the University of Iowa's marking system in which a grade of "A" is equivalent to four points.

Other marking systems will be evaluated by the office of admissions.

Applicants for admission must present a baccalaureate degree from an approved college or university prior to commencing work in the college of law.

Each applicant for admission must take the Law School Admission Test administered by the Educational Testing Service, Princeton, New Jersey, and have the score forwarded to the college of law. The test is given several times per year and may be taken at numerous locations in the United States and throughout the world. Applicants are urged to take the test in the fall or winter preceding the fall semester for which they are making application. Except upon a showing acceptable to it, the admissions committee will not consider applications from students who fail to take the test prior to the June 1 preceding the fall semester in which they wish to enter.

Fulfillment of the specific requirements for admission listed above does not ensure admission to the college of law. From the applicants meeting the minimum requirements, the admissions committee of the college of law will select those applicants who, in their judgment, appear to be best qualified for the study and practice of law. The law admissions committee may require personal interviews of applicants.

2.7(2) ADMISSION WITH ADVANCED STANDING

A transfer student may be eligible for admission if the student (a) has attended a school approved by the Association of American Law Schools; (b) is in good standing at the time of withdrawal (evidenced by a letter from the dean of the school from which transferring); (c) meets the admission requirements for beginning students; and (d) has done substantially above average work in the law school the student attended. Where an applicant has completed more than one year of law study, advanced standing will be permitted only in exceptional cases. Applicants for admission with advanced standing should comply with the procedures required for admission to the first-year class.

681--2.8(262) College of Medicine

2.8(1) APPLICATION FOR ADMISSION

Address all inquiries regarding admission to the Director of Admissions, University of Iowa.

Applicants are urged to apply as early as possible, since this will give the admissions committee more time to devote to each application. Closing dates for receiving applications will be announced well in advance of the opening date of any session.

Fulfillment of the specific requirements for admission listed below does not ensure admission to the college of medicine. From the applicants meeting the specific requirements, the admissions committee of the college of medicine will select those applicants who in their judgment appear to be best qualified for the study and practice of medicine.

Prior to entrance an applicant must:

- Have received the baccalaureate degree; or
- Have completed three years of a combined baccalaureate-medicine curriculum which qualifies the applicant to receive the baccalaureate degree on completion of the first year in medicine; or

c. Have completed three years of a baccalaureate program which includes the general graduation requirements of the college of liberal arts of the University of Iowa for the combined baccalaureate degree.

Each applicant must place on file in the office of the director of admissions the completed application form and an official transcript from each college attended.

The college work as outlined below will suffice to meet the minimal academic requirements for admission to the college of medicine.

Applicants who have completed the baccalaureate degree and required courses five or more years prior to seeking admission to this college of medicine will be considered by the admissions committee only under exceptional conditions.

The college curriculum must include at least three years (equivalent to 96 semester hours) including specific required science courses as prescribed by the faculty of the college.

Students planning to study medicine should bear in mind that other college work is required in addition to prerequisite sciences because it offers an opportunity to secure a well-rounded education, which is of special importance to those entering the medical profession. In the selection of applicants, preference will be given to those who give evidence of having obtained such a broad education.

To be considered for admission, an applicant must have attained a grade-point average of at least 2.5 for all college work undertaken. As the quality of work in premedical science is very basic to success in medicine, special attention will be given by the admissions committee to grades in science. The grade-point average is based upon the University of Iowa's marking system in which a grade of "A" is equivalent to 4 points. Other marking systems will be evaluated by the office of admissions and the committee on admissions of the college of medicine.

Preference will be given to applicants with high scholastic standing who are residents of Iowa, and consideration will also be given to outstanding nonresidents. Applicants for admission are required to take the medical college admissions test which is administered for the Association of American Medical Colleges. Applicants are requested to complete this test in May or October of the year preceding that for which they are applying for admission. Students may make arrangements to apply for this examination through the university examination service, the University of Iowa.

Personal interviews will be required. Applicants will be contacted for the appointment for required interviews.

Applicants accepted for admission are required to submit a satisfactory physical examination report to the university student health service within two weeks following notification of acceptance.

All applicants must also complete, through student health service, an X-ray film of the chest and successful vaccination against smallpox prior to registration.

2.8(2) ADMISSION TO ADVANCED STANDING

If their work preparatory to entering a college of medicine would have met entrance requirements of this college, students from other approved medical colleges may be

admitted to advanced standing according to the following conditions:

Only applicants of high scholastic standing will be considered.

They must present certificates showing that they have satisfactorily completed courses equivalent to those already pursued by the class they wish to enter.

The committee on admission to advanced standing will decide in each case whether examinations in the various subjects will be required.

Applications will be considered only upon receipt of a statement from the dean or registrar of the college from which the applicant comes, showing the actual amount of time the student has spent in the study of medicine, the courses taken, and the grades received, together with a statement of the work preparatory to entering upon the course in medicine.

No advanced standing will be granted to students from other than approved medical schools. Students may be granted subject credit upon recommendation of the head of the department concerned, for work taken in other than medical schools.

2.8(3) UNCLASSIFIED STUDENTS

Applicants for admission to the college of medicine who are not candidates for a degree but who desire to register for special subjects, will be admitted to any lecture or laboratory course only upon complying with all the regular requirements for admission to such course or by action of the faculty upon recommendation of the professor in charge of the course.

681--2.9(262) College of Nursing

Applications for admission to the college of nursing should be submitted to the Director of Admissions, University of Iowa, Iowa City, Iowa. Applicants for admission to the undergraduate program in nursing must present a minimum of 30 semester hours completed in an accredited college. For admission to the college of nursing an applicant must have:

1. Completed specific course work as prescribed by the faculty of the college. The director of admissions will provide a list of the course work required.
2. Completed the American College Tests.
3. Performed satisfactorily on all courses undertaken.

Applications from students who have minor deficiencies in meeting grade-point requirements specified above will be reviewed by the admissions committee of the college, and, upon favorable recommendation of the committee, such students may be granted conditional or probationary admissions.

Fulfillment of the minimum requirements listed above, however, does not assure admission to the college of nursing. From those applicants who meet the minimum requirements, the admissions committee will select the applicants who, in their judgment, appear to be best qualified.

681--2.10(262) College of Pharmacy

2.10(1) GENERAL BASIS FOR ADMISSION

Fulfillment of the specific requirements for admission does not ensure admission to the college of pharmacy. From

the applicants meeting the specific requirements, the admissions committee will select those applicants who in their judgment appear to be best qualified. Applicants for admission to pharmacy should have graduated from an approved high school or have an equivalent amount of training.

2.10(2) COLLEGE WORK

The college work as outlined below will meet the minimum academic requirements for admission to the college of pharmacy. The minimum should include 32 semester hours of college level work exclusive of credit in military and air science and physical education. The 32 semester hours must include:

Communication skills. Applicants must have demonstrated satisfactory achievement in communication skills according to the requirements of the college of liberal arts at the state University of Iowa. Applicants from other institutions may meet this requirement by presenting six semester hours of credit in English composition and rhetoric and two semester hours of credit in speech or an eight-semester-hour year course in communication skills.

Inorganic chemistry and qualitative analysis, eight semester hours.

College mathematics, eight semester hours.

Physics or zoology, eight semester hours.

Students from other institutions may substitute a comparable eight-semester-hour course in biology in lieu of zoology.

Military or air science (if available), zero to two semester hours.

Students who present minor deficiencies in meeting the above requirements may be admitted to the college of pharmacy upon the recommendation of the dean of admissions and the college of pharmacy.

2.10(3) SCHOLARSHIP AND APPLICATION DEADLINE

To be considered for admission to the college of pharmacy, students must have earned a 2.0 or "C" average on all collegiate work undertaken. The minimum grade-point average of 2.0 is based on the state University of Iowa's marking system in which the grade of "A" is equivalent to four points. Applications for admission and the required official transcripts should be filed before March 1 for the class to enter pharmacy in September.

2.10(4) REQUIRED TESTS

Applicants for admission are required to take the American College Testing Program test.

2.10(5) CURRENT REQUIREMENTS

Applicants who have completed work in a college of pharmacy accredited by the American Council on Pharmaceutical Education may if their college academic average is acceptable be admitted and granted advanced standing toward the degree of bachelor of science in pharmacy.

681--2.11(262) College of Liberal Arts

Applicants for admission to liberal arts must meet the rules that are common to the three state institutions in Iowa as listed in 681--1.1(262), 1.2(262) and 1.3(262).

681--2.12(262) College of Education

Students at the university desiring professional work in education are registered in the college of liberal arts and sciences or the graduate college. Requirements for permission to take teacher-training courses are listed in the university catalogue.

University Calendar

the A-Z Search or the Phonebook/E-mail directory on the University of Iowa home page.

2012 Fall Semester

August 20	Classes open
September 3	University holiday, offices closed
November 18-25	Thanksgiving recess
November 22-23	University holidays, offices closed
December 7	Classes close
December 10-14	Final examination week
December 24-25	University holidays, offices closed

Fall commencement ceremonies: dates vary by college; see Commencement on the Office of the Registrar web site.

2012-13 Winter Session

December 31	Classes open
January 1	University holiday, offices closed
January 18	Classes close

2013 Spring Semester

January 21	University holiday, offices closed
January 22	Classes open
March 17-24	Spring break
May 10	Classes close
May 13-17	Final examination week

Spring commencement ceremonies: dates vary by college; see Commencement on the Office of the Registrar web site.

2013 Summer Sessions

May 20-June 7	Three-week summer session
May 27	University holiday, offices closed
June 11-August 2	Eight-week summer session
June 25-August 2	Six-week summer session
July 4	University holiday, offices closed

Some University Calendar dates may change; see Calendars/Deadlines on the Office of the Registrar web site for the most up-to-date academic calendar.

Office of the Registrar Calendars

The Office of the Registrar provides several additional calendars that list detailed academic deadlines, final exam schedules, and University holidays. It also publishes an academic year desk calendar (PDF file) and a five-year academic calendar (PDF file available). See Calendars/Deadlines on the Office of the Registrar web site.

Individual College Calendars

Some University of Iowa colleges have academic year schedules that are different from the one listed above. Contact the individual colleges or visit their web sites; use

Campus Visits

Each year The University of Iowa is the destination for visitors with wide-ranging interests. Prospective and new students and their parents, new faculty and staff members, fans of intercollegiate athletics, University of Iowa Health Care patients, audiences for the visual and performing arts, museum visitors, and conference and continuing education participants are among those drawn to the campus.

Prospective and New Students

Prospective and new students should come first to the Admission Visitors Center, C110 Pomerantz Center, 213 N. Clinton Street. The center is open weekdays 8:30 a.m. to 4:30 p.m. and selected Saturday mornings. It is best to visit the campus on weekdays, when classes are in session and when other University offices are open. Please call the Office of Admissions to arrange for a campus visit: toll-free nationwide 1-800-553-IOWA (4692); direct dial 319-335-1569.

Attractions, Campus Maps, Parking

For links to campus maps, walking tours, how to arrange visits to varied attractions, and where to park on campus, see Campus Maps & Tours. For additional information about the University, use the A-Z Search on the University's home page (<http://www.uiowa.edu>).
